Chapter 781: catch them all in one fell swoop (1)

The team members of the third group immediately set off and sneaked to the vicinity of the three hidden sentries.

Under Guo Zhan's command through the walkie – talkie, the members of the three groups stood up at the same time and pounced on the hidden sentries from the grass. One of them took action while the other assisted from the side.

The three Japanese secret sentries did not expect the most elite special Forces of the Chinese military to be right in front of them. The result of their defenseless situation was self – evident.

The three team members' actions were almost exactly the same. One hand covered the Japanese's mouth, and the other hand waved the extremely sharp military dagger. After a cold flash, the Japanese's throat suddenly spurted out bright red blood. His body stiffened for a moment and then quickly fell.

Another team member went forward and stabbed the heart. They cooperated very well, and the three Japanese secret sentries silently walked to the road to the yellow Springs. They couldn't be more dead.

"Target No. 1 has been killed."

"Target No. 2 has been killed."

"Target No. 3 has been killed."

The team member's voice came from the earpiece.

Guo Zhan ordered without the slightest hesitation, "the perimeter has been cleared!" Begin the attack on brick kiln No. 4. Move!"

The three groups of team members immediately began to circle around from the side, while the main force of the small team led by Guo Zhan stood up from the bushes like a tiger coming out of the mountains, and quickly advanced towards the brick kiln in a battle formation.

There were three exits to the brick kiln. The six members were responsible for suppressing the enemies on the flanks, while Guo Zhan led Xia ruofei and the other members to break in from the front.

The tactical literacy of the lone wolf assault team members was first – Class, and their speed was very fast. Moreover, the place where they originally started was only 60 to 70 meters away from the brick kiln, and the Wei nation agents in the brick kiln didn't even have time to react.

.....

In the blink of an eye, everyone had already passed through a small open space in front of the brick kiln.

It was only then that the Japanese in the brick kiln realized that the fully armed Chinese soldiers were already in front of them. They were all disheartened and hurriedly organized a counterattack.

Tap tap tap tap ...

The crisp sound of gunfire rang out, and the two sides finally entered the moment of close combat.

The members of the lone wolf assault team quickly scattered and hid, then fired back.

The moment Xia ruofei heard the gunshot, his blood started to boil. It was as if he had returned to the military camp, which was full of memories of his youth.

He leaned against a low wall and quickly fired a burst of bullets in the Japanese's direction. Then, he stomped his feet and almost jumped into the air, easily climbing over the low wall.

Xia ruofei rolled on the ground and dodged the chain of bullets from the Wei nation agent while unloading the momentum. The scene looked a little dangerous, but Xia ruofei felt like he was doing it with ease.

Guo Zhan's expression changed when he saw Xia ruofei rush out. He quickly gathered the soldiers around him to suppress Xia ruofei with their firepower and provide cover for Xia ruofei.

Xia ruofei crouched and slithered forward. He quickly hid behind a tree.

In a few seconds, he had already advanced more than ten meters, and was only a stone's throw away from the entrance of the brick kiln.

Xia ruofei took a deep breath and listened carefully for the gunshots around him. Suddenly, half of his body appeared from behind the tree. He clenched his submachine gun with both hands and fired decisively in the direction where the firepower was the fiercest.

Da da da! Da da da!

One of the Wei nation's machine guns suddenly misfired. Xia ruofei didn't have time to aim at all in the blink of an eye. He only relied on his senses and rich battlefield experience to shoot quickly, but he accurately shot the Wei nation's Japanese man who was controlling the machine gun.

The Japanese's firepower stopped for a moment. Guo Zhan immediately made a sign, and the follow – up assault team members also jumped out from their hidden positions and rushed toward the brick kiln.

From the left and right flanks, the crisp sound of sniper gunfire could be heard.

Two snipers were assigned to the left and right wings of the two teams. They took the opportunity to shoot from the narrow gaps and had already killed three Japanese.

The rest of the Japanese were like birds startled by the mere twang of a bow. While they fired back, they tried to hide in the blind spots of their shots, afraid that they would be targeted by snipers.

As a result, their counterattack firepower was inevitably affected and weakened.

Including kappei Yamai, Xia ruofei and the rest had already killed four of them at the periphery. There were only seven or eight Japanese people left in the brick kiln. Two of them had been killed during the head – on attack just now. Including the three who had been pointed out by the sniper, there were only two or three Japanese people left in the brick kiln.

It was a done deal.

In fact, the Wei nation agents 'plan couldn't be said to be not thorough, and every step was obviously carefully calculated, including the fact that after they kidnapped Liang Qiming, they used a special drug

to cover up almost all the smell of their bodies when they fled one or two hundred meters in the direction of the cafeteria.

However, no matter how much they calculated, they did not expect Blackie's sense of smell to be much more sensitive than a police dog's.

Once a flaw was revealed, it would be difficult to avoid being traced.

In addition, Xia ruofei had used the never – before – seen “mini – Scouts”, Hornet, when he was investigating. The Japanese had been completely unaware of the situation and had gotten a clear picture of the situation.

China's most elite special Forces were dispatched, and they had such detailed information. The terrain was also extremely unfavorable to them. It was not surprising that this group of Japanese was at a dead end.

In consideration of professor Liang Qiming's safety, Guo Zhan and the others did not dare to use weapons such as grenades and flamethrowers. Otherwise, they would only need to hold the flamethrower and spray it into the brick kiln. In such a closed space, no matter how many Japanese there were, it would not be enough to burn them.

Chapter 782: Capture them all in one fell swoop (2)

In order to prevent the Japanese from hurting professor Liang Qiming, Guo Zhan also constantly used sign language to command the troops to speed up their operation.

Xia ruofei took the lead and rushed to the front.

After killing the Japanese machine gunner, he didn't stop at all. He jumped out from behind the tree. When the Japanese's gunshots stopped for a moment, he stomped his feet and pounced toward the entrance of the brick kiln.

Xia ruofei's speed was extremely fast. His body almost left an afterimage. It seemed that he had exceeded the limits of a human's explosive power.

The Wei nation agent in charge of guarding this direction was in a bad position to avoid the sniper. Xia ruofei was already on the steps of the brick kiln entrance before he reacted and quickly turned his gun.

However, the submachine gun in Xia ruofei's hand had already started to glow.

Tap tap tap tap ...

The Japanese man was hit by several bullets and fell to the ground without a sound.

Just as Xia ruofei shot the Wei nation agent, a Japanese man not far away also reacted quickly. He quickly turned around and pointed his gun at Xia ruofei.

However, Xia ruofei did not stop at all. He used one hand to control the submachine gun. His left hand quickly pulled out the type 92 9mm pistol from the holster. He aimed at the Japanese and fired a few shots. The two guns fired almost at the same time. His movements were smooth and he killed the Japanese without any suspense.

At this moment, Xia ruofei rolled on the ground to reduce the impact of the sudden attack and quickly jumped into a temporary shelter.

The small team led by Guo Zhan also rushed into the brick kiln.

When Guo Zhan was commanding the battle, he had been counting the number of people on the other side. After Xia ruofei had killed the two Japanese, there should be one person left.

.....

Therefore, after he led the small team into the brick kiln, he immediately ordered everyone to form a search formation and slowly approach the depths of the brick kiln.

As for the six team members on the side, other than two snipers who stayed on guard, the remaining four also began to carefully search around the brick kiln to prevent any fish from escaping.

This time, the lone wolf assault team had sent out experienced veterans to deal with this completely one – sided situation.

Inside the brick kiln.

Xia ruofei and the rest advanced carefully with their guns in hand.

