

God tier Farm 2961

Chapter 2961 The battle between two tigers (1)

In room 20, Xia ruofei smiled and said, ""This is the correct way to auction! There's no such thing as a one – shot deal!"

Li Yifu also laughed and said, ""Grand uncle – Master, it seems like the popularity of the Qi gathering pill is even better than we expected!"

Xia ruofei nodded. "I think we can consider doing business with Chi – amassing pills in the future. However, it must be done under the premise of safety."

"Master!" Luo Qingfeng quickly replied, "the star Seizer sect can provide the sales channels!" If master needs anything, please let this old servant know at any time!"

Xia ruofei glanced at Luo Qingfeng and said, ""The star Seizer sect might not be able to take in such a huge business! If the star Seizer sect could continuously sell these Qi gathering pills, it would definitely attract the attention of the top sects! By that time, even a fool would know that you've mastered the refining method of the Qi – gathering pill. By then, with the star picking sect's strength, would they be able to maintain the sales channels of the Qi – gathering pill? He might even be forced to ask about the refining technique! An ordinary man's possession of a jade ring is his sin!"

"I'm sorry," Luo Qingfeng said with a look of shame. "I've thought too simply of this matter ..."

Xia ruofei laughed and said, "let's see!" There was no hurry! There was no lack of cultivation resources at the moment, so there was no need to take risks. If he really wanted to do business in the Qi gathering pill industry, he could think of a way to make the star Seizer sect stronger first! Let's develop ourselves first, then we'll amaze the world with a single brilliant feat!"

"Wretched development?" Qingfeng Luo naturally did not understand the game language, so he could not help but ask in confusion.

In fact, even Li Yifu didn't understand the word, but he could understand what Xia ruofei meant by the words.

Xia ruofei chuckled. "It's to secretly expand our strength. When we have the ability to protect the sales channels and refining methods of the Qi – gathering pills, we'll start to sell them openly!"

"Yes! This old servant understands!" "Thank you, master!" Luo Qingfeng was overjoyed and quickly said.

Xia ruofei's willingness to help the star Seizer sect improve its strength was naturally a good thing for Luo Qingfeng.

Although the soul seal made Luo Qingfeng absolutely loyal to Xia ruofei, it did not destroy his mind. Other than his absolute obedience to Xia ruofei, there was no change in other aspects. Luo Qingfeng had entered the star Seizer sect since he was young and was currently the sect master of the star Seizer sect. Naturally, he had deep feelings for the sect. Besides, he knew that Xia ruofei's background was unfathomable. If Xia ruofei was willing to help the star Seizer sect, even if he only revealed a little bit of it, it would be enough to make the star Seizer sect look brand new.

Xia ruofei waved his hand and said, "don't thank me yet!" This was only one of the backup plans. In addition, even if we're determined to increase the strength of the starseizer sect, we'll have to make sure to select the most reliable of people, so as to avoid the information being leaked if we don't do a good job. "

"Yes! This old servant understands!" Luo Qingfeng said quickly.

As the three of them chatted, the second bottle of Qi gathering pills was auctioned off with a few more rounds of bids. It was all the bidding between the 5th and 6th box.

The two parties seemed to be at loggerheads with each other, neither giving way to the other. Every time they raised the bid, they followed the minimum bid of 40 spirit stones.

Even so, after a few rounds of bidding, the price of the bottle of Qi gathering pills had reached 2520 spirit stones. The bidder was the cultivator from Room 6.

Xia ruofei didn't know that the person sitting in the sixth private room was the cultivator from the soaring Flower Valley whom they had met once in the elevator. However, no matter who was sitting in the private room, as long as the price was going up, Xia ruofei would welcome them with open arms.

In box six, Yu xiner said uneasily, "Master, we've already competed for a few rounds. Why don't we give up first? Don't ruin master's plans ..."

Liu Mansha said calmly, "it's fine. This is just a small fight!" This amount of spiritual stones is nothing to us or the Black Dragon cult. What I'm more curious about is what the black Dragon cult is trying to do. Are they really interested in this pill?"

"We can't rule out that possibility!" Willow said from the side, " the quality of the Qi gathering pill this time is excellent. For Qi refinement cultivators, it is indeed an excellent choice to assist in cultivation. I heard that Zhou bingxuan accepted a disciple in the secular world a few years ago, and he has an extremely high talent for cultivation. He even intends to let this disciple inherit his mantle. It's just that the current cultivation environment is truly too harsh, so his genius disciple's cultivation progress has always been unsatisfactory."

Liu Mansha couldn't help but glance at Yu xiner. She pouted and said, " "Genius disciple? Could her talent be higher than Xin' er's? Taking in disciples at this time was the risk of drawing water with a wicker basket! No matter how talented he was, he couldn't be cultivated without a huge amount of resources! The Black Dragon cult's Foundation isn't enough for him to mess around with!"

When Yu Xin' er heard this from the side, she had mixed feelings in her heart. She was more or less embarrassed. She had also used up a lot of resources from the flying flower Valley all these years, and even some senior sisters had been quite critical of her. However, Liu Mansha was very determined to support her. This made her feel very touched, but at the same time, she couldn't help but feel a little terrified. She knew that Liu Mansha had high hopes for her, and she was afraid that it would end up like what Liu Mansha had said, with all her efforts being in vain.

Liu Mansha seemed to have read Yu xiner's mind. She said calmly, " "Xin' er, I'm not talking about you, don't think too much. You're different from that so-called genius disciple of the Black Dragon cult. As long as you persist in cultivating on the right path, your final achievements will definitely not be lower

than mine! If the same resources were used on other disciples, they might only be able to reach the seventh or eighth Qi layer at most. But you, you have the hope of breaking through to the Jindan stage!”

Yu Xin’er’s heart warmed and she quickly said, ” “Yes! This disciple understands! Thank you, master!”

“Is ... Is the Black Dragon cult going crazy?” Yang Liu cried out.

Liu Mansha frowned and looked at the big screen below. The highest bid had been updated. It was from Room 5, which was Zhou bingxuan from the Black Dragon cult, at 2800 spiritual stones.

Zhou bingxuan had changed his previous method of only increasing the bid by 40 spirit stones each time, and directly increased the bid by 280 spirit stones on the basis of Liu Mansha’s bid.

Liu Mansha sneered and said,”is this old man trying to show his determination to win?” Was 2800 spirit stones a lot? Who would be scared?”

After saying that, Liu Mansha immediately submitted a new bid. This time, she did not simply increase the bid by 40 spiritual stones. Instead, she manually entered the bid of 3000 spiritual stones into the bidding machine and pressed the submit button without hesitation.

Yu Xin’er didn’t dare to say anything else. She felt that the price was a little too high.

3000 spirit stones for 20 Chi – amassing pills was not as good as using spirit stones for cultivation! The total amount of spirit Qi would definitely be more than the Qi – gathering pill.

However, it could not be calculated that way. 20 Chi – amassing pills could be used up in less than a month, but 3000 spirit stones would take at least a few months to use up with the absorption rate of Qi refining cultivators. In addition, the spiritual Qi in the Chi – amassing pills was purer and the conversion efficiency was higher. The cultivation effect of the two might be similar, but it would save several times the time.

In room 20, Xia ruofei was still calm. On the other hand, Luo Qingfeng and Li Yifu were so excited that their eyes were wide open. They clenched their fists tightly and stared at the big screen.

At this moment, a rough voice came from Room 5,”“Valley Head Liu, there are still four bottles of Chi – amassing pills. Why do we have to fight to the death and let the person who entrusted it to be auctioned off take advantage of it? Why don’t you give this old man some face and let Valley master Liu fight for the remaining three bottles?”

Liu Mansha snorted. Since Zhou bingxuan had already exposed her, she didn’t intend to hide her identity anymore. She said directly,”This is exactly what I wanted to say to sect Master Zhou! Since there are still four bottles of Qi gathering pills, why don’t you go fight for the remaining three bottles, sect Master Zhou?”

“You ...” Zhou bingxuan was angry for a moment,”my disciple is at a bottleneck in his cultivation and needs Qi gathering pills to help him cultivate. Valley master Liu is already a master in the middle stage of the Golden core, what’s the use of this Qi gathering pill?”

“You’re the only one who’s allowed to have disciples?” Liu Mansha said coldly,”I have taken in several genius disciples! They also need Qi gathering pills. ”

“Valley master Liu, do you really have to do this?” Zhou bingxuan asked gloomily.

