

Godly Choice 2281

Chapter 2281: Hundreds of Billions Gamble

94 points of favorability!

It means that he can hug Xiao Mingzhu directly at the right time to kiss, love, speak some lingering love words, stick to his cheeks, as long as he does not cross the last line, this peerless girl will hardly object.

Could it be that the Bingling Sword was specially given to her by the system?

Li Yun looked at Xiao Mingzhu suspiciously. The latter gave him a sweet and bright smile, which was so beautiful that it made Li Yun, a person accustomed to seeing beauties, couldn't help but move his heart.

Xiao Mingzhu's beauty is different from any beauty around him.

It is a perfect princess who is sunny, cheerful and generous, and can make people feel comfortable with a smile!

If Fang Xue is everyone's ideal candidate for schoolgirl girlfriend, then Xiao Mingzhu, she is the peerless beauty among boys watching idol movies and TV series!

"What's the matter? Are you silly?" Xiao Mingzhu smiled, and people like Li Yun would also look at her fascinated? It's really rare! It turns out that my beauty is enough to attract this playboy~ hee hee.

"Ah! Let's play something else."

Li Yun turned his head to look at Yan Jingyi, and smiled slightly: "I heard that the Yan family's assets also have one or two hundred billion. I wonder if you dare to use it for fun?"

There were many people in the crowd who could understand Chinese, and they helped translate it to the others, so after Li Yun said the amount of money to gamble, everyone was stunned.

One or two hundred billion, or tens of billions of dollars when converted into US dollars, is definitely the largest amount of gambling ever experienced in this cruise casino!

"So big?!" The casino manager was ecstatic at first, so much money, just drawing achievements can make hundreds of millions!

But it soon occurred to me that these funds cannot all be traded through the casino, and it may not be possible to bet!

"Hehe, what's not to dare." Yan Jingyi sneered and raised his hand. A waiter immediately came with a tray and took out a glass of red wine from it. After drinking it all, he threw it to the ground.

"Li Yun!"

Yan Jingyi squinted his eyes and said with a drunken mouth: "I am very interested in your Baiyun technology, do you dare to gamble again?"

"Hehe, what can't you dare?" Li Yun replied with the same words, "After several equity dilutions, I currently hold 21% of Baiyun Technology's shares and hold more than 50% of the voting rights. The market value is 500 billion. Going up, do you agree with this valuation?!"

"500 billion!!!"

The onlookers exclaimed, and they realized that the yellow-skinned young man in front of them was the one who almost overturned the share prices of global technology companies with their own efforts!

About a month ago, Baiyun Technology announced the launch of epoch-making automatic navigation and mobile phone artificial intelligence in a shocking posture, directly knocking down the global automotive, technology, mobile phone and other related industries by more than 30%.

Some companies with serious impacts even tilted their stock prices down, plummeting by 80%, and decades of hard work were done!

Had it not been for countries such as M and Gullmen to announce sanctions against Baiyun Technology and prohibit products from Baiyun Technology from appearing on the market, I am afraid that these companies could directly apply for bankruptcy.

"You are actually the chairman of Baiyun Technology, Mr. Li Yun?!" Now in his forties, the casino manager from Country Y stared in shock.

What is the concept of a net worth of 500 billion?

The entire oasis-class Ocean Princess has a top sky of 10 billion. The Carnival Cruise Line has 25 cruise ships of various sizes, and the company's valuation does not exceed more than 200 billion.

In other words, this young man from Huang Xuanguo can buy two Carnival Cruise Group companies alone!

Chapter 2282: Baiyun Technology

"It's me." Li Yun replied lightly, making everyone around him quiet.

After learning his identity, everyone seemed to feel an inexplicable aura radiating from him.

This is the terrifying force that belongs to the top rich, able to shake the global capital with one person, it is awe-inspiring and awe-inspiring!

"I will pretend to be a wolf with a big tail!"

Jin Liuli murmured, and shouted at Yan Jingyi: "My husband took out the gambling money, what about you? What are you going to use to gamble with my husband?"

After three days of playing around, Jin Liuli can now yell out my husband, my husband, my husband~ and so forth generously. After all, her begging for mercy won't work if you don't say these charming words.

