

God tier Farm 3031

Chapter 3031 The end of closed – door cultivation (2)

Although his cultivation was still at the beginning stage of the Golden elixir realm, his spiritual power had been greatly improved. After thousands of years of tempering, Xia ruofei felt that he had gained some more Foundation.

Other than familiarizing himself with the great Dao formula, Xia ruofei also spent some time to recall the people and things that had happened before he was trapped in the ore.

He felt that all these things had happened thousands of years ago. It really felt like time had passed.

Xia ruofei had to slowly adapt to this.

Xia ruofei left the spirit map space and rested for a day in the quiet room that was originally reserved for Luo Qingfeng.

Of course, he also took this time to sort out the things that had happened before he was trapped in the ore.

The next morning, Xia ruofei opened the door of the quiet room and walked out.

Luo Qingfeng had been standing guard outside the door for a day and a night. When he saw Xia ruofei come out, he quickly stood up and called out respectfully, "Master!"

Xia ruofei nodded and said, "you've been here all this time?" Rest when you need to rest! The Guardian doesn't need you to guard the door at all times, as long as you can maintain vigilance, isn't that enough? What if I were to go into seclusion for a few months? Are you going to wait like this for the next few months?"

"Master," Luo Qingfeng said with a smile, "I was also meditating outside the door. It doesn't matter if I go back to my room or not!" By the way, master, have you finished your closed – door cultivation?"

Xia ruofei nodded and said, "yes!" I'm just going through the harvest this time ... Qingfeng, if there's nothing else, I'll be leaving in the next two days!"

Luo Qingfeng subconsciously said, 'master is leaving? Then this old servant will follow master! Although this old servant's cultivation is low, I can still serve master tea!"

Xia ruofei didn't know whether to laugh or cry, "you're just an Aurous core stage cultivator, why are you serving tea and pouring water?" For now, you'll be in charge of the star Seizer sect! We've made a name for ourselves in the auction this time, and it's hard to guarantee that no one will covet the star Seizer sect. Without you, a golden core stage cultivator, personally overseeing the auction, I can't be at ease. "

"Yes! This old servant will listen to master!" "Don't worry, master," Luo Qingfeng said. "I'll definitely take care of this property!"

In Luo Qingfeng's eyes, if he was Xia ruofei's servant, then the star Seizer sect would naturally be Xia ruofei's property.

Xia ruofei nodded and said, "I'm not leaving immediately." Before I leave, I'll take a look at our sect's protective array. If possible, I can improve it to make the sect safer!"

"Great!" Luo Qingfeng was overjoyed when he heard that. "That's great!" Since master is personally taking action, the power must be extraordinary!"

Xia ruofei waved his hand. "Not necessarily. Let's take a look first."

Although Xia ruofei had obtained a lot of knowledge about arrays from the Jade talisman of inheritance and he had a lot of practical experience, the knowledge of arrays was very broad and profound. He did not dare to boast that he would be able to improve the sect's protective array before he had seen it.

Perhaps after looking around, Xia ruofei would find that he could not change anything.

If the person who had set up the sect – protecting formation was more skilled in the array Dao than Xia ruofei, then this possibility was entirely possible.

"Yes, master!" "Yes," Luo Qingfeng replied.

Xia ruofei continued, "in addition, I want to conduct an inspection and assessment on all the disciples of the sect. We must ensure that the sect is absolutely reliable." I might not be able to make it in time for the time being, but I still have to register them and find a suitable time to recall them in advance. Then I'll conduct an inspection!"

Luo Qingfeng knew that Xia ruofei had a secret technique in the area of spiritual power. It could make anyone who was hit by it have no secrets to speak of in front of him.

So after hearing Xia ruofei's words, Luo Qingfeng said without hesitation, "Yes! Master! I'll arrange for all the disciples to undergo an inspection!"

"Yes." Xia ruofei nodded and said, "speaking of this, I remember ... Have you dealt with Wang Boshan?"

Wang Boshan was the star Seizer sect's outer sect disciple who had been captured by Xia ruofei together with Zheng Yongshou.

Wang Boshan had always been in charge of some of the star Seizer sect's businesses in the secular world. However, when Xia ruofei questioned him, he found out that this guy was notorious for his crimes. The crimes he had committed were enough for him to be shot a few times in the secular world.

Considering that Wang Boshan was in charge of the star Seizer sect's businesses in the secular world and held the position of a majority of the company's shareholders and directors, Xia ruofei held back his anger and did not immediately get rid of Wang Boshan.

However, he had strictly ordered Luo Qingfeng to transfer Wang Boshan back to the star Seizer sect in the name of placing him in an important position. He had also sent a capable disciple to take over Wang Boshan's business in the secular world and then get rid of him in the star Seizer sect.

This time, when Xia ruofei talked about the loyalty and reliability of his disciples, he naturally thought of Wang Boshan, so he asked.

Hearing this, Luo Qingfeng looked embarrassed and said carefully, "Master, I haven't had the time to deal with him ..."

Xia ruofei frowned and asked, "Why?"

He knew very well that it was impossible for Qingfeng Luo to be disloyal to him, and his loyalty was unquestionable. However, he still did not like his subordinates to be not resolute enough or be less decisive when carrying out orders.

Although Xia ruofei's tone was not particularly harsh, Luo Qingfeng could not help but shiver. He quickly explained, "Master, our star Seizer sect has a lot of properties in the secular world, and the stock structure is also more complicated. Other than Wang Boshan, the others in the sect don't know much about the affairs of the secular world. This time, we've reluctantly chosen a disciple to replace Wang Boshan. For the sake of safety, this old servant will let Wang Boshan take care of him for a period of time, and let that disciple take over before he returns to the sect. Wang Boshan had just returned to the sect a few days ago, and this old servant was not in the sect during this period of time, so the matter of dealing with Wang Boshan was delayed! This old servant should die! Master, please punish me!"

After listening to Luo Qingfeng's explanation, Xia ruofei's expression eased a little. He said indifferently, "Since there's a reason for this, there's no need to punish. However, if all the affairs in the secular world were handed over, he had to hurry up and deal with them! You'll execute it yourself!"

Initially, according to Luo Qingfeng's intention, those businesses in the secular world were dispensable. At that time, he wanted to get rid of Wang Boshan. However, Xia ruofei knew that the secular world could not be given up easily, especially after running it for so many years. It was not easy. That was why he proposed to find someone to replace Wang Boshan and then let Luo Qingfeng deal with it.

This was Xia ruofei's own idea. Since this had caused the matter to be delayed, he would naturally not vent his anger on Luo Qingfeng.

"Yes!" "Yes!" Luo Qingfeng quickly replied, "I'll do it right away!"

"Wait!" Xia ruofei called out to Luo Qingfeng, who was already walking towards the stairs. He did not know whether to laugh or cry. "I told you to hurry up and deal with it, not to go now!" There's a need to have an order of priority, isn't there?"

"Master!" Luo Qingfeng turned around and said, "master, it's my fault for not being considerate!"

Xia ruofei said indifferently, "let's take a look at the sect – protecting formation first!" Strengthening the defense is the most important thing!"

"Yes! Master!" Luo Qingfeng said, "master, the control core of the sect – protecting array is in zhaixing tower. In addition, there are also array blueprints and operation manuals in zhaixing tower. Let me take you to take a look."

Xia ruofei nodded and said, "yes!" Let's settle this first!"

"Master, this way please!" "The core of the array is on the sixth floor," Luo Qingfeng said quickly. "It was originally guarded by a few disciples, but since master went into seclusion yesterday, I have asked them to leave. We can go there directly!"

After Luo Qingfeng finished speaking, he led Xia ruofei up the stairs to the sixth floor.

Xia ruofei observed for a while and realized that the building materials of the entire sixth floor were different from those of the other floors. Although they looked similar on the outside, they were actually made of some rare metals with extremely high defensive power.

The control core of the sect protecting great array was naturally the most important of the defense.

Luo Qingfeng led Xia ruofei along the corridor and arrived at one of the rooms. After pushing the door open, Luo Qingfeng said respectfully, "Master, the core of the formation is here!"

Chapter 3032 The star evolution formation (1)

Xia ruofei nodded and walked into the room.

In the center of the room was a main control array disc the size of a millstone. It was surrounded by many supplementary array talismans.

Xia ruofei took a quick look and realized that even though the control center was in this room, the entire Zhai Xing Lou was closely related to the sect's protective array. The ancestor of the Zhai Xing sect who had set up this protective array must have had a very high level of attainment in the Dao of arrays.

