Chapter 3291 Puppets also cheat people (2)

There was also a rider on the street, who was also frozen in place. The rider was lying on the back of the horse, while the horse was still in a running position.

Everything in the small town was frozen, except for the steamer baskets at the breakfast stalls that were still emitting steam.

Xia ruofei was not surprised because when he came in, he had already noticed that everything in this mini town was man – made. The residents and animals were all puppets, but they were very realistic.

What he didn't expect was that old Daoist Zhen Yang could actually control everything here.

It was clear that the reason all the puppets were frozen at this moment was because of old Daoist Zhen Yang.

Old Taoist Zhen Yang strolled into the mini town, with Xia ruofei following closely behind him.

Taoist Zhen Yang turned to look at Xia ruofei and said with a smile, "Scholar Xia, you don't seem to be very curious about this scene?"

Xia ruofei shrugged and said, "so far, I haven't found any other life forms on the first floor of the trial Pagoda." I knew that everything in this town was man – made, including the residents!"

Old Taoist Zhen Yang couldn't help but look at Xia ruofei and said, "Scholar Xia is indeed quick – witted!"

Xia ruofei laughed. "Although these puppets look very realistic, their movements are still a little stiff. The whole town is like a sophisticated machine. Every part is operating according to the established program without any mistakes. "However, as the saying goes, going too far is as bad as not enough. This kind of precise order definitely doesn't exist in normal human towns ..."

Old Daoist Zhen Yang gave Xia ruofei a big thumbs up.

"Taoist priest, you haven't told me what the second reward is." Xia ruofei smiled.

"Actually, the second reward isn't a physical item, but a piece of information ..." Daoist Zhen Yang said with a smile.

"The information that Daoist priest wanted to tell me, could it be that these residents and animals are all puppets?" Xia ruofei asked, not knowing whether to laugh or cry.

If that was the case, then it was really a bit too much.

This was because Xia ruofei had already realized this. This meant that the reward was meaningless to him.

Old Daoist Zhen Yang waved his hand with a smile and said, "Naturally, it won't be such a simple piece of information."

Xia ruofei heaved a sigh of relief. That was good. No matter what information Taoist Zhen Yang could provide, as long as it was something he didn't know before, then his efforts were not in vain.

He asked, "what is the specific information?" I hope Daoist priest won't be stingy with your teachings!"

Old Daoist Zhen Yang chuckled. "You're too kind, layman Xia. This is the reward you should have received ... Layman Xia, the information I can provide you is that the cultivation of these puppets in this town is actually extraordinary. The weakest is early golden core, and two of them even have the strength of nascent soul." From the moment you stepped into the town, they have already regarded you as an invader and will attack you to the death ..."

Hearing this, Xia ruofei couldn't help but widen his eyes. At the side, old Daoist Zhen Yang chuckled and asked, "Scholar Xia, how is it? This information is still useful, right?"

Xia ruofei didn't know whether to laugh or cry. After all this talk, he was just telling himself that he would be hunted down by hundreds of golden core stage and even nascent Soul Stage cultivators?

In order to tell him this, old Daoist Zhen Yang had actually pulled him into this small town. What use was this information? It was simply a huge pit, alright?

Xia ruofei, you thought there was a trap in front of you, but you didn't expect the real trap to be waiting here!

Was there a need to bring him all the way to the town to tell him this piece of news? Wouldn't it have been better to just tell him directly in true yang temple? True yang temple was even closer to the entrance of the second level. If he was really no match for them, he would have enough time to escape to the second level.

Presumably, these puppets wouldn't chase him to the second floor.

"Thank you, Taoist priest," Xia ruofei said with a dry smile. However ... I would like to know when these puppets will begin to pursue me. "

With a mysterious smile, Daoist Zhen Yang said, "Now ..."

As soon as he finished speaking, the whole town became lively again. The horses continued to gallop forward, The Cloth Shop owner and the girl in pink happily completed the transaction, and the candied gourd peddler continued to shout ...

The puppets did not notice the frozen scene at all. To them, everything was continuous.

Of course, there was a difference. Everyone's eyes fell on Xia ruofei at the same time, and their killing intent exploded.

Xia ruofei couldn't help but curse under his breath. Then, he subconsciously took out his qushuang flying sword. He made a sword gesture and stepped on the flying sword. Then, he flew away on his flying sword.

Now, he finally understood that the so – called second reward was clearly a huge trap.

Who said that puppets would not lie? When old Taoist Zhen Yang lied, his face wouldn't even turn red. Xia ruofei had foolishly followed him to the center of the town and ended up in the most dangerous situation.

If it wasn't for Xia ruofei's quick reaction and the fact that he had just mastered the sword technique of sword Kinesis flight, he would have been killed by the nearest grocer. Just now, as soon as Taoist Zhen Yang finished speaking, the grocer had locked onto Xia ruofei. The carrying pole in his hand flew out and heavily hit the place where Xia ruofei had been standing, causing sparks to fly. The thick bluestone floor had actually cracked into several pieces.

If it had hit Xia ruofei, he would have definitely broken his bones.

Fortunately, Xia ruofei had just obtained the warped Frost Sword and had mastered the sword control technique. Although his posture on the flying sword was still a little stiff, and the flight trajectory was not so perfect, the speed of the flying sword was still brought out. After he narrowly avoided the itinerant peddler's attack, he took advantage of the fact that the other puppets had not yet reacted and directly drove the flying sword to the narrow alley behind the street.

At this time, the map function of the perceptual mirror also helped a lot.

Xia ruofei had a real – time map in his field of vision and could clearly see every road.

Although the town was not big, there were many narrow alleys on both sides of the street. Many of the alleys were almost empty, and it was quite quiet. After all, there were only more than a hundred puppet residents in the entire mini town. Including the animal puppets such as cats, dogs, horses, and so on, there were no more than two hundred. This area of more than ten acres was divided into dozens of alleys of various sizes, and it was impossible for the puppets to cover all of them.

They were mainly concentrated near the streets.

Hence, Xia ruofei rode his flying sword at high speed in the alley. After a few turns, he arrived at a secluded place.

This was where the back door of a Manor was located. The alley was only three feet wide, with high walls on both sides. The back door of the manor was also tightly closed.

Xia ruofei didn't dare to enter the house rashly. Taoist Zhen Yang had just told him that there were Yuanying stage puppets in this mini town. If he happened to be in the house, wouldn't he be asking for trouble? Xia ruofei felt that if he were to encounter a nascent soul cultivator, he would not even have the chance to escape. Hence, he had to be extremely careful.

When Xia ruofei flew into the alley, he had already used his spiritual power to check the situation in the alley. First, he confirmed that there was not a single puppet in the quiet alley. Second, he found the best hiding place in the shortest time possible.

In front of the back door of the house, there was a small ditch less than a foot wide. The flowing water was so clear that the bottom could be seen. The two sides and the bottom of the ditch were neatly built with cobblestones. The back door of the house was on this side, so there were two stone slabs set up from the top of the ditch to the alley.

Xia ruofei flew across the entrance of the house on his sword. He waved his right hand quickly and disappeared into thin air. The quiet alley was still as quiet as before, as if no one had ever been here ...

Chapter 3292 No shortcut (1)

When Xia ruofei entered the alley on his flying sword, he had already used his spiritual power to investigate. He immediately discovered a crack under the stone slab that crossed the ditch at the back door of the house.

As he flew over, he had already summoned the spirit painting scroll from his palm, and then accurately threw it into the gap and clamped it.

Immediately after, Xia ruofei entered the spirit map space and kept the qushuang flying sword.

After entering the spirit map space, Xia ruofei immediately released his spiritual power to check the situation outside.

