Chapter 3481: How many are happy and how many are sad (1)

In the endless darkness of the universe, the distance between the Earth and the Moon was actually very close. It was about 300000 kilometers. Light only needed a second to reach the moon from the earth.

However, it was a long journey for the black Phoenix flying ship and its spaceship mass that was travelling between the Earth and the Moon.

The black Phoenix flying ship dragged the spaceship mass through space for about a month before slowly approaching earth.

The Blue Planet grew larger and larger in everyone's vision, and eventually took up the entire field of vision. However, they could still roughly see the outline of the earth from the huge arc in the distance.

On the way, everyone took turns to be on duty and cultivate, and the arrangements were orderly.

As for masker's Dragon Ship and combined cabin, they were also very impressive and did not have any problems.

Therefore, although the journey was lonely and boring, it was relatively smooth.

At this point, the black Phoenix flying ship and the spacecraft were already approaching low – Earth orbit. According to the plan, everyone should be transferred to the black Phoenix flying ship.

Xia ruofei controlled the black Phoenix flying ship and made an arc across the sky. At the same time, he slowed down the speed of the black Phoenix flying ship. The Flying Ship was not connected to the spacecraft. If he slowed it down, the spacecraft would definitely crash into it.

Finally, everyone put on their spacesuits and left the cabin in an orderly manner.

Xia ruofei was still the first to return to the black Phoenix flying ship.

Chen Xuan was the last to exit the cabin. After closing the cabin door, he untied the cables and returned to the black Phoenix flying ship.

Xia ruofei had an idea and kept the spacecraft in the spirit map space. Although the spacecraft was no longer useful, he could not let it float in low – Earth orbit for a long time. There were spacecraft and satellites from various countries everywhere in the sky. If it was photographed, it would definitely cause a huge uproar. Furthermore, if the spacecraft was not adjusted for a long time, it would eventually fall into the atmosphere. If it really landed somewhere on Earth, it would be a bunch of trouble.

Since masker had risked his life to provide Xia ruofei with spacesuits and spacesuits, Xia ruofei could not cause any trouble for him.

After everyone returned to the black Phoenix flying ship, Xia ruofei started the Flying Ship and continued to head towards earth.

Soon, the Flying Ship entered the atmosphere and flew across the sky.

When the altitude dropped to about 3000 meters, everyone took off their spacesuits. At this altitude, the oxygen content was more than enough. Even ordinary people could survive, let alone the cultivators.

Everyone took a deep breath at the same time. They had been breathing in the air on Earth for decades, but this was the first time they felt that the air was so familiar.

Everyone left the cabin and stood on the deck of the black Phoenix flying ship, looking down.

At this moment, the flying boat was flying across the sea at high speed, and below it was the Pacific Ocean.

When Xia ruofei was controlling the black Phoenix flying boat, he had deliberately avoided the traditional flight route. Even if an aircraft deviated and passed through this area, the cruising altitude of the cross – Ocean flight was more than 10000 meters. An altitude of about 3000 meters could be said to be very safe. At this altitude and area, the probability of colliding with other aircraft was much lower than winning the lottery.

Moreover, Xia ruofei had been releasing his spiritual power to explore the area. If something like that happened, Xia ruofei could avoid it with his current spiritual power and reaction speed.

Xia ruofei continued to control the black Phoenix flying ship as he said, ""Fellow Daoists, we'll be able to return to Huaxia after crossing this Sea area. You've had a hard journey!"

"Brother RUO Fei, you're the one who's been working the hardest!" Chen Xuan replied, "without you controlling the black Phoenix flying ship, we would never have been able to reach that secret realm!"

"That's right! "Yang Liu said with a smile. Fellow Daoist Xia has also made great contributions in cracking the rising Dragon Order. Speaking of which, we're all benefited from this!"

Xia ruofei smiled and said, "without the token provided by everyone, there's no way to crack it. There's no need to be so polite." We can be considered to have gone through life and death together, this is not something that an ordinary friendship can compare to!"

As they talked, they enjoyed the scenery below the airboat.

In fact, it was night time, and the sea below was the same, so there was nothing to see. However, they had been away from home for more than two months and spent most of their time traveling in the dark space, so even if it was just the monotonous sea, everyone was still enjoying it.

The black Phoenix flying ship was extremely fast and crossed the Pacific Ocean in no time. Xia ruofei controlled the black Phoenix flying ship to lower its altitude again and turned South at the same time.

The black Phoenix flying ship soon arrived above Nanhai province.

Xia ruofei scanned the area with his mind power and roughly determined the direction. Then, he steered the black Phoenix flying ship towards the holiday residence where they had first set off.

Southshore province, qiongya city suburbs, yexun resort.

At this moment, it was already close to midnight, and the surroundings were silent.

More than two months ago, the coconut rhyme resort had closed for renovation. There were no tourists in the huge resort, so it looked even more deserted.

This Holiday Manor was one of the first heaven society's businesses in the secular world. In order to receive Chen Nanfeng, Mu Sheng, Liu Mansha, and the others, the entire Holiday Manor had been cleared out and was no longer open to guests.

Xia ruofei's exploration team took the black Phoenix flying ship and headed straight to the moon. Chen Nanfeng and the rest did not leave and stayed there..

Chapter 3482: How many are happy and how many are sad (2)

Chen Nanfeng and the others had high hopes for this Mystic realm exploration.

The complex encryption method, the magical screening of music, the secret realm hundreds of thousands of miles away...

All of this meant that the mystic realm they were exploring this time was of a higher level than all the mystic realms they had explored before, and it was likely to contain huge opportunities.

Two to three months 'time was nothing to golden core stage cultivators like Chen Nanfeng. Sometimes, even a casual closed – door cultivation would take longer than that. Hence, the three sect leaders stayed at the resort Manor and waited for Xia ruofei and the rest to return.

As a result, the reopening of the resort Manor was far away.

In such a large Manor, there were only three sect leaders living there. There were also some Qi refining disciples who were in charge of security work. The original staff of the manor had been temporarily dismissed. However, they were not fired and their salaries were still paid. However, while Chen Nanfeng and the others were living in the manor, ordinary staff were not allowed to enter the manor.

At this time, the empty resort was very quiet. In the three small villas, Chen Nanfeng, Mu Sheng, and Liu Mansha were all cultivating with their legs crossed.

In the secular world, the spiritual Qi was extremely heterogeneous. One could only cultivate at midnight and noon. At other times, one could only cultivate with the help of spiritual crystals and origin crystals, and could not absorb the spiritual Qi in the air at all.

Therefore, in order to save cultivation resources, the three sect leaders would start cultivating at midnight or noon. This way, they could more or less increase their cultivation, and they didn't need to consume spirit crystals or origin crystals.

