

## Godly Choice 2321

Chapter 2321: aloof

"Li Yun..."

Xiao Mingzhu was in a complicated mood, and took out the magical weapon that was rumored to be greedy even by practitioners: the Bingling Sword from the ring.

With a loud sound, the sword was unsheathed, and the cold air on the sword did not radiate. Xiao Mingzhu had already learned how to control this mysterious cold power-the moment she held the magic weapon, she had learned it.

"Spells are really amazing!"

Xiao Mingzhu still finds it incredible that people can learn so many things at once. If they are used in education, it is estimated that human science and technology will advance by leaps and bounds.

Because it saves twenty years of school time!

It's a pity that she probably also knows that this way of acquiring knowledge is probably hidden danger.

"Peony Sword!"

With a flick of his wrist, Xiao Mingzhu used Thousand Flower Parade's "Thousand Flower Sword Art", and a beautiful sword flower pierced out. At this moment, Xiao Mingzhu was heroic and pierced with the sword in his hand against the railing on the balcony.

In an instant, the icy air gushed out, and the metal railings were suddenly covered with ice slag, and the air-conditioning even filled the next room, scared Xiao Mingzhu hurriedly scraped all the ice \*\*\*\* with pure sword aura.

"I shouldn't have installed this one!"

Tired for a long time, looking at the still cold balcony railing, Xiao Mingzhu laughed blankly, with an inexplicable sense of detachment in his smile.

From the moment Li Yun gave her the space ring, she knew that she would gradually break away from the category of normal people and become more and more "fairy".

In the future, she may be able to become a fairy who is as extraordinary as Van Qingsheng.

As long as she always likes Li Yun, always by his side...

"Ahhhhh, then, the more I owe him the more?"

Xiao Mingzhu is going crazy. For her independent woman, relying on men to become stronger is a disaster!

However, if she wants to give up Li Yun and give up these magical things, she can't do it.

"...Forget it, just treat you as a guy who owed me in his life!"

Finding an excuse for herself, Xiao Mingzhu put on a beautiful knee-length skirt and cool high heels. After getting dressed, she took a picture of herself in the mirror and suddenly felt that she was a little imperfect.

She used to go out so refreshingly, but today Xiao Mingzhu looked at the beautiful girl who was shining in the mirror, and suddenly felt that she was missing something in the mirror, especially between her lips:

Lipstick.

Lipstick is a good thing. It gives women's lips a stronger tone, emphasizes the contour and full shape of the lips, and looks more vibrant and energetic.

Simply put, it can attract the attention of men more!

"..."

Xiao Mingzhu looked for it earnestly, only to find that he didn't wear lipstick at all—he hadn't used it before, so how could he have it now.

"Forget it, why am I dressing up for that guy? A woman is a pleasing person, and that guy is not my boyfriend!"

Xiao Mingzhu gave up, but took another look at the ring she was wearing on her middle finger. Later, she has this treasure that can store 10 cubic meters. She can carry many things on her body, and she can also carry lipstick.

And you can bring a set in one go, with all kinds of colors!

"What am I thinking about in a mess!"

Xiao Mingzhu patted her clean cheeks, took a deep breath, turned around and left the room with her head upright.

When she went out, she was the jewel of the sea again, her exquisite face was filled with a bright and bright smile, and she did not have the expression of last night and just now.

It's just... After seeing Li Yun, can she still maintain such a calmness?

Chapter 2322: Can't bear to watch

"Li Yun!"

Walking briskly to a restaurant on the 12th floor, Xiao Mingzhu's eyes lit up and she accurately found the tall and thin handsome figure standing in the crowd. Although there were three beauties around him, Xiao Mingzhu saw him at a glance. .

only.....

After walking a few steps towards him, Xiao Mingzhu was surprised to see that Shangguan Ming and several of his teammates were also there!

After thinking about it, she realized that today was the day when the Six Dao Sects might have to be started, so she naturally wanted to gather everyone to discuss matters.

"Everyone, early."

Depressing the excitement in her heart, Xiao Mingzhu slowed down, the happy smile on her beautiful face disappeared a little, and she only greeted them with a standard smile.

However, he still glanced at Li Yun with his eyes.

"Mingzhu, early."