In just a few seconds after he hid in the spirit map space, three town resident puppets had already found the alley.

The three puppets were very fast, but they did not know that Xia ruofei had already hidden himself. Hence, the three puppets did not notice him at all. They only did a routine search and left through the alley.

Xia ruofei secretly heaved a sigh of relief. That was close!

The speed of these puppets was much faster than he had imagined.

.....

In the center of the mini – town, old Daoist Zhen Yang was standing on the bluestone Street with a smile on his face. At this moment, there was a hint of slyness in his eyes, and the dullness unique to puppets that couldn't be concealed had long disappeared.

When Xia ruofei entered the spirit map space, Taoist Zhen Yang's smile froze. He couldn't help but raise his eyebrows and mumble to himself, "This little guy is quite interesting!"

At that moment, Taoist Zhen Yang could no longer sense Xia ruofei's whereabouts. However, he knew that Xia ruofei could not have disappeared into thin air, much less left the first level of the Tower of Trials.

It was precisely because of this that old Daoist Zhen Yang found it even more inconceivable.

To be able to conceal himself in such a short time and escape his search was truly unbelievable.

Old Daoist Zhen Yang muttered to himself for a moment before stepping on the bluestone Street. His body then turned into a shadow that was almost impossible to catch with the naked eye as he searched the entire first level of the Tower of Trials at an extremely fast speed.

If Xia ruofei were to see this scene, he would be so shocked that his jaw would drop. Daoist lang wo Zhen Yang didn't use sword Kinesis flight but relied on the explosive speed of his physical body. However, his speed was much faster than Xia ruofei's sword Kinesis flight. There was even a faint sound

of thunder and his aura was majestic. One look and one could tell that he was a cultivator with extremely high cultivation.

After a fruitless search, Daoist Zhen Yang returned to the center of the mini town and laughed, "Scholar Xia's methods are impressive, this Daoist is impressed! However, I still have to remind you that you can't just hide in the first level of the Tower of Trials. Even if you can sneak to the entrance to the second level, it's still impossible to open the entrance. Only when you kill more than 100 puppets on the first level will the entrance to the second level be activated. Therefore, you still have to work hard to kill the enemies from now on, scholar Xia!"

Although Xia ruofei was in the spirit map space, he had been releasing his spiritual power to pay attention to the outside world. Therefore, he heard every word that Taoist Zhen Yang said.

Hearing this, Xia ruofei's expression couldn't help but change.

The requirement to kill more than a hundred puppets to pass one test was a little too harsh.

One must know that every puppet in this mini town was not weak. The weakest one was at the Golden core stage and there were even some at the nascent Soul Stage. It was not a problem for Xia ruofei to defeat one or two golden core puppets, but it was too difficult to defeat a hundred of them.

After all, these puppets were not made of wood. They would not just stand there and wait for him to kill them. Furthermore, killing one might attract many more. When he was surrounded, it would be difficult for him to escape even if he had many trump cards.

If he caused too much of a commotion and attracted the attention of nascent soul cultivators, Xia ruofei would not be able to escape.

The space on the first floor of the Tower of Trials was too small. It was only a few acres. In such a small space, it was difficult for a cultivator to move around. Especially if an original infant stage cultivator targeted Xia ruofei, he would have nowhere to run.

Xia ruofei also thought of another problem. Did Ling Qingxue have the same experience as him? If Ling Qingxue had entered the Tower of Trials and faced so many golden core puppets on the first level, she would definitely not have survived.

Xia ruofei's expression turned even uglier at the thought of this.

Of course, there was also a possibility that these puppets were set up according to the cultivation level of the cultivators who entered the Tower of Trials. Perhaps the Qi condensation cultivators who entered the Tower of Trials would also face Qi condensation cultivators as their main opponents.

But even so, it was still extremely difficult for Ling Qingxue.

Thinking of this, Xia ruofei couldn't wait to rush to the higher floors and find a way to meet up with Ling Qingxue as soon as possible.

However, the situation in front of him was very awkward. It was impossible for him to rush out rashly. If he were to go out and risk his life with his hot – bloodedness, that would be the behavior of a reckless man.

Just as Xia ruofei was caught in a dilemma, he heard old Taoist Zhen Yang's voice.

Old Daoist Zhen Yang chuckled and said, "scholar Xia, please make your decision as soon as possible. The second floor of the trial Pagoda is much more exciting than the first floor. The earlier you enter the second floor, the more benefits you'll get!" That's right, please be at ease, benefactor Xia. This Daoist won't participate in the hunt for you, so you just need to focus on dealing with the puppets. There's no need to worry about this Daoist. "

Xia ruofei mumbled to himself in the spirit map space, "The word "hunting" is really well used! I've really become the prey of a bunch of puppets now ... But you're a bad old man, so there's no way I'd believe you!"

Chapter 3293 No shortcut (2)

Xia ruofei didn't dare to believe Taoist Zhen Yang's words so easily. Just now, Taoist Zhen Yang had deliberately led him to the center of the mini town where there were the most puppets. Then, he had suddenly activated the puppets to surround Xia ruofei, catching him off guard and almost killing him on the spot.

What was even more infuriating was that this old monk had tricked Xia ruofei into coming in in the name of honoring the reward ...

Hence, Xia ruofei had to greet old Taoist Zhen Yang. He did not dare to believe the old Taoist when he said that he would not participate in the hunt. Besides, old Taoist Zhen Yang had said that the entrance to the second floor would only open after he had completed the task of killing 100 puppets. Xia ruofei did not believe him.

He only believed in himself now.

Therefore, even though Xia ruofei was anxious, he did not rush out to fight the puppet just because of old Taoist Zhen Yang's words.

On the contrary, he quickly calmed down and patiently used his spiritual power to investigate the situation outside.

The puppets in the mini – town had all deviated from the established plot. Whether it was the peddlers or the old farmers, they were all searching for Xia ruofei. Even the young girls who stayed at home and the children who played with mud on the streets were all going through the streets and alleys to find Xia ruofei.

Xia ruofei could feel the strong aura from these puppets. Even a little girl who looked to be only eight or nine years old had reached the advanced stage of the Golden elixir realm.

Therefore, the strength of these puppets could not be judged by their appearance.

Naturally, Xia ruofei could not fight against so many powerful puppets.

He was constantly paying attention to the movements of the puppets. Fortunately, his spiritual power cultivation was very profound, so he could completely cover the range of the first floor of the Tower of Trials. Therefore, the situation of these puppets quickly formed a constantly changing dynamic map in his mind.

In addition, he had the map vision provided by the perceptual mirror, so he could be said to have a very accurate grasp of the puppet's situation.

There was no obvious pattern to the search of these puppets, but because their numbers were not enough to cover the entire floor of the Tower of Trials, there would always be an opening.

What Xia ruofei needed to do was to accurately grasp these openings.

He had already found another place to hide the spirit painting. However, it was a crack in the mud wall about twenty meters away from the current hiding place of the spirit painting. However, he just happened to need to pass through this alley and enter a narrow alley opposite, so the risk of being discovered was quite high.

Xia ruofei quickly found an opportunity.

At this moment, the two groups of puppets had just passed by the entrance of the alley. Furthermore, they had not entered the alley where the spirit map painting was located, so there was no one in the alley.

Xia ruofei used his spiritual power to monitor the situation. He knew that he had about three seconds. After three seconds, another group of puppets would appear at the other end of the alley. If he did not move quickly enough, he would be discovered.

Without any hesitation, he left the spirit map space with a thought. The moment he appeared in the narrow alley of the mini town on the first floor of the Tower of Trials, he had already summoned the qushuang flying sword. He stepped on the flying sword and flew forward.

