

God tier Farm 651

Chapter 651: The soul puppet Xia Qing_2

Xia ruofei reached out and touched the man in green. His skin was still elastic, almost the same as a real person's.

Isn't this simulation technology too awesome? He could simply beat up those so-called human replica robots!

Xia ruofei recalled that the man in green was dressed like an ancient person. He guessed that the person who made him must have been from a previous dynasty.

To be able to create such a fake puppet at that time, it simply subverted Xia ruofei's understanding.

Fortunately, the soul puppet was in the form of a middle-aged man. If it was made into a beautiful woman, Xia ruofei could not guarantee that he would not have any evil thoughts.

He shook his head violently to get rid of all the wild thoughts in his mind. Then, he walked around the man in green a few times and muttered in his heart, "This spiritual puppet was a replica, but it couldn't just be an ornament, right?"

According to the booklet's introduction, a soul puppet could assist its owner in many tasks. However, the soul puppet in front of him was motionless, just like playing with a dummy challenge. Qianqian wasn't exactly accurate in saying that. It was a dummy to begin with!

At this moment, Xia ruofei heard a click. He could not help but shiver.

From the corner of his eyes, he saw the array board on the stone tablet move. He quickly stepped forward and caught the array board that had just fallen off the stone tablet.

Then, the groove on the stone tablet disappeared at a speed that was visible to the naked eye. The stone tablet returned to its original ancient appearance, and no trace of the groove could be seen on it.

Xia ruofei thought that this was too illogical. If he hadn't reacted quickly just now, the array board would have fallen to the ground. The metal components were not a problem, but the sheep – Fat white jade at the core was probably in trouble. This was the highest quality sheep – Fat white jade! It was very expensive ...

Wait a minute! Sheep – Fat white jade?

Xia ruofei had a flash of inspiration. He clearly remembered that the booklet had mentioned that the runes on the suet white jade were the core to control the spiritual puppet.

.....

Could it be that it was the key to making the spiritual puppet move?

As Xia ruofei thought of this, he quickly picked up the array board. He exerted some force and removed the sheep – Fat white jade from the center of the array board.

Then, he started to worry again. He could guess the direction, but how could he place it on the spiritual puppet?

The robots on TV opened the hatch directly and the energy box could be put in.

Could it be that he had to take off the green – robed man’s clothes and check where the sheep – Fat white jade was placed? When Xia ruofei thought of this, he could not help but imagine the scene and felt a chill in his heart.

Xia ruofei tentatively held the palm – sized piece of suet white jade and gently touched the man in green. He said, “Take it ...”

The green – robed man remained motionless.

“Hey, look carefully, it’s the core rune!” Xia ruofei picked up the sheep – Fat white jade and waved it in front of the man in green. “Top quality sheep – Fat white jade. It’s so expensive!”

The green – robed man was unmoved.

“No way? Do you really want me to strip him of his clothes?” Xia ruofei muttered to himself with a bitter face, “at least make him look like a beautiful woman! This is too crazy!”

As he spoke, Xia ruofei looked at the sheep – Fat white jade in his hand unwillingly. He wanted to give it a try, so he released his spiritual energy and circulated it along the complicated and mysterious lines engraved on the sheep – Fat white jade.

A faint white light appeared on the sheep – Fat white jade, and the entire core rune quickly lit up.

The man in Green’s eyes lit up. Then, there was a suction force. The suet white jade in Xia ruofei’s hand flew up and passed through the man in Green’s clothes before entering his body.

Xia ruofei stared at the man in green nervously.

The man in Green’s eyes slowly lit up as if he had come to life. He moved his hands and feet gently and turned to Xia ruofei. With a respectful expression, he said, “Master!”

Yes, this guy’s expression was also quite realistic!

Xia ruofei was shocked as well. He was wondering if this was a real puppet or a human. Why was he panicking?

Xia ruofei cleared his throat and pretended to be calm. “Hmm, you ... What’s your name?”

“Master, please give me a name!” The green – robed man bowed slightly and replied.

Give him a name? What should I call it?

Old Zhao?

Old Li?

Old Wang? Xia ruofei thought about how this guy lived in the spirit map space, which meant that he was his neighbor! He immediately felt bad. He was determined not to have such a vulgar name!

Xia ruofei thought for a while and looked at the green robe he was wearing. "You can follow my surname, Xia! As for the name ... Let's call her Xia Qing, okay?"

"Thank you for the name, master!" The Azure – robed Xia Qing bowed and said.

"Alright, I'll call you Xia Qing from now on!" Xia ruofei said with a smile.

Then, Xia ruofei asked hesitantly, "Xia Qing! You ... Are you really just a puppet, not a real person?"

It was a bit of a blow to ask so directly, but Xia ruofei didn't have the confidence. Besides, it seemed that Xia Qing was very respectful to him, Xia ruofei thought that he wouldn't be angry ...

As expected, Xia Qing didn't show any dissatisfaction, and she replied with a respectful tone, "I'm master's exclusive spiritual puppet, not a human. "

"Then who made you? What is your body made of?" Xia ruofei asked.

He was really curious about this question. This soul puppet was simply passing off a fake as the real one, and it seemed to have a very high spiritual intelligence, even more realistic than the world's top Intelligent Robots. It could be said that if Xia Qing was changed into a set of modern clothes and let him go to the outside world, no one would find out that he was actually just a puppet.

Facing Xia ruofei's expectant eyes, Xia Qing lowered her head and said, "I'm sorry, master. I didn't know. "

It seemed that this question was beyond Xia Qing's scope. After all, he was just a puppet, and whether he knew or not was all decided by the person who made him.

Xia ruofei was slightly disappointed. Then, he asked, "Alright! Then ... What can you help me with?"

"Master, I've implanted" nine volumes of the divine farmer,"" collection of the farming heart,"" immortal herb Scripture,"and other ancient books into my brain. They can help master take care of the spirit map world and take care of the spirit herbs and immortal herbs within the spirit map world ..." Xia Qing immediately said.

When Xia ruofei heard the words "spirit map world", he was slightly moved. He knew that this was probably the correct name for the spirit map space.

He quickly asked, "you know that we're in the spirit map world, right?" How much more do you know about the spirit map world?"