"I'm pressing on the Yan family's jewelry chain group!" Yan Jingyi said with a sullen face, looking at Xiao Mingzhu. He doesn't expect to get the attention of the beauty now. He just wants to let her know after he controls the cruise ship. Call regret!

"Xiao Mingzhu!" Yan Jingyi said indifferently: "You should be very clear to my jewelry group, there is no problem with the valuation of 200 billion, right? Humph!"

Xiao Mingzhu smiled faintly: "200 billion? You are talking about five years ago? Now your family has been in a state of shrinking year after year due to poor management. Last year's profit was only less than one billion. This is for a jewelry company. Say, it has reached a precarious point!"

Ordinary companies with only 1 billion profits can support a market value of 100 billion, even in a state of loss, but for high-end luxury goods, a profit of 1 billion is fatal!

Xiao Mingzhu even has reason to suspect that Yan Shengrong, the proprietor of the Yan family, would take the risk and seek refuge in the six gates precisely because the family industry was in crisis!

Yan Jingyi's face was extremely ugly, Xiao Mingzhu glanced at him lightly, and slowly said: "Your family is currently valued at up to 70 billion yuan. Don't be convinced. Yan's jewelry has never been valued at more than two thousand. The outside world only gives A valuation of 150 billion, right?"

"What about him?!" Yan Jingyi fingered Li Yun coldly!

"Are you kidding? Just because you want to compare with Li Yun?"

The corners of Xiao Mingzhu's beautiful mouth curled up, revealing a smile: "Baiyun Technology is now valued at two trillion yuan, who would say more? Li Yun owns 21% of the shares, plus 50 voting rights, and 500 billion yuan is hanging on the market. They will be snatched wildly, do you believe it?"

People around them started to express their opinions after learning about the conversation between the two.

"Baiyun Technology is more than two trillion!"

"Hey, Huang Xuanguo's company is simply a freak. Why can they launch such excellent technology?"

"Mobile artificial intelligence, this alone is enough to value two trillion yuan, right?"

"Yes, yes, I can't live without it now! You see, it can also translate Chinese in real time, and it doesn't take you to verbally tell their conversations!"

"OMG, this is fine too?!"

Hearing that the artificial intelligence released by Baiyun Technology can translate conversations in real time, a group of onlookers took out their mobile phones, clicked on them, or downloaded the one that spread to the world and occupies the top three software download lists.

After personally experiencing the power of real-time translation, everyone no longer doubts that Li Yun's net worth is worth 500 billion!

"Then seventy billion!"

Yan Jingyi's face became even darker when everyone looked at it with joking gazes.

"Wait." Xiao Mingzhu smiled again: "You are just Yan Jingyi, not Yan Shengrong. You can't overwhelm the entire Yanjia Jewelry Company, so how much you can get is still to be discussed!"

Chapter 2283: Bargaining chip

Yan Jingyi's face turned black into the bottom of the pot.

"Hehehe." Jin Liuli chuckled, "There should be one billion, right? If you don't even have this, why are you so arrogant? Is it because of a thick-skinned face?"

"Shut up!"

"You told me to shut up? Begging!"

Jin Liuli was about to grab her whip from her waist unceremoniously, but Xiao Mingzhu stopped it with her eyes. Surprisingly, Jin Liuli also listened to her, which surprised Xiao Mingzhu.

"Ten billion!" Yan Jingyi said coldly: "I have 5% of the shares, plus my money, I will use 10 billion to bet with you!"

"Yes." Li Yun nodded, looking at Xiao Mingzhu.

"The little girl doesn't have much money, it can cost 50 billion~"

Xiao Mingzhu winked at Li Yun playfully, "I'm not as rich as someone. I won't say how many shares I have. Anyway, as my Xiao family's eldest lady, 50 billion chips are not too much, Yan Jingyi, you Recognition?"

"Humph!"

Yan Jingyi just snorted coldly.

Wanyuan Real Estate Group has a market value of several trillion, and Xiao Mingzhu is the only heir to the Xiao family. Even if she lost hundreds of billions at the gambling table, her father had to fish her out.

Li Yun looked at the casino manager and asked, "You should have a notary office here? Come and be a notary for us. Whoever loses will have to hand over the shares of their respective companies and various real estate mortgages."

