

Godly Choice 2611

Chapter 2611: tell a story

Li Yun ignored the cargo man. After the boss served the food, he signaled Tang Anxi to have a meal and a good rest tonight, and waited for tomorrow to go to the mountains to find the ancient fairy mansion.

The boss quickly fried a few dishes, and after serving them, he diligently asked Li Yun what else to order? Would you like a few bottles of beer? He treats you.

"Boss, what do you want to say?" Li Yun raised his eyebrows, took a bite of the dish and tasted it. The taste was not bad.

"I, I mean, brother, you'll be fine after eating."

"what?"

"Uh, it means... Look at me, no one dares to come!" The boss smiled bitterly.

Li Yun realized that after the trouble just now, the people who wanted to come to eat were gone, standing far away one by one, looking at them curiously and fearfully.

"What's the problem with this?" Li Yun smiled, turning his head and shouting to the surroundings: "Do you want to know what happened on Penglai Island? My girlfriend just came back from there, and she came to the boss for dinner if she wanted to know. Let her tell you!"

"what!?"

"what?!"

A group of people, including Tang Anxi, were shocked. They were simply too curious about Penglai Island. After all, the Internet had been dominating the news headlines for more than a week. The heat has not subsided, and there are constantly amazing things spreading from Penglai Island. out.

Ordinary people have long been curious about it, but now suddenly I heard that the beauty who could set fire was back from Penglai Island and was willing to talk about things there, and they all swarmed up!

"This big brother, this big beauty, are there spirit fruits everywhere on Penglai Island? I heard that there is a kind of fruit that can be sold for 300 million yuan, or US dollars, which can cure all diseases after eating it, and it can make people rejuvenate! "

A young man wearing a gold chain couldn't wait to ask.

"Order first." Li Yun said.

Everyone turned around and shouted at the boss:

"Boss, bring me a beer!"

"Fried snails!"

"Give me a whole chicken fungus!"

"Come on a cigarette, I'll ask my eldest brother to smoke!"

"Boss, let's have a table here too!"

The atmosphere became hot in an instant, and it shocked the boss. So many people called for a meal, and they were willing to stand up to eat, dare you believe it?

Li Yun smiled and waved his hands. Everyone calmed down. Li Yun motioned to Tang Anxi to say something.

"What am I going to say?"

Tang Anxi was very happy that Li Yun said she was his girlfriend just now, but couldn't understand why Li Yun did this. In her understanding, she didn't have to say anything about Penglai Island for these country folks.

Therefore, Tang Anxi couldn't figure out what Li Yun was going to do.

"Just tell me how you went to Penglai Island, what you saw, and what you heard." Li Yun smiled and said: "Quan is just chatting at the dinner table, just say it casually."

"Yes, beauties, we like to hear about Penglai Island!" "Beauty, how did your power come from?"

The courageous young people began to booze, they were particularly interested in the fire power ability just now.

Tang Anxi didn't even look at the group of young people from the countryside, nodded softly to Li Yun, and started to talk about Penglai Island after he picked up food and drink for him.

Drinking and chatting at the dinner table is her old line of business.

So, Tang Anxi found her original feeling, and said in a sweet voice with her iconic white lotus expression:

"I went to Penglai Island six days ago and found a boat by the sea...I spent a million on the ferry ticket, but it should be much cheaper now. Tens of thousands of yuan will definitely be enough to go to Penglai Island."

Chapter 2612: 200 million per trip

Following Tang Anxi's narrative, the residents of Shengpu Town surrounded the food stalls on the third and outer floors. They all stared at it, and listened to Tang Anxi's adventures on Penglai Island.

.

Hearing that Tang Anxi had entered Penglai Island and immediately obtained the power, the crowd broke out in exclamation, which was more enjoyable than watching a show in the new year.

"Fuck, this woman is really lucky!"

The five people on the table not far away were also listening carefully to Tang Anxi's narration. The middle-aged man couldn't help but yelled, and the old man gave him a cold look and hurled, "She's just lucky? Son, you are either deaf or your head is broken! There are not many people in the world who dared to go to Penglai Island six days ago!"