Xia Qing replied, "master, I only know that the spirit map world is divided into the Archean realm and the mountain and sea realm. The Archean realm has a time formation that allows one to grow rare spirit plants that require a longer period of time. The mountain and sea realm is vast and boundless. It is a small world ..."

At this point, Xia Qing paused for a moment. She looked into the distance and sensed for a moment, then said, "Master, the current mountain and sea realm is only the tip of the iceberg. Master still has to work hard, so that the spirit map world can grow as quickly as possible."

Xia ruofei's eyes lit up. It was obvious that the so – called primal realm was actually the original space, and the mountain and sea realm was the new space he was in.

"Xia Qing, do you know how to make the spirit map world grow as quickly as possible?" he quickly asked.

"Master, you can plant more rare spirit herbs and immortal herbs. The spirit Qi released by these spirit herbs can nourish the spirit map world." Xia Qing said, "for example, the spirit heart tree of the Archean realm is a very good spirit plant. In addition, there are also some spirit plants that are extremely beneficial to the growth of the spirit map world, such as the Purple Heart mysterious pearl grass, mysterious Jade ginseng, Nine Heavens resurrection grass ..."

Xia ruofei could not help but feel a headache when he heard these names. He had never heard of them before. Furthermore, they looked very high – end and impressive. Where was he supposed to find them?

He directly interrupted Xia Qing's words and asked, ""Stop, stop ... Let's not talk about this first. Xia Qing, other than the various spirit plants, is there any other way to promote the growth of the spirit map world?"

"There's another way," said Xia Qing.

Xia ruofei was overjoyed and quickly said, ""Hurry up and tell me!"

Chapter 652: Sensing the Jade Leaf.1

"Master, world stones can promote the growth of the spirit map world," Xia Qing said. "As long as there are enough world stones, the spirit map world can expand quickly."

"World stone?" Xia ruofei revealed a doubtful expression and said, "I once gave Ling tukong ... Ling tu world to absorb jadeite. Xia Qing, is the world stone you're talking about jadeite?"

Xia Qing shook her head and said, "master, as far as I know, the jadeite contains a very small amount of world stone. If the spirit map world absorbs a large amount of it, it can also expand. However, the amount required is extremely large."

"Then what is a world stone?" Xia ruofei asked subconsciously. Then, he had a flash of inspiration and quickly asked, ""Xia Qing, the world stone you mentioned, is it a type of black stone?"

Xia Qing nodded and said, "the vast majority of world stones are indeed black in color. However, there are some exceptions occasionally." I can sense the aura of fresh world stones in the spirit map world. Master, you must have let the spirit map world absorb world stones recently. "

Xia ruofei felt excited. It was true!

The black rough stone that time was the world stone that Xia Qing was talking about. No wonder the effect was so good after absorbing it that time. It was much better than the effect of jadeite that was several times better.

This was the correct way to promote the upgrade of the spirit map space!

Furthermore, Xia ruofei noticed a key point in Xia Qing's words!

He impatiently asked, "Xia Qing, you said earlier that you can sense the aura of the world stone?" So you can help me find the world stone?"

Xia Qing revealed a guilty expression and said, "I'm very sorry, master. I rely on the spirit map world to exist, so I can't leave it."

The surprise on Xia ruofei's face froze. So it turned out that he was overjoyed!

He sighed and asked, "How did this happen? Xia Qing, are you really unable to leave the spirit map world? I should be able to easily send you to the outside world."

.....

Xia Qing said, "master, I completely rely on the core formation of the spirit map world to survive. Even if my body can leave the spirit map world, I can't bring my consciousness out. So, when I go to the outside world, I can only be a puppet that can't move and has no consciousness."

After Xia ruofei heard this, he realized that this shortcut would not work. He could not help but feel depressed.

"Master," Xia Qing reminded, "the spirit map world can actually sense the world stone."

Xia ruofei forced a smile and said, "I know that. That's how we found the world stone last time." But the spirit map world's sensing range is too small, and the outside world is so big. It's like looking for a needle in a haystack ... Forget it, I'll think of a way slowly ..."

Xia Qing thought for a moment and said, "master, I actually have another way, but I don't know if it can help you ..."

"Oh? Tell me!" Xia ruofei said.

"I know of a formation that is specially used to find the sensing world stone." Xia Qing said, "actually, I also have this kind of array on me."

Xia ruofei's eyes lit up.

"I should be able to find a way to set up this kind of formation." Xia Qing said, "master, you should be able to bring the array to the outside world with you. It should be able to help you find the world stone."

"Then how wide can the sensing range be?" Xia ruofei asked hurriedly.

"It's definitely larger than the spirit map world." Xia Qing thought for a moment and said, "but I've never tried it before, so I can't say for sure. But at least, there shouldn't be a problem within a ten – mile radius."

Xia ruofei was overjoyed. Even if the Suan ni was five kilometers in diameter, it was much larger than the spirit map's sensing range. One must know that the spirit map would only tremble when one was very close to it, and this was only for the world stone. For ordinary jadeite, Xia ruofei would only be able to sense it when he touched it.

If he could sense the presence of a world stone within a five – kilometer radius, it would be of great help to him in his search for it.

“Xia Qing, you can start setting up the formation now!” Xia ruofei asked anxiously, “Oh right, do you need any materials?”

“Jade. The higher the quality, the better!” Xia Qing said.

Xia ruofei was a little worried and said, “I can’t bring the Jade into the medium! It will be directly absorbed by the spirit map world.”

Xia Qing smiled and said, “master, I’m here!” You just have to bring the Jade in, it won’t be absorbed directly!”

“You still have this ability!” Xia ruofei smiled in surprise and asked, “is suet white jade okay?”

In terms of high – Quality Jade, there were still some of the Supreme – grade suet white jade that Lu You gave Xia ruofei last time. It would be perfect if he could use it.

This was because Xia ruofei usually didn’t have high requirements for the quality of the Jade he bought. Instead, he pursued quantity. Besides, Xia ruofei didn’t keep any Jade. Every time he bought it, he would give it all to the spirit map space to absorb.

“Sheep – Fat white jade is fine,” Xia Qing nodded.

“Alright, just you wait!” Xia ruofei said, “I’ll take the sheep – Fat white jade from the outside world in a while.”