Li Yun checked the time and it happened to be 12 noon, "Let's go, let's have lunch, and talk about Yan Jingyi by the way."

Xiao Mingzhu took a special look at Xia Feiyao and the others. There was not much exhaustion, but the charming spring mood between the corners of the eyebrows could still be faintly seen.

It is estimated that it was very late last night.

"...I am not envious, and I will definitely not join now!"

Xiao Mingzhu became more and more certain that she and Li Yun must have been related in the previous life, either Li Yun owed her or she owed Li Yun!

Otherwise, how could she not be jealous after knowing that Li Yun was messing around last night, but just feel shy.

She became more and more able to accept what Xia Feiyao said, that with Li Yun and the sisters living together, more and more images that she had never dared to think of appeared in her mind.

"Ming, Mingzhu!" Shangguan Ming took the initiative to come over and talk, but at the moment there was a slightly shy expression on the young and majestic face of the Chinese character.

Several of his men were dumbfounded.

It was the first time that they saw the resolute captain showing a boy-like shy expression. It was almost... the sky had changed!

"?"

Xiao Mingzhu looked at him with doubts, and the bright eyes of the beauty made Shangguanming nervous again. He stammered and said, "I, I want to ask, did you sleep well last night?"

"...It's okay." Xiao Mingzhu didn't know how to make complaints for a while when she was surprised by this weird accost.

Xia Feiyao glanced at Shangguan Ming with a pitiful look. Although she didn't see it with her own eyes last night, she could guess what Mingzhu and Li Yun talked about during the time she and Jin Liuli were leaving.

After all, Xiao Mingzhu went to their suite as a guest last night, knowing that the three of them and Li Yun have lived together these days.

This can already explain some kind of problem!

"I, I also slept well."

Shangguanming now wished to slap himself a few times, his mind turned wildly, and finally found an excuse: "I, I, I heard that the weather last night was bad."

"It is said that?!"

His teammate, sharpshooter Wei Chao was directly stunned.

I heard the weather is bad? Didn't you think you were on the cruise last night, Captain? Why did you hear about it! ! !

That's it!

Several people covered their faces, they didn't want to admit that this was their captain!

"?"

Xiao Mingzhu continued to give him a puzzled look.

"Postal and cruise ships are approaching Hao Weiyi Island!" Shangguan Ming quickly explained: "I was optimistic about the news on Weiyi Island last night, saying that there was heavy fog over there. I was worried that this kind of weather would come over at night. You will catch a cold if you close the window!"

Xiao Mingzhu smiled and didn't mean to laugh at him at all, and said: "Sleep on the sea, of course the door of the living room will be closed at night. After all, the sea breeze is quite strong, but the fog on Weiyi Island is good, will this be... ?"

She looked at Li Yun.

Chapter 2323: It's getting foggy

From the words of Shangguanming and Xiao Mingzhu, we can see the gap between the rich and the poor.

What Shangguanming said was to close the windows, which meant that there were only windows in his room where you could see the sea view.

And Xiao Mingzhu said to close the door of the living room, which means that her living room is connected to the balcony. It belongs to the design of floor-to-ceiling windows. It is spacious, bright and open. You can see the blue sea at a glance, and you can lie down on a chair on the balcony. While drinking a drink, while blowing the sea breeze to watch the scenery.

The gap is too big!

There is a paragraph written like this. When netizens are chatting, they can tell who they are chatting with through the three sentences of "I went to bed, I went to bed, I went to bed, and I went upstairs to sleep". Is there any money in the family?

If you have money but you have no money, you can see from the details that it is almost impossible to cheat.

Shangguanming closed his mouth directly, with a very embarrassed expression on his face. Shangguan's family is actually rich, but he is not the kind of person who spends a lot of money, which causes him and Xiao Mingzhu to look at each other naturally. Invisible barrier.

"Fog?"

Li Yun frowned, "There will also be fog on the sea. It may not be said that it was made by six gates, but at this critical time point, it is indeed suspicious."

Everyone found two tables to sit down. The tables in the dining room were not too big, and several of Shangguanming's teammates could only sit at another table.

Li Yun took out his cell phone and searched for news about Haowei Island. Jin Liuli took a look at it. It was full of English, so she went away and ignored it.

