Chapter 3041 Eager to return (1)

Qingfeng Luo had come back on the first heaven society's Chen Xuan's Clearwater flying boat, so he was no stranger to flying boats.

When he saw Xia ruofei suddenly take out an airboat, he was dumbfounded.

Furthermore, this flying ship was clearly of a much higher grade than Chen Xuan's. Not only was it much larger, but the materials used to construct it were also of a higher grade.

To be honest, Luo Qingfeng would not be surprised no matter what good things Xia ruofei brought out now. In his eyes, ever since he knew Xia ruofei, this young master was almost omnipotent.

But this time, Luo Qingfeng still felt that his mind was in a daze. The last time he had boarded Chen Xuan's Clearwater flying boat, it was obviously the first time Xia ruofei had seen such a flying boat. In fact, even Luo Qingfeng had only heard of it. It was also the first time that he had actually boarded a flying boat.

Then, they returned to the star Seizer sect. Until today, Xia ruofei had not left the star Seizer sect.

The question was, where did this airboat come from?

Luo Qingfeng would not believe that Xia ruofei had an airboat.

Xia ruofei's shocked expression when he saw Chen Xuan's Clearwater flying boat did not seem to be fake.

Besides, Xia ruofei didn't need to pretend!

Seeing this huge, black airboat, Xia ruofei became even more mysterious in Luo Qingfeng's mind.

While Luo Qingfeng was still in a daze, Xia ruofei had already leaped up and landed on the deck of the black flying boat.

Xia ruofei waved at Luo Qingfeng and said, "Qingfeng, I'm leaving! Contact me by phone if you need anything!"

Luo Qingfeng came back to his senses and quickly bowed to the ground. He said respectfully, "This old servant will see you off, master!"

Qingfeng Luo remained in a bowing position. Soon, he heard a slight sound of the air breaking. He looked up and saw that the black flying boat had already flown into the sky at an extremely fast speed. In the blink of an eye, the 20 – meter – long flying boat had become a small black dot in his vision.

Luo Qingfeng stood on the roof of zhaixing tower in a daze, looking in the direction where the black flying boat had disappeared. After a long time, he leaped up and returned to zhaixing tower through the window.

After sending Xia ruofei off, Luo Qingfeng regained the dignity of a sect master. There was even a hint of cold killing intent on his face.

Xia ruofei had already done the screening work in detail. Next, he would naturally go on a killing spree.

The five spies and the ambitious elder naturally could not be spared. Furthermore, Luo Qingfeng had to carry out a major reorganization from top to bottom. For example, which sect had sent the five spies, how they had joined the star Seizer sect, and those who were related to them would be investigated.

Of course, Xia ruofei had already confirmed that other than the five of them, the others were not spies sent by the outside world. At most, these people had failed in their duties.

However, there were so many disciples in the sect. Some of them were extremely loyal and had a strong sense of belonging to the sect, while some of them were less loyal. Although they were not spies, once the sect was in a life and death crisis, these people could very likely betray it.

Therefore, Qingfeng Luo wanted to use this opportunity to get rid of those who held key positions but were not very loyal. He wanted to promote those who were truly loyal.

It didn't matter if his cultivation wasn't very high.

In the future, the star Seizer sect's cultivation environment would be much better than before. Furthermore, Xia ruofei had left him with so many cultivation resources and techniques. As long as he focused on nurturing them, these loyal disciples would be able to improve their strength very quickly.

Therefore, after Xia ruofei left, Luo Qingfeng still had many things to do.

Fortunately, he had been the sect leader for so many years and was very familiar with these things. In addition, he was an invincible existence in the star Seizer sect. As long as he knew the priority and carried out the tasks one by one, there would not be any problems.

It was also because of this that Xia ruofei was at ease to leave all the cleaning up to Luo Qingfeng.

.....

After Xia ruofei steered the black flying boat away from the star Seizer sect, he quickly activated the shielding function of the flying boat to prevent it from being detected by satellites and radars of the secular world.

Xia ruofei had wanted to ask scholar Yuntai what the name of this flying ship was, but his spiritual body was in a state of deep cultivation. It was no different from a deep sleep, and there was no way to communicate. He couldn't give the flying boat another name. After all, master Yuntai must have already given it a name.

Xia ruofei quickly confirmed the direction to Paradise Island with the GPS. Then, he steered the black flying boat and headed towards Paradise Island at full speed.

He was really eager to return home, so he directly used the spirit crystal as the power to power the flying boat. In fact, it was very energy – saving, and one Spirit crystal could be used for a long time. He had obtained thousands of spirit crystals from the nested space of master Yuntai, so he didn't feel any heartache at all when using one.

In addition, if it was an aircraft flight, it had to follow a fixed route and follow the instructions of the ground air traffic control personnel along the way. Therefore, the actual flight distance of the aircraft

was definitely much greater than the straight – line distance between the two places. However, there was naturally no need to care about the route by flying boat. A straight line was the shortest distance between two points, so all they had to do was find the right direction and fly straight.

Chapter 3042 Eager to return (2)

Of course, they had to be careful to avoid the aircraft of the secular world.

Xia ruofei had noticed it when he was trying out the flying boat. In fact, there was a radar – like detection array around the flying boat. If there were other aircraft flying at the same altitude, the control array of the flying boat could actively control the Ascension or descent to avoid it. It was similar to the anti – collision system of aircraft.

In addition, when controlling the flying boat, pay attention to using mental power to detect it. The probability of a “crash incident” could be said to be extremely low.

Flying in an airboat was much shorter than flying in a private jet. In terms of speed, the airboat’s flying speed was at least two or three times that of an ordinary civil aircraft, so it could save a lot of time on the way.

After Xia ruofei confirmed the direction of the flight, there was basically no need for him to sit by the control panel.

No matter how much time was saved on the flight, it would still take two to three hours to fly from China to Peach Blossom Island.

Hence, Xia ruofei decided to just stroll around the swift Boat. After he got the swift Boat, he only tried to fly a few rounds in the spirit map space and did not really take a good look at the cabin inside.

This black vessel was much longer than Chen Xuan ‘s, so it was only natural that it had much more space in it.

The control panel was located in an isolated position, similar to a cockpit, except that there was no transparent glass in front. After all, cultivators mainly relied on mental power to detect the surrounding situation. When flying at such a fast speed, if they really found anything abnormal with the naked eye, ordinary people would not have time to react.

There were three cabins behind the control panel. Two of them were bedrooms, and the other one should be a reception area with tables, chairs, benches, and beds. However, these were all integrated with the flying boat and could not be moved at will.

Although these cabins didn’t have any porthole, they didn’t feel suffocated at all.

Xia ruofei strolled around and returned to the cockpit. He took out the spirit map scroll and entered the spirit map space.

Flying at full speed in the sky was much faster than most golden core cultivators. Even Chen Xuan’s Green water flying boat was not as fast. Hence, Xia ruofei could take out the spirit map scroll without worrying about his safety.

Of course, he still left a wisp of his divine sense. If anything unexpected happened in the outside world, he would be able to react immediately.

Xia ruofei went straight to the stone chamber in the mountain sea realm. The first thing he did was to check on the mysterious ore. He found that the spiritual body of scholar Yuntai was still slowly absorbing spiritual Qi, and his condition was also slowly recovering.

Xia ruofei roughly sensed it and felt that scholar Yuntai's spiritual body should be more solid than when he had just broken the spatial stone.

Xia ruofei guessed that even though the spiritual body of master Yuntai had fallen into a deep sleep and was protected by layers of seals, it was inevitable that some of it had been worn out over the long years.

