### Chapter 3682 The End of the War of the Era (4)

Han Fei glanced at the world in the Creation Star Compass and said, "I'm very curious. You can use the power of the Immortal. Why don't you use it? If you use it, I'm afraid the Creation Star Compass won't be able to trap you for so long."

"Oh, you know the Immortal realm? It seems that you've made a breakthrough?"

The real ominous sneered. "Hongjun's ominous body must have used the power of that hand, right? What's the result?"

Han Fei narrowed his eyes and said, "He suffered a backlash and completely lost consciousness."

The ominous sneered. "If you want to destroy someone, make him self-inflated. He claims to be smart and has many schemes, but he knows too little about the power of our original body. No matter how many schemes he has, he is just a clown. Even if you don't return, he won't be able to subdue the Primordial Star Sea."

"Oh? Why do you say that?"

The ominous said with a hint of mockery, "This question is very stupid. When the severed limb appears, you should know that what the Demon Purification Pot and the Creation Jade Plate want to seal is never the ominous matter, but the severed limb. Although he was also a consciousness born from the severed limb, he doesn't know much about the severed limb and thinks he can use it. In fact, the number of times he can use this thing is extremely limited. It might not matter if he uses it once, but if he uses it for a long time, he will be courting death. It will take him at least several years to refine the Primordial Origin. But if he uses the severed limb, he can obtain the power of the Immortal Level and control the Primordial Star Sea in a few months. With me in the Creation Star Compass, he must feel pressure in his heart, so he will definitely use the severed limb. However, he doesn't know that once he continues to use the severed limb, he will suffer a backlash. Therefore, he will definitely lose."

Han Fei frowned. "I also saw with my own eyes that you used the power of that arm. Why didn't you suffer a backlash? Besides, you used your severed limbs to descend into the Chaotic Star Sea. Isn't it considered continuous use?"

The ominous sneered. "Why do you think I sacrificed the dominator-level ominous? To pave the way for me? Heh, it's just to let them suffer the backlash in my place. Do you really think the power of the Immortal Level alone can't open the passage between the two worlds?"

Han Fei couldn't help but take a deep look at the ominous. "It seems that you are the one who schemes. No wonder you fought me with a broken limb. It turns out that you deliberately showed it to deceive him?"

Han Fei asked, "What is your original body?"

"Kekeke~"

The ominous smiled ominously. "I'm about to die. Why should I tell you?"

With that said, the ominous took out another severed limb and put it on his body reluctantly. Then he said, "I might be no match for you or die. However, don't think you can have an easy time. Our original bodies will sense the existence of our clones. One day, he will find this place. At that time, you will see what true fear is."

Boom ~

The ominous didn't tell Han Fei much. It just wanted to tell Han Fei that a stronger existence would come to intimidate him.

Han Fei immediately made the Creation Star Compass spit out this Sea of Stars, and the two of them fought fiercely in the Chaotic Star Sea.

However, this was not the Primordial Star Sea. Even if the ominous barely used the power of the Immortal Level, it only took Han Fei less than half an hour to suppress it with his control of the Chaotic Star Sea and the full power of the Demon Purification Pot.

At this point, the Chaotic Star Sea and the Primordial Star Sea finally welcomed peace.

What Han Fei didn't know was that at the moment when the ominous was suppressed by the Demon Purification Pot, in the Primordial Star Sea, the void trembled, and pieces of the void actually glowed. Gradually, these voids intertwined and formed a huge mirror. The mirror quickly compressed and finally turned into a palm-sized mirror. With a swish, it turned into a stream of light and disappeared from the vast Sea of Stars.

...

The battle was over.

Shen Le said, "This war that has lasted from the Chaotic Era to today is finally over! I suddenly feel inexplicably relaxed..."

The Master of Time asked, "Did the Demon Purification Pot destroy that thing, or was it just a seal?"

Han Fei said, "It's just a seal. Senior Sister Shen Le, you should have heard it. These two ominous creatures are probably not in their complete forms..."

"Wait a minute!"

Shen Le raised her eyebrows. "I don't want to hear it?"

Shen Le was speechless. "Can't you let me rest for a day? Just a day..."

Han Fei was amused. "Senior Sister, can you still sleep at this level?"

Shen Le snorted. "It's none of your business. Anyway, I'm going back to sleep until I wake up."

Han Fei shrugged. "Okay, go to sleep! I'm going to the Primordial Star Sea. I have to consider whether to close the passage between the two worlds."

Shen Le said, "Go! You have the final say in the current Chaotic Star Sea."

The Master of Time was resentful. Han Fei ignored him, but it didn't matter. He was too lazy to talk back.

Another moment later.

Protect the Divine Realm.

The Heavenly Monarch and the others were still waiting for Han Fei's news.

Now, in order to give up the passage between the two worlds, there were only 800 Star Rivers left.

When Han Fei arrived again, the Heavenly Monarch hurriedly went forward. "Fellow Daoist Human Emperor, how is it going? Have you resolved the otherworldly demons?"

This time, Han Fei was not in a hurry to chat with Hongjun. Instead, he nodded and said, "Yes! The strongest Extraterrestrial Demons have been resolved. Besides, from now on, there will be no Extraterrestrial Demons of that level in the Primordial Star Sea."

"Huff!"

The Heavenly Monarch immediately heaved a long sigh of relief. He was really afraid. He had never seen such a strong Extraterrestrial Demon. In a moment, it annihilated more than a thousand Star Rivers, which was shocking.