Liu Mansha smiled and said, “I’ve already made a bid!” If sect Master Zhou wanted to compete, then he’d have to raise the price! Maybe this is the highest price I’ve ever offered. If you add another 40 spirit stones, I’ll give up!”

Zhou bingxuan snorted coldly and didn’t say anything else. Apparently, he was also quite angry.

In the private room, Yang Liu chuckled and said, “Senior Sister!” It was so carefree! This Zhou bingxuan was so arrogant that he thought everyone had to give him face! When has our flying flower Valley ever been afraid of others?”

“Junior Sister yang, we’re prepared to give up on this round of bidding,” Liu Mansha said calmly.

Yang Liu was stunned and asked in confusion, “Release ...”

Before she could finish her sentence, Zhou bingxuan, who was in the room next door, raised the price again. However, he didn’t seem to lose his mind and directly added 40 spirit stones to the base price of 3000, raising the price to 3040 spirit stones.

On the other hand, Liu Mansha raised the price again without hesitation, and she raised the price to 3100 spiritual stones in one go.

Seeing this, Willow was even more confused. She clearly said that Liu Mansha was going to give up! Why was it still increasing, and by so much at once!

Zhou bingxuan, who was sitting next door, was also greatly agitated. He gritted his teeth in anger and directly increased the price to 3200 spirit stones, ignoring the persuasion of the elder beside him.

When the price was displayed on the big screen, Liu Mansha clearly heaved a sigh of relief.

She said in a relaxed tone, “It seems that the rich and overbearing sect Master Zhou is determined to get this bottle of Qi gathering pills! As the saying goes, a gentleman doesn’t take what others like. Although we are little girls, we might as well imitate a gentleman! We’ll give up this bottle of Qi gathering pills!”

Afterwards, Liu Mansha even “considerately” said to Hao Qingsong, who was on the main auction stage, “Elder Hao! Our soaring Flower Valley will give up. If there are no other fellow Daoists bidding, you can announce the end of this round of bidding!”

No matter how irrational Zhou bingxuan was, he had already realized that he had been tricked by Liu Mansha to raise the price from the Black Dragon cult. Liu Mansha had no intention of competing for this bottle of Chi – amassing pills, but she kept raising the price with a look of determination. Her goal was naturally to make the Black Dragon cult spend more spiritual stones.

Under Liu Mansha’s provocation, Zhou bingxuan really fell for it. 3200 spirit stones for 20 Chi – amassing pills was equivalent to 160 spirit stones for each pill. This price was obviously a little outrageous.

...

At this moment, Hao Qingsong was a little embarrassed, but he still dutifully inquired a few times. Seeing that there was indeed no one else competing for this bottle of Qi gathering pills, he loudly announced, "Congratulations to fellow Daoist Zhou from the fifth private room for winning this bottle of gathering Qi pills!"

Although he said congratulations, Zhou bingxuan felt that it was a little harsh.

Of course, for Hao Qingsong, this was just a routine. He immediately gestured for the staff to come up on stage and take the bottle of Qi gathering pills, and then hand it over to Zhou bingxuan in Private Room 5.

Chapter 2962 A bountiful harvest (1)

On the main auction stage, Hao Qingsong's voice had barely faded when he announced the start of the auction for the third bottle of gathering Qi pills. The price on the large screen was immediately updated. 2500 spirit stones. The bidder was from room number 6.

Many cultivators were ready to bid, and their hands had already reached for the bid button on the bidding device. When they saw the price, they immediately retracted their hands.

Originally, everyone had planned to raise the price to 440 spiritual stones. They did not expect Liu Mansha in Room 6 to raise the price to 2500 spiritual stones.

Fortunately, all the people present were cultivators, and their reaction speed was much faster than that of ordinary people. It was a good thing that they did not slip up and directly raise the price on the basis of Liu Mansha's bid.

After Liu Mansha placed this bid, she did not forget to say indifferently, "Sect Master Zhou, if you want to raise the price, you'll have to think it over carefully. I might actually be thinking of selling this bottle of Qi gathering pills for 2500 spirit stones! Be careful not to fall into your own hands."

Zhou bingxuan had suffered a loss in the last round, so he was really ready to raise the price with the idea of harming others without benefiting himself.

He had bought the Qi gathering pills at such an expensive price because of Liu Mansha, so he did not want Liu Mansha to buy them so easily.

However, after hearing Liu Mansha's words, Zhou bingxuan couldn't help but hesitate.

As his arch-enemy, Zhou bingxuan knew Liu Mansha very well. He knew that this woman was clever and unpredictable. She never played her cards according to common sense, and no one could guess what she was thinking.

Zhou bingxuan felt that if he increased the price, Liu Mansha might really give up again.

Just as Zhou bingxuan was hesitating, the price still rose.

Xia ruofei's previous prediction was very accurate. Now that there were only three bottles of Qi gathering pills left, the cultivators who wanted to buy them felt more and more anxious. In addition, the second round of bidding had sold for 3200 spiritual stones. Although everyone knew that the price was a

little high, it still inevitably formed an impression in their hearts, which made them evaluate the Qi gathering pills much more highly.

In addition, the price of 2500 spirit stones was still acceptable, and cultivators with financial resources still had the power to compete. Everyone was also worried that if they failed again in this round, the competition for the remaining two bottles would become even more intense. At that time, they didn't know how much the price would rise!

Therefore, for cultivators who were more willing to buy, they only had to weigh the pros and cons before someone increased the price.

The increase was not big, only 40 spirit stones. However, the price had been updated. The highest bid was now from room 32.

Liu Mansha was obviously not like what she had said. She had only set the price at 2500 spiritual stones.

After the cultivator in room 32 made the bid, she only thought for a moment and immediately added another 60 spirit stones, rounding the price to 2600 spirit stones.

The cultivator in room 32 thought for a while and raised the price by another 40 spirit stones.

This time, before Liu Mansha could raise the price, the cultivator from Room 19 raised the price again. The latest bid became 2680 spirit stones.

At this moment, Liu Mansha unhurriedly raised the bid again, and the new price was 2720 spirit stones.

The cultivator in room 32 decided to give up after some consideration and did not raise the price.

However, the newly joined cultivator in Room 19 still chose to follow after some consideration. Thus, the price of this bottle of Qi gathering pills rose to 2760 spirit stones.

In the next few rounds, Liu Mansha didn't give up either. She also used the same method of increasing the bid, increasing the minimum bid by 40 pills each time to compete with the cultivator in Room 19.

The price on the big screen continued to rise. After a few rounds of bidding, it finally reached 2960 spirit stones.

This bid came from Liu Mansha.

The cultivator in Room 19 had probably set his base price at 2900 spirit stones. In the previous round, he had thought about it for a long time before finally raising the price to 2920 spirit stones.

Liu Mansha, on the other hand, did not hesitate to raise the price again. The price on the big screen stayed for a very short time before it was updated to 2960. This also showed Liu Mansha's determination to win.

Finally, the cultivator in Room 19 chose to give up.

Of course, he didn't say anything from beginning to end, so no one knew which sect the cultivator in the box came from. However, after Liu Mansha's bid of 2960 spirit stones, the cultivators in Room 19 did not follow up with another bid. On the main auction stage, Hao Qingsong had already begun to repeatedly

ask if there were any more people who wanted to raise the bid. It was clear that the deal for this bottle of Qi – gathering pills was about to be sealed.

However, just as Hao Qingsong was about to announce the final price, Zhou bingxuan, who had been silent all this time, made a new bid. Although it was only an increase of 40 spirit stones, it made the price break through 3000 spirit stones.

All the cultivators in the private rooms were in an uproar. No one thought that the first item would be sold like crazy. The price was really too high.

In fact, Zhou bingxuan didn't think too much about it. He saw that Liu Mansha was very determined in the last few rounds of bidding, and obviously had a strong desire to buy it. Therefore, he finally made up his mind to come out and mess things up. Otherwise, he would really be unwilling!

Of course, he was also prepared that the other party would not follow up with this price. To the Black Dragon cult, spending an extra 3000 spiritual stones to buy a bottle of such high – Quality Chi – amassing pills was not a big deal. There were only 20 pills in a bottle. He was willing to spend the spiritual stones to buy two bottles for his precious disciple.

However, Zhou bingxuan naturally hoped that Liu Mansha would increase the price. Even if he could trick Liu Mansha once, he would feel better.

