Chapter 3781: without regret

Xiao Mingzhu and Ise Kamakura looked at him in surprise.

"Go on the roof to eat?"

"Why?"

The two women asked in unison.

Li Yun walked over, picked up the stupid little witch, and kissed the little witch's thin cherry mouth in Xiao Mingzhu's surprised eyes.

"Uuuuuuuuuuuuuuuuu~"

Ise Kamakura's petite body was completely embraced, and was firmly hugged by the powerful Li Yun, passively kissing him, her small face was too red, and her big eyes fluttered shyly. He closed it slowly, and opened his small mouth unconsciously.

"It's so sweet!"

After half a minute, Li Yun smiled and let go of her. After all, the little witch had been blinded by the kiss. Her two calves were hanging in the air, like a pair of small fish coming ashore, she couldn't bear it anymore.

Strictly speaking, this was her first kiss.

Therefore, Ise Jinzakura was directly confused for a long time, and then slowly recovered.

"What are you going crazy?" Xiao Mingzhu looked at Li Yun with a weird expression. When I went out before, I was unwilling, but after entering the door, I hugged others and chewed!

"Li, Li Yun."

The little witch stammered and hid in Xiao Mingzhu's dare not to look at him.

Li Yun said sternly, "I didn't go crazy, I just figured out some things. Since I like Sakura, then don't leave any regrets or procrastinate. You can clarify our relationship and save yourself troubles afterwards! Sakura, you will follow me in the future. Bar!"

".....Um."

The little witch nodded shyly and agreed, the process was very easy, as if it were a matter of course.

Xiao Mingzhu hugged Ise God Sakura and suddenly wanted to ask one thing: "Sakura, if in the future you and your Omikagami ask you to leave Li Yun and stop interacting with our friends, what will you do?"

"what?"

"If you don't want to answer, you can, but I want to know."

Xiao Mingzhu glanced at Li Yun. She knew the question was too much. It was like asking an ordinary girl which family and husband wanted, whether she eloped with Li Yun, or chose to continue to believe in the Great Royal God. If there is a conflict between the two.

But the problem with Ise Kamakura is not just as simple as "elopement". The parents of ordinary girls will not have as much influence on their children as the Amaterasu goddess.

But Ise Jinying is a faithful believer, the goddess Amaterasu. If there is any conflict in the future, Xiao Mingzhu doesn't know what she should do. Ise Jinying's position will be very embarrassing.

"I!" Ise Kamakura didn't know how to answer, and looked at the man who had kissed her for half a minute with a plea for help.

Li Yun encouraged: "Sakura, it's good if you just say your thoughts directly. Even if you choose to continue to follow the Omikami, I can understand you! Of course, I will try various methods to make you change your mind and never let go easily. !"

Xiao Mingzhu looked at Li Yun very unexpectedly. This guy's behavior was very domineering, and it was also very popular with girls.

Sure enough, Ise Jinzakura smiled crookedly, her blushing little face was filled with happiness, and after shaking her head, she said seriously: "No, if Omikami and husband...gather, well, if your relationship is very poor, I will take the initiative. Resign from the position of Misamiko, and follow your husband back to Huang Xuanguo in the future, no longer caring about things here!

Li Yun was very moved by her resoluteness, and she wanted to hug her and kiss.

After all, the little witch is really sweet.

Moreover, when the two words for husband are spoken in Japanese, it is Anada, which is sweeter.

Chapter 3782: Anada

Xiao Mingzhu amusedly squeezed the small face of Ise Kamakura in his arms, "You'll be called Anada just after he kisses you. You're not shy."

"Why are you shy?"

The little witch was stupid and cute again, and blinked: "Anada means dear, not the official name of Dana. The matter between Li Yun and I was witnessed by the Great Imperial God. It is the most sacred and traditional marriage ceremony. Well, although Anada's wife is not just me, but it's the same. From now on...I will be called Anada~~"

After that, she also glanced at Li Yun shyly. She looked like a well-behaved little daughter-in-law, especially cute.

