

## God tier Farm 2791

### Chapter 2791 Everyone's attention (2)

Live streaming technology was very advanced now. Jia Tianning and Shen fangjian didn't need the director's reminder. They could see the real – time comments of the netizens on the screen in front of them. The two looked at each other and tacitly ended the topic.

.....

At this time, the Camp Nou stadium was almost full. At least 90000 fans had poured into the stadium, which could accommodate 100000 people. They ridiculed the influence of the Cattleya Derby in the stadium, which was no less than the National Derby between Barcelona and real Madrid.

In the away team's locker room, Ruby was using a passionate tone to boost everyone's morale.

The tactical arrangements had already been laid out. What he had to do now was to eliminate everyone's tension.

In fact, there was no need to mobilize the players at all in the game. Each of the players was full of fighting spirit.

Xia ruofei sat next to Wu Lei. His temporary translator, Richard Ruby, was trying to boost the morale of the team. He spoke very fast and his tone was very passionate. With Wu Lei's current level of Spanish, it was difficult for him to understand.

The singing on the field outside could still be vaguely heard in the locker room. Although the game had not started yet, the bar? a fans had already begun to entertain themselves, especially in the North grandstand behind the northern goal area. This was the area where the bar? a fans gathered, and now they were singing and dancing.

At the front of the stadium, in the podium area, there was a box reserved for the visiting team's top brass.

At this time, the chairman of the Spanish club, Zhou leiyun, was in this box.

Naturally, Song Wei and Ling Qingxue were also invited by Zhou leiyun to watch the battle.

Other than the three of them, there was a middle – aged Chinese man in a navy blue coat sitting beside Zhou leiyun.

At that moment, the camera happened to be focused on this room. Because Zhou leiyun was the owner of the Spanish team, and there were also two Oriental beauties, Ling Qingxue and Song Wei, in the room, the camera paused for a few seconds.

This scene immediately caught the attention of Shen fangjian and Jia Tianning, who were far away in China's broadcasting studio. However, the first person they noticed wasn't song Wei, Ling Qingxue, or Zhou leiyun. It was the middle – aged man in the long woolen coat.

Shen fangjian said in surprise, "we saw the Vice President of the Chinese Football Association, Mr. Zhao Zhenghao, in the box of the nokapu stand!" He's sitting with the chairman of the Spanish club, Zhou leiyn. This is really an unexpected discovery!"

"We can make a bold guess. Could it be that Vice – President Zhao went to Spain specifically for Xia ruofei?" Jia Tianning said, "a few days ago, the netizens called for the Chinese Football Association to recruit Xia ruofei. The Chinese Football Association also showed a positive attitude, and Xia ruofei himself expressed his willingness to serve the country. It's just that some details need to be discussed. Today, we saw Vice President Zhao appear in the nokapu stands. Could he have specially gone to Spain to meet Xia ruofei?"

"I think it's more likely!" Shen fangjian said, "after all, the national team has no match at the moment and we haven't heard any news of cooperation between the Chinese Football Association and Spain. Vice President Zhao might really be going to Spain for Xia ruofei!"

Shen fangjian sighed, "it seems that we can look forward to Xia ruofei wearing the national team's uniform!" China's football needs a hero who can lead us out of adversity! Would Xia ruofei and Wu Lei be the heroes? I think the possibility is very high!"

The fans in the comments section were also excited. Just a scene broadcasted before the game made the fans start to imagine how much the national team's combat effectiveness would improve after Xia ruofei joined.

A fan listed the changes that Xia ruofei would bring if he joined the national team. Once Xia ruofei joined the national team, he would definitely be the first free kick player. Everyone had seen his performance in the last game. Moreover, in an interview with the media, Wu Lei revealed that Xia ruofei had used an accurate free kick during training and was unrivaled in the Spanish team. Everyone unanimously acknowledged Xia ruofei's free kick skills.

Other than that, Xia ruofei could also take on the position of a striker. He was fast, had a strong ability to break through with the ball, had good aim when he shot, and had all the qualities of an excellent striker. The attacking midfielder did not seem to have any problems either. Xia ruofei had repeatedly shown that he did not look at anyone passing the ball as if he had eyes in the back of his head. This showed that he had a good vision and a strong sense of the overall situation.

In the end, everyone found that it seemed that he could play any position in the front field, except for his height, which was not particularly prominent and might not be suitable to play as a center forward. He was definitely stronger than the current players in the same position in the national football team.

As a result, the Chinese fans who were watching the game had already collectively become high before the game even started.

There were also fans who greedily said, "It would be great if there were five Xia ruofeis and one Wu Lei. The attacking power of the national football team's front field would be heaven – defying!"

"Why don't you just say that you'll give us 11 Xia ruofeis?" one of the fans teased.

The fan in front replied seriously, "I don't think President Xia can be the goalkeeper. Besides, there's no need to trouble President Xia with the dirty work! Although the national football team's defense is also

very bad, if there are five CEO Xia in the front field, one at the back, and CEO Xia scores two, it will be fine!”

“Hahaha! I feel that the OP’s words make a lot of sense!”

“I can’t even refute that!”

.....

Nokapu Stadium.

The referee had already blown the whistle outside the locker room to signal the players to get ready to play.

Ruby finally stopped his spittle – flying speech and patted the shoulders of each starting player one by one. “Young lads! Let’s give Barca a profound lesson! I believe in you!”

With that, he put on his coat and took the lead to leave the locker room and head to the substitutes ‘bench on the sidelines.

Xia ruofei, Wu Lei, and the starting players of Espanyol also walked out of the locker room and headed for the players ‘passageway.

On the other side of the home team’s locker room, Barcelona’s starting players also came out. They would gather at the players ‘passageway and, after a short stop, they would play together under the leadership of the referee team.

Xia ruofei took a look and found that Barcelona had sent their strongest lineup without any suspense, including Messi, zuáres, Busquets, lakitic, cutinho, and so on. Each of them was a famous star player and could be said to be a star. The reputation of the universe team was well – deserved.

In particular, Messi was recognized as one of the two best players on the planet. The other was naturally CRO, but unfortunately, he had transferred to Juventus in Serie A this season.

Because the two teams were arch – enemies in the same city, the players on both sides did not like each other. Everyone did not greet the familiar players of the other team like in other games. Everyone stood in place with cold faces, waiting for the time to play.

In fact, everyone was making a living in LA Liga. There must be players on the two teams who were familiar with each other. Some of them were even teammates on the national team. However, at this time, they would definitely not exchange pleasantries with each other. There were also cameras in the player’s passageway. What happened here could be seen on the big screen of the stadium and on the television broadcast.

Whoever wanted to have an intimate conversation with the opposing players at this time would be drowned by the fans ‘saliva.

After a short wait, the four members of the referee team led the players from both teams out of the passage.

As soon as the starting players of both teams appeared, deafening applause suddenly rang out on the field. This applause was naturally for the home team, Barcelona.

The captains of both sides chose sides, exchanged team flags, and took photos with the referees.

Then, the starting lineups of the two teams were also taken together. Everyone returned to their respective positions, stretching their bodies while waiting for the referee to blow the opening whistle.

Xia ruofei's position was behind the center, iglesias, and on both sides of him. On the left was No. 23 Granello, and on the right was No. 24, Wu Lei.

Wu Lei and Iglesia stood in front of the ball and looked at the first half, which was kicked off by Spain.

Wu Lei turned to look at Xia ruofei and saw that Xia ruofei had made a hidden hand gesture, indicating that he should pass the ball to him.

Wu Lei immediately nodded slightly to show that he understood.

At this time, the referee pressed the timer on his watch and blew the whistle to start the game.

The explosive Derby in Catalonia had officially begun!

Iglasias jabbed the ball and passed it to Wu Lei, then ran to the front field.

Wu Lei, on the other hand, did not hesitate at all. He used his foot bow to push the ball to Xia ruofei, who was not far behind him. Then, he followed Xia ruofei's instructions before the game and rushed to the backfield of bar?a in big strides ...

Chapter 2792 A dream start (1)

After Xia ruofei received the ball, Barcelona's arrow, zuyares, was also running to the Espanyol's backfield. He did not come over to interfere with Xia ruofei.

Hence, Xia ruofei took two steps forward, and Busquets came in front of him. He did not rush to grab it, but instead blocked his position. On his other side, lakitic was also very skilled in approaching Barcelona to close in on them. They had basically blocked Xia ruofei's forward pass route.

Xia ruofei's mind raced, and he took another step forward.

Busquets was slightly delighted. Xia ruofei's kick was a little too big. Although the ball was closer to Xia ruofei, the football was moving in Busquets' direction. In this way, the ball was actually in a 50 – 50 situation.

Busquets made the decision to grab the ball in an instant. He kicked his feet and rushed toward the football.

