Chapter 3881: Let's play the game

Li Yun didn't feel surprised!

Because, obviously, these 300-odd people, apart from the spies of various countries or intelligence collectors who are mixed in, most of them are supernatural beings and mercenaries.

This group of people are all "strong men" killed from the complex environment of Penglai Island. Well, don't care whether they are strong or not, but they must have killed monsters, and most of them have also killed people.

After fighting with monsters, their style of doing things has become a hustle and bustle, unscrupulous, manic, and they just want to use their supernatural powers.

The corpse just now, Li Yun estimated that these were the people who arrived first, and gave the people who came later a disarm. If you were frightened by the sudden movement of the corpse, it must be a bunch of rubbish. There is no strength to participate in the next action. Be a cannon fodder.

Li Yun was sure that the performance of these later people just now had been seen by some people.

"Shut up!"

A powerful body, like a muscular man walking out of the gym, stood up, shouted to Li Yun and others with a grinning smile: "Little rookies, welcome to the game site of 'You will die if you don't explore the way', below, Lao Tzu tells you about the rules of the game!"

Will you die if you don't find the way?

Li Yun and Alice glanced at each other, roughly guessing why this group of people were waiting here.

In fact, Alice had already told Li Yun about the general information about the strange pyramid last night.

The weird pyramid was buried deep in a huge mountain range. It seemed that for some reason, the mountain range that lay across the desert cracked open, revealing the spire of a pyramid that was hidden deep inside.

Moreover, it seems that in recent months, even after the aura of Penglai Island broke out, this mountain range split apart!

But no matter what, this mountain range has become abnormal.

According to the information obtained by Alice, the mountains are full of all sorts of weird imaginations, and countless mutated monsters emerge from nowhere, occupying the entire mountain range, hiding in every corner.

Normally, those monsters will not show up or leave the mountains, and even their alertness is extremely low. However, once people entering the mountains touch some of their cordon, the

hidden monsters nearby The beast will attack the incoming person frantically, until it kills everyone, and then slowly retreat into the mountain range.

The weird thing is that the monsters never leave the mountain for half a step, and even a person who escaped in panic has fallen to the ground, but the monsters stopped within half a meter of him, and finally slowed down. Slowly retreated back.

It seems that as long as you get out of the mountains, you won't be attacked by monsters, it's very mysterious, as if they are guarding the pyramid!

This is also the fact that after the news came out, countless abilities have acted as tomb robbers and turned into abilities tomb robbers!

"OK."

Hearing this voice, Li Yun started to feel pain in his head.

Alice looked back and saw that it was the woman named Qin Tianmeng. She was still wearing that big red palace dress, swaying her graceful waist, step by step, and then she was gathered in the desert with amorous feelings. The chaotic hair of the hot wind made countless men's eyes straight.

"Who are you?"

The muscular man's tone eased a little, and he glanced at the simultaneous translation behind Qin Tianmeng: "Are you from Huang Xuan country?"

"Well, yes, yes, but it doesn't matter."

Qin Tianmeng smiled charmingly, "The important thing is, I agree with what you just said, let's ~~~ let's play the game~!"

Chapter 3882: Who is the big sister big game

"You woman also want to play games?!"

The muscular man was stunned, obviously not convinced that someone would dare to play a game in front of him.

"Yeah, do you want to play?"

Qin Tianmeng said with a smile: "Just play~~'Who is stronger, who is the eldest sister' game, how about?"

The translation behind her was tangled up, and she still translated the general meaning of this sentence.

Although it can't be expressed accurately, the approximate meaning is definitely expressed.

"F * ckyoubitch !!"

The muscular man was furious, and with a violent wave of his hand, a steel ball that told to revolve flew towards Qin Tianmeng and blasted against her head.

Before everyone could react, Qin Tianmeng tilted his head with a smile, and a steel ball instantly passed her ears, causing a gust of wind to disturb her hair.

And then.

