Chapter 711: Xue Fei shriveled in fear (2)

It must have been him coming up just now, but I didn't see his hand movements at all. What is this person doing? Xue Fei was shocked and scared.

The knife was about 15 centimeters long and had a gorgeous scabbard on it. It was a gift from someone to his father, the Deputy Mayor, and he used it to show off. Recently, he often brought it with him, saying that it was for self – defense, but in fact, he did not have the courage to use the knife in a real fight.

“What do you want to do?” Xue Fei's voice was trembling.

Wang Lina also showed a look of fear. What was the use of having a strong background? The ones who rushed were afraid of the dazed ones, the dazed ones were afraid of the horizontal ones, and the horizontal ones were afraid of the ones who didn't want their lives. What if this guy was a Desperado?

Xia ruofei looked at the knife in his hand with a smile and said, “What a good blade! It should be worth a lot of money, right?”

After saying that, he put his hands together and squeezed the knife in his hands.

Xue Fei and Wang Lina couldn't help but widen their eyes in disbelief.

The gorgeous knife was like plasticine in Xia ruofei's hand. He bent it effortlessly and then crumpled it into a ball ...

Xue Fei was very clear that how could someone give his father a common product? This was an authentic dagger from the engisha family! Furthermore, it was personally forged by the master of engisha and was extremely hard. It could not cut through iron like mud, but when used to cut iron bars, iron chips would fly up, while the blade would never break or bend.

Such a high – Quality knife was kneaded like dough in Xia ruofei's hands. This shocked Xue Fei and he was dumbfounded.

At this moment, Xia ruofei stopped what he was doing. A ball – shaped object appeared in his palm. He could no longer tell the scabbard, the blade, and the handle.

Xia ruofei smiled as he grabbed Xue Fei's hand and placed the metal ball in his palm. The heat from the metal ball brought Xue Fei back to his senses and he looked at Xia ruofei in horror.

Xia ruofei's display of power had far exceeded his imagination.

.....

Xia ruofei continued to smile gently and said, “Xue Fei, if Lin Qiao is hurt, you won't be any better off than this saber. Do you understand?”

Xia ruofei's tone was very kind, but to Xue Fei, it sounded like a demon. He looked at Xia ruofei in shock and couldn't help nodding.

Xia ruofei nodded in satisfaction. He patted Xue Fei's shoulder and walked back to the electronics mall.

Xue Fei and Wang Lina stood rooted to the ground as they watched Xia ruofei's back slowly disappear into the distance.

After a long while, Wang Lina asked, ""Brother Fei, who is this person? He ... The Lin Qiao he was talking about ... Isn't she the transfer student from your class? Do you have any grudges with her?"

Xue Fei was upset, but he didn't show any impatience since he hadn't slept with Wang Lina yet. He only said, ""It's fine, Lina. You don't have to worry about this ... Let's go! Let's go to the hotel!"

Wang Lina looked at Xue Fei suspiciously. However, due to Xue Fei's status, she did not dare to ask more. She obediently held Xue Fei's arm and walked forward.

Both of them had their own thoughts and soon arrived at the hotel.

Xue Fei's frightened heart gradually calmed down. At the same time, his heart began to burn with passion. He could finally pick the flower Wang Lina ...

What Xue Fei did not expect was that after being scared by Xia ruofei just now, his little brother actually became weak. Facing the naked Wang Lina, he was dejected and could not show his strength.

In the end, Xue Fei had no choice but to give up on his long – planned erotic plan. Facing Wang Lina's strange gaze, Xue Fei felt extremely angry.

Xia ruofei's shadow was like a demon that followed him closely, making him tremble in fear.

In the beginning, he didn't dare to have any evil thoughts about Lin Qiao as he was scared out of his wits.

However, after he failed to break Wang Lina's home base after a long time in the hotel, Xue Fei became even angrier. He even blamed Lin Qiao for the "injury" that Xia ruofei had caused him.

Xue Fei said hatefully in his heart, "my plan is flawless, no one will be able to tell that I did it. When the time comes, that devil can't blame it on me, right?" At most, I'll just hide at home this summer. No matter how awesome he is, he won't dare to find me in the city government's family residence.

.....

Xia ruofei didn't know that his warning had turned Xue Fei into "brother Wei." He didn't expect Xue Fei to be so angry that he didn't even think about stopping.

After he warned Xue Fei, he ran up the stairs to meet Lin Qiao who had been waiting for him.

"Brother ruofei, what took you so long? I thought you fell into the toilet!" Lin Qiao giggled.

Xia ruofei saw Lin Qiao's smile and couldn't help but say in his heart, "Hu Zi, don't worry! As long as I'm here, I won't let any harm come to our sister! I'll cripple anyone who dares to touch Qiao' er!

Xia ruofei's eyes flashed with a sharp light, but a warm smile soon appeared on his face. ""You've been waiting anxiously? Let's go! I'll take you to buy a computer!"

"En!" Lin Qiao held onto Xia ruofei's arm.

The two of them walked forward together. Soon, Xia ruofei brought Lin Qiao into a big shop.

Chapter 712: Xue Fei shriveled in fear (3)

Lin Qiao stopped and said, "Brother ruofei, this is an Apple Store! We'll ..."

"That's right! Although this M Nation company isn't a good company and their products are very expensive, the quality and performance are very good." Xia ruofei smiled and said, "you'll need it for University. We'll pick the good ones!"

"But ..." Lin Qiao said, "this is too expensive. I ... Don't have enough money!"

"Silly girl! If I accompany you here, do you think I'll let you pay for it?" Xia ruofei said.

"That won't do!" Lin Qiao quickly said, "before we left, my mom repeatedly told me not to spend your money anymore ..."

"The general has disobeyed military orders!" Xia ruofei smiled and said, "Qiao' er, this is a graduation gift from brother ruofei. Can you bear to reject it?"

"But ..."

"No buts!" Xia ruofei said, "let's go in and take a look first! If you don't like it, you can go to another shop! It doesn't cost money to look at it ..."

"Okay ..." Lin Qiao reluctantly agreed.

This was a shop authorized by Apple. The shop area was very large, and there were many display stands in the middle of the shop with mobile phones, tablets, laptops, and other peripheral devices for customers to try out.

After all, Lin Qiao was still a high school girl. As soon as she entered the door, she was attracted by the dazzling array of exquisite products. A trace of Love appeared in her eyes, and she quickly went to experience it.

Lin Qiao was experiencing the entry – Level MacBookAir, which was priced at a little more than 6000 Yuan. The metallic appearance, beautiful system interface, and smooth operating experience quickly made her unable to let go.

Lin Qiao didn't hide her love for this model of computer. She couldn't help but hesitate. Qianqian's mother gave her 5000 Yuan before she left, which was definitely enough to buy an ordinary laptop. However, Apple laptops were usually more expensive, with the most expensive being more than 20000 Yuan. This model only cost a little more than 6000 Yuan.

.....

Why don't I borrow a thousand Yuan from brother ruofei? Lin Qiao couldn't help but have such a thought.

No. 8 high school, where Lin Qiao was from, was a key class in the province. Many of the students were the children of leading cadres, and many of them used Apple phones and laptops.