However, Xia ruofei's speed seemed to have increased in an instant. The distance between him and the ball was rapidly closing and he managed to control the ball before Busquets could.

At this time, Busquets' speed had already increased. Xia ruofei nimbly pushed him forward and easily brushed past him.

Under the effect of inertia, Busquets could only watch as Xia ruofei passed him.

Barça's rear defensive line was slightly out of touch, and now there was a wide expanse of flat land in front of Xia ruofei.

However, he did not continue to dribble the ball to tease Wu Lei as he was cutting forward at high speed. If Xia ruofei continued to dribble, Wu Lei would be in an offside position.

Hence, after Xia ruofei passed Busquets, he decisively swung his leg and sent out a long pass.

Xia ruofei's leg swing was not big, but it was strong.

The football streaked across a beautiful white trajectory and fell to Barça's backfield.

The moment Xia ruofei made his move, Wu Lei had just crossed Barça's defensive line and was in a perfect anti – offside position!

Many Barça fans had not yet switched their thoughts to the game. Some people were still eating the popcorn they had bought in the stadium while talking loudly.

By the time they reacted, they had already seen a blue figure leap out from behind the back like a cheetah and rush at high speed in the direction of the football's landing point.

The Barça fans suddenly had goosebumps and immediately booed loudly. The entire Stadium was filled with the boos of the fans.

Xia ruofei's pass was a little too powerful, so the ball was very fast. However, the drop point was very accurate. It was just five or six meters in front of Wu Lei. This distance allowed Wu Lei to fully utilize his speed advantage.

Although the speed of the ball was fast, the ball did not move forward when it landed. After Wu Lei sped up, he took advantage of the situation and kicked forward, forming an absolute opportunity for a single knife.

However, the position was slightly off. The center forward was Iglesias – Wu Lei's position was on the side, and Xia ruofei could not pass the ball too close to the middle.

Seeing this, Barcelona's goalkeeper, terstegan, did not hesitate to abandon the goal and rush out in the direction of the football. At the same time, he opened his hands and tried to expand the defensive area.

The ball was a little off the mark, and the goalkeeper on the other side attacked decisively, so Wu Lei's shooting space was a little small.

Behind him, pique and longrai, the two Center – backs, were giving chase. At the same time, the Spanish center – forward, iglesias, and Xia ruofei, who had passed the ball, were also cutting into Barça's backfield at high speed.

Wu Lei knew that he could not hesitate. Otherwise, he would either completely lose the angle of the shot, or the Barça full – back would catch up behind him and destroy the ball.

So, he looked up to observe as he chased after the football.

After catching up with the football, Wu Lei did not hesitate to aim at the far corner and give a push shot.

He used a foot bow in the hope of ensuring the accuracy of his shot as much as possible.

It was a ground ball, and the football rolled straight toward the far corner of the goal.

Barça's tall goalkeeper, terstegen, quickly got off the ground, stretched his body as much as possible, and reached out to intercept the ball.

However, the angle of Wu Lei's shot was very wide, and the speed at which terstegen got off the ground was slightly slow, so by the time he pounced over, the football had already passed his ten fingers.

As terstegen fell to the ground, he looked up at the goal behind him. At this time, he had no other choice but to pray that the goal would not be scored.

However, Wu Lei's control of the ball was very precise. After the football hit the far corner of the goal post, it did not bounce back, but was deflected into the goal.

When the football bounced and stopped in the net, the time shown on the scoreboard was only 23 seconds!

There was a strange silence in the stadium. Everyone was stunned by the unexpected scene. The fans even felt like they were having a nightmare.

It was not until Wu Lei roared crazily at the sky and then turned to Xia ruofei, who had given him a nanny – like assist, that the Barça fans reacted. They hissed desperately to express their dissatisfaction.

In the front field, Messi had his hands on his waist and his eyes were a little confused.

He could not understand what was going on at all. The game had only been going for 23 seconds, and he had just run to the Espanyol's backfield. As a result, when he turned around, he saw Wu Lei shoot the ball accurately into the net from a wonderful angle.

He was falling behind? Messi frowned and thought.

Barça had always looked down on Espanyol. Although the Catalan derby was always explosive, in fact, Barça still won most of the games. After all, there was still a big gap between the two teams in terms of absolute strength.

Chapter 2793 A dream start (2)

In the eyes of the mesis, this game was just a regular way to get points.

But now, the cruel reality told them that Barça had fallen behind.

The substitutes' bench in Barcelona were also full of dumbfounded faces. The head coach, valvertyé, could not believe his eyes. He grabbed his hair with both hands, his mouth wide open, and stared at the field in shock.

The substitutes' bench for the away team, RCD Espanyol, became a sea of jubilation. The substitutes who had just taken their seats all rushed out at once, while the manager, Ruby, jumped up and waved his fists in excitement.

There was nothing more dreamy than this opening! It was equivalent to the Spaniards starting the game with a score of 1 – 0! Who would dare to think of such a thing before the game?

Ruby looked at Xia ruofei and Wu Lei in the arena, his heart filled with emotions.

Loud cheers could also be heard from the private room where Song Wei and Ling Qingxue were. The sound was from Zhou leiyun, who was dancing with joy.

Ling Qingxue and Song Wei did not feel that way. Even though Xia ruofei was the one who assisted, the one who scored was Wu Lei! So, the two of them only clapped for a while in the room.

On the other hand, Zhou leiyun and Zhao Zhenghao, the full – time Vice President of the Chinese Football Association, were so excited that they hugged each other.

China was also in an uproar because of this ball.

In the PP sports studio, when the goal was scored, Shen fangjian and Jia Tianning did not even have time to complete the routine operation of the broadcast. Jian Jia introduced the starting lineup of both teams.

“Dear audience members of PP sports, with the whistle of the referee, the eye – catching Catalan derby has pulled open the curtain of the battle! We saw Wu Lei pass the ball back to Xia ruofei. Xia ruofei quickly dribbled the ball and took two steps forward. Xia ruofei was a little clingy! Busquets and Iakitik had already formed a siege on him! He continued to dribble the ball forward, and the ball was a Little Big! If you want to throw ...”

“Wait! Xia ruofei suddenly sped up like a fighter jet with its Afterburner on! He touched the ball first and dodged Busquets with a wave! Xia ruofei made a long pass! Wu Lei is plugging in at high speed, he caught up with the ball and is going solo!”

“Terstegan decisively abandoned the goal and went out. Wu Lei looked up and observed, and Wu Lei shot! The ball ... The ball went in! The ball went in! It had only been 23 seconds since the start of the match, and the two Chinese players had formed a line. In the end, Xia ruofei had dealt the fatal blow! This opening is way too dramatic!”

Jia Tianning looked at the broadcast and smiled.”“Look! After Wu Lei scored, he rushed to Xia ruofei and hugged him tightly. This scene was simply too beautiful! A few months ago, we didn’t even dare to imagine such a scene!”

“Barça’s star players are dejected. It’s clear that the flash goal has hit them hard. Messi looks very confused. He clearly doesn’t know what happened in those short 20 seconds!” Shen fangjian said.

At that moment, the television broadcast began to replay the goal.

“I think 80% of the credit for this goal should go to Xia ruofei!” Shen fangjian said,”his pass was so accurate that it was like a guided missile! Alright, let’s take a look at the slow motion ...”

“After Xia ruofei receives the ball, it’s crucial for him to get past Busquets!” Shen fangjian continued,”of course, his pass was also of a very high level! Wu Lei is very comfortable when he catches the ball!”

After the slow – Motion replay from multiple angles, Shen fangjian smiled and said, ""Alright! I take back what I just said. Wu Lei also played at a very high level in this goal. The angle of the shot was already very small, and at the moment of his shot, bar?a's Center back, pique, who chased back to the penalty area, did not hesitate to shovel! The space left for Wu Lei was already very small, but the result was that Wu Lei's shot went through the narrow only passage and sent the ball into bar?a's goal! This shot is not easy!"

At this time, Wu Lei had finished celebrating the goal and was walking towards the field with his teammates.

Wu Lei, who was still feeling a little dizzy, had just scored a goal? And the one who was broken was bar?a, whom he had once envied.

In the PP sports studio, Shen fangjian said, ""We want to congratulate Wu Lei for becoming the first Chinese player to break through Barcelona's goal!"

"I was more optimistic about Xia ruofei." "I didn't expect Wu Lei to be the first to complete this achievement!" Jia Tianning said.

"As long as our Chinese players score, it's something to be happy about!" Shen fangjian said with a smile, "every touch they made today is history!"

.....

The football was placed in the center circle again. None of the players on the field had touched the ball just now, and they had not even sweated in such a short time, but the score had fallen to 0 – 1.

After a brief moment of shock, the bar?a players were burning with anger.

Since when could a small club like RCD Espanyol arm – wrestle with Barcelona? We have to show them what we're made of!

