

## God tier Farm 2721

### Chapter 2721 Scheming against a golden core cultivator (1)

The next day, Xia ruofei arranged for bainilatti to leave Paradise Island as well.

He got benilatti to drive a speedboat that was parked at Paradise island's dock to evates Island to wait for orders.

Benilatti also had property on evatz Island, and he would definitely not betray Xia ruofei since he had a soul seal planted on him. Hence, Xia ruofei was at ease to let him leave. After all, he would only be a burden if he stayed.

In fact, after subduing Wang Boshan and Zheng Yongshou, bainilatti was no longer of any use.

A soul slave without any cultivation would not be of any help to Xia ruofei.

Bainilatti's nature was that of someone who only saw money. Back then, he was the one who sold a lot of information about Paradise Island to Wang Boshan, which made Xia ruofei somewhat passive.

Therefore, Xia ruofei did not really care about benilatti's life or death. He could use a secret technique to remove the soul seal so that he would not take up a spot. After all, although removing the soul seal was dangerous, it was mainly targeted at the person controlled by the soul seal. As the master, Xia ruofei would not be in any danger.

Even if he failed to extract the soul seal and benilatti died, his soul slave spot would be empty. In fact, it was considered a success.

However, Xia ruofei still felt a tinge of compassion and did not directly use the soul extracting seal.

Of course, the most important reason was that using the secret technique would consume a lot of Xia ruofei's spiritual energy. With the enemy in front of them, any unnecessary consumption had to be avoided.

Hence, after some consideration, Xia ruofei decided to let benilatti be on standby at Evarts Island.

Benilatti set off on his speedboat, not knowing that he had already walked one round around the gates of hell.

Xia ruofei and Li Yifu sat together again and went over the entire plan from beginning to end several times. Finally, Xia ruofei decided, ""It's done! I think it's close to perfection. There shouldn't be any oversights!"

"En!" Li Yifu nodded and said, "senior granduncle, this matter should not be delayed. Since it has been decided, I think we should implement it as soon as possible!"

"That's right!" Xia ruofei's eyes were filled with determination. "Then let's begin!"

.....

In a seaside villa in the rich District of evates Island, Wang Boshan and Zheng Yongshou were drinking tea and chatting in the living room. Xia ruofei had given them the order to stay in evates and wait for

orders, so they didn't go anywhere for the past two days and stayed at home, waiting for Xia ruofei's orders 24/7.

Wang Boshan's phone rang.

The two of them stood up at the same time. Wang Boshan hurriedly took out his phone, looked at the caller ID, and immediately picked up, "Mr. Ling!"

As long as it was a phone call, there was bound to be the possibility of being monitored, especially when Wang Boshan was still in the capital Island of ponautu, evac. This kind of small country did not have any moral integrity, and it was hard to say if there were any monitoring methods for outsiders.

That was why Xia ruofei strictly ordered Wang Boshan and Zheng Yongshou not to call him "master" when they were on the phone. They were not even allowed to call him "Mr. Xia" but to use the alias "Mr. Ling". In fact, Xia ruofei had just casually used Ling Qingxue's surname.

"There's some progress," Xia ruofei said indifferently. "Let's meet!"

"Alright!" Wang Boshan quickly said, "what time would be convenient for you?"

"In an hour!" Xia ruofei said.

"No problem! We'll definitely be there on time!" Wang Boshan said.

Xia ruofei had told them the meeting place before they left the day before yesterday, so they did not mention the meeting place at all.

After Wang Boshan hung up the phone, he said to Zheng Yongshou, "Martial uncle Zheng, there's news from there. Let's pack up and set off immediately!"

Zheng Yongshou knew that it was Xia ruofei's call, so he didn't dare to delay. He nodded and said, "Alright, don't be late!"

.....

An hour later, a speedboat slowly approached a fishing boat in the middle of Paradise Island and evates Island.

Wang Boshan caught Xia ruofei's rope and connected the boat to the fishing boat.

Xia ruofei tiptoed and leaped into the air, landing lightly on the deck of the fishing boat.

He came here alone today and left Li Yifu on Peach Blossom Island. Firstly, there was no one on the island now, so Li Yifu was needed to stay and guard the place. Secondly, Xia ruofei also hoped that Li Yifu could spend more time cultivating. It would be good if he could improve his cultivation.

As soon as Xia ruofei landed on the deck, Wang Boshan and Zheng Yongshou knelt down on one knee and cupped their fists, "Good day, master!"

This was also the etiquette of the cultivation world. Of course, it was only a fist salute. Cultivators would definitely not kneel on one knee when they met.

Xia ruofei nodded and said, "yes!" Let's talk in the cabin!"

The three of them came to the cabin. Xia ruofei sat down boldly while Wang Boshan and Zheng Yongshou stood in front of him with their hands by their sides.

“To protect the secret of the Peach Blossom Island, I’ve decided to trap the star Seizer sect’s sect master, Luo Qingfeng,” Xia ruofei said.

Wang Boshan and Zheng Yongshou were not surprised, they said in unison, “What should this subordinate do, master?”

“The initial plan is like this,” Xia ruofei said. “Wang Boshan will stay on Peach Blossom Island, and Zheng Yongshou will return to the star Seizer sect and report to Luo Qingfeng about the situation on Peach Blossom Island. Let me first talk about Zheng Yongshou’s mission!”

“Yes! Master, please speak!” Zheng Yongshou quickly said.

Chapter 2722 Scheming against a golden core cultivator (2)

The two of them had no doubts about Xia ruofei’s arrangements. They only wanted to do their best to complete the task given by Xia ruofei. Even if they were to die, they would not hesitate.

Xia ruofei said, “your main task this time is to get Luo Qingfeng to come to Peach Blossom Island. It’s best if he comes alone. Once you complete this, you’ll have completed more than half of your task.” If possible, you can try to find out if the news of the natural formation of the Peach Blossom Island has spread beyond the three of you. Of course, this is only a secondary mission. For safety’s sake, you don’t have to deliberately inquire about it, in case Luo Qingfeng gets suspicious and affects our main mission.”

“Yes! Master!” Zheng Yongshou said.

“Luo Qingfeng,” Xia ruofei continued. “When you return to the sect and see Luo Qingfeng, tell him ...”

Xia ruofei gave Zheng Yongshou detailed instructions on how to report to Luo Qingfeng when he saw him. He even analyzed Luo Qingfeng’s possible reactions and gave his responses. At the same time, he handed him a small box that he had prepared in advance.