Li Yun is so cute that his bones are crunched by a few pounds. Who can refuse such a Sakura National University and Nadeshiko?

"Ahem, usually just call my name, when there are many people."

Li Yun said quickly, if the little witch kept calling him Anada, he was afraid that he would be too sweet to die.

"Oh...then it's called Anada now, is it called Li Yun outside?"

"Um."

"Hehe, okay~ Anada, after Sakura, I would like to ask you for your advice~"

Ise Kaminakura left Xiao Mingzhu's embrace and sat on the wooden floor solemnly, her hands folded flat on the ground, her forehead was seriously knocked on the back of her hand, and she bowed.

This seems to be the etiquette used by both men and women when Sakura Kuni decides to kiss.

"Don't return the gift yet?" Xiao Mingzhu pushed Li Yun, who was staring blankly. The Ise God Sakura who bowed down in prayer is now very beautiful, but he can't be stunned and forget to return the gift.

"Oh! Please Sakura's advice!"

Li Yun made the same action as Ise Kamakura, but the little maiden naughty bumped her head with him, then she threw herself into Li Yun's arms with a grin, her little cheek smiled sweetly and her voice was greasy. : "Dan Na~~~Dear."

She had only kissed Li Yun once and a half, but she already liked the satisfaction and happiness of being hugged by Dan and his lips occupied.

Therefore, after the wedding ceremony between the two was officially completed, Ise Kamizura plucked up the courage and proactively asked for intimacy.

Li Yun fulfilled her wish, lowered his head, and kissed the thin cherry lips of the little witch.

"..."

Xiao Mingzhu originally wanted to pretend not to care, but after Li Yun kissed Ise Jinzakura for a while, he smiled and pulled her into the dungeon, holding her with one hand and Ise Jinzakura, and kissed her as well. .

"Bad, you kiss Sakura!"

"Together... Pearl, thank you!"

When Ohwa and Hanako made a meal and asked Mikako to eat, they saw a scene that shocked them: Mikako sat in the arms of Mr. Li, raised her head to be intimacy with him, Xiao His cheeks are full of cute and red expressions, it is obvious that he has been kissed for a long time...

"Mikami, you...!"

The Hanako Miko's eyes widened, and the dishes she was holding almost fell to the ground, but Li Yun supported her in time.

"Well, what?"

The little witch hadn't recovered from her intimacy just now, she looked at her with blurred eyes.

"No, nothing." The Hanako Miko lowered her head and dared not ask again.

She thought that Mikami would have something to do with Mr. Li, but she never dared to think that Mikami would actually be in the Imperial Shrine and directly engage in intimate...shameful actions with the man she likes!

"Introduce again." Xiao Mingzhu saw the surprise of the two of them. She pointed to Li Yun and said: "This is the object of the marriage contract for the goddess personally appointed by the **** goddess, Li Yun's divine envoy!"

Chapter 3783: Toast

Li Yun looked embarrassed, he really couldn't escape his status as a divine envoy, starting with the son Xiaosu.

"Divine Envoy?!" Hanako and Xuhua were very surprised.

"Correct."

Xiao Mingzhu gave a serious explanation, "So what you saw just now, Li Yun and your godson kissing in the Imperial Palace is a special testimony, and it is also an act approved by the goddess. This is a form of engagement. Way!"

The two women continued to be shocked. Li Yun was equally surprised, looking at Xiao Mingzhu with weird expressions. She has also learned his nonsense way of speaking now?

"Also including you?"

The Miko Hanako asked suddenly, because he saw that there was a faint trace of lipstick on Li Yun's face, and Mikako didn't wear lipstick.

"Yes, yes!" Xiao Mingzhu bit his scalp and admitted, regretting in her heart. He blamed Li Yun, the big villain, for the mess just now.

"Mikami, is that true?"

The Obana Miko took the initiative to ask Ise Kamakura, who had gradually recovered. It's not that she didn't believe in Li Yun, but that Mikami was kissed like this. It is doubtful how she looks.