“No problem,” he said. Xia Qing grinned.

With a thought, Xia ruofei disappeared from the space.

After returning to the room outside, Xia ruofei immediately took out the sheep – Fat white jade that was locked in the cabinet.

To be safe, he did not put all the sheep – Fat white jade into the space. Instead, he chose a larger piece of scrap and put it into the space with a wave of his hand. He then controlled the sheep – Fat white jade to appear in front of the primordial stone tablet.

Chapter 653: Sensing the Jade Leaf.2

Xia ruofei placed the rest of the sheep – Fat white jade back into the cabinet and then returned to the medium.

As soon as he entered the space, Xia ruofei saw that Xia Qing was holding the Supreme – grade suet white jade. As expected, the Jade had not been absorbed by the space.

Xia ruofei was also surprised. He asked, “Xia Qing, I still have some of this Supreme – grade sheep – Fat white jade. How much do you need in total?”

“Master, the formation for the sensing world stone isn’t complicated. This piece is enough.” Xia Qing said.

"Alright, you can set it up now!" Xia ruofei said.

"Yes, master!" Xia Qing replied respectfully.

Xia ruofei stood at the side and watched. Xia Qing flipped her hand and a small carving knife appeared.

He didn't know if it was hidden on his body or if he had some other spatial treasure.

Xia Qing skillfully took the carving knife and began to carve the sheep – Fat white jade. At the same time, she quickly carved out a mysterious pattern on it.

In the midst of the flying Jade fragments, Xia Qing stared very intently at the sheep – Fat white jade in her hand, and her knife was fast and accurate.

After a while, the Supreme – grade sheep – Fat white jade had completely changed its appearance.

"Master, I'm done!" Xia Qing said.

Xia ruofei took the sheep – Fat white jade from Xia Qing and looked at it.

.....

This piece of Jade had been carved into a lifelike leaf, and the veins of the leaf could be vaguely seen.

Moreover, there were also faint lines of varying thickness on the Jade Leaf, some of which were even inside the Jade Leaf, but the surface was not damaged. It was unknown how Xia Qing managed to do this.

All the patterns formed an extremely mysterious pattern.

"Master, I've already engraved a small world stone sensing formation on this Jade Leaf. As long as you wear it on your body, the leaf will heat up and alert you if there's a world stone within the sensing range!" Xia Qing said respectfully.

Xia Qing thought for a moment and continued, "master, the spirit map world absorbed a world stone not long ago, so the Jade Leaf should have some reaction now."

Xia ruofei felt it carefully and could indeed feel a warm breath coming from the Jade Leaf.

It was really godly!

"Xia Qing, how far can this Jade Leaf sense?" Xia ruofei asked with anticipation.

Xia Qing cautiously replied, "master, I've just checked the array. Under normal circumstances, it should be able to sense the world stone within a twenty li radius. Any further and the reaction will be very weak. You might not be able to sense it."

Xia ruofei was very satisfied with 20 miles.

Just now, Xia Qing had said that she would definitely be able to sense it within a range of ten miles. Although that was the "minimum cost," the final effect would be doubled, which was already very good.

"That's great! Xia Qing, thank you!" Xia ruofei said happily.

"It's my honor to be able to serve you, master. I don't deserve your thanks ..." Xia Qing said with a bow.

Xia ruofei patted Xia Qing's shoulder excitedly and said, ""You deserve it! You've really helped me a lot ..."

"By the way, Xia Qing, is there anything I need to pay attention to when using this Jade Leaf?" Xia ruofei asked.

"The formation will automatically absorb the spiritual energy of heaven and earth to maintain its operation." Xia Qing said, "master only needs to ensure that you wear it on your body every day. Once the Jade Leaf senses the existence of the world stone, you will be able to discover it in time."

Xia Qing paused for a moment before continuing. "Master, the closer you are to the world stone, the hotter the Jade Leaf will be. So, once the Jade Leaf can sense it, master should be able to find the world stone easily."

"Understood!" Xia ruofei said with a smile.

This was a really powerful and easy to operate good thing! Xia ruofei's excitement was written all over his face.

Seeing this, Xia Qing couldn't help but remind him, ""Master, according to what I know, the realm stone is extremely rare. Although the Jade Leaf formation has expanded the sensing range, the difficulty of finding the realm stone is still very high. You must be mentally prepared for any mishaps."

"I know, don't worry!" Xia ruofei nodded.

World stones were not cabbages. One might not be able to find a few in an entire country. Hence, Xia ruofei was not so optimistic as to think that he would be able to find a steady stream of world stones just by wearing this Jade Leaf. This was simply unrealistic.

But no matter what, the Jade Leaf that Xia Qing had made was of great help to Xia ruofei.

At the very least, he wouldn't miss it when he was ten kilometers away from the world stone.

Now that he had the Jade Leaf, even though he could still be considered to have hit the jackpot in his search for the world stone, it was of a much higher level compared to the past. The chances of him finding the world stone were naturally much higher as well.

Xia ruofei was satisfied.

"Master, I just took a look. There are almost no spiritual plants in the mountain sea realm!" Xia Qing said, "you should plant more spirit herbs. This can also help the spirit map world grow."

Xia ruofei was a little embarrassed as he said, ""Xia Qing, actually ... The spirit herbs you mentioned are almost extinct in the outside world. Even if I wanted to grow them, I have no power! Furthermore ... I've planted some of the more precious crops in the yuankong ... Uh, the Archean realm. "

Xia ruofei was still not used to Xia Qing's way of addressing the mountain sea realm and the Archean realm. He felt that it was a little awkward.

"I see ..." Xia Qing nodded and said, "master, I'll find some time to draw some spiritual plant charts for you!" If you happen to encounter it in the outside world, you won't miss it. "

"Alright! I'll get you some pen and paper later. " Xia ruofei said, "Oh right, follow me to the Archean realm to take a look! The more precious crops are all over there. "

Chapter 654: Sensing the jadesleaf (3)

"Without master's permission, I can't enter the Archean realm." Xia Qing said.

"I'll Take You There directly!" Xia ruofei laughed.

With that, Xia ruofei brought Xia Qing back to the original space.

