

God tier Farm 2941

Chapter 2941 Entering the state (1)

These security guards had all had a brilliant career in the military. Even if the Veterans recruited by Xu You were not from lone wolf, they were also from the most elite reconnaissance team in their Military Region. When they saw the camp that was full of battlefield atmosphere, they could not help but feel excited.

Even ma su and the others who had just left the camp were excited.

However, they were indeed veterans. Even though they were all excited, they still maintained their formation and their pace was still neat. However, their morale was clearly much higher.

When the troops arrived at the entrance of the camp, they skillfully formed four horizontal lines. After ma su had finished organizing the troops, he looked at Xia ruofei. Although he was Xia ruofei's company commander when he was in the Army, he had a very positive attitude that Xia ruofei was the highest "commander" here.

Xia ruofei didn't walk to the front of the group. He just smiled and waved his hand. "I have nothing to say. Everyone, please settle down in the camp as soon as possible and get your equipment. I'll give you one hour to get everything in order. Is there a problem?"

"No, I didn't!" The security team members shouted in unison, full of vigor.

Xia ruofei nodded in satisfaction and then gestured to Ma Jia.

Ma Jia immediately asked two guards to open the gate of the camp, and then he led the team into the camp with neat steps.

The Guard's barracks had the standard layout of a company. The two rows of bungalows at the front and back were the team members' dormitories. On the two sides, there were also auxiliary buildings such as Armory and canteens. In addition, there were sentry towers in the surroundings and Sentry posts at the entrance. These buildings were surrounded. In the middle of the open field, there was a basketball court, single and double bars, and so on. It was a place for daily formation, physical training, and leisure time for the team members. Behind the barracks, there was also a tactical training ground built based on the mountainous terrain.

Ma su stopped in front of the barracks and loudly ordered, "Rest for three minutes!"

The security guards all relaxed, but they still maintained their formation. They didn't need to maintain the standard military posture and could also talk in a low voice, but they couldn't leave the line.

Ma Jia walked quickly to Xia ruofei and asked, "RUO Fei, tell me about the situation in the camp first so that I can make the next arrangements."

Xia ruofei smiled and nodded. He stood there and introduced the man to Ma Jia, "The two rows in front of you are the team members' dormitories. Each row has ten large dormitories, and the other two ends each have a single room. The left side is the equipment Warehouse, the right side is the cafeteria, the entertainment room ..."

The camp was not big, and the layout was not complicated. Xia ruofei had personally designed the layout according to the facilities left behind by the mercenaries, so he naturally knew it by heart. He quickly introduced the layout of the camp to Ma Jia and continued, "All the weapons and equipment on the list you provided are in the warehouse. One of the two warehouses is level one security, filled with weapons and ammunition. The other warehouse is filled with weapons and ammunition, purchased according to your needs. It's filled with two sets of gloves and still has some surplus."

After hearing this, Ma Jia quickly had an idea. He nodded and said, "I understand! RUO Fei, I'll make the arrangements!"

"En!" Xia ruofei smiled and nodded.

Since he had entrusted the guard team to Ma Jia, he would not interfere with Ma Jia's work. He had nothing to do today, so he just watched from the side. He also wanted to see how the overall situation of the guard team was after being trained by Ma Jia for a period of time.

Most of the time, the combat power of an Army could be seen from some details.

And Xia ruofei happened to be very experienced in this area.

Ma Jia quickly walked to the front of the team and shouted, "Stop! To the right! Forward ... Look!"

The security guards who were whispering just now all quieted down when they heard the word "stop," and quickly began to line up according to Ma Jia's command.

The formation that seemed to be a little loose just now immediately became neat and tidy after Ma Jia gave the order.

Xia ruofei, who was standing at the side, nodded.

Ma Jia pondered for a while and then said, "We'll first arrange the accommodation. The first, second, and third rows are in the barracks in front. From left to right, they're from class one to class nine! The fourth and fifth rows were arranged in the barracks at the back. They were also arranged from left to right by class! The accommodation for the team leaders and core members will be arranged later!"

The guard had more than 100 people, which was almost the size of a reinforced company. In the beginning, after getting Xia ruofei's consent, Ma Jia divided the guard into five platoons. Each platoons had three shifts, and each shift had ten people. Of course, since the current number of people was not exactly 150, some shifts were not full.

When they were training at Taoyuan farm, they had already temporarily appointed platoon leaders, squad leaders, and other backbones. Except for Ma Jia, Xu Yougang, and a few officers from Lone Wolf, who were the leaders of the guard team, the other members had been assigned to specific platoons.

Ma Jia continued, "after disbandment, each class will be assigned a dormitory to settle down first!" The class leader will lead everyone to clean up the house and the environment! The team leader went to the warehouse to distribute the equipment! Half an hour later, everyone was notified to come to the warehouse in a line to collect their packages! Disband!"

After Ma Jia gave the command, the guards dispersed.

The backbones of each class and platoon immediately called out to their respective members to go to the dormitory and prepare to clean up the house.

Ma Jia brought Xu Yougang and the others to the warehouse. Liu mingtian, the military supplies supervisor of lone wolf, also came to the Paradise Island this time. He was an expert in logistics, so he quickly took over the work of distributing the goods.

The guards' uniforms were not as complete as the regular army's. There was no need for formal or suit – like clothes. Everyone mainly wore jungle camouflage on a daily basis. However, there were still quite a lot of things from inside to outside, from top to bottom, including physical training clothes, combat boots, outer belts, and even socks ... Everyone had at least a dozen things.

Liu mingtian quickly sorted out all these things. He used a computer in the warehouse to quickly make a distribution form and moved all the items together for convenience.

Then, Liu mingtian called a few more quick-witted security guards over and assigned tasks to each of them. These security guards were in charge of distributing a few of the sets, and they had to know the number of sets of each set.

In the end, Liu mingtian made a detailed list of the types of clothing that everyone should receive and the number of each type. He printed out a few copies and had someone paste them in the corridor outside.

Liu mingtian's business was indeed very smooth. He finished all these things in less than half an hour.

Then, he asked someone to inform all the classes to line up to get their uniforms.

According to the established order, the first row was naturally the first to receive the reward. Each squad would form a line according to the requirements and take turns to receive the reward.

Liu mingtian placed a table at the entrance of the storage room. He stood behind the table and took charge while the security guards went inside to get their respective packages.

This way, the distribution was very efficient. A team member came forward to report his own size, and the security members in the warehouse immediately found the clothes of the corresponding size according to their respective tasks and brought them to the door. Liu mingtian was responsible for the final verification and then handed it to the team member who received the uniform.

After the team members received their uniforms, they could check it again in the corridor according to the list that was posted.

The team members came to collect the items like a trotting horse lamp. Liu mingtian and the others in the warehouse were also busy without stopping. More than a hundred people were distributed in about two hours, and there were almost no mistakes.

Very quickly, the security guards had changed into their brand new uniforms, each of them looking more energetic.

Xia ruofei looked around with interest for a while, then brought Ma Jia and the other core members to the weapons warehouse next door. He gave Ma Jia access to the warehouse's password lock, and then brought everyone around.

Seeing all the brand – New American equipment, Ma Jia and the others were so excited that they couldn't wait to pick them up and have a taste of them.

Xia ruofei could tell what everyone was thinking. He smiled and said, "Old company commander, I must remind you that the management of weapons and equipment must be strict and formal. Everyone has come to this Island thousands of miles away to work for me. If an accident happens and casualties are caused because of our own management problems, we can't explain it to their families!"

"Don't worry!" Ma Jia immediately replied with a serious expression. RUO Fei! I'm also a veteran, I can still distinguish between what's important and what's not!"

Xia ruofei waved his hand and said, "I'm just giving you a reminder. We can't sacrifice efficiency for the sake of safety. Therefore, the equipment that should be distributed to everyone must be in place. Otherwise, how can the guards perform their duties? All the sentries must be armed with live ammunition. In addition, in special circumstances, everyone must be equipped with bullets within three minutes!"

"Understood!" Ma Jia said solemnly.

"You can make the arrangements first!" Xia ruofei said with a smile.

Ma su nodded. He was the one who had reported the equipment requirements to Xia ruofei, so he was very familiar with it.

Ma Jia found a few sets of regular equipment according to the list, and then said to Xu Yougang, "Old Xu, go and inform the first platoon and class to send six people over!"

"Yes!" Xu Yougang replied and quickly ran out to inform the others.

Soon, the first platoon commander ran to the equipment Warehouse with five guards. Like Ma Jia, their eyes lit up when they saw the brand new American equipment.

"1st Squad Captain," Ma Jia said seriously, "we'll leave the first Sentry to you!" There are 6 Sentry posts in the camp, 2 at the gate of the camp and 1 sentry post in each of the four corners. Each shift will stay on sentry post for 2 hours. Each shift will take turns!"

...

"Yes!" The class monitor said excitedly, "I promise to complete the task!"

Chapter 2942 A new beginning (1)

The arrays in the Forbidden Zone were all very powerful. If the guards and staff entered by mistake, their lives might be in danger. Hence, Xia ruofei had already emphasized this to ma su in advance. Today, the entire guards had moved into paradise Island. Xia ruofei personally took ma su to check it out again and emphasized it again seriously. Ma su naturally knew the severity of the situation and would strictly restrain his subordinates when he returned.

Xia ruofei did not go straight to the Yanhuang building. Instead, he drove ma su around the small paradise Island to familiarize him with the environment. Other than the Sentry posts in the camp, the

guards also had to patrol the entire Island. As the person in charge of the guards, Ma Su had to get into position.