"what?"

"That's... Did you enter into a marriage contract with Mr. Li Yun in the Imperial Palace under the witness of the Great God?"

Where is the Grand Shrine?

This is the most important place of worship in Ise Jingu. Yatakyo, one of the three sacred artifacts, was originally enshrined here, so there is no need to say more about its importance.

But just now, Mr. Li Yun hugged their Mikami, whose face flushed red by the kiss, and sat in his arms, with his head up and his arms around his neck, with an emotional and happy appearance.

This feels weird no matter how you look at it.

"Uh, uh, yes!"

Ise Jinzakura finally recovered and left Li Yun's arms in a panic, explaining: "Just now Omikagami told me that he wants to ask Anada to help guard the shrine. As a reward, I will marry Anada."

"Anada..."

The two maidens had no opinion anymore. They both knelt to Li Yun at the same time, and bowed to Li Yun: "Sorry, Mr. Li Yun, thank you for giving so much to Ise Jingu, but we still doubt you. I'm really sorry! "

"...It's okay, just get up. Go and eat."

Li Yun didn't get too entangled in this matter, stood up and wiped his mouth contentedly. Just now, the little witch's saliva was full of sweet saliva. When she kissed her in a daze, the little witch was very cute and serious.

Cough.

"What did you say before?" Xiao Mingzhu remembered what Li Yun had said before, "Go to the roof to eat?"

"Yup!"

Li Yun smiled and said, "It's comfortable to eat on the roof tonight, lest a few missiles fall in the sky."

Xiao Mingzhu has no comments.

"Huh?" When the little witch heard this, she was anxious: "Let's go to the roof of the Grand Shrine. Wouldn't that blaspheme the Grand Royal God?"

"What's the matter?"

Li Yun dragged her and Xiao Mingzhu to the outside, "If you can't defend the shrine, it's the greatest blasphemy. Besides, your great imperial ***** is in your mirror, and there's nothing in the house. Don't care, go. , Go up!"

...

In the end, Li Yun found a low table, plus two stool feet, and cut off some raised areas on the roof of the Grand Shrine, and successfully sat on the roof with the three of them, enjoying dinner in the moonlight. .

"Such images are definitely captured by satellites around the world, right?"

Li Yun smiled, raised the cup, touched a cup with the two big and small beauties next to him, and drank it in one fell swoop.

Of course, all drinks are juice.

Chapter 3784: Satellite photo

"It's probably... that's your heart."

Xiao Mingzhu was nervous again, and felt abnormally irritating.

The world's most powerful country, the United Son Country, is about to launch an attack on this place, but now she is sitting on the roof "relaxedly", enjoying the food, while using a wine glass, and Li Yun lifted it to the satellites in the sky. The cup.

It seems to be inviting the enemy to come over!

Don't be afraid!

"Can they see us?"

Ise Jinzakura couldn't believe it, and she shook the sky cluster cloud sword that she held in her hand. The other side of Yata Kagami was held by her, and she tried to contact Omikami while eating.

It's a pity that Omijin ignored her.

It seems that tonight's affairs have been given full authority to her and Li Yun to solve them together.

"I can."

Xiao Mingzhu explained: "The military satellites in the sky are very powerful, much stronger than commercial ones. Now the roof of the Shrine has become the focal point of hundreds of satellites around the world. At least dozens of satellites can be pointed at a good angle. We shoot, if we don't believe it, we go online and someone will upload it to the website."

"Oh."

Ise Jinzakura really took out his mobile phone, tapped a little finger on the screen, and saw relevant news as expected.

There is a picture in the news that I took a photo of Ise Shrine from a very high level. I can't see the looks of her and Li Yun, but I can see what they are doing now.

"Have a meal?!"

"This is a blatant provocation. Provocation!"

"The beautiful country has been stimulated right now."

"What a arrogant little girl, she's so beating."

"Is she a little girl? She is now an envoy, with the same status as the pope!"

