

God tier Farm 3021

Chapter 3021 Ocean of resources (Part 1)(2)

The storage ring's space was limited, and it was not easy to count all these things when they were all piled up together.

These things almost filled up the space that was the size of a basketball court.

Of course, what occupied most of the space was the large pile of spirit stones and a few other pots and jars.

At this time, Bai Qingqing had also come back to her senses.

It looked at Xia ruofei's back, which was at the foot of the mountain, in shock.

With its understanding of space rules, it could tell that Xia ruofei's attainment in space rules had surpassed its by a lot.

Under normal circumstances, even if Bai Qingqing was extremely talented, it was impossible for her to make such a huge leap in progress, unless she had some kind of fortuitous encounter.

At the thought of this, Bai Qingqing's eyes lit up, and she quickly followed him.

Xia ruofei said without turning his head, "don't look ... I cracked it alone, so it's all mine!" Even if you see it, you'll only be envious ..."

Bai Qingqing glanced at the items and said indifferently, "We don't have any world stones. These cultivation resources might be precious to you humans, but they aren't attractive to me. If you don't want to give it to me, then don't give it to me!"

Xia ruofei turned to look at Bai Qingqing in surprise and said, "You're actually so free and easy this time?"

Based on Xia ruofei's understanding of Bai Qingqing, even if she had no use for these things, even if Xia ruofei solved it on his own, as long as both parties had agreed on the split, she would not let it go easily.

It wasn't an exaggeration to describe Bai Qingqing as a goose that plucked its feathers.

However, it did not get any advantage from Xia ruofei. Every time, Xia ruofei would eat it up.

Bai Qingqing said, "I've always been this free and easy! You still have a great use for these things, so why waste them for me?"

Xia ruofei shook his head and stared at Bai Qingqing. "That's not like you. There must be a reason for this abnormality, speak! What are you trying to do?"

Bai Qingqing smiled obsequiously and said, "I wouldn't dare to have any ulterior motives!" I'm just here to watch the fun, go do your thing, don't mind me ..."

Xia ruofei smiled and said, "really?" I've given you a chance to say it, but you didn't. There won't be such a shop after this village!"

With that, Xia ruofei turned around and prepared to organize the cultivation resources.

Seeing this, Bai Qingqing quickly came to Xia ruofei and said, ""Boss! Boss! Don't be like this ..."

"Now you're willing to tell me?" Xia ruofei asked with a faint smile.

Bai Qingqing smiled apologetically. "Actually ... I just want to know why boss's spatial mastery has suddenly become so high. Even I have to look up to you. We are in the same boat. If anything good happens, don't forget me, boss!"

Xia ruofei couldn't help but be speechless. He couldn't tell before that this little guy was actually so cheap. When he needed help, he would call him "boss". Before this, he had called him "Xia ruofei" without any politeness. He didn't have any awareness of living under someone else's roof.

Xia ruofei smiled and asked, "you want to know?"

"I want to, I want to!" Bai Qingqing nodded her head like a chicken pecking at rice, and even wagged her tail, as if she had suddenly become a docile pug.

Xia ruofei said, "you want to know why my spatial skills have become so powerful? the reason is simple. It's just two words. I'm working hard!"

Bai Qingqing was stunned. She never thought that Xia ruofei would give such an answer.

Xia ruofei continued, ""Little white! There were no shortcuts to success. You only saw the success of others, but you didn't see the sweat and blood behind it! The reason why I'm able to study the laws of space so deeply is because of my tireless efforts to comprehend them day and night!"

Only then did Bai Qingqing come back to her senses. A hint of disdain flashed in her eyes as she mumbled, ""I'm not a three – year – old child ... I know very well how good your spatial comprehension is! How long has it been? Even if you've comprehended it without rest since you were born, it's also impossible to reach your current achievements!"

Bai Qingqing felt insulted and finally put down her pride to ask for advice, but Xia ruofei had actually given her Chicken Soup for the Soul ...

Xia ruofei said seriously, "I'm not lying!" My current comprehension of the laws of space is all from my own personal comprehension. If you don't believe me, then forget it. "

"Really?" Bai Qingqing did not believe that.

"It's up to you to believe it or not. " Xia ruofei said, "I can tell you clearly that I didn't take any shortcuts in comprehending the spatial rules. However, that's all I can tell you. If there's a suitable opportunity in the future ..."

Bai Qingqing's spatial perception was too terrifying. Xia ruofei did not dare to show Bai Qingqing the mysterious ore. At least for now, he did not have the intention to do so.

Otherwise, Bai Qingqing could become an unstable factor that would escape his control, especially since it could affect the safety of the spirit map space.

For the spirit map space, which was the most important, Xia ruofei would never allow any unstable factors to appear.

In the future, when Xia ruofei had completely comprehended the spatial laws within the ore, he would consider Bai Qingqing. Of course, the premise was that it was safe and controllable.

Bai Qingqing could tell that there was something unusual in Xia ruofei's words. She quickly called out, "Don't come in the future! Boss! Boss! Why don't you tell me now! I'm ... I'm just thirsty for knowledge!"

Xia ruofei smiled and did not continue Bai Qingqing's conversation. Instead, he began to sort out the supplies that had been excavated from the small nested spaces.

The meaning was already very clear. There was no room for discussion at all.

Bai Qingqing followed Xia ruofei obsequiously, begging him non – stop, but Xia ruofei ignored her.

Bai Qingqing knew that there was no room for negotiation.

It couldn't help but feel a little dejected, but at the same time, it was very unwilling.

In fact, although Xia ruofei had told it with certainty that all his understanding of the rules of space was gained through his own efforts, it firmly believed that Xia ruofei must have a special method. Otherwise, no matter how hard he worked, he could not have achieved such an achievement in such a short time.

Besides, Xia ruofei did not give a definite answer in the end, which further explained the existence of this special method.

It was a pity that Xia ruofei was too tight – lipped. No matter how it tried to beat around the bush, he did not say a word. It could be said that he was unmoved by force or persuasion!

The boundary Fox was a natural – born pet of space. It was extremely talented in the laws of space, and at the same time, it was very close to the laws of space.

So, when Bai Qingqing found out that there was a way to quickly improve her spatial mastery, but the method was clearly there for her to know, the feeling of being unable to hold back was unbearable.

Bai Qingqing felt like her heart was being scratched, and she was not even interested in learning the spatial rules of the spirit map.

However, it also knew that since Xia ruofei had made up his mind not to tell it, it would be useless no matter how much it pestered him.

Anyway, Xia ruofei didn't make a promise. There would definitely be more chances in the future.

Bai Qingqing could only think this way.

Bai Qingqing, who was a little unwilling, also turned her attention to the mountain of cultivation resources.

Suddenly, it stared at the small mountain of ordinary spirit stones, and its eyes lit up.

...

Bai Qingqing quickly looked at Xia ruofei and realized that he was still sorting the resources into different categories. It was as if he did not notice that he was in a daze.

Bai Qingqing heaved a sigh of relief. She cleared her throat and said, "That ... Boss, the harvest this time is not small!"

Naturally, Bai Qingqing was trying to find a topic to talk about. Xia ruofei did not have time to respond to her, so he just hummed in agreement.

Bai Qingqing immediately said, "boss, you were the one who solved this nested space. I shouldn't have asked you to share the benefits." But this time, I've gained so much, and as the saying goes, everyone who sees it will have a share. Can you symbolically share a little with me? It means the same thing, even one Spirit stone is fine!"

Chapter 3022 Massive amount of resources (Part 2)

Xia ruofei reached out without looking back and took a spiritual stone from the pile of spiritual stones. He then turned to Bai Qingqing and grinned. "I guess you want this spirit stone, right?"

Bai Qingqing was stunned. She stammered, "You ... You ... How did you know? So ... You've already discovered it?"

"What did you find?" Xia ruofei smiled and asked, "are you saying that this spiritual stone is strange? Was there a need to deliberately discover this? The fluctuations are so obvious ..."

Bai Qingqing was dumbfounded. It then realized that Xia ruofei's attainment in the laws of space was much higher than its own. If it could notice the abnormality, how could Xia ruofei not notice it?

Although this spirit stone was hidden in a small mountain of hundreds of thousands of spirit stones, it was not eye – catching at all.

However, under the powerful mental power, there was naturally no way to hide.

Bai Qingqing was like a deflated balloon, and she said dejectedly, "Then just pretend I didn't say anything! I'm sorry ... I'll have to disturb you ..."

