Chapter 81: cutting the stone (1)

All this while, the painting would only react when Xia ruofei touched the raw gemstones or jadeite. Now, the painting started to shake on its own. What did this mean? Xia ruofei could only think of one possibility, and that was that there was something that the painting scroll urgently wanted in the pile of raw stones. It was very likely that this was a high – Quality Jade that could promote its evolution. Xia ruofei's thoughts started to run wild, but his face remained expressionless. He walked over and squatted down casually, picking up the raw gemstones with ease. Boss Chen happened to look over and said with a smile, "Brother Xia, that pile of raw stones was prepared to be sent next door as a gift. There's nothing to see! If there aren't any that you'd like, there's still a lot of them here. You can come over and pick." In fact, he was just giving them a kind reminder. After all, this pile of raw gemstones was of very poor quality and had been picked by many customers before. It was impossible for anyone to want them in the shop, so he was going to take them as gifts. Xia ruofei smiled and turned around. "Boss Chen, I buy raw stones more because I like them! Besides, isn't the raw stone that rose in price the last time a free gift from the neighbor?" Boss Chen was stunned for a moment, then he laughed and said, "That makes sense! Brother Xia, you can pick whatever you like. I'll give you whatever you like!" Xia ruofei grinned and said, "sure!" Then I'll thank you first!" After that, Xia ruofei really squatted down and continued to pick the raw stones. Boss Chen only smiled and shook his head. He then started chatting with the familiar customers beside him. It was obvious that he did not care about the pile of raw stones at all. Xia ruofei reached out to search. Throughout the entire process, the spirit map was shaking slightly. Xia ruofei could even feel a trace of longing from the spirit map. When Xia ruofei's hand touched a raw stone, the spirit painting scroll suddenly shook more violently. The intensity of the vibration was no less than the raw stone that was priced at more than two million. Xia ruofei knew that it was definitely this stone. He looked at the black raw stone quietly and remembered its shape in his heart. Then, he continued to search. However, the spirit painting did not shake as violently as before. Xia ruofei was sure that it was the black raw stone from earlier! However, he did not pick it up immediately. Instead, he stood up and walked to the other shelf. "Brother Xia," boss Chen laughed, "there's nothing in that pile that you like, right?" Xia ruofei chuckled. "I'll go over here and pick first. I'll come back later to get a piece no matter what. It's a free gift from boss Chen anyway!" Boss Chen laughed and said, "No problem! You can pick a few more later!" Xia ruofei nodded with a smile and walked to another shelf. If he could not find a suitable raw stone here, Xia ruofei could only buy one randomly and 'conveniently' take the black 'gift'. Xia ruofei walked between the shelves with a relaxed expression. He looked like he was casually looking at the goods but in fact, he did not miss a single raw stone. The situation on this shelf was similar to the previous one. There were not many raw stones that could cause the spirit map scroll to shake, and there was no violent reaction at all. Just as Xia ruofei thought that he had to settle for the second – best option, his hand brushed past a raw stone. The spirit painting scroll suddenly vibrated. Judging from the vibration, the Jade contained in the raw stone should be worth at least two million Yuan. Xia ruofei raised his eyebrows and looked at the price tag next to the raw stone. 250 thousand Yuan. The price was also appropriate, so it was this! Xia ruofei was excited. However, Xia ruofei was still very calm. He did not take the raw stone immediately. Instead, he continued to choose raw stones as if nothing had happened. In the end, he randomly picked two raw stones that definitely did not have Jade. Then, he took them to the counter for payment with this one that was priced at 250000 Yuan. "Little brother, you've chosen?" Boss Chen asked with a smile. Xia ruofei smiled and

said, "yes!" I don't know anything about it, so I'll just buy a few pieces based on my feelings. " "It feels good!" Boss Chen laughed and said, "brother, didn't you also make a big profit last time based on your feelings? This time, it'll definitely rise greatly!" "Haha, then I'll be counting on your blessings!" Xia ruofei said. At this time, the shop assistant had finished calculating. Including the two raw stones that Xia ruofei had randomly picked up, it was a total of four hundred thousand. Xia ruofei paid with his card and said, "Boss Chen, I'll have to trouble your master to help me cut the stone!" Boss Chen nodded and turned around. "Old Xu, you go and help Brother Xia cut the stone!" "Yes, boss!" The master of cutting stones, old Xu, said quickly. "Brother, old Xu is the most experienced stonecutter in our shop." Boss Chen smiled at Xia ruofei and said, "tell him how you want to solve it!" Xia ruofei laughed and said, "I'm just an amateur who knows nothing. How would I know how to solve it?" Master Xu, you can solve it based on your experience! If it really increases, I'll give you red packets!" Master Xu smiled and said, "Then I'll thank the boss first!" With Xia ruofei's permission, master Xu started to cut the stone. The one that cost 250000 Yuan was the most expensive, so he put it aside first and picked one from the other two raw stones. He carefully observed it for a while and then fixed it on the stone cutter. The machine started to make noise, and the few customers in the shop also came over. As long as someone was cutting the stone, they would definitely be there to watch. Master Xu operated the machine, and with a sharp grinding sound, a corner of the raw stone was cut off. Then, master Xu found some clean water to clean the cut surface. A series of sighs could be heard. There was no green in the Kasaya. Master Xu was already used to this. He continued to adjust the angle and opened a new window. There was still no sign of green. After opening three windows in a row, master Xu fixed the raw stone in place and then cut it open at the waist. It was still all grey. "It's broken!" "This raw stone is worth tens of thousands, this young man has made a loss ..." The spectators began to discuss. On the other hand, Xia ruofei still had a faint smile on his face as if losing tens of thousands of Yuan was not a big deal. Boss Chen observed Xia ruofei's expression and was even more certain that Xia ruofei was a rich young master. Next, the process of cutting the second raw stone was similar. Master Xu first cut a few Windows, but when there was no green, he cut it directly. Naturally, this piece had also been cut. The onlookers sighed even louder. Some of them even looked at Xia ruofei sympathetically. In just a short while, hundreds of thousands of Yuan had gone down the drain! Of course, there were also some people who were gloating. Xia ruofei's face was still as calm as an ancient well without any fluctuations in emotion. Master Xu saw that he had cut two pieces in a row and couldn't help but look at Xia ruofei questioningly. Xia ruofei smiled and said, "master Xu, please continue!" There's still one more that hasn't been opened!" Master Xu didn't say anything. He nodded and began to carefully observe the 250000 – Yuan raw stone. This raw stone weighed more than 30 pounds and was about the size of a washbasin. However, its appearance was not very good, and there was a groove – like crack on the surface. Perhaps for this reason, the price was a little low. The onlookers shook their heads when they saw this raw stone. They felt that it was not as good as the previous two raw stones in all aspects, except that it was bigger than the previous two. Everyone felt that this raw stone would probably be cut into pieces. At this time, master Xu had almost finished looking. He adjusted the angle of the machine, moved the raw stone up and fixed it in place, and then started the machine to cut along the crack. After a short while, the cracked stone Skin was cut off into a very thin piece. The price of this raw stone was relatively high, so master Xu was relatively cautious. After removing the raw stone from the stone cutter, master Xu went to find clean water to clean the cut surface. In fact, no one, including master Xu himself, had much confidence in this stone. However, when the clear water washed over the cut surface, an intoxicating

green color appeared in front of everyone. At this moment, the scene suddenly quieted down, and only the sound of heavy breathing could be heard ...