Chen Nanfeng was the first to notice the black Phoenix flying ship.

He, who had been cultivating, suddenly opened his eyes and released his spiritual power to check it out. Then, he stood up and walked out of the villa.

Chen Nanfeng's face revealed a trace of excitement and anticipation as he looked up at the sky.

A few seconds later, Liu Mansha and Mu Sheng also flew over from two different directions on their flying swords.

“Sect leader Chen!” The two of them greeted.

“You guys noticed it too?” Chen Nanfeng asked.

Mu Sheng nodded with a smile and said, “If I’m not mistaken, it should be little brother Xia and the others who have returned.”

Liu Mansha’s expression was a little cold. She said indifferently, “It’s the black Phoenix flying ship! I can sense the airflow the Flying Ship is influencing, so I’m very sure of it!”

Half a minute later, the black Phoenix flying ship finally arrived above the resort.

Xia ruofei had already discovered Chen Nanfeng and the others, so he steered the black Phoenix flying ship directly towards the small villa.

There was no need to use spiritual energy to scan the area. Chen Nanfeng and the other two could clearly see the black Phoenix flying ship slowly approaching them in the sky with their naked eyes.

Soon, the airboat was hovering about eight meters above the ground. It was not that Xia ruofei wanted to stop at such a height, but the greenery in the resort was too good. There were trees and grass everywhere. If he flew any lower, he might scratch the trees in the courtyard.

Moreover, for cultivators, with the help of ropes, this height was nothing.

“My fellow Daoists! We’ve arrived!” Xia ruofei smiled and said, “we’re at ye Yun resort. Sect leader Chen, sect leader mu, and valley master Liu are all waiting for us!”

In the endless darkness of the universe, the distance between the Earth and the Moon was actually very close. It was about 300000 kilometers. Light only needed a second to reach the moon from the earth.

Chapter 3483: Calmly dealing with i

Chen Nanfeng’s face sank after hearing this. He didn’t speak immediately.

“Jianfei, did you also separate from your third uncle as soon as you entered the secret realm?” Mu Sheng asked after thinking for a while.

Mu Jianfei nodded and said, “yes!” Third uncle and I went in together, but I was the only one after entering the secret realm. I walked in the secret realm for a while and saw the trial tower. Then I entered the tower and began to complete the mission. The specific process was similar to sect leader Chen. After we came out, we also looked at each other’s situation. Everyone’s experience was similar. The only difference was that some people passed a few more floors, and some passed a few fewer. So ... I’m guessing that third uncle and elder Shen should have entered the trial Pagoda like us.”

Chen Nanfeng raised his eyebrows and asked, “Then who made it the furthest?”

Chen Xuan had only made it to the fifth level, and what he had just described was his own situation. Just the situation of the first five levels was enough to make Chen Nanfeng secretly shocked. This was definitely a huge sum! Since everyone was there, Chen Xuan didn’t mention anything about what he had gained in the Tower of Trials. However, Chen Nanfeng knew that the rewards from this level of mission would definitely be significant.

Therefore, Chen Nanfeng also wanted to know how the others were doing. On the one hand, he wanted to make a comparison, and on the other hand, he wanted to see if he could get more clues.

After listening to Chen Xuan’s description, Chen Nanfeng knew that Shen tianfang was probably dead. However, it was impossible for the first heaven society to not investigate the death of an intermediate

golden core cultivator. Since he was going to investigate, he naturally needed to grasp as much information as possible.

Chen Xuan and the others subconsciously looked at Ling Qingxue.

Everyone knew that Ling Qingxue had made it to the eighth level and was only one level away from reaching the top. Although Xia ruofei was the last to come out, he did not tell everyone which floor he had reached. Therefore, when they heard Chen Nanfeng's question, everyone's first reaction was to look at Ling Qingxue.

Chen Nanfeng couldn't help but feel surprised. Ling Qingxue's cultivation was the lowest in the entire exploration team. If she wasn't Xia ruofei's cultivation partner, she would be the most unremarkable person. He didn't expect her to be the one who walked the furthest in the end.

Seeing this, Xia ruofei didn't wait for Chen Nanfeng to speak and said directly, "Sect leader Chen, I made it to the eighth level of the trial Pagoda and was the last one to leave. If I'm not wrong, I should be the one who made it the furthest..."

Xia ruofei looked at Chen Xuan and the rest and asked, "I wonder if fellow Daoists..."

"So brother RUO Fei also made it to the eighth level!" Chen Xuan hurriedly said, "the virtuous couple is truly outstanding! Initially, we thought that it was already a rare good result for miss Qingxue to make it to the eighth level!" Chen Nanfeng looked at Xia ruofei with a warm smile and said, "Fellow Daoist Xia, could I trouble you to tell me about the situation of the other levels?" Naturally, Chen Nanfeng would not use an arrogant tone when facing Xia ruofei.

Whether it was Xia ruofei's talent or the master behind him, who seemed to be a hidden master, they were enough to make Chen Nanfeng pay the most attention. It was best to be friends with such a person. Even if they could not be friends, there was no need to make them enemies.

It was all thanks to Xia ruofei that they were able to get to the moon. Otherwise, even if they could decipher the secret of the token, they would not have been able to reach the moon.

Hence, even though Xia ruofei's cultivation was not very high, Chen Nanfeng still treated him as an equal.

Of course, in reality, Xia ruofei's cultivation might be slightly lower than Chen Nanfeng's, but his actual strength was no weaker than Chen Nanfeng's. However, Xia ruofei's spiritual power had already broken through to the spiritualization realm, which was much higher than Chen Nanfeng's. Hence, he deliberately concealed his cultivation. Even Chen Nanfeng could not see through it and did not know that he had already broken through to the intermediate stage of the Golden elixir realm.

Xia ruofei replied indifferently, "of course, no problem!" If it can help us in investigating the truth behind elder Chen and elder MU's deaths, I will naturally take responsibility!"

With that, Xia ruofei explained the situation from the sixth to the eighth levels of the Tower of Trials to everyone.

Xia ruofei did not hold back anything about the mission settings of the Tower of Trials. He had already discussed it in detail with Ling Qingxue on the way back and knew about everyone's situation. He was

well aware that the settings of each level were the same. The only difference was that everyone would be scattered in different small spaces. The difficulty of the mission would also change according to the level of cultivation. That was all.

Of course, Xia ruofei would not mention the rewards for each level.

This was human nature. When they were exchanging information outside the trial Pagoda, they didn't talk about the rewards and opportunities.

