

## God tier Farm 3081

### Chapter 3081 In a hurry (1)

Xia ruofei watched from the side and couldn't help but Mutter in his heart,"He had even prepared two flying swords. He was indeed a rich second generation in the cultivation world!

He didn't know that he had placed a maximum of five flying swords in the spirit map space!

Of course, this was all obtained by himself and not by his father. From this perspective, there was a fundamental difference between him and Chen Xuan.

After Chen Xuan cut the branch off, he took out a long Jade box from his storage ring and placed the wild tea tree branch inside. Then, he rode his flying sword back to Xia ruofei and passed the jade box to him with a smile.

"Brother Xia, this Jade box can better preserve the vitality of the tree branch. I hope it'll be of some help to the transplanting." Chen Xuan replied.

Clearly, Chen Xuan had prepared this Jade box in advance.

First, it was the sect leader's token. Now, it was this Jade box. After knowing that Xia ruofei had come to the first heaven society, Chen Xuan had immediately made sufficient preparations. This made Xia ruofei very happy.

"Many thanks, brother Chen!" Xia ruofei took the jade box and said sincerely,"no matter if the cutting is successful or not, I will owe brother Chen a favor!"

"It's nothing, brother Xia. There's no need to worry about it!"Chen Xuan waved his hand and smiled.

Xia ruofei kept the jade box in the spirit map space. This way, the vitality of the branch would be completely preserved and he would not have to worry about it dying with the passage of time.

After that, he and Chen Xuan rode their flying swords down the mountain and returned to the foot of the mountain. They landed their flying swords outside the range of the formation.

The two of them walked up the mountain path. Xia ruofei said,""Brother Chen, I won't bother you any longer this time. The earlier you transplant these branches, the better. I plan to leave today!"

Chen Xuan was a little surprised."Brother Xia, there's an array carved on my Jade box. It shouldn't be a problem to keep this branch for four to five days. It's rare for you to come here. You should at least stay for a few more days!" I haven't even done my part as the host!"

Xia ruofei smiled and said,"there will be more opportunities in the future!" In the future, when the five Holy badges are all born, I'll definitely come and disturb you! It's better to transplant the wild tea trees as soon as possible. I plan to return as soon as possible."

Xia ruofei had hesitated a few times today. In the end, he decided not to mention the fact that he had the last five Holy badges.

This was mainly because he realized that he couldn't see through Chen Nanfeng's strength at all after the short meeting. He was even more afraid of the other party's profound attainments in spiritual power.

Xia ruofei couldn't predict how things would turn out if he told them about the five – Saint token.

Hence, after much hesitation, Xia ruofei felt that he could not let himself fall into an unknown situation and decided to hide the matter of the five Saints badge for now.

Although master Yuntai had said that the five Holy badges would mysteriously disappear every three or four hundred years and then would only reappear one by one after a few decades, time was already a bit tight now. However, no matter how tight the time was, there was no hurry.

After all, in a span of three to four hundred years, a few days, a few months, or even a few years were actually very short.

If all the five Holy badges had been leaked because of his hesitation, Xia ruofei would just give up.

Seeing that Xia ruofei was determined to leave, Chen Xuan did not ask her to stay.

He said with some regret, "it's rare to get to know such a young talent like brother Xia. I originally wanted to have a good exchange of cultivation experience with brother Xia!" I didn't expect that after such a short reunion, brother Xia would be leaving again ..."

"Brother Chen, you come from a well – known family, and your father is one of the top figures in the world of cultivation. The first heaven society has such a deep foundation that you don't need to exchange any insights with me!" Xia ruofei smiled and said, "I've only been cultivating for a short time. If we're talking about learning, I should be learning from brother Chen!"

"Brother Xia, you're too humble!" Chen Xuan continued, "to be able to break through to the Golden core stage at such a young age, brother Xia is definitely a peerless genius that only appears once in a hundred years. While I may be quite talented, I'm still far from brother Xia. I'm well aware of my own abilities."

Following which, Chen Xuan laughed out in a carefree manner. "In the past, I always felt that the younger generation's talents were withered, and that there was always a feeling of loneliness at the top when walking in the cultivation world. It seems that I was too narrow – minded. After meeting brother Xia, I realized that my previous thoughts were like frogs in a well! But it didn't matter! With such a strong reference like brother Xia, my motivation to cultivate is even more sufficient! Brother Xia, you can't relax! Who knows, I might surpass you one day!"

"Hahaha! To improve together! We'll improve together!" Xia ruofei said with a smile.

Chen Xuan's words came from the bottom of his heart. Ever since he was young, he had always been the most outstanding person in the eyes of others. In fact, this was true. However, as time passed, he seemed to feel that his motivation to move forward had decreased. Today, when he learned that Xia ruofei had reached the early stage of the Golden core realm at such a young age, it had touched him greatly.

The competitive spirit in his heart rose again.

Naturally, Xia ruofei would not compare himself to Chen Xuan. However, Chen Xuan's words were to his liking. He even felt like he had a close friend.

Actually, Xia ruofei and Chen Xuan had not known each other for a long time. They had even less time to interact with each other. However, the two of them felt like they hit it off when they chatted. This was due to Chen Xuan's good upbringing and his gentle and refined demeanor. At the same time, it also showed that the two of them had many common interests.

## Chapter 3082 In a hurry (2)

No matter how one looked at it, Xia ruofei and Chen Xuan were not the same kind of people. However, this did not stop the two from becoming good friends.

The two of them walked along the mountain path and headed straight for the mountain Gate.

Xia ruofei said, "brother Chen, your father is in charge of the first heaven society. He must be very busy. I won't be going to say goodbye." Brother Chen, please convey this little brother's gratitude!"

"Alright!" Chen Xuan replied readily.

Chen Nanfeng was indeed busy on normal days. In order to break through to the nascent Soul Stage, he spent most of his time cultivating after settling the sect's Affairs. Even Chen Xuan did not see him often.

Therefore, it was not rude for a junior like Xia ruofei not to go and say goodbye.

The two of them chatted as they walked out of the mountain Gate.

Chen Xuan personally sent Xia ruofei out of the range of the array, which was the mountain wall that the Clearwater flying boat had crashed into when they arrived.

"After a thousand miles, we must part! Brother Xia, I'll stop here!" Chen Xuan continued, "brother Xia, please come visit us when you're free. I'm looking forward to having a late - night chat with you!"

"Definitely!" Xia ruofei nodded and said, "brother Chen, please contact me if you are traveling in the secular world!"

Xia ruofei had given his contact information to Chen Xuan earlier.

Of course, the number he left behind was registered under Xia Tian's identity. His current number was also kept on throughout the year because he was always in the public eye as Xia Tian in the cultivation world.

Xia ruofei did not know that Chen Nanfeng had seen through his disguise. Chen Nanfeng had even arranged for someone to investigate him based on his real appearance.

Xia ruofei's sockpuppet in the world of cultivation was no longer a secret to Chen Nanfeng.

"I'll definitely contact Brother Xia if I get the chance to go out," Chen Xuan said with a smile.

Then, he smiled and said, "since brother Xia has already broken through to the Golden core stage, then I won't send you off!" Brother Xia, let's part ways here!"

He had originally planned to send Xia ruofei to Tai city on the blue water flying boat. However, since Xia ruofei was a golden core cultivator, and although he had not spent a long time on the lone Peak, he could see that Xia ruofei was very familiar with the flying sword. Naturally, he did not need to make extra moves and send the guest off on the blue water flying boat.

Xia ruofei smiled and nodded. "Of course! I can't trouble brother Chen anymore."

With that, Xia ruofei took out the blazing flying sword and jumped onto it. He cupped his fists and said, "Brother Chen! This little brother will take his leave!"

"Have a safe journey, brother Xia!" Chen Xuan had a warm smile on his face as he stood in front of the mountain wall and cupped his hands at Xia ruofei.

Xia ruofei then urged his flying sword to speed up. He flew through the sword radiance and soon, he was a small black dot in Chen Xuan's vision.