The gamblers in the casino can lose all their domestic net worth because this notary office can directly sell the gamblers' domestic industries through gifts, contracts, contracts and other methods.

In other words, when you step into the casino, you may be the chairman of a listed company with a net worth of tens of billions and a listed company of hundreds of billions.

But after stepping out of the casino, you can become a pauper who even mortgages your home!

So poor that even his wife mortgaged it!

"We have the most professional lawyers." The casino manager replied with a proud face, but bowed his head modestly.

"Oh, let's start chanting!" Jin Liuli slapped her little hand and urged her to enter the casino to watch a show, which is also a must-have experience for a female hero~. This time she really made a profit.

"Wait, there is one other person whose chips have not been revealed."

As Li Yun said, everyone looked at Nelson, and the latter's face suddenly fell into tears.

"God, no, Brother Li!"

Nelson spoke blunt Chinese, and pointed to the pile of chips on his table crying without tears: "I only have these. Kari still has five million, not one hundred million. I don't think I will talk to you... .."

"Sell yourself."

"what?"

"Sell your future life!"

Li Yun glanced at him faintly: "As far as your IQ is concerned, you are still 30 years old this year, right? If you can live to 80, you have 50 years of life, one year. Converting two hundred million, a total of ten billion chips, Yan Jingyi, Mingzhu, what do you think?"

"Yes." Xiao Mingzhu said with a smile: "Black Satan makes 200 million U.S. dollars a year easily."

"Humph!"

Yan Jingyi snorted coldly, this ***** really has the information of everyone around him! No wonder people around him have been arrested in the past few days.

Yan Jingyi can think of what Li Yun and Xiao Mingzhu want to do without guessing.

but!

As long as they survive today, these people will all have to die! Xiao Mingzhu can only surrender under him from now on!

These ***** guys, let you be proud now!

"Fifty years... ten billion."

Nelson opened his mouth and wanted to object, but where should he object?

Chapter 2284: Golden chips

He originally wanted to seek protection from God, but now he is exporting his life of fifty years, seems to be just right?

No, is this the reason why God specially let him participate in this gambling game? !

"I understand!"

Nelson slapped his thigh and everyone looked at him in surprise.

"What is this guy's name, Black Satan, is he really not afraid of being beaten to death? However, earning 200 million U.S. dollars a year is pretty amazing!"

"Wait, why do I seem to have heard the name Black Satan?"

"My Cao! The artificial intelligence of my mobile phone reminds me that this guy is a big wanted hacker!"

"Black Satan, the boss of the Demon Legion! He is now wanted by more than 35 countries and offers a reward of up to 500 million!"

After knowing Nelson's identity, the scene was quiet for a while, and then someone shouted: "500 million bounty!"

Nelson shuddered. He didn't need to look at him. He knew that everyone around him was staring at him with fanatical gaze, and he wanted to jump on him and catch him.

After all, as long as you contact the international policeman, you can get 500 million US dollars. Who doesn't want to do such a good thing?

"Quiet!"

Li Yun drank in a deep voice, and a clear voice spread all around, and the casino suddenly became quiet.

"Ding, trigger the option event, please choose from the host:

Option 1: Without using anything beyond the abilities of ordinary people, get the final victory in the gambling game (win the chips of three people), reward experience value + 10 million, intelligence + 20,000, golden gift bag*3, Xiao Mingzhu's favorability +1, additional bonus skills: God of Gamblers (God-level skills).

Option 2: Help Xiao Mingzhu win (return Nelson and Yan Jingyi's chips to zero), reward Xiao Mingzhu's favorability +3, other rewards to be determined.

Option 3: Lose the game, reward skill: idle. "

Option 1 directly reward god-level skills?

Li Yun was a little surprised. He chose the first item, but he didn't respond. It seemed that the extra rewards had to be awarded after winning, not for him early.

Otherwise, with the skills of God of Gamblers, it would be much easier to win three people!

"Let's start, bet on 21 o'clock, no one opposes?" Li Yun sat in his seat and looked around the three players sitting at the table.

No one objected.

The onlookers temporarily suppressed the idea of catching Nielsen, and waited for the gambling of more than 100 billion yuan to begin. After they calmed down, they all guessed that the identity of the Yun four was not simple, and Nielsen could not catch it if he wanted to.