"Haha, it is really exciting. The Sakura Country is now divided into two factions. One faction closely follows the beautiful country and opposes the gods they believe in. The other faction recognizes the gods and allows her to obtain 100 kilometers of land."

"I advise you not to laugh, the gods are recovering one by one..."

Halfway through seeing it, Ise Kanzakura turned off the news, put her phone on the table, and watched the boring news, so she rarely went online.

"Anada~." Ise Jinzakura looked at Li Yun, "Will they come tonight? I still want to continue talking with Anada and Sister Mingzhu tonight on the tatami. "

This is the activity she likes in the last two nights, and it is very comfortable.

"Probably... come on."

Li Yun glanced at his mobile phone. Compared to the divine mind, which can only extend a few kilometers, the satellites in the sky are faster. The news from Xia Ming let Li Yun know in advance that the beautiful country is launching an attack.

"Mingzhu, here you are."

Li Yun handed the phone to Xiao Mingzhu, and he poured a glass of red wine, took a sip, smiled and said, "Tonight, you are responsible for contacting the country and cooperating with the little maiden to kill the enemy planes that are inexplicably attacking us. ."

"Inexplicable? You mean... the other party did not reveal his identity?" Xiao Mingzhu quickly guessed what Li Yun meant.

Hundreds of millions of netizens around the world, as long as they are not fools, can guess who will attack Ise Jingu. Even if it is not a beautiful country, they are the sons controlled by the beautiful country.

In short, it can't get out of the relationship.

However, fighter planes generally identify themselves in the broadcast frequency band, or paint the national flag of their country on the fighter plane's fuselage, including ships sailing on the high seas.

Chapter 3785: Menacing

Several menacing fighters turned off the communication frequency band, and the fuselage did not have any pattern indicating the country they belonged to. Even the national flag of the Sakura country was not painted, which proved that the visitors were reluctant to even disguise, that they knew Ise Jingu. Guessed their identities here!

In a sense, the two sides reached a tacit understanding.

"Sakura, prepare to meet the enemy!"

Xiao Mingzhu had already put down her chopsticks, she couldn't do like Li Yun's drinking while facing the most powerful fighter from the strongest country on earth.

The speed of the F-22 can exceed twice the speed of sound, and the air-to-ground guided missiles are extremely fast. Often when ordinary people can see them, the missiles have already fallen. If luckily their heads have not been blown up, it is estimated that they can only As the fighter jet departed at high speed, a sonic boom was heard.

Xiao Mingzhu's strength is already very strong, his physical fitness has broken through innate consummation, he also has certain spells, and also received weapons and equipment gifted by Li Yun.

But she had no ability to resist in the face of several aggressive F-22s. The speed of the fighters was too fast, coming and going without a shadow, coming and going high, whizzing through the sky, Xiao Mingzhu couldn't catch the moment at all. The time to go for a counterattack.

If she faced the fighters alone, she could only turn around and escape, hiding in the mountains or behind solid buildings, and using terrain to avoid the fighter's radar scanning and fire control system aiming.

In a way, Xiao Mingzhu has no way to get a fighter jet, but it is not easy for a fighter jet to hit her, unless it is in the vast plains, then she can't escape anyway, just face a rabbit. It's as weak as an eagle in the sky.

Therefore, the main force in the battle tonight is not her, but...Ise Kanzakura!

"Um."

Ise Kaminakura put down her chopsticks, her expression became very serious, without the stupid cuteness of the past, and the lovely appearance that was flushed red by Li Yun just now, her petite body exuded a powerful aura, and the sky cloud sword on the table Holding it, the Yata mirror in his arms was thrown out, the mirror surface glowed with a faint white light, and the whole mirror was suspended in the air.

"Everyone who dares to attack Ise Jingu will die!"

Ise Kamizakura stood on the roof, with her head up high, and the sky cloud sword in her hand swung vigorously against the sky, as if following the satellite tens of thousands of meters above the sky. The satellite cameras pointed at the place made a declaration that they belonged to Mikami.