Therefore, after bidding, Zhou bingxuan deliberately laughed and said, "I'm sorry, Valley master Liu, but I suddenly feel that one bottle of Qi gathering pills might not be enough for my disciple, so I'm going to buy another bottle! Valley master Liu also has a disciple, so I hope you can understand my thoughts and help me fulfill my wish once again. "

Zhou bingxuan had deliberately provoked Liu Mansha with his words, hoping that she would fly into a rage out of humiliation and increase the price at all costs.

However, what made him dumbfounded was that Liu Mansha actually said without hesitation, "What's so difficult about that? This price has already exceeded my expectations. Since sect Master Zhou is so anxious for his beloved disciple, how can this Valley master bear to make things difficult for him? This bottle of Qi gathering pills, our flying flower Valley ... Will give it up!"

In Room 5, Zhou bingxuan heard Liu Mansha's words and was so angry that he almost smashed the bidding device in his hand.

He also secretly regretted his cheap hands. The price was obviously so high, why did he have to get involved in this muddy water?

Moreover, he could also see that Liu Mansha's so – called bottom price was not fixed. If he, Zhou bingxuan, had not suddenly jumped out, but the other cultivators in the private room had increased the price, Liu Mansha might have continued to compete.

However, as soon as Zhou bingxuan made a bid, Liu Mansha immediately chose to stop without hesitation, which caught Zhou bingxuan off guard.

At the same time, Zhou bingxuan was really a little afraid. In the next two rounds of bidding, if he wanted to bid maliciously again, he would have to think about the risk.

This was also the effect Liu Mansha wanted to achieve.

Therefore, she had no intention of really bidding for this bottle of Qi gathering pills from the beginning.

Of course, if Zhou bingxuan didn't jump out, she would naturally take it for real and directly buy the Qi gathering pill, which would be even better.

She had already thought it through. As long as Zhou bingxuan jumped out to cause trouble, she would immediately stop.

Now, after several rounds of bidding with the cultivators in room 32 and Room 19, the price itself was relatively high. Zhou bingxuan stupidly came out at this time to meddle in the bidding. To Liu Mansha, it was like meeting a pillow when she was drowsy. She didn't even need to think about it and gave up.

In room 20, Xia ruofei was stunned at first, then he laughed. ""The valley master Liu of the flying flower Valley is also an amazing person! In these two rounds, she's definitely worthy of the best assist award!"

Li Yifu also laughed and said, "Valley master Liu has helped us a lot in these two rounds!" To be able to bid at such a price, she must have contributed greatly!"

"We have to thank her properly!" Luo Qingfeng said with a smile.

At this time, on the main auction stage, Hao Qingsong had finished his routine inquiry. Seeing that Liu Mansha and the other cultivators had no intention of raising the price, he awkwardly announced, "Congratulations to the Black Dragon cult's Cult Master Zhou for purchasing another bottle of gathering Qi pills!"

When the fallen leaf sect disciple took a bottle of Qi gathering pills and went to the number 5 box to settle the bill with Zhou bingxuan, Hao Qingsong looked at the remaining two bottles of Qi gathering pills on the table and said with a smile, "Sect Master Zhou has bought two bottles of Chi – amassing pills for your disciple's cultivation. Now that there are only two bottles of Qi gathering pills left in this auction, fellow Daoists who want to prepare supplementary medicine for their disciples must not hesitate! If we miss this opportunity, it won't be easy to come across such a high – Quality Qi gathering pill again!"

After he finished speaking, Hao Qingsong loudly announced, "Next, the bidding for the fourth bottle of Chi – amassing pills will begin. The rules are the same as the previous rounds. Fellow Daoists, you may start bidding now!"

...

As soon as Hao Qingsong's voice fell, the price on the big screen flickered and changed to 2500 spirit stones. The bidder was still Liu Mansha from Room 6.

The hand speed of a middle jiedan stage master was indeed much faster than the average cultivator. Every time, she would be able to grab the first one, and the other cultivators had no time to bid.

This opening was almost exactly the same as the previous round.

But this time, Liu Mansha didn't even bother to say anything. She just sat there quietly after bidding, waiting to see if Zhou bingxuan would jump out and make trouble again.

Obviously, Zhou bingxuan had learned his lesson from the previous two rounds, and decided not to fight over it anymore. The two bottles of Qi gathering pills were already enough. If he threw another bottle in his hand, he would be able to get nearly 10000 spirit stones out of the three rounds of auction, which would really affect his subsequent bidding plans.

Zhou bingxuan retreated, but the other cultivators wouldn't give up easily.

After all, there were only two bottles of Chi – amassing pills left, and the sense of urgency in everyone's hearts was getting stronger and stronger.

This time, there were obviously more cultivators bidding than in the previous round. The price in everyone's heart had been raised by the high price of the previous two rounds. The price of 2500 spirit stones was obviously not enough.

Liu Mansha was still the same as the previous round. She seemed to be very interested in buying, and every time she raised the price, it was very timely.

As the price rose, more and more cultivators withdrew from the competition. The remaining cultivators spent more time thinking before raising the price.

In the end, Liu Mansha bought the bottle of Chi – amassing pills for 2980 gold coins as she wished.

...

When Hao Qingsong announced the deal, Liu Mansha also let out a soft sigh of relief. She turned her head and exchanged a smile with Yang Liu.

Yang Liu gave Liu Mansha a thumbs up and said, "Senior Sister is amazing! He had thoroughly understood Zhou bingxuan's psychology! Not only did he buy the Qi gathering pill, but he also made him suffer two losses in a row! It's simply very satisfying!"

In fact, the spirit stones Liu Mansha spent in this round were not much less than Zhou bingxuan's. In fact, the transaction price was almost the same in both rounds, but the feeling was completely different.

What's more, according to the rules of the auction, as the remaining Qi – gathering pills became less and less, the final price of this round would generally be higher than the previous round. Zhou bingxuan's final price of 3000 spirit stones in the last round was obviously a lot higher.

Most importantly, all of this was part of Liu Mansha's plan. She had successfully tricked Zhou bingxuan and intimidated him so that he didn't dare to cause any more trouble. This kind of satisfaction was even stronger than buying the gathering Qi pill through direct competition.

Chapter 2963 All sold_

Luo Qingfeng could not help but smile when he saw this.

Xia ruofei and Li Yifu, who had already expected this situation, also smiled happily.

Since it was the last bottle of gathering Qi pills, the competition was intense.

Other than a few powerful sects, the other cultivators also made their bids.

In the end, this bottle of Qi gathering pills was sold for a super high price of 3360 spirit stones, which was even higher than Zhou Bingxuan's 3200 spirit stones in the second round.

This also made Zhou Bingxuan feel a little better. Thinking back, it seemed that it was not a loss to buy two bottles of Qi gathering pills at the price of 3200 and 3000 spirit stones.

However, when he thought about how Liu Mansha had not only tricked him twice, but also how she had spent less than 3000 spirit stones to get that bottle of Chi – amassing pills, he immediately began to feel unhappy.

The cultivators who didn't get the Qi gathering pills in the end couldn't help sighing, and the cultivators who got the last bottle of Qi gathering pills didn't seem to be in a good mood. After all, the price was really too high. When they were bidding, they just bought it in a moment of impulse. When the fallen leaves sect disciples really came to settle the bill with the Qi gathering pills, they couldn't help but feel very distressed.

In any case, this was only the appetizer of the entire auction.

The result had already been decided. Although some were happy and some were sad, everyone's attention quickly shifted to the next treasure that was about to be revealed.

Qingfeng Luo and Yifu Li were busy calculating how much they could earn from the five bottles of Energy Pills.

No one competed for the Qi gathering pill in the first round, and Sun Tianfeng won it with 2000 spirit stones.

In the second and third rounds, it was Zhou Bingxuan who won the Qi gathering pill at 3200 and 3000 spirit stones respectively.

In the fourth round, Liu Mansha won a bottle for 2980 spirit stones.

The last round had reached a high price of 3360 spirit stones.

After five rounds, the total price was 14540 spiritual stones. After deducting the fallen leaves sect's 50% commission of 727 spiritual stones, Xia Ruofei could earn 13813 spiritual stones in the end, which was 30% higher than what they had expected yesterday. It was a very ideal result.

However, when the disciples of the fallen leaves sect brought their spiritual stones into the private room, Xia Ruofei scanned them with his spiritual power and found that they had brought 14540 spiritual stones. There was no deduction of their Commission.

Xia Ruofei was confused and asked, "Are you all mistaken? According to the rules, shouldn't your sect be taking a 5% commission?"