Chen Xuan waited until Xia ruofei's figure had completely disappeared before he stepped onto his flying sword. He passed through the mountain wall that was used as a camouflage and flew towards the mountain Gate.

Xia ruofei rode on his flying sword and flew across the mountain range. This trip had been rushed, but Xia ruofei was still very satisfied with the results.

Although Xia ruofei had decided to hide the matter of the five Saints token for the time being, he Xia ruofei knew that Chen Xuan might not have known about this, but at least the leader of the first heaven society, Chen Nanfeng, knew. Perhaps the people behind him were following him under Chen Nanfeng's orders.

Xia ruofei's mind was spinning. No matter if they were from the first heaven society or if they had any ill intentions, he didn't like the feeling of being watched.

Hence, after flying for another two minutes, Xia ruofei made a decision.

He simply stopped and hovered in the air on his flying sword.

Of course, he didn't turn his head, nor did he release his spiritual power to check behind him. This feeling was rather weak, so the other party must be quite far away from him.

Xia ruofei took out the black flying boat from the spirit map space. This trip had been rushed, but Xia ruofei was still very satisfied with the results.

Although Xia ruofei had decided to hide the matter of the five Saints token for the time being, he had still managed to obtain the wild tea tree branch.

Once the wild tea leaves were successfully transplanted and he could mass - produce them, it might not be of much help to his own strength, but it would be able to increase the overall strength of his star Seizer sect.

To Xia ruofei, the stronger the star Seizer sect was, the more help it would be to him.

After flying for a while, Xia ruofei couldn't help but frown. He felt that something was wrong, as if he was being spied on.

It was a very weak feeling. If Xia ruofei's spiritual power was not so strong, he might not have noticed it at all.

Of course, at the same time, Xia ruofei also felt that the other party was simply spying on him. At least, he did not have any intention to kill him. Otherwise, he would not even need to use his spiritual energy to warn him. His sharp sense of danger would have detected him in advance.

Xia ruofei continued to fly on his sword while analyzing the situation in his mind.

Who could be following him?

It was most likely the people from the first heaven society.

Xia ruofei could feel that even if the person was not the sect leader of the first heaven sect, Chen Nanfeng, he was at least a very powerful elder.

Otherwise, Xia ruofei wouldn't have been able to detect him after following him for so long.

If he wasn't from the first heaven society, were there other cultivators nearby?

Or was he just passing by and happened to see Xia ruofei on his sword, so he followed him?

Xia ruofei felt that all these possibilities existed, but the most likely possibility was that the first heaven society was following him.

Xia ruofei knew that Chen Xuan might not have known about this, but at least the leader of the first heaven society, Chen Nanfeng, knew. Perhaps the people behind him were following him under Chen Nanfeng's orders.

Xia ruofei's mind was spinning. No matter if they were from the first heaven society or if they had any ill intentions, he didn't like the feeling of being watched.

Hence, after flying for another two minutes, Xia ruofei made a decision.

He simply stopped and hovered in the air on his flying sword.

Of course, he didn't turn his head, nor did he release his spiritual power to check behind him. This feeling was rather weak, so the other party must be quite far away from him.

Xia ruofei took out the black flying boat from the spirit map space.

feeling was rather weak, so the other party must be quite far away from him.

Chapter 3083 Successful cutting\_

The rest of the journey was very smooth. With the black flying boat's speed, even if they met cultivators with ulterior motives, they could not catch up at all and could shake them off in a short time.

Of course, encountering other cultivators while flying was also a small probability.

After two to three hours of flight, Xia ruofei had returned to Paradise Island.

He simply asked Li Yifu and learned that everything was normal here, so he let Li Yifu go and cultivate on his own.

Xia ruofei, on the other hand, returned to his private suite.

After locking the door and windows and setting up the defense and warning measures, Xia ruofei returned to his bedroom and summoned the spirit painting scroll from his palm. Then, he entered the medium with a thought.

He did not alarm Xia Qing. Instead, he directly came to the Archean realm.

As soon as he entered the medium, Xia ruofei took out the jade box that he had kept in the stone room in the cave.

Inside the box was the wild tea tree branch he had obtained from the first heaven society.

Xia ruofei opened the jade box and took out the two branches.

The wild tea leaves were well – preserved in the jade box. There were some basic formations on the box to keep them fresh. Xia ruofei had also placed the jade box into the spirit map space in the shortest time possible. Hence, the two branches were still in the state they had just been cut off.

Xia ruofei found an empty space at the Archean realm.

This place had been cultivated when he first planted some vegetables and fruits. Later on, he no longer used the space of the Archean realm to plant vegetables. Basically, only those crops that had a longer maturity period and were relatively precious would be planted in the Archean realm.

For example, wild ginseng, Phoebe zhennan, and so on.

Hence, the space in the Archean realm was quite abundant.

Xia ruofei quickly planted the two wild tea leaves and watered them with the spirit pool water.

In fact, the soil in the spirit map space was still relatively moist, and there was still a large amount of spirit Qi in the air that had already turned into mist, so even if they didn't water it, it wouldn't have much of an effect.

There was quite a distance between the two wild tea leaves.

Xia ruofei took the time formation flag and placed it around a cut wild tea tree.

In this way, the time flow of this wild tea tree branch was about 2000 times slower than the outside world.

Xia ruofei wanted to see the results as soon as possible.

The reason why he didn't include both branches in the time formation was mainly for safety. If the wild tea tree branches in the time formation failed, Xia ruofei would at least have the chance to think of another way to save the remaining branch because the time was not synchronized.

Of course, Xia ruofei was not an expert in Botany or agriculture. Besides, even an expert might not be able to understand the wild tea tree. So, if there was a problem, Xia ruofei would not have any good solutions.

After setting up the time array flags, Xia ruofei checked again. After confirming that there were no problems, he left the Archean realm with a peace of mind.

However, Xia ruofei did not return to the outside world.

He immediately arrived at the mountain and sea realm, where time flowed at the same rate as the outside world. In the stone chamber in the cave, he sat down cross – legged on a Jade futon and began to cultivate.

Of course, Xia ruofei didn't enter a state of deep seclusion. He just cultivated the "great Dao scroll" normally and only cultivated for about an hour before he stopped and stood up.

When the effects of the time array flag and the primordial realm were combined, there was a difference of about 2000 times in time flow.

Thus, an hour here was equivalent to three months in the formation.

Whether the cutting of the wild tea tree was a success or a failure, there should be a result.

Hence, with a thought, Xia ruofei disappeared from the stone room in the cave. The next moment, he appeared at the Archean realm and stood outside the time formation.

With just a glance, Xia ruofei couldn't help but reveal a trace of joy. He couldn't say for sure if the cutting was a success, but at least it didn't fail.

Because the wild tea tree branch was clearly still alive. It looked full of vitality, and some new shoots had protruded out, growing a small branch.

This growth rate was much, much slower than that of ordinary tea trees.

Regardless, the fact that the wild tea tree could survive and grow in the spirit map space was enough to make Xia ruofei very happy.

As for the problem of slow growth, it was not a big problem in the spirit map space.

In fact, only a few hours had passed in the outside world, but the wild tea tree had already sprouted and grown new branches.

If it was measured by the time in the outside world, this speed was naturally very fast.

Xia ruofei thought for a while and removed the time formation flag. He placed it around another wild tea tree branch. This branch was only in an environment where time flowed 30 times faster. The one hour earlier was almost a day here, so there were basically no changes.

After Xia ruofei set up the time array flags, he went to the stone room in the mountain sea realm to cultivate for about an hour.

Then, he returned to the Archean realm and discovered that the growth of the two wild tea leaves was basically the same.

Xia ruofei was finally at ease.

He removed the time array flag and then carefully dug out a wild tea tree that had been successfully cut.

In the process of digging, Xia ruofei was even more certain that the cutting was a success. He saw that some roots had grown out of the wild tea tree.

Xia ruofei transplanted this wild tea tree to another one.