When Lin Qiao saw her classmates using Apple products, she would naturally be envious. However, she had been very sensible since she was young and never compared herself with her classmates, let alone beg her mother to buy one for her.

Now that she had graduated from high school, did well in the college entrance examination, and was going to buy a computer for college, Lin Qiao was really tempted by this computer.

Xia ruofei noticed Lin Qiao's expression. He laughed and said, "Qiao'er, there are a few more designs here. Come and try them on!"

Lin Qiao walked to Xia ruofei's side and looked at the price tag first. It was the newly launched MacBookPro. The 15.4 – inch top – end version was priced at about 22000 Yuan.

Looking at the price, Lin Qiao couldn't help but stick out her tongue and said, "This is too expensive ..."

"It doesn't cost money to try!" Xia ruofei still said the same thing. "Come and try!"

Lin Qiao couldn't resist the temptation and also tried it.

The MacBookPro was much better than the air in terms of both configuration and performance. Moreover, the high – definition screen experience was obviously better than the air. After trying it out for a while, Lin Qiao was actually reluctant to put it down.

Xia ruofei smiled and beckoned a shop assistant over. "Do you have the mcbookpro for this i7 processor in stock? I want to sell one!"

The shop assistant quickly said, "yes, yes. Sir, please come this way. I'll pay for you immediately!"

Lin Qiao came back to her senses and quickly said, "Brother ruofei! This laptop is too expensive, I don't want it ... I'll just buy the air!"

Xia ruofei smiled and said, "since I've bought it, I'll buy the best one. I'll get it done in one go!" This arrangement is enough for you to use for four years in college, in case you have to replace it later!"

"But ..."

Xia ruofei waved his hand and said, "It's settled then. As your brother, I'll give you a small gift. If you reject it, I'll be sad!"

Xia ruofei then gestured to the shop assistant. The shop assistant immediately nodded and walked quickly to the cashier to get the bill.

Seeing Xia ruofei's determination, Lin Qiao didn't say anything more. She quickly glanced at Xia ruofei and said softly, "Brother ruofei, thank you!"

"Silly girl!" Xia ruofei ruffled Lin Qiao's hair affectionately and took her hand to the cashier.

The shop assistant had already brought out a new machine that had not been opened. He quickly opened the bill and said, "Sir, please swipe your card here! If you buy our new MacBookPro today, we'll give you a year's membership as a gift. This is your password card, please keep it!"

Xia ruofei took the membership card and stuffed it into Lin Qiao's hand. He grinned and said,""Just nice, it'll be more convenient for you to watch dramas in the future!"

After Xia ruofei paid with his card, he picked up the box containing the computer and was about to leave with Lin Qiao.

Just then, the shop assistant who had been serving Xia ruofei called out from behind,""Sir, please wait! You have spent more than 20000 Yuan in our shop, so you can join our challenge!"

Chapter 713: Xia's rapid fire (1)

Xia ruofei stopped in his tracks and turned around with interest."Challenge event? How do we challenge him?"

The shop assistant made an inviting gesture and said,""Please follow me!"

The shop assistant brought Xia ruofei and Lin Qiao to the other side of the store. There was a basketball machine standing by the door. It was the kind of basketball machine that was usually found in shopping malls or game centers.

The shop assistant said,"Sir, our store has been doing a promotion recently. All customers who spend more than 20000 Yuan in one go can get a chance to challenge the basketball machine. You will get different rewards for passing different levels. If you get a high score, there will be more prizes!"

Xia ruofei and Lin Qiao looked at each other and smiled."Oh? Then tell me the details. "

There was a sign next to the machine. The clerk pointed at the sign and said,""Sir, the specific rules of the challenge are all here. You can take a look first. If there's anything you're not clear about, you can ask me at any time."

Xia ruofei nodded and looked at the sign.

It turned out that this shooting machine had a total of four levels and nine basketballs.

The first level was one minute, and 40 points were needed to pass the level. The prize for passing the level was a mousepad.

The time for the second level was 50 seconds. If you accumulated 150 points in both levels, you could pass. The prize for passing the level was an original Apple data cable.

The third level would take 40 seconds. You would need to accumulate 250 points to pass the level. The prize for passing the level would be an original wired mouse for the MacBook.

The time for the fourth level was 30 seconds. This was the last level, and the final accumulated score of 400 points would be awarded. The prize was the original Bluetooth wireless mouse of the MacBook.

The value of these prizes ranged from tens of Yuan to about 500 yuan. In addition, the prizes could not be stacked, and only the one with the highest value could be obtained.

.....

This was actually a marketing campaign. This kind of shooting machine was very common in shopping malls and game halls. Xia ruofei had played with it before. Many people could play until the third or fourth round. It was not too difficult, so the prizes were not very high – end.

They had spent more than 20000 Yuan, so it was not a big deal to give away an original mouse that cost 300 to 500 yuan. Even if they did not play games, many times when they bought such an expensive computer, they would give away similar accessories.

However, Xia ruofei noticed that other than the above rewards, the shop had also set a record reward.

After completing all four levels, if the total score exceeded 400 points, one would be able to obtain the reward for clearing the level. The prize was an original Bluetooth wireless mouse.

If the total score exceeded 500 points, the prize would be upgraded to an ipodnano, which was worth about 1000 Yuan.

If the total score exceeded 600 points, the prize would be upgraded to an iPodTouch, which was worth about 1500 points.

Once the total score exceeded 700 points, the prize would be upgraded to an Apple smartwatch worth about 2200 points.

When the total score exceeded 800 points, the prize was upgraded to an iPad Pro worth about 5000 Yuan.

The main reason why the prize was so valuable was that 800 points was actually very difficult to achieve. Many basketball players could only get 600 to 700 points at most.

Although there were rumors on the internet that some amazing people could score more than 1000 points, they were very few.

The threshold of this challenge was very high. One had to spend more than 20000 Yuan in the store to have a chance. The probability of a shooting machine expert suddenly appearing among these consumers was too low. Therefore, the 700 – 800 points prize was actually more of a gimmick. Only a few people could really take it.

In fact, the event had been going on for more than ten days, and the most expensive prize in the store was an iPodTouch.

There was simply no one who could get prizes of the 700 or 800 – point level.

And 800 points wasn't even the final grade.

According to the sign, if the total score exceeded 900 points, one could get a 13.3 – inch MacBookPro worth 15000 Yuan.

With a total score of more than 1000 points, he would be able to win the ultimate prize, the “Qin Zhuan Apple Series” gift bag, which included a pair of beatsstudio head – mounted Bluetooth headphones worth 2300 Yuan, an Apple smartwatch worth 2200 Yuan, an iPhone 7plus worth 7000 Yuan, a top – end 12.9 inch iPad Pro worth 8500 Yuan, a 13.3 inch mabbook Pro worth 15000 Yuan, as well as Bluetooth mouse, Bluetooth keyboard, and other accessories. The total value was close to forty thousand Yuan.

Of course, this so – called ultimate prize was just a big cake drawn by the merchants. It was only theoretically possible to exceed 1000 points. Although there were legends on the internet that there were great people who could score more than 1000 points in shooting, there were probably only a few in the world who could reach this level.

