

Godly Choice 531

Chapter 531: Into the forest

"Kneel for grandma and aunt! Kneel in two rows, from high to low, don't be messy!"

Jin Liuli yelled at these robbers with great interest, but Brother Machete, Dahu and others had already been frightened, and now they did not dare to resist, for fear that the golden whip would be thrown off and their necks would be cut off!

Li Yun smiled and said: "Okay, don't toss them, let them tie themselves up, and then I will call someone to catch them back."

Jin Liuli let them go, and Wu Maoping took the opportunity to compliment her and praised her whipping technique so that Jin Liuli, a simple girl, smiled again.

But obviously, although she was very helpful in complimenting Wu Maoping, she was always next to Li Yun and treated Wu Maoping as a muddy leg.

Toothpick glanced at Jin Liuli fearfully, and whispered to San Ye, "San Ye, this time our trip might be easy."

San Ye said with emotion: "These people are all sects from the rivers and lakes. Unlike us who are tomb robbers, we can only rely on this thief to make a living!"

Although the tomb robber seems to be very tall, in the final analysis, it is a thief, digging the tomb of the dead, and theft. It is less virtuous than ordinary thieves, at least the thieves do not dig the ancestral graves.

Therefore, the average tomb thief has the strength of the Body Tempering Realm at best, and those with the cultivation base of the Hou Tian Realm will not come to the tomb robber!

With such masters as Jin Liuli, maybe they can successfully enter the tomb this time, return the things back, and take out the curse wrapped around them!

Guo Xun came quickly. He found the group of armed robbers very early behind, and now he is quite helpless about this situation.

In the end, Hu Fanbo had to take the initiative to stay and escorted the group back to the police station.

Hu Fanbo was also in a congenital realm. Even if the people like Machete were armed with a gun, he was not his opponent. He was enough to deal with it alone.

"Hurry up, hurry up."

The two teams converge, and Li Yun is still the captain.

The team became nine people and entered the vast forest.

Horse chestnuts, alpine banyans, red maple trees, tallow trees, many trees, endless, green forests cover the sky.

A boring walk can easily make people lose their patience. Jin Liuli doesn't know how many inquiries have been made, but the toothpick shrugs every time, San Ye's tired face is flushed, and his mouth is gasping.

Li Yun said: "Let's take a rest, have lunch before leaving."

"Ah, so annoying!"

Jin Liuli is not tired, but feels very bored, so she whispered to Li Yun, looked up at a tall tree, and suddenly said, "I'll go up and take a look and take a breath."

After speaking, the light figure flew like a butterfly, and suddenly jumped to the top of the tree.

Li Yun ignored her, only shouted to her: "Come down and eat instant noodles in ten minutes!"

Her mother asked Wu Maoping to take care of her, but Jin Liuli always stuck to Li Yun, and threw things to him unceremoniously, and walked with empty hands.

—You are an acquired martial artist, although you can't beat me, but you won't be tired with a little thing, right? Hehe~

This is the original words of Jin Liuli.

Located deep in the mountains, it's good to have instant noodles.

Jin Liuli was sitting on the branch, her two little feet swaying, her wide vision made her feel a little more comfortable, and Li Yun, who was about to start a fire on the ground, smiled and said, "Hey, big spooky ghost, let's go hunting at night. When you come to the deep mountains without hunting and eating barbecue, it seems that there is no taste of experience at all!"

Li Yun couldn't laugh or cry, "Are those robbers not enough for your grandmother?"

"That's enough, their strength is too bad, let me say, some innate level cultivation...Ah, big bad guy, someone is coming!"

"???"

Chapter 532: A team of thirty

Everyone was shocked, isn't this lively little girl joking? If someone comes, someone just happens to be?

"Really, a lot of people! There are at least thirty!" Jin Liuli got excited, stood up and covered her eyes with her little hand and looked into the distance. While looking at it, she said, "There are blacks and whites, um, and yellows. People, holding submachine guns, two of them are also carrying an iron guy. They don't know what it is, it's so strange!"

Li Yun couldn't laugh or cry, what is a yellow man?

After Toothpick heard the submachine gun, his face changed again!

You can get something like a submachine gun, which is much stronger than a shotgun. Although the martial artist is strong, it is really hard to say when it comes to submachine guns.

