

## Godly Choice 581

Chapter 581: Ding, god-level ethereal footwork

Everyone was shocked. They were all frightened by the vicious curse of Venerable Black Eyebrow just now. It was not until Li Yun suddenly shot that they woke up.

"A mouth is too stinky, it's better to break it."

Li Yun's indifferent tone made the mood of the people present very complicated. They felt fortunate that Li Yun was on their side, but also unconsciously awed him.

"Ding, the host makes a choice, rewards (justice value +1000, all attributes +1000, experience value +700,000, golden gift bag\*1, extra reward: misty footwork rises to \*\*\*\* level. In addition, the host has been black eyebrows The Venerable is listed as a must-kill target, and it is recommended to deal with it carefully)!"

Li Yun raised his eyebrows and turned his head to look at the people: "Venerable Black Eyebrow is not dead yet, here is his physical body. His spirit is probably in the underground tomb of General Xu. I'm going to hunt him down. You choose for yourself."

Everyone was not surprised when they heard that Venerable Black Eyebrow was not dead. After all, his previous harsh tone was not like just talking.

"I, I'll follow you!" Jin Liuli said immediately, looking at Li Yun with some different emotions.

"Of course I followed the boss!" Guo Xun smiled slightly.

"And I."

Alice held her slightly messy blonde hair behind her ears, her movements were indescribably elegant and noble, full of feminine beauty.

She smiled mischievously at Li Yun: "It's just that I want to know more things, such as...what is the soul? Of course, I will also tell Li Yun some of my things in exchange, what do you think?"

Both parties didn't trust each other very much before. This time Alice wanted to openly say that Li Yun's performance was enough to make her use this slightly low-pitched method in exchange for information.

Li Yun shook his head, "I can't tell you everything."

"No, no, you just need to tell what I can tell." Alice said quickly: "We will definitely encounter great danger if we chase it down. Mutual trust is the prerequisite, right?"

Li Yun glanced at her, thinking that Alice probably wanted to announce the identity of her princess, and agreed.

Surprisingly, most of the other people actually planned to follow. It is estimated that the threat of Venerable Black Eyebrow made them have the courage to go on an adventure with Li Yun.

"In that case, we rest on the spot for five minutes, and we will go after it immediately!"

There is also a hole under the coffin in Wei Yueyan's tomb, and the twenty-eight tombs are estimated to lead to one place: the tomb of General Xu.

Li Yun and Alice came to the side hall to talk alone, causing Jin Liuli's bright red mouth to be so loud that he could hang a soy sauce bottle.

"There is not much time, let's just talk about it."

"Also."

Alice nodded, looked at Li Yun, observed his eyes, and said: "My full name is Alice Elisabeth White Windsor, and I am the princess of the royal family of Y country."

To her surprise and disappointment, Li Yun did not show any surprised expression at all.

"Huh?" Alice was surprised: "You knew who I was?"

Li Yun smiled: "His Royal Highness Princess Alice, in fact, your servant called you a princess in an emergency, but no one noticed it at the time."

"Really?" Alice tilted her head and recalled, only to remember that when the candle was spontaneously burning, Abel called her a princess.

"Okay, okay, I've already exposed it!"

Alice made a face and looked unspeakably cute.

After all, this princess is a real princess!

Chapter 582: Conversation with Her Royal Highness

There is not much time, Alice smiled and said, "Actually, I came here for no purpose. I guess you guessed it with your IQ. I came to explore the tomb."

Li Yun nodded.

"My father and I came to Huang Xuanguo to stay in the country. During our visits, we flew to several cities in seven days and saw many of your officials, but I was impatient with those occasions, so I found an opportunity to quietly come out, and it happened that my servant Abel inquired about It's an interesting thing, so I'm here to take a look!"

Li Yun smiled slightly, his eyes calm, and he couldn't see what he was thinking.

Alice spread her hands and showed a helpless expression: "Well, I know I can't hide from you. Actually, I am very interested in Huang Xuanguo's tomb culture. This time I want to follow my father, so he will do that. Let me go easily."

"Really, that's a coincidence, I also happened to come to the tomb of General Xu."

"Ahhhh, you are such a real person, why are you so hard to cheat!!!"