This time, it was bar?a's turn to kick off the ball.

Suyass and Messi stood in front of the ball, while the other mid – Field players all stood behind the center line. They were lined up in a charging posture, waiting for the referee to blow the whistle.

The message conveyed by the bar?a players 'attitude was very obvious, which was to bombard and set off wave after wave of attacks to beat the Spaniards into the mud!

The whistle sounded, and the match resumed.

After bar?a kicked off, the players in the middle and front fields immediately rushed past the center line, and the football was quickly sent forward.

Bar?a was a team that was very good at control. It could be said that the ball was at their feet, and it was very difficult for the opponent to snatch it. Their conduction was too skilled.

The RCD Espanyol players did their best to defend, and even iglesias retreated to their own half to participate in the defense. Xia ruofei and Wu Lei retreated even deeper, to the front of their own penalty area.

Barça's little cooperation played well. The ball was at their feet and the Spanish players had a hard time snatching it.

For a time, the Spanish team's penalty area was jittery.

Xia ruofei could see that his teammates were a little nervous. After all, they were facing the powerful Barça.

As he cooperated with his teammates to defend, he used his mental power to observe the situation on the field and constantly changed his position.

In just five minutes, Barça had already completed two shots at the goal.

Every kick was quite threatening, and one of them was a slide shot from Suarez who had fallen to the ground near the penalty spot. The other shot was even more threatening. After Messi got the ball on the right side, he cut inside along the line of the penalty area and deftly dodged Mark Roca's grab. He found space to shoot at the goal and did not hesitate to make a shot.

The football drew a large arc and flew toward the far corner of the goal.

Seeing that the ball was about to go into the net, the Spanish goalkeeper, Diego Lopez, rose into the air and flew towards the ball with all his might. His body was completely stretched out, and when his fingertips touched the ball a little, the trajectory of the football changed a little, causing it to hit the crossbar and fly out of the end line.

It could be said that if Diego Lopez had not touched the ball, the ball would definitely have gone straight into the dead end of the goal!

After Diego Lopez dedicated such a godly save, he got up from the ground amidst the loud sighs of the Barça fans in the stadium. He raised his arms and shouted, "Get your spirits up. We can't give the other team a chance to shoot!"

Messi held his head in his hands, and his face was filled with disbelief.

The moment he made his move, he felt that the ball was there. He did not expect that Diego Lopez would be able to pounce on it. This goalkeeper was getting more and more demonic!

Barça issued a Tactical Corner kick and reorganized the attack.

Xia ruofei was still roaming around the periphery of the restricted area. He kept adjusting his position like a hungry wolf looking for an opportunity ...

Chapter 2794 A Dragon (1)

Messi was very active in the past few minutes. After he took the ball in front of the penalty area and did a wall – colliding combination with Coutinho, he deftly broke into the penalty area.

Messi's characteristics were very distinct. His pace was very fast and he was always able to grab the ball in front of the opponent. His movements to break through the opponent were not large, but the effect was very obvious.

After Messi took the ball, he looked up and found that the one defending him was actually Xia ruofei, who had been pulling the ball away from Barça's passes. The Espanyol's rear defensive line also changed positions frequently, and Xia ruofei just happened to fill in the position.

Messi was a little happy. He knew that Xia ruofei was an offensive player. Such players were often not as experienced as professional defenders in terms of defense. They lacked defensive techniques, actions, and experience. That was why Messi himself was so lacking. In fact, he was basically not involved in the team's defense, unless the situation was very passive.

Originally, Suárez had already run out of an empty space in the middle, and Messi had the opportunity to send the ball to Suárez's side. However, when he realized that Xia ruofei was defending him, he gave up on the attempt to pass the ball and decided to bypass Xia ruofei.

As long as he could break through Xia ruofei's line of defense, there would be a lot of space for him to shoot.

Messi's movement to pass the ball was very simple. He took the ball and rushed straight towards Xia ruofei, the frequency of his small steps was very fast. Xia ruofei, just as Messi had judged, rushed to block the ball.

Messi poked the football with confidence and then quickly poked the ball in the opposite direction. Many experienced defenders would be swayed in the face of Messi's extremely fast change of direction.

Even if he knew that Messi would do this, his body could not react in time. After losing his center of gravity, his body would be in a deadlock, and he could only watch Messi pass by.

Therefore, the fans who often watched the highlights of Messi's play knew that some of his passes were not fancy moves, but the defensive players were like wooden stakes, watching Messi pass without doing anything.

In the face of Xia ruofei's defense, Messi still used his most familiar breakthrough method.

When Messi kicked the ball to the left, Xia ruofei leaned his body to the right and extended his leg to intercept.

A hint of joy flashed in Messi's eyes. He did not stop his feet and immediately made a reverse poke.

At this moment, Xia ruofei was already leaning to his right. His center of gravity had also tilted to the right. Under normal circumstances, it was impossible for him to adjust in an instant.

However, in the next second, Messi could not help but stare at Xia ruofei with his eyes wide open, as if he was not affected by the laws of physics at all. After his second pass, Xia ruofei's tilted body suddenly straightened up. At the moment he passed the ball, Xia ruofei's left foot also stretched out and just hit the football.

The football immediately bounced up.

At this time, Messi was still in a brief state of shock, but Xia ruofei reacted extremely quickly. After intercepting the ball, he immediately raised his right foot and flicked the ball lightly. He flicked the football over Messi's head and hid behind him.

At this time, Messi was still in a forward posture. He also felt the helplessness of his opponents' loss of center of gravity. The idea in his mind was to immediately turn around and press on the spot, but his body was completely out of control and was stiff in place.

Xia ruofei was like a cheetah. After a beautiful flick, he immediately rushed forward and firmly controlled the ball.

The first 1V1 match between Messi and Xia ruofei ended with Xia ruofei's complete victory.

When Xia ruofei grabbed the ball and started to pick it up to pass the opponent, his spiritual power had already swept out.

He found that the Spanish players had retreated very deep. Not only did the midfielders and attacking midfielders return to the vicinity of the penalty area to participate in the defense, but even the strikers had also retreated to the front of the penalty area to support Barcelona's smooth attack, pressing down on the Spanish formation.

Even Wu Lei and Iglesias did not expect Xia ruofei to be able to complete the interception against Messi so cleanly. Therefore, they did not speed up and sprint towards Barça's half of the field.

Hence, even though Xia ruofei managed to catch the ball by surprise, there was no place for him to pass the ball.

After the Barcelona team lost the ball, they would launch a counter – grab on the spot, and they had been very familiar with this kind of siege.

Xia ruofei had just unloaded the ball when he immediately sensed three or four opposing players approaching him at the same time with his spiritual power. Messi, who was behind him, had already turned around and quickly caught up.

Xia ruofei was faced with the fate of being chased and blocked.

In fact, Espanyol had also intercepted before, but without exception, they were all counter – intercepted by Barça.

There was no teammate in the front field to receive him, and behind him was their own penalty area. Messi had also come back to catch up. Xia ruofei naturally could not pass the ball back. Otherwise, once he made a mistake, it could be fatal.

He had made the best decision in an instant to break through.

Xia ruofei did not expect the attack to pose any threat. He felt that as long as the football was as far away from the penalty area as possible, it would be considered a success.

From the moment he intercepted Messi's interception to the moment he made this decision, it was basically a matter of a flash of thought. After he made up his mind, Barcelona's attack was the first to press forward.

Xia ruofei was not flustered at all as he faced Barça's fierce attack. He did not hesitate to use a very realistic cow tail movement and directly passed Barça.

## Chapter 2795 A Dragon (2)

After passing Messi and artil in a row, Xia ruofei took a big step forward and then rushed forward like a fully – wound spring.

Bar?a had just maintained their offensive formation. The moment they turned from attack to defense, there would definitely be a loophole. Xia ruofei's movements were extremely fast as he passed Messi and artil. There was no pause in his opportunities. Therefore, although several of Barcelona's players in the middle and backfield also quickly moved closer to them, they were still a little far away.

Xia ruofei wanted to kick the ball out before they could surround him.

Xia ruofei's speed was very fast. Before Busquets and lakitik could form the door, he passed through the gap between the two like a flash of lightning.

There was a wide expanse of flat land ahead!

No one could stop Xia ruofei's speed.

At this time, Xia ruofei was the person closest to Barcelona's goal. His teammates, including Wu Lei and iglasias, were all behind him.

Hence, Xia ruofei did not have any other thoughts and rushed forward with the ball.

Xia ruofei's speed was very fast. In the blink of an eye, they had already crossed half the stage. At this time, the right back, Semedo, rushed over from the side with a very strong momentum. He had obviously made up his mind that even if the ball passed, he would not let him pass! Even if it meant getting a yellow card.

Bar?a's rear defensive line was not in place yet, and Xia ruofei was already facing the defensive players directly. It could be said to be very dangerous.