If it is more than five submachine guns, you have to dodge it if you are born!

Not to mention the other party's more than 30 people!

"I'll go up and take a look, you guys put out the fire!" Guo Xun acted immediately, leaping onto the tree and taking out a small single-tube telescope to observe the distance.

Toothpick hurriedly put out the fire with his feet, looking very panic.

Wu Maoping couldn't help but sneered: "Does it need to be so flustered?"

"What do you know!" The toothpick returned to him: "Here in the wilderness, the other party killed you. There is no need to bury your body. No one will find your body after three to five years. What's more, the other party has a submachine gun. The purpose is definitely not. simple!"

Wu Maoping's face sank, just about to say something, Jin Liuli jumped down, and the novel shouted: "No, no, no, they see our smoke and fire, they are coming towards us!"

Then he asked Li Yun: "What should I do? Those foreigners are definitely not good people, should we do it?"

Li Yun frowned and said: "The other party's purpose is unknown, and he is holding a heavy firearm. The origin is not trivial. Let's not conflict with them for the time being, let's go!"

Being able to get a submachine gun in Huang Xuan country shows that the opponent's strength is quite extraordinary.

Everyone hurriedly packed their luggage, Yang Jie made some hands and feet at the fire, disguised as a natural extinguishment, Guo Xun threw a few water bottles and instant noodle buckets on the ground, and stepped on a road along the front.

Wu Maoping couldn't bear it again: "Is it necessary to be so troublesome? Wouldn't it be better to cover it up?"

Yang Jie gave him an idiotic look and explained: "The smell of instant noodles and flames is too late to dissipate. The other party must know that someone is here and can only pretend that we have left."

As she said, she took out a small button and carefully placed it in a hidden place.

Jin Liuli's eyes glowed, and she asked softly, "Sister Yang, is this a monitor?"

"No." Yang Jie smiled, "The real-time monitoring monitor needs to emit electromagnetic waves. It is easy for people to find that this is only a recording. We will come back to fetch it after they leave."

"Wow, Sister Yang is amazing!"

"Haha, you girl has a sweet mouth, but we have to get out of here soon."

"Um!"

Everyone quickly packed up and was about to set off. Li Yun glanced around and said to them: "You go first and wait for me on the top of the mountain in front."

"Do you want to eavesdrop on their conversation?" Guo Xun immediately understood what he meant.

Li Yun nodded and smiled: "Don't worry, my concealment skills are still good, Liuli, don't mess around, you follow Sister Yang!"

Jin Liuli opened her mouth, and she didn't even speak. How did this villain know what she wanted to say?

Yang Jie took Jin Liuli's hand and left, with her recording equipment still there. After all, Li Yun might not be able to overhear the conversation.

After they left, Li Yun dodged and hid behind a large leafy tree in the distance. Soon, a sturdy team of more than 30 people appeared in his field of vision.

Chapter 533: Her Royal Highness Princess Alice

There are about thirty people in this group. Just like Jin Liuli said, there are black, white and yellow people, and there are relatively few yellow people, only a few.

The remaining black and white men are all strong and muscular hunks in camouflage uniforms.

Moreover, he was armed with a submachine gun and a bulging waist. It seemed that he was carrying a grenade, and he was carrying a backpack on his back. It seemed that all the people in this team were special soldiers!

"Whyisthereafirehere? (Why is there a fire here

Li Yun couldn't see who was the master who said this sentence. He only heard what she said in English, and her voice seemed to be authentic and very standard.

"Miss Alice, it is estimated that this place is left by the rushing people in front of you!"

A yellow-skinned middle-aged man answered in English respectfully.

"It's really a coincidence." Alice smiled. "We saw the bullet shells left by their fight outside the forest. We didn't expect to encounter the fire left by them again here, but unfortunately we didn't see them, otherwise it must be very interesting. !"

"Miss Alice, I don't find it interesting!"

A handsome man with white skin and short blond hair sneered, raised the submachine gun in his hand and squeezed the trigger fiercely.

Boom boom boom!

A series of ear-piercing bullets sounded, and countless birds fled in panic. Li Yun hid behind the big tree and clearly saw a bullet pierced through the trunk beside him and shot out.