Xia ruofei could still remember professor Liang Qiming's position clearly. If the enemy had not moved his position, he should be in the twelveo' clock direction, about ten meters away.

However, there were a lot of obstacles in the brick kiln, and no one knew where the only Wei nation agent was hiding, so everyone was not completely relaxed.

Step by step, the brick kiln was so quiet that only the sound of breathing and light footsteps could be heard.

Suddenly, a figure stood up, and everyone subconsciously raised their guns.

However, Xia ruofei immediately raised his right hand to signal everyone to lower their guns. He had already seen clearly in the dim environment that the person who stood up was professor Liang Qiming.

A thick arm was wrapped around professor Liang's neck, and a gun was pointed at his temple.

The thing he was most worried about had still happened.

Professor Liang had been taken hostage by the last Japanese. The Japanese was very cunning. He was almost completely hiding behind professor Liang, and behind him was a solid wall. Not far away from him was a ventilation hole that could not be passed through at all. It was also blocked by professor Liang. Even if there was a sniper outside, they could not aim at him.

The atmosphere in the brick – kiln immediately became tense.

The Japanese agent who was hiding behind Liang Qiming shouted,""All of you, put down your weapons and leave the brick kiln!"

This Japanese kid's Chinese was very fluent. If it was someone else, they wouldn't be able to tell that he was a Wei nation Special Agent who was sent to China to carry out a mission. Most of them could speak fluent Chinese, otherwise, they would be exposed.

Guo Zhan shouted with a sullen face, "quickly let professor Liang go!" We won't shoot you. We'll give you a chance to accept the trial of Chinese law!"

The Japanese man laughed strangely and said, "you're just coaxing a child!" Come back and tell me this when China has completely abolished the death penalty!"

After that, the Japanese man tightened his grip on Liang Qiming.

Professor Liang was already in his 70s and had been tortured for the past two days. His body and spirit were both very weak. Now, his face was pale and his mouth was wide open as if he would suffocate at any time.

Guo Zhan quickly shouted, "let go of professor Liang first!" If Madam Liang has any problems, you won't be able to escape, right?"

"We didn't plan to go back alive when we came to Huaxia. It's the honor of every warrior of the Empire to die for the great Qian Empire!" The Japanese said arrogantly. It's just a pity that I haven't had the time to complete my mission ..."

Then, the Japanese man changed the topic and laughed strangely, "I know you guys didn't get professor Liang's experimental data. If I shoot now, won't the location of the experimental data become a secret forever?"

Guo Zhan's face slightly changed as he shouted, "Stop!"

The Wei nation agent sneered and said, ""Immediately put down your weapons and leave the brick kiln! Don't force me into a life and death struggle! At that time, if my Empire can't get the experimental data, you Chinese can forget about getting it! I, Inoue Junyan, can be considered to have completed half of my mission, and have not disgraced my noble Inoue family! Hahaha ..."

Chapter 783: Capture them all in one fell swoop (3)

The only fish that had escaped was the person in charge of the Wei nation Secret Service team, Junhiko Inoue. When he saw that the situation was not good, he immediately moved to Liang Qiming's side and held professor Liang hostage.

Of course, Xia ruofei's team was advancing very fast. In just two or three minutes, they had killed all the Wei nation agents like a gust of wind sweeping away fallen leaves. So, Junyan Inoue only had time to find a safe position and use Liang Qiming as a human shield to confront the members of lone wolf.

While quickly thinking of countermeasures, Guo Zhan eased his tone and said, "Don't be rash. As long as you guarantee professor Liang's safety, we won't shoot ..."

"Cut the crap! Immediately put down your weapons and leave the brick kiln!" Junyan Inoue said sternly, "if you want professor Liang to live, prepare a car for me now. I also need a boat. When I reach the International waters, I will naturally let professor Liang go!"

Even an ant would cherish his life, so Junyan Inoue would naturally not be so crazy as to seek death. Moreover, he hoped that the Chinese army would be cautious and that he could escape with professor Liang under his control.

If they could take Liang Qiming to the open sea in this case and take a ship back to the Wei nation, it would be a big contribution. After all, professor Liang was the host of the experiment, and even if the core data was missing, there was still a chance to repeat the experiment and obtain the data again.

Seeing that Guo Zhan and the others still had no intention of retreating, Inoue Junyan said in a more serious tone, "Don't doubt my determination to die for His Majesty! I'll count to ten now. If you still don't put down your weapons and leave, I'll shoot without hesitation! One! Two! Three ..."

Guo Zhan gritted his teeth tightly. He was extremely anxious, but he could do nothing about it. Moreover, when Inoue Junyan began to count, the invisible pressure became even greater.

Just as Guo Zhan was about to calm Junyan Inoue down and lead everyone out, Xia ruofei suddenly said, ""You're not being sincere! If you take professor Liang to international waters, how can he come back?"

"You can only choose to believe me," Junyan Inoue said with a strange laugh, "and I'll allow you to send a ship to follow me, as long as it doesn't come within one nautical mile of me! When I'm safe, I'll give professor Liang a life jacket and let him go into the sea to wait for your rescue!"

Xia ruofei immediately said, "it takes time to prepare the vehicles and ships. You can't keep holding Madam Liang back like this, right?" He was already in his 70s, and he couldn't bear such a punishment. I'm sure you don't want anything to happen to professor Liang, do you?"

Guo Zhan's heart moved. He could see that Xia ruofei was stalling for time. However, in the current situation, Inoue Junyan was in the blind spot. What was the point of stalling?

However, Guo Zhan knew that Xia ruofei would not do anything without a reason. He must have had a reason for doing so, so he just watched quietly from the side and did not interfere with Xia ruofei's behavior.

.....

Inoue Junyan naturally saw it too. He slightly released the hand on professor Liang's neck and said coldly, ""Don't worry! As long as you guys cooperate, professor Liang will be fine! I know you're trying to stall for time, but do you think it's useful? Alright, the game is over. The countdown continues! Four, five, six ..."

Guo Zhan's heart was burning with anxiety. He had no doubt that this Inoue Tomoya was determined to fight to the death. As the countdown approached, Guo Zhan's heart began to waver.

Just as Guo Zhan was about to exercise his authority as the commander and order the team members to put down their guns and leave the brick kiln, a shocking scene happened!

A black shadow, as fast as lightning, swept in through the small ventilation window in front of Inoue Tomoya.

When Guo Zhan saw clearly that the black shadow was Blackie, who had been brought by Xia ruofei, Blackie had accurately bitten Junyan Inoue's wrist, which was holding the gun. Then, it quickly swung its head due to the inertia of the pounce.

Junyan Inoue's gun was thrown away in pain, and his body staggered, half of his head peeking out from behind professor Liang.

Pa!

The crisp sound of a gunshot rang out.

A small bullet hole appeared in Junhiko Inoue's head, and blood splattered on the wall of the cave behind him. It seemed to be mixed with some brain matter. The 9mm bullet entered Junyan Inoue's forehead. The entrance was small, but the exit to the back of his head was large, almost blowing away the entire cervical vertebrae.

Inoue Junyan's eyes lost their color in an instant. The astonishment in his eyes was forever fixed, and his whole body fell down powerlessly.

Xia ruofei was still in the shooting position. A wisp of smoke was slowly dissipating from the barrel of his Type 92 pistol.

Guo Zhan's mouth was slightly agape. He was somewhat dumbfounded. He did not expect the last surprise soldier to be a mutt. Xia ruofei's pistol was clearly in the holster. At that moment, Guo Zhan did not even see Xia ruofei's movements clearly.

