Chapter 551: No story without a coincidence (1)

When Xia ruofei got up, he received a notification on his phone that 5 million HxB had been deposited into his private account.

President Lin quickly handed over the work at hand and the two left Tongren Hall together.

CEO Lin didn't even bring his chauffeur. He personally drove Xia ruofei out of Qiantang city and towards laoyan mountain.

Laoyan mountain was located within the borders of Jiang Zhe province's Anyue city. It was more than 300 kilometers away from Qiantang city. President Lin personally drove Xia ruofei to laoyan mountain without saying anything. It showed how important this matter was to him.

Along the way, President Lin did not miss the chance to beat around the bush. However, Xia ruofei was very cautious and did not reveal anything, so President Lin tactfully did not ask too much. Instead, he introduced the local customs of Jiangsu and Zhejiang Province to Xia ruofei, especially the area around laoyan mountain, where everyone had the history of planting iron – Skin Dendi and so on.

After a five – hour drive, they finally entered the borders of Anyue city.

It was obviously not Mr. Lin's first time here. He drove the Mercedes – Benz for another half an hour and arrived at the entrance of a metal – skinned Dendrobium cultivation base.

Xia ruofei looked from the outside and did not see the large greenhouse. There was a simple sign at the door with the words "Qian's iron – Skin Dendrobium" written on it. The paint on it had peeled off and it looked very mottled.

President Lin seemed to have read Xia ruofei's mind. He laughed and said, "Brother Xia, don't be fooled by this cultivation base's shabby appearance. In fact, the Qian family's iron – Skin Dendrobium is the most famous in the area of laoyan mountain. Our Tongren Hall imports a lot of goods from them every year!"

Xia ruofei smiled and said, "big brother Lin's judgment can't be wrong ..."

There were no special security guards at the entrance. President Lin got out of the car and opened the iron gate himself. Then, he drove into the cultivation base.

As the car drove further in, Xia ruofei saw that there were forests on both sides of the road. Each tree had a coil of hemp rope tied to the iron – Skin Dendi. The branches of the iron – Skin Dendi were attached to the trunk in a spiral shape. It was a spectacular sight from afar.

Director Lin chuckled. "Brother Xia, the iron – Skin Dendi here are all imitated from the wild environment. Although the iron – Skin Dendi grown under such conditions have a longer maturity period, its quality is infinitely close to that of the wild Dendi ... Of course, compared to the quality of the fresh strips you brought, it's still a lot worse."

Xia ruofei smiled and nodded. "From the looks of it, this cultivation base is quite large."

“That’s for sure! Old Qian’s production may not be ranked among the top in Jiangsu and Zhejiang Province, but the quality is definitely among the best.” President Lin smiled and said, “brother Xia, if this was an unreliable place, do you think I would dare to bring you here?”

Xia ruofei smiled. “I really have to thank you this time, big brother Lin. After this is done, I will definitely not forget your help.”

“Haha, you’re welcome!” President Lin said happily.

As they spoke, the car drove to a large courtyard in front of the forest.

There was a small four – story building with several rows of single – story houses on both sides. Some workers were busy working.

CEO Lin stopped the car in front of the four – story building and got out of the car with Xia ruofei.

A middle – aged man in his fifties was standing in front of the small building and talking to a few workers. When he saw Mr. Lin, he was stunned for a moment. Then, he immediately came up to him with a smile and said enthusiastically, “Yo! President Lin, what brings you here?”

“Boss Qian! I see that you’re glowing, your business has been good recently!” President Lin said with a smile.

“Mr. Lin, why didn’t you tell us you were coming? I’ll make some preparations and do my part as a good host!” As boss Qian spoke, he looked at Xia ruofei and asked, “Mr. Lin, this is?”

“Boss Qian, this is boss Xia from the southeast province. Don’t underestimate him just because he’s young. His business is very big!” President Lin quickly said.

Xia ruofei came up and said with a smile, “Boss Qian, how are you?”

Boss Qian quickly took the initiative to shake hands with Xia ruofei and asked, “Boss Xia is really young and promising!”

Then, boss Qian said to boss Lin, “Boss Lin, did you bring boss Xia here to buy the iron – skinned fengdou? Why did you have to make such a long trip? I’ve kept the best goods for you! Can’t you just give me a call and I’ll get someone to send it over?”

CEO Lin chuckled. “Boss Qian, you’ve misunderstood. I’m not here to acquire kaedo. Actually, I’m just a middleman. Boss Xia has some business to discuss with you.”

Boss Qian was stunned for a moment, then he smiled and said, “Oh? What business did boss Xia want to talk about? Other than cultivating iron – Skin dendrobes, I basically have no other business these past few years ...”

Boss Qian’s words revealed a hint of desolation. At the side, President Lin chuckled and said, “Boss Qian, this is your ancestral craft. Look at how good it is now! The iron – Skin Dendrobium business is booming. Isn’t it better than your previous business? I’ll see! You didn’t do proper work in the past, but now you’re on the right track!”

“My boss Lin!” Boss Qian said with a bitter smile. If you don’t mock me the next time we meet, I’m really not used to it ...”

President Lin raised his head and laughed heartily. It was obvious that the two of them were very familiar with each other, and they didn’t have any scruples when joking with each other.

Chapter 552: No story without a coincidence (2)

Boss Qian was interrupted by CEO Lin and ignored Xia ruofei. He came back to his senses and said with an apologetic smile, “Boss Xia, I’m getting old and my brain gets muddled easily. I’m sorry! President Lin said you wanted to discuss business with me. What kind of business is it?”

Xia ruofei smiled and said, “boss Qian, it’s like this. I have a batch of high – Quality iron – Skin Dendrobium on hand. I want to process them into iron – Skin maples. However, our company doesn’t have any talents in this field.” President Lin said that you have the best technical strength and many experienced Masters, so I thought of coming here to seek cooperation and technical support. ”

“As far as I know, the southeast province doesn’t seem to be suitable for the growth of iron – Skin Dendrobium,” boss Qian said after a moment of surprise. Besides, the best harvesting season for Dendrobium has passed. Boss Xia, the iron – Skin Dendrobium you have ...”

Xia ruofei smiled and said, “I have my own ways. It’s not convenient for me to say this. Boss Qian, the cooperation I hope for is that you send an experienced master to the southeast province to help me make the Ironhide maples. I’ll cover all the transportation and accommodation expenses. In addition, I’ll pay your company 1000 Yuan for each kilogram of Ironhide maples. How about it?”

This was also the ideal model that Xia ruofei and President Lin had discussed on the way here.

After all, the business partners that CEO Lin was familiar with were all the iron – Skin Dendi cultivation bases such as the Qian family. He was certainly not familiar with the fengdou experts who produced these Dendi plants. These Dendi cultivation bases were essentially Xia ruofei’s competitors. Therefore, CEO Lin actually did not have many choices.