At the same time, Xia ruofei kept the painting hidden in the ditch back into his body.

Leaving the space, releasing the flying sword, flying on the sword, and putting away the spirit map scroll – the whole process could be said to be done in one go, and the total time spent was only about one second.

With two seconds left, Xia ruofei's figure disappeared in a flash and appeared in another alley.

With a wave of his hand, the spirit map scroll was accurately sent into the crack in the earth wall. At the same time, he returned to the spirit map space with a thought.

The three seconds had just passed.

At that moment, another group of puppets had appeared at the other end of the alley. However, they did not notice anything as Xia ruofei had already hidden himself carefully.

With the help of the spirit map, Xia ruofei moved from the center of the mini town to the periphery.

It was a close call several times. If he had been a little slower, Xia ruofei's figure would have been exposed to the puppet.

When Xia ruofei successfully moved to the outskirts of the mini town and hid the spirit painting in the grass outside the town, he secretly heaved a sigh of relief.

The next step was much easier because there were many shrubs and weeds growing on the hills outside the town. It was much easier to hide the spirit map scroll in such an environment.

The puppets' search was still focused on the center of the town and the nearby alleys. Although there were puppets in the outer area, the density was much lower. As long as Xia ruofei did not make any mistakes, it would be difficult for the puppets to find him.

Xia ruofei used the cover of the weeds and bushes and used the stupid method of moving bit by bit to finally successfully cross the small hill where true yang temple was located and came to the rear side.

In Xia ruofei's field of vision, there was a map of the entire first level of the Tower of Trials. He knew very well that the entrance to the second level was just behind true sun Temple. After crossing the hill, he would be able to see it very quickly.

Xia ruofei carefully avoided the puppets' search and advanced to the spot on the map that represented the entrance to the second floor.

He saw with his own eyes that the light spot representing himself and the light spot representing the entrance of the passage had overlapped. At this time, there was only a tree in front of him. This was a towering tree that required at least five people to wrap their arms around. This tree was also quite tall. It seemed to be able to reach the ceiling of the first floor of the Tower of Trials.

Could this tree be the entrance to the passage? Xia ruofei muttered in his heart.

How was he going to open the passageway? Did he have to climb to the top of the tree, knock down the ceiling, and enter the second floor? Xia ruofei suddenly had an absurd thought.

Of course, he quickly rejected this idea. The design of the Tower of Trials was so exquisite, how could the entrance of the passage be so nonsensical?

There were no puppets coming from the back of the hill, so Xia ruofei dared to stand in front of the tree and study it carefully. However, he still maintained his spiritual power so that he could react in time and hide if a puppet came close.

Just as Xia ruofei was lost in thought, he heard a burst of laughter behind him. "Hehe! Scholar Xia, I didn't think that you would really have some skills! To be able to break out of such a tight encirclement and even accurately find the location of the passage ..."

Xia ruofei suddenly turned around. When he saw old Taoist Zhen Yang standing behind him with a face full of smiles, his face revealed a look of disbelief.

He had been on high alert just now, and his mental power was released in all 360 degrees without any blind spots. In fact, he had also successfully monitored every move of the puppets in the mini town.

However, when did old Daoist Zhen Yang appear?

If he couldn't find him with his spiritual power, it meant that his strength was far inferior to his opponent's.

If old Daoist Zhen Yang really had any ill intentions towards him, he would have been a corpse by now.

“Daoist Zhen Yang ...”

Old Daoist Zhen Yang waved his hand and chuckled, “Don’t worry, scholar Xia. I’ve said it before, I won’t participate in the puppets’ hunt for you. In this trial, I’ll only be a bystander. I won’t interfere in any way!”

“Taoist priest, this trial is too difficult ...” Xia ruofei said with a bitter smile.

“Of course it’s difficult,” old Daoist Zhen Yang said with a smile. “If an ordinary person could pass it easily, would it still be called a trial?” Scholar Xia, you don’t have to doubt my words. Bringing you to the center of the town was also part of the trial mission. I can tell you now that the tree you found is the entrance to the second floor, but it’s closed now. If you don’t kill more than a hundred puppets, you won’t be able to open the entrance no matter how hard you try. If you don’t believe me, you can turn to the back and see if there’s an Eight Trigram symbol on the tree. When this Eight Trigrams symbol lights up, it means that the passage has been opened. Now that it’s not lit up, it means that you didn’t kill enough puppets ...”

Chapter 3294 News about Ling Qingxue (1)

Xia ruofei went around the tree and saw a clear Eight Trigrams pattern. However, it was currently in a dim state.

Old Daoist Zhen Yang also walked over and said with a smile, “Scholar Xia, I’ve already restrained those puppets. They won’t come within a three Zhang radius of this place, so you can talk to me in peace. Otherwise, the puppets would’ve already come.”

Xia ruofei used his spiritual power to scan and found that it was indeed the case. There was even a puppet that had already walked very close to him, but it turned around and left as if it had hit a wall.

“Thank you, Daoist priest.” Xia ruofei said, “but what’s your intention in saying this to me?”

Old Daoist Zhen Yang laughed and said, “Master Xia is an interesting person. I saw that master Xia didn’t seem to believe my words, so I went through a lot of trouble to find this passage to verify it. I don’t want to see master Xia waste any more time, so I decided to show myself and explain myself. I hope that master Xia will be able to show his true abilities and kill the puppets as soon as possible to enter the second level of the trial Pagoda. I don’t mind telling you that the record for clearing the first level of the Tower of Trials was two hours, and you’ve already wasted a quarter of an hour. If you want to break the record, you’ll have to do your best!”

Xia ruofei’s expression froze and he quickly asked, “May I ask if there are any other people who have entered the pagoda to train today? Are they in danger?”

Taoist Zhen Yang’s words had revealed an important piece of information. There had been more than one person who had passed the puppet trial of the tower of Trials and reached the second level. The fastest person had taken two hours, which was two hours to pass. Hence, Xia ruofei immediately thought of the other members of the expedition team, especially Ling Qingxue.

“Scholar Xia, what you need to do now is to complete your own trial. Everyone has their own path to walk. You can’t influence others’ path, and you can’t help everyone ...” Old Daoist Zhen Yang said with a smile.

“Daoist priest, I have a very important friend who entered this secret realm with me, but we were separated. I’m really worried about her safety. If Daoist priest knows about the situation, please let me know!” Xia ruofei said urgently.

Everyone had entered at about the same time, but Xia ruofei did not meet any of the explorers in the secret realm. If everyone had been led into the Tower of Trials by an invisible force, there might be more than one Tower of Trials. It was very likely that this old Taoist Zhen Yang knew about the situation of the others.

Xia ruofei was even doubting his previous judgment. The more he looked at Taoist Zhen Yang, the more he didn’t look like a puppet. He was a real human, and an expert whose cultivation level he couldn’t see through at all.

However, Xia ruofei could still feel that there was something different about old Taoist Zhen Yang from a real human.

However, now was not the time to think about these things. What Xia ruofei wanted to know was Ling Qingxue’s situation.

Old Daoist Zhen Yang looked at Xia ruofei and hesitated for a moment before saying, “Layman Xia, according to the rules, I can’t tell you any information. However, seeing how much you care about your Dao – companion, I’ll tell you a little! That little girl is safe for now. That’s all I can say. Don’t ask anymore ...”

Xia ruofei was overjoyed and quickly said, “Thank you, Taoist priest! Thank you, Daoist priest!”

Old Daoist Zhen Yang waved his hand and said, “Scholar Xia, you’d better think of a way to pass the puppet trial as soon as possible! This poor Daoist will take his leave!”