Sure enough, the big tree not hiding above them was right.

This group of people holding submachine guns is not good at first sight, and encountering people in the forest is more dangerous than encountering beasts. It is normal to shoot if they don't agree!

"Ding, trigger the option event, please choose from the host:

Choice 1: Go out, find a way to kill this group of people, reward experience value + 1 million, all attributes + 3000, golden gift bag*1, obtain skills: God-level doomsday survival skills (for the host to hide), great probability Aroused the anger of country Y.

Option 2: Go out, find a way to make friends with each other, reward experience value +100,000, all attributes +30, blue gift bag*1, Alice Windsor favorability +30.

Option 3: Do nothing, no reward. "

Looking at the three options given by the system, Li Yun's mouth twitched.

Arouse the anger of country Y? ?

So, Miss Alice Windsor is the princess of the royal family of Y country? If Li Yun remembers correctly, the surname of the Queen of Country Y is Windsor.

Bai Fumi is sure, and it is the top Bai Fumi, the top Bai Fumi that few girls in the world can match.

But Li Yun really didn't dare to provoke her now, of course, he won her favor, which is good for future development.

But similarly, Li Yun can't bear the anger of the royal family of Y country now!

Such a princess from the royal family, he should not provoke him.

"Ding, the host did nothing, reward an egg."

Li Yun: "..."

What the **** is this egg?

Having said that, this is the first time he has been rewarded no? The system is really cheating!

"Miss Alice." Another foreign man said respectfully in English: "They should have left in a hurry. This place was disguised as a trace of the fire after the fire was extinguished, but I checked it and the instant noodle bucket had not been eaten. trace."

Alice nodded and smiled: "I am curious now how they found us? It stands to reason that when they find us, we can also find them!"

Chapter 534: Noble Princess Alice

"Miss forgive me!"

A few white-skinned foreigners knelt on one knee in panic, making a group of black mercenaries stare at each other. What kind of background the blonde chick made these powerful whites fear her!

But it has nothing to do with them, as long as the money is in place, they will work!

"Get up all, I didn't blame you. Huang Xuan has many capable people and strangers, no worse than our Y country knights."

Alice smiled slightly, turned her head to look around the forest, and slowly said, "It's just that I'm curious, are they - are they listening to our current conversation?"

Li Yun's heartbeat suddenly accelerated!

Through the many branches and leaves, his gaze seemed to match the sharp gaze of the blond noble princess. For a moment, Li Yun felt the pressure of this beautiful princess.

Alice Windsor, this princess from country Y is not easy!

Li Yun slowly closed her eyes, and when she opened her eyes again, Alice's gaze had already turned away.

Li Yun was sure that she had not noticed herself, but that kind of extravagant eyes still made people dare not look directly.

Through numerous branches, Li Yun roughly observed her.

The golden waist-length hair is slightly wavy, and the sun shines through the branches and hits this golden wavy hair in a speckled shape, which is extremely dazzling.

She is tall, with a full height of 1.75 meters, wearing modern tight-fitting camouflage, with a dagger and a pistol around her waist, and a short golden spear in her hand, which makes this beautiful princess look exceptionally heroic, like a Valkyrie Proud and brave!

It is strange that Li Yun actually saw the word 'brave' on a woman in her early twenties!

But on second thought, this group of people came to Huang Xuanguo without any hesitation, and got into this deep mountain and old forest. As the leader of the team, Alice could not be delicate, she must have some kind of ambitious purpose!

"Her purpose... Tomb of General Xu?"

Li Yun doesn't know for the time being, but it can be seen that they are very vigilant, their weapons did not leave their hands while resting in place, and there were more than five people on guard at any time.

Even Alice, a woman, did not disarm during lunch, and kept on guard.

But what makes Li Yun speechless is that this woman... is too pretending!

He can only use the word pretend to describe it.

Because this woman actually brought a whole set of tableware to adventure, including goblets, red wine, ice cubes, snacks, white tablecloths, dining table, face towels, steak and so on!

She even asked two people to carry a generator and a cook to cook with an induction cooker. Can you believe it?

The 'Iron Guy' that Jin Liuli saw at the top of the tree before was this generator.