However, he still miscalculated.

Some people couldn't be kept even if they wanted to.

Xia ruofei first made a rough jump to the ball and dodged the ball that was coming for him. Then, he passed by the other side of the ball and ran in a big arc toward the ball.

The experienced Semedo used his shoulder to RAM into Xia ruofei.

At this moment, Xia ruofei's body was leaning very hard to resist the centrifugal force.

If it had been any other player, he would have lost his balance and fallen.

If he could do that, he would be satisfied.

What's more, there was a possibility that the referee would think it was a reasonable collision. In that case, he wouldn't even need to take a card and could resolve the opponent's most incisive attack.

However, after he hit Xia ruofei, it was as if he had hit a steel plate. He could not help but fly out.

He had thought that if he could not break Xia ruofei's balance, he would throw Xia ruofei down and stop him from going deeper into the territory. However, not only did the collision not knock Xia ruofei down, but he was also sent flying backward. Naturally, he did not have the chance to commit a tactical foul.

However, Xia ruofei did not seem to have been affected by the foul. He did not slow down at all and caught up with the ball very quickly.

Xia ruofei's kick was very powerful. It was more like a pass than a man – ball pass. However, the target of the pass was not any of the Spanish players, but himself two or three seconds later.

Previously, Xia ruofei had only wanted to get the ball as far away from the penalty area as possible to give the team some breathing space. But now, Xia ruofei had an even bolder idea.

Now, the only one in front of him was the bar?a Center – back, pique, who was jokingly called “see through by pique” by the Chinese fans.

There was an interesting story behind the nickname that Chinese fans had given him, “see through the skin.”

12-13 At the start of the season, Real Madrid played against Barcelona. Before the game, pique said in an interview that he could see through all of Crick's feints. As a result, Crick was able to heel through him during the game, so his nickname of pique seeing through became famous!

In an interview with the reporters yesterday, piker said, “I know that Spain has brought in more than one Chinese player. What I want to say is that the strength of the Chinese players can not meet the requirements of La Liga at all. The Spanish team brought them in just for marketing, for the huge Chinese market! Wu Lei and Zhang Chengdong from valekano are the same!”

When pique's words spread to China, it naturally caused strong dissatisfaction among the Chinese fans.

Although Wu Lei's strength was not particularly strong in European football, he could not be ridiculed by others. Not to mention that Wu Lei had a certain ability, and it was not entirely a product of marketing, as piker said.

Of course, pique himself did not care about Gong Jie's big mouth. It was not the first day or two that he had offended so many people. He did not care about another group of Chinese fans.

Now, when Xia ruofei, a Chinese player, was facing piker, the live broadcast room was still very lively even though it was already past two in the morning. Everyone wanted Xia ruofei to teach piker a lesson!

Pique also knew that he was the team's last line of defense. He looked at Xia ruofei, who was dribbling the ball and quickly approaching the penalty area. He gritted his teeth and went up to tease him. He knew that Xia ruofei's feet were hard and extremely accurate. If he did not rush up in time and let Xia ruofei have the chance to shoot calmly, the team was likely to be behind by two goals in just ten minutes. That would be terrible.

Therefore, pique had no other choice but to face it head – on.

The distance between Xia ruofei and pique was rapidly shrinking. Pique stared at the ball under Xia ruofei's feet and did not rush to make a move. He did not want to take the risk to intercept the ball. In fact, he only needed to block the angle of Xia ruofei's shot and delay Xia ruofei for a moment. Then, the

Barcelona players who were chasing back would be able to return to their positions, and the opportunity for a quick attack would disappear.

Xia ruofei's feet swept over the football and he did three bicycle – riding actions in a row. However, pique did not kick at all. At this time, the football's rolling speed had slowed down.

Xia ruofei kicked forward again, and pique took a step back, maintaining the best defensive distance.

At this time, Xia ruofei's right foot kicked the football to the right, as if he was going to break through from the right side. Pique immediately moved two steps sideways, still not thinking of intercepting the ball. He still focused on blocking the angle.

However, it was these two steps that exposed his weakness.

After Xia ruofei's right leg kicked the ball, he immediately landed on the ground and used it as a support. His left leg knocked back and used a very gaudy flower – arranged move to knock the football to the left.

If Xia ruofei had used the action of a bicycle, then piker would have been able to predict it in advance. However, Xia ruofei had chosen the flower – arranged feet this time, and the trajectory of the football was exactly the opposite.

The ball was knocked to the left by Xia ruofei. Piker did not expect Xia ruofei to do this, so when the ball passed by him, he did not react at all.

Xia ruofei stomped on the ground and his body shot out like an arrow from a bow. He ran past piker's right side and caught up with the ball in two steps.

Xia ruofei dribbled the ball into the penalty area. At this time, Barcelona's goalkeeper, telstergen, immediately abandoned the goal and went out, hoping to expand the defensive area by closing the distance.

At this moment, Xia ruofei had a chance to fight alone.

Facing the attacking telstergen, Xia ruofei did not use any fancy moves to pass him. Instead, he directly dodged to the side.

Telstergen quickly got off the ground and chased after the football, hoping to destroy the Spanish team's attack. However, he was still a little clumsy. Even though he had tried his best, the football only touched his fingertips. Other than making a little bounce, it did not change direction.

By the time Xia ruofei had stopped the ball, the opportunity had already reached the end line and the angle of the shot was already very small.

And another bar? a defender, Alba, finally arrived.

Telstergen had already been shaken off, and Xia ruofei was now facing an opening.

With such a small angle, Xia ruofei simply dribbled the ball two steps into the penalty area.

Alba was more than happy to do so, so he immediately shoveled over.

Xia ruofei pulled the ball and did a beautiful mark spin. Alba slid directly into the goal.

Because of the Marseille turn, Xia ruofei's angle of shot was a little wider.

At this time, telstergen had already pounced over again, but it was too late. Xia ruofei gently pushed with the arch of his foot and the football slowly rolled into the goal ...

...

Chapter 2796 Awe – inspiring everywhere (1)

When the football rolled over the goal line, the entire field was dead silent.

All of the Barça fans could not believe their eyes. Some of them even pinched their thighs hard to see if they were having a nightmare.

This gave the opponent a 2 – 0 lead? Moreover, after the other side intercepted, he dribbled the ball from the backfield all the way to the penalty area and went past all the players who could pass, even the goalkeeper. Then, he easily pushed open the empty goal. When did Barça's rear defensive line become like paper?

The Barça players could not accept the reality at all. Many of them were dumbfounded, while Messi stood near the center circle with his hands on his hips and looked up at the roof of the field with a confused look.

He did not continue to chase after Xia ruofei when he reached the center circle. One reason was that Xia ruofei's dribbling speed was extremely fast. He was pulled further and further away by Xia ruofei when he had no ball, so there was no point in chasing. The second reason was that he saw that his defensive players had quickly formed an encirclement and thought that the ball would definitely not be a threat. After all, the Spanish team did not have any players who could receive Xia ruofei in time.

However, Messi had witnessed Xia ruofei's crazy performance. When Xia ruofei passed telstergen, Messi knew that the goal was definitely out of the question. Sure enough, although Xia ruofei did not choose to immediately lift his leg at the zero – degree angle, he still easily passed the last defender, Alba. Then, he pushed the shot into the empty goal and succeeded. There was no change in receiving it.

In stark contrast to the Barça players, the Spanish players and coaches were ecstatic.

The players on the bench swarmed up and rushed towards Xia ruofei, who had run to the side of the field and was calmly waving in the direction of the VIP box to celebrate after the goal. He was suddenly drowned in the crowd.

Manager Ruby's eyes were wide open at first, as if he couldn't believe what he had seen. Then he ran in front of the substitutes' bench to celebrate.

The Spanish players on the field also wildly celebrated the beautiful goal that was enough to be selected for the Puskash prize.

In comparison, Xia ruofei was the calmest. He grinned and jogged to the corner flag area. He waved in the direction of the private room as a greeting to Song Wei and Ling Qingxue.

Immediately after, he was drowned by his own players.

The commentator who was broadcasting the game was also completely excited.

This battle was the focus of attention, and it was being broadcasted by many television stations around the world.

When Xia ruofei had just intercepted Messi, everyone had only gasped in surprise. However, when he passed the next Dragon, the commentators' emotions gradually rose. When Xia ruofei passed Barcelona's goalkeeper, telstergen, most of the commentators' voices were a little hoarse.

When Xia ruofei finally scored the goal, the commentators finally exploded with their strongest emotions. For a moment, the words "the ball went in" rang out in various languages on television in different parts of the world.

It was followed by a series of compliments.

In the capital of China, in the live streaming room of PP sports, Shen fangjian and Jia Tianning were also shocked by the goal.