A cultivator’s memory was very good, so Zheng Yongshou hurriedly and diligently memorized Xia ruofei’s instructions.

In the end, Xia ruofei said, “after all, we can’t exhaust all the possibilities. Luo Qingfeng might have a reaction that is beyond our expectations and ask you other questions. You have to grasp it yourself. In short, the first rule is to not make him suspicious. The second is to lure him to Peach Blossom Island as soon as possible. Everything will be based on these two rules. You need to adapt to the situation!”

“Yes!” Zheng Yongshou replied with a serious expression. “Don’t worry, master!” Based on my understanding of palm ... Luo Qingfeng, master’s plan is very meticulous. He will definitely be fooled! If anything happens, I’ll be able to handle it.”

Xia ruofei nodded and said, “yes!” Pay attention to your own safety.”

In fact, Xia ruofei was just casually reminding him. Only when Zheng Yongshou was safe would the plan go smoothly. Otherwise, if Zheng Yongshou was exposed, the follow-up plan could not be carried out.

However, after Zheng Yongshou heard Xia ruofei's casual advice, he shed tears of gratitude and knelt on the ground again. He said in a trembling voice, " "Thank you for your concern, master! This subordinate will not hesitate to shatter my bones!"

Not only did Wang Boshan not look down on him, but his face was full of anticipation. He felt that it was really enviable that junior uncle Zheng could get the care of his master.

This wasn't because the two of them were wretches, but because this was the effect of the soul seal. This kind of submission from the soul was something that the two of them couldn't control at all.

Xia ruofei said indifferently, " get up!" I don't need you to die in vain, just do your best to complete the mission."

"Yes! Master!" Zheng Yongshou stood up and said.

Then, Xia ruofei looked at Wang Boshan and said, " " As for your task, you will have to wait on the Peach Blossom Island. When Luo Qingfeng lands on the island, you will have to complete the following tasks ..."

Xia ruofei explained Wang Boshan's mission in detail again. Compared to Zheng Yongshou, Wang Boshan's mission was much simpler, and he finished explaining in a short while.

Wang Boshan naturally remembered Xia ruofei's words and said, " "Yes! Master!"

Xia ruofei's arrangement was also in line with the current situation. Wang Boshan was originally in charge of the star Seizer sect's secular Affairs. This time, he would stay behind to guard the Peach Blossom Island and wait for the sect leader's arrival. Zheng Yongshou, who had a higher position, would return to the sect and report to him. This was more logical.

After arranging their tasks, Xia ruofei asked casually, ""By the way, based on your judgment, if Luo Qingfeng were to come to Peach Blossom Island, what kind of transportation would he choose?"

There were only two options to get to Peach Blossom Island. One was to take a plane, and the other was to take a boat. Now that all the staff on Peach Blossom Island had been dismissed, Zheng Yongshou would also report to Qingfeng Luo in the same way, so they could only take a boat or a helicopter. If they could make a prediction in advance, they could make the corresponding arrangements, which would be more active.

Zheng Yongshou said almost without thinking, ""It's very likely that they're going there by boat. Qingfeng Luo was rather repulsed by means of transportation such as airplanes. This was because he felt that he could not control his own fate when he was not flying with his own strength. If he was alone, he might have chosen to come from nearby on Sword 2, but since I'm with him, he might choose to take the boat. "

Luo Qingfeng was an Aurous core stage cultivator and was already capable of sword Kinesis flight. However, the star Seizer sect was tens of thousands of miles away from here, so he definitely could not fly on his sword directly from the star Seizer sect.

"If he took a ship from the star Seizer sect, wouldn't it take a few days?" Xia ruofei frowned.

From the Northern Hemisphere to the Southern Hemisphere, and the distance was so long, it was normal to take one or two months by ocean ship.

"It's possible according to my understanding of him," said Zheng Yongshou. However, he should be in a hurry. I'll try to persuade him to take a plane to a nearby Island ..."

Xia ruofei thought for a while and said, "That's a real problem! This way, many things would become uncontrollable ... How about this! Didn't Luo Qingfeng never go to Paradise Island? He'll definitely need you to lead the way. No matter what mode of transportation he uses, you just have to adapt to the situation. Also, you have to find a way to keep in touch with us. "

### Chapter 2723 Scheming against a golden core cultivator (3)

At this point, Xia ruofei took out a piece of paper and handed it to Zheng Yongshou, saying, "If anything happens, you can call Wang Boshan directly. This mission was originally completed by the two of you. Moreover, Wang Boshan is still waiting for Qingfeng Luo on Peach Blossom Island, so you won't arouse any suspicion if you call Wang Boshan. There are some code words on it. It's enough to pass on simple information. Take the time to remember them. "

Xia ruofei had come into contact with this field when he was in the military. This morning, when he was perfecting the plan, he had also made a simple code comparison form. Through this code form, he could completely meet the needs of simple information delivery.

In fact, it was not complicated. It was just a simple sentence with specific keywords. Different keywords had different meanings. Xia ruofei had come up with several possibilities, such as "everything is as usual" or "change the waterway".

As for the news that they were departing from the star Seizer sect or that they were about to arrive, Zheng Yongshou could have called Wang Boshan openly and asked him to prepare for the reception. It would definitely not arouse any suspicion.

"Yes!" Zheng Yongshou quickly replied. Master!"

He took the piece of paper and quickly memorized it. After a few minutes, he handed the paper to Wang Boshan and said, "Master, this subordinate has noted it down."

"Yes." Xia ruofei nodded and said, "if the situation changes, Wang Boshan might contact you and use the same code."

"Alright!" Zheng Yongshou said.

After a while, Wang Boshan had also memorized the secret code. He respectfully returned the paper to Xia ruofei and said, "Master, this subordinate has also remembered it!"

"En!" Xia ruofei nodded and said, "you guys can go back! Zheng Yongshou will leave today and return to the star Seizer sect. After Wang Boshan sends Zheng Yongshou off, he will come directly to Paradise Island!"

"Yes! Master!" The two of them replied in unison.

Xia ruofei stood up and walked to the deck. He untied the cable of the speedboat and gently landed on the speedboat with his toes.

On the deck of the fishing boat, Wang Boshan and Zheng Yongshou cupped their fists at the same time and said in unison, "This subordinate will see you off, master!"

Xia ruofei waved his hand without looking back and drove the speedboat in the direction of the Peach Blossom Island Pier.

Wang Boshan and Zheng Yongshou also turned the ship's bow and returned to Evarts Island.