The middle-aged man was speechless.

The young man among the five smiled and said, "Uncle San, if you remember correctly, you were scared by the monster on the news to say the end of the world. Let us quickly start digging a hole with the guy who eats."

"My Cao! Are you here to laugh at your third uncle?"

"Quiet, continue to listen to her!"

The old man seemed to be the elder of the other four, that is, the father of the third uncle, and the grandfather of the two young men, with unquestionable majesty in the team.

A few people shut their mouths honestly, but when they heard Tang Anxi say that they robbed three spirit fruits and sold them for 30 million U.S. dollars, the middle-aged man named Sanshu finally couldn't help but cursed again: "Me Cao!?"

No one paid attention to him, because everyone in the room also called me Cao.

This is also amazing!

Three fruits, thirty million US dollars. Gold!

Converted into Huang Xuanguo's money, that would be nearly 200 million! ! !

"Two hundred million, dad!" The third uncle's eyes were fiery: "You have worked so hard for most of your life, digging so many tombs, and getting so many good treasures, but the result? Those second-level traffickers made profits, and you can't save them for a lifetime. A few dollars! But the little beauty went to Penglai Island and made two hundred million directly!"

Don't blame him for being jealous. How many people were not jealous?

At this moment, Penglai Island has become a fairy island full of gold in the eyes of the residents of Shengpu Town, and the golden light can be seen shining thousands of miles away.

They are only one ticket away from making a fortune!

"Fuck me shut up!"

The old man seemed to be very excited, but the reason was still there, and he scolded him angrily: "Did you not hear? After the little girl got the spiritual fruit, she went directly to the wealthy foreign businessmen to deal with, eliminating the need for middlemen. You **** will English?"

The third uncle dared not speak anymore.

"I asked you to learn more English and find a way to sell it yourself. When you get the goods underground in the future, you don't need to be scammed by those second sellers. You all know how to eat, drink and have fun, and you can't do it!"

Now even the two young people have nothing to say, their English proficiency is similar to that of elementary school students.

Li Yun listened to their conversation clearly, confirming that they were indeed tomb robbers, and also confirmed one thing: reading books really does no harm!

Even the tomb thief knows the importance of English, do you dare to believe it?

"It's gone. I'll be back when I get the money."

Tang Anxi quickly finished telling her story, which of course was half-truth, at least she didn't say that she killed someone—the current Penglai Island is too messy, and hundreds of thousands of people are dead and no one cares. , The corpse was dragged away by the monster in the wild quickly, and even wanted to check it.

Everyone smacked their lips with unfinished talent. After listening to the story, it seemed that they were the one who got thirty million dollars. They were very satisfied.

Chapter 2613: Guide

Li Yun smiled and said: "We finished talking about Penglai Island, then should you also talk about the Ancient Immortal Mansion outside Shengpu Town? My purpose of coming here is to investigate and see if there is a chance to find something useful. thing."

"Hey, big brother, I knew you came to our purpose for this a long time ago." The boss made a barbecue while he laughed and said, "Looking at you people who have been walking around here for a few days, I guessed it, but our town has done it recently. Many people came, and the purpose should be the ancient city.

It's a pity that these people all returned without success, and when they left, they had strange expressions on their faces, as if they were frightened.

We didn't dare to ask. No one in the town dared to go there. In addition, the town chief has been propagating recently. Because of the aura of Penglai Island, the animals in the wild will go crazy. Let's not go to the mountains. The **** and **** villages of the place were moved to the town, and even said that in the future, all the people in our town might have to move to the county seat!

I was wondering, what do 100,000 people in Shengpu Town all move to the county seat to eat?

Brother, right?

Alas, people are panicking now, anyway, one day will be one day later, we ordinary people can't do anything, we can only resign to our fate. "

The boss said a lot in one breath, enough to show how ordinary people's mental journey has changed after the Penglai Island incident.

Tang Anxi was thoughtful at this time.

Li Yun asked her to tell about Penglai Island in order to gain the trust of people in the small town, right?

