Chapter 271: The Collapse of Goldflow Empire's Battlefield

The two Abyssal Puppets were activated by Catherine, transforming in the blink of an eye into two towering magic statues!

They were surrounded by dark, sacred runes that radiated an unparalleled aura of destruction!

This sudden change caused even the three God Fire rank beings to pause, and their divine power instantly surged to cover the area.

Catherine, holding the sharp Silver Serpent Dance, entered the battlefield with the enhanced power of her Divine Envoy rank.

"Those are... sacred runes?!"

The three God Fire rank beings locked onto the two magic statues, their divine eyes filled with caution.

Boom!

The two statues seemed to come alive under Catherine's mind power, as if they had gained independent consciousness, and charged toward the three God Fire rank beings.

With just one strike, they pierced through the heavens, and wherever the sacred rune light shone, even the very essence of the world trembled, posing a huge threat to the three God Fire rank beings!

Lucio was also surprised. The pressure from these two God Generals was even more terrifying than that of the three God Fire rank beings from Skyborne Church!?

He quickly retreated. In a battle of this level, even he was just a larger dragonfly in comparison.

The attention of the three God Fire rank beings was entirely focused on the two statues and Catherine!

In response to the incoming sacred rune light columns, they hurriedly activated the Earth Formation and, with the help of their divine halos, called upon the power of the region to retaliate.

The two Abyssal Magic Statues were ancient relics.

Although not all the runes had been activated, the power they had unleashed was enough to push them to the peak of God Fire rank, completely suppressing the three God Fire rank beings!

The destructive runes gathered once again, and dark light beams instantly shattered the defense of one of the God Fire rank beings, directly obliterating its divine body!

This terrifying sight forced the other two to go all out.

The God Fire rank being that was destroyed quickly absorbed the essence of the world and reformed its divine body, while the three of them joined forces to combat these terrifying statues!

But Catherine wasn't worried; the two statues were more than enough to stall the three God Fire rank beings.

She swung the Silver Serpent Dance into the main battlefield, and with a single strike, she decapitated Dave, then rushed toward the remaining Divine Envoy rank warriors!

The power of the Silver Serpent Dance was already fearsome, and with Catherine being one of the best in the Divine Envoy rank, nearly no one below God Fire rank could challenge her.

Her arrival created an absolute crushing advantage for the Crossbridge Empire!

Lucio quickly adjusted the Fate's Destiny formation, stabilizing the battlefield once more.

Harry and Tina swiftly eliminated the Divine Envoy rank warriors, clearing the high-end combat forces. The remaining Stellar rank warriors were no longer a threat.

With the special units working together, and without the obstacles of Divine Envoy rank and sage rank, they had overwhelming superiority against pure Stellar rank warriors.

For them, the thirty thousand Stellar rank warriors from the Eastern Domain Alliance were mere equals, and in terms of coordination, Crossbridge Empire had an even greater advantage.

By this point, the Eastern Domain Alliance had lost nearly forty percent of their forces, with over half of the twenty thousand sage rank warriors wiped out.

Both sides had suffered casualties, but with Lucio's Fate's Destiny formation continuously suppressing and weakening the enemy, the battle was almost entirely one-sided.

Even leaders like Dave and Machiel had fallen quietly like cannon fodder. There was no longer any suspense in the outcome!

"May the glory of the Empire purify you all, kill!"

At that moment,

The fifty thousand tenth-level Doomsday Warriors that had been hiding in the void surged forward like reapers.

This was the equivalent of five thousand sage rank combat forces suddenly entering the battlefield!

"Huh?!"

Even Lucio's eyelids twitched.

Catherine and her forces also felt a shock in their hearts.

"What? What is going on?"

"All sage rank? Damn it, retreat! Retreat now!"

"That's it! We're finished!"

"How does Crossbridge Empire still have so many sage rank-level warriors? This is impossible!!"

"We, the Ondor Council, surrender!"

"We surrender!"

"Damn it! Where did these monsters come from...?!"

In the battlefield, all the Eastern Domain Alliance's powerful figures immediately fell into despair.

Seeing this world-shattering sight, some screamed in madness, while others tried to flee. The frontlines completely collapsed.

Having already fielded hundreds of thousands of Stellar rank warriors, they never imagined five to six thousand sage rank-level warriors would appear as reinforcements!

This was roughly the entire amount of sage rank forces the Eastern Domain Alliance could muster, yet Crossbridge Empire had summoned this much power out of nowhere?

In that moment, many of the leaders from various factions realized that the foundation of both sides was not even on the same level!

If the fighting continued, everyone would die here.

This was clearly a death trap designed to destroy the future power of the Eastern Domain!

Above the sky, the five God Fire rank beings clashed, shaking the heavens, and the sounds of the battle spread across more than a dozen provinces.

Meanwhile, outside Bimat Highlands, Frederick and the others also sensed the terrifying energy fluctuations from the Goldflow Empire direction.

"Is the battle over there really this intense?!"

"This level of energy must be the result of God Fire rank beings taking action."

"Crossbridge Empire's foundation is forcing White Wing Abbey to send out God Fire rank protectors—this calls for extra caution in our response."

Edmund spoke gravely, his face full of concern.

Everyone else was equally somber.

They knew that over forty Divine Envoy rank beings and more than twenty thousand sage rank warriors had been sent to Goldflow Empire.

Yet despite all this, they had been forced to call on God Fire rank beings to join the battle!

This demonstrated just how terrifying Crossbridge Empire was!

Eureka didn't speak, but he looked toward Goldflow Empire, a flicker of unreadable light passing through his eyes.

The more intense the fighting, the more both sides would suffer, which was exactly what the Shadow People needed to infiltrate and complete their long-planned schemes!

"Aurek... It seems I must thank you properly!"

He coldly laughed inwardly, mocking the Eastern Domain's chaos and foolishness.

Frederick remained silent for a long time before finally turning his gaze toward Crossbridge Empire's territory.

"Don't worry about Goldflow Empire anymore. Since the God Fire rank beings have taken action, we can assume Crossbridge Empire's entire foundation has been drawn there."

"It's time for us to act. We must destroy Eryndor City and put an end to Aurek's rule!"

"I believe this will give Emperor Aurek quite the surprise!"

A meaningful smile appeared on Eureka's face.

The others showed various expressions, silently calculating their next moves.

Now that Crossbridge Empire's core forces were tied down in Goldflow Empire, draining White Wing Abbey and their allies' strength,

Their main force faced no significant pressure, and regardless of how they calculated it, this was a profitable trade.

With nearly forty percent of the Eastern Domain's foundation gathered here, it was more than enough to surprise Aurek!

Frederick, as the leader of Skyborne Church, would lead this operation!

With a single command, the accompanying Divine Envoy warriors immediately began constructing a large-scale teleportation passage, intending to directly cross several provinces from Bimat Highlands and launch a surprise attack on Eryndor City!

At the same time, the Filo Empire's millions of elite legions would march from the northern borders of Crossbridge Empire and Bimat Highlands, attempting to seize Crossbridge Empire's territory amid the chaos!