Chapter 82: full pot (1)

It rose! And it was a huge increase! After a few seconds, the crowd started to stir. Boss Chen, who had been sitting next to them, couldn't help but stand up, his expression very interesting. Master Xu's mouth was also slightly agape. He hurriedly wiped the cut carefully, so that everyone could see it more clearly. There was a hint of green on the palm – sized cut surface, with some white mist mixed in. However, it was obvious that the green was very pure. "It should be Yang Lu!" "I wonder how it's like to plant water?" "It shouldn't be too bad! This raw stone is only 250000 Yuan, it must have increased by a lot!" Everyone was in a heated discussion. Boss Chen's expression changed slightly as he said, "Brother Xia, are you willing to sell this piece of material? I'll buy it back for 500000 Yuan!" A 250,000 – Yuan raw stone's value had doubled just because a "window" was opened and a little green was revealed. This was the charm of stone gambling. Xia ruofei smiled and said, "boss Chen, you know I'm not short of money. Isn't stone gambling just for fun?" Let's just open them all first!" Xia ruofei knew very well that the value of the Jade in this raw stone was definitely more than 500000 Yuan. Naturally, he would not sell it just like that. Boss Chen was a little disappointed, and the crowd also tried to persuade Xia ruofei. "Little brother, 500000 is enough! If we rub the stones again, we'll have nothing left if it collapses!" "Yup! If you sell it for 500000 Yuan, you'll be able to make up for all the losses you've suffered earlier, and you'll even make a small profit. Not bad!" "Greed is like a snake trying to swallow an elephant ..." Xia ruofei smiled and ignored the crowd. He motioned for master Xu to continue. It was already green, so he naturally couldn't cut it again. Master Xu changed the grinding machine and began to rub the stone along the surface. Master Xu was indeed an experienced master. His hands were very stable as he held the grinding wheel and slowly rubbed the surface of the stone. Everyone's eyes were focused on the raw stone. Except for the grinding sound of the grinding wheel and the raw stone, no one on the scene spoke. After more than half an hour, the raw stone was slowly unraveled by master Xu's hands, gradually revealing its true appearance. It was a whole piece of green jade, about the size of a volleyball. The green color was evenly distributed, and it looked full of vitality under the light. "You look very healthy! It's at least yang green!" "But the water head is average, and the transparency isn't very high. It should be a dry green species ..." "That's amazing! This little brother was only bought for 250000 Yuan!" "Yup! He's struck it rich this time ..." Everyone was discussing and their words revealed their envy of Xia ruofei. This was not the first time Xia ruofei had seen an undiscovered piece of Jade, but he was still attracted by its beauty. If he didn't need funds, he would definitely take it back and let the spirit map scroll absorb it. However, the construction of the farm was very important, so this piece of Jade could only be sold. Of course, Xia ruofei did not say anything because he knew that there would be people who wanted to buy it. Sure enough, after a few seconds of silence, a middle – aged fat man took the lead and said, "Little brother, I'm willing to pay 1.6 million for this piece of Jade. Sell it to me!" As soon as the fat middle – aged man finished speaking, another old man with a goatee immediately said, "Such a big piece of dried green, and it's only 1.6 million? You're bullying this little brother for not knowing, okay? I'll pay 1.8 million!" "1.9 million, I'm taking it!" Another person had joined the competition. Xia ruofei stood at the side with a smile. He didn't even need to say anything. Everyone would naturally start bidding, and he only needed the highest bidder to win. Very quickly, the price had reached 2.1 million. The highest bidder was the little old man with the goatee. At this moment, boss Chen, who had not participated in the bidding, suddenly said, "I'll take the 2.1 million ..." His words stunned everyone.

Someone had already bid 2.1 million! Even if he was the owner of spirit Jade house, that raw stone already belonged to Xia ruofei. Now that it was being sold as a raw material, there should be a first come, first served basis, right? However, boss Chen only paused for a moment before he continued, "2.1 million, plus the 300000 Yuan of Jade in exchange for this piece of dry green material! Brother Xia, how is it?" Previously, Xia ruofei had asked for 300000 Yuan worth of Jade, but he had not paid for it. Now, boss Chen was using these jades as a bargaining chip, which was equivalent to a bid of 2.4 million Yuan. "2.4 million? Boss Chen ... Isn't your price a little outrageous?" The old man with the goatee said, "aren't you afraid of losing money?" Boss Chen smiled and said, "old Gu, most of the Jade materials that brother Xia wants are broken pieces, but this piece is a whole piece. I estimate that you can take out 28 to 29 bracelets. The rest of the materials can be used to make some small accessories. You should make a small profit." The goateed old man sighed. He knew that he couldn't beat boss Chen, so he didn't plan to bid anymore. Xia ruofei also knew when to stop. He smiled and said, "Boss Chen, deal!" "Hahaha! Refreshing! Brother Xia, thank you!" Boss Chen patted Xia ruofei's shoulder and said. The onlookers shook their heads and sighed when they saw that they couldn't get the Jade. Some people were envious of Xia ruofei. Xia ruofei had spent a total of 400000 on the raw stones. He had earned 1.7 million just by reselling them. On top of that, he had also obtained a Jade material worth 300000. He had made a lot of money! Boss Chen was also a straightforward person. He immediately printed out a standard jade trade contract and signed it with Xia ruofei. Then, he told the shop assistant to transfer the money to Xia ruofei and kept the volleyball – sized dry green type jade. At this time, the shop assistant who was preparing the Jade in the next shop brought over a bag of Jade worth 300000 Yuan. Boss Chen personally handed it to Xia ruofei. Xia ruofei checked it and confirmed that there was no problem. The deal was officially closed. "Boss Chen," Xia ruofei asked with a smile, "you said that I can pick one or two stones from the pile over there. Does that still count?" Boss Chen was stunned for a moment, then laughed out loud. "Brother Xia, you've already earned two million Yuan. Would you still be interested in those low – grade raw stones?" Xia ruofei laughed, "who told you to give it to me for free?" Who wouldn't want raw gemstones that don't cost money?" "No problem!" Boss Chen laughed. Who asked me to spread the word? Brother Xia, you can pick whichever you like, or even a few more. Just take it as a thank you gift from me!" Hearing this, Xia ruofei no longer stood on ceremony. He walked over and pretended to rummage through the pile of raw stones. Then, he picked up the raw stone that could make the spirit painting scroll vibrate on its own and said with a smile, "This will do!" Boss Chen glanced at the raw stone and smiled. "Alright! Brother Xia, do you need me to open this stone on the spot?" Boss Chen didn't care about this unremarkable raw stone at all. Xia ruofei smiled and said, "I'll just take it!" Otherwise, how embarrassing would it be if he didn't get anything? I'll go home and cut it myself!" Boss Chen couldn't help but laugh out loud. Then he said, "Brother Xia, you're the person with the best luck I've ever seen in stone gambling! I'm going to participate in the Myanmar public Jade bid soon, are you interested in accompanying me? I can pay you according to the highest standard of a stone gambling consultant!" Xia ruofei replied without even thinking, "I appreciate your kindness." Besides, Myanmar is a poor place with no pretty girls, so I'm too lazy to go and join in the fun!" Xia ruofei was cautious by nature. If he didn't need money urgently, he wouldn't have come to gamble again. Xia ruofei naturally avoided the Myanmar public bid that boss Chen had mentioned. Mr. Chen could tell that Xia ruofei knew nothing about stone gambling. He attributed the two gains that Xia ruofei had made to luck. In fact – Boss Chen had been in this business for more than ten years and had seen similar situations like Xia ruofei's – therefore, he did not suspect anything at all – Xia ruofei's rejection was within his expectations. Why would a rich young master Care about such a small reward?

After chatting with boss Chen for a while, Xia ruofei left spirit Jade house with the bag of Jade. On the way back, Xia ruofei could not suppress his excitement. This time, he had really returned with a full load! Besides, Xia ruofei had a feeling that the biggest reward of this trip was not the two million Yuan in cash or the three hundred thousand Yuan worth of Jade. It was highly possible that the unraveled black raw stone was the biggest surprise of his trip ...

Chapter 83: Sudden change (1)

Now that there was no problem with the funds to build the farm, Xia ruofei called Liang Qichao on the way and told him that they had decided to use manager Li's plan and asked him to help arrange the construction team. Naturally, Liang Qichao didn't agree. He patted his chest and promised that he would hire the best construction team and the best workers to do this project. He also asked manager Li to personally keep an eye on the construction site to ensure the quality of the project. Xia ruofei said a few polite words and didn't talk much with him as he was still driving. He only said that he would buy him a drink next time to thank him and then hung up. After throwing the phone on the console, Xia ruofei sped up. He couldn't wait to go home and study that unremarkable raw stone. At the villa in the suburbs, Xia ruofei carried the Jade and the raw stone and hurried upstairs. After locking the door and windows in his bedroom, he couldn't wait to take out the spirit painting and the black raw stone. As for the bag of Jade that was worth 300000 Yuan, he threw it aside. With the previous two experiences, Xia ruofei picked up the raw stone and communicated with the spiritual map. Of course, Xia ruofei was also a little uncertain. After all, the previous spirit paintings had directly absorbed Jade. The one in his hand was only a raw stone. It was still unknown whether it could absorb it. However, it was soon proven that his worries were unnecessary. The moment Xia ruofei's mind connected with the spirit map, he felt a suction force. Then, the dark origin stone in his hand was sucked into the spirit map. It fell directly into the unfurled scroll and disappeared without a trace. Xia ruofei didn't expect things to go so smoothly. He was stunned for a moment before he came back to his senses. He couldn't wait to enter the spirit map space. In the next moment, Xia ruofei appeared beside the spatial spirit pond. After the familiar dizziness passed, Xia ruofei looked around and was stunned. The size of the space was still about four acres, and there was no change. He quickly looked at the nameless plant again. The corollas of the strange flower that he had just picked were still bare, and there were no new strange flowers growing. Could it be that the conditions for evolution had not been met after absorbing the raw stone? Xia ruofei suddenly had this thought. But it didn't seem like it. This was because Xia ruofei could clearly feel that after the spirit painting absorbed the black rough stone, the spiritual connection between him and the painting had clearly strengthened. As soon as he entered the space, Xia ruofei could feel that the air in the space was fresher. It was as if the entire space was filled with a faint spiritual Qi that nourished everything in the space. Xia ruofei could feel that in such an environment, even without the change in time flow, the plants and animals would grow much faster than the outside world. All the signs indicated that the spirit map space had evolved. Could it be that the evolution was not complete enough? Xia ruofei thought to himself. He thought of the bag of Jade outside and immediately left the medium. He took out the bag of Jade worth 300000 Yuan and the remaining piece of Jade from the last evolution. Then, he would let the spirit map space absorb all the Jades. This spirit painting scroll also didn't refuse anyone. It was like a bottomless pit. After a while, the jadeite worth more than 300000 Yuan was completely absorbed. Xia ruofei returned to the medium. Unfortunately, the anticipated scene did not appear. The space was still about four mu, and the strange flowers did not regrow. Xia ruofei walked back and forth in the medium unwillingly. When he left the spirit Jade house, Xia ruofei was full of hope