This time, with the protection of the ore space and sufficient spiritual Qi, layman Yuntai could naturally recover to his best state in one breath.

It seemed that layman Yuntai was about to wake up.

However, Xia ruofei did not know how long it had been. After a brief check, he sat cross – legged on the futon in the stone room and began to cultivate the great Dao Sutra.

The spiritual Qi in the spirit map space was enough to support Xia ruofei's cultivation.

As long as he didn't cultivate here day and night, or break through a major realm, he could replenish the spirit Qi in time without damaging the foundation of the spirit map space.

Hence, as long as the conditions allowed, Xia ruofei was more willing to cultivate in the spirit map space. After all, the spiritual Qi here was richer than the inside of the void xuanqing formation, and it did not require spiritual crystals, origin crystals, and other cultivation resources.

The vital Qi vortex in his dantian kept spinning. Xia ruofei absorbed spiritual Qi into his body, following the circulation route of the second level of the great Dao formula. Finally, it returned to his dantian and produced a new wisp of vital Qi. Xia ruofei's cultivation was also slowly increasing.

However, such an increase was insignificant compared to a breakthrough in cultivation.

However, the progress of a cultivator mainly relied on this slow and stable cultivation. It was basically impossible to achieve it overnight unless there was a great opportunity.

Moreover, by cultivating step by step with a down – to – Earth approach, one's Foundation would naturally be the most solid.

Xia ruofei's cultivation in the Aurous core beginner stage was already very stable. He could feel his real progress. Although the rate of progress was slower than when he was in the Qi refining stage, he was still walking firmly on the path of cultivation.

More than two hours passed by in a flash.

After calculating the time, the black flying boat should be approaching the Peach Blossom Island. Xia ruofei stopped his cultivation and absorbed the last wisp of spiritual Qi into his dantian. Then, he let out a long breath of turbid air, opened his eyes, and stood up.

He checked the mysterious ore again and found that there was still no sign of scholar Yuntai waking up.

Hence, Xia ruofei returned to the cockpit of the flying boat.

Having just finished his cultivation, he was in high spirits. He immediately took out his handheld GPS and confirmed his current location.

Even though they had left for more than two hours, the flying boat was still flying steadily. It had been following the direction that Xia ruofei had set without any deviation.

The Paradise Island was about a hundred nautical miles ahead.

Such a short distance, compared to the speed of the black flying boat, would only take a short while.

Xia ruofei stood up and walked to the control panel. At the same time, he released his spiritual power to investigate.

After a short while, the black flying boat had already entered the range of the Taixu xuanqing formation.

Xia ruofei was already familiar with the structure and operating principle of the Taixu xuanqing formation. He had already reduced the speed and altitude of the flying boat. He controlled the black flying boat in front of the console and agilely followed a special flight path into the Taixu xuanqing formation without any obstruction.

The black airboat had turned on its shielding function. Ordinary people could not see it with their naked eyes. Hence, Xia ruofei did not avoid the staff on the island. He even flew past the guard Camp a few dozen meters above.

Of course, the main reason was that when the black flying boat passed through the outer protective layer of the array, it was on the side of the guards. He wanted to go to the Yanhuang building, so flying above the guards was the shortest route. Anyway, ordinary people could not see the flying boat, so Xia ruofei naturally would not deliberately take a detour.

At the Yanhuang building.

Li Yifu, who had been carrying the simple control array board with him all this time, keenly sensed that the array seemed to have been slightly touched.

However, the formation plate soon stopped reacting.

Li Yifu couldn't help but feel a little nervous. At the same time, he was also a little confused. According to Xia ruofei, it was not easy for even a nascent Soul Stage cultivator to break through.

Although the formation had been activated, it shouldn't have been an invasion. Especially when there was no response at the back, it was even less likely that someone had invaded.

This was because if someone tried to force their way through the formation and activated it, the attacks from the formation would be endless. If an average Aurous core stage cultivator were to charge in, they would be beaten up without even needing the controller to control the formation.

However, there was no movement from the array at all, so Li Yifu was not particularly worried.

Of course, he was still a little uncertain. After all, the array board's reaction was very sensitive, and it basically wouldn't make any mistakes.

Therefore, he immediately went to the roof of the Yanhuang building. His mental power cultivation was very ordinary, and he couldn't detect that far. Therefore, it was more reliable to go to the roof of the tallest building on the island and use his naked eye to check.

Just as Li Yifu walked up to the roof, a Jet – Black, angular aircraft made a beautiful flight path from the direction of the guards and arrived on the roof in the blink of an eye without any sound.

The flying device was extremely fast, but it stopped when it reached the rooftop.

It only took the blink of an eye for him to go from flying at high speed to coming to a complete standstill. He seemed to be completely unaffected by inertia.

Li Yifu rubbed his eyes and saw the aircraft quietly floating two meters above the roof, exuding a cold aura.

His whole body shivered and he quickly recovered from the shock. Then, he subconsciously grabbed the simple control array board that Xia ruofei had left for him.

...

At that moment, a voice that Li Yifu was very familiar with rang out, "Foster husband, don't be nervous. It's me ..."

Chapter 3043 Returning to peach source Island (1)

Li Yifu heard Xia ruofei's voice and his tensed muscles immediately relaxed.

He looked at the black flying boat that was more than 20 meters long in front of him, and he was still a little dazed.

At this moment, Xia ruofei's figure appeared on the deck of the swift Boat. He jumped down lightly.

Immediately after, under Li Yifu's shocked gaze, the black flying ship rapidly shrank like a magic trick. In the blink of an eye, it was only an inch long.

Xia ruofei waved his hand and took the floating flying boat, then stored it in the spirit map space.

He laughed and said, "foster husband, stop looking. This isn't some future technology. It's a product of the cultivation world!" This is a flying magic weapon made by an expert of the ancient cultivation world!"

Li Yifu's face was filled with disbelief as he said, "Flying Dharma Treasures are so high – tech! Senior granduncle, I thought it was an alien invasion!"

This black flying boat did not match the aerodynamic shape of an aircraft at all. It did not have wings, but it could easily float in the air and fly at such a high speed. It was indeed like a UFO.

Xia ruofei laughed and said, "that's why you shouldn't look down on cultivators. They don't just focus on cultivation and make their bodies very strong. There were many masters in the ancient cultivation world

who had great achievements in refining weapons. Besides, you've seen the arrays in the cultivation world. In fact, these things are not inferior to the technology in the secular world!"

"Yes, yes, yes!" Li Yifu nodded and said, "Grand – martial uncle, I've heard about the ancient cultivation world several times during the auction that day. Many of the auction items were excavated from the ruins of ancient cultivators. Could it be that ... You bought this flying magic weapon at the auction after I left that day? That's going to cost a lot of spirit stones, right?"

Xia ruofei smiled and said, "it's a long story. I'll tell you later!" In short, I didn't spend much spirit stones, so it's basically a free gift!"

"How is this possible?" Li Yifu couldn't help but be dumbfounded.

Xia ruofei laughed and said, "anyway, we've gained a lot from this auction." Let's go! Let's go downstairs first. "

Li Yifu then realized that they were still standing on the rooftop. This was obviously not a suitable place to talk. He quickly stepped aside and let Xia ruofei walk in front. Then, the two of them walked to the exit of the rooftop one after another.

The two of them returned to the large suite on the top floor of the Yanhuang building that was specially reserved for Xia ruofei.

Li Yifu swiftly made a cup of tea for Xia ruofei and asked, ""Martial granduncle, after this disciple left that day, did anything dangerous happen? This disciple was very worried about you along the way. If there was really an accident, this disciple would have become a deserter! If that's the case, I'm afraid that even in the netherworld, my father will still teach him a lesson!"