The falling leaves sect disciple seemed to have expected Xia Ruofei's question. He replied respectfully, "Senior, it's like this, Medicine King's Valley's old senior Sun felt that the price of two thousand spirit stones for that bottle of Chi gathering pills in the first round was a bit low. He didn't expect the final price of the Qi gathering pills to be so high, and the fellow Daoists all gave him face and didn't participate in the competition, so the first round was sold at a low price. Old senior Sun felt very

apologetic, so he specifically looked for our sect master and said that he would bear the Commission for this batch of Qi gathering pills. It was a total of 727 spirit stones, which old senior Sun has already paid. ”

Xia ruofei and the other two couldn’t help but feel surprised. At the same time, Xia ruofei’s impression of elder sun Tianfeng, who spoke with a northeast accent, improved a lot.

It was a kind gesture and the spiritual stones had already been paid for. Xia ruofei would not reject it. He really needed spiritual stones now, so he accepted the spiritual stones after a moment’s thought.

With a sweep of his psyche, he easily took out 40 spirit stones from the pile and pushed them in front of the disciple. Then, he smiled and said, ”Thank you for your hard work! This is a small token of our appreciation. ”

The disciple was surprised and overjoyed. He quickly bowed to Xia ruofei and thanked him.

The disciples who were selected to help in the auction were generally smart and valued. After all, many seniors would reward them with some spirit stones, just like tips in the secular world. However, it was rare to see someone as generous as Xia ruofei, who gave 40 spiritual stones directly. The disciple was naturally surprised.

Xia ruofei smiled and said, ”please help me pass a message to old senior Sun. Tell him that I thank him for his good intentions. I’ll accept the spiritual stones.” If old senior Sun is willing, we can also use the appropriate opportunity to exchange knowledge with him about the refinement of the Qi gathering pill. ”

With that, Xia ruofei took out a name card from the spirit map space and handed it to the fallen leaves sect disciple.

There was only a cell phone number on the business card, not even a name. This phone number was the one Xia ruofei used when he was active as Xia Tian.

”Yes!” The disciple took the name card with both hands and said respectfully, ”I will definitely convey the message to you in time.”

Xia ruofei nodded in satisfaction and said, ”Please don’t reveal our identities for the time being.”

”I understand! I know the rules!” The falling leaves sect disciple hurriedly said, ”if senior doesn’t have any other instructions, this disciple will take his leave.”

Xia ruofei smiled and nodded.

The falling leaves sect disciple bowed slightly to Xia ruofei and the other two, then left the private room and closed the door from the outside.

The fallen leaves sect was not the kind of organization that specialized in auctions. All these years, the auction exchanges between the sects in the cultivation world had taken turns to be the host. Hence, Xia ruofei did not expect them to do a good job of keeping it a secret. However, even if their identities were leaked, he would not be particularly concerned.

After all, the star Seizer sect was a first – Class sect. A mere batch of Qi gathering pills was not enough to attract the coveting eyes of many top sects.

Furthermore, the news had only spread to the star Seizer sect. Xia ruofei had always been using Xia Tian's identity and appearance. His family and friends in the secular world would not be affected.

As for Li Yifu, although he had a huge business in the secular world, he was only an old Qi refining cultivator. Under normal circumstances, he wouldn't attract anyone's attention. Moreover, Li Yifu would spend most of his time on the Peach Blossom Island in the future, so there was no need to worry about his personal safety.

Xia ruofei had already considered this situation before he came. That was why he had decided to bring Li Yifu along to the auction.

After the fallen leaf sect disciple left, Xia ruofei waved his hand and kept the 14500 spiritual stones into the spirit map space.

At this moment, the second item of the day was being auctioned on the main auction platform. Although the Qi gathering pill before the Suan ni had been divided into five rounds of auction, it was strictly only the first item.

The second item was a flying sword. Xia ruofei scanned it with his spiritual power and lost interest. The quality of this flying sword was much worse than his blue travel immortal sword. At most, it was on par with Luo Qingfeng's flying sword.

However, flying swords were also relatively rare in the cultivation world. Although most of the Jindan stage experts had their own flying swords, they were still willing to carry one or two flying swords with them. If they needed to fight while riding on flying swords, those who had two flying swords would naturally have a great advantage.

Moreover, even though Xia ruofei looked down on this flying sword, in the eyes of the cultivators, it was of good quality.

According to Hao Qingsong's introduction, this was something a golden core cultivator had found in an ancient cultivation ruin. Because this golden core cultivator already had a handy flying sword, and at the same time needed spirit stones to buy a relatively precious spirit herb, he had reluctantly given up on it.

Xia ruofei was not interested in competing for the flying sword, so he just sat on the mountain and watched the Tigers fight.

Unlike the Qi gathering pill, this flying sword was for the use of golden core cultivators. The people who came to the auction from the major sects were either sect leaders or elders, and most of them were golden core cultivators.

Therefore, the competition for the flying sword was more intense than the gathering Qi pill.

In the end, the flying sword was sold for 7800 spiritual stones.

Xia ruofei was speechless when he saw the result. He couldn't help but say, "I didn't expect a flying sword to be so valuable! Compared to that, our Qi gathering pill business is really a small one!"

"Master," Luo Qingfeng explained with a smile, "in the current cultivation world, there are even fewer weapon masters than medicine Masters. Flying swords are basically excavated from ancient cultivation ruins. They are very rare, so it's normal for their prices to be higher."

Xia ruofei thought of the large number of ancient books he had obtained from the Jade talisman of inheritance. There were many books that introduced refining knowledge, but he had never taken the time to study them.

If flying swords were so valuable, could he learn how to forge? Xia ruofei muttered in his heart.

He suddenly realized that in terms of preciousness, none of the vast number of ancient books in the Jade talisman of inheritance could compare to the great Dao Sutra, let alone the precious spirit maps and paintings themselves. However, these ancient books were also an invisible wealth, especially when there were so many of them. When all of them were gathered together, they were even more precious.

Xia ruofei felt that he had not excavated enough of this treasure house.

He also told himself that he should sort out the ancient books in the Jade talisman of inheritance when he had time in the future ...

...

The auction continued, and all kinds of items appeared on stage. Some of the new and interesting things opened Xia ruofei's eyes.

For example, there was a set of very ingenious array flags. Xia ruofei could not help but be tempted and wanted to buy it to study. But considering the storage ring, Xia ruofei gave up.

Of course, that set of array flags was just a clever use of a few basic array techniques. Xia ruofei was just a little curious.

Other than that, there were also some treasures excavated from the ancient ruins, which made Xia ruofei feel very novel.

Although the cultivation environment had deteriorated, there were still many things worth learning and studying in the cultivation world. After all, this was a group that had been passed down for countless years. Xia ruofei, who was strictly considered a rookie cultivator, could not compare to them in many aspects.

As the auction went on, the other two items provided by Xia ruofei were also revealed.

The final price of the two items did not disappoint Xia ruofei and the other two.

Chapter 2964 The mysterious ore (1)

The reason why Xia ruofei was suddenly so interested in this item that had yet to be revealed was very simple. The moment this item appeared, the spirit painting in Xia ruofei's palm trembled. This was a reaction that he had not seen in a long time.

In the past, it would only have such a reaction when a world stone appeared in the vicinity.

However, world stones were simply too rare. It could be said that they could only be encountered by luck and not sought out. One had to have sufficiently good luck to obtain one. It was impossible to take the initiative to look for one on normal days.

As a result, it had been a long time since the spirit painting had taken the initiative to react.

Moreover, the reaction from the spirit map scroll was especially strong this time. Unlike the previous times, the sensing Jade Leaf that Xia ruofei carried with him did not change at all. The temperature was still the same as before. If a realm stone appeared nearby, the sensing Jade Leaf would also heat up. The closer it was, the higher the heat. This was the most direct reaction. Xia ruofei was also considering the possibility of a world stone appearing with so many cultivators gathered here. Hence, he had always carried the sensing Jade Leaf with him.

However, the Jade Leaf didn't have any reaction. Instead, the spirit painting scroll itself began to tremble.

Moreover, this kind of trembling had occurred after Hao Qingsong had indicated for the fallen leaf sect disciples to bring up the auction items. Presumably, for the safety of the auction items, the fallen leaf sect had stored them in a container with shielding and protective functions. It was possible that they had directly stored them in a storage ring and would only be taken out when the auction was about to begin. As such, when this auction item appeared, the spirit map scroll immediately reacted.