"boom!!"

The high-speed spinning steel ball hit the front of an off-road vehicle and exploded forcibly with the fuel tank on the front, but an off-road vehicle could not stop it. After the steel ball exploded two more cars, It suddenly hit the sand pile in the distance, blowing up countless dust, and the sand pile more than ten meters wide was flattened abruptly! !

The terrifying offensive power and the super-high speed that makes people unable to react are shocking.

"Metal ability person!!"

The people who saw this scene were all chilling in their hearts. Only those with this kind of attack power and this super-high-speed ability can do it!

To say that among all the abilities, the most troublesome is undoubtedly the speed abilities, these guys come and go like wind, very difficult to deal with.

It can be said that among the top powers, the strongest and most feared powers, out of ten, ten of them will be said to be power-strengthening powers.

People with low-level physical enhancement abilities are very useless and can be bullied by anyone.

But once these body-enhancing abilities have tempered their skin to be comparable to steel, and can block submachine gun bullets, they will be transformed into humanoid tanks overnight, and they will be domineering wherever they go.

For example, a person who made a sensation in the world before forcibly broke into the base of a beautiful country on Penglai Island. He is a body-enhancing ability who directly rushed into the base of the beautiful country, killing people when seeing the fortifications. .

Whether it was a solid tank, a bunker, or a tightly guarded headquarters, which was poured into concrete with ten iron gates, they were all knocked over by the man!

At that time, the rumbling sound of the battle spread over hundreds of miles, shaking Penglai Island a few times, which was extremely shocking.

Among those with enhanced physical abilities, those with abilities that can manipulate metal are the most perverted!

Not only are they strong and physically strong, but they can also manipulate metal. With a wave of their hands, countless grains of metal sand fly towards people, covering the sky, and they can easily kill a regiment of soldiers!

What's more terrifying is that when fighting a metal supernatural player, you must always pay attention to the metal on your body being directly controlled by the opponent, turning it into a weapon to kill yourself!

"Wow~~~"

After Qin Tianmeng wowed this woman, she said nothing, because... she didn't understand.

"translate."

Qin Tianmeng shouted to his translator. The male translator was obviously frightened. It took a long time before he swallowed and said that he was a metal supernatural person.

"That's it, it's terrible."

Qin Tianmeng persuaded, making three steps in two, returning to Li Yun and hiding behind him as if fleeing, holding his clothes in both hands, sticking out his head and shouting to the muscular man: "Hey, I Can't beat you, but you are not my husband's opponent, you have the ability to beat my husband!"

Chapter 3883: A designated residence

"Freeze said!"

Li Yun is speechless, who is this Qin Tianmeng? How can I say that someone else is her husband, so rightly speaking!

This mischievous effort is really amazing!

"your husband?"

The muscular man gave a grin, and glanced at Li Yun with a murderous look: "It's also a member of Huang Xuan country, then die together!"

"Dead? A joke."

Qin Tianmeng immediately returned: "Do you know who my husband is? Your mere metal ability can be blocked by my husband with just one finger."

Li Yun blocked her mouth, don't get me wrong, not with her mouth, but with her hands.

"Woman, shut up for me!"

Li Yun didn't bother to call her Qin Tianmeng, directly called a woman, incarnate as an overbearing president!

"Hehe, oooooo, over there!"

Qin Tianmeng saw the muscular man raised his hand angrily, and quickly stretched his finger over.

Li Yun didn't even look, and stretched out his right palm.

The next moment, a steel ball appeared between his fingers, suddenly appearing like a magic trick, without causing any fluctuations.

However, the roaring wind and crackling sound followed, and everyone was shocked. It turned out that the muscular man hit a steel ball that broke the speed of sound with his bare hands, but he was still single-handed by Li Yun, no, with two fingers. Clamp your head!

In an instant, the three or four hundred supernaturalists and mercenaries who saw this scene fell into deathly silence.