After walking around the island, Ma Su was more or less familiar with the situation on the island. After all, he had once served as the commander of the vanguard company. He had also been excellent in the military terrain assessment every year. He didn't even need to deliberately memorize such a small island. He could quickly familiarize himself with the environment and get into the zone.

In the end, Xia Ruofei brought the horse Deputy to the huge shelter built on the mountain.

Looking at the shelter that had almost hollowed out the mountain, Ma Su couldn't help but be shocked. After careful observation, he found that the shelter was built with a high standard. It could withstand almost all attacks except nuclear bombs. Even if it was a nuclear attack, there was a special space inside the shelter to avoid it. In addition, there were rich material reserves. Even if there was a strong enemy invasion, everyone could hide inside and block the door of the shelter. It would have no problem lasting for one or two years.

"Old company commander, this was built by the previous Island owner before I bought this Island," Xia Ruofei said. Under normal circumstances, it's almost impossible to use it. However, as the person in charge of the island's security, you must understand and grasp the situation."

"Understood." Ma Su sighed. "This is really an eye-opener for me! There was actually someone who would spend so much money to build such a large shelter, and it was probably funded by a person! That's even more unbelievable ..."

"Rich people are usually more afraid of death ..." Xia Ruofei laughed and said, not explaining much.

His real purpose of bringing the horse Deputy here was not just to let the horse Deputy know the situation.

"Old company commander," Xia Ruofei said seriously, "there's a situation that you must remember. This is also one of the important duties of the guard!"

"Speak!" Ma Jia quickly said.

"If something special happens on the island ... You don't need to know what it is, just remember the signal!" Xia Ruofei said, "once the special situation that I mentioned occurs, all the speakers on the island will sound the air defense alarm at the same time. At this time, you must remember that the guards' only responsibility is to organize all the staff to enter the fallout shelter in the shortest time possible, including the guards. All of them are to enter the fallout shelter and lock the door from the inside. Only when you receive my personal notice can you open it."

Ma Jia didn't understand for a moment. He asked in confusion, "The guards are also entering the fallout shelter?"

In his opinion, if the people needed to evacuate, there must be a strong enemy invasion. As the island's Defense Force, shouldn't the Guard's responsibility be to fight against the enemy? Why was he hiding instead? Wasn't this giving up everything outside the sanctuary to the enemy?

In Ma Su's eyes, Xia Ruofei's order was hard to understand.

Xia ruofei smiled. "You heard me right. All guards and staff members are to enter the shelter." Old company commander, I may have a chance to explain this to you in the future, but it's not convenient now. You don't need to know why, just strictly follow the instructions!"

It was a soldier's duty to obey orders, and it had been deeply implanted in the horse deputy's soul.

Although Ma Jia used to be Xia ruofei's superior, he was now Xia ruofei's employee, a subordinate. Even if this wasn't an Army, it was still a matter of course for Ma Su to obey his superiors.

So when he heard Xia ruofei's words, he didn't ask any more questions. He nodded and said, "No problem! I'll come up with an evacuation plan based on the situation on the island!"

"Very good!" Xia ruofei nodded approvingly and said, "not only do we have to come up with a plan, but we also have to conduct evacuation drills regularly so that everyone can be familiar with this process. We haven't fully recruited all the staff on the island yet, so you have enough time to perfect and refine this plan. When all the staff are basically in place, we'll start to organize the drill."

"No problem!" Ma Jia said without hesitation, "leave this to me!"

For Ma Jia, this kind of emergency plan was like a piece of cake. It didn't take him long to come up with it. In fact, this plan was similar to the other plans he had made in the Army. It was just that he had to make some details according to the roads, terrain, and other conditions of the Peach Garden Island. The key elements that he needed to grasp were the same.

After leaving the sanctuary, Xia ruofei drove Ma Su to the Yan Huang building.

The employee's apartment that Lin Yue was assigned to was on the side of the Yan Huang building. In fact, it was an attached building of the building, but after Xia ruofei took over, he transformed it into an employee's apartment and a cafeteria.

Chapter 2943 A new beginning (2)

Xia ruofei brought Ma Jia to the apartment. Lin Yue was packing her things with light steps.

Although this Island was isolated overseas and far from the country, Lin Yue was in a rather happy mood at the moment. She and Ma Jia had been married for several years, and the total time they had been together was less than three months. To a young couple, the days of living in two different places were a huge torment, both physically and mentally.

Now, although she had to work far away from her home country, she could be with her lover. Moreover, the air on Peach Source Island was extremely fresh, and the scenery of the sea and sky made Lin Yue, who was born and raised inland, feel a sense of brightness in her eyes. Moreover, Xia ruofei had given them such a high salary. The money they earned in a month here was more than what she earned in a year working at the weather station in her hometown. The salary in the Army was not bad, but Ma Jia's salary here was still several times higher than his.

With such good conditions, what reason was there to be unhappy?

When Lin Yue saw Xia ruofei and Ma Jia, she immediately put down the mop in her hand and greeted them with a smile.

“RUO Fei!” Lin Yue happily said, “the conditions here are really too good!”

Xia ruofei laughed and said, “as long as sister – in – Law is satisfied!” I was worried that it would be inconvenient to live on this Island! In the future, this will be your home on the Peach Blossom Island, so you have to decorate it well. If you need anything, just tell me, and I’ll find a way to get it.”

The biggest problem on the Peach Blossom Island was that all the supplies were provided from outside the island. If there was anything lacking, there was no place to buy it. However, the conditions here were already enough to meet the basic needs of life. Some higher level of enjoyment had to be overcome for the time being.

Of course, Ma Su was Xia ruofei’s old company commander and had a different status in his heart. Hence, if they had any needs, Xia ruofei would still try his best to satisfy them.

Lin Yue quickly replied, “I don’t lack anything!” Before we left, you even asked the company to give each of us a box of daily necessities!”

Xia ruofei smiled and said, “there will be a small supermarket on the island in the future. You can buy whatever you need.” However, it’s definitely not as convenient as the interior.”

In fact, Xia ruofei had already planned everything. When everything was on track, he would open a small supermarket on the island so that his employees could at least have a place to buy daily necessities. The scale of the supermarket did not need to be very large, and the items needed were not too complete. One or two employees would be enough to look after the store.

Of course, Xia ruofei would not rely on this small supermarket to make money. He would just treat it as an employee benefit.

As for the supplies in the supermarket, he had the spirit map space at hand, so it was easy to transport them over. In any case, Luo Qingfeng, Li Yifu, and the others all knew that he had a storage spiritual treasure with a large space, so he did not even need to hide it from others.

As for the ordinary employees, they didn’t have any suspicions. After all, there would be ships entering and Leaving Paradise Island every day, and there would be planes taking off and landing from time to time. Wasn’t it normal to transport some supplies?

After all, how could ordinary people get their hands on something like a storage treasure?

Lin Yue smiled and said, “I’m not worried about my life at all. There are so many people working and living on the island!” What I’m concerned about now is, when can you start work? With such a high salary, I think it’s a crime to be idle for a second!”

Xia ruofei laughed and said, “sister – in – Law, you and the old company commander are really ... It’s not like we’re not one family!” If I didn’t remind you just now, the old company commander would have plunged into work and wouldn’t even know his family ...”

“You gave me such an important guard,” Ma Jia laughed. “I wouldn’t dare to relax!”

Lin Yue also said, “it’s the same whether he’s around or not!” I’ve gotten used to it after so many years! Besides, they were originally thousands of miles apart, but the entire Island was only this big now.

Furthermore, he could still come home every three to five days, which was already very good! I didn't even dare to think about it when he was in the Army!"

Xia ruofei nodded and said, "sister – in – Law, since you're so eager to go to work, then ... You can stay at home in the morning to pack up. I still have to hold a welcome party for everyone at noon!" I'll have someone bring you to the weather station this afternoon! I'll leave the weather control to you!"

"No problem!" Lin Yue readily said, "as long as you believe in my ability! I'll definitely do a good job at the weather control station!"

"Of course I trust you!" Xia ruofei chuckled and said, "it's hard to find a top student like sister – in – Law! I still remember that you were the old company commander's fiancée back then. When you first came to the company, our old company commander was so proud of you! They're praising you to the heavens!"

"There's such a thing?" Lin Yue glanced at Ma Jia with a smile that was not a smile and said, "he has never praised me in front of me!"

Ma Jia was a little embarrassed. She scratched her head and said, "How come you didn't praise me? Didn't I just praise your English?"

Xia ruofei and Lin Yue looked at each other and couldn't help but laugh.

Xia ruofei said, "alright, I won't be the third wheel!" Old company commander, sister – in – Law, I'll be leaving first! Don't forget that lunch will start at 11:30 sharp!"

Ma Jia also said, "I'll go back to the guards first!" Everyone had just moved in, and there were a lot of things to do! I'm afraid that old Xu and the others will be too busy!"

"It can't be!" Xia ruofei opened his eyes wide and said, "old company commander, aren't you afraid of kneeling on the washing board tonight?"

Lin Yue chuckled and pushed Ma Jia away, saying, "Let's go! Let's go! Do you think I don't understand him? How can he be idle at a time like this!"

"I can't save you ..." Xia ruofei smiled bitterly.

Then, he threw the car keys to Ma Jia and said, "Old company commander, since you're going back, you should drive the car back! Also, remember to organize everyone to come on time for the meal!"