After he finished speaking, old Taoist Zhen Yang cupped his hands towards Xia ruofei and his figure disappeared from where he was. When he reappeared, he was already at the entrance of true yang temple, as if he had teleported.

Xia ruofei couldn’t help but click his tongue. With his strength, he could barely see that old Daoist Zhen Yang didn’t teleport, but his speed was so fast that he had already moved dozens of meters away when his afterimage had just disappeared.

But even if it wasn’t teleportation, it was already terrifying enough to be this fast.

Xia ruofei couldn’t help but think, “what is the cultivation level of this Taoist Zhen Yang?”

However, he didn’t have much time to think about it. After Taoist Zhen Yang left, there was no longer any restriction on the puppets. Soon, one of the puppets found the area where Xia ruofei was.

Xia ruofei scanned with his spiritual power and found that it was the itinerant peddler who had attacked him first in the central area of the mini town. At this time, the peddler was carrying an iron pole and walking towards Xia ruofei.

If it was just now, Xia ruofei would have entered the spirit map space. Now that he had understood the situation, he could no longer hide. It was meaningless to continue hiding. He would only be trapped in the first level and never be able to enter the second level.

Furthermore, from what old Daoist Zhen Yang had just said, it seemed that the faster one entered the second floor, the more benefits one would obtain. Otherwise, there wouldn't be a record.

The fastest person to enter the second level took two hours.

In other words, within two hours, this person had killed 100 puppets that were at the same or even higher cultivation level as him and found the entrance to the second level.

If Xia ruofei wanted to break this record, he had to end the battle quickly.

He had an advantage, and that was the perceptual mirror, so he didn't need to spend time looking for the entrance to the second floor. After completing the killing mission, he could go straight to the big tree, which would save him a lot of time.

Chapter 3295 News about Ling Qingxue (2)

Xia ruofei took a deep breath and quietly crouched down in the grass. Even if he wanted to finish the task as soon as possible, he could not act rashly. He had to try his best not to alert the other puppets. Otherwise, if they attacked him together, Xia ruofei would not be able to stand it.

Therefore, assassination was naturally the first choice.

Although the itinerant peddler was at the Golden core stage, he didn't seem to have the strong perception of human cultivators. So, he still didn't notice Xia ruofei's existence even when he was about ten meters away.

Xia ruofei had already held his breath. His spiritual energy was locked on the itinerant peddler. Beside him, the bent Frost Sword was quietly floating just an inch above the ground, ready to deliver a fatal blow at any time.

Just now, Xia ruofei had hidden all the way from the center of the mini town to the entrance of the second floor. Although it seemed like it was a waste of effort, in reality, it was not completely fruitless. First of all, he was far away from the area where the puppets were concentrated. He could assassinate the puppets that were alone on the periphery. The difficulty would definitely be much lower than killing a Path of Blood in the center. During this process, he had also become much more familiar with the sword control technique of the warped Frost Sword. He could now control the flying sword with much more ease than before.

The itinerant peddler approached the weed area where Xia ruofei was hiding. The grass was very tall, so he took down the carrying pole from his shoulder and used it to sweep the weeds away. It seemed like he was going to search deep into the forest near the big tree at the entrance of the second floor.

However, this suited Xia ruofei's wishes because the itinerant peddler's route was also heading toward him.

Eight meters, seven meters, six meters, five meters, four meters ...

The itinerant peddler approached Xia ruofei step by step. When the distance between them was only about three meters, Xia ruofei suddenly stood up and stabbed the itinerant peddler's chest.

The itinerant peddler reacted quickly. The moment Xia ruofei appeared, he was already tensed up. Just as he was about to swing his iron shoulder pole at Xia ruofei, the sword light appeared.

The itinerant peddler immediately dodged to his left, and then he knocked the iron pole forward, accurately hitting the sword light.

His pole looked like it was made of pig iron, but it was definitely made of extraordinary materials. After coming into contact with the sword light, a string of sparks flashed on the pole, but it was completely unscathed. On the other hand, the sword light had completely deviated from its course due to a heavy blow.

However, the real killing intent only appeared at this moment.

Just as the grocer took a step to the left, a flying sword flew out of the grass silently.

The itinerant peddler had just used the shoulder pole to block the sword light that he had gotten earlier, but the soundless flying sword had already accelerated and circled around the itinerant peddler's neck.

The itinerant peddler's movements suddenly froze, and the iron pole in his hand fell to the ground with a clang. Then, a Thin Red Line appeared on his neck ...

Slowly, blood began to spray out of the red line. The itinerant peddler's expression was dull, and his hands covered his neck in vain. It was fine if he didn't move, but once he moved, his head fell off directly, and a lot of blood spurted out.

The itinerant peddler was naturally dead.

"It's quite realistic ..."Xia ruofei muttered.

However, he didn't dare to delay. With a thought, he put away the two flying swords and quickly moved.

Although the itinerant peddler's death was silent, Xia ruofei could not guarantee that the puppets would not find out.

In the military, the most important rule for a sniper was to ensure the safety of his sniping position. Once there was a possibility of exposing his position, he had to change it decisively.

Xia ruofei naturally knew this.

Therefore, after he killed the itinerant peddler, he left without a word.

From the abilities that this itinerant peddler had displayed, he was actually about the same as Xia ruofei, but he was slightly stronger.

The reason why Xia ruofei could kill him so easily was because he had used a flexible tactic.

He jumped out from a position three meters away from the itinerant peddler and shot out a flying sword at the same time. All these were to attract the peddler's attention.

This flying sword was the blue immortal sword that Xia ruofei had used before. Due to the change in the rules, his original sword control technique could not control the flying sword in the secret realm. He had not mastered the sword control law of the flying sword of the bent frost. It was not a big problem to

control the bent Frost Flying sword, but it was not very good to control the blue immortal sword. Therefore, Xia ruofei did not use the sword technique. Instead, he used his spiritual energy to directly grab the blue immortal sword. Without any order, he directly stabbed it at the itinerant peddler.

As expected, the itinerant peddler was also fooled, and his attention was completely attracted.

The real killing move was the flying sword of the bent frost hidden in the grass.

As the itinerant peddler dodged and used his iron shoulder pole to block the blue immortal sword, the qushuang flying sword flew out from the grass to the side without anyone noticing.

At this time, the salesman had just exhausted his old strength and had not yet recovered. Even if he had discovered the sword, it would have been very difficult for him to Dodge it since his body was in a temporary state of paralysis, not to mention that he hadn't even noticed the flying sword coming from the side. Naturally, his death wasn't unjust at all.

Xia ruofei quickly hid in a Bush about 20 meters away from the place where the itinerant peddler was killed. He spread out his spiritual power and searched for the puppets that were alone.

At that moment, Xia ruofei saw the word " 1/100" in his perceptual vision. Beside the line of words, there was a timer that showed that he had 17 minutes.

Obviously, the former was to record the number of puppets he had killed, while the counter at the side was to calculate the time he had spent since he had started the mission.

The more Xia ruofei looked at it, the more he felt that this sensory mirror was not a magical treasure of the cultivation world. Instead, it was more like a technological product.

Indeed, whether it was the map interface, the mission Status display, or other information, the interface was full of a sense of technology. It gave Xia ruofei the feeling that it was a big production game.

Xia ruofei did not have the time to study the interface of the perceptual mirror. His top priority was to kill as many puppets as possible.

If possible, he would prefer to have a one – on – one assassination instead of entering the town's central area.

However, he was also very clear that it might be possible at the beginning, but the puppets would definitely not keep coming to kill him. In the end, he would either go to the center of the town to find new prey by himself, or the puppets would form a team to search for him instead of acting alone.

