Chapter 269: The Legendary Tarot Master Lucio

"This is impossible!"

Machiel and the others' expressions changed drastically.

"Chairman!"

The Stellar rank and sage rank members of the Ondor Council let out anguished roars upon seeing the scene, charging recklessly toward Tina.

Tina, using her spatial binding technique, casually seized the giant two-handed sword that had lost its master, and then disappeared into the void.

She jumped through the battlefield repeatedly, each flash precisely claiming a life.

Sind and the other faction leaders gasped inwardly.

A powerful faction leader was killed on the spot!?

The brutal reality of war was laid bare before them.

One of Ondor Council's Divine Envoy-level guardians could no longer tolerate the sight and, in a rage, charged forward, vowing to tear Tina apart.

The fifty thousand coalition soldiers and the five thousand Crossbridge Empire legions were locked in a frenzied battle.

The pure strength of the titans suppressed even the Eastern Domain's sage rank fighters, and the Stellar rank warriors were obliterated with a mere touch.

However, the coalition still had an overwhelming numerical advantage!

At this moment,

A large number of Crossbridge Empire soldiers stationed outside the city quickly reinforced Eryndor City through Transdimensional Leap from the void warlocks.

War Bear led ten thousand units to the front!

"We've been waiting for you!"

"Accept your punishment!"

Machiel and several other powerful figures suddenly emerged from the void.

Layers upon layers of destructive attacks instantly overwhelmed the newly arrived Imperial reinforcements!

Mountain Shieldbearers immediately formed huge shields from Earth and Metal elements, blocking the fatal onslaught.

Void Warlocks and Doomsday Warriors launched fierce counterattacks.

Elemental Assassins, like ghosts, moved around the battlefield's edge, making precise and lethal strikes.

The sight before Dave and the other powerful figures was shocking.

Each of these special legions possessed strange and powerful abilities!

In an instant, many began to think of acquiring the secrets behind the creation of such legions!

...

"My lord, everything is in place!"

Harry appeared beside Lucio atop the sky.

Lucio nodded and looked up at the sky.

He took out a star chart inscribed with profound celestial runes, which was a copy of the star chart held by Philip!

He raised his hand, and the star chart flew directly above Goldflow Empire's Eryndor City, rapidly enlarging!

Silver beams of starlight shot into the sky, piercing through the spatial barriers, as if connecting with the stars beyond.

The next moment, numerous solid beams of starlight descended from the sky, striking down on Goldflow Bay's sky!

The Crossbridge Empire soldiers, hidden by void warlocks, immediately attacked from all directions.

Each beam of starlight was linked to one soldier.

The void warlocks constructed temporary spatial passages, helping all units quickly converge toward the old Eryndor City, forming a giant, slowly rotating hexagram formation, surrounding all the Eastern Domain forces!

The very heavens seemed to rotate with the hexagram, and space twisted, pulling the entire Goldflow Bay battlefield into a dazzling starlight alternate dimension.

The starlight of Silent Extinction cascaded like a waterfall.

Dave, Sind, Firelight City's lord, and other strong figures all looked up at the giant hexagram pattern in the sky, their brows furrowing deeply.

"What's going on?!"

Dave furrowed his brows, his expression turning extremely grim.

The other powerful figures looked around, their faces dark with concern.

"We've been outplayed!"

A Divine Envoy rank figure tore through space, raising a hand to strike the star formation barrier, and cold words echoed in the void.

"Lucio, you're truly despicable!"

At that moment, Dave and the others realized, with a grim look on their faces, that they had been completely outwitted by Lucio—the very person they had trusted!

"We need to break out!"

Dave stopped hiding and personally struck.

At the same time, three hundred thousand Stellar rank and several thousand sage rank warriors all appeared and launched a fierce attack.

Over forty Divine Envoy rank figures' eyes gleamed coldly, and they all used their full power to eliminate the nearby Crossbridge Empire soldiers, attempting to destroy the deadly star formation.

Lucio ascended to the highest point in the sky, looking down upon the vast battlefield.

Once again, the tarot deck appeared in his hand.

This time, he quickly drew several core cards—The Star, Judgment, and Death!

He placed these cards in the void, creating a larger fate-judgment card formation.

A terrifying aura that sent shivers through the soul emanated from the center of the card formation.

As the fifteen thousand Stellar rank units completed their encirclement, the fate threads of the Eastern Domain experts, enveloped by the light of the formation, seemed to be directly manipulated, and their life force began to rapidly drain.

Even their connection to the world's laws was weakened and interfered with by the power of the formation.

This was Lucio's taboo killing move as a legendary Tarot Master—Fate's Destiny!

It used the life energy of fifteen thousand Stellar rank warriors as a sacrifice to simulate the imagery of everything's end in the river of fate, forming a deadly card formation.

Even the life and souls of Divine Envoy rank beings within this formation were marked with a fatal destiny, gradually leading them toward death!

"Ah—!"

Under the suppression of Fate's Destiny, Tina, War Bear, and the others launched efficient counterattacks and slaughtered their enemies.

Screams of agony echoed incessantly through the battlefield.

"Damned traitor!"

"Why did you betray us, you bastard?!"

"This is Lucio's trap! We've all been deceived!"

"Let's break it together first!"

The Eastern Domain experts were filled with fury and disbelief, desperately employing their last-ditch techniques and forbidden spells to attack the star formation barrier, causing energy explosions and deafening sounds.

Tina's figure flickered like lightning, weaving through space.

She quickly closed in on Asman Empire's Emperor, Sind!

Using Void Swordsmanship to its fullest, she weaved an intricate sword net that immediately consumed him.

Sind fell in an instant!

War Bear roared as the image of a four-armed giant appeared behind him.

Using Berserker's Fury, his massive battle axe cleaved Firelight City's lord in half!

One after another, the faction leaders fell, sending the Eastern Domain coalition into utter madness.

The forty or so Divine Envoy figures no longer held back, using all their power to attempt to break the star formation.

At that moment, Harry activated the power of the ancient Beastskin Drum, and an invisible wave locked onto the forty Divine Envoys.

Lucio took a step forward, entering the heart of the formation.

With a flick of his finger, gray tarot card illusions representing "Binding," "Weakening," and "Hanged Man" flew through the air, landing precisely on the forty Divine Envoys.

Anyone touched by these gray cards immediately felt their divine power halos violently fluctuate and fade.

It was as if they were bound by the threads of fate, their rank forcibly suppressed.

The overwhelming power they once had seemed sealed within the cards, unable to be fully unleashed!

"This is bad!"

One of the Divine Envoys from White Wing Abbey's face changed dramatically as he felt his power being shackled by fate itself!

At this moment,

Five thousand tenth-level Doomsday Warriors descended like grim reapers, locking them down.

"Lucio! White Wing Abbey will never forgive you!"

One of the Divine Envoys let out a hysterical roar, filled with boundless hatred.

They had followed Lucio's plan, acting according to his layout.

They had originally thought they would trap the forces of Crossbridge Empire, but instead, they had fallen straight into the trap Lucio had so carefully set!