"Three gentlemen, and this beautiful lady, these are the casino chips for big bets, please see!"

The manager lifted a beautiful box from the plate held by the waiter, placed it on the gaming table and opened it. In an instant, everyone felt a golden light burst out.

It's full of golden chips!

"My goodness!"

"A bargaining chip made of all gold, a long experience!"

"Ohmygod!"

"This chip is worth a million, right?"

"One million? Are you kidding? At least ten million!"

The two big blonde girls who had previously adhered to Nelson widened their eyes directly after seeing the pile of golden chips, and their breathing became rapid.

They have worked in casinos for many years and have seen golden chips no more than three times. Each chip is equivalent to one million dollars!

In other words, if their dears win the game, and then a few golden chips are put into their D+ capital, or their mouths, then they can become multimillionaires!

"My dear, you must come on!" The two blonde beauties trembled with excitement, and hoped that Nelson would win this special bet more than anyone else!

Chapter 2285: As dowry

"One bargaining chip is waiting for the same million? It's too little, right!"

Standing behind Li Yun, Jin Liuli looked at the hotel manager and said with a grin: "My husband has 500 billion in capital, doesn't it mean that there are too many chips to fit on the table?"

There was Huang Xuan in the crowd, so Jin Liuli knew about these things.

"No." The casino manager who is proficient in more than a dozen national languages explained: "These golden chips do not set any equivalent amount. It is up to the guests and you to set the value of a chip."

"So that's the case." Xiao Mingzhu suggested: "That one chip is equivalent to 100 million yuan. Huang Xuanguo's money is not converted into US dollars."

Jin Liuli nodded in agreement, "This is almost the same, then start chanting? Hehe, Miss Pearl, you have to be careful, don't let the big bad guys win all the money!"

Xiao Mingzhu chuckled, "Liu Li, you can call me Mingzhu. As for winning it, it doesn't matter. Just treat it as...well, Li Yun, what do you think it is?"

"dowry."

"Huh? Puff, hahahaha!"

Xiao Mingzhu smiled very happily, her brows and eyes were so beautiful, she didn't know if it was because of Li Yun's joke or because of the word'dowry'.

"Pervert!"

Jin Liuli muttered and squeezed Li Yun's shoulders, squeezing and squeezing, her little hand squeezed hard!

"Ahem!"

Li Yun endured the shoulder pain and turned to look at the manager: "Let's start distributing the chips."

Friendship rating of 94 is indeed extraordinary. Xiao Mingzhu is not angry even making such a joke. Can you vaguely tell that she is actually very happy?

"The four, please sign a statement first."

The casino manager greeted several lawyers to come up. They each held a contract statement. Li Yun took it and looked at it. It was roughly the agreement on the gaming table was valid, guaranteed by a certain institution in country M, and legally certified by country M, etc. Wait.

I have to say, backed by a powerful country like Country M, even the casinos are so hard-headed, not afraid of guests going back!

The casino manager explained: "After signing this agreement, the person who loses will pay the full amount later, otherwise a gift statement will be signed, and all the property in his name will be given to the winner."

The gift statement is not a contract. As long as it is signed voluntarily, the laws of all countries in the world recognize this gift agreement.

Li Yun nodded, and took the pen to sign his name.

The manager's heart jumped sharply.

As long as Li Yun loses at the gambling table, Baiyun Technology will almost certainly be transferred. Of course, it is impossible to fall into the hands of foreigners. Huang Xuanguo will save it to Xiao Mingzhu or Yan Jingyi at most!

But even so, the position of chairman of a company with a market value of several trillion yuan is so bound by a contract. This wonderful feeling is still exciting.

The others also signed their names one after another.

The manager accepted the contract with satisfaction, and explained: "Several guests, you should understand that our casino did not immediately investigate your respective identities. That is to say, if your identities are fraudulent, there is not enough money to pay for the lost money. , Then this bet is all void!"

He took a special look at Nelson and pressed such a ridiculous bet in the second half of his life. If it were a casino, of course he would not be exchanged for any chips.

But all this is a gambling game between the guests, so the manager doesn't care. They say that if you give Nelson one hundred chips, the manager will give him one hundred!