"No problem!" Ma Jia nodded.

"By the way, the crew from Quto hasn't left yet!" Xia ruofei said, "let's all wear the same physical training suit! Don't make them look like United States soldiers and scare them!"

"Hahaha! I understand!" Ma Jia said with a smile.

After Xia ruofei finished his instructions, he didn't wait for Ma Jia. He waved at the two of them and quickly left. Although Ma Jia also said that she would return to the guards immediately, she couldn't leave the couple alone! Xia ruofei's emotional intelligence was not that low.

As expected, when Xia ruofei walked to the top of the stairs, Ma Jia did not go out. Instead, he heard Ma Jia softly explaining to Lin Yue that Jian Jia blamed his hearing for being too good. He did not deliberately eavesdrop, and the sound just drilled into his ears. There was nothing he could do about it.

In order to avoid hearing more R – rated content, Xia ruofei quickened his pace and closed his hearing temporarily. He quickly left the apartment building.

At noon, Xia ruofei held a welcome dinner for all the security guards in the big restaurant on the first floor of Lin Yue's apartment. Other than the security guards, the flight crew of qiuhan and the staff who had arrived on the island earlier also participated in the meal.

The restaurant's chefs were also the first batch of staff to be recruited. As they had to prepare meals for about 200 people, Li Yifu specially arranged for a few staff to help in the kitchen. Finally, the welcome banquet was held.

Although it was a welcome party, the security team members did not drink because they had just arrived on the island and had a lot of work to do. And the crew of qaustralia airlines were about to take off, so they naturally did not drink.

Hence, Xia ruofei asked his men to remove the alcohol and replace it with fruit juice.

Even though there was no wine, the atmosphere was quite good. The Veterans of the guard team all brought juice to toast Xia ruofei. Even qishang's Nelson, Brook, and the others followed the local customs and toasted everywhere.

After the banquet ended, Brook and the rest bid farewell to Xia ruofei and flew the Boeing 757 back to Australia.

Ma Jia and the guards officially began to carry out the island's defense duties.

Under Li Yifu's arrangement, Lin Yue officially took over the weather control and began her first day of work on Peach Blossom Island.

For everyone, this was a new beginning.

Everything on the Paradise Island was slowly getting on the right track and would soon form a mature operating system.

Meanwhile, Xia ruofei was already preparing to leave Peach Blossom Island and return to China.

Chapter 2944 Returning to China (1)

Two days later, the small – scale auction that Luo Qingfeng had mentioned would be held in Shuangqing city in Huaxia. Xia ruofei had finally managed to sort out the work on Paradise Island before he returned to Huaxia.

On the night the guards arrived, Xia ruofei went to Ling Qingxue's room to practice the "absolute beginning Heart Sutra" with her. After that, there was naturally no lack of a storm. In the second half of the night, he sneaked into Song Wei's room again. He cultivated and rolled around in the sheets. After all this, the sky was already starting to brighten.

Even though Xia ruofei was as strong as an ox, he could not help but feel weak when he left Song Wei's room and returned to his own room.

The reason why he worked so hard was because he was going to be separated from Song Wei and Ling Qingxue for a short time.

Today, the two of them would be returning to Huaxia with Xia ruofei, but they would not be going to Shuangqing city with him.

Luo Qingfeng's invitation only allowed three people to attend. Xia ruofei and Luo Qingfeng would definitely attend. If the remaining spot was reserved for two close female friends, then it would not be appropriate for either of them to go. In addition, the two of them had left Huaxia for quite some time. During this period, they had even accompanied Xia ruofei to Spain. After all, Ling Qingxue still had to help Ling Xiaotian run the company. As for Song Wei, she had yet to complete her studies, so it was time for them to return.

Xia ruofei thought about it and finally decided to bring Li Yifu along.

As for the peach source Island, Zheng Yongshou and bainilatti would be temporarily in charge.

Zheng Yongshou's array talent was very high, and his cultivation had also reached refined Qi Level 7, much higher than Li Yifu's. Therefore, in theory, Zheng Yongshou was more suitable to control the Taixu xuanqing formation when Xia ruofei was not on the Peach Blossom Island. It was also much easier for him to learn how to control the formation disk than Li Yifu.

However, Xia ruofei had chosen Li Yifu after considering his family.

In fact, because of the soul seal's control, it was impossible for Zheng Yongshou to betray Xia ruofei. In a sense, he was even more reliable than Li Yifu.

This time, when Xia ruofei went to the auction, the extra spot was finally decided to be given to Li Yifu with the intention of letting Li Yifu gain some knowledge.

After all, even though Li Yifu was also a cultivator, he had been cultivating by himself for decades. In fact, he had no contact with the cultivation world in Huaxia. His understanding of the cultivation world was not even as good as Xia ruofei's. After all, Xia ruofei could understand the cultivation world through the records in the ancient books in the Jade talisman of inheritance.

As for the tasks that Xia ruofei had assigned to Li Yifu, including the recruitment of more staff, they did not need to be done on Peach Blossom Island. Li Yifu's main task was to contact people. It was the same no matter where he was. He would leave the Peach Blossom Island to accompany Xia ruofei and Luo Qingfeng to Shuangqing city. It would not affect anything.

Before Xia ruofei left, he specially called Zheng Yongshou over and personally taught him how to control the formation disk.

Zheng Yongshou's talent was indeed outstanding, and although he could not fully exert the full function of the great formation by using the formation disk to control the Taixu xuanqing formation, it was relatively easy to control, so he did not spend much time and easily mastered it.

When Zheng Yongshou learned that Xia ruofei wanted him to stay and guard the Paradise Island, he was suddenly overwhelmed with emotions. He quickly promised Xia ruofei that he would be on guard at all times to ensure the safety of the Paradise Island.

Xia ruofei did not doubt Zheng Yongshou's loyalty. He only emphasized that the island's staff, including the guards, were all ordinary people. He asked Zheng Yongshou not to beat, scold, or insult these staff at will, and even more so not to kill indiscriminately. These cultivators had a low legal awareness. Xia ruofei was worried that when he was not around, if anyone annoyed Zheng Yongshou and caused him to have murderous thoughts, things would be troublesome.

Xia ruofei specifically emphasized that Zheng Yongshou must not be beaten or scolded, let alone killed at will. He was not even allowed to reveal his identity as a cultivator in front of ordinary people. He could not let these ordinary people feel the existence of the group of cultivators. He also told Zheng Yongshou that the guards were his old comrades and had a good relationship with him. This way, Zheng Yongshou would not dare to be rash.

Zheng Yongshou naturally didn't dare to have any doubts about Xia ruofei's instructions. He immediately patted his chest and promised that he would carry out Xia ruofei's request. In the absence of a strong enemy invasion, he would obediently stay on the island and cultivate.

Xia ruofei called Ma Jia over and told him that he would be leaving the peach source Island for a while. Zheng Yongshou would be in charge of this period of time and he introduced the two of them to each other.

Xia ruofei specifically said that if the special situation that he had mentioned yesterday happened, Zheng Yongshou would send out the alarm signal, and ma su would lead the security team to organize everyone to evacuate to the shelter as fast as possible.

It would be best to have a drill with the existing personnel in the next two days.

Of course, Xia ruofei had also specifically told ma su that everyone on the island had to evacuate except for Zheng Yongshou.

Although Xia ruofei's instruction seemed very strange to Ma Jia, he did not hesitate and nodded to show that he understood.

In the end, Xia ruofei handed over all the external communication and purchasing matters to the local snake, beniladi.

In other words, during the days when he was away from Paradise Island, Zheng Yongshou would be in charge of the entire Paradise Island, while ma su and benilatti would be equivalent to auxiliary Deputy roles.

After settling all these matters, Xia ruofei brought Song Wei, Ling Qingxue, Li Yifu, and Luo Qingfeng to the airport of Peach Blossom Island.

Paradise had been parked in the hangar of Paradise island's airport during this period of time. Liu An and the crew stayed on a nearby resort island.

The flight crew had been notified yesterday and had applied for a flight route overnight. They returned to Paradise Island early in the morning.

When Xia ruofei and the rest arrived at the landing area, the flight crew had already checked the plane and made preparations for take – off.

As soon as the five of them got on the plane, paradise immediately closed its hatch and slowly slid out of the plane. Paradise airport was probably the most leisurely airport in the world. There might not be a single plane taking off or landing for several days in a row, so there was no flow control, take – off interval, and so on. As long as the weather and flow of traffic at the destination airport were not controlled, they could take off at any time.

Xia ruofei waved at ma su, Zheng Yongshou, and benilati, who were standing on the tarmac to send him off, through the porthole.

Ma su and the others didn't go back immediately. Instead, they watched the plane slowly taxied all the way to the end of the runway, then accelerated, took off, and finally flew into the sky in the morning sun, disappearing from their sight. Only then did they return to their respective posts and take charge of the daily operation of the Peach Blossom Island.

The only bedroom at the back of the cabin was naturally left for the two ladies. Xia ruofei, Luo Qingfeng, and Li Yifu sat in the middle of the cabin.

However, the comfort level of private planes was very high. The real leather airline seats could be completely reclined to become a single bed, so it didn't matter where one sat. Moreover, the three of them were cultivators. It was nothing for them to not sleep for a few days.

Xia ruofei and the other four took the public jet, paradise, and as usual, they landed in Australia to refuel before flying all the way to Sanshan International Airport in China.