"Today's news: Haowei Island turns to light rain throughout the day, the highest temperature is 31 degrees Celsius, the southwest wind is less than 4, and the night temperature is 24 degrees, suitable for sleep."

As a world-famous holiday resort, Haowei Island has an island-like climate with monsoon regulation throughout the year, and the temperature is mostly between 25-30 degrees. It is very suitable for tourists from all over the world to travel and relax.

Li Yun focused on the heavy fog information on Weiyi Island, and found that the fog was quite unusual.

The first is that the season is not right.

The fog on the Pacific Ocean is usually between April and May, and there is rarely heavy fog until August.

Second, this heavy fog started late at night last night and has not disappeared until noon now.

Judging from some scene pictures, the travel of residents on the road has been severely affected, the road lights cannot be seen, and several car accidents have occurred.

Third, from the top view from above, this heavy fog just covered more than one hundred islands of Weiyi, spreading from the center to the sea, about 50 nautical miles.

"A bit suspicious!"

Li Yun put down his mobile phone and looked at Shang Guanming: "Remember the heavy fog on Shiwangfu Street in the capital? At that time, it was a six-door man with a magic weapon, covering a small half of the street. ."

Shangguan Ming nodded, and he also realized that something was wrong. If the six gates wanted to do it, they would have a way to create unnatural fog!

"Just one person?" Xiao Mingzhu grasped the key point of his words. "You mean, if the Six Dao Sects send a lot of people, you can set up a foggy formation so that the entire... Haowei Island will receive it. threat?!"

Her words trembled faintly.

Haowei Island is the most powerful country in the world. It is the most important maritime base established in the most important ocean. It is the link between the mainland and the base groups in the Western Pacific, and is the command center of the M Army's Pacific Theater.

## Chapter 2324: Action in the Hidden Sacred Valley

Among them, there are a total of five headquarters stationed, a total of 200,000 naval, air and air forces, and more than three aircraft carriers (again: hang mothers), warships, aircraft, artillery, helicopters, and missiles (medium-range, long-range, etc.) have been docked for many years. InterContinental) and so on, it is countless!

Such an important place is now being spotted by the six most secretive and powerful forces in the world, and the battle between the two sides is likely to be on the verge of breaking out!

How can this not make Xiao Mingzhu feel excited, nervous, and deeply surprised?

If Haowei Island is destroyed, then...there are too many benefits, and the whole world will cheer (probably).

Anyway, as a member of Huang Xuan country who can't understand M country bullying others, Xiao Mingzhu doesn't care about the safety of Haowei Island at all, and at most only cares about Huangxuan country tourists on Haowei Island.

"This....."

Thinking of this possibility, even Shangguan Ming, who had been on the battlefield, felt a horror. If there is a battle on Howei Island, it will definitely spread all over the world in an instant, and the heat will not fade away without a month or two!

"It's hard to say at the moment."

When the dishes were served, Li Yun signaled everyone to eat and chat. Jin Liuli didn't know much about Haowei Island, and he didn't know much about Country M. He only knew which white and black skins were strong, but didn't know much about the others.

So she happily eats lunch, it's better to have an accident in Howei Island, so she gets excited instead.

"Theoretically," Xia Feiyao peeled a large lobster to him--not only was it peeled, but his little daughter-in-law was also dipped in sauce. Li Yun ate it in one bite, and said vaguely:

"A formation covering such a large area requires massive aura support. I remember I said that now there are signs of aura recovery in various parts of the world. Why not say it for the time being, but the aura from the outside world cannot support such a large formation!"

"Didn't you say that you don't know much about cultivating immortals?" Shangguanming glanced at him. There was a wife peeling shrimps, which was really jealous.

"I don't understand Xiuxian, but I barely understand the formation."

Li Yun's Array Formation is already a master, and he knows a little bit about cultivation, and it is normal to be able to make judgments.

"Is there no other possibility?" Xiao Mingzhu asked: "Use other methods to obtain a lot of aura."

"It's not impossible, let me ask Qingsheng."

Li Yun could only trouble his Lord Saint, who told him that he didn't really come from the immortal gate of the hidden world, he still knew too little about the world of cultivation.