Alice showed a frantic expression, completely different from the appearance of her formerly confident and confident empress.

Li Yun is very innocent: "I don't blame me. No matter who sees someone bringing a group of foreign mercenaries to the deep mountains and forests of their country with submachine guns, they will feel that she came on purpose, not on a whim!"

"...You, say, yes!!" Alice admitted through gritted teeth, "Yes, I came to Huang Xuanguo to robber specifically! Because I was accidental--really accidental, you have to believe me!"

Emphasizing the 'incidental' nature, Alice continued: "I accidentally heard about the weirdness of General Xu's tomb twenty years ago, and also knew that my father was coming to Huang Xuanguo, so I asked Abel to contact the group of mercenaries. Quietly disguised as my father's entourage followed."

Li Yun took out his mobile phone, and the signal in the tomb was okay, so he entered Princess Y into the search engine, and millions of related messages popped up immediately.

"There is news about my father's kingdom, right?" Alice gave Li Yun a roll of eyes, and then saw him click on the encyclopedia. The photos in it were actually from when she was in the first grade of elementary school. She couldn't help but blush. , I always feel... so strange.

In the photo, she has blond hair and blue eyes, two braids, carrying a small school bag, small hands and feet, and a small face. She is just seven years old.

"so cute."

Li Yun complimented in a flat tone, Alice's face turned red, and he muttered: "Let's talk about your situation quickly. Are you the fairy cultivator in Huang Xuanguo's legend?! Besides, you know the black in advance. Venerable Mei came to seize the tomb of General Xu?"

"No, nor is it."

Li Yun answered no to both questions and explained: "Don't worry about the source of my strength for now. I prefer to call them cultivators than cultivators."

Xiuxian? Although the people of the Six Demon Sects are very strong, they are still a thousand miles away from the cultivator.

This may be related to the exhaustion of heaven and earth's spiritual energy, and it is impossible for modern society to cultivate immortals.

"As for why I know, do you think that a person sitting on the coffin and destroying the tomb here is the owner of General Xu's tomb?"

When Li Yun saw the arrogant and arrogant expression of the old man sitting on the coffin, he knew that this guy was definitely not the owner of General Xu's tomb.

The formation of the sun, moon, and stars in the stone room was probably imitated by Venerable Black Eyebrow, perhaps related to the entire tomb of General Xu!

Chapter 583: Ding, all attributes are 30,000

Li Yun thought for a while and told her some news about the Six Demon Gates, but because of the tight time, he could only say that roughly.

"In the organization of the Six Demon Gates, there are a lot of people who can practice?"

While Alice was meditating, Li Yun took out the golden double-stranded fork and handed it in front of her with one hand in her extremely surprised eyes.

"This weapon is...?" Alice couldn't help taking it over. In an instant, she felt a warm power coming from the weapon. This power gave her the illusion of becoming extremely powerful!

"Golden double-stranded fork." Li Yun smiled: "The legendary Hades weapon, with its own flame power, has amazing attack power against evil spirits and ghosts!"

"Hades' weapons?!"

Alice opened her small mouth in shock, not a princess at all.

"Ahem, imitation."

"...Okay, but it's also very powerful!"

Alice loves this weapon, she waved it lightly, and the golden double-stranded fork faintly emitted a fiery red light. The atmosphere in the palace was very dark and dark, but when the weapon was released, it instantly dispelled the dark energy.

Li Yun opened the attribute bar and inventory while Alice was happy to experiment with weapons.

The war is imminent, it's time to strengthen yourself!

"Thirty thousand in spirit and wisdom?"

Li Yun frowned slightly. It was a coincidence. After thinking about it, he tentatively added 10,000 points of experience to his spirit.

"Ding, failed to add some points, the highest acquired realm attribute points can only be 30,000 points!"

The prompt of the system made Li Yun look dumbfounded. He even forgot when his attribute points reached 30,000. In this case, he lost a lot of attribute points!

"Wait!" Li Yun had an idea, "The maximum is 30,000, then what will happen if I fill up all the attributes? Can I break through to Xiantian?"

Do whatever he thinks, Li Yun decisively added all his experience, totaling 4.1 million points, to his attribute points!

"Ding, consume 560,000 experience points, host power attribute +1500, reach the highest value of 30,000 points!"