Otherwise, even if it is given to the people in Qianzhen, the information obtained may not be correct. After all, it is related to the ancient fairy cave. Even if the people in Shengpu Town are afraid to go now, they don't want outsiders to easily take away the contents.

It can be said that it is quite worthwhile to use some insignificant things on Penglai Island in exchange for the trust of the people in the town!

"It's really difficult, but I believe the country will handle these things well."

Li Yun could only comfort everyone with a smile, and everyone could only choose to believe that if there were so many monsters in the world, the lives of ordinary people would be as worthless as grass, and they would not be much different from the end of the world.

"That's right." Li Yun changed the subject and asked: "I plan to explore the legendary ancient fairy cave house tomorrow. Who of you is willing to be a guide and take us there?"

No one was talking in the crowd of onlookers.

For one thing, it is now unsafe in the wild, and secondly, they don't want to go out with a supernatural person, which is risky.

"No one wants it?" Tang Anxi was about to set a price, and the young man with a gold chain raised his hand: "Me!"

Li Yun asked: "Do you know where the ruins are?"

"Of course I know, I went there three days ago, but I didn't dare to go in, and came back after only a few glances, hehe, that place is really weird, but."

The young man turned his head again and asked tentatively: "Two big brothers and big sisters, I don't want to pay, but if you two really find something in the fairy house, divide me some corner things... You two What do you think?"

"Can."

Li Yun happily agreed that this young man who was wearing a golden chain and looked very ostentatious was unexpectedly awakened by adventure. It is estimated that he saw a supernatural person like Tang Anxi and wanted to become one of them.

"Hey, Brother Xie!" The young man hurriedly thanked him. Although Li Yun and Tang Anxi looked very young, they were both powerful men who could crush him with a single finger, so they could be called a big brother. .

"Don't call me elder brother and sister-in-law, call me... the boss."

"Uh yes, boss! You can call me as young as possible."

"He Shao? Which young master of your big family?"

"No, brother, my real name is He Shao! Really!"

"..."

Chapter 2614: 100,000 more accounts

Li Yun recruited this young man named He Shao as a guide. There were still many people watching near the food stall who were unwilling to leave. Li Yun could only quickly finish dinner with Tang Anxi and make an appointment with He Shao at 7 o'clock the next morning. After meeting in front of the hotel, they left quickly.

There was no words for a night, and there was no entertainment in the town. Li Yun and Tang Anxi went to bed early.

Although Tang Anxi wanted something to happen, Li Yun kept guarding more tightly, lest she could not get out of bed the next day at night, and planned to get rid of it all.

At 6:55 in the morning, Li Yun and Tang Anxi went downstairs, but they didn't see much, so they could only call him.

After another fifteen minutes, He Shaocai drove a motorcycle to arrive suddenly, with a confused expression on his face.

"What's wrong?" Li Yun raised his eyebrows, "Why don't you set the alarm clock? I'm all ten minutes late!"

"Boss, it's weird."

He Shao parked his motorcycle in front of the hotel and didn't lock it. I don't know if it was because he was not afraid of stealing, or because he was familiar with the owner of the hotel. The interpersonal relationship in the town was very delicate, so Li Yun didn't ask much.

"What's weird?"

"My bank account was over 100,000 yuan last night!"

"... Isn't this a good thing?"

Li Yun didn't want to be extravagant, so he said: "You don't care about the money, don't use it for now, wait for the bank to ask you, and you will pay it back. If you don't ask, it will be a windfall."

"Hey, I think so too!" He Shao smiled triumphantly, and then remembered something, his smile froze again, he hesitated and said: "It's just that when I went out, my mother asked me and asked me to get up so early today. What are you doing here."

"Your mother doesn't agree?"

"No, no, uh, forget it, boss, let's go."

What He Shao didn't say was that after he answered, his mother still murmured, isn't it a day since yesterday?

The three bought some steamed buns fritters and soy milk on the side of the road, and walked towards the mountains while eating.

According to He Shao, the place where the ruins suddenly appeared was neither close nor far. If it hadn't been for the sudden rumbling noise from the mountains that afternoon, it would probably take three or four days for the people in the town to find out.

