

Gold Moon: Mated To The Beta Twins Novel

Chapter 11 Till Morning Myka's p.o .. Finished I had seen the strange looks Beta Rhys got when he said that all Pack - members were present and I know where to start looking for answers , Where should I start looking for answers ? Or maybe I should ask with which family should I start . Elder Morton had looked at Beta Rhys , so that is where I will start my investigation . I open the door to the Pack's Archive , " Holy Fuck , What the hell happened here ? " I call out , but I know that there is no one here to answer me .

I pull open the filing cabinets and after half an hour I am positive that the last person to keep this up to date was Alpha Hank's Father . My eyes get drawn to a row of tables , pushed against the wall to the right of the door and it is as if I am back in Alpha Hank's office . Alpha office , now . " I hear Alpha Lincoln growl through the mind - link and I walk out of the Archive to head back to the Alpha office . The others walk into the hallway as I round the corner and I close the door behind .

" Elder Morton gave me a piece of advice , he told me to go through every piece of paper we could find . I think there was more to Alpha Hank than anyone could have imagined and I will not leave a stone unturned to find the truth . " Alpha Lincoln says and I slowly raise my hand . " What , Myka . " He growls . " I doubt any of you saw it , but when Elder Morton asked Beta Rhys if all Pack - members were present I saw something . Elder Morton and a few Pack - members gave him a strange look , almost as if they wanted to challenge his statement .

I went to the Archive and if you thought this office was bad ... " I let my sentence trail off , they know what I mean . " The last one to file a report properly was Alpha Hank's Father . If my instincts are correct , Alpha Hank placed every piece of paper on a table and as you can imagine those piles became taller and unstable . The result , a floor filled with papers that don't make sense in most cases until you have filed them correctly . " I say and if Alpha Lincoln was a kettle , he would be whistling right now . " Why would you check the Archive ?

Follow new episodes on the

" Mom asks and I know others want to know that answer too . " If I read Elder Morton correctly and with that I mean the look he gave Beta Rhys and his advice to Alpha Lincoln , I think we might have at least one Pack - member that is unaccounted for . " I answer her . " If we want that question answered without spooking anyone , than I am going to need some help ." After dividing the tasks at hand , Alpha Lincoln orders all of us to get some sleep . I am not sure about the others , but I was asleep the moment my head hit the pillow and I slept until Makay decided to wake me up .

" Fuck , you weren't kidding . " I hear Makay mumble next to me and I slowly walk towards the papers on the floor , scared it will be disturbed even more . " Let's see if the papers are dated , it might make it easier to find something that belongs together . " Dad says and we all sit down to start going through the papers . It only takes a few minutes before I grab a stack of papers and move to the other side of the room .

12:25 Wed , Jan 14 Chapter 11 Till Morning 222 Finished By the time Luna Leona calls us for lunch , I still haven't found two papers that are connected together and by the looks of it none of the others found anything either . The former Luna Mia is seated at the Alpha table , but she is smart enough not to sit in Luna Leona's seat again . " Get a move on , Snail . I want a coffee with my lunch and make sure you put enough sugar in , this time . " She growls at an Omega . " Mia , first of all , you are no longer this Pack's Luna and that means that you will not be seated at the Alpha table .

Second , you are to get your drinks yourself and not order our Omegas around . " Luna Leona says , as she is pouring herself a cup of coffee . Before Mia can respond , Alpha Lincoln walks in to the dining room and one look from him has her moving to another table . Moments after we are all seated , Beta Rhys and Gamma Hugo walk in with their Pups and Rory . Rory , River and Rufus sit down in the only remaining seats at the Alpha table . Stella and Sarah sit down on the laps of their Mates and start chatting about their training session from that morning . " Why do I have to train?

I know how to defend myself and that is more than enough . What do they expect ? For me to go out there and find me some Rogues to kill . " Stella complains . " Oh , Fuck . " I hear Magnus mutter and like him I already know what is coming . " You are absolutely right , Stella . A female should look after her Mate and their Pups . Running border patrol or fighting Rogues and other enemies that attack the Pack , that is no job for a female . " Makay says and I see a smile appear on Stella's face . " I am really praying to the Goddess to pair you with a female that can kick your ass , Son .

