

Gold Moon: Mated To The Beta Twins Novel

Chapter 16 Their Squad Meadow's p.o.v. Finisher It has been four weeks since I took my exam and I still believe that Elder Chelsea chose those three Asshole as my opponents with a reason . The reason being that it gave me a legitimate reason to kick their asses and to show everyone that they shouldn't mess with me . I still run to Uncle Major's private territory once a day and for the past three days I have seen Arion from a distance . His Lycan is huge , but then again most Lycans are bigger than an Alpha Wolf and Rebel loves his dark gray fur .

We both enjoyed the past three days , just looking at the Lycan that is the only family we have left . The first time Arion showed up , Rebel had lifted her head to look at him . Yesterday and today she didn't even lift her head , we had smelled his scent and we had just watched him as he was pacing the forest floor . " It is time , Rebel . " I say and after one more look at Arion , Rebel starts to run back to the Elder Residence . Today we will find out if any of us get to join a Renegade Squad and a few of the males are even hoping to become a Squad Captain .

Only if you are an exceptional Warrior , are you dered for that promotion and most have been in a Squad for years before they promote to Captain . I don't want to become a Captain , at least not yet . I am still busy with my Tech studies and I want to concentrate on that before I consider any kind of promotion . The auditorium is slowly filling up and I am glad I choose a seat at the back , near an exit . Not only are the students that joined the Renegades in the past three months present , but every Squad Captain is also here with some of their members .

So far there hasn't been a female Squad Captain and that mostly has to do with the fact that most females don't want the responsibility . Elder Chelsea walks onto the stage and the entire room goes quiet , everyone wants to hear if there is anyone they thinks is qualified enough to become a Squad Captain . " Welcome , today we will divide our new students to a Squad . I know there are Squad Captains that have made requests for new members to their Squad and in some cases we will grant those requests , but there are a few that we must decline .

Follow new episodes on the

The reason for declining those request has to do with the individual in question , they have shown us that they are not ready to become team players and in our opinion they will be a bad influence on the Squads . " Elder Chelsea says before she calls the names of the students that are granted a place in a Squad . Next she calls out the names of those students that aren't ready according to the Elders and to my surprise the three males that give me a hard time are among them .

" One Squad Captain had a pretty unusual request and after careful consideration , the Elders have decided to grant his request . Captain Miles , you want to have an all - female team within your Squad and you have . requested a new student to lead that team . Your reasoning behind forming this team is very solid and we agree that in some cases it will be best if an all - female team is send on an assignment . Team - leader for that team will be Meadow . " Elder Chelsea says and every head in the auditorium turns in my direction .

12:25 Wed , Jan 14 Chapter 16 Their Squad Finishe " Welcome to my Squad , Meadow . " The male in front of me says and for a moment I am too stunned to react . " It will interfere as little with your studies as possible . your teachers will be informed if you are going to miss lessons or tests . " I look at him to see if I can sense any deception in him , but I can't find it . " Don't worry . Captain Miles is being sincere and I will keep an eye on things . " Elder Chelsea says in my head and I sigh in relief , knowing that someone is watching my back . " Thank you , Captain Miles .

I hope I can live up to your expectations . " I say as I shake his hand and I know I will be moving closer to Uncle Major's territory . I get introduced to the members of my team and I smile when I realize that I already know most of them , the ones I haven't met before seem to be nice enough . I think I just need to figure out what Captain Miles wants with this team and then I can start building a good relationship with my team . The auditorium empties with a lot of noise and someone bumps into me . pretty hard . " Watch where you are going .

Bitch " I hear someone whisper next to my ear , but before I can see who it is Captain Miles has him facing the floor . " I suggest you apologize for bumping into her . Elder Chelsea is right , you are no team player and I can make your life pretty miserable here . " He growls at one of the males that likes to tease me . Our entire Squad has surrounded us and no one can see what is going on . " If one of us catches you anywhere near Meadow , you will regret applying for a position here . Captain Miles says , as he lifts the guy off the floor and turns him to face me .

He gets released the moment he apologizes to me and I really hope that I have seen the last of him . My team stays close to me , as we walk to my room to get my belongings and a few of the other students give me some death glares . " They are jealous of you . You excel at almost everything you do and if one of them did half the work you do , they would be able to get far . " Rebel says . I know that most students only put in the required amount of time for their studies , their off time is mostly used to do as little as possible and that is where they go wrong .