It just so happened that boss Qian had a good personal relationship with CEO Lin. In addition, they had a lot of business dealings. If Xia ruofei were to pay a higher processing fee, there was still a possibility of this business being closed.

However, after hearing Xia ruofei’s words, boss Qian did not show much interest. Instead, he frowned slightly.

President Lin laughed and said, “old Qian, brother Xia didn’t make it clear just now. Let me add a few more points!” First of all, they only need you to send an experienced master. The other workers don’t need you to assign them. The master only needs to be responsible for directing the workers and personally take care of a few key steps. What about the second place? Brother Xia has a lot of Ironhide vessel strips on hand. A conservative estimate would be that he can make 120 kilograms of maple Dipper. ”

Boss Qian finally showed a hint of interest.

120 kilograms of fengdou, the processing cost would be 120000.

He had thought that Xia ruofei's business was just a small business. It would be too troublesome if he had to send workers to the southeast province just for the processing fee of tens of thousands of Yuan. Even if he had failed in other businesses all these years and only kept this Dendrobium base, he would not go to such trouble for tens of thousands of Yuan.

If only one person had to go, and he could earn 120000 to 130000 Yuan all at once, it would be a different story. It would be a waste not to make money!

Moreover, the harvesting of the iron – Skin Dendrobium at his cultivation base had already been completed a long time ago. Most of the fresh strips had already been processed into maple leaves. After the workers were done with this, there were not as many things as before.

The workers were idle, and their salaries had been paid. Why not send them out to earn some extra money?

Xia ruofei laughed and added fuel to the fire, "Boss Qian, I can also guarantee that this isn't a one – time deal. In the future, I will have a batch of Ironhide vessel fresh strips every two to three months. I need to make them into fengdou. We can have a long – term cooperation."

Boss Qian revealed a trace of hesitation and said, "Boss Xia, there's always a supply of fresh strips all year round ... Could it be that these raw materials were artificially cultivated in the greenhouse? The price won't be very high. You won't make much profit if you spend such a large processing fee!"

Iron – hide maples that could be sold at a high price were at least highly imitated wild ones like boss Qian's. The last time Xia ruofei saw Tongren Tang selling one for 100000 Yuan per kilogram, it was the top quality. If it was artificially cultivated, the price of the iron – hide maples would be much lower. It would be considered good if it could be sold for 10000 or 20000 Yuan per kilogram.

And the majority of the cost was still on the iron – Skin Dendrobium. If he had to pay a processing fee of 1000 Yuan per kilogram, he would really make a loss.

Xia ruofei smiled. "Boss Qian, thank you for your concern. However, I'm confident in this deal. It's all up to you ..."

Boss Qian muttered to himself for a moment before nodding and saying, "Boss Xia, that's fine! Since President Lin has come personally, it would be too unreasonable if I don't do this small thing!"

"Thank you, boss Qian," Xia ruofei said happily, "I'll give you a deposit first!"

Boss Qian waved his hand and said, "No need, no need. How can I not trust someone introduced by President Lin?"

After saying that, boss Qian looked back and stopped a young man who was in a hurry. He said, "Li Jun, come here!"

The dark – skinned young man walked over when he heard this.

"Li Jun, call old Hu and ask him to come over immediately ..." Said boss Qian.

After boss Qian finished speaking, he saw that the young man didn't respond and couldn't help but call out, "Li Jun, I'm talking to you!"

The young man's mouth was slightly open, and his eyes were fixed on Xia ruofei.

Xia ruofei also looked at the young man in surprise.

After a long while, the two of them said at the same time,"

"Qian Lijun!"

"Xia ruofei!"

Both of their voices were filled with surprise, and they hugged each other after they finished speaking.

"What are you doing here? We haven't seen each other for five or six years, right?" Xia ruofei exclaimed in surprise,"I almost couldn't recognize you!"

"Comrade ruofei, shouldn't I be the one asking you this?" Qian Lijun asked. This is my home. Why can't I be here? You, on the other hand, why did you suddenly appear in my house? I almost thought I was dreaming!"

Boss Qian and President Lin looked at the two of them in a daze. What was going on?

"Li Jun, do you know boss Xia?" asked boss Qian.

"More than just knowing! Dad, this is my comrade!" Qian Lijun said excitedly,"we new recruits sleep on the same shared bed!"

Xia ruofei was also stunned. After talking for so long, boss Qian was Qian Lijun's father!

Speaking of which, he had only been comrades – in – arms with Qian Lijun for a period of time, so they didn't know each other very well. He only knew that Qian Lijun's hometown was in the Jiangsu and Zhejiang Province, and his family business was quite big.

At that time, Xia ruofei was in the Army. The new recruits of that year came from two places. One was Sanshan city in the southeast province, and the other was Ouyue city in the Jiangsu and Zhejiang Province.

The two of them were from the same recruit company and were assigned to the same recruit class.

After they left the company, the two of them were even in the same company and class. It could be said that they were fated.

Because of this, Xia ruofei and Qian Lijun had a very good relationship.

Especially when he was in the recruit company, Qian Lijun's physical fitness wasn't very good at that time. Every time he trained, he would be on the verge of death. Xia ruofei often helped Qian Lijun in training, and the strong camaraderie was formed through the hard work on the training ground.

Of course, not long after Xia ruofei finished his recruit training and left the company, he was selected to participate in the lone wolf training and then officially joined the lone wolf commando unit.

Due to the secrecy of the unit, they gradually lost contact with their comrades in the old company.

He had heard that Qian Lijun had retired from the Army after two years to help his father with his business. He didn't expect to meet him here today. It was too much of a coincidence.

What left the deepest impression on Xia ruofei was that when he was in the new recruit class, Qian Lijun would often tell everyone how beautiful the red Arowana he raised at home was. He even showed Xia ruofei many photos of his Red Arowana.

It was because of this that after Xia ruofei retired, he happened to meet a dying Red Arowana owner in the seafood market. He bought it without hesitation and used the spirit Heart Flower petal solution to save his life.

Later on, Xia ruofei bought a Red Arowana to mate with. Now, they had already produced a large number of offspring in the spatial fish pond. He even gave a pair of high – Quality blood – Red Dragons to Ling Xiaotian.

Speaking of which, it was all thanks to Qian Lijun's instigations in the class. Otherwise, Xia ruofei would have missed that opportunity.

Chapter 553: respect me (1)

When boss Qian heard this, he couldn't help but say in surprise, ""Boss Xia, so you're Li Jun's comrade after all the talking! Hey, this whole thing is ..."