"Ding, consume 800,000 experience points, host physique attribute +2000 points, full 30,000."

"Ding, it consumes 750,000 experience points and 30,000 agility points."

A satisfied smile appeared on Li Yun's face. He didn't need to finish adding experience points, and his attributes would be full!

Ordinary people have more than one hundred attributes, even if they are an acquired master, they are just over ten thousand points, but Li Yun actually has thirty thousand attributes!

This is estimated to be an unprecedented achievement, unprecedented!

—Except for the abnormal geniuses who could cultivate immortals in ancient times.

"Thirty thousand points... useless!"

Li Yun quickly became disappointed, his body hadn't changed much, and his true qi was still acquired.

Li Yun wanted to upgrade the Nine Suns Heavenly Scriptures of inner strength to the \*\*\*\* level, but the remaining 2 million experience was completely insufficient, and he had to give up.

"Next, I can only rely on foreign objects."

Li Yun's heartbeat speeded up, and it was the exciting part of opening the treasure bag again. If he could get another piece of colorful equipment, he would be out of nowhere!

"System, open twenty white gift bags, and then open ten green gift bags!"

Lin Lin, Li Yun now has three golden gift bags, plus 8 purple gift bags, so I have to add one more, no, at least two pieces of equipment!

He, Li Yun, is going to be from Europe today!

"Ding, the host gets a laptop\*1, antique dress\*1, sailor suit\*1, women's fun inside~\*1, 1 box of spicy strips, one big brother, a set of 50-year-old stamps, dead bank Water\*1, pink round unknown jumping object\*1, small detoxification pill\*1....."

Chapter 584: Ding, colorful gift

Li Yun was full of black lines. Except for the three pills that were considered to have been rewarded, the others were all rubbish.

Fortunately, these gadgets can be stored in the inventory of the system and do not take up Li Yun's space ring.

"Go on, ten green gift bags, plus five blue ones!"

"Ding, the host gets a small Jiji Dan\*2, a small detoxification Dan\*3, skills: Wubi typing (primary), grenade\*1..."

"I'll go, it's all rubbish!"

When Li Yun was depressed, a purple light flashed in front of his eyes.

"Ding, congratulations to the host for opening a purple-grade gift from the green gift bag: Requiem amulet!"

Li Yun's eyes lit up, not bad, not bad, the first piece of equipment is on hand!

He had previously obtained an exorcism amulet. This time it was a requiem. Li Yun looked at the attributes, and it also had an exorcism effect, but it was more aimed at resisting mental attacks.

Put it in his pocket and let the black feather butterfly use it as a cushion, and Li Yun continued to open it.

"Ding, rubbish... rubbish... rubbish... elixirs, skills, rubbish..."

After opening all the gift bags below the purple, Li Yun obtained two more pieces of equipment.

One is a purple resentful dagger. This dagger is not a Taoist magic weapon, but a weapon similar to the evil cultivator's hands. It can also deal with zombies, and it can absorb energy from it. It becomes stronger (with restrictions).

But if this thing is obtained by a person with an improper mind, it will be affected by the resentful spirit dagger, become mad, and enter the magic way.

Therefore, although Li Yun could use this weapon, he didn't plan to use it. It would be more appropriate to give it to Guo Xun.

Guo Xun was upright, and this dagger could not affect him.

The other is a peach wood sword, purple grade, similar in function to the camphor sword in Jin Liuli's hand, and Li Yun intends to give it to Sister Yang.

"Finally, the golden gift bag..."

Li Yun looked at the three golden gift bags with fiery eyes, should he also give him a piece of colorful equipment?

"System, open a golden gift bag!"

Following Li Yun's silent meditation, the gift bag in the inventory turned into a golden lottery machine, and countless prizes flashed by one by one.

After a while, the lottery machine stopped.

"Ding, the host opened a golden grade item in the golden gift bag: an enhanced skill pill!"

Enhanced skill Dan?

Li Yun froze for a moment, the skill pill is a good thing, purple can be opened, but this thing is very rare, he has only obtained two or three times.

"Enhanced Skill Pill: Increase any skill by one level, and there is a chance to increase it by one more level, and there is a small probability of comprehending stronger skills!"