After returning to the peach source Island, Xia ruofei personally led Li Yifu to make some arrangements on the island. They were mainly targeting the points where the Taixu xuanqing formation had been activated. The two of them disguised and arranged each point.

Then, the two of them returned to the project department building and waited for news while they cultivated.

After Wang Boshan arranged the return trip for Zheng Yongshou, he personally sent Zheng Yongshou to the small airport on evatz Island. After Zheng Yongshou's plane took off, he returned to the evatz Island dock and drove the fishing boat to Paradise Island.

.....

Two days later.

In the South China Sea, there was an Island surrounded by spiritual Qi.

This place seemed to be covered in fog all year round. Not only could radars and satellites not detect the existence of the island, but as long as a ship entered the nearby Sea area, the navigation and compass would spin randomly, unable to give the correct direction at all.

Over time, this area of the sea became a mysterious area. In addition, it was far away from the traditional sea routes, so fewer ships passed by here.

The people of the secular world had no idea that there was a cultivation sect in this sea.

This was the star Island, the headquarters of the star Seizer sect.

There was a mountain that was a thousand meters tall on the island, and many antique – looking buildings were built against the mountain. In the dense fog, the pavilions could be vaguely seen, making it really look like a paradise on earth.

The ancient building at the highest point was the residence and cultivation place of Luo Qingfeng, the sect master of the star Seizer sect.

In a quiet room, a middle – aged Daoist in a sky – Blue Daoist robe was sitting cross – legged on a futon with his five hearts facing the sky.

There wasn't even a strand of white hair on his head, and the skin on his face was quite tight and smooth. He looked to be in his thirties.

In fact, this middle – aged Daoist was already more than 150 years old.

He was the sect leader of the star Seizer sect, Luo Qingfeng, the only gold core realm expert in the sect.

A light knock on the door was heard.

Luo Qingfeng opened his eyes with a hint of displeasure on his face. He raised his voice and said, ""What is it? Didn't I say that no one is allowed to disturb me when I'm cultivating?"

Outside the door, a young and tender voice said with some fear, ""Reporting to sect leader, martial uncle Zheng Yongshou has returned. He said that he has something important to report to you, so this disciple is bold enough to ..."

"Yongshou is back?" Luo Qingfeng's eyes lit up. He stood up and said, "let him in!"

"Yes!" The Daoist child outside the door secretly heaved a sigh of relief and rushed out.

Qingfeng Luo paced back and forth in the room, his excitement evident on his face. From the moment Wang Boshan sent back the news, to the moment Zheng Yongshou confirmed that the island in the South Pacific Ocean had a natural array that was far higher level than the sect's great sect – protecting array, he had always been thinking about this matter.

Qingfeng Luo knew the importance of this matter, so he did not even reveal it to his most trusted Junior Brother. He only instructed Zheng Yongshou and Wang Boshan to operate in secret and seize the time to control the island.

The two of them hadn't made any progress for a long time, and now that Zheng Yongshou had suddenly come back to report in person, it was obvious that there had been a major breakthrough in that matter.

Luo Qingfeng thought to himself, 'as long as I can get my hands on that cultivation paradise, the rise of the sect will be imminent! He hoped that Yongshou would bring back good news ...

He calmed himself down, then walked to the futon and sat down. After all, he was a golden core cultivator, and his face quickly returned to its usual calm and tranquil state.

Soon, footsteps could be heard from outside, followed by a knock on the door. Zheng Yongshou said, ""Master, disciple has returned. I have something to report to you!"

"Come in," Luo Qingfeng said indifferently. "Let's talk inside!"

"Yes!" Zheng Yongshou replied.

Then, Zheng Yongshou pushed the door open and walked in. He bowed slightly in front of Qingfeng Luo and said in a tone that was trying hard to suppress his excitement, ""Congratulations, master! That matter ... It's done!"

#### Chapter 2724 Great trickery (1)

Even though Luo Qingfeng was a shrewd person and had been pretending to be calm, he could not help but raise his eyebrows after hearing Zheng Yongshou's words. His eyes flashed and he said in a deep voice, ""Tell me the details!"

“Yes! Master!” Zheng Yongshou said respectfully, “this disciple came out of the mountain to supervise this matter. I originally wanted to order junior nephew Wang Boshan to give up the secular means and directly seize the island by force. After all, this matter has been dragged on for so long ... However, just as we began to plan, things suddenly took a turn for the better.”

“Oh? What do you mean?” “What is it?” Luo Qingfeng asked indifferently.

“I’ll report to you about the possession of peach source Island ... Oh, I mean the blue cloud Island.” Zheng Yongshou said calmly, “the secular family that originally owned this Island suddenly transferred the ownership of the island to a young man. It was also him who changed the name of the island to Paradise Island.”

“Continue.” Luo Qingfeng said.

“This young man’s attitude is different from the Liu family ‘S. He’s not that insistent on the ownership of the Peach Blossom Island.” Zheng Yongshou said, “martial nephew Boshan has made some small achievements in the secular world over the years, so I made the decision to buy the island from this young man with money that exceeded the value of the Paradise Island. When we increased the price to 4.5 billion US dollars, he finally couldn’t resist the temptation and agreed to sell the island!”

“That’s great!” Luo Qingfeng’s eyes revealed a hint of excitement.

As for Zheng Yongshou’s 4.5 billion US dollars, he didn’t take it to heart at all. Some worldly wealth was no different from floating clouds to him. Let alone 4.5 billion, even if it was 45 billion, if it couldn’t be exchanged for cultivation resources, it was no different from waste paper in his eyes.

However, the peach source Island was a top – notch cultivation resource that could directly enhance the overall strength of the entire sect. How could it be exchanged for money?

Zheng Yongshou continued respectfully, “honored master, before I returned to the sect, I had already completed the transfer of ownership of the island with junior nephew Boshan. Now, the Peach Blossom Island belongs to the stars Corporation of the secular world. In other words, the island with the natural formation is already our star Seizer sect ‘s!”

“Very good!” Qingfeng Luo said happily, “Yongshou, you’ve done a great job! Speak! Whatever reward you want, I will definitely satisfy you!”

“Master, it’s disciple’s honor to be able to share master’s burden. It’s just a small contribution, how would I dare to ask for any reward?” Zheng Yongshou quickly said.

“It’s not my style to not reward someone for their contributions!” Luo Qingfeng waved his hand and said, “just say it. As long as the sect can provide you with resources, I can make the decision to reward you!”