that this dark origin stone would be able to evolve the spirit map space again. After all, this was the first time the spirit map space had vibrated on its own and Xia ruofei could feel that its anticipation was stronger than ever before. Xia ruofei did not expect that after he took out the raw stone and let the scroll absorb it, he would obtain such an “incomplete” evolution. After absorbing more than 300000 Jade, there was still no change. Xia ruofei left the spirit map space in frustration. After sitting on the bed in a daze for a while, Xia ruofei picked up Gu Piao’s painting and looked at it carefully. Then, he tried to connect to the spirit painting with his mind. After a few evolutions, Xia ruofei’s spiritual connection with the spirit map had become closer. Every blade of grass and tree in the spirit map space seemed to be right in front of Xia ruofei. He used his spiritual sense to check every inch of it, hoping to find the reason why the evolution was incomplete. Xia ruofei’s mind was completely immersed in the space. He did not realize that while he was trying to establish a connection with the spirit map, the spirit map started to emit a green light. Xia ruofei’s mind was still scanning the spirit map, inch by inch, and the light from the spirit map scroll was getting brighter and brighter. After breaking through a critical point, the spirit painting suddenly floated in the air. It hovered in the air for a moment before it suddenly accelerated and shot straight towards Xia ruofei’s forehead like a bolt of lightning. Xia ruofei’s eyes were slightly closed as he communicated with the space telepathically. He was not on guard in the bedroom, which was a safe environment. Moreover, the speed of the spirit map was too fast. Everything happened in a flash and the scroll had entered Xia ruofei’s forehead. Xia ruofei suddenly felt a sharp pain. Then, he felt as if his head was about to be torn apart. Even though he had gone through hellish training in the Special Forces and had developed an extraordinary willpower, he could not help but scream. The unbearable pain continued. Xia ruofei felt as if his head was going to explode. He held his head and rolled on the ground in pain. A minute later, Xia ruofei’s vision turned black and he passed out. After a long time, Xia ruofei finally woke up. Everything that had happened was like a dream, but the pain was so deep that even Xia ruofei, who had a strong will, could not help but shiver. However, at this moment, it seemed that nothing had happened. He checked his body and found that he was not missing any parts. Even the headache had disappeared without a trace. What had just happened? Xia ruofei could not understand. At this time, his gaze inadvertently fell on the bed, and his expression changed drastically! The spirit painting that he had placed on his bed was nowhere to be seen! This spirit painting scroll could be said to be the foundation of Xia ruofei’s life. Without the magical space in the spirit painting scroll, everything would return to its original point. Xia ruofei broke out in a cold sweat. He kept trying to recall what had just happened, trying to find the reason why the spirit map scroll had disappeared. At this moment, Xia ruofei subconsciously lowered his head and revealed a shocked expression. He could not help but open his mouth wide ...

Chapter 84: Spirit map entering the body (1)

Xia ruofei suddenly realized that there was a faint mark on his right palm. It was the shape of an unrolled painting. The mark was very faint and could not be discovered if one did not look carefully. However, Xia ruofei had been thinking about the spirit map scroll, so he noticed the mark at first glance. He raised his hand in surprise and examined it carefully. After examining every detail of the mark, he was even more certain that it was a spirit map scroll. Why did the spirit painting scroll disappear, and why did an identical imprint appear in his palm? Xia ruofei could not help but frown. A moment later, a light bulb went off in Xia ruofei’s head. He could not help but Pat his forehead. He realized that he had been too far away in his panic. If he wanted to find the location of the spirit map, the fastest way was not to use his eyes. Xia ruofei immediately calmed down and used his mind to communicate with the spirit map.

Sure enough, his mind instantly established a connection with the spirit map scroll, and this connection was much closer than before. Then, Xia ruofei saw with his own eyes that the mark on his palm flashed slightly, and then the ancient spirit map scroll appeared in his hand out of thin air. Seeing this familiar picture, Xia ruofei's heart settled. As he gradually calmed down, he began to think about everything that had just happened. The bone – piercing pain still left him with lingering fear. Xia ruofei did not know what had happened, but it seemed like ... He had just absorbed the spirit painting into his body? Moreover, he could summon it at any time with a single thought. Xia ruofei looked at the painting in his hand and an idea came to his mind. He immediately used his mind to communicate with the spirit painting scroll again, thinking of taking it back. As expected, the spirit painting scroll disappeared, and the faint mark appeared on his palm again. Xia ruofei was overjoyed. He tried it a few times and was soon able to take out or put away the scroll with great familiarity. Xia ruofei was now sure that the painting had merged with his body. This change surprised Xia ruofei. Xia ruofei had always been troubled by the issue of confidentiality. Although the possibility of his spirit painting being lost or stolen was very low as a Special Forces elite, covering up the spirit painting itself was a big problem. It was still fine since it was winter, and they were wearing thick clothes. It would be hard to find them if they were hidden close to their bodies. However, Xia ruofei could not think of any good ideas in the summer. And now, all the problems were solved. The spirit painting scroll had been integrated into his body, and he could take it out at any time when he needed it. Usually, it was just a tiny mark on his palm. As long as Xia ruofei paid more attention, it would be impossible to notice. This was really an unexpected surprise! Xia ruofei summoned the spirit painting scroll from his palm and entered the space. After absorbing more than 300000 Yuan worth of Jade, the size of the space did not change. It was still about four acres. The strange flower had not grown yet, but Xia ruofei was in a good mood. He was even happier than the previous two space evolutions. Furthermore, Xia ruofei could feel that the entire space was filled with a trace of spiritual energy. He felt relaxed and happy. The succulent plants, vegetables, and fruits also looked more energetic than before. It was clear that this evolution didn't upgrade the realm, but it brought great benefits. In the future, the growth of crops in the realm would definitely be faster, and with time flowing 20 times faster, the speed would be even more amazing. Xia ruofei first picked the ripe vegetables in the medium and stored them properly. At the same time, he sowed and planted again. While doing these things, he was even more determined to focus his vegetable planting on the outside world. With the unique conditions in the Yingying space, he had to speed up his pace of making money and plant something more valuable. Thinking of this, Xia ruofei immediately went to check on the new material of the Phoebe zhennan. He had buried two of them, so he was checking the Phoebe zhennan wood that was naturally placed in the medium. Xia ruofei looked at it carefully and his face lit up. The surface of this piece of Phoebe zhennan wood already had traces of a crystalline substance. Under the light, it flickered. Although it was not a beautiful gold color, the speed was already quite amazing. Xia ruofei had only placed this piece of Phoebe zhennan wood in the medium for three to four days. Under the speed of time that was 20 times faster than normal, it had only been two months at most. In the outside world, it would take at least half a year for natural oxidation to reach this level. This was enough to prove Xia ruofei's judgment that it was absolutely feasible to plant goldsilk nanmu in the medium. The next step was to find suitable high – Quality nanmu trees to transplant. The 70 – centimeter Phoebe zhennan that Liang Qichao mentioned was a good choice. Such a huge Phoebe zhennan had already formed its core and had a good foundation. In the spirit map space, with the flow of time 20 times faster and the “killer” flower petals, Xia ruofei was confident that he could make it grow in a relatively short time even if the growth rate of the Phoebe zhennan was frighteningly slow.