If you want to achieve something in life , you have to work for it . I have been training for this since I was a young Pup and I am grateful for my friends that helped me get where I am today . Once we get to our Squad house I go in search of Captain Miles , I want to have details on this team and I wonder how he came up with forming an all - female team within his Squad . " Have a seat . Meadow . I will explain what the meaning is of your team , I will let you determine who will fill which position and what your training schedule will look like . If you have any questions , just ask them .

" Captain Miles says . For the next hour I listen to his explanation and the more he tells me the better I understand his need for this team . I will make Captain Miles and the Elders proud of us and maybe other Squads can implement a team like this into their Squad . admin

Chapter 17 Walk Away Myka's p.o.v. Finished I am slowly getting through all the papers on the tables , but it will take a few more days before any of this will make any sense to me . River wasn't too happy when Alpha Lincoln assigned him to my assignment and every chance he gets , he is out of here . At first , I thought about telling Alpha Lincoln , but then I found a paper with his Father's name on it and now I am hoping that I will find the rest when River isn't around .

In one of the filing cabinets , I found a file on the Beta family , but it ended before River was born and I know that every other piece of information on this family is somewhere on those tables . " It's almost dinner time . " I hear Mom say in my head and I put down the stack I have been working on for the past hour . I use the Omega stairwell to get to our floor and I skid to a halt when I hear Makay's voice . " River , every female is weaker than a male . They need to train ten times harder than we do to achieve the same level of strength we have , even the Elders agree on that .

Have you ever heard of a female Squad Captain or a female Team - leader ? " He asks . Makay has a point there . I had never heard of that and neither had River . It still isn't an excuse to call a female weak , I hope that one of these days he will run into a female who will kick his ass . Without making a sound , I walk into my room and get ready for dinner . I will inform Alpha Lincoln about Makay after dinner . I think it is time for Makay to be reminded of the warning Alpha Lincoln gave him .

After dinner , we are told to gather in the Alpha office and I am surprised to see that Mia and Beta Rhys are present as well . " Makay , which warning did I give you a while back ? " Alpha Lincoln asks the moment Dad closes the door behind us . " You would send me to Elder Morton if I ever talked down to or about females . " Makay answers and I see Alpha Lincoln nod his head . " Then please enlighten me , why have I gotten multiple different stories on you and the way you belittle . females and their strength ? " Alpha Lincoln asks .

Follow new episodes on the

I lean back in my seat , like the others , I am waiting for his answer . After ten minutes of silence , I have had enough and decide to throw my Brother under the bus . " Makay told River that even the Elders agree with him and he thinks that is true , because there has never been a female Squad Captain or a female Team - leader . Makay believes that a female has to train ten times harder to get the strength he has . " I say and I see anger flashing through his eyes .

After that , everyone who has heard Makay talk opens their mouth , but it isn't until Dad tells his story that I realize they have been gathering evidence against him . " Tomorrow morning

, I will contact Elder Morton and I will let them decide when you are ready to return ." Alpha Lincoln says . " Stella , I am done with your complaints on training . This is your final warning , one more complaint out of 12:25 Wed , Jan 14 Chapter 17 Walk Away Finished your mouth and I will send you to Renegade territory .

Not just to learn how to fight , but also to learn how to be a good Gamma female and that is a training of a year ." I see her face pale when Alpha Lincoln gives her her final warning . Thyrius , my Bear , has pulled up a block on Makay and Blade . He is done with Makay's stupid vision on females and Blade's reluctance to straighten out his Human . Instead of going to my room , I head back to the Archive and I keep reading through the papers I gathered just before dinner ." That is a new name ." Thyrius says and I try to find out if I can remember reading the name before , but he is right .

There is no other piece of paper that holds the name Meadow and I wonder where this piece of paper belongs . It is the result of a blood test that every Pup has at the age of four , to determine if they are a Wolf or a Lycan . This test is for a Wolf and Lycan couple . From the limited information on this page , it appears that her Father is a Wolf and her Mother a Lycan , but there are no names provided on this page . Meadow's results show that she is a Lycan , which is very unusual given her Wolf Father .

I grab a new folder to place the piece of paper in and write down the name " Meadow " on the outside . I hope I will be able to find the other page that goes with this and then I can hopefully connect it to a family within this Pack . Tomorrow , I will ask Dad for a copy of the list of Pack - members . I want to see if I can connect the name Meadow to a family on my own . After placing the folder in the filing cabinet I have been working on , I turn in for the night and I am asleep before I have pulled my legs into the bed ." Wake up , Myka .

