

## Godly Choice 991

Chapter 991: Go home (on)

Like her master, Fan Qingsheng is helpless with Princess Yongning's condition, and Li Yun no longer insists on it.

Fairy Jiutian wants to meet once, but not now.

Moreover, as long as he persists for a few years, Li Yun believes that his strength can skyrocket to an unimaginable level, and he can get something stronger than Recovery Pill from the gift bag. By then, Princess Yongning will be no problem.

"Li Yun, are you still here for dinner?" Gong Lianyi asked gently, with a hint of hope in her eyes, and Gong Qingyu also looked over.

After a pause, Li Yun shook his head: "No, there are two younger sisters at home, I don't worry that they are alone at home."

Gong Lianyi was disappointed, but she had no choice but to nod her head: "Well, I'll let someone help you pack things."

Before she knew it, she was very accustomed to Li Yun living in Mansion No. 3. Li Yun, she, and Qingyu all lived on the third floor. Although they were not in the same room, Gong Lianyi thought of him in the next door every time. , I felt warm in my heart.

"What do you do when you go to college?" Gong Qingyu was disappointed, and glanced at Li Yun: "You and Li Feng both come to Zhonghai City to go to school, and the two younger sisters from Longyang County keep them there?"

Li Yun was suddenly speechless.

The twin sisters Caixia and Caiwei had just entered the second year of middle school, and there were no other people in the family, unless Fang Xue's parents were asked to take care of them, but this was obviously inappropriate.

"Why don't you all move here?" Gong Lian suggested in a low voice, "I have asked your two sisters to find a good school for them to transfer next semester. What do you think of Li Yun?"

"I think it's pretty good." The person who answered Gong Lianyi was Li Feng, and she smiled slightly: "There are still many vacancies here, enough for the four of us."

Mansion No. 3 is enough to accommodate a hundred people. There are seven rooms on the third floor, and many guest rooms on the second floor. In addition, there are two three-story buildings next to it. Now there are maids and bodyguards.

This is simply a castle. There is no problem living with Li Yun four people, and even with the addition of Fan Qing Sheng and others, there is more than enough space.

"Let's talk at the end of the college entrance examination." Li Yun showed a helpless smile, "After all, it doesn't feel good to be under the fence."

"Huh! Are you still polite to me?" Gong Qingyu was very dissatisfied. She hoped that Li Yun would live here. Even if there were more Li Feng and two little girls, she wouldn't mind, as long as Li Yun could come.

The little maid triumphantly said: "My lady and I moved out soon, or Li Yun, you... uh, no, no, your sister and younger sister can live here, but you bad guys are not allowed to come, huh~"

She didn't allow men to live with Lord Saintess!

Li Yun shrugged, not considering this for now, and waited until the college entrance examination.

Gong Lian thought about it for a moment, and had an idea in his mind, by then Li Yun would definitely agree to live here.

Thinking of this, Gong Lianyi couldn't help but bend her mouth, revealing a happy smile.

...

After returning to Longyang County with Li Feng and Princess Yongning, Li Yun was finally relieved and relaxed.

It's not that it's not good to live in Mansion No. 3, and Zhonghai City feels very nervous for him. After all, every time I go there is nothing good, and I feel more at ease when I return to Longyang County.

Besides, his real girlfriend was here, and Li Yun ran to him the night he came back. After being bullied by Li Yun for a few hours, he left shyly.

The real girlfriend ran away in a hurry, which made Li Yun's heart full. At ten o'clock in the evening, he could not help knocking on Li Feng's door and bullying her for another three hours. Li Yun was not able to take her comfortably until Li Feng was weak. I took a bath and went to bed to rest.

Although I haven't reached the last step, I still have a good time. Li Feng feels good and Li Yun feels comfortable, and everyone is happy.

Chapter 992: Go home (below)

"System, open the high-tech gift bag!"

Li Yun finally remembered this stuff at noon on the third day after returning home.

Since he came back, he has been busy playing. On the first night with Li Feng, and the second night with the little princess, he held her alone in the little princess's room for a long time, making the little princess from the Ming Dynasty shy and embarrassed. , Li Yun gave up the idea of continuing to bully her.

After all, the little princess is fragile and frail, unable to withstand long periods of wind and rain.

But, good things have to be tasted slowly, and Li Yun is not in a hurry.