However, this matter had to be put on hold for a while, because Xia ruofei did not have enough money. A 70 – centimeter Phoebe zhennan tree would cost at least a few hundred thousand Yuan. Although Xia ruofei had more than two million Yuan in cash, he did not have much left after spending it on the farm. He could only give Liang Qichao a call to see if he could reserve this tree and trade with it after a while. Xia ruofei couldn't help but sigh. "By right, I'm already earning money far faster than the average person, so why do I always feel like I'm short of money? Thinking about the astronomical amount of Jade needed to upgrade the realm, Xia ruofei could not help but have a headache. However, he had to take things one step at a time, so he quickly adjusted his mentality. As for the remaining two pieces of Phoebe zhennan, Xia ruofei did not dig them out to examine them because he already knew that it was better to let the two pieces of wood form into ebony under the most natural conditions! Xia ruofei then went to check on the succulents and fish ponds. The succulent mother plant had basically recovered. In such an environment, it would take at most a few days for a new round of cutting breeding. The fish in the fish pond were growing very quickly. Xia ruofei picked a grass carp randomly and weighed it in his hand. It was almost half a catty. This rate of growth was also quite astonishing. In the outside world, it would take about two to three years to raise grass carp, and it would take at least half a year for them to grow to about half a catty. However, in the medium, it had only taken six to seven days to reach this weight. The red Arowana was also swimming around in the small pond in high spirits. It should be experiencing the first time in its life that it had lost its hair. The red color on its scales was becoming more and more obvious, and it was growing very well. Xia ruofei walked around the medium and then left, satisfied. The next day, the construction team sent by Liang Qichao officially entered the venue. The surroundings of the holiday villa were no longer as quiet as before. Large construction machinery was constantly working, and the construction site was a busy scene. As the chief supervisor of this project, manager Li had been keeping an eye on the boss's son at the construction site and personally telling him that this project must be done with all his might without any flaws or slacking. It must be a model project, so manager Li naturally did not dare to slack off. Xia ruofei did not have anything else to do. He stood on the balcony on the second floor of the villa and looked at the construction site. He thought that he would build his own farm here and become the birthplace of his career. He would be able to produce the best quality food and medicine continuously. He could not help but feel a sense of ambition. At this moment, Xia ruofei saw an orange shadow from the corner of his eye. He turned around and saw a bright orange Porsche 911 driving into the villa's courtyard. Ling Qingxue, who was wearing a light yellow down jacket and a cute plush hat, got out of the car. She looked up at Xia ruofei, who was on the second – Floor balcony. The corners of her mouth slightly curved up into a beautiful arc, revealing a half – Smile expression. She just tilted her head slightly and looked into Xia ruofei's eyes ...

Chapter 85: Fishing through the air (1)

Xia ruofei jogged down to the courtyard of the villa. Ling Qingxue was still leaning on the Porsche. Under the afternoon sun, her face had a lazy expression, which made her look very charming. When Xia ruofei saw her, he could not help but think of that sweet kiss from the other day. He greeted Ling Qingxue awkwardly, ""Qingxue, long time no see ..."" Ling Qingxue looked at Xia ruofei with a half – Smile and asked, ""Are you not going to contact me if I don't come to your house?"" Xia ruofei laughed drily and scratched his head. ""Isn't this that day's ..."" "Don't mention what happened that day!" Ling Qingxue's face turned red as she interrupted Xia ruofei. "Okay, I won't mention it ..." Xia ruofei said. "Qingxue, you ... Are you looking for me?" Ling Qingxue pursed her lips and said, "my father received news from President Zheng that your company has been registered. Also, today, when our purchaser went back

and reported that you are carrying out a large – scale construction project here, comrade Ling couldn't sit still. Didn't he send me here to use my beauty to seduce you?" So that you can sign the official contract with us as soon as possible. " At the mention of the "honey trap," Ling Qingxue couldn't help but burst out laughing. This laugh broke the awkward atmosphere between the two of them. Xia ruofei also felt relieved and quickly said,"Of course, there's no problem with signing the contract. Even if you didn't come and look for me, I was prepared to go to your company to settle this matter in the next two days." Then, Xia ruofei said,"why don't we do it today?" Are we going back to the city now?" Ling Qingxue chuckled and said,"there's no need to be in such a hurry, right?" It's almost mealtime. Don't you understand that I'm here at this time?" Ling Qingxue paused for a moment, then said slowly,"I remember someone still owes me two meals!" Xia ruofei laughed and said,"that's even more of a problem!" I'm also preparing to cook! Let's go in and sit!" Ling Qingxue cheered and went up to hold Xia ruofei's arm. She stuck close to him and the two of them walked into the villa together. Xia ruofei did not greet Ling Qingxue and just let her watch TV in the living room. He went to the kitchen to prepare lunch. The ingredients were naturally the vegetables from the spirit map space, and it would be fine to pair it with one or two meat dishes. Xia ruofei had been cooking for himself these days, so he was more skilled. When he was preparing the meat dishes, Xia ruofei suddenly thought of the grass carp in the fish pond in the interspace. The grass carp there were basically about half a catty, so it was very good to get two of them to braise or steam. However, the problem was that Ling Qingxue was in the living room outside. Xia ruofei definitely could not enter the spirit map space to fish. At this moment, Xia ruofei had an idea. Ever since the space evolved, he could directly take out items from the space through telepathy. In theory, he could also take out the grass fish directly. However, he had only taken ordinary items in the past, and the grass carp was constantly swimming in the spatial fish pond, so it might be very difficult to actually do it. However, Xia ruofei still wanted to give it a try. Not only was it to add a dish for lunch, but he also wanted to test his own idea. Xia ruofei looked around and saw that Ling Qingxue was focused on a variety show. Her long legs were placed on the coffee table, so she would not suddenly come to the kitchen. With a thought, the spirit painting appeared in Xia ruofei's hand. He held the spirit map scroll in his hand and began to connect with the spirit map space. Every blade of grass and every tree in the space was clearly reflected in his mind. In the past, when he took something out, he only needed to lock his mind on the item he wanted to take, and then give an order, and the item would be taken out of the space. Hence, Xia ruofei focused all his attention on the fish pond in the space. He quietly looked at a grass carp in the fish pond and was highly focused. However, the moment he gave the order, the grass carp wagged its tail and swam forward. It burrowed into a Bush of seaweed and Xia ruofei missed. However, Xia ruofei was not discouraged. Instead, he persevered and tried again. This was indeed much harder than taking things out normally. Xia ruofei tried three times in a row, but none of them succeeded. On the fourth attempt, Xia ruofei finally found the right time. He locked his mind on a grass carp and gave the order. The next moment, a grass carp appeared out of thin air and landed on the sink. The grass carp was obviously confused about the situation. It didn't understand why it was swimming freely in the fish pond a moment ago, but the next moment, its environment had suddenly changed. Therefore, it was very flustered and flapped its tail in the sink, making a banging sound. Xia ruofei quickly kept the spirit map space into his body and then threw the grass carp onto the anvil. He patted it flat with the knife and the grass carp immediately became dizzy and obediently lay on the anvil. Xia ruofei went to the kitchen door and sneaked a look. Seeing that Ling Qingxue did not come over because of the commotion in the kitchen, he took out the spirit map space again and tried the same thing twice. Once again, he successfully took out a grass carp from the space fish pond. Xia ruofei was very satisfied.

It was obvious that he had a closer connection with the spirit map space during this period of time. He was also more familiar with the use of the spirit map space. He deftly processed the two fish, and in a short while, two fragrant braised grass carp were out of the pot. The Golden braised fish was sprinkled with tender green coriander, and a fragrance assailed the nose, making people's appetite increase. Very quickly, Xia ruofei had prepared lunch. He served the dishes he had cooked, one by one. He had especially placed the plate of braised grass carp in the middle. Then, he brought out two more bowls of rice, before calling Ling Qingxue to wash her hands and eat. Ling Qingxue had eaten Taoyuan vegetables a few times, so she naturally couldn't resist the temptation of good food. She immediately got up to wash her hands and sat at the table. "What a sumptuous feast!" Ling Qingxue exclaimed in surprise when she saw the dishes on the table. Then, she pretended to be mature and said, "comrade Xia ruofei, you did well this time. Yup! It's worthy of praise!" Xia ruofei couldn't help but laugh, "thank you for your praise, Your Highness!" Your ladyship, may I ask if we can eat now?" Ling Qingxue's expression changed, and she said sternly, "It's approved! Little Feizi, serve bengong my meal!" "So you're treating me like a eunuch!" Xia ruofei said angrily, "do you think I won't cook for you next time?" Ling Qingxue giggled and begged for mercy. "I won't dare to do it again. I won't dare to do it again. You're the Emperor, okay?" "This is more like it!" Xia ruofei snorted. However, after thinking about it, he felt that it was a little inappropriate. He was the Emperor, and Ling Qingxue was the Empress. This ... Wasn't this just a perfect couple? Xia ruofei looked at Ling Qingxue and saw that her face was also slightly red. She avoided his gaze and changed the topic. "Let's start! I'm here to try and see if your cooking has improved ..." "I suggest you try this braised grass carp first," Xia ruofei quickly said. "Oh? Is there anything special about it?" Ling Qingxue asked. Xia ruofei smiled mysteriously and said, "Why don't you try it first and you'll know?" In fact, even he himself had never tried the taste of the grass carp produced by the space fish pond, so he was also very excited about it. Ling Qingxue's interest was immediately piqued. Her chopsticks reached directly for the plate of braised grass carp, and she picked up a small piece of fish and put it in her mouth ..