After reading the instructions, Li Yun couldn't laugh or cry. Isn't this a weakened version of the god-level skill pill? He now has no use for the god-level skill pill, and he can't think of another one.

Put it aside for now, Li Yun continued to drive.

"Ding, the host opened a golden grade item in the golden gift bag: space ring (10 cubic meters)!"

Li Yun: "..."

This is not cheating!

His existing space ring was opened in a purple gift bag, and now he is given another one!

It's not that the space ring is not good, there are not many of these things.

But what Li Yun needs now is equipment, equipment for combat! !

"System, if you don't equip me anymore, I'll complain that you cheated the host!"

Li Yun gritted his teeth and put the space ring back into his inventory, ready to give it to Fang Xue when he returned, and continued to open the last golden gift bag.

The golden lottery machine started again, the pointer turned rapidly, and after a while, it slowly stopped.

In an instant, a beautiful, brilliant and dazzling line! And it is colorful and bright.

"I...Cao! I really hit it!"

Chapter 585: Alice Favorable Degree 89

"Huh? What happened?"

Alice looked at Li Yun in surprise, why he gave her a double-stranded fork to use temporarily, but she smiled openly.

"No, nothing."

Li Yun laughed from ear to ear, and casually found an excuse: "I think giving a piece of equipment can make a beauty like you happy, and I feel happy myself."

"Hate, you look serious, why are you mouthful now!"

Alice's face is a little blushing, but after all, she is not the kind of shy lady who can respond to this kind of joke...Yes, eh, no! .

"Li Yun?" Alice was very surprised, suspecting that she had heard it wrong: "You mean, give me this golden double-stranded fork?!"

She spoke very cautiously, for fear that she would upset Li Yun.

Think about it, a double-stranded fork that can be called an artifact—at least a fake artifact. It's not easy for her to get the right to use it. Alice really didn't dare to get this weapon.

"Yes, you heard me right!"

Li Yun patted her shoulder and smiled: "This is for you. It is not a powerful weapon. Of course, it is for you to use in battle!"

"..."

Alice did not react to the huge surprise for a while. After staying for a long time, she screamed: "Great, great, thank you, thank you Li Yun, thank you so much! I will definitely use it well. !!!"

The people in the nave were surprised, thinking that Li Yun was going to force her, otherwise how could Alice scream so badly.

"Ahem, let's go out."

Seeing that Abel wanted to rush in to protect the princess, Li Yun said quickly.

Alice nodded desperately, now she admires Li Yun very much, listen to what she says.

On the way, Alice quietly lit up the golden short spear she had been holding, and told him something very secret.

This is what she bought when she was eight years old when she went to an antique auction with her parents. This short spear is amazing. It seems to call her vaguely. It also allows Alice to keep her vigor and talent. it is good.

After realizing the miracle of the golden short spear, Princess Alice was very enthusiastic about the tomb and found a way to obtain another similar magical thing.

Therefore, Alice was so excited when she heard that Li Yun gave her a golden double-stranded fork.

Li Yun frowned slightly, took her golden short spear and looked at it. He couldn't find the abnormality, so he didn't delve into it too much. Now he has more important things.

"Wow!"

When Princess Alice, holding a golden double-stranded fork, walked out of the tunnel and stood in front of everyone, everyone was shocked!

I saw this gold-red double-stranded fork, sharp and sharp, about one person tall, and was slammed on the ground by the noble and beautiful Princess Alice. The two complemented each other. The golden-red double-stranded fork was extraordinary, making Alice a myth The legendary goddess Athena is just like.

Heroic, strong body, and noble temperament, it makes people feel inferior when they see it, and they dare not look up at her face.

"Miss, this is...?"

David was very surprised. Why did the princess suddenly have an extra weapon in her hand?

"Li Yun gave it to me!" With a smile on Alice's beautiful face, she gave him a soft look: "From now on, you will treat him the same way you treat me, because Li Yun is my best friend! "

"Ding, the host automatically makes a choice, and Alice's favorability is +89."

Chapter 586: Go underground

89 Friendship Degree, which belongs to the level of close friends, is about the same as a girlfriend, but it is just an ordinary girlfriend. Li Yun will definitely lose the Friendship Degree if he wants to use his hands or something.