Xia ruofei explained the mission in detail, especially the dangerous areas. In the end, he said, ""That's the general situation, the difficulty of the Obsidian stairs on the 8th level of the Tower of Trials is extremely high, 1 persisted for more than 190 steps, which was about a third of the way, and was eliminated. According to my own experience, 1 feel that even if a Yuanying stage cultivator tried to pass that heavenly stairs, it would be very difficult for him to persist to the last step. And if a Yuanying stage cultivator could enter the trial Pagoda, the difficulty of the heavenly stairs would definitely be higher. So ... It's quite difficult to reach the top of the 9th floor""

Chapter 3484 Calmly dealing with_2

'Fellow Daoist Xia's information has been of great help to us. Many thanks ...' Chen Nanfeng nodded.

'Sect leader Chen is too polite!' Xia ruofei said with a smile.

In fact, he had been secretly observing Chen Nanfeng all this time because of the curse that Shen tianfang had placed on him before he died. Even though Chen Xuan did not show any signs of abnormality, Chen Nanfeng was a late - Stage golden elixir realm cultivator after all. His cultivation was unfathomable. Xia ruofei could not guarantee that Chen Nanfeng would not be able to see through it.

Actually, if it was possible, Xia ruofei did not even want to meet Chen Nanfeng. After sending everyone to this holiday villa, he would leave on the black Phoenix flying boat.

However, this did not make sense. If he really wanted to leave, Chen Nanfeng and the others would not force him to stay. However, once they heard the news of Shen tianfang and muhua's death, they would inevitably be suspicious.

Therefore, Xia ruofei had no choice but to be on high alert. He was even prepared to fall out with Chen Nanfeng at any time.

Fortunately, Chen Nanfeng had not found any clues so far.

With Xia ruofei's current level of spiritual power, he would be able to detect Chen Nanfeng's emotional fluctuations immediately.

Chen Nanfeng looked at Xia ruofei and Ling Qingxue thoughtfully and said. ""Fellow Daoist Xia and lady Qingxue both reached the eighth level of the trial Pagoda at the same time. This is a great story!"

Xia ruofei's expression remained the same. He smiled and said, ""I'm quite surprised that Qingxue was able to make it to the eighth floor. However. the difficulty of the Tower of Trials missions is set according to the cultivator's cultivation level. Although Qingxue's cultivation level is low, the difficulty of the mission is relatively low. So, she was able to make it to the eighth level probably because her talent in certain aspects is just right for the Tower of Trials missions!"

Chen Nanfeng nodded. What Xia ruofei said was not far - fetched. He had carefully analyzed the mission design of each level. It was indeed as Xia ruofei had said. The absolute cultivation level was not an important factor in the success rate of the mission. Even if one's cultivation level was average, it was still possible to pass the level. On the other hand, even if one's cultivation was higher, if one was not suitable for a certain task, they would also fail.

For example, the stage of the illusionary realm was very obvious. If the cultivator's Dao heart was unstable and there were many karmas entangled, he would be at a great disadvantage in this stage. People with high cultivation usually had more time to cultivate and more experience, so there were more factors that affected their Dao heart. The probability of being accidentally tricked in the illusory formation was also higher.

Chen Nanfeng's face sank after hearing this. He didn't speak immediately.

"Jianfei, did you also separate from your third uncle as soon as you entered the secret realm?" Mu Sheng asked after thinking for a while.

Mu Jianfei nodded and said, "yes!" Third uncle and I went in together, but I was the only one after entering the secret realm. I walked in the secret realm for a while and saw the trial tower. Chapter 3486: It's better to have less trouble (2)

At this point, Chen Xuan paused for a moment before continuing,""Most importantly, with Xia ruofei and Ling Qingxue's strength, even if they were teleported to the same space as elder Shen, they would not be able to kill him. If a conflict were to break out between the two parties, the one who would die would definitely be Xia ruofei and Ling Qingxue, not elder Shen!"

After listening to Chen Xuan's analysis, Chen Nanfeng nodded his head slightly and said,""Xuan 'er's words make sense, but we can't rule out the possibility of what yurou said. In theory, if Xia ruofei and Ling Qingxue were teleported together, elder Shen would be teleported with someone else. It might not be Xia ruofei and Ling Qingxue. What if it was a Willow? It was possible that elder Shen would be caught off guard and be ambushed. It's even possible that he was teleported together with mu Hua from the vast waves sect and for some reason, the two of them got into a conflict and ended up perishing together. These are all possible."

"Father, this is just a guess," Chen Xuan replied with a bitter smile."We'll probably never get an answer." Unless ..."

"Unless we extort a confession from Xia ruofei and Ling Qingxue," Chen Nanfeng said,"if we can find out if they were teleported to the same space, we might be able to find new clues ..."

After Chen Nanfeng finished, he shook his head and said,""This young man Xia ruofei gives me a very mysterious feeling. If it's not necessary, I don't want to be his enemy... Forget it, let's put an end to this! Even if we find any clues, can we really use all the power of the sect to avenge elder Chen?"

Although Shen Tian's position in the first heaven society was important, he was already dead. In Chen Nanfeng's opinion, it was not worth it to fight for a dead person and even risk the sect's strength to take revenge for him.

Of course, if Shen tianfang was clearly murdered, then even if the losses were huge, they would still take action when the time came. The dignity of the number one sect in the cultivation world still had to be maintained. Furthermore, if they were to hide in such a situation, the hearts of the people within the sect would be scattered. A sect without unity would not go far.

However, Shen tianfang had died in the secret realm, and according to everyone, there was no man – made factor at all. Thus, Chen Nanfeng naturally chose to go with the flow.

Chen Xuan and Xu yurou both nodded. They could guess that Chen Nanfeng would most likely make this decision.

Chen Nanfeng continued, "however, we still have to investigate what needs to be investigated. We can keep an eye on the people who returned safely. Other than Xuan 'er and yurou, everyone else is a suspect. We have to keep an eye on these people. Perhaps we can find some clues ... I have a feeling that elder Shen's death isn't as simple as it seems."

"I understand, father." Chen Xuan replied, "after we return to the sect, I'll arrange for someone to look for clues."

Chen Nanfeng nodded and said, "let's do this first!" It's getting late, you should all go rest!"

In addition to Chen Nanfeng's side, the villa where Liu Mansha and Mu Sheng lived was also experiencing a similar scene.

Of course, there were no casualties in the soaring Flower Valley, so Liu Mansha was not too concerned about the cause of Shen tianfang and mu Hua's deaths. She only asked for some simple details, but her focus was still on the gains from this trip.

Mu Sheng, on the other hand, had asked mu Jianfei about the whole incident in detail. Of course, they also had no clue about mu Hua's death.

Fortunately, everyone's harvest on this trip was very good, and Liu Mansha and Mu Sheng were also quite satisfied.

The black Phoenix flying ship was flying at high speed through the night sky.