The day the ruins were raised was when the Penglai Island was abnormal. The people in the town were panicked by the information on the Internet, so they didn't dare to check it. Even the county didn't send anyone, so it was temporarily shelved.

However, it was propagated that the ruins were things shed by ancient immortals and were very dangerous, similar to the Biyou Palace on Penglai Island, so that the villagers should not take risks.

The people in the town also know the Biyou Palace uploaded on the Internet, knowing that the whole world has nothing to do with it, so they saw foreigners entering the mountain one after another, and even guessed that there were tomb robbers among them, but they were not worried about what the immortals left behind. Was taken away.

"In recent days, at least a dozen groups of people have entered the mountains. Among them, the rich and powerful people led the team. All of them were strong men and entered with guns. When they came out, all of them were scared and panicked. Escaped."

He Shao took the initiative to lead the way, and said, "Hey, I used a few cigarettes to ask the next group of people. They said it was a wicked door. They went in and walked around for a few times, but some people foamed at the mouth. Becoming silly, someone shouted fairies at the open space, anyway, they hit the evil, so scared that they all fled back, even the mobile phone did not dare to pick it up!

Boss, do you know what this is? "

Chapter 2615: Exactly the same garbage bag

He Shaozhuang asked courageously.

If he had encountered this situation before, he would not dare to ask if he was killed, let alone come into contact with such evil things.

But now there are so many strange things happening on Penglai Island, plus the ruins are said to be related to ancient immortals, so it is not surprising that what happens, ask this supernatural boss, maybe you can learn more about these mysterious things.

Tang Anxi also looked at Li Yun.

"It should be some kind of formation, or something that can emit hallucinations."

Li Yun replied: "After you go in, be careful not to have too much mental fluctuations. Even if you see horrible and weird things, you must be calm and calm, so that you can resist the hallucinations to the greatest extent. Otherwise, you will see aliens. It's not surprising that people invade the earth and destroy them, because these things are all contrived in your mind, not reality."

"Ah, it's the boss!"

He Shao quickly pretended to be serious, and the usual hippie smiles converged.

The three continued to drive in the mountains, where villagers usually go to the mountains to collect medicine and hunt. Therefore, there is a trail that leads directly into the mountains, but it is getting narrower and narrower, and it is estimated that they will have to open their own way soon.

After Tang Anxi finished eating the last bun and took another sip of soy milk, when he planned to throw away the garbage bag, he saw several bags in a small ditch next to it.

"strangeness....."

Tang Anxi stopped and fell behind, looked at the bag and soymilk cup in her hand, and then at the things in the ditch.

Exactly the same.

The packaging bag is larger and stronger, similar to a plastic bag in a supermarket. It contains two thin and light bags for buns and two cups for soy milk.

One is hers and the other is Li Yun's.

"I don't drink soy milk anymore, just throw it away." Seeing Tang Anxi pause, Li Yun said, telling her to throw away the bag.

Although it is not good to throw trash at hand, it is already in the mountains, and a little trash bag is nothing. As long as it is not a tourist attraction, there are a large number of tourists visiting, and a few people throw some plastic bags that cannot meet the environmental pollution standard.

Li Yun was also afraid that Tang Anxi wouldn't dare to throw it away because of his relationship- Tang Anxi would pretend to be a good girl in front of him.

"Hmm, good~"

Tang Anxi agreed and threw it away. The bag just fell into the small ditch and lay with the four bags.

It's exactly the same, it's really exactly the same!

Tang Anxi's feeling of weirdness deepened.

When going out, she was responsible for buying Li Yun steamed buns and soy milk fritters. She was also holding a big bag. Li Yun handed it to him when he wanted to eat. In the end, Li Yun only drank half of the soy milk and wanted to throw it away, Tang An Xi took the initiative to take it back and kept putting it in the bag, fearing that he would drink it later.

As a result, after walking in the mountains for more than an hour, Li Yun did not continue to want to drink soy milk. Tang Anxi only finished the last bun and planned to throw away the bag before entering the ruins.

Just right, I saw four bags in the ditch.

Like the bag, there are two soy milk cups inside the bag, which seem to be the same configuration.