Luo Qingfeng said with a hint of pride, "Master, this sect – protecting formation is called the stellar evolution formation. It was personally set up by a genius elder of our sect five hundred years ago. As a result, star Seizer tower underwent a thorough transformation. Although we, the younger generation of disciples, have failed to live up to expectations these years and the star Seizer sect's position in the cultivation world is only in the middle, in terms of defense, the existence of the stellar evolution formation is enough to deter most top – notch sects from rashly invading!"

"Yes!" Xia ruofei nodded and said, "although I've only taken a preliminary look, I can feel that this array is really amazing!"

"Thank you for your praise, master," Luo Qingfeng said. More than two hundred years ago, the top sect of that time, the myriad beasts sect, had formed a deadly enmity with the ancestors of my star Seizer sect, and once attacked with the entire sect. Not only were the myriad beasts sect's cultivators stronger than the star Seizer sect, but they could also control wild beasts and even had a spirit beast. Ordinary sects couldn't stop them at all, but in the face of the stellar evolution formation, even the myriad beasts sect was helpless. They attacked for more than a month, and in the end, they could only bitterly retreat!"

Xia ruofei said with great interest, "I didn't know that the star Seizer sect had such a glorious history!" What about the myriad beasts sect? Why had he disappeared now? Don't tell me you guys killed them instead?"

Luo Qingfeng laughed drily. "Master, you must be joking. The star Seizer sect's strength has been on a decline for the past 300 years. How could they possibly have the ability to provoke the myriad beasts sect?" However, the myriad beasts sect had indeed disappeared without a trace. About a hundred years ago, it was said that the myriad beasts sect had discovered an incredible ancient cultivation ruin, and all the stronger cultivators in the sect had been sent there. None of them had returned, and they had lost their most powerful combat strength. The myriad beasts sect was usually quite domineering, and they

had offended many forces. When this news spread, the sect was quickly torn apart! I heard that our star Seizer sect received the news a little too late and didn't get a share of the loot. My Grandmaster was regretful about this for a long time!"

Hearing this, Xia ruofei felt a little emotional. Although Luo Qingfeng had only briefly described the history of the destruction of a sect, Xia ruofei could still feel the cruelty of the law of the jungle in the cultivation world.

This also reminded him once again that no matter what, he could not forget to work hard to improve his own strength. At the very least, he had to have the ability to protect himself.

Whether it was the Peach Blossom Island or the star Seizer sect, they were now Xia ruofei's capital.

"Master, the star evolution formation's formation diagram is also stored here. This old servant will find it for you!" Luo Qingfeng said.

Xia ruofei nodded and said, "alright, I'll take a look at the structure of this formation." Since it was a formation set up by the ancestors of the star Seizer sect, it must be pretty good! I might not be able to improve it ..."

"Master, the star evolutionary formation is still much weaker than the Taixu xuanqing formation on the Peach Blossom Island." Luo Qingfeng said, "therefore, I believe that master will definitely be able to come up with a better plan to further strengthen the star Seizer sect's defense!"

Xia ruofei chuckled. "The reason why the Taixu xuanqing formation was set up successfully was because the terrain there had formed a natural formation. I only made some changes to it. You can say that I'm taking advantage of the situation!" If I were to set up such a great formation out of thin air, I'm afraid that I wouldn't be able to do it even if I were given fifty years!"

"Master, you are too humble ..." Luo Qingfeng said. "You are the most talented young man I have ever seen. Whether it is in terms of cultivation or array Dao, you have made me feel ashamed!"

Xia ruofei thought to himself, "actually, I'm the strongest in the laws of space. What you said is only slightly better than the average cultivator."

As he spoke, Qingfeng Luo took out a key from his storage ring and opened a cabinet in the corner of the room. He carefully took out a drawing from it.

Xia ruofei took it and looked at it. The drawing was made of animal skin, but he could not recognize what animal skin it was because it had been too long. The drawing was full of mottled marks, and the drawing and words were a little blurred. However, if one looked closely, they could still recognize it.

Xia ruofei opened the blueprint and looked at it carefully with the help of the light. What surprised Xia ruofei was that the star Seizer sect had already used electric lights. Even the interior of the star Seizer tower was equipped with LED lights that were of decent brightness.

According to Qingfeng Luo, this was a set of power generation equipment that Wang Boshan had specially introduced. The power station and substation were located near a mountain stream not far from the sect. They used the drop in water flow to generate power and then transmitted it to the sect.

Of course, those facilities were also maintained by specialized disciples. At the same time, they were also hidden by arrays.

In order to introduce electricity into the sect, Wang Boshan also specially transferred a group of disciples from the sect to the electricity school for training. The subsequent construction and equipment maintenance were all done by this group of disciples.

Chapter 3033 The star evolution formation (2)

Xia ruofei's current array Dao level was much higher than when he had set up the void xuanqing array on the Peach Blossom Island.

Although he had spent most of his time studying the rules of space, he still needed to change his mind sometimes. Therefore, he had taken out the knowledge in the Jade talisman of inheritance to study. Even though the time he had spent on learning was very little, it was still a very long time in the span of a thousand years.

Hence, Xia ruofei had basically studied all the books on arrays in the Jade talisman of inheritance thoroughly. He had also done the same for the other Miscellaneous Studies.

However, he did not have the opportunity to practice it in the inner space of the ore.

But no matter what, his current level of array Dao theory was much higher than before.

Xia ruofei had no idea how much it had improved, but he could easily understand the blueprint. This was also a direct reflection of Jian Jia's past. He would probably have to spend a long time to understand the blueprint.

But now, Xia ruofei could clearly simulate the operation of the entire array just by looking at the structure.

Furthermore, unlike Luo Qingfeng, who only knew how to operate the array and did not know the reason behind it, Xia ruofei could basically tell at a glance why the genius elder of the star Seizer sect had set it up in such a way. He only needed to think a little to figure out the deep meaning behind each array pattern.

Luo Qingfeng did not dare to disturb them and stood quietly beside Xia ruofei.

Xia ruofei, on the other hand, was engrossed in studying the blueprint.

He looked at it for a full half an hour before letting out a long sigh of relief. He then carefully folded the blueprint.

Xia ruofei had to admit that the formation that the genius elder had set up was indeed very advanced. There were many clever ideas, and even Xia ruofei couldn't help but clap his hands in admiration.

One could imagine that the star Seizer sect's ancestor must have been extremely talented in the Dao of formations.

However, the star Seizer sect's Foundation wasn't particularly deep. No matter how talented that genius elder was, he didn't have the unique learning conditions that Xia ruofei had. It was impossible for him to

come into contact with so many array books of different schools. To put it bluntly, his vision was still a little narrow.

One's vision determined one's outlook.

This stellar evolution formation was exquisite, but the overall structure was not Grand enough.

At least, that was what Xia ruofei thought.

After he finished studying the blueprint, he had already formed a few directions for improvement in his mind, even though he had not checked the array and the control core on the spot.

Xia ruofei heaved a sigh of relief.

If he looked at it for a long time and realized that he couldn't change it, then it would really be a little embarrassing.

Luo Qingfeng looked at Xia ruofei and asked with a hint of anticipation, "Master, what do you think? Is there any room for improvement in our sect – protecting formation?"

Xia ruofei thought for a while and said, "I'm almost done with the blueprint. I'll look at it again in a while and try out this formation when necessary. If I'm not wrong, there should be a few areas that are worth improving!"

Luo Qingfeng was overjoyed and quickly said, "That's great! Master, how do you need this old servant to cooperate? please tell me!"

Other than one of Luo Qingfeng's most trusted disciples, only he could control the sect – protecting array.

This was also a rule passed down from generation to generation within the star Seizer sect.

Furthermore, the only one who could truly control the array was Luo Qingfeng himself. The reason why he had arranged for a trusted disciple to learn some of the array's control functions was also to prevent a strong enemy from attacking when the sect leader was not in the sect.

Although the sect – protecting array would automatically activate its defense when it was attacked, if no one was controlling the array, the defensive power would be much weaker.

When Luo Qingfeng heard that there was room for improvement, his first thought was to fully cooperate with Xia ruofei. He would do his best to cooperate with Xia ruofei no matter how he tested the array technique.

Xia ruofei laughed and said, "You just watch from the side. If there's a problem with my control, you can remind me in time."

"Ah?" Luo Qingfeng was stunned for a moment.

He had not taught Xia ruofei how to control the formation!

Could it be that this thing could be self – taught?

Before Luo Qingfeng could react, Xia ruofei had already flipped his hand and took out a few spiritual stones. He skillfully inserted them into the core control of the array. Then, he pressed on the core control with both hands and released his spiritual power ...

This stellar evolution formation was usually in a hidden state and only retained its basic defensive functions. Thus, the energy required was naturally very small.