After a brief moment of shock, Xia ruofei's expression returned to normal. However, he immediately released his spiritual power to scan the items on the tray.

Under the investigation of his spiritual power, an ordinary piece of red silk cloth could not hide it. Xia ruofei immediately discovered that there was a black ore the size of an adult's fist on the tray.

Xia ruofei had already come into contact with many realm stones and was extremely familiar with the aura of realm stones. After using his spiritual power to investigate, he could confirm that this ore was not a realm stone. However, the fact that the spirit map scroll had such a strong reaction to this ore made Xia ruofei feel very strange.

However, regardless of whether this ore was a world stone or not, since it could make the spirit map scroll tremble on its own, Xia ruofei would definitely not let it go. In an instant, he made a decision. Even if he had to lose the pair of storage rings later on due to a lack of spirit stones, he could not let go of this special ore. He had to obtain it at all costs!

At this time, Hao Qingsong had already had the fallen leaf sect disciples remove the red silk cloth. The item on the tray was presented to everyone. Just as Xia ruofei had examined earlier, it was a piece of black ore.

In fact, it was not just Xia ruofei. When the item appeared, many cultivators in other boxes also scanned it with their spiritual power out of habit. However, none of them, including Liu Mansha, Zhou Bingxuan, and the other knowledgeable high – Level cultivators of the top sects, could recognize the ore.

Everyone was naturally curious.

Of course, things that they didn't recognize might not be good things, especially when everyone couldn't recognize what kind of ore it was. However, they could still sense that this ore didn't give off the slightest fluctuation of spiritual energy. It looked like an ordinary stone.

Therefore, many people were just curious and wanted to hear Hao Qingsong's introduction. At least they knew what this thing was. The only one who was really determined to buy it at all costs was Xia ruofei.

At this time, Hao Qingsong smiled and said, "The next item up for auction is this unknown ore that fellow Daoists have seen."

When the cultivators in the private rooms heard this, they were surprised that the organizer didn't know what this black ore was and brought it to the auction. What was he doing?

Hao Qingsong wasn't a professional auctioneer, and cultivators all had their own independent judgment. Therefore, he didn't beat around the bush and directly explained, "Of course, we won't let an ore of unknown origin be auctioned on the stage. In fact, it was entrusted by fellow Daoist Chen Xuan of the first heaven society to auction it. As for the situation of this ore, we'd better ask fellow Daoist Chen Xuan to explain it to everyone personally!"

Hao Qingsong had directly revealed the name of his client. Naturally, he had also obtained the other party's permission in advance.

In fact, when Hao Qingsong said this name, the attitude of all the cultivators present immediately changed. No one thought that the falling leaves sect's decision to put this ore up for auction was child's play.

The reason was simple. Chen Xuan and his sect, the first heaven society, were famous in the cultivation world of China.

The sect leader of the first heaven sect, Chen Nanfeng, had reached the late – Stage of the Golden core realm. It was rumored that Chen Nanfeng was the cultivator closest to the nascent soul realm in the cultivation world. Other than some reclusive individual cultivators, Chen Nanfeng was also faintly at the top of the cultivation world.

Tianyi school was one of the top sects in Huaxia, and its strength was among the best.

In addition to Chen Nanfeng, who was a late – Stage golden core expert, there were two mid – Stage golden core elders, four early – Stage golden core elders, and fifteen Qi refinement realm disciples who had reached the ninth Qi refinement realm. These people all had the chance to break through to the Golden core realm. Just from these numbers, one could tell how terrifying the first heaven society was.

Chapter 2965 The mysterious ore (2)

Chen Xuan was the only son of the sect master of the first heaven sect, Chen Nanfeng. He was also one of the elders of the sect and had reached the early gold core realm. He was only around forty years old, which was considered very young among the early gold core realm cultivators.

If Chen Nanfeng could be said to be at the top of the cultivation world, then Chen Xuan was already the leader of the second generation of cultivators.

A cultivator with such a powerful cultivation base and a prominent family background naturally had unparalleled influence and speaking rights.

Everyone had a strong premonition that Chen Xuan had his reasons for submitting the ore to the auction.

As soon as Hao Qingsong finished speaking, a deep and steady voice rang out from Box 1. It was Chen Xuan.

He laughed and said, ""Fellow Daoists, the matter is actually very simple. I found this ore two years ago in an ancient cultivator ruin in the eastern sea. I've flipped through the sect's ancient records but couldn't find out what this ore is. In the past two years, I've studied it whenever I have time, but I've never found anything. It doesn't have any spiritual Qi fluctuations and it's not any kind of artifact refining material we know of. If it hadn't come from an ancient cultivator ruin, I would've even thought it was an ordinary stone."

At this point, Chen Xuan paused for a moment before continuing, ""Of course, strictly speaking, two years of research still made some small discoveries."

Initially, all the cultivators were a little disappointed after hearing Chen Xuan's words, and their interest in the ore had been greatly reduced. However, after hearing Chen Xuan's last sentence, they could not help but perk up again.

"Perhaps this is the only discovery I've made!" Chen Xuan continued. I've studied it for a long time without any progress. Not long ago, I asked patriarch Gu of our craftsmanship Hall to try to refine this ore, but we found out that our crafting furnace couldn't melt it at all. Patriarch Gu also did some experiments and found that this ore is extremely hard. Even Supreme – grade flying swords can't cut it at all. "

Chen Xuan paused for a moment before continuing, ""That's all I've found. It can be said that it's of no use ... Later on, I thought that the auction was going to be held today, so I simply sent this ore to the auction. Secondly, I feel that this ore might not be fated to be mine! Perhaps it could find the right person at the auction! So, I've decided to auction it today. As for the price, I'll leave it to fate! Well ... The starting price of this ore is zero. Everyone can bid freely! My only request is for the fellow Daoist who successfully bid for it to share with me what you've managed to discover. "

The moment Chen Xuan finished, the cultivators were enlightened.

It was obvious that Chen Xuan was not in need of spirit stones at all. The reason he had sent the ores to the auction was not to earn money.

On one hand, it was just as Chen Xuan had said. He hoped that other cultivators would share their findings with him to satisfy their curiosity.

On the other hand, they were probably here to support the auction. After all, the heavenly sect was a leading force in the cultivation world, and this auction had been held many times in the cultivation world. It had a deep history, so it was reasonable for the heavenly sect to support the auction with their actions.

However, even though everyone understood Chen Xuan's actions, they were still uninterested in the ore.

The reason was simple. With the resources and strength of the first heaven society, if they couldn't figure out anything from this ore after two years of study, what could the other cultivators figure out after they bought it?

Furthermore, according to Chen Xuan, other than its toughness and the fact that it couldn't be melted by high temperatures, there was nothing special about it. As such, it was basically useless.

The hardness was so high, and it couldn't be melted. Even if he wanted to add a little bit of ore to the artifact for an experiment, he couldn't do it. Could he buy it back as a decoration? Or ... Could he use it to smash people during a battle?

Anyone who used their brain to think about it would know that this was indeed a useless item.

Of course, one person was an exception.

After hearing Chen Xuan's introduction, Xia ruofei was overjoyed.

Naturally, he could guess what the other cultivators were thinking. In that case, there shouldn't be many people who would jump out to compete with him for this ore. Even if someone was willing to bid, it would most likely be to give face to the first heaven sect, so as to avoid the things being thrown around and embarrassing Chen Xuan.

As long as he raised the price a few more times, most people would give up.

At the thought of this, Xia ruofei could not help but want to bid.

However, he still forced himself to calm down. At this time, he couldn't show any urgency. These cultivators were all smart people. If he showed a strong desire to buy it, he would immediately be noticed.

These cultivators would quickly think that this person was in such a hurry to buy it. Could it be that he recognized this ore and that this ore was very precious?

When the time came, the price he might have to pay wasn't the most important thing. He was more afraid that Chen Xuan of the first heaven society would have the same idea.

Chen Xuan had been researching this for two years. He would definitely want to know the secret of this ore. If there was a secret to it ...

Therefore, if Xia ruofei was not careful, he might attract a powerful enemy like the first heaven society. That would not be worth it.

In reality, no matter how careful Xia ruofei was, as long as he was the one who won the bid, he would definitely attract Chen Xuan's attention. However, since this piece of ore could cause the spirit map to shake so violently, Xia ruofei felt that it was worth the risk.

At this moment, Hao Qingsong had already announced the start of the auction.

Xia ruofei took a deep breath. He decided to bide his time and observe the situation.