The little princess is now his own, and her physique is weak, and she sleeps most of the time, giving Li Yun a feeling of being in a golden house. The little princess belongs to him completely, anytime she wants— -This feeling.

Therefore, Li Yun only remembered to open the bag on the third day.

"Ding, the gift bag is opening..."

A ray of light flashed, and something that looked like a turntable appeared. Numerous high-tech technology codes were engraved on the turntable, making Li Yun's saliva flow out.

"Human Transformation Technology Type III."

"Strong compression of new lithium battery technology."

"Super artificial intelligence."

"A new type of scheme for converting geothermal energy into electrical energy."

"New photosynthetic rice type II."

"Cancer Buster: New Nano Targeted Drugs."

"Controlled nuclear fusion."

"..."

Each item of super black technology is enough to create a top enterprise with a market value of one trillion or even ten trillion.

For example, for the treatment of cancer drugs, Li Yun can't imagine how many people at home and abroad will be crazy if his company launches this kind of drug!

Lung cancer, breast cancer, prostate cancer, liver cancer, lymphoma, etc.

Almost every human organ has the possibility of cancer, and if it is advanced cancer, the cure rate is almost zero.

"Ten trillion? One hundred billion? No, the drugs that cure cancer can't be measured by value at all. Once I can get it, I can immediately get a huge variety of benefits, enough to make me...to the pinnacle of life!"

Li Yun's eyes are fiery, and he keeps praying in his heart, cheating the system...No, the boss of the god-level selection system, give me cancer killer, it can be uncontrollable nuclear fusion, this thing is more powerful than medicine!

The turntable stopped slowly, and finally, a ding sound was heard.

"Ding, congratulations to the host. From the high-tech gift bag, I opened a new Internet technology: intelligent autonomous driving."

Li Yun: "..."

It's okay. Autopilot is autopilot, which happens to be a technology related to the Internet.

Now the world is enthusiastic about the trend of autonomous driving. Many large companies in State M have invested in the ranks of related technologies, including three top Internet companies and two top car manufacturers.

A certain domestic search engine giant is also studying, but the technology is far behind that of foreign countries. If there is no special breakthrough, it can only follow behind.

After Li Yun opened this technology, the system directly gave him a sturdy hard disk, the memory is 1T in size, and it stores all the technical data related to automatic driving.

And most of them have already been completed. You only need to debug for a while to get the final result, and you don't need to do program architecture and programming from scratch.

"The system is thoughtful."

Li Yun put away the hard drive, planning to wait a few days before going to Zhonghai City, and hand over this technology to Wu Ke, so that he can find a way to make the final product.

Unexpectedly, he had to set off soon.

Chapter 993: Song Yuan's cruel actions

On the fourth day after returning home, Li Yun learned an amazing news from Qing Yulianyi.

Song Yuan appeared in Huaihua City, Donghe Province, and killed a third-rate Yongyitang up and down. A total of 135 people were killed. The entire Yongyitang was burned and burned for a whole night. Turn into fly ash!

The shocking news caused a sensation in the whole arena, and various factions were talking about it, and they were frightened.

Li Yun searched the Internet and found discussions related to this, but netizens did not know the inside story and thought it was an accidental fire, which burned many people to death.

"Five congenitals died, including one congenital perfection and two later congenitals!"

Li Yun learned more about the inside story from Gong Lianyi. Yongyitang was the object of Song Yuan's revenge. Many people also guessed that he would go. So under the leadership of a highly respected congenital consummate senior, there were a total of five congenitals. Lived in Yongyitang.

They had planned to stand still and capture Song Yuan in one fell swoop, or kill them on the spot.

Unexpectedly, Song Yuan's strength skyrocketed and directly killed them, killing all the five innates, then slaughtering the Yongyitang completely, and then set off after burning it out.

"Now the various factions in the arena have listed Song Yuan as a target to kill, and even several sects that are both righteous and evil have issued a warning, telling them to prohibit contact with Song Yuan."

"Tiandaomen and Dijianmen united with several first-class families, including the palace family, to form a team of masters, heading to Tiandaomen, and preparing to wait for Song Yuan to return."

"Song Yuan will definitely go back to the Heavenly Sword Sect again, because there are not only the spiritual doctor fairy there, but also the person who testified him in the first place. Song Yuan's will kill!"