What makes Li Yun's mouth twitchy is that the induction cooker brought by Princess Alice is not for others to use. Others stay away from her making fire and cooking. Even her personal guards have not been able to enjoy the induction cooker and can only eat soaks. Cook the noodles.

"This princess has reached a certain limit in her pretense state."

Li Yun couldn't help but sigh.

In fact, it is not called pretending to be forced, but Alice, as a noble princess, naturally has to be different and can't squat on the ground and eat instant noodles like a commoner.

Don't look at the princesses in the camera who are close to the people and behave very easy-going, but secretly, Li Yun estimates that these princesses and princes are walking with nostrils up to the sky, and they don't even bother to communicate with civilians.

"Pretending to be forced is going to be struck by lightning."

Li Yun smiled secretly, hoping that this Princess Alice would not go to the tomb of General Xu, otherwise she would be chased by zombies and scared her to lose her face and nobleness, the scene would be wonderful!

Chapter 535: Silent Contest (Part 1)

After Princess Alice and her team left, Li Yun took out his mobile phone, exited the flight mode, and sent a text message to Guo Xun.

After waiting for a long time, Li Yun jumped off the branch, quietly approached the place where she had just stayed, walked around, confirmed that there was no one before showing up.

No wonder he was cautious. There were mercenaries in this group, and they were super mercenaries no less than Guo Xun's rank. Yang Jie would leave things to monitor after he left, and Li Yun estimated that they might also keep them.

"I cover my face, and even if they see me, they don't know who I am."

"No! What if their purpose is to make sure I have found them?"

Li Yun thought in his heart, stood there thinking for a while, and suddenly said in another voice:

"Miss Alice? I know you are nearby, please come out and have a chat, I don't want to conflict with you!"

There was no one around, except for the singing of birds and insects, there was no echo.

Li Yun tried a few more words, but it still had no effect. It seems that Alice and others really didn't leave any monitoring equipment.

"The danger perception is a master level, and the sneaking skills are also a master level, but what I need now is the anti-surveillance skills, these two skills are useless!"

Li Yun was depressed, Fang Hen less used his skills.

Since he couldn't find out, then don't think about it. Li Yun checked the surroundings and found nothing valuable left by Alice, and went straight to the recording equipment left by Yang Jie, picked it up and took it away.

"Miss Alice? I know you are nearby..."

"Well, I'm here, hehehe~"

Listening to the man's voice from the monitoring device, Alice deliberately answered in a lazy tone, and then she couldn't help but laugh.

The smile of the beautiful blonde princess was very bright and cheerful, which made the black mercenaries dazzled. This trip was really worth it!

Not only did he give enough money, but the employer was still a blonde chick. This chick looked no worse than those female celebrities, and she was eye-catching when she saw it!

"Miss." A white man said respectfully: "It seems that the other party did listen to our conversation, but fortunately we also kept a hand and put a state-of-the-art monitor on the scene. Fortunately, The other party didn't find it either."

Both sides used their own methods, and both knew each other's existence. The silent contest was enough to make people tremble!

"Well, David, you did a good job."

Alice chuckled, "Unfortunately, we failed to get the monitoring equipment on him."

"It's difficult." David said solemnly and solemnly: "This man with a very young voice can still remain hidden under Abel and I's search, which is enough to prove that the other party is also a master. There is nothing in him. He will find out immediately, it is almost impossible to stick the monitoring device to him!"

The other white man nodded and agreed with David.

Alice thought, turning the golden short spear lightly in her hand, and said, "Since he can't be put on his body, what about the others? Abel, can you follow them without being found?"

"Of course!" Abel was very confident: "As long as I act alone, I can find them in the forest and find the time to install the monitoring device on one of them!"

He understood Alice's intentions, so after he asked David to protect Her Royal Highness Princess Alice, he left the team alone.

"Okay, don't worry about them." Alice stood up and stretched her waist, her bulging figure slender under the tight camouflage, making the mercenaries stunned again.

"Let's go ahead and act according to the original plan!"

"Yes, Miss Alice!"

Chapter 536: Silent contest (part 2)

Li Yun and Guo Xun met and briefly talked about the information they had obtained. Of course, he didn't say that Alice was the royal princess of Country Y. He only said that the other party had a lot of origin, so be careful when you encounter it.