"Understand." x4

"Then, the gambling officially begins!"

Chapter 2286: Blackjack

At the sign of the casino manager, a beautiful croupier in her thirties stepped forward to explain the rules and deal with cards.

"Blackjack (blackjack, that is, 21 points), this bet is a no-banker mode, the A card is counted as 1 point, J, Q, and K are all 10 points, and the player's points closest to 21 points are the winner. All the chips, if the maximum points are the same, the chips will be divided equally."

None of the four had any opinion.

The rules of blackjack gameplay are simple. The winner can be divided into two or three rounds of cards, and elementary school students can easily understand the rules.

But it also wins in the simple rules and numerous difficulties that have won the love of countless gamblers around the world.

You see, even Jin Liuli, who has never been exposed to this kind of gameplay, immediately understood after listening to Li Yun's explanation. Her little face was so excited that she wanted to play in person.

"The first round, start!"

The croupier drew out the big and small ghosts under the watchful eyes of the four of Li Yun, shuffled the cards, and then dealt two hidden cards to the four.

Hidden cards are cards that are not shown to others.

According to the regulations, a person can only have one hidden card, and he can freely choose which one to reveal.

"7!"

After seeing the two cards, Xiao Mingzhu's two slender, white fingers clamped a card and showed it in front of everyone with a smile, then put it down and pressed it on his hidden card.

This is the most exciting part of blackjack. You never know what other people's hidden cards are. You can't know your own win or loss before someone else has a hidden card.

Of course, if one's own card explodes (that is, if the number of points exceeds 21 points, in English, Bust), there is a high probability of losing without the dealer, unless the other three also explode.

"4!" Nelson also showed his card.

Then came Yan Jingyi, a piece of 9.

The cards said that Xiao Mingzhu and Yan Jingyi's cards are a bit dangerous, because if their hidden cards exceed 5, then they will get 10 more points in the next round, and they will explode directly.

10 points is the easiest card to appear. After all, 10, J, Q, and K are all 10 points, and the probability is 4 times that of other cards!

Everyone looked at the only person in the court who didn't have a clear card.

"Actually, do you know? This bet is quite unfair."

Li Yun smiled slightly and pointed to the mountains of chips on his poker table-of course there were no five thousand chips on it. The casino had a total of one thousand golden chips. Most of them

were given to him. Of the remaining three hundred chips, two hundred were given to him. After Xiao Mingzhu, the remaining 100 were distributed to Yan Jingyi and Nelson.

"In other words...Do you think you have a chance to win?" Xiao Mingzhu laughed.

"Correct!"

Li Yun grabbed a large number of chips, leaving these golden chips from between his fingers, one by one, like a pearl falling, the sound was so beautiful and extraordinary that everyone was dizzy.

This bargaining chip represents one hundred million!

Even if it is converted into US dollars, there are more than 10 million. Anyone who obtains one of them is enough to live a prosperous life anywhere in the world!

But Li Yun had five thousand such chips in his hands!

"I... probably understand what you mean."

Xiao Mingzhu's face is weird: "You have enough chips and enough trial and error opportunities, so for you, the winning rate of this bet is more than 80%!"

"Yes."

Li Yun nodded: "Gambling is like life. Some people are born at the end and have countless opportunities for trial and error."

Chapter 2287: Gambling is like life

Many wealthy people boasted about how much they made when they were young, which caused the audience and the media to exclaim, but this is not worthy of admiration at all.

If you have one billion in your family, your parents will give you 10 million every year to allow you to do business, and your parents are still industry leaders and have plenty of contacts.

As soon as you start a company, many people will actively give you resources and cooperate with you because of your parents.

Then you will find that doing business is as simple as signing a few contracts and recruiting a few subordinates, and you can earn tens of millions a year for fun!

Even if you lose money, your parents will give you another 10 million in the next year, allowing you to continue to start the company.

Let me ask, how can a child cultivated in such an environment not know how to make money?

All fools will earn!

It is also true that the talents who make from scratch are more worthy of admiration!

"Gambling is like life?" Xiao Mingzhu looked at him.

"Correct."