After listening to Gong Lianyi's words, Li Yun frowned.

Song Yuan was the chess piece of the Six Demon Sects. The purpose was to disrupt the martial arts of the world, so that the various factions could see the power of the monks and attract more people to work for the Six Demon Sects.

"Did you talk to Qingsheng?"

To deal with the Six Demon Gates, we still have to rely on the country and the Hidden Sacred Valley. Li Yun's power alone is currently not enough.

"Well, I have already talked to Master Saint."

Gong Lianyi's tone was soft, "She said that the elder had sent several people to track Song Yuan and kill him as soon as possible."

"Killed? This is not the point."

Li Yun gave a wry smile.

Song Yuan's life and death is irrelevant, even without him, the Six Demon Sects can find a lot of people who are willing to die.

The key is to expose the evil purpose of the six magic gates, so that those who want to take refuge in the magic gates feel scared and dare not act rashly.

"I know it too, but..." Gong Lian was hesitant to say something, even the Gong family was helpless in the face of this disaster.

"fine."

Li Yun comforted: "When the sky is falling, there is a tall man against it. Lianyi and Qingyu only need to protect themselves in Zhonghai City."

Gong Lianyi felt warm, and then nervously asked, "Li Yun, how about you? Is it going to...?"

"Haha, rest assured, with your husband and my strength, are you still afraid that I will suffer?"

Gong Lianyi's face blushed, and she said with a rare anger: "I didn't even promise to be your girlfriend."

"Huh? Didn't we kiss each other? It's a kiss between lovers." Li Yun laughed teasingly, and he tasted the two golden flowers of the palace family well.

"You, Li Yun, you are too bad! I won't tell you anymore, goodbye!"

Hanging up the phone, Gong Lianyi covered her pounding heart.

It's just that I haven't seen Li Yun for a few days, she already missed the days with Li Yun very much, including being held in his arms and kissing in the way of a couple.

Chapter 994: bid farewell

In the evening, Li Yun, Li Feng, twin sisters, and Princess Yongning were sitting on the sofa watching TV, chatting with them patiently, and doing nothing else.

The women seemed to be aware of something, Caixia pouted directly, and hugged her brother's arm with her elder sister in anger.

But in the end, they compromised and let Li Yun say goodbye.

"Husband~"

Princess Yongning's eyes reddened, tears fell, she couldn't help but rushed into Li Yunqi, and hugged her hard, "Yong and Yongning don't want her husband to leave, they like to be with him..."

"It's not that I won't come back, okay, okay, it's all the husband's fault, never cry."

After half a day, the little princess stopped her tears, bit her lip and looked at him: "Husband, you go and do your thing. The queen mother said that we, as women, must unconditionally support what men do, even if Yongning It's a princess, and don't stop the cohort, otherwise it will be bad luck.

Yongning...Yongning, I can understand my husband's decision, so husband, go and do your thing, Yongning is at home waiting for you to come back! "

With the delicate appearance of the weak, sticky, and understanding little princess tears, Li Yun couldn't help it anymore, hugged her delicate body, and kissed her cherry blossom mouth.

"Hey."

The little princess was extremely shy, her mind was blank. She wanted to reject Li Yun. After all, there were two sisters and aunts beside her, but when the husband kissed her, the little princess forgot everything, and her whole body was like a fire. The same.

She had been close to Li Yun several times, and gradually understood what these things were like.

"Ah, brother!"

Sisters Caiwei and Caixia were also very shy, covering their faces with both hands, but the twins' fingers were opened, and their big eyes shyly watched the kiss between their older brother and the future young son's sister-in-law.

Li Feng's face turned red, and she and Li Yun had kissed like this.

"Ahem!!"

Li Yun let go of the little princess who closed her eyes and said to their three daughters: "The princess is tired. I will take her back to the room to rest. You continue to watch TV."

After speaking, Li Yun cheeky and hugged Princess Yongning back to her boudoir in the form of a princess hug.

Li Yun achieved a very miraculous achievement: hug the princess with the princess.

The three girls who stayed in the living room blushed for a long time, and then the blush slowly dissipated. They all did not mention the matter in a tacit understanding.

Except Caixia.