You have ignored me for long enough ." I hear Makay say next to my ear and in reflex , I swing my arm through the air , connecting with Makay's nose ." Argh , Motherfucker ." He yells and a moment later , Mom and Dad run into my room ." How often do I have to tell you ? Don't fucking wake me in the morning ." I growl as I walk into the bathroom and slam the door shut . I step into the shower , where the temperature is nice and hot , allowing the water to cascade down my back and my mind wanders back to the last piece of paper I read last night .

Even after a good night's sleep , it makes no sense to me , meaning that I will have to head back to the Archive . After breakfast , I see Hayden , Ryder , Dawson and Tyson waiting outside the Alpha office . A moment later , I see Makay stomping out of the office , followed by Dad and Alpha Lincoln ." Let's go see your Brother off ." Dad says as he passes me ." No , thanks . He made a mess of it and he knows how Thyrius and I feel about his behavior . I will be in the Archive ." I answer , before I walk away . Gold Moon : Mated To The Bera Twins admin

Chapter 18 One Day Meadow's p.o.v. I am glad that I am still underaged and don't have to be present during the Full Moon . Finnst I spend the evening reading through the subjects have exams on tomorrow , not because I haven't studier them yet . No , I want to make sure I didn't miss anything My job as a Team - leader for Miles Squad is amazing and we have even done an assignment for another Squad . Every male in our Squad has proven that I can run them and that has improved our dynamic as a Squad .

Elder Chelsea calls me to her office in the morning and I have barely set foot inside or she receives a call f Elder Morton . Both motion for me to be quiet . Alpha Lincoln , winer can I do for you ? " Elder Morton asks and my heart skips a beat . " I need a favor Makay , my Beta's Son , has crossed a line and I need your help " Alpha Lincoln says and I listen as he tells Elder Morton what the guy has been up to . " I am hoping that you can put him in an all - female team and have them mock some sense into him . " Alp Lincoln says and Rebel has an evil smirk on her face .

" Tell him you can help , that Makay has to be here tomorrow at nine and must a manute emer 4lso the Team - leader will decide when Makay is ready to return home . " I tell Elder Morton and he relays my message to Alpha Lincoln . " If you pur a time limit on it . he will behave himself for that period of time and be might not have learner ng lesson . " Elder Chelsea answers , when Alpha Lincoln asks why they can't give him an end time . I can hear a growl in the background and I smile at Elder Chelsea . Sounds like Makay doesn't like that ide Alpha Lincoln .

" She says and after a few more pleasantries they disconnect the mill After getting my next assignment from Elder Chelsea . I head back to our Squad house and I walk straight Miles ' office . First I tell him about Makay and he is laughing his ass off , " Meadow , show that Idion in your team is bett omimed inam be is and make sure you do not send him home before he is ready . Miles 27 . I hand hirm the file on my new assignment and after he has read it , he hands it back to me . Maybe the perfect way to show Makay what you are made of .

Follow new episodes on the

" He says and I leave his office before I link m meet me in my office . Yeah , as a Team - leader I have my own office and I use it to study for my Tech sandw * Ladies , we have two assignments . " I say as my ream enters and after telling them about Malay . I hear a lo of things they want to put him through . From having him do all the boring stuff to carrying around all ou bags but I think they liked my idea to use him as a sparring partner for all of us a whole lot bemes I hand the file to Maryan and she quickly hands out the assignments to the rest of our team .

Before time da is over , we will have all the information we will need and then I might be able to understand what is bugging me about this mile . It concerns a kidnapping bun the Alpha doesn't want us to rush in . He did demand that we take out the 12:25 Wed , Jan 14 Chapter 18 One Day male , because he doesn't want him to put another female through this again . Finishe I have studied quite a few cases on kidnapping , but none of them resemble this ammo and that is what is bugging me .

In most cases someone follows a certain pattern when it isn't the first time and most of the time it is what gets them caught . The Elders have a database on ammos used by criminals and the ammo used in this case isn't in there . meaning that this is his first kidnapping or at least the first time someone reported a kidnapping . Big question now is , why did he kidnap this female and why does the Alpha want him dead ? I put the file aside and concentrate on my studies , it will help me clear my mind for the time being .

Makay will arrive in the morning and after he has put his luggage in his room , we can start with our training . He will find out that we don't train as much as he seems to think we need to train and after two days he will think that he can beat us at every turn . However . I have a surprise for him in store . On the third day we will be sparring with him and his first opponent will be me . I will make him see that his - head is screwed on the wrong way . First things first though , he needs to arrive on time and something tells me that he won't .