Although Chen Xuan of the first heaven society was famous, everyone's spirit stones didn't come from nowhere. So, there was indeed an awkward silence at the beginning.

The cultivators who had come to the auction had all seen the treasures that they wanted in advance, so their spirit stones were naturally prepared to compete for the treasures that they had their eyes on. Unless there were very practical medicines and treasures like the Qi gathering pill or the spirit gathering talisman that Xia ruofei had provided, they would not easily change their plans.

At the very least, Chen Xuan's name alone wouldn't cause everyone to spend spirit stones to show their support.

Of course, this was with the exception of those who had a favor to ask of the heavenly sect or those who wanted to get on Chen Xuan's good side.

After a few seconds of silence, a burst of laughter came from room 15. Someone said loudly, "This is the ore that young sect Master Chen found in the ancient cultivation ruins! Even if there were no results from the research, the value would definitely be extremely high. Since fellow Daoists are so modest, then our spirit Vulture mountain will take up the responsibility! I bid 1000 spirit stones!"

Xia ruofei had been waiting for quite a while. Just as he was about to make a bid, he was interrupted by the person from room 15. He could not help but raise his eyebrows.

After hearing the cultivator's words, Xia ruofei frowned and asked, "Ling Jue mountain? Qingfeng, the person who spoke ..."

"Master," Luo Qingfeng said quickly, "it sounds like the young sect master of the spirit Vulture mountain, Wu Ming. He's one of the cultivators you've heard about who's interested in storage rings!"

Xia ruofei laughed, "this Wu Ming is too obvious in currying favor with me! If you want to bid, then bid! You actually reported your name!"

Luo Qingfeng smiled. "Spending 1000 spirit stones on a useless piece of ore? Wu Ming isn't a spendthrift, so he has to tell Chen Xuan his name to gain Chen Xuan's favor. Otherwise, wouldn't the 1000 spirit stones be wasted?"

Li Yifu said from the side, "great uncle – Master, this is a good thing!" Wu Ming had spent 1000 spirit stones on a single ore. Now that the storage ring was going to be auctioned off, wouldn't he be short of 1000 spirit stones? It would be even better if someone were to raise the price with him! Tell him to spend as much money as he can!"

Xia ruofei couldn't help but smile bitterly ...

Chapter 2966 Who's the fool (1)

Under normal circumstances, Xia ruofei would have the same thought as Li Yifu.

However, the situation now was special!

Xia ruofei was determined to get this ore. No matter how high Wu Ming's price was, Xia ruofei would follow. Even if he had to spend over 30000 spirit stones, he would not hesitate!

Of course, this was the last thing Xia ruofei wanted to see. If this happened, everyone would notice this abnormal phenomenon, especially Chen Xuan. He would wonder if the person who wanted to bid for the ore had already discovered the secret. And the value of this ore was extremely high?

It might take some effort for others to find out the identity of the cultivator in Box 20, but for the first heaven society and Chen Xuan, it wasn't a problem at all.

No matter what the situation was, the best choice was to make a fortune quietly!

Xia ruofei didn't have much time to think about it because the cultivators participating in today's auction really didn't have much interest in this ore. Even when Wu Ming bid 1000 spirit stones, no one raised the bid. On the main auction stage, Hao Qingsong had already asked for the third time if anyone wanted to raise the bid.

Xia ruofei put his worries aside and pressed the increase button in the bidding device without hesitation.

The price on the big screen flashed and was updated to 1010 spirit stones. The starting price of this ore was zero, so the default increment was also the lowest 10 spirit stones.

Hao Qingsong had originally intended to announce that the bidding had ended, so he was clearly stunned when he saw the new price.

However, he quickly reacted and raised his voice, "The fellow Daoist in room 20 has bid 1010 spirit stones!"

In private room 15, Wu Ming was sitting on the sofa with his legs crossed and a glass of red wine in his hand.

The reason why he had placed a bid on the spirit stone was just as everyone had expected. He had done so to please the first heaven society and Chen Xuan.

Wu Ming felt that with such an unremarkable ore that had already been proven to be of little use, there would definitely be no one competing with him for it if he offered 1000 spirit stones. There would be no suspense in this round of bidding.

1000 spirit stones for such an ore was a huge loss.

However, using 1000 spiritual stones in exchange for the first heaven society's favor was more than worth it.

Even Luo Feng, the gold core realm elder who had led the team from the Ling Jue mountain to participate in the auction this time, felt that Wu Ming's decision was very correct. He even looked at him with a bit of admiration.

Of course, even if Luo Feng was against it, Wu Ming would most likely still insist on his own way.

Although Luo Feng was an elder of the spirit Vulture mountain and his cultivation was much higher than Wu Ming's, everyone in the spirit Vulture mountain knew that the sect leader and his wife doted on Wu Ming, their only son. Wu Ming had been domineering since he was young. However, the sect leader Wu Tiancheng and his wife Ren suling were very protective of their son. As a result, Wu Ming was an existence that no one could touch in the spirit Vulture mountain. Once he lost control of his temper, he would not care if Luo Feng was an elder or not. He would definitely dare to turn hostile.

Of course, the two of them had the same opinion on the matter of bidding for the ore.

Therefore, when they saw the sudden changes on the big screen, they couldn't help being stunned.

Wu Ming and Luo Feng had not expected that someone would actually bid for it.

Was he another cultivator who wanted to show goodwill to the first heaven sect?

The big screen showed room number 20, but except for the rooms of a few top sects, the rooms of the other sects and the invited rogue cultivators were all in a mess, so this room number didn't mean anything.

Wu Ming's face darkened immediately.

This was simply a slap in the face! What could be tolerated?

After being stunned for a moment, Wu Ming immediately entered a new price into the bidding machine and submitted it with a cold snort.

1500 spirit stones!

When Luo Feng saw the price, he couldn't help but raise his eyebrows. He naturally felt that Wu Ming was acting on impulse and had raised the price too high.

Even if they wanted to express their goodwill to the heavenly sect, they could just increase the price. Why did they have to increase the price by 500 spiritual stones?

Although 500 spiritual stones was not a big sum for the Ling Jue mountain, they still had other items to compete for! If he spent spirit stones extravagantly now, what would he do if he ran out of spirit stones later?

Luo Feng even suspected that someone had heard some news in advance and knew that the spirit Vulture mountain would compete with them in the subsequent auctions. Thus, they deliberately raised the price to weaken the spirit Vulture mountain's financial resources.

However, Luo Feng still held back and didn't say anything. After all, the price had already been submitted, and he knew that Wu Ming definitely wouldn't listen to him.

Luo Feng could only hope that the other party would not raise the price again. Otherwise, the irascible Wu Ming would really treat spirit stones as a simple number ...

In room 20, Xia ruofei saw Wu Ming's bid and could not help but grit his teeth, feeling a headache.

On the other hand, Li Yifu and Luo Qingfeng looked at Xia ruofei with admiration. Li Yifu said excitedly, "Martial granduncle is wise! This fool actually added another 500 spirit stones!"

Luo Qingfeng also nodded.

After Xia ruofei heard this, he felt very upset. No matter how he heard it, he felt that the word "fool" was very piercing to his ears. It felt like he was being scolded!

Chapter 2967 Who's the fool (2)

However, Xia ruofei couldn't explain it. He even felt that since Li Yifu and Luo Qingfeng misunderstood that he was deliberately raising the price to make Wu Ming consume more, he should just continue to misunderstand ...

He didn't say anything, but focused on the big screen above the auction stage.

Originally, the other cultivators had no interest in this ore and had already turned on their spectator mode. Now that Wu Ming had made such an unreasonable bid, naturally, no one would respond.

As a result, Hao Qingsong began to perform his duty and asked if there were any cultivators who wanted to increase the price.

This time, Xia ruofei didn't wait for Hao Qingsong to ask for the third time and directly pressed the button to increase the bid.

On the screen, the price was updated again. It was now 1510 spiritual stones. The bidder was naturally from room 20, where Xia ruofei was.

Li Yifu and Luo Qingfeng could not help but look at Xia ruofei with worry.

Li Yifu hesitated for a moment before saying, "Martial granduncle, why don't you ... Quit while you're ahead! What if the other party gives up ..."

Xia ruofei revealed an unfathomable smile and waved his hand. "It's fine, I know what to do!"

Since Xia ruofei had said so, Li Yifu and Luo Qingfeng naturally could not say anything more. They just stared at the big screen with slight apprehension, hoping that the "fool" in room 15 would quickly bid.