After Xia ruofei arrived at the star Seizer sect, he contacted Li Yifu briefly to let him know that they were safe.

Therefore, Li Yifu didn't understand the specific situation.

Xia ruofei laughed. "There was no danger. After the auction, Chen Xuan from the first heaven society was the one who auctioned the ore. He used a flying spiritual treasure to send Qingfeng and I back to the star Seizer sect. No one dared to do anything on the way."

Li Yifu let out a sigh of relief and said, ""That's good! That's good! By the way, the flying magic weapon that martial granduncle was talking about, could it be the one just now ..."

"The first heaven society also has a Swift Boat called the blue water Swift Boat. It's different from the one I'm using." Xia ruofei said, "to be exact, I didn't even get this flying boat when the auction ended!"

Xia ruofei saw Li Yifu's confused look and simply told him what had happened after Li Yifu left the auction.

Of course, he was also selective.

For example, this black flying boat. Xia ruofei only said that he found a nested space hidden in the storage ring that he had won. Then, he found a way to open this space and obtained a batch of cultivation resources, which included this flying boat.

However, Xia ruofei didn't mention anything about the spiritual body of scholar Yuntai.

After all, a living ancient cultivator was of great significance to the current cultivation world. If they could have the help of a real ancient cultivator during the exploration of ancient ruins, it would be much more efficient and safer.

Li Yifu didn't care about the information about master Yuntai. If Xia ruofei told him, no matter how loyal he was, there was still a possibility that he would leak the information. In that case, Xia ruofei might as well not tell him.

Xia ruofei did not tell Li Yifu about his research on the mysterious ore or how he had been trapped in the space of the ore for more than a thousand years.

Even so, after Li Yifu heard Xia ruofei's story, his eyes were filled with splendor. He didn't expect that he would miss so many interesting things by leaving early.

Besides, Xia ruofei had obtained so many cultivation resources. He was genuinely happy for Xia ruofei.

After Xia ruofei finished, he asked, "My foster husband, is everything alright on peach source Island? Have there been any unusual situations these days?"

Paradise Island was Xia ruofei's future base. For a long time, it would be his most important base camp. Therefore, he placed great importance on the safety of Paradise Island.

Chapter 3044 Returning to peach source Island (2)

"Everything is normal. Don't worry!" Li Yifu quickly said, "the few days that you were not on the island, it was calm outside. No cultivators spied on us or barged into the Taixu xuanqing formation! I'm guessing that the cultivation world hasn't noticed this cultivation paradise yet."

"That's good! I don't want everyone to know about this. It's best for us to develop our strength in a low – Profile manner!" Xia ruofei chuckled and said, "of course, if a cultivation sect or force finds Paradise Island and covets our precious cultivation land, we won't be afraid!"

Through this auction, Xia ruofei had a better understanding of the forces in the cultivation world.

It could be said that in the current cultivation world, there were still people who had a higher cultivation than Xia ruofei. Many of the sect leaders and elders of the top sects and even first – Class sects had reached the intermediate or even advanced stage of the Golden core realm.

However, not many people could defeat Xia ruofei even if they had all their trump cards.

If they were just defending, Xia ruofei would not be afraid of anyone, especially with the Taixu xuanqing formation on the Peach Blossom Island.

Even outside, if Xia ruofei could not defeat them, he could escape. He could hide in the spirit map space and escape with the black flying boat while the enemy was unprepared. With the speed of the black flying boat, most of the Aurous core stage cultivators would not be able to catch up even if they were to ride their flying swords at full speed.

After Li Yifu heard Xia ruofei's words, he couldn't help but feel a sense of pride. He nodded heavily and said,"With senior granduncle here, this disciple has a backbone!"

Then, Li Yifu added,"by the way, great uncle – Master, the staff members for the recruitment of disciples have arrived one after another. However, because they haven't been screened by you yet, I haven't let these people who arrived later come into contact with work for the time being. They're all living together."

Xia ruofei nodded and said,"is everyone here?"

"Yes, I am!" Li Yifu said,"these people are enough to ensure the normal operation of the Peach Blossom Island, and they can also get enough rest."

"Mm! Then let's screen all the newcomers today. " Xia ruofei said,"Oh right, how are the guards?"

"Everything is normal!" Li Yifu said,"they have already taken on the tasks of guarding, patrolling, and guarding the dock. Also, the guards have recently organized several live ammunition training sessions, so the ammunition consumption is relatively fast. They applied to me once, but I didn't bother you with such a small matter and directly approved it for them!"

Xia ruofei nodded approvingly and said,"Well done!"

Then, Xia ruofei took out a piece of paper from the spirit map space and handed it to Li Yifu."There should still be a lot of materials left from the activation of the formation last time! Can you see if you can gather all the items on this list? If you can 't, go buy them as soon as possible!"

"Yes!" Li Yifu said. Then, he asked curiously,"what's this about, grand uncle – Master?"

Xia ruofei smiled."Recently, I've made some progress in the field of arrays. I feel that there's still a lot of potential to be discovered in the Taixu xuanqing array of our Peach Blossom Island. So, I've thought of a transformation plan and am preparing to upgrade our current array!"

Xia ruofei knew the structure of the Taixu xuanqing formation by heart, so he didn't need to wait until he returned to the Peach Blossom Island to start drawing up the plan.

In fact, when he was modifying the star evolutionary formation of the star Seizer sect, he often had some inspiration for modifying the Taixu xuanqing formation. At that time, he had casually recorded them down, and then used some of his spare time in the star Seizer sect to come up with a plan to modify the Taixu xuanqing formation.

In fact, it was much easier to draw up this plan than to modify the stellar evolution formation.

After all, the stellar evolution formation was designed and set up by someone else. No matter how well he understood the principle and structure of the stellar evolution formation, it could not be compared to the Taixu xuanqing formation. After all, the Taixu xuanqing formation was set and activated by Xia ruofei himself. Every part of the design and every thought was his own.

Li Yifu's spirit was lifted when he heard this, and he quickly said,"Yes! This disciple will go and check the materials!"

Xia ruofei stopped Li Yifu with a smile and said, ""Don't rush! You go and organize all the new employees to come to the Yanhuang building for the last round of interviews. I'll do the screening here, and you go prepare the materials. This won't delay either side, right?"

"Yes, yes, yes!" Li Yifu quickly said, "great uncle – Master, can we go to the meeting room on the third floor?"

"Sure, I'll go down now!" Xia ruofei said.

Li Yifu immediately started contacting people and asked them to organize the new employees to come to the Yanhuang building for interviews. He specifically asked benilatti to be in charge of the staff organization and on – site management. Then, he went to the warehouse and found all the materials according to the list provided by Xia ruofei.

These new employees were all ordinary people and were easier to hypnotize than the star Seizer sect's disciples. Xia ruofei's screening speed was extremely fast. By the time Li Yifu had gathered the materials, he had already screened through everyone.

These people were recruited by Li Yifu through his company in the United States and the Hong sect. They had gone through several rounds of screening before coming to the island, so they were very reliable.

Xia ruofei checked each and every one of them. No one had sneaked in with an ulterior motive.

Of course, there were different levels of loyalty. Some people came to work purely for the high salary. This was human nature. Xia ruofei naturally did not think that these people were unreliable.

He told the results of the screening to Li Yifu and asked him to arrange for everyone to start their respective positions today. This would also greatly relieve the pressure on the staff on the island in the early stages.

