Chapter 505: Aurek's Will

Aurek's mirror avatar stepped through the dimensional gate and directly stood in front of the Peace Committee's gates!

The golden sword emitted a joyful chime and flew back to his side, floating quietly.

He stood at the Committee's doorstep, gripping the hilt of the golden sword, and slowly raised this blade, stained with divine blood and glory.

The sword's tip pointed directly at the numerous divine lights deep within the Committee, and his cold voice rang out as if proclaiming a law.

"Those who step through this door—die!"

This...!

Countless people's pupils constricted.

He actually... dared to march straight to the Peace Committee's doorstep and challenge them?!

Watching Aurek, standing at the gates of the Committee, all the forbidden experts in the Celestial Light God Realm were shaken to their core, some even stunned for a moment.

Clearly, this unexpected move had brought about complete astonishment.

The Peace Committee held tremendous influence.

Even if it was only a branch, it was still the peacekeeper of order in the Celestial Light God Realm, let alone the massive headquarters located deep within the Star Sea.

Now the Committee had decided to intervene in the Crossbridge Empire and Olympian God Mountain conflict, intending to strike a fatal blow to the Empire.

But what about the Crossbridge Empire?

Aurek had reversed their path—"You want to attack the Empire? Fine, now I'm standing right here, at your doorstep with one sword."

"If you dare send anyone out, I'll kill them!"

This was not just a provocation and contempt, but an unmatched display of arrogance!

"This is the Emperor of the Crossbridge Empire? Truly domineering..."

At the edge of the Cloud Domain, Terrence, clad in shining silver armor, had sharp eyes locked on the Committee's gate.

Ancient Sage Lords who had been silent in the forbidden area of the Starlight Colonnade also sent out their mind powers, their faces filled with shock.

"This really leaves no room for negotiation."

In the Primordial Sacred Land, an ancient Sage Lord from the Flame Eagle Clan frowned deeply.

The Committee's plan to strike at the Empire was originally intended to be a warning, to intimidate the forces in the God Realm and maintain the peace and order of the Celestial Light God Realm.

Now, not only had they failed to kill the chicken, but they had been blocked at their door and mocked.

"I'm more curious about whether the Crossbridge Empire really understands the full strength of the Committee?"

"If they do, what is this Emperor relying on to still dare to act this way?"

An ancient Sage Lord was filled with doubt.

It wasn't just him—many forbidden beings were filled with intense curiosity.

Icecrystal Palace.

Alvin sighed as he looked at the scene in the void.

"He truly shows no sign of retreat."

Beside him, White Lady Shirino, her sapphire eyes fixed on the towering figure.

"By choosing to fight now... it shows he is on the brink of breaking through to the Sage Lord rank."

Alvin laughed softly, having already understood everything.

"The king's might is vast like the heavens. Truly, the Sea God's presence from back then was... awe-inspiring!"

Primordial Sacred Land, Mount Tian.

On the spine of the world, which supports the very heavens, a pure white figure silently appeared.

Billions of blossoms withered instantly, and even the light from the sky dimmed...

This was the source of the world's rules; all order in the universe emanates from here!

In the Heavens.

Hidden in the void, Silas, Roland, Id, and others were intently watching the scene at the Committee's gate.

Watching Aurek's towering figure, Silas felt a jolt in his heart. The Olympian Divine Sword in his hand seemed to sense the overwhelming imperial will and emitted a faint, unwilling hum.

Inside the Peace Committee.

The Office of Light and the Office of Peace had expressions as cold as ice.

Ignoring Aurek's warning, they were the first to step out of the Committee's gates!

The supreme force of order and the pressure of a true Sage Master instantly enveloped the entire world!

A Sage Master had made a move!

The divine lights that symbolized countless powerful beings deep within the Committee also erupted at the same moment!

The four semi-Sage Master Peace Emissaries of the Sun, Moon, and Stars, seven Ancient Sage Lords, over ten Sage Lords, countless semi-Sage Lords and Divine Oracles, along with tens of thousands of Committee elite guards that had already been arrayed, surged forward like a tidal wave of destruction, tearing the void apart as they emerged from the gates!

At the same time, Silas seized the opportunity to lead the remnants of Olympian God Mountain's forces, splitting them into two attacking groups.

One group charged toward the royal palace, hoping to reclaim lost ground.

The other, in coordination with the Committee's offensive, headed toward the Committee's gates, intending to take advantage of the chaos and take revenge on Aurek.

"Anyone who defiles the Committee's dignity—will die!!"

Countless voices filled with wrath and killing intent erupted.

The overwhelming energy collided with the figure standing in front of the gate!

However, just as they moved...

The golden sword beside Aurek rang with a clear chime, releasing a world-illuminating sword light.

An immense ocean of sword intent surged upward, meeting the barrage of divine light pouring down from the Committee with a counterforce!

Under the crushing dominance of imperial power, the endless light was suppressed by a single strike, and its brilliance dimmed!

The Office of Light, holding the Proto-World Relic and the Crystal of Peace, broke through the sword light ocean, heading directly toward Aurek's mirror avatar!

And Kaos's figure also stepped out from the other end of the void.

With a casual motion, he blocked the Office of Light's attack with ease, dragging them into the deep void for a showdown.

"Hmph! Before making a move, you should consider who you're provoking!"

Without the direct threat of Kaos, the Office of Peace sneered coldly.

All Committee forces worked together to break free from the sword's suppression.

They surged forward like a flood of destruction, pouring out of the Committee's gates!

Aurek's mirror avatar stood unshaken, simply waving his sword in a horizontal sweep.

"Thousand Sword Judgement Domain!"

In that instant, billions of miniature sword universes, created purely from sword intent, appeared out of thin air, enveloping all the Committee figures that had surged forward!

The very heavens and void were stained with a cold tint by this extreme killing intent.

"Ah—!!"

"How is this possible?!"

"What kind of power is this?!"

Screams of agony echoed as thirty Divine Oracles were instantly obliterated under the endless sword energy!

Six Sage Lords let out despairing wails as their divine bodies and souls shattered!

Even the Seven Light Guards and the Four Peace Emissaries of the Sun, Moon, and Stars were shocked by this blow, quickly retreating in panic!

The anguished cries that reverberated across the heavens made all the observers shudder.

As the countless Judgement Sword Domains collapsed into an almost imperceptible point...

Over thirty Divine Oracles fell!

Six Sage Lords fell!

The Peace Emissary of the Stars among the four Peace Emissaries was completely slain!

Clang—!

The golden sword emitted a resonant, time-shattering chime, and the vast sword light instantly coalesced.

The sword light pierced through the void, precisely and without fail, nailing the head of the Office of Peace's leader!