She will kill all the people who come tonight!

"Hey, Smith, do you see it?"

On an F22, the pilot driving the fighter saw from the real-time satellite map and saw Ise Jizakura standing up and waving a sharp sword against the sky, and laughed: "This little girl seems to be about to strike us with a sword. !"

"Hahaha, I see it."

"It's funny, isn't it?"

The other pilot laughed in agreement, "She didn't even know what monster we were driving. If she knew, she must have escaped by now."

They have reason to be proud.

The performance of the f22 surpasses ordinary people's imagination. The super-fast speed of twice the speed of sound makes most ground weapons just a joke. The high-precision missiles on board allow them to swept away from the sky in a leisurely manner. Passing, like a shooting star across the sky, leaving only a big gift for the people on the ground:

A missile.

"Just a light press, a bang, and the whole shrine and the three people will be turned into ashes!"

Chapter 3786: Call me

The pressing sound of the air-to-ground guided missile is a click sound that is specially added. It is not silent, but only to remind the pilot that he has pressed the launch button, a terrifying guided missile. Leaving the weapon compartment, he descended for a certain distance at the speed of a free fall.

Subsequently.

boom!

The engine of the guided missile was ignited, and the powerful booster accelerated the guided missile weighing 170 kilograms to 300 meters per second, which is high subsonic speed, and launched it with a bang.

"Wow! What a wonderful firework, I haven't seen such a beautiful firework for a long time!"

The beautiful national pilot who pressed the launch button blew his whistle and shouted to the members of his formation: "Hey brothers, where are your fireworks? Let's let the little girl see the power of modern weapons!"

"Hahaha, here comes!"

"Together, blow them up!"

The other four fighters pressed the launch button at the same time, and five pyrotechnic missiles were launched. Many people from various forces in the Sakura country who were waiting at Ise Jingu saw these five terrible missiles. From all angles, the bomb dragged a long tail flame, flashing a terrifying momentum in the night sky, and flew toward Ise Jingu.

"It's over."

"Ise Jingu is over!"

"It's the NSM anti-ship missile, the latest model. Five of them are launched together. The Jingu can't stop it!"

"This is the f-35, the most powerful fighter in the world! Come and go without a trace, the Sakura country can't resist..."

"Run, go back and prepare to be guilty."

Waiting around the Ise Jingu, the f-35 swept the night sky and dropped five anti-ship missiles. Everyone in the Sakura country paled with fright, even if they had taken refuge in Ise Jingu's deputy prime minister Masato Uchiyama. The people who were sent were also deeply skeptical at this time. They felt that the five f-35s whizzing past were enough to play Ise Jingu with applause!

Even if the Mikami can withstand the first wave of attacks, what about afterwards?

The speed of the fighter jets is too fast. As long as Ise Jingu is blown down, Sakura's faith in Jingu will plummet, and no one will support Jingu at all.

"Yatata God Mirror [Water Surface Mirror Flower]"

Accompanied by the solemn voice of the girl, a huge mirror appeared above the Sakura Shrine, and countless people who followed here became serious.

Can the divine art from the goddess of Amaterasu, Mikako, resist modern powerful weapons?

It will be announced in the next moment!

"Can you stop it?"

Even the five fighter pilots who hovered over the Ise Jingu and flew up and down here could not help asking the same question.

They talked about it, but no one believed that the first attack would destroy Ise Jingu.

One round of attack is not enough, then two rounds, three rounds!

One f35 can carry six or seven tons of ammunition, and there are more than ten guided missiles that can be launched. Five of them add up to fifty or sixty missiles, enough to blow up a small city!

A mere Ise Shrine and a mere Mikami can withstand such a powerful offensive?

"Boom! Blow me up!"

A pilot screamed fiercely in the sky simulating the sound of a guided bomb exploding.

Almost at the same time, five subsonic guided missiles finally fell, and slammed into the mirror covering the sky above Ise Jingu from all directions.

"..."

Quietly, nothing happened.