He quickly got a response.

"Regarding the heavy fog on that island, the Hidden Sacred Valley has already been investigated there. What is certain is that there have indeed been unusual spiritual fluctuations in the past few days."

Seeing Fan Qingsheng's reply, Li Yun was stunned.

The people of Hidden Sacred Valley also ran to Haowei Island, which was beyond his expectation.

"Li Yun, do you need me to go to your side?" Fan Qingsheng sent another message.

"For the time being, I don't need to. I'll settle the matter on the cruise first. Are you guys on Haowei Island trustworthy?"

Don't look at people with nostrils like the Hou Baichen whom Li Yun knew during the last Song and Yuan incident.

His current strength is much stronger than last time. When he meets someone like Hou Baichen, Li Yun guesses that he can't stand it and kick it!

"It's Elder Wu."

"Okay, I still have his contact information, I'll see if I can contact him at that time."

Li Yun had a good impression of Elder Wu. He was immortal and gentle, had a kind attitude, and he was very supportive of Lord Saint. He was a great power in returning to the Void Realm.

With him in charge, the situation has stabilized at least halfway.

Of course, if the fog on Weiyi Island this time is really the six gates of ghosts, it would be impossible to stop the Void Returning Realm alone!

Chapter 2325: Liu Xianxian's phone

Li Yun told them the words of the Sage Fanqing. People who met her, such as Xia Feiyao, Xiao Mingzhu, and Su Muxin, all breathed a sigh of relief, making Li Yun feel helpless.

My own wife is better than myself, so my other wives have more confidence in her. This feeling is really... Wu Wei Chen Za!

However, Li Yun is confident that he will catch up with Fan Qingsheng within half a year!

"Hidden Sacred Valley?" Shangguan Ming murmured, and after thinking about it, he nodded slowly: "Well, the fog on Weiyi Island is indeed suspicious. Let me contact the country and ask the embassy to send a message. Remind our citizens not to go to Haowei Island anymore, and let the tourists from the island return home by the way."

Xiao Mingzhu is not optimistic about this proposal. After all, it is difficult for tourists to travel abroad once, and many people are unwilling to return because of foggy weather.

It makes no sense to do so.

As soon as Shangguan took out the phone, Li Yun's cell phone rang again.

"Xianxian?"

Li Yun glanced at the phone screen and couldn't help but put a smile on his face, but suddenly, he thought of something.

"Xianxian!" Li Yun asked quickly: "Where are you now?!"

Immortal?

Xiao Mingzhu almost spewed out the soup in one mouthful. How could this name be the same as the name of a good friend of hers?

No way, no way? Li Yun, the \*\*\*\*\* playboy, did he really drop all the immortals? !

"Hee hee, guess~" Liu Xianxian's tone was brisk and clear, and his voice was crisp and sweet, and he deserved to be the person who won the Grammy Music Award.

Xiao Mingzhu's eyes widened suddenly, it was really her!

Liu Xianxian lives with her in Huangting Mountain, and the two can be said to be in a relationship between two little ones, but because Liu Xianxian is one year older than her, she has never been in the same class since childhood.

But the two agreed to go to the same university together, so Liu Xianxian took a one-year absence from school. It was probably because he wanted to go to university with her.

As a result, the two little sisters who had no guesswork grew up and actually fell in love with the same man!

This made Xiao Mingzhu speechless for a while in shock.

"Don't guess, I just want to tell you: leave Haowei Island as soon as possible and return to China!"

".....what?"

Ah, not enough to express my surprise, the international star Liu Xianxian opened his mouth and said again, "What? What the hell? Why do I want to return home suddenly? My concert...well, I don't say anything. !"

It was really annoying. Originally, after she learned that Li Yun was going to Haowei Island for vacation, she specially asked the company to prepare an unusual concert for her and performed on Haowei Island.

Then you can give Li Yun and the girls around him a big surprise!

As a result, she had just learned that Li Yun's ship was about to dock, and was about to give him a little surprise first, so she was driven back home by Li Yun.

She loves Li Yun very much, but she will be angry too!

Li Yun said helplessly: "Leave the concert alone, don't you think the fog from last night to now is unusual?"