“Thank you, master!” Zheng Yongshou said respectfully. However, it is already a great blessing for me to be able to cultivate in the sect these years. I really don’t dare to ask for any reward. If master agrees, this disciple wants ... To follow master and learn the array Dao. Master’s array Dao level is something that this disciple can only look up to.”

Qingfeng Luo could not help but laugh. He knew that his disciple was very obsessed with arrays, which was also one of the things that he was proud of. Zheng Yongshou's words had just scratched his itch, making him feel very happy.

"What's so difficult about that?" Luo Qingfeng said, "in the future, I will teach you everything I know about array formations. Our sect also needs a capable array formation expert, so that I don't have to take action personally when it comes to array formations!"

"Thank you, master!" Zheng Yongshou revealed an overjoyed expression as he said. Then, he hesitated for a moment and said, "master, this disciple still has a presumptuous request!"

"Speak!" Qingfeng Luo was in a good mood at this time, so he raised his hand and said indifferently.

"Yes!" Zheng Yongshou first bowed slightly, then said, "the success of this matter is inseparable from the efforts of martial nephew Boshan. This disciple implores master to reward him with some cultivation resources. After all, it wasn't easy for him to make a living in the secular world, and the cultivation environment in the secular world is harsh. With some cultivation resources, he can improve his cultivation and self – Protection ability, and serve the sect better. "

"No problem!" Luo Qingfeng said, "although this Wang Boshan is a little lazy, he is really a talent in the secular world!" With such a great contribution, it wouldn't have been a problem for him to request to return to the sect. Since he's willing to stay in the secular world, I'll reward him with some cultivation resources and ... Personally guide him so that his cultivation can improve a little!"

"Disciple Thanks teacher on behalf of martial nephew Bo Shan!" Zheng Yongshou said hurriedly. Then, his eyes widened as he asked, "master, you mean ... You want to make a trip personally?"

"Haha!" Luo Qingfeng laughed and said, "if I don't go over ... Can you activate that natural array?"

Zheng Yongshou revealed a trace of confusion, lowered his head and said, "Disciple's array skills are inferior. I'm still not strong enough to deal with a natural array of that level ..."

"That's why! I'm the only one who can handle this matter personally!" Luo Qingfeng said, "it just so happens that I've been staying in the sect for the past few years. It's time to go out and take a breather!" Yongshou, you'll come with me this time. First, you'll lead the way, and second, you can learn more about arrays from me. Activating such a natural array is a great opportunity to learn!"

Chapter 2725 Great trickery (2)

"Yes! Thank you, master!" Zheng Yongshou said excitedly.

He had laid out so much so that Luo Qingfeng would take the initiative to bring him along.

Although in theory, he had to accompany Luo Qingfeng and lead the way for him, he could not rule out the possibility that Luo Qingfeng would go by himself after asking for the location. After all, golden core cultivators could ride flying swords, and it was more convenient for them to travel alone.

Now that Luo Qingfeng had taken the initiative to bring him along, he had achieved his goal.

“Teacher, after disciple and martial nephew Boshan took over the peach source Island, we dismissed everyone on the island. Now, only martial nephew Boshan is staying on the island, waiting for your arrival.” Zheng Yongshou continued.

“Mm! You guys have done well.” Luo Qingfeng said, “those ordinary people are a hindrance on the island. It’s better to disband them.” In the future, when the island needs to be built, we’ll just recruit more people. The most important thing now is to activate the formation.”

Luo Qingfeng’s thoughts were in line with Xia ruofei’s. Unfortunately, his wish could never be realized because Xia ruofei had already activated the Taixu xuanqing formation completely.

“Yes! Master!” “Yes,” Zheng Yongshou replied, then continued, “I brought martial nephew Boshan to survey the Paradise Island carefully, and we did find something ...”

“Oh?” Luo Qingfeng asked with interest, “could it be that you can see through such a large array?”

“That’s not it ...” Zheng Yongshou said hurriedly, “it’s just that I still saw some clues and wanted to report it to master.”

“Oh? Then tell me.” Luo Qingfeng was also interested and said with a smile.

“Yes!” Zheng Yongshou said. He secretly took a deep breath and said according to what Xia ruofei had taught him, “I found out that the array on this Paradise Island is not just a natural array. I didn’t investigate it in detail before, but this time, after handing over the island, this disciple walked around the entire Peach Blossom Island and found many traces left by cultivators, but they were all very old. This disciple surmised that this Island once had ancient cultivators. Perhaps it was because of the island’s natural formation that the ancient cultivators were attracted to it. They had also successfully activated the formation, but with the passage of time, no one maintained it and it lost its effectiveness. Only the naturally formed parts can still be seen.”

Luo Qingfeng’s eyes shot out two rays of light as he said, “In that case, it does make sense! If ancient cultivators once lived on this Island, and there are traces of an artificially activated formation, then we’ll have even more clues. This way, the difficulty of activating this natural formation will be greatly reduced!”

The more Luo Qingfeng spoke, the more excited he became. He then asked, “Yongshou, did you find anything else other than these?”

Zheng Yongshou lowered his head and said, “master, I found spiritual energy gathered in a place that was suspected to be left behind by ancient cultivators. After excavating it, I found this item about three feet deep ...”

With that, Zheng Yongshou took out the small box that Xia ruofei had prepared for him and threw out the last stun grenade.

Zheng Yongshou handed the small box to Qingfeng Luo with both hands as he said, “Master, this disciple is slow – witted and doesn’t know what this is. However, this item is rich in spiritual energy and it can be seen that it is not an ordinary item. Therefore, this disciple doesn’t dare to hide it and will immediately bring it back to the sect for master to deal with.”

Qingfeng Luo nodded and opened the box.

His eyes suddenly opened, and an inexplicable look of surprise appeared on his face. He saw that there was a spirit crystal in the box, which was emitting a strong spirit Qi.

Qingfeng Luo held the spirit crystal in his hand and felt the spirit energy within it. He found that more than half of the spirit energy contained in the spirit crystal had been consumed. However, it was still a rare cultivation treasure for the current cultivation world on earth.

"This thing ... You found it on that Island?" "What?" Qingfeng Luo asked in disbelief.

"Yes, master!" Zheng Yongshou said, "there are many similar ancient cultivator ruins on the island, and there are many places where spiritual energy is concentrated. However, I know that this is a serious matter, so I didn't continue to excavate and immediately rushed back to the sect to ask master to make a decision! Martial nephew Boshan will guard the Peach Blossom Island well. Almost no cultivators will go there, and the ordinary people of the secular world will not be able to threaten the safety of the island."