Xia ruofei and Ling Qingxue stood on the deck of the swift Boat. Ling Qingxue looked at the dark night sky and asked, "RUO Fei, the first heaven society won't send people to follow us, will they?"

Xia ruofei laughed and said, "even if Chen Nanfeng had his suspicions, he wouldn't have made it so obvious. Besides, with the speed of the black Blaze flying ship, we won't be able to keep up with them!"

"We must keep our mouths shut about us clearing the stage together!" Ling Qingxue said, "both sects have lost their elders. If they find out that we can be teleported to the same space, they will definitely suspect us!"

Xia ruofei said, "in fact, we can't rule out the possibility that the two of them really died during the mission in the Tower of Trials or that they were killed." In theory, we could have teleported together, and the others could have done the same. However, only Yang Liu and mu Hua had the ability to kill Shen tianfang. Unless Shen tianfang was injured, he would have been the one to die. H

Ling Qingxue agreed and nodded. "So it's best to stop this matter. If we say that cultivators can be teleported together, things will become very complicated, and it's very likely that we'll get burned. RUO Fei, you must remember not to let it slip."

Xia ruofei smiled and nodded, "I know!" The less trouble, the better! However, if there's really trouble, we're not afraid of it. Whoever dares to provoke us should be prepared to lose a layer of their skin!"

With Xia ruofei's current strength, he was confident that he could seriously injure the first heaven society even if they attacked him with the entire sect.

If it was a one – on – one fight, Xia ruofei was confident that he could at least escape unscathed, even if he was up against Chen Nanfeng, who had the Golden armor and spiritual power of spiritualization realm.

"Where are we going now?" Ling Qingxue nodded and asked.

"Let's go to Beijing first! Pick Wei Wei up and go directly to the Peach Blossom Island." Xia ruofei said, "I haven't been to Paradise Island for more than two months. I wonder how things are there now."

"Good! I haven't seen you for such a long time, and I miss you too!" Ling Qingxue said, "she must be worried about us every day! Ruofei, if there's a town down there, please land the airboat first. I'll send a message to Weiwei and tell her to come out and wait for us!"

At a high altitude, there was basically no signal on the mobile phone, so if he wanted to send a WeChat message, he would definitely have to lower his altitude. It was best to do it in a town area, as the signal might not be so good in the wilderness.

Xia ruofei nodded and said, "no problem!" There's a small town ahead. I will land the airboat first!"

Soon, the black Phoenix flying ship began to slow down and slowly descended. It hovered above a barren land outside the town, about a dozen meters above the ground.

After the formation was opened, ordinary people would not be able to see the black Phoenix flying ship at all. Hence, there was no need to worry about being discovered by the people of the town at such a low altitude.

Ling Qingxue took out her phone and gave Song Wei a WeChat call.

Although it was already late at night, Song Wei was a cultivator. She could wake up quickly with the slightest movement. So, when she opened her eyes and saw that the call was from Ling Qingxue, she quickly stood up and picked up the phone.

Song Wei was staying in the school dormitory tonight. The postgraduate dormitory was two people to a room. However, her dormitory mate and boyfriend went out to play and didn't come back to the dormitory at all, so she didn't have to worry about what her dormmate might hear.

"Qingxue! You guys are back?" Song Wei asked excitedly.

Ling Qingxue chuckled and said, "that's right!" Weiwei, we just came back and called you as soon as we landed. We were afraid that you would be worried!"

Song Wei had been very worried these days. Xia ruofei and Ling Qingxue were going to the moon, which was hundreds of thousands of miles away! The universe was filled with all kinds of unknown dangers, and there was also a barren moon. Just thinking about it was terrifying.

The two of them had been gone for more than two months. Song Wei did not pass the music selection at all, so she could only stay on earth and wait anxiously. This feeling was quite torturous.

"It's good that you're back! It's good that you're back!" Song Wei mumbled, her eyes filled with tears of excitement. "Qingxue, it's fine as long as both of you are safe and sound.. I've been worried about you two every day for the past two months!"

Chapter 3486: It's better to have less trouble (2)

At this point, Chen Xuan paused for a moment before continuing, ""Most importantly, with Xia ruofei and Ling Qingxue's strength, even if they were teleported to the same space as elder Shen, they would not be able to kill him. If a conflict were to break out between the two parties, the one who would die would definitely be Xia ruofei and Ling Qingxue, not elder Shen!"

After listening to Chen Xuan's analysis, Chen Nanfeng nodded his head slightly and said, ""Xuan 'er's words make sense, but we can't rule out the possibility of what yurou said. In theory, if Xia ruofei and Ling Qingxue were teleported together, elder Shen would be teleported with someone else. It might not be Xia ruofei and Ling Qingxue. What if it was a Willow? It was possible that elder Shen would be caught off guard and be ambushed. It's even possible that he was teleported together with mu Hua from the vast waves sect and for some reason, the two of them got into a conflict and ended up perishing together. These are all possible."

"Father, this is just a guess," Chen Xuan replied with a bitter smile. "We'll probably never get an answer." Unless ..."

"Unless we extort a confession from Xia ruofei and Ling Qingxue," Chen Nanfeng said, "if we can find out if they were teleported to the same space, we might be able to find new clues ..."

After Chen Nanfeng finished, he shook his head and said, ""This young man Xia ruofei gives me a very mysterious feeling. If it's not necessary, I don't want to be his enemy... Forget it, let's put an end to this! Even if we find any clues, can we really use all the power of the sect to avenge elder Chen?"

Although Shen Tian's position in the first heaven society was important, he was already dead. In Chen Nanfeng's opinion, it was not worth it to fight for a dead person and even risk the sect's strength to take revenge for him.

Of course, if Shen tianfang was clearly murdered, then even if the losses were huge, they would still take action when the time came. The dignity of the number one sect in the cultivation world still had to be maintained. Furthermore, if they were to hide in such a situation, the hearts of the people within the sect would be scattered. A sect without unity would not go far.

However, Shen tianfang had died in the secret realm, and according to everyone, there was no man-made factor at all. Thus, Chen Nanfeng naturally chose to go with the flow.

Chen Xuan and Xu yurou both nodded. They could guess that Chen Nanfeng would most likely make this decision.

Chen Nanfeng continued, "however, we still have to investigate what needs to be investigated. We can keep an eye on the people who returned safely. Other than Xuan 'er and yurou, everyone else is a suspect. We have to keep an eye on these people. Perhaps we can find some clues ... I have a feeling that elder Shen's death isn't as simple as it seems."

"I understand, father." Chen Xuan replied, "after we return to the sect, I'll arrange for someone to look for clues."

Chen Nanfeng nodded and said, "let's do this first!" It's getting late, you should all go rest!"

In addition to Chen Nanfeng's side, the villa where Liu Mansha and Mu Sheng lived was also experiencing a similar scene.