"Big villain, big scumbag, big scumbag, big scumbag, \*\*\*\* thief, pervert, scumbag, shameless scumbag, idiot, idiot..."

A line of grievances sounded in Li Yun's ears. He didn't need to turn his head to look, and he knew that Jin Liuli was definitely jealous now.

"Ahem, Xiao Liuli, I will give it to you when I have something good."

After comforting her, Li Yun directly took out two pieces of equipment, the Spirit of Resentment Dagger and the Peach Wood Sword, and handed them to Guo Xun and Yang Jie, and told them the precautions for equipment.

Everyone saw their eyes straight, and Li Yun didn't avoid them this time, and directly took out things from the inventory.

"These are some things I collected before."

Li Yun didn't explain too much, and everyone didn't ask any questions. They had encountered enough weird things today.

Yang Jie and Guo Xun looked at each other. The two of them were originally innate. After they have weapons, they will increase their combat effectiveness by several steps against zombie gu worms!

"We're ready to go!"

Li Yun glanced around the crowd, Wu Maoping was far away from him now, and he dared not make any mistakes.

Codiff and other mercenaries, under Alice's heavy temptation, and the threat of Venerable Blackbrowed, also planned to follow in.

It's just that Codiff has long since dared not say a word in front of Li Yun, even the look in his eyes seemed very scared, but Wei Nuo did not dare to disobey Li Yun's order.

"Are you all ready? Then let's go!"

Li Yun took the lead and jumped into the hole under the coffin first. Alice followed closely, pinning the golden short spear to her waist, holding the golden-red double-stranded fork in her hand, looking very heroic.

Of course, Jin Liuli is not bad, although her camphor sword is not in line with the temperament, but it is young and lively, and her beauty is definitely not lost to Alice.

Under the entrance of the cave, there is a spiral passage similar to a staircase, but it is tilted downwards, wearing a headlight shining over, and it is dark and it is not clear where it leads.

Fortunately, this staircase has a zigzag structure, which is said to be able to effectively avoid collapse and not directly collapse.

"Li, Li Yun, what do you say below?"

Jin Liuli followed Li Yun with some fear, and looked around. The road was paved with blue bricks, and the wall above his head was grayish white. It should have used gypsum soil to drain the water, so the passage was not wet.

But even so, the more people go down, the more they feel suffocated and uncomfortable. After all, the farther away from the ground, the lower the chance of surviving after a collapse. The psychological pressure of people thinking that they are now 100 meters above the ground. It will be very big.

"It's not clear yet, maybe it is the real General Xu's tomb."

Li Yun was also curious about building a tomb on the 28th Sun and Moon Stars, known as the Lingxiao Palace. General Xu Tiande was expected to have ambitions and the strength to rebel. From this astonishingly large tomb As can be seen.

"Could it be thousands of terracotta warriors?!"

Holding the double-stranded fork, Alice immediately contacted the terracotta warriors and horses of Qin Shihuang that were unearthed in a certain city in Huang Xuanguo, which shocked the world.

Now, the structure and scale of the tomb of the Emperor of Heaven are no less than that of Qin Shihuang's tomb. It is not surprising that there are terracotta warriors in it.

"Perhaps." Li Yun smiled slightly and said: "But I'm sure there will be something!"

"what?"

"Zombie! Hahaha!"

"Hate! You \*\*\*\* scared me again!"

Chapter 587: Picture of Qingming River

In fact, the real tomb of General Xu is far beyond Li Yun's imagination.

After Li Yun walked for about ten minutes, approaching a distance of two kilometers, a bright light appeared in front of him, and everyone was refreshed, and they urged Li Yun to speed up.

"Everyone, be careful!"

Li Yun whispered, holding the Silvin pistol tightly in his hand, and the other hand secretly squeezed a newly obtained charm, and walked forward first.

When he walked out of the passageway and saw the things in front of him clearly, Li Yun fell into a trance for a moment.

"What's wrong? What do you see... Uh, uh, uh, what is this?"

Jin Liuli jumped out, but her eyes were swept forward, and her legs were so frightened that she almost fell to the ground.

Like Li Yun, she was shocked by the amazing scene before her!