The expression on the muscular man's face even changed from a grin to a dullness, and then, it was a deep fear.

Of course, hitting the steel ball is not his all means, but this supernatural player from Huang Xuanguo easily clamped his steel ball between his fingers, and his powerful strength directly exceeded his imagination!

There is no need for a formal battle to know that he has lost.

The opponent may be a more powerful metal ability person, or another more abnormal body strengthening type ability person, in short, in terms of speed and attack power defense, he has completely lost!

"I'm sorry!"

The muscular man was also simply apologizing on his knees, without showing any face.

Most of the supernaturalists present did not show contemptuous expressions, because they also knew that this was the only way to survive!

The ability person knows the ability person better.

They know that the more powerful the superpower, the more battles he has experienced. The harsh methods are not to describe them, and the decisiveness of killing is only one of the characteristics of these powerhouses.

Very familiar with fighting, killing is like killing a chicken, and super high IQ are the common characteristics of these strong men!

Because it is also very simple. People with poor IQ and low combat effectiveness are all dead and cannot become strong.

"do you know..."

When Li Yun was about to speak, Qin Tianmeng jumped out from behind him again, and said triumphantly: "You know that my husband is great, right? Originally, you attacked me without authorization, and my husband is already a capital crime, but I am the master. You are a dog, you will be a pathfinder for me later, otherwise, I want you to look good!"

The translator faithfully turned out this passage. What else can the muscular man say? Can only admit it.

Li Yun didn't even lift his eyelids. He seemed to have guessed who this woman was, didn't he?

"Alice, go to the abbot, don't let her mess around."

Li Yun didn't want to care about the origin of this woman, launched Alice and let her handle the matter.

"it is good."

Princess Alice didn't refuse, she stood up generously and acted as Li Yun's talker.

As a result, Qin Tianmeng looked up and down a lot.

Chapter 3884: Husband, beat him

Especially on her chest, Qin Tianmeng's gaze stayed for a long time before she snorted proudly and stiffened herself.

"you!"

Princess Alice broke the defense directly. For a woman, this part is just like a man's, and it is not acceptable to talk about it.

You can say that small has small benefits, but once another woman compares with you, you seem to be automatically shorter.

It's the same for men.

"Hmph, can't you be better than me? Don't be better than just stay and look at me!"

Qin Tianmeng snatched Alice's princess, stood up to face the group of supernatural beings, cleared his throat, and shouted, "Give me all to my mother!"

The translator was in a cold sweat. After hesitating for less than half a second, Qin Tianmeng gave him a fierce look, and he hurried to translate in fright.

A group of supernaturalists, look at me, and I look at you, no one moved.

Li Yunqiang is true, but there are hundreds of abilities here, no matter how strong you are, can you kill them all?

Provoked the anger of the people, so she couldn't eat and walk around!

"Isn't it? Husband, come on!"

Qin Tianmeng waved his hand unceremoniously and motioned Li Yun to go up and show them some color.

"You shutup me!"

Alice was so angry that she gave a Chinese-English combination word, which made Qin Tianmeng disappear for a while.

"Everyone!"

Alice suppressed the anger that was aroused by this woman, and said to everyone: "People who come here may all come for the same purpose, but we all know the dangers hidden in this mountain range. This is also The reason you were waiting here before!"

The muscular man, and the group of people who came first did not speak.

"So I recommend!"

Alice directly said the suggestion: "We will go in together later. Whoever has bad luck or lack of strength, don't blame others if you encounter danger in the middle. Let's rely on luck to see who goes to the deepest buried pyramid first. See who can get the real treasure of ancient relics!"

When it comes to ancient relics, this group of people are all agitated.

They traveled far and wide to come to this place where birds don't shit, aren't they just waiting for this moment?

"In order to prevent us from fighting, I suggest it again!" Alice continued: "After we go in, we must not attack each other until we see the treasure, or even leave the Pharaoh country safely, until we get the treasure and confirm the safety. Time to discuss the ownership of the treasure!"