Xia ruofei had taken this route many times. In the past, Xia ruofei did not feel much about it. He even thought it was quite convenient. After all, if he didn't have a private jet, he would have to transfer planes many times from China to Peach Blossom Island, and he would have to transfer to a passenger ship. That would be a real hassle!

However, this time, Xia ruofei was on the same plane and on the same route, but he clearly felt that the plane was not that convenient!

The most intense feeling he had was that it was too slow.

If he were to ride a flying sword, he would probably be able to arrive in seven or eight hours.

In fact, the Gulfstream G650's cruising speed was faster than an ordinary commercial plane. However, Xia ruofei secretly compared it to sword Kinesis flight and immediately felt that this plane was really too slow.

However, on this trip back to Huaxia, apart from him and Qingfeng Luo, there were also three low – Level cultivators, Li Yifu, Song Wei, and Ling Qingxue. They had no other choice but to take a plane.

Even Xia ruofei and Luo Qingfeng could fly with people, but it was still a little tiring to carry three people. Not to mention, it would consume more energy than flying alone. They would probably have to rest two or three times on the way back to Huaxia. They were exhausted.

Since he had no other choice, Xia ruofei could only endure the “turtle speed” of the plane.

Fortunately, the time was not very long, and everyone was a cultivator. If they sat in their seats with their eyes closed to regulate their breathing, time would still pass relatively quickly.

At about eight o’ clock in the evening in China, paradise smoothly landed on the runway of Sanshan International Airport.

After taxiing to the parking lot, Xia ruofei asked Luo Qingfeng and Li Yifu to wait on the plane while he followed Song Wei and Ling Qingxue to get off the plane and send them off.

Initially, Xia ruofei wanted to send Song Wei back to the capital. However, the understanding Song Wei did not want Xia ruofei and the other two to fly in circles in China. Hence, she suggested that she would get off the plane at Sanshan and visit her parents. She would rest for two days before returning to the capital.

Song Wei’s parents were both at San Shan. Since the plane had landed at San Shan, it was only natural for her to go home and rest for a few days. Hence, even though Xia ruofei knew that Song Wei did not want to trouble him, he could not insist on sending her back to the capital. He could only agree to let her get off the plane here.

They had contacted their chauffeur before they set off, so they saw the car picking them up as soon as they left the airport.

Xia ruofei personally sent the two of them to the car and watched them leave the airport. Then, he passed through the security check and returned to paradise.

Chapter 2945 Arriving at the double celebration -

When Xia ruofei heard the receptionist Hong Chunlei mention the fallen leaves sect, he couldn’t help but raise his eyebrows.

Speaking of which, the first person he came into contact with in Huaxia’s cultivation world was Liu chengfeng of the fallen leaves sect. He was later controlled by him with a soul seal and became his first soul slave.

The mountain Gate of the fallen leaves sect was near Shuangqing city. Xia ruofei had heard from Luo Qingfeng that the auction in Huaxia’s cultivation world was hosted by all the major sects in turns. This year, it was the fallen leaves sect’s turn.

Xia ruofei thought to himself, “I wonder if I’ll be able to see Liu chengfeng this time.”

Luo Qingfeng nodded with a reserved expression and said, “So it’s martial nephew Hong, thank you for your hard work!”

When Hong Chunlei appeared, Xia ruofei and Luo Qingfeng looked at him at the same time. They both found that Hong Chunlei’s cultivation was only at refined Qi Level 4.

Of course, this was not surprising.

Generally, the disciples who were exposed to the public to deal with these External Affairs of the sect would not have a high cultivation and talent. Hong Chunlei, who was nearly 40 years old, had only reached the fourth level of the Qi refining realm, so he must be in the same situation.

Of course, although Hong Chunlei's status in the fallen leaves sect was not very high, he was the person in charge of the reception of the fallen leaves sect's auction.

After all, Qingfeng Luo was the sect leader of the star Seizer sect and an Aurous core stage cultivator. He was considered an important guest.

In today's cultivation world in China, the top cultivators were basically at the Golden core stage. Even the nascent soul old monsters were legendary existences. There were all kinds of rumors that some sects had hidden Yuanying elders, but no one had ever seen them in the past few decades.

But then again, Luo Qingfeng's status only made the falling leaves sect pay more attention to him. If he was really an important guest, the higher – ups of the falling leaves sect would have come to welcome him personally.

After all, Luo Qingfeng's cultivation level was only at the early – Stage golden core realm. The star Seizer sect's strength was only in the middle of the sects in Huaxia.

Some of the sect leaders of the large sects had already reached the late – Stage of the Golden core realm.

Some sects even had many golden core cultivators.

Such sects were the top sects in the cultivation world of Huaxia.

It was only because of Luo Qingfeng that the star Seizer sect had barely reached the standard of a first – Class sect. To be called a first – Class sect, one needed at least one Aurous core stage cultivator.

Facing a golden core cultivator like Luo Qingfeng, Hong Chunlei was under a lot of pressure. Although Luo Qingfeng was kind, he still felt breathless.

After hearing Luo Qingfeng's words, Hong Chunlei quickly said, ""Martial uncle Luo is too serious! This was a disciple's duty! Martial uncle Luo, the car is ready. Please follow me!"

After that, Hong Chunlei quickly led the way, leading Xia ruofei and the other two to the parking lot of Jiangbei Airport.

The car used by the fallen leaves sect to receive their guests was a Toyota Elfa commercial car. It was the most comfortable car among its class. Xia ruofei also had one, which he usually used in the capital.

The electric car door of Alphard opened slowly.

Li Yifu was the first to get into the car and took the initiative to sit in the third row.

This made Hong Chunlei slightly surprised. When he saw Luo Qingfeng and the other two, he instinctively felt that the White – haired Li Yifu should at least be a senior brother of Luo Qingfeng's

generation, and the young – looking Xia ruofei was obviously a junior disciple who had come out with his seniors to broaden their horizons.

Li Yifu's action was really out of Hong Chunlei's expectation. It seemed that Li Yifu's position was the lowest among the three!

In fact, Hong Chunlei did not notice that after Li Yifu got in the car, Luo Qingfeng wanted to politely ask Xia ruofei to get in first and sit behind the driver, but he was stopped by Xia ruofei's look.

Hong Chunlei's eyes would pop out of their sockets if he saw this.

Although there were no clear rules, according to the conventional rules, when taking this kind of three – row business car, the most important guest would definitely sit in the middle row behind the driver. In theory, this seat was the safest.

On the way here, Xia ruofei had already spoken to Luo Qingfeng and Li Yifu, "In front of outsiders, the three of them should be considered as senior and junior brothers. Li Yifu was the oldest, so he was definitely the senior brother. However, his cultivation talent was relatively poor, so his status in the sect was not that high. As the sect leader, Luo Qingfeng naturally had the highest status, so he was the leader of the three of them. Xia ruofei was considered a young genius and Luo Qingfeng's junior Brother.

Luo Qingfeng followed Xia ruofei's instructions uneasily and sat behind the driver before Xia ruofei got into the car.

Hong Chunlei naturally sat in the co-pilot's seat, and then ordered the driver to drive.

The terrain of the mountain City was indeed uneven. The car went up Hills and over ridges, sometimes circling downhill, and sometimes driving on an elevated road that was ten to twenty meters high. After about half an hour, they finally arrived at the junjue hotel located in Yuzhong Peninsula.

Xia ruofei originally thought that this kind of auction in the cultivation world would be held in some spiritual mountain or blessed land. At the very least, it would be held in a resort villa with beautiful scenery in the suburbs. He did not expect that the fallen leaves sect would choose a five – Star hotel in the downtown area.

Hong Chunlei seemed to have seen through Xia ruofei's doubts. He explained respectfully, "Seniors, the junjue hotel is a property of our Fallen Leaf sect. This time, we've already closed the auction a month in advance and reserved rooms for the public, so the entire hotel will be used to serve the auction. The food and living conditions of the seniors will definitely be taken care of!"

At first, Hong Chunlei thought that Xia ruofei was also a disciple of a follower. However, he saw that Xia ruofei's status was even higher than that of the White – haired old man in the back row. How could he dare to neglect him? Therefore, he simply referred to the three of them as "seniors."

The least important thing in the world of cultivation was age. Those with high cultivation and seniority were seniors. He was in his forties, so he could not call Xia ruofei, who was in his twenties, "senior". Even if he was a ten – year – old child, if the other party was of higher seniority, he would still call him "master"!

Xia ruofei was not used to it at first. However, he had been “trained” by Li Yifu to become a white – haired old man who respectfully called him senior granduncle all day long. After a long time, he naturally became used to the disposition of seniority.

Xia ruofei nodded with a smile and said, “Your sect is really generous! I think this hotel has at least a thousand rooms! We’ll suffer quite a loss if we close the business for a few days!”

Although the junjue hotel wasn’t a large – scale hotel chain in the world, as a business of the fallen leaves sect in the secular world, its standards were quite high. First of all, it was definitely a five – Star standard. In addition, the hotel had more than fifty floors, and a rough estimate was that there were at least a thousand rooms. In addition to some auxiliary buildings, it could be said that this hotel had everything. Whether it was a five – Star hotel standard such as a swimming pool and a gym, or a high – end restaurant, KTV, sauna, and other places, as long as the customers wanted it, it basically had everything.

“You must be joking, senior,” Hong Chunlei quickly said. “Compared to serving you well, what’s the loss of some secular money?”