"You've done well!" Luo Qingfeng said with satisfaction, "what's even more remarkable is that you can only think of the sect and not have the slightest greed in the face of a cultivation treasure with such rich spirit energy. I am very pleased!"

This was actually a spiritual crystal that Xia ruofei had prepared in advance. He had even specially chosen a spiritual crystal that he had used during his cultivation. He had been using this spirit crystal all along. Later, when he got better origin crystals, he changed to origin crystals, so he had already absorbed a lot of the spiritual Qi in the spirit crystal.

Not only did Luo Qingfeng not doubt it, but he was even more convinced.

The reason was simple. After so many years, the array on the Peach Blossom Island had lost its ability to gather spiritual energy, and the spiritual energy in the spiritual crystal had gradually dissipated. This was in line with the actual situation. If it was a spiritual crystal full of spiritual energy, it would cause Luo Qingfeng to be suspicious.

Qingfeng Luo was very satisfied with Zheng Yongshou's disciple. Although he wanted to generously give the spirit crystal to Zheng Yongshou, the spirit crystal was too precious. After hesitating for a long time, he did not give it up.

### Chapter 2726 Great trickery (3)

Qingfeng Luo thought to himself, 'let's talk about this after we get to peach source Island! If he could find a few more of these spiritual crystals, it would be fine to give one to Yongshou.'

With that thought in mind, Luo Qingfeng put away the spirit crystal carefully.

Zheng Yongshou had been quietly observing Luo Qingfeng's expression. Knowing that Luo Qingfeng had put away the spirit crystal, he felt more at ease. At the same time, he admired Xia ruofei, his master, more.

Xia ruofei had specially arranged for Zheng Yongshou to fabricate news about the ancient cultivator ruins and report it to Luo Qingfeng. The purpose was to make Peach Blossom Island more attractive to Luo Qingfeng, making him eager to go.

At the same time, not only was there a natural formation on the Paradise Island, but there were also the remains of ancient cultivators, so activating the formation was much easier. In addition, there might be more spirit crystals. With so many factors combined, it was even more impossible for Luo Qingfeng to leak the news to others according to his personality.

Of course, this move had an additional effect, which was to make Qingfeng Luo's loyalty to Zheng Yongshou no longer have any doubts about a precious cultivation resource like the misty spiritual crystal. Even if he could not name it, he could at least sense the rich spiritual energy inside, right? He offered it to the sect without any hesitation. If such a disciple wasn't loyal, who else could he trust?

Sure enough, Qingfeng Luo looked at Zheng Yongshou with an even more affable gaze. He said gently, "Yongshou, you've had a hard time on this trip! However, you can't rest for the time being. After all, the natural formation of the Peach Blossom Island is related to the rise of the sect, so I've decided to go to the Peach Blossom Island today!"

Zheng Yongshou's heart was filled with joy, and he quickly said, "Shizun, disciple didn't work hard! To be able to serve by shizun's side is disciple's honor!"

Then, Zheng Yongshou pretended to be concerned and asked, "Shizun, which martial brothers do you want to bring with you on this trip? I'll inform them to make their preparations."

"Let's go," Luo Qingfeng said seriously. "This time, we will go in secret. You can't reveal our whereabouts to anyone!" The natural formation of the Peach Blossom Island is of great importance. Before you successfully activate the formation and control the core of the formation, any information about the Peach Blossom Island must be kept top secret. You must not leak the slightest bit of information, or else it's very likely to attract the covetous eyes of other sects. Do you understand?"

Zheng Yongshou was overjoyed, he quickly lowered his head and said, "Yes! This disciple will remember!"

Luo Qingfeng nodded with satisfaction and said, "Okay, wait here for a while. I'll prepare some things. We'll leave immediately!"

It was not that Qingfeng Luo did not trust Zheng Yongshou. He was worried that Zheng Yongshou would leak the news after he left his sight. He did this because he did not want too many people to know that Zheng Yongshou had returned to the sect. Secondly, he was already very anxious. He was going to set off soon after making some preparations. It was naturally the most convenient for Zheng Yongshou to wait here.

"Yes! Master!" Zheng Yongshou replied respectfully.

Luo Qingfeng got up and took out some array flags, compasses, jade stones, and other array – setting tools from the cabinet. After some thought, he also took out a few crystals. These crystals were similar to spirit crystals and contained spirit Qi. They could be used by cultivators, but the purity of the spirit Qi

was not on the same level as spirit crystals. They could barely be considered 'low – Quality' spirit crystals.

Luo Qingfeng waved his hand, and all these things disappeared into thin air.

He looked at the dumbstruck Zheng Yongshou and waved his hand at him, showing him the ring on his middle finger. He smiled and said, "This is a storage ring! It's something I found by chance while exploring some ancient ruins, and it can be said to be the most precious treasure of our star Seizer sect!"

The space inside Qingfeng Luo's storage ring was only about 10 cubic meters. Compared to Xia ruofei's vast spirit map space, it was like comparing a homeless man sleeping under a bridge to the richest man in the world. However, in Qingfeng Luo's eyes, it was still an extremely precious treasure.

In fact, storage rings involved the laws of space and had been passed down from ancient times. It was almost impossible to make one in the current cultivation world on earth, so there were very few of them.

Many Aurous core stage cultivators might not even have a storage ring, but Luo Qingfeng had one, which was why he had always been proud of it.

However, the space in the storage ring was not big. Usually, Qingfeng Luo would only store the most precious things in it and carry it with him. This time, he was going on a long journey and it involved activating a large array. Therefore, he had also put the array books, array flags, and other things that he usually kept in the cabinet into the storage ring. The other few crystals were prepared to be rewarded to Wang Boshan.

If it was before Zheng Yongshou took out the spirit crystals, Luo Qingfeng might be a little reluctant to give them away. Now that he had the spirit crystals, his vision had widened a lot. It was just a few crystals that contained spiritual energy. Wang Boshan had made such a great contribution this time, so it was time to reward him with some "good things".

Zheng Yongshou's eyes widened as he stared at Luo Qingfeng's storage ring. He exclaimed, "I didn't expect master to have such a treasure!"

As he spoke, he thought to himself, "This storage ring was really not bad! Hmph Hmph! The more treasures the better! It's best to bring all of them, then they'll all be master's ...

Qingfeng Luo was very satisfied with Zheng Yongshou's shocked expression. He smiled and said, "Let's go!"

"Yes! Master!" Zheng Yongshou said respectfully.