Xia ruofei laughed and said, "you really don't want to leave any souvenirs?" Whoever saw it had a share! Don't say I'm stingy! Other than this spirit stone, you can pick any other item!"

"No," Bai Qingqing shook her head and said, "I don't need it ... I don't need these things that you human cultivators have ..."

Xia ruofei laughed. "Xiao Bai, it's not that I'm being stingy. There's really nothing in the nested space that you can use, including this spiritual stone that you're interested in. It's useless to you!"

Bai Qingqing opened her eyes wide and asked, "How do you know? You haven't even opened it yet ..."

"Just because it's not open doesn't mean it can't be seen!" Xia ruofei looked at the spiritual stone in his hand and said, "if you don't believe me, you can stay. I will break it later!"

Bai Qingqing did not leave. She laid on the ground and said lazily, "Alright! I'd like to see what's so special about this spirit stone and see if the final result is as you said!"

Xia ruofei rolled his eyes and said with a smile, "Little white, do you want to make a bet? I dare to say that after this spirit stone is broken, not only will there be nothing that you can use inside, there won't even be any cultivation resources that cultivators can use! If I'm wrong, then I lose!"

Bai Qingqing shook her head and said, "Only an idiot would bet with you! I'm not gaming...I'm not gaming...I'm just staying to watch the show. Whether you're right or wrong, it has nothing to do with me!"

Xia ruofei couldn't help but laugh.

Bai Qingqing was scared of him. Furthermore, Xia ruofei's high attainment in the laws of space had made Bai Qingqing lose confidence in her judgment.

Xia ruofei casually threw the spiritual stone that both he and Bai Qingqing had noticed to the side. He was not worried that Bai Qingqing would take the opportunity to do something under his nose. Even if Bai Qingqing wanted to do something, it would not succeed.

Then, Xia ruofei started to sort out his gains from the nested space.

In addition to a large number of spirit stones, spirit crystals, and origin crystals, the other gains were also not small.

Most of the pills stored in the porcelain bottles had lost some of their medicinal properties, but they could still be used. There were also a small number of relatively precious medicinal pills. Because they were well – preserved, they basically did not lose any medicinal properties.

There were also some cultivation techniques, secret techniques, and ancient books. Xia ruofei took a quick glance and put them aside. These things might be precious to ordinary cultivators, but they were harmless without comparison. The cultivation techniques and ancient books stored in this nested space were still a few levels lower than the knowledge that Xia ruofei had obtained from the Jade talisman of inheritance.

However, this was just the general idea. Among the large pile of ancient books, there was a personal letter that made Xia ruofei's eyes light up.

It was a personal letter on refining knowledge summarized by master Yuntai.

Although master Yuntai was an ancient cultivator and there was a gap between him and the modern cultivation world, he was still relatively famous among the ancient cultivators. The main reason was that he had appeared in many ancient books, and his deeds were quite legendary.

For example, having a pair of twin female cultivators as Dao companions would make countless cultivators envious.

Therefore, in general, the modern cultivation world knew more about master Yuntai.

Scholar Yuntai was good at forging.

Some of the magical treasures excavated from the ruins of ancient cultivators used by the seniors in the current cultivation world were made by master Yuntai.

Although there weren't many documents and information passed down from the ancient cultivation world, everyone still judged that the Grand cloud scholar was at least a very famous expert in the field of refining weapons.

Naturally, Xia ruofei was interested in the notes left behind by such a master.

After a simple reading, Xia ruofei found that this master Yuntai's refining skills were indeed very high. Although the refining experience he recorded in this Handbook was not systematic, it made Xia ruofei's eyes light up.

Compared to the ancient books on refining in the Jade talismans of inheritance, the personal notes of the scholar Yuntai were more creative.

In the refining industry, innovation was very important.

Chapter 3023 Ocean of resources (Part 2)

Obviously, Yuntai layman was a craftsman with a rich creative spirit.

Xia ruofei carefully kept the weapon refining manual in the stone room of the cave. He was prepared to read it when he had time.

In addition to these books, as a weapon refiner, master Yuntai naturally left behind many magic weapons he had refined.

The five flying swords were the more outstanding ones.

The quality of each flying sword was no lower than Xia ruofei's Blue immortal sword. A special mark was printed on the body of each flying sword. A Lotus platform was faintly visible among the White clouds. It was obviously the exclusive mark of master Yuntai.

Xia ruofei did not expect that in the ancient cultivation world, refiners already had brand awareness and would even print logos on their works. He could not help but find it interesting.

There were about twenty different types of magical treasures and weapons. Xia ruofei did not look at them carefully and kept them in the stone room. Compared to spiritual stones, these things were more precious to Xia ruofei, so he had to preserve them.

What surprised Xia ruofei was that he found a flying boat in the pile of Dharma Treasures.

When the auction ended, Chen Xuan of the first heaven society personally sent Xia ruofei back to the star Seizer sect on a blue water flying boat.

After riding on the Clearwater flying boat once, Xia ruofei had started to dislike sword Kinesis flight. He had once thought that it would be great if he could have such a flying boat.

However, this kind of flying boat was a relatively high – Level magical treasure. Not everyone in the ancient cultivation world could build it. And now, the inheritance had been cut off, so it was not possible to build it. The only way was to excavate it from the ruins of ancient cultivation.

This was something that could only be encountered but not sought.

Hence, Xia ruofei did not have much hope.

However, he did not expect a flying boat to be hidden in the nested space of the storage ring.

Now that he thought about it, he had spent 50000 spiritual stones and 10 firecloud pills to buy these two storage rings. He had really made a big profit.

There were hundreds of thousands of spirit stones in the nested space of the storage ring, and this was the lowest value of these treasures and resources. The value of the other items added up was even more difficult to estimate.

From this point of view, the vast waves sect, which had sold the storage rings, had really suffered a huge loss.

However, Xia ruofei would not feel guilty over this and would even compensate the surging waves sect.

The trading in the cultivation world was similar to the antique trade in the secular world.

Treasures in the cultivation world were often unique, and their values were naturally different. This was a test of one's vision.

Not to mention Mu Sheng from the surging waves sect, he didn't notice anything strange about the pair of storage rings. Even Xia ruofei didn't notice anything strange when he bought the pair of rings.

In this kind of transaction, one would always leave after buying.

Xia ruofei must be very capable to be able to discover the nested space in the ring and obtain such a great benefit. Even if Mu Sheng knew about it, it was impossible for him to go back on his words.

The virtuous should occupy it. This was the logic.

The flying boat in the nested space was also branded with the exclusive symbol of master Yuntai.

Xia ruofei could imagine that in the ancient cultivation world, treasures with the mark of the cloud platform were all high – Quality, similar to the famous brands in the secular world.

Xia ruofei was very interested in testing the flying boat in the spirit map space.

The control of the flying boat was very simple. Xia ruofei only needed to fumble around for a while before he could master it.

This flying boat was more than twenty meters long after it was enlarged. It was much larger than Chen Xuan's Clearwater flying boat.

It was unknown what precious material the matte black body was made of, but when combined with its angular shape, it gave off a futuristic feeling.

The space inside the airboat was very spacious.

The control of this flying boat was similar to Chen Xuan's Jade water flying boat.

Most likely, the flying ships of the ancient cultivation world were all controlled in the same way.

However, this black flying boat could use spiritual stones as its energy source and could also use spiritual crystals as its energy source.

When the spirit crystals were used to power the Flying Ship, the speed of the Flying Ship was more than doubled. Compared to Chen Xuan's flying ship, it was several times faster.

Xia ruofei did a quick calculation. At this speed, most of the Golden core cultivators would not be able to catch up even if they were to ride on flying swords.

This was simply a divine tool for escaping!

Xia ruofei was like a child who had just gotten his favorite toy. He controlled the flying boat to rise and fall in the mountain and sea realm of the spirit map space. Sometimes he accelerated, swooped down, and turned sharply. He was having a lot of fun.

In the distance, the free laborers working in the fields and herb gardens were dumbfounded when they saw the aircraft in the sky that didn't fit the aerodynamic design at all. The mercenaries thought they had seen an alien spaceship.

It was only under Xia Qing's scolding and the supervision of the team leaders that everyone began to work again. However, the shock in everyone's heart was probably difficult to erase in a short time.

Xia ruofei played for more than 10 minutes and checked the crystals that were used as the energy source. He realized that the consumption was not too high and was completely acceptable.