There was almost no objection from the crowd. They had planned almost this way. After entering the mountains, they had their own abilities, and no matter what they saw the treasure, let's talk about it.

Li Yun glanced at Qin Tianmeng, as if to say again: Woman, have you seen it? This is the right way to handle things.

Qin Tianmeng groaned, but instead cast a coquettish wink at Li Yun, without the slightest expression of shame.

"in addition."

Alice said again: "In order to prevent everyone from fighting, or to fight when they see some treasures on the road, I need to appoint someone to act as a deterrent. Whoever attacks others first will be killed by him!"

She stretched out a white finger and pointed at the muscular man just now.

"I?"

"Correct."

Alice said faintly: "You were disrespectful to my husband just now, so you must work hard to keep the team safe."

"This is also a way to find a way."

When the muscular man gritted his teeth, Alice added, helplessly, he could only snorted and agreed. However, a color of resentment flashed in his eyes.

Chapter 3885: Into the mountains

"Set off!"

Alice glanced at Li Yun, and after getting his permission, she waved her hand decisively and ordered.

Moreover, she was the first person to head towards the mountains, regardless of whether the people behind followed, waited and watched, or formed a team to go in temporarily.

She already has the certainty of absolute victory, that is Li Yun!

Joanna and another bodyguard, Abel, followed behind Princess Alice, silently serving as the background board-the main role of the two was to help the princess deal with some tedious things.

If you were to go in, you still need more bodyguards to carry various weapons, or eat and wear things to prevent being trapped inside.

But in the hands of Princess Alice, there is a magic ring gifted by Mr. Li Yun. The princess and them not only can travel easily, but also carry far more things than they did when they visited the Huang Xuan country graveyard last time.

Just the food you bring is enough for ten people to eat for a month, and all meals are delicious.

After Li Yun and his party, including Qin Tianmeng, entered the mountain range, the smile on the face of the muscular man immediately turned into a fierce expression, and shouted at the people outside: "Give me all in! Whoever doesn't To explore the way, and want to take advantage at the end, just ask the steel ball in my hand!"

Being threatened, or simply wanting to follow the strong, many people who have already formed a team have followed into the mountains.

With half of the people left, the muscular man shouted again: "You all give me hurry up, whoever is lazy, I will kill him directly!"

When Alice was appointed as the executioner before, he still looked reluctant, but now he is playing awe-inspiring with this group of people, as if he is really the "arbitrator" recognized by three or four hundred supernaturalists!

If you decide who is lazy, you can kill anyone!

More people chose to enter the mountains, leaving only a small number of caretakers to salute, or some intelligence providers who were connected to the Pharaoh or the Beautiful country, sent out a message.

In less than three minutes, the news that at least three hundred supernaturalists had entered the Pyramid Mountains reached the ears of almost every powerful force in the world.

Whether it is a certain powerful country, or certain supernatural powers, they have begun to act secretly.

As for the reaction of the Pharaohs, it was directly ignored by people all over the world.

This country can't stop even 300 people with supernatural powers, and still wants to stop the global joint exploration and the plot to dig the pyramid?

As for how the Pharaohs protested, just protest on Facebook or Twitter. In this age of aura, big fists are the truth.

In fact, it is not only the Reiki era, but in any era, it is the fist that is the truth.

"Oh my God!"

As soon as they entered the mountains, many people with supernatural powers shuddered. The instincts and powerful instincts they acquired told them that there was a huge horror lurking in this mountain range!

If it weren't for the large number of people, there is also a very powerful Huang Xuanguo supernatural power at the beginning, and they would have retreated long ago.

But even so, many people still hesitate to take this risk for ancient treasures that do not yet exist.

In the end, the vast majority of people continued to go inside. After all, they came, and they ran without seeing the enemy. How can they be supernatural beings?

"Li Yun, did you find anything?"