Chapter 86: Buying ginseng seeds_1

"Mm! It's delicious ... And it has a unique taste!" Ling Qingxue said in surprise, "this fish meat is tender and delicious. There is no fishy smell at all, and it even has a faint fragrance ..." Ling Qingxue continued to ask, "ruofei, could this be another grass carp that you've developed with your new techniques?" Our Ling Ji restaurant wants to make a reservation!" Xia ruofei smiled bitterly. "We did use some of the new technology. However, we only kept a small amount. We kept it for ourselves." "What about the future? Didn't you clear out the fish pond over there? You have to rear fish, right?" Ling Qingxue didn't give up easily and continued to ask. "In the future, we should do some aquatic farming, right? However, they might not raise grass carp. " Xia ruofei shrugged his shoulders and said, "Qingxue, don't worry! If my Peach Blossom Farm has a new ingredient, I'll definitely give priority to cooperating with Ling Ji food and beverage, okay?" "That's more like it! That's interesting!" Ling Qingxue giggled. "Let's eat! You're thinking about work even when you're eating, aren't you tired!" Xia ruofei smiled. "Um ... I'll eat a few more pieces of fish. This fish is too delicious. Don't snatch it from me!" Ling Qingxue pouted. "Okay, okay, okay, I won't fight with you ..." Xia ruofei looked at Ling Qingxue with a pampering gaze and said with a smile, "don't let the fish bones get in your way!" "MMM ..." Ling Qingxue was too busy eating to answer Xia ruofei's question. Seeing that Ling Qingxue was eating with relish, Xia ruofei's heart was slightly moved. He found an excuse to get up and go to the kitchen. He quietly took out the spirit map scroll, then connected to the space with his mind. He concentrated his mind on the grass carp in the fish

pond in the space. Perhaps it was because he had practiced a few times before, but Xia ruofei was much more skilled now. It did not take long for him to successfully capture four grass carps. Xia ruofei found two small buckets and put two grass carps in each bucket. He poured water into the buckets and kept them in the water. He put one of the buckets back into the medium and went back to the dining room to eat. Naturally, Ling Qingxue was very satisfied with the food. In fact, every time she ate a meal that Xia ruofei made, she was very happy. On one hand, it was because the vegetables in Taoyuan were too delicious. More importantly, it was made by Xia ruofei himself, so it had a special meaning. After the meal, Xia ruofei took the initiative to go to Ling Qingxue's company to sign the official contract. Ling Qingxue had originally wanted Xia ruofei to take her car there, and even said that she would send him back later. However, other than going to the Ling's restaurant to sign the contract, Xia ruofei was also planning to visit Hu Zi's mother and Lin Qiao. Hence, he politely declined Ling Qingxue and decided to drive himself. Ling Qingxue pouted unhappily. However, when Xia ruofei brought out the two grass carp from the kitchen as a gift, she immediately turned from displeasure to joy and became happy again. A girl's thoughts were sometimes so difficult to guess. Perhaps the two fish were nothing, even if they were extremely delicious. However, the fact that Xia ruofei wanted to give her two fish meant something completely different to her. Xia ruofei called manager Li over and exchanged a few words with him. Then, he and Ling Qingxue drove their own cars and left the holiday villa. The two of them drove to the Ling Ji F & B headquarters located in the Nantai District. Ling Qingxue informed her father, Ling Xiaotian, on the way. Ling Xiaotian was also very concerned and personally went to the first floor to welcome her. While they were waiting, Ling Xiaotian kept pacing back and forth in the lobby on the first floor, causing the front desk girl to feel nervous. When she saw that the person Ling Xiaotian was waiting for was actually a young and handsome lad, and this lad was even walking in with the little princess of Ling Ji, chatting and laughing, the fire of gossip in her heart instantly burned. Could he be the Chairman's future son – in – Law? Naturally, the front desk girl did not know that Ling Xiaotian placed so much importance on it because of the peach blossom vegetables that Xia ruofei had. It was too important to the current Ling Ji restaurant. With the hundred catties of Taoyuan vegetables sold every day, the business of the Ling Ji's flagship stores skyrocketed. The average turnover was 40% higher than before. Ming Hao restaurant's rising momentum was suddenly suppressed. In some sense, Xia ruofei was the Savior of their company! Therefore, Ling Xiaotian also fully displayed the importance he placed on this matter. Not only did he personally go downstairs to welcome them, but he also gathered all the company's employees who were at least of the manager level and above and held a signing ceremony in the company's big meeting room. Even the staff in charge of the company's Journal came over with a camera to take pictures and prepare to publish a special issue in the company's internal Journal. Xia ruofei was not used to such a grand reception. After signing the contract, he declined Ling Xiaotian's invitation to dinner and left in a hurry. However, Xia ruofei did not go straight to Hu Zi's mother's house. Instead, he went to the seed sect's headquarters. Tao Yuan farm's construction period would be completed in a month at most. By then, they would have to start large – scale planting. Xia ruofei thought that since he was in the city, he might as well solve the problem of seeds first. When they arrived at the seed company, Xia ruofei picked out more than ten common vegetable seeds on the table. He ordered five kilograms of each. Before he came, he had roughly estimated that these seeds should be enough for the first round of sowing. Xia ruofei had chosen the best seeds and spent five to six thousand Yuan on them. To the seed market department, he was a big customer. Therefore, the manager personally received them with a very warm attitude. After Xia ruofei made the payment, the manager called for a few shop assistants to help Xia ruofei move all the packaged seeds into the pickup truck. Just

as Xia ruofei was about to leave, he suddenly had an idea. He turned around and asked, "Manager, do you sell ginseng seeds here?" Xia ruofei had long wanted to plant some valuable things in the realm, but he did not know what was more valuable. However, he knew about ginseng. He had been busy for a while and did not have time to spare. Since he was at the seed company today, Xia ruofei decided to ask about the situation first. The manager was stunned for a moment and then said, "Sir, of course we have ginseng seeds here, but ... This season is not suitable for planting ginseng! Moreover, the survival rate of ginseng is very low, so it's not easy to artificially plant it ..." Ginseng seeds were not cheap, and the manager had only reminded Xia ruofei out of good intentions. Xia ruofei laughed. "It's okay. I'll just buy some and plant them for fun. What's the best ginseng seed you have here?" "Our company has authentic Changbai Mountain ginseng seeds, but the price ..." The manager said. "The price doesn't matter, just give me half a catty!" Xia ruofei said without even asking the price. "Alright! Please wait a moment!" The manager quickly said. After a while, Xia ruofei left the seed company with a sealed plastic bag full of ginseng seeds. This half a catty of seeds cost him more than 600 Yuan, which was not cheap. However, Xia ruofei naturally did not care about this small amount of money. Once these ginseng seeds were successfully planted in the origin space, the benefits would be more than ten times or even a hundred times! Xia ruofei drove the pickup truck out of the seed company and came to a place with no one around. He parked the car and went to the back of the truck. He climbed into the back of the truck and fixed the cover on the back of the pickup truck. As long as one did not stick their head in to take a look, they would not be able to see what was going on inside the truck. Xia ruofei kept all the vegetable and ginseng seeds into the spirit map space. Then, he took out the other small bucket with the grass carp and some paradise vegetables and placed them in the trunk. Then, Xia ruofei returned to the driver's seat and continued to drive straight to Hu Zi's mother's house in the forestry Bureau.