"It's so big! God!" Alice's mouth grew in surprise, and she felt that her trip was worthwhile just seeing the spectacular scene in front of her!

The crowd filed out. Everyone who saw the vision in the foreground looked at each other in horror, and hadn't recovered for a long time.

In front, is a magnificent ancient city.

Teahouses, piers, boats, wine shops, cloth houses, butcher shops, temples.

Cows, goats, mules, dwarf donkeys, steeds.

The leisurely pedestrians, the pack workers carrying the goods, the tea guests leisurely drinking tea, the dusty girls waving handkerchiefs on the brothel, the proud soldiers, and even the beggars begging.

Everything you can imagine is here!

It's just that these people and things are all made of pottery figurines, and all animals and humans seem to have been casted with a fixation technique. Time has stopped when this city is built!

"Are we standing on Weiyueyan star?"

Toothpick murmured to himself, he was afraid to come to the tomb of General Xu, but Li Yun forgave him once, saying that he forgave him because of the curse of Heishui.

As a result, Toothpicks followed Li Yun in return for his kindness.

But at this moment, when he saw this miraculous ancient city, the tutor who had stolen the tomb for 20 years couldn't help but burst into tears.

It turns out that the masters of his tomb robbers live in such a place!

Being able to see such a magnificent city makes him worth it in his life!

"should be."

Li Yun looked up and looked around. They were standing on a high platform and looking down at the city.

The entire underground world is very similar to the structure of a round sky. The dome is arc-shaped. Two huge luminous 'jewels' are inlaid in the sky. The light red brilliance illuminates the underground city.

There is no doubt that two beads, one large and one small, represent the sun and the moon.

The place where Li Yun and the others stood was the star of Weiyueyan.

The 28 constellations on the ground turn into a real starry sky layout underground, and the stars guard the sun and the moon like a moon.

"The sun, the moon and the stars, the palace of the heavens, the tomb of the emperor..."

Li Yun took a deep breath and looked at the palace in the middle of the city, where all the secrets should be hidden!

"Let's go! Go to the palace!"

Li Yun made a decisive action, took out a rope to tie it, leaped forward, and then the rope flew down tens of meters.

"Big villain, wait for me!"

Jin Liuli also followed, and for the innate masters, a rope is enough to quickly descend to the ground of several tens of meters.

Everyone followed, the mercenary was okay, the toothpick spent the boss's effort before it went down to the ground, and hurriedly chased it as soon as it touched the ground.

## Chapter 588: Thousands of pottery figurines

Walking in this authentic ancient city, Li Yun has an illusion of traveling through time.

The surrounding pottery figurines are colorful and lifelike, the expressions of the characters are vivid, and the pavilions are intact, as if hundreds of years of time have not had a slight impact on them.

"Li Yun, look at this, it's so beautiful!" Jin Liuli smiled and ran to a pottery figurine and compared it to a scissor hand. This pottery figurine was a girl of sixteen years old. She was accompanied by two servants. She looked like a lady. , At least the daughter of a small landlord.

Of course, there is a more noble daughter on the street: a beautiful girl who is protected by dozens of guards, sounded the gong to clear the way, and sits in a sedan chair, but then opens the curtains to look out.

The reason she looked outside was because there was a dispute in the wine shop and two guests fought, which attracted the attention of the daughter.

What's even more indescribable is that there is a young man with a fan next to him. After seeing the young lady in the sedan chair showing her real face, he actually showed the expression of Brother Pig.

The workmanship of these pottery figurines is simply amazing!

"My goodness!" Rong Liang said with emotion, "I once saw a similar pottery figurine, painted pottery in the store, but the color has fallen off. The seller at the time said it sold for at least 5 million. I thought no one I bought it. As a result, Mr. Zhou released the news. Three guests came in the afternoon. In the end, the painted pottery sold for 12 million!"

Guo Xun was surprised, pointing to the surrounding area and jokingly said: "There are thousands of pottery figurines here, you can take out one at random, Rong Liang, it will be enough for you to work for a lifetime."

"Hahaha, I dare not destroy the cultural relics!"

Everyone also knows that the things here are very valuable, but Codiff glanced at Li Yun, who was walking in front, his face was calm, and he didn't dare to stretch out his hands honestly.