After entering the valley, Li Yun had been silently observing. Alice was also silent at first, but the more she walked into the valley, the more she felt shocked and couldn't help but ask.

Chapter 3886: guess

"Not yet, but."

Li Yun frowned and looked around, "Alice, you can tell me the information you got before."

"it is good."

Alice cheered up and explained to him while following Li Yun's pace.

If she was the only one to bring people in, she would not dare to be so casual, but Alice knew that Li Yun possessed something he called divine mind, which was more effective than eyes, ears, and nose, and could easily detect danger.

So Alice was relieved to explain it to him boldly.

"I have read two related reports. The first one should have been written by the person who first discovered and escaped. In his story, he and his five teammates entered this mountain range together, but not long after they walked in, they met After arriving at a few huge black scorpions, he stung his teammates with their tails in a blink of an eye, and pierced them alive with poisonous thorns, and the person who escaped was a wind type supernatural person, who was just far away when the incident happened. The location where the first wave was attacked, so I managed to escape from the valley."

"This information is known to many people, right?" Li Yun asked.

"It should be, he made a lot of money by writing this information." Alice hesitated, "but it should be credible, after all, many forces have inquired about it."

Li Yun nodded.

"The second piece of information is unique to me."

Alice continued: "A few days after the Black Scorpion incident, someone led the team, a team of twelve people, with various types of supernatural powers, a related scientist, and a desert combat experienced mercenary.

After entering this mountain range, they first encountered some small monsters, but they were all resolved smoothly. When they entered the depths, a mummified corpse suddenly appeared to attack them. The twelve-man team was lost and almost the entire army was destroyed. Escape from the mountains. "

Li Yun asked, "When I got out of the mountain range, the corpse didn't attack again?"

"Yeah." Alice nodded, "I combined some other people's information, and I can basically conclude that the monsters in this mountain can hardly go out of the valley. They seem to be cursed. Pharaoh's curse."

Alice added at last, a little awe in her eyes.

Cursing such a sinister thing is scary. If it is the curse of the Pharaoh, one of the oldest civilizations of mankind, it would be even more scary.

"Curse?" Li Yun looked around. The mountains were still mountains. There was no grass on both sides of the cliff, full of desolation and silence.

"Bullshit."

After entering the mountain range, Qin Tianmeng seemed to be much quieter, and a word popped out of his mouth like a spit.

"Bullshit?"

Alice squinted at her, "Could this Miss Qin Tianmeng, have any other better guesses?"

She said guessing, not opinion, enough to show Alice's distrust of what Qin Tianmeng was about to say.

Qin Tianmeng didn't reply, but he grunted again without answering.

"I can't tell you anymore, right?"

Qin Tianmeng didn't even speak even when Alice responded to her.

"If it's not a curse, then it's unnecessary."

Li Yun thought for a while and said, "If, according to the rumor, there is really a pyramid in the mountains, then these strange monsters, whether they are corpses or scorpions, are all things that protect the pyramids from intrusion, just like Qin Shihuang. The mercury mechanism in the tomb is the same, except that the owner of the pyramid knows strange things such as spells and formations, that's all."

Chapter 3887: Guard or watch

"Guardian? It makes sense."

Alice thought about it carefully and felt that Li Yun's words made sense.

"There are many tomb thieves in ancient and modern times, even the pharaohs of the pharaoh country. They built huge pyramids, but they are often stolen by later generations of tomb thieves, and even later generations of pharaohs!"

For example, many descendants of the pharaohs, too lazy to mine stones hundreds of kilometers away, directly excavate the pyramids of the previous pharaohs hundreds of years ago, and move the pyramid stones of the previous pharaohs to their own pyramids.

This led to a certain pharaoh who finally felt that the pyramid was pure rubbish. Not only did it hurt the people and money, but it also could not prevent tomb robbers, and most importantly, it could not be resurrected!