Chapter 87: A warm dinner (1)

Xia ruofei parked his car at the family area of the forestry Bureau. He carried a small water bucket in one hand and a basket of Peach Garden vegetables in the other to the door of Hu Zi's mother's house on the third floor. He put down the water bucket and knocked on the door. Soon, the door opened. Hu Zi's mother was very happy to see Xia ruofei. "RUO Fei is here! Come in, come in ..." Xia ruofei bent down to pick up the water bucket and followed Hu Zi's mother into the house. Hu 'Zi's mother nagged, "you child, just come!" Why did he bring things? Aren't you treating Auntie as an outsider?" "Auntie, these are all vegetables that I grew myself. I also raised the fish with my friends. I brought them here for you and Qiao' er to try." Xia ruofei smiled and asked, "Auntie, how's your recovery?" Hu 'er's mother said happily, "I'm feeling great now!" I think he should have fully recovered ... Ruofei, that medicine of yours is really godly!" Xia ruofei was placing the vegetables in the kitchen. He poked his head out and smiled. "Auntie, I made some Chinese medicine yesterday and brought it to you today. Please eat for a while longer. " "I don't need to eat, right? I'm already fine!" Hu Zi's mother said, "it must be expensive to make this medicine, right?" Xia ruofei tidied up the vegetables and walked out of the kitchen. "It doesn't cost much. They're all common Chinese medicinal herbs." After he finished speaking, he took out the bottle of flower petal solution that he had prepared earlier and handed it to Hu Zi's mother. Then, he said, "aunty, you can continue to take it even if you're well." This liquid doesn't have any side effects. Not only does it cure diseases, but it also has good health. You can drink it without worry!" "Woof! Ruofei, thank you for your hard work!" Hu 'er's mother nodded in response. "Shouldn't I be filial to you?" he asked. Xia ruofei smiled and continued to ask, "Oh right, Auntie, is it Qiao' er's winter break soon?" "I think there's still two to three weeks left!" Hu Zi's mother said. "Oh! After the holidays, you

and Qiao'er can stay at my place for a while!" Xia ruofei said, "I've rented a small villa in Jianggang town. I've also bought some land to build a farm. The environment there is better than the city. Let's celebrate the new year together this year!" "Alright! I'll do the laundry and cook for you ..." Hu Zi's mother agreed happily. Xia ruofei smiled bitterly. "Aunty, you don't have to do the laundry or cook. You can just enjoy your life." "I can't stay idle. Isn't it good that I can help you with something?" Hu Zi's mother said. "Alright, we'll talk about it when the time comes ..." Xia ruofei said helplessly. The two of them sat down and started to chat. Hu Zi's mother told her about her and Qiao'er's life, while Xia ruofei picked out some of the things that he was busy with to tell Hu Zi's mother. The old and the young were having a good time chatting. When it was around four o'clock, Hu Zi's mother got up and went to the kitchen to prepare dinner. Xia ruofei naturally had to stay for dinner. Otherwise, not only would Hu Zi's mother not agree, Lin Qiao would also not agree if she came back and found out! Xia ruofei sat in the living room and watched TV. In no time, he could smell the alluring aroma of food coming from the kitchen. At this moment, the door opened. Xia ruofei looked up and heard Lin Qiao's voice before he saw her. "Mom! What delicious food did you make? It smells so good!" As she spoke, she took a pair of slippers from the shoe rack at the door and changed into them. When she walked into the living room, she saw Xia ruofei sitting on the sofa and smiling at her. Lin Qiao shrieked in surprise. She threw away her bag and pounced on him, shouting, "Brother ruofei!" Xia ruofei immediately felt a warm, fragrant, and soft jade in his arms. Lin Qiao hugged him tightly. The girls in the third year of high school were not children anymore. Lin Qiao had developed well and her body had a faint fragrance. Xia ruofei suddenly felt that it was a little too much for her. He quickly said, "Let go, let go ..." "No!" Lin Qiao chuckled. After saying that, she hugged him even tighter. Xia ruofei could only break away from her embarrassedly. If she hugged him any longer, his body would have a reaction. That would be embarrassing. Lin Qiao looked at Xia ruofei and asked, "brother ruofei, why didn't you come to see us for so long?" Xia ruofei smiled and said, "I was a little busy a while ago, so I'm here now." By the way, how are your studies? You didn't play any tricks, did you?" "What naughty! He's a good student!" Lin Qiao said, "your studies are good! The teachers are better than the teachers in our County middle school, and there are many top students among my classmates. I feel like I've improved a lot!" "That's good!" Xia ruofei said, "study hard. When you get into college, I'll give you a big gift!" "There's even a gift to receive!" Lin Qiao was overjoyed and quickly asked, "can you tell me what the gift is?" "You'll know when the time comes! It's definitely a surprise ..." Xia ruofei said mysteriously. "So you have to work harder!" You have to at least get into 211 school to get a present!" "Hmph! Don't look down on me. Although my Foundation is a little worse than my classmates, it's not impossible for me to get into the 211 exam with hard work." Lin Qiao puffed up her chest and said, "brother ruofei, just wait for your wallet to bleed!" "I can't wait for that!" Xia ruofei laughed. At this moment, Hu Zi's mother popped her head out of the kitchen and said, "Qiao'er, why do you keep pestering your brother ruofei the moment you come back? Why aren't you changing your clothes? Get ready to wash your hands and eat!" "I know!" Lin Qiao stuck out her tongue at Xia ruofei and said. Soon, Lin Qiao went back to her room and changed into a cute pink cotton – padded jacket. Then, she ran to the living room and chatted with Xia ruofei about school. She only stopped when Hu Zi's mother finished cooking and urged her to wash her hands. When Lin Qiao went to wash her hands, Hu Zi's mother said to Xia ruofei, "Ruofei, Qiao'er used to like to pester her brother and chat with him. Ever since Hu Zi left, she's rarely this happy ... Thank you!" Xia ruofei saw that Hu Zi's mother's eyes were red and quickly said, "Aunty, look at what you're saying. Hu Zi's sister is my sister. We're a family, what's there to be polite about? I'll come to visit you often in the future." Hu Zi's mother said, pleased, "it's enough that you have this thought." Young people should be busy with their careers. Just

come and visit when you're free ...” After Lin Qiao washed her hands, the three of them sat around the table and had dinner together. Hu Zi's mother's cooking skills were quite good, and the ingredients were all produced in the spirit map space. Qiao'er was amazed by how delicious the food was, especially the two grass carp. Even Hu Zi's mother was full of praise for the taste of the dish. Seeing the happy smiles on Hu Zi's mother and Qiao'er's faces, Xia ruofei couldn't help but think of Hu Zi's face and the last words he had said when the bullet hit him. “RUO ... Ruofei ... Help me ... Take care of my mom ... And my ... Younger sister ...” Hu Zi, don't worry! ‘I'm here for everything ...’ Xia ruofei said in his heart.

Chapter 88: Planting ginseng (1)

At around eight in the evening, Xia ruofei finally bade farewell to Hu Zi's mother and Lin Qiao's reluctant gaze. When he drove back to the holiday villa, he saw that the construction site was still burning through the night. The entire construction site was brightly lit by several strong lights. Large construction machinery was still roaring, and many workers were busy on the construction site. In order to complete the project quickly, Liang Qichao had ordered the entire construction team to work in three shifts to ensure that it could be completed before the Spring Festival. Manager Li had already gone back to rest, and a Deputy Manager was taking his place. After Xia ruofei parked the car, he went to the construction site and found the deputy manager. He asked about the progress of the project and thanked him for his hard work. Then, Xia ruofei took out another 1000 Yuan and asked the deputy manager to send someone to drive to Changping County to buy supper for the workers. The deputy manager had already been reminded by manager Li that Xia ruofei had a close relationship with Liang Qichao, so he thanked him repeatedly and patted his chest to assure him that he would ensure the quality and quantity and complete the construction task on time. Xia ruofei chatted with him for a while and then returned to the villa. He returned to his bedroom and locked the door and windows. Then, he summoned the spirit map scroll and entered the medium. After taking a deep breath of the air in the space, which was fresher than the outside world, Xia ruofei felt all his fatigue go away. The vegetable seeds and ginseng seeds that he had bought in the afternoon were neatly stacked on the space. Xia ruofei's control of the spirit map space was getting better and better. He could store items directly into the space from the outside and also accurately control where they would appear in the space. The vegetable seeds were not needed for the time being. Xia ruofei picked up the plastic bag containing the Changbai Mountain ginseng seeds. Before this, Xia ruofei had done some research on ginseng cultivation techniques. He felt that the information he found online was too complicated. Even if he followed the instructions strictly, the survival rate was very low. Therefore, he decided to do it his own way. This was also because he had great confidence in the spirit map space. He found a large plastic bucket and poured half of the space spirit pond water into it. Then, he took the preservation box containing the petals of the strange flower, which contained the eleven petals that had been stored over the past few days. Xia ruofei picked up one of the flowers with a pair of tweezers and threw it into the plastic bucket. If these ginseng seeds could grow successfully, they would be worth a lot. Hence, Xia ruofei had to spend a lot of money and used an entire flower petal. As soon as the flower petal entered the spiritual pond, it immediately melted without a trace. Xia ruofei was still worried. He found a stick and stirred the flower petal solution in the plastic bucket evenly. Then, he opened the plastic bag and poured all the Changbai Mountain ginseng seeds into the plastic bucket. He began to soak them. Then, Xia ruofei left the medium and allowed the seeds to absorb the essence of the petals. He went to the bathroom to take a shower. It was almost time, so he entered the space again. Xia ruofei picked up all the ginseng seeds that had been soaked in the plastic bucket. He didn't do as the internet said, but instead, he found a piece of land on the