This little idiot still wanted to conceal it. In fact, Li Yun had guessed that she would go to Haowei Island. It was just that during this time I had too much fun with Xiaojiao and others, and Li Yun forgot...

"Eh? Ah, what? The mist... Could it be that the school?!!!"

Liu Xianxian's eyes widened in surprise. She was very respectful of the six gates. After all, in the forest outside Donggou Village, Nanfeng Town, she saw the \*\*\*\* suture man monster with her own eyes, and she was afraid of this sect for a long time. .

"I'm not sure at the moment, but I don't want to see Xianxian you in danger, so you'd better return home first!"

Chapter 2326: Cancel the concert

Li Yun thought for a while, and added: "I will pay the money for breach of the concert contract. You can find an excuse, such as canceling the concert because of illness, and return to China as soon as possible."

"Um."

Liu Xianxian's heart is warm, and Li Yun still cares about her as always, but she can still afford the money for breach of contract, and she doesn't need Li Yun to help her.

Only after hanging up the phone, her agent told her bad news.

"Xianxian, the wharf and airport have all stopped traveling due to heavy fog!"

The agent Zhang Jie tried to persuade: "I really don't know why you suddenly cancelled the concert. This time, we have prepared for you to hold a concert on Haowei Island for almost half a month, and the tickets are already..."

"Alright Sister Zhang."

Liu Xianxian interrupted her with a smile, and said seriously: "I will pay the liquidated damages. This is my decision. After that, I will give the fans an explanation! Fortunately, there are still two days before the concert. Most of them have not come yet. Good Wai Yi Island."

Sister Zhang opened her mouth for a while before she said, "You have to think about your fans too!"

"I said, I will explain and apologize! And..." Liu Xianxian worriedly looked at the thick fog that filled the window, "This fog is not easy, Sister Zhang, you tell the staff to stay away from the hotel as much as possible recently, and so on. ..."

She thought about it, and decided to call Li Yun again.

Sister Zhang finally persuaded: "Xianxian, you think about it again. This concert is suddenly cancelled, and you will have to pay three times the penalty, and you will have to bear..."

"Sister Zhang."

Liu Xianxian frowned and glanced at her, "I have already said, this is Li Yun's suggestion to me!"

"But, he!"

"Money is endless, and Li Yun knows more than you know, you should know his current status!"

Liu Xianxian spoke in such a heavy tone for the first time.

Sister Zhang was speechless.

Li Yun is no ordinary high school student before. He is the chairman of Baiyun Technology, and his every move has a profound impact on the world.

Even if others do not believe what he says in his capacity, he still has to weigh the weight!

"Are you sure you want to cancel?" Sister Zhang took a deep breath.

"determine!"

Liu Xianxian's tone was very firm, Li Yun said to cancel, she would cancel this concert without hesitation!

"Okay, I'll explain to other people and arrange the refund channel. Later you will send a notice to explain in person, otherwise it will have a bad influence on your reputation."

"Um."

Liu Xianxian nodded now, Sister Zhang was okay, but her vision was just an ordinary person, and she couldn't keep up with her.

—Since she followed Li Yun, she has seen so many wonderful things, it's no wonder that Sister Zhang doesn't know.

"Wait for the explanation beforehand, let me listen to Li Yun's opinion."

"..."

Sister Zhang was speechless. Since Xianxian and Li Yun secretly determined their relationship, Liu Xianxian has become more and more like a little daughter-in-law, and she will listen to Li Yun whatever she does. It is estimated that Li Yun wants her to quit the entertainment circle, and Liu Xianxian will be able to quit without hesitation!

Sighing in her heart, Sister Zhang shook her head and walked out.

It can be foreseen that the sudden cancellation of Liu Xianxian's Hao Weiyi Island concert will surely disappoint fans all over the world, and some media that hacked her will also take the opportunity.

Especially Liu Xianxian Huang Xuan's identity has brought her a lot of unnecessary trouble!

Chapter 2327: Blizzard Mountain Lodge

"All flights cancelled?"

"Yup!"

Liu Xianxian looked aggrieved and looked out the window: "It's very foggy outside. I heard that there have been airport accidents in a row. Even the cars didn't even drive on the surface. The ship might still be able to drive, but the flight might not work."