"Messi and cutinho's wall – hitting combination! Messi has broken into the penalty area and the ball is in danger!" Shen fangjian said in a hurry, "defending against Messi is ... Xia ruofei ... A beautiful tackle! Xia ruofei didn't get swayed at all and snatched the ball away cleanly!"

Shen fangjian stared at the big screen and continued, "Arti's defense is in place, beautiful! Xia ruofei swung his ox tail past arti. He kicked the ball forward, and the ball seemed to be a little too big ... No! Xia ruofei's speed was extremely fast! Lakitic and Busquets 'closed – door defense could not stop Xia ruofei. He had broken through! Right now, there's nothing but flat land in front of him!"

After Shen fangjian said so much, he couldn't help but take a deep breath and immediately said, "Xia ruofei has already brought the ball to the front field! Bar?a's full – back, semeidone, has been brought in to this position! Woah! A beautiful person had passed the ball! Semedo tried to stop Xia ruofei with a tactical foul, but he couldn't even touch the corner of his shirt!"

"Xia ruofei has entered the Forbidden Zone! The goalkeeper, telstergen, attacked! Xia ruofei had bypassed the goalkeeper! There's an empty door!" Shen fangjian couldn't help but shout, "Xia ruofei has taken two steps back. The Barcelona defender, arti, has arrived!" He directly used the shovel! Ha! Xia ruofei used a Marseille turn and directly threw arti into the goal! Open the door! The ball went in! The ball went in! An unbelievable goal!"

"That was a beautiful goal!" Jia Tianning was also extremely excited, "a Super Dragon! Xia ruofei has cleared all the opportunities in Barcelona!"

"Let's watch the replay!" Shen fangjian said, "Xia ruofei successfully intercepted in their own restricted area. Then, he pushed his way through and finally hit an empty goal. After Xia ruofei's speed increased, he was really unstoppable! This goal is comparable to a Dragon from Maradona and Ronaldo!"

"It's definitely a goal to pay tribute to a senior. It will definitely become a classic many years later!" Jia Tianning said excitedly, "I counted again just now. From Messi to arti, lakitic, Busquets, then to Semedo, pique, telstergen, and finally, Alba, Xia ruofei's goal bypassed a total of eight people from Barcelona! He completely broke through bar?a from the front to the backfield!"

“The fans who stay up late to watch the game tonight are blessed!” Shen fangjian said emotionally, “once upon a time, it was a dream for us Chinese fans to even see our own country’s players in the top games. But tonight, two Chinese players joined forces to give us two wonderful goals. Wu Lei’s flash plays were also very beautiful, and Xia ruofei’s Super Dragon is even more so. It’s simply soul – stirring! I’m still trembling with excitement!”

“I just thought of pique’s pre – Match interview ...” Jia Tianning said with a smile, “I wonder if his face hurts now!”

Jia Tianning’s words resonated strongly with the Chinese fans. Many people climbed over the wall and left comments on piker’s Facebook. All of them had the same content: “See through your skin, does your face hurt?”

The message was also written in Chinese, Spanish, and English, and the content was the same.

Pique was still immersed in the frustration of conceding a goal. No one knew how he would feel when he saw his own social media comments section after the game.

In the away team’s box in nokapu’s grandstand, everyone could not help but stand up when Xia ruofei ran past people. When Xia ruofei finally sent the ball into an empty goal, the room burst into loud cheers.

Ling Qingxue and Song Wei hugged each other, laughing and jumping. Zhou leiyun and the full – time Vice President of the Chinese Football Association, Zhao Zhenghao, also clenched their fists and cheered. Then, the two of them shook hands tightly, their excitement overflowing in their words.

“Xia ruofei’s personal ability is too strong!” Zhao Zhenghao exclaimed.

“Vice President Zhao, President Xia’s ability is beyond doubt!” Zhou leiyun smiled and said, “if he can play for the country, then the national football team’s offensive power and control of the midfield will definitely be raised by several levels!”

“I hope this meeting will go well!” Zhao Zhenghao nodded. General manager Zhou, you didn’t tell Xia ruofei that I’m Spain, did you?”

“I didn’t tell him about this in order not to affect the game.” Zhou leiyun said, “I’ll make the necessary arrangements after the competition. I wish you a smooth meeting!”

“Hahaha! I’ll take your blessings!” Zhao Zhenghao said happily.

On the internet, after Xia ruofei and Wu Lei had each scored a goal in the game against Barcelona, the fans had already begun to celebrate.

Xia ruofei and Wu Lei’s names were quickly pushed to the hot search.

.....

On the court, Xia ruofei returned to his own half, surrounded by his teammates.

The bar? a fans in the stands finally came back to their senses. It had only been about ten minutes since the game started, and bar? a was already two goals behind. This ball was not going to be easy to play!

The barça fans reacted and began to boo loudly.

At this time, barça had already resumed their game. Xia ruofei was still active behind iglesias and often participated in the defense of the team's midfield.

Now, when facing Xia ruofei, the barça players did not dare to be careless at all. They rarely tried to break through Xia ruofei's defense. Once Xia Ruofei's defense was in place and there was a point to pass the ball, they would pass it out immediately. Even if they could not find a point to pass the ball, they would choose to return it immediately.

As a result, Xia ruofei often could not touch the ball.

Even so, every time Xia ruofei approached the barça players, loud boos would ring from the stands. The game had only been going for ten minutes, and barça was already two goals behind. If anyone had predicted this before the game, they would have been seen as crazy. The two goals were all related to Xia ruofei, especially the second one. It was a display of Xia ruofei's ability.

Espanyol's morale was greatly boosted, but unfortunately, they were much worse than barça in terms of strength. Barça's layered offensive routine made the Espanyol's rear defensive line nervous.

Unconsciously, Barcelona's offensive means became sharper and sharper, and the Spanish team's formation was naturally affected. Intuitively, the three lines were about to meet.

This was the most dangerous moment.

Ruby, who was on the sidelines, also woke up from the joy of Xia ruofei's goal. He saw the precarious situation on the field and could not help but frown.

In the face of Barcelona's pressing in the front field, they still wanted to turn the ball around. They would rather pass it back to the goalkeeper than make a Big Shot.

A fatal mistake finally appeared. Under the systematic pressure of barça, when Spain's Mark loca passed the horizontal pass to Naldo about fifteen meters in front of the penalty area, he made a mistake and used less strength.

Zuyares, who had been waiting for a long time, was like a cat that had smelled fish. He suddenly jumped out from behind Naldo and intercepted the ball.

He did not hesitate to send a straight pass diagonally forward. Messi's short and agile figure appeared on the path of the pass.

...

Single blade!

In the face of such an opportunity, how could Messi miss it?

He looked at Diego Lopez, who had attacked decisively, and deftly picked up the ball.

It was a flick shot!

Halfway through his attack, Diego Lopez quickly jumped high in the hope of taking the ball.

However, Messi's footwork was very accurate and Diego Lopez was also out of reach.

The football drew a perfect arc from the top of Diego Lopez's head and steadily fell into the Spanish goal.

Chapter 2797 Unity of will (1)

1 to 2!

After being snubbed twice in the opening stage, Barcelona finally recovered a point in the 30th minute of the first half with Messi.

In fact, before this mistake, there had already been a hole in Spain's defense. It was just that they were lucky and only lasted for about 30 minutes.

However, mark Rocca's mistake was too big. He passed directly to zujare s feet. After zujare's straight pass, Messi faced the goalkeeper alone. In the face of such an opportunity, Messi would probably score at least 90 times out of 100 times, and the result was unsurprising.

There was no celebration after Messi's goal. He went straight past Diego Lopes, who had fallen to the ground in frustration, rushed into the goal to pick up the football and then went straight to the center circle.

The Barça players just ran over and patted Messi on the shoulder, then surrounded him and ran to the center circle.

The meaning of the Barcelona players was clear. They did not want to waste a single second and hoped to resume the game as soon as possible.

After all, they were still one goal behind.

This was Camp Nou, their home ground. To be scored two goals in ten minutes by a mid – to – Low level team like RCD Espanyol, who was still struggling to stay in the first half of the league, was undoubtedly a disgrace for the stars of the universe team.

Wu Lei's and Xia ruofei's goals had successfully incited the anger of the Barça players, and they urgently needed to vent this anger.

Such a Barça team was more terrifying than ever.

Xia ruofei did not participate in the defense of the ball just now and was a little far from the point where mark Roca's mistake happened. When he saw Suárez intercept the ball and go straight for Messi, he already knew the result, so he did not even see Messi's final shot and went straight to the center circle.

Xia ruofei could not help but smile when he saw the many Barcelona players surrounding Messi as he placed the ball in the center circle and then quickly returned to his position. The game was getting more and more interesting.