periphery of the space. After the space evolved, there was a large amount of open land on the periphery, so he scattered the ginseng seeds. Then, he dug up some soil from the side and covered the seeds evenly. He didn't waste the small half bucket of solution. He poured it into the watering can and poured it all into the field. After that, Xia ruofei decided not to take care of the ginseng anymore. He had already given the ginseng seeds the best conditions. If not all of them survived, then there must be a problem with the seeds themselves. Besides, Xia ruofei did this because he wanted to simulate the wild environment to the greatest extent and improve the quality of the ginseng. Then, Xia ruofei walked around the space. He picked the ripe vegetables and stored them. He checked the grass carps in the fish pond and the red Arowana in the small pond. They were all growing very well. The oxidation level of the Phoebe zhennan wood had increased again, and golden threads were already faintly visible. The mother succulent plant had been fully restored. The new succulent seedlings that were left in the pots had also grown to the point where they could be cut with the help of the unique environment and the petal solution. Xia ruofei decided to start a new round of cutting the next day. However, this time, he had to make a good plan and split it into several batches. The batch of mother plants that had grown from the latest succulent seedlings would be placed in the last batch for cutting. In the next few days, other than providing food for Xi Jiang Yue and Ling Ji, Xia ruofei would walk around the construction site and check on the progress. In addition, he carried out a new round of cutting breeding on the succulent mother plant. After a few days of rest, he put the first batch of succulent seedlings on the internet for sale again. He also put up an announcement to inform all users that if there were no special circumstances in the future, the frequency of new updates would be reduced to once every five days. This news naturally attracted many high – end players to spread the news, and it quickly became a hot post on Baidu's succulent bar. Naturally, the sales were as hot as ever, and they were all sold out within a few minutes. After all the succulent seedlings were sold, Xia ruofei would earn another 100000 Yuan. And this was only the first batch. In the future, there would be another batch every five days. In total, they would bring in 600000 Yuan a month. In addition to the 300000 Yuan from Taoyuan vegetables, Xia ruofei could earn at least a million Yuan a month from these two items. After making a rough estimate of his income, Xia ruofei's mind started to wander again. Now, he had enough money to pay for the project, and he still had some balance. Moreover, the two million or so construction funds did not need to be paid in one go, but in installments. The rest of the payment would only be paid after the construction was completed and the project was accepted. The entire construction would take about a month. And in this month, Xia ruofei could earn another million. He had set his mind on the 70cm Phoebe zhennan tree that he had heard about last time. Now that the funds were basically guaranteed, it was better to buy it now, in case of any trouble! If this dragged on for a while, the nanmu would be cut down, or someone else would get there first. It would be difficult to find such a suitable nanmu again. Hence, Xia ruofei immediately gave Liang Qichao a call. "RUO Fei! Is there something you need?" Liang Qichao said enthusiastically, then asked, "could there be a problem with the project?" "No, no, brother Liang. The construction team you sent is very good, and manager li is very responsible. I don't have to worry about anything." Xia ruofei smiled and said, "I'm looking for you today because I need your help with another matter." "Oh? If there's anything you need, just tell me. As long as I can do it, I will definitely do it!" Liang Qichao said. Xia ruofei thought for a while and said, "it's like this, brother Liang. Last time at your place, didn't we talk about Phoebe zhennan wood?" You said that you found a 70cm – thick Phoebe zhennan wood when you asked someone to look for it. I want to ask you if you can help me contact it? I want to buy it!"

Chapter 89: Golden nanmu in hand (1)

"Why are you suddenly interested in the Phoebe zhennan wood?" Liang Qichao asked with a smile. "I don't want it, it's a friend of mine." Xia ruofei replied, "the friend who sold you the White – skinned lunar realm." When we were chatting today, I casually mentioned the Phoebe zhennan and he was very interested in it and wanted to buy it. " At the crucial moment, this 'friend' could save Xia ruofei a lot of trouble. When Liang Qichao heard that it was Xia ruofei 's' friend 'who had the highest quality of meat, he immediately regarded him with even more importance. He said, "so it's your friend who wants it!" No problem! I'll contact them immediately. As long as they haven't sold it yet, it shouldn't be a big problem. " The Phoebe zhennan was a rare tree species, so it was definitely not something that could be sold openly. However, Liang Qichao naturally had his own ways. Xia ruofei continued, "brother Liang, my friend wants to transplant the whole tree. If the tree has been cut down, he won't want it." "Then I'll quickly ask!" "This thing is very valuable," Liang Qichao said quickly. "The villagers might chop it up and sell it if they find out." Xia ruofei said, "okay!" I'll have to trouble you then, brother Liang. You can make the decision for me and negotiate the fees!" Liang Qichao was still thinking about this matter, so the two of them hung up the phone without talking much. After a while, Liang Qichao called. Xia ruofei heard his excited voice as soon as he answered the call. "Ruofei, I've asked around. That tree is still there!" Then, he said with lingering fear, "But this matter is really mysterious! The villagers of that village are really preparing to secretly cut down the trees to exchange for money. Fortunately, I asked in time!" "That's good!" Xia ruofei heaved a sigh of relief. At the same time, he was glad that he had made this decision early. Liang Qichao continued, "I've talked about the price as well. They're insistent on 800000 ... But the price is only slightly higher than the market price. It's still acceptable. After all, the price of the Phoebe zhennan is rising every day. It's definitely not a loss to buy it!" Xia ruofei said without hesitation, "I'll take it!" Brother Liang, I'll transfer 800000 Yuan to your account immediately. Please help me deal with this matter! As for the transportation fees, I'll pay you back later!" "Alright! Don't worry, leave it to me!" "That's right," Liang Qichao said. "Send me your friend's address. I'll get them to send it over." "Just pull him to my holiday villa!" Xia ruofei said, "we'll handle the rest by ourselves!" "Alright!" Liang Qichao said. Precious trees like the Phoebe zhennan were not allowed to be sold in public. However, Liang Qichao had his own channels, so he agreed readily. He was quite happy to do Xia ruofei's powerful friend a favor. After hanging up, Xia ruofei immediately drove to Changping County and transferred 800000 Yuan to Liang Qichao's company account. In the next few days, Xia ruofei spent his time waiting. Other than going into the medium to take care of the succulent and red Arowana, he would wander around the construction site. Xia ruofei was filled with satisfaction as he watched his farm take shape day by day. Ling Qingxue had also come to look for Xia ruofei twice. Since the last time they met, the "first kiss storm" seemed to have passed, and the two of them got along very naturally again. In front of Xia ruofei, Ling Qingxue was like a completely different person from her usual cold self. Not only was she very talkative, but she also liked to smile very much. Xia ruofei's one sentence would often make her tremble. Her smile was very infectious. When Xia ruofei was with her, his mood unconsciously became happy. On the afternoon of the fifth day, the Phoebe zhennan wood that Xia ruofei had been looking forward to finally arrived. A container truck drove to the entrance of the villa. A tall man in his late twenties alighted from the truck and shook hands with Xia ruofei, who had come down to check on the situation. "You must be Mr. Xia? Our President Liang asked me to bring this nanmu to you. " Xia ruofei was overjoyed to hear this. He quickly asked manager Li to find some workers to unload the thick Phoebe zhennan wood from the truck and place it in the villa's courtyard. Because this nanmu was quite valuable, some small branches that were cut off for the convenience of transportation were also transported with the truck. The workers also unloaded the branches from the car. The tall man said to