He shrunk the black flying boat with satisfaction and kept it in the stone room of the cave. Then, he continued to sort out the gains he had obtained this time.

Xia ruofei sorted out the cultivation resources by category. He stored the spirit stones, spirit crystals, and origin crystals in an independent space that he had specially opened up for the mountain and sea realm.

As for the magic treasures that were easy to store, they were all placed in the stone room of the cave.

Other than some magical weapons and flying swords made by master Yuntai, Xia ruofei also found an ancient crafting furnace and a set of crafting tools. There were mottled marks on this set of crafting equipment. One look and one could tell that it had been used often.

Xia ruofei guessed that it was a tool used by master Yuntai when he was refining, so he kept it carefully in the stone room of the cave.

In the future, when he had time, he would naturally study the personal letters left behind by Yuntai scholar. These were all long – Lost refining methods, and if he could learn them, there would naturally be many benefits.

Finally, Xia ruofei had finished organizing all the cultivation resources he had obtained from the storage ring's nested space.

The harvest this time could be said to be greater than any previous time. Xia ruofei felt like he was rich.

Just the spiritual stones, spiritual crystals, and origin crystals were enough for Xia ruofei to build a top – tier sect.

It could even be said that in the current cultivation world, no top – notch sect could have as much wealth as Xia ruofei.

Of course, Xia ruofei did not have any ambition to fight for hegemony. With so many resources, what made him most pleased was that from now on, the people around him would not be short of cultivation resources. As long as their cultivation progress could keep up, there would be no limit to the supply of resources!

After Xia ruofei kept all the cultivation resources, his eyes finally fell on the ordinary – looking spiritual stone.

Bai Qingqing, who had been waiting by the side, was about to fall asleep.

...

In its opinion, there was no need to sort out the spirit stones and crystals. They could just put them away. It's not like it's anything valuable! This spirit stone was the most interesting one!

Seeing that Xia ruofei had finally remembered about the spiritual stone, Bai Qingqing's spirits were lifted.

It got up from the ground and walked to Xia ruofei's side, saying, "Boss, is it finally this spirit stone's turn?"

Xia ruofei smiled and asked, "Xiao Bai, since you can tell that this spiritual stone is not ordinary, why don't you tell us first?" But let me make this clear first! If you want to share the profits with me just because you're telling me your opinion, then just pretend I didn't say anything! And there's really nothing to split in these spirit stones. "

Bai Qingqing pursed her lips in disgust and said, "Boss, do I look like such a petty person ... A realm Fox? I know that you've already seen through the mystery of this spirit stone, and you've seen it much more clearly than I have. How could I still dare to ask for a share? I still want my face, okay?"

Xia ruofei laughed and said, "I've underestimated you!" Little white, tell me first! There's no need to be afraid of making a mistake, just treat it as a discussion!"

Chapter 3024 Master Yuntai (1)

Bai Qingqing was a little annoyed, "what's there to say? You must have seen it clearly! This isn't a spirit stone at all, but a Space Stone in disguise. This small space is even simpler than the nested space. I should've thought of it earlier. You can even crack the nested space in a unique way, so how can this primitive small space be hidden from you?"

Bai Qingqing felt like she was asking to be humiliated.

In fact, it was just hoping that Xia ruofei didn't notice the spiritual stone. It knew that if Xia ruofei noticed it, he would be able to tell at first glance.

The spirit stones had been piled up like a small mountain, and there were hundreds of thousands of them. If it were an ordinary person, it would naturally be difficult to find this Space Stone that looked exactly the same as the spirit stones in the mountain.

However, for cultivators, especially Xia ruofei, whose spiritual power had already reached the late stage of the spirit gathering realm, this was not a big deal.

Xia ruofei was used to being cautious. These cultivation resources came from the storage rings of the ancient cultivators. How could he be careless?

He had used his spiritual power to check all the resources and ancient books.

Even though there were a lot of spirit stones, it would only take a few breaths for him to assess the situation with his spiritual energy.

Xia ruofei chuckled. "There's no need to talk about such obvious things. Didn't you find anything else?"

Bai Qingqing was stunned for a moment. Then, she carefully examined the 'spiritual stone' in Xia ruofei's hand and muttered to herself, "Could it be that there's something strange about it?"

Bai Qingqing carefully sensed the spatial stone's fluctuations and looked uncertain. She said, "Boss, there seems to be something different ... Although the rules of this space are extremely simple, there seems to be some unnecessary structures that are used to trigger something ..."

Xia ruofei gave Bai Qingqing a thumbs up and said, "As expected of the darling of space, your eyesight is not bad!"

Bai Qingqing smiled bitterly, "boss, don't laugh at me. What space pet? it's a joke in front of you!" If I'm the darling of space, then you ... You're practically the ancestor of space!"

Xia ruofei couldn't help but laugh. "You're being very disrespectful! Aren't you afraid that the God of space will find out and punish you?"

Bai Qingqing pouted and said, "if there really is a space God, I wouldn't be slower than humans. Let's not talk about this anymore. Boss, what I just discovered, is it right?" Do you have any new discoveries?"

"Didn't I already praise you?" Xia ruofei laughed and said, "this means that your judgment is very accurate! As for the new discovery ... I can only confirm that there is a warning formation set up on this Space Stone, but it has not been triggered. "

"Yes, yes, yes! It's in an inactive state!" Bai Qingqing quickly asked, "boss, what does this mean?"

Bai Qingqing's face was filled with a thirst for knowledge. In front of Xia ruofei, she could no longer be reserved. In the past, her greatest sense of superiority in front of Xia ruofei was that her comprehension of the laws of space was far superior to Xia ruofei's. But now, not only did she not have any advantage, but she was even mercilessly surpassed by Xia ruofei ...

Xia ruofei thought for a moment and said, "It's probably related to the method I used to crack the nested space. If I used conventional methods ..."

After saying that, Xia ruofei glanced at Bai Qingqing and said, "Oh ... So it's the method you're going to teach me to break it."

Bai Qingqing covered her face with her front paws and said, "Boss, if you keep talking like this, you really won't have any friends ..."

Xia ruofei laughed and continued, "Alright! I'm guessing that if we use conventional methods to crack the nested space, the warning array on this spatial stone should be triggered ..."

Bai Qingqing said with some lingering fear, 'so, boss, it's a good thing you broke the nested space from the source? Otherwise, once the warning array is triggered, it's possible that everything in the entire nested space would be blown to pieces with a bang?"

As Bai Qingqing said this, she subconsciously took two steps away from Xia ruofei.

If that was the case, the spatial stone in Xia ruofei's hand was a time bomb!

Xia ruofei chuckled and said, "that's not the case." Think about it ... This Yuntai has stored so many cultivation resources in the nested space. I guess that even if it's not all of his wealth, it's at least a large part of it. Did he hide so many things in the nested space just to let his descendants take a look and then blow them up? Then isn't he a little too twisted?"

"Boss, if you put it that way ..." Bai Qingqing moved closer to Xia ruofei and said, "it does make sense!"

Then, Bai Qingqing looked at Xia ruofei and said, "Boss, if you're so confident, it shouldn't be just a guess, right? I remember you just swore that there were no cultivation resources in this space rock. Does that mean you can directly check the inside of the space rock?"

Xia ruofei waved his hand and said, "I can't see everything at a glance, but I can more or less sense some auras." That's why I'm pretty sure that there aren't any cultivation resources in there, especially not realm stones. Otherwise, I would definitely be able to sense it!"

Chapter 3025 Master Yuntai (2)

Bai Qingqing nodded and said, "I believe in boss!" Then ... What exactly was hidden inside? He actually hid it so deeply!"

The nested space itself was hidden in the storage ring, which was very well hidden. Ordinary cultivators could not detect the existence of the nested space at all.

This spatial stone, on the other hand, was disguised as a spiritual stone and buried in a small mountain of hundreds of thousands of spiritual stones, then hidden in the nested space.

This was simply hiding to the extreme.

So, what was stored in such a well – hidden space Stone?

Xia ruofei said, "we can only know after we open it. I've said it before. I can't see everything inside the spatial stone!"

Bai Qingqing nodded and asked, ""Boss, what method are you going to use to open this spatial rock? The method you used to crack the nested space just now was simply a stroke of genius. It pointed straight to the origin of space!"

From Bai Qingqing's point of view, the structure and rules of the spatial rock were very primitive, and the difficulty of cracking it was much lower than that of the nested space. Even if it made it itself, it would not be difficult.