Then, he set up the time formation flags again and put the two wild tea plants into the range of the time formation flags.

This way, the range of the time formation flag was slightly larger than before, so the effect was more or less reduced.

But even so, the time array flags and the effect of the Archean realm could still accelerate time by 1800 times. It was enough to support the rapid growth of the two wild tea trees.

Xia ruofei took some more water from the spiritual pond and watered the two wild tea plants. Then, he returned to the stone chamber in the mountain sea realm to cultivate.

This time, Xia ruofei did not need to make a trip every hour. He could cultivate in peace.

Of course, he didn't know much about wild tea trees, and he didn't know if wild tea required a lot of Reiki during its growth. Therefore, he would stop after an hour or so of cultivation to check on the consumption and replenishment of Reiki in the spirit map space.

After all, the growth process was compressed by the time array to 1800 times. If the wild tea really needed to consume a large amount of spirit Qi during its growth, the spirit map space would consume a large amount of spirit Qi per unit time due to the compression of time.

Xia ruofei didn't dare to let his guard down, so he would monitor the spirit map from time to time to prevent the foundation of the spirit map space from being damaged.

Fortunately, the thing he was most worried about did not happen. The spirit Qi concentration in the spirit map space basically did not fluctuate much, which meant that the lost spirit Qi could be replenished in a relatively short time, and a dynamic balance could be maintained.

...

After a few rounds of checks, Xia ruofei was finally at ease. He also gradually reduced the frequency of his checks.

Xia ruofei cultivated in the spirit map space for about a day. Other than stopping to check the concentration of spiritual Qi in the spirit map space, he was basically cultivating.

To Xia ruofei, not eating or sleeping for a day and a night would not affect him at all.

Moreover, he was cultivating, so circulating the 'great Dao Arts' was more direct to replenish his energy. It was more effective than eating any nutrition.

Naturally, his cultivation was steadily improving as well, constantly improving with each cultivation.

After Xia ruofei finished his cultivation, he stood up and stretched. He could feel his bones cracking.

He stretched his neck and then left the cave in a flash, heading towards the Archean realm.

One day and one night. According to the effect of the time array flag fusing with the Archean realm, the time flow was about 1800 times faster. Therefore, the two wild tea trees within the range of the time array flag should have experienced about five years.

When Xia ruofei arrived at the Archean realm and looked up, he couldn't help but reveal a satisfied smile.

The two wild tea trees were 100% alive, and they had grown a lot during the five years in the array.

Of course, compared to the wild tea tree on the cliff of the heavenly sect, it was still far inferior.

...

No one knew how many years the wild tea tree of the first heaven society had existed. It had grown to more than 20 meters tall and was as thick as three people.

As for the two wild tea trees in the spirit map space, after five years, their trunks had only grown to a diameter of about ten centimeters and a height of only a meter.

If it was an ordinary tea tree, growing in an environment like the spirit map space for five years would probably yield better results than growing in the outside world for ten or twenty years.

But this wild tea seemed to grow slower.

Of course, if Chen Nanfeng and Chen Xuan knew that Xia ruofei had successfully transplanted the plants, they would be shocked. Yingluo and the others had tried all sorts of methods for many years. Many of Chen Nanfeng's friends had also asked for the branches to try cutting, but all of them had failed.

If they knew that Xia ruofei had succeeded in planting the tea leaves and even complained that wild tea leaves grew slowly, they would probably doubt their lives even more.

Of course, Xia ruofei was generally satisfied.

Although these two wild tea trees were still very short and thin, they exuded vitality. Their leaves were green, and they were growing well.

Although the crops in the spirit map space did not need him to water them, Xia ruofei still fetched two buckets of spirit pool water and walked into the range of the array to water the two wild tea trees again.

As for the time array flag, Xia ruofei had no other use for it at the moment, so he kept it where it was. He also wanted the wild tea tree to grow as soon as possible.

After staying in the spirit map space for more than a day, Xia ruofei finally left the space, satisfied.

The success of the wild tea tree's cutting also gave him a lot of confidence.

He was very confident that he would be able to raise the power of the star Seizer sect in a short time.

The effect might not be particularly obvious in the short term, but in the long run, the value of wild tea trees was undoubtedly huge.

#### Chapter 3084 Investigation (1)

Xia ruofei had been cultivating on Peach Blossom Island for the past few days.

Under the effect of the time flow difference of 1800 times, he could see the two wild tea trees growing a little every day.

He also used these few days to sort out some of the techniques he had mastered and finally picked out a technique that was more suitable for Song Wei and Ling Qingxue to practice alone.

This cultivation technique was called the "nichang Heart Sutra." It was especially suitable for the two of them. Moreover, it was also a cultivation technique specially made for female cultivators.

In addition, the "nichang Heart Sutra" not only had cultivation methods, but it also had a set of moves. When these moves were used together with the cultivation method, not only was it very powerful, but more importantly, it was very beautiful. It was as if one was wearing a rainbow feather dress and dancing. In the beautiful dance, there was a fatal killing intent hidden.

In addition, the "nichang Heart Sutra" also recorded a secret skill of sound wave attack. However, it needed to be used with the zither, and it had a high requirement on mental power and true Qi.

Xia ruofei didn't know if Song Wei and Ling Qingxue could master the secret skill of sound wave attack. However, even if they didn't have this secret skill, the "nichang Heart Sutra" was very suitable for the two of them to cultivate. It was as if it was tailor – made.

After Xia ruofei went through all the techniques he had learned, he decided on this technique without much hesitation.

He decided that the next time he returned to China, he would teach this technique to Song Wei and Ling Qingxue. That way, they would be able to cultivate on their own.

Xia ruofei had been on the Peach Blossom Island for the past few days. He had even gone to the guard station to drink and chat with his old comrades. At the same time, he had also understood their current situation.

All in all, the ex – soldiers were very satisfied with their life on the Paradise Island.

Although the guards' responsibilities were not light, it was nothing to the Veterans who had been in the Army for so many years.

Xia ruofei gave them a high salary and better food than when they were in China. Other than being a little far from home, there really wasn't any other shortcomings.

The ordinary staff might still feel that the island was isolated and that life on the island was far away from civilization. They would feel lonely.

However, for these old soldiers who had been accompanied by the Cold Moon at the border all year round and could only see their families a few times a year, there was basically no difference between life on the Peach Blossom Island and life in the military camp.

What's more, it was more humane here. They could take turns to leave the island every year, and the company would reimburse the travel expenses so that they could go home and reunite with their families.

In addition, family members who met the requirements and there were suitable positions here could be recruited to work on the island first and reunite overseas.

The ex – soldiers were all very satisfied.

What made Xia ruofei even happier was that more than one veteran told him that living on Paradise Island was particularly comfortable and that his body was getting better and better. Not only did he not feel uncomfortable on the island, but he also did not have a cold or fever. In fact, everyone was the same.

Some of the occupational habits that everyone had in the Army even began to slowly improve.

Xia ruofei knew that this was the work of the Taixu xuanqing formation. The Veterans had been living in an environment rich in spiritual Qi for a long time. Although they would not evolve into cultivators, their bodies would definitely be very healthy.

It was no exaggeration to say that living in the Taixu xuanqing formation all year round would at least allow one to live a long life without illness or disaster.

Every day that passed in the outside world was equivalent to five years of growth for the wild tea trees in the spirit map space.

In fact, the wild tea tree already had a lot of leaves, but Xia ruofei did not plan to pick the tea leaves for the time being. He wanted to let the wild tea tree grow for a few more days.

In just a few days, the wild tea tree had grown for almost twenty to thirty years.

However, the trunk was only 20 to 30 centimeters thick, which was nothing compared to the wild tea tree on the cliff of the heavenly sect.

Xia ruofei wasn't afraid that the wild tea would have no effect after being picked, nor was he worried that the wild tea would hurt his Foundation. What he was afraid of was that the current tea leaves were semi – finished and had a certain effect on cultivation, but they couldn't achieve the same effect as the wild tea of the first heaven sect.