Therefore, this was just a big gimmick for the merchants to promote their sales.

The shop assistant watched as Xia ruofei carefully studied the grand prize of 1000 points and couldn't help but find it funny. However, Xia ruofei was a customer who spent more than 20000 Yuan in the shop, so he couldn't rush him. He just stood aside and waited patiently.

After Xia ruofei finished reading, he asked, ""Can I start the challenge now?"

"Please wait!" The shop assistant said, "please give me your shopping receipt."

Xia ruofei took out the receipt and passed it to the shop assistant.

The shop assistant took out a small seal and stamped it on the receipt, indicating that this receipt had already experienced the basketball machine challenge.

"Sir, once you're ready, you can challenge me at any time!"

Xia ruofei nodded and said to Lin Qiao, "Qiao' er, how about I win you a Big Apple gift bag?"

Chapter 714: Xia's rapid fire (2)

Lin Qiao smiled and said, "okay!" Brother ruofei, wait a moment! I'm going to record the entire process of your challenge!"

Then, Lin Qiao immediately took out her phone and switched the camera program to video mode. Then, she said, "We can start now!"

Xia ruofei smiled and nodded. He placed the laptop box aside and gestured to the shop assistant.

The staff immediately came over and operated the machine. The machine began by inserting coins, but this wasn't a Game Hall, so the staff just had to adjust the machine's parameters to start.

The shooting machine started to play music, and the first round was shown on the screen. Then, a five – second countdown began.

Some passing customers, as well as customers in the Apple Store, saw someone challenging the shooting machine and gathered around.

Soon, the five – second countdown ended, and the board on the machine was raised. Nine basketballs rolled down, and a 60 – second countdown appeared on the board. This was the time for the first round.

Xia ruofei immediately picked up a basketball and threw it without looking at it. With a whoosh, the basketball went into the net, and he got two points!

At the same time as the first ball was thrown, Xia ruofei's other hand had already grabbed the second ball. Without any hesitation, he threw it with one hand.

He had also entered the frame with an empty mind, and had a total of 4 points!

Next, Xia ruofei shot from the left and right. The interval between each shot was extremely short, and each shot accurately hit the empty space.

The sound of the basketball entering the basket rang out, and the points displayed on the basketball machine rose rapidly, quickly reaching 180 points.

The onlookers couldn't help but exclaim when they saw Xia ruofei's shooting posture and the basketball flying towards the basket like a rapid – Fire cannon.

.....

Some people realized that Xia ruofei had not missed a single shot so far. Every shot was hollow and it was pleasing to the eye.

The shop assistant was also a little dumbfounded. He had encountered an expert! Could this guy really break 800 points? Wouldn't that be equivalent to giving away an iPad Pro?

As for the 1000 – point mark, the shop assistant didn't even think about it because it was an impossible task!

Soon, the time entered the 20 – second countdown. At this time, the score for each shot became three points.

Xia ruofei continued to shoot with both hands and hit the bullseye without any mistakes. His score rose even faster.

If not for the fact that there were only nine balls and it took time for the balls to roll down after entering the net, Xia ruofei could have shot even faster.

Soon, the first minute of the first level passed. The board slowly rose and the basketball was left above.

In the end, the fixed score on the shooting machine showed a staggering 323 points!

Everyone couldn't help but take a deep breath. Many people might not even get this score after four rounds, but Xia ruofei had achieved it in one round!

This score had already exceeded the third round's score. This meant that even if Xia ruofei did not vote, he would be able to enter the fourth round smoothly. It would be easy for him to get the reward.

When they heard that there was a shooting machine expert, many people came over and the number of onlookers was increasing.

The shop assistant saw that the situation was not good and quickly ran into the store to call out the store manager and the others.

The manager's face turned green when he saw the score for the first round on the machine.

This was the first time he had seen someone so good at shooting machines. Could this person be the legendary master of the shooting machine? Was he here to win the prize on purpose?

However, the manager quickly dismissed the idea. He had noticed that Xia ruofei was about to leave after buying the things, but the staff stopped him and told him about the challenge. This meant that before Xia ruofei bought the laptop, he did not know about the shooting machine challenge!

Moreover, even if Xia ruofei was an expert who had come to win the prize on purpose, the shop owner could only pinch his nose and admit it. He had spent more than 20000 Yuan to participate in the shooting challenge. It was completely in line with the rules!

Lin Qiao watched the video and was also very excited. She couldn't help but shout, ""Brother ruofei, good luck! Good luck!"

Xia ruofei smiled and turned to look at Lin Qiao.

After the first level ended, there was another five – second countdown, and then the second level would immediately begin.

Soon, the countdown ended, and the second stage began.

This round lasted for 50 seconds. Due to Xia ruofei's fast shooting speed, all nine basketballs were left on the board.

Xia ruofei waited for the ball to roll down before he shot out like lightning. He picked up the ball with one hand and threw it out without even looking.

The difficulty of the second level had already increased. The basket would move left and right.

However, Xia ruofei's basketball seemed to have eyes. He accurately predicted the movement of the basket and still went into the net with a whoosh.

After the ball was thrown, Xia ruofei's other hand had already grabbed the second ball and threw it out at a high speed.

Hollow frame!

What followed was a performance like a machine gun. The basketball kept flying into the basket and kept going in. It looked pleasing to the eye.

This works too? The onlookers couldn't help but gasp.

The basket had already started to move left and right, but Xia ruofei still did not need to look at the frame. He still maintained his high shooting speed and 100% accuracy.

The score was rising rapidly.

Was this guy even human? All the onlookers couldn't help but have such a thought.

The store manager and staff looked even more serious. It seemed like they were really going to bleed today!

Lin Qiao was the only one who was trying her best to keep the phone steady while cheering for Xia ruofei.

Entering the last 20 – second countdown, the score became three points per shot, and the speed of the score increase was even faster.

At the end of the second round, the total score had reached a shocking 568 points!

It had only been two levels, but he had already cleared all the levels in advance. He had far exceeded the 400 points awarded for clearing the levels and even exceeded the 500 points awarded for the iPad Nano!

Everyone couldn't help but think that he might really be able to exceed a thousand points!

However, the manager consoled himself. The last two levels only had 70 seconds in total. According to his field goal percentage and shooting speed, it should not be a problem to score 800 or 900 points. However, the possibility of him scoring more than 1000 points was too low ...

Just as everyone was having their own thoughts, the countdown to the third stage ended, and the stage officially opened!

There were only 40 seconds for this level. Xia ruofei activated the rapid – Fire mode again. Everyone felt that Xia ruofei's shooting speed seemed to have increased, especially in the last 20 seconds of the three – minute mode. Xia ruofei's shooting speed was obviously much faster.

And so far, he had maintained a 100% hit rate, which could be called a miracle.

By the end of the third round, his total score had reached a terrifying 791 points.

Everyone did a quick calculation. Although the third round took 10 seconds less than the second round, Xia ruofei's score was not much different from the second round!

Doesn't this guy get tired? His arms actually didn't feel sore after throwing so many rounds? How was it possible to maintain such a fast speed and hit rate?