The aureum, wild ginseng, and iron – skinned stone Chi didn't seem to catch Xia Qing's attention. He only glanced at them indifferently, and then turned his eyes to the spirit heart tree.

"Spirit heart tree!" Xia Qing's eyes brightened slightly as she said, "master, I know that there is a spirit heart tree in the Archean realm. I didn't expect it to be such a huge one!"

Xia ruofei couldn't help but roll his eyes. He looked at the spirit heart tree that was as tall as a person and so thin that it looked fragile. Was this spirit heart tree big?

Xia Qing strode over to the spirit heart tree and looked at it with eyes full of love.

When he saw the pistil of the spirit Heart Flower, his expression could not help but change.

Xia ruofei had just harvested the newly grown petals of the spirit Heart Flower in the morning, so there was only a single pistil left.

Xia ruofei looked at Xia Qing's expression and couldn't help but ask, ""Xia Qing, is there a problem? I found that the petals of the spirit Heart Flower have a very good effect on curing diseases and strengthening the body for cultivation. Moreover, after picking them, they will grow again, so every time there is a new petal, I will pick it. "

"Master," Xia Qing said respectfully, "the spirit heart tree is indeed the best auxiliary for planting immortal herbs and spirit plants, and it also has a miraculous effect on curing illnesses and healing injuries. It was right for you to harvest the petals of the spirit Heart Flower in time."

"Then why did you ..."

"Master," Xia Qing sighed. "If I'm not wrong, you don't really take care of this spirit heart tree, do you?"

.....

Xia ruofei scratched his head in embarrassment and said, ""The spiritual energy in this space is so rich. I just planted those Phoebe zhennan, wild ginseng and so on and left them alone. They're all growing well!"

"How can these ordinary plants be compared to the spirit heart tree?" Xia Qing asked.

There was nothing wrong with that. Just the petals of the spirit Heart Flower alone were extremely precious. It would not be an exaggeration to say that it was the foundation of Xia ruofei's life.

However, Xia ruofei couldn't help but ask, ""Xia Qing, how did you see that this spirit heart tree was neglected? I think it looks pretty good ..."

Xia Qing pointed at the stamen and said to Xia ruofei, ""Master, I counted just now. This spirit Heart Flower should only have five petals, right?"

"Yeah! There were only three petals in the beginning!" Xia ruofei said, "it's been five petals since then. Is there a problem?"

"Master, the spirit Heart flower's final form should have nine petals," said Xia Qing. And if it's not taken care of and allowed to grow, five petals will be the limit. "

Hearing this, Xia ruofei's heart couldn't help but skip a beat. He asked anxiously, ""Xia Qing, you're saying that ... If you take care of the spirit heart tree, you'll be able to make this flower grow nine petals?"

This was simply too important. The petals of the spirit Heart Flower were one of Xia ruofei's most important resources. He needed these petals in many aspects of his career. The difference between nine petals and five petals was like the difference between heaven and earth. The number of petals produced was almost doubled!

"Master, nine petals is the final form of the spirit Heart Flower," Xia Qing said cautiously. "I can't guarantee it, but if I take care of it for a long time, it can at least reach seven to eight petals!"

Chapter 655: Kun fish cultivation (1)

"Yes! Master, this subordinate will definitely do his best!" Xia Qing said with an excited expression.

He was a puppet that could help with planting spiritual plants, so his loyalty was unquestionable. Xia ruofei was willing to give him such an important task. He was very excited by this trust.

"Xia Qing, you're here to take care of the spirit heart tree. Do you need me to prepare anything for you?" Xia ruofei patted Xia Qing's shoulder and asked.

Although Xia ruofei knew that Xia Qing was actually a spiritual puppet, it was too realistic. Sometimes, he still unconsciously treated Xia Qing as a living person.

"Master, I don't need to prepare anything special, but it would be better if you could prepare some jade stones for me." Xia Qing said, "the spirit Qi in the Archean realm is extremely dense. I can set up a simple spirit gathering array and gather the spirit Qi around the spirit heart tree."

"No problem!" Xia ruofei said, "I'll prepare it for you after I get out!"

Xia ruofei thought for a while and said, "Oh right, Xia Qing, you can stay in this Archean realm in the future!" When you're free, help me take care of the Phoebe zhennan, the iron – skinned stone centipede, and so on. Oh, and those tea trees, especially the 12 here, help me take care of them! Also, the Chinese perch in that fish pond are quite timid, so be careful not to alarm them when you work. "

Most of the baby salamander had been moved to the river in the new space by Xia ruofei. However, there were still some left here to be used as breeding fish.

“Yes, master!” Xia Qing said.

Xia ruofei thought of another question and couldn’t help but ask, “Xia Qing, you ... How do you usually replenish your energy? Do you need to eat?”

Xia Qing smiled and said, “master, I only need a small amount of Heaven Earth spiritual energy. I can continue working in this primal realm.” Besides, I can sleep when I’m not working, so I won’t consume too much spiritual energy. ”

Hearing this, Xia ruofei was completely relieved.

He felt that the spiritual puppet was really beyond his expectations. The spiritual puppet had a consciousness similar to that of a human, and it had the skills to take care of spiritual plants. It didn’t need to eat and could work all the time. It was perfect!

.....

Xia ruofei found a pen and paper for Xia Qing in the original space. Now, he had basically stored all these common items in the original space. He could use them whenever he needed them, which was very convenient.

Xia ruofei asked Xia Qing to draw the spiritual plant chart when she had time. If she were to encounter it in the future, she could transplant it into the space in time.

After handing everything over to Xia Qing, Xia ruofei left the spirit map space with a peace of mind.

After he returned to the outside world, the first thing he did was to go to Hengfeng jewelry to buy jade materials.

The Hengfeng group’s San Shan office’s manager personally accompanied Xia ruofei.

This was not a large – scale purchase, so there was no need to wait.

In the Hengfeng jewelry store, the store manager enthusiastically took out the Jade in stock for Xia ruofei to buy.

These were all raw jadeite, and their quality ranged from glass to bean.

Xia ruofei didn’t know what kind of Jade was needed for Xia Qing to set up a small spirit gathering array, but he had his own way.

In the spirit map space, Xia Qing could actually sense the situation outside, provided that Xia ruofei, the owner of the space, allowed it.