Looking at the pile of chips in front of him, Li Yun said faintly: "I am like a rich second-generation from a good background. I have a fault tolerance dozens of times that of yours. I can lose once, lose twice, and lose ten times, but as long as I win once, and you lose completely!"

"It's even more bullying." Li Yun showed a smile at the corner of his mouth and looked at Yan Jingyi: "Baiyun Technology is only one of my many industries, and your bargaining chip is already yours!"

"Ah!" Xiao Mingzhu widened his eyes: "It means that this bet is naturally invincible for you. Even if you lose the bet, you still haven't lost!"

"That's the reason!"

Ignoring Yan Jingyi's yin eagle's gaze, Li Yun grabbed a card with his fingers and smiled: "So I decided not to gamble with you."

"what?"

"It's a bet with God!"

".....What?"

Everyone felt inexplicable, and God...what? !

Then, they all stared one by one.

Because after Li Yun put a K on the table, he grabbed a handful of golden chips and placed it directly in the middle of the table.

"Bet: 1.5 billion!"

The manager immediately reported the number of the pile of chips, cold sweat leaked from his forehead, and his hands and feet felt trembling.

He understood what Mr. Li Yun meant!

Don't look at the hole cards, resign to fate, which is so-called-bet with God! !

Everyone looked at the hidden card in front of Li Yun dumbfounded. It was a real hidden card. No one knew what it was!

Only God knows, and Li Yun only gambles with God!

There was no sound around them. They played a lot of gambling games all over the world, but it was the first time that they saw a person who played blackjack and didn't even read the cards.

Only the real rich who treat money improperly can dare to play like this!

"Hee hee, it's fun, it's so fun!" Jin Liuli laughed suddenly, turned around teasingly and said to Xiao Mingzhu: "Mingzhu, are you following?"

"Follow, why not follow!"

Xiao Mingzhu smiled, and counted fifteen of his chips and placed them in the middle of the table.

Everyone looked at the other two people again. If they fold directly, they will also be deducted a certain amount of chips, usually 10% of the table bet, that is, they each have to put out 150 million. Into the gambling pool.

This behavior of fold without even following, obviously, very few people choose, unless the cards are extremely bad and they have no self-confidence.

"Pretending to be a god, thinking I was afraid of you? Follow!" Yan Jingyi also grabbed a handful of chips and put it in.

"Me and me too!"

Nelson still didn't understand, what exactly did God want to do? Could it be that he can only work for God in his future life?

"Total amount of gambling pool: 4.5 billion!!!"

Chapter 2288: Playing psychological warfare

After the casino manager reported the amount, the people in the three circles inside and outside the casino gave out a cry of exclamation. Many people quickly converted in their minds, 4.5 billion Huang Xuanguo's currency equals how many dollars.

The conclusion is: almost seven to eight billion dollars!

"Oh my God!"

Everyone was shocked to see that so many bets are equivalent to nearly ten days of cash flow in a casino—a casino with a liquidity of 100 million a day can be called a large casino!

But now, 8.9 billion US dollars is just a gambling pool!

"Very well, I will continue to ask for cards!" Li Yun smiled slightly and turned his head to signal the beautiful dealer to issue the cards online.

Old Gate Casino, beautiful croupier, online licensing.jpg

Li Yun couldn't help thinking of this ad slogan, and couldn't help but tick the corner of his mouth.

"Okay, Mr. Li."

The beauty dealer gave him a bright card: Q.

When they saw this card, everyone, including the beautiful croupier, let out a cry of exclamation, and looked at Li Yun with a hint of pity.

$Q+K=20$ points, that is to say, unless Li Yun's hidden card is A, it will explode directly!

The probability of Li Yun's hidden card being A is only 1 in 13!

"Tsk tsk, it's a pity." Li Yun laughed: "My face card is the biggest, but I won a Q. However, since there are two consecutive alphabet cards, maybe my hidden card is an A? Before, no one knew the result!"

So, this feeling of betting with God is really great! "

"Fuck... Cao!"

Everyone looked weird after hearing this. In the case of a high probability of losing 1.5 billion, the only people who can laugh out loud are probably lunatics, and...the top rich with 500 billion chips, right?

The two blonde beauties standing behind Nelson couldn't wait to abandon Nelson and come behind Li Yun. If this is to please him and get one of those golden chips at random, wouldn't they become rich men with tens of millions of dollars? !