Wild tea could only be consumed once. It would not have the effect of promoting cultivation a second time.

If he wanted to test the effects of the wild tea, he could only test it on the disciples of the star Seizer sect. Furthermore, he had to let Luo Qingfeng choose the most reliable and talented disciple.

Xia ruofei would feel bad if the disciples who tried the wild tea did not make much progress in their cultivation and could not consume wild tea again in the future because of the age.

Although he would definitely use the star Seizer sect's disciples to test the effects of the wild tea in the future, Xia ruofei would rather wait a little longer to be on the safe side.

.....

Just as Xia ruofei was cultivating on the Peach Blossom Island every day and paying attention to the growth of the wild tea trees, thousands of miles away in the depths of Mount Tai, China, a black shadow appeared in the study of Chen Nanfeng's residence on Yun Xiao peak in the dark of the first heaven society, which was shrouded in layers of formations.

Chen Nanfeng was reading a thread – bound book with great interest under the light. When the black figure entered the study, he didn't even look up and asked indifferently, ""What did you find?"

The black figure took a step forward and walked into the range of the light.

He was dressed in black, and his entire head was covered by a black hood, only revealing a pair of bright eyes.

The black – robed man cupped his fists at Chen Nanfeng and said respectfully, ""Reporting to sect leader, after a few days in the teahouse, I've basically figured out Xia Tian's situation! His real name is Xia ruofei in the secular world and he's quite famous, so it's easy to find his information ..."

After he finished speaking, the black – clothed man flipped his hand, and a stack of papers appeared in his hand.

Clearly, he also had a storage treasure.

The Man in Black handed the stack of papers to Chen Nanfeng respectfully and said, ""This is all the information your subordinate has gathered."

Chen Nanfeng took the stack of papers, but he didn't flip through them. Instead, he calmly said, ""I want to hear you out first. It's more direct this way."

"Yes! Sect leader!" The Man in Black lowered his head slightly and said, "Xia ruofei, male, 26 years old, from Sanshan city, Southeast province of Huaxia ..."

If Xia ruofei were here, he would be drenched in cold sweat. This Man in Black had a clear grasp of his situation since he was born. There were some things that he might not even remember, such as the three model students Award he had won in primary school ...

Chen Nanfeng quietly listened to the black – shirted man's introduction, then opened the stack of papers and read.

Most of the information was downloaded from the public, including Xia ruofei's own Weibo.

Chen Nanfeng flipped through the book very quickly and finished reading it in a short while.

Then, he placed the stack of papers on the desk, raised his head, and said thoughtfully, ""It seems that there was nothing special about his previous life! Even his experience of serving in the lone wolf unit is not beyond the scope of ordinary people ... The only thing that can be considered a cultivator's means is

the Paradise company he set up more than three years ago, which seems a bit like a cultivator's means ..."

The Man in Black didn't say anything. He just stood in front of Chen Nanfeng's desk.

He knew that Chen Nanfeng wasn't conversing with him, but more like he was talking to himself.

This was just a habit of Chen Nanfeng's when he was thinking.

However, Chen Nanfeng turned his gaze to the Man in Black and smiled. "Ning, tell me your thoughts."

The Man in Black, who Chen Nanfeng called "ah ning," had said so much just now. It was all the results of the investigation. He was only describing it objectively and did not mix in his own judgment.

Now that Chen Nanfeng wanted him to share his opinion, he pondered for a moment and said, "Sect leader, I feel that ... This Xia ruofei doesn't seem like a hidden nascent soul cultivator's direct disciple. His life experience is very clear and he didn't disappear from people's sight at any time."

Chen Nanfeng smiled and asked, "You're saying that he might've had some fortuitous encounter three years ago, and that's why he entered the world of cultivation?"

...

"This subordinate thinks that the possibility of this is still relatively high." The black – robed man said.

"But he's already an Aurous core stage cultivator!" Chen Nanfeng said, "according to this judgment, he only started cultivating more than three years ago. I'm afraid that no matter how lucky he is, he wouldn't be able to reach the Golden core stage in such a short time, right?"

The Man in Black was at a loss for words, but he still frowned and said, "Sect leader, this subordinate is slow – witted and truly can't think of anything. Because no matter which possibility it is, there are contradictions."

"I'm more inclined to believe that he has a very powerful teacher behind him," Chen Nanfeng said with a smile. Although his childhood experience was very clear and he had never left the secular world, but ... Why did the so – called great hidden in the city, Yuanying stage or even stronger cultivators, have to live in the deep mountains and forests where few people tread? Perhaps Xia ruofei has been under the guidance of such a master since he was young and has become a cultivator. However, this senior did not want the people in the cultivation world to know of his existence, so no one has ever discovered him ..."

At this point, Chen Nanfeng paused for a moment and then continued, "I'd rather believe in this possibility, because it's more reasonable than a person who has passed the best age for cultivation to use a short three years or even less to break through to the early jiedan stage!"

In fact, the second possibility that Chen Nanfeng had mentioned was closer to Xia ruofei's actual situation.

The reason why it was said to be close and not completely in line was that Xia ruofei's actual time in contact with cultivation was even shorter. This was because he had established the Paradise Corporation not long after he had obtained the spirit map space. At that time, he had no chance to come into contact with cultivation.

Therefore, the actual time he spent cultivating was even shorter.

If Chen Nanfeng knew the truth, he would probably be even more shocked.

After hearing Chen Nanfeng's words, the Man in Black nodded slightly and said, "By the way, sect leader, I have another situation to report to you. It's also related to this Xia ruofei!"

Chapter 3085 A freak combination of factors (1)

Chen Nanfeng raised his eyebrows and asked, "What's the situation?"

"When I left the sect that day, I happened to see young sect leader sending him out of the mountain Gate, so I followed him from a distance ..." The Man in Black said respectfully.

"You followed him?" Chen Nanfeng's expression changed slightly as he said, "ah ning, you're a little reckless. We're not even sure if he has the rumored nascent Soul Stage expert behind him! If he finds out that you've been following him ..."

"Sect leader, Xia ruofei's cultivation is only at the beginning stage of the Golden elixir realm. I followed him very far. Even if his spiritual power was more than half of an early stage golden elixir realm cultivator's, it would still be hard to notice." The Man in Black said, "and I'm sure that he didn't notice me. He didn't show any signs of abnormality along the way and didn't use his spiritual power to check the back."

Chen Nanfeng waved his hand and said, "don't be so sure. This young man gives me the feeling that he's a bit of a demon. Maybe he's discovered you, but he just didn't make a sound ... Let's not talk about this first. Let's talk about what you found out!"

"Yes!" The Man in Black said, "he flew on his sword in the direction of the star Seizer sect for a while. After he was far away from our Mountain Gate, he stopped and took out a flying boat ..."

"Airboat!" Chen Nanfeng was a little moved. He could not help but sit up straight and asked, "are you sure he took out an airboat?"

"I'm very sure!" The Man in Black said, "it's a pure black flying boat. It's even size than our jadewater flying boat. In addition ... I tried to keep following them, but I soon lost them because the speed of that flying boat was much faster than sword riding, and also much faster than our blue water flying boat! I feel that ... Even if the sect leader were to go personally, he might not be able to catch up to this flying boat!"

Chen Nanfeng revealed a thoughtful expression and said, "Since it's so fast, it must be an airboat. In today's cultivation world, only this kind of ancient flying treasure can reach such a speed!"

"Yes, I am!" The black-robed man replied, "after I lost him, I did not continue to the star Seizer sect. However, that flying ship is indeed heading straight for the star Seizer sect."

Chen Nanfeng muttered to himself for a while before saying, "Ah ning, do you still remember the records of a primordial soul Stage expert in the history of the Star Seizer sect?"

The Man in Black was stunned for a moment, then he asked with uncertainty, "Sect leader, are you talking about Daoist Chi Yun?"