Just as Zheng Yongshou was about to ask Qingfeng what mode of transportation he would like to choose to go to Paradise Island, Qingfeng Luo took the initiative to say, "That's right, I heard that the Paradise Island is ten thousand miles away from here?"

"Yes!" Zheng Yongshou quickly replied. Shizun, Peach Blossom Island is located in the Southern Hemisphere, and the Four Seasons there are the opposite of ours. It's indeed very far away, and every time I go there, I take a plane. "

Luo Qingfeng frowned subconsciously, but the urgent desire to go to Paradise Island prevailed. He thought for a moment and said, "In that case, let's take that ... Plane this time! We need to get to peach source Island as soon as possible!"

#### Chapter 2727 Sword control (1)

"Yes! Master!" Zheng Yongshou quickly said, "after we leave the sect's territory, this disciple will immediately let martial nephew Bo Shan arrange the journey!"

Within the range of star Seizer sect's protective formation, even satellites could not detect Star Island. Naturally, there was no signal for mobile phones here. If he wanted to contact Wang Boshan, he had to leave the sect's range.

After Wang Boshan was in charge of the affairs of the secular world, he had managed to obtain legal identities for all the important figures of the star Seizer sect. As the sect leader of the star Seizer sect, Luo Qingfeng naturally had a set of legal identity documents. He could even leave the country without any problems.

Although Qingfeng Luo had never used this identity, Wang Boshan still carefully maintained his identity as the chairman of stars corporation's Board of Directors. Even the visas for major countries in the world were ready – made. As the chairman of a Board of Directors of a large corporation with a scale of ten billion US dollars, it was very easy to apply for a business visa for multiple trips. It was just that a little disguise was needed when applying for the visa. After all, Qingfeng Luo could not really apply for it from the Embassy. It was not difficult for cultivators to change their appearances.

Therefore, as long as he left the range of the sect's great array, Zheng Yongshou could give Wang Boshan a call, and Wang Boshan would be able to arrange the trip very quickly.

In fact, Zheng Yongshou's identity was also done this way. His public identity was that of an executive of Stars Group.

Luo Qingfeng reluctantly chose to travel by plane, which also reduced a lot of trouble for Zheng Yongshou. He could directly pass the news to Xia ruofei through Wang Boshan, without even using code words.

Qingfeng Luo nodded and said, "let's do that!" However ... It's too inefficient to leave by boat. I'll give you a ride!"

Without waiting for Zheng Yongshou to react, a flying sword with a sharp aura appeared in front of Luo Qingfeng like a fish. Then, Zheng Yongshou felt a force lift him up into the air.

Qingfeng Luo and Zheng Yongshou turned into a stream of light and flew out of the quiet room's window. They drew an arc in the air and then flew toward the land at an extremely fast speed.

When Luo Qingfeng flew out of the quiet room on his sword, he left a message, "I'll be in closed – door cultivation for a while. No one is allowed to enter my room!"

The voice was still there, but the person had long disappeared.

The Dao child who was waiting for orders not far away quickly and respectfully replied, "I will obey the orders of the ancestor!"

After he finished, he looked at the closed door of the quiet room suspiciously and muttered in his heart, "Why didn't he see martial uncle Zheng? Could it be that martial uncle Zheng was also in closed-door cultivation with the Grandmaster? Or ... Did martial uncle Zheng leave when I was napping?"

The Dao child couldn't think of a reason, so he didn't think about it anymore. In any case, he just had to follow the orders of the sect leader.

He quickly went to pass on the order to increase the number of people here to prevent anyone from unknowingly barging in and disturbing the sect master's seclusion.

.....

When Zheng Yongshou saw the flying sword, his heart couldn't help but tremble. He subconsciously thought that he had been exposed. Of course, he wasn't worried about his own safety, but he was afraid that it would affect the execution of his master's plan.

However, he soon realized that he had misunderstood. In the next moment, Luo Qingfeng had already taken him on his flying sword and flew out.

When Zheng Yongshou came back to his senses, they were already flying at high speed above the sea. Even with the protection of the vital energy released by Luo Qingfeng, they could not be completely isolated. Flying at such a high speed, the wind was blowing into Zheng Yongshou's mouth, and he could not even open his eyes.

His heart trembled. Although he was a cultivator, he had never experienced sword Kinesis flight before. This was the first time he had ever experienced it! He didn't expect it to be such an exciting 'sport'.

Qingfeng Luo was only an early – Stage golden core cultivator. If he were to ride a flying sword to the Peach Blossom Island, which was thousands of miles away, his vital energy would not be able to withstand the consumption even if he was alone, not to mention bringing Zheng Yongshou with him.

Therefore, such a flight was destined to be short.

Of course, Luo Qingfeng could also choose to fly all the way there, but he would have to find an island to stop on the way and recover his vital energy before he could continue flying.

Cultivation resources were so precious now, so how could he waste his true Qi on sword Kinesis flight?

Therefore, although taking a plane was a helpless choice, it was actually the most reasonable choice.

Qingfeng Luo flew with Zheng Yongshou for about ten minutes before they slowly descended and finally landed on an uninhabited island.

Naturally, he had already left the range of the star Seizer sect's protective formation.

Qingfeng Luo looked at Zheng Yongshou, who was pale and weak at the knees. A smile flashed in his eyes as he asked, "Yongshou, is this your first time riding a flying sword? How do you feel?"

Zheng Yongshou resisted the urge to vomit and said, "Shizun, disciple almost vomited in the air just now! This disciple has finally seen the difference between himself and a golden core cultivator!"

Luo Qingfeng could not help but laugh and said, ""Look at you! Wasn't it just a little faster, a little higher, and a little stronger wind? You're a Qi Level 7 cultivator, how could you be so scared?"

Qingfeng Luo, who was in a good mood, teased Zheng Yongshou and said, ""You should call Boshan! Get him to arrange our trip as soon as possible!"

Zheng Yongshou was stunned for a moment and quickly said, ""Master, this is an uninhabited island. There's definitely no signal here!"

## Chapter 2728 Sword control (2)

"Isn't this thing known as clairaudient? Why do we still need some ... Signal?" Luo Qingfeng asked with a frown.

"I've heard from martial nephew Boshan before. To communicate through mobile phones, we need to rely on some ... Base station. There's no one living on this Island, so they definitely wouldn't build that kind of base station!" Zheng Yongshou nodded.

"The things in the secular world are convenient sometimes," Luo Qingfeng said. "But they're a little too troublesome!"