It was hard to imagine how Xia ruofei managed to pull out the gun, aim, and fire the entire set of movements in such a short time. Furthermore, it was under the situation where the opponent's flaw was so small. If he had only moved two to three centimeters, the one who would have been shot in the head would not be Junyan Inoue but professor Liang Qiming.

Junyan Inoue was lying on the ground with his eyes wide open. He did die with regrets. The ventilation window was so small that no one could pass through it. He also occupied the blind spot of the shooting. The snipers outside could not lock on to the target. However, he never expected a dog to sneak in. This dog also became his Soul Reaper, causing him to be killed by Xia ruofei.

Dying like this was indeed a little too cowardly.

No matter what, this was finally over ...

The assault team members swarmed forward and quickly separated Liang Qiming and Junyan Inoue's bodies. Two members helped professor Liang to the side and sat down.

Xia ruofei slowly put the gun back into the holster. He turned around and looked at the small sky through the entrance of the brick kiln, saying silently in his heart, "Class monitor Luo, you can rest in peace now. We've already caught all of these Japanese in one fell swoop. Not a single one was left alive ..."

Chapter 784: The return of the loyal soul (1)

The members of the lone wolf assault team were cleaning up the battlefield in an orderly manner. Guo Zhan had already sent someone to inform the local police and relevant military departments. The bodies of these Japanese and other follow – up work would naturally be taken care of by the corresponding departments.

The comrades from the intelligence Department were also rushing to the three mountains, mainly to confirm the identity of these Japanese and to check if they had any useful information on them.

As for negotiating with the Wei nation, under normal circumstances, they wouldn't do that.

Moreover, it was impossible for the Wei nation to recognize these people as special agents, which was also a common practice in the intelligence departments of various countries. If special agents were sent overseas to carry out missions, once they were caught in an accident or killed, the country would definitely not admit it, and at most, they would privately compensate their families.

However, the loss of seven or eight elite agents was not small, and the Wei nation could only suffer in silence.

Xia ruofei slowly walked out of the brick kiln, took off his helmet, and held it in his hand. He looked at his former comrades cleaning up the battlefield. This familiar scene made him feel very emotional.

"Do you miss the old days?" Guo Zhan's voice came from behind Xia ruofei.

Xia ruofei turned her head and saw Guo Zhan holding the helmet in one hand and the cigarette box in the other. He tapped the helmet lightly, and a cigarette jumped out in half.

Guo Zhan passed the box of cigarettes to Xia ruofei. Xia ruofei took out the cigarette and put it in his mouth. On the other side, Guo Zhan also had a cigarette in his mouth.

Xia ruofei took out a lighter and lit Guo Zhan's cigarette before lighting his own.

After taking a deep breath, Xia ruofei let out a long breath of smoke, as if he was sighing heavily.

"Yup!" Xia ruofei sighed. "I miss the barracks, the brothers, and the battles we fought together ..."

"You're quite poetic, kid!" Guo Zhan smiled and said, "alright, let's cut the crap. Let me ask you, do you want to go back to lone wolf? As long as you say the word, I'll take care of the procedures for your second enlistment. "

.....

Xia ruofei's ability in this operation made Guo Zhan's eyes light up.

Although it was only a very short battle, Guo Zhan, who was good at grasping the details, noticed that Xia ruofei's abilities in all aspects had not deteriorated after his retirement. On the contrary, the current Xia ruofei seemed to have improved in all aspects compared to the Xia ruofei who had served in lone wolf more than a year ago.

This caused Guo Zhan to develop a love for talent.

He knew Xia ruofei's background very well. In the past, he had trained Xia ruofei as a backbone. If Xia ruofei had not been diagnosed with an incurable disease, he would not have let such a talent go. He might have been promoted to a Senior Sergeant or promoted.

Now, not only was Xia ruofei's depression gone, but his ability was even better than before. Guo Zhan hoped that Xia ruofei could return to the lone wolf assault team through his second enlistment.

Xia ruofei was moved by Guo Zhan's suggestion.

He was different from most retired soldiers. He wasn't forced to leave the Army due to limited development, nor did he strongly request to leave the Army. If he hadn't fallen ill, he would definitely have continued to serve in lone wolf.

The seven years in the Army were the most memorable days of Xia ruofei's life.

However, the thought of going back was only a fleeting thought in his mind. Soon, he sighed and shook his head.

Now, he definitely couldn't go back. The Paradise company was growing stronger and stronger, and it was no longer his business alone. There were hundreds of employees who relied on him to eat. Moreover, he also had a divine weapon like the spirit painting scroll. In the collective living environment of the military camp, it was inconvenient to use it.

"Wolf King, we can't go back ..." Xia ruofei said with a bitter smile.

Guo Zhan's expression slightly froze, "Why? Don't you like the life in the military? With your ability, I can even guarantee that I'll help you rise in rank within two years. This can become a lifelong career. Or are you reluctant to part with the local wealth and glory?"

Xia ruofei said in a low voice, "none of them ... Now that my company is getting bigger and bigger, this is no longer my personal problem. If I leave the company and go back to the Army, what about my employees?" Besides ... There are other reasons. It's not realistic to return to the Army ..."

Guo Zhan was silent for a moment before he nodded. "Understood."

Seeing Xia ruofei's low mood, Guo Zhan patted his shoulder and said, "Blood Wolf, you will experience different things at different stages of your life. For you, lone Wolf's story is over.

Xia ruofei nodded and said, "Mm! Captain, no matter where I am, I will always be lone Wolf's soldier! I'm willing to go to war for the country whenever there's a need! It's still the same ..."

At this point, Xia ruofei looked at Guo Zhan. The two of them smiled at each other and said in unison, "If there's a battle, I'll return!"

The two of them lightly hammered their chests, and then two hard fists collided.

.....

Soon, a large number of police and military vehicles arrived at the scene. All kinds of vehicles were parked all over the road, and the cars that arrived later even stopped on National Highway 218.

The usually quiet lower poplar village had suddenly become lively.

However, the Army had already imposed control on the scene. There was a guard every three to five steps, separating the onlooking villagers from the scene.

General Guo gave a simple report of the situation, and after a brief handover, he quietly left the scene with the members of the lone wolf assault team.

Chapter 785: The return of the loyal soul (2)

Professor Liang Qiming was sent to the military hospital for treatment.

An entire Battalion of soldiers was used to escort professor Liang Qiming. When professor Liang arrived at the hospital, the entire floor was under control. Not even a fly could get in.

Professor Liang's injuries were all superficial and he had suffered some shock, so he was not in a good state of mind. After being bandaged in the southeast Military Region General Hospital, he was hospitalized for two days.

During professor Liang's stay in the hospital, Guo Zhan and Xia ruofei came to visit him once in his Ward and talked behind closed doors for more than an hour.

Xia ruofei was the person that professor Liang wanted to meet. At that critical moment, Xia ruofei shot and killed the ferocious Japanese from the Hao nation. He could be said to be Liang Qiming's Savior.

Guo Zhan, on the other hand, was doing business.

After coming out of professor Liang Qiming's ward, Guo Zhan brought Xia ruofei and the members of the lone wolf assault team to the library of Sanshan University.

Liang Qiming had hidden a USB drive that recorded the core data of the experiment here.

A day or two before Guo Zhan's arrival, professor Liang Qiming had already sensed the danger. He decisively copied the core experimental data into the USB drive and then physically destroyed the hard drive of the laboratory computer.

He had placed the USB at the bottom of a bookshelf in the University Library and taped it tightly under the bottom partition.

The library of Sanshan University had a vast collection of books. The library had several floors and countless identical bookshelves. Even if the Japanese knew that the items were here, they would not be able to find them in a short time without the specific location provided by Liang Qiming.