Then, Xia ruofei brought Li Yifu along and started to modify the formation without stopping.

This kind of modification was mainly minor adjustments. Moreover, he had the experience of modifying the star evolution formation, so it was naturally easier for him to modify the Taixu xuanqing formation that he was more familiar with.

After a day or so, Xia ruofei had successfully made a "small upgrade" to the Taixu xuanqing formation.

After restarting the formation, Xia ruofei carefully checked all the functions to make sure that there were no problems. At the same time, he could clearly feel that the effect of the formation had increased by a lot.

He heaved a sigh of relief.

Although he was full of confidence before the modification, it was still a theoretical thing after all. It could only be considered a true success after being tested in practice.

Li Yifu could also feel that the spiritual Qi on the island, which was already saturated, was slowly increasing again. He was both surprised and happy, and his admiration for Xia ruofei could not be any greater.

Li Yifu even suggested that the kitchen prepare a few more dishes today to celebrate.

However, after testing the array, Xia ruofei smiled and said, ""Yifu, this time the adjustment range isn't big, and the operation of the formation plate in your hand hasn't changed much, so there's no need to learn anything else. "I still have some matters to attend to, so I'll be leaving Peach Blossom Island for a few days. During this time, you'll be in charge of Peach Blossom Island. No matter what happens, ensuring the safety of Peach Blossom Island and the safety of the people on the island is your first priority. When you encounter a powerful enemy that you can't resist, you must not hesitate to turn the defense level of the Taixu xuanqing formation to the maximum, and then inform me at once!"

Li Yifu was stunned when he heard that. He looked at Xia ruofei and asked, ""Senior granduncle, you've only been back for a day and you're leaving again?"

"I won't be gone for long this time." Xia ruofei smiled and said, "I have something to deal with!"

Then, Xia ruofei said, "now that I have a flying spiritual treasure, it's much more convenient to travel. If anything happens here, I can come back very quickly." There's no problem with you controlling the formation, so you don't have to worry so much. In short, if a strong enemy invades, you just have to directly maximize the protection of the formation! They won't be able to break in for a while!"

Chapter 3045 Share (1)

After Xia ruofei finished speaking, he patted Li Yifu's shoulder and said with a smile, ""If everything goes well, I might be back in a day or two. I'll give you a surprise then!"

Li Yifu didn't try to keep him any longer and said respectfully, ""Yes! Then this disciple will be waiting for martial granduncle on the Peach Blossom Island! Don't worry, martial granduncle. I will take care of the house. As long as I'm here, the island will be there!"

"It's not that serious!" Xia ruofei laughed and said, "the cultivation world doesn't even know about the existence of Paradise Island. The possibility of an enemy appearing is very small!"

Xia ruofei smiled and said, ""Then I'll be leaving! I'll try to go and come back early!"

"Yes! Disciple will see martial granduncle off!" Li Yifu quickly said.

The two of them quickly reached the rooftop from the stairs.

Li Yifu watched as Xia ruofei took out the black Swift Boat. In the blink of an eye, the swift Boat had become a small black dot in his vision. Its speed was so fast that it left one speechless.

Xia ruofei skillfully maneuvered the flying boat out of the range of the Taixu xuanqing formation on the Peach Blossom Island. Then, he quickly rose to a higher altitude and continued to accelerate until the speed of the flying boat stabilized at a speed that was a bit faster than that of an ordinary golden core cultivator. Only then did Xia ruofei control the flying boat to maintain a constant speed.

This time, his destination was to return to Huaxia and pick up Song Wei and Ling Qingxue.

In fact, if he wasn't so eager to modify the Taixu xuanqing formation and verify his theory, he would have gone to find Song Wei and Ling Qingxue first. After all, the star Seizer sect was also located in Huaxia.

However, he was concerned about the Taixu xuanqing formation, so he went straight to peach source island after leaving the star Seizer sect.

Of course, now that Xia ruofei had the black Swift Boat, it would only take him two to three hours to travel between Huaxia and peach source Island. Besides, one spiritual crystal was enough for him to fly several times, so it was not a big deal to take a detour.

Besides, the black airboat was a side flight. After setting the direction and speed, it could basically cruise at a fixed speed. Xia ruofei could cultivate during the journey without any delay.

The reason he went to find Song Wei and Ling Qingxue was to share the wild tea that Chen Xuan had given him with everyone.

When a Qi refining cultivator drank wild tea for the first time, it could steadily increase his cultivation by one level without affecting his Foundation. Xia ruofei certainly could not forget his two female friends.

The wild tea that Chen Xuan gave was enough to be shared by five people at most. In other words, it could be brewed once and split into five cups.

Therefore, in theory, the plan to maximize the efficiency should be Song Wei, Ling Qingxue, Li Yifu, Xia ruofei's disciple Tang Haoran, and Song Wei's father song Qiming. There were five people in total.

These were basically all the people close to Xia ruofei who had come into contact with cultivation.

However, considering song Qiming's status in the system and the fact that song Qiming did not know much about cultivation, Xia ruofei did not want to reveal too much about the cultivation world to song Qiming.

If he were to bring the wild tea to the three mountains to share with everyone, Li Yifu would have to leave the Peach Blossom Island. This meant that there would be no one to take charge of the situation. Originally, Zheng Yongshou could also take charge of the Peach Blossom Island. His array Dao level was even higher than Li Yifu's. However, the star Seizer sect was about to undergo a major internal reorganization. A disciple like Zheng Yongshou, whose loyalty would not be questioned, would naturally be heavily promoted by Luo Qingfeng. Thus, after the screening of the members, Luo Qingfeng asked for Xia ruofei's permission. So, he transferred Zheng Yongshou back to the star Seizer sect from the Peach Blossom Island.

Under such circumstances, Li Yifu naturally couldn't leave Paradise Island.

After weighing the pros and cons, Xia ruofei decided to share the wild tea this time and not include song Qiming.

He brought Song Wei, Ling Qingxue, and Tang Haoran to peach source Island. Then, he let the three of them share the precious wild tea with Li Yifu.

As for song Qiming's side, Xia ruofei would not be biased. He just had to wait for a while.

Chen Xuan had already agreed to give Xia ruofei a few wild tea tree branches.

Xia ruofei was very confident that he could definitely grow the wild tea in his spirit map space.

By then, not only would song Qiming be able to use the wild tea to increase his cultivation, but Xia ruofei could also give some wild tea to Luo Qingfeng as a reward for the Qi refining stage disciples.

Xia ruofei had already made up his mind when he was on Peach Blossom Island. Hence, after the black airboat took off, it flew directly in the direction of Sanshan city.

While the black flying boat was flying, Xia ruofei was still cultivating in the spirit map space.

As usual, he checked the mysterious ore, but there was still no sign of scholar Yuntai waking up. Therefore, he sat cross – legged on the futon next to the ore and began to practice the great Dao Arts.

Two hours later, Xia ruofei stopped cultivating and left the spirit map space. He kept the scroll in his palm.

At this time, the black flying boat was already flying over the East China Sea. It had just passed by the southern end of the island in the southeast of China and was quickly crossing the Strait.

With the black airboat's speed, they would naturally arrive at Sanshan city in no time.

It was eight o' clock in the morning in Huaxia. Xia ruofei returned to the 'cockpit' of the airboat and released his spiritual power to observe the situation ahead.

In less than ten minutes, the black flying boat had crossed the Strait.

Xia ruofei didn't fly directly to the San Shan city. Instead, he lowered his altitude and speed, found an open space between Heron Island and San Shan, and slowly lowered the flying boat.

Chapter 3046 Share (2)

Soon, Xia ruofei found a signal on his phone.