Although Zheng Yongshou did not travel much in the secular world, he had left the sect three times for the Peach Blossom Island. Especially this time, he had stayed in the secular world for quite a long time and went to many places, so he was naturally more knowledgeable than Luo Qingfeng.

In particular, Zheng Yongshou was even more familiar with the route to Peach Blossom Island.

He thought for a moment and said, "master, if we take a plane to Peach Blossom Island, the nearest airport should be in Ye City of Nanhai province. Why don't we go directly to Ye City?" You'll definitely be able to make a phone call there!"

Qingfeng Luo had spent most of his life in the South Sea. Although Ye City was very close to the mainland, he had been there a few times.

So, after hearing Zheng Yongshou's words, Luo Qingfeng calculated in silence and said, ""Mm! Ye City wasn't too far away. If they flew at full speed, they would reach it in less than an hour! Then let's do this! Yongshou, we've had enough rest, let's continue our journey!"

When Zheng Yongshou heard that it would take another hour or so, he immediately regretted making that suggestion. The feeling of Wanwan was too exciting, he couldn't take it!

Zheng Yongshou felt that his mouth was really cheap, even if it was just a suggestion to find a small island with people living nearby, it would also be fine! There would be cell phone signal there, and they could also take a boat to Ye City, right?

However, he did not have time to react at all. Soon, he was swept up by Luo Qingfeng and soared into the sky. The whistling sound of the wind rang in his ears again. In an instant, he was hit by the strong wind and burst into tears. He quickly closed his eyes.

After more than 40 minutes, Qingfeng Luo and Zheng Yongshou landed on a deserted beach in Ye City.

Even with Luo Qingfeng's profound cultivation, after 40 to 50 minutes of flying, he still felt that his dantian was a little empty. Flying on a sword consumed too much true Qi, especially when he was flying with another person.

Qingfeng Luo had also considered that after flying to Ye City, he would no longer need to continue flying on his sword. His true energy could also slowly recover naturally. If he had to consume crystals to replenish his true energy, he would rather die than do so.

After flying for such a long time, Zheng Yongshou really wanted to die. As soon as he landed, without the support of Luo Qingfeng's true energy, he immediately fell to the ground, his legs unable to exert any strength.

It took a while for Zheng Yongshou to recover. He looked at Luo Qingfeng and said, "Master, this disciple's cultivation is too low. It's too embarrassing ..."

Luo Qingfeng was also sitting cross – legged to recover his vital energy. He waved his hand and said, "You've recovered? Then, he would call Bo Shan! Tell him to arrange our schedule as soon as possible!"

"Yes! Master!" Zheng Yongshou quickly said.

He took out his phone from his pocket. This phone was given to him by Wang Boshan, and he only knew how to use some simple functions.

Zheng Yongshou found Wang Boshan's number and dialed it.

On the Paradise Island, Wang Boshan was waiting for a call from Zheng Yongshou. As soon as his phone rang, he immediately picked it up and turned on the speaker. At the same time, he gestured to Xia ruofei. Xia ruofei immediately walked over.

As soon as the phone was connected, Zheng Yongshou directly said, "Bo Shan, the head Master has decided to bring me to the Peach Blossom Island. You must be prepared to receive me!"

Wang Boshan revealed a trace of joy. He knew that the first step of Xia ruofei's plan should have succeeded. He quickly said, "Alright! Junior uncle Zheng!"

"The most important thing now is to book air tickets and arrange our itinerary for sect leader, master, and me," Zheng Yongshou continued. "We're going to take a plane from Ye city's Meilan Airport, can you help us book the tickets now?"

"I understand! Don't worry, martial uncle Zheng, I'll get it done right away!" Wang Boshan quickly said.

Zheng Yongshou thought of his experience of sword Kinesis flight, and his heart moved slightly. He deliberately said with a trace of pride, "Boshan, the head, master and I are already in Ye City, so you can book the earliest flight! Do you know why we were so fast? Hahaha! We came here on our flying swords, and the sect leader took me directly from Star Island to Ye City. You haven't experienced this feeling before, have you?"

Qingfeng Luo did not suspect anything. He just felt that it was both funny and infuriating that Jian Jia, who had been so scared that her face turned pale, was so close to live broadcasting her 'sword vertigo'

in the air. She had just recovered and was already bragging in front of the younger generation of her sect.

However, Qingfeng Luo was very satisfied with Zheng Yongshou today. Even though Zheng Yongshou's performance was a little exaggerated, Qingfeng Luo did not blame him at all. Instead, he felt that Zheng Yongshou was still a child. This was the performance of an honest person! No wonder he was so loyal to the sect.

Qingfeng Luo laughed and scolded, "Yongshou, stop bragging to Boshan!" Tell him to quickly book that ... Plane ticket!"

Zheng Yongshou had already conveyed all the information he wanted to convey, and it was all in clear language, not even code words were needed.

### Chapter 2729 Sword control (3)

Therefore, after hearing Qingfeng Luo's words, Zheng Yongshou immediately said, ""Yes! Master!"

Then, he took out his phone and said, ""Bo Shan, you've heard the words of the sect master, right? Arrange a schedule to arrive at Evarts Island as soon as possible and report to me!"

"Yes! Junior uncle Zheng!" Wang Boshan said, "please wait for a moment, sect master. I will do it now!"

"En!" Zheng Yongshou hung up the phone and turned to Qingfeng Luo. He said respectfully, "master, martial nephew Boshan is already making arrangements. Do you think ... We should head to the airport now and wait?"

"Alright!" Qingfeng Luo nodded and said.

The area they landed in was sparsely populated, and it was difficult to get a ride. However, this was not a problem for the two cultivators. The two of them were very fast, and under the cover of the night, they soon came to a road.

The two of them walked along the road, and after a while, a taxi passed by. They got in the car smoothly and soon arrived at the Meilan Airport in Ye City.

Peach Blossom Island.

After Wang Boshan hung up the phone, he looked at Xia ruofei and said respectfully, ""Master, junior uncle Zheng's last words must be to send us some kind of message!"

Xia ruofei nodded and said, "it's not hard to guess!" What he wanted to say was definitely sword Kinesis flight. Since Qingfeng Luo and Zheng Yongshou were able to travel such a long distance from your sect's star Island to Ye City in Nanhai province on their flying sword, it means that when they arrive at evates Island, they will most likely not choose to take a boat or a helicopter, but a flying sword!"

"Master is wise!" Wang Boshan said with admiration.