However, when he wanted to test the various functions of the formation, he had to put in more spirit stones to ensure the supply of energy.

When Luo Qingfeng saw Xia ruofei's skillful operation, the control core lit up slightly and started to operate smoothly.

Luo Qingfeng was dumbfounded by the scene.

He had controlled this formation for decades, and he didn't even need to release his spiritual power to check it out. He could confirm that the formation's defensive function had been fully activated.

Then, Xia ruofei changed the way he operated his spiritual power a few more times. The formation was like an obedient child. Under Xia ruofei's control, it kept changing its functions.

While Xia ruofei was controlling the formation, his spiritual power had already spread out. Not only did he observe the operation of the formation in the entire Zhai Xing Lou, but he also extended his spiritual power further to observe the state of the formation. He also verified some of his judgments when he was looking at the blueprint.

After a while, Xia ruofei kept the spiritual stone.

At this time, the stellar evolution formation had also obediently returned to its dormant "standby" state.

Luo Qingfeng's head was spinning, as if he was in a dream.

Xia ruofei laughed and said, "Qingfeng, I've already taken a good look." However, I still need to think about how to improve it. There are a few prototypes that I need to confirm the direction of improvement and then perfect. It might take two to three days!"

Luo Qingfeng came back to his senses and was still a little dumbfounded.

The operation of the star evolution formation was very complicated. After he was confirmed as the successor of the sect master, he had to learn for more than two months before he could barely get started, and this was under the circumstances of having someone to teach him.

Xia ruofei, on the other hand, was completely self – taught. He had only studied the blueprint for half an hour and could actually operate it so skillfully. It was really infuriating to compare people!

Besides, he had heard from Xia ruofei that he had come up with several prototypes of the improvement plan in such a short time. From what Xia ruofei had said, he was going to pick a plan to perfect.

Since when did modifying a sect – protecting array become as easy as eating and drinking? and they could even be picky ...

If he wasn't a genius, then how could the so – called geniuses of the other sects bear it?

“Qingfeng?” Seeing Luo Qingfeng’s dazed look, Xia ruofei could not help but call out to him.

Luo Qingfeng finally came back to his senses and quickly replied, “Master, this old servant is really too astounded...Originally, this old servant wanted to explain to master how to control this star evolution formation, but I didn’t expect that master could master it without a teacher ... This old servant is really a frog in the well!”

“I saw this from the blueprint!” Xia ruofei said, “as long as you can understand the blueprint and the operation of the formation, it’s not difficult to control it. It’s not difficult for those who know it!”

Qingfeng Luo suddenly felt like he had received a critical hit of tens of thousands of points ...

...

Until now, he had not understood the principle of the star evolution formation. He only knew how to control it according to the control method taught by the old head. As far as he knew, not many of the past sect leaders of the star Seizer sect had truly understood the principles behind this formation. The vast majority of them knew how it worked, but not how it worked.

Xia ruofei only spent half an hour to understand the principle of the entire formation.

Now, he had casually said, “it’s not difficult to meet him.” If Xia ruofei was not Luo Qingfeng’s master, he might really break off all ties with Xia ruofei. This was really infuriating ...

Chapter 3034 Su Xing sleeping at night (1)

Seeing Luo Qingfeng’s dazed look, Xia ruofei could not help but laugh and say, “Qingfeng, there’s nothing else for you to do here. Leave behind the formation map and go do your work! I need to think about how to improve the formation!”

Luo Qingfeng came back to his senses and quickly said, “Yes! Master, this old servant will take his leave!”

Luo Qingfeng bowed respectfully to Xia ruofei and then left the control room.

After he left the house, the first thing he did was to go to Zhai Xing Lou and order the disciples guarding the perimeter to call Wang Boshan to Zhai Xing Lou.

It had been a few days since Wang Boshan had returned to the star Seizer sect. However, Luo Qingfeng had been following Xia ruofei all this time and was not in the sect, so he naturally did not arrange any specific Affairs for Wang Boshan. He had been idle.

Yesterday, when Xia ruofei and Luo Qingfeng returned to the star picking sect, the soul seal in Wang Boshan’s body had naturally sensed it. In fact, if Xia ruofei wanted to sense Wang Boshan, it would be easy. It was just that he did not pay attention to these small things.

Upon hearing the sect leader’s call, Wang Boshan rushed to Zhai Xing Lou.

Luo Qingfeng was waiting on the first floor of zhaixing tower. When Wang Boshan saw Luo Qingfeng, he immediately bowed and greeted, “Sect leader, you were looking for me?”

“Yes.” Qingfeng Luo nodded and said, “Boshan, you’ve been back to the sect for some time now. I’ve been busy all this time, so I don’t have time to arrange your Affairs ...”

“Yes!” Wang Boshan quickly said, “it’s already a great favor from master and sect leader for me to be able to get away from worldly affairs. It’s no big deal to wait for a while!” By the way, sect master, did master come to our sect?”

“Yes.” Luo Qingfeng nodded and said, “master is also at zhaixing tower, but he’s in seclusion. He doesn’t have time to meet you!”

“Yes, yes, yes! Master’s business is more important!” Wang Boshan quickly said.

“Boshan, have you settled all the matters in the secular world?” Luo Qingfeng asked.

“Yes!” Wang Boshan quickly replied. Junior Brother Chen is very smart, and before he joined the sect, he went to college and majored in business Administration. However, he has been in the sect for more than ten years and doesn’t know much about the outside world. After I taught him for a while, he got it. In addition, according to your instructions, I’ve already transferred the sect’s secular industries to Junior Brother Chen’s name. This disciple believes that with Junior Brother Chen’s ability, you will definitely be able to manage our sect’s secular industries better!”

“That’s good,” Luo Qingfeng said lightly. This way, I can arrange your matters with peace of mind ...”

Wang Boshan was overjoyed. Even in his dreams, he wanted to learn better techniques in the sect. In the past, he was not talented and it was impossible for him to do so. But now, because of Xia ruofei, he was called back to the sect.

Furthermore, even the sect master, Luo Qingfeng, was Xia ruofei’s soul slave. In Wang Boshan’s opinion, he and Luo Qingfeng were essentially of the same status. With this layer of relationship, his status in the star Seizer sect would definitely be extraordinary in the future.

From the looks of it, it was a good thing that he was captured on peach source Island!

Wang Boshan’s thoughts turned quickly and he quickly lowered his head, “”Thank you, master and sect leader, for your cultivation!”

Regardless of the situation, he had to put his master first. Even if Luo Qingfeng was the sect leader, he was no exception.

Luo Qingfeng nodded and said indifferently, “”Come closer!”

Wang Boshan thought that Luo Qingfeng was going to teach him the cultivation technique personally and was very happy. He quickly took a few steps forward and stood in front of Luo Qingfeng. He lowered his head and looked like he was listening.

Luo Qingfeng gently placed his hand on the top of Wang Boshan’s head.

Wang Boshan felt strange. If he was a child, Qingfeng Luo’s action could be explained as love. However, he was already a middle – aged man in his thirties or forties, and he was a little balding. Could it be that Qingfeng Luo had some kind of bad taste in touching his head?

Although he was not used to it, Wang Boshan did not dare to avoid it. Instead, he forced a smile and put on a very respectful look.

At this moment, a cold light flashed in Qingfeng Luo's eyes. He released the yuan Qi in his palm and a strong force directly rushed into Wang Boshan's head from the Baihui point on the top of his head.

The smile on Wang Boshan's face froze. His eyes revealed a look of disbelief and a trace of confusion.

With a golden core cultivator attacking at such a close distance, how could Wang Boshan, whose cultivation was so weak, still have any physiology? Basically, the moment he spat out the vital Qi, the inside of his head had already turned into a paste ...

Until his death, Wang Boshan did not understand why Luo Qingfeng wanted to kill him.

However, he could only carry this question and sink into the endless darkness ...

Luo Qingfeng looked on expressionlessly as Wang Boshan fell to the ground in front of him. His heart was calm.

Even if it was not for Xia ruofei's order, killing a low – Level cultivator was not a big deal for Luo Qingfeng.

To be able to become a sect leader in the world of cultivation and reach the Golden core stage, which one of them wasn't ruthless and decisive? Which one of them hadn't experienced life – and – Death battles and narrowly escaped death?

Qingfeng Luo took out a small bottle of powder from his storage ring, opened the bottle and gently sprinkled some on Wang Boshan's body.

Soon, Wang Boshan's corpse let out a sizzling sound and turned into a pool of blood in a short while. Even his clothes and other items were all melted in the blood.

Luo Qingfeng unhurriedly scattered another kind of powder. The blood on the ground quickly solidified, leaving a small pile of powder.