So, he found Ling Qingxue's phone number and dialed it.

"RUO Fei? Why did you suddenly think of calling me?" Ling Qingxue was pleasantly surprised to receive a call from Xia ruofei. "Are you still on Peach Blossom Island?"

"Where are you, my wife?" Xia ruofei asked with a smile.

"I'm on my way to the company!" Ling Qingxue replied, "he's driving!"

"Then, I'll make it short!" Xia ruofei smiled and said, "is there a problem with taking two days off?"

"Is there something fun again?" Ling Qingxue's interest was piqued.

"It's a good thing anyway!" Xia ruofei chuckled and said, "tell uncle Ling that he'll be back in two days at the latest."

"Alright! Good!" Ling Qingxue said without hesitation, "then should I ... Go to the airport directly?" Is paradise already back?"

Ling Qingxue felt that since he had something to do, he was most likely going to Peach Blossom Island. She naturally thought that Xia ruofei had sent a public jet to pick her up.

"There's no need to go through so much trouble. You can find a place to turn around, then go back to the neighborhood and wait on my rooftop!" Xia ruofei said with a smile.

"Your home? The rooftop?" Ling Qingxue said in surprise. Then, she immediately reacted and asked in surprise, "you're taking me on a flying sword?"

Xia ruofei laughed and said, "you'll know soon!" Don't ask so many questions, just focus on driving!"

"I know!" Ling Qingxue said excitedly.

She felt that she had already guessed Xia ruofei's plan. Since Yingying was waiting on the rooftop, she would definitely fly away on her sword! She had been looking forward to experiencing sword Kinesis flight for a long time. Just thinking about it made her feel excited.

As such, Ling Qingxue immediately turned around at the next intersection and drove back. At the same time, she gave her father Ling Xiaotian a call.

When Ling Xiaotian heard that Xia ruofei wanted to take Ling Qingxue out for two days, he agreed without hesitation. He even told Ling Qingxue not to rush back and to have fun outside.

It was the peak hour of the morning on the three mountains. Although Ling Qingxue had not driven far, she was stuck in traffic for a while when she turned around and drove back. By the time she parked her car in the courtyard of Xia ruofei's Riverside Villa, nearly 20 minutes had passed.

Ling Qingxue hurriedly locked the gates of the mansion and the car, then quickly walked into the mansion.

Xia ruofei's Villa had Ling Qingxue's fingerprint and Iris scan, so she could move freely at any time.

Ling Qingxue took the elevator to the third floor, then climbed another flight of stairs to the large balcony on the top floor.

Such a long period of time was enough for Xia ruofei to take the black Swift Boat to make a round trip across the Strait. Hence, Xia ruofei was naturally already waiting on the rooftop.

After his black flying boat had turned on the shielding function, ordinary people could not see it at all. Thus, it descended from the sky openly and suspended above the balcony on the top floor of his villa.

After Xia ruofei kept the flying boat, he gave Song Wei a call. They agreed to meet on the rooftop of Capital university's library in an hour.

Song Wei did not understand Xia ruofei's strange request. Of course, she quickly guessed that Xia ruofei wanted to bring her on a flying sword, so she happily agreed.

Song Wei did not have any classes in the morning, so she was reading in the library. Therefore, she didn't even need to do anything. She just had to wait until it was almost time to go to the rooftop.

The moment Ling Qingxue reached the balcony, she saw Xia ruofei leaning against the railing, grinning at her.

Ling Qingxue laughed and said, ""Why are you being so mysterious when you're back at the gong family? Speak! Where are you taking me?"

"Let me think ..." Xia ruofei counted on his fingers. "The capital, Australia, Paradise Island ... There are so many places we have to go!"

Ling Qingxue's eyes widened. "So many places? Still that far? Going to the capital? Don't tell me that you're going to take me and Wei Wei and fly across the ocean to Australia or even to Paradise Island on your sword?"

Xia ruofei snapped his fingers and said, "The route you mentioned is basically correct!"

Ling Qingxue looked at Xia ruofei, not knowing whether to laugh or cry. "Aren't you afraid that you'll die of exhaustion?"

"Are you trying to say that there are only cows that die from exhaustion, not ones that are broken from plowing ..." Xia ruofei laughed evilly.

Ling Qingxue blushed and lowered her eyes. "A dog's mouth can't spit out ivory!"

Xia ruofei laughed and said, "don't worry!" I'm a tough bull, I won't die of exhaustion! Besides ... I don't recall saying that I'm going to fly over on my own sword!"

"Then you asked me to meet you on the rooftop ..." Ling Qingxue said.

Her words were stuck in her throat before she could finish them. Her eyes were fixed on the black airboat beside Xia ruofei that was rapidly growing in size. In the blink of an eye, it had grown to more than 20 meters long and was now quietly suspended about two meters above the rooftop. Song Wei did not have any classes in the morning, so she was reading in the library. Therefore, she didn't even need to do anything. She just had to wait until it was almost time to go to the rooftop.

...

Ling Qingxue blushed and lowered her eyes. "A dog's mouth can't spit out ivory!"

Chapter 3047 Don't envy the immortals (1)

At this moment, the black flying boat had already begun to accelerate. However, the acceleration process was very stable and could not be felt from the cabin. As soon as they arrived on the deck, Ling Qingxue immediately experienced what it meant to be as fast as lightning. The altitude of the airboat was also rising steadily. At this time, it was passing through the clouds. All that hit them was the lingering clouds. However, when they encountered the barrier, they immediately split into two sides. The airboat was like cutting through the waves in the clouds.

Moreover, on the deck of the airboat, there was basically no blind angle at all. The shield layer was also invisible to the naked eye, so it gave people the feeling that they were directly outside.

It was a completely different feeling from when he was on the plane and looked out through the narrow porthole.

Moreover, the speed of the airboat had far exceeded that of an ordinary civilian airplane.

Ling Qingxue was so excited that she kept shouting, like an innocent and lively child.

Ling Qingxue only returned to her cabin after the flying boat had completely passed through the clouds and the view below could no longer be seen.

“Ruofei, this airboat is too cool!” Ling Qingxue said excitedly, “is this really made by a cultivator? It’s simply unimaginable!”

Xia ruofei shrugged and said, “don’t you feel the fluctuations of the formation?” This flying boat is completely dependent on a formation to maintain its flight, and it’s also constantly consuming energy. There ...”

Xia ruofei pointed at the spiritual crystal on the control panel and smiled. “You should know about the crystals, right? This flying boat doesn’t burn oil, but spirit crystals!”

Ling Qingxue couldn’t help but stick out her tongue and said, “This is too extravagant!”

Xia ruofei said nonchalantly, “it’s alright. One spiritual crystal can last for a long time. I can still afford it now!”

After setting the course and speed, the airboat could keep flying forward in this state.

Hence, Xia ruofei decided to walk out of the cabin with Ling Qingxue. They sat down on the deck and enjoyed the view while chatting.

From the three mountains to the capital city, it would only take about two and a half hours by ordinary commercial aircraft, but the speed of the airboat was much faster than that of a commercial plane. Moreover, the airboat did not need to fly according to the established route, but in a straight line, so the distance was naturally much shorter.

In this way, they were close to the capital Area after flying for about half an hour.

Of course, Xia ruofei and Song Wei had agreed to meet in an hour. In reality, Ling Qingxue had taken more than 20 minutes to return to the villa area, so the time was just right. They arrived at the capital University Library and did not have to wait too long.

After entering the capital, Xia ruofei did not return to the cockpit. Instead, he used his spiritual power to control the console and lowered the black airboat below the clouds. At the same time, he slowed down.