Xia ruofei waved his hand. "Let's not worry about this for now. You should hurry up and book the tickets according to Zheng Yongshou's request!"

"Yes! Master!" Wang Boshan quickly said.

He quickly booked tickets for Qingfeng Luo and Zheng Yongshou from Ye City to Kuala Lumpur, Malaysia, and then transferred to Australia's BlackBerry. After that, they would switch to a passenger plane to evac.

This was already the best route because Ye Cheng did not have a direct flight to Lisbon, so they could only add a transit in Kuala Lumpur.

The flight from Ye Cheng to Kuala Lumpur would take off in about two hours. After Wang Boshan booked the ticket, he quickly sent the relevant information to Zheng Yongshou and called him.

On the phone, Wang Boshan used a secret code to send a simple message to Zheng Yongshou, similar to "the situation is known, and the corresponding arrangements have been made."

Xia ruofei had specifically instructed him to add this before he had called.

Xia ruofei watched as Wang Boshan finished his call. He sat on the sofa and pondered for a moment. Then, he said to Li Yifu, "Looks like I've still underestimated the ability of an early golden core cultivator! He was actually able to carry Zheng Yongshou on his flying sword for such a long distance ... I still don't know enough about golden core cultivators!"

"Grand uncle – Master, what about the follow – up plan ..." Li Yifu asked hesitantly.

Xia ruofei laughed and said, "it's okay. As long as Luo Qingfeng falls into the trap, it won't be easy for him to escape!" However ... Since it's very likely that they'll land on the island directly, I'll still have to go and check it out again to avoid giving themselves away at the last minute!"

#### Chapter 2730 The heavenly network (1)

Xia ruofei went straight to the helipad on the roof. The Super Jaguar was still parked there, but the pilot was no longer on Paradise Island. However, Xia ruofei had received simple helicopter piloting training when he was in the Army. He had also ridden this super Jaguar a few times. With a cultivator's learning ability, it was not a big problem for him to fly the plane.

Of course, Xia ruofei's greatest confidence was that even if Yingying had a flight accident, he had the spirit map scroll and was absolutely confident that he could escape.

As soon as he knew that Luo Qingfeng was likely to come on his flying sword, Xia ruofei immediately decided to survey the island from the sky. Some of the disguises and arrangements that he and Li Yifu had made on the island were almost flawless from the ground. However, the observation angle in the sky was different. If they left any flaws, Luo Qingfeng would immediately be on guard, given his cautious character.

All the staff members on the island had returned to their countries, so they had to do all the work themselves. Xia ruofei unlocked the helicopter's wheel and entered the cabin. He familiarized himself with the cabin and checked the oil level.

Fortunately, the fuel tank was full, or Xia ruofei would have to personally refuel the helicopter.

After the inspection, Xia ruofei started the engine of the helicopter. The propeller started to spin slowly and the speed became faster and faster. It brought up a strong wind and blew away the dust on the parking lot.

Xia ruofei slowly lifted the helicopter and it rose vertically. He pushed the control lever slightly and the helicopter started to fly forward.

At first, Xia ruofei's operation was a little rusty. However, he had learned how to pilot a helicopter before. Even if it was a crash course, he was still very familiar with the operating principles. The strong learning ability of a cultivator allowed him to get used to flying very quickly, and his movements when piloting the helicopter became smooth and natural.

After the helicopter took off, Li Yifu and Wang Boshan realized that Xia ruofei had gone to the tarmac on the roof to fly the helicopter. They couldn't help but break out in cold sweat.

Li Yifu said anxiously, "it's too risky for grand uncle – Master to do this!" What if we ..."

Li Yifu stopped mid – sentence, perhaps because he felt that his words were a little inauspicious.

Wang Boshan also stood in front of the floor – to – Ceiling window and looked at the helicopter that was climbing. He said, "Mr. Li, since the owner dared to open it, it means that he is confident. You don't have to worry too much."

"But as far as I know, grand uncle – Master has never flown a helicopter before!" Li Yifu sighed.

"Master, didn't you fly a large aircraft to force a landing?" Wang Boshan smiled and said, "the principle should be similar! Besides, master's cultivation is so high that he can deal with any situation calmly!"

As Xia ruofei's soul slave, Wang Boshan had a blind admiration for Xia ruofei. In their eyes, their master should be omnipotent.

"I hope so ..." Li Yifu sighed slightly. "Senior granduncle should have brought me along. If something really happens, I can take care of him ..."

He did not know that it would be even more inconvenient for Xia ruofei to bring Li Yifu along. If he were to fly the helicopter alone and the helicopter went out of control, he could just hide in the spirit map space. However, if he brought Li Yifu along, it would mean that the spirit map space's existence would be exposed. Hence, he would definitely not do that.

After Xia ruofei familiarized himself with the flight controls, he drove the Super Jaguar around Paradise Island. He repeatedly checked the "ancient cultivator ruins" that he and Li Yifu had set up at various altitudes.

Of course, he didn't dare to fly at a very low altitude, because the helicopter would create a large amount of airflow, which could destroy the traces of the previous arrangement.

Xia ruofei flew the Super Jaguar for more than an hour. He looked left and right a few times and found three or four places that could have been overlooked.

Although these places were not obvious, they were not perfectly disguised. Looking down from the sky, it was hard to notice unless one was already on guard and had been looking very carefully. However, since Xia ruofei had already checked, he would not let go of such an oversight. He would not allow any possibility of an accident to exist.

After making sure that he had checked everything, Xia ruofei then flew the Super Jaguar helicopter back to the landing strip on the roof of the project department building.

The wind on the island was relatively strong, and the airflow was not particularly stable. In addition, the parking area on the roof was actually relatively small, and there was very little room for error. Once the landing operation was not accurate, it was possible to crash the plane.

After all, Xia ruofei was not a professional helicopter pilot. He tried two or three times, but every time he was about to land, he would deviate a lot. So, he would pull it up again and land again.

Li Yifu and Wang Boshan had been waiting on the rooftop for a long time. Seeing this scene, they couldn't help but worry for Xia ruofei.

Fortunately, Xia ruofei was a cultivator of the ninth level of the Qi refining stage. His learning ability and adaptability were very strong. He quickly mastered the technique of landing accurately when the airflow was turbulent. After a series of complicated and precise micro – Operations, he finally landed the helicopter steadily. He landed right on the “H” parking spot without any deviation.

Xia ruofei turned off the engine and jumped out of the cabin with a smile. Then, he personally closed the lock and walked towards Li Yifu and Wang Boshan.