This was simply too terrifying!

There was no doubt that he would score more than 800 points, which meant that the iPad Pro, which was worth more than 5000 Yuan, was basically in his hands.

Moreover, with Xia ruofei's stability, it would not be difficult for him to score more than 900 points. In that case, the 13.3 inch MacBookPro, which was worth 15000 Yuan, seemed to be in his pocket!

The only problem now was whether he could break through the legendary 1000 – point mark and get the Big Apple gift bag that would make people drool.

Chapter 715: Return with a full load (1)

Xia ruofei also heard the discussion behind him and could not help but smile.

1000 points? It sounded quite difficult. The last level was 30 seconds, and one had to score more than 209 points.

However, Xia ruofei had already promised Lin Qiao that he would win her an Apple gift bag. How could he go back on his word?

The onlookers were amazed by Xia ruofei's abnormal hit rate. In fact, Xia ruofei knew very well that with the help of spiritual power, the basketballs were like precise – guided missiles, and it was difficult to miss them.

As for the physical problems caused by continuously shooting from both sides at high speed, it was non – existent for Xia ruofei. After undergoing the transformation of the body tempering soup and the petal solution of the spirit Heart Flower, Xia ruofei's current body could not be judged by common sense. Even if he continued to shoot from both sides at high speed for an hour, he would not feel tired.

The fourth level's countdown was still 5 seconds.

That little bit of time passed by quickly. The board was raised, and the basketballs scrambled to roll down.

Xia ruofei did not wait for the ball to roll to the end. He reached out his arm to grab a basketball and threw it without looking at it.

When the basketball flew above the basket, the countdown had just ended. It was the 30 – second countdown for the fourth round.

With a whoosh, the basketball entered the hoop right before the countdown, not even wasting half a second.

793 points!

Xia ruofei's crazy performance was on stage again.

The basketballs formed a line one after another, and all of them entered the net without exception. The score was rising rapidly.

.....

Ten seconds later, it was the last 20 seconds of the challenge, and the score became three points again.

The score rose even faster.

882、885、888.....

No one could see the score clearly because it would be refreshed very quickly.

In the last 10 seconds, the score displayed on the shooting machine finally broke through the 900 mark.

This was already a record that was beyond imagination.

Everyone couldn't help but start the countdown.

9 seconds, 918 minutes.

8 seconds, 927 minutes.

Seven seconds ...

Everyone's heart was in their mouth, and the store's staff were also slightly relieved. It seemed that it would be a little difficult to break through 1000 points.

However, in the last few seconds, Xia ruofei's hand speed increased again and the speed of his score rising increased sharply.

2 seconds, 972 points.

1 second, 996 points.

Just as the countdown was about to reach 0 seconds, Xia ruofei grabbed a basketball with both hands and threw it out almost at the same time with a slight time difference.

Shua! Shua!

Two hollow sounds were heard.

At this moment, the time had jumped to zero.

And the score displayed on it was 1002 points!

The crowd of onlookers immediately burst into an uproar, and then everyone couldn't help but clap.

Lin Qiao was so happy that she almost jumped up. She ended the recording after a close – up of the score and then screamed as she pounced on Xia ruofei.

"Brother ruofei! You're amazing!" Lin Qiao hugged Xia ruofei and laughed, "1002 points! It's a Super Record!"

When the crowd saw a beautiful girl hugging Xia ruofei, they started to cheer and some even whistled.

Lin Qiao blushed and quickly let go of Xia ruofei.

Xia ruofei was sweating after he rolled four levels. Lin Qiao quickly took out a tissue and handed it to Xia ruofei.

"Thank you!" Xia ruofei took the tissue and wiped his sweat. Then, he looked at the store assistant.

"Excuse me ... My challenge of 1000 points should be considered a success, right?" Xia ruofei asked with a faint smile.

The shop assistant was dumbfounded at the unbelievable score. When he heard Xia ruofei's words, he came back to his senses and subconsciously looked at the store manager.

The store manager thought for a moment and immediately said with a smile, "Of course! Sir, congratulations on your success in the highest difficulty. You will receive a big gift bag of Apple products from us!"

The surrounding crowd let out waves of envious exclamations.

They had also seen the rules on the sign. They knew that if they scored more than 1000 points, they would be able to get almost all of the top – Class electronic products in the Apple Series, which were worth nearly 40000 Yuan. This was really enviable.

The manager was a little worried at first, but when Xia ruofei really scored more than 1000 points, he thought it through.

This promotion was originally an event approved by the headquarters, and the prizes were also estimated. He or the store did not need to bear the cost. Since someone had gotten more than 1000 points with their own ability, they would just give out the prizes normally.

Moreover, this in itself was a very big gimmick. It was simply a shot in the arm for this promotion, and it would definitely stimulate the customer's desire to spend.

Xia ruofei smiled and said to Lin Qiao, ""Qiao' er, I didn't fail you! Now, all the electronic products you need for college are here. You don't have to buy them anymore!"

Lin Qiao smiled and gave Xia ruofei a thumbs up.

The store manager invited Xia ruofei and Lin Qiao to return to the store.

The store manager personally led Xia ruofei and Lin Qiao to the rest area at the corner of the store and asked them to sit down. He also ordered the staff to bring tea and snacks.

"Please wait for a moment, we need some time to prepare the prizes ..." He said.

The manager smiled bitterly and said, ""Actually, we didn't expect anyone to break through the 1000 – point mark, so we didn't prepare the big gift package. But don't worry, our staff has already gone to the warehouse behind to transfer the goods according to the promised prize on the poster. It will be ready very soon."

Chapter 716: Return with a full load (2)

Xia ruofei smiled and nodded. ""It's okay, we're not in a hurry. "

At this moment, the store manager turned to Lin Qiao and asked, ""This student, I noticed that when your companion shot the ball just now, you seemed to have recorded the entire process, right?"

"Yeah!" Lin Qiao nodded. What's wrong?"

"It's like this," the manager quickly said, " can you give us a copy of your video? we want to use it to make a promotional video for this promotion! After all, you guys won the ultimate prize!"

"Well ..." Lin Qiao couldn't make up her mind. She looked at Xia ruofei.

After the store manager observed his expression, he quickly said, ""Of course, we won't take your video for free. As a token of our gratitude, I can make the decision to gift you the latest 128G iPad mini4."

This iPad mini4 cost about 3000 to 4000 Yuan. Xia ruofei didn't really care about the money. He thought for a while and said to Lin Qiao, ""Qiao' er, let me see the recording first. "

"En!" Lin Qiao immediately took out her phone and showed Xia ruofei the video that she had just recorded.

Xia ruofei watched it carefully. Lin Qiao was standing behind him. The focus of the video was on the shooting machine, and he was only captured from the back. His face was not shown the whole time.

Although Lin Qiao had shouted "brother ruofei, you can do it" in the video, people who were not familiar with her would not think of Xia ruofei.

As for those who were very familiar with him, such as Ling Qingxue, they would be able to recognize him just by looking at his back.

Xia ruofei thought for a while and felt that it was not a big deal to give this video to the store. It should not cause him any trouble.