However, the more she thought about it, the more Bai Qingqing was looking forward to seeing if Xia ruofei would use any ingenious methods to crack it.

This was like the simpler the dish, the more it tested one's culinary skills.

The logic was the same.

Almost everyone knew how to cook egg – fried rice, but there was a huge difference between cooking by a star chef and cooking by an ordinary person.

To be able to make a taste that ordinary people couldn't make with simple ingredients, that was what skill was.

Xia ruofei looked at Bai Qingqing, whose eyes were filled with anticipation, and smiled. ""There's no need to be so complicated. Isn't there an early warning array on this Space Stone? Can't you just trigger it?"

"Ah?" Bai Qingqing's eyes were wide open, and she looked incredulous.

Bai Qingqing could think of several ways to crack this spatial stone, and it was not difficult for her to perfectly avoid the warning array.

In that case, why would Xia ruofei, who was more skilled in spatial manipulation than Bai Qingqing, use such a simple and crude method?

After Bai Qingqing came back to her senses, she quickly said, ""Boss, don't make a rash decision! We don't even know what will happen after the alarm array is triggered! What if it really is a big explosion?"

"Xiao Bai, don't forget where we are ..." Xia ruofei said confidently, "we're in the spirit map space, there's no need to be afraid of a big explosion. "

With Xia ruofei's current level of control over the spirit map space, even if there was some danger hidden in this small space Stone, he could absolutely imprison it in the spirit map space. There was no need to worry at all.

Bai Qingqing had obviously thought this through. She nodded and said, ""That's true! But ... We clearly have a better idea, and we don't have to take any risks ..."

Xia ruofei laughed and said, "Xiao Bai, since this ancient cultivator, Grand cloud, left behind such a small mechanism, he must have his own intentions." In any case, we don't have to worry about safety in the spirit map space, and I've already kept all the cultivation resources. We can be said to have no worries. Since that was the case, why not choose to fulfill her wish? Let's see what this Yuntai senior originally wanted to do, isn't that good?"

Bai Qingqing didn't agree with Xia ruofei's strange thinking. She felt that he was asking for trouble.

However, on this matter, it was only a spectator and had no say. Since Xia ruofei had already decided, what else could it say?

So, Bai Qingqing said gloomily, "Alright then! Who asked you to be more powerful than me? You're right ..."

Xia ruofei laughed and said, "then let's start!" 'Little white, although it's not dangerous, it's just a precaution!' You'd better hide further away!"

Hearing this, Bai Qingqing immediately retreated a dozen meters away.

After listening to Xia ruofei's analysis, it also felt that the space rock was not dangerous. However, who could say for sure what had happened to the ancient cultivators? What if this cultivator of the cloud platform had such a bad taste and deliberately let the junior who got the nested space see a huge amount of cultivation resources first, and then destroy them all?

Therefore, safety was the most important.

If it wasn't for her curiosity about what was hidden in the spatial rock, Bai Qingqing wouldn't even want to join in the fun. She would rather stay as far away as possible!

But it really couldn't hold back its curiosity!

Xia ruofei laughed as he placed the spatial stone that was disguised as a spiritual stone on the grass. Then, he took three steps back and waved his hand. A wave of vital Qi was sent towards the spatial stone.

Bai Qingqing's eyelids twitched. It was indeed simple and brutal!

It could see that after Xia ruofei's vital Qi was released, it was immediately divided into several streams and then accurately blasted at the nodes on the spatial rock.

In this way, the warning array of the space Stone would definitely be triggered.

In fact, one could also activate the formation with spiritual power.

However, Xia ruofei chose a simpler and crueler method. He used his vital Qi to bombard it. Not only would the warning array be triggered, but the spatial stone would also be destroyed.

Bai Qingqing could tell that Xia ruofei had not held back at all.

Bai Qingqing didn't have time to complain. She stared at the space Stone, afraid to miss a single detail.

Of course, Xia ruofei was also focused on the spatial rock.

Although he said it casually, he didn't dare to take it lightly. He had already mobilized the invisible spatial force. If the spatial stone disguised as a spirit stone showed any abnormalities, he would immediately imprison it.

When the yuan Qi touched a few nodes on the surface of the space Stone, the space Stone seemed to light up slightly.

Then, under the effect of the yuan Qi, the spatial stone made a cracking sound and a few cracks appeared on the surface. The stable space inside could not be maintained for long.

At the same time, a faint shadow floated out of the spatial stone and quickly condensed into the image of an old scholar in an ancient costume.

As soon as the old scholar appeared, he raised his head and laughed, ""Wahahaha ..."

However, his laughter only lasted for less than a second. It was as if someone had grabbed his throat, and his laughter naturally stopped.

The old scholar looked around with a confused expression. Then, he looked at Xia ruofei, who was dressed in modern clothes.

"Little kid, where is this?" he asked.

"Senior, where do you think we are?" Xia ruofei asked with a smile.

The apparition of the old man dressed as a scholar looked around and muttered to himself, ""The spiritual Qi here is so dense! When did such a treasure land appear in the cultivation world?"

Then, the old scholar saw the space Stone on the grass that had been split into several pieces, and his expression changed slightly.

He turned to Xia ruofei and said, ""Little child, you must have obtained my storage ring, right? Did you take out everything from the hidden space? It didn't touch the spatial rock?"

Xia ruofei nodded and asked with a smile, ""So, you are senior Yuntai?"

"Wahaha! I didn't expect a little kid like you to have heard of this old man's name!" The old scholar said with a proud smile.

...

Then, the illusory figure of scholar Yuntai couldn't help but ask, ""Little kid, you're only at the early Aurous core stage, how did you do it?"

"Do what?" Xia ruofei asked in confusion.

The illusory figure of scholar Yuntai pointed to the space Stone fragment on the ground and said, ""Without touching the space Stone, we can directly open the hidden space! This old master believes that this arrangement is quite exquisite. Unless it's one of those old geezers in the cultivation world who personally made a move, how could it bypass this old master's early warning array?"

Chapter 3026 Saving a person is like putting out a fire (1)

Xia ruofei smiled and replied, "it's just a small trick!" The method I used to break the nested space was a little unconventional, but I managed to avoid the warning formation by accident. "

"Oh?" Upon hearing this, the illusory figure of scholar Yuntai asked with great interest, "how did you break the nested space? tell me quickly!"

Xia ruofei didn't know whether to laugh or cry as he looked at master Yuntai and asked, "Senior Yuntai, don't you feel something is wrong?"

"What's wrong?" Scholar Yuntai said urgently, "Hey! Don't bother about what's wrong! Little doll, tell me what method you used to crack the nested space!"

Xia ruofei didn't answer the question. Instead, he looked at the figure of the cloud platform scholar and asked, "Senior, do you really not feel like your entire body is being burned by the sun, and your spirit body is gradually melting?"

Xia ruofei was very clear about this situation of the master of cloud platform. It could be said that it was engraved in his heart.

Because he had just experienced it once.

After he had escaped from the ore's internal space and returned to the spirit map space, he felt as if his entire body was being burned by a raging fire. Although his spirit body had only stayed outside for a short time before automatically returning to his physical body, that short period of time had still caused some damage to his spirit body.

This layman Yuntai in front of him was obviously in a spirit body state.

Besides, Xia ruofei judged that this was probably not a complete spiritual body. It was similar to the thought that immortal mountain river had left behind last time. However, it was probably not just the thought of this scholar Yuntai. He had directly cut off a small part of the spiritual body and sealed it in the spatial stone.

Therefore, Xia ruofei was very curious. Could it be that scholar Yuntai's spiritual body could easily stay in the outside world without the protection of his physical body?

Scholar Yuntai waved his hand impatiently and said, "You little kid! Wasn't that nonsense? Without the protection of the physical body, how could the spirit body not feel the pain of being burned by the fire and gradually melt away? I'm not a leaving aperture stage cultivator!"

Without waiting for Xia ruofei to speak, master Yuntai continued, "It's precisely because of this that this old master is asking you to quickly tell me! This old man doesn't have much time left!"

Xia ruofei really didn't know whether to laugh or cry. He was about to disappear forever, but scholar Yuntai was still concerned about how his early warning array had been avoided.

Even if you know, what can you do?

He was about to fall into eternal darkness, and it was very likely that his soul would be destroyed, so what was the point of caring about such trivial matters?

Could this be the so – called "hearing the Dao in the morning and dying in the evening"?