"Humph." Jin Liuli leaned close to Li Yun and looked at him, "I heard a gunshot and thought you were beaten to death, so I was shocked!"

Although she didn't care about it, Li Yun seemed to be able to see a trace of worry in her eyes, and couldn't help but warm her heart, stretched out her hand and rubbed her little head, and said, "Thank you for your worry, Xiao Liuli."

Jin Liuli's face blushed and looked shy, but then furious, he reached out and patted his hand: "Who is your name Xiao Liuli? How am I young? I will be an adult in two years... not right, I'm all born, better than you!!!"

"Okay, I see, my congenital heroine!"

"Hate, I'm not yours, you big **** demon, big **** ghost, big **** embryo!"

A glimmer of haze and resentment flashed in Wu Maoping's eyes, and the relationship between Jin Liuli and Li Yun was so fast!

3 o'clock in the afternoon, while resting.

Guo Xun came to Li Yun and asked, "What do you think the origin of that group of people is?"

Li Yun felt weird, and was about to say that I didn't know if I said before? Did Guo Xun see that he had concealed them?

However, he quickly understood Guo Xun's purpose.

"Someone."

Guo Xun wrote two words on the ground with a branch, and Li Yun immediately reacted and wrote: "Someone is following us? How many?"

"I don't know, about 1-2, the other party is extremely hidden and cannot be located!"

Li Yun frowned deeply, Alice and the group were really powerful, and they sent someone to follow them alone.

As a result, the situation immediately turned bad.

The enemy is in the dark, and I am illuminating, this situation is very deadly, and if the opponent does not show up, Li Yun has almost no way to crack it.

Unless they abandon the toothpick and San Ye, and even Jin Liuli and other innate cannot bring them, Li Yun and the three can act alone, and it will be possible for the other party to find their traces.

"Ding, trigger the option event, please choose from the host:

Choice 1: Take the initiative to surrender, tell the purpose of your coming here, let the opponent show up, reward experience value +50,000, white gift bag*2, skill: form is stronger than human (host is easier to survive, but also loses blood).

Option 2: Ignore, no reward.

Option 3: Send out Guo Xun, let the other party fight with him, reward intermediate pill (four types)*1, and extra reward purple gift bag*1. "

Li Yun couldn't help but look at Guo Xun, but Guo Xun thought he was asking for his opinion, so he nodded and wrote: "Okay, I will leave quietly and let Yang Jie follow you."

Now the only way is this. Guo Xun's departure will inevitably be noticed by the other party. As long as Guo Xun is not discovered, the person who hides will be vigilant and dare not take any action at will.

The enemy is in the dark, and Guo Xun is also in the dark, making a non-face-to-face contest with the opponent!

Faced with the three options of the system, Li Yun chose the third without hesitation.

"Ding, the host makes a choice, rewards four medium-sized pills*1, and gets an extra reward: a purple gift bag!"

"System, open the purple gift bag!"

Li Yun didn't think much and opened the purple gift bag directly, because the pill was prompted by the system to Li Yun to Guo Xun. No matter what the purple gift bag was opened, he would earn extra money.

"Ding, congratulations to the host, I opened up the purple-grade equipment in the purple gift bag: the soothing heart protector!"

Chapter 537: Soothe the nerves

Li Yun was overjoyed, but he got another piece of equipment?

Quickly take a look at the properties!

"Soothe the nerves

Effect: Soothe the nerves and calm the soul, retreat the wronged soul!

Description: Placing the chest can resist a critical attack, with a certain exorcism and illusion effect.
"

Exorcising evil spirits and breaking illusions?

After reading it, Li Yun was a little bit regretful, saying that offense is the best defense. This calming heart mirror didn't seem to work very well, and it was a bit worse than the same purple ghost-binding rope.

The ghost-binding rope can whip the ghosts, and this calming heart-guard can only protect itself, and it does not have the ability to actively attack, which is a pity.

But it's okay.

In Guo Xun's surprised gaze, Li Yun handed him all the four pills and told him how to use them. Finally, he took out the soothing heart-protection mirror from his backpack. This mirror was small and it was not a problem to put it on his chest.

"Use it carefully." Li Yun said jokingly: "This thing is a one-off, and it will be gone if it breaks!"

"This is... a magic weapon?"