"A ship...not a ship!"

Li Yun shook his head. The speed of the ship was too slow. In this situation, it was far more dangerous than the airplane.

"Okay." Liu Xianxian agreed, and then asked in a brisk tone: "Then I will wait for you at the hotel? By the way, who else is beside you besides Su Muxin?"

"You'll know then, don't worry, they are all very good people."

"Well, okay, I am waiting for you~"

"Wear the jade pendant I gave you, and try not to let people know which room you are in. As long as it is not eye-catching, the jade pendant will protect you well! Just wait for me to arrive."

"Yeah~"

Liu Xianxian took out the jade pendant on her chest. The gentle jade wears the fragrance of her body, and holding it will bring her a sense of security.

This is a jade pendant given to her by Li Yun that can protect her from evil spirits.

Although it has never worked, Liu Xianxian believes in its power, even if the abnormally heavy fog outside fills the hotel, she is not afraid!

Hanging up the call with her, Li Yun glanced around at Xiao Mingzhu and the others, shook his head and said, "Now that Weiyi Island is isolated, the unknown premonition is getting stronger and stronger. We will go to the captain and let him speed up. Speed, we strive to get to the island tonight!"

"It's turned into Snowstorm Mountain Villa..." Xiao Mingzhu muttered to himself.

"What is Blizzard Mountain Villa?" Xia Feiyao asked curiously, and Jin Liuli also looked at her.

"This is a scene that often appears in detective novels."

Xiao Mingzhu explained: "It means that the people in the isolated mountain villa under the blizzard cannot go out or get in touch with the outside world. Under this situation, there are a series of strange murders, and the murderer is hidden in the mountain villa!"

"very scary."

Jin Liuli of the Innate Realm felt terrible just hearing the description, which reminded her of the last time she was in the underground tomb. It was also at Blizzard Mountain Villa at that time. Fortunately, Li Yun was with her at that time.

Just the same as now.

"So," Su Muxin bit the spoon, "The people on Haowei Island have become potential victims. The murderer has made it impossible for them to leave and help from outsiders cannot get in because of the fog! "

Xiao Mingzhu nodded, "That's it."

"However, there is a difference." Shangguan Ming also interrupted and said, "Howeyi Island is not a simple island. It is the resident of the five major headquarters of the M country. There are hundreds of warships and aircraft, and 100,000 naval, land, and air fighters. There are as many as fifty nuclear submarines alone, which are distributed throughout the Pacific to perform missions. Once there is an accident on Haowei Island, they will come back from all directions and cooperate with the local forces to annihilate the enemy!"

As a member of the army, Shangguan Ming knew well about the core hub of Country M in the center of the Pacific, and he was deeply hostile to it, and he wanted to level it down.

Li Yun said: "If you are facing the enemy head-on, a hundred Void Return Realm will not be able to withstand three consecutive nuclear bullets, but if you hide in the misty city... a Void Return Realm can take all the people in the city. Tu Guang!"

Everyone fell silent. Although they had not seen the Void Return Realm cast a spell with their own eyes, they could already infer the power of the Void Return Realm from all the weird spells they had seen!

"Then we now..."

"Eat first, then go to the captain."

"it is good!"

Chapter 2328: Philip

Haowei, Oahu, Asan Pacific Division Command Headquarters, Command Office Office.

This is the most powerful country in the world. The base group stationed on the world's largest ocean is the logistics and command center for more than 300,000 navy, army and air forces.

The people sitting in this office control more than 50% of the world's seas and radiate 150 million square kilometers, threatening about 60% of the world's population. It spans dozens of countries and regions. The threat of the army led by this headquarters, especially the firm blockade of Huang Xuanguo's fleet in his own inland waters, can be described as tyrannical and imposing!

It can be said 100% that as long as Haowei Island is not attacked, Country M is safe and confidently speaking, it is the police of the world, in charge of all the seas in the world!

In a sense, the owner of this office is far more powerful than "One Piece", and he deserves to be the uncrowned king!

Therefore, when Admiral Philip Davidson received a warning letter from Huang Xuanguo, after a sneer, he tore the envelope to pieces and threw it into the trash can.

"Huang Xuanguo? Haha!"