Moreover, as the chairman of the Paradise Corporation, as the company continued to grow and grow in the future, he would inevitably step up to the front stage and gain more and more fame. This was not something he could control.

.....

Therefore, he didn't need to keep a low profile on purpose.

Xia ruofei said, "I can give you the video. However, don't take any photos when you receive the award. I don't want my face to become your publicity material."

"This ..." The store manager showed a difficult expression. "Sir, can we discuss this again?" Why don't we ... Invite this student to receive the award?"

Xia ruofei was stunned. He looked at Lin Qiao and asked, "Qiao' er, can you go and receive the award?"

Lin Qiao smiled and said, "sure!" If brother Fei doesn't want to show his face in public, I don't mind!"

Hence, Xia ruofei said to the store manager, "Alright then! Let Qiao' er go and receive the award, but ... You guys won't use the little girl's portrait for nothing, right?"

The store manager couldn't help but smile bitterly. He pondered for a while before saying, "Sir, why don't we give you an original Apple external optical drive for free? If I were to purchase it separately, it would cost around 600 Yuan. This ... Is already the maximum authority I can give!"

The manager wasn't lying. The iPad mini4 that he had promised to give out was actually the maximum he could give. However, breaking the 1000 – point record and winning the ultimate prize was indeed a hot topic. It would definitely be a great help to the promotion.

That was why he had gritted his teeth and sent out an external optical drive. Under the circumstances where he had a legitimate reason, it should not be a big problem to report it later.

Xia ruofei naturally did not mind. He smiled and nodded. "Alright then! We'll do as you say!"

At this moment, a shop assistant came over to report that the big gift bag's prize had been prepared.

The store manager immediately ordered the staff to prepare a brand new 128G iPad mini4 and an original external optical drive. Then, he invited Xia ruofei and Lin Qiao to receive the award.

The place to receive the prize was in front of the cashier. The staff had even placed the promotional posters on both sides. There were more than ten big gift bags with boxes of all sizes stacked together. It was a very visually impactful sight.

Since Xia ruofei didn't show up, Lin Qiao walked up to the store manager and took the generous prize from him. Then, she took a photo with the store manager in front of the poster.

After the photos were taken, Xia ruofei went up and took the boxes of different sizes from Lin Qiao.

Although Xia ruofei did not open up all the prizes, he still carefully looked at the poster of Qin Zhuan's event. The prizes were basically all top – tier models, so he still had to check them.

After Xia ruofei verified the video, the manager walked over with the iPad mini4 and the original external optical drive. After handing the extra prize to Xia ruofei, the manager took Lin Qiao's mobile phone as if he had obtained a treasure. He went to the cashier to connect the data cable to the computer and copied the video.

The two of them left the electronics mall with a bunch of prizes in their hands.

After returning to the Knight XV SUV, Lin Qiao looked at the mountain of prizes in the back seat and said with a smile, ""Brother ruofei, I can't believe it. This is like a dream!"

Xia ruofei laughed. "I've promised you that I'll win this big gift bag. You have to keep your word!"

"Brother ruofei, you're the best!" Lin Qiao said.

In fact, a prize of 40000 to 50000 Yuan was nothing in Xia ruofei's eyes. But to make Lin Qiao so happy, it was something that money couldn't buy.

Xia ruofei started the car and drove away from the parking space.

At this moment, Lin Qiao revealed a worried expression and said, ""Brother ruofei, if we bring so many Apple Electronics back, my mom will definitely scold me again ..."

Xia ruofei laughed and said, "isn't that simple?" Anyway, there's a 13.3 – inch MacBookPro in the prize money. The 15 – inch MacBookPro I bought for the girl is a bit too big, so the 13 – inch one is just right for you. In this way, I bought the computer myself and gave you the prize I won in the event without spending a single cent. Auntie won't say anything to you, right?"

"That makes sense!" Lin Qiao's eyes lit up. "Brother ruofei, you're so smart!"

Then, she hesitated for a moment and said, ""Brother ruofei, you won all the prizes. Are you really giving them all to me? Why don't you ... Keep it for yourself!"

Lin Qiao was an honest village girl. Although the prizes were free, their value was obvious. Subconsciously, she felt that it was inappropriate for Xia ruofei to give her such an expensive gift.

Xia ruofei laughed and said, "silly girl, what are you thinking?" I don't need those things, so I'll give them to you. Besides, what's wrong with a brother giving his sister a gift? Besides, I haven't even spent a single cent on these!"

"But ..."

"You don't have to say 'but'!" Xia ruofei said, "I'm going to get angry if you keep rejecting me!"

"Okay ..." Lin Qiao smiled at Xia ruofei. "Thank you, brother ruofei!"

The two of them quickly returned to the rental house in the forestry Bureau's family courtyard. Hu Zi's mother had already prepared a simple luggage, and everyone quickly went downstairs.

After they got into the car, Hu Zi's mother saw the pile of prizes in the back seat. Although she didn't know the exact value, she knew that things like apples were very expensive, so she couldn't help but blame Lin Qiao for being insensible.

Xia ruofei quickly explained the reason that he had prepared. Hu Zi's mother was still a little skeptical. Lin Qiao showed her the video of Xia ruofei shooting the basketball in front of the store and dispelled her suspicion.

However, Hu Zi's mother couldn't help but say a few words about Xia ruofei giving all these valuable prizes to Lin Qiao. Xia ruofei said that these things were used by the students and he didn't have any use for them. It would be a waste to bring them home, so he gave them to Lin Qiao.

Only then did Hu Zi's mother stop asking.

Soon, Xia ruofei drove out of the city and returned to Taoyuan farm.

Xia ruofei was the only one living in the small villa now. The guest room on the first floor had been vacated, so when they got home, Xia ruofei found a clean bed sheet from the cabinet and quickly prepared a room for the two of them.

After putting the luggage away, Lin Qiao didn't even bother to study the pile of Apple Electronics. She pestered Xia ruofei and said, ""Brother ruofei, the fruits on your farm are ripe, right? Can you take me to go and have some fun picking?"

Chapter 717: fruitful_1

"I haven't really paid much attention to the orchard recently." Xia ruofei smiled and said, "wait a moment. I'll make a call and ask."

Xia ruofei would only go to the water tower every few months to add some of the spirit Heart Flower petal solution. He had left the specific management of the orchard to Cao tieshu, so he was not sure if the lychees and cherries in the orchard had ripened.

But Cao tieshu definitely knew.

Hence, Xia ruofei took out his phone and dialed Cao tieshu's number.

"Boss!" Cao tieshu quickly picked up the phone.

Xia ruofei asked, "old Cao, how's the situation with the fruit trees on our farm?" Looking at the time, it should be about to ripen, right?"

"Boss, you haven't been on the farm these past few days. I was just about to report to you!" Cao tieshu quickly said. The cherries and lychees have ripened, so it's best to pick them in the next few days. "

"Is that so?" Xia ruofei was slightly surprised. "I remember that our species of lychees ripens around July, right?"

Xia ruofei had brought in late – ripened cherries, which ripened in early June. The lychees would ripen later.