Xia ruofei smiled."Boss Qian ... No, uncle Qian, I haven't seen Li Jun in five to six years. I don't really dare to recognize him now that we've just met."

"Five or six years?" boss Qian asked, puzzled. Our Li Jun has only been discharged from the Army for four years!"

Qian Lijun said with a smile,"dad, ruofei was selected to join the Special Forces not long after he joined the company. Hi!" You won't understand even if I tell you this. Anyway, RUO Fei was our company's big star back then! When he was transferred away, the company commander and the instructor personally organized a Grand farewell ceremony!"

"That's all in the past,"Xia ruofei smiled and waved his hand.

"I remember it very clearly!" Qian Lijun said again. Among our batch of recruits, you're the most promising one! I heard from the platoon leader that you'll be promoted in a few years. "

When he said this, Qian Lijun revealed a strange expression and asked, "That's right, ruofei. Why did you leave the Army too? Back then, everyone said that you would definitely be promoted. Maybe our company would even have a general!"

Xia ruofei smiled bitterly."It's a long story. I only completed my second rotation. I came back before I completed my second rotation."

Qian Lijun's expression changed slightly as he asked, "What's wrong? You ... Did you make a mistake?"

"No, I didn 't!" Xia ruofei said,"I asked for it ... It's a long story. I'll tell you more about it when I have time."

Qian Lijun smiled and said, "sure! Now that we're in contact, let's keep in touch more in the future! RUO Fei! Don't leave today, I don't have anything else here, but I have enough wine! I'll ask them to get some game later. Today, I'm going to drink all the wine that I haven't drunk in all these years!"

When boss Qian heard this, he quickly said, "Yes, yes, yes! Boss Xia ... Well, you're Li Jun's comrade, so I'll have to call you Xiao Xia ..."

"Alright, uncle Qian, that's called friendly!"

"Okay, Xiao Xia and President Lin, since you're here today, Xiao Xia and our Lijun are good comrades. You should let me do my part as the host, right?" Boss Qian laughed and said.

President Lin thought for a moment and said, "okay!" Then let's have a good chat today!"

Xia ruofei and Qian Lijun were reunited and had a lot to talk about. Naturally, he didn't have any objections.

"Come on, President Lin, ruofei, let's talk inside!" Qian Lijun said excitedly.

The group of people followed boss Qian and his son into the small building and took their seats in the large living room on the first floor. Qian Lijun made tea for everyone and asked with a smile, "Oh right, ruofei, what business did you come here to discuss with my dad?"

"I'm here to look for uncle Qian for technical support," Xia ruofei said.

Boss Qian briefly explained to Qian Lijun what they had just discussed. Then, he said to Xia ruofei, "Xia, since you're Li Jun's comrade, we can't accept the processing fee. We have plenty of manpower now anyway. We'll send you an experienced master to help you tomorrow. Don't mention the money!"

Xia ruofei quickly said, "no way!" Uncle Qian, these are two separate matters. People say that there's no father and son in business! This is normal business behavior. You don't have to do this. "

Qian Lijun placed the teacup in front of Xia ruofei and pretended to be angry. "RUO Fei, aren't you slapping your brother's face? It's not a big deal! Isn't it just a technician? Do you think our family can ask you for money?"

Although Qian Lijun had only been in the same unit as Xia ruofei for about half a year, including the three months he had spent in the recruit company, Xia ruofei had always taken care of him. So many years had passed, and Qian Lijun was still very grateful.

Xia ruofei smiled and said, "Li Jun, you can't say that. Since it's business, we should follow the rules of business!" Besides, don't you have to pay your technicians?"

"Ruofei!" Qian Lijun said. You don't have to argue with me about this. Do we need to be so clear about the relationship between us old comrades? It's fine if we don't have enough manpower during the Dendrobium harvesting season, but our family's Dendi is basically done, and the technicians in the factory are free, so it's no big deal to give you some help!"

"I know," Xia ruofei said. How about this! Uncle Qian, Li Jun, this time, we will settle the processing fee as we have just agreed. Didn't I tell you after that? From now on, I will have iron – Skin Dendrobium that need to be processed into maple leaves all year round. After your old master is there, please help me

train a few skilled workers. When our people can take charge of a region, I won't have to trouble you! Before that, it doesn't matter if it's a processing fee or a technical consultation fee, we'll just settle it normally. What do you guys think?"

"No... Ruofei, if your people want to learn skills, send them directly to my factory!" Qian Lijun said, "I'll definitely arrange for the best master to teach them! It's not that hard to make a maple fight, the key is the technique and the heat control. As long as you're not stupid, you'll definitely be able to learn it!"

Boss Qian also smiled and nodded. "Yup! Ruofei, if that's the case, why don't you just send someone over to learn!"

Chapter 554: respect me by a foot (2)

Xia ruofei thought for a while and said, "that works too!" After this batch of maple fights is done, I'll pick a few people to come back with your Masters and let them study here. "

Then, Xia ruofei continued, "however, before our people finish their apprenticeship, we will still settle the fees according to the rules. This is my bottom line. If you still don't agree, I'd rather find someone else to help!"

Qian Lijun and his father looked at each other before he helplessly shook his head and said, "Alright then! You're still the same as when you were in the Army, a stubborn donkey!"

"This is called sticking to principles!" Xia ruofei grinned.

After they finished talking about business, dinner was ready, so boss Qian and his son invited everyone to the table for dinner.

Naturally, there were many toasts during the banquet. Especially since Xia ruofei and Qian Lijun had not seen each other for many years, their friendship was reflected in the wine glasses.

Back then, Qian Lijun's small body was relatively weak, and his alcohol tolerance was average. Xia ruofei's alcohol tolerance was already quite good back then. Now that he had taken so much body tempering soup, he was even more fierce.

Very soon, Qian Lijun went under the table while drinking.

Boss Qian and CEO Lin also drank a lot, so everyone was happy.

Boss Qian got someone to clean up two guest rooms. That night, Xia ruofei and CEO Lin stayed in boss Qian's Dendrobium candida cultivation base.

The next morning, boss Qian arranged for the most experienced master in their cultivation base, old Luo, to return to the southeast province with Xia ruofei.

Qian Lijun had originally wanted to keep Xia ruofei to play for a few days, but considering that the fresh Ironhide vessel strips had to be harvested and made into fengdou as soon as possible, he did not dare to delay Xia ruofei's time.

Before he left, Qian Lijun repeatedly warned, "Ruofei, time is too tight this time. I didn't have time to contact my comrades in the same batch in Anyue city. You must come back after you're done with this.

Don't you have to send workers for training? I'll take you to laoyan mountain to have some fun. Let's call a few more comrades and have a good gathering!"