Of course, there were no casualties in the soaring Flower Valley, so Liu Mansha was not too concerned about the cause of Shen tianfang and mu Hua's deaths. She only asked for some simple details, but her focus was still on the gains from this trip.

Mu Sheng, on the other hand, had asked mu Jianfei about the whole incident in detail. Of course, they also had no clue about mu Hua's death.

Fortunately, everyone's harvest on this trip was very good, and Liu Mansha and Mu Sheng were also quite satisfied.

The black Phoenix flying ship was flying at high speed through the night sky.

Xia ruofei and Ling Qingxue stood on the deck of the swift Boat. Ling Qingxue looked at the dark night sky and asked, "RUO Fei, the first heaven society won't send people to follow us, will they?"

Xia ruofei laughed and said, "even if Chen Nanfeng had his suspicions, he wouldn't have made it so obvious. Besides, with the speed of the black Blaze flying ship, we won't be able to keep up with them!"

"We must keep our mouths shut about us clearing the stage together!" Ling Qingxue said, "both sects have lost their elders. If they find out that we can be teleported to the same space, they will definitely suspect us!"

Xia ruofei said, "in fact, we can't rule out the possibility that the two of them really died during the mission in the Tower of Trials or that they were killed." In theory, we could have teleported together, and the others could have done the same. However, only Yang Liu and mu Hua had the ability to kill Shen tianfang. Chapter 3487: Meeting again (1)

Ling Qingxue's phone was on speaker mode. Xia ruofei's heart skipped a beat when he heard Song Wei's happy voice.

He said from the side, "Wei Wei, don't worry!" We're all fine! And this time, I've also gained a lot of benefits, and Qingxue's cultivation has also broken through!"

Ling Qingxue quickly said, "Wei Wei, we brought back a lot of good stuff!" RUO Fei can't wait to give it to you! Is it convenient on your side? We're coming to find you now!"

Ling Qingxue rolled her eyes at Xia ruofei. She was worried that Song Wei would be upset, so she did not want Xia ruofei to mention her breakthrough. She did not expect Xia ruofei to mention it so easily.

Xia ruofei chuckled at the side. He knew Song Wei well. Even though this gentle girl was competitive, she was not a narrow – minded person. She would be overjoyed if she heard that Ling Qingxue had a breakthrough.

"It's convenient on my side!" Song Wei replied without hesitation. I'm just sorting out my thesis materials. I don't have any class schedule, so I don't usually have to attend classes!"

"That's great!" Ling Qingxue said, "we'll come over now! Right, where are you? We'll meet up with you!"

"I'm in the school dormitory!" Song Wei said as she got out of bed to change her clothes.

"Alright! Then let's go directly to the dormitory's roof!" Ling Qingxue said. Then, after a moment of silence, she said, "it will take us about 20 minutes to get here. You should tidy up a little. We'll meet on the roof in 20 minutes!" "En!" Song Wei suppressed her excitement and said, "see you later!"

In reality, how could Song Wei sit still? After hanging up the phone, she quickly changed into her clothes and packed her things as quickly as possible.

Actually, there wasn't much to organize. Some of her daily necessities, such as her clothes and toiletries, were all kept in the storage ring. So, she just put together the papers that she had been sorting out in the dormitory for the past two days and put them together with her laptop in the storage ring. It took less than five minutes to organize everything.

Song Wei opened the dormitory door and walked out. She immediately locked the door.

Master's students had more freedom in their time. Their roommates had just started dating and rarely stayed in the dormitory. Everyone knew that Song Wei had a house in Beijing near the school, so no one would be surprised if Song Wei didn't appear in the dormitory for a few days.

At this time of the day, the dormitory building must have been locked, including the door to the rooftop. For safety reasons, it had been locked for a long time.

However, for a cultivator in the refinement stage, this was not a problem.

After a while, Song Wei arrived at the dormitory's rooftop. She had to climb up from the outside to reach the last floor. It looked dangerous, but it was not difficult at all.

At this time, it was already early winter in Beijing. The temperature outside was already below zero at night, and some places on the rooftop where water had accumulated had even frozen.

However, Song Wei did not feel the cold at all. Of course, after she started on the path of cultivation, this level of cold did not affect her at all. Even if she was not affected by the cold or heat, at least she had no problem wearing a thin layer of clothing to move around in this kind of weather.

As soon as Song Wei got on the rooftop, she looked up at the sky, her heart full of expectation.

In reality, Xia ruofei and Ling Qingxue were still in the central region of Huaxia. They were on the black Phoenix flying ship and were flying towards the capital city.

The speed of the black Phoenix flying ship was extremely fast to begin with, and Xia ruofei was in a rush. Hence, he pushed the speed of the black Phoenix flying ship to its maximum, not caring about the consumption of origin crystals.

It took about 16 to 17 minutes for the black Phoenix flying ship to arrive in the sky above the capital city.

Xia ruofei was very familiar with the capital. Even though it was dark, he was still able to find the location of the capital University very quickly. He steered the black Phoenix flying boat and flew over quickly.

In fact, before the black Phoenix flying boat arrived at Capital University, Xia ruofei's spiritual power had already discovered Song Wei's eagerly anticipated figure on the rooftop of one of the female dormitories.

Xia ruofei's heart warmed slightly, and the black – Phoenix flying ship sped up.

Song Wei maintained her posture of looking up. She did not feel cold or tired at all. She just felt that time passed very slowly.

Suddenly, a huge flying boat appeared out of thin air in the night sky. Then, it descended from the sky, almost covering the entire dormitory's rooftop.

A bright smile bloomed on Song Wei's cold face as she saw Xia ruofei and Ling Qingxue standing on the deck of the airboat. Ling Qingxue was waving at her from the side of the airboat! Xia ruofei had a warm smile on his face as he stared at Song Wei without moving.

The black Phoenix flying ship was suspended about two meters above the rooftop. Before Xia ruofei and Ling Qingxue could say anything, Song Wei had already tapped the ground lightly with the tip of her foot and leaped into the air, landing lightly on the deck of the Flying Ship.

"Qingxue!"

"Weiwei!"

The two girls held each other's hands affectionately with tears in their eyes. They looked very excited.

Xia ruofei, who was standing at the side, was completely ignored. He cleared his throat awkwardly and said, "Can the two of you not show off your love in front of me? I'll get jealous too"

Chapter 3488: Meeting again (2)

Song Wei and Ling Qingxue's faces turned red. Song Wei couldn't help but say, "Do you want to die? You're so rude ..."

Ling Qingxue chuckled and hugged Song Wei. "We're in love! And I'm going to show off in front of you and anger you to death ..."

Song Wei struggled away shyly and said, "Qingxue, don't mess around ..."