"We also find it strange!" Cao tieshu said. The lychees are growing especially well this year. They bear fruits earlier than usual, and they're much bigger than normal lychees!"

Xia ruofei thought for a while and guessed the reason. "Lychees grew in the southeast and were the most suitable for the water and soil here. With the help of the spirit Heart Flower petal solution, it was not surprising that they matured a month earlier than normal.

The cherries were imported from the North, so they were definitely not adapted to the climate and environment in the South. Under the nourishment of the spirit Heart Flower petal solution, the favorable and unfavorable conditions were basically offset, so they matured on time.

The cherries would probably ripen even earlier next year. After a year of growing, these cherry trees would definitely be more and more adapted to the environment in the South.

.....

Thinking of this, Xia ruofei smiled and said, "There's nothing strange about it. The lychee seedlings I bought are improved breeds! Since the fruit trees have ripened, let's go to the orchard to have a look."

"Alright, I'll head over now!" Cao tieshu said.

After hanging up the phone, Xia ruofei smiled at Lin Qiao and said, "Qiao' er, you're quite lucky. The fruits here have ripened."

"Yay!" "Let's go!" Lin Qiao cheered.

Xia ruofei then said to Hu Zi's mother, "Auntie, shall we go and take a look together?"

Hu 'Zi's mother smiled and said, "I won't be joining in the fun!" You young people can go! I'll prepare lunch for you!"

Xia ruofei didn't insist and said, "Alright, thank you for your hard work, Auntie ... The ingredients are all in the refrigerator. If you need anything, just tell me. I'll go to the county supermarket to buy it!"

"It's fine, it's fine. You guys go ahead!" Hu Zi's mother said with a smile.

Xia ruofei left the house with Lin Qiao and drove the pickup truck straight to the orchard.

On the way, Xia ruofei gave it some thought and called Feng Jing, asking her to go to the orchard as well.

Very quickly, the pickup truck drove along the flat cement road on the farm to the orchard. Cao tieshu and Feng Rao had walked over, so they had not arrived yet.

Xia ruofei and Lin Qiao got off the car and walked up the mountain.

Along the way, he saw fruit trees on both sides of the road. On this side, there were only lychee trees. The heavy clusters of lychees bent the branches of the fruit trees. These red lychees looked particularly delicate and beautiful under the embellishment of the Emerald green leaves, making people drool with desire.

Lin Qiao's eyes couldn't help but light up when she saw it. She couldn't help but want to go and pick it.

Xia ruofei laughed, "greedy cat!" Don't be in such a hurry! We'll talk about it when old Cao and the others come. We don't have any tools, are you going to use your hands?"

Lin Qiao stuck out her tongue in embarrassment.

The two of them strolled around the mountains for a while, admiring the beautiful scenery of the fruit orchard. Soon, Cao tieshu and Feng Rao arrived one after another.

The attentive Cao tieshu even brought a wicker basket and a pair of large scissors for picking lychees.

"Chairman, I haven't been to the orchard in a long time. I didn't expect the lychees to be fully ripe!" Feng Rao said with a smile.

Xia ruofei laughed and replied, "it's not just lychees!" The cherries over there are already ripe!"

"Old Cao has brought the tools. Let's try the lychees that are produced on this farm!" Xia ruofei continued.

"I'll do it, I'll do it!" Lin Qiao quickly said.

Feng Rao looked at Lin Qiao and then at Xia ruofei. "Chairman, this is ..."

"Oh! I forgot to introduce her to you. This is my younger sister, Lin Qiao. She just finished her college entrance examination and ... She's going to stay at our farm for a while. " Xia ruofei smiled and said, "Qiao' er, this is the General Manager of our paradise Corporation, Feng Jing!"

"Hello, Sister Feng Rao!" Lin Qiao said with a smile.

Feng Rao also showed a gentle smile and said, "Hello! Little sister Lin Qiao is so beautiful! It seems like our Chairman's family has good genes!"

"Sister Feng Rao, you're the pretty one!" Lin Qiao smiled and said, "but you're wrong! I'm not related to brother ruofei by blood, so I'm not related to his family's genes at all!"

Xia ruofei explained, "Qiao' er is one of my comrades. She's also the younger sister of my sworn brother. Although we're not related by blood, she's like my biological sister in my heart."

Chapter 718: fruitful_2

A trace of disappointment flashed through Lin Qiao's eyes, but it disappeared in a flash.

Feng Rao saw this and looked at Xia ruofei thoughtfully with a half – Smile, but she did not say anything.

Lin Qiao couldn't wait to pick the lychees. Cao tieshu quickly said, "We still have to wait a little longer!"

After he finished speaking, Cao tieshu moved a ladder and placed it on a nearby lychee tree. Then, he used a pair of scissors to cut some leaves and placed them at the bottom of the basket.

Then, he came down and handed the scissors to Lin Qiao. "These lychees are very precious. You need to put something in the basket. Otherwise, they'll rot easily after being rubbed."

Lin Qiao took the scissors and climbed up the ladder nimbly.

Xia ruofei quickly went over to help hold the ladder and said, "Qiao' er, slow down, don't fall!"

"I'm fine!" Lin Qiao said with a smile.

The whole tree was filled with clusters of ripe red lychees. Lin Qiao quickly picked up one cluster and cut it off with a pair of scissors.

"Brother ruofei, catch it!" Lin Qiao said.

Xia ruofei reached out to take the heavy bunch of lychees and put them into the basket by his feet.

Lin Qiao picked the lychees very quickly because she could get any lychees on this tree.

The rate of bearing fruits on these lychees was also ridiculously high, almost twice as high as that of ordinary lychees.

.....

This amount of yield surprised Cao tieshu, but he still had a trace of worry in his heart.

He had lived in the village for decades and was very clear that the soil and water in this mountainous area were not very good. He heard that there was a problem with the pH of the soil. In the past, some people had contracted it to plant fruit trees, but the fruits were all sour and astringent, and could not be swallowed at all.

These lychees, as well as the cherry trees on the other side of the mountain, bore fruits that were big and red. They looked extremely good, but Cao tieshu had no idea how they would taste.

He was worried that these were all embroidered pillows, bright on the outside, but in reality, they tasted extremely bad.

Then the fruit trees on this mountain, the initial investment would be wasted.

However, Lin Qiao didn't think so much. She was happily picking lychees with a pair of scissors.

Very quickly, the small wicker basket that Cao tieshu brought was filled to the brim, and the lychees on this lychee tree did not seem to be lacking in any way.

Xia ruofei raised his head and shouted, "Qiao' er, it's almost done. It can't fit anymore!"

Lin Qiao then got down from the tree, feeling unsatisfied.

This basket of lychees was bright red and exuded a natural fruity fragrance, which made people hungry just by looking at it.

Xia ruofei smiled and called Cao tieshu and Feng Rao over. He said, "Everyone, have a taste! This was personally picked by Qiao' er!"

Xia ruofei said as he plucked the lychees and passed them to everyone.

Cao tieshu took the lychee and uneasily peeled off the outer skin, revealing the rich, round, white, and flawless flesh. At the same time, the fragrance of the fruit suddenly became stronger. He sniffed, gritted his teeth, and put the lychee into his mouth.

