Chapter 494: The Sage Master Makes a Move, Supreme Aura

"How is this possible? That's a Sage Master!"

Sherana's expression froze.

"Are you kidding me? Crossbridge Empire actually has a Sage Master!"

"That's a Sage Master! How could such a person exist in the lower realms?!"

The people of God Mountain, who had been engulfed in madness, were now shaken to their core, completely stunned.

The Sage Master personally entering the battlefield and crushing the situation... how can they possibly fight back?

This damned Crossbridge Empire...

They have no sense of royal dignity! Shameless!

The people of God Mountain cursed bitterly, but they also sank into despair.

With a legion so powerful that it could wipe out even the most elite of the Imperial Guards, they could already crush everything.

Now, there was even a Sage Master overseeing things!

And the Sage Master himself was stepping in, directly crushing God Mountain's peak experts like ants... how could they fight back?!

Prologue Sage and the others also twitched their mouths.

They stared blankly at the figure heading toward the royal court for a few seconds, before rushing into various battlefields and joining the Imperial legions to counterattack Cloudwood Province and other territories, quickly capturing God Mountain's land.

Chaotic Realm.

Ares and the Divine Oracle from SpiritSong Kingdom, after jointly slaying two Divine Oracles from Litaran Empire, immediately swung a large axe towards Litaran Empire's territory, tearing apart the vast lands.

Claren was completely desperate.

Now even the Sage Master was making a move...

It was clear that provoking Crossbridge Empire was a self-inflicted path to destruction!

"Litaran Empire... is finished!"

He cried out to the heavens in despair.

If they had not provoked them, even if they were eventually annexed, they could have preserved their legacy.

But now, watching the empire being destroyed bit by bit, he finally regretted it.

Boom—!!!

The sky above the royal court suddenly shook, followed by a massive collapse!

Dim heavenly light and fragments of space rained down, creating countless terrifying cracks on the ground.

In front of the main temple of Olympian God Mountain.

Silas, with his hands behind his back, gripped tightly, desperately suppressing his anger and wariness.

"Sage Lord rank experts..."

Roland, Id, and other ministers were trembling with fear.

The moment their mind power touched Kaos, they were met with a terrifying backlash.

Each of them felt their energy draining rapidly, let alone stepping forward to resist.

The people of the royal court, especially the fanatical protesters, were suppressed by this overwhelming power, their faces turning pale.

This was the power of the so-called trash lower realm Empire...

They had once shouted that they would crush and trample upon it.

The powerful Sage Lord Godwin, who could kill Divine Oracles like ants, could slay quasi-Sage Lords with Proto-World Relics, and was once the general who swept through countless worlds...

But now he was like a dead dog, being slapped toward the royal court.

Kaos charged straight into the royal court.

Countless Divine Oracles and Sacred Radiance rank experts rushed out to stop him, but all were instantly killed with a flick of his fingers.

The people of God Mountain were both terrified and enraged.

"A dignified Sage Master actually shamelessly targets those below Sage Lord rank? You truly... have opened our eyes,"

A suppressed voice filled with anger rang out from deep within the temple.

Clang—!!

A sword's roar split the sky!

The sword light, like a pillar of light, pierced the heavens and shot into the stars.

The supreme artifact of Olympian God Mountain, the Olympian Sword, shot out!

The overwhelming killing aura of the World Relic spread out, sweeping toward Kaos.

At the same time, the figures of two quasi-Sage Lords appeared behind the Olympian Sword.

Roar—!!

A colossal golden dragon, tens of thousands of miles long, coiled through the sky, roaring at Kaos.

A vast and boundless magic formation was activated!

This was the core defense of Olympian God Mountain, the God Mountain Guardian Formation!

Above the sacred palace, the sky was covered by a massive array, and a phantom figure flickered within it.

At the same time, a supreme, mysterious aura brewed within.

Kaos didn't even look at the two quasi-Sage Lords or the Olympian Sword. His gaze directly fell on that phantom figure.