"Alright!" Xia ruofei smiled and said, "contact Pan Qiang, Wang Zhihai, and the others first. I'll come back again after I'm done with fengdou."

Pan Qiang and Wang Zhihai were Xia ruofei's comrades who had joined the Army in the same year. Among this batch of soldiers from the Yue Kingdom, besides Qian Lijun, these two were the closest to Xia ruofei.

"Alright!" Qian Lijun said. Then you guys drive slowly! If you need anything, just let me know! You don't have to be so polite with your brother!"

CEO Lin drove the car personally as usual. Xia ruofei took old Luo's ID card and booked two afternoon tickets to Sanshan city on the way.

As the time was close, CEO Lin drove Xia ruofei and Xia ruofei to Xiaoshan airport. They had lunch near the airport, and Xia ruofei expressed his gratitude to CEO Lin.

This time, it was all thanks to the enthusiastic President Lin. Otherwise, things wouldn't have gone so smoothly, and he wouldn't have been able to contact Qian Lijun again.

Even if President Lin did this for his own performance, Xia ruofei still sincerely thanked him.

As for occasionally getting him some wild ginseng or selling him the iron – skinned fengdou, it didn't matter. Anyway, they were all selling it for money, so it didn't matter who he sold it to.

There were still about an hour before the boarding time. Xia ruofei simply brought old Luo to change their boarding pass and waited in the waiting hall.

Old Luo's master was in his 50s. He had been working in the Dendrobium base all year round, so his skin was dark and there were many wrinkles on his face.

However, old Luo's master was quite talkative, especially when it came to the iron – skinned fengdou. He was even more eloquent. Xia ruofei was not one to put on airs, so while waiting to board the plane, the two of them had a good chat.

As they were chatting, Xia ruofei suddenly asked, "Oh right, master Luo, I heard from CEO Lin yesterday that uncle Qian's business used to be quite big?"

"Isn't that so!" Master Luo sighed. "Don't think that the Dendrobium candidly grow well these past two years! A few years back, our boss was really down and out ..."

Hearing this, Xia ruofei felt that there was a story behind this!

He wasn't someone who liked to gossip, but he was bored while waiting for the plane, so he couldn't help but ask curiously, "Master Luo, then what happened a few years ago?"

Master Luo said, "if you ask someone else, they might not know. But I've been working in their Dendrobium base for more than ten years. I still know a little about the Qian family!"

Xia ruofei nodded and listened to master Luo attentively.

Master Luo continued, "our boss started his business with Chinese medicinal herbs. This iron – Skin Dendrobium base is only a small business. When our boss was at his peak, his assets were over a hundred million!"

Xia ruofei knew that master Luo wasn't boasting about how Qian Lijun was a rich young master back then! He remembered that when they had first arrived at the recruit company, the platoon leader had checked everyone's luggage. That guy had a big bag full of branded clothes, snacks, and all kinds of small electrical appliances, including mobile phones, game consoles, and Bluetooth earphones.

After this reunion, Xia ruofei could clearly feel the change in Qian Lijun. He was no longer the young master who was not diligent and could not differentiate between food and drink. It was obvious that he often helped out with the household chores. His hands were obviously rough.

Chapter 555: respect me by a foot (3)

This meant that Qian Lijun was more sensible than before.

Xia ruofei asked curiously, "master Luo, what happened to uncle Qian?" Why would our assets shrink by so much?"

"Boss Xia, our boss's assets didn't just shrink back then," said master Luo. When he was at his lowest, he still owed a huge debt! We workers haven't been paid for at most half a year, so we're all old people. During that time, we followed the boss and got through it. Now, he's very good to us, and his salary is much higher than that of other cultivation bases!"

"Then why?" Xia ruofei nodded.

"I don't know much about the details," master Luo shook his head and said, "I think I was deceived. "I remember the boss took out all the cash and sold a few properties. In the end, he even borrowed some from his relatives and friends, saying that he was doing some investment. In the end, it seemed like he met a scammer and all the money was gone. He even owed a huge debt ..."

Xia ruofei nodded thoughtfully and said, "So it's like this ..."

Master Luo continued, "I think that man is a good friend of the boss. He used to come to our cultivation base often. Once, the boss got drunk and scolded him for being a jerk. He even lied to his good friend ..."

Xia ruofei had a rough idea. There was a lot of private fund – raising in Jiangsu and Zhejiang Province. Boss Qian most likely invested the money in this kind of illegal fund – raising place. Then, the other party's capital chain broke, and the money was naturally lost.

"Uncle Qian didn't report the case?" Xia ruofei asked.

"Why not?" Master Luo said, "the court also ruled that boss won, but what can they do if they can't pay? Our boss trusted his friends too much, and he was scammed to the point that nothing was left. Fortunately, he has recovered over the past few years and paid back the money he owed. The cultivation base has made a lot of profits every year. "

Xia ruofei nodded and said, "you learn from your mistakes!"

He knew that master Luo was an outsider after all, and master Luo would not be very clear about the specific situation.

In fact, when Xia ruofei heard about this, he was slightly moved and wondered if he could help the Qian family.

Boss Qian was quite to his liking. He was also a loyal person. Qian Lijun was his good brother. It was all thanks to him for helping him with this matter.

Furthermore, boss Qian had promised to train workers for him. By right, they were competitors. Although the supply of high – Quality fengdou had always been in short supply, they were still considered to be in the same industry. There were not many people who could do what boss Qian did.

If it were someone else, not to mention helping with the training, they might even have to specifically tell the workers going to the southeast province to keep their skills confidential. Because only in this way could they collect processing fees! If they taught Xia ruofei's men, they would not be able to earn any money, right?

Just based on this, Xia ruofei would definitely help if he could.

The reason why he had such an idea was because he now knew a lot of high – ranking officials and nobles. He might be able to help with this kind of thing. At least, it would be good to get back some money for them.

Although he could not get any more information from master Luo for the time being and it was not convenient for Xia ruofei to ask Qian Lijun directly, he thought that since it involved tens of millions of funds, it might even be reported in the news.

Hence, Xia ruofei took advantage of the fact that it was not time to board the plane yet and opened his phone to search for Boss Qian's name.

Xia ruofei found a lot of useful information.

Moreover, after browsing through it, he felt that he might really be able to help and return the favor.

Chapter 556: I'll give you ten feet of respect (1)

Xia ruofei looked it up on the internet. The person who cheated was called Liu Jinsheng. This incident was really exposed on the news at that time.

But the strange thing was that Liu Jinsheng not only cheated boss Qian of tens of millions, but many people also invested in it. However, he did a good job in avoiding the law, all in the name of investment. In the end, although the court ruled that boss Qian and the others won, Liu Jinsheng actually did not have to bear any criminal responsibility.