In fact, although it was rare for three people to sleep together, it had happened before. However, Song Wei was more or less unable to let it go. In comparison, Ling Qingxue was much more generous and joked along with Xia ruofei without any pressure.

Ling Qingxue let Song Wei go this time. She pushed Song Wei towards Xia ruofei and said, "Go, go! You haven't seen each other for more than two months. Just now, although you were looking at me, your mind was on that guy! Don't think I can't tell..."

"Where?" Song Wei said with a red face.

Xia ruofei laughed and held Song Wei's hand, "Let's go! Let's talk in the cabin! The wind is strong here!"

The three of them walked into the cabin of the black Phoenix flying ship. Xia ruofei then controlled the Flying Ship to rise up quickly. After reaching an altitude of one to two thousand meters, he allowed the black Phoenix flying ship to suspend in the air.

In reality, even though it was floating, the black Phoenix flying ship was still consuming energy at every moment. However, Xia ruofei was rich now and did not care about this little consumption.

Song Wei looked at Xia ruofei and Ling Qingxue and asked, "Did everything go well on your trip to the moon?"

Xia ruofei nodded and said, "It's going well overall!" We didn't encounter any particularly dangerous situations, and although the return trip took a long time, it was generally calm and peaceful."

Ling Qingxue said, "Weiwei, it's a good thing you didn't go with us. There were still some risks." Elder Shen Tianfang of the first heaven school and elder Mu Hua of the surging waves school had both perished in the mystic realm on the moon. When we went there, there were nine of us, but when we returned, there were only seven of us left!"

Song Wei was shocked and said, "There's a risk to your life when exploring that secret realm? The two elders are both at the Golden Core stage! Even an Aurous Core stage cultivator has fallen, this secret realm ..."

From Song Wei's point of view, an Aurous Core stage cultivator was already an incredible existence. Even if they could not fly, they could at least ride a flying sword! This was completely beyond the laws of nature of ordinary humans. In the eyes of ordinary people in the secular world, some of the Aurous Core stage cultivators' magical powers were the means of gods! Such an expert had actually fallen in the secret plane. That was simply too terrifying ...

Even though she had seen Xia ruofei and Ling Qingxue and knew that they were both safe, Song Wei still felt a wave of fear.

Xia ruofei glared at Ling Qingxue, then said gently, "Wei Wei, don't listen to Qingxue. There are definitely risks in exploring the secret realm, but it's not as dangerous as you think. The two elders must have met with an unexpected situation, or they were particularly unlucky to have died. In fact, all the Qi condensation cultivators who went this time came back alive. On the other hand, two Aurous core cultivators died, so it doesn't have much to do with cultivation."

Song Wei nodded and said, "if I had known that it would be life – threatening, I would never have agreed to let you go up!" We'd rather not have any fortuitous encounters, just be safe."

Xia ruofei chuckled. "That's true. However, wealth comes from danger. The path of cultivation is full of thorns and bumps. It's hard for a cultivator to achieve great things without experiencing life and death."

"Yeah!" Ling Qingxue also agreed. Although this trip was a little dangerous, the rewards were also very generous! Wei Wei, we brought back a few good things for you!"

With that, Ling Qingxue took out a storage ring from her pocket. Inside the ring was the reward from the eighth level of the trial Pagoda, a total of 800 yellow jade essences.

She then took out the Vermillion Jade Fruit.

The yellow jade essence and the Vermillion Jade Fruit had always been Under Ling Qingxue's care. One could increase one's cultivation level, while the other could increase one's spiritual power. Both of them were the kind that could be seen immediately.

Xia ruofei laughed and said, "Qingxue, you're too anxious!" I think we should go to the Peach Blossom Island first! Wei Wei will be able to cultivate in peace over there, and I'll be able to focus on protecting her! After all, this place isn't completely safe..."

In the sky, Xia ruofei had to divert some attention to control the black Phoenix flying ship. Especially in such a suspended state, there might be cultivators passing by. Even if Xia ruofei's current strength was not much of a match in the cultivation world on earth, he was not absolutely safe.

However, it was different on the Peach Blossom Island. With the protection of the Taixu xuanqing formation, even a nascent Soul Stage cultivator would not be able to break into the island for a while.

"Then what are we waiting for?" Ling Qingxue asked. Let's hurry up and set off!"

"I just wanted to talk to Weiwei..." Xia ruofei said with a bitter smile.

"No delay! Let's get the flying boat moving first, the journey to Peach Blossom Island is not short!" Ling Qingxue said. Then, she put her arm around Song Wei's shoulder and pulled her to the side to sit down. "Weiwei, let me tell you, this thing is called the Vermillion Jade Fruit. It's really magical..."

Ling Qingxue started to introduce the yellow jade essence and the Vermillion Jade Fruit to Song Wei. Xia ruofei started the flying boat again and turned it around to fly towards the sea.

Peach Blossom Island was located in the depths of the ocean.

Although the black Phoenix flying ship was extremely fast, it still took more than two hours to fly from China to Peach Blossom Island.

Of course, this speed was already unbelievable. If he took a normal commercial plane, even a private one, it would take more than ten hours. In the past, when Xia ruofei took the peach blossom public jet to Peach Blossom Island, he had to land in Australia to refuel, which took even more time.

Now that he had the black Phoenix flying ship, he would be able to reach any location in the world within two to three hours.

After Xia ruofei had confirmed the direction to Peach Blossom Island, he had the black Phoenix flying ship fly at a high speed in a straight line towards Peach Blossom Island. This was also one of the reasons why the black Phoenix flying ship saved time. Commercial planes had to follow a certain route, but the black Phoenix flying ship could fly in a straight line, which saved a lot of time.

Furthermore, the black Phoenix flying ship was equipped with detection formations on all four sides. If there was a small chance that there were other flying vessels on the same level, the Flying Ship would be able to give a timely warning and even automatically fly up and down to avoid them.

Therefore, as long as the direction and speed were set, it could basically be like an aircraft's autopilot without too much interference from the operator.

Xia ruofei only needed to use a bit of his spiritual energy to look after the flying boat.

While Xia ruofei was adjusting the altitude, speed, and direction, Ling Qingxue was already eagerly telling Song Wei everything that happened on the moon.

Of course, Xia ruofei had already told Ling Qingxue in advance that he would not tell Song Wei about the two of them clearing the stage together. It was not that he did not trust Song Wei. However, this matter was not important to the big picture. It was better to avoid unnecessary trouble. If one more person knew about it, even if Song Wei could not betray Xia ruofei, he could not rule out the possibility that she would let it slip!

Even so, this trip to the mystic realm could be considered to be full of ups and downs.