As long as Xia ruofei wanted to, he could seal the space at any time so that Xia Qing’s perception couldn’t penetrate the space. This would also prevent Xia Qing from watching when he and Ling Qingxue did some indescribable things.

Although Xia Qing was not a real human, Xia ruofei would still feel uncomfortable if he was constantly being watched.

In fact, this was just a simple use of the invisible power of space. Xia Qing explained it to Xia ruofei, and he understood it. It was not difficult at all.

So, it looked like Xia ruofei was picking out jades, but in reality, every time he picked up a Jade, he was communicating with Xia Qing in the space.

Soon, Xia ruofei understood that the Jade used by Xia Qing to set up the formation did not need to be of the highest quality. The glutinous kind completely met the requirements.

Hence, Xia ruofei only chose the glutinous – Type jade and bought a Jade that cost about 200000 Yuan.

After leaving Hengfeng jewelry, Xia ruofei put the Jades into the medium as soon as he got into the car.

He used his mind power to investigate and found that the Jade was not directly absorbed by the space, but in Xia Qing's hands.

Xia Qing set up the formation very quickly. By the time Xia ruofei drove home, he had already placed the Jade stones in a specific position around the spirit heart tree. Of course, there was also a difference in the flow of time here. Although it was only half an hour in the outside world, more than ten hours had passed in the space.

Xia Qing, who was in the original space, was busy improving the planting environment of the spirit heart tree. Xia ruofei would also enter the space when he had time to see Xia Qing's results.

He noticed that after setting up the spirit gathering array, the spirit Qi within a meter of the spirit heart tree had become much denser. He didn't know if it was his imagination, but he felt that the spirit heart tree seemed to be more energetic than before.

Of course, Xia Qing's methods of taking care of the spirit heart tree were not limited to this.

There were many methods that Xia ruofei couldn't understand. For example, Xia Qing had used the soil in her spatial space to pile up some small mounds under the spirit heart tree. He had also trimmed the leaves and branches of the spirit heart tree in a small area.

Although the effects of these methods could not be seen for the time being, Xia Qing told Xia ruofei that the improvement of the spiritual heart tree was a long – term process. If it wanted to reach the level of eight to nine petals, it would take at least a few years.

Chapter 656: Kun fish cultivation (2)

Xia ruofei was very patient and did not mind.

No matter what the result was, as long as there was an improvement, even if it was just one more petal, it was still a profit.

.....

On the 19th day, manager li led the construction team to work overtime and finally completed the transformation construction of the Pomfret cultivation workshop in advance.

When Xia ruofei found out about this, he was surprised.

However, when he thought about how the workers had been working non – stop for the past half a month, Xia ruofei felt that it was reasonable to finish the work ahead of time.

Xia ruofei, who had received the news, immediately called Feng Rao and went to the kun fish breeding workshop.

Jiang Hua and manager li were already waiting there.

“President Xia, President Feng!” The two of them came forward and greeted him respectfully.

Xia ruofei laughed and said, “you’ve all worked hard these days!” Manager Li, I heard from Jiang Hua that you haven’t been home for more than half a month. I’ve really troubled you. ”

“President Xia, our President Liang has given a strict order. If the construction is delayed by one day, I, as the manager, will be kicked out!” Manager li smiled and said, “that’s why I didn’t dare to slack off for even a second!”

“Hahaha! “No, no...” Xia ruofei laughed.

“President Xia, President Feng, please take a look at the workshop!” Jiang Hua came forward and said.

.....

“Good! Let’s go take a look!”

Under Jiang Hua and manager Li’s guidance, Xia ruofei and Feng Jing walked into the pomfrets breeding workshop.

The entire cultivation area covered an area of about one and a half mu, and it was completely enclosed with a greenhouse structure. There were 40 to 50 fish ponds of various sizes scattered according to their functions.

As soon as Xia ruofei entered the room, he felt that the environment was much quieter than outside, and the air seemed fresher.

“Mr. Xia, Mr. Feng, we’ve used the best sound – absorbing materials in our farm, and the air purification system imported from Germany has been installed in the greenhouse. It’s from the same manufacturer as the water purification and circulation system, and the quality is excellent!” Jiang Hua explained.

There was a hint of pride in Jiang Hua’s words. These two sets of equipment were definitely the best in the domestic farm.

This was only due to the coordination of various parties in the jianda group. The Germany manufacturers had only transferred the goods from the Huaxia region at the last minute. If they had been imported directly from Germany, 19 days would not have been enough.

Xia ruofei smiled and nodded. “It’s indeed not bad. You get what you pay for!”

As they came to the side of the blue fish ponds, Jiang Hua continued to introduce, “Mr. Xia, Mr. Feng, these fish ponds were specially designed to separate the pomfrets of different growth stages. The purified water here is not static. We have installed an intelligent system to simulate the Yangtze River’s water flow, so the pomfrets can adapt to the environment quickly!”

“CEO Feng, it seems like there are many tricks in this!” Xia ruofei turned to Feng Rao and said.

“Yup! Chairman, professional matters should be left to the professionals! You made the right decision by recruiting Jiang Hua into the company!” Feng Rao said with a smile.

Jiang Hua chuckled in embarrassment.

As they continued to walk forward, they came to a small room with a glass wall. The lights were bright inside, and several screens were placed neatly side by side on the table. Some of them were monitoring the inside and outside of the cultivation area, while some were some real – time rolling data.

“It looks like it’s very high – tech!” Xia ruofei smiled and asked, “Jianghua, what’s this for?”

“Director Xia, this is the brain Center of our entire cultivation workshop!” Jiang Hua smiled and said, “this set of surveillance system was used by the factory I used to work in. This time, I directly bought one from a partner company!”

Jiang Hua pointed to the screen and continued, “this set of monitoring equipment can clearly reflect the situation of the entire breeding area, including various indicators such as oxygen content, Ph, water temperature, and so on. At the same time, my mobile phone can receive the corresponding information, so that it is convenient to observe the changes in the pool in time and make adjustments in time to ensure the growth environment of the fish.”

Jiang Hua said as he took out his phone. He opened the APP that came with the surveillance system and demonstrated it to Xia ruofei.

