Chapter 270: The God Fire Rank, The Supreme Being

Lucio ignored the hateful roars directed at him.

Like a detached observer, he looked down upon the entire battlefield.

His fingers occasionally brushed over the tarot deck floating beside him, sensing the subtle tremors of fate's threads and making slight adjustments based on them.

Harry struck the ancient beastskin drum in his hand, and the sacred power within the runes fused into the soundwaves, suddenly blasting toward the several Divine Envoys and the nearby sage rank and Stellar rank warriors.

The divine aspect of the Stellar rank warriors was directly shattered by the sound waves, their souls and life force erased.

The sage rank warriors also vomited blood, suffering severe injuries.

Five thousand tenth-level Doomsday Warriors split off, quickly surrounding the enemies.

Harry's figure turned into a blur as he flew toward the shouting Divine Envoy, his nine demon slayer daggers silently merging with the void.

He activated his Demon Slayer Stealth, his form blending with the light and shadows of the tarot formation, suddenly appearing from the side of the Divine Envoy.

"Fool, you're seeking death!"

The Divine Envoy slammed his palm, shattering the space to the side.

However, his rank had been forcibly suppressed by the tarot formation, weakening the power of his strike.

Harry quickly withdrew, but his true killing move—Flying Dagger Demonic Art—was already set up!

As Harry withdrew to draw attention, the nine demon slayer daggers shot from the void, as if they had a life of their own, launching a sudden attack!

The Divine Envoy's expression changed dramatically as he barely managed to intercept four of the daggers using all his power.

But the other five daggers struck at impossible angles, slicing him into pieces. Two of them even pierced his skull with pinpoint precision!

The divine halo behind him shattered, and the first Divine Envoy fell at the edge of the battlefield!

Lucio, controlling the Fate's Destiny formation, continued to suppress the Divine Envoy rank warriors' abilities.

Many were suppressed to the sage rank level.

Though they still contained immense star fire power within them, they were sealed by the gray tarot card shadows, unable to unleash their full strength.

These card shadows were connected to the invisible power of fate, essentially drawing on fate's side branches to form shackles, binding the Divine Envoys' magical hearts and energy circuits, and suppressing their higher-level abilities.

This provided Harry and the other tenth-level Doomsday Warriors with a golden opportunity.

Before long, a dozen Divine Envoys had been slain!

Dave was nearly driven to madness, a towering fury welling up in his chest with nowhere to release it!

"Good! Good! Good, Lucio!"

A cold voice rang out from the sky above Goldflow Empire.

"You dare use your schemes against White Wing Abbey!"

Following this, a special, mysterious law vibration spread through the heavens and the earth, resonating in everyone's consciousness.

Beneath the vast land of the thousand cities of Goldflow Empire, the power of the earth surged toward the sky.

Above in the clouds, the power of the heavens poured downward!

The two forces met in the middle, forming a huge Earth Formation and a Sky Formation!

Lucio furrowed his brows and looked up.

On the battlefield, the attention of countless powerful figures was drawn to this astounding change.

Dave flew rapidly toward the Earth and Sky formations!

On the other side, Catherine, leading the Bernard family and ten Divine Envoy rank figures from Selene Empire, along with fifteen sage rank and one thousand Stellar rank warriors, arrived at the edge of the battlefield, also staring at the Earth and Sky formations.

The divine light of the Sky Formation and Earth Formation connected, forming an enormous column of light!

Within the light, three suffocating figures materialized out of thin air.

An oppressive and forbidden force spread out, covering Goldflow Empire, Linli Province, Fasior Plains, and beyond.

Even Aurek, far away in Eryndor City, sensed it.

Aurek stood in front of the imperial palace, his sword-like brows furrowing as he looked toward Goldflow Empire.

Two Divine Envoy rank figures from the Violet Rose Trade Guild stood at the gates of Jade City and Dizhonghan Street, gazing toward the battlefield.

Both of them uttered two heavy words simultaneously.

"God Fire rank!"

Only beings of such supreme power, standing at the pinnacle of the Eura continent, possessed the vast divine might to suppress entire regions.

The Earth Formation and Sky Formation finally merged, forming three brilliant, rotating formations that floated beneath the three divine figures.

Behind each of these figures hovered a complete and radiant divine halo.

Unlike the halos of Divine Envoys, the God Fire rank halos shone with the profound light of world laws!

This was the mark of a God Fire rank being, the product of the transformation of the divine aspect.

A God Fire rank existence had overcome all natural disasters, earned the world's laws' recognition, and secured a place in the order of the heavens, gaining significant influence.

Their terrifying nature lay in the fact that they had transcended the level of ordinary life, merging their soul, mind power, and bloodline into the divine halo!

The divine halo contained the essence of laws, origins, power, and destiny, forming the core of the future Divine Cleric's fate.

Even if their physical bodies were destroyed, as long as their divine halo remained intact, they could quickly regenerate their bodies using the world's primordial power and their own magic.

The appearance of these three figures instantly suppressed the entire battlefield!

Everyone felt an unparalleled pressure.

Harry, War Bear, Tina, and the others looked at the three figures with grave expressions.

Even the power of the Fate's Destiny formation was affected, gradually weakening.

"God Fire rank!"

The Eastern Domain Alliance's powerful figures trembled in their hearts, before turning to ecstasy.

With the appearance of God Fire rank beings, who could stand against them?

Such beings were only found in ancient powers that had endured for hundreds of thousands of years!

"Kill!"

This scene greatly inspired all the Eastern Domain Alliance's warriors.

They used all their strength, launching a frenzied attack on Crossbridge Empire's special legions.

Lucio's brows furrowed, but his actions did not cease.

The three divine figures' gazes pierced through the void and landed on Lucio.

One of them flew directly toward him, while the other two moved into the main battlefield of Goldflow Bay.

With a raised hand, they summoned a complex formation.

As they pushed the formation toward the battlefield, it rapidly expanded, absorbing the power of laws and the world's origins.

Boom!

Boom!

The formation fired two beams of pure divine light that pierced through the heavens and earth, slamming into the Fate's Destiny formation.

With two deafening explosions, a massive spatial crack was torn open in the sky above Goldflow Bay.

Countless chains formed from tarot card illusions were destroyed.

The invisible force of fate was violently disrupted, causing the entire formation to tremble.

The situation on the battlefield was instantly reversed, plunging both sides into a more chaotic and brutal battle.

The tenth-level Doomsday Warriors immediately used Celestial Doom Judgment, summoning meteorites burning with destructive fire to crash into the battlefield.

At this point, the war had escalated to a level where neither side cared about the consequences anymore.

The civilians of Goldflow Empire were overwhelmed by the pressure, vomiting blood and desperately fleeing in fear and despair.

"Poof—"

Lucio coughed up blood, his face paling slightly.

"You've chosen the wrong side!"

The God Fire rank figure flying toward Lucio locked onto him, as if all the pressure of the world had focused on Lucio alone.

The backlash from the Fate's Destiny formation made him feel excruciatingly uncomfortable.

But the suppression lasted only a moment!

In the next instant,

A mysterious force suddenly enveloped Lucio, relieving him of some of the pressure.

Catherine had made her move!
