Chapter 281: Beyond the Eastern Domain

Mac did not deny it.

Undervaluing the enemy was the most foolish thing to do!

"I previously thought the Eastern Domain was a fragmented mess, but now it seems we were overly arrogant."

"For the Central Domain, this could be a significant threat."

Another person spoke with a solemn tone.

The middle-aged man in the purple hat furrowed his brows.

"I wonder how many of these giants there really are?"

...

On the other side, the nine members of the fourteen Shadow Guilds who had not yet engaged also watched in silent shock.

The power on display was something they couldn't truly understand without experiencing it firsthand.

"Stop watching, let's all strike together!"

Shadow Guild One growled.

They had just entered the God Fire rank, with the highest-ranked among them barely at God Fire rank two.

Facing these two giants one-on-one was pure suicide.

In the next moment, they spread out like black mist, surrounding the two titans.

"They are powerful, but not very agile; speed is their weakness."

"We just need to surround them!"

Shadow Guild One pinpointed the titans' flaw.

The other Shadow Guild members immediately understood.

The two titans were indeed not very agile, and their response time was slower, which became their weakness.

Even though there was a rank difference, the Shadow Guild could use their mobility to gain the upper hand.

Thirteen of the Shadow Guild members began to attack the two titans.

"Want to play a group fight with us?"

The two titans paused for a moment before baring their teeth and grinning.

Boom!

Boom! Boom!

Thunderous explosions echoed through the sky outside White Wing Abbey, the sound of fists crashing reverberating through the air.

The thirteen members of the Shadow Guild were all at God Fire rank!

Although they couldn't match the titans in rank and raw strength, they transformed into black mist, spreading like ink across the sky.

They then launched attacks from various directions, trying to wear the titans down and eventually exhaust them.

At this point, only thirteen Shadow Guild members remained in the assault!

Shadow Guild Five, after being smashed into the void, had been pulverized by the Star Breaking Fist and had their magical body disintegrate, leaving only wisps of black smoke in the wreckage.

The thirteen remaining Shadow Guild members coordinated well, constantly searching for weak spots in the titans' defenses and launching deadly magical attacks.

The power runes on the titans gave them formidable physiques, and even when they took several attacks from the Shadow Guild, no serious injuries were sustained.

However, this advantage was only temporary!

Soon, a Void Warlock performed a Transdimensional Leap, bringing fifty God Fire rank titans to the battlefield!

As soon as the fifty God Fire rank titans arrived, they instantly surrounded the thirteen Shadow Guild members, completing a counter-surround.

Boom~!

The heavens trembled.

The fifty God Fire rank titans rose into the air simultaneously, like moving iron mountains, surrounding the swirling black mist.

"Impossible! Fifty of them!"

The middle-aged man in the purple hat, far in the distance, exclaimed in shock, staring at the battlefield.

General Mac's gaze instantly hardened.

The other figures watching were left speechless, staring in disbelief!

Just one or two titans had made General Mac feel pressured, requiring careful handling.

Now, fifty had appeared!

If they entered the Central Domain, the consequences would be unimaginable.

Of course, for now, they were simply shocked and stunned.

But for the thirteen Shadow Guild members, their hearts sank, feeling as though they were already dead.

The fifty titans, all at God Fire rank four or five, completely trapped them in the center!

What could they even fight with now?!

The two titans under siege buzzed.

"These rats were trying to gang up on us earlier!"

"Gang up?"

Upon hearing this, the fifty God Fire rank titans' giant eyes immediately focused on the black mist.

The gaze sent a chill down the spine of the Shadow Guild!

"Retreat with full force!"

Shadow Guild One immediately gave the order to withdraw.

However, the approaching level 10 Void Warlock swiftly cast Nether Cage, instantly locking down the surrounding space.

Boom!

A massive slap descended from the sky.

Shadow Guild One was directly slammed out of the black mist and crashed hard into the ground.

One of the titans in the surrounding circle seized the opportunity to step down!

Boom!

The ground was smashed into an enormous crater.

Shadow Guild One's body was instantly crushed, leaving only a swirling Abyssal Demon Wheel flickering desperately in the wreckage.

The titan's giant hand grabbed the Demon Wheel, ripping it apart as easily as tearing fragile parchment.

The Demon Wheel emitted a shrill mind-power wave, but it was completely shattered in the titan's hand.

The other twelve Shadow Guild members frantically soared into the sky, trying to rescue or counterattack.

But predictably, they were all surrounded by the fifty God Fire rank titans and hammered back into the ground.

The black magical energy surrounding them dissipated, and they were completely unable to resist such pure, extreme force.

"These big guys blocked the way, we can't escape..."

Shadow Guild Ten thought helplessly.

What was meant to be a group fight had turned into their own slaughter.

Two titans had already been troublesome enough, but now fifty were hammering them.

Even if they were blindfolded, no one could survive this!

"Send these bugs on their way!"

One titan shouted.

Dozens of giants immediately unleashed pure violence, throwing Star Breaking Fists relentlessly.

The spectators at the perimeter could only feel the violent shaking of the space.

The surviving monks inside White Wing Abbey stared in stunned silence at the sky.

Space shattered, and the ground sank, but the titans continued to pound, as if trying to pulverize their enemies into dust.

Philip and Lucio rushed to the scene, hoping to stop them, but they were too late.

The fourteen Shadow Guild members had been turned into nothing but rubble!

The two stared in shock at the God Fire rank titans.

They had originally planned to use these fourteen Shadow Guild members as bait, luring out more powerful forces from the Shadow Clan and then capturing them all.

But they were too late. The titans were too fast in their attack.

However, even though their plan had failed, they could not bring themselves to feel anger.

"Forget it, we'll think of another way."

Lucio said with a wry smile.

Then, with the assistance of the Void Warlock, they returned to Eryndor City to prepare a new plan.

...

Valoria Palace.

Natasha presented Aurek with the parchment maps of the Central Domain, the Savage Lands, the Peak of the Firmament, and Blade Domain.

In fact, ever since the empire began its campaign to conquer the Eastern Domain, she had already started gathering intelligence on these outer realms.

"Your Majesty, the situation in the outer realms is different from the power struggles in the Eastern Domain,"

Natasha pointed to the most central region on the map.

"The Central Domain has already been unified, with the Anglian Empire as the sole ruling power!"

She continued, explaining that aside from the empire, there were also transcendent forces in the Central Domain.

For example, the Aurora Temple, the Sky Sanctuary, and the Ancient Truth Society...

These forces held a foundation between the Eastern Domain's overlords and the giants, all formally acknowledging and subordinating to the Anglian Empire's rule.

"As for the Peak of the Firmament,"

Her finger moved to a vast region, even larger than the Eastern Domain.

"It is mainly the Ring of the Firmament Church and the Heavenwing Empire vying for supremacy."

"The Ring of the Firmament Church has a much older legacy than White Wing Abbey or the Skyborne Church, with an unfathomable foundation. The Heavenwing Empire, a rising force, competes with them due to its booming national fortune."

"As for the Savage Lands,"

Natasha's finger traced an area marked with danger symbols.

"This region is even more chaotic than the Eastern Domain, but behind the chaos, the Highland Royalty maintains control!"