“Whether I’m in the breeding workshop or not, as long as the indicator in the fish pond is abnormal, my phone will receive an alert in time.” Jiang Hua said.

“Not bad, not bad!” Xia ruofei said sincerely, “Jiang Hua, you’ve put in a lot of effort to perfect the entire workshop in such a short time!”

After Xia ruofei finished speaking, he turned to Feng Jing and said, “Director Feng, Jiang Hua has done a great job. Shouldn’t we give him a bonus?”

“You’re the boss, so you have the final say!” Feng Jing laughed.

Xia ruofei laughed. “That’s good. Inform pang Hao later that he will give Jiang Hua a double salary this month as a form of encouragement!”

Jiang Hua was surprised, but he still said humbly, “President Xia, this is part of my job. There’s no need to give me a bonus!”

“Merits will be rewarded, mistakes will be punished!” Xia ruofei did not give him any room to explain. “This has always been the case at paradise Corporation. We will never let the employees who have put in so much effort and dedicated themselves to the company suffer! This matter is settled ...”

“Then ... Thank you, President Xia!” Jiang Hua said.

“Hahaha! No need to thank me, this is what you deserve!” Xia ruofei patted Jiang Hua’s shoulder and said, “you have the skills and management experience. Just stay in our company. As long as you put your heart and soul into your work, you will get better and better treatment in the future!”

Chapter 657: Stingray cultivation (3)

“Yes, President Xia!” Jiang Hua said, “director Xia, it doesn’t really matter if we give out the bonus or not. What I’m more concerned about is ... When will our fish arrive?”

Jiang Hua was very ambitious now and wanted to show off his skills quickly!

“Is the cultivation workshop ready?” Xia ruofei asked with a smile.

Jiang Hua stuck out his chest and said, “director Xia, everything is ready. At present, all the systems have been calibrated to the best state. The fish pond’s index parameters are also fully qualified.” In addition, the company also recruited ten workers for the cultivation workshop a few days ago. I’ve already conducted preliminary training for them, and they can start work at any time!”

Xia ruofei said happily, “that’s great!” Get ready to receive the fish!”

“Director Xia, will the fish be shipped over soon?” Jiang Hua asked in surprise.

Xia ruofei chuckled. “I’ve already contacted the fry. They’re just waiting for you!”

“Then what are we waiting for? Quickly take me to transport the fish!” Jiang Hua said impatiently.

“You don’t need to worry about this.” Xia ruofei laughed. “You just have to bring the workers to clean up the mess! I guarantee you’ll see the baby fish before noon!”

“Yes!” Jiang Hua said excitedly.

Today was the day that the project had been accepted. Xia ruofei then instructed Feng Jing to arrange for the finance department to finish the final accounts as soon as possible and settle the remaining payment.

Xia ruofei had never hesitated in this aspect. As long as there were no problems with the quality of the project, he would pay on time.

After thanking manager li once again, Xia ruofei drove the pickup truck away from the farm.

.....

In the back of the pickup truck, there were a few large plastic boxes. Jiang Hua had specially prepared them for Xia ruofei to transport the fish.

These boxes were very thick, and they were both breathable and soundproof, which could effectively reduce the loss of Pomfret during the transportation process.

Xia ruofei went to the warehouse he rented in the city. He moved the boxes into the warehouse, carefully locked the doors and windows, and took out the spirit painting.

With a thought, Xia ruofei entered the space.

He didn't go to the original space to disturb Xia Qing. Instead, he went to the river in the new space.

Xia ruofei first filled a few large boxes with water by the river. The water in the river and the space spirit pool came from the same source. Even the multi – layer purified water in the cultivation workshop could not compare to them.

Then, with a thought, Xia ruofei's mind power quickly spread out and covered the entire River.

The situation of every salamander fish in the river entered Xia ruofei's mind.

With a thought, the invisible spatial force gently wrapped around the kun fish and slowly brought them to the surface of the river.

This invisible force was very gentle, and the Ray fish did not notice it at all. It continued to swim in the small area.

There were hundreds of water balls floating above the river, and each water ball had a salamander fish in it. It was a beautiful scene.

Then, the water balls slowly floated towards Xia ruofei and gathered in one of the large plastic boxes. They slowly sank into the water. There was no vibration throughout the entire process and the rays did not even realize that their environment had changed.

Xia ruofei did the same and quickly selected a thousand baby kun. In the past twenty days, the two baby kun had laid eggs again. Xia ruofei allowed the baby kun to grow to a certain size in the original space before moving them to the new space River.

After a while, Xia ruofei drove out of the warehouse. In the back of the car, there were a few large plastic boxes that were filled with a thousand sky – High salamander fish.

Chapter 658: The shocked Jianghua (1)

When the pickup truck returned to the farm, Jiang Hua and the employees of the pomfrets were looking forward to it. Feng Jing, pang Hao, Lei Hu, and the others had also put down their work and came to the entrance of the cultivation workshop.

As soon as Xia ruofei's car stopped, everyone gathered around.

Facing Jiang Hua's expectant eyes, Xia ruofei smiled and said, "The first batch of 1000 baby fish has been delivered!"

Jiang Hua was overjoyed and quickly greeted, "Everyone, come and move it quickly. Be careful not to shake it. Otherwise, the fish inside will be frightened and may die!"

Xia ruofei waved his hand. "Don't move! Don't move! I'll do it!"

"Ah?" Jiang Hua and the others were surprised.

Xia ruofei smiled and walked to the back to open the back of the pickup truck. Then, he carried one box in each hand and carried it down easily.

Jiang Hua couldn't help but open his eyes wide. He knew that this kind of specially made transfer box had a thick layer and an oxygen increasing device. It was filled with water and fish, so it weighed nearly two hundred catties.

Xia ruofei looked as if he was holding onto two straws, as light as a feather.

Most importantly, Xia ruofei's hands were very stable throughout the entire process. His movements were very gentle. The two transferal boxes did not shake at all.

The boss was too strong, wasn't he?

Jiang Hua, Feng ke, and the others opened their mouths slightly in surprise.

Only Lei Hu looked on with a smile, thinking that this group of people were really ignorant. Squad leader Xia was the backbone of Lone Wolf's assault team. What's the big deal with carrying a few hundred pounds of things?

.....