The Phantom of the cloud platform scholar saw that Xia ruofei was still in a daze and didn't say a word. He couldn't help but urge, "Little doll! I'm about to die, can't you even fulfill my dying wish? Even if it involves some confidential information, it's fine if you tell me! Dead people can't reveal any secrets!"

Xia ruofei came back to his senses and quickly said, ""Senior Yuntai, please wait a moment!"

After that, Xia ruofei said to Bai Qingqing, ""Little white, there's nothing else for you to do here. Go and play!"

It was only then that scholar Yuntai noticed Bai Qingqing lying in the grass. He couldn't help but show a strange expression and said, ""It's a realm Fox? This kind of spirit beast is not common!"

Bai Qingqing was enjoying the show! In the end, Xia ruofei suddenly asked it to leave. Naturally, it would not accept it.

However, before it could protest, Xia ruofei wrapped Bai Qingqing with his spatial energy and threw it far away into a corner of the space.

Before Bai Qingqing could curse, Xia ruofei had blocked her from speaking.

Now, Xia ruofei's understanding of the laws of space had surpassed Bai Qingqing's. In addition, he had absolute control over the spirit map space. In this place, he could easily beat Bai Qingqing up.

Upon seeing this scene, even scholar Yuntai was dumbfounded.

"His control over space has already reached such a level! Even my space pet, the realm Fox, couldn't put up any resistance!" Layman Yuntai muttered to himself, "this ... Is this still a golden core cultivator? Are all golden core cultivators so powerful now?"

Actually, layman Yuntai had misunderstood. If they were in the outside world, Xia ruofei could also suppress Bai Qingqing in terms of space rules, but it was impossible for him to suppress Bai Qingqing in all aspects.

Even if Bai Qingqing wanted to escape, Xia ruofei would not be able to control her.

The main reason why he was able to have absolute control was because everyone was in the spirit map space.

This was equivalent to Xia ruofei's home ground!

It was obvious that scholar Yuntai had also discovered the clue. He closed his eyes and sensed carefully for a while. Then, he suddenly opened his eyes and was dumbfounded for a long time. "This ... This ... Little brother, we're actually in a small space now?"

For such a discovery, layman Yuntai was shocked to the extreme. In the era he lived in, it was not that there was no small space that could accommodate life, but it was already extremely rare. But now, there was a small space as big as this, not only was the spiritual Qi rich, but it could also allow life to live in it. Even layman Yuntai had never heard of it.

Strictly speaking, this was no longer a simple small space. It would be more appropriate to call it a small world.

The reason why scholar Yuntai didn't realize that he was in a small space was because the mountain and sea realm was so vast that one couldn't see its end. More importantly, the rules in the spirit map space

were very close to the outside world. Even a cultivator with good attainments in space like scholar Yuntai wouldn't be able to find any clues if he didn't look carefully.

Unknowningly, the way master Yuntai addressed Xia ruofei had changed from "little doll" to "little brother". One could see how shocked he was.

Xia ruofei smiled and nodded. "Senior Yuntai, this is indeed a small space."

Then, Xia ruofei immediately said, "Senior Yuntai, let's not talk about this for now! Your spirit body has been severely damaged. I don't think you can hold on for long!"

"Of course I know!" Scholar Yuntai smiled bitterly. That's why I want you to quickly tell me how to crack the nested space! It's just that little brother, you've been dilly – dallying, and now you've let me know about the existence of this small world ... There are too many things I want to know, but there's not enough time!"

"Senior, please follow me!" Xia ruofei quickly said.

With that, Xia ruofei led the way and led the spiritual body of scholar Yuntai directly into the stone room in the cave.

Xia ruofei was the master of the spirit map space. If he wanted to let scholar Yuntai's spirit body into the stone room, it was naturally just a matter of a thought.

When they entered the stone chamber, Xia ruofei had already set up layers of shield outside the cave. He did not need to use any array talismans here. He could easily do it by using spatial power.

Now, it was equivalent to completely isolating the stone room from the rest of the spirit map space.

Layman Yuntai asked with some confusion, "Little brother, what are you doing? I really don't have much time left ..."

Xia ruofei didn't reply to scholar Yuntai. Instead, with a thought, he directly took the mysterious ore wrapped in layers of spatial energy from the Archean realm into the cave.

He removed the invisible spatial force on the surface of the mysterious ore and asked, "Senior Yuntai, can you recognize what this is?"

Scholar Yuntai took a few glances and frowned. "I'm not too sure. I don't think I've ever seen such an ore. However...The spatial fluctuations within this ore seem to be rather intense!"

"Senior, you've never seen it before either ..." Xia ruofei couldn't help but feel disappointed.

During the auction, Chen Xuan had explained the origin of this ore. It came from the ruins of an ancient cultivator, which was excavated from the cave of a cultivator in the same era as Yuntai scholar.

The spatial structure of this mysterious ore was so magical that it could directly suck a cultivator's spirit into it and allow the spirit to survive for a long time. Even in the ancient cultivation world, such a function should be very magical and famous.

Therefore, Xia ruofei thought that layman Yuntai would be able to recognize him at a glance.

He didn't expect that even scholar Yuntai had never seen this ore before.

In other words, it could be in the ancient cultivation world, or the owner of this mysterious ore had concealed the news and made a fortune in silence; Or, even the owner of the mysterious ore didn't discover its secret, and only obtained it by chance, then casually saved it and kept it.

...

No matter which possibility it was, at least for now, it was difficult for Xia ruofei to further understand the information of this mysterious ore.

The only way was to find out which ancient cultivator's ruin this ore was excavated from the next time he saw Chen Xuan. Then, he should be able to find out more about this ancient cultivator from Yuntai layman, and then make further deductions.

Of course, the premise was that the spirit body of layman Yuntai could survive until then.

At this time, the situation of layman Yuntai was quite bad. His spirit body seemed to have become more illusory.

"Little brother, I don't have much time," said scholar Yuntai. "If you have anything else you want to ask, just ask!"

From the moment master Yuntai came out of the spatial rock, his impression of Xia ruofei had always been mysterious. Now, he didn't expect to get anything from Xia ruofei, so he might as well be more straightforward and let Xia ruofei ask whatever questions he had.

Xia ruofei also came back to his senses. He knew that the most important thing now was to let scholar Yuntai live.

He looked at the mysterious ore on the stone platform, and his heart couldn't help but tremble.

Xia ruofei took a deep breath and carefully released his spiritual power to explore the mysterious ore.

The spirit was maintained for about one – fifth of a second before it was devoured without any suspense.

Xia ruofei didn't stop. He continued to input his spiritual power and analyzed the information he had found.

...

He didn't dare to split nine streams of mental power to investigate like last time.

Moreover, his mental power was still quite abundant, so he was more confident.

As expected, after a while, the mysterious ore did not have any strange movements. Xia ruofei was slightly relieved.

He quickly analyzed the information he got from his spiritual force.

On the other side, scholar Yuntai saw that Xia ruofei was engrossed in checking the stone and did not care about him. He felt that the burning sensation was getting stronger and stronger, and the spirit body was so weak that it was almost disappearing.

Scholar Yuntai couldn't help but sigh, "did I meet a fool?"

At this moment, Xia ruofei had already done his analysis at the fastest speed possible. Then, he used his spiritual power to mark the surface of the ore and shouted, "Senior Yuntai, quickly follow the path I marked and enter the internal space of this ore!"

Chapter 3027 Spirit body sanctuary (1)

At this time, the spiritual body of scholar Yuntai was on the verge of collapse.

His spirit body had already turned illusionary to the point where it was almost transparent, and it looked like it was on the verge of collapse.

And the consciousness of layman Yuntai was also gradually becoming fuzzy. He felt that he was about to disappear from this world.

Although he was only a part of the spirit body of layman Yuntai, he still had the main consciousness. What's more, he was previously sealed in the space Stone, so he couldn't feel the passage of time at all, and he didn't know what era it was now. In other words, it was very likely that layman Yuntai's original body was long gone. If his soul was scattered, he would disappear forever in the true sense.

At this time, a trace of sorrow naturally appeared in the heart of layman Yuntai.

In a daze, he heard Xia ruofei's words and subconsciously floated towards the node that Xia ruofei had marked with his spiritual power.

Xia ruofei saw that the spiritual body of master Yuntai was about to dissipate and he was very nervous.

He watched as the almost transparent spirit body followed the guidance of his mental power and entered the internal space of the mysterious ore. Then, there was no sound. At this time, he was very nervous.

To be honest, Xia ruofei couldn't guarantee that what he did would be a good thing or a bad thing for master Yuntai.