With a wave of his hand, Luo Qingfeng sent all the powder out of star – picking tower and scattered in the wind.

A living person like Wang Boshan had disappeared without leaving a trace.

Upstairs, Xia ruofei had already taken out a pen and paper from the spirit map space. As he pondered, he wrote and drew on the paper, jotting down some of his thoughts.

When Wang Boshan was killed by Luo Qingfeng's palm, an invisible line in Xia ruofei's soul sea broke instantly and disappeared quickly.

Xia ruofei stopped and scanned the building with his spiritual power.

In fact, he knew that Wang Boshan was already dead, but he wanted to confirm it.

The order to execute Wang Boshan was personally given by Xia ruofei. For such a scum who had committed heinous crimes, Xia ruofei naturally did not have any psychological burden.

Xia ruofei used his spiritual power to see that Luo Qingfeng was dealing with Wang Boshan's body. He nodded and said to himself, "Qingfeng's ability to execute is not bad!"

Dealing with Wang Boshan was just a small matter. Since Luo Qingfeng had completed it in time, Xia ruofei naturally would not ask about it. He quickly bent over the table and began to draw again.

It was rather cumbersome to improve the stellar evolution formation. Although Xia ruofei had some ideas, he still had to consider all aspects of the original formation when he was implementing it. This was a test of his array Dao skills.

Fortunately, after being trapped for a thousand years, Xia ruofei's array theory had made a qualitative leap.

In addition, his spiritual power had also reached the late – Stage of the spirit gathering realm, which was not inferior to some late – Stage golden core cultivators. Therefore, his calculation speed was much faster than before.

Xia ruofei was so engrossed in his study of the array that he did not notice the passing of time.

After Luo Qingfeng dealt with Wang Boshan, he immediately returned to this floor and personally waited in the corridor.

As for the other disciples who had been working in Zhai Xing Lou, they were still restricted to be on guard outside. They were strictly prohibited from coming within a fifty – meter radius of Zhai Xing Lou.

To Xia ruofei, studying array Dao was a very interesting thing.

Especially the improvements on the original foundation, it made Xia ruofei feel like he was talking to his ancestors from hundreds of years ago.

...

He was confident that if that senior of the star Seizer sect were still alive, he would definitely feel like he was a bosom friend.

Because Xia ruofei had almost completely understood every consideration that the ancestor had taken into account when he set up the star evolution formation. It could be said that his understanding of the formation was no less than that of the genius elder of the star Seizer sect who had set up the formation himself.

The formation control room was one of the most heavily guarded rooms in Zhai Xing Lou. Other than a thick and heavy door, there were no windows. The surroundings were also made of very strong defensive building materials.

The light in the room was on. Xia ruofei did not know whether it was day or night outside. He was completely immersed in the joy of improving the formation.

Unconsciously, a large pile of waste paper had been thrown around the table. Xia ruofei had thrown them aside after he had overturned his own thoughts.

On the table, there was a stack of printed paper. Some of them were filled with words, while some were drawn with various formation patterns.

Whether it was the words or the pictures, they all seemed to be a little scribbled.

Only Xia ruofei knew that every stroke in these pictures and texts was the crystallization of his wisdom.

Finally, Xia ruofei put down the pen in his hand and heaved a long sigh of relief. He felt relaxed. He had already drafted a plan that he thought was perfect.

Xia ruofei quickly tidied up the papers on the table and arranged them in order. Then, he walked over and opened the door.

Qingfeng Luo was waiting in the corridor not far away. When he heard the voice, he quickly walked over and bowed. "Master!"

...

"Qingfeng, have you dealt with Wang Boshan?" Xia ruofei nodded and asked.

"Yes! It had already been settled yesterday. I wanted to report to master as soon as possible, but I was worried that I would interrupt master's thoughts." Luo Qingfeng said.

Xia ruofei had been in the control room for a day and a night.

Xia ruofei nodded and said, "yes!" "You've done well!"

Then, he showed the stack of papers in his hand and said with a smile, "I've already come up with a plan to improve the formation! In the next one or two days, we'll make use of the time to improve this formation!"

Luo Qingfeng was overjoyed when he heard this. He quickly said with tears of gratitude, "Many thanks, master! Master has not rested for the sake of the star Seizer sect. This old servant, on behalf of all the disciples of the star Seizer sect, thanks master!"

With that, Luo Qingfeng's knees went weak and he was about to kneel down.

Xia ruofei released his essence force and held Luo Qingfeng up. He said lightly, "Qingfeng, I don't do this here. In fact, I had no choice but to use my soul seal on you. After all, my strength was far inferior to yours at that time. If I didn't do that, I would have been in danger. Although we are master and servant in name, I have never treated you as slaves. As long as you work hard under me, you will be the same as before, and even better than before!"

Chapter 3035 The young great elder (1)

Luo Qingfeng continued to explain, "master, I want to announce to the public that you are the direct disciple of a nascent soul Grandmaster of our sect who has been living in seclusion in the mountains. This time, you have come out to cultivate under the orders of the master. This way, your identity will be closely related to the star Seizer sect. In addition, the modification of the sect's protective array has been of great help to the sect, so it is reasonable to grant you the title of great elder!" In addition, the

next step is for master to screen out the disciples in the sect on a large scale. With this identity, it will be more legitimate!”

After Luo Qingfeng finished speaking in one breath, he looked at Xia ruofei with apprehension and asked, “Master, these are just some of this old servant’s rough thoughts. It’s just that the identity of great elder is somewhat unfair to master, what does master think?”

Xia ruofei smiled. “That’s a good arrangement. Let’s do it.”

Luo Qingfeng immediately heaved a sigh of relief and quickly said with a happy expression, “Master, this old servant will immediately gather all the disciples and announce this matter!”

Xia ruofei smiled and nodded. “Go! I’m going to study this stellar evolution formation for a while longer. Call me when you’re ready.”

“Yes! Master, this old servant will take his leave!” Luo Qingfeng said quickly.

.....

Soon, the melodious sound of a bell rang out in the star Seizer sect.

All the disciples in the sect stopped what they were doing and listened carefully.

Every time the bell rang, it was a major event.

When everyone finally confirmed that the bell had tolled nine times, they quickly put down what they were doing and hurried to a Hall not far north of Zhai Xing Lou.

The bell rang nine times, and all the disciples in the sect had to gather at the heaven seeking Palace within the time it takes for an incense stick to burn. Those who were late or late would be severely punished, and in serious cases, they would be expelled from the sect or even executed.

In the past two days, after Luo Qingfeng had returned to the sect, Zhai Xing Lou had been completely shut down. Even the core disciples were not allowed to approach.

Now that the bell had rung again to gather all the disciples, everyone realized that something big had happened.

After all the disciples entered the heaven seeking Palace, they could not help but shut their mouths. The solemn atmosphere here made everyone afraid to make a sound, even if they had many questions in their hearts, no one dared to whisper to each other.

Rows of futons were placed neatly in the spacious hall. Everyone found their seats according to their seniority, time of entry, and cultivation level, and sat down cross – legged.

The entire heaven seeking Palace could hear a pin drop, and everyone was waiting quietly.

After a while, sect master Luo Qingfeng appeared on the high platform at the front of the hall. Standing beside him was a young cultivator whom none of the star Seizer sect disciples recognized.

Everyone’s eyes were fixed on the high platform, wanting to know why the sect leader had gathered everyone.

Luo Qingfeng's face was dignified. After looking around, he said, "I've gathered all the disciples in the heaven seeking Palace today because I have an important announcement to make!"

After saying that, Luo Qingfeng turned his body to the side, making Xia ruofei stand out. Then, he said, "The person beside me is Xia Tian, the direct disciple of a reclusive nascent soul Grandmaster of our star Seizer sect!"

When Xia ruofei walked in the world of cultivation, he used the identity and appearance of 'Xia Tian'.

With his current cultivation, it wasn't difficult for him to maintain his appearance for a long time.

The star Seizer sect disciples were so shocked that they even forgot the rules. After a brief moment of shock, they couldn't help but start whispering to each other.

Of course, the focus of everyone's attention was not the young 'Xia Tian', but the 'nascent soul Grandmaster' that Luo Qingfeng had mentioned.

In today's cultivation world, the top combat power on the surface was the Golden core cultivators. The forces in the cultivation world were also divided according to the number of golden core cultivators in the force. The so – called top, first – rate, and second – rate sects were nothing more than whether they had golden core cultivators and how many golden core cultivators they had.

However, other than Aurous core stage cultivators, there were all sorts of legends circulating in the cultivation world, all of which were related to nascent Soul Stage old monsters.

For example, the number one sect, the first heaven sect, not only had many Aurous core stage cultivators, but everyone also thought that the first heaven sect had a nascent Soul Stage cultivator.