Xia ruofei did not become nervous just because Barcelona scored a goal. He turned back to look at the Spaniard who was walking back to his position dejectedly and shouted, "Cheer up! We're still ahead of them! Quickly return to your position and don't make any more mistakes!"

As long as the Barça players returned to their own half, and the Spanish players were also in their own half, regardless of whether all the Spanish players were in their positions, according to the rules, the referee could blow the whistle and kick off.

Of course, because it was the Espanyol who had lost the ball, it was the Espanyol's turn to kick off this time. Iglasias and Wu Lei naturally would not rush to kick off before their own players had returned to their positions.

In fact, the Spaniards' mentality had changed a little. It could be seen from their current performance that they wanted to buy as much time as possible.

However, Xia ruofei was very clear that it was useless to blindly defend against the strong Barcelona. Including the injury time in the first and second half, there were at least 60 to 70 minutes until the end of the game. It was simply a fool's dream to rely on the bus to keep the current score.

It was conceivable that if the morale of the Spanish players was still so low, they might not even be able to get a draw, let alone keep three points.

Barça's offensive firepower was not just for show.

Although Xia ruofei did not participate in many games, and this was only his second game, he was the owner of the team after all. He had won the respect of the players with his own strength, so no one had any rebellious thoughts when he stood out to shout. Even the captain, Victor Sanchez, felt that it was normal.

Victor Sanchez also immediately realized the problem, so he kept clapping his hands and loudly boosted the team's morale.

Soon, everyone returned to their respective positions, and the referee finally blew the whistle to restart the game.

Iglasias passed the ball to Wu Lei, who immediately passed it back to Victor Sanchez.

On the Barcelona team's side, the players heard the whistle as if they had heard the horn to charge, and the overall situation immediately pressed over the center line.

By the time Victor Sanchez received the ball, Barça's forward line had already advanced to this position. Suyass and cutinho pressed over from different directions.

In the front field, Iglasias, Wu Lei, and Xia ruofei were all marked by Barça's players. Victor Sanchez did not have a suitable route for the ball for a while and could only choose to return the ball again.

After the center back Naldo received the ball, Barça's forward player pressed on again. Naldo passed the ball diagonally forward to mark Roca. Mark Roca had just stopped the ball, and Barça's Busquets immediately rushed up while he was still unstable.

Mark Roca had to pass the ball back again. After Naldo had just passed the ball, he had not run to the appropriate position to receive the ball, so Mark Roca chose to pass the ball back to the goalkeeper, Diego Lopes.

Barça's forward line also continued to be high on pressure and rushed toward Diego Lopes.

In just a few seconds, the space in the Spanish team had been compressed to a very small size.

Diego Lopez could only choose to use a long kick to pass forward. At this point, he could no longer care about whether he could create an offensive opportunity. His first priority was to keep the football away from their goal.

Iglasias was defeated in the contest for the header against pique, and the football was headed by pique to lakitic.

Less than ten seconds after the restart, the ball had changed hands and the football was back at bar?a's feet again.

Bar?a then did another drowsy conduction. The football went up and down, up and down, up and down, but it was always controlled under the feet of the bar?a players.

Xia ruofei frowned slightly. He was well aware of the team's current passive situation.

Bar?a's conduction seemed to be neither fast nor slow, and it did not threaten the Espanyol's goal for the time being, but the killing intent was often revealed in a flash.

People loved bar?a's style of play and thought that it was the representative of modern football. Those who didn't like it hated it and thought that too many ineffective passes greatly reduced the viewing pleasure and made people drowsy.

But in any case, for so many years, bar?a had relied on this set of play to dominate La Liga and the European arena. It could be said that it was rare to meet an opponent.

Spain's defensive strength was average. In the face of Bassa's Mercury – like ground attack, they would be in greater danger if they did not make any changes.

Xia ruofei squinted his eyes and kept his spiritual power out. He paid attention to the situation on the field and quietly adjusted his position.

Xia ruofei's change was very subtle. When Barcelona was controlling the ball, Xia ruofei's defense was symbolic and did not attract the attention of the Barcelona players.

At this time, when bar?a faced the defense of the Spanish players, they used a classic "M"- shaped passing route, and the football eventually returned to the feet of Semedo on the right.

Xia ruofei had been secretly moving towards them and had already observed the situation of the entire field with his spiritual power. He had predicted bar?a's pass.

Just as the ball was stopped by Semedo's chest, Xia ruofei suddenly moved. The moment the ball landed, Xia ruofei's flying shovel had already arrived.

He accurately shoveled the ball down, and at the same time, like a bulldozer, he also took down Samel.

Immediately, Semedo grabbed his ankle in an exaggerated manner and rolled on the ground.

Xia ruofei couldn't help but laugh. He knew that he had shoveled the ball and had only brought down Semedo. He definitely did not touch his ankle.

As expected of a member of the universe team, even though he wasn't a product of Lamasia Film Academy, his acting skills were still not to be underestimated.

At this time, the referee decisively blew the whistle and quickly ran to the scene of the incident while using a hand gesture to indicate that Spain had fouled.

"Sir, I shoveled the ball just now!" Xia ruofei immediately cried out.

The main judge stared at Xia ruofei and said, "I saw it very clearly. Although you shoveled the ball, it was a dangerous move, so you've committed a foul!"

Xia ruofei shrugged and left the judge.

Xia ruofei did not care if the ball was considered a foul. He just hoped that through this fierce interception, the RCD Espanyol players would be able to cheer up.

...

This was the Catalan derby. Even if he lost, he had to play with hemorrhage!

The judge was still shouting behind Xia ruofei, "Be careful with your movements when you're kicking! I've already remembered it. If there are similar dangerous moves, I'm going to pull out my cards!"

This was a verbal warning, but Xia ruofei did not care. He turned around and nodded at the referee, then called out to the players on his side, "Show some courage! A Derby doesn't need a refined gentleman!"

The RCD Espanyol players witnessed Xia ruofei's tackle and knew that it was Xia ruofei's gesture. Especially after listening to Xia ruofei's words, the players' courage was really aroused.

After Semedo pretended to be treated by the team doctor, he quickly stood up. He didn't look like an injured person at all.

The competition resumed.

The barça players clearly felt that the momentum of the Spanish players had changed.

No matter who it was, as long as they took the ball for a little longer, two or three Spanish players would immediately come forward to snatch it.

And if the ball was passed out, several Spanish players would also appear on the other side to surround and block it.

The number of players on both sides was the same, including the goalkeeper. There was one player in total, but the barça stars felt that the Spanish players seemed to be everywhere.

Everyone was actively running and did not hesitate to use their physical strength to carry out a high position attack on barça, which was very physically exhausting.

...

Under Xia ruofei's lead, the Spanish team's will was united and they finally held on for the last fifteen minutes of the first half.

When the referee blew the whistle to signal the end of the first half, Xia ruofei heaved a long sigh of relief and entered the changing room with a score of 2 – 1. For them, the second half was equivalent to having a certain initiative.

Although the final result was still difficult to predict, at least the Spanish team was still in the lead, which was the best news.

#### Chapter 2798 The rainbow (1)

Ruby did not criticize mark Rocca's low – Level mistakes in the locker room during the halftime interval, even though mark Rocca himself appeared very guilty.

On the contrary, Ruby gave high praise to everyone's performance in the first half, especially Xia ruofei and Wu Lei 's.

Of course, due to Xia ruofei's special status, Ruby did not praise Xia ruofei like he praised Wu Lei. To be honest, he felt a little uncomfortable when he spoke to Xia ruofei in the tone of a coach.

The halftime interval was not long, so Ruby also seized the time to lay out the tactics for the second half.

He spoke quickly,"we still have to stabilize our defense in the second half!" Everyone had to carry out their defensive duties. Bar?a will definitely launch a fierce attack in the opening stage because they know that the situation will become more and more unfavorable for them as time goes on. What we have to do is to stop their attack 30 meters away, even if we have to resort to foul tactics or even pay a yellow card at the cost of it!"

Ruby looked at Naldo and the others and said,""The rear defensive line must pay attention to the defense! Their ground infiltration is very sharp, but as long as we don't lose our position, they won't have an absolute chance!"

There was one more thing that Ruby didn't mention. Most of the time, it wasn't an absolute opportunity, but it could still form a threatening attack. Those who could do this were star players. They could turn opportunities that weren't opportunities into goals.

For example, Messi and zuyares.

Bar?a had no lack of star players.

Many teams in La Liga would choose a tight defense when facing Barcelona, but Barcelona's winning rate was still very high. Many times, they relied on the star players 'sudden inspiration.

Ruby was very clear about this, but he wouldn't say it at this time. At this time, he could only boost the morale.

In fact, the players knew very well that in order to win against bar?a, in addition to focusing their energy on defense, they also needed a little luck many times.

But luck was also reserved for those who were prepared.

If they had not scored two goals early on, they could only pursue a draw at most.