In fact, as the political and economic center of China, Beijing was very strict in air traffic control.

All the air routes actually bypassed the sky above the Main City. Normally, if one took a civil flight or private plane, they would not be able to enjoy the scenery of the capital’s main city. As for flying over the Forbidden City, it was completely impossible.

However, since they were on an airboat this time, they naturally didn’t have so many concerns.

Xia ruofei simply steered the black flying boat and made a small turn. He flew slowly over the Forbidden City and took a good look at the magnificent city from this special angle.

90 am was the time when the Forbidden City had the most tourists.

The black flying boat flew at an altitude of about 50 meters, and the tourists below could be clearly seen from the flying boat.

As for the ordinary people, they did not notice the black flying boat that flew over their heads at all.

At Ling Qingxue's request, Xia ruofei steered the flying boat and flew over the Forbidden City twice from two diagonal directions. Then, he turned around and headed towards Capital University.

Because they had spent some time flying over the Forbidden City, when the black flying boat slowly stopped above the roof of the library of Beijing University, Song Wei just opened the door of the roof and walked out.

As a cultivator, Song Wei could naturally see the black flying boat.

She was stunned for a moment. It was obvious that the scene in front of her was different from what she had imagined. She had thought that she would see Xia ruofei flying over on a flying sword, but she did not expect to see such a big ship.

However, Song Wei was calmer than Ling Qingxue and did not make a fuss.

Of course, this was also because Ling Qingxue had stuck her head out of the deck and waved at Song Wei.

Song Wei felt more at ease after seeing Ling Qingxue. Initially, she was worried that Xia ruofei was not the one who drove the airboat here. Although the probability was low, it was not impossible.

"Weiwei, come up quickly!" Ling Qingxue called out.

Song Wei was wearing a white T – Shirt and blue jeans. Her hair was tied into a ponytail and she was holding a stack of books in front of her chest. She was dressed like a student.

However, after hearing Ling Qingxue's words, she raised her head and smiled. Then, with a light push of her feet, her body jumped up nimbly and landed lightly on the deck, looking quite like a heroine.

Xia ruofei also walked out of the cabin with a smile.

Ling Qingxue held Song Wei's hand and asked, ""Wei Wei, this is RUO Fei's new flying Dharma Treasure. It's not bad, right?"

Chapter 3048 Don't envy the immortals (2)

"It looks pretty cool!" Song Wei grinned.

"I tell you, this airboat is really fast!" Ling Qingxue said, "can you guess how long it took us to fly here from the three mountains?"

"Less than an hour?" Song Wei asked.

"Almost! To be precise, it's only about half an hour. How about it? It's fast, right?" Ling Qingxue said.

She then raised her eyebrows and asked, ""Eh? Wei Wei, how did you guess? How did you guess the time?"

"Because RUO Fei called me and told me that we'll meet on the rooftop of this library in an hour!" Song Wei said with a smile. I didn't hear your voice, so he must have called me before he picked you up! You set off from the three mountains after he picked you up, and now you're here on time. The flight time is naturally less than an hour!"

Hearing this, Xia ruofei couldn't help but laugh. He pointed at Ling Qingxue and said, ""Qingxue, you seem to have become a little stupid! You're asking such a simple question ..."

Ling Qingxue was embarrassed and embarrassed. She grabbed the soft flesh around Xia ruofei's waist and said through gritted teeth, ""I'll let you laugh at me!"

Xia ruofei shouted exaggeratedly, "no, no, no!" I'm most afraid of this move! I admit defeat!"

Ling Qingxue saw Xia ruofei exaggeratedly begging for mercy. Although she knew that he was just pretending, she still let go of his hand with a smug look. Then, she glanced at Xia ruofei and said, ""Let's see if you still dare to make fun of me in the future!"

Xia ruofei sighed and said, ""Qingxue, I'm just concerned about you! It's said that a woman is stupid for three years after getting pregnant. You're not even pregnant yet, and you're already like this. What are you going to do if you get pregnant in the future? It's really worrying ..."

Ling Qingxue's face turned red instantly. She bared her fangs and brandished her claws as she pounced on Xia ruofei, shouting, ""I'm going to kill you ..."

Xia ruofei was already prepared. He nimbly dodged into the cabin and shouted, ""Stop, stop, stop! Qingxue, I'm just joking ... I won't do it again!"

"I have to teach you a good lesson!" Ling Qingxue pouted.

"Don't!" Xia ruofei used the control panel to avoid Ling Qingxue and said, "we still have to hurry! I was wrong, alright? Don't delay the important matters!"

Ling Qingxue was also afraid of damaging the control panel, so she didn't dare to charge at full speed.

Song Wei watched for a while before she smiled and said, "Forget it! Qingxue, RUO Fei has always been talkative, please spare him!"

Ling Qingxue just needed a way out. She immediately pouted and said, ""Hmph! For Weiwei's sake, I'll let you off today! But I'll record it down in my little notebook. The next time you offend me, we'll settle old and new scores together!"

Xia ruofei smiled and said, "Okay, okay, okay!" I promise I won't do it again!"

As he spoke, he winked at Song Wei. Song Wei could not help but burst out laughing.

"By the way, Weiwei, is it okay for you to leave for a day or two?" Xia ruofei asked.

"I've already asked my classmates to apply for two days off after I got your call!" Song Wei nodded.

“Alright!” Xia ruofei said, “then I’m relieved! Let’s go!”

With that, Xia ruofei maneuvered the flying boat and started to ascend and accelerate.

“Ruofei, are we going to Australia?” Ling Qingxue asked curiously.

“Yeah!” Xia ruofei nodded and said, “I’m going to pick up my disciple, Tang Haoran!”

“Ruofei, you called all of us here. Is there something you need?” Song Wei asked from the side.

Ling Qingxue couldn’t help but roll her eyes at Xia ruofei. “Weiwei, don’t mention it. I’ve been asking all the way, but this guy is tight – lipped and keeps us guessing!”

Xia ruofei laughed and said, “of course it’s a good thing to call you!” I’ll give you a surprise!”

“You’ve said it 800 times. What surprise is it?” Ling Qingxue asked in a bad mood.

Xia ruofei laughed and said, “I already said it’s a surprise. If I told you in advance, what surprise would there be?” Anyway, the answer will be revealed soon, so why the rush?”

Ling Qingxue looked at Song Wei and said, “I told you! This guy only knew how to keep people guessing! He’s tight – lipped!”

“Since ruofei feels that it’s not the right time yet, then let’s just wait!” Song Wei covered her mouth and laughed.

“That’s the way!” Xia ruofei smiled and said, “Qingxue, bring Weiwei to the deck to look at the scenery! We’ll be flying across the ocean in a while, and the scenery on the ocean is very beautiful! This time, we’ll fly a little lower, and I guarantee you’ll be able to enjoy the endless beautiful scenery!”

Xia ruofei had flown so high to avoid the plane’s normal cruising altitude.

Although the formation on the airboat could also avoid the risk of collision in advance, Xia ruofei still preferred to fly in a straight line. Therefore, he simply let the airboat fly higher than all the commercial aircraft. At this height, there were basically no other aircraft flying except for some fighter aircraft.

The next trip to Australia was across the Pacific Ocean.

It was actually quite boring to fly above the clouds, and there was basically no scenery to see.

Hence, Xia ruofei decided to fly at a low altitude this time. He would fly at an altitude of about 100 meters above the sea and avoid the route of commercial aircraft. The cruising altitude of the engine could not be so low.