Guo Zhan and the others had successfully retrieved the precious USB drive. The data inside could very well play a vital role in the overall improvement of China's weapons and equipment.

After asking for professor Liang Qiming's opinion, two days later, Guo Zhan led a small team to escort professor Liang and the experimental data to Beijing.

.....

Professor Liang would be properly taken care of there, and his experiments would continue in the military's Secret Institute.

Xia ruofei did not participate in this mission, but his temporary recall was not over.

Xia ruofei had only rested in the farm for two days.

Two days later, Guo Zhan, who had finished handing over his mission, returned to Sanshan city with the entire team.

After Xia ruofei received the notice, he left the farm again and went to the Sanshan General Hospital of the southeast Military Region to meet up with Guo Zhan and the others.

Xia ruofei still had to complete the last task of escorting old Luo back to the Army.

.....

In a secret camp in a mountain area in Sunan province, the atmosphere was heavy.

The training ground, which was usually bustling with activity, was extremely quiet today. The soldiers who had been crawling and rolling in the mud all day long had changed into straight regular clothes, with a white flower on their chest and black gauze hanging on their sleeves. They were neatly lined up on the training ground.

All of them looked sad, but they still stood upright.

The soldiers were lined up in rows and columns, and each of them was like a straight pine tree.

At the back of the formation, a black banner with white words on it was hung. The loyal spirits of the special Warriors have returned, and the heroic spirit of the hot – blooded men will last forever.

At the very front of the group, there were two people who were particularly eye – catching.

They were the wife and daughter of the class monitor, old Luo.

The wife of the class monitor, old Luo, was about 35 or 36 years old. She was wearing a black shirt and black pants, and her eyes were red and swollen from crying.

His daughter was only six or seven years old. She hadn't reached the age of being fully sensible yet. Old Luo, the squad leader, had been busy preparing for war and training in the Army. He had delayed his marriage many times. After marriage, they had more separation than reunion, so they had children very late.

Four female officers who were temporarily transferred from other troops stood on both sides of the family members of old Luo, but old Luo's wife didn't need their help. She stood quietly, straight like the soldiers, and looked at the southern sky.

There was no sadness on the child's face. Perhaps she still didn't know what her father's sacrifice meant, nor did she know the true meaning of death. Perhaps in her eyes, this was just taking her father home.

However, the daughter of the class monitor, old Luo, was not like her peers who would run around naughtily. She also stood quietly beside her mother and stood at attention like her uncle from the People's Liberation Army.

This child, who had the blood of the most outstanding soldier flowing in his veins, was born with the temperament of a soldier.

After a long time.

The roar of an engine came from afar, and a small black dot appeared in the southern sky.

Soon, a camouflage – coated transport helicopter slowly appeared in everyone's field of vision.

The helicopter didn't land directly, but slowly flew around the camp. This was the last time that old Luo could see the barracks he had dedicated his life to.

Finally, the helicopter landed steadily on the training ground that old Luo had stepped on countless times.

After the engine was turned off, the military band at the scene played a soothing and low "missing me" song.

The cabin door slowly opened, and a few soldiers went forward to escort Jin Gang, who was lying on a stretcher, off the plane.

Then, Guo Zhan held the portrait of the squad leader, old Luo, in his hands and walked down from the tail of the plane with a solemn expression.

Xia ruofei and the other eight followed closely behind. They were carrying the coffin of old Luo with heavy steps.

There were no ceremonial soldiers arranged on the scene. The last journey of old Luo's squad leader was to be seen off by these brothers who had gone through life and death with him on the battlefield.

Xia ruofei and the others did not change into their military uniforms. Instead, they were wearing the camouflage uniform that still carried the smoke from the battlefield a few days ago. They were also wearing all their uniforms.

This symbolized that squad leader old Luo still maintained the posture of a fighter.

There was still a short ceremony to be completed at the scene. Guo Zhan and Xia ruofei placed the coffin and portrait of old Luo and stood on both sides to guard the coffin. Two soldiers came forward to offer flower circles.

At this moment, Xia ruofei walked out of the line and hung an ordinary bullet bag on the flower Circle.

This bullet bag contained the Japanese's hair.

The moment Xia ruofei knew that old Luo had sacrificed himself, he had vowed to use the enemy's head as a sacrifice to the respectable old squad leader.

In the end, he also played a crucial role in that battle and killed four Japanese soldiers with his own hands, including the commander of the Wei nation agent operation, Junyan Inoue.

However, the discipline of the military did not allow him to really cut off the Japanese's head. Hence, Xia ruofei had to cut off his hair and use the Japanese's hair to represent his head as a tribute to old Luo.

The melodious and low – pitched wail gradually weakened.

Guo Zhan took a step forward, then turned back and shouted, "" Assemble!"

Including Xia ruofei, all the members of the assault team who participated in the battle immediately lined up beside the coffin of the squad leader, old Luo. Even Jin Gang, who was on the stretcher, sat up straight.

"I'll be taking attendance!" Guo Zhan's eyes were red as he shouted, "Xia ruofei!"

"Here!" Xia ruofei straightened his back and shouted.

"Jingang!"

"Here!"

"Tian Feilong!"

"Here!"

.....

All the members participating in the battle were called out. In the end, Guo Zhan used all his strength to shout, "Luo Zhicheng!"

"Here!"

This "here!" Was louder than all the previous shouts because this was shouted by Xia ruofei and all the other members in the battle.

"Here!"

All the soldiers of the lone wolf assault team shouted in unison again.

"Here!"

All the officers and soldiers who participated in today's ceremony, from the general to the private, and the family members of old Luo's squad leader, also shouted in unison.

Three "here!" Were shouted, each louder than the last, and finally resounded through the clouds.

The muscles on Guo Zhan's face twitched. He gritted his teeth and gave the order again, "At ease! Attention!"

Guo Zhan turned around and ran seven steps forward. Then, he stood straight and saluted a Lieutenant General opposite him.

This Lieutenant General was Qin Hongwei, the Chief of Staff of the southeast Military Region. He had been entrusted by the head of the military Region to welcome the coffin of old Luo back home.

After Lieutenant General Qin Hongwei returned a military salute to Guo Zhan, Guo Zhan reported in a clear voice, "" Comrade chief of staff, lone wolf commando unit 615 has returned from a mission. 15 people should be here, and 15 people are actually here. Lone wolf assault team captain Guo Zhan!"

Qin Hongwei swept his gaze across the troops and said, ""At ease!"

"Yes!"

Guo Zhan saluted, and Qin Hongwei saluted back.

Then Guo Zhan ran back to the front of the line and gave an order: "At ease!"

Then, he ran back to the front of the line and quickly assumed a relaxed posture.

Qin Hongwei walked to the microphone in front of the coffin and said, ""Comrades! Today, we welcome martyr Luo Zhicheng's coffin with a heavy heart. On behalf of the party leaders of the military Region and all the soldiers of the military Region, I would like to express my deep condolences to martyr Luo Zhicheng and express my sincere condolences to the family of the martyr and the injured comrades ..."

Chapter 786: Second – Class hero (1)

Qin Hongwei's speech was short, but he had a very high evaluation of Luo Zhicheng.

At the end of the speech, Qin Hongwei said, "for decades, squad leader Luo Zhicheng has been the same. He sweated on the training ground and used his blood and life to fulfill the oath that a veteran had made when he first joined the Army. He didn't even have time to look at the lights of thousands of homes that he had protected for decades! Comrades, this is how a modern Revolutionary soldier should look like! All the soldiers of lone wolf must inherit comrade Luo Zhicheng's last will, turn grief into strength, train hard to kill the enemy, and be ready to fight for our country at any time!"