After all, he had experienced the torment of being in the ore's internal space.

Of course, Xia ruofei had already found the most stable and safe small space in the shortest time possible based on his understanding of the ore's internal space. He then guided the spiritual body of the master of the cloud platform into it.

However, there was also the strange difference in the flow of time, which Xia ruofei could not control at all.

To be more precise, it was not even a difference in the flow of time, but it was infinitely close to time stopping.

Xia ruofei waited for a few seconds, but there was no news from master Yuntai. He couldn't help but frown.

According to his previous experience, the time inside the ore space was almost still compared to the outside world. Even if it was not completely still, if he spent 1000 years inside the ore space, only a moment would have passed in the outside world. After entering the ore space, it was possible that he had been inside for many years.

The spirit Qi in the spirit map space was extremely dense and could be said to be endless.

If the spiritual body of layman Yuntai was still alive, he should have been able to use the spiritual Qi here to recover his spiritual body.

Could it be that he had fallen into another spatial zone, or a spatial layer zone, or that he was in danger?

Xia ruofei wasn't confident. In fact, the situation of master Yuntai was already very bad. Xia ruofei was also trying to make a last resort and try his best to leave things to fate.

He didn't hesitate for too long. He immediately released his mental power and explored the small spaces inside the mysterious ore through the node. The small spaces inside the mysterious ore would change randomly without a fixed frequency and period. If he delayed any longer, the relative position of the space would change, and it would take him a lot of effort to find this small space again.

After Xia ruofei left the space inside the ore, his spiritual power would be devoured if he used it to check.

However, he did not know if it was because his ore had existed for a thousand years, or because his mental power had been greatly enhanced, but his mental power could now support a lot longer than before. Although it was only a fifth of a second, the information he could find had multiplied.

Xia ruofei didn't have much hope. After all, he didn't know how many years layman Yuntai had been in there. He didn't know if he was still alive or in that small space.

However, what made him feel a little comforted was that in just a few seconds, the internal space of the ore did not seem to have changed in relative position. He still smoothly followed the node that he had just marked and explored into the small space.

What Xia ruofei didn't expect was that before the first trace of spiritual power was devoured, he had already found the spiritual body of the master of the cloud platform.

The spiritual body of master Yuntai was still in this small space. However, what surprised Xia ruofei was that he was still very weak. His condition was almost the same as before, but it did not worsen. It was basically stable.

Moreover, he could also feel that scholar Yuntai's spirit body was trying its best to absorb the spiritual Qi that seeped into the spirit map space, and was slowly repairing itself.

After receiving the information, Xia ruofei's spiritual energy was devoured.

Xia ruofei couldn't help but Mutter to himself, ""What's going on? Why was he recovering so slowly? Could it be that ... The space where senior Yuntai is in has no difference in the flow of time compared to the spirit map space?"

If that was the case, then it all made sense.

After all, it had only been a few seconds since scholar Yuntai's spiritual body had entered the small space inside the ore. In such a short time, even if he absorbed all the spiritual energy, he naturally wouldn't be able to recover much.

Moreover, when scholar Yuntai first entered this small space, under normal circumstances, he would first observe the environment and would not immediately absorb spiritual energy to recover.

Xia ruofei thought of this and immediately released a second wave of spiritual power to explore the small space with ease.

The situation he detected seemed to further confirm his guess about the flow of time. The spiritual body of scholar Xuanji Yuntai was still trying to absorb the spiritual Qi. The state of the spiritual body was similar to what the previous spiritual power had detected. It seemed to be recovering a little, but the recovery was very small and almost imperceptible.

After the spiritual energy was devoured, Xia ruofei immediately released the third spiritual energy.

This time, Xia ruofei didn't try to find out what was going on. When his spiritual power entered the small space, he immediately used his spiritual power to communicate with the spiritual body of scholar Yuntai. Now that scholar Yuntai was in his spiritual body state, his spiritual power could directly communicate with his spiritual body.

"Senior Yuntai," Xia ruofei said hurriedly, "your spirit body shouldn't be consumed in this small space. You can absorb the spiritual Qi without any worry and recover your spirit body as soon as possible ..."

Even though spiritual energy Voice transmission was much faster than talking and only required a thought, Xia ruofei only had the time to send the most important information to master Yuntai in a fifth of a second before his spiritual energy was devoured.

Xia ruofei immediately released the fourth beam of spiritual power.

This time, he sensed that scholar Yuntai had come out of his state of absorbing spiritual Qi. Obviously, he had received his mental message.

Xia ruofei took advantage of the fact that the spiritual power had not been devoured and quickly transmitted his voice, ""Senior Yuntai, the spiritual power from the outside world will be quickly devoured by this small space, so we can't communicate smoothly for the time being ..."

His spiritual power was devoured again.

Xia ruofei continued to release his spiritual power into the small space and continued, ""Senior, please rest assured and recover your spirit body. Do not try to leave this small space! The space within the ore was extremely complex and filled with danger! If you get lost in there, it will be very difficult for me to find you again!"

Xia ruofei used three streams of spiritual energy to complete this sentence.

Then, he released his mental energy to investigate and found that the spiritual body of scholar Yuntai must have heard his words and started to absorb spiritual Qi to recover.

Xia ruofei also felt that the spiritual body of master Yuntai had become more solid.

Even though he was recovering slowly, at least he was doing well. Xia ruofei felt a little more at ease.

If he wanted to know more about the mysterious ore, he could only rely on scholar Yuntai.

And this was an ancient cultivator!

According to the current cultivators “deductions based on some ancient cultivation ruins, the ancient cultivation world had suddenly disappeared thousands of years ago for unknown reasons. The current cultivation world was slowly developing. However, about 300 years ago, Masters above the Yuanying stage seemed to have disappeared at the same time. Moreover, the cultivation environment had also deteriorated. Today, it had shrunk to the extreme, and even the Aurous core stage cultivators were considered top masters.

The current cultivation world had also formed a systematic inheritance. However, three hundred years ago, almost all the experts disappeared at the same time. Many inheritances could not be protected in time and disappeared with the senior experts.

As for the ancient cultivation world, some cultivation methods and secret skills had been passed down. For example, the “truth of the glittering jewel” that made Xia ruofei famous in the auction was a spiritual power cultivation method from the ancient cultivation world. However, these were all excavated by cultivators from the relics of ancient cultivators. They were often just bits and pieces and were not systematic at all.

Xia ruofei wasn’t interested in the inheritance of the ancient cultivation world. He was very confident in the great Dao scroll. He believed that even in the ancient cultivation world, this technique was the only top – notch technique. Hence, in a sense, Xia ruofei didn’t need any other techniques.

However, if he could survive this time, he would be the only ancient cultivator in the modern cultivation world.

...

Yuntai cultivators would definitely play a very important role in understanding the secrets of the ancient cultivation world and solving some of the mysteries of the ancient cultivation ruins.

Of course, there was another very important point, which was that scholar Yuntai was now in a half – crippled state of spiritual body, and he was still in his spirit map space. So no matter how powerful he was, he could not pose any threat to Xia ruofei. That was why Xia ruofei tried his best to protect scholar Yuntai’s spiritual body.

Xia ruofei was prepared to release a strand of spiritual power every now and then to observe the situation of the spiritual body of master Yuntai.

In this situation, layman Yuntai must be absorbing spiritual Qi to recover his spiritual body. It was meaningless for Xia ruofei to keep releasing his spiritual power to investigate.

If the location of this small space had changed, with Xia ruofei's experience in the ore's inner space for more than 1000 years and his understanding of these small spaces, he believed that he could find it with a little more effort.

Hence, Xia ruofei was not too worried about this.

As long as scholar Yuntai's spirit body didn't wander around and the flow of time was consistent, Xia ruofei could control the situation.

And it was much better than he had expected.

Just as Xia ruofei was ready for a long battle, he suddenly heard the voice of the Grand cloud scholar, "Little brother! This ore of yours is simply too miraculous! It's the perfect sanctuary for spirit bodies!"

Xia ruofei's eyes widened as he stared at the mysterious ore in disbelief ...

Chapter 3028 Ignorant and fearless (1)

Xia ruofei would never have thought that after only 15 minutes, scholar Yuntai could already communicate with him.

One of his spiritual power had just been devoured by the ore, and the feedback from this spiritual power showed that scholar Yuntai was still in that small space. Moreover, judging from the recovery of scholar Yuntai's spirit body, the time flow in that small space should not have changed.