"Brother and Sister Yongning..." Caixia stopped talking, and then said something that made Li Feng stunned: "Are you going to have a baby?"

"Caixia, you!"

Li Feng looked at her in shock: "When did you know these things?"

Unfortunately, Li Feng thought she was a pure sister, but she had already known this to her unexpectedly.

"Hmph, eldest sister, don't underestimate me!" Caixia's face flushed again, and she whispered: "Those classmates in the class are always discussing this. They are full of this. I heard it accidentally. "

Li Feng held his forehead helplessly.

Sure enough, although the age difference between her and the sisters was only four years, the junior high school students now mature very early, which is much better than she was ignorant at first.

When Li Feng was in junior high school, he didn't know exactly how to do it, but now junior high school students...know too much.

"Your brother..."

Li Feng didn't know how to explain, Cai Wei suddenly said, "Sister, did you and your brother live like this?"

"What? Plucking you..."

Li Feng was completely stunned this time, how did she know?

Chapter 995: Beauty Township, Hero Tomb

Obviously she and Li Yun have hidden well, usually after the sisters go to bed before Li Yun goes to her room-before Li Feng went to his room.

"When I was in the old house, I got up at night and heard...hear your voices."

Cai Wei's face was red as a ripe apple, but she said it directly.

Because I want to have a different relationship with my elder brother, this step must be taken out. This shows to my sister in disguise that she is no longer a child.

Caixia's big eyes opened wider, and she looked at Li Feng in disbelief.

"It turns out that elder sister and elder brother..."

"Nonsense!"

Li Feng turned his head awkwardly, "Nothing happened to me and your brother... At least not to the last step, just that, don't think about it. Okay, this topic ends here, you are still young, not now Need to pay attention to these too much!"

Li Feng planned to forcibly end the topic, but Cai Wei felt that the opportunity was rare, so she raised her head and summoned the courage to say to Li Feng: "Sister, you and brother can do it, so can Caixia and I, we... also like brother!"

Caixia's face turned red.

Li Feng couldn't believe his ears, but when he thought about it, he took it for granted.

The twin sisters have been taken care of by Li Yun since they were young, and her brother is very good and handsome. It is normal for the sisters to like him.

Just like Li Feng likes Li Yun, Caixia and Caiwei.

Caiwei expressed her intentions for the first time, she raised her head and looked at Li Feng: "Sister, we will always be a family from now on, okay? The princess can, sister Fang Xue can, sister can also, then I and Caixia... It's okay."

Can be Li Yun's...wife.

There was a mess in Li Feng's mind, and she instinctively told her that the sisters are serious, and they must have talked about this topic privately, so Cai Wei made the decision for Caixia.

But...but.

"Caiwei, Caixia, you can talk to the big carrot!" Li Feng turned his head, "I don't care, no matter how much, if you like him, go for it boldly!"

The twin sisters looked at each other, and their eyes showed happiness and joy.

From this day on, they are no longer children in the eyes of sisters and brothers, but...girls who can pursue their own happiness.

"but."

Li Feng laughed teasingly again: "I think he just treats you as his younger sister. If you two want him to like it, you have to work hard!"

Of course, Li Yun likes Caixia and Caiwei, but it's his brother and sister's preference, not another kind of preference.

"Well, my sister and I will work hard!"

Caixia held her small fist and made a firm look.

In fact, she and Caiwei didn't understand this and could only take it slowly.

That night, Cai Wei didn't see her brother coming out of Princess Yongning's room for two hours until she went to bed.

But when she got up to go to the bathroom at night, she passed by Li Feng's room and heard that sound again.

...

Meiren Township, Hero Tomb, this sentence is really true.

Li Yun returned to his home in Longyang County for four days. In the evening, he either had a love affair with Princess Yongning, and checked the little princess's health by the way, or played foolishly with Li Feng until late at night, causing Li Feng to have a little class the next day Sleepy.

Fortunately, her college entrance examination review has been completed, no review is needed, otherwise Li Yun would not dare to play with her so late.

Chapter 996: Back to Zhonghai City

As for the daytime, Li Yun was with Fang Xue. In the morning, they used the excuse to go to the library for self-study. Both he and Fang Xue's academic scores were above 700 points, which universities across the country chose randomly.