Cultivators didn’t care much about money. After all, some precious cultivation resources couldn’t be bought with money. Cultivators were generally not interested in the enjoyment that could be bought with money. They valued the improvement of their own cultivation more. Not to mention, there were some cultivators who walked the path of ascetic cultivation. They would spend their entire lives in rags and suffer for joy. They did not need any enjoyment at all.

While they were talking, the Toyota Elfa business car had arrived at the hotel’s revolving door and slowly stopped.

A spirited white – haired old man was already waiting at the entrance of the hotel.

Before the car stopped, Hong Chunlei quickly opened the door of the front passenger seat and jumped out of the car. Then he respectfully bowed to the White – haired old man and stood aside.

The electric car door of the Toyota Elfa opened slowly, and the three of them got out of the car.

When Luo Qingfeng got out of the car, the White – haired old man took a few steps forward and said with a hearty smile, “Daoist Luo, you’ve had a hard journey!”

Although Luo Qingfeng was not used to Xia ruofei falling behind him by half a body, he managed to overcome this unnaturalness. He smiled and said, “So it’s fellow Daoist Qing Song. How have you been?”

Luo Qingfeng was afraid that Xia ruofei would be left out. After greeting the White – haired elder, he immediately turned to Xia ruofei and said, “Junior martial brother, let me introduce you. This is the elder of the fallen leaf sect, fellow Daoist Hao Qingsong!”

Xia ruofei almost laughed out loud when he heard this. The person in front of him had the air of a Sage and gave off the feeling of a Daoist master. He didn’t expect his name to be so funny and amusing. Hao Qingsong was so relaxed ... Could it be that with such a name, it would be easier for him to cultivate?

Of course, Xia ruofei would not be so heartless as to reveal a funny expression. At most, he was secretly happy in his heart.

Xia ruofei smiled and took a step forward. ""So it's elder Hao, nice to meet you!"

Hao Qingsong's gaze fell on Xia ruofei, and he couldn't help but raise his brows. He was just like Hong Chunlei, thinking that Xia ruofei was a junior that Luo Qingfeng had brought out to broaden his horizons. It was only when he heard Luo Qingfeng call Xia ruofei "Junior Brother" that he noticed the young man in front of him. Almost subconsciously, he used his spiritual power to investigate, and the result shocked him.

In fact, in the world of cultivation, it was very impolite to use one's spiritual power to investigate others. However, if it was an elder checking on a Junior's cultivation, it was nothing.

...

Hao Qingsong was one of the two golden core cultivators of the falling leaves sect. The other was naturally the sect master.

With his status, even if Xia ruofei was Luo Qingfeng's junior Brother, it was not impolite for Hao Qingsong to check on the other party's cultivation.

However, when Hao Qing subconsciously checked, he realized that he could not see Xia ruofei's cultivation level!

Chapter 2946 Capital problem (1)

The strength of a sect was a relatively comprehensive evaluation.

Although high – end cultivators made up a large proportion of the sects, there was a qualitative difference between sects with and without Aurous core stage cultivators. However, the ranking was not entirely based on high – end cultivators.

In fact, the fallen leaf sect, which had two Aurous core stage cultivators, and the star Seizer sect, which only had Luo Qingfeng, who was an Aurous core stage cultivator, were about the same.

The reason was simple. Luo Qingfeng was 'young'.

Although Luo Qingfeng was an old man compared to Xia ruofei, he was considered relatively young among the Golden core cultivators.

Being young meant that he had great potential for development.

In addition, Luo Qingfeng managed to break through to the Golden core stage even after the cultivation environment on earth had begun to deteriorate.

Most of the Golden core cultivators had actually broken through when the cultivation environment on earth was still pretty good, so it was relatively easy for them to break through. The reason why they could become golden core cultivators was nothing more than that they were born a few years earlier.

However, Luo Qingfeng was different. Even when the cultivation environment was getting worse and worse, he was still able to go against the flow and successfully break through to the Golden core stage. This also showed that Luo Qingfeng's cultivation talent was stronger than many existing golden core cultivators.

Therefore, if they were to calculate based on overall strength, Luo Qingfeng alone was equivalent to two golden core stage cultivators of the fallen leaves sect.

Of course, this was not entirely based on combat power.

If the two sides were to fight, the two golden core cultivators of the fallen leaves sect would be able to defeat Luo Qingfeng.

Logically speaking, since Luo Qingfeng had come to Shuangqing, as the host of the fallen leaves sect, the sect leader Shao Qingyang should have personally come out to receive him.

However, the other golden core cultivator had arrived at Shuangqing almost at the same time as Luo Qingfeng. In comparison, Shao Qingyang was definitely more important to him, which was why he had sent Hao Qingsong to welcome Luo Qingfeng on his behalf.

The cultivator that Shao Qingyang had decided to personally welcome was the valley Head of the flying flower Valley, Liu Mansha.

Just from her name, one could tell that she was a female cultivator. Furthermore, Liu Mansha was a very famous beauty in the cultivation world of Huaxia. For decades, countless cultivators had hoped to become Dao partners with her, but unfortunately, she was still single.

Of course, even if female cultivators had a little bit of innate advantage, it was not that big. What cultivators valued more was their cultivation and strength. Although they were pretty and appetizing, they were just for appearance. They were not as important as people thought.

The reason why Liu Mansha had been personally welcomed by Shao Qingyang was probably only 20% due to her identity as the beautiful valley master. The remaining 80% was because she was a cultivator in the intermediate stage of the Golden core realm.

In addition, the flying flower Valley's overall strength was also much higher than that of the fallen leaves sect and the star Seizer sect.

Other than Liu Mansha, the valley master of the soaring Flower Valley, who was in the intermediate stage of the Golden core realm, there were three other elders in the early stage of the Golden core realm.

More importantly, there had always been rumors in the cultivation world that there were a few nascent soul old monsters still alive. One of them was the Grand Elder of the flying flower Valley, Xu Chuchu.

Although Xu Chuchu hadn't shown her face for decades and no one knew if she was Dead or Alive, the rumors in the cultivation world had always been true. A sect that might have a nascent soul old monster was still not something that no one dared to underestimate.

Not to mention that the flying flower Valley's strength was originally very powerful, and had always been firmly in the ranks of the top sects.

In comparison, Shao Qingyang would naturally not neglect Liu Mansha just to welcome Luo Qingfeng. This was an easy choice to make.

As Hao Qingsong led Luo Qingfeng's group of three into the hotel lobby, he kept apologizing and explaining to Luo Qingfeng the reason why Shao Qingyang didn't personally welcome them.

Luo Qingfeng was actually a little unhappy.

Of course, it was not because he had been neglected. It was because he felt that his master, Xia ruofei, had been neglected.

In Luo Qingfeng's heart, Xia ruofei was undoubtedly a God – like existence.

Xia ruofei has come to the fallen leaves sect's territory, but your sect leader is actually avoiding him. It's really impolite!

In Luo Qingfeng's eyes, even if the valley master of the soaring Flower Valley, Liu Mansha, was a mid – Stage golden core cultivator, she was not worthy of being compared to Xia ruofei.

Even if the soul seal was excluded, Luo Qingfeng would still give a very high evaluation of Xia ruofei if he were to objectively evaluate him. Wan Wan was in her twenties, but she had already broken through to the early – Stage golden core. Her spiritual power cultivation was also far beyond that of him, a cultivator who had broken through many years ago. How could Liu Mansha, an old woman who had been stuck in the mid – Stage golden core for 20 to 30 years, compare with Xia ruofei?

Of course, Luo Qingfeng was not a hothead. Since Xia ruofei did not say anything, he would not show it on his face. He just smiled and said that there was no need to be so formal. After all, everyone would be able to see him at the auction tomorrow.

The entire hotel was the property of the fallen leaves sect, and had already been cleared out in order to receive cultivators from all over the world, so naturally there was no need to go through any check – in procedures. Everyone's rooms had already been arranged.

Hong Chunlei had already taken the room card in advance. He followed behind Hao Qingsong and took the elevator together to send Xia ruofei and the others to the floor where the room was.

In fact, the entire hotel was empty to make way for the auction, but there were not many rooms that were actually used. They were all high – Class suites.

Chapter 2947 Capital problem (2)

Each invitation only had three spots, and almost all of the people who came here were the leaders of their respective sects or forces. The most inferior ones were the more important disciples of their sects, so those relatively narrow single rooms and the standard rooms with worse conditions were naturally not used to receive guests.

The rooms that the fallen leaves sect had arranged for Xia ruofei and the others were on the 16th floor. Two of the rooms were at the end of the corridor, directly opposite each other. The last room was at the other end of the corridor.

It wasn't that the organizers didn't want to arrange them to stay together, but that was the design of the hotel. There were four rooms on both ends of each floor, and in the middle were single or standard rooms of different sizes.

The fallen leaves sect had naturally prepared the best room for Luo Qingfeng. The layout of the three rooms was almost the same, but the direction was slightly different. However, the lighting in Luo Qingfeng's room was better, and it did not face the street, so it was relatively quiet.

The second room was the room opposite Qingfeng Luo's because it was facing the street. However, it wasn't that far off. After all, the 16th floor was already very quiet.

The room at the other end of the corridor was the worst. In addition to facing the street, it also faced the problem of the sun.

Hao Qingsong led the three of them to the floor where the rooms were located and personally distributed the room cards to the three of them. He then accompanied Luo Qingfeng to the door of the room and politely said, "Daoist Luo, it's getting late. You're all travel – worn, why don't you rest earlier? How about we talk again tomorrow?"