Philip, with four stars on his shoulders, sneered, his eyes as sharp as eagles, "If it weren't for our unwillingness to fall into the quagmire of war, I would be able to break through your so-called defensive circle in a day and blow up your coastal cities in turn! What do you call it? The aircraft carrier of China is just like a three-year-old child in front of our Ford class. It's not worth mentioning!"

Huang Xuanguo's aircraft carrier has only just started, and it is still remodeling the remnants of the Second World War of the last century, and its combat effectiveness is worrying in front of the latest State M aircraft carrier.

It can be said that Huang Xuanguo's only advantage is that the place is large, with a large number of people, and there is a real war. The fleet commanded by Philip can occupy Huang Xuanguo's local coastal cities in three days and establish new colonies there, just like a nail. Huang Xuan countryman's neck!

Country M is such a powerful country, and he is the commander-in-chief of the Pacific Command, the navy, air force, and army. The power he holds is sufficient to destroy any country in the world.

Including Country Y, which used to be known as the sun never set, is also vulnerable to the army he leads!

Country M can completely rule the world. The only trouble is that after the rule, those inferior people are difficult to manage and unnecessary.

With such a powerful force in hand, Philip would naturally ignore the warning from Huang Xuanguo. He was confident that even if the so-called mythical monster appeared, he could just order a few missiles to shoot it over, and he would be able to annihilate it immediately!

The entire Haowei Yi Island is solid, and it is impossible for any invading enemy to break it!

"Jingle Bell."

The phone rang. This is a direct call between the Chief Executive's Office and the White Palace of Country M. It is highly confidential, and only a few important people in the White Palace have the right to make this call.

"I'm Philip." Philip reported his name directly. In the military system, his name already represents everything.

"Okima."

A slightly majestic voice sounded, and Philip straightened his waist: "Yes, President|Your Excellency!"

The phone calls from the head of the country have to give some face, even though the head of the head changes every four years, it is far less than a powerful person like him.

"Have you read the warning letter from Huang Xuanguo?"

Chapter 2329: Dense fog

Hearing this, Philip relaxed his waist again, leaning lazily on the back of the chair, and said in a relaxed tone: "I saw it, and I have already thrown it in the trash can."

"you!"

"Your Excellency, Chief Executive!"

Philip interrupted him: "Please believe my warriors, they are the most powerful and reliable existence in the world! Haowei Yi Island is the safest place in the world, the so-called monsters of

Huangxuan Country, if they dare to come , I will let them taste the most powerful weapon made by the latest science and technology from the 21st century!"

"Hehe, we are not a weak country like Huang Xuanguo, we are the United States\* a strong nation and a country!!"

The words of the four-star general Philip revealed a strong sense of self-confidence, making Ochima speechless, who had wanted to warn him again.

"What's the situation with dense fog?" Otchima could only change the subject, and said again: "According to reliable sources, two months ago, on a street in the capital of Huangxuan State, dense fog once blocked the building and filled it to the ground. From the weird situation, it can be inferred that those mythical monsters have mastered the power to control the fog, which is very similar to the situation on Haowei Island!"

"What is the dense fog?" Philip was disapproving, unless the other party planned to add toxins into the fog...

toxin? !

Philip stood up abruptly, his expression changed.

If the mist is really poisonous, it is really a vicious move that can instantly destroy the entire Haowei Island!

But with such a large area of anger, it is impossible that nothing has happened so far, and the animals are not unusual.

"Find a way to dissipate the dense fog, so that Haowei Island can resume traffic!"

Ochima feared that he would refuse again, and so far ordered in a stern tone: "This is the command of the chief, and it will be executed immediately!"

".....Yes!"

Considering the possibility of toxins, Philip was no longer stubborn. After hanging up the phone, he immediately called a meeting of generals.

The meeting quickly concluded: This abnormal thick fog must disappear!

Air base.

"Report, the rain plane is ready, ready to take off for rain missions!"

A base staff saluted Philip and several lieutenants and reported.

On the airport runway, a large aircraft is ready and loaded with various bombs used for artificial rainfall. As long as the aircraft flies into the sky, it will explode by throwing bombs to remove dry ice, propane, polyelectrolytes, salt, and chlorination. When various things such as calcium powder are exploded, the dense fog in the air can freeze, or it can condense into raindrops and fall, so as to eliminate the fog!