A female can fight , just like a male . It is the mountain sized egos of males that stop females from growing into their full potential and if for some reason the female that kicks your ass isn't your Mate , I am going to adopt her to annoy the hell out of you . " Dad says . Makay lowers his head , because he already knows what is coming . " Makay , if I ever hear you talk to or about a female like that , I will be the one you should fear . As for you , Stella , I suggest that you keep training or you might not survive an attack . " Mom says .

" My Mate will keep me safe or he will appoint Elite Warriors to protect me . " Stella responds and Magnus and I are laughing our asses off . " No one will be there to protect you . Because if anyone defies my order to protect someone that could protect herself , I will kill them and then I will kill you . " Alpha Lincoln growls . " Makay , this is your final warning . If I hear you talk like that again or if someone tells me that you did , I will send you to Elder Morton and ask him to assign you to a team that consist of only females . Is that clear ? " Alpha Lincoln asks .

" Yes , Alpha , Very clear ." Makay answers and he knows this isn't an empty threat . After lunch we continue to sort through the papers and when I want to return after dinner , Alpha Lincoln tells me that it can wait until morning . admin

Chapter 12 Starve Makay's p.o.v. ↵2 Finished (22 I knew I shouldn't have responded to Stella's complaining , but I couldn't help myself . I am well aware of the fact that there are females that can fight better than most males and I am not opposed to fighting beside them . That doesn't mean that I want my Mate to be like that . I want a Mate that will wait for me when I get home and who will look after our Pups . I have two strikes against me though , my parents are probably praying to the Goddess to pair me with a strongheaded and stubborn Mate and I am part of a twin .

Myka doesn't care what our Mate looks like , all he wants is a Mate that will love us and that is the only answer anyone gets when we are asked what our Mate should be like or look like . " Rise and shine , Sunshine . " Myka calls out as he opens my bedroom door and I toss my pillow in his direction , missing him because he is already on his way to the living room . I get out of bed to close the door and I go through my morning routine to head down to the Archive after breakfast .

Blade growls in my head the moment we enter the Archive and as I sit down to go through the next stack of papers . Blade curls up in the back of my head . An hour into shifting through the papers I finally find a paper that matches one I found yesterday , but it still doesn't make any sense to me . " Okay , let's see if we can combine some papers . Dad says and he calls out the date on the paper he is holding , but none of us have a paper that goes with it . We keep repeating it until it is time for lunch and we managed to pair three different dates to at least two papers .

This is going to be a long and tedious task , after all Alpha Hank lead this Pack for almost twenty years and in that time a Pack can collect a lot of files . We have lunch in the Alpha office , none of us in the mood to run into anyone of Alpha Hank's leadership and I want to laugh when Myka suggests that Alpha Lincoln starts talking to Pack - members with Dad and Luna Leona . " Care to explain this plan of yours ? " Alpha Lincoln asks . " It will take ages to go through all that paperwork in the Archive .

If you talk to each Pack - member separately , you might find some answers sooner than we can and Luna Leona will be there to calm down any situation that might head in the wrong direction . I suggested Dad for the most simple reason there is , he can tell you when someone is lying to you . " Myka explains and for once I agree with him . Alpha Lincoln assigns Mom , Gamma Layton and Gamma Laney to our team and after lunch we head back to the Archive . Alpha Lincoln will start his interviews with the Omegas and the first one he will call to his office is Brenna .

Follow new episodes on the

By the time Luna Leona comes in to get us for dinner , I have three files that contain at least two papers each and they are starting to make a little sense to me . Stella tries to get me on her side again during dinner , but I am going to keep my mouth shut .

Matheus , our future Gamma , once made the mistake of thinking that Alpha Lincoln was pulling his chains , I don't 12:25 Wed , Jan 14 Chapter 12 Starve Finishe remember what he was commenting on and Alpha Lincoln gave him the same final warning as he gave me Matheus made the mistake of continuing with his comments and the next morning an Elder showed up to take him to Renegade territory . He was gone for a week and after that he never crossed Alpha Lincoln again none of us for that matter .