Luo Qingfeng smiled and said, "Fellow Daoist Hao, you can go ahead with your work! You're hosting an auction this year, and you're one of the main pillars of your sect, so there's bound to be a lot of things you need to do,"

"I hope fellow Daoists can forgive my poor hospitality!" Hao Qingsong smiled and said, "if there's anything you need, you can call the front desk. Or, you can directly look for martial nephew Hong. That's no problem!"

Hong Chunlei quickly handed his business card to the three of them and said, "Seniors, this disciple will be staying in this hotel and will be at your service at any time!"

Luo Qingfeng accepted Hong Chunlei's business card with a smile and said, "It's been hard on you, martial nephew Hong. "

After Hao Qingsong bade Hong Chunlei farewell and went downstairs, Luo Qingfeng quickly invited Xia ruofei and Li Yifu into his room.

As soon as they entered the house, Xia ruofei and Luo Qingfeng used their spiritual energy to check.

There was nothing strange about the room. Whether it was the eavesdropping or recording equipment made by modern technology, or some small arrays used in the cultivation world for eavesdropping, none of them were discovered.

Of course, this was also the habit of the two out of caution. If the fallen leaves sect really dared to do anything in everyone's room, they would have to be stupid.

It must be known that there were many golden core cultivators this time. It was almost impossible to hide from these Masters and secretly set up eavesdropping means in the room.

Moreover, the risk of doing so was too great. Once it was found out, the fallen leaves sect would become the target of the entire cultivation world.

Not finding anything out of the ordinary, the two of them also secretly heaved a sigh of relief.

However, Xia ruofei was still cautious and casually threw out a few talismans. In an instant, he had set up a sound – proof barrier. After all, the people staying in this hotel were all cultivators. Their hearing was quite heaven – defying, and they had to be careful of hearing at all times.

Seeing that Xia ruofei could set up a sound – proof barrier so easily, Luo Qingfeng could not help but feel speechless.

Xia ruofei would always reveal all kinds of tricks inadvertently. Every time Luo Qingfeng felt that he had a certain understanding of his master, he would immediately find that his master seemed to be even more mysterious.

As for Li Yifu, due to his lack of cultivation, especially in the field of array formation, he had only scratched the surface. Hence, he did not even know what the barrier Xia ruofei had set up was for.

After the sound – proof barrier was formed, Luo Qingfeng quickly said, “Master, let’s leave this room for you! This old servant will stay in the room at the end of the corridor. ”

In the eyes of outsiders, Luo Qingfeng was definitely the leader of Xia ruofei’s group of three, followed by Li Yifu. After all, although his cultivation was not very high, he was Luo Qingfeng’s senior brother. As for Xia ruofei, because he was too young, he could only be ranked third.

Thus, the people of the falling leaves sect arranged the rooms according to this. Luo Qingfeng stayed in the best room, Li Yifu stayed opposite him, and Xia ruofei was arranged to stay in a room facing the street at the end of the corridor.

Little did they know that the actual situation was the exact opposite of their judgment.

Xia ruofei was undoubtedly the core of the three, and as Xia ruofei’s martial nephew, Li Yifu’s status was even higher than Luo Qingfeng’s. Strictly speaking, Luo Qingfeng could only sit at the last seat.

Xia ruofei waved his hand and said, “there’s no need to go through so much trouble!” It’s just one or two nights, so it doesn’t matter where you stay. We’re all cultivators, how can we be so pampered?”

From Qingfeng Luo’s point of view, this was not a matter of being pampered. As a cultivator, even if he had to sleep in the wild, it would not be a problem. Moreover, the conditions of the three rooms were not very different. At least, the price of the rooms was the same.

However, this was a matter of status and treatment. Qingfeng Luo felt that it was simply overstepping his boundaries to stay in the best room while the master stayed in that room!

However, Xia ruofei’s words were like an imperial edict to him and he did not dare to refute them.

On the other hand, Li Yifu thought for a moment and said, “senior granduncle, why don’t we just exchange rooms?” Qingfeng is the sect leader, if he changes rooms, it will definitely arouse the curiosity of others. If I change rooms with you, it won’t be so conspicuous. ”

Xia ruofei didn’t know whether to laugh or cry. “Don’t worry about the room. I’ll stay over there. It’s quiet!” All of you, stop talking!”

Qingfeng Luo and Yifu li looked at each other and then nodded helplessly.

Xia ruofei sat down on the sofa and said, ""Qingfeng, I didn't get to know the details of the auction before. You've been to this auction before, so tell me the general rules and regulations!"

"Yes!" Qingfeng Luo quickly nodded and said. Master!"

Then, he looked left and right, then quickly walked to the desk. He picked up an exquisite little booklet and handed it to Xia ruofei."Master, this should be the specific arrangement of the auction. According to past practices, the organizer will prepare a manual in advance."

Xia ruofei took it and casually flipped through it. He realized that the manual was beautifully printed. It was thick and the content was rich.

However, most of the pictures at the front were photos of the auction items, and about a quarter of the pictures at the end were the details of the auction.

Xia ruofei smiled and said,"there should be this manual in every room!" I'll take a closer look when I get back to my room! Tell me about the past practices first. "

"Yes! Master!" Luo Qingfeng said respectfully,"first of all, these items were gathered by the fallen leaves sect after seeking the opinions of the various sects. They are all treasures that everyone is interested in auctioning. The fallen leaves sect also asked for our opinion, but this time we don't have anything to offer for auction, so there are no items for auction. "

"Can I add it temporarily?" Xia ruofei asked.

This was what he was more concerned about, because if he didn't auction anything, he wouldn't have the capital to bid for the item he wanted!

The auction used spiritual stones for transactions. Although Xia ruofei had more precious spiritual crystals or even origin crystals, they were strictly considered treasures and could not be used as currency.

Of course, if Xia ruofei was willing to take it out, many people would be willing to exchange for it with spiritual stones.

However, spiritual crystals and elemental crystals were non – renewable resources. Xia ruofei was not willing to use them unless he had no other choice.

Therefore, the best way was naturally to auction some other things and Exchange them for spiritual stones. After that, he could buy and buy according to his preferences.

Chapter 2948 Xia ruofei's assets (1)

"Naturally, you can!" Luo Qingfeng smiled and said,"the system of this auction is very loose. The participants of the auction are all cultivators with good cultivation, so they naturally have the ability to identify treasures. Therefore, there is no need to send the auction items for appraisal many days in advance. The auction itself is for cultivators to exchange what they need. If a fellow Daoist brings out an item for auction at the last minute, everyone will welcome it!"

“Master,” Luo Qingfeng said, “do you have any treasures you want to auction?”

Xia ruofei nodded and said, “I have to gather some capital first!” I don’t have a single one of the spirit stones you mentioned last time. If you want to fight for the storage ring, you have to earn some spirit stones first!”

Just now, Xia ruofei had casually flipped through the booklet and had already seen that there were indeed two storage rings being auctioned this time.

What was rare was that these two storage rings were a pair. The design was exquisite and cute, especially suitable for girls to wear.

If they were to get it, Song Wei and Ling Qingxue would each get one. They would be equal, and it would be perfect.

This pair of storage rings should be a relatively expensive item, so it was printed on the first few pages. It was very eye – catching and Xia ruofei could see it with a casual flip.

According to Qingfeng Luo, storage rings were rare treasures in the world of cultivation. The price would not be cheap, and the competition would be intense.

Hence, Xia ruofei had to prepare sufficient “ammunition” in advance. Otherwise, he might not be able to win.

Luo Qingfeng had already expected that Xia ruofei was going to auction an item. He smiled and said, “Master, may I know what treasure you wish to auction? I can contact the falling leaves sect’s head Shao in advance and have him put master’s treasure up for auction before the storage ring. ”

“I haven’t decided yet ... I’ll think about it when I get back to my room!” Xia ruofei replied.

Xia ruofei had a lot of treasures and he was confident that he could get a high price. However, he could not think of what treasures to auction off at the moment. There were some treasures that Xia ruofei did not think were particularly valuable, but he could not bear to take them out. For example, spiritual crystals and elemental crystals were non – renewable resources. If he took out an especially valuable treasure, it would easily attract others’ attention and would bring trouble.

For example, in the spirit herb garden on the realm Heart Island in the spirit map space, there were many very precious spirit herbs and spirit herbs. In the current cultivation world, they would definitely be priceless treasures and would definitely be sought after by many cultivators. However, if such a treasure was taken out, people would definitely have other thoughts. There was no such thing as an impervious wall in the world. Once someone found out the origin of the auction item, it could bring trouble to himself.

Of course, crystals could also be used as currency. However, according to what Qingfeng Luo had said last time, one spiritual crystal was equivalent to 1000 spiritual stones. However, because spiritual crystals were very rare, if someone really took out spiritual crystals to exchange for it, it would be very easy to get 1200 spiritual stones.

It was a loss to use spiritual crystals as currency.

Besides, if it was not necessary, Xia ruofei did not want to waste such a non – renewable resource. After all, he did not know if he would have the chance to obtain more spiritual crystals next time. On the other hand, Song Wei, Ling Qingxue, Li Yifu, Tang Haoran, and even song Qiming, who had just entered the cultivation world, needed cultivation resources. It was best not to use them if possible.

Hence, Xia ruofei had to think carefully about what treasure to auction off.

“Yes!” Qingfeng Luo nodded. The owner can take his time to think about it. You can add them at any time before the auction starts tomorrow night. Even if the auction has already started, according to the usual practice, you can still take out treasures for everyone to bid for at any time. ”

Xia ruofei nodded with a smile and said,“”Mm! You can continue!”