Moreover, Liu Jinsheng's assets were almost all negative, so he could not afford to pay these hundreds of millions of Yuan.

The final result was that boss Qian and the other victims won the lawsuit, but they couldn't get any compensation at all.

Liu Jinsheng had already found a way out. He had no assets under the law. Even if he was forced to do it, he could not find a project that could be executed. In the end, he could only let him get away with it.

The most infuriating thing was that Liu Jinsheng couldn't pay a single cent. Then, there was a media company that did an in – depth report, saying that he had returned to his hometown in xiangnan province and spent all his time drinking and drinking. There were even reporters who followed Liu Jinsheng and reported on him.

However, it was useless. Boss Qian and the others applied for enforcement in court, but they still did not recover any money.

This guy had already thought of a way out. He didn't have any assets or savings under his name. On the surface, all his expenses in xiangnan province were paid by others. Even if boss Qian and the others knew that there was something wrong with Liu Jinshan, they couldn't do anything to him.

He had no choice but to swallow his broken teeth.

The internet was so advanced nowadays that Xia ruofei could basically understand the ins and outs of the matter through the online reports.

Xiangnan province was a key word. If Liu Jinsheng was a local tyrant born and raised in Jiangsu and Zhejiang Province, Xia ruofei might really need to consider it. After all, he had no connections in Jiangsu and Zhejiang Province. However, Liu Jinsheng was from Hunan Province. After the incident, he was basically only active in Hunan Province. In that case, Xia ruofei would have room to operate.

However, it was almost time to board the plane. Xia ruofei did not say much and just kept quiet.

He and master Luo boarded the plane according to the normal procedures. The plane was slightly later than usual before it took off from Xiaoshan airport and flew to Sanshan city.

More than an hour later, the plane landed at the Yongle International Airport in Sanshan city on time.

Xia ruofei had given Lei Hu a call before they left. Hence, when Xia ruofei and master Luo walked out of the departure hall, Lei Hu was already waiting outside with his Mercedes – Benz.

By the time he returned to Tao Yuan farm, the sky had already turned dark.

Xia ruofei arranged for master Lei to have dinner at the farm's canteen and then arranged a reserved room for master Luo at the mixed – use building.

Xia ruofei had specially instructed Lei Hu to provide master Luo with the best food and accommodation during his stay at the three mountains.

After returning to the villa, Xia ruofei told Ling Qingxue that he was safe. The two of them talked on the phone for a long time, saying endless sweet words.

Then, Xia ruofei, who had been on the road for the whole day, felt a little tired. He did not enter the spirit map space again and just lay down to sleep.

The next day, Xia ruofei invited master Luo to have breakfast at the farm canteen.

Master Luo had also received instructions from boss Qian, so he was also quite anxious. After eating, he said impatiently, "Mr. Xia, can you show me those iron – Skin Dendrobium fresh strips? This matter can't be delayed!"

Xia ruofei smiled and said, "my friend still has the Dendrobium No. 1 strips!" Master Luo, don't worry, I'll show you around the farm first. You're the most experienced in making iron – skinned maples, so tell me what you need first, and I'll ship the fresh strips over when I'm done. "

"Boss Xia, there's no need for any special preparation to make the iron Kaede bucket." Master Luo said, "as long as we have enough space and some equipment, it will be enough!"

"Alright!" Xia ruofei chuckled and said, "master Luo, I'll let Lei Hu show you around the farm first. I'll go and contact the fresh iron – Skin Dendrobium strips now. If you need anything, just let Lei Hu know! I'll get him to cooperate with you!"

"Alright!" Master Luo said.

Xia ruofei called Lei Hu over and said, "Hu, take master Luo on a tour of the farm first. If he needs anything, do your best to cooperate with him. If he really can't do it, get manager Li's construction team to cooperate with you. There's only one condition anyway. Master Luo's requests must be met with all your might, understand?"

"Let them in, brother Xia! I know what I'm doing!" Lei Hu said.

Xia ruofei returned to the villa after giving his instructions. He was not in a hurry to prepare the fresh iron – Skin Dendrobium strips. Instead, he took a good nap in the villa for half a day and only called Lei Hu in the afternoon to ask about the situation.

Master Luo's requirements were not very high. He just needed a special venue, some pots and stoves made with mud magic, and some other tools.

According to master Luo's request, Lei Hu had already asked manager Li to immediately organize people to build a row of mobile houses. He had also arranged for the mud workers to build the pot and stove under master Luo's guidance. As for the site, there was a lot of open space on the farm. As long as the construction team made some shelves to dry the iron – skinned Dendrobium according to the requirements, everything would be done under Lei Hu's coordination.

Xia ruofei asked. It was a simple task and everything should be ready by noon tomorrow.

Chapter 557: I'll give you ten feet of respect (2)

Hence, Xia ruofei decided to wait until the next morning before contacting a truck and some movers. Then, he drove to the warehouse that he had rented in the city.

After he took out the fresh iron – Skin Dendrobium strips that he had prepared in the spirit map space from the warehouse, the trucks and porters he had contacted had basically arrived.

Xia ruofei then arranged for the workers to move the fresh iron – Skin Dendrobium strips to the truck and then transport them to Taoyuan farm.

Xia ruofei drove his pickup truck and led the way. They arrived at Taoyuan farm without a hitch.

Xia ruofei's pickup truck drove directly to the open space next to the complex. A row of mobile houses had been set up. Xia ruofei knew that this would be the place where master Luo would make the Ironhide maples in the future.

Xia ruofei jumped out of the car and master Luo also came out of the mobile house.

Xia ruofei laughed and asked, "master Luo, what do you think of the conditions here?" If there's anything that doesn't meet your requirements, just tell me and I'll have them rectify it. "

Master Luo said, "boss Xia, your farm's execution is really amazing. It's only been a day, and it's basically all ready. I don't have any more requests on my side. As long as you provide enough manpower, I can start work immediately!"

Xia ruofei smiled and said, "no problem!" Master Luo, how many people do you need?"

Master Luo pondered for a while and said, "it's more troublesome in the early stages. I'll need about ten people!" As for the follow – up treatment, you just need to leave three to five assistants to me!"

"Alright, I'll make the arrangements immediately!" Xia ruofei smiled and said, "master Luo, I'll get someone to unload the car first!" Where do you think I should put it?"

"I've already cleared out the room on the left. Just move it inside!" Master Luo said quickly.

"Alright!" Xia ruofei said.

He immediately called the stevedores who came with the truck to carry down all the fresh iron – Skin Dendrobium strips he had packed, and then neatly stacked them in the room that master Luo had mentioned.

Master Luo couldn't wait to enter the house.

Xia ruofei knew what master Luo was thinking. He stood outside the door with a smile and did not follow him in.