Chen Nanfeng nodded and said, "it seems like you've thought of it." The sect's ancient records have recorded that Daoist Chi Yun's flying magic treasure was a black flying ship called the black Phoenix. A few hundred years ago, this Black Phoenix flying ship was extremely famous in the cultivation world!"

The Man in Black revealed a look of disbelief and said, "You're saying that Xia ruofei might be Daoist Chi Yun's successor? This ... This seems a little ... Sect leader, Daoist Chi Yun is a figure from five hundred years ago. There has never been any news of him in the past few hundred years, so how could such a young successor suddenly appear?"

Chen Nanfeng revealed a trace of fascination and said, "Senior Chi Yun is a primordial soul Stage cultivator. Furthermore, he reached the primordial soul Stage over five hundred years ago. If there are no accidents, it's not strange that he's still alive in this era. The powers of an immortal soul Stage cultivator are beyond our imagination ..."

In the current cultivation world, the nascent Soul Stage was already a heavenly chasm. As for the primordial soul Stage, it was a realm that no one dared to think about.

Chen Nanfeng continued, "if Xia ruofei is senior Chi Yun's successor, then everything makes sense ... If senior Chi Yun was still alive, his cultivation might have already reached the leaving aperture stage or even higher. For such an expert, there's basically no need for an airboat. It's only normal for him to give it to his disciple. Furthermore, if this Xia ruofei was senior Chi Yun's successor, then the star Seizer sect's sect master Luo Qingfeng's attitude towards him was very reasonable! According to seniority, Luo Qingfeng was only his disciple's disciple! "Of course, we have to be respectful to him ... Besides, it's very likely that Xia ruofei has been cultivating under senior Chi Yun since he was young. It's only three years ago that senior Chi Yun allowed him to gradually come into contact with the world of cultivation after he had some success in his cultivation. As for the company he set up in the secular world, it's very likely that it's just a part of his experience in the mortal world ..."

The black – robed man also revealed a thoughtful expression, then said, "Sect leader, now that you've mentioned it, it seems that the possibility is quite high! This means that Xia ruofei's background ... Is much more powerful than we thought!"

"No matter how powerful his background is, it doesn't affect us much." Even if he was senior Scarlet cloud's successor, senior Scarlet cloud would not be able to help him with everything. If that was the case, there would be no use in gaining experience, and he would not be able to walk far on the path of cultivation. I reckon that if our guess is correct, then senior Chi Yun is at most protecting him in the dark. Moreover, he will only act when he is truly in a life and death situation. The first heaven society has no ill intentions towards him, and we don't have the intention to kill him either. Therefore, whether or not he has senior Chi Yun or some other nascent soul senior behind him, it doesn't matter much to us. "

#### Chapter 3086 A freak combination of factors (2)

Actually, Xia ruofei's flying ship was not a black – armored flying ship. He did not even know the name of the Flying Ship! However, it was personally refined by scholar Yuntai and had not been circulated. When the ancient cultivation world still existed, it had already been sealed in the nested space of the storage ring. Naturally, it would not be obtained by Daoist Chi Yun of the star picking sect.

As for Daoist Chi Yun, he naturally had nothing to do with Xia ruofei.

A few days ago, after Xia ruofei suspected that someone was following him, he deliberately took out the black flying boat. In fact, he only had two purposes. One was to get rid of the stalker as soon as possible. The second was to hope that the stalker would be able to confirm the rumor of a hidden master behind him after seeing the flying boat.

He could never have imagined that there was really an expert with a great background, whose signature flying magical equipment was a black flying boat.

And this expert just so happened to be a senior of the star Seizer sect.

With so many coincidences, it would be hard for Chen Nanfeng not to be misled!

At this moment, Chen Nanfeng had already considered Xia ruofei as Daoist Chi Yun's disciple. Although he was not completely sure, he was at least 70% to 80% sure.

Chen Nanfeng furrowed his brows and muttered to himself, "Xia ruofei must have come into contact with the five Saints token before. It's definitely not the one that appeared at the auction, nor is it the one that our sect has always held. I can sense the remaining aura of the five Saints token on his body. Even though it's very, very weak, my senses can't be wrong ... I've also seen the five Saints tokens in soaring Flower Valley and surging waves sect. I suspect that the five Saints token that Xia ruofei came into contact with is the number one token that has never been born. It's just that the aura left behind is too weak. I can't be completely sure!"

If Xia ruofei was here, he would break out in a cold sweat upon hearing this. Xuanji's five Saints badge was stored in the spirit map space, so Chen Nanfeng definitely could not sense it. However, he had only broken the barrier and studied the five Saints badge for a short while, and Chen Nanfeng could actually sense a trace of the five Saints badge's aura on him!

The Man in Black asked in confusion, "Sect leader, if that's the case ... Why didn't you ask him directly that day? why didn't you just give up after a round of probing?"

Chen Nanfeng smiled and said, "If I ask him directly, he probably won't tell me the truth. I might even alert him. He might be worried that I'll harm him." Moreover, there was only a trace of aura left on his body. Even if he had touched the token, he would definitely not have brought it with him. Furthermore, although we were unable to confirm his identity at the time, there were already rumors that he had a Yuanying stage expert behind him. Could it be that we would take the risk to force him to stay?"

"Then did you discover anything when he was studying our five Saints token?" The Man in Black could not help but ask.

Chen Nanfeng shook his head and said, "no, he's acting very normal. However, I feel that it's too normal! This was rather abnormal. In addition, although he had expressed his curiosity about the five Holy badges that day in the meeting hall and had studied them very seriously, I still felt that he didn't seem to be particularly interested. Of course, this is just a feeling. "

"Anyway, I feel that Xia ruofei's understanding of the five Holy badges is much deeper than what he's showing!" Chen Nanfeng continued.

The Man in Black said, "that's a pity ... You should've asked him to stay a few more days that day!" Maybe we can find some clues!"

Chen Nanfeng smiled and shook his head.””Ning, this Xia ruofei is a very cautious person. He’s staying in the first heaven society and I’m a late – Stage golden core cultivator. He definitely won’t show any abnormalities. There’s no point in keeping him here ...”

After saying that, Chen Nanfeng couldn’t help but reveal a bitter smile and said,””Actually, I don’t have any ill intentions towards him. We know too little about the five Holy badges. However, I’ve always had a sense of urgency that I have to solve the secret of the five Holy badges as soon as possible. Otherwise, it’s very likely that all my efforts will be in vain ... That’s why I’m a little impatient. He must have felt that something was amiss that day. We’ve tested him, and he’s also testing us, right?”

The Man in Black lowered his head slightly and said,””Sect master, why don’t ... I go to the star Seizer sect and keep an eye on them? We might be able to find out more information. ”

“No need!” Chen Nanfeng waved his hand and said. If Xia ruofei was really senior Chi Yun’s successor, then it was extremely likely that the five Saints token was in senior Chi Yun’s hands. Furthermore, Xia ruofei had only seen this five Saints token at his teacher’s place. That was why the remaining aura of the five Saints token on his body was so weak. Do you think that you can obtain this five Saints badge from a senior at the primordial soul Stage or even higher?” “Your subordinate naturally can’t do that!” The black – clothed man lowered his head and replied.

Chen Nanfeng chuckled.”Of course, there’s another possibility. Our guesses are all wrong. This Xia ruofei only obtained a great opportunity. That’s why he has so many treasures and pill recipes. Moreover, his cultivation has reached the early – Stage golden elixir realm in just three years! If that’s the case, then this Xia ruofei might have many tricks that you and I can’t even imagine. So even if you keep an eye on the star Seizer sect, there’s a high chance that you’ll find nothing!”

The Man in Black nodded and said,””Your subordinate understands.”

“Of course not.” Chen Nanfeng smiled and said,”actually, the possibility of this is very small. I’m even more certain of my judgment now. Think about it, if this Xia ruofei really had everything he had today because of a great opportunity, then why would Luo Qingfeng of the star Seizer sect bow down to him? Luo Qingfeng, you’re an early – Stage golden core cultivator and the leader of a sect. Xia ruofei’s cultivation level is similar to his, so there’s no reason for Luo Qingfeng to lower himself!”