Xia ruofei's mood was the exact opposite of Li Yifu and Luo Qingfeng's.

Of course, Xia ruofei also knew that it would not be easy to make Wu Ming give up so easily.

This kind of 'rich second generation' in the world of cultivation probably valued their face more. Rationality and such did not exist!

In fact, it was true.

In Box 15, Wu Ming was already flying into a rage.

He gritted his teeth and said, "uncle Feng!" This guy in room 20 is deliberately slapping my face! I'll add 10 spirit stones each time!"

Luo Feng secretly sighed and said, "Young sect leader, it's just a small dispute. We've already expressed our sincerity to the first heaven society ..."

Before Luo Feng could finish his words, Wu Ming glared at him and said, "I definitely won't give up like this! It was only a few thousand spirit stones! I, Wu Ming, am not someone who can't afford to play!"

After saying that, Wu Ming snorted coldly and directly entered the number 2000 spirit stones into the bidding machine. Then, he pressed the submit button without any hesitation.

Luo Feng's eyes twitched as he watched from the side. His heart really ached for the spirit stones!

However, Luo Feng really couldn't persuade his young sect master.

He was now highly suspicious that the other party was deliberately starting a fire and digging a hole for Wu Ming to jump into.

Moreover, it looked like the other party was certain that he had Wu Ming in the palm of his hand and would not stop so easily ...

As expected, the 2000 spirit stones bid only appeared on the big screen for a few seconds. Before Hao Qingsong could announce the latest bid, the cultivator in room 20 once again placed a bid, and the price on the big screen was immediately updated to 2010 spirit stones.

Wu Ming's expression turned extremely unsightly. He stood up abruptly and removed the sound – proof barrier he had set up earlier. Then, he said sinisterly, "My friend in room 20, are you deliberately going against our spirit Vulture mountain?"

Xia ruofei didn't hide this time. After a slight smile, he said directly, "Young sect leader Wu, why do you say that? The ore provided by elder Chen of the first heaven society is so mysterious. Can't I be interested in it? The rule of the auction is nothing more than the one with the highest price will get it. If young master Wu really wants this ore, you don't need to threaten me with words. As long as you bid higher than me, I can't take this ore, right?"

"Very good!" Wu Ming gritted his teeth and said, "it seems that my reputation is really worthless! Then let's see the price!"

Wu Ming had completely hated the person in room 20. He would definitely find out the identity of the cultivator in room 20 at all costs and then take revenge. But right now, he didn't have the time to do this. The most important thing was naturally to win this auction and win back his face.

Therefore, since he had already said so much, Wu Ming simply quoted the price.

In the style of the young sect leader, he raised the price to 2500 spiritual stones.

In room 20, Xia ruofei did not hesitate to raise the bid. His bid was also very stable. It was only 10 spiritual stones, not a single more.

In Wu Ming's eyes, this was a mockery of him.

Three thousand spirit stones! Wu Ming continued to raise the price in exasperation.

In room 20, Xia ruofei continued to follow up unhurriedly and updated the price to 3010 spiritual stones.

Beside him, Li Yifu and Luo Qingfeng watched with fear, afraid that it would fall into their hands.

Wu Ming increased the price without a care, raising it to 500 spirit stones each time.

Xia ruofei followed them calmly, paying no more or no less 10 spiritual stones each time.

After a few rounds, the final price had reached 6010 spirit stones, which was a small change of 10 spirit stones. Naturally, the bidder was from room 20.

Luo Feng finally came back to his senses when he saw that the price had already reached an unimaginable level.

He grabbed the hot – headed Wu Ming.

Wu Ming suddenly turned his head and glared at Luo Feng, fiercely shouting, ""Uncle Feng! What are you doing? Do you want me to give in to that kid? I'm telling you! No way!"

"Young sect master, please calm down!" Luo Feng said earnestly. There's something fishy about this!"

"The other party has already thrown my face to the ground and stepped on it. How can I calm down?" Wu Ming roared.

Chapter 2968 Who's the fool

Luo Feng said helplessly, "let me finish first!" Young sect leader, even if you want to bid, there's no need to rush!"

After all, Luo Feng was a golden core stage cultivator and could be considered Wu Ming's senior. No matter how disgraceful Wu Ming was, he would not not show him no respect.

He waved his hand and said, "uncle Feng, tell me!" Long story short! Don't miss the time to bid!"

Seeing that Wu Ming still wanted to bid, Luo Feng couldn't help but smile bitterly and said, ""Young sect leader, I suspect that this is a trap set up by someone to waste our spiritual stones!"

"Set up a trap?" Wu Ming couldn't help but frown.

"Yeah!" Luo Feng quickly replied. You've already spread the word that you want that pair of storage rings. Storage rings are so rare these days, and this time they're in pairs. I'm sure there'll be a lot of competition! Think about it, young sect leader, if someone were to use this opportunity to provoke you and make you bid at all costs, using up a large amount of your spirit stones, wouldn't you be powerless when the auction for the storage ring starts?"

When Luo Feng mentioned the pair of storage rings, Wu Ming finally sobered up a little. He indeed valued this pair of rings very much. He had just gotten to know a pair of twin female cultivators some time ago, and now was the time to court them! Wu Ming had the idea of taking the two female cultivators into his room. When he thought of the scene of the beautiful sisters serving him together, he couldn't help but feel his heart waver. This pair of storage rings was the gift he was going to give to the Twin female cultivators, so he couldn't afford to lose them.

"Uncle Feng, I don't think it's possible! It's only a few thousand spirit stones, it's far from enough to buy a storage ring. " Wu Ming said suspiciously.

Luo Feng was a little resentful, but he didn't want to show it. He could only be patient and say, ""A few thousand spirit stones may not be a lot, but if the competition for the storage ring reaches the stage of white heating, these few thousand spirit stones may play a decisive role. What if we end up losing the storage ring because we don't have enough spirit stones after using up these several thousand spirit stones? wouldn't that be a great pity?"

"If that's the case, then I'll snatch my storage ring!" Wu Ming said with a fierce look in his eyes. It's not like it's the first time we've done something like murder and robbery!"

Luo Feng said, "if it could be won normally, why would there be any more trouble?" Young sect leader, it just so happens that the other party has offered the highest price. If we stop now, not only will we save a few thousand spirit stones, but we can also let the other party consume a few thousand more spirit

stones. That's more than ten thousand spirit stones in total! It was enough to determine the final ownership of the storage ring! Besides, this price is enough to show our sincerity to the heavenly sect. It's no longer important whether we're really going to get the ore or not. "

Wu Ming was obviously moved, but he was still a little unwilling, mainly because his face had been smacked, and he was very indignant.

It could be said that Luo Feng had watched Wu Ming grow up, so he knew Wu Ming's character very well. He knew that his persuasion had worked, so he quickly struck while the iron was hot. He leaned close to Wu Ming's ear and whispered, "Young sect leader, if we stop now, not only will we not lose face, but we will also make the other party a joke! "Besides, we only need to say a few words to get them into trouble ..."

Hearing this, Wu Ming's eyes immediately lit up and he said, "Oh? Uncle Feng, tell me, what method do you have to make the kid in room 20 a laughing stock?"

Chapter 2969 Get your wish (1)

Although Luo Feng had already set up a soundproof barrier in the private room, he still went close to Wu Ming's ear and whispered a few words.

As Wu Ming listened, his expression gradually turned from dark to bright. In the end, his eyes actually lit up and a smile appeared on his face.

Wu Ming raised his thumb and said, ""Uncle Feng is brilliant! Let's do this!"

Luo Feng secretly heaved a sigh of relief and felt that he was lucky.

Fortunately, he knew Wu Ming's character very well and knew that this guy was a donkey. Otherwise, if he kept trying to reason with Wu Ming, it would definitely produce the opposite effect. Now that he could change Wu Ming's mind with just a few words, it was already a very good result.

On the main auction stage, Hao Qingsong had already asked for the second time if there were any cultivators who wanted to raise the bid on the basis of Xia ruofei 's.

In fact, in room 20, Xia ruofei and the other two were also very nervous.

Of course, Xia ruofei saw that Wu Ming, who had been competing with him without any hesitation, suddenly stopped. He wondered if Wu Ming would give up and was a little worried. After all, he really wanted this ore.

On the other hand, Li Yifu and Luo Qingfeng were the exact opposite. When Xia ruofei kept raising the price, the two of them were already in shock. Jian Jia and the others thought that Xia ruofei was deliberately raising the price to make the other party consume more spiritual stones.