With red eyes, the soldiers of lone wolf shouted in unison with all their strength, ""Use me in the first battle, use me to win!"

After the welcoming ceremony, class monitor old Luo's wife and daughter came up.

Squad leader Luo's daughter looked at her father's black and white photo, as if she still didn't understand the meaning of life and death, and his wife had long been crying.

Guo Zhan bit his lips and said guiltily after a long time, "Sister – in – Law, I'm sorry ... I took squad leader Luo out, but I didn't bring him back safely ..."

Squad leader Luo's wife's name was Lin Yue 'e. Because she had been living in two different places for a long time, she had taken care of the elderly and children at home by herself. She also did housework all day, so she looked a little older than her actual age.

Lin Yue 'e shook her head with tears in her eyes and said, ""Captain Guo, you're not to blame for this, it's all fate ... Old Luo Sheng told me before he died that as a soldier, he was ready to sacrifice himself at any time! As his wife, I'm actually mentally prepared for this ..."

"Sister – in – Law, if you have any difficulties at home, just tell us. The organization will do its best to solve them. If the organization can't solve it, I will help you solve it personally." Guo Zhan said in a low voice.

Lin Yue 'e shook her head. "We don't have any requests for the organization. However, I hope that old Luo can return to his hometown and return to his roots."

“We will respect your opinion and immediately contact the relevant Department in Ganjiang province to arrange a place for old Luo to be buried in the martyrs ‘Cemetery in his hometown,” Guo Zhan immediately said.

Lin Yue ‘e nodded and said,””Thank you ...”

Then, Lin Yue ‘e looked at Xia ruofei.

.....

Xia ruofei quickly stepped forward and called out,””Sister – in – Law ...”

Squad leader old Luo and Lin Yue ‘e had been married for many years. Although they had been separated for a long time, Lin Yue’ e would still come to visit them every year. Hence, the Veterans were very familiar with this sister – in – Law.

Lin Yue ‘e squeezed out a smile and said,””Little Xia, you’ve been discharged from the Army for almost a year, right? This time, you even specially returned to the Army for old Luo’s matter. Thank you. ”

“Sister – in – Law, please don’t say that!” Xia ruofei said,”squad leader Luo is the most respected former squad leader in our entire team. We will not shirk our duty for his sake!”

Lin Yue ‘e said,”little Xia, the military chief has told me about the situation. Although I don’t know what mission you’re carrying out this time, the chief told me that the enemies who caused old Luo’s death have all been eliminated by you. You’ve even personally avenged old Luo. Thank you!”

“But no matter what, squad leader Luo ...” Xia ruofei’s expression darkened.

Speaking of this, Xia ruofei couldn’t help but feel a little choked up. He thought about how he had spent most of his time in the Army. Every bit of his life seemed to be filled with the shadow of old Luo, the squad leader. This loyal elder had trained him from an ordinary soldier to a Special Forces elite.

Now, the old class monitor had left forever.

After the funeral ceremony, Xia ruofei felt more and more empty.

Guo Zhan gave Xia ruofei a look and whispered,””RUO Fei!”

Xia ruofei immediately came back to his senses. At this time, the family members were already very sad and painful. He should not show such emotions.

“Sister – in – Law, I’m sorry ...” He quickly apologized.

“I’m fine ...”Lin Yue ‘e replied with reddened eyes.

“Let’s go, sis – in – Law!”Guo Zhan came over and said. The hearse is waiting in front!”

“Alright!” Lin Yue ‘e wiped her tears and said,”Nan Nan, hold onto dad’s photo properly ...”

The daughter of the squad leader old Luo, Nan Nan, nodded sensibly. She took the deceased photo of the squad leader old Luo from Guo Zhan’s hand and slowly walked toward the hearse under the lead of two female soldiers.

Guo Zhan walked to the front of the coffin and patted Tian Feilong's shoulder, indicating for him to return to the team.

Then, Guo Zhan held the corner of the coffin and gave the order. The other seven officers, including Xia ruofei, lifted the coffin with him.

Everyone followed Lin Yue 'e and Nannan with heavy steps, carrying the coffin toward the hearse.

Guo Zhan chose to personally carry the coffin and revive the spirit of his most respected old squad leader, sending off the last journey of his guide at the beginning of the Army.

The Requiem sounded on the training ground.

All the soldiers saluted in the direction of the coffin.

Under the orders of a platoon leader, the soldiers who participated in the war loaded their Type 95 submachine guns and pointed the muzzles at the sky.

Da da da! Da da da!

The most familiar gunshot of squad leader old Luo resounded throughout the training ground to send off the veteran.

Xia ruofei, Guo Zhan, and the rest of the Group of Eight carried the coffin of old Luo to the hearse. Lin Yue 'e and Nan Nan also got on the car.

Apart from Jin Gang, who was still unable to get out of bed, all the soldiers who had participated in the battle this time took another coaster and followed the hearse to the funeral parlor.

Chapter 787: Second – Class hero (2)

After squad leader Luo's body was cremated, his ashes were placed in the small hall of the lone wolf Special Forces.

This place was temporarily set up as a mourning hall to receive the condolences of the soldiers.

Squad leader old Luo was a well – deserved hero. He was a hero who fought against the enemy forces in an era of peace and wrote his loyalty with blood and life. However, for the sake of confidentiality, his deeds would not be publicized in the media, and people would not know that there was once a veteran who had given his precious life for the country and the Army.

Therefore, his ashes would not be publicly offered to the public.

In fact, there were many other nameless heroes like this.

"We can walk with our families in the night, live a comfortable life in the city, and be intimate with our loved ones under the moonlight. All these seemingly within reach but ordinary happiness is because of the silent sacrifice of countless soldiers.

The reason why our lives are so bright is because someone is blocking the darkness from us ...

Xia ruofei stood in the lone wolf commando unit's honor room. He stopped in front of the Wall of Martyrs. There was a new photo of old Luo, the squad leader. On his left was his good brother Lin Hu. At this moment, Xia ruofei's heart was filled with many emotions.

"Class monitor Xia, you're here!" A voice came from behind Xia ruofei.

Xia ruofei turned around and saw that it was Tian Feilong.

"Feilong! What's the matter?" Xia ruofei asked with a smile.

"Wolf King invites you!" Tian Feilong said, "he's in the big conference room. You don't need me to lead the way, right?"

"Of course!"

.....

When Xia ruofei, who was dressed in military uniform, arrived at the big conference room, he realized that all the core members of the strike Force were present.

Guo Zhan saw Xia ruofei enter and smiled. "RUO Fei is here! Let's find a place to sit!"

"Yes!"

Immediately, someone moved to the side and gave Xia ruofei a friendly smile.

The people in the meeting room were all the core members of the lone wolf assault team. Xia ruofei had been a core class monitor before he retired, so he was very familiar with them.

Xia ruofei sat down and whispered to the platoon leader who had given up his seat to him, "Thank you!"

"Everyone's here, let's start the meeting!" Guo Zhan said, "everyone is very familiar with comrade Xia ruofei, so I don't need to introduce him. This time, we have encountered a serious problem while carrying out the 615 mission. Our misjudgment of the situation has led to casualties. I will report this to the higher – ups for an inspection and ask for punishment. Today's meeting only has one topic ..."

At this point, Guo Zhan looked at Xia ruofei and continued, "Comrade Xia ruofei volunteered to join the battle and requested the unit to recall him to participate in mission 615. He played a decisive role in the follow – up process of the mission! He had used his actions to fulfill his promise of "returning to the battlefield if there was a battle!" Whether it's me or all the members of lone wolf, we're very grateful to Xia ruofei! I suggest that everyone give Xia ruofei a round of applause to thank him!"