Chapter 3787: Water mirror flower

There were no explosions, no ground shaking, no fireworks, no rumblings, the five pilots in the beautiful country sounded unusually beautiful explosions, none of them!

Without any reaction at all, five missiles worth nearly two million U.S. dollars just so quietly sank into this extremely huge mirror.

"This... why is it so like... the missile flew into the sea?!"

Someone hadn't recovered, they were surprised to see this amazing scene over Ise Jingu through the telescope.

"Fart, the missile can explode even if it falls into the sea water, at such a high speed, the sea surface is no less hard than the ground, and it will explode when it hits!"

"Then now...?"

"Who knows, maybe..."

"what happened?"

"what happened?"

"What kind of magic is this?"

"Oh my God, are all five missiles gone like this?"

The people around Ise Jingu who saw this scene with binoculars finally recovered one by one, but the shock in their hearts made them really know what to do, and they were all dumbfounded.

They all understand the power and distance of guided bombs. It is nothing more than wrapping them up with various high-performance explosives in a cartridge case and then trying to throw them out.

In theory, most weapons, except for chemical weapons, all bullets, grenades, self-propelled artillery, anti-ship missiles, atomic bombs, etc., are all exploded and physically destroyed everything nearby.

They understand modern science.

But the Mikami in Ise Jingu, how did she vanish the five missiles that existed in reality?

What was the price? Where did the five missiles go? Is it possible to completely resist all attacks as long as the mirror always exists?

Don't worry about anti-ship guided bombs, air-to-ground, air-to-air, drill, ground bombs, depleted uranium bombs, incendiary bombs, and other messy weapons. As long as you can't break through the defenses of that magic mirror, don't even think about attacking Iraq. Shijingu? !

"It's going to... change the sky."

A congressman who originally supported the prime minister and acted as a running dog in a beautiful country, after seeing this scene, his whole body was agitated, desperately thinking about what will become of the Sakura Congress if Ise Jingu defeats?

"WTF!?"

The five pilots all scolded, but they had no time to report it to their superiors, and they had no time to make a judgment to run away immediately. The Yata mirror, which was shining in the night sky, shone again.

"The Yata God Mirror [Zhao Jian Yao Mo]"

The solemn voice of Ise Kamakura resounded through the world again, and the onlookers in the distance shuddered, and quietly drew a little further away, even though they knew that the target of the magic mirror was not theirs, but the move just swallowed five of them. The magical scene of the missile really frightened them.

"Flee first!!"

Hearing her voice and the movement of the magic mirror, the five pilots driving the fighter plane made their decisions almost at the same time. No matter what the next attack or spell is, stay away from here!

Unfortunately, it is too late.

Five rays of light blasted out from the mirror, like a beam of light penetrating the sky and the earth, shining on the five f35s with an unstoppable force.

"God, what is this?!"

The first pilot who pressed the button before, only felt that there was a white light in front of him, and the entire cockpit was completely enveloped by this strange light. He could not see anything at all, so he fumbled forward with his hands and leaned against it. Memories were driving the fighter plane in a panic.

Chapter 3788: Seeing the demon

The result of this is that the f35 fighter flies like a headless fly. Fortunately, there is no shielding sound in this light, so that they can still hear some familiar instructions, so that they can fumble and operate, instead of letting the fighter directly. Hit the ground with one head.

But if this goes on, it will definitely be the end of plane destruction and death, without any accidents!

"Speed up, speed up, flee at full speed!!"

The captain roared loudly in the communication, and the panic in his heart broke his defenses. There was nothing in sight in front of him, as if he would collide in the next moment. This feeling of not knowing when he would die is the most terrifying. of.

If it weren't for their pilots who have received professional training, they might go crazy when they are shrouded in white light and cannot see what is in front of them!

You must know that they are now driving a fighter plane at an altitude of several thousand meters, but they suddenly become like blind men. Who can't be afraid?

"Received, increase the horsepower, and escape at full speed!!"

The five pilots who clamored for the bombing of Ise Jingu before, are now sweating in cold sweat and want to flee in panic.