" Mandatory training in an hour for all Pack - members , no exceptions ." Alpha Lincoln says before he walks out of the dining room and I grab his plate on my way to the kitchen . We all know the drill , but I doubt every Pack - member understands what we are doing . Did he mean us too Brenna asks me and I nod my head . " That is why we are taking care of our own dirty dishes . Don't clean the dining room , get changed and hear to the training grounds . You will understand soon what is going on .

" Myka says as he places a few plates in the dishwasher I see a very uncomfortable look on Brenna's face and as I turn to the other Omegas I see it on all their faces " Is something wrong ? " I ask Brenna " We only have two outfits , the one we are wearing and the one that is drying right now , for tomorrow . " She whispers her answer . her head bowed : " Just head to the training grounds , we will inform Alpha Lincoln and he will take care of everything Myka says as he guides another Omega out of the kitchen and slowly every Omega makes their way out the backdoor .

I glance into the dining room and a smile appears on my face . The Warriors are lined up at the other door to the kitchen , each of them holding their dirty dishes . The only ones oblivious to what is going on are the former Luna and her entourage . Half an hour later I walk onto the training grounds and one look among the crowd tells me that not everyone is present , " Where are Beta Rhys and the rest of your former leadership ? " Alpha Lincoln asks and everyone just shrugs their shoulder . " Beta , start the training . I will be right back with our lost sheep .

" Alpha Lincoln says and he walks back to the Pack - house . Mom is talking with the Omegas and making all kinds of notes , Their wardrobe will grow drastically in a day or two and I know their lives will improve as well . After our lost sheep have joined us . we train for another hour " Training is over . However , I have a few announcements to make . " Alpha Lincoln says and I hear a few soft growls coming from my left . " For those that didn't show up on time , you will head to the kitchen immediately and start on the dishes .

The dining room needs to be cleaned and to make sure you actually do it , I will supervise you . Everyone else is free to go and remember that this will happen again without warning . " Alpha Lincoln says , before he orders the former leadership and their Pups to the kitchen . Brenna is staring after them , just like almost every other Pack - member . " He is just kidding , right ? " She asks no one in particular . " No , my Mate is very serious . You are just as important to our Pack , as an Elite Warrior is . Who do you think can prepare their own meals ?

" Luna Leona says and I see Brenna looking around her at other Pack- members . Chapter 12 Starve " Damn , they would starve ." She mumbles as she walks away with the other Omegas . admin

Chapter 13 Not Alone Meadow's p.o.v. Finished After I told the Elders about Rebel , Doc ordered them to leave me alone for two days . He only allowed Elder Morton a five minute visit the next morning , because he wanted me to have something to do with time . my I have the books I need for my studies , I told Elder Morton I couldn't chose between a Renegade Warrior and a Renegade Tech . So , he allowed me to enter both studies . He thinks I will pass my exams to become a Renegade Warrior with my hands tied behind my back . " Goodmorning , Meadow . How are you feeling today ?

" Doc asks and I smile up at him . " Sick of looking at that face of yours . " I answer teasingly and he acts as if I just stabbed him in the chest . The answer had slipped out the first morning I woke up in the infirmary , but thank the Goddess for Doc's sense of humor . " Well , that is perfect . I am going to sign your release papers , I think I can't handle any more of your brutal honesty ." He says as he winks at me . Elder Chelsea is waiting for me , as I walk out of the room I called home for the past two and a half days .

Doc gave me the all clear , but I can't take my Warrior exam until next week . He wants me to be at ease with shifting into Rebel and he wants me to shift every single day . I always thought that only someone that was initiated into a Pack was considered a Pack - member , but I had been mistaken . Being born within the borders of a territory makes you a Pack - member , there are a few exceptions but not in my case and if Alpha Lincoln figures out where I went he can order me to come back . I need to ask the Elders about that , because I don't want to go back , at least not right now .

Maybe after my training is completed , maybe if I feel confident enough that I won't kill my family or Rufus . " Goodmorning , Meadow ." I hear Elder Morton say and I look up to find myself in his office , once again . " Have a seat , there is something you should know . " Elder Josiah says , gesturing to an armchair . " Did Alpha Lincoln order me home ? " I ask as I sit down . " No , it will take a while before he has found any answers . For now , you are safe and even if he contacts us , I will ask him to listen to you first . " Elder Morton says and I know he will do just that .