Unfortunately, their figures are not bad, but their looks and temperament are far too far behind the two beauties brought by this 500 billionaire!

"The croupier, I want a card too." Xiao Mingzhu looked at the beautiful croupier. This time the croupier didn't say much, and smiled and gave her a card.

It's a letter card again: J!

$7+10=17$, the card surface is already very big, Xiao Mingzhu's hidden card will not explode only if it is 4 and below.

"Sorry, I burst."

Xiao Mingzhu showed a helpless expression. Many gamblers gave her a roll of eyes. They couldn't believe anything before there was no sign. She didn't expect this beauty to look at the beauty of the sky, but she also knew exactly what she was playing at the gambling table. .

Yes, gambling is playing psychological warfare!

"Give me one too." Nelson yelled to the croupier, his expression on his face was obviously a little excited, probably because he was stimulated by the large bet.

If he wins tens of billions, he will be able to enjoy the beauty yacht at will without having to work for several years, and he will be happy!

The premise is... escape the chase of international policemen!

"3!"

$4+3$, Nelson has only 7 points on the card, which means that he has a high probability of getting another card without being blown.

"Another one!" Nelson shouted directly.

But the beautiful croupier did not give him a card, but looked at Yan Jingyi, who hesitated and shook his head: "I don't want it."

"hehe."

Li Yun smiled slightly and looked at Xiao Mingzhu on the opposite side.

Chapter 2289: I play acting

"Gambling with people is actually acting."

Xiao Mingzhu obviously knew what Li Yun wanted to say and what he wanted to do. His red lips lightly opened, and there was a smile in her voice:

"From the hesitation of Yan Jingyi just now, your hidden card is between 5-8. If it is small, you will decisively ask for it. If it is big, you will decisively refuse. If you hesitate, it means that your card is not big. Not small, the odds of winning are also moderate.

Am i right? "

"you!"

The more Yan Jingyi listened, the darker his face, and finally angrily picked up his hidden card and threw it on the table fiercely.

One sheet of 6!

$6+9=15$.

In other words, if he gets a card below 6 points, the winning side will become very large, otherwise, he will directly explode.

If you continue to ask for cards, the risk of exploding will be greater, so Yan Jingyi chose to give up.

"Ha ha ha ha!"

Everyone laughed. This guy was completely seen by the beauty and what he was thinking about, that is to say, he was born half lost, and he was completely behind in psychological warfare!

Xiao Mingzhu's bright eyes were full of smiles, and she turned to look at Nelson: "As for you, decisively ask for a card. It means that your hole card is still very small. The probability is below 5, right?"

Nelson shrugged, helplessly showing his trump card, and flattered at the same time: "My acting skills can't be better than you, a beautiful woman."

One sheet 2.

$4+3+2=9$.

Nelson's next card is bound to not explode, so he chooses to take a card decisively.

"The next round of cards, start."

The beautiful croupier looked at Xiao Mingzhu, waiting for her to make a decision.

Li Yun's card has reached 20 points, plus the score of the hidden card, no matter whether the card is needed or not, it has reached the limit, so there is no need to ask for more cards.

Xiao Mingzhu's two bright cards are 17 points, and she has more than half of the probability that she has exploded, but according to the rules, regardless of whether she exploded or not, she can continue to ask for cards, as long as her bright cards do not exceed 20 points.

This is also an important part of the psychological pressure on the opponent!

"I continue..." Xiao Mingzhu glanced at Yan Jingyi and said, "..."

"and many more!"

Yan Jingyi interrupted her with a playful smile on her face: "Let me guess what you are thinking!"

"?" Xiao Mingzhu looked suspicious, as if watching a clown.

Yan Jingyi sneered: "As far as I understand you, the young lady of the Xiao family always pretends to be self-confident and high-spirited, but in fact you are extremely unconfident in your heart. You always strive to be your best. It is to prove that I am worthy of the praise of Zhonghai Pearl!"

"Go on." Xiao Mingzhu smiled, "I'm also curious how you know me for more than ten years, or... you see some shortcomings that I didn't even see?"

Against the guest, Xiao Mingzhu has the initiative again!

Everyone had weird faces, and it was only in the first game, was the psychological warfare arranged?