“Yes! Master!” Qingfeng Luo said,“according to previous years ‘practice, in order to prevent people from maliciously raising the price and canceling the deal, everyone needs to pay a deposit of 500 spirit stones to attend the auction. If there is any violation, the deposit will not be returned but will be directly given to the client of the auction item as compensation. This old servant has already prepared the deposit, you don’t need to worry. ”

Five hundred spirit stones might not be a small amount for an ordinary individual cultivator, but it was not a big deal for the sects that could participate in the auction.

Of course,“independent cultivators” like Xia ruofei were exceptions. 500 spiritual stones were not even half a spiritual crystal. In his eyes, it was nothing.

Xia ruofei nodded and said,“you can handle these things.”

“Yes, master!” “Yes!” Qingfeng Luo said respectfully.

Then, he explained the rules of the auction to Xia ruofei. The Kasaya and other items were all in the fallen leaves sect’s manual, so he only gave a brief explanation.

After Xia ruofei heard this, he had an idea of what to do.

He stood up and said,“alright!” Then I’ll go back to my room to rest. Qingfeng, I’ll stay in the room opposite yours. If anything happens, please take care of me!”

Most of the people staying in this hotel were cultivators. Li Yifu’s cultivation was too weak. If anything happened, Xia ruofei would be too far away to help if he stayed at the end of the corridor. Luo Qingfeng, who was staying opposite Li Yifu, was very important.

Chapter 2949 Xia ruofei’s assets (2)

“Yes!” Luo Qingfeng quickly said,“don’t worry, master! Even if I have to lose my life, I will definitely ensure senior Li’s safety!”

Although Li Yifu’s cultivation was very low, he was still a junior under Xia ruofei, while Luo Qingfeng was only Xia ruofei’s servant. Thus, Luo Qingfeng was very clear about his position. Anyway, Li Yifu was already very old, so it was more appropriate to call him “senior”.

“Thank you for your concern, senior granduncle!” Li Yifu said, feeling touched.

Xia ruofei smiled and waved his hand, "I'm just preparing for a rainy day!" Everyone was here to participate in the auction, so they should be happy about peace. It's not good for anyone to mess up the auction. "

"You're right, master," Luo Qingfeng also lowered his head and said, "in the past years, although there were occasionally small disputes, there were basically no cases of people dying. You can rest assured."

What Qingfeng Luo said was that no one would die during the auction, but it was hard to say after the auction.

It was also common for people to block the road, Rob, and murder when the treasures they desperately needed were won by others.

Xia ruofei nodded and greeted the two of them. Then, he walked out of the room and headed to his own room at the other end of the corridor.

The junjue hotel was huge. The corridor was more than a hundred meters long. Xia ruofei scanned the floor with his spiritual power as he walked.

He found that other than the two suites at the end, the other rooms were empty. There was not a single person in them.

Xia ruofei used his room card to open the door to his room, took the electricity, locked the door, and turned on the "Do Not Disturb" light before he stepped into his room.

The layout of this room was actually the same as Luo Qingfeng's room. The outer room was a living room and study, while the inner room was a bedroom. The room was quite spacious and decorated in a very high – Class way.

After Xia ruofei entered the room, he first used his mental strength to check both rooms thoroughly. After confirming that there were no problems, he then walked to the sofa in the living room and sat down. He picked up the auction manual on the coffee table and started to read.

He had only skimmed through the previous items. Anyway, he had already confirmed that there was a storage ring participating in the auction. As for the other treasures, it was much more direct to observe them on the spot with his spiritual power than to look at the photos in the manual.

This wasn't an antique painting that needed to be properly appraised to determine its authenticity.

Xia ruofei's attention was mainly focused on a small part of the auction rules at the back.

The general principle was actually very simple. The one with the highest price would get it. This was the same for all auctions.

Some of the rules were similar to what Luo Qingfeng had said. However, as the organizer, the fallen leaves sect had refined many of the rules to make it easier to implement.

For example, if there were insufficient spirit stones and the bidder did not want to give up, they could also take out a treasure to replace the spirit stones as long as they could obtain the consent of the owner of the auction item. Both parties could also negotiate how much spirit stones the treasure could be deducted.

All in all, the rules of this auction were definitely not as detailed as those of the auctions in the secular world.

Speaking of which, for the fallen leaves sect to be able to prepare an auction manual in advance, it was already keeping up with the times.

This auction had been going on for many years. Xia ruofei could imagine that the auction many years ago would not have such an exquisite auction manual printed on bronze.

Moreover, he was also very curious. There were so many steps from the production to the printing of such a manual. Wouldn't the person who handled it think that this customer had a problem with his brain?

In the eyes of ordinary people, storage rings, spirit stones, spirit herbs, and the like were simply a fantasy!

However, on second thought, it did not seem like a big deal for a cultivation sect to purchase a small print factory just to hold an auction.

These cultivators really didn't care much about worldly money.

Xia ruofei couldn't help but laugh. Then, he cleared all the messy thoughts in his mind and started to think about what he should bring out to participate in the auction. This was the most important thing for him.

He had already ruled out spirit crystals and origin crystals before, so he naturally didn't consider them now.

However, if he did not have enough spiritual stones, he could just use spiritual crystals or even origin crystals to continue bidding. That was still acceptable.

In short, he was determined to get the two storage rings.

Xia ruofei organized the things that he could present.

The most precious treasure on him was naturally the spirit map scroll. However, unless his brain was clamped by a door, how could he directly take out the spirit map scroll?

To put it bluntly, even if he wanted to sell it, there was absolutely no one in China's current cultivation world who could afford it.

An ordinary man is innocent, but he is guilty of harboring Jade.

The secret of the spirit map space could not be revealed even if he was beaten to death.

Other than the spirit paintings, Xia ruofei had many other good things.

There was no need to talk about spirit crystals and elemental crystals. He still had a large amount of spiritual herbs and spiritual medicines on the heart Island of the mountain sea realm. Among them, there was no lack of heaven – defying spiritual herbs like the heart concentrating grass that could directly increase one's cultivation aptitude. It could be said that any spiritual herb taken out from the

medicine garden of the realm Heart Island would cause the people of the cultivation world in Huaxia to fight over it.

Besides these, Xia ruofei had also obtained many cultivation techniques, secret techniques, and ancient books from the Jade talisman of inheritance.

Nowadays, the heritage of the entire world of cultivation had withered. These techniques might not have been particularly precious during the era of Shanhai Zhenren, but in the present day, they were undoubtedly quite valuable.

Xia ruofei could easily pick out a few less important books and copy them. He would be able to sell them for a good price.

Moreover, this was a completely capital – Free business!

However, on second thought, Xia ruofei decided to rule out the idea of auctioning off cultivation techniques and ancient books.

The reason was simple. Cultivation techniques were naturally extremely precious to those who needed them. Most of the people attending the auction were from cultivation sects, and sects basically had relatively complete cultivation techniques. Although the stones from other mountains could be used to Polish the Jade, they were not that precious in comparison.

Moreover, if he accidentally copied some sect's Secret technique, it would be a big deal.

The other party would definitely investigate the matter of the cultivation technique being leaked, and they would definitely investigate it to the end. If he got into trouble, he wouldn't be able to get rid of it even if he wanted to.

If the matter had been more serious, and he had "crashed" into some sects that had participated in the auction after copying a few cultivation techniques, it would have caused an even greater uproar.

Perhaps the other sects would also be in danger, worried that their own cultivation techniques had been leaked.

At that time, it was entirely possible that he would become the target of public criticism in the cultivation world of Huaxia.

It was better not to do such a dangerous thing.

After eliminating the option of copying a cultivation technique manual and auctioning it off, Xia ruofei did not have many other choices other than the spiritual herbs and medicine from the realm Heart Island.

There were only two kinds.

The first was talismans.

His array Dao had already reached a very high level. Moreover, there were many array Dao ancient books that had been lost in the cultivation world in the Jade talisman of inheritance. Most of the array

techniques recorded in these ancient books must have been lost as well. He could completely inscribe array discs and array talismans directly. It would definitely be a very popular auction item.

The second type was medicinal pills.

...

He still couldn't make pills in the true sense of the word, but making some pills and ointments that had auxiliary effects for cultivation wasn't a problem.

Some of the supplementary herbs recorded in the ancient books were not particularly precious. Most of them were common herbs that could be found in the secular world. They could be supplemented with one or two more precious herbs, which could be found in the spirit map space.

In the current cultivation world, such a medicine was basically very difficult to find, and the reason was nothing more than the fact that the prescription had been lost.

Xia ruofei didn't have many things, but he had a lot of prescriptions.

He could pick out a few herbs and use the time array flag to refine a batch of herbs to help with cultivation tonight. He would definitely make it in time to attend the auction tomorrow.

Xia ruofei couldn't help but chuckle and mumble to himself, ""In this way, my family's wealth is actually quite rich!"

Chapter 2950 Qi gathering pill (1)

Xia ruofei leaned back on the sofa and closed his eyes. After thinking for a while, he finally chose the misty Qi gathering pill, which was a pill for cultivators.

Although the Qi gathering pill was called a "pill," it had not reached the level of a medicinal pill. It was not a medicinal pill in the true sense.

However, Xia ruofei compared the formulas he had obtained from the Jade talisman of inheritance and felt that the Qi gathering pill was more suitable for this auction.

The effect of the Qi gathering pill was very simple. It could provide a certain amount of spiritual energy for the cultivator to absorb.