And if their own players were not focused and made another low – Level mistake like in the first half, even if they were lucky, they would not be able to withstand it!

Ruby continued, “of course, I’ve always been against setting up a bus!” Even if he was facing the powerful Barca, he would still be like this! I don’t think we can hold on to the current score by relying purely on a tight defense, so! We need to seize every opportunity to counterattack!”

Ruby’s eyes swept across Wu Lei, iglysiar, and Xia ruofei. He continued, “Barça’s massive pressure is foreseeable. Although our defense will be severely tested, this is also an opportunity for us. Once we intercept the ball in the backfield, the attacking players must firmly press on! As long as our counterattack can pose a threat, then the Barça players will also have scruples when they press on. And if we can take the opportunity to score another goal, that would be even more wonderful!”

“I agree with coach Ruby!” Xia ruofei nodded. In the second half of the game, my position will be a little further back. Everyone, pass the ball to me as much as possible and I will organize the attack!”

Ruby nodded and said, “everyone, please remember Mr. Xia’s words!” In short, as long as Mr. Xia’s position is not too bad, everyone should try to pass the ball to him!”

In the end, Ruby saw that it was almost time, so he clapped his hands and shouted, “Young lads! Go and fight! Now we’re already ahead of the damn Barça! There are only 45 minutes left until we defeat our mortal enemy from the same city! You guys are the best!”

.....

The players from both teams returned to the field and the referee blew the whistle to start the second half.

The second half of the game was kicked off by Barça. As expected, Barça launched a fierce attack on the Spaniards as soon as the game started. With the exception of Longley, the other players quickly pressed past the half of the field.

Barça’s intention was obvious. They wanted to take advantage of the Spanish team’s unstable footing and equalize the score with a wave of fierce attacks.

However, Ruby had already made a targeted arrangement in the defense, and everyone was mentally prepared for such a situation. So, in the face of Barça’s fierce attack, the Spaniards did not panic.

Their defense was still very organized, and the assistance of the players in the middle and backfield was also very timely. No matter how Barça moved and shifted, the RCD Espanyol’s defense was always watertight.

In the opening five minutes, the football was always under the feet of the Barça players, and the Spaniards did not even touch the ball once.

However, Barcelona did not find a good opportunity to attack. They could only continue to transmit through the ground and use the width of the field to frequently make large – scale movements, hoping to drive the Espanyol’s rear defensive line and pull out a gap.

In the 53rd minute, the Spaniards finally intercepted the ball through the pincer defense of two players.

Eight minutes into the second half, the Spain had only made their first contact with the ball, which was a bit pitiful.

The one who intercepted the ball was mark Rocca, who was in charge of the defensive midfielder position today. Although the manager, Ruby, did not reprimand him during the halftime interval, he held back his energy and wanted to make up for his mistake.

After mark Rocca intercepted the ball, he immediately thought of what Xia ruofei had said during the half – time break. He subconsciously looked left and right quickly and found that Xia ruofei had already appeared in a position six or seven meters away from him. There were no Barcelona players around him to defend.

Mark Rocca passed the ball to Xia ruofei decisively.

Xia ruofei ran towards the ball and shouted, ""Guys! Charge forward!"

In fact, before Xia ruofei had even shouted, Wu Lei, iglesias, and Granello had already fired three arrows at the same time and rushed in the direction of bar?a's penalty area.

After Xia ruofei received mark Rocca's pass, it was as if he had eyes in the back of his head. He nimbly knocked the ball with the back of his foot, and the football just happened to pass over Arthur, who was rushing over to snatch the ball.

Xia ruofei's position was near the center line, close to the left side. After he knocked the ball, he immediately turned around and chased in the direction of the football.

Artil once again became the background of this relaxed character.

He looked very embarrassed. Even when he couldn't stop in time and hit Xia ruofei, Xia ruofei only staggered and quickly caught up with the football.

Xia ruofei didn't even raise his head to look and immediately sent out a long pass.

The long pass was indeed "long." The football flew high from the left side near the sidelines and flew towards the right side of bar?a's penalty area, almost crossing half of the field.

The football drew an elegant arc in the air, like a beautiful rainbow, over the heads of all the Barcelona defenders, and fell two or three meters ahead of the penalty area.

At this moment, Wu Lei had just rushed to this position.

He had his back to Barcelona's goal and jumped high in the direction of the ball.

Wu Lei's jump was a little late, and he did not jump high enough. If he headed the ball from this position, his aim would definitely be bad, and such a header was difficult to use. So, even if the ball was headed within the goal range, the most likely result was that it would be confiscated by the opposing goalkeeper, terstein.

Therefore, Wu Lei did not choose to force his way in.

After he jumped into the air, he found that he had jumped a little too high, so he tried his best to lean back a little and then used his forehead to point the ball to Iglasias, who had plugged in at high speed in the middle.

At this time, the Barça defenders were basically attracted to Xia Ruofei's side. Langley, who was in the middle, did not even have time to return to his defensive position, so the middle was basically empty.

At this time, Iglasias had just run into Barça's penalty area. Wu Lei had already sent the ball to him, and now he only needed to face half of the empty goal.

Even though Iglasias's reputation was not as prominent as that of a superstar like Messi, how could he spit out the meat that was being fed to his mouth?

He did not wait for the ball to fall to the ground. He kicked the ball directly and the football immediately flew in the direction of Barcelona's goal.

At this time, Barcelona's goalkeeper, Telstergen, was a little off – Course because he had previously focused on guarding against Wu Lei's header attacks.

The angle at which Iglasias' kick shot was still rather tricky. Telstergen was completely out of his reach and could only wave his hand symbolically before he watched the football drill into his own goal.

3 to 1!

...

Espanyol once again widened the gap to two goals.

Everyone on and off the field was celebrating wildly. Ruby kept waving his arms and showing his signature big smile.

So far, his team members had executed his tactics perfectly. In terms of defense, they were united and watertight. The efficiency of their counterattacks was unexpectedly good. They only had one chance to counterattack and they succeeded.

Ruby was glad that Xia Ruofei had returned to the team. If he had not tried his best to get Xia Ruofei to play in the match, the score would have been different.

Xia Ruofei also laughed happily. He ran from the center line and hugged Iglasias and Wu Lei.

The Spanish players rushed over, and even the old goalkeeper, Diego Lopez, rushed up from the backfield. Everyone celebrated the goal amid the loud boos of the Barça fans.

Xia Ruofei touched Iglasias's head and smiled. "Hey! A Panda! Well done!"

"Panda", which also won him a lot of recognition among the Chinese fans. Of course, the more important reason was that he was willing to cooperate with Wu Lei on the field, which created a lot of opportunities for Wu Lei.

"Mr. Xia, it's your beautiful pass!" Iglasias grinned and said. Of course, Wu's ferrying is also very beautiful. I only need to lightly touch it and the ball is there!"

Xia ruofei smiled at Wu Lei and said, "Lei, this guy is complimenting your beautiful header!"

Wu Lei laughed and spoke to Iglesias in broken Spanish, "Thanks for the compliment!"

...

Chapter 2799 The changes of the wind and clouds (1)

In PP Sports Livestream.

"Mark Rocca's interception! He passed the ball to Xia ruofei. It was a good chance for the Spaniards to fight back! Iglesias, Wu Lei, and Granello were all quickly moving forward! Wu Lei's speed is the fastest!" Shen fangjian's tone suddenly became a lot higher.

He continued to speak excitedly, "Xia ruofei directly made a long pass!" He found Wu Lei accurately! Wu Lei ran past a little ... He jumped high and did a header cross! "Go in!" Iglesias, who followed up from the middle, kicked the ball and it went in! The ball went in! In the 59th minute of the game, Spain scored another goal. Now the score was three to one, and the Spaniards were leading by two goals again! It's simply unbelievable!"

Jia Tianning said, "most of the credit for this goal should be given to our two Chinese players!" "Of course, markelka's interception is crucial, but Xia ruofei is the one who really instigates the attack. His super long distance pass is as accurate as a guided missile. Such a pass is a test of one's Foundation. Without a doubt, Xia ruofei's footwork has reached a very high level."

Jia Tianning continued, "also, Wu Lei's handling was very calm!" In the past, he had often been criticized for his rough handling of the ball in the opponent's penalty area. This time, he was very calm and did not force a header. Otherwise, there was a high probability that he would waste Xia ruofei's beautiful pass! Wu Lei's header could be said to be just right! As long as Iglesias ran to his position, he could score the ball without any difficulty! This is equivalent to sending a pancake to his mouth!"

Shen fangjian smiled and said, "this shows that Wu Lei has improved a lot during his time in RCD Espanyol!" In fact, I've been saying that our players should try their best to train in the high – Level European leagues. Otherwise, it's very difficult to improve the overall level of Chinese football!"