In other sects, the news about the reclusive nascent soul cultivators was also endless, and it was difficult to distinguish the truth from the false.

But no matter what, a nascent soul cultivator was obviously a deterrent force.

No one might have seen a nascent soul cultivator in the past few years, but if a sect had a nascent soul cultivator as its backer, even if the sect did not have a golden core cultivator, ordinary forces would not easily provoke them.

The star Seizer sect's strength had been constantly declining in recent years, and its status in the cultivation world was also declining day by day. If they really had a Yuanying stage ancestor, it would undoubtedly be a shot in the arm.

How could everyone not be excited when they first heard this news?

Luo Qingfeng heard the buzzing sound below and could not help but frown. He shouted in a deep voice, "Silence!"

All the disciples immediately fell silent and quickly shut their mouths.

Luo Qingfeng continued. "Junior Brother Xia has been following the nascent soul Grandmaster since he was a child. He has been cultivating in seclusion. Now that he has achieved some success, the Grandmaster ordered him to enter the world to cultivate. That's why he returned to the star Seizer

sect!” In fact, according to seniority, Junior Brother Xia is several generations older than me, but he insists on treating me as an equal and calls me senior brother. He also said that this was the intention of the Yuanying ancestor. I can’t disobey the elder’s order, so I can only accept it!”

Chapter 3036 The young great elder (2)

Luo Qingfeng’s words were naturally meant to raise Xia ruofei’s seniority.

To the disciples, they did not really care about these things. After all, Xia ruofei’s status was extremely noble and the seniority of the generation was the same to them.

However, everyone was still very excited because Luo Qingfeng’s words were very certain. It was obvious that the story of the nascent soul senior was very real!

Luo Qingfeng continued, “the patriarch has ordered that Junior Brother Xia needs to enter the world to cultivate. He can not officially join the star Seizer sect.” However, even though the founding master had wandered for many years, he was still concerned about the sect. He ordered Junior Brother Xia to return to the star Seizer sect to help improve the star evolutionary formation protecting the sect, and to use the founding master’s Secret technique to check the root bone of each disciple once more so that he could better teach them according to their material and further increase the overall strength of the star Seizer sect!”

The second thing that Luo Qingfeng said was actually to find a good reason for Xia ruofei’s next step in screening every disciple.

When the star Seizer sect disciples heard this, they were all extremely excited.

They had finally shifted their focus to the overly young Xia Tian.

The Yuanying stage Grandmaster was too far away from them, but the Yuanying stage personal disciple was right in front of them! Moreover, the sect leader had just said that this Yuanying stage personal disciple would personally check everyone’s root bone. Perhaps someone with a unique aptitude would be able to enter this person’s eyes, change their fate, and soar to the sky in one go!

Whether it was the cultivation world or the secular world, the vast majority of people had mediocre aptitudes.

In a cultivation sect, the vast majority of disciples would not achieve much in their entire lives.

However, no one was willing to be a member of this Army of mediocrity. Even if reality had told them countless times that they were mediocrity, they would not accept their fate.

Xia ruofei’s appearance had undoubtedly revived the fantasy in everyone’s hearts. Although the effect of my current cultivation technique is average, perhaps I haven’t found a suitable cultivation technique before? This person is a Yuanying stage cultivator’s direct disciple, maybe he will test my root bone and find out that I’m actually a genius!

Luo Qingfeng naturally did not care about the rich fantasies in the hearts of the disciples. It would be fine as long as they remained silent and did not whisper to each other.

“Yes,” Luo Qingfeng continued. “Although the patriarch has already forbidden Junior Brother Xia from officially joining the star Seizer sect, I have decided to grant him the position of great elder due to his deep relationship with our sect and his contributions to the sect!”

The disciples of the star Seizer sect all knew that the position of Grand Elder wasn’t an official position. It was more like an honorary title. Giving the position of Grand Elder naturally wouldn’t be considered disobeying their master’s orders, but at the same time, it would ensure that elder Xia’s esteemed status within the star Seizer sect. This truly was an extremely appropriate choice.

In fact, this highlighted the convenience of a small sect like the star Seizer sect. Luo Qingfeng was the only golden core cultivator in Xuanji, and his fellow disciples were only in the Qi refining stage, even though they were elders of the sect. Thus, Luo Qingfeng could naturally keep his word.

Absolute control meant that the star Seizer sect had fewer schemes and plots between the upper echelons.

Of course, conflict was an eternal theme.

However, Luo Qingfeng could go beyond the struggle.

For example, this time, no one doubted Luo Qingfeng’s words at all. Everyone believed him without a doubt.

The elders had no objection to Qingfeng Luo’s decision to grant such a young cultivator the position of ‘great elder’.

Luo Qingfeng then gave Xia ruofei a token that represented the identity of the great elder.

After a simple ceremony, Qingfeng Luo said seriously, “The position of the great elder is extremely honorable. Although the great elder doesn’t take part in the daily management of the sect, the entire sect must respect the great elder as they respect me. From now on, the great elder’s orders are equivalent to my orders. Any disciple of the star Seizer sect who dares to disobey or disobey will be severely punished!”

In fact, Luo Qingfeng’s original intention was to set up a position higher than the sect leader. How could he be on the same level as the master? However, he also knew that this was not very realistic, and those disciples would also become suspicious. The current solution was obviously the best choice.

Qingfeng Luo’s words were filled with killing intent. The disciples below the high platform, including some elders who were of the same generation as Qingfeng Luo, could not help but feel their hearts tremble.

Xia ruofei’s identity as the “nascent soul’s direct disciple” was already very intimidating. Now that he had the support of the sect leader who had reached the Golden core stage, who would dare to look down on this great elder?

Xia ruofei stood on the high platform with a calm expression. He seemed to be unaffected by flattery or humiliation. This made the disciples of the star Seizer sect respect a cultivator at Qianqian’s age even more. How many of them could be so calm when they suddenly became the Grand Elder of a first – Class sect?

Everyone had more faith in Grand Elder Xia's identity as a "Yuanying stage personal disciple."

Presumably, only a disciple of a Yuanying stage master could be so calm!

In fact, Xia ruofei's calmness was not an act, but it had nothing to do with a nascent Soul Master. His confidence was naturally because of his own strength.

No one in the star Seizer sect, including Luo Qingfeng, was a match for him. Even if they attacked him together, he still had many trump cards and could easily retreat.

Moreover, for such a medium – sized sect, he wouldn't even care if he was the sect leader. What was there to be excited about to get the honorary position of great elder?

Luo Qingfeng then announced that they would be improving the sect – protecting star evolution formation under Xia ruofei's leadership. By then, the sect headquarters would be impregnable.

At the same time, he also announced that there would be a test of everyone's innate ability soon, which would be hosted by Xia ruofei. In the future, resources would be redistributed based on the results of everyone's innate ability Test, and more suitable cultivation techniques would be arranged.

This included those who were on duty or on missions. They would be recalled in batches. In short, no one would be left behind for the root bone test.

Many of the star Seizer sect's disciples still felt like they were in a dream when Luo Qingfeng announced the disbandment.

His own sect suddenly had a Yuanying stage master as a backer, and there was also a twenty – year – old great elder.

In addition, the sect – protecting Grand array was already very powerful, and it actually needed to be further enhanced!

There was also the test of innate ability, which was closely related to everyone.

In the heaven seeking Palace, no one dared to act rashly.

After coming out, they naturally could no longer hold back the excitement in their hearts and began to discuss it in groups of two or three.

Luo Qingfeng and Xia ruofei did not stop him.

There was no such thing as an impervious wall in the world. For such a large sect, the news that was announced in public would definitely be leaked.

In fact, Xia ruofei did it on purpose.

At the auction, many big shots of various sects had noticed Xia ruofei, including the head of the falling leaves sect, Shao Qingyang and the others. They were all wondering if there was a nascent Soul Stage old monster behind Xia ruofei.

Otherwise, it would be hard to explain why a young man in his twenties could come up with all kinds of cultivation techniques and rare prescriptions.

In fact, Xia ruofei did not hide his cultivation deliberately. However, he had reached the Golden core stage himself. With the special nature of the great way technique, even a late – Stage golden core cultivator would find it difficult to see through his cultivation.

However, the leaders of the sects would never have thought of that. They would never think that Xia ruofei had already broken through to the Golden core stage. After all, he was too young. Therefore, these people would naturally think that Xia ruofei had used some powerful means to hide his actual cultivation.

Since everyone had such a guess, Xia ruofei might as well make use of this public appearance to spread the news.

In this way, the powers that had already begun to covet the star Seizer sect would definitely be extremely wary, which would give the star Seizer sect more time to develop.