Xia ruofei, "Mr. Xia, this tree has already been transported for more than three days, so if you want to transplant it, you may have to hurry." This nanmu did look a little listless. Many of its branches and leaves had already wilted, and it looked very dispirited. "Alright, thank you!" Xia ruofei said with a smile. The tall man said a few polite words and bade Xia ruofei farewell. He got on the container truck and left the villa. Manager li and the workers were all gathered around the Phoebe zhennan wood, looking at the thick tree with great curiosity and whispering. Xia ruofei thought for a while and went back to the villa to lock the door. Then, he entered the spirit map space and fetched a bucket of spatial spirit pool water. He then resolutely took out a strange flower petal and put it into the water. Then, he left the space with the bucket. After keeping the painting, Xia ruofei carried the bucket back to the yard. Manager li urged the workers to go back to work. Xia ruofei thought for a while and stopped manager li. "Manager li, everyone has been working hard these past few days, so let's not work overtime tonight and let everyone relax! It doesn't matter if the deadline is a day earlier or a day later." Actually, Xia ruofei wanted to deal with the Phoebe zhennan wood at night. If there were people at the construction site all night, it would be inconvenient. Since Xia ruofei had said so, manager li was naturally happy and relaxed. He repeatedly expressed his gratitude and went to the construction site to supervise the workers. Xia ruofei locked the door and walked around the nanmu with a bucket of water. He sprinkled the petal solution on the leaves and then poured the remaining half of the bucket on the roots of the nanmu. He was finally relieved. He believed that with the petals of this strange flower, this nanmu tree worth more than 800000 Yuan would not die before it was transplanted. Xia ruofei returned to his bedroom upstairs and looked at the nanmu in the yard from the balcony. For the time being, he could only leave it there. He could only start to work when the workers went back at night. Xia ruofei thought for a while and entered the spirit map space in his bedroom. He carried a shovel and a hoe to the place where he had scattered the ginseng seeds. Now, the ginseng seeds had all sprouted, and they had grown into inch – long seedlings, scattered sparsely in the area. Xia ruofei found an empty space next to the ginseng seedling and dug a big hole. He was going to plant the Phoebe zhennan next to the ginseng. After the Phoebe zhennan had survived, the area of the crown would be huge. By then, it would definitely be able to cover the ginseng's growing area and create better conditions for the shady ginseng to grow. All they could do now was wait. The workers left work in the evening, and the construction site soon quieted down. Xia ruofei patiently waited until the second half of the night. When the workers on duty at the construction site were all asleep, he went downstairs to the courtyard. The Phoebe zhennan tree, after being nourished by the petal solution, was much more energetic than when it was unloading the truck. Xia ruofei summoned the spirit painting and placed it gently at the side. Then, he grabbed the Phoebe zhennan wood with both hands and started to connect with the space. He was also very nervous after Yingying obtained the space. He had never tried to send such a big guy into the space directly. Although the realm had evolved a few times and Xia ruofei had been absorbing the petal solution continuously, his mental connection with the realm had become much closer. However, he was still not confident. However, Xia ruofei had no other way out. He could only try. He took a deep breath, made up his mind, and sent a command to the space ..

Chapter 90: prospered_1

The 70 – centimeter – thick tree trembled at first, then disappeared into thin air with a Swoosh. Xia ruofei's face turned pale and his head was in so much pain that it felt like it was going to split open. It was as if thousands of needles were being inserted into his head at the same time. He felt as if his entire body had been hollowed out. His entire body swayed a few times and was on the verge of collapsing.

This was a sign of mental exhaustion. Xia ruofei quickly kept the painting in his palm. He held the wall with one hand and took out a bottle of mineral water from his pocket with the other. Inside was half a bottle of the spatial spirit pond water that Xia ruofei had prepared in advance. It was filled with the petal solution. Xia ruofei opened the bottle cap and gulped down half a bottle of water. Only then did he feel his energy slowly recovering. He had no doubt that if he didn't take the petal solution immediately, it would cause permanent damage to his brain. Xia ruofei rested for a while before he fully recovered. He couldn't help but feel a lingering fear that Youyou would really act according to her own abilities in the future. Today's actions were really a bit risky. However, Xia ruofei believed that with the evolution of the realm and his continuous absorption of the petal solution, he would be able to easily transport the nanmu in the near future. Xia ruofei checked his condition and felt that there was no problem. He could feel that the overexertion this time had strengthened his connection with the space. However, Xia ruofei did not dare to try again. He would rather improve gradually and steadily. He returned to the villa, went straight to the bedroom, and locked the door and windows. Then, he summoned the spirit painting from his palm and entered the space. When Xia ruofei was sending the Phoebe zhennan into the space, he could only control the position of its appearance as it was too big. After entering, Xia ruofei took a look and felt very lucky. The Phoebe zhennan wood had basically fallen into the big pit that he had dug in advance according to his instructions, but it was slightly tilted. If it had fallen somewhere else, it would have crushed the things in the space and Xia ruofei would have to move it back into the hole. Even in this situation, Xia ruofei had to put in a lot of effort. He had even built a simple pulley mechanism to straighten the big tree. Xia ruofei found a few thick wooden sticks to support the Phoebe zhennan tree and then filled the hole with soil. Then, he poured some water from the spirit pond in his space and a bottle of petal solution that he had prepared. These few days, Xia ruofei's flower petals had been used up very quickly. Now, he only had six petals left. However, these expenses were worth it. In the future, it would produce hundreds or thousands of times the benefits. Moreover, he could harvest five petals every three days. As long as he saved them, it would be enough. Xia ruofei left the medium. When he was about to take a shower and sleep, he suddenly thought of the branches that he had cut off from the Phoebe zhennan tree in the courtyard. He had an idea and quickly went downstairs to the courtyard. He kept all the branches into the spirit map space. Compared to the entire golden Phoebe zhennan tree, collecting these branches was naturally as easy as blowing off dust. Then, Xia ruofei returned to his bedroom and entered the medium again. He picked out the slightly larger branches one by one and counted more than 20. Then, Xia ruofei dug a hole in the open space outside the interspace and inserted the selected branches into the soil one by one. Then, he got some water from the spiritual pond and watered them one by one. If it were in the outside world, the cutting would not have been successful. Even in the medium, Xia ruofei was not confident, so he did not waste the precious petals. His idea was simple – those branches were lost anyway, and if one or two of them survived, it would be a profit for him. Even if none of them survived, he wouldn't lose anything! Xia ruofei threw the remaining small leaves under the big nanmu tree. They would soon rot and become nutrients for the nanmu tree. It could be considered that the leaves had returned to their roots. For the next half a month, Xia ruofei spent most of his time in the villa. Other than providing vegetables to the two families, he would walk around the construction site and take care of the various plants and animals in the interspace. During this period, Xia ruofei carried out three more batches of cutting and breeding. Every five days, he would put new succulent seedlings on the internet to sell, but they would be sold out every time. Half a month in the outside world was almost a year in the medium. Now, the space was thriving. The Phoebe zhennan tree had long survived and had even grown a circle. Now, it was full of leaves and

branches. What surprised Xia ruofei even more was that the twenty or so branches of the Phoebe zhennan that had been casually planted in the soil of the space had all survived and were growing quite well. This also made Xia ruofei reevaluate the value of this spirit map space. The vegetables were picked one after another, needless to say. The fish in the space fish pond had grown to more than three catties. Even if time was not taken into account, the growth rate was still quite amazing. The precious Red Arowana had already grown to nearly 40 centimeters, and its scales had all turned pure red. It was very pleasing to the eye as it swam in the small pond. This Red Arowana was a female and had basically reached the adult stage. In order to match the red Arowana, Xia ruofei even made a trip to the seafood market. He was quite lucky. There was a store that was selling a Red Arowana of similar size. Xia ruofei spent more than 20000 Yuan to buy this fish. There were already two red Arowana in the small fish pond in the space. However, the one that was let in later was not as good as his “wife” in terms of the purity of its scales or its spirit. However, Xia ruofei believed that this male fish would grow better and better in no time. The piece of Phoebe zhennan wood placed in the space had also been completely oxidized. Beautiful golden threads appeared on the wood, and under the light, these golden threads connected together like golden clouds. It was obviously a top – grade piece of Phoebe zhennan wood. Just this small piece of material alone was worth at least 100000 Yuan. This gave Xia ruofei more confidence in planting the Phoebe zhennan in the medium. In the outside world, Xia ruofei’s Paradise Farm had already taken shape. Eight huge modern film greenhouses were being built at the same time. The roads in the farm were also beginning to take shape, and the orchards in the back mountain were also being developed. The laying of various pipelines, the construction of fences, the greenery in the field, and the construction of fish ponds were all progressing steadily. At this rate, there would be no pressure to deliver it before the Spring Festival. There were more than 20 days until the Spring Festival. Xia ruofei remembered that he had not visited professor Tian for a long time and decided to go to the city. It was also a courtesy visit before the Spring Festival. So, after calling professor Tian, he picked up some vegetables from the space, went to the fish pond in the space, and caught a few carps that weighed more than 1.5 kilograms. He then drove the pickup truck straight to San Shan city. Xia ruofei, who had been here once before, drove to professor Tian’s house with ease. He easily lifted the 20 – 30 pound vegetable basket in one hand and the koi tied with a straw rope in the other and came to the front of the courtyard. He put down the vegetable basket and rang the doorbell. After a short while, Xia ruofei heard the sound of hurried footsteps. After the metal door opened, Xia ruofei saw Tian Huilan’s daughter, Lu You. After seeing Xia ruofei, the joy on Lu You’s face instantly turned into shock. After a while, she furrowed her brows and said, “Why are you here?”