"Could it be that several groups of people also bought the same thing?"

Tang Anxi couldn't help but glanced back.

"Quick, coming soon!"

He Shao was out of breath, and the mountain roads for more than an hour made him panting for people in this small farming town. As a result, Li Yun and Tang Anxi did not sweat a single drop, making him more and more sure of these two people. Has good strength, can take out the fairy treasure.

Chapter 2616: Ancient city murals

It's not that He Shao has never seen a similar movie. A group of people went to find the treasure and worked together in the process, but the moment they saw the treasure, there would often be infighting, causing heavy casualties.

But He Shao believed that he was hired by Li Yun in front of a group of small town residents last night, so if something happened to him and he couldn't go back, the police would quickly find out the truth of the matter.

Besides, He Shao feels that this boss is not like a bad guy and he is trustworthy.

"Ah, here it is!"

Tang Anxi stretched out her finger to the distance, and saw that in the dense woods in the distance, a huge pillar was carved out of the finest white marble, standing tall in the mountains and forests, in the dense woods in the distance. The ruins could be seen at a glance. The location of the location.

"Well, that's right there!" He Shao swallowed, and suddenly felt a little soft in his hands and feet. Isn't there something hidden inside the formations of the immortals?

"If you are scared, you can go back now."

Li Yun said indifferently: "Say yes first, I can protect my girlfriend, but I may not be able to protect you, so whether you want to take a risk or not depends on your choice."

Li Yun, who has obtained the selection system, also loves to make choices for others. He has no choice but to get used to it.

"Of course I and I have followed!" He Shao bit the bullet and replied: "People on the Internet now say that the future earth will definitely become very dangerous, and the end of the world is not impossible. It is better to wait for death in the future. Now fight it, let the boss, this thigh, take me to fly, hehe."

"Whatever you want, but say it first. You can do whatever I ask you to do after you enter. Don't squat when I ask you to lie down. If you hesitate for a second, you may be in danger, understand?"

"Understand, understand, boss, don't worry, if you let me go east, I will go east..."

In the sound of He Shao's assurance, Li Yun led the two to the ruins of the ancient immortal cave mansion.

The terrain here has undergone drastic changes more than a week ago. The soil and rocks under the ground have been turned out, as if they had been baptized by a magnitude ten earthquake, and there are traces of devastation everywhere.

Three or four hills were overturned, a small lake in a valley swelled, and a large number of trees collapsed. The traces of the scene can only be formed by chaos, and there is no way to get in.

And what rose from the ground was an entire dilapidated ancient city.

The ancient city is full of ruined walls, as if it had been robbed by a large group of robbers, and finally burned out by a fire, similar to the Old Summer Palace in Beijing.

But everyone can see from the towering pillars, walls with frescoes, and some scattered tile materials, that this was once a beautiful city like a paradise, with many places where ancient powerful people lived.

"Husband, look at this!"

Tang Anxi pointed his finger at a distant wall. There was a rectangular stone leaning against the wall. Tang Anxi saw that Li Yun was interested, so he walked over and turned the stone over.

"Huh? Husband, there is a painting on it!" Tang Anxi exclaimed.

Li Yun walked over and saw that there was no dirt or dust on the mural, and half of it was missing.

"When the ancient city rose, was it just such a coincidence? It seemed like it was placed here...Oh, that's not right."

Li Yun looked around and quickly discovered that there was some fresh soil on the ground where the rectangular stone was located. It can be seen that other people who came first wiped it clean and placed it here.

After thinking about it, Li Yun focused on the content of this mural.

Chapter 2617: Demon fox drinking

The paints of the murals are made of unknown materials. They have been buried underground for tens of thousands of years without much fading. They are still legible.

Yellow, blue, green, cyan, etc. pigments are all available, and the ink is delicately used to form a unique and exquisite mural.

In the center of the painting, there is a group of women wearing palace costumes, slim, cleverly smiling, and charming, drinking by the river. They sit on the ground and judging from the peach blossoms in bloom on the tree next to them, it can be inferred that it was spring. These palace beauties are drinking, having fun, enjoying flowers and spring.