After a while, Xia ruofei saw master Luo rushing out of the house in excitement. He grabbed Xia ruofei and said, "Mr. Xia, the quality of your Ironskin vessel fresh strips is too high! I ... I've been in this business for decades, but this is the first time I've seen such a perfect iron – Skin Dendrobium!"

Xia ruofei chuckled. "Master Luo," he said. "My fresh noodles aren't a disgrace to your reputation, are they?"

Master Luo laughed. "Of course, of course. Boss Xia, according to my experience, these Dendrobium candids are definitely pure wild. If they were planted in the wild, no matter how good the technique is, it would be impossible to achieve such an effect!"

Xia ruofei smiled and said, "master Luo, you don't have to care about whether they are wild or not. I just want to ask you one thing. Can you help me make these top – grade Ironhide bristleworms into top – grade Ironhide maples?"

"As long as you give me enough people and make sure they listen to my orders, I'll make the most perfect iron – clad maple bucket for you!" Master Luo said without hesitation.

Master Luo continued, "Mr. Xia, to be honest, I've been in this business for decades. In the early years, I've seen a lot of pure wild iron – Skin Dendrobium. But in terms of quality, it's not as good as your batch!"

Xia ruofei laughed and said, "master Luo, I'm relieved to hear your words!" Then I'll have to trouble you for the next period of time!"

"Don't worry! Boss Xia!" Master Luo said, "we've been making iron – Skin dendrobes for most of our lives, but this is the first time we've encountered such good raw materials. Even if I have to risk my life, I'll definitely help you make this batch of goods good!"

Xia ruofei said happily, "sure!" Master Luo, I'll give you a big red packet after I'm done with the goods!"

"No need, no need!" Master Luo quickly waved his hand and said, "boss Xia, my boss has already given me subsidies for going on business trips. Besides, your food and accommodation are included. I'm purely earning those subsidies, so please don't give me any more money ..."

Xia ruofei chuckled. "Master Luo, that's a separate matter. You're doing this for me. I'll definitely treat you well after it's done!"

Master Luo could only say, "alright then!" Thank you, boss Xia ... But please send over the people you promised me as soon as possible! I think these fresh fish should have just been harvested, we can't waste any time!"

Xia ruofei said, "sure!" Please wait a moment!"

Then, Xia ruofei turned to Lei Hu and said, ""Hu Zi, get a small team of security personnel to come over and cooperate with master Luo! In addition to the safety of the entire farm, the most important task of our Security Department in the near future is to cooperate with master Luo and make the iron maple bucket!"

"Yes!" Lei Hu said seriously, "brother Xia, I'll go and arrange it now!"

With that, Lei Hu walked out.

Xia ruofei quickly stopped Lei Hu and walked in front of him. He gently pulled on his sleeve and said, ""Hu, I still have something to do, let's go out and talk ..."

Outside the door, Xia ruofei looked at Lei Hu and asked, "Hu, how do you plan to arrange the manpower?"

"The team that Qin Xiaojun is leading is in charge of the mobile operation this week. There are no specific tasks assigned to them, so they can come over to help!" Lei Hu replied without a second thought.

"I knew you would do this!" Xia ruofei said.

Lei Hu was stunned and asked, "what's wrong?" Brother Xia, is there a problem with my arrangement?"

Xia ruofei laughed. "Normally, there would be no problem. However, this time is different. You can't arrange it this way!"

Xia ruofei paused and continued, ""Hu, the production of the iron – Skin maples this time is not a temporary decision. Our company will have a large amount of iron – Skin Dendrobium that need to be made into maples in the future, so I invited master Luo here this time. On one hand, it's to help us, and on the other hand, I want to send capable employees to learn the production method of the iron – Skin maples from master Luo. We hope that in the near future, we can complete the production of the iron – Skin maples on our own without having to ask others, and the quality is quite high!"

"Brother Xia, what should I do then?" Lei Hu asked, somewhat puzzled.

Xia ruofei pondered for a moment and said, "Hu Zi, how about this? you go and understand the thoughts of our brothers and Cao tieshu and the other workers. If anyone is interested in learning how to make iron – Skin maples, you can volunteer! We'll arrange for these people to learn from master Luo. In the future, I'll arrange for them to go to Jiangsu and Zhejiang Province and continue to study under the experienced Masters like master Luo until the day they learn!"

"Yes!" Lei Hu replied. Brother Xia, I'll go now ..."

Xia ruofei quickly stopped Lei Hu and said, ""Don't worry! Get Xiaojun's team over here first. If master Luo has any instructions, get them to cooperate with him! You'll be in charge of recruiting workers and gather all the interested workers. You'll start learning from master Luo tomorrow!"

"Alright!" Lei Hu said, "brother Xia, I'll make the arrangements now!"

With that, Lei Hu walked out directly. Xia ruofei called out behind him, ""Hu Zi, wait!"

"What else, brother Xia?" Lei Hu asked.

"Hu, tell the workers that I'll give them a 20% bonus at the end of the month if they're here to help with the production of the iron maples. If they decide to make Ironhide maples for the farm in the future and are willing to study in Jiangsu and Zhejiang Province, I'll double their salary!" Xia ruofei said.

"Understood!" Lei Hu smiled and said, "don't worry, Xia gongning. The benefits you're offering are so generous that even I'm tempted. My brothers and workers will definitely be eager to sign up!"

Xia ruofei smiled and nodded.

He waited for Qin Xiaojun to bring the security guards to the temporary mobile house, then he personally ordered Qin Xiaojun to cooperate with master Luo.

After that, Xia ruofei personally watched Qin Xiaojun and the others start to process the fresh iron – Skin Dendrobium strips under master Luo's arrangement. Only then did he leave with a peace of mind.

As Xia Rufeif walked back to his villa, he was thinking about the incident where boss Qian was scammed by the illegal fund – raising.

Boss Qian and Qian Lijun had been very kind to him this time. Xia ruofei felt that he should repay them in some way.

When people respect me one foot, I will return the favor ten feet!

So, as he walked, he took out his phone and dialed a number ...

Chapter 558: Iron – skinned Kaede fight (1)

After the call went through, Xia ruofei said with a smile, ""Young master Song, what have you been busy with recently? Why don't I see you running to my farm?"

After finding out that Liu Jinsheng was from xiangnan province and had been active in xiangnan province since the incident, Xia ruofei naturally thought of song Rui.

Song Rui's father was the Chief Judge of the xiangnan province. Young master Song was one of the most influential people in the province. Besides, Xia ruofei had a close relationship with song Rui. He did not have to beat around the bush when he asked him for help. It was the most convenient way.

If even song Rui couldn't handle this, Xia ruofei would definitely give up on Chengcheng. He just wanted to help and return the favor.