Jia Tianning sighed, "the problem now is that China's League has a high income!" Especially for the young domestic players with Chinese household registers, it was not normal for their value to skyrocket. It was a bubble economy! A lot of young players have the opportunity to go out, but many people are reluctant to give up their annual salary of millions and tens of millions in the country. They accept the result of a sharp decline in income and go to the foreign leagues to fight. "

"It's actually still decided by the environment," Shen fangjian said. "After all, a player's career is only for a few years. The income of the domestic league is so high now. If he goes out, it would be a waste of precious time to make money! One year of playing is one year less!"

"You have to have some feelings when it comes to football!" Jia Tianning said, "the current income of domestic players is definitely abnormal. It is impossible for European clubs to pay such a high salary to bring in a young player who has not proven himself in any major competition!"

“In fact, I think the Chinese Football Association should encourage young players to go out.” Shen fangjian said, “we can provide some policy support! In addition, the clubs in the Chinese Super League could also share a part of the salary! As long as it is stated in the transfer contract that once the player returns to play, he must unconditionally choose his previous team. This way, it is equivalent to sending our good players out to level up.”

At this time, the live broadcast signal was already replaying the goal, so Shen fangjian and Jia Tianning decisively ended this slightly sensitive topic and re-discussed the goal.

At the same time, commentators from all over the country’s major broadcasting platforms also gave high praise to the goal. They mainly analyzed it from a tactical point of view and believed that the Spanish team’s decision to firmly fight back under the premise of a solid defense was the right choice.

Of course, almost all the commentators gave Xia ruofei’s precise pass a very high evaluation. Some even compared the pass to Beckham’s “full moon scimitar.”

Indeed, whether it was the passing distance or the accuracy, Xia ruofei’s pass was perfect. Compared to Beckham, it was just that babe’s “full moon scimitar” had been displayed in front of the fans countless times and had become his representative. Xia ruofei, on the other hand, did not play in many matches. It was hard to say whether this was his true strength or a flash of inspiration.

Nokapu Stadium.

After the game resumed, Xia ruofei could clearly feel that the fans in the stands had weakened a lot. It was obvious that the consecutive blows had made them doubt their lives.

With such a good form, was Espanyol really a weak team that they could easily beat?

The first score on the scoreboard already gave the answer.

In fact, it was not only the fans, but even the Barcelona players on the field seemed to be a little lacking in spirit, and their impatience was gradually growing.

Although they still launched a fierce attack on the Espanyol’s goal, there were often some hasty passes and a few low-level mistakes, one of which almost allowed the Spanish team to counterattack again.

If Granello’s shot had not been over the crossbar, the score on the field might have been changed to four – one.

Barça’s head coach, valdevi, decisively made a substitution. He replaced Semedo and artil, who did not perform well, with Roberto and Malcolm. At this time, the game time was only about 60 minutes.

There was only one substitution left, and valwade did not dare to use it easily. After all, there was still half an hour left in the game. If the substitution was used up early and the team was injured, there would be no room for adjustment. They might even be forced to play one less player.

After Alberto and Malcolm played, they brought valdwei’s latest instructions, so the Barcelona team gradually stabilized and began to patiently look for opportunities with their skillful guidance.

Espanyol’s lineup could be said to have exceeded their level today. The current situation was very favorable to Espanyol, so Ruby did not make any player adjustments for the time being.

The main theme of the game still did not change. After Spain led by two goals, they were more determined to carry out the manager's defensive tactics, and the trailing Barça naturally launched waves of attacks.

The game time had unknowingly reached seventy – five minutes, and the time left for Barcelona was getting less and less.

The anxiety on the faces of the Barcelona players became more and more obvious.

However, just as things seemed calm, a straight ball from the referee Busquets found Coutinho. After the latter broke into the penalty area, he did not find a chance to shoot under Naldo's close interference. Just when everyone thought that the attack would most likely end without a goal, Coutinho, who had already dribbled the ball and was close to the end line, suddenly used his heel to make an inverted triangle Pass.

The ball just passed between Naldo's legs, and Suárez charged out from the middle and received the ball with an angry shot.

#### Chapter 2800 An arrow at the end of its flight (1)

Coutinho's pass was too well – hidden, and he did not look back at his teammates' positions at all. He relied on the tacit understanding he had developed during training matches to know that Suárez would appear in that position without even looking.

The position of Suárez's shot was almost on the line of the small penalty area. Such a powerful volley at such a close distance and the speed of the football were extremely fast. The Spanish goalkeeper, Diego Lopes, did not have any reaction at all. He did not even have time to symbolically wave his hand. He only had time to turn his head and take a look. The football had already flown into the goal like a flash of lightning.

The Barça fans, who had already begun to calm down, suddenly burst into loud cheers, and the fighting spirit of the cheering song "Jaso Campion" suddenly resounded throughout Camp Nou.

After Suárez scored, he revealed his signature front teeth and rushed towards Coutinho to hug him tightly.

Messi did not participate in the attack the entire time. In addition, even though Suárez scored the goal, Barça was still two – three behind by one goal. It was far from the time to celebrate.

Therefore, Messi rushed straight into the goal, grabbed the ball tightly in front of Diego Lopes, and then ran toward the center circle.

There were only 15 minutes left in the game, and there were at least 17 or 18 minutes left including the injury stoppage time, while Barça was only one goal behind.

Barça's fans and players were reinvigorated, while the Spaniards suddenly became a lot more nervous because they only had a one – goal lead.

According to the big data analysis, the 75th to 80th minute of the game was the peak period for scoring goals.

It was mainly because many players were physically weak and were basically exhausted at this point in time. Whether it was defense, passing, receiving, or shooting at the end, it was easy to have simultaneous technical movements.

Ruby shouted on the sidelines to the players on the field to get their spirits up and focus on the defense, but the Spaniards' physical fitness had reached its limit. After all, they had been defending most of the game. As the defensive side, they had to pay more physical energy than the offensive side.

Xia ruofei and Wu Lei retreated frequently to join the defense.

It could be said that besides the goalkeeper Diego Lopez, only Xia ruofei and Wu Lei were still in good shape among the Spanish players. The rest of them were already showing signs of fatigue.

As a cultivator who was about to enter the Golden core stage, Xia ruofei would not have any physical problems playing a football game in the secular world. Wu Lei had been practicing the body – tempering movements of the little golden man that Xia ruofei had taught him, and his physical fitness had been greatly strengthened. When he had just joined the team, his physical fitness had been poor and he had not been able to last the whole game. Now, he had become one of the few people with the best physical fitness in the team.

However, even though Xia ruofei and Wu Lei were running with all their might, soccer was a team sport and they could only play a limited role.

In such a situation, Xia ruofei would have to disregard his sportsmanship and use his true energy to secretly attack the Barça players who had physical contact with him. It could be said that if Xia ruofei did so, there would be no trace of it, and no one would find out. It would be easy to stop the Barça players from continuing to play.

However, Xia ruofei would definitely not do that. He was not even willing to use his true energy or body movements to improve his strength in the competition. How could he do such a despicable thing?

After all, as a cultivator, Xia ruofei had his own bottom line and dignity. Using his spiritual power to observe the situation was already his bottom line.

Therefore, when the game entered the final stage, the Spanish team's situation became more and more passive.

On one side, Barça's morale was greatly boosted after they caught up to the point that they were only one point away. They launched a fierce attack on the Spanish goal. On the other side, the Spanish players were a little confused. Coupled with their physical bottlenecks, they could only be exhausted by Barça's fierce attacks.

For a time, the Espanyol's three lines were pressed flat, and the goalkeeper, Diego Lopez, became the busiest man on the field. If not for his high block, the score might have been rewritten again.

Many of the fans who came to watch to cheer for Espanyol did not dare to watch because it looked like Espanyol was going to concede the ball in the next second. Every touch of the ball and every shot by Barça scared the Espanyol fans.

With the situation being so passive, there was naturally no way to fight back. Basically, the football would return to the feet of the Barça players before it could even cross half the field.

However, just as Ruby said during the halftime interval, when facing Barça, it was impossible to blindly defend. It was only a matter of time before they conceded the goal.

PP sports's commentator, Shen fangjian, also said worriedly, "The Espanyol's situation is precarious. At this time, someone needs to step up and save the team. If Barça scores another goal during this time, the good situation for Espanyol will be ruined!"

Shen fangjian's voice had not yet fallen when the Spanish backfield made another mistake under the high pressure of Barça.

This time, it was the center back Naldo who made the mistake.

Barça developed their offense on the side this time. When the football came near the end line, Iakitić, who controlled the ball, acted out of the norm and directly crossed the ball to support Barça. They were a team that paid attention to pass control. They rarely used this style of play in the bottom end. Even when they reached the end line, most of them would return the ball and reorganize it. Most of the time, they chose to penetrate through the middle.