Therefore, for Li Yun and Fang Xue's behavior of going to the library during class time, the teachers in both classes opened their eyes and closed their eyes, and the fool knew what the school-tyrant couple was doing.

Many classmates have seen it with their own eyes. In the playground, in the bushes, and in some hidden corners, they can find the scene of the two being in love-ahem, these classmates went to look for it on purpose.

As for the afternoon, Li Yun and Fang Xue asked for leave to buy stationery or medicine, or simply felt sick.

In fact, the two of them visited several scenic spots in Longyang County. After Fang Xue returned home, her parents could always see that her daughter's lips were swollen a lot, which shows that their future son-in-law is going to be with each other. How many times have their daughter kissed.

Even when Fang's mother was washing clothes for Fang Xue one day, she found a little white mark on her collar. Fang's mother who came over immediately knew what had happened between her daughter and her future son-in-law.

Fortunately, Fang Xue's underwear has been quietly washed by herself in the past few days, otherwise Fang's mother will still find more residual white traces.

"Boss, Zhonghai City is here!"

Stopping in front of the Mingyue Building, Zhu Dayou said Li Yun, who was sitting in the back seat respectfully with his eyes closed.

"Um."

Li Yun opened his eyes from the memories of the past few days, and said, "You don't have to send it to me every time, just ask your subordinates to do it. I don't need you to do anything."

"It's okay, I happen to be free these days." Zhu Dayou smiled flatteringly.

Li Yun didn't say much, got out of the car and got into the building.

Zhu Dayu was a subordinate he received recently. Although he has a bit of energy in Longyang County, to Li Yun, he is just a driver and it is useless.

When I came to the company and just walked in, I heard the respectful voice of the lady at the front desk: "Good morning, Chairman!"

In an instant, all the people working in the company turned around.

"Hello, Chairman!"

"Good morning boss!"

"Did the boss eat breakfast? Do you want me to buy some for the boss?"

"The chairman is so handsome!"

A group of employees tried to flatter him, and Li Yun waved his hand irritably: "Okay, you are busy, I will be here for a few minutes today. The bonus is indispensable for yours... oh right."

Li Yun stopped and smiled to his employees: "I will reveal one thing to you. The company is going to recruit a large group of people and invest at least 200 billion yuan to recruit top programmers and various engineers in the industry. You will wait for the details. Ke News, well, let's continue working."

All the employees were dumbfounded.

Investing 200 billion, this amount really scared them!

Originally, each of them took a few million in bonuses, and they thought they would ruin the company. After all, Baiyun Technology has just started.

Unexpectedly, the chairman of the board did not even consider the bonus of one or two billion!

The opening is to invest 200 billion, this momentum, this boldness, this money, this chairman...In short, awesome!

"Old Wu, give you a surprise!"

After entering Wu Ke's office, Li Yun shouted directly, shocking Wu Ke.

"Surprise? A fright?"

Wu Ke looked helpless, got up and poured a glass of water for Li Yun, "I am so busy these days, many people in the game circle have come to inquire about news and cooperation intentions. The sales of "Xiao Ming" have exceeded 700. Ten thousand, still rising steadily."

Chapter 997: Not more than two hundred billion

"Are you so busy?" Li Yun smiled and took a sip of water.

Wu Ke gave him a roll of eyes, "Boss, you are the shopkeeper so you don't know. The exaggerated sales figures of "Xiao Ming" have shocked many game manufacturers to their jaws. They are eager to understand the inside story, analyze the game mechanism, and some The platform wants to cooperate with us and share some channel fees. There are too many messy things."

"That's it."

Li Yun smiled mysteriously, "But you will be free soon!"

"...Don't scare me."

"Hahaha, don't be too surprised later."

Li Yun took out the technical hard disk for intelligent autonomous driving and motioned Wu Ke to put it in the computer for a demonstration.

"Wu Ke, how much money do we have in the company now? How much money can this game provide?"

"What do you want to do?"

Wu Ke put the hard drive in, and said: "About 10 billion of book funds, most of which are advertising expenses from Pioneer Strike. Xuanyuan Shield has not yet been made. Xiaoming's game probably can provide less than five. 100 million."

"Too little."

Li Yun shook his head and pondered for a moment: "Well, you put aside all these chores, and do your best to do the next thing. I will invite people to invest when I have financial problems."

"Ten billion is not enough? How much do you want to invest?"