There was a trace of fatigue in song Rui's voice as he said, ""I've been in the company recently! I just came back from a business trip ..."

"Swish!" Xia ruofei raised his eyebrows and said in surprise, "you've changed?"

"Nonsense, didn't you teach me to be a good baby first?" Song Rui said unhappily, "only by letting the enemy let down their guard can we live a good life!"

"How do you feel?" Xia ruofei asked, trying to hold back his laughter.

Song Rui was stunned for a moment and then said, ""You don't say ... Recently, I've been settling down to do some things and learn some skills. Although it's a little tiring, I feel quite fulfilled ..."

"Kid, you're too immersed in your role!" Xia ruofei smiled and said, "there are no outsiders here. Why are you pretending?"

"I'm not acting!" Song Rui said unhappily, "brother, this is all true words, okay? It's actually quite interesting to do business seriously ..."

Xia ruofei was quite surprised. When song Rui wanted to run away from the marriage and even ran away from his family's arrangements, he cried and shouted that he wanted to run away from home and escape overseas. At that time, Xia ruofei just said that and asked him to act like a good baby. Naturally, the family did not have so many restrictions and did not press him so hard.

He didn't expect this guy to be so serious.

Xia ruofei's mind was in a mess, "if provincial head judge song knows about this, will he thank me?" 'It's all thanks to me ... I pulled this little devil onto the right path ...'

Xia ruofei felt that his image was becoming more and more imposing ...

Song Rui asked, "ruofei, is there anything I can help you with?" If there's nothing else, I'll hang up first. I still have a report to sort out in my hand!"

Xia ruofei quickly said, "wait, wait, wait!" I have something to do!"

"Then, make it short!" Song Rui said.

“Sure, song Rui. I need your help with something.” Xia ruofei said, “one of my comrades was scammed by someone and lost a large sum of money. The court ruled that my comrade won the case, but all the assets under his name were transferred and he didn’t get a single cent. That deadbeat is called Liu Jinsheng, and he’s from xiangnan province. I think you’re familiar with people there, so I hope you can help to coordinate ...”

“Just this?” Song Rui said, “I know! Send the details to my email! As long as this Liu ...”

“Liu Jinsheng!”

“That’s right, if Liu Jinsheng still has a single cent in his pocket, I will make him take it out and return it to your comrade!” Song Rui said in a relaxed manner.

“I’m glad to hear that!” Xia ruofei smiled and said, “you should pay more attention to this! I’m on good terms with that comrade of mine!”

“Don’t worry, don’t worry!” Song Rui said casually, “is there anything else? Then I’m hanging up!”

“Hang up, hang up! Come to the farm when you’re free, I’ll treat you to a drink!” Xia ruofei said.

Xia ruofei was not used to song Rui’s sudden drive.

After hanging up, Xia ruofei smiled and mumbled to himself, “This guy! Let’s hope he’s not just a three – minute hot topic ...”

Xia ruofei thought that it was very possible. Song Rui was lively by nature. He might start to get lazy after the novelty had passed.

.....

Over the next few days, master Luo began to process the high – Quality iron – Skin Dendrobium in the farm.

Xia ruofei’s offer was very good. Whether it was the security team or the workers at the greenhouse, they were all very enthusiastic about signing up.

Hence, Xia ruofei simply asked master Luo to organize a small selection and selected five people from the registered people. These five people would follow master Luo step by step and would be sent to Jiangsu and Zhejiang Province to learn after some time.

In the future, the production of the Ironhide Kaede Dou by the peach blossom company would be based on these five people.

Of course, there was a lot of work to do in the early stages of the production. Moreover, the amount of raw materials here was huge. It was definitely not enough to rely on just five people. Xia ruofei arranged for ten more people to help master Luo.

These ten people were equivalent to “temporary transfers” within the system. They were still working in their respective positions and would come over to help during the production of Kaede Dou.

During the time they helped to make the iron – Skin maple bucket, they would also receive additional rewards in the form of bonuses and subsidies.

Under master Luo's supervision, all the work was progressing steadily.

Xia ruofei had gone to the scene two days ago. Master Luo was very familiar with the processing of the fresh strips. He had removed the leaf sheath and cut the fresh strips into short sections of five to seven centimeters.

After that, he dried the freshly – processed strips and poured them into a high – Temperature iron pan to stir – fry.

All these could only be done by hand, especially when stir – frying. The control of the fire was very important, so such a key process was completed by master Luo himself.

Of course, he wouldn't hide anything. He explained the steps and key points in detail to the five people as he operated.

Chapter 559: Iron – skinned Kaede fight (2)

After stir – frying, the coating on the surface of the Dendrobium had to be rubbed off. Then, the peeled iron – Skin Dendrobium was wrapped around an iron wire and repeatedly baked for five to eight times in a drying cage to further remove the water.

The temperature of the baking was also very important. The iron maple Dipper made by master Luo would not be burnt at all, and the final product would be a beautiful golden yellow.

The process seemed simple, but there was actually quite a lot of attention to it.

Xia ruofei looked at master Luo as he finished the first batch of maples. He took out a few curly golden grains from the bag and asked with a smile, ""Master Luo, how's the quality of these fengdou?"

Master Luo wiped the sweat from his forehead and said excitedly, ""Boss Xia, I've been making Ironhide Kaede Doudou for most of my life, but this is the first time I've made such a high – Quality finished product! The raw materials you provided are really good, these iron maples are much better than the special products on the market!"

"That's great! Master Luo, thank you for your hard work!" Xia ruofei said happily.

Master Luo smiled and said, "it's not hard at all!" Boss Xia, you may not know this, but in this line of work, it's a pleasure to be able to meet such good raw materials and personally process them into the best iron maple!"

Then, master Luo pointed at the tin Kaede bucket in the bag and said, ""These iron maples are golden and shiny, so comfortable to look at! Boss Xia, there are now some illegal businesses that burn old newspapers to add color to the Maple buckets, but even so, the color of the Maple buckets can't compare to ours! Look at how pure this color is! The taste is so natural!"

Xia ruofei could tell that master Luo was full of achievement, so he laughed and said, ""Master Luo, I'll leave this batch of iron – Skin Dendrobium to you. We'll try to finish processing it as soon as possible!"

"Alright!" Master Luo grinned.

"Also, please teach our employees." Xia ruofei said.

“Don’t worry, boss Xia! This isn’t a unique skill!” Master Luo chuckled and said, “as long as they’re willing to learn, I’ll teach them all my secret skills!”

Xia ruofei looked at the five employees who were learning from master Luo and said, “Did you guys hear that? You’ve all seen master Luo’s skills. Don’t waste the opportunity to have such a good teacher to guide you! In the future, I will only let you officially take up your posts after you pass master Luo’s test!”