Luo Qingfeng accompanied Xia ruofei back to zhaixing tower and respectfully asked him to rest first. He then went to prepare the materials needed to modify the array.

Chapter 3037 Prestige rises (1)

Although the star Seizer sect wasn't particularly powerful, it was still a large sect that had been passed down for several hundred years.

The materials that Xia ruofei had listed out were all gathered in the star Seizer sect's warehouse, which saved them a lot of trouble.

Otherwise, even if the materials were not particularly rare, it would be a waste of time to go out and search for them or buy them.

Since the materials had been gathered, Xia ruofei used the time Luo Qingfeng had left to prepare the materials to re – deduce his plan for the modification of the array. After confirming that it was safe, Xia ruofei began to bring Luo Qingfeng to begin the modification of the entire sect – protecting great array from zhaixing tower.

The modification process took about two days.

Xia ruofei had made use of the original stellar evolution formation to the greatest extent. He had ingeniously blended some of his formation theories into it. Hence, the extent of the changes was not very big, and the time and materials used were not much.

During the modification process, Xia ruofei would also explain the idea of the modification to Luo Qingfeng.

He did not expect Luo Qingfeng to fully understand the entire array, but it would at least increase his understanding of the array's principles. It would be of great help to him in controlling the array in the future.

After the modification was completed, Xia ruofei tried out the formation himself.

The entire formation was operating smoothly, and the effect was also very obvious.

In terms of defense, Xia ruofei estimated that it was at least 30% stronger than the original stellar evolution formation.

In addition, the offensive power of the formation had also become stronger.

In terms of gathering spirit Qi, the original stellar evolution formation was not obvious. It was probably because the genius elder of the star picking sect did not have a deep understanding of spirit gathering formations. In addition, this kind of comprehensive formation needed all its functions to be combined. Therefore, this was the weakness of the original stellar evolution formation.

Xia ruofei made some adjustments.

As soon as the formation was activated, the effect was immediately apparent.

It turned out that the training environment of the star Seizer sect was only slightly better than that of the outside world.

In fact, this was also one of the reasons why the star Seizer sect had been declining over the years. Although the defensive power of the formation was very strong, its ability to gather spiritual Qi was its shortcoming. As a result, the cultivation environment in the sect was worse than that of many first – Class sects. It might not be obvious in the short term, but as time passed, its overall strength would be seriously affected.

After Xia ruofei's major modification, Luo Qingfeng immediately felt traces of spirit Qi gathering from outside the array as soon as it was activated. The spirit gathering effect was several times better than before!

Even the ordinary disciples of the star Seizer sect could sense this change.

Cultivators were very sensitive to spirit Qi.

Although the formation had just been activated, and there was no obvious change in the concentration of spirit Qi in the entire sect, everyone could still feel that the concentration of spirit Qi was slowly increasing.

Everyone knew that the sect master and the newly – appointed Grand Elder had been busy modifying the sect's protective formation for the past two days. At first, some disciples were more or less worried. After all, the star evolution formation was the foundation of the star Seizer sect, and it was this famous sect – protecting formation that had allowed the star Seizer sect to survive many crises.

The Grand Elder was so young, could he really modify the sect – protecting formation that had been in operation for hundreds of years?

What if the modification didn't have any effect and instead broke the sect protecting great array, what should he do?

Unexpectedly, in just two days, the sect protecting great array's transformation was completed. And as soon as it started operating, everyone immediately had a completely different feeling.

The concentration of spiritual Qi was still slowly increasing, and he didn't know where the limit was yet.

If they could double or triple the number, then the star Seizer sect's cultivation environment wouldn't be any weaker than any of the other first – rate sects!

In fact, these disciples were a little too conservative.

When Xia ruofei was designing the transformation plan of the formation, he had planned to increase the gathering of spiritual Qi by at least three times.

Moreover, he had also successfully come up with a plan through his extensive and profound understanding of formation path theory.

After completing the modification and operating the formation, Xia ruofei could finally rest assured.

The theoretical design had been tested in practice.

Xia ruofei roughly estimated that the modified formation was at least three times stronger than the original sect – protecting formation in terms of gathering spiritual Qi. This was already the most conservative estimate.

Basically, after the formation had been in operation for a while, the concentration of spiritual Qi in the sect had reached a new Balance. There might still be a big gap between the concentration of spiritual Qi in the sect and that in the Peach Blossom Island. However, among the first – rate sects, there should be no one who could surpass the star Seizer sect. Even some of the top sects might not have a cultivation environment that could reach this level.

The success of the transformation of the array greatly invigorated Luo Qingfeng.

He expressed his gratitude to Xia ruofei with tears in his eyes and quickly got his trusted disciples to announce the news to the whole sect.

The star Seizer sect's disciples had already sensed the spirit Qi's concentration slowly increasing, so they had already guessed it in their hearts.

After the announcement, it only confirmed everyone's guess.

The star Seizer sect's disciples learned that the young Grand Elder had spent only two days modifying the formation. Not only had its defensive and offensive capabilities increased by several times, but what was even more exciting was that its spirit gathering ability had actually increased by several times.

One could imagine that it wouldn't be long before the star Seizer sect would become a cultivation paradise that would make others envious.

Chapter 3038 Prestige rises (2)

As the disciples who lived and cultivated in the sect, they were naturally the ones who benefited the most.

Moreover, the great elder would be conducting a "root bone test" for everyone, which meant that everyone would have the opportunity to obtain a cultivation technique that was more suitable for themselves. If they discovered a talent that they had not discovered before, there would be a bias in the resources.

Many of the star Seizer sect's disciples had already lost faith in their cultivation path due to the continuous deterioration of the cultivation environment. However, this young great elder who had appeared out of nowhere had brought them great hope.

Xia ruofei's reputation in the star Seizer sect had reached its peak.

When he first took office, everyone was in awe of him, but that was mostly because of the non-existent "nascent soul Grandmaster" behind him and the power of the sect leader, Luo Qingfeng. But now, he had established a solid prestige.

It could be said that Xia ruofei's reputation in the star Seizer sect was only second to Luo Qingfeng's. It could even be said that he was already on par with Luo Qingfeng.

This was under the circumstance that everyone was not aware of his cultivation level. If the disciples knew that he was already a golden core cultivator at such a young age and that he was even stronger than Qingfeng Luo, they would probably be even more impressed with him.

While he was modifying the array, Xia ruofei didn't forget to pay attention to master Yuntai, who was still in the stone room in the mountain sea realm in the spirit map space.

However, it seemed that the spiritual body of scholar Yuntai was seriously damaged. After the last time he took the initiative to communicate with him, there was no longer any sound.

Xia ruofei was still worried that he would lose contact with scholar Yuntai after the small space inside the ore moved. Hence, he took the time to enter the spirit map space and personally used his spiritual power to investigate.

He realized that master Yuntai seemed to have built a stable passage. Even though the position of the space was changing from time to time, Xia ruofei could still find that small space easily by following the Beacon left by master Yuntai.

The result of the investigation was that scholar Yuntai had entered a state similar to deep dormancy. Perhaps this state was more beneficial for the recovery of his spirit body.

Xia ruofei knew that under such circumstances, unless it was a life and death situation, master Yuntai would not react to external stimuli.

Originally, Xia ruofei had a lot of questions to ask master Yuntai. But in this situation, he could only ask after he woke up.

Of course, it was good news for Xia ruofei to confirm that layman Yuntai was not in danger and that the connection with that small space would not be cut off. He could finally put his heart at ease.

The transformation of the stellar evolution formation was completed, and Xia ruofei was ready to leave.

Many things had happened during this auction, and he had gained a lot. He needed to spend some time to digest it.

On top of that, he also wanted to give the two storage rings to Song Wei and Ling Qingxue. There was also the wild tea he got from Chen Xuan, which could help a Qi condensation cultivator break through a small realm. Naturally, he wanted to share such a good thing with his female friends.

In addition, during the time he was trapped in the ore space, he had used his spare time to study all the ancient books on array Dao in the Jade talisman of inheritance. His array Dao level could be said to have advanced by leaps and bounds. This time, the modification of the stellar evolution formation at the star picking sect was also a chance for him to practice. He had combined many theoretical knowledge with practice. In fact, it was very helpful for him to comprehend array Dao.

Xia ruofei felt that he had gained a lot.

Previously, when he activated the Taixu xuanqing formation, it was based on his level of array Dao and understanding of the Taixu xuanqing formation. Looking back now, it seemed that there was still a lot of room for improvement.

In reality, array Masters of different standards could set up the same array, but the effect would be very different.

It was the same Taixu xuanqing formation, but if it was set up by an array master, it would definitely be much more effective than Xia ruofei's previous method of barely activating the formation.