Follow new episodes on the

" Meadow , I knew who you were the moment I heard your story . It is a story we have heard from another point of view , but that story found an ending two months after we first heard it . " Elder Morton says and I can tell it saddens all three of them . " Your Mother left with a reason . She wished with all her heart she could have taken you with her , but she knew that you would have a better life with your Father . Renegade territory is no place to raise a Pup and your Mother knew that .

River was tested at the age of four to determine if he would be a Wolf or a Lycan and when your Father got the news that he was a Wolf , he rejected your Mother . She knew she was dying , but due to the rejection she didn't tell your Father . He shortened her life expectancy from eighteen months to two months . She came here to report what had happened and to

see her Brother . Your Mother died in his arms and he 12:25 Wed , Jan 14 Chapter 13 Not Alone Finishe took it hard when she died . " Elder Morton says and with tears streaming down my face , I listen to the story my Mother told them .

I don't get an answer to the question , why my Father and Brother ignored me ? At least no other answer tha that it had been that way since the day I was born . And Elder Chelsea tells me that I might never get that answer . What I do get is a new family member , Uncle Major . His story is a sad one , because he couldn't handle Mom's death and he has been living in his Lycan form ever since . A part of the territory is marked by the Elders , a warning for everyone in Renegade territory to stay away . " Meadow , I need to ask you for a favor . When you shift into Rebel .

I want you to find that territory and just lie there near the border . I am hoping that you and Rebel will be able to pull Major out , that he will finally be able to get control of Arion . " Elder Morton explains . " When can I shift ? " I ask , eager to help my Uncle to regain control again . Half an hour later I am standing near the tree line and Rebel is wagging her tail , excited to go for a run . I was warned that it might be painful and that it might take a little time to finish my shift . Well . guess again . My shift lasted less than a second .

Rebel pushed forward and there I went to the back of her mind . It is strange to see the world through her eyes , but at the same time it is the most beautiful thing I have eve seen . Everything seems more detailed and brighter than in my Human form . I squeal the moment Rebel start running . It is the most amazing feeling ever and now I understand what Dawson had talked about , when he tried to explain to me what is was like to run around in his Lycan form . Rebel finds the territory that Uncle Major inhabits and after walking around it completely , she lies down o the forest floor .

The sun is shining through the roof of trees and we look at everything around us , just waiting for anything . " Meador , it is almost dinner time . " Elder Chelsea says through the mind - link and Rebel slowly gets up to wall away , looking over her shoulder one more time before heading back to the Elder Residence . For the next week . I shift into Rebel every single day and she runs to Uncle Major's territory as fast as she can .

She lies down in the same spot every time and we keep looking at everything around us , but he doesn show himself I know he might never be ready to face the world again , but I cling to a tiny piece of hope that our presenc is what he needs . Whether it is to keep living or to return to his old self , that isn't important . I think the only thing Rebel and I really want , is to see him every now and then and it doesn't matter if he will be in Lycan form or Human form . Just something that tells me that I am not completely alone in the world admin

Chapter 14 Retirement Mendonck pr Finished My first week in Renegade territory has passed quickly , I keep to myself most of the time and if I have to interact with arcane I always seek out another girl . During training it is a bit more difficult , but I have only had to face a male three

times during training and each time in wins a disaster . The first time I had to spar with a male . I had decided to give him the benefit of the doubt and that was a huge mistake .

I thought he was really willing to teach me and to explain certain things to me , but in the end he used it to try and humiliate me . I didn't do anything to put him back in his place and that is probably why the second male tried to pull the same stunt . Again , I decided to let it go , I didn't want to start trouble in my first week and that was my mistake . The third male wasn't so bucky . Rebel was fed up with all those males trying to put me down and she grab him by the throat when he was making a remark towards his friends . " Mess with us again and you won't survive .

" She had growled , her face less than an inch away from his and I saw fear flashing through his eyes . Elder Morton had a talk wirin me and after that he called in the three males , reprimanding them for their poor behavior towards me . It didn't stop them from trying to mess with me , each of them tried to trick me into going somewhere I shouldn't be and each time they said than Elder Morton has sent them . Each of them ended up in the infirmary with some serious injuries and I informed Elder Morton and Elder Chelsea of what they had tried to do .