Considering that there were two original leveled cultivators among the puppets, Xia ruofei had to be very careful. He had to fight for time, but he had to ensure his own safety.

For example, Xia ruofei had just hidden himself when he noticed two puppets coming together on the mountain path. The information from the perceptual mirror showed that one of the two puppets had the strength of an early – Stage golden core cultivator and the other was a mid – Stage golden core cultivator.

With Xia ruofei's combat ability, he could take care of the two puppets at the same time.

However, it would certainly cause a great commotion. It was impossible to kill him silently like how he had dealt with the itinerant peddler just now.

This would definitely attract a large number of puppets.

Hence, Xia ruofei decisively chose to give up and let the two puppets pass. He continued to lie in the bushes, not moving.

In fact, Xia ruofei had also realized that even though the weakest of these puppets was at the beginning stage of the Golden core realm, they did not have the keen perception of human cultivators of the same level. Perhaps they did not have any mental power at all, so even if Xia ruofei was hiding very close to them, as long as Xia ruofei hid well, the puppets would not notice him at all.

Xia ruofei didn't know if the original infant stage puppet didn't have strong perception. If it did, then the difficulty of this mission would be much lower.

After all, the space of the first floor was so small. If each puppet had the strong perception of a human cultivator, he would have no way to hide. Then the difficulty of this task would be too great, and there was no possibility of completing it.

Xia ruofei thought to himself as he continued to search with his spiritual power.

Soon, his eyes lit up.

Thirty meters ahead, a puppet in the shape of an old man was slowly approaching. The perception mirror showed that this was a puppet with the strength of the late stage of the Golden elixir realm, and there were no other puppets in his vicinity.

Xia ruofei was excited. He hid in the bushes and held his breath.

Xia ruofei stared unblinkingly at the old puppet that was getting closer and closer. The qushuang flying sword and the blue immortal sword both appeared silently and floated beside him ...

Chapter 3296 Crazy assassination_

Xia ruofei used the same tactic as when he killed the itinerant peddler. Without much effort, he killed the old puppet, who was obviously at the advanced stage of the Golden elixir realm.

The count in the perceptual mirror's field of view had become 2/100.

After two successful attacks, Xia ruofei realized that although these puppets looked powerful, they were still far from comparable to human cultivators.

This gap was not only reflected in the ability of perception.

The puppets' reaction speed was also slower than human cultivators. In addition, they were often easily tricked by some cunning tactics.

Just like Xia ruofei's diversion tactic, it had succeeded twice in a row. This old puppet was the same as the previous itinerant peddler. There was no reaction at all. No matter how strong his cultivation was, he would not survive if his neck was cut by the flying sword.

Next, Xia ruofei hid near the small hill and changed his position after each shot. He kept ambushing the puppets that were left alone.

Time continued to pass. When the timer showed half an hour had passed, Xia ruofei had already killed 15 puppets.

At this rate, he could at most kill 60 puppets in two hours. It was clearly far from enough.

Furthermore, it would be even more difficult to kill the puppets later on.

Hence, if Xia ruofei wanted to break the record, he had to speed up.

He used his mental power to search again and felt that he could not stay in this relatively safe comfort zone. Otherwise, he might not be able to complete the task of killing 100 puppets even if he was given another four hours, let alone two hours.

Hence, Xia ruofei decided to move closer to the center of the town. After all, most of the puppets were still active in that area. Only a small number of puppets had come to the outer area. Now that Xia ruofei had cleared most of them, if he continued to wait here, it might take a long time before the puppets would occasionally come over.

Xia ruofei carefully stood up from the grass and ran down the hill.

When they passed by the true yang temple, Xia ruofei looked at the tightly shut gate and scanned the temple with his spiritual power. However, he only found the Taoist child Qing Feng. As for the quiet room in the back hall, his spiritual power could not penetrate it at all.

Xia ruofei's heart trembled and he quickly retracted his spiritual power.

That old Taoist Zhen Yang was becoming more and more mysterious in Xia ruofei's eyes. He didn't want to provoke such an old monster.

Xia ruofei continued to walk in the direction of the small town. Suddenly, he realized that two puppets were walking side by side out of the small town and towards the true yang temple.

He had noticed the two puppets the moment he raised his head. He did not need to search with his mind power at all.

Of course, this also meant that Xia ruofei was also exposed to the two puppets' vision. So, almost like a conditioned reflex, he dodged and hid in the grass at the side.

The two puppets had just turned around. They must have seen a suspicious figure, but they could not confirm that it was Xia ruofei. Hence, the two puppets quickened their steps, wanting to investigate.

Xia ruofei lay motionless in the grass. He even stopped breathing. He knew that the two puppets had their attention on them. If there was any movement, they would notice.

At that time, he might even shout loudly and summon more puppets.

Previously, when he encountered two puppets moving together, Xia ruofei would usually avoid them. If he really couldn't avoid them, he would simply hide back in the spirit map space and wait for the puppets to leave before coming out.

However, Xia ruofei felt that it was not a good idea to keep hiding. Besides, the two puppets were both in the beginning stage of the Golden elixir realm. They should be a couple in the town, so they were holding hands as they walked. The young girl even had a happy smile on her face.

He had already taken out the qushuang flying sword and the blue immortal sword. They were quietly floating beside Xia ruofei, almost touching the grass.

Now that his opponents were two puppets, the tried – and – tested diversion tactic was clearly no longer suitable.

The two puppets were getting closer and closer. Xia ruofei's brain was spinning rapidly, hoping to find a solution in the shortest time possible.

The more urgent the situation was, the calmer Xia ruofei's mind would be.

He saw the two puppets holding hands intimately and quickly formulated an attack plan.

At that moment, the two puppets were already close to Xia ruofei.

Xia ruofei was still holding his breath and lying in the grass, motionless. However, the two flying swords had already moved silently and arrived behind the two puppets.

Xia ruofei used his spiritual power to lift the flying sword, carefully avoiding the dense grass. At the same time, he tried to slow down and not make any sound.

The two puppets were completely unaware of the danger behind them. Their attention was focused on what was in front of them, and the two of them were searching carefully while holding hands.

At this moment, the blue traveling immortal sword suddenly flew out of the grass and stabbed at the female puppet with a sharp whistling sound.

The two puppets sensed the danger at the first moment and turned around at the same time. At this time, the blue immortal sword was almost about to Pierce the female puppet's chest.

The male puppet's expression changed drastically, and he quickly extended the blade in his hand, blocking the blue immortal sword in a flash.

However, the two puppets didn't notice that the flying sword of qushuang, which was really hidden beside them, was attacking the male puppet like a ghost. The speed of the flying sword of qushuang wasn't as fast as the blue immortal sword and its momentum wasn't very strong, but it won in concealment and almost didn't make any sound.

Chapter 3297 Crazy assassination_

The male puppet's attention was all on the blue travel immortal sword. He was bent on saving the female puppet. He did not expect that Xia ruofei's real target was not the female puppet but him.

The qushuang flying sword and the blue travel immortal sword flew out of the grass one after the other. There was a time difference.

The blue travel immortal sword was completely used to attract attention. Different from the previous tactics, the target of the blue travel immortal sword this time was the female puppet. Its purpose was to attract the attention of the male puppet and attack her to save her.

As expected, the male puppet was fooled, and it did not realize that danger was approaching.

The flying sword of qushuang silently flew over from the side, and only when it neared the male puppet did it suddenly accelerate, stabbing straight into the male puppet's neck and instantly piercing through it.