Who would have thought that the world's most powerful fighter f35 would come to the enemy and launch a round of attacks within a single encounter, and then be forced to flee without even knowing the enemy's face or what kind of attack the enemy used. The way is also unclear.

Modern weapons are very strong, but humans who use modern weapons are too weak.

"Is there no ability in the future, and the fighters will not be able to open?"

A pilot thought sadly. They lost their vision just as soon as they were illuminated by the white light. They could no longer make any attacks and could only escape far away.

The only thing fortunately is that the fighter jets are extremely fast. He doesn't believe that the mirror can shine so far. They will be able to escape this terrible place in 30 seconds!

Ten seconds, twenty seconds, thirty seconds...

The five pilots lived like years in the cockpit. They couldn't see anything in front of them. Only the flight instruments kept emitting various beeps to let them know that they were still flying normally.

"Something's wrong..." A pilot listened, his expression gradually becoming frightened: "I, how did I hear the speed dial making a warning sound?"

"Yes, I... I heard it too!"

Someone immediately agreed.

This kind of sound is very special. The warning sound will only be emitted when the fighter's speed is too low to maintain normal flight.

However, the speed of the f35 is as high as twice the speed of sound, even if it is cruising at subsonic or double the speed of sound in normal conditions, it will not reduce the speed to the sound of a warning from the instrument.

Even when some pilots were learning to fly a fighter plane, they even laughed when they knew that the speed dashboard had such an audible warning, saying that if the fighter's speed was reduced by that much, it must be that the engine was broken, and there was no need to warn, just parachuting .

In fact, this speed warning sound is only a final guarantee: in the case that other instruments are broken, the speed of the fighter can still be monitored to prevent the pilot from not knowing that the current speed of the fighter can no longer maintain the flight.

But now, the pilots of the five fighter jets did not hear any warning sound from any other instruments, only the speed dashboard, which was getting crazier and louder and louder.

"Beep!!! Beep!!!"

The sound of warnings became more and more harsh, and they didn't even have time to think about why, and the fighter's intelligent system automatically issued a cold warning tone.

Chapter 3789: system error

"Warning: The current speed of the fighter has dropped to the minimum lift-off speed, the current altitude: 3,600 meters, please climb immediately!"

"Repeat warning: the current speed of the fighter...beep!"

The warning sound of the second food was too late to finish, and the warning content was refreshed again:

"The speed of the fighter plane has dropped to one hundred kilometers per hour, and it cannot maintain its flight..."

"Serious system error: The low-speed fighter is not in line with the level, the fighter's intelligent system is turned off, and it is switched to manual driving mode. Please fix this error immediately."

"Warning: The fighter has switched to manual mode. Please fix the error as soon as possible."

"No, no, no!!!"

Before the five pilots had time to think, the fighters under their seats had already actively shut down the intelligent system and fully switched to manual mode.

But they are now at an altitude of several kilometers, and they can't see anything in front of them. With their hands and memory, they can fly such a complicated fighter?

impossible!

Even in the state of regaining eyesight, fighters flying at super high speeds need smart modes to assist in flight, and human response speeds cannot be so fast.

But now, the fighter has shut down the entire intelligent system due to a certain error!

Let them, manually open f35? !

"What a joke!!!"

The five pilots who had previously clamored to blow up Ise Jingu, now all roared in grief and indignation.

But anger can't solve the problem, and the terrible beep continues.

This time, the intelligent system said something that horrified them:

"Warning: The speed of the fighter has dropped to a negative number. This state is seriously wrong. Please call a technician immediately to fix it."

Down to...negative? !

The fighter pilots of five beautiful nations slumped in their positions, completely giving up resistance.

They couldn't see what was in front of them, but they guessed what happened:

The light emitted from the mirror hit their fighter jets, causing them, who should have been flying unscrupulously in the sky at supersonic speeds, to drastically reduce their speed.

But all of the fighter's instruments are normal, the engine is still running, the radar for detecting the height of the fighter is still working, and everything is normal.