The meeting room burst into a round of applause. Xia ruofei tidied his clothes and stood up to give everyone a standard military salute.

After the applause stopped, Guo Zhan continued, "In order to commend Xia ruofei's outstanding performance, the higher – ups have decided to reward him. I will now read out the order from the southeast Military Region to reward him with second – Class merits!"

As soon as Guo Zhan's voice fell, everyone in the conference room stood at attention.

Guo Zhan picked up a document and read aloud, "Southeast Military region's government No. 12 order! Lone wolf assault team," comrade Xia ruofei, a retired soldier from your division, was summoned back to carry out his mission ..."

Guo Zhan read out word by word the Meritorious Service Order personally signed and signed by the military chief, and the conference room was once again filled with thunderous applause.

Xia ruofei walked up the stage. Guo Zhan personally pinned the second – Class Meritorious Service Medal on the chest of Xia ruofei's military uniform. He also presented the certificate of Meritorious Service and the good news of Meritorious Service to Xia ruofei. Now that Xia ruofei was all alone, he naturally had no place to mail the good news of Meritorious Service, so he gave it to him directly.

Although Xia ruofei had already retired, he would still be recorded in his personal file for his contributions and awards during his recall.

This second – Class merit did not have any material reward, but to Xia ruofei, it was a very precious honor.

Hence, Xia ruofei was rather excited. After receiving the medal and certificate, he stood on the stage and saluted to his comrades. He said emotionally, "Thank you for the organization's recognition, my comrades! Although I have left lone wolf, my heart will always be with everyone. In the future, as long as the Army gives the order, I am willing to put on my clothes again and go to the battlefield! Still the same words, if there's a battle call, I will return!"

"Alright!" His comrades gave Xia ruofei a warm round of applause.

"I hereby announce that comrade Xia ruofei has successfully completed his mission. His temporary recall has come to an end!" Guo Zhan said from the side.

.....

At the entrance of the barracks, a camouflage cheetah off – Road vehicle was parked quietly.

Xia ruofei was quietly packing up in his room.

Xia ruofei had already changed back into his casual clothes. All the things that were given to him during the mission, including the woodland camouflage, the standard belt, the bulletproof vest, the bullet bag ... Were all placed neatly on the bed.

He carefully put the certificate and medal into his bag, zipped it up, and stood up. He looked around the familiar dormitory.

At this moment, Xia ruofei saw Guo Zhan standing at the door.

"Since you're so familiar with it, you don't need to send me off, right?" Xia ruofei pretended to be relaxed and smiled.

Guo Zhan walked in and casually placed his military hat on the table. He asked, "Talk?"

Xia ruofei was stunned.

“Don’t worry, I’m not trying to persuade you to stay,” said Guo Zhan with a smile. There’s something else I need to talk to you about.”

“Please speak!” Xia ruofei grinned.

Guo Zhan took out a small stool from under the bed. After the two sat down, he said, “Ruofei, I’m here to talk to you about sister – in – Law,”

“You mean class monitor Luo’s lover?” Xia ruofei asked.

“Yes!” Guo Zhan nodded. After the coordination of various military and local departments, squad leader Luo’s grave had been confirmed. It was in the martyrs ‘Cemetery in the county where his hometown was. Tomorrow, sister – in – Law and Nan Nan will be bringing squad leader Luo’s ashes home.”

Xia ruofei nodded and listened quietly.

“Squad leader Luo’s parents are old,” said Guo Zhan, “and now he’s still hiding his sacrifice from the old man. I’m afraid they can’t bear the blow.” Although squad leader Luo’s pension and consolation money can alleviate the urgent needs, but in the future, without squad leader’s salary and only some martyr’s pension, I’m afraid his family life will be even more difficult.”

Guo Zhan paused for a moment before he continued, “generally speaking, the family members of a martyr like squad leader Luo who has made great contributions can solve their work problems. The local government has also promised to make proper arrangements.” However, sister – in – Law didn’t want to cause trouble for the organization. She said that if class monitor Luo was still alive, he wouldn’t agree to her doing this.”

Xia ruofei couldn’t help but be moved. The word ‘military wife’ was a heavy word. The sacrifice and pain behind this word were also extremely great. A military wife like Lin Yue ‘e, who had a high level of awareness, was not the only one.

Guo Zhan continued, “I’ve tried to persuade her, saying that this is a normal treatment, but sister-in-law’s heart is set on it, and she doesn’t accept it..”

Xia ruofei said, “sister – in – Law is soft on the outside but strong on the inside. She has her own opinions. It’s hard to change her mind once she has decided on something.”

“Isn’t that so?” Guo Zhan smiled bitterly. “Ruofei, that’s why I’d like to ask you to persuade her. This time, you’ve personally avenged old Luo, so she might listen to you.”

“Captain, I don’t recommend sister – in – Law to accept the work arranged by the organization ...” Xia ruofei said after some thought.

Guo Zhan was stunned for a moment and said, “you brat!” I’m still counting on you to persuade sister – in – Law! Why are you going against me now?”

Xia ruofei smiled and said, “Wolf King, let me finish!” “Sister-in-law’s education level is only high school, and she doesn’t have any special skills. Even if the organization arranges a job for her, it’ll at most be an idle position in a public institution. Moreover, the salary in Ganjiang province is generally low. Even if she has a permanent position, she won’t have much money a month. By then, her family will definitely be tight.”

"Do you have a better idea?" Guo Zhan asked.

"Of course!" Xia ruofei smiled and said, "don't forget what I do for a living! My company is currently expanding rapidly, and I'm hiring people every once in a while. I think we should just let sister – in – Law work in my company. We can't let her suffer any grievances in terms of salary and benefits!"

Chapter 788: Sharpening the knife (1)

Guo Zhan's eyes brightened and he couldn't help but want to clap the table and exclaim, happily saying, "Blood Wolf, this is a good idea! Hehe ... You're full of ideas!"

Guo Zhan had been racking his brains over the past two days regarding the future of Lin Yue 'E's family.

After squad leader old Luo's death, he was immediately recognized as a revolutionary martyr. He would receive a one – time pension and funeral expenses. As a martyr's family, Lin Yue 'e would also receive a certain amount of allowance every month. In addition, in the case of squad leader old Luo, the organization would take into account the difficulties of the martyr's family. If they did not have a job, they would usually solve their job problems.

However, these were far from enough. The state had policies regarding the pension and preferential treatment for martyrs. It was impossible to give compensation beyond the stipulated scope just because old Luo made great contributions.

Guo Zhan and his comrades had wanted to provide financial assistance to Lin Yue 'E's family, such as supporting Nan Nan until she went to college. However, Lin Yue' e was a stubborn person. She was not even willing to accept the job that was offered by the organization, so it was naturally impossible for her to agree to such financial assistance.

However, after Guo Zhan's excitement, he immediately frowned and said, "Blood Wolf, sister – in – Law doesn't even want to accept the job arranged by the organization. Will she agree to work in your company?"

Xia ruofei smiled and said, "why not?" If you don't accept the arranged work, it means that you don't want to cause trouble for the organization. But if you work in my company, you'll earn a living with your own abilities. Isn't it only right and proper for you to work hard and get paid?"

"That's true, but sister – in – Law ..." Guo Zhan had some uncertainty.

Xia ruofei laughed and said, "I'll tell sister – in – Law!" As you said, I've also contributed to old Luo's situation, so she should be able to listen to my words. "

With that, Xia ruofei turned around and walked out of the door.