In fact, the key to making the Qi – gathering pill was not these herbs. All the herbs were auxiliary, and their function was to lock the spiritual Qi inside the Qi – gathering pill. Therefore, the key to making the Qi – gathering pill was the environment.

The herbs required were very common and could be easily gathered in the spirit map space.

There was no better elixir refinement environment than the spirit map space. Even after the Taixu xuanqing formation had stabilized, the concentration of spiritual Qi was not as good as in the spirit map space!

The little bit of spiritual energy lost in refining medicine would almost not cause any fluctuations in the spiritual energy in the space. It could be replenished in the blink of an eye.

There was another difficulty, and that was the alchemy technique. It required a certain level of array Dao. After setting up the array, it could be used to lock the spirit Qi in the medicine. To Xia ruofei, it was not difficult.

In other words, it should be relatively easy for Xia ruofei to refine the gathering Qi elixir.

The main reason why he had never refined Chi – amassing pills for the people around him was that he looked down on this kind of primary supplementary medicine, the Chi – amassing pill. How much spiritual energy could it preserve? Even if he ate the Qi – gathering pill as if it were candy, the effect would not be as fast as if he used spiritual crystals to cultivate.

There were not many people around Xia ruofei who needed cultivation resources. To low – Level cultivators like Ling Qingxue and Li Yifu, one spiritual crystal was enough to last them a long time. Hence, Xia ruofei did not want to waste his time on some Qi gathering pill.

However, it was still very suitable to bring this thing to the auction to earn some capital.

To Xia ruofei and the cultivators around him, the Qi gathering pill was of little value. However, to the current cultivation world of Huaxia, the Qi gathering pill was a very useful supplementary medicine.

Of course, the most important thing was that this Qi gathering elixir was basically useless to golden core cultivators. This way, it would not be easy to attract the covetous eyes of those powerhouses.

Moreover, the people attending the auction this time were all from the major sects. Since it was a sect, there would naturally be disciples of all levels of cultivation. In addition to developing high – end combat power, the work of laying the foundation was also very important. The overall strength of a sect was not only dependent on a few golden core cultivators. Therefore, the Qi gathering pill was a very effective supplementary medicine for low – Level cultivators to improve their cultivation efficiency. He believed that many sect leaders and elders would be very interested in it.

The cost was almost zero, the supplementary effect was good, and the “market demand” was strong. With these three factors, Xia ruofei did not have to hesitate. He quickly chose this supplementary medicine as his first auction item.

After making up his mind, Xia ruofei did not waste any more time and immediately started to set up.

Refining Chi – amassing pills was different from other herbs. It had to be done in the spirit map space.

If it was in the past, Xia ruofei would never take out the spirit map scroll or enter the spirit map space in an unfamiliar place with other cultivators living upstairs and downstairs.

However, Xia ruofei was no longer the ignorant fool from back then. Now, he had more tricks up his sleeve and his strength had improved by leaps and bounds. He didn’t enter the spirit map space easily when he was outside because he was being cautious. If he really needed to go in, he was confident that he could guarantee his safety.

Although Xia ruofei was cautious, he was not conservative.

He just didn’t fight a battle he wasn’t confident in.

Xia ruofei first took out a piece of talisman from the space and walked into his bedroom to set it up.

Xia ruofei had sculpted these talismans in his spare time. They were basically made of Jade and could be used multiple times.

There were all kinds of formations here with different functions. Some were specially used for warning, some were used to isolate sound and even vision, and there were also several protective barriers.

There were three layers on the inside and three layers on the outside. The densely packed array formations were all nested together. Even if an Aurous core stage cultivator came over, it would be impossible to break all of them in a short time.

With this little bit of buffer time, Xia ruofei could react in the spirit map space and return to the outside world in time.

Although there were many sect elders and Aurous core stage cultivators attending this auction, everyone was the head of their respective sects. It was very impolite to use one's mental strength to check someone else's room. No one would be so reckless. At the very least, Xia ruofei had not sensed any external mental strength even after flying back to her room for such a long time. If someone had really used mental strength to investigate, it would be impossible for even an average intermediate golden core cultivator to do so without Xia ruofei noticing, unless it was an expert in the advanced stage of the Golden core stage with very strong mental strength.

As for directly barging into someone else's room, that was an even lower probability.

Even Li Yifu and Qingfeng Luo would not dare to step into the room without his permission.

Hence, after Xia ruofei locked the doors and windows and drew the curtains, he stepped into the protective alarm array he had set up and took out the spirit map scroll.

He carefully tucked the painting under his blanket before entering the spirit map space.

Xia ruofei didn't waste any time and entered the Archean realm immediately. At the same time, he used his mental strength to scan the huge Medicine Shelf in the Archean realm. The medicinal herbs needed to refine the Chi – amassing pill floated up one by one and quickly gathered towards him.

Together, there were his usual medicine pot, stove, charcoal, and other tools.

In order to save time, Xia ruofei first used time array flags to set up a speed – increasing array at the Archean realm. Then, he brought the medicinal herbs and tools into the array.

This way, the time flow in the outside world was about 2000 times slower, and he would not be delayed in doing anything.

Xia ruofei then started to refine the medicine.

Although it was his first time making a spirit gathering pill, he had experience in making all kinds of medicine before, so he was quite familiar with the process.

The key to making potions was the control of the fire. This was evident from Xia ruofei's strong spiritual power. He used his spiritual power to monitor the temperature at all times. The control of the fire could be said to be extremely fine and there was basically no possibility of any mistakes.

The first part of the refining process was smooth, but in the final stage, the spiritual Qi had to be compressed and locked in the pill, which required the cooperation of a formation.

As it was Xia ruofei's first time controlling this formation, it was inevitable that he would make mistakes. Hence, the first batch of medicine failed at the last stage.

Xia ruofei did not mind at all. According to the records in the ancient books, the gathering Qi pill was not easy to refine even when there were many masters in the cultivation world and the environment was excellent. It was not normal to succeed on the first try.

In any case, he wouldn't lose any spiritual energy even if he failed, and all the medicinal herbs used were very ordinary, so the cost was basically negligible.

Xia ruofei had prepared many sets of medicinal herbs.

Furthermore, the little mental energy that was used up for refining elixirs was nothing to him. Compared to sword Kinesis flight, it was like a drop in the ocean.

Hence, Xia ruofei did not rest. He immediately washed the medicine pot and started his second attempt.

He tried four times in a row and failed without exception.

However, Xia ruofei's mastery of the small but exquisite formation was getting better and better.

From the fifth try onwards, Xia ruofei had never failed again.

He made almost non-stop and made five batches in a row, obtaining a total of 100 Chi – amassing pills.

In addition to his previous failed attempts, Xia ruofei had spent about 20 hours refining the medicine.

However, with time flowing two thousand times faster, only a short while had passed in the outside world.

Xia ruofei found five porcelain bottles and placed the one hundred Qi – gathering pills that were still warm into them. Each bottle contained twenty pills.

...

After that, Xia ruofei did not put away the array flag. He left the bottle of Qi gathering pills in the time array and left the spirit map space with a thought, returning to the outside world.

After reappearing in the hotel room, Xia ruofei immediately checked the protective array he had set up. He was relieved that the array had not been touched.

Xia ruofei's array talismans were also very exquisite. There was a small array that was very sensitive. Even if one's spiritual power swept over it, it would be touched and leave traces.

The fact that even this array didn't have any reaction meant that when he was in the space, no one had checked it.

In fact, due to the time formation, the time Xia ruofei spent in the medium was very short. If there was someone in the room, from that person's perspective, Xia ruofei would basically flash into the medium and come out in a few breaths.

In such a short period of time, there just so happened to be an expert who came to investigate this room and discovered that something was amiss. The probability of this happening was too low.

Xia ruofei quickly kept the spirit map in his palm. Then, he removed all the protective and alert arrays and stored all the talismans in the spirit map space.

Then, Xia ruofei pondered for a while and set up a sound – proof barrier in his room. He then took out his phone and called Li Yifu.

“Junior Brother Xia!” Li Yifu picked up the phone immediately.

After all, everyone here was a cultivator. In order to prevent ears on the walls, Li Yifu followed what they had agreed on earlier and addressed Xia ruofei as ‘Junior Brother’. His tone sounded a little awkward, but it shouldn’t be enough to give himself away.

“Adopted husband,” Xia ruofei said, “come to my room with Qingfeng. I still have something to discuss with you.”

...

Xia ruofei had set up a sound – proof barrier, so he didn’t have to be too careful with his words.

“Alright!” Li Yifu replied.

A few minutes later, Xia ruofei heard a knock on the door. He walked over to open the door and saw Luo Qingfeng and Li Yifu standing at the door.

Without waiting for them to speak, Xia ruofei said, “Let’s talk inside!”

He invited the two of them into the house, locked the door, and walked into the living room.

Xia ruofei smiled. “Alright. There’s a soundproof barrier here. You don’t have to be so careful when you speak.”

Luo Qingfeng quickly bowed to Xia ruofei and asked respectfully, “Master, what instructions do you have for this old servant?”

“Sit down first!” Xia ruofei pointed at the sofa and said.

Li Yifu and Luo Qingfeng respectfully waited for Xia ruofei to sit down before sitting down on the sofa at the side.

Xia ruofei smiled and said, “Qingfeng, after I went back to my room, I thought about it. There’s something that seems pretty good to auction off. However, I’m not sure if it can be sold for a good price. You have more experience, so I would like to ask you to take a look!”