The moment it appeared, the people both inside and outside the royal court, as well as the entire Olympian God Realm, were all engulfed by an invisible pressure.

And all of this was simply because of that special aura!

Kaos knew that this was the eternal, indestructible remnant of the supreme sacred being from ancient times.

Now, it was used by God Mountain to create a formidable guardian formation.

It would be incredibly difficult to break through it!

But he didn't retreat.

The two quasi-Sage Lords wielded the Olympian Sword, and a sword light cut through the two extremes of heaven and earth, forcing Kaos into a boundless sword domain.

Kaos remained calm and unconcerned. He casually crushed the dying Godwin with one hand, then slapped the sword domain.

The entire domain exploded, but the extreme killing sword energy instantly exploded, aiming to impale him.

The Olympian Sword was made from Celestial Divine Gold and other rare divine metals, ranking higher than the Golden Sword, with much stronger destructive power than the Ouros Disc.

Kaos's eyes narrowed, and two chaotic worlds appeared in his pupils.

One was the sword universe, and the other was the primordial universe.

Two boundless formation diagrams emerged from his eye sockets.

At that moment, his withered hair stood on end, and the light of laws erupted from his body.

He waved his sleeve, and the light of ordered laws like a reverse river of stars rolled, sending the Olympian Sword and the two quasi-Sage Lords into the chaos!

The golden dragon roared, carrying that supreme phantom into the chaotic void.

Boom—!!!

After yet another clash.

The order of Olympian God Realm began to collapse, and space lost its foundation, collapsing layer by layer.

Countless beings were instantly killed, and the extreme destructive waves spread through the void, with no one daring to approach.

Even quasi-Sage Lords like White Lady Shirino and Lora could only retreat far away.

"The enemy is... aiming to completely annihilate Olympian God Mountain!"

A Sage Lord from the direction of Starlight Colonnade discerned the situation.

Another powerful figure beside him spoke slowly.

"At this point, it's no longer just about destroying God Mountain!"

"If God Mountain is destroyed, the Celestial Light God Realm will plunge into unprecedented chaos."

Icecrystal Palace.

The legendary astrologer Alvin quietly appeared beside Shirino.

Shirino turned around and bowed to Alvin.

"The aura of that supreme sacred being... should not be able to stop him,"

Alvin said calmly.

Shirino explained, "He's not from Crossbridge Empire. He's been hiding in the Abyss Demon Realm."

"I suspect he came from the Star Sea. The girl beside him also has an extraordinary identity."

"Naturally, it's not simple."

Alvin smiled faintly. "Her fate is extraordinarily noble. She has the bearing of a supreme being."

At the same time, in Devers Divine Empire.

Borderline.

"Kill—!!"

With a command, the Extreme Ice Legion launched a full-scale attack!

Billions of soldiers from the Eternal Winter Divine Empire, along with dozens of Divine Oracles, ten quasi-Sage Lords, and two Sage Lords, instantly broke through the border defenses.

Boom!

Boom—!!

The terrifying battle fluctuations exploded.

Kichin, the ruler of Devers Divine Empire, who had been watching the battle from afar, turned around and immediately became grim.

A Sacred Radiance rank expert quickly crossed the air and bowed before him.

"Ruler! The Eternal Winter Divine Empire has assembled all their forces and is now fully attacking the Divine Empire's territory!"

"The Divine Empire has been taken over. Empress Shirino has returned, expelled Sherana, and has regained control of all the Divine Empire's power. Your Majesty must return to the Holy Capital at once to take command!"

"Shirino?! She was cursed and fell to the lower realms, wasn't she?!"

Kichin frowned deeply.

After a moment of thought, he hurried back to Devers Divine Empire.

The surrounding experts also became serious. Olympian God Mountain was in intense battle, and now Devers Divine Empire and Eternal Winter Divine Empire were also fighting.

They all understood that the long-standing peace of Celestial Light God Realm had been completely shattered!

After all, if even the Sage Master was stepping onto the battlefield, what other trump cards could be kept hidden?