Guo Zhan quickly pulled him back and said, "Ruofei, I've thought about it. You shouldn't go look for sister – in – Law for now. "She's going back to Ganjiang in two days. There's still a burial ceremony for the deceased. After she's done with these things, there's still the issue of the two elders. This matter can't be kept a secret for too long. When the media in Ganjiang reports about it, the elders will definitely find out, so ... Why don't you wait for a while? after sister-in-law's family has settled everything, you can go to Ganjiang yourself. "

Xia ruofei nodded and said, "that works too!" "Captain, I think the difficulty of this matter lies in the two elders ... After all, my company is in the southeast province. If sister – in – Law and Nan Nan move to San Shan, I will definitely be able to settle them properly, but the elders might not be willing to move to the southeast province! After all, it was difficult to leave one's homeland! Besides, class monitor Luo is buried in his hometown, so they'll definitely be more willing to be closer to their son. "

Guo Zhan nodded and said, "this is also a problem ... If you can 't, you can go and persuade our sister – in – Law to accept the job arranged by the organization. At the very least, she should be arranged to work in a state – owned enterprise. If it's better, she might even be able to solve the problem of being a career editor!"

.....

Xia ruofei pondered for a moment and said, "Wolf King, let's wait!" As you said, sister – in – Law has to deal with squad leader Luo's funeral. Even if the organization arranged work, it wouldn't be so fast. I'll think about it when I get back and see if there's any way to get the best of both worlds. "

"Alright!" Guo Zhan nodded and said, "then you should go and say goodbye to sister – in – Law and Nan Nan! Let's not mention this for now ..."

"I know!"

Xia ruofei carried his bag and walked out of the living quarters. He placed his bag in the cheetah off – Road vehicle that was sending him to the nearest train station. Then, he walked to the small hall of the lone wolf assault team and said goodbye to Lin Yue 'e and Nan Nan, who were there to mourn for old Luo.

Xia ruofei didn't mention anything about work. He only said some comforting words before bidding them farewell and leaving the small hall.

Xia ruofei was stunned when he walked out of the auditorium.

All the soldiers of the lone wolf assault team were neatly divided into two phalanxes in front of the small auditorium, with a path in the middle. At the end of this path was the cheetah off – Road vehicle that Guo Zhan had transferred from the barracks.

Looking at the familiar faces, Xia ruofei was a little moved. Guo Zhan smiled and said, ""Blood Wolf, it's time to go! If we don't leave now, we'll miss the bus ..."

Xia ruofei bit his lips and nodded. He walked towards the cheetah SUV.

Guo Zhan gently raised his hand and the soldiers immediately burst into thunderous applause. As Xia ruofei walked past them, the soldiers 'applause did not stop. When Xia ruofei passed by them, they would turn slightly and look in his direction.

Xia ruofei hoped that they could continue on like this, but the road was only a dozen meters long. Very soon, he arrived at the side of the cheetah SUV.

Just as Xia ruofei reached out to grab the door handle, Guo Zhan, who was behind him, loudly ordered, ""Salute!"

Xia ruofei's movements stopped, and his body stiffened. He slowly turned around and saw that all the soldiers were facing him. One to two hundred eyes were on him, and the soldiers saluted him in unison.

At that moment, Xia ruofei felt as if his entire body was being electrocuted. It was as if every pore on his body was trembling.

This was the highest praise a warrior could receive.

His lips trembled slightly, and his eyes turned red.

Xia ruofei bit his lower lip tightly, trying to hold back his tears. The lone wolf assault team members were all men. They bled and sweated but did not shed tears. It was too embarrassing to cry.

Chapter 789: Sharpening the knife (2)

Xia ruofei raised his hand. His movement was slow but powerful. He returned a standard military salute to his dearest comrade and brother.

Xia ruofei, who was dressed casually, raised his hand and saluted, but it did not seem out of place at all.

According to the regulations, the recipient should be the first to lower their arms. Hence, the soldiers maintained their salutation posture. Xia ruofei maintained it for a few seconds before lowering his arm.

Without any hesitation, he turned around, opened the door, and sat in the car without even looking back.

He was afraid that if he took another look at the barracks and his group of life – and – Death brothers, he would not be able to hold back his tears.

The cheetah off – Road vehicle started up and slowly drove out of the camp. It was only until the car disappeared at the far gate of the camp that Guo Zhan gave the order, ""The ceremony is over!"

Only then did the soldiers of lone wolf put down their arms.

"The first row, stay behind and stand guard for squad leader Luo. The rest of you, turn left and right!" Said Guo Zhan.

The comrades in the first row of the two lines on the left and right silently stepped out and came to stand guard for the monitor old Luo. The rest of the people turned around in unison and gathered in a column.

"Target the tactical training ground, run!" Guo Zhan shouted.

Some of the soldiers had just returned from their missions, and some were still immersed in the grief of losing their squad leader, old Luo. However, training couldn't be stopped. This was one of lone Wolf's principles. Even if the sky fell, they still had to train.

Without sweating like rain on the training ground day after day, how could there be a lone wolf on the battlefield that made the enemy tremble in fear?

Besides, class monitor old Luo hadn't left yet. He was still watching everyone in the mourning hall!

.....

Soon, the training ground was filled with the sound of gunfire and soldiers shouting. This familiar voice was the best comfort to the squad leader, old Luo.

.....

In the evening, Xia ruofei carried a small bag and walked out of the South Sanshan train station.

Along the way, Xia ruofei's mentality had slowly adjusted. After the recall, he had become a local citizen again. The past few days of tension, excitement, blood, and smoke were like a dream.

Now that he had woken up from his dream, he had once again changed from an outstanding special Combat Elite to the chairman of paradise Corporation, who had just emerged in the business world.

On the train back to Sanshan, Xia ruofei started to think about the company's development, especially the work that had to be completed in the near future.

As he walked out of the station, Xia ruofei saw Lei Hu's figure. The Knight XV SUV was parked beside Lei Hu. Xia ruofei had called Lei Hu yesterday and asked him to go to the Public Security Bureau to get the car. Then, he sent his train number to Lei Hu and asked him to pick him up at the station.

There was a spare key to the Knight XV at home. After Xia ruofei called the police, Lei Hu successfully retrieved the car and drove to the southern train station in the southern suburbs of Sanshan city to pick them up.

"Brother Xia!" Lei Hu waved at Xia ruofei, then quickly came forward to take the bag from Xia ruofei's hands.

"Hu, you've worked hard!" Xia ruofei said with a smile.

Lei Hu opened the door for Xia ruofei and grinned. "Brother Xia, it's not hard!"

After Xia ruofei got into the car, Lei Hu immediately closed the door, then quickly sat in the driver's seat and started the car.

Xia ruofei leaned on the soft and comfortable seat in the back and asked with his eyes closed, "Did anything happen in the company recently?"

Lei Hu drove seriously as he replied, "They're all pretty good! Yesterday, I heard director Feng and director Xue from the Research Institute talking about some clinical trials."

Xia ruofei opened his eyes and sat up straight. "What's wrong with the clinical trial?"

Lei Hu scratched his head and said, "I don't know much about the company's specific Affairs. You'd better go back and ask President Feng about it!" But don't worry, it shouldn't be a bad thing. I can see that President Feng and the others are quite excited."

"Oh ..." Xia ruofei heaved a sigh of relief. "Alright, I understand."

Xia ruofei was very concerned about the heart – nourishing soup project. Although the provincial and National Drug Administration were very supportive of it, Xia ruofei was still worried that there might be any problems, especially if there were problems in the clinical trials. It would be troublesome.

However, after hearing Lei Hu's words, Xia ruofei was relieved. He knew that if something big happened, Feng Jing would definitely call him to report it. Since he had not received any calls until now, it must not be a bad thing.