With a light bite, a sweet fruit juice immediately filled his entire mouth. This soft, fragrant, and sweet texture immediately made Cao tieshu's spirit jolt. He could not help but chew a few more times, before spitting out a very small fruit core.

After eating this one, Cao tieshu couldn't help but peel open the skin of the second lychee.

Feng Rao and Lin Qiao had also tasted the fresh lychees, and their eyes lit up.

"It's so delicious! It was fragrant and sweet! "And there's so much juice ..." Lin Qiao mumbled as she ate.

Feng Jing couldn't help but praise, "Chairman, the quality of these lychees is so high!" I think it's even better than the lychees sold in the premium fruit supermarket!"

Cao tieshu was also very excited. "Boss, these lychees are so delicious! I've never had such delicious lychees before!"

As someone from the southeast province, Cao tieshu had eaten many lychees before. However, the lychees produced by Tao Yuan farm gave him a completely different feeling. The natural and fresh fruit fragrance made him feel relaxed and happy.

On the other side, Lin Qiao kept eating lychees and couldn't stop.

Seeing this, Xia ruofei couldn't help but say, ""Qiao' er, don't eat so much! This thing can get on fire! Aren't you afraid of getting pimples?"

Lin Qiao gobbled up the food and said, "I don't care if I have pimples, but I can't let down good food ..."

Xia ruofei didn't know whether to laugh or cry and said, "there'll be cherries later!" Aren't you going to save some of your stomach?"

Lin Qiao's hand that was about to reach lychee retracted. She said, ""That makes sense! Brother RUO Fei, let's go pick some cherries!"

"Go! Let's go see how cherry looks!" Xia Rufeif said with a smile.

The group walked along the path of the orchard and headed to the other side of the mountain. Along the way, there were many fruitful lychee trees on both sides. The red lychees and the green leaves complemented each other, and it was a beautiful scene.

Cao tieshu carried the ladder, while Xia ruofei personally carried the small wicker basket.

There was half a basket of lychees in the basket, but Xia ruofei carried them with one hand as if they were nothing.

Soon, everyone arrived at the cherry Garden.

"It's so beautiful!" Lin Qiao couldn't help praising.

What came into view were rows and rows of cherry trees. These cherry trees were filled with purple – Red cherries.

The lychee's skin was rough and had small pieces of shards, like a turtle's carapace, so the visual effect was not as shocking as the cherry.

The cherries on this side were crystal clear, like rubies in the green sea.

The cherry fruits here were especially large, much larger than ordinary cherries. They were almost the size of a ping pong ball.

The sight of the fruits hanging from the tree was visually impactful.

Having tasted the top – grade lychees, Cao tieshu was now more confident in these cherries. He jogged over and set up a ladder on the trunk of a cherry tree.

In fact, the cherries drooped down, so they could be picked even if they were standing on the ground. However, it was obviously more convenient to pick them with a ladder.

Lin Qiao climbed up the ladder with the big scissors without any warning.

The cherries weren't like the lychees, which had a large cluster. Normally, one could pick two or three with one cut. However, Lin Qiao was very fast. The whole tree was full of ripe cherries, which were purple – red in color. There was basically no need to pick, so the small basket was filled up very quickly.

Of course, the lower half was filled with lychees and about half a basket of cherries.

Xia ruofei called Lin Qiao down and took the cherries to the tap by the roadside. After washing them, he invited everyone to taste them.

Xia ruofei also picked up a big cherry and put it in his mouth.

The fresh red and tender fruit was full of juice. Xia ruofei took a light bite and the sweet juice immediately filled his mouth. This breed of cherry was moderately soft and hard. After absorbing the spirit Heart Flower petal solution in the irrigation water all year round, this cherry was full of rich fruit fragrance. The texture was very delicate and had a fresh taste, making people want to eat it again.

Even Xia ruofei couldn't help but eat a few.

Lin Qiao and Feng Rao couldn't help but eat four or five in a row. They couldn't stop eating as if they had eaten Stride Gum.

Cao tieshu was also eating with great relish. However, he was also a little restrained in front of his boss. After eating a few, he was too embarrassed to take more.

"Delicious! It's so delicious!" Lin Qiao said, "brother ruofei, these cherries are so sweet! And it's very flavorful!"

"The fruit fragrance is very rich!" Feng Rao couldn't help but praise, "the taste is also very special. It's sweet and delicious!" It's much more delicious than the cherry in the United States or the red embroidered ball in Japan!"

"What do you think of this batch of fruits from our Orchard?" Xia ruofei asked with a smile.

"Do you still need to say that? One word, awesome!" Lin Qiao gave him a thumbs up.

“Boss, I’ve always been worried that the soil in this Orchard isn’t good,” Cao tieshu also said. “The fruits we grow can’t be eaten! I didn’t expect these cherries and lychees to be so delicious. It’s really unexpected!”

“It’s the same as our company ‘s,” Feng Jing said with a smile.”As always, we only produce quality products!”

“OK! Then what we need to do next is to sell these high – Quality fruits for the price they deserve!” Xia ruofei laughed and said,”I’ll assign the work now!”

Chapter 719: High – end atmosphere, high – grade_1

Everyone found a shade and sat on the ground. They enjoyed the delicious lychees and cherries while listening to Xia ruofei’s instructions.

Xia ruofei said in an orderly manner,”first of all, I’ll personally be in charge of the sales of the fruits. I’ll contact some of my previous partners. It shouldn’t be a problem for all these fruits to be sold out.”

“Chairman, I just made an estimation. Each of our lychee trees can produce about 400 to 500 catties. The total output is estimated to be over 100000 catties!” The yield of each cherry tree was estimated to be about 200 catties, so the total yield was at least 40000 catties! Can we really sell all these fruits at once?”

The yield was shocking. A normal fruit tree would take at least three to four years to produce a large yield, but these trees had only been planted for about a year. Although Xia ruofei had bought the bigger saplings, the growth of these trees was far beyond that of the average fruit tree.

Thus, when the cherry and lychee trees bore fruit in April and May, Cao tieshu was also shocked.

Not only did these fruit trees grow extremely fast, but they would also bear fruits on a large scale in the second year. This was far beyond Cao tieshu’s knowledge.

Cao tieshu was an old farmer, and his estimated yield was about the same as Feng Rao ‘s.

This was considered a high yield even among fruit trees that were four or five years old.

Xia ruofei smiled and said,”don’t worry!” I’m afraid that the production is too little and not enough for them to share!”

The Hengfeng group of the MA family of Hong Kong had already begun to diversify their operations. They were involved in the high – end fresh fruit industry and had many chain stores in China, Hong Kong, Macau, and Southeast Asia, specializing in high – Quality fresh fruits.

If MA Xiong knew that Xia ruofei’s Paradise Farm had such high – Quality lychees and cherries, he would definitely buy all of them and not share any with anyone else.

On the other hand, the winery had established very close cooperation with many of the country’s large chain merchants. Moreover, due to the popular sales and production control of drunken eight immortal, it was basically those large chain merchants who were trying to curry favor with the winery.