Guo Xun looked at this mirror and it was not very strong, but the boss said that it could stop a critical attack, and it could only be a magic weapon!

"good!"

Guo Xun was pleasantly surprised, but he didn't put it on immediately. Instead, he glanced at Yang Jie. Unfortunately, the boss didn't have much, so he could only use it first and give it to Yang Jie when it was dangerous.

Li Yun could not help but sigh in his heart. It seems that it is not unreasonable for Yang Jie to like Guo Xun.

"Thank you boss, then I'm leaving?"

"Okay, go ahead."

It didn't take long for Guo Xun to disappear. It took a while for the toothpick to find out about it, but when he saw that Yang Jie and Li Yun were calm, he understood that Guo Xun had taken the initiative to leave.

Jin Liuli wanted to ask something, but was stopped by Li Yun.

"Go on!"

As the team went all the way, Jin Liuli no longer complained in the morning. She faintly smelled a hint of danger. Are the foreigners still following them? How did Guo Xun leave again? The key is, what preparations did Li Yun do?

It's a pity that she tried to find out something, but she never found anything abnormal, and finally had to follow Li Yun depressed.

"Arrived!"

The toothpick carried San Ye, who was already unable to walk, and stopped in front of a low hillside. He heaved a sigh of relief, forced a smile and said, "This, this is the tomb of General Xu."

San Ye's face was also very bad, and seeing the familiar scenery evoked bad memories between the two of them.

"Where is it?" Jin Liuli looked around and wondered: "I haven't seen a raised tomb. It's either a tree or a mountain. How can there be an ancient tomb?"

Wu Maoping didn't find the ancient tomb either, and said unhappily: "Toothpick, are you not going to play us? Tell you, dare to play us, so you can't eat it!"

Toothpicks were too lazy to win him, and respectfully asked Li Yun who was looking around: "Mr. Li, do you know how to use Feng Shui?"

"A little bit of knowledge."

Li Yun smiled slightly, pointing to the river flowing down from the top of the mountain in front of him, and said with a smile: "This river and the surrounding mountains are really a blessed place. Look at the two mountains in the distance, like dragon antlers, winding. The mountain road is the body of the dragon, and the river is the blood of the real dragon. The whole dragon veins suddenly fluctuate, the snake swings, and the shape is like a living creature. It's amazing!"

Jin Liuli's eyes lit up, "The bad guy, did you see where the cemetery is?"

Generally speaking, the ancients emphasized feng shui, especially the nobles, and they would be buried in the treasures of feng shui after death.

Chapter 538: Official gongfu bell

Therefore, the more powerful tomb thief does not need a shovel at all, just rely on a pair of eyes and look at the surrounding Feng Shui to locate the tomb!

"Bullshit!"

Wu Maoping sneered: "Although I don't know what landscapes are, I also know that Longjiao pays attention to symmetry, but one of the two mountains you mentioned is short. This can also be a treasure of geomantic omen? Who is fooling!"

"Yes, that's it!"

Li Yun smiled faintly, "If the two mountains are the same high, then it is the land of the true dragon, and the tomb of General Xu will also be buried in that mountain!"

Li Yun pointed to a 500-meter steep mountain in the distance, "But unfortunately, is the land of true dragons so good? Ordinary people would not dare to be buried in such a place, so the General Xu retreated to second place. , Buried an'official guilty bell!"

"What official clock?" Jin Liuli's face was full of doubts.

"High, it's really high!" The toothpick slapped Li Yun's flattery. "The so-called official cover bell refers to the shape of the star peak like a cover bell and a cauldron. It has a round drum and is buried here to bless future generations. Oh, the clouds are long and long!"

San Ye smiled and said: "When I came for the first time, I also secretly said that it is a pity that this place of true dragon is the most similar I have ever seen, but it is still a little bit worse. It seems that God doesn't want to have a true dragon so easily. The mountains still have some truth. There are many geomantic treasures here, and until modern times, many people still choose to be buried in the mountains."

Wu Maoping was slapped in the face again, and he was very angry. Yin and Yang said strangely: "You are so awesome, can you see where the tomb is without relying on other people's guidance?"

"How difficult is this?"

Li Yun stretched out his hand and pointed to a hillside not far away, "I'm sure that the tomb of General Xu is there!"