After all, it was the vast ocean below. As they passed by an Island which had an airport, there happened to be a plane taking off from the airport and colliding with the airboat, the probability was so low that it could be ignored.

Ling Qingxue’s eyes brightened. She held Song Wei’s hand and said, “Wei Wei, let’s go to the deck to enjoy the scenery! By the way, RUO Fei, fly over the Forbidden City twice like you did just now! I’m sure Weiwei has never seen it from this angle before!”

Xia ruofei shrugged. "You said it's too late. We're already in Ji Province. How about I turn around and fly back?"

Song Wei was stunned. She was in the capital University Library when she got on the airboat! We've only been talking for a while, and we're already in Ji Province? The speed of this airboat was really terrifying ...

"No need!" After Song Wei regained her senses, she quickly said, "ruofei, let's hurry on with our journey! Anyway, with this airboat, we'll have plenty of opportunities to see the Forbidden City from the sky in the future!"

"That's true, then let's hurry!" Ling Qingxue said, "ruofei, why don't we go out to sea first? Don't fly above the land!"

"No problem!" Xia ruofei said with a smile.

Then, he steered the flying boat to the East, preparing to fly over the sea before turning to fly to Australia.

The deck of the airboat was indeed the best spot for viewing the scenery. Song Wei was soon fascinated by the special viewing angle. The airboat was flying at a very low altitude this time, so the beautiful scenery along the way could be said to be unobstructed. Very soon, the Flying Ship was in the sky above the sea, flying over the boundless blue sea. The scene of the sea and the sky being one color made one feel very carefree and relaxed.

For the two – hour voyage, Song Wei and Ling Qingxue stayed on the deck.

Although they were tired of the sea view, the two seemed to have a lot to talk about as they sat on the deck and chatted all the way.

At around 11:30 am in China, Xia ruofei and the others arrived in Australia in the black airboat. The deck of the airboat was indeed the best spot for viewing the scenery. ...

Chapter 3049 The reunion of master and disciple (1)

The three of them alighted from the flying boat. Xia ruofei immediately kept the flying boat.

Song Wei and Ling Qingxue couldn't help but be amazed when they saw the 20 – meter – long flying boat shrink to an inch.

The three of them chatted and laughed as they walked towards the manor's entrance.

In reality, with Xia ruofei's abilities, he could easily bring Song Wei and Ling Qingxue into the manor on his flying sword.

However, out of respect for the host, Xia ruofei would definitely not do that.

"Ruofei, this should be considered illegal entry, right?" Song Wei suddenly asked with a smile.

Xia ruofei was stunned for a moment, then he laughed and said, ""Oh yeah! Then you guys have to be careful, if you get caught you'll be sent back to your country!"

Song Wei and Ling Qingxue burst into laughter.

In the manor, Tang Haoran, who had just woken up from his afternoon nap, was drinking a glass of water. Jennifer had personally prepared a schoolbag for him, and it seemed that she was going to send him to school.

Tang Yitian had just woken up from his afternoon nap. He was sitting on a recliner in the garden and reading the newspaper.

At this time, a young man in a white shirt and black trousers walked over quickly and whispered a few words to Tang Yitian.

Tang Yitian raised his eyebrows and said, "What?"

Then, he took the iPad from the young man's hand, which was showing the surveillance footage of the manor's entrance.

When Tang Yitian looked at the screen, Xia ruofei seemed to have sensed something. He smiled at the camera above the gate and waved.

Tang Yitian quickly sat up from his chair and ordered, ""Open the door and welcome the guests!"

"Ah long!" Tang Yitian called out again. Tell the kitchen to prepare a banquet! They were prepared according to the highest specifications! Steam that precious half of the ham I have!"

"Yes! Mr. Tang!" Another young man in a white shirt and black suit pants quickly responded.

Jennifer also heard the noise. She put her bag on Tang Yitian's back, then walked out and asked, ""Ethan, what happened?" he asked.

Tang Yitian immediately came back to his senses and said, "Jennifer, don't send Haoran to school first ... No! Call Ms. Jessica and ask for half a day's leave for Haoran!"

"What's going on?" Jennifer was confused.

When Tang Haoran, who had sharp ears, heard this, he immediately put down his bag and ran out. He shouted happily, ""Daddy! Don't I have to go to school today? That's great!"

Tang Yitian directly said to Jennifer and Tang Haoran, ""It's brother RUO Fei. Let's quickly go and welcome him! Let's go! Haoran, don't just stand there, go and pick up your master!"

Tang Haoran also came back to his senses and cried out in surprise, ""Master is here! Really?"

After saying that, he turned around and rushed toward the door.

Tang Yitian and Jennifer quickly reminded him to be careful. In fact, Tang Haoran's cultivation was already close to the third level of the Qi refining realm. In terms of strength, even eight Tang yitians couldn't beat Tang Haoran. Moreover, with the reaction speed of a cultivator, how could he fall for no reason?

Tang Yitian and Jennifer also quickly caught up.

Tang Yitian's Manor was very big, so when the staff at the gate received the notice, they immediately opened the gate and sent Xia ruofei's group of three in with an electric car.

When they were approaching the main building, Xia ruofei saw Tang Haoran rushing out. He quickly called the driver of the electric car to stop and jumped off.

"Master!" Tang Haoran rushed into Xia ruofei's arms and hugged him tightly.

Xia ruofei ruffled Tang Haoran's hair affectionately and asked with a smile, ""Little Haoran, I haven't seen you for so long. Did you miss master?"

Tang Haoran nodded heavily and said, ""Of course, Haoran misses master every day!"

Then, he said as if he was asking for a reward, ""Master, I'm already close to refined Qi Level 3, and I feel like I can break through at any time! You just so happen to be able to teach me the cultivation method for the third layer first!"

Xia ruofei was surprised. He checked and found that Tang Haoran's cultivation had reached the peak of refined Qi Level 2. He could break through at any time.

Xia ruofei couldn't help but be surprised. After all, Tang Haoran was too young to cultivate with him. He relied on his self – awareness and had no one to guide him if he had any problems. Moreover, the cultivation resource was a spiritual crystal that Xia ruofei left behind. Under these conditions, the little guy's cultivation progress was quite fast.

"Not bad! Not bad!" Xia ruofei said happily.

At this moment, Jennifer and Tang Yitian had caught up.

Tang Haoran's running speed was too fast, so much so that Tang Yitian and the other two were slightly breathless.

"RUO Fei! Why didn't you tell me you were coming?" Tang Yitian said happily, ""it's a good thing I still have some in my Manor! Today, I'll ask the kitchen to steam my precious ham. You must try it!"

Xia ruofei was stunned for a moment and then said apologetically, ""Big brother Tang, I might not be able to stay for dinner!"

“What’s the situation? You’ve just arrived and you’re already leaving?” Tang Yitian asked in confusion.

“Xia,” Jennifer said, “you’ve already been an uninvited guest today. Are you going to leave without saying goodbye again?”

Xia ruofei couldn’t help but laugh. “Jennifer, you still like to use Chinese idioms so much!”

Jennifer smiled at Xia ruofei and said, “I’ve been learning Chinese! Xia, Ethan’s right, it’s not easy for you to come to Sydney. You should at least stay for a meal before leaving!”

Chapter 3050 The reunion of master and disciple (2)

Xia ruofei said, “brother Tang, Jennifer, I’m here to take Haoran to a place. It won’t take long. You can help him apply for a day’s leave. If everything goes well, I’ll send him back by tomorrow at the latest.”

Xia ruofei was also afraid that Tang Yitian and Jennifer would be worried, so he explained, “Don’t worry. It’s a good thing for Haoran. It’ll help him improve his cultivation!”

