Chapter 515: Devers Divine Empire in Panic

"So, Crossbridge Empire has provoked the Giants... Perfect!"

Seeing everything unfold, the Office of Light was not worried at all, instead, its mind began calculating.

With the conflicts in the Star Sea intensifying and war on the brink, he needed to stabilize the situation here.

The intervention of Crossbridge Empire had put the Peace Committee at a disadvantage. Although reinforcements would come from headquarters, this would only show his incompetence!

If the Giants get involved, it will help suppress Crossbridge Empire, stabilize the order of the Celestial Light God Realm, and indirectly assist the Peace Committee.

Moreover, with Crossbridge Empire provoking the Giants, this chaotic race's strength will force the forces of the Celestial Light God Realm to refuse contact with them, preventing Crossbridge Empire from expanding further.

Kaos stared at the royal palace's divine temple, lost in thought.

...

Outside the royal palace's divine temple.

"Your Majesty, Sacred Envoy rank!"

Angie arrived with an urgent decree in hand.

Seeing this, Josephine bowed.

Lucio, Philip, and other affiliates of the Celestial Light God Realm, including Master Gold Coin from the master library, all kneeled.

Angie unfolded the decree, and her authoritative voice echoed.

"Since the Celestial Light God Realm has now entered the Crossbridge territory, we will immediately take over the god realm territory. Anyone who opposes the Empire, hinders it, or refuses to surrender will be executed."

"I accept the decree."

Josephine took the decree.

Everyone then stood up.

Lucio and Philip understood the deeper meaning and turned to Angie, asking,

"Lord Angie, has His Majesty finished the ascension?"

Angie nodded.

"Yes, His Majesty's ascension was interrupted. The specific situation is uncertain. Also, General Suggwoth has finished dealing with the Abyss Demon Realm and will soon arrive at the Celestial Light God Realm."

"According to His Majesty's will, the Empire will soon enter the starry sky of all races!"

"Is it because of the Primordial Giants?"

Philip asked.

Angie nodded.

He didn't dare make assumptions about the divine will.

Hearing this, Sherana and the others were deeply shaken.

At the crucial moment when the two Divine Courts were about to go to war, the Empire was proactively entering the starry sky of all races!

No wonder the decree was so decisive, even at any cost!

Lucio and Philip understood.

This meant His Majesty would no longer concern himself with the complex power relations in the Celestial Light God Realm, and would directly crush everything. Anyone who resisted would be killed!

Although they didn't understand the exact reason, the decree had already been issued.

The consolidation of God Mountain was temporarily postponed, and Josephine immediately ordered the mobilization of legions to lock down the Eternal Winter Divine Empire, Starlight Colonnade, Primordial Sacred Land, and other locations.

...

Meanwhile,

Suggwoth led the army into the small Wayshift Realm, seized control of the Star-realm gate, and left behind two ancient Sage Lords and a million Sage King rank void warlocks to guard.

The Abyss Demon Realm legions had not been mobilized and remained stationed at their original positions.

The Star-realm gate was the entrance to the Star Sea. The reason for guarding it was not out of fear of external enemies invading, but to be able to strike at any time.

Suggwoth personally led eight Sage Lords and thirty million void warlocks into the Celestial Light God Realm.

...

Inside the Twelfefold Sky Sanctuary,

The Emperor Points used for ascension were nearly exhausted.

Aurek successfully ascended to the Sage Lord rank!

Above the skies of Eura Continent, rainbow clouds swirled, and the flower of truth descended.

The entire world map expanded by hundreds of times, and the laws of order were manifested, elevating the realm to the same level as the god realm!

The former magical energy had transformed into magical power, and even ordinary people had basic ranks.

It could be said that Aurek, with his own power, had influenced all living beings in the world.

This, in turn, strengthened the power of the Crossbridge Empire.

The battle in the small Wayshift Realm brought in seven hundred trillion Emperor Points.

However, these points did not grab Aurek's attention.

What truly caught his focus were the Primordial Giants!

Ares and the Peace Envoy of the Sun had worked together to kill a Primordial Giant of the ancient Sage Lord realm, with Ares delivering the final blow.