"Two hundred billion."

Wu Ke's hand trembled, and the mouse almost fell to the ground. He looked at him as if he had seen a ghost: "200 billion? Do you know how much 200 billion is? It's exactly twice the market value of our company!"

An ordinary start-up company has 100 million, no, 10 million investment is already very impressive.

Don't you see QICQ, G brother, F book and other companies with a market value of several trillions, all wanted to sell because they were short of several million.

Li Yun shrugged, "A great investment is of course a great thing to do. I plan to buy a ready-made car company and invite a group of top algorithm engineers and related employees. 200 billion is barely enough. ."

If other people say that 200 billion is barely enough, Wu Ke has to roll his eyes.

But Li Yun was young and talented. At the age of 18, he defeated him, the industry's top technical expert in Internet technology, and the market value of the company he founded soared to 100 billion in just three months.

Coupled with the fact that Li Yun knows many daughters from wealthy families..., 200 billion is not impossible.

"Do you want to engage in intelligent driving?" Wu Ke asked while turning on the hard drive, and suddenly gasped, "Where did you get these things?"

"Gift from the gods." Li Yun joked.

"Fuck you! Where do the gods know about unmanned driving? They all use flying swords!"

Wu Ke scolded with a smile.

Intelligent driving, also called unmanned driving, refers to the intelligent driving of a car based on a computer system to drive on the road.

It is completely automatic and does not require a driver.

This technology has long been implemented in universities and research institutes, but the error rate is high, and it requires good road conditions. Visibility on the road, the number of pedestrians, the

complexity of signs, instrument sensitivity, network signals, etc., have severely restricted the development of this technology.

"This....."

Wu Ke became more and more frightened as he watched. The hard drive was full of technical dry goods. Although he had not systematically studied autonomous driving, he still knew a little bit about the relevant technologies.

From the perspective of a technical expert, this technology should be real!

"Two hundred billion, not much, right?" Li Yun smiled.

"...Really not much."

Wu Ke reluctantly agreed to help Li Yun find a way to realize the technology still in the hard disk!

"Perhaps Baiyun Technology can really change the world!"

The more I read this technical document, the more excited Wu Ke's heart is. Just imagining the day when autonomous driving can be realized, he is full of enthusiasm.

"Li Yun, let's discuss..."

"I haven't been free these days, um, you can just take it as me to invest."

"...I rely on!"

Chapter 998: Sister, my name is Li Qiaolan

Li Yun smiled and left the company, leaving Wu Ke to be crazy.

A project with an investment of 200 billion yuan is far from being done by one person. Wu Ke needs to recruit several senior presidents to be responsible for the acquisition of car companies, management, technology, and finance.

"But the first step is to get investment."

Li Yun got into Zhu Dayu's car and shook his head mutteringly.

When Zhu Dayu heard this, he immediately opened his eyes and smiled: "Boss, your company wants to invest? Or I will also participate and give the money to the boss for you to use. What do you think?"

Li Yun glanced at him, "How much money do you have?"

Zhu Dayu got even more vigorous, patted his chest and said, "I have three bathing centers, four KTVs, two hotels, and a chain restaurant. There are thousands of people under my hand. It's not a problem to take out tens of millions!"

"What I need is two hundred billion."

"Uh?"

Li Yun closed his eyes and rested. Zhu Dayu was stupid. He couldn't even think of the number of 200 billion, and he would never reach it in his life.

"Okay, go to the airport."

"Yes, boss!"

Zhu Dayu became more respectful to Li Yun, and concentrated on driving his boss to the airport.

"Two hundred billion."

Li Yun thought for a while, Xiaoxue's family can't count on it anymore, Lao Zhangren can use at most several billion.

Qingyu and Lianyi may have 50 billion, and they look for Su Muxin cheeky. As long as they can impress her father, it won't be a problem to get 10 billion.

In addition, the state-owned banks can also attract an investment.

"Autonomous driving requires a good network, and it just so happens that there are related technologies in that technical document."

"In this case, you can go to the communication equipment manufacturer Warwick Technology, and cooperate with them to develop and transfer related technologies, and get tens of billions."

Li Yun has a bottom in his heart. If it doesn't work, he still has several channels to get money.