“Yes! This subordinate also feels that sect leader’s judgment is very likely to be the truth. ” The Man in Black said,”sect master, our investigation on him this time, will it ...”

“He’s probably already found out,” Chen Nanfeng said indifferently.”But we don’t have any ill intentions towards him, so there’s no need to worry too much.” “No need!” Chen Nanfeng waved his hand and said. If Xia ruofei was really senior Chi Yun’s successor, then it was extremely likely that the five Saints token was in senior Chi Yun’s hands. Furthermore, Xia ruofei had only seen this five Saints token at his teacher’s place. That was why the remaining aura of the five Saints token on his body was so weak. Do you think that you can obtain this five Saints badge from a senior at the primordial soul Stage or even higher?” “Your subordinate naturally can’t do that!” The black – clothed man lowered his head and replied.

Chen Nanfeng chuckled.”Of course, there’s another possibility. Our guesses are all wrong. This Xia ruofei only obtained a great opportunity. That’s why he has so many treasures and pill recipes. Moreover, his

cultivation has reached the early – Stage golden elixir realm in just three years! If that’s the case, then this Xia ruofei might have many tricks that you and I can’t even imagine. Even if you keep an eye on the star Seizer sect, there’s a high chance that you won’t find anything!”

The Man in Black nodded and said,””Your subordinate understands.”

“Of course not.” Chen Nanfeng smiled and said,”actually, the possibility of this is very small. I’m even more certain of my judgment now. Think about it, if this Xia ruofei really had everything he had today because of a great opportunity, then why would Luo Qingfeng of the star Seizer sect bow down to him? Luo Qingfeng, you’re an early – Stage golden core cultivator and the leader of a sect. Xia ruofei’s cultivation level is similar to his, so there’s no reason for Luo Qingfeng to lower himself!”

“Yes! This subordinate also feels that sect leader’s judgment is very likely to be the truth. ” The Man in Black said,”sect master, our investigation on him this time, will it ...”

“He’s probably already found out,” Chen Nanfeng said indifferently.”But we don’t have any ill intentions towards him, so there’s no need to worry too much.”

#### Chapter 3087 A strange request (1)

“Xuan ‘er, it’s been a few years since your cultivation broke through to the early Aurous core stage, right?” Chen Nanfeng did not answer Chen Xuan’s question directly. Instead, he asked with a smile.

“It’s been almost three and a half years,”Chen Xuan replied without hesitation.

Chen Nanfeng couldn’t help but sigh. According to the information from the black – robed man, a ‘ning, Xia ruofei had only revealed his true cultivation skills in about three years. In theory, Xia ruofei could have started from scratch and cultivated to the early – Stage golden elixir realm in such a short time. Of course, he also thought that the possibility of this was very low.

No matter what, Xia ruofei was only in his 20S. Chen Xuan was obviously much younger than him.

He had always thought that his son was very outstanding and was proud of him. Now that an even more monstrous Xia ruofei had suddenly appeared, he had to admit that he had suffered a blow.

Chen Nanfeng adjusted his emotions and said,””It’s been quite a long time ... Xuan ‘er, there are many difficulties in the path of cultivation, and it’s a taboo to cultivate behind closed doors. It’s time for you to go out and gain some experience. ”

Chen Xuan was slightly taken aback. It hadn’t been long since he had broken through to the Aurous core beginner stage. There were many veteran Aurous core cultivators in the cultivation world who were stuck in the Aurous core beginner stage for decades. Furthermore, Chen Xuan’s cultivation had been progressing steadily. Even though the rate of improvement wasn’t large, he had never felt any bottlenecks.

After all, he had only broken through three years ago and still had a long way to go before he reached the intermediate stage of the Aurous core stage.

Logically speaking, this was the time for him to lay a solid foundation, and he should be in closed – door cultivation more often.

However, Chen Nanfeng suddenly did the exact opposite, as if he wanted Chen Xuan to go out and train. This puzzled Chen Xuan.

However, Chen Xuan, who had been brought up strictly since young, did not question Chen Nanfeng's decision. He only hesitated for a moment before nodding. "I'll follow your arrangements, father."

Chen Nanfeng seemed to have noticed Chen Xuan's confusion. He said, "Xuan 'er, you should know that many senior cultivators will go to the mortal world when they encounter a bottleneck. On one hand, it's to Polish their state of mind. On the other hand, it's because the vast mortal world often contains the truth of the great Dao. It's difficult to comprehend it unless you experience it yourself ..."

"Father, could it be that you want your child to go to the secular world to gain experience?" Chen Xuan asked in surprise.

He originally thought that Chen Nanfeng wanted him to travel the cultivation world, explore ancient ruins, visit various major sects, and learn from each other. He didn't expect Chen Nanfeng to actually want him to go to the secular world to train.

Chen Xuan was only in his forties, and he felt that it was still too early for him to experience the world.

Chen Nanfeng nodded slightly and said, "although you haven't encountered a cultivation bottleneck for the time being, you were born and grew up in the heavenly sect. Up until now, you've spent most of your time cultivating in the sect. You indeed lack experience in the secular world. This time, I hope you can make up for this lesson." There's a very insightful saying in the secular world, "a clear understanding of the world is knowledge, and the practice of human relationships is literature." I believe that after you have experienced the secular world, you will certainly have a lot of new insights in cultivation, which will be of great benefit to you when you break through to the middle jiedan stage in the future."

Although Chen Xuan didn't agree with Chen Nanfeng's point of view, he didn't dare to disobey.

Furthermore, Chen Nanfeng was a veteran late – Stage golden core cultivator, so he had a lot of say in cultivation. Since he believed that going to the mortal world to train at this stage would be of great help to his cultivation, Chen Xuan did not dare to take it lightly.

"Yes! Father, then I'll go to the secular world to gain some experience." Chen Xuan nodded his head slightly and said, "then, what do you think of the arrangements for this experiential learning? The first heaven society has many properties in the secular world. Why don't you pick one for the child ..."

Chen Nanfeng waved his hand and said, "you don't have to go to your family's business. You're going to the secular world to gain experience. You're not going to be a young master! What kind of training could he get in the property of his own sect? Which one of those in charge doesn't know you, the young sect leader? Even if they were to order you to change your identity to the most basic position, would they really dare to order you around like an ordinary employee?"

Chen Xuan couldn't help but reveal an awkward expression as he chuckled, "Father, you're so thoughtful. I won't go to our family's business ..."

"En!" Chen Nanfeng nodded and continued to ask, "I remember that you have also spent some time learning some knowledge about the secular world? What kind of knowledge have you learned all these years?"

"Father," Chen Xuan replied after some thought, "I've learned a lot of things. I've dabbled in a lot of things. Business management, finance ..."

"Those are all too high – end!" Chen Nanfeng did not wait for Chen Xuan to finish. He waved his hand and said, "it's best for you to start from the most basic position when you go to the secular world to gain experience. Have you learned any secular skills? If I can work in a technical department, that would be the best!"

"Skill?" Chen Xuan pondered for a moment before replying, "last year, I was bored for a period of time, so I learned some computer related stuff. It's about programming with PHPs. This should be considered a skill!"

"I don't understand either! "I guess so ..." Chen Nanfeng said.

Chen Nanfeng's understanding of the secular world was even less than Chen Xuan's. He had never even heard of any PhD.

In reality, Chen Xuan was a rather peculiar person. He had dabbled in a wide range of subjects. For a cultivator in the Golden core stage to actually study computer knowledge in the secular world, even if it was just a momentary interest, how could a cultivator, especially a cultivator in the Golden core stage, be comparable to an ordinary person in terms of brain development? Even if he was just learning, his skill level was already quite high.

#### Chapter 3088 A strange request (2)

Chen Nanfeng muttered to himself for a moment before saying, "Then ... Let's go with this ... PhD! Xuan'er, use this skill and apply for a technical position in the secular world. Go to a company in the secular world and gain some experience!"