".....arrogant!"

After looking at her coldly for more than ten seconds, Yan Jingyi popped out two words from his teeth and said coldly: "Xiao Mingzhu, you think you are smart and you think everyone else is a fool, hehe, thinking I can't see you. The routine?"

Your hidden card must be more than 5 points! You pretend to be calm, in fact, to cover up the fact that you have exploded. You just wanted to continue to ask for cards. You just wanted to bet that the next card is 1 or 2, so as to force Nelson to continue asking for cards and make him explode, right. NS? ! "

Everyone looked at each other, this Nima is only the first game, you guys are fighting like this! Aren't you afraid of being exhausted and dying?

Chapter 2290: I won

"Very wonderful idea."

Xiao Mingzhu's beautiful eyes were full of smiles, and said to Yan Jingyi: "Don't you think I don't like you?"

"what?"

The double negative interrogative sentence made Yan Jingyi unable to react for a while.

Li Yun smiled and said, "Double negative means affirmation, which means, do you think Mingzhu likes you?"

"Big pervert!" Jin Liuli began to squeeze Li Yun's shoulders again. She didn't like Yan Jingyi, did she like you?

"That's what it means~"

Xiao Mingzhu raised his tone, pointed to the four cards on the table, and said briskly: "Li Yun's cards are almost useless. According to your statement, my cards have also exploded. If I want to make Nelson's cards It also exploded. Wouldn't you be the only one left with Yan Jingyi? Do you think I would do such a thing?"

Yan Jingyi was speechless. He didn't expect this just now, so he patronized and wondered why Xiao Mingzhu continued to ask for cards!

"Can't figure it out?" Li Yun smiled, "In fact, it is very simple. The Pearl's card has indeed been exploded, but when she said to ask for the card, she gave you a special look, and you were broken by her before. So when Mingzhu glanced at it, she couldn't wait to fight back, pretending to be clever and also wanted to analyze her thoughts!"

"..."

"..."

Everyone, look at me, I look at you, all of them were stunned by Li Yun's words.

"So..." Xia Feiyao, who was sitting next to Xiao Mingzhu, blinked, "What the **** do you mean?"

Xiao Mingzhu smiled, "Simply put: I know what he knows, he doesn't know what I know, he wants to know what I know, but because I know what he wants to know, so I don't let him know what I already know. of!"

No matryoshka! !

The gamblers who are already confused are roaring in their hearts, who the **** understands! !

Jin Liuli looked at Xiao Mingzhu wonderingly: "Are you rich eldest lady so hardworking?"

"Nothing." Xiao Mingzhu explained in a quick tone: "It mainly depends on who it is. If it is a friend around him, of course it is sincere. What do you think?"

"...Hmm." Jin Liuli nodded.

Xia Feiyao glanced at Xiao Mingzhu, why was she so anxious to explain? Could it be said that...has been done?

Xiao Mingzhu was flustered inexplicably, and said to the croupier: "I don't want the card."

"It's my turn, give me a card with more than 5 points! Hehe~!" Nelson shouted at the croupier very excited.

Then, he really got more than 5 points: an 8.

9+8 equals 17, which is greater than Yan Jingyi's 15. The only uncertainty is what Xiao Mingzhu's hole card is.

Nelson hesitated for a while, shook his head and said, "I chose to give up."

In an instant, Yan Jingyi clenched his fists in anger, nails deeply embedded in his palm, and gave Nelson a fierce look!

In this round, he has already lost!

Everyone no longer asks for cards and the game is over.

The beautiful croupier said politely: "Please show your hidden cards."

Everyone started breathing quickly and looked at Xiao Mingzhu together. Lucy and Nina, the blonde girls, were shaking with nervousness. This round is directly related to the whereabouts of hundreds of millions of dollars. How can we not get excited? !

"I'm very honest~" Xiao Mingzhu smiled and showed his cards. Two white fingers clamped the playing cards and held them in front of his beautiful face, making that ordinary playing card dazzling. .

One piece of 9.

"Okay! Great! Great! I won, I won!! Hahahaha!" Nelson stood up and danced ecstatically, two blond beauties rushed over screaming, kissed him hard, rubbed hard, D+ What capital constantly implies.