Not only did he dare not stretch it out, but he glared at his men fiercely: "Who the \*\*\*\* dares to move things here, I was the first to kill him!"

"Don't dare, boss, how dare we!"

This group of mercenaries shook their heads quickly, they really didn't dare to stretch out their hands indiscriminately!

This group of people still remember the picture of Li Yun collapsing the black dragon with a single shot, and the magical elf on him. The mercenaries agreed that: Li Yun can magic!

"It's amazing!" Jin Liuli reached out and touched the pottery figurines of a child next to him, and said with emotion: "These pottery figurines are all made real, Li Yun, do you think they are real people?"

"!"

Everyone was startled, Li Yun looked weird and asked: "Why do you have such an idea?"

"That's how it happens in the movies I watch!"

Jin Liuli confidently said: "There is a movie about a wax museum. It is about a pervert who killed all the people in the town, and then wrapped the corpse in wax oil to make a vivid wax figure. So, will it be possible? and also....."

At the end, she couldn't help being scared herself.

In this magnificent but weird city, there are thousands of exquisitely crafted pottery figurines. Could it also be the person who killed a city and then wrapped their bodies in clay and burned them into pottery figurines?

Thinking of this, everyone couldn't help but shudder, as if the surrounding pottery figurines had all turned into corpses, and the eerie and terrifying atmosphere was creepy!

"No!" Li Yun said firmly.

"Why are you so sure?"

Alice looked at him curiously, none of the pottery figurines here were damaged, they were all intact, and it was logically impossible to tell whether there was a corpse inside.

How did he know?

Chapter 589: Princess pottery figurines

"the reason is simple."

Li Yun smiled slightly, stepped forward and stroked the girl who was singing the gong in front of him and sitting on the sedan chair. "Look at this pottery figurine, with a delicate appearance, a curious and shy expression, white skin on his face and black eyes. With a smart, small nose, such a vivid and flawless work, there are not many comparable works in the world!"

Alice nodded in agreement. This young lady who was protected by dozens of guards was probably the daughter of a high-ranking official in ancient times. Her production was especially exquisite, even the small wooden lines of the sedan chair were portrayed.

"If you want to make such a beautiful artwork, you must be happy, calm, and passionate!"

Li Yun explained: "If the tens of thousands of pottery figurines here are all corpses, how can General Xu find so many abnormalities, able to face such corpses, and still maintain his strong artistic creativity?"

A pervert may be able to maintain passion when facing a corpse, but can't hundreds of craftsmen be perverted?

"I understand!" Jin Liuli clapped her hands happily, "If it is a corpse, the craftsmen will definitely be panicked, and the things they make will be full of flaws, not as perfect as they are now!"

"That's the truth." Li Yun smiled.

Everyone suddenly realized that they all accepted this statement.

Alice looked at him steadily, and couldn't help thinking that Li Yun must have some insights into art, so he thought of this.

What she didn't know was that Li Yun was a master-level painter, and even a god-level chef, who had a unique understanding of how to create wonderful works of art!

"Mr. Li, I think it's still a bit strange."

Toothpick hesitated, "In ancient times, it was actually a very dangerous thing to repair tombs for people. Those who used ruthless methods would often order all the craftsmen to be killed to prevent someone from exposing the location of the tomb. But I think this \*\*\*\* The tomb, it seems that there are no bones of people who died, it's very strange!"

Li Yun nodded, he actually thought of this too.

General Xu built this tomb of the Emperor of Heaven. If this matter is exposed, it will definitely be the end of the extermination of the nine tribes. The craftsmen who built it are almost impossible to survive, and even guard soldiers will be killed to prevent leaks.

Is it buried in the ground, or pulled to another place and then killed?

Li Yun couldn't understand, but there were too many secrets in this tomb of the Emperor of Heaven, and they were not too bad.

"Let's go to the palace!"

After satisfying everyone's curiosity and checking that these pottery figurines were normal, Li Yun once again turned his gaze to the palace in the middle of the city.

Without thinking about it, he knew that General Xu must be buried there, and all secrets would be revealed there!

This city was built by Xu Tiande's orders during his lifetime, with the goal of enjoying the treatment of an emperor after his death. This is the same as the thinking of most high-ranking officials.