Ling Qingxue rolled her eyes at Xia ruofei. She and Song Wei had asked Xia ruofei a few times, but he refused to reveal anything. In order to take Tang Haoran away, Xia ruofei immediately revealed that he was here to help with his cultivation. He was really biased!

Tang Yitian and Jennifer only thought about it for a moment, and then immediately nodded in agreement without hesitation.

However, Tang Yitian still asked, “ruofei, are you really in such a hurry?” Even if you don’t stay for a night, you can leave after dinner! Otherwise, I’d feel really bad ...”

It was not even two in the afternoon. The time between dinner and dinner was enough for Xia ruofei to fly the black flying boat from Paradise Island to and from there. Besides, Song Wei and Ling Qingxue were on temporary leave, so Xia ruofei naturally did not want to waste so much time.

Therefore, he still said apologetically, “Big brother Tang, there’s really an urgent matter this time. How about this! If everything goes well, I’ll send Haoran back tonight! That precious ham of yours, just treat it as a midnight snack!”

Tang Yitian saw that Xia ruofei wasn’t just being polite, and her words were sincere, so he naturally didn’t ask her to stay.

He smiled bitterly and said, “alright then!” RUO Fei, I’ll order someone to prepare the carriage!”

Xia ruofei had said that if everything went well, he would be able to send Tang Haoran back by tonight. Thus, Tang Yitian naturally thought that the place Xia ruofei and the others were going to wasn’t far. It must be in Australia. Otherwise, there wouldn’t be enough time to travel. How could they rush back at night?

Therefore, Tang Yitian naturally thought of protecting the car.

Xia ruofei waved his hand and smiled. “You don’t need to prepare a car. Haoran, you can just come with me. Big brother Tang, it’s not convenient for me to disclose too many things about the cultivation world to you. In short, you can rest assured that I’ll take care of Haoran!”

"Of course I'm relieved!" Tang Yitian said with a smile. Alright! Then I won't bother anymore ... Ruofei, are you ... Leaving just like that?"

Xia ruofei nodded and said, "yes!" Let's go!"

"Alright! Then I'll send you guys out!" Tang Yitian said.

The group of people quickly took the battery – powered car and arrived at the manor's entrance. Tang Yitian pulled Tang Haoran over and said, ""Haoran, when you go out with your master this time, remember to be obedient. Don't be naughty and don't make your master angry, understand?"

When Tang Haoran learned that Xia ruofei was going to take him out, he was already very excited. He didn't listen to Tang Yitian's advice and just kept nodding in agreement.

Xia ruofei held Tang Haoran's hand and waved goodbye to Tang Yitian and Jennifer with a smile. Then, they walked in the direction where the airboat had just landed.

Jennifer and Tang Yitian stood at the entrance of the manor, watching them go away.

There was a hint of reluctance in Jennifer's eyes as she asked, ""Ethan, they're leaving on foot? We're in the suburbs, and there aren't many cars on the road ... Why would Xia refuse you to arrange a car for him?"

Tang Yitian smiled. "Jennifer, RUO Fei has his reasons for doing so. These people are like the gods in the myths and legends. We shouldn't ask too much about some things. As long as we know that RUO Fei would never harm Haoran, that's enough!"

Jennifer took Tang Yitian's arm and nodded, ""Of course, I know that. It's just that Haoran has never left my side since he was born. I'm not used to him leaving with Xia!"

Tang Yitian laughed, "didn't RUO Fei say so?" If it was fast, it would be sent back by tonight, but it would only take half a day. Isn't it good for us to have some alone time?"

"You're right!" Jennifer said, "why don't you go shopping with me this afternoon? I heard that Prada's new bag arrived this year!"

"No problem!" Tang Yitian said straightforwardly.

.....

Xia ruofei and the others were all cultivators. Although they were walking, they were still very fast.

Soon, they were far away from the manor. This was a small forest, and there were many similar manors in this area. All the residents were rich, so the space between the houses was very large, and the greenery was very well done. Such forests were everywhere. On the one hand, it was for the sake of greenery, and on the other hand, it was to ensure the privacy of the rich people living in this area.

"Master, where are we going?" Tang Haoran asked curiously.

"This is it!" Xia ruofei said with a smile.

“Here?” Tang Haoran’s eyes widened. He was puzzled.”I come here often. There’s nothing special about it!”

Xia ruofei laughed and took out the flying boat. Then, he raised his hand and threw the flying boat out.

In the process of flying in the air, the flying boat also grew rapidly. In the blink of an eye, it became more than 20 meters long and floated above the tree.

Tang Haoran was stunned when he saw the magic – like scene.

Song Wei and Ling Qingxue were like fairy maidens. They held hands and jumped onto the flying boat. Then, they stood on the deck and looked at the dumbstruck Tang Haoran with a smile.

Xia ruofei knocked on Tang Haoran’s head and smiled.””Don’t just stand there! We should set off! I’ve promised your parents that I’ll send you home tonight!”

“Oh!” Tang Haoran came back to his senses.

Xia ruofei used his hand to support Tang Haoran’s armpit. Then, he exerted force on his feet. The two of them immediately rose from the ground and landed lightly on the deck.

“Master, this is ... A magic weapon?” Tang Haoran asked, his eyes filled with shock.

Xia ruofei smiled and said,”to be exact, it’s a flying Dharma Treasure!” Alright, if you’re curious, you can stay on the deck and look at the scenery! I’m going in to control the flying boat! Qingxue, Weiwei, you two stay with Haoran!”

After the airboat was activated, it would automatically open up its protective shield. Hence, Tang Haoran would not be in any danger if he stayed on the deck. Xia ruofei could return to the control cabin without any worries.

Song Wei and Ling Qingxue had already passed the most curious stage. They also liked the cute little Haoran very much, so they simply stayed on the deck and introduced the black flying boat to Tang Haoran.

In fact, even Xia ruofei did not know much about the flying boat. He did not even know the name of the flying boat. Naturally, Song Wei and Ling Qingxue knew even less.

However, the fact that it could fly at an extremely fast speed and hide from the eyes of ordinary people and even the radar was enough to make Tang Haoran listen with great interest. He was constantly amazed.

The flying boat trembled slightly and began to rise rapidly. At the same time, it changed its direction and flew directly in the direction of the Peach Blossom Island.

Song Wei and the other two stood on the deck and saw everything clearly.

Tang Haoran could even clearly see his family’s Manor quickly becoming smaller in his field of vision, and at the same time, it quickly disappeared from his sight.

This airboat had a high elevation rate. Additionally, its flight speed could reach a level that could never be reached by common Commercial Airplanes in a short period of time. However, the passengers on the airboat were not affected by inertia at all as if they were hovering on the top of trees just now.

It only took slightly more than an hour to fly from Sydney to Paradise Island.

Based on Australia's time, Xia ruofei's Black flying boat was already within the range of the Taixu xuanqing formation at about three in the afternoon.

Xia ruofei skillfully maneuvered the flying boat through the protective layer of the formation. The formation did not react at all as if the flying boat did not exist.

He drove the flying boat to the rooftop of the Yanhuang building with ease.

When they were about to arrive at Peach Blossom Island, Xia ruofei had already asked Song Wei and Ling Qingxue to bring Tang Haoran into the cabin. They went straight to the cabin with the guest room function to wait.

After the flying boat stopped, Xia ruofei saw Li Yifu's figure appear on the rooftop.

Therefore, he walked out of the cabin and stood on the deck, waving at Li Yifu, indicating him to board the airboat.