Chen Xuan felt that this was a little ridiculous as he laughed bitterly in his heart. However, he still nodded his head and said, "Yes! Father, I'll leave tomorrow!"

"Alright, it's good to go for experience earlier." Chen Nanfeng nodded and said, "by the way, Xuan'er, for your training this time, go directly to a company in San Shan city, Southeast province for an interview! It's called paradise Corporation. "

Chen Xuan couldn't help but be taken aback. He was well aware that this company didn't belong to the first heaven society. Based on his understanding of the cultivation world, it didn't seem to belong to any other sect in the secular world either.

It was very likely that this was really just a company in the secular world.

However, his father had been cultivating in the first heaven sect and had almost never left the sect. Why did he suddenly pay attention to a company in the southeast province? Moreover, he had specifically asked him to go there to gain experience ...

Chen Xuan knew that his father had a deeper meaning, but since Chen Nanfeng didn't want to say it, he couldn't ask for more details. He could only nod and say, "Okay, then I'll go to this paradise Corporation ..."

Even though Chen Xuan didn't know what his father's intentions were, training was still training. Chen Xuan felt that all he had to do was to follow his father's instructions. As for what his father's intentions were, he would find out when the time came. "Xuan 'er," Chen Nanfeng said, "I'll remind you again. If you go to this company for an interview, you can only use the PS you mentioned just now ..."

"PHP!" Chen Xuan said.

"Yes, this is the same PhD technology." Chen Nanfeng said, "other than that, you are not allowed to show any of the other abilities you have learned in business management. You are also not allowed to use the methods of cultivators. Only this kind of training will be effective."

Chen Xuan was already immune to Chen Nanfeng's strange request. He replied without hesitation, "Yes! The child would obey his father's instructions! You can send an elder to supervise the child ..."

"There's no need for that!" Chen Nanfeng chuckled and said, "of course, I believe in you, Xuan 'er. This experience might have a profound impact on your cultivation career. I hope you can cheer up and calm down to go to that company to train!"

"Yes!" Chen Xuan replied.

"Then you go! It's getting late, and you're going to the three mountains tomorrow. Don't cultivate tonight and rest early. " Chen Nanfeng said, "take the Clearwater flying boat with you. You don't have to come here tomorrow to say goodbye!"

"Yes! Father, you should rest early too! This child will take his leave!" Chen Xuan stood up and bowed slightly to Chen Nanfeng.

"Go!" Chen Nanfeng said.

However, just as Chen Xuan was about to reach the door, Chen Nanfeng spoke again, "Wait!"

Hearing this, Chen Xuan stopped in his tracks and turned around. "Father, do you have any other orders?"

With a flip of his hand, Chen Nanfeng took out the two five Saints tokens from his storage ring. With a wave of his hand, the two tokens floated towards Chen Xuan.

"Take these two tokens with you," Chen Nanfeng said. "You can study them more when you're free. I have a feeling that the last five Saints token will be born soon ..."

Chen Xuan reached out to receive the five Saints token. With a look of hesitation, he could not help but ask, "Father, if I take the token away, does that mean that elder Chen and the others won't be able to study it?"

There was a group of people in the heavenly sect whose main business was to study the five sacred writs, and elder Chen, who was a mid – Stage golden core cultivator, was the leader.

"I've been researching for so many years," Chen Nanfeng waved his hand and said. "I haven't had any results. Let them all rest for this period of time! It was a good time to change his mind. You didn't study the five sages token much in the past. You should use the time you have during this experiential learning to study it more when you have the time!"

Even though Chen Xuan felt that it was strange, he did not dare to question Chen Nanfeng's words.

Thus, Chen Xuan carefully kept the five Saints token into his storage ring and said, "I understand! Father, if there are no other instructions, then I will take my leave!"

"Go!" Chen Xuan waved his hand.

In truth, there was still a certain risk to Chen Xuan bringing the five Saints token out of the sect.

However, Chen Xuan was an early – Stage golden core cultivator. As the young sect master, he had many ways to protect himself. He also had many more Dharma Treasures than ordinary cultivators. Under normal circumstances, even a mid – Stage golden core cultivator wouldn't be able to do anything to him.

Therefore, as long as it wasn't a premeditated Alliance of some sects and powers to deal with Chen Xuan, his safety could still be guaranteed.

The safety of the five Holy badges would naturally not be a problem.

As such, even though Chen Xuan felt that it was a little strange, he was not too worried about the fact that he would not be able to keep the five Holy badges.

After Chen Xuan took his leave, Chen Nanfeng sat behind his desk in a daze. After a long time, he sighed and muttered to himself, "Danger and opportunity co – exist in the southeast. I hope that Xuan 'er will be able to break through the fog in his life Providence and walk a bright path ..." Even though Chen Xuan didn't know his father's intentions, he felt that he just had to follow his father's instructions. As for what his father's intentions were, he would naturally find out when the time came. "Xuan 'er," Chen Nanfeng said, "I'll remind you again. If you go to this company for an interview, you can only use the PS you mentioned just now ..."

"PHP!" Chen Xuan said.

"Yes, this is the same PhD technology." Chen Nanfeng said, "other than that, you are not allowed to show any of the other abilities you have learned in business management. You are also not allowed to use the methods of cultivators. Only this kind of training will be effective."

Chen Xuan was already immune to Chen Nanfeng's strange request. He replied without hesitation, "Yes! The child would obey his father's instructions! You can send an elder to supervise the child ..."

"There's no need for that!" Chen Nanfeng chuckled and said, "of course, I believe in you, Xuan 'er. This experience might have a profound impact on your cultivation career. I hope you can cheer up and calm down to go to that company to train!"

"Yes!" Chen Xuan replied.

"Then you go! It's getting late, and you're going to the three mountains tomorrow. Don't cultivate tonight and rest early. " Chen Nanfeng said, "take the Clearwater flying boat with you. You don't have to come here tomorrow to say goodbye!"

"Yes! Father, you should rest early too! This child will take his leave!" Chen Xuan stood up and bowed slightly to Chen Nanfeng.

“Go!” Chen Nanfeng said.

However, just as Chen Xuan was about to reach the door, Chen Nanfeng spoke again, “Wait!”

Hearing this, Chen Xuan stopped in his tracks and turned around. “Father, do you have any other orders?”

With a flip of his hand, Chen Nanfeng took out the two five Saints tokens from his storage ring. With a wave of his hand, the two tokens floated towards Chen Xuan.

“Take these two tokens with you,” Chen Nanfeng said. “You can study them more when you’re free. I have a feeling that the last five Saints token will be born soon ...”

Chen Xuan reached out to receive the five Saints token. With a look of hesitation, he could not help but ask, “Father, if I take the token away, does that mean that elder Chen and the others won’t be able to study it?”

There was a group of people in the heavenly sect whose main business was to study the five sacred writs, and elder Chen, who was a mid – Stage golden core cultivator, was the leader. There was a group of people in the heavenly sect whose main business was to study the five sacred writs, and elder Chen, who was a mid – Stage golden core cultivator, was the leader. There was a group of people in the heavenly sect whose main business was to study the five sacred writs, and elder Chen, who was a mid – Stage golden core cultivator, was the leader.

Chapter 3089 Successfully employed (1)

Chen Xuan landed the Clearwater flying boat in a secluded area in the outskirts of the triplet mountain. When he reappeared by the side of the road, he was already dressed in a modern attire. He wore a pair of faded jeans, a plaid shirt, and a pair of sports shoes. He even carried a backpack on his back. He was dressed like a typical programmer.

Chen Xuan was able to get into character rather quickly. In fact, he was even starting to control his own expenses. From the suburbs to the city, he did not even bother to take a taxi. Instead, he walked a few hundred meters to the bus stop and took the bus to the city.

Of course, Chen Xuan didn’t apply for the job directly at the Paradise Corporation.

He found a youth hostel near the company, asked for a single room that cost 80 yuan a day, and stayed there.