This included everyone wearing spacesuits in space and being exposed to the outer space environment. Then, they had to fix the spaceship and take the spaceship for a long space journey. To Song Wei, this was a very novel experience.

In the Tower of Trials, the exquisitely designed stages made Song Wei's eyes light up.

"Qingxue, how did you manage to pass such a trial? He's too powerful!" Song Wei did not hide her admiration at all. "If I were to encounter the star Fern thorn that you mentioned, I would definitely not be able to pass it!"

Ling Qingxue's face heated up. She had really forgotten about this. Most of the later stages were passed with Xia ruofei's help. If she had to do it herself, she might not have been able to pass it.

Of course, if she was alone, the difficulty of the trial for Qi condensation cultivators would be much lower, but it was not entirely impossible for her to pass..

Chapter 3489: Returning to peach source Island (1)

Xia ruofei looked at Ling Qingxue in amusement and said, "Many stages are not completely dependent on one's cultivation level. Qingxue was able to pass those stages not only because of her ability, but also because of luck."

Ling Qingxue smiled awkwardly and said, "Yes, yes, yes, I'm just lucky ..."

Since he couldn't tell Song Wei the details of the two of them clearing the stage together, he could only attribute it to luck that she made it to the eighth stage.

Song Wei continued to look at Ling Qingxue with admiration and said, "Qingxue, whether it's luck or not, you're amazing! His results are actually the same as RUO Fei's!"

Yes, in order to avoid trouble, Xia ruofei and Song Wei said the same thing. They said that he was also eliminated in the eighth round. This was the same as what they had told Chen Nanfeng and the others at the resort.

As for the actual situation, that was a shared secret between Xia ruofei and Ling Qingxue.

Ling Qingxue looked at Xia ruofei and said, "Let's not talk about this anymore! Wei Wei, RUO Fei and 1 brought Huang Yujing and the Vermillion Jade Fruit from the secret realm. They'll help you greatly in improving your cultivation. Use them as soon as you get to the Paradise Island! RUO Fei has been talking about it all the way!"

Xia ruofei was speechless. Ling Qingxue was the one who had been talking to Song Wei along the way. She wanted Song Wei to improve her cultivation as soon as possible so that the gap between them would not be too big. Why did it change after they met?

However, he could guess Ling Qingxue's thoughts. She must have wanted the relationship between the three of them to be more harmonious, so he didn't say anything. In fact, he was a little touched.

Xia ruofei smiled and said, "actually, Weiwei can use the Topaz essence to improve her spiritual power cultivation. After all, it'll take more than two hours to reach Paradise Island!" There's no danger in using the yellow jade essence, and once the black Phoenix flying ship is at full speed, it'll be very safe in the air."

At full speed, even a late – Stage golden core cultivator would not be able to catch up to the black Phoenix flying ship. The first heaven sect's jadewater flying ship was considered very fast, but it was still much slower than the black Phoenix flying ship. Therefore, theoretically, it was very safe to take the black Phoenix flying ship at full speed on earth.

Unless someone had predicted the black Phoenix flying ship's flight path and set up a formation trap in the air.

Predicting the black Phoenix flying ship's flight path in the vast world was an almost impossible task, not to mention setting up an array formation in the air. All the materials needed to make the array formation needed to be used in the air. In the current cultivation world on earth, this was an almost impossible task.

Of course, there were some hidden experts in the world of cultivation who might have already reached the nascent Soul Stage or had a flying magic treasure that was faster than the black Phoenix flying ship.

This was something that could not be ruled out. However, the probability of this happening was extremely small and could be ignored.

Therefore, the black Phoenix flying ship's safety was still extremely high at full speed.

When Ling Qingxue heard this, she immediately nodded and said, ""Yes, yes, yes! It's very safe to use the Topaz essence to increase your mentality. Vivian, you can start absorbing the Topaz essence now! I'll teach you!"

Ling Qingxue took out her storage ring as she spoke. She couldn't wait to take out all the yellow jade essence from the storage ring and arranged them neatly on the cabin floor.

Song Wei was a little stunned and quickly said, ""Qingxue, since this Topaz essence is so helpful to your spiritual power, you should use it yourself! RUO Fei was the one who needed to improve his strength! Let's just slowly cultivate it... Or you can use it! After all, this is the reward you've worked so hard to get!"

Ling Qingxue said casually, "we've already absorbed a lot in the trial Pagoda!" These are specially reserved for you! Besides, RUO Fei's spiritual power has just broken through to the spiritualization boundary, and it will be difficult for him to make a major breakthrough in a short period of time. Even if he absorbs these eight hundred Topaz essences, it won't improve his spiritual power much. If it's you who uses it, the effect will be immediate!"

Xia ruofei chuckled. "Weiwei, Qingxue is right. This is her kind intention. Don't reject it!"

"Yeah! Stop dawdling!" Ling Qingxue said, "I've already discussed this with RUO Fei. Come and sit down. I'll teach you how to use it. It's very simple!"

Song Wei hesitated for a moment and looked at Xia ruofei. Then, she nodded and said, "Then ... Alright!"

Absorbing the yellow jade essence was indeed very simple. One only needed to use their mental power to touch the surface of the yellow jade essence.

Therefore, after Ling Qingxue explained it to Song Wei, she immediately learned it.

Naturally, Song Wei could tell that Ling Qingxue and Xia ruofei were sincere in giving the Topaz essence to her. The two of them had brought back the Topaz essence from the mystic Luna realm hundreds of thousands of miles away and found her as soon as they returned to earth. This made her very touched. She did not refuse and sat down cross – legged to absorb it.

Song Wei's spiritual power level was similar to Ling Qingxue's. Their cultivation progress was almost the same, so when they first started absorbing the Topaz essence, the effect was immediate.

She sat on the ground and began to absorb the energy contained in the yellow jade essence. One by one, the yellow jade essence was turned into powder under her absorption..

Chapter 3490: Returning to peach source Island (2)

Ling Qingxue happily stood guard at the side. Xia ruofei also split some of his spiritual power to observe the flying state of the black Phoenix flying ship while keeping an eye on Song Wei.

Xia ruofei's spiritual power had already reached the spiritualization realm, so he could easily sense Song Wei's current state.

As the Topaz essence was absorbed, Song Wei's spiritual power was also rising at a rapid pace.

The black – armored flying ship flew through the night sky at high speed, and below it was the boundless ocean. It was quiet in the cabin of the airboat. Song Wei was completely immersed in the pleasure of her soaring spiritual power. Xia ruofei and Ling Qingxue did not say anything and just watched over Song Wei quietly.

When the black Phoenix flying ship neared the waters of Paradise Island, Song Wei had finally finished absorbing the last piece of Topaz essence.

She let out a long breath before slowly opening her eyes.