Scholar Yuntai's spiritual body had indeed recovered quite well.

Even though it had not reached the state he was in when he had just come out of the spatial rock seal, it was already much more solid and his condition was rather stable.

Judging from his current state, he should be able to communicate with others normally.

Xia ruofei was not shocked by the speed of recovery of scholar Yuntai, but by the fact that he could communicate with him in the spirit map space inside the ore space!

This also meant that if he wanted to, he could leave the space inside the ore at any time?

How could Xia ruofei, who had been trapped there for thousands of years, bear this?

Xia ruofei was flabbergasted. He was stunned and could not speak for a while.

Scholar Yuntai asked curiously, "little brother, what's wrong?" Is there a problem?"

Xia ruofei came back to his senses and quickly said, "Oh! No... No... Senior Yuntai, how did you do it?"

Master Yuntai scratched his head and asked, "Do what?"

He was now even more suspicious of the brain of this young man he had just met. He was simply incoherent!

Xia ruofei said, "it's ... You can talk to me directly!"

Upon hearing this, scholar Yuntai was even more confused. He said, "It's very easy to use spiritual power to transmit a message! Even Qi condensation cultivators could do it! That's not right, didn't you just use your spiritual power to talk to me? Why are you suddenly asking such a basic question?"

Xia ruofei didn't know whether to laugh or cry, "senior Yuntai, I mean ... How did you manage to talk to me directly in the space inside the ore?" So you can come out at any time?"

"Why should I go out?" asked layman Yuntai. In the outside world, he would have to endure the pain of burning at all times, and his spirit body would be exhausted very quickly. That was truly the death of his soul! This small space of yours is my heaven!"

Xia ruofei was speechless. It was as if after talking for a long time, he and scholar Yuntai were talking like chickens and ducks. They were talking about two different things.

Xia ruofei took a few deep breaths and said, "Senior Yuntai, this junior didn't ask you to come out. I mean, if you want, you can leave the ore space at any time, right?"

"How could I be willing?" grumbled layman Yuntai.

Before Xia ruofei went crazy, master Yuntai finally said, "Little brother, you're right. As long as I want to, I can leave this place at any time!"

Xia ruofei almost burst into tears. He finally got the point.

"Senior, how did you do it?" he asked quickly. I was once trapped inside and couldn't find a way out. I could only wander in an endless small space ..."

"Little brother," said scholar Yuntai with a smile, "actually, I don't have that much ability. The reason why I can easily communicate with the outside world is mainly because of you!"

"Me?" Xia ruofei was confused.

"Yup! The mark you made with your spiritual force is like a torch in the fog!" Scholar Yuntai laughed and said, "and you're constantly pouring in mental energy. I only need to follow the path of your mental energy aura and return. This isn't difficult at all!"

Xia ruofei was stunned.

It was actually so simple?

His attainments in space were already very high, so after listening to the words of scholar Yuntai, he thought for a moment and understood.

It really made sense.

Perhaps this was what it meant to be confused by those involved!

Of course, this also made Xia ruofei realize that it was not an injustice that he had been trapped in the inner space of the ore for a thousand years.

Because in that situation, there was no one in the outside world who could use their spiritual power to guide him!

Even if Luo Qingfeng had been by Xia ruofei's side at that time, with his ability to understand space, he would not have been able to find the small space that Xia ruofei's spirit body was trapped in, let alone provide any guidance.

If he was not careful, even Luo Qingfeng himself might be trapped in it.

Xia ruofei was deep inside the space. Without any guidance, he could only wander around like a headless fly.

He guessed that the reason he could come out was mostly due to luck. It just so happened that the small space he was in had a direct connection with the outside world, and the node just happened to lead to the outside world ...

It could be said that many factors had worked at the same time, allowing him to luckily escape.

If it wasn't for the strange time flow in the ore space, Xia ruofei's body might have rotted away long ago.

Thinking of this, Xia ruofei quickly asked, ""Senior Yuntai! Why is there no difference in the flow of time between the small space you're in and the outside world? The last time junior was trapped in a small space, time seemed to have stopped there ..."

Layman Yuntai laughed and said, "little brother, you must be talking about the chaotic flow of time in this small space!" Let me tell you, there are several types of time turbulence here. Once you're trapped in it, it'll be very difficult to escape. However, I happen to have some understanding of the time turbulence, so I avoided them all!"

Chapter 3029 Ignorant and fearless (2)

Xia ruofei couldn't help but be slightly shocked. He quickly said, ""Senior Yuntai, please elaborate!"

Scholar Yuntai lazily said, "to put it simply, when you enter the chaotic flow of time, it's like you've fallen into a River. As long as you don't completely leave this space, you will always be drifting with the current in this River. And different rivers of time have different time flows." I only observed it briefly, and there are dozens of time turbulences in the space inside this ore, and some of them are even intertwined ... Little brother, your luck is not bad! You just happened to fall into a time turbulence that was most beneficial to you. I just saw a kind of time turbulence that is tens of millions of times slower than the outside world. If you fall into this time turbulence, even if you are only delayed for a short while in this internal space, you will find that the outside world has already changed!"

Hearing this, Xia ruofei's back broke out in a cold sweat, and he felt a wave of fear.

What was the difference in the flow of time that was tens of millions of times faster?

Even if it was 30 million times, then one second in the ore's internal space was equivalent to one year in the outside world.

If Xia ruofei had been trapped in the chaotic flow of time, even if he was lucky enough to escape after being trapped in the space for a few minutes, hundreds of years would have passed in the outside world.

It meant that his body had long been turned into ashes.

Although only a few months would have passed in the outside world due to the time formation flag's effect on the spirit map space's primordial realm, it would still cause various problems.

Moreover, this was under the circumstance that he was so lucky that he was only trapped for a few minutes.

If he was trapped for a thousand years like last time ...

It was impossible to calculate the time. Xia ruofei felt that it was no longer a matter of his family and friends leaving this world. Perhaps earth might not even exist anymore ...

Xia ruofei felt a wave of fear. At the same time, he felt that he was extremely lucky.

Layman Yuntai laughed and asked, "little brother, are you scared?" How long do you think we were trapped here last time?"

"A thousand years ..." Xia ruofei said with a bitter smile.

Layman Yuntai couldn't help but take a deep breath and said, "That's really a blessing in the midst of misfortune! If it wasn't for the fact that the flow of time in the outside world is almost at a standstill compared to the chaotic flow of time you've fallen into, your physical body would've been destroyed long ago after being trapped for so many years. If you're caught in that extremely slow turbulence, then it'll be even worse!"

Xia ruofei sighed, "yeah!" Even now, this junior is still afraid! Ignorance is fearlessness. This is probably what it means!"

Scholar Yuntai laughed and said, "Little brother, this can be considered a blessing in disguise! If I'm not wrong, you've been studying the laws of space for the past thousand years, trying to find a way to escape! No wonder you have such high attainments in space. You must've been able to break through the hidden dimension I left in the storage ring from its origin without triggering the alarm formation I set up, right?"

"Senior, you're right. I spent almost all that time studying the rules of space," Xia ruofei said.

The mood of the Grand cloud scholar seemed to be very good. He laughed and said, "This at least explains one thing, and that is that a spirit body can survive in this space for a long time! Then this old master can stay here in peace!"

The small space inside the ore was lifeless. Anyone who entered it would definitely not be a living being. Hence, without asking, the Grand cloud scholar knew that Xia ruofei must have entered in a spiritual state.

Xia ruofei had already used his own experience to prove that at least a spiritual body could survive for a thousand years in the space inside the ore. Of course, master Yuntai was in a good mood.

Xia ruofei couldn't help but laugh when he heard this. At the same time, he felt that he was lucky.

He knew nothing about the time turbulence. In fact, for cultivators of his level, they were basically in the beginner stage in terms of the rules of space and time. It was just that Xia ruofei had already begun to control the spirit map space before he had even embarked on the cultivation path. In addition, his spiritual power was stronger than cultivators of the same level, so his attainments in the rules of space were naturally higher.

As for the laws of time, he had yet to come into contact with them. He did not even know where the door was.

Time was of the essence just now. Xia ruofei had only chosen a small space based on his intuition. Then, he quickly made a mark and let the spiritual body of the Grand cloud scholar hide in it.

Fortunately, scholar Yuntai had also dabbled in the rules of time and was able to detect the time turbulence.

Otherwise, if layman Yuntai had been trapped in the chaotic flow of time like Xia ruofei, the result would have been completely different.