Although the Taixu xuanqing formation on the Peach Blossom Island was a natural formation and Xia ruofei had only activated it, his understanding of it was different now. From his current point of view, there was still a lot of room for improvement.

Xia ruofei felt that if he went back and made some changes to the previous arrangement, he could at least increase the power of the Taixu xuanqing formation by another ten or twenty percent.

And this was not the limit. If Xia ruofei's array skills could improve further in the future, there was still room for improvement.

Hence, Xia ruofei decided to make a trip back to Paradise Island after leaving the star Seizer sect.

But before he left, he had one more thing to do, and that was to conduct a full screening of the star Seizer sect's disciples.

Now that the star Seizer sect could be considered his property, he naturally wouldn't allow any hidden dangers to exist.

Luo Qingfeng had already made arrangements in advance. After the transformation of the array was completed, the screening work immediately began at Xia ruofei's command.

Initially, Luo Qingfeng had wanted to let Xia ruofei rest, but Xia ruofei was eager to return home and wanted to finish everything as soon as possible. Naturally, Luo Qingfeng did not dare to go against his wishes.

Hence, all the star Seizer sect's disciples were gathered and entered the star Seizer tower one by one to undergo Xia ruofei 's' innate ability Test '.

Starting from Luo Qingfeng's senior and junior brothers, who were also the elders of the star Seizer sect, everyone was tested.

In the star Seizer sect, Luo Qingfeng was the only golden core cultivator. The highest level of cultivation among the elders was only at the ninth level of the Qi refinement realm. On the other hand, Xia ruofei's

spiritual power had entered the late – Stage of the spirit gathering realm after thousands of years of grinding in the ore space. He was basically unparalleled in the entire cultivation world. Therefore, these elders and ordinary disciples were no different from Xia ruofei.

Especially since no one was on guard against Xia ruofei. Xia ruofei told them to relax before they could take the ‘innate ability Test’ and everyone did as he said. That was why Xia ruofei could hypnotize them in an instant.

The test was carried out very quickly. In less than a day, everyone, except for those who were working outside, had gone through the test.

When Xia ruofei was examining the star Seizer sect’s disciples, Luo Qingfeng was personally standing guard outside and was responsible for ‘calling’ the numbers. Hence, he did not know everyone’s examination results. Xia ruofei did not say anything either. It was like an assembly line process. After everyone was examined, he called Luo Qingfeng in.

Luo Qingfeng had already ordered all the disciples to leave Zhai Xing Lou. As soon as he entered the house, he bowed to Xia ruofei and asked respectfully, “Master, what’s the situation?”

Qingfeng Luo was a little nervous. Although he had absolute control over the entire sect, he could not guarantee that all his subordinates were reliable.

He was even certain that there would definitely be spies in such a large sect, just like how the star Seizer sect had sent spies to other sects.

What Qingfeng Luo was worried about was that if there were too many problematic people, his master would inevitably have the impression that he was incompetent.

Xia ruofei said indifferently, “they’re all tested. The overall situation is not bad. The loyalty of the basic disciples is quite high.” Among the elders, there’s one who’s quite ambitious and wants to replace you. Although his strength is average, if you don’t pay attention, you might be ambushed ...”

Luo Qingfeng’s forehead was covered in sweat. He was not confident in the lower – Level disciples. As for the elders, he was actually very confident. He had always treated them well, but he did not expect that there would be someone among his senior and junior brothers who had second thoughts.

Xia ruofei glanced at Luo Qingfeng and continued, “In addition, five spies have been found among the disciples. With such a large number of people, five spies aren’t too many, but three of them come from the same sect. They colluded with each other and sent out a lot of information, but you didn’t notice it at all! “In addition, among these five spies, there is actually one who works in a core position like Zhai Xing Lou. Fortunately, I have already asked and he has only just been transferred in. He has not dared to make a move for the time being, so there is not much loss. However, there’s actually a spy in the core area. This will cause you to be on high alert!”

When Xia ruofei said this, his tone was already very stern. Luo Qingfeng felt a chill down his spine and broke out in a cold sweat ...

Chapter 3039 Kindness as heavy as a mountain (1)

“Master,” Luo Qingfeng said in a trembling voice, “it’s all my fault. There were so many spies in the sect, but I didn’t even notice ...”

Xia ruofei waved his hand and said, “let’s not talk about this now. Fortunately, we didn’t cause any major losses. If even core secrets such as the blueprint of the sect’s defensive formation were leaked out, the star Seizer sect would be in grave danger!” It’s not too late to make up for it. Since we’ve already found out, we’ll just have to deal with it as soon as possible!”

“Yes! This old servant will obey master’s instructions!” Luo Qingfeng said quickly.

He was also filled with lingering fear. If Xia ruofei had not come to the star picking sect and conducted a thorough screening of all the disciples, he would not have known anything, especially the spy who had successfully infiltrated the star picking tower. He was too dangerous.

He himself lived in zhaixing tower, but there was actually an enemy’s spy beside his bed.

Even though under normal circumstances, no one would be able to plot against an Aurous core stage cultivator, but there was no such thing as a thousand – day guard against thieves. What if the other party used a strange poison to plot against him? Or should he take advantage of the critical moment of his closed – door cultivation to suddenly fight with his life? If he were to be careless, he might really fail miserably.

Even if his own safety wasn’t a big problem, there were too many secrets in Zhai Xing Lou. If any of them were leaked out, it would bring great harm to the star picking sect.

It could be said that those who were selected to enter star – picking tower were all disciples that Luo Qingfeng had personally inspected and thought to be highly reliable.

And just like that, a spy had managed to sneak in.

Luo Qingfeng could not help but sweat.

Xia ruofei picked up a piece of paper from the table and handed it to Luo Qingfeng. He said lightly, “The elder who wants to replace you every day and the list of five spies are all here. You can deal with them as you see fit! In addition, among these disciples, I’ve also listed out some of them who have a strong sense of belonging to the sect and are dead set on you. They should be the most reliable. If these people have good talent, you can put them in an appropriate position!”

Luo Qingfeng was touched. With tears in his eyes, he took the list with trembling hands and knelt on the ground with a thud. “Master has given this old servant and the star Seizer sect a new lease of life. This old servant thanks you!”

“Get up!” Xia ruofei said indifferently, “it seems that this internal investigation is still very important. Quickly arrange for the disciples outside to come back for the investigation. We must not leave any hidden dangers!”

“Yes! This old servant has already arranged for the personnel to temporarily rotate. Within seven days, all the people outside will return to the sect!” Luo Qingfeng said.

Xia ruofei said, “I can’t wait that long. I have to go back to Peach Blossom Island!” After I’ve taken care of some matters, I’ll return to the star Seizer sect and screen the remaining disciples!”

“Yes! Master!” Luo Qingfeng said with his head lowered.

He never looked at the paper in his hand. Since Xia ruofei had even provided the name list, the five spies would not be able to escape. As for that ambitious elder, he did not intend to keep him. No matter if it was a Qi refining level 9 or 8, as long as they had not broken through to the Golden core stage, they were no different from ants in his eyes. Losing a Qi refining elder was not a big deal to the star Seizer sect.

Xia ruofei had helped the star Seizer sect to modify the sect’s protective formation. Very soon, the star Seizer sect’s cultivation environment would undergo a tremendous change. Xia ruofei had also given him the method to cultivate spiritual power. This way, the Qi refining cultivators of the star Seizer sect would improve very quickly.

At that time, there would be more high – Level Qi refinement cultivators and even golden core cultivators.

Under such circumstances, Luo Qingfeng would naturally not care about an elder at the advanced Qi refinement realm.

Luo Qingfeng clenched the paper tightly and said respectfully, “Master, even if you’re going to leave, you should rest for a day or two. You’ve been so busy with the star Seizer sect’s Affairs these past few days that you basically haven’t rested at all. This old servant’s heart is very uneasy!”

Xia ruofei smiled. “It’s okay. It’s the same to rest on the road.”

Luo Qingfeng was stunned when he heard this. He did not know that Xia ruofei had already obtained an airboat. In fact, it was even more advanced than Chen Xuan’s. Naturally, he thought that Xia ruofei was flying back to Peach Blossom Island on her sword. Flying on a sword was very exhausting. How could she rest on the way?

However, Luo Qingfeng did not dare to ask too much. Since Xia ruofei had decided, he could only follow it unconditionally.

Xia ruofei took out a stack of documents that he had prepared earlier and said, “I’m leaving these for you, use them well! In the future, the cultivation environment of the star Seizer sect will not be any worse than that of the other top sects. Before the star Seizer sect produces a second Aurous core stage cultivator, you will have to stay in the sect for most of the time. If there’s anything, I will naturally inform you. The rest of the time, you will work hard to improve your strength and protect the sect!”