In fact, Lei Hu did not know that although Xia ruofei could also lift such heavy things in the past, he could not lift them as if they were light, without any shaking or vibration, as he did now.

This was all thanks to the body tempering soup.

Very quickly, under everyone's admiring gaze, Xia ruofei carried the few large plastic boxes into the breeding workshop.

Xia ruofei pointed at the transport boxes and said to Jiang Hua, "There are two batches of fish fry here, and there are some differences in size. The three boxes here are a batch. Why don't you take a look at how you're going to raise it?"

Jiang Hua carefully moved closer and looked through the observation hole for a while. He then said in surprise, "President Xia, these fish are huge! I estimate that each tail is almost 10 centimeters long, right? Is this batch all this big?"

Xia ruofei smiled and nodded. "The same batch is about the same size."

"Usually, the fish can be transferred to the breeding base after four to five centimeters." Jiang Hua said joyfully, "these fish are huge! That's good too, the survival rate will be much higher when we breed them!"

Xia ruofei smiled and said, "go and look at the other batch!"

On Xia ruofei's left side were three plastic transport boxes.

Jiang Hua nodded and walked over, thinking, "The first batch could reach 10 centimeters, and the second batch could reach at least 6 or 7 centimeters! It was really not bad!"

As a result, Jiang Hua's mouth was wide open, and his face was full of shock.

"Jiang Hua, what did you see?" Feng Rao couldn't help but laugh. "You're so scared?"

Jiang Hua was dumbfounded. After a long time, he said, "President Xia, so that 10cm one was the smaller one!"

"I didn't say that they were the bigger ones!" Xia ruofei said with a smile.

"Jiang Hua, how's this batch of baby fish?" Pang Hao could not help but ask, "look at how shocked you are!"

"The longest fish is nearly 20 centimeters, and the smallest is more than 15 centimeters," said Jiang Hua. Strictly speaking, this is no longer a fry ... Director Xia, I really admire you for being able to find such a big fry! This ... Isn't cheap, is it?"

Xia ruofei smiled. "I got it from a friend. It's a friendship price!"

Since Xia ruofei did not say anything, Jiang Hua was tactful and did not ask further.

He quickly arranged four fish ponds according to the size of the baby venomous sea snakes. Three of them were used to breed the larger batch of baby venomous snakes, while the baby venomous snakes that were about 10 centimeters in size were concentrated in one fish pond.

Since they were already in the breeding workshop, Xia ruofei didn't have to do it himself.

Jiang Hua and his workers carefully carried the box to the side of the fish pond and slowly put it in. Then, they opened the lid and Jiang Hua reached out to carefully tilt the box slowly to transfer the baby clam into the fish pond.

The entire process was as if he was taking care of a newborn baby, extremely careful.

Xia ruofei and the rest stood outside the police tape and did not go near the fish pond.

In Jiang Hua's words, the Stingray was extremely timid. If a lot of people surrounded the pond, they might be frightened.

It took Jiang Hua an hour to transfer the baby clam into the pond. He was very careful.

Xia ruofei pointed at the pond where the fish had been transferred and asked, "Jiang Hua, why are the baby fishes still in formation? The organization's discipline is quite strong!"

They had also noticed that the baby Boas in the pond were swimming in a group in a clockwise direction rapidly like a rapid marching Army, which was very spectacular from afar.

Jiang Hua smiled and said, "director Xia, this is the Yangtze River intelligent water flow simulation system that I reported to you before. The Stingray's characteristic is that its intestines are short, so it needs to keep eating and swimming. This system simulates the natural environment of the Yangtze River. The Stingray feels like it is in the Yangtze River, and it will unconsciously swim in the direction of the simulated water flow."

Chapter 659: The shocked Jianghua (2)

"It's really good!" Xia ruofei complimented and turned to Feng Rao. "CEO Feng, after seeing Jianghua's performance, I'm even more confident in raising Chinese perch!"

“Are you trying to say that you’ve got a good eye for talent?” Feng Rao chuckled.

“Hahaha!” Xia ruofei laughed. “Don’t try to get a personal idol!”

Feng Rao’s face blushed slightly as she pouted and said, “Who’s worshipping you ...”

Jiang Hua and the others had a strange look on their faces. Jiang Hua said unnaturally, “That ... CEO Xia, CEO Feng, I’ll go and fish up the fish that are turning white so that they won’t affect the other fish ...”

With that, he ran off with a net bag.

Pang Hao and the others also bade farewell and left. The workers pretended to be busy and dispersed, regardless of whether they had anything to do.

Xia ruofei looked at Feng Jing awkwardly. Wasn’t he just joking? What’s with your expressions? Isn’t his mind too dirty?

Feng Rao blushed and glared at Xia ruofei. Just as she was about to find an excuse to leave, she heard Jiang Hua’s soft exclamation.

Xia ruofei and Feng Rao looked at each other and quickly walked over.

As they were already close to the pond, Xia ruofei did not dare to raise his voice. He asked in a low voice, “Jiang Hua, what’s wrong?”

Jiang Hua turned around in shock and said, “Director Xia, the survival rate of your batch of fish is too high! There’s only one fish in this pond that has turned white, and there are only three fish in the other ponds ...”

Jiang Hua had been in this line of work for many years. Every time young fish were transported or adult fish caught, they had to be very careful. Pomfrets were very timid. In the past, when some breeders reared them in the open, they would usually turn hundreds of them white with a single Thunder.

.....

In the process of transporting the fish, due to the bumpy journey and other reasons, the survival rate of the fish would be very good if it could reach about 90%.

Jiang Hua had never heard of such a small fry that could only turn white out of a thousand.

Xia ruofei wasn’t surprised at all. This was a baby salamander that had been born and lived in the spirit map for such a long time! Just the spirit Qi they had absorbed during this period of time had made their bodies much stronger than ordinary clam fish.

However, after Jiang Hua’s explanation, Feng Rao was very surprised. She could not help but look at Xia ruofei a few more times. She felt that this Chairman seemed to be able to show extraordinary abilities from time to time. Xia ruofei’s image in her eyes was becoming more and more mysterious.

In any case, after Jiang Hua’s shock, the little embarrassment disappeared.

However, Jiang Hua was destined to be shocked again and again today.