Therefore, the pharaoh simply hid his tomb, and later pharaohs followed suit. They all hid in the same place, that is, the valley of the kings on the way, and there are dozens of pharaohs tombs in it.

"As expected of my husband, I guessed the truth easily!"

Qin Tianmeng was the first to jump out in agreement, with a happy smile on her face, and she didn't know why she was happy.

It's very inexplicable.

The corner of Li Yun's mouth twitched, "It doesn't have to be monsters guarding the pyramid. It may even be the other way around. Those monsters prevent abnormal movement in the pyramid. The pyramid was actually a building to suppress monsters at first!"

Qin Tianmeng laughed loudly, not knowing what he thought.

Alice gave her a white look and asked Joanna next to her, "Have you collected any information?"

"Abel is already doing it."

Joanna quickly passed the information to Alice. The conditions were limited and she could only dictate her words: "The one who entered the mountains has four main strengths. The one who attacked Mr. Li before was one of them."

Only then did Li Yun understand that she and the bodyguard were going to collect information on those with supernatural powers.

"What's his name?"

Can't always be called a muscular man.

"It's Wook, a level 8 ability person." Joanna glanced at Li Yun, and added: "Converted to your ability level, it is about A++ level in combat effectiveness, close to S level."

The A-level is already a level that can fight a complete army. The A++ level has only a few perverted characteristics than the S-level, but it is a headache to manipulate metal.

"There are at least thirty power users gathered around Wook, each of which is above level B, and there are several auxiliary power users."

"In addition to Wook, there is another named West, who is a black man, controls the wind, and has an A+ rating."

"The third one is called Haka, who previously controlled the mummy. His ability is very special. The more people who die around, the stronger it is. It is said that he now controls two very powerful corpses."

"The fourth is a supporting ability player, Rina, is a water ability player. It takes both support and combat into account. It can greatly strengthen the fire resistance of teammates, strengthen the anti-strike ability in a medium range, and can apply group water shields. , Once blocked a round of rocket attacks!"

Joanna emphatically introduced the fourth person. The auxiliary powers are weak at low levels, but when they reach high levels, they are simply strong at abnormal levels.

Other abilities, such as the physical strengthening type, are stronger than a person.

Those with supportive abilities can strengthen a group of powerhouses!

Then through some of the characteristics of the auxiliary ability, the teammates' abilities are assembled, and the intensity is even more abnormal.

Chapter 3888: Strange smell

Li Yun nodded, saying that he knew, but he didn't pay much attention.

He is so confident that he can't do any harm to him just by relying on some supernatural powers.

When Joanna saw this, she didn't say any more, silently following behind her.

Qin Tianmeng, who followed closely, did not speak either, frowning lightly, with a preoccupied appearance, and the team suddenly calmed down.

This mountain range is actually very large. It used to be a high mountain, but for a long time there has been no rain and severe drought, which has turned it into a dead place, full of wind, sand, dust and large exposed rocks.

These stones were blown dry and cracked by the wind and sand.

Li Yun led the team to the forefront. Behind him, there were at least seven or eight teams following. Wuoke, who was the maintainer of order, was a little behind. From time to time, he glared at the people behind with fierce eyes, urging them to catch. Fast angle.

"Something's wrong."

Qin Tianmeng stopped suddenly, his face solemn.

"What's the matter?" Li Yun also stopped. Qin Tianmeng seemed unreliable, but when she faced Wu Ke's metal ability attack, she lifted her head to avoid the killer move, proving her strength. Enough to make her laugh and yell at more than 400 people with supernatural powers, or to say that she is domineering.

Alice also looked at her. This woman is usually unreliable, but at this time, she can't still make jokes, right?

"Did you not find out?"

"Find what?"

"Found~~You are not handsome anymore! Stinky."

"..."

Li Yun stepped forward, Alice also grudged her a roll of eyes, and Qin Tianmeng hurried to catch up: "Hey, I'm serious, didn't you notice a smell near here?!"