Blood gushed out from the wound, and the male puppet's eyes widened. He wanted to open his mouth and scream, but because his windpipe had been completely punctured, he could only make a hissing sound in vain.

At the same time qu Shuang's flying sword stabbed the male puppet, Xia ruofei had already stood up from the grass.

At this moment, he was only three to four meters away from the two puppets. Moreover, the two puppets had turned around because of the sneak attack from the blue immortal sword. Hence, Xia ruofei was right behind them.

Xia ruofei didn't care about the male puppet's condition at all because he was very confident in his control of the flying sword. Although the qushuang flying sword didn't cut off the male puppet's head, it had pierced through the side and stirred inside. It was definitely dead.

Hence, when Xia ruofei emerged from the bushes, his only target was the female puppet.

The female puppet had just been attacked and was in a state of panic. Although the male puppet blocked the blue immortal sword with his machete before he died, he also died instantly. The female puppet saw this scene with her own eyes and was completely stunned. Her body suddenly became stiff.

Xia ruofei had been waiting for this moment. He pounced on the female puppet from behind. By the time the female puppet heard the commotion behind her, it was already too late. She only had time to turn her head around before Xia ruofei's palm had already landed on her.

The moment the female puppet turned around, Xia ruofei's palm landed on her forehead.

Xia ruofei had used all his strength in this attack. A violent vital Qi was spat out from his palm, and the inside of the female puppet's head was instantly stirred up.

At this moment, the male puppet's body had just fallen to the ground.

From the blue immortal sword's feint to the bent Frost Sword killing the male puppet to Xia ruofei personally killing the female puppet, although there was a time difference, it all happened in a flash. The total time was only two to three seconds.

The two puppets fell to the ground one after another. They did not even have the time to scream or cry out in shock before they were killed by Xia ruofei silently.

It had to be said that the factor of tactical design played a big role in this.

Of course, it was also because these two puppets were only at the early Aurous core stage.

Although Xia ruofei was also at the beginning stage of the Golden core realm, ordinary cultivators at the beginning stage of the Golden core realm were no match for him, let alone the puppets that were weaker than human cultivators.

Due to the combination of many factors, Xia ruofei's mission progress was now 17/100.

Xia ruofei had two puppets drag him into the grass. He then kept his two flying swords and continued to move carefully towards the center of the town.

On the way, he was lucky enough to meet two puppets that were alone. Xia ruofei was now able to deal with one puppet at a time. He used the sensory mirror to check the strength of the puppets and after confirming that he was not unlucky enough to meet a puppet of the original infant stage, he easily killed the two puppets.

Xia ruofei had already realized that even if it was a late – Stage golden core puppet, it would still be relatively easy for him to assassinate it in the dark if it was a one – on – one battle.

Of course, this was also because of Xia ruofei's outstanding strength. Even when facing human cultivators, he could still challenge them. The strength of puppets was generally lower than human cultivators of the same level. For Xia ruofei, it was not difficult at all.

In other words, as long as Xia ruofei did not encounter a group attack or two original infant stage puppets, he could easily kill them.

Gradually, Xia ruofei stepped onto the bluestone Street of the mini town.

However, he quickly hid in a small alley.

There were still many puppets on the street, and if he were to slow down even a little, he would be discovered immediately.

In comparison, those small alleys were actually a little safer.

Of course, there was also a hidden danger in the alley. It was very likely that they would run into the original infant stage puppet that had not shown its face yet.

Choosing the lesser of two evils, it was obviously not the time to fight for his life yet. Hence, Xia ruofei chose the alley. This way, he could make full use of his advantage in searching with his spiritual power while avoiding encountering too many puppets at the same time.

His mental energy was constantly operating at high speed, and he knew the situation of the puppets in the alley like the back of his hand.

Although this mini – town was not big, there were still many small boxes on both sides of the main street. These alleys extended in all directions, and some of them were about two feet wide. When two people crossed each other, they had to turn sideways to pass through.

Xia ruofei quickly found his target in the alley.

The two puppets searched the alley, but there were no other puppets in the nearby alleys.

Of course, Xia ruofei would not let go of such an opportunity. He immediately dashed forward.

He unhesitatingly launched an attack from behind the two puppets.

The qushuang flying sword and the roaming Jade immortal sword simultaneously attacked the two puppets from the left and right while he himself also rushed forward at high speed.

One of the puppets dodged the blue travel immortal sword's attack, but the other puppet was a step slower and didn't manage to completely Dodge, so one of its arms was cut off by the qushuang flying sword.

To the puppets, this kind of damage was nothing. Their vital point was their head.

However, this was not the only wave of Xia ruofei's attack.

The qushuang flying sword's momentum didn't decrease and it directly attacked another puppet. Xia ruofei's own target was also the unscathed puppet.

He took a mysterious step forward and attacked the puppet from the left and right along with the qushuang flying sword.

The trajectory of the qushuang flying sword was very strange. In fact, this was the sword technique of the noble Sword. The puppet was struggling left and right and looked very embarrassed. Xia ruofei quickly found its weakness and made use of the full – Power attack of the qushuang flying sword. He stepped sideways and arrived in front of the puppet. Then, he punched the puppet's head.

The puppet with the strength of the intermediate stage of the Golden elixir realm did not Dodge at all. Its head instantly exploded and it was dead.

The other puppet didn't care about its bleeding wound. It immediately shouted and attacked Xia ruofei at the same time.

After Xia ruofei had killed the puppet with intermediate golden core strength, he didn't stop at all. He stomped on the ground and flew out. At the same time, he kept the blue immortal sword and the qushuang flying sword into his body.

Xia ruofei did not linger in the battle. He did not care about the puppet that was chasing after him. In a flash, he disappeared into another alley.

At this moment, the puppets in the center of the town had been alerted, and they rushed to this position from all directions.

Xia ruofei's brain was working at high speed. After analyzing the situation detected by his spiritual power, he went into a side alley without hesitation.

The one – armed puppet had already issued a warning, so Xia ruofei gave up decisively. His figure was like a ghost, moving through the big and small alleys. Soon, he broke out of the encirclement before it formed.

Xia ruofei hid in the shadows of the alley and used his spiritual power again to check on the situation of the crickets. After they were alerted, their distribution of forces had changed greatly.

Xia ruofei suddenly realized that this might be the most suitable way for him to be an assassin hiding in the shadows, quietly dealing a fatal blow to the enemy ...

Chapter 3298 A hair on the neck (1)

From a military point of view, street battles were often extremely tragic. Both sides would fight to the death in a small area, and the forces of both sides would clash. Heavy weapons would be completely useless, and the side with the advantage in strength could also face heavy casualties.

This was the tactic that Xia ruofei was using.

The only difference was that there was a huge difference in strength between the two sides. Xia ruofei was alone against hundreds of golden core stage puppets and two nascent Soul Stage puppets.

This increased Xia ruofei's danger, but at the same time, it was easier for him to hide because he was a small target.

Xia ruofei liked the feeling of delivering a fatal blow while hiding in the dark. It was as if he had returned to the time when he was in the military. There was a time when he was a full – time sniper in the team. Whether it was in a drill or in actual combat that could not be reported, he had the experience of reaping heads.

Xia ruofei seemed to be doing the same thing.

His figure shuttled through the alley. Every time a puppet was left alone, he would appear behind it like the god of death and use the qushuang flying sword to cleanly harvest its head.

Xia ruofei was efficient every time he attacked. He would kill in one strike almost every time. Then, regardless of whether he was exposed or not, he would quickly hide and patiently look for the next opportunity in the dark.

20/1

30/1

40/1

.....

Xia ruofei's killing speed was increasing rapidly, and the mission progress on the perceptual mirror was constantly refreshed.