After all, Lei Hu was only the head of security and did not know much about the company's Affairs, so Xia ruofei decided not to ask.

"Oh right, Hu Zi, Qiao' er hasn't gone out these past few days, has she?" he asked after some thought.

"No, I personally went to pick him up after the class reunion." Lei Hu replied, "she's been at home the past few days. She didn't even leave the farm."

"En!" Xia ruofei nodded.

Lei Hu laughed and said, "brother Xia, you're really concerned about this sister of yours." Even a real brother wouldn't be able to do this, right?"

Lei Hu was very clear about how much effort Xia ruofei had put in for Lin Qiao's safety. All of this was done without Lin Qiao's knowledge. No wonder Lei Hu was so emotional.

Xia ruofei smiled bitterly and said, "it's precisely because he's not my biological brother that I have to be so attentive!" Now that Hu is gone, I have to take good care of his only sister!"

Then, Xia ruofei continued, "you saw what happened that day. High school students these days are really bold. If I hadn't been secretly protecting her, Qiao' er might have been hurt!"

Chapter 790: Sharpening the knife (3)

Lei Hu nodded in agreement.

"Oh right, what happened to Xue Fei that day?" Xia ruofei asked.

Lei Hu couldn't help but look at Xia ruofei through the rearview mirror and said, ""Xue Fei, Hu Lili, and their two friends were all seriously stung by the Hornet that night. They are still lying in the hospital! For the time being, he didn't have the time to play any tricks! Although their lives weren't in danger, they had suffered quite a lot. For example, Xue Fei ... Had been bitten in a vital part, and the swelling was still not reduced! I don't know if it will affect the function in that area after the treatment ..."

Xia ruofei suddenly received a call that day to go to the General Hospital to meet Guo Zhan. Hence, he arranged for Lei Hu to send people to keep an eye on Xue Fei and the others, to keep track of their movements.

Lei Hu was in awe of Xia ruofei's superb skills. He had even used the Hornet.

Although the nightclub said that it was a Hornet that flew in from outside and its source was unknown, Lei Hu was very clear that this matter must be related to Xia ruofei. Otherwise, how could it be so coincidental that it stung the four people who wanted to harm Lin Qiao? and Xue Fei's condition was the most serious?

Of course, Lei Hu was also a soldier. He knew what to ask and what not to ask. On this kind of question, he was very smart to keep his mouth shut and would not discuss anything with his brothers.

Xia ruofei couldn't help but smile after hearing this.

That day, he had really used his mental power to control a Hornet to sting the place where Xue Fei was.

This wasn't because he had a bad taste, but because he really hated Xue Fei. He actually dared to have such thoughts about Lin Qiao, so he had to let his "tool" who had failed to commit a crime receive a small lesson.

"Is there any other news?" Xia ruofei asked.

Lei Hu knew what Xia ruofei was asking and smiled bitterly. "Brother Xia, we haven't made any progress in our investigation on Xue Fei's father, Xue Zhengbang. After all, he's the Deputy Mayor ..."

"Hu, you don't have to explain. I understand." Xia ruofei smiled and waved his hand. "You don't have to worry about Xue Zhengbang, but keep an eye on Xue Fei. He's a time bomb. I won't be at ease until he's removed ..."

.....

"Understood!" Lei Hu replied crisply.

Xia ruofei nodded and did not ask any more questions. He leaned back in his seat and closed his eyes to rest.

He had been thinking about Xue Fei's case. He had to investigate Xue Zhengbang. Unless this Deputy Mayor was really an official like Bao Qingtian, he could easily beat Xue Fei down. Then, he wouldn't have to worry about Lin Qiao's safety.

Soon, the car returned to the farm.

Xia ruofei carried his bag and walked into the house. Lin Qiao was sitting on the sofa and fiddling with her laptop. She had been self – studying graphic design software recently and was very enthusiastic. She even wanted to hold her laptop while eating.

Seeing Xia ruofei return, Lin Qiao was very happy. She quickly put her laptop aside and shouted, "Brother ruofei, you're back!"

Xia ruofei smiled and nodded. "Yup! Have you been obedient these few days? You didn't run around, did you?"

"No, I didn't! The farm is so remote, the farmland is right outside, where can I run to?" Lin Qiao pouted and said, "you didn't even bring me along when you went on a business trip ..."

Xia ruofei chuckled and said, "you said you were on a business trip. Where would you find the time to play?" "I'm dying of exhaustion ..."

"Oh! Then you should go upstairs and rest!" Lin Qiao said, "do you want me to go up and help you fill the tub? Take a bath to relieve your fatigue!"

Xia ruofei quickly said, "no need, no need. How can I let my little princess do such menial work?" "I'll do it myself, you can continue to study!"

Lin Qiao stuck out her tongue at Xia ruofei and smiled sweetly.

"Has Godma returned to her room?" Xia ruofei asked.

"Yes, she always sleeps early!" Lin Qiao said.

"Alright, I won't disturb her anymore. We'll talk about it tomorrow!" Xia ruofei said, "I'm going back to my room. Qiao'er, you should rest early too!"

"I know!"

Xia ruofei carried his bag and went upstairs. When he returned to his room, he did not rush to take a shower. Instead, he lit a cigarette and went to the balcony. Then, he took out his phone.

He had been thinking about Xue Zhengbang's matter on the way here, and in the end, he decided to give Niu Tao a call to see if he could help him.

Although Niu Tao had been transferred to the provincial Military District, the nature of his work was special. He was in charge of some retired members of special combat units. At the same time, he was also in charge of coordinating and contacting some special departments. So, if Niu Tao was willing to help, Xue Zhengbang could still find out a lot of things in secret, even if he was the Deputy Mayor of Sanshan city.

However, this was a serious violation of his principles. Xia ruofei was not sure if Niu Tao would help him.

After thinking for a while, Xia ruofei decided to give it a try.

Niu Tao's call went through very quickly. "Ruofei, you're back?"

"Yup!" Xia ruofei smiled and said, "Fire Wolf, I hope I didn't disturb your rest."

"I don't sleep so early! 'I've been so busy recently ...' Niu Tao smiled and said, "well ... How's your mission?"

Xia ruofei's mission was top secret, so Niu Tao was more cautious. He only asked carefully.

"I didn't fail you!" Xia ruofei smiled and said, "if you've suddenly become busy these few days because of the East China Sea, then you're probably cleaning up the mess for us."

Although the lone wolf assault team had annihilated the Japanese special agents, rescued professor Liang Qiming, and obtained the core experimental data, there was still a lot of follow-up work left after they left the three mountains.

For example, how did these Wei nation people sneak into Huaxia, did they have any spies in Huaxia, how the matter of Liang Qiming's laboratory in Sanshan University was leaked, and so on.

This required a special department to investigate, and Niu Tao happened to be in charge of this.

Niu Tao couldn't help but exclaim, "F * ck! So it was to clean up the mess for you! F * ck, I'll get the wolf King to treat me to a drink next time!"

“Remember to call me when you drink!” Xia ruofei laughed and said, “Fire Wolf, let’s cut the chit – chat. I’m looking for you today ... Because I need your help with something. It might be a little troublesome. If you feel that it’s difficult, you don’t have to be polite. Just tell me.”

“So formal?” Niu Tao said, “speak! What’s the matter?”

Xia ruofei didn’t try to hide anything and said directly, “”Huo lang, I want to investigate the situation of a Deputy Mayor of Sanshan city. His name is Xue Zhengbang, and he’s in charge of science, education, Culture, and health. I know that this is against the principles and the risk is quite high, so you don’t have to care about the situation. If you can help, then help. If you can ‘t, just tell me directly and I’ll think of another way. ”