However, just as Xia ruofei raised the price to 6010 spiritual stones, there was no more movement from room 15. This made the two extremely nervous. If room 15 backed out now, it meant that Xia ruofei would have to use 6010 spiritual stones to buy the useless ore. To the two of them, this was like trying to steal a chicken but losing the rice!

The other cultivators who were watching the show also paid attention to the price on the big screen. This big show was indeed full of ups and downs, which made the cultivators who were not involved very satisfied.

Even Chen Xuan, who was in Box 1, was excited. Of course, he didn't care much about the final price of the ore. To a young master of a cultivation family like him, there was no difference between 6000 and 1000 spirit stones. After all, he had never been short of spirit stones since he was a child. It was just that an ore that he had casually presented to the auction could cause two parties to fight over it. He found it quite interesting.

Meanwhile, in room number 6, the valley master of the soaring Flower Valley, Liu Mansha, also had a playful smile on her face.

When Xia ruofei had spoken and rendered Wu Ming speechless, she could already tell that the cultivator in room 20 was the young Man From The Star Seizer sect who was of the same generation as Luo Qingfeng, the one they had met in the elevator before the auction.

Both the star Seizer sect and the spirit Vulture mountain were much weaker than the flying flower Valley. However, Liu Mansha was able to see some clues from this incident and confirmed some of her previous judgments. The young man named Xia Tian beside Luo Qingfeng was not simple. She even had a faint feeling that the star Seizer sect seemed to be led by 'Xia Tian'. Of course, this was mostly based on a woman's intuition.

However, Liu Mansha knew that it was definitely 'Xia Tian's' idea to bid for the ore. With Luo Qingfeng's personality, he would not be so radical.

What Liu Mansha was very interested in was whether Xia Tian was deliberately raising the price to make Wu Ming use up his spirit stones or if he really wanted to buy the ore. If it was the former, then the current situation was a bit delicate. If it was the latter, was this "Xia Tian" trying to get on Chen Xuan's good side or had he really discovered the secret of the ore? If it was the second possibility, then things would be even more interesting ...

When Liu Mansha thought of this, the corners of her mouth couldn't help but curl up into a very beautiful arc.

Just as Hao Qingsong was about to ask for the third time, Wu Ming's mocking voice came from room 15. "It seems that the fellow Daoist in room 20 is really determined to get this ore! The ore that young master Chen of the first heaven society brought out for auction is undoubtedly extremely valuable. The price of 6010 spirit stones is barely worthy of the value of this spirit stone. It's worth my effort to raise the price! Since this fellow Daoist is so determined to buy it, and as the saying goes, a gentleman doesn't take what others like, then I'll ... Let go of this ore! Hahaha ..."

As soon as Wu Ming said this, the cultivators in the private rooms couldn't help but discuss among themselves. This result was indeed beyond everyone's expectations. It seemed to be completely inconsistent with Wu Ming's usual style of doing things!

However, when everyone heard Wu Ming's smug laughter, they seemed to think that he had done all this on purpose to raise the transaction price of the ore. If that was the case, everything could be explained.

Although the one – way glass didn't allow them to see what was going on inside the room, everyone couldn't help but look at room 20. They were all very interested in the expression on the cultivator's face.

Some people tried to use their spiritual energy to check, but Xia ruofei's wizardry barrier was not only soundproof, but it also prevented spiritual energy from checking, so these people naturally returned in vain.

In room 20, Li Yifu and Luo Qingfeng's faces turned pale after hearing Wu Ming's words. At this time, there was only one thought in their minds, "Yingying really screwed up ..."

Chapter 2970 Get your wish (2)

Li Yifu looked at Xia ruofei worriedly and said, "Senior granduncle ..."

He stopped after saying three words because he saw that Xia ruofei did not look depressed at all. On the contrary, Xia ruofei looked relieved. He even clenched his fist and waved it in the air, saying excitedly, "YES! We've finally taken it!"

Li Yifu and Luo Qingfeng looked at each other, and the same thought came to their minds: Could it be that the master's martial granduncle was muddled from anger?

Li Yifu called out carefully, "senior granduncle!" Senior granduncle!"

Only then did Xia ruofei come back to his senses. He turned to look at Li Yifu, his eyes still carrying a trace of unconcealed joy.

"What's the matter, foster husband?" Xia ruofei asked.

"Great uncle – Master, this ore ..." Li Yifu said carefully, "it fell into our hands ..."

Xia ruofei laughed and said, "what do you mean by" smashed my hand "? I originally wanted to buy this ore! I was worried that Wu Ming would fight me to the end. I didn't expect him to think he was so smart and stop all of a sudden. He thought he had tricked me! Hahaha!"

Li Yifu and Qingfeng Luo looked at each other in disbelief, and their expressions became strange.

Xia ruofei glared at them and said, "what's with your expressions?" Don't tell me you think I've broken my teeth and swallowed it? I really want this ore!"

"Grand uncle – Master, could it be that this ore is of great use to you?" Li Yifu asked tentatively.

If there was only one person in the world who believed that Xia ruofei could recognize this ore and know how to use it, it would definitely be Li Yifu.

He had a personal admiration for Xia ruofei. In his opinion, there was nothing that Xia ruofei could not do. Besides, he did not know much about the cultivation world in Huaxia. The first heaven society and Chen Xuan were no different from the star Seizer sect to him. Even though he had heard Luo Qingfeng's introduction, it was not direct. Xia ruofei's miraculous performance had long formed a deep impression in his heart.

Luo Qingfeng was obviously very interested as well. He could not help but stare at Xia ruofei, waiting for his answer.

Xia ruofei smiled and nodded. "This ore is indeed very important to me. However, to you guys ... Or to most cultivators, it should be of no use. "Anyway, don't ask too much about this matter. Since even you guys have such a misunderstanding, then the other cultivators, including Chen Xuan from the first heaven society, shouldn't be suspicious. This is a good thing, so we don't have to be targeted by people with ill intentions."

"Yes! Senior granduncle!"

"Yes! Master!"

"Yes!" Li Yifu and Luo Qingfeng responded at the same time.

Since Wu Ming had publicly announced that he was no longer competing for this ore, Hao Qingsong, who was on the main auction stage, quickly made his third round of inquiry. Then, he loudly announced that this ore had been sold for the price of 6010 spirit stones, and that it was the cultivator from room 20 who had won the bid.

At this moment, Wu Ming suddenly said in an intriguing tone, "Seeing the fellow Daoist in room 20 so desperate to bid for this ore, I can't help but guess that this fellow Daoist has already seen through the secret of this precious ore. If that's the case, then even though I'm sorry to have missed this ore, I still hope that the fellow Daoist in room 20 can satisfy my curiosity and give me some pointers about this ore. I'm sure there are many fellow Daoists who have come to the auction today with the same thoughts as me!"

Wu Ming's words were a little harsh.

Of course, he wouldn't have thought of this with his brain. In fact, this was Luo Feng's idea. On one hand, he wanted to make it look like he was raising the price on purpose and not wanting the ore. This way, he could please Chen Xuan while not losing face. On the other hand, it implied that the cultivator in room 20 had discovered the secret of the ore and that the ore must be very precious, so he was willing to buy it at all costs.

This was a very disgusting move.

The best outcome would naturally be for Chen Xuan to have the same thoughts as well. Even if Chen Xuan ignored it, if the other cultivators were to agree with this judgment, even if there were only a few of them who were tempted, it would still bring trouble to the people in room 20.

To put it bluntly, it was a matter of time. Even if no one believed his speculation, it was no loss for him. He was completely in an invincible position.

Wu Ming had also decided to give up the bid after hearing Luo Feng's analysis. Otherwise, with Wu Ming's personality, he would not have cowered after being humiliated like this. Grandma!

In room 20, Li Yifu and Luo Qingfeng's expressions changed drastically when they heard this. Xia ruofei could not help but frown.

However, he immediately said without hesitation, ""It seems fellow Daoist Wu was the first to make a bid! I'm just following his example. I also think that the item brought by elder Chen of the first heaven sect is definitely worth this price! If fellow Daoist Wu knows about this ore's situation, I hope fellow Daoist Wu won't be stingy with your teachings!"

Xia ruofei didn't say much, but his meaning was obvious."You, Wu Ming, are the first one to bid. I'm just following you." On top of that, he was also trying to get on Chen Xuan's good side. Naturally, he was also hinting that he was trying to get on Chen Xuan's good side by bidding for the ore.