This method has little effect on the seaside advection fog (also known as sea fog), because the sea fog is continuous and costly.

But for the base group on Oahu, the problem is not big.

This is a military base. In order to ensure the smooth take-off of fighter jets during the war, more than 10,000 artificial rain bombs are stored in the warehouse, which is enough to last for a month!

"Take off and perform the artificial rainfall mission!" Philip ordered in a deep voice.

Originally, as his commander-in-chief commander, he didn't need to visit the scene in person, but in order to see if there was something weird in the thick fog, he and the lieutenant generals were on the spot to observe the artificial rainfall mission.

"Yes!"

The order was issued and the aircraft on standby on the runway quickly accelerated to take off. Based on the radar and peacetime experience, the pilot can clearly know what the surrounding terrain is like. Just follow the position instructions on the radar, drop the bomb, detonate, and let the thick fog. It condensed into rain and fell, and the pilot will not have any problems landing again!

Chapter 2330: Missing

Watching the plane fly into the sky smoothly and disappear into the thick fog, the four-star general Philip put his hands on his chest, smiling and said several generals under his opponent:

"Our base has the strongest and most comprehensive preventive measures. You can control the weather, ocean, and storm at will. Even if the monsters are really as powerful as the ancient legends, I have the confidence to shoot them all down! Bring it back! The laboratory is tied to the operating table, carefully study and study!"

Several Samsung lieutenants all laughed in cooperation.

Modern technology is extremely powerful. Fighters can fly at an altitude of 30,000 meters and sail around the world at ten times the speed of sound. Even if they enter the territory of other countries grandiosely, there is nothing in the world that can stop it, and even missiles can't catch it!

As for other weapons such as laser cannons, missiles, all-weather fighters, ultra-precision radars, ghostly nuclear-powered submarines that can travel through the seabed, missile interception systems, etc., the power of weapons in every technical field is far beyond what is described in the myth. monster!

Those so-called hill-like monsters can bombard them into scum without a dozen rounds when they encounter modern missiles!

The atmosphere in the airport command hall became cheerful. Everyone even discussed that after the thick fog subsided, take advantage of the refreshing weather after the rain to go to the bar for a drink, or go to the beach to bask in the rain after the sun to make moldy bodies. Take some relief.

"The last time I heard about Huang Xuanguo, I thought it was something weird. As a result, a street was blocked by dense fog, and they didn't know how to use rain to crack it. It was so stupid!"

"Hahaha, after all, it is a country of braids. It is developed by stealing our country's technology, and its IQ is still so low!"

"Yellow monkeys are as stupid as those niggers!"

"Hush, do you want to be heard by those niggas?"

"Hey, what are you afraid of, \*\*\*\*\* come in to the airport command hall? They only eat watermelon on a hot day!"

The white people in the command hall began to mock the black people. From the bottom of their hearts, they looked down on the slaves who had been making trouble. Don't give black people a straight look!

The \*\*\*\*\* only need to enter the death squad to die.

I don't know how long it took before the heated discussion gradually subsided.

Everyone vaguely noticed something wrong.

"strangeness."

The operator who had been staring at the radar screen said puzzledly: "Why is Blaze's flight path a bit weird? Don't you fly around Haoweiyi and then drop a bomb at a distance?"

"bomb!!!"

Everyone suddenly remembered, and all raised their heads to look towards the sky.

The bomb explosion never sounded!

It stands to reason that after Blaze lifts off, the people on the plane will be instructed to drop the first rain bomb over the base to make the base clear, and then go to other places to drop it.

So they would hear the sound of the first bomb exploding in theory! !

"What's the matter with that pilot and crew?!" Philip shouted in a deep voice, his face becoming extremely majestic.

"He, he is flying around, it seems that the radar is out of control, Commander, look!"

The operator hurriedly called up the route map of the plane, everyone walked over and glanced at the screen, all frowned.

Not long after climbing to the sky, the route of the plane can be described as weird. It flies obliquely nearby, and the trajectory is like a three-year-old child scribbling on paper with a pen. There is no pattern at all.

"Contact him immediately!"

"Yes!"