If that's the case, it's nothing surprising. Ancient men and women were very defensive, but women could go out together in the spring. Some men also went to see flowers and make poems on excuses. In fact, it was just to see beautiful women. A blind date in disguise.

But in the arms of these palace beauties, beside them, on the trees, in the river, there are many fox demon, rabbit demon, bird demon, and even a few who climbed up from the river, shrimp head human body, or The weird monsters with human heads and crabs make the whole picture indescribable.

Yanran smiles, beautifully dressed, with sweet smiles, charming palace beauties, but surrounded by a large group of weird monsters, as if these beauties are drinking and having fun with the monsters, the pictures are weird and evil, and the bottom of my heart is hairy. Was shocked by these palace beauties.

Yes, it is not the monsters that are scary, but the beauties in palace costumes who are drinking and having fun in the center of the mural!

"Damn!"

He Shao took a few steps back in fright. He almost fell to the ground with a weak leg. He stammered and pointed to the mural and said, "This, there are all monsters in it!"

Indeed, after seeing this mural, anyone will guess that these enchanting palace-dressed women are monsters transformed into human figures, enjoying flowers and drinking with a group of monsters.

"But there is another possibility." Li Yun said: "These beauties are humans...no, they are immortals, and monsters are their mounts and pets. Although the atmosphere between the two is very friendly, we can't ignore this. Possibly: Maybe in ancient times, the relationship between monsters and immortals was very good?"

"Mount?"

Tang Anxi subconsciously looked at a prawn demon. The lower body of this guy had very strong muscles, and his legs were just like the two tongs of a lobster.

This sturdy male prawn, no, the male prawn, if it is the mount of the beautiful palace costume, I am afraid it is not... the kind of "mount", right?

Tang Anxi, who has been in KTV for a few months, naturally knows the reason why men call their female companions horses at night.

Li Yun glanced at the red on Tang Anxi's face, she didn't know what she was thinking about.

"Boss, is this mural useful?" He Shao asked boldly.

"Useful and useless."

Li Yun took out his phone, clicked on the camera app, took a few photos of the mural from various angles, and then browsed to see the effect.

As a result, I found that there were 20 or 30 pictures of murals in the picture list!

"...I took a few pictures of this broken phone with just one click? It seems that the fruit machine is not very reliable. When the new smart phone comes out, I will replace it with another one."

Li Yun's mobile phone was obtained when he went to the game hall to draw a lottery during the first date with Fang Xue, and has not been changed.

After browsing the photos at random, Li Yun said to He Shao after he felt that there was no problem: "Okay, this slate is useless to me. If you want to make money, you can come here later, ship it out, and brag about it. It is said that this is a mural of an immortal. It is estimated that it can be sold for a little money, mainly depending on whether it is taken advantage of.

Chapter 2618: weird

"Sell for money? Yes, I didn't expect that the murals in Longmen Grottoes could be sold for money!"

He Shao patted his head, and after confirming again that the boss did not want the mural, he hurriedly moved forward to move it, and once again turned it into the upside-down state.

Upon seeing it, Tang Anxi said, "You cover it with some soil, otherwise others will look over it if you see it clean."

"Uh, you're still the boss, you think it is thoughtful!"

He Shao did the same, and after working for a long time, he finally covered up the mural, but when he stood up with a sigh of relief, he found that the boss had disappeared.

Behind him was only the beautiful boss lady, who looked up at the sky, her eyes full of admiration and admiration.

"Boss, boss...I'll go!!!"

He Shao raised his head and saw the figure in the sky, his legs softened in fright, and finally sat down on the ground.

His boss is flying at a height of 100 meters in the sky, looking down on the whole earth.

He Shao just glanced at it, and he felt surging. He was shocked by the powerful figure of the boss. It is no wonder that the proprietress idolized him.

"The group of people were in the ancient city yesterday."

After Li Yun landed, he said to them, but found that He Shao and Tang Anxi both looked at him with straight eyes.

"Why? You were scared by me?" Li Yun smiled.

"Well, no, no, not scared, but..." Love!