Chen Xuan was in his room at the hotel. He turned on his laptop and went online to check on the situation at paradise Corporation. Although he spent most of his time cultivating in the sect, he still had some understanding of the situation in the secular world. As for the basic operating skills of computers and the internet, he naturally had them.

Chen Xuan did a quick search on paradise Corporation and was surprised to find that this company seemed to be quite interesting.

Although the Paradise company had only been established for slightly more than three years, it had achieved a series of jaw – dropping achievements. Almost every one of its products was a hit, and it could be said that its reputation on the internet had exploded.

The company's development had been moving forward at a high speed. In just three years, it had expanded from a small company to an enterprise with billions of assets.

After checking on the situation, Chen Xuan's heart started to calm down. He had been worried that his father would send him to an unknown small company for training. If that were the case, he would be wasting his time.

Even though he was training in the secular world, Chen Xuan still hoped to achieve something.

Chen Xuan then visited the peach blossom company's official website and Weibo. To his surprise, he discovered that the company had just released a Recruitment Notice. The scope of the recruitment was quite wide, including sales, operations, art design, and of course, the requirements for programmers. One of the positions was for programmers who were proficient in PhD.

This was really like a pillow when you were sleepy!

Chen Xuan couldn't help but chuckle.

He compiled his resume on his laptop and first submitted it to paradise Corporation online. Then, he went to a nearby printing shop to print a few copies.

Chen Xuan's resume was actually very simple. His shortcomings were his lack of work experience and academic qualifications. This time, he had left in a hurry. Otherwise, he could have used the power of the sect's secular world to get him a degree. That night, Chen Nanfeng came to find him and asked him to leave the next morning. Of course, he didn't have enough time. Chen Nanfeng didn't even mention this at all, which meant that he was testing Chen Xuan.

Entering the company with a bright resume wasn't considered a skill. Entering the company with one's own strength was what was called skill.

In Chen Xuan's resume, he had written that he had graduated from high school, and after working for a few years, he had signed up for a PhD training course. He did not have any work experience in a related company, but he had more practical experience. He had taken on many jobs online and had completed them beautifully.

In the email, Chen Xuan had even included a few scripts that he had used to practice his PhD.

The next step was naturally to wait for news.

If Chen Xuan's resume were to be submitted to other companies, it would most likely be swept into the trash bin during the first round of screening.

However, the Paradise Corporation was a little different.

Tao Yuan company had never been a company that only looked at academic qualifications. The chairman of Qin Zhuan company, Xia ruofei, was only a high school graduate! Therefore, even though the recruitment process would give priority to those with high academic qualifications, they would not completely give those with low academic qualifications a chance.

On top of that, the few scripts that Chen Xuan had attached to the contract had also played a significant role.

The HR department naturally did not know how to differentiate the standard of the script. Normally, such a resume would be easily eliminated at the first moment. However, the few small scripts made the HR manager in charge of screening the resume a little uncertain. Wanwan mainly knew that the company was recruiting a lot of programmers recently. Because paradise Corporation was not an internet company, it had never been the first choice of programmers. It was not easy to recruit skilled programmers, so the HR department did not want to eliminate this resume so hastily. If they missed out on an amazing person, wouldn't they be in serious trouble?

As such, the HR department followed the usual practice and transferred the resume and the attachment to the technical department.

It was a matter of skill, and it was naturally up to the technical staff to judge.

In the end, Chen Xuan's small script caused a huge stir in the technical department.

Although the amount of code in the scripts was not large, anyone who knew the game would know that the logic was clear and the thinking was meticulous. Every function, every call, and every variable were just right. There was almost no extra word.

In the eyes of a real programmer, such code was full of a different kind of beauty.

The technical Supervisor in charge of setting up the development Department made a decision on the spot and informed the authors who wrote these scripts to come for an interview.

The reason why they didn't hire him directly but only came for an interview was naturally because they only saw the code, but they couldn't be sure that the author of the code was really the one who submitted the resume. Therefore, an on – the – spot examination was also an essential part.

When Chen Xuan received the notice for the interview, he had just taken a shower in the cramped bathroom of the youth Hotel. This was already the best room in the hotel. He didn't need to share a room with anyone. Furthermore, there was a separate bathroom. Even though it was small, it was for one person to enjoy.

## Chapter 3090 Successfully employed (2)

When Chen Xuan found out that he had already entered the interview round, he did not appear particularly excited. He did not know that it was not easy to find a job these days. For someone with a resume like his to be able to enter the interview round, it was like a pie falling from the sky.

He politely made an appointment with HR and hung up the phone.

Then, he took out a spiritual crystal, sat cross – legged on the bed, and began to cultivate.

What Chen Xuan couldn't get used to the most was naturally the environment of the secular world.

The three mountains was already known as a Garden City. As the provincial capital, its forest coverage rate was ranked among the top in the country, but this still could not improve the cultivation environment. The spiritual Qi here was barren, heterogeneous, and violent, and only four hours a day could be used for cultivation.

The first heaven society had a sect – protecting formation to gather and purify the spiritual Qi, so they could cultivate at any time.

Furthermore, as the young sect leader, Chen Xuan's residence had a much better cultivation environment than the residences of ordinary disciples.

Chen Xuan felt that if he were to spend too much time in the secular world, his cultivation might really regress.

If one wanted to cultivate in the time outside of midnight and dawn, one could only rely on external objects.

Although crystals were the most suitable for golden core cultivators, even the wealthy first heaven society couldn't provide Chen Xuan with an endless supply of crystals. Therefore, when he went out, he would use spirit crystals more often.

This was already the extravagance of the young master of the number one sect in the cultivation world. How could ordinary cultivators be willing to use spiritual crystals to cultivate?

The next day, Chen Xuan arrived at the Paradise building as promised. The interview went very smoothly.

The head of the development Department was the main character in this interview. He asked Chen Xuan a few questions about PhD, and Chen Xuan answered them all with ease. Following that, he gave Chen Xuan a real – life example.

Even though it was only a small case, the head of the research department had never expected Chen Xuan to be able to complete it on the spot. In fact, he had even offered to provide Chen Xuan with a work desk so that he could complete it within three days.

In fact, this was equivalent to a trial.

To his surprise, Chen Xuan took out his laptop in the small meeting room where the interview was held. After switching it on, his fingers flew like the wind. In less than half an hour, he had already completed the code.

The head of the development Department was dumbfounded.

This was the first time he had seen someone writing code without thinking or stopping to think. It was a waste to use this hand speed to write code. He could totally consider developing in the direction of a professional e – Sports player!

The head of the research department didn't even have time to take a good look at the code before he gave Chen Xuan a high score in his heart.

When he started to check the code, he was once again convinced.

The style of the code in the resume was exactly the same. The code was simple, logical, and full of a different kind of beauty.

If they didn't hire such an expert, who else would they hire?

As for education, what was that? Master's and Ph.D.'S in software, how many could be better than this guy in coding? Or was there such a person?

The head of the development Department decided to hire Chen Xuan on the spot. Furthermore, the trial period was only a month.

Next, he had to talk to HR, which was a necessary procedure.

However, due to the importance placed by the head of the R & D department, the HR department had also arranged for a manager to meet Chen Xuan.

The main issue was the salary. The HR manager asked Chen Xuanli how much she wanted to pay.

"I don't have an ideal salary. I'll take whatever the company offers!" Chen Xuan replied without even thinking.

The HR manager was stunned, but she quickly put on a professional smile and said,""I can set an 8K for you. Of course, this is your salary during the probationary period. You can still increase it after you become a regular employee. In addition, whether it's the technical or administrative staff of the company, they all get a basic salary according to their rank. Every year, there are two opportunities for promotion and salary increase. If you pass the assessment, you can realize a salary increase!" The interview went very smoothly.

The head of the development Department was the main character in this interview. He asked Chen Xuan a few questions about PhD, and Chen Xuan answered them all with ease. Following that, he gave Chen Xuan a real – life example.