During this process, Xia ruofei's control of the qushuang flying sword became more and more proficient.

Even now, when he encountered three puppets forming a team to search for him, he would still act decisively.

Of course, he didn't aim to wipe out the three puppets in one go. He would usually appear when they were caught off guard, cut off one or two puppets 'heads, and then quickly escape.

This way, his efficiency naturally increased a lot. Only an hour had passed, and his mission progress bar had become " 50/100."

He had completed more than half of the mission in about an hour. Compared to the cultivator who had completed the mission in two hours, which was two hours, Xia ruofei was not slow at all.

What's more, he had wasted a lot of time at the beginning of the mission. If this part of the time was taken out, his efficiency was much faster than the record keeper.

Xia ruofei had completely found his rhythm. He was like a fish in water in the dark and narrow alley.

His expression was very calm, but his eyes were sharper than an Eagle 's. Most of the time, when a puppet appeared alone, he would have already sneaked behind it.

The mission progress bar continued to move forward. Xia ruofei had used one and a half hours to kill 88 puppets.

There were 12 puppets left, and there was still half an hour left. At this rate, Xia ruofei would definitely break the record.

In fact, Xia ruofei thought so too. After killing so many times, his confidence had exploded.

Even though he was very close to the record, Xia ruofei did not relax. On the contrary, he became calmer.

There were only about 200 puppets in the mini town. Now that Xia ruofei had killed 88 of them, the mini town seemed even more empty.

This was good news for Xia ruofei. As the number of puppets decreased, they naturally could not maintain their current search.

Of course, it was not all good news.

Most of the puppets that were left behind were difficult to deal with. They were either strong or used to moving in groups. In short, they were the kind that Xia ruofei found difficult to deal with.

He had to pick the soft persimmons first. Now that he had basically crushed all the soft persimmons, Xia ruofei had to crush the hard persimmons. If he wanted to complete the mission and break the record, he had to face the reality that it was getting harder and harder to kill.

Xia ruofei hid in the shadows and scanned the area with his spiritual power.

Now, the remaining hundred or so puppets, including the animal puppets, were basically moving in groups. It was almost impossible to find a single one.

What was even worse was that these teams of five or six people were often all late – Stage golden core cultivators.

Xia ruofei clearly knew that if he rushed out rashly, he might not even be able to kill a single puppet. Instead, he would be surrounded and would not be able to escape.

Therefore, he constantly changed his position to avoid the puppets 'search. Other than that, he did not rush out on a whim.

Ten minutes passed quickly.

If Xia ruofei wanted to break the record, he only had 20 minutes left.

Finally, he had found a rare opportunity.

The five puppets actually split up at the entrance of an alley. Three of the puppets went left, while the other two went right.

Xia ruofei immediately used the perceptual mirror to check on the five puppets.

He realized that the two puppets that were with him were at the late – Stage of the Golden core realm. The other three puppets were at the mid – Stage of the Golden core realm and the two at the early – Stage of the Golden core realm.

Xia ruofei did not hesitate to give up on the combination of two puppets. He turned and chased after the three puppets.

On the way, he hid in another alley twice to avoid being discovered by other puppets.

Fortunately, his mental power had already locked on to these three puppets. At the same time, he was also sensing the situation in the other alleys, so he was always able to find the safest route to approach the three puppets.

Finally, the three puppets found a dead end. Xia ruofei had also reached the entrance of the alley. Without hesitation, he sped up and rushed into the alley.

Chapter 3299 A critical moment (2)

The blue travel immortal sword and the qushuang flying sword whistled as they attacked the three puppets.

At the same time, Xia ruofei didn't hold back. His body flashed wildly and he pounced on the three puppets.

The three puppets couldn't react in time. The weakest puppet was killed by qu Shuang's flying sword. Although the other two puppets dodged the attack in time, Xia ruofei had already arrived in front of them. With the help of the two flying swords, Xia ruofei's attacks were extremely fierce.

Soon, the other early gold core puppet was unable to Dodge in time and a deep gash was cut on its body. The sight of blood spurting out from the wound was terrifying.

However, Xia ruofei knew that this level of external injury would not affect these puppets at all. They probably would not feel any pain either, so he was not too optimistic.

This was because after the two puppets had reacted, they were still in a passive defensive state. Although they were unable to turn the situation around after being attacked, they were still calling for their companions as they dodged. Xia ruofei's spiritual power had been spreading out the whole time. He had already sensed that a large number of puppets were starting to gather in this direction.

Xia ruofei didn't retreat immediately after missing his attack like he did before. This was because it was a dead end. If he retreated, the two puppets would definitely pursue him. If a large number of puppets surrounded him, the situation would be even worse.

Xia ruofei had already considered such a situation when he decided to kill the three puppets in this terrain. He had also made an emergency plan in the shortest time possible.

Now, Xia ruofei was still gritting his teeth. His attacks did not decrease but increased instead. The qushuang flying sword and the blue immortal sword both made whistling sounds. The sharp sword light circled around the two puppets at a rapid speed, leaving them with no power to fight back.

Xia ruofei's mind power was constantly monitoring the situation around him. The puppets were getting closer and closer. At this time, the early golden core puppet could not hold on any longer. When Xia ruofei kicked him, he barely dodged. However, his feet slipped and he lost his balance.

It was too late to adjust. The flying sword of qushuang had pierced through his head from a strange angle.

Xia ruofei didn't even have the time to catch his breath. He didn't even check on the puppet's condition. He directly controlled the qushuang flying sword and made a beautiful arc. Together with the blue immortal sword, he attacked the last intermediate gold core puppet.

In at most five seconds, the other puppets would appear at the entrance of the alley.

Xia ruofei used all his strength and even tried to use his mental energy to control the qushuang flying sword and the blue immortal sword to attack the puppet from two different angles according to the noble sword's moves.

In this one hour of killing, Xia ruofei had pushed himself to the limit. Now, Xia ruofei's understanding of the special Sword Art in this secret realm was getting deeper and deeper. He could use this Sword Art to control the blue immortal sword and gradually achieve a smooth and seamless control. Although it was not as smooth as controlling the flying sword of the qushuang, he could still use the sword technique of the noble Sword.

The noble sword's sword techniques were very exquisite, and its attack angles were often inconceivable. In addition, the two flying swords were attacking at the same time, so the puppet immediately found it hard to hold on.

Xia ruofei did not stay idle either. He also launched a fierce attack on the puppet. His attacks were often focused on the weak points of the puppet's defense, making it look even more pathetic.

Four seconds, three seconds, two seconds ...

When there was only one second left, Xia ruofei finally found a fatal flaw. The qushuang flying sword and the blue immortal sword slashed the puppet's neck from two different angles. The puppet's head flew off instantly.

At this moment, Xia ruofei's spiritual power had already detected that the two fastest late – Stage golden core puppets were about to appear at the entrance of the alley.

After killing the puppet, he did not hesitate at all. With a wave of his hand, a black shadow flew over the wall next to the dead end.

At the same time, his figure disappeared into thin air. After the two flying swords slashed the two puppets' necks, Xia ruofei immediately kept them and disappeared without a trace.

Naturally, Xia ruofei had tossed out a spirit map scroll. He had already scouted this dead end before he entered it. The innermost part of this dead end was the backyard of a dilapidated house. It was overgrown with weeds. His spiritual power had also detected that there were no puppets in the house. He did not know if the house was abandoned or if the puppets had left the house to search for Xia ruofei.

When he attacked the three puppets, he had already thought it through. Even if they issued a warning, he had to continue attacking. He had to kill them before the other puppets arrived to rescue him. Otherwise, his act of taking out the spirit map and hiding in the courtyard next door would not be able to escape the puppets.