Tang Anxi blushed and looked at Li Yun. Such a powerful man actually admitted that she was his girlfriend? She actually has such a handsome, handsome, good personality, can soar in the sky, and is called a superman by the world as her husband?

Tang Anxi was so happy that her heart softened on Li Yun.

"Boss, big brother, you, you are too good!"

He Shao stammered and flattered, his eyes were very enthusiastic. Needless to say, Li Yun must be another fan.

"It's so so, it's not that there is no better than me."

Li Yun said humbly, and walked forward, "Okay, don't talk nonsense, act quickly, or those people will go ahead."

"Those people?" Tang Anxi followed his pace, "Is that the five people I met during dinner last night?"

"Yes, I saw that they have reached the center of the ancient city, where there is a relatively complete building."

"Huh? Is it the residence of the immortal?"

"I don't know, let's go and take a look."

Li Yun took the initiative to hold Tang Anxi's hand, took her to fly, and landed on a large collapsed tree, but He Shao was in a miserable situation, so he could only drill holes in the tree and follow through the mountains.

Li Yun could only wave his hand to pat him where he really couldn't go, so that He Shaotengyun flew up like a mist, and then fell to the ground with a snap.

So Li Yun suggested that he go back, and this was the reason why he didn't want to take him.

However, for the sake of the system's selection of events, I can barely bring along.

"Select an event?"

Li Yun paused. He didn't seem to receive the system's selection event prompt, but why did something related to He Shao suddenly appear in his mind?

I checked the system prompt bar and found that there are actually three selection events on it.

"Ding, trigger the option event, please choose from the host:

Option 1: Bring He Shao to continue the adventure, and let him return home safely, reward justice value +1000, experience value +1 million, all attributes +5000, golden gift bag*1, small probability to get more information.

Option 2: Let him go home directly, no reward. "

Chapter 2619: Three events

"Ding, trigger the option event, please choose from the host:

Option 1: Explore the entire ancient city and find the most special things in the ancient city.
Reward: To be determined.

Option 2: Go back temporarily, stay in the town for a few days and then come back, reward green gift bag*1.

Option 3: Give up directly, go home immediately, reward skills: see the situation is not good (passive, with a small probability of finding danger and avoiding). "

"Ding, trigger the option event, please choose from the host:

Option 1: Kill five tomb thieves, reward justice value +5000, experience value +100,000, purple gift bag*5, a random life skill upgrade.

Option 2: Keep them, observe their actions, reward the white gift bag*3, and find some useful information with a small probability.

Option three: Deport, make them leave by themselves, no reward. "

The three triggered events puzzled Li Yun.

Why doesn't he remember that he has encountered these selection events?

The system's notification tone said it was big or small, and most of the time Li Yun could see it for the first time. In theory, it is impossible for him to fail to notice three consecutive selection events!

"do not move!"

A somewhat familiar voice came from behind. Tang Anxi looked back and found that it was the five people he met last night. Except for the old man, the other four were holding a homemade gun in their hands.

The middle-aged man named Xiaosanzi was pointing his gun at them with a smug look, frightening He Shao and froze in place and did not dare to move.

"Don't let go of your guns, I promise you won't see the sun the next day."

Li Yun didn't even look at the group of people. He looked up at the sun above his head and found that the position of the sun was already slanting to the west. Then he looked at the phone and found that the time was already two o'clock in the afternoon!

In Li Yun's memory, he, Tang Anxi and He Shao had just arrived in this ancient city and had not had lunch or rest.

Moreover, he saw this group of tomb robbers in the sky just now in the middle of the ancient city, but now he is in front and the tomb robbers are behind!

"young people."

The old man gave the four people around him a look, told them to put their guns away, and said in a deep voice to Li Yun, "How long have you been here?"

Li Yun raised his eyebrows, "Old man, have you also noticed the time disorder?"

"Time confusion?!"

Several people looked at him in surprise, and then looked up at the sun in the sky. Why couldn't they feel it?

Li Yun asked, "An Xi, have you had lunch?"

"Huh? Well, it seems to have eaten, some biscuits..."

"How about you?"