As long as autonomous driving technology is developed, you will not be afraid of lack of money in the future. The relevant market can reach three trillion yuan. The transfer of technology fees alone is enough to make car companies around the world spit out a lot of money!

"By then, at the pinnacle of life, we will marry Bai Fumi and become CEO...erh."

Li Yun couldn't laugh or cry, and he was affected by the cheating system chanting this sentence all day long.

"Boss, we are at the airport!"

After Zhu Dayu got out of the car, he diligently opened the door for Li Yun, not like a boss with a wealth of billions, but a little \*\*\*\*\* working in front of a horse.

"Boss, when you come back, do you want to..."

"No, you go back, you don't need to send someone to pick me up."

Rejecting Zhu Dayu's kindness, Li Yun stepped into the airport, and many people came to see him along the way.

After all, Zhu Dayu's car is the top luxury car in the eyes of ordinary people. The BMW 7 Series, a luxury car of more than five million yuan, can be recognized by ordinary people at a glance.

Li Yun can ride in a luxury car at a young age, and the driver will pick him up. It can be seen that he must be a rich second-generation.

"Handsome guy, where are you going?"

Not long after Li Yun bought a ticket and sat in the waiting room, a woman with a hot figure and a beautiful dress came to strike up a conversation.

Li Yun glanced at her, and she was very sensitive to the term handsome guy. A certain saint liked to call him that way.

"Why doesn't the handsome guy speak and look down on his sister?"

The beautiful woman sat beside him with a smile, her eyes seemed to contain water, she looked at Li Yun affectionately, "My sister's name is Li Qiaolan, what about you handsome guy?"

"Ding, the option event is triggered, please choose from the host."

Chapter 999: coincide

"Option 1: Give Li Qiaolan a name.

Option 2: Ignore, no reward.

Option 3: Without saying anything, directly kiss the slut, reward skill: breed horse (a certain ability is strengthened

coming!

Li Yun's spirits refreshed. In recent days, he has rarely encountered choice events. He estimated that his life is so stable that there are not many choices in life, and he needs to make trouble.

Sure enough, when Li Yun was about to set out to investigate Song Yuan's affairs, the system immediately prompted a selection event.

But... slut?

Li Yun looked up and down at this hot figure, wearing lipstick with her last name, and she was about twenty-seven-eight.

Her eyes were slightly flattering. With her excellent figure and appearance at least 6 points, many men in the waiting room looked at her one after another.

"My name is Li Yun."

Li Yun reported his name, and immediately, the rewards of the system came.

"Ding, the host makes a choice, rewards experience value +100,000, white gift bag\*1, extra reward: Li Qiaolan's favorability has risen sharply."

Li Yun was speechless. The woman gave it to him for nothing, and Li Yun didn't even look at it.

Fang Xue, Princess Yongning, and Li Feng, these three are all big beauties that Li Yun has tasted many times, and those who have eaten delicious cakes. Would they still go to see rotten overnight dishes?

"Li Yun? Hey, what a coincidence!" Li Qiaolan got harder, half of her body leaned against Li Yun, her soft body twisted like a snake, and said: "My sister also has the surname Li, we have the same surname. Maybe it was still a family eight hundred years ago? Hee hee, meeting is a fate, why don't you exchange your phone with your sister?"

Li Yun couldn't stand her enthusiasm, but many men around showed envious eyes.

"This kid is pretty lucky!"

Li Yun didn't like it, but many men were greedy for Li Qiaolan's appearance and wanted to replace it. They even mocked Li Yun for being a little virgin, not seeing the benefits of Li Qiaolan's plump body.

"Ding, trigger the option event, please choose from the host:

Option 1: Exchange mobile phones with Li Qiaolan, reward experience value +100,000, white gift bag\*1, Li Qiaolan's favorability will increase.

Option 2: Ignore, no reward. "

Li Yun was a little surprised, why did it happen again?

Is this Li Qiaolan the same important person as Jin Liuli he met at the airport last time?

Li Yun pondered for a moment, and calmly avoided Li Qiaolan's beautiful snakelike body, and asked, "I wonder which flight is Miss Li's flight?"

Got the bait!

Li Qiaolan was pleasantly surprised. When she entered the airport, she happened to see the scene of Li Yun coming out of the luxury car. Not only the luxury car, but also the driver to pick up and drop off her, it was clear that the family must not lack money.