I thought Elder Morton understood than I didn't trust easily , but if I had known what would happen next I might have left without a word . I wake up to a very excited Rebel , pacing back and forth in my head . Today we are going to get our Renegade Warrior exam and I hope that the training I got from my friends is enough to help me pass . Elder Morton will come to bring me to the training grounds in half an hour and I decide to go over my final preparations for my classes to become a Renegade Tech . I have all my books and everything else I might need for those classes

Follow new episodes on the

A knock on the door pulls me away from my mask and them I open the door I am faced with an unknown . male . I am only sure about one thing , he is not am Elden " Follow me . " He says and without waiting for a response from me , he walks away . For a moment I am stunned , not sure what to do and commemplate on closing the door for a second . I decide to follow him at a distance , not really trusting the simua.com I can find my own way to the training grounds , but according to the regulations an Elder has to escort me there .

The uneasy feeling I had , becomes stronger when I see him walking in the wrong direction and I turn around to head back to my room . 12:25 Wed , Jan 14 Chapter 14 Retirement On my way back to my room . I try to link Elder Morton but he has a block up and I decide it is better to wait in my room . I sit down behind my desk and I start working on the next assignment from one of my books . My door opens and I see a very angry looking Eldere Morton standing in the doorway . " Why aren't you at the training grounds ? " He asks and I am not sure if he is expecting an honest answer .

" You were supposed to guide me to the training grounds , you told me that is was regulation for an Elder to escort a student to their Warrior exam . " I answer him , keeping my eyes locked with his . " I send someone to replace me , I had an emergency . " Elder Morton counters . " Maybe next time you should inform the student about the change in plans and make sure that whoever you

send , knows where he is going I retort , before I recount the events from earlier . " I don't trust easily and you are very well aware of that , Elder Morton .

You just damaged the tiny bit of trust I had in you . " I say , before I break eye contact and turn my attention to the book on my desk . I don't hear him leave , but that doesn't bother me . I focus on my assignment and Rebel keeps an eye out for any form of danger . " Meadow , you need to let go of the past " Elder Morton says . I place my pen on the notebook I was using and I walk to my walk - in closet , looks like I am moving again . After grabbing my bag from the back of the closet

I place it on the bed and walk back into the closet to the clothes I placed in there , slowly filling the bag without saying a word . Once the walk - in closet is empty more to the bathroom and take everything out of the cabinets that I brought with me . I place my toiletry bag in the bag on my bed and then I start to empty the bedside tables . only packing what belongs to me . " Meadow , can you explain what you are doing I hear Elder Chelsea / ask from behind me . " I am packing my bags . I will leave once I am done .

You told me that you understood my situation and would never do anything to make me feel uncomfortable , but apparently that was just a lie . " I answer her , but I refuse to stop what I am doing . Elder Morton explains to the others what happened and I turn around when I hear a loud thud . Elder Morton is lying on the floor and Elder Josiah is holding back Elder Chelsea . " Meadow is my responsibility , maybe you can regain her trust and maybe not . I asked you to escort her , no to test her . Interfere with Meadow again and I might ask the other Elders to force you into retirement .

" Elder Chelsea says . admin

Chapter 15 Around The Corner Makay's p.o.v. Finished We have been at Gold Moon Pack for almost five weeks and if I can avoid it I skip my duties in the Archive . There are still so many papers to go through and it seems that the papers we are able to match , don't hold any important information . Myka spends most of his time in there , only coming out to sleep , eat or train and every other moment you can find him in that damn Archive .

Alpha Lincoln's conversations with Pack - members have not revealed anything shocking , but then again he has only talked to the Omegas and the majority of the Sigmas in this Pack . Almost everyone has learned to live by Alpha Lincoln's rules , but there are still those that believe they are above everything and everyone else . Mia still acts as if she is the Luna and despite the punishments she has received . I doubt that will change any time soon .