"I, I don't seem to eat, it's strange... I don't seem to remember. Did I have a roast rabbit? I just caught a rabbit."

The answers of the two were different, and both looked at each other in surprise.

The old man turned his head and asked the four people: "Have you had lunch?!"

"Dad, why did you ask the same question as that kid? Don't you remember? We ate dry food."

"Nonsense, it's only nine o'clock in the morning, what lunch?"

"Nine o'clock? You didn't wake up, it's evening now!"

The answers of the four were also different, and they couldn't help but argue with each other. At the last look at the time, they were all dumbfounded, one by one froze in place as if they had seen a ghost.

"I, I, I!" The third uncle's teeth trembled, and he jumped up as if he had been stepped on his tail: "Grass, this ghost place is really evil, we seem to have been walking here for a long time!"

A group of people look at me and I look at you, only to feel a chill coming out of the soles of their feet, and this ancient city is full of weird aura in an instant.

Chapter 2620: Fox Temple

"Young man, what do you have..." When the old man wanted to ask something more, Li Yun had already taken Tang Anxi towards the center of the ancient city.

"Wait for my boss!"

He Shao quickly followed. This ancient city was too evil. He only felt that it was weird everywhere, braving evil spirits, and maybe a monster would pop out from wherever he went.

The old man was silent for a moment, and shouted to the four people behind him: "Come on! Let's go and take a look. Give me all the gunpoints. If anyone dares to mess around again, I will kill him with one shot!"

"Dad, are you so afraid of that kid?" Third Uncle asked unconvincedly. They now have five guns in their hands, as well as homemade explosives. He can kill the mere abilities with a single shot, making the stinky woman even fire. Can't let it go!

"Shut up!"

The old man suddenly slapped him, blowing his beard and staring and cursing: "Little third son, you really have no vision at all. That person can face a few guns without changing his face, can you fucking? Just hold your head and scurry around, can you be as calm as him?"

After all, it's because people didn't put you in the eyes at all, so he couldn't understand it? If you are not convinced, go back as soon as possible, and don't mess with Lao Tzu and I again! "

The third uncle was finally convinced, and he groaned and dared not speak any more.

"Catch up immediately, or get out!"

The old man quickened his pace with a sullen face, and the other four hurriedly followed.

The group soon came to the center of the ancient city. He Shao was already exhausted and out of breath. After seeing the complete building, he squatted directly on the ground with his tongue out panting:

"Old, old, boss, this place is too, too evil!"

"What did I say in the morning, did you forget?"

Li Yun stood in front of the building and said lightly: "Don't panic when you encounter anything, otherwise you will be easily confused by the hallucinations here, and it is not impossible to accidentally become an idiot."

"Uh, yes, yes!" He Shao finally didn't dare to say any more. He didn't even dare to breathe, his eyes kept calm.

"Husband." Tang Anxi looked up at the most complete building in this ancient city and said: "It seems that there are still people living here?"

She said this because the building is so clean and brilliant.

It seems to be excavated from a whole piece of stone. It is not the ancient palace style of Huangxuan Kingdom's red walls and blue tiles, but a kind of similar to Western temples or magnificent temples, which enshrines some gods, which is very solemn and majestic.

There are two huge moon-white stone pillars in front of the door, more than 20 meters high. The pillars are carved with flowers, insects, fish and other patterns. At the top are two vivid foxes with numerous tails. Li Yun just counted them. There are nine tails in total.

There are corridors on both sides of the stone pillars, and there are railings on the sides of the corridors, which are also carved with many exquisite patterns.

Unlike the Western Temple, this atmospheric building has windows, and there are also two fox patterns on the windows.

In addition, the vermilion wooden door of the Fox Temple (temporarily named by Li Yun) is open, and you can vaguely see the statue of someone inside.

Everyone was frightened by the integrity of this temple, and they dared not go in for a while.

Even the impulsive third uncle among the tomb robbers felt something was wrong. The temple was kept too intact.

Generally speaking, even a mahogany coffin buried deep in an ancient tomb with antiseptic measures will become fragile after hundreds of years, and it will break with the hand.

Unless the coffin is made of stone.