Although the three puppets were much more difficult to deal with than he had expected, it was a good thing that he was not in any danger. In the end, he managed to kill them at the last moment.

The puppet was about to reach the entrance of the alley, so Xia ruofei did not have much time to think. He threw the painting out. Fortunately, he had precise control and the painting fell into a dense bush.

As soon as Xia ruofei disappeared, the two late – Stage golden elixir realm puppets arrived at the entrance of the alley.

When they saw the corpse that Xia ruofei had left behind after killing the puppet, their expressions changed and they hurried over.

It was not that Xia ruofei did not want to destroy the corpses. He had tried to put the puppets he had killed into the spirit map space before. On one hand, it was to avoid leaving any traces and alerting the other puppets. On the other hand, he also had a glimmer of hope that he would have the opportunity to study this puppet in the future. Perhaps he could repair it and put it into use in the spirit map space. These puppets were indeed a little stupid, but no matter how stupid they were, they were still golden core puppets! It was much better to be a Coolie in the medium than those ordinary people.

However, it was impossible for such an obvious bug to exist. The corpses of these puppets simply couldn't be stored in storage magic treasures. It was obvious that the Almighty who set up this trial Pagoda had long considered this.

Hence, when Xia ruofei was assassinating the puppets, he had hidden their bodies in the grass or bushes to cover up his tracks.

It had happened in a flash just now, so he obviously didn't have time to do these things. He could only hide in the spirit map space to avoid detection, and the three puppets' bodies were left in place.

The two late Jindan puppets rushed to the scene of the assassination and investigated with shock and anger on their faces. At the same time, more puppets rushed over from different places and soon surrounded the alley. Many puppets even jumped onto the courtyard wall and searched around.

If Xia ruofei did not have the spirit map, he would not have been able to escape in such a short period of time. Furthermore, he would have become a bigger target if he had jumped onto the wall and would have been discovered by the puppets even faster.

Now, the puppets were using this dead end as the center to look for Xia ruofei. Where could they find him?

The puppets didn't notice the spirit painting scroll hidden in the grass at all.

As soon as Xia ruofei entered the spirit map space, he released his spiritual power and kept an eye on the situation outside.

He saw the puppets running around like headless flies, but they couldn't find him at all. He couldn't help but show a smug smile.

The battle just now had been extremely dangerous. If he had been just a little bit slower, he would have been exposed to the sight of the two puppets who had arrived the earliest. If that had happened, he would not have had the chance to hide in the spirit map space.

Xia ruofei stood on the top of the mountain in the mountain sea realm of the spirit map space, patiently waiting for the puppets to leave. If these puppets could not find their target, it was impossible for them to continue gathering here.

At this moment, Xia ruofei's spiritual power sensed a powerful aura approaching rapidly from a distance. His expression froze and he quickly retracted his spiritual power ...

Chapter 3300 The wonderful journey of the spirit painting scroll (1)

Xia ruofei was almost certain that it was a nascent Soul Stage puppet. He retracted his spiritual power without hesitation. However, as he was the owner of the spirit map space, he could still see what was going on outside. It was just that the coverage was not as wide as his spiritual power. It was basically within the range of a normal person's vision.

Therefore, Xia ruofei was still spying on the outside world. However, he could not spread out his spiritual power as freely as before. Now, he was just looking outside. His field of vision was very narrow and he could not sense anything further.

Xia ruofei saw a white – haired old man dressed in coarse clothes jump into the overgrown courtyard. His eyes were as sharp as an Eagle's as he scanned the area from left to right.

His gaze quickly fell on the spirit map scroll hidden in the grass.

The little old man's brows furrowed slightly as he walked over.

Xia ruofei's heart clenched, but there was nothing he could do. He could only watch as the old man approached the painting step by step.

Although the old man did not show any cultivation, the strong aura on his body made Xia ruofei not dare to try his luck. He knew very well that this old man must be one of the two original infant stage puppets.

Now, it was obvious that the other party had their eyes on the spirit map. Even if Xia ruofei suddenly appeared from the spirit map, he would not have the confidence to escape from the hands of a nascent Soul Stage puppet. Moreover, he would have completely exposed the spirit map and would not have any more trump cards.

Xia ruofei looked at the old man nervously.

The little old man dressed in coarse cloth split the grass apart and ran straight for the spirit map scroll.

Very quickly, the spirit painting was revealed to the little old man.

The little old man's face carried a trace of doubt as he reached out and grabbed the spirit painting scroll.

Xia ruofei's heart was about to jump out of his chest. It was the first time he had encountered such a dangerous situation since he obtained the spirit map.

The spirit painting scroll was his most important trump card. Now that it was in the hands of the other party, he was in a rather passive position.

The little old man took the painting and studied it for a long time. A curious look gradually appeared on his face. Then, he slowly unfurled the painting ...

Xia ruofei's heart sank. He subconsciously thought of something and disappeared from the peak of the mountain. He entered the stone chamber in the cave.

This was because he knew very well that the contents of the spirit map scroll would reveal the situation of the mountain and sea realm in the spirit map space. At the same time, there was also a corner in the scroll that displayed the situation of the Archean realm.

If he continued to stay on the mountain peak, he would be displayed in the spirit painting scroll. He couldn't guarantee that the little old man wouldn't notice the details in the painting scroll. If he was recognized by the little old man, he would definitely attract a lot of attention, and he might never be able to get back the spirit painting scroll again.

Although Xia ruofei had entered the stone chamber, he could still sense the situation outside. He did not dare to relax for even a moment as he kept an eye on the little old man's every move.

Xia ruofei believed that as long as he didn't appear in the painting, the old man wouldn't feel anything wrong with the mountain sea realm herb gardens, rice fields, or even the ginseng of the Archean realm.

The little old man held the spirit painting scroll and was really interested in the contents presented on it, carefully looking from left to right.

Fortunately, the picture presented by the spirit painting scroll would be fixed at the moment it was unfolded. It should be known that the free labor captured from the assassin organization was still working in the paddy fields. If the picture was dynamic, what the little old man saw would not be a picture, but a dynamic movie.

Xia ruofei was also glad that he had made the decision to hide in the stone room in the cave. The screen only showed the entrance of the stone room, and the situation inside was not shown.

If he had been a little later just now, he would definitely have been left in the image.

At that time, if the little old man recognized him, it would be hard to predict what the outcome would be.

However, the current situation made Xia ruofei very nervous. The old man was looking too closely like a child who had seen an extremely fun toy and was reluctant to put it down.

Xia ruofei cursed in his heart.

Perhaps the old man did not realize that the painting had anything to do with Xia ruofei. However, even if he was just interested in the painting, it was still a pain in the ass.

Xia ruofei had a bad feeling.

Sure enough, after the little old man finally finished looking at it, he slowly rolled up the painting scroll and then actually put it on his belt, obviously wanting to keep it for himself.

Xia ruofei could not help but feel anxious.

However, he had no other choice. The difference between the nascent Soul Stage and the Golden core stage was huge. If Xia ruofei broke through to the late golden core stage, he might be able to fight against the nascent Soul Stage cultivators. Even if he was in the late golden core stage, it would be extremely difficult for him to defeat ordinary cultivators in the early nascent Soul Stage. As for him, who was only in the early Aurous core stage, he had no hope of posing a threat to a nascent soul cultivator, let alone taking the spirit map scroll from a nascent soul cultivator and retreating in one piece.

Hence, Xia ruofei could only watch helplessly as the old man in coarse clothes inserted the spirit map scroll into his belt.