Li Yun finally stopped, sniffed, glanced at the hallucinations around him, and shook his head decisively: "This ghost place is windy all year round, and the wind and sand are big. If you can

smell any odor, you will be a ghost... Qin Heavenly dream, you can't lie all the time, do you understand?!"

"Okok, I totally understand!"

Qin Tianmeng pulled a foreign language, but said innocently on his face: "I'm really right, there is a smell of dead people here!"

"The smell of rotting corpses? That's normal. Many people died here not long ago."

"Perhaps, but I always feel something is wrong."

Qin Tianmeng still insisted on her opinion. Li Yun couldn't figure out whether she was deliberate or what she really felt.

"What did you find?"

The action of the two stopping to quarrel attracted the attention of the people behind. A beautiful black-haired foreign lady walked over. She was about 20 years old. She was also wearing a simple dress like Qin Tianmeng. A long white leg is very eye-catching in this harsh desert.

Ordinary people really dare to wear this way, I'm afraid they will get sunburned in their thighs after walking out, or their skin will be chapped by the dry and hot wind of the desert.

But the skin of this foreign beauty is supple and smooth, better than that of the 28th girl, and her face is also full of collagen. She is obviously a supernatural person who is very confident of her own strength!

"She smelled something."

Li Yun simply pointed to Qin Tianmeng, this foreign beauty quickly understood, and beckoned to her team behind him, and a hip-hop dressed subordinate immediately walked out.

"Amy, come over and smell it."

Chapter 3889: Olfactory

Li Yun just noticed that this beauty can also speak Chinese.

Joanna reminded in a low voice from the side, "She is the water system superpower, Rina, her team has many B-level and above powerhouses. I heard that she wanted to study the gods of the ancient pharaoh kingdom, so she came here. here."

Rina, the water system supernatural player, also has a keen hearing. Upon hearing this, she turned her head and smiled at Li Yun and Alice, and took the initiative to introduce: "My name is Rina and I come from the ice country. If we find any treasures this time, we can Don't take it, but if you get any power enhancement method, you must give us a share!"

She took the initiative to abandon the possible treasure, and many people looked at her one after another.

Li Yun was noncommittal, "Let's talk about it when you get in."

"Too."

Rina seemed to just say it casually, and soon turned her gaze to one of her men: "Amy, can you smell anything?"

Li Yun also looked at him. This person should be an olfactory-enhanced ability person. When he came out, he had been smelling all around him. He even lay on the ground and smelled it carefully. Although it was a bit offensive, it really looked like It's a dog that smells.

"Yes, there are some." The hip-hop kid is not sure, "I need to go ahead, don't follow so closely."

Li Yun raised his eyebrows, and said calmly: "Then you have to be more careful, maybe there will be a monster in front of you."

Amy's face became unsightly.

"Don't worry, I will protect you."

Rina stretched out her hand and wanted to add a water-attribute shield to him, but Amy said it would affect his performance, and the shield did not increase.

"Let's go then." Alice said, and looked at the sky: "It's late, let's go. I guess I will spend the night in the mountains tonight."

For many abilities, there is not much difference between day and night, which is why they dare to come in at five o'clock in the afternoon.

Everyone looked at the sky, and they didn't know whether it was because it was already evening or the mountains were covered with sand. They stood in the valley and looked up at the sky. They always felt that the sky was very dim, it looked like it was going to rain, and it was covered by dark clouds. Lived the entire sky.

But this is impossible. It rarely rains in the desert, and it is not the rainy season at this time.

Of course, now is the age of Reiki, and many things in the wild can no longer be inferred by the common sense of the past!

The crowd continued to move forward, and the olfactory enhancer Amy walked in the forefront, more than ten meters away from the crowd.

This distance is not too far, and it can be reached in a blink of an eye for speed ability users.

"Hey, dog, did you smell anything?"