What made Li Qiaolan overjoyed was that Li Yun didn't look very young and obviously had not many daughters, and he might even be a virgin.

In this way, is she not able to catch such a little boy with her means?

Don't look at Li Yun still calling her Miss Li, but it's only because of his good tutoring. When there is no one, make sure that this handsome boy and sister will call her!

Thinking of this, Li Qiaolan's eyes softened, and her voice said softly, "Li Yun, wherever you go, my sister will accompany you to wherever you go."

"..."

Li Yun said lightly: "My flight is MH125, to Jianghai Province, how about you Miss Li?"

"what?"

Li Qiaolan clapped her hands and said with a smile: "My sister also happened to be going to Jianghai Province. We will sit down and have a good chat on the plane!"

Chapter 1000: I'm looking for Song's

Jianghai Province, Hengjia County.

The goals of Li Yun and Li Qiaolan are surprisingly similar.

After the two came out of the airport, Li Qiaolan immediately wanted to hold his hand, but Li Yun calmly avoided it.

Li Yun has only met one woman who seduce and seduce such a woman: the little girl in the salon, Qingfei Wan.

"Really, it's the time now, brother Li Yun, you are still shy~"

Li Qiaolan cast a wink at Li Yun, and said softly: "Let's go, go to the hotel with my sister, and then my sister will teach you more adult things~~!"

"Ding, trigger the option event, please choose from the host:

Option 1: Go to the hotel to open a room together, reward evil value +500, experience value +300,000, all attributes +500, blue gift bag\*1.

Option 2: Reject, reward justice value +1, green gift bag\*3. "

Li Yun was speechless, I am afraid that Li Qiaolan thought he was following her on purpose?

"Miss Li, I really went to Hengjia County, I didn't lie to you."

"Hey? Wait, wait, my sister really went to Hengjia County, come, with my sister, my sister is very familiar with this road!"

Sure enough, Li Qiaolan knew Hengjia County very well. She took Li Yun to the bus station. Instead of entering the station to buy a ticket, she made a phone call.

A short time later, a van drove more, and Li Qiaolan gave him 1,000 yuan in a light car. The van immediately drove her and Li Yun to Hengjia County.

On the way, Li Qiaolan approached Li Yuntao again.

"Brother Li Yun, what are you going to do in Hengjia County? What about your driver and bodyguard? How can you go there alone."

Li Qiaolan hit the side, and there was a driver's bodyguard, which made him even more sure that Li Yun had an extraordinary background, his father was worth billions and so on.

Li Yun smiled slightly and said, "Look for the Song family."

"Song family!?"

In an instant, Li Qiaolan's face changed slightly, and her smile became a little stiff: "What are you looking for in the Song family? No, the Song family...?"

"Yes, the person I'm looking for is the Song Yuan, the Song family, who has been raging in the world recently."

"you!"

Li Qiaolan's pupils suddenly shrank, and her breathing became a little quick.

After that, she moved her position slowly, not daring to get too close to Li Yun.

The Song family is a family of martial arts in the arena.

Although it was only a small family that could not be smaller, in the eyes of ordinary people like Li Qiaolan, it was already a wealthy family that could not be offended.

Li Yun went to the Song family alone. It is very likely that he was also a martial artist. For these people, Li Qiaolan had never dared to offend them.

"Miss Li, what's the matter?" Li Yun asked with a smile.

"No, nothing."

Li Qiaolan gave a stiff smile, "Sister, no, I happen to be going to Song's house too, wait for me to lead the way for you."

"Really? That's a coincidence."

"Uh, yes, it's a coincidence."

Li Qiaolan can't wait to give herself a big mouth, she shouldn't talk to Li Yun!

Without words all the way, the van came to Hengjia County. Li Qiaolan called another taxi, and the two quickly arrived at Song's home in the outskirts of Hengjia County.

This is a manor surrounded by mountains and waters. There are some residential buildings around, except for the high-walled courtyard of the Song family. There are two stone lions in front of it, which is very different.

Li Yun smiled and said: "It happens that I don't know the Song family well, how about Miss Li tell me about it?"

Li Qiaolan didn't dare to refuse, and said sly: "The Song Family... is very big."

For ordinary people, it is only the Song family that is not in the stream, and it is also an existence that can only be looked up.