If the time turbulence that scholar Yuntai was trapped in was similar to the time turbulence that Xia ruofei was trapped in, then it would be fine. He had been in there for hundreds or thousands of years, but only a short time had passed on Xia ruofei's side. To Xia ruofei, it would only take a moment for scholar Yuntai's spirit body to be completely recovered.

Of course, for the cultivators on the cloud platform, it was obviously not so wonderful.

However, if the situation was the opposite and the cultivator of the cloud platform was caught in the turbulence of the extremely slow flow of time, Xia ruofei would basically never be able to contact him again.

Thinking of this, Xia ruofei couldn't help but say, "Senior Yuntai, fortunately, you are also proficient in the rules of time. Otherwise, the consequences would be unimaginable. I was too reckless this time!"

"You can't say that," said scholar Yuntai with a smile. "The situation was so urgent at that time. You were able to find a treasure that could keep the spirit body from being destroyed for me to use. It was already a life – saving grace to me!" Why would I care so much?"

After saying that, scholar Yuntai paused for a moment and continued, "Actually, my attainments in the laws of time and space are about the same. My attainments in the laws of space are not even as good as yours! Otherwise, how could my hidden space have been so easily broken by you? Hahaha!"

"I guess this is a special case!" Xia ruofei laughed bitterly. "It's a blessing in disguise for me when it comes to the laws of space. As for the laws of time, I know nothing about them!"

Layman Yuntai said, "for an Aurous core stage cultivator to be able to grasp the rules of space to a certain extent is already considered extremely talented!" The laws of time are basically unknown domain to Aurous core stage cultivators. What you're doing is within the normal range. In comparison, even if you didn't have the experience of being trapped for a thousand years, you should've already made some achievements in the laws of space, right?"

Xia ruofei thought for a while and nodded. ""I have some understanding. I was only able to detect a trace of abnormality in the nested space in senior's storage ring. It was impossible to crack it, even with conventional methods ... Then, I was unfortunately trapped in this small space group. After a thousand years, when I finally escaped, I found that I could easily crack the nested space!"

Upon hearing this, scholar Yuntai couldn't help but sigh, ""This can be considered a blessing in disguise! Your talent in the laws of space is already stronger than the average cultivator, and in the past thousand years, you've spent most of your time studying the laws of space. There are so many small spaces here for you to study the laws of space that are more primitive. The efficiency of this comprehension was at least two to three times that of normal circumstances. How could a cultivator study the laws of space for two to three thousand years? Therefore, if you only look at your attainments in the laws of space, most of the immortal soul Stage cultivators would not be able to reach your level, let alone nascent Soul Stage cultivators!"

When the Golden core evolved into the nascent soul, the cultivator could reach the nascent Soul Stage.

When the Yuanying stage was cultivated to the extreme, one could breakthrough to the primordial spirit stage. As the name suggested, the cultivator's Yuanying had evolved into a more powerful primordial spirit.

After the primordial soul Stage, it was the leaving aperture stage. At this stage, the cultivator's spiritual body, or primordial spirit, to be precise, could leave the body. This was an even more powerful stage.

Of course, Xia ruofei was still far from the nascent Soul Stage. As for the primordial spirit and out of body stages, they were even further away.

Hence, when Xia ruofei heard the cultivator of the cloud platform say that his attainment in the rules of space had surpassed most of the primordial soul Stage cultivators, he was stunned.

Chapter 3030 The end of closed – door cultivation (1)

Xia ruofei couldn't help but ask. "Senior Yuntai, when you were alive ... Uh, no, before you separated from your spiritual body, what was your cultivation?"

Layman Yuntai said with some embarrassment, ""I was already in the immortal soul Stage then. I didn't expect to be crushed by a little kid like you in terms of the rules of space ..."

Speaking of this, layman Yuntai asked, "by the way, little brother, what era is it now?" I don't know how long I've been sealed in the space rock. I've always been in a dormant state. "

"Senior Yuntai, it's 20 ad this year ..." Xia ruofei said.

Halfway through, Xia ruofei stopped. The A.D. Calendar originated from Western Christianity. The first year of A.D. Was actually the year that Jesus was born. Master Yuntai was an Eastern cultivator and existed much earlier than the first year of A.D. How could he know the A.D. Calendar?

Hence, Xia ruofei thought for a while and asked, ""Senior Yuntai, what era do you live in? can you tell me about it? This way, I can calculate how long you've been sealed in the space Stone. "

“Oh ... Let me think!” Scholar Yuntai said, “in our era, what major events happened in the secular world? Let me think ... Oh! I think there’s a kid called Ji Fa who joined forces with a few vassals to suppress the king of Shang, Di Xin, of the secular world, and established a dynasty or something ...”

“The Zhou Dynasty?” Xia ruofei asked tentatively.

Actually, Xia ruofei already had an answer when master Yuntai said Ji FA’s name. However, Xia ruofei felt that it was unreal when a person from thousands of years ago was talking to him with confidence.

“Yes, yes, yes!” Scholar Yuntai said, “let’s call it Zhou Dynasty!”

“Senior Yuntai,” Xia ruofei said, “according to our current age, King Wu’s attack on the king happened in 1046 B.C., Which is more than 3000 years ago ...”

“A martial King attacking a King?”

“It’s Ji FA’s crusade against King Xin. In history, it’s known as King Wu’s crusade against King Xin!” Xia ruofei said, “that is to say, senior, you have lived for more than three thousand years!”

“Three thousand years?” Layman Yuntai was stunned for a moment and muttered to himself.

It was obvious that it took much longer than he had expected.

“Senior Yuntai, are you okay?” Xia ruofei asked with concern.

“I’m fine! I’m fine!” Scholar Yuntai said, “but I need to rest for a while. My spirit body is incomplete, and I was seriously injured this time. I’ve only just started to recover ...”

“Oh, then have a good rest! I’ll try to recover my spirit body as soon as possible!” Xia ruofei said, “senior Yuntai, you can stay here in peace!” I’ve stored this ore in a small space, so it’s absolutely safe. As long as you’re careful not to fall into the space overlapping area, and even more so not to be accidentally drawn into the chaotic flow of time, it’ll be fine!”

“Hahaha! Don’t worry! I’m a cultivator of the primordial soul realm, how could I make such a low – Level mistake?” Said layman Yuntai.

Xia ruofei couldn’t help but feel strange. He felt that scholar Yuntai’s words were mocking him.

However, he also knew that he must have thought too much. With his cultivation in the Golden core stage, he could have such an achievement in the rules of space. Even layman Yuntai admired him. As for the time turbulence, layman Yuntai himself had said that it was almost impossible for cultivators in the Golden core stage to be involved in the rules of time, so how could he ridicule him?

After saying that, there was no more sound from scholar Yuntai. He probably went to absorb the spiritual energy seriously.

Xia ruofei left the mysterious ore in the stone room of the cave. At the same time, he wrapped the ore in three layers of spatial energy, completely cutting off its connection with the spirit map space.

At first, Xia ruofei was still in a dilemma. He wanted to let the spirit map space absorb and devour this mysterious ore, but he felt that it was a pity.

He had a premonition that if the spirit map space could devour this mysterious ore, there was a high chance that he would be able to evolve once.

However, there were still many uses and functions of this mysterious ore that had yet to be explored. Xia ruofei had not fully understood the rules of those small spaces. To him, it was still useful.

However, Xia ruofei didn't have to worry about it anymore. Since scholar Xuanji had already moved into the ore space, it was impossible for him to give the ore to the spirit map space to swallow!

Xia ruofei left behind a small formation. Once layman Yuntai tried to communicate with him through spiritual energy, even if Xia ruofei was outside, he could use this small formation to know in time and communicate with layman Yuntai on the spiritual energy level.

After making the necessary arrangements, Xia ruofei left the cave.

In fact, he still had many questions to ask master Yuntai. However, he had said that he was very weak and needed rest. Xia ruofei naturally could not force him.

Xia ruofei returned to the Archean realm and spent some time in the small square in front of the Linglong Pagoda to get used to his mental energy. At the same time, he cultivated the "great Dao Sutra".

He had been trapped in the ore space for 1000 years. Although only a short period of time had passed since he entered the Archean realm, Xia ruofei could feel that he had truly been trapped for 1000 years.

When he was in the spirit body state, Xia ruofei could not cultivate.

Therefore, he was more or less unfamiliar with the great Dao Arts.

However, after cultivating for a while, that familiar feeling returned