Qin Tianmeng followed boringly and couldn't help shouting at Amy who was sniffing around in front of him, making many people who could understand Huang Xuan's dialect look at him.

The person who happened to be from Huang Xuanguo showed a weird expression.

In Huang Xuanguo's words, dog is not a nickname.

Fortunately, that Amy couldn't understand her, so the translation Qin Tianmeng brought hesitated and didn't translate the word dog.

"have."

Amy glanced at her elder sister, and when she saw her looking over with questioning eyes, she replied: "There is indeed a very faint smell around here, but it is not the smell of rotting corpses!"

"What's that smell?" Rena asked him directly.

"It's a..." Amy scratched her head. "I can't tell what it smells like. It's disgusting and disgusting. After smelling it, I feel...Ah!!!"

Chapter 3890: Attacks under the ground

Amy yelled, his foot was grasped by a cold hand, and a strong force came, and his body was pulled violently and rushed towards the ground made of sand and rocks.

In the blink of an eye, before everyone had time to react, half of his body was already under the surface of the sand!

"Boss, save me!"

Amy screamed in surprise. He only has a slightly more powerful olfactory ability, and his physical fitness is two or three times stronger than that of ordinary people. In this perilous valley, it can be said that he has no combat effectiveness.

"Certainly!!!"

A thunderous shout sounded, and the entire valley vibrated. Amy's ears buzzed and the eardrums were painful, but the magical thing was that this loud shout actually shocked the cold palm that grabbed his right foot, causing it to drag itself to a minimum.

However, the strength of the drag has not disappeared!

"I come."

Alice reacted quickly. She raised her hand and took out the colorful double-stranded fork that Li Yun gave her. She jumped up to Amy's side, like a Valkyrie falling from the sky with the double-stranded fork facing Amy's feet. Land, stab hard.

"Oh!!!"

An inexplicable sharp howl echoed in the mountains, and all the more than four hundred supernaturalists were shocked and looked around on guard.

I don't know where this weird cry is coming from, and I don't know what ghost is screaming. I don't know if it is a ghost or a monster, but everyone who hears it feels it comes from the heart. The fear.

This monster is definitely the strongest and most weird existence they have ever seen! !

"Blood?"

Alice pulled up Amy, who was still in shock, and immediately noticed that his feet were dripping with wet blood, and when she looked down, a large area of land was soaked in blood.

"No, it's not mine, I, I'm okay!" Amy stood on the ground tremblingly, and after seeing a stone nearby, he immediately jumped up.

He now has a psychological shadow on the ground in the valley. If it weren't for flying, he would never touch the ground with his feet.

"It's really not yours. You shed so much blood and died early."

Qin Tianmeng glanced at his feet, then looked at the red blood that was still slowly pouring out of the ground, and nodded, "I understand!"

"Understand what?!"

Everyone immediately looked at her, this strange scene made many people tremble, if it weren't for the dead, the people behind them fled.

Now I heard that Qin Tianmeng knew what the enemy was and looked at her, waiting for an answer.

Li Yun vaguely had a bad feeling.

Sure enough, Qin Tianmeng covered his mouth and smiled: "This underground monster is very thirsty. It even drank blood, and its whole body was full of blood, so it shed blood all over the ground with just one poke!"

Everyone's expressions were very exciting, and Wu Ke even cursed and cursed: "Are you playing with me?! Damn you, shut up if you don't know how to talk, and talk nonsense!"

A dangerous light flashed in Qin Tianmeng's eyes.

"Thirsty?"

Alice raised the double-stranded fork in her hand, without any traces of flesh and blood remaining on it, and recalled: "I didn't stabbed anything, Mr. Amy, what did you catch?"

"Yes, it's a hand!"

"one hand?"

"Yes, it's a cold, dry, creepy hand!" Amy hasn't recovered from the thrill just now, "I, I can feel that it is by no means a living person, and the hand is as cold as a corpse. , Like a corpse!"

"Mummy? It's... a mummy, right?"