Song Wei's eyes lit up and her face revealed a look of disbelief. She said, ""RUO Fei, Qingxue, my... My spiritual power has increased so much ..."

"What's the level of your spiritual power now?" Ling Qingxue asked with a smile.

"I... I can't be sure, but I'm sure he's broken through a major realm." Song Wei was still in a daze.

From Ling Qingxue's previous introduction, she knew that the yellow jade essence was very beneficial for the improvement of one's spiritual power, but she did not expect it to be so magical.

It was very difficult to improve one's spirit power. Without a top cultivation technique that could improve one's spirit power at the same time, many cultivators' spirit power realm would fall behind their cultivation. It was already very impressive to be able to synchronize with their cultivation.

Generally speaking, if a cultivator's spiritual power realm could surpass their cultivation realm, then they were very talented and their cultivation speed would definitely be very fast.

Song Wei had never experienced the spiritual power of the Spirit gathering stage, so she could only be sure that she had broken through a major realm. However, she really did not have an intuitive judgment of the exact level of her spiritual power.

Xia ruofei laughed and said, "I've been paying attention to Weiwei's condition!" Your spiritual power has already reached the intermediate stage of the spirit gathering realm, which is similar to Qingxue's!"

"Spirit gathering stage ... Intermediate stage!" Song Wei gasped, "that's equivalent to the mental power of an intermediate stage golden core cultivator?"

Xia ruofei and Ling Qingxue both smiled and nodded.

Song Wei's face was filled with disbelief as she said, ""How can it improve so much? Qingxue just said that the yellow jade essence has a great effect on improving one's spiritual power. He even said that his spiritual power has also improved by leaps and bounds. I thought that it would only be a small breakthrough at most... This ... This is a huge breakthrough ..."

The improvement in her mentality was obvious to Song Wei. Her senses had become sharper in all aspects. The biggest change was that her brain had become more sensitive. In the words of the secular world, it meant that her brain development had greatly improved.

In this state, whether it was cultivation or fighting with others, he would definitely have a great advantage over cultivators of the same level.

“Weiwei, do you know how much we’ve gained from the trial Pagoda?” Ling Qingxue asked with a smile.

Song Wei nodded and said, “you just said that there’s still a lot of this yellow jade essence in the trial Pagoda, but you can’t bring it out?” This secret plane must be of a very high level!”

Ling Qingxue giggled and said, “of course, there are a lot of yellow jade essence. However, there is a time limit on that floor. RUO Fei and I happen to have a way to quickly find the yellow jade essence. It is impossible for an ordinary cultivator to obtain so many yellow jade essence.”

Xia ruofei smiled. “Weiwei, you’ve just absorbed the energy of the Topaz essence. You can use your spiritual power more to adapt to your current state. Or you can sit down and cultivate to feel the difference before and after the improvement of your spiritual power.”

“Yes, yes, yes!” Ling Qingxue said, “when we reach Paradise Island, we have even better things for you! You should first get used to your spiritual power realm!”

Song Wei’s eyes were red as she said, “RUO Fei, Qingxue, thank you!”

Ling Qingxue rolled her eyes at Song Wei and said, “Wei Wei, I’m going to get angry if you keep saying such things! What is our relationship! Is there a need to thank me?”

“It’s my fault...” Song Wei smiled and said, “then I won’t be polite with you guys. I’ll cultivate for a while ...”

Song Wei could feel that her current state was very different from before. Even if she were to cultivate normally, her efficiency would definitely be much higher than before. Therefore, she could not wait to experience the specific changes.

“En!” Xia ruofei nodded and said, “Qingxue, protect Weiwei! I’ll be in charge of controlling the flying boat. We’ll be arriving at the Peach Blossom Island soon. H

At this moment, the black Phoenix flying ship was already approaching the waters of the Paradise Island. It was still about three to four hundred nautical miles away from the island.

Xia ruofei checked his handheld GPS and adjusted the course slightly. He then released his mental strength to check the surroundings. The closer they got to Peach Blossom Island, the more cautious Xia ruofei became. Although the possibility of being followed was very small, to Xia ruofei, Peach Blossom Island was a strategic location second only to the spirit map space. He could not be too careful.

When they were about a hundred nautical miles away from the Peach Blossom Island, Xia ruofei controlled the black Phoenix flying boat to make a few turns and make a few feints. After a few rounds, they flew straight towards the Peach Blossom Island from another direction.

A few minutes later, the black Phoenix flying ship had already neared the outer perimeter of the Taixu xuanqing formation.

Xia ruofei released his spiritual power and connected to the core control of the formation.

The Taixu xuanqing formation was currently in a normal state of alert and had not been fully activated. However, if someone came close or barged in, the formation would react in an instant, warning the controller and activating most of the defense functions.

It could be said that this state was a relatively safe daily state, and the consumption was also the smallest.

Xia ruofei's understanding of the Taixu xuanqing formation was much deeper than Li Yifu and the others. He had set up this formation himself and knew every detail like the back of his hand. Hence, even if he was outside the formation, he could still easily control the formation and make way for them.

The black Phoenix flying ship didn't slow down at all as it flew straight through the gap in the array formation.

After the black Phoenix flying ship flew past, the crack in the formation quickly closed and the formation returned to its usual state of alert.

Xia ruofei maneuvered the black Phoenix flying ship nimbly through the array and flew above the skyscraper.

At this moment, Xia ruofei's spiritual power had almost covered the entire Paradise Island. Everything that happened on the island was instantly fed back to his mind.

The camp of the guards was in good order, and the open and secret sentries distributed by the sea each had their own duties, vigilantly guarding against foreign enemies. Due to the time difference, it was currently afternoon on Peach Blossom Island. The ordinary staff of the airport, control tower, meteorological station, and other places were all working at their respective posts. Because the black Phoenix flying ship had its own concealment array, ordinary people had no way of discovering this huge flying ship.

Li Yifu was still on Peach Blossom Island. After helping Xia ruofei with the spaceship and spacesuits, he had returned to the island immediately. Now, he was permanently stationed on Peach Blossom Island. After all, he was already old. Only by cultivating in such a superior cultivation environment could he have a breakthrough before the end of his life and increase his lifespan.

To Xia ruofei's surprise, the sect master of the star Seizer sect, Luo Qingfeng, was also on the Peach Blossom Island.

Luo Qingfeng was the first to notice the abnormality. As soon as the black Phoenix flying ship entered the array formation's range, he, who had been cultivating, suddenly opened his eyes and revealed a vigilant look.

But soon, he heard Xia ruofei's voice, "Qingfeng, don't be impatient. It's me!" "Master!" Luo Qingfeng was overjoyed.

“You and your adopted husband can both stay on the roof of the building! Don’t alert the others!” Xia ruofei said indifferently..