"Really?" Jin Liuli cheered happily, "I'll take a look, hehe~"

"return!"

Li Yun yelled, Jin Liuli, who hadn't run far away, happened to raise her foot, but she didn't dare to let it go.

"What a nonsense, forgot what I told you?" Li Yun scolded her coldly: "When you come to the cemetery, you must listen to me. Don't run around. I am not by your side when you are in danger. See who will protect you. you!"

"Woo~" Jin Liuli murmured, her cheeks bulged again, but this time she did not dare to stare at Li Yun, but showed aggrieved eyes.

To be honest, regardless of men, women or children, it is hard to be cruel to face Jin Liuli who is acting like a baby, but in order to give her a long memory, Li Yun had to make a black face, lest this girl enter the tomb and mess around.

"Huh, does anyone think of themselves as a master?"

Wu Maoping smiled sarcastically, and walked there, "Sister Liuli, don't be afraid, you follow me, and I can protect you as well!"

Jin Liuli glanced at him, obviously not convinced.

Wu Maoping's expression was stagnant, and he walked to the hillside bitterly, and suddenly sneered: "There is nothing here, just a rabbit hole. What about the tomb you said?"

"It's the rabbit hole."

Toothpick walked over calmly, but halfway through, his face gradually became pale, "Five or five days ago, this thief was mine."

Robbery, a hole where a tomb robber enters the tomb and dug out with a shovel.

Generally speaking, before hacking a thief cave, you need to go through careful positioning to determine the structure of the tomb, the front, middle and back, and left and right structures.

In addition, it takes a long time to dig the soil, and always be vigilant whether anyone finds that they have actually entered the tomb and the tomb robbery has basically ended.

However, the toothpicks and the people before them have already made the hole, and you can go directly in.

Chapter 539: I can also shrink my bones

Before everyone came to the thief cave, Li Yun looked at it. The entrance of the cave was very small and could only accommodate a seven or eight-year-old child. It was inclined, not straight down.

In addition, a extinguished red incense candle was placed at the entrance of the cave, which looked strange outside the entrance of the dark tomb.

"This is the tomb and tomb of Xu or something?"

The girl Jin Liuli was finally scared, and she stammered, hiding behind Li Yun, her little head poked out to look at the bottomless hole.

There seemed to be a horrible corpse hidden inside, with hollow eye sockets, bulging teeth, sharp nails, and a ragged front official uniform. It was very scary to walk.

"...Yes." The toothpick slowly uttered a word, and Li Yun felt that his legs were weak, and he was obviously very scared.

Wu Maoping frowned, looked at the robbery hole, and then at the toothpick: "Even if you can get in such a small hole, wouldn't all your previous companions be short like you?"

Toothpick was not in the mood to argue with him, but said coldly: "We will shrink our bones. The reason for such a small hole is to prevent the police from coming."

Although it is located deep in the mountains, tomb robbers such as toothpicks have become accustomed to using bone shrinking to enter the tomb, so even if they are found, they will not be caught.

The toothpick went in with a shovel, and when the situation was bad, he dug a hole and fled on the other side.

"Bone reduction skill?" Wu Maoping finally shut up. This skill is very famous, but few people practice it, and it is basically useless.

"Hehe, I will shrink my bones too!"

As Jin Liuli said, her petite body was short, and her whole body was transformed into the appearance of a seven or eight-year-old girl. With her large clothes, she was very petite and cute.

Glancing at her in surprise, Li Yun vaguely saw that Jin Liuli was wearing a tight-fitting black dress, which was very elastic. Jin Liuli shrank, and the black clothes also shrank, so it wouldn't run out at all.

"Big color thief!" Jin Liuli murmured, and his body shuddered before returning to its original state.

San Ye sighed: "Golden girl, you deserve to be born in a martial arts school, this shrinking skill is much more professional than ours!"

"Hehe, Grandpa San, you passed the award, if you want to learn, I can teach you!"

"Hahaha, I have an old bone, so I don't want to learn this skill anymore!"

Everyone rested on the spot, slightly away from the robbery hole.

Yang Jie glanced at the phone, then turned to Li Yun and said, "We don't have any information about Brother Xun, shall we prepare first?"

"He will be fine, will he?"