She is getting on everyone's nerves , but mostly on Luna Leona's nerves and I am patiently waiting for the day that ticking time bomb is going off . " HAVE YOU LOST YOUR FUCKING MIND ? YOU ARE NOT THIS PACK'S LUNA ANYMORE AND I AM DONE WITH YOUR DAMN OBNOXIOUS BEHAVIOR . " Okay , the bomb just went off . I run down the stairs to

the main living room , an Omega is laying on the floor with blood running from a wound on her head and Luna Leona has Mia pinned against the wall .

I keep my eyes on Luna Leona , as I slowly make my way over to the Omega and I kneel down next to her to help her to her feet . " Get her to the infirmary ." I whisper to one of the Warriors . " She can get back to work , we are not wasting resources on filth like her . " Mia hisses in my direction and the next moment she is flying through the air , straight through the window . " Alpha , get the fuck down here . Luna is about to kill Mia . " I say through the mind - link and I can already hear him coming down the stairs .

Follow new episodes on the

He knows that if one of us talks to him like that , shit has hit the fan . Magnus has already grabbed Mia by her neck , forcing her down to her knees and Malek and Mauro are struggling to hold Luna Leona back . One look at his Mate and Alpha Lincoln releases a mighty roar , bringing everyone to their knees . " What is going on here , my Love ? " He asks Luna Leona and I can see that she is struggling to get the words out . " I am not sure what happened before I walked into the room , but my best guess is that Mia hit one of the Omegas .

She was bleeding from a head wound and when I told one of the Warriors to take her to the infirmary , Mia had to open her mouth . She said ; we don't waste resources on filth like her . " I give him my side of the story and I know it will be enough . Alpha Lincoln walks over to his Son and Magnus steps back as he releases Mia , " Mia , I have told you this before . You are no longer a Luna and you are to treat everyone as equals , but that seems difficult for you to understand .

You are no longer allowed to set foot in the Pack - house and if you ever cross me or my Mate again , I will turn you Rogue . " He growls at her . 1/2 12.25 Wed , Jan 14 Chapter 15 Around The Corner * Finished The rest of the day is uneventful and I even join Myka for an hour or so in the Archive . The floor is almost cleared of all the papers , but on the tables is at least the same amount of papers and that means another five weeks of shifting through papers . After dinner I go for a run , Blade has been annoying as hell and letting him out is a good way of calming him down .

He knows exactly where he wants to go and for the life of me I can't understand what the appeal is of this clearing , but it is his favorite spot in the territory . He can just walk around here for hours or just lie somewhere near the edge of the clearing , but for some reason it is also the only place that seems to calm him down . By the time I get back to the Pack - house , almost everyone has turned in for the night and I see that the lights are off in my parents room . Looks like I will be the last one to turn in tonight , usually Dad or Alpha Lincoln is the last to turn in .

" I hate this new training schedule , it is always too early and it always lasts too long . How often do you have to practice the same movement ? If you know it , there is no use in repeating it . " I hear Stella complain and I take a good look around me . " Stella , stop complaining . Alpha Lincoln isn't going to excuse you from training . He is more likely to intensify your training and then you will be complaining for real . " I hear Sarah respond . but Stella seems to be deaf to her advice .

" I understand why Stella doesn't want to keep repeating those moves , a female should be in a safe room and not out there fighting during an attack . I say , as I walk towards them . I believe that a Luna , a Beta female and a Gamma female should stay in a saferoom at the Pack - house , every female that isn't a Warrior should be in a saferoom . I don't understand why it is necessary for a female to know how to fight , they shouldn't be in the middle of a battle . Females are weak and need us , males , to protect them . " I say , before I walk into the Pack - house .

I check the Archive to find it empty and I slowly make my way up to the Alpha floor to turn in for the night . As I go through my night routine , I let my mind wander to the announcement Alpha Lincoln made a week ago . On Monday we will each move to the correct floor in the Pack - house and the Sons of Alpha Hank and his leadership will stay with us . Alpha Lincoln hopes to get a better understanding about what we all still need to learn and make a better decision somewhere down the line . River will move to the Beta floor with us , he has been living in a house .

only a few feet away from the Pack - house . I lay down in my bed and stare up at the ceiling , clearing my mind of everything that has happened since the night Alpha Hank paid us a visit . My eyes slowly close as I drift off to sleep and if I had done that during my run , I might have known trouble was just around the corner . 6.7K 3 admin