“Yes, boss!”

“We’ll definitely study hard!”

The five of them quickly nodded in agreement. After they finished their studies, their treatment would be doubled. That would be better than many white – collar workers! Furthermore, once they mastered a skill, they would never go hungry. They naturally cherished this opportunity.

Xia ruofei encouraged master Luo with a few words and let them continue with their work. He did not stay behind to be a hindrance and went straight back to the villa.

After Xia ruofei returned to her room, she recalled the discussion she had with Ling Xiaotian about the online promotion of Drunken Eight Immortals. Since she had nothing else to do, she turned on her computer to see how Li Jing was doing.

Xia ruofei immediately opened the search engine and searched with ‘Drunken Eight Immortals’ as the keyword.

After checking, he realized that Li Jing’s efficiency was quite high. At least, he had already read seven or eight versions of the article at a glance. Some of them were even being discussed enthusiastically on major forums.

“The memories of youth of the three mountain men: the Drunken Eight Immortals wine in my eyes.”

“The newly packaged Drunken Eight Immortals creates a miracle and is sold out as soon as it hits the market.”

<<Drunken Eight Immortals, what’s so magical about them?>> The old liquor worm explains it to you ”

“Do you know how popular this liquor has been recently? I’ll tell you the five sets of data!”

“A price of conscience, the spirit of the craftsmen, the rebirth of the phoenix of a century – old brand”

Where can i buy the Eight Immortals drunk now? Urgently waiting online ”

“Jia Junpeng, your mother is calling you to the supermarket to buy Drunken Eight Immortals.”

.....

Xia ruofei clicked on each article and browsed through them. He could not help but admire the creative ability of these fake reviewers. These articles did not leave obvious traces of advertising, and they hyped up the sales miracle of Drunken Eight Immortals from various angles.

Other than the article, Xia ruofei even found a whole set of emojis, such as “I’ll set a small goal first. After work, I’ll buy a box of Drunken Eight Immortals”, “mantis shrimp, let’s go buy Drunken Eight Immortals”, “I’ve failed to buy Drunken Eight Immortals three times. I suspect I went to a fake supermarket” ...

Aside from the various mainstream forums, there were also many topics regarding Drunken Eight Immortals on Weibo. Although they had yet to make it to the hot search rankings, the number of views and discussions on them were steadily rising.

Of course, negative comments were inevitable.

People these days were no fools. Those who frequently surfed the internet still had basic judgment. As such, many people scoffed at drunken eight immortal and believed that this was a complete hype.

There were also quite a few voices looking at Drunken Eight Immortals.

In fact, there were even some people who, in order to expose the “low – Level hype” created by Drunken Eight Immortals, even thought of ways to queue up and personally buy the wine to “test the poison” with their own bodies. They even took a video of it.

The result was unsurprising. After this “anti – fraud Fighter” drank drunk Eight Immortals, he immediately became a fan and was not stingy with his praises.

Of course, this person had also been accused by many of the netizens of being the Internet Water Army hired by immortal drunken eight, and all kinds of ridicule were thrown at him.

In short, there were supporters, oppositions, and neutral factions. Everyone had their own opinions, and the argument was very lively.

Chapter 560: Iron – skinned Kaede fight (3)

Xia ruofei couldn’t help but laugh when he saw this. He didn’t care if anyone was slandering the Eight Immortals! The effect he wanted was to attract everyone’s attention, and from the looks of it, it was obviously very successful.

Xia ruofei was very confident in the quality of Drunken Eight Immortals. He believed that as long as those people really drank Drunken Eight Immortals, they would definitely become fans or even anti – fans.

Xia ruofei was very satisfied with Li Jing’s work. He even called him to encourage him and to find out about the current sales.

In the end, Xia ruofei was pleasantly surprised. Within a few days, the sales of Drunken Eight Immortals had soared again. There were less than ten thousand boxes left in the warehouse, and more than two – thirds of the wine had been sent to the major channels.

According to Li Jing’s calculations, at least half of the 20000 boxes of wine had already been sold. This was even if some channels had limited the purchase in order to ensure the supply. Otherwise, they might have been sold out.

Furthermore, Walmart, Hualian, and other large chain stores also took the initiative to contact the winery, hoping to establish a long – term partnership.

Li Jing had already received instructions from Xia ruofei and Ling Xiaotian. He knew that due to production limitations, the winery's main goal was to cooperate with these large channels. Thus, he was very active in the negotiations. These channels had already analyzed the potential of Drunken Eight Immortals, so they took the initiative to make many concessions in terms of entrance fees, Commission, and other aspects. The negotiations were progressing very smoothly.

Xia ruofei was very happy and gave full recognition to Li Jing's work. At the same time, he also instructed him to speed up the construction of e – commerce channels and strive to open the flagship store of Skycat as soon as possible. Both sides would go hand in hand.

.....

In the next half a month, Xia ruofei mainly stayed in the farm. He would patrol the construction site every day or visit master Luo's place. He would also deal with some daily company affairs. Occasionally, he would return to the city to spend some time with Ling Qingxue. His days were very leisurely.

Very soon, master Luo finished processing the last batch of iron – Skin Dendrobium.

Originally, the iron maples had to be sorted according to their grades, but the raw materials this time were too good. Almost all the finished iron maples were of the best quality, so there was no need to sort them out at all. They were all put into a big bag.

Xia ruofei organized a group of people to carry over a pound of these iron maples. In the end, he obtained 136 kilograms of finished products, which was slightly more than the expected output.

Xia ruofei gave master Luo a red packet of 20000 Yuan and instructed pang Hao to give additional bonuses to all the workers who participated in the production of the iron – Skin maple.

Master Luo declined several times, saying that boss Qian had already given him his salary and travel allowance, so he could not take any more money from Xia ruofei.

However, Xia ruofei's attitude was very firm. He said that boss Qian was giving him his salary, and the red packet was a token of his sincerity. The two could not be mixed together. Master Luo couldn't reject it and could only accept Xia ruofei's Red packet in the end.

After the first production of the iron – Skin maples came to an end, Xia ruofei gave President Lin of Tongren Hall a call.

After President Lin heard about it, he immediately said that he would personally bring people to the three mountains to buy them all.

Xia ruofei considered the fact that he still had to send the five employees to boss Qian's place to learn. He had also promised Qian Lijun that he would go over to meet his comrades. Hence, he did not ask CEO Lin to come over and said that he would send them to Qiantang.

Then, Xia ruofei asked the workers to load the big bag of iron maples into his Knight XV off – Road vehicle and bought train tickets for five employees. He took master Luo in the off – Road vehicle and went straight to Jiangsu and Zhejiang Province in two groups.