"Don't worry, he has experienced strong winds and waves, so he won't lose hands at this time!" Yang Jie has confidence in her lover, and coupled with the magical items that Li Yun gave him, there is no problem.

Li Yun nodded and looked at the robbery hole.

In theory, he can squeeze his true energy into the thief with brute force, but there will be problems whether it is head first or feet first, so this thief has to be dig a little bit!

"Toothpick, San Ye, what do you think?" Li Yun shared his thoughts with professionals. Both of them had terrible faces, or they hadn't looked better since they came near this thief.

After all, both of them had been to the tomb of General Xu, and they were distracted by the dirty stuff inside.

Wu Maoping glanced at the black robbery hole, then looked at the sky again, and hesitated, "Or, let's make a hole tonight and go in tomorrow morning, how about?"

It's four o'clock in the afternoon, and I don't see enough time today.

Chapter 540: Black water

At the thought of going under a bottomless tomb at night, Wu Maoping regretted following him.

The actual situation was fundamentally different from what he imagined. The tombs he had seen before were all excavated and looked very bright, without any sense of fear at all.

But to get into the robbery hole...

Li Yun didn't answer. He looked at the toothpick, and the toothpick didn't answer either. He asked San Ye's opinion with his eyes.

"Cough cough cough!"

San Ye coughed, but tremblingly took out the cigarette rod, took out some tobacco leaves from the pipe, lit it and started smoking again.

Jin Liuli persuaded: "Grandpa San, don't smoke! Look at your body..."

"It's okay, anyway, Grandpa San, I didn't even think about going back when I came."

Toothpick's expression changed, San Ye took another sip, slowly spit it out, looked at the robbery hole, his turbid eyes flashed with relief and relief, and said, "We will go in tonight."

"Tonight?" Wu Maoping mocked: "Are you afraid of zombies?!"

Toothpick glared at him.

San Ye smiled, "I also figured it out. There is nothing to be afraid of if you die or go to the ground. This zongzi will come out no matter whether it is day or night, so it makes no difference."

Jin Liuli shuddered, clutching the corner of Li Yun's clothes with her little hand, and asked in a low voice, "Grandpa San, we are all here, you should also tell Liuli what's going on inside?"

Li Yun saw that the face of the third master became a little unnatural. Seeing this, Li Yun immediately understood. The third master just said that he figured it out, but his heart was still panicked.

"Zhu Zi, first tell me what you saw!" San Ye pushed the topic to the toothpick.

"This....."

The toothpick babbled for a long time, and then stopped talking. After thinking for a long time, a word popped out of his mouth: "Water!"

"water?"

Everyone looked at him, the bodyguard Rong Liang was a little surprised, what was terrible about the water, the tomb was underground, and it was normal to encounter water.

"Blackwater."

"Very evil black water!"

Toothpick added another sentence, and then he refused to say more.

Wu Maoping lowered his head and thought for a while, then suddenly smiled: "That means you didn't encounter zombies at all, did you?"

San Ye two acquiesced.

"Hehe, I thought you had encountered some incredible monsters, you just encountered some black water!"

Wu Maoping mocked it heartily: "The tomb has been dark and damp for many years, and there have been many insects and ants. It is normal to carry germs. You are simply infected with a virus, not a corpse poison curse!"

Jin Liuli suddenly felt that insects and ants were more disgusting than zombies.

"Perhaps." The third master went over it in a perfunctory manner. Li Yun saw him wink the toothpick secretly, and motioned to him not to say anything.

"Miss, let's start digging?" Another bodyguard, A Xing, took the initiative to invite Ying. He worshipped under the gate of Jin Yazhai since he was a child. He was also a disciple of Jin Shengge, and he was naturally very respectful to Jin Liuli.

"What do you mean by badass?" Jin Liuli asked Li Yun's opinion.

"Okay, except Sanye and you two girls, we will take turns to dig for a while!"

"Ah, damn, you actually look down on me! I want to dig too!"

Jin Liuli loves to join in the fun. In fact, she was bored after digging with a shovel and went to prepare dinner with Yang Jie.

Before everyone started digging, San Ye solemnly lit a candle and worshipped the tomb for three times. After the ceremony was completed, they signaled that everyone could dig.