The only thing that is abnormal is that the fighter was dragged by the white light abruptly, so that the speed could not maintain the cruising speed, the system was disordered, and the current state of the fighter could not be judged, and it fell into a very strange system error state:

Which programmer who writes a fighter would think that when the engine is normal and the fighter is still flying in the sky, the speed of the fighter becomes 0, or even a negative number?

A negative number means that the fighter's engine is desperately injecting fuel while being...pulled backward!

"No, no, it's not true, it's not true, God!"

The speed of the fighter plane that dropped to a negative number finally destroyed these five incredible and beautiful pilots, and they collapsed and screamed.

Then, boom! Boom!

In the beautiful fireworks, five of the missiles they had fired earlier hit the ammunition bay of the fighter under their seats, and several of the several tons of missiles stored in them were all detonated.

The world's most powerful fighter jets instantly lost five of them and turned into five beautiful fireworks, blooming in the sky not far from Ise Jingu.

It illuminates the faces of many people who are standing on the ground and looking at the sky with horrified eyes.

What did they see? !

Five fighters were destroyed in just one minute?

Chapter 3790: Beat in one minute

No, if only five f35s were destroyed, it would be a surprise, not a shock.

But as they saw just now, from a huge magic mirror, a beam of dancing light was emitted, directly dragging the high-speed flying f35, like a huge palm, dragging five fighter jets to Ise Jingu.

The poor five f35s that were supposed to fly freely in the sky, reaching twice the speed of sound, ordinary people can't see their true colors and then whizzed past, truly come and go without a trace, their strategic power is infinite, and they can be called a big killer. The world's strongest fighter jet.

After being shot by the five beams of light, they are like being tied to a dog leash, and even if they scurry back and forth in the sky, they can't fly out of the mirror.

Afterwards, the people near Ise Jingu seemed to hear the man standing behind Mikamiko, saying in a faint Huang Xuan Mandarin: "Why do you pull it back? It just blows it up."

"Huh? Oh, okay!"

Mikako agreed and seemed to call another move. Five guided missiles flew out of the mirror again, and followed the beam of light with five booms, destroying all the five fighters.

The whole journey...from the fighter jets roaring in, to the disappearance of the guided missiles, and then to the five fighter jets turning into fireworks, it took less than...a minute?

"One minute?"

"One minute... Defeated five fighters from the beautiful country?!"

"Or the most powerful f35?!"

"This....."

Everyone was silent, everyone was frightened, everyone... hurriedly knelt to the ground, facing the direction of Ise Jingu, knelt down in fear and fear, and shouted: "Long Mikado. Live!"

Many of the chambers who were on the side of the prime minister who were still waiting for the news of this news looked at each other.

The whole house fell into deathly silence.

All those who opposed the prime minister were all imprisoned. The members who are still sitting in the House waiting for news are all people who stand on the side of the prime minister and all kneel and lick their father's country.

But now, an unknown panic began to permeate.

"what to do?"

"Prime Minister, what shall we do?!"

"No, no, five f35s will not work at all. In front of the adult in Ise Jingu, the f35 is as ridiculous as a bird!"

"That's right, it's not that adult's opponent at all!"

"It's our Yata Mirror! The adult mastered the use of Yata Mirror, and under the guidance of Omikagami, Ise Kamakura, no, His Royal Highness Mikami has mastered an extremely powerful power!"

From addressing that little kid to that adult, the senators' name for Ise Jingu's Mikami has changed unknowingly.

The prime minister's face was ashen ashen, and he opened his mouth, trying to say something, but he couldn't say a word.

In the end, a diehard around him opened his mouth and shouted: "If you want to have confidence in modern weapons, what about the f35? The beautiful country has a total of 3,000, and there are as many as 500 in our Sakura country and nearby military bases. In number, let alone other fighters, I'm sure that the beautiful country must be furious now, and they will soon send real power to use carpet bombing to completely blow up Ise Jingu!!! "