—The so-called funerary objects, and the paper money burned by posterity, all want the deceased to be able to enjoy it in the Yin Cao Netherworld.

It's just that Li Yun finds it funny.

General Xu Tiande did not dare to rebel before his death, so he could only secretly build an emperor-like city after his death and let himself enjoy the treatment of the emperor. This kind of inferiority and arrogance is really... hard to say.

Everyone stopped paying attention to the surrounding pottery figurines, and went all the way along the main road in the middle of the city.

No one noticed that after they turned their backs to the lady who was sitting in the sedan chair, her ceramic eyes seemed to move slightly, and her eyes looked in the direction where Li Yun had left.

"Father, someone is coming."

## Chapter 590: Zombie melee

Everyone quickened their pace and came to the front gate of the palace.

"Ah! The city gate is broken!"

Jin Liuli exclaimed, she saw the palace gates open from a distance, and when she took a closer look, she discovered that the magnificent gates, which were originally three people tall, were now scattered on the ground in fragments.

As if being kicked, the palace was opened wide and was breached.

Li Yun frowned, "There seems to be a noise in the palace?"

He vaguely heard a noise, and then contacted the previous Venerable Black Eyebrow, and Li Yun immediately guessed the truth of the matter.

"let's go!"

Li Yun looked cold and solemn, holding a gun in one hand and a newly obtained Sky Thunder Talisman in the other, and stepped into the palace first.

"Nine Heavens Thunder Symbol

Skills: Nine Heavens Thunder.

Explanation: Thunder is the cardinal of yin and yang, commanding the foundation of all things. Pouring your whole body power into this thunder talisman can send out an infinite thunder. "

This is the colorful grade equipment he opened out of the golden gift bag, and it can be described as two extremes with the Silvin pistol.

Fairy Bow-Silvin is not too powerful, but it can be used continuously and does not consume any physical strength.

But the Nine Heavens Thunder Talisman is completely the opposite, which is a decisive battle-type ultimate move.

When the sky thunder strikes, the enemy is dead or not, so I can only wait for death.

However, Li Yun has a small abacus, and may be able to use this infinitely powerful Nine Heavens Thunder Talisman infinitely!

"Someone is fighting ahead!"

Entering the palace, everyone ignored the magnificent palace complex in the palace and walked forward along the central avenue. Not long after they walked out, they heard a clear sound of battle coming from the front.

The weird thing is that Jin Liuli didn't hear the shouting and killing, only the crisp sound of swords colliding, and—

"Roar!!"

The roar of zombies.

"Venerable Black Eyebrow is fighting General Xu!"

Li Yun's face changed slightly, and without waiting for everyone's reaction, he used his ethereal footwork, his figure turned into a breeze and rushed forward quickly.

Jin Liuli only reacted after Li Yun ran a few meters away, blinking in shock: "He is so fast!"

Alice was also surprised, Li Yun is really a trainee knight? How can the speed be faster than her, an official knight?

How fast is the god-level ethereal footwork?

On the 300-meter-long central avenue of the Palace, Li Yun flew past in less than ten seconds and arrived at the Hall of Supreme Harmony, commonly known as the Palace of Jinluan.

Jinluan Palace is the most important palace in the ancient Ming and Qing Dynasties.

This is not a place used for the upper dynasty, but a place for major ceremonies, such as the emperor's enthronement, big wedding, enrollment of queens, fate, or important festivals such as the annual Longevity, New Year's Day, and winter solstice. The official will hold a ceremony here.

Therefore, although the Jinluang Temple was not used for the upper dynasty, it was the most important palace.

This is the highest power center of the imperial court. If the Golden Luang Temple is conquered, it means that the entire palace and even the world are in jeopardy!

Now, Jinluang Temple has encountered an unprecedented siege.

"Many people, no, many zombies!!!"

Jin Liuli's body style is not slow, she followed Li Yun closely, and after seeing the scene in front of her, she shouted in surprise.

In the front, thousands of figures were engaged in a chaotic battle. Both sides had the same attire, both wearing armor, holding swords and spears, their faces were pale and dry, their fangs protruding, and their nails sharp.

Yes, these thousands of figures are all zombie soldiers!