He carefully fished out the fish that had turned white and couldn't help but let out a cry of surprise after taking a look. Then, he threw away the net and grabbed the dead fish that had come out of the water and looked at it for a long time.

"Jiang Hua, what's wrong this time?" Feng Rao couldn't help asking.

Jiang Hua turned a deaf ear to his words. He picked up a few other kun fish that had already turned white and was now looking at them.

Jiang Hua only came back to his senses after Feng Rao called him a few times.

However, he was not in the mood to answer Feng Jing. He looked at Xia ruofei in shock and asked, "President Xia ... This ... This ... Isn't this an United States Chinese perch? If I'm not wrong, this is an authentic Yangtze River salamander fish?"

Xia ruofei smiled and said, "yeah!" I didn't say that we're going to breed United States rays. Is there a problem?"

Jiang Hua's heart was like a turbulent wave, and his excitement was overflowing in his words. He stuttered, "C – President Xia, are these really Chinese perch?"

At present, most of the Chinese pomfrets, or all of the Chinese pomfrets, were imported from the United States the reason was simple: the Chinese pomfrets in the Yangtze River had almost gone extinct more than a decade ago.

Although they were the same species and even had similar DNA structures, in fact, whether it was in terms of taste or freshness, the United States pomfrets could not be compared with the real wild Yangtze River pomfrets.

At present, there were no large quantities of Chinese perch on the market. The price of cultivated United States stingers was very expensive. At its most expensive, it was more than 2000 Yuan per 500 grams. Later, as the number of farmers increased, the price decreased, but it was still at least a few hundred Yuan per 500 grams.

That was the price of United States perch. If it was authentic Chinese perch, it would be priceless even if it was ten times more expensive.

It was no wonder Jiang Hua was so shocked.

Xia ruofei smiled and nodded. "I'm sure that these baby fishes are the most authentic Chinese perch, and they're bred in an artificial wild environment."

"Oh my God ... This ... This is unbelievable." Jiang Hua's lips trembled as he spoke.

"Jiang Hua, is there a big difference between the Chinese perch and the United States one?" Feng Rao asked curiously.

Jiang Hua replied without hesitation, "one is heaven and the other is earth!" The Chinese perch was a delicacy that money couldn't buy, but the United States perch had been successfully imported and could be cultivated on a large scale! A conservative estimate would be that the price difference is ten times!"

Feng Rao's beautiful eyes could not help but reveal a look of shock. Her cherry – like mouth was slightly agape and could not close for a long time.

If the difference was ten times, that would be a few thousand Yuan per catty. If a thousand fish grew to two or three catties, it would be ten to twenty million Yuan!

Chapter 660: The shocked Jianghua (3)

This was only the first batch, and he could already recover all his investment costs!

Xia ruofei chuckled. "Jiang Hua, these are not the United States rays you're familiar with. Do you have the confidence to take care of them?"

Jiang Hua hesitated for a moment, then immediately puffed out his chest and said, "President Xia, no problem! In fact, the breeding method of the United States pomfrets was based on the habits of the Chinese pomfrets in the Yangtze River, so that they could adapt to freshwater environments. I'll pay close attention to the clam fish during the breeding process. I'm confident that I can make them grow up healthily!"

Xia ruofei smiled and nodded. "I'm giving them to you. Each fish is worth thousands of gold!" As long as you do your best, I won't blame you if anything happens. "

The Yangtze salamander fish were extremely precious in Jiang Hua's eyes, but it was nothing to Xia ruofei. As long as the spirit map space was there, there would be an endless stream of fish.

If it was not for the purpose of hiding, Xia ruofei would not even need to build this breeding workshop. The river in the new space was enough to allow the Chinese perch to reproduce and grow quickly.

"I'll do my best to ensure the survival rate of these kun fish, director Xia," Jiang Hua nodded. I guarantee that this batch of fish will be able to be caught and sold in a year!"

"En!" Xia ruofei nodded and said, "this is only the first batch of fish. I can see that many of the fish ponds here are still empty. I will quickly contact them and send more fish over!"

"Understood!" Jiang Hua said excitedly.

After knowing that these baby fishes were authentic Chinese perch, Jiang Hua felt a lot of pressure. However, he was more motivated. He was really ambitious now.

Xia ruofei stayed in the pomfrets breeding workshop for a while. Seeing that Jiang Hua had arranged everything in an orderly manner and was now busy putting in the first batch of bait, he left with a peace of mind.

Xia ruofei and Feng Rao were walking on the path to the farm. Feng Rao thought for a while and said, ""Chairman, the registration and approval procedures for the pharmaceutical company have been completed. The first batch of recruitment work is also basically completed. Now, Xue Jinshan is temporarily in charge of the Research Institute. He is leading a team to tackle the relevant documents and materials for the approval of the new drug."

Xia ruofei nodded and said, "I know." Boss Feng, if you have any difficulties, let me know immediately. I'll be in charge of coordinating. "

.....

“En!” Feng Rao said, “Xue Jinshan said that after this small – scale drug test has come to an end and the results of the test have been included in the new drug approval report, he will start running the approval procedures.”

“Have they ever studied the policy?” Xia ruofei asked, “is our new drug within the scope of shortening the approval process?”

“Xue Jinshan said that, according to the regulations, our Chinese medicine can be directly applied to the State Drug Administration and also reported to the provincial Drug Administration at the same time,” said Feng Rao. However, the first review would still be carried out by the provincial Drug Administration. So, I think if you have any familiar leaders in the province, it’s best to visit them ...”

“I understand what you mean!” Xia ruofei smiled and said, “CEO Feng, please remind me when Xue Jinshan and the others have the first draft of the report. I’ll go and coordinate with the provincial government!”

“Alright!” Feng Rao said happily.

She vaguely knew that Xia ruofei had a close relationship with Tian Huilan, the leader that Wu Liqian used to work for, so she tactfully reminded him.

Feng Jing knew very well that in a society like this, the same thing, even if it was completely in line with regulations and policies, could have a completely different outcome if a leader with enough authority greeted them.

After discussing the approval of the new drug, Feng Jing suddenly thought of something and quickly said, “By the way, Chairman, I have something to report to you. It’s also about the pharmaceutical company.”