Hence, as long as Xia ruofei moved his lips, those super merchants would definitely fight to reserve the best fruit sales spot for paradise Corporation.

.....

In addition, long – term partners such as the West River Moon Club and Ling Ji restaurant also welcomed this high – end fruit.

Therefore, although the output seemed high, if it was split up and given to these partners, it might even be stretched out.

However, these fruit trees were still in the growing stage, and the output should continue to rise in the next few years.

Especially the lychee tree, which had a lot of room for growth. There were many places in the South that had giant lychee trees that were hundreds or even thousands of years old. The output of a single tree could reach thousands of catties.

Seeing Xia ruofei's confidence, Feng Jing didn't say anything else. She knew Xia ruofei well and knew that this young Chairman wouldn't do anything he wasn't confident in.

Xia ruofei continued,"chief Feng, you're mainly in charge of the packaging design and production of the fruits." Just like before, find a company to design a relatively high – end exterior packaging. Our paradise corporation's LOGO must be very eye – catching. "

"Sure, no problem. Leave it to me!" Feng Jing nodded.

Xia ruofei thought for a while and said,"let's call them paradise brand premium organic lychees and paradise brand premium organic cherries!"

"Although it's a bit hard to say, it's not a big problem." Feng Jing laughed."I'll get the designer to do a good job on it!"

Xia ruofei looked at Cao tieshu and said,""Old Cao, you'll be in charge of the harvesting work. Once I've contacted the sales department and President Feng has settled the packaging problem, we'll immediately start harvesting the fruits."

"Alright, boss!" Cao tieshu grinned.

Xia ruofei said,"now, we can also make some preparations in advance, including tools and personnel." The farm might not have enough manpower, so we can temporarily hire some villagers to help. "

"I know! Don't worry, boss!" Cao tieshu said.

Feng Jing added,"old Cao, these fruits are all of high quality, so we must be careful when we harvest them. We can't cause any damage. It's best if we come up with a set of standards and conduct simple training for the workers before harvest. We must emphasize that everyone is well – received."

Xia ruofei said,"yes, yes, yes. This is also very important." President Feng, I think you should send someone to understand the harvesting and packaging process of high – Quality fruits on the internet and help old Cao to come up with a set of standards. "

"Yes, Chairman!" Feng ke said.

Cao tieshu was an uncouth fellow. When he first heard that he had to set the standards, he immediately felt like scratching his head. Fortunately, Xia ruofei immediately sent someone to help him, and his worries turned into joy.

At this moment, Lin Qiao spat out a cherry pit and asked, ""Brother ruofei, what should I do?"

Xia ruofei smiled and touched Lin Qiao's nose. ""You! Just be responsible for eating! As long as you're not afraid of getting angry, you can have as many lychees as you want! Uh ... I'll have enough of cherry too!"

"Brother ruofei, you look down on me ..." Lin Qiao pouted.

Feng Rao smiled and said, "sister Lin Qiao, the chairman doesn't think highly of you, but I do!" Since you have nothing to do during the summer break, why don't you work with me on the fruit packaging design? I'll just treat it as an early exposure to society and an early internship. "

Chapter 720: High – end atmosphere, high – end Level_2

"Good, good!" Lin Qiao said happily.

The workload in high school was heavy, and she had no time to deal with other things. After the college entrance examination, Lin Qiao's pressure was greatly reduced, and everything was fresh to her.

"Boss Feng, Qiao' er just finished her college entrance examination. She still has to estimate her score and fill in her university application soon ..." Xia ruofei said.

Lin Qiao immediately said, "I'll be able to estimate my scores in two days after the answers are out. This won't take too long. I'll have to fill in the application form next month. It won't affect my internship with Sister Feng Jing at all!"

Feng Rao smiled and said, "Chairman, since little sister Lin Qiao is so interested, you can let her go with me!" I'll have free labor!"

"That's right, I won't charge you!" Lin Qiao said with a smile.

Xia ruofei could only smile bitterly and said, ""Alright! Qiao' er, you're not allowed to add to President Feng's troubles! The mission this time is very tight. "

"I know! You're even more naggy than my mom!" Lin Qiao stuck out her tongue and said.

Xia ruofei looked at Lin Qiao affectionately and shook his head with a bitter smile.

Everyone stood up. Xia ruofei put the lychees and cherries in a bag and prepared to bring them back for Hu Zi's mother to try.

Then, he ordered Cao tieshu to pick more fruits for the company's employees and workers to try. This was the first batch of fruits produced by the farm, and it could be considered an employee benefit.

Cao tieshu immediately followed Xia ruofei's instructions and started picking the fruits with his tools. Xia ruofei, Feng Rao, and Lin Qiao started to walk down the mountain.

“Oh right, Chairman, how are you going to price these fruits?” Feng Jing suddenly asked.

.....

Xia ruofei thought for a while. “Since we’re going for the high – Quality products, the price can’t be too affordable. It has to be of a higher grade!”

This was also Xia ruofei’s strategy. In the future, other than the heart – nourishing soup, the products of paradise Corporation would all be high – end and premium products. The price would definitely be much higher than similar products on the market.

On the one hand, the quality of the products was clear, so it was very reasonable to sell them at a higher price. On the other hand, this could also give the audience an established impression that as long as the products of paradise Corporation were produced, they would definitely be high – end products.

As long as this impression was formed, Xia ruofei would have achieved his goal.

Lin Qiao smiled, “brother ruofei, you look like a money – grubber now!” You don’t even need to put on makeup to play the role of a profiteer!”

“What are you saying!” Xia ruofei said angrily, “if I’m a money – grubber, then you’re a little money – grubber. Who asked you to be my sister?”

“Chairman’s strategy is correct,” Feng Jing said with a smile. “Besides, the quality of our fruits is so high. If we sell them at the market price, we’re going against ourselves!”

“Boss Feng, you’re a smart person!” Xia ruofei gave him a thumbs – up, thought for a moment, and said, “100 yuan per kilogram of lychees and 300 yuan per kilogram of cherries. We’ll set the price for now. Director Feng, if you have time, you can learn about the market situation this year and make adjustments if necessary. ”

“Alright!” Feng Rao said calmly.

Lin Qiao was shocked by the price of the Qingqing cherries. They were very expensive, and it was normal for the wholesale price to be 100 or 200 yuan per kilogram in the initial market. The quality of the peaches from Taoyuan farm was obviously much higher than other cherries on the market, so 300 yuan per kilogram was nothing.

However, wasn’t it too much to sell lychees at 100 per kilogram? In the South, in the years of high yield, unsalable lychees were only two or three Yuan per kilogram. Even the normal price was about 21 to 31 kilograms. Xia ruofei had actually set a unit price of 100 yuan? Who would be stupid enough to buy your expensive lychees?

In contrast, Feng Jing was very calm. This was because the Paradise company’s pricing had always been like this. It was five to ten times higher than the normal products on the market, but the supply still didn’t meet the demand. It was the same for the Paradise vegetables and the tin Kaede bucket. Feng Jing was already used to it.

However, when it came to the specific operations of the company, Lin Qiao knew what to do. Although she was shocked, she didn’t interrupt.