This battle brought in eight hundred trillion Emperor Points, over ten times more than an ordinary ancient Sage Lord.

Since the Primordial Giants dared to strike at the Crossbridge Empire, it was just the right opportunity to eliminate them.

Additionally, entering the starry sky of all races would earn more Emperor Points.

If they were to conquer the Primordial Giants, the Titan was the most suitable.

Now, nearly two thousand trillion Emperor Points had been accumulated. Once they swept through the Celestial Light God Realm, it would be enough to elevate the Titan to level 21.

The Divine Oracle legions would be the key step for the Empire to enter the world and reach the starry sky.

After ascending to the Sage Lord rank, Aurek gained a deep understanding of the Twelfefold Sky Sanctuary's rules of order and fully mastered them. He then left the Supreme Sanctuary.

At this moment, his unparalleled power, combined with the imperial fate, destiny, and the laws of national power, was all contained within him, reaching an unimaginable rank.

It felt as if he were right before one's eyes, yet as though he were separated by countless worlds!

"It's time to take a good look at this Star Sea universe."

Aurek's mind power reached toward the Gold Giant Gate, exploring the endless starry sky.

His journey was about to open a new Chapter!

...

Devers Divine Empire.

Inside the divine temple,

A general quickly entered and bowed.

"Your Majesty, something unexpected has occurred in the direction of Olympian Mountain. Crossbridge Empire is gathering legions and heading toward our borders."

"What?!"

The ministers in the hall were immediately shocked.

Devers Divine Empire was currently in the midst of a fierce battle with the Eternal Winter Divine Empire, with its most elite creation legions and core forces tied up on the front lines.

If Crossbridge Empire took advantage of this moment and invaded, the Divine Empire would have almost no chance of victory!

Crossbridge Empire's ambitions were clearly revealed. Since they had already started moving, it meant they were prepared to annex Devers!

Kichin understood this well, but with the Eternal Winter Divine Empire lurking nearby, this situation seemed nearly impossible to solve.

The ministers debated for a long time but had no strategy to respond.

After all, Crossbridge Empire had previously blocked the Peace Committee at the door, slaughtering and even enslaving the Office of Peace, the Peace Envoy of the Sun, and the Seven Guardians of Light.

Against absolute power, any schemes seemed powerless. Surrender might be the only option.

Of course, no one dared speak this aloud.

Kichin fell into a long period of hesitation and deep thought.

In this isolated and helpless position, it seemed he had no choice but to accept the Peace Committee's previous proposal—join forces with the Primordial Sacred Land, Starlight Colonnade, Cloudcrown Sanctum, and other ancient forces to resist Crossbridge Empire.

Then, they would wait for reinforcements from the Peace Committee headquarters or the arrival of the Primordial Giants.

"Handle the situation with the Eternal Winter Divine Empire. I will take care of the rest. Everyone, please leave."

Kichin issued the final judgment.

Once the ministers left, he personally went to the Peace Committee.

"Lord Sacred Envoy, the ruler of Devers Divine Empire, Kichin, requests an audience."

Inside the Peace Committee, a quasi-Sage Lord reported.

"He really can't sit still."

The Office of Light sneered.

If it didn't involve their own interests, these people would never be willing to pay a price.

The aggressive expansion of Crossbridge Empire would surely stimulate all other forces.

And he was waiting for just this opportunity!

"Refuse to meet him."

The Office of Light decisively refused, then immediately instructed,

"Send a confidential letter to Cloudcrown Sanctum, Sea God Temple, Flame Eagle Clan, and others."

Devers Divine Empire must be destroyed, or at the very least, severely attacked by Crossbridge Empire.

Only then would Cloudcrown Sanctum, Sea God Temple, and other forces realize that if they did not stop Crossbridge Empire, they would never have a good outcome!

Only by uniting to resist until the Peace Committee headquarters, Star-Source Divine Court, or Primordial Giants arrive would they have enough power to suppress the true Sage Master and crush Crossbridge Empire completely!

Although they didn't understand why the Primordial Giants were targeting Crossbridge Empire, one thing was clear: they were coming with hostility!

This was the key factor driving the forces of the Celestial Light God Realm to unite.