“Yes! Master!” “Yes, master,” Luo Qingfeng replied respectfully. He then looked curiously at the stack of documents in Xia ruofei’s hands and asked, “master, this is ...”

Xia ruofei smiled and said, “this is the modified control method of the star evolution formation. There are some changes from before, but not much. Take a look and you should be able to get used to it soon.” This is the content of the second volume of the “glittering jewel true understanding.” The first volume is more suitable for Qi refining cultivators. You’re already in the Golden core stage. After mastering the first volume, you should focus on the second volume.” Also, these are all cultivation techniques and battle skills. I’ve extracted those that are suitable for Qi condensation disciples. You can pass them on to talented and loyal disciples as you see fit. En ... There are a few more that are suitable

for golden core cultivators. You can learn them when you have time. You don't have to be proficient in them. It's good to use them as a reference ..."

Chapter 3040 Kindness as heavy as a mountain (2)

Before Xia ruofei could finish, Luo Qingfeng knelt on the ground with red eyes and said in a choked voice, "Master, what did this old servant do to deserve such love from master ..."

"Get up!" Xia ruofei said, "not all of these are for you. Many of them are also for the sake of increasing the overall strength of the star Seizer sect. The stronger the star Seizer sect is, the more help it will be to me!"

In fact, besides the glittering jewel Wonderland, many of these cultivation methods were obtained from the nested space of Yuntai scholar. However, Xia ruofei had also made a copy of them in the space and kept the original for himself.

Luo Qingfeng stood up and said firmly, "Master, this old servant will definitely look after this family business for master in the future! Do your best to increase the sect's strength. When master needs it, you only need to say the word and the entire star Seizer sect will go through fire and water ..."

Xia ruofei waved his hand and interrupted Luo Qingfeng. He smiled and said, "I definitely won't let my own people go through fire and water. You've been by my side for a while, don't you know that? Qingfeng, don't think too much. Just focus on developing the star Seizer sect. That's the greatest help you can give me! Of course, I'll contact you at any time if there's anything. In the future, when you've cultivated enough disciples to guard the star Seizer sect, you can also go to the peach source Island to cultivate for a period of time every year. After all, the environment there is better."

"Yes! This old servant understands!" "Thank you, master!" Qingfeng Luo said excitedly.

Xia ruofei nodded and continued, "Oh right, I almost forgot about this ..."

With that, Xia ruofei took out a big bag from the medium and placed it on the table with a clang.

The opening of the bag wasn't tied tightly, and a spirit stone fell out.

Qingfeng Luo's eyes twitched. He walked up and opened the bag. He was stunned to find that it was full of 50000 to 60000 spirit stones.

Very quickly, Luo Qingfeng understood Xia ruofei's intention. He quickly waved his hands in fear and said, "Master, you can't do that! You've already given this old servant and the star Seizer sect too many favors! I definitely wouldn't dare to accept this spirit stone ..."

Luo Qingfeng did not know that Xia ruofei had made a fortune from the storage ring. He knew that Xia ruofei had spent a lot of spiritual stones to buy the storage ring and the mysterious ore. Later on, he had also lent a large number of spiritual stones to Chen Xuan. Hence, he guessed that Xia ruofei did not have many spiritual stones left.

Under such circumstances, how could he dare to accept the 50000 to 60000 spiritual stones that Xia ruofei had given him?

Xia ruofei said nonchalantly, "just take it. Spiritual stones are not only useful for cultivation. More importantly, they can be used as money in the cultivation world. If you want to develop your sect, you'll definitely need spiritual stones in many ways." I still have a lot of spirit stones on hand, and these are only a small portion. You can keep them with peace of mind!"

Luo Qingfeng could not believe it. He knew that Xia ruofei did not even know what spiritual stones were before he attended the auction. In order to raise the spiritual stones needed to buy the storage ring, Xia ruofei had even refined Qi – gathering pills and sent them to the auction.

After the auction, Luo Qingfeng had not left Xia ruofei's side. Where did Xia ruofei get so many spiritual stones from?

Therefore, Luo Qingfeng thought that Xia ruofei was just telling a white lie so that he would accept it.

However, it was precisely because of this misunderstanding that Luo Qingfeng was even more touched and followed Xia ruofei even more loyally.

"This ..." Luo Qingfeng looked troubled.

Xia ruofei's face darkened. He frowned and said, "What's wrong? Are my words not effective?"

Luo Qingfeng hurriedly lowered his head and said, "He didn't dare! Master, how would this old servant dare to disobey your orders?"

"Then accept it!" Xia ruofei said in an unquestionable tone, "and this, it's specially for you. Stay in the star Seizer sect and cultivate. You're still too weak!"

Luo Qingfeng looked up and saw that Xia ruofei was holding a crystal in his hand. He was so scared that he almost lost his soul.

Not to mention crystals, even spiritual crystals were precious treasures to Luo Qingfeng. Now, Xia ruofei had given him a crystal with such pure energy? He could not believe his eyes.

In fact, he had no idea that Xia ruofei had obtained at least a few hundred thousand spiritual stones, a few thousand spiritual crystals, and a thousand origin crystals from the nested space left by master Yuntai.

Therefore, taking out 50000 spiritual stones to develop the star Seizer sect and giving Luo Qingfeng an origin crystal was not a big expense for Xia ruofei.

After all, Luo Qingfeng was absolutely loyal to him. One crystal was just a necessary investment to make Luo Qingfeng stronger. To Xia ruofei, this was a sure win.

Seeing that Luo Qingfeng was in a daze and did not speak for a long time, Xia ruofei could not help but frown. He directly stuffed the crystal into Luo Qingfeng's hand and said, "Keep these well! I should go! If there's an emergency, you can contact me through your phone!"

Xia ruofei could use his phone normally on the Peach Blossom Island. In the past, there had been no cell phone signal here at the star Seizer sect. However, signal towers had been installed on the nearby mountains. With that, cell phones could be used normally in most parts of the star Seizer sect.

Speaking of which, this was the credit of Wang Boshan. It was when he was in charge of the sect's secular Affairs, through coordination, that he was able to build two base stations in this barren mountain.

Luo Qingfeng came back to his senses and quickly said, ""Yes! Master, these origin crystals ..."

This time, he didn't dare to decline directly, but his hesitation was still obvious.

Xia ruofei said indifferently, "I'm giving it to you. You should keep it. When have you ever seen me take back something I've given away?"

"...Yes!" "Thank you, master!" Luo Qingfeng said.

After saying that, Luo Qingfeng did not hesitate any longer. He immediately kept all the crystals, spiritual stones, and the martial arts manuals that Xia ruofei had given him into his storage ring. Then, he bowed to Xia ruofei.

He didn't say much. As the saying goes, words can't express gratitude for a great favor. If he said too many words of thanks at this time, it would be useless. It would depend on his future actions.

After a long time, Luo Qingfeng straightened up and said, ""Master, this old servant will send you off!"

"En!" Xia ruofei nodded.

The matters at the star Seizer sect were basically done. The foundation had been laid, and they had been given a lot of cultivation resources. It was time for Xia ruofei to return to the peach source Island.

At this moment, Xia ruofei was anxious to go home.

Luo Qingfeng accompanied Xia ruofei to the top floor of zhaixing tower. Then, the two of them leaped onto the roof. In fact, Xia ruofei had jumped onto the roof first, and Luo Qingfeng had followed without knowing the reason.

Because if it was just sword Kinesis flight, the cultivator could directly release the flying sword, then jump out of the window, step on the flying sword, and fly away.

This was the highest point of the entire star Seizer sect. Standing on the roof of the house, one could see many antique – looking buildings scattered in a picturesque disorder in the valley where clouds and mist were curling up. The spiritual Qi in the air was still slowly rising at a steady rate.

Xia ruofei looked back at the beautiful scenery and said to Luo Qingfeng, ""Qingfeng, look at this. Isn't it beautiful? This is not only a force that I, Xia ruofei, have cultivated, but it is also the foundation of your survival. You must guard this Foundation well!"

"Yes!" Luo Qingfeng said with a serious expression. Master! This old servant will definitely remember master's teachings!"

Xia ruofei nodded and did not say anything else. He simply said, "I'm leaving!"

Then, Luo Qingfeng saw Xia ruofei flip his hand, and a small and exquisite black flying boat appeared in his palm.

Then, Xia ruofei threw the flying boat out. The black flying boat expanded in the wind and became more than 20 meters long in the blink of an eye. It was a matte black with sharp edges and corners, and it exuded a futuristic feeling ..