That he will take his sweet time to get here and that he hopes to get away with it . I open a map on my laptop that contains the files of all my team - members and I make a new file for Makay a file to keep track of his screw - ups and achievements . " Can we go to see Arion ? " Rebel asks me and after I take another look at my assignments for Tech . I power down my laptop . I inform Captain Miles where I am going and he tells me to have fun . Rebel dashes off to Uncle Major's territory and as always she finds a spot in the sun to lie down , waiting for Arion to show up .

The dark grey Lycan walks into view pretty quickly and it surprises me and Rebel that he keeps coming closer , until he lies down on the other side of this so - called border . Neither of us moves an inch , but Rebel is inhaling his scent , she wants to be able to recognize it in the future . A future in which Uncle Major will no longer be hiding in this territory , a future in which we can have him with us every day . " Meadow , can you come to your office ? We have some more intel . " Maryan says through the mind - link and Rebel lifts her head to look at Arion . " Sorry , Uncle .

Duty calls , until next time . " I say through the mind - link , even though I don't expect him to respond . Arion lifts his head as Rebel gets up and he slowly stands up , brushing his head against her head . A sign of affection between relatives in Lycan form and Rebel returns the favor , rubbing her head against his head . " See you next time , Sweetheart . " I hear a male say in my head , the first real form of contact with Uncle Major Rebel runs back to the Squad house and I feel a whole lot better with the knowledge that Uncle Major is still there .

One day I might be able to get him to show himself again , but I will patiently wait for him .

Chapter 19 Alpha's Warning Meadow's p.o.v. ↵ (22 Finished I have just gotten to the Squad house and Maryan is waiting for me outside , a serious look on her face . I know my second in command well enough to know that they found something serious and I quickly run to my office . The file is on my desk and as I glance down at it , I see that Maryan already added it to our mission board . I let my eyes glide over the lines in the file , I read every piece of information my team has gathered .

There wasn't much on the male that kidnapped the Alpha's Daughter , but there was plenty on the Alpha and his family . After reading the entire file , I stand in front of the mission board and something is bugging me big time about this case . It is not just the fact that the Alpha want this male dead , it is the lack of information on the male from the Alpha's side . I let my mind go back to the request for assistance from the Alpha . A male named Andrew has kidnapped my Daughter , Janey .

1 My Elite Warriors have lost track of their scent , they have doubled back to try to pick up the scent going of in a different direction and came back to the same point . They have searched for more than forty eight hours , before the scent was completely gone . Andrew was a part of my Pack for nearly ten years , he never gave an indication to being a predator or having an interest towards any of my Daughters . Janey's Mate is at the end of his wits , he is slowly losing control of his Wolf and we have run out of options .

I hereby request the help of a Squad team to find my Daughter , alive . Andrew needs to be dealt with and it would please us all if he never sees the light of day again . Alpha Rolf of Black Moon Pack VW The first question on our mission board , where is Andrew's file ? Even if he was a Rogue at some point , they would have made a new file for him and the Pack - doctor would have given him a full medical check . Second question on the mission board , who is the Alpha's other Daughter ? According to the archive he only has one Daughter , unless he refers to his Stepdaughter .

Follow new episodes on the

Third question on the mission board , who is Jane's Mate ? Why wasn't he with her at the time of the kidnapping ? Why isn't he the one to reach out to the Elders ? Why isn't he out there looking for his Mate ? Fourth question on the mission board , why does the Alpha want Andrew dead ? No answers have been found so far , but we are not giving up . Luckily the Elders have people living in just about any Pack and I have reached out to a few of them , hoping to get some answers about Andrew and Janey . " Okay , let's get something to eat . We will come back to this after dinner .

" I say as I grab my plate from lunch 12:26 Wed , Jan 14 Chapter 19 Alpha's Warning and walk towards the kitchen . Finishe Breakfast and lunch can be spent anyway we want , but for dinner everyone has to gather in the dining room . It is the only thing Captain Miles insists on . he wants to make sure we all get along Tonight we have the pleasure of joining Captain Miles and his team for dinner , it doesn't take long before we are discussing our assignment .

I hear the same questions flying through the air that we came up with , but without some additional information there are no answers and we all leave the dining room feeling a bit frustrated . Maryan , have we gotten any information yet ? " I ask . I need that information from within Black Moon Pack and I want it yesterday . " Not much though . Andrew is a nice and polite male and never caused any trouble . He joined Black Moon after his former Alpha had been challenged and lost , he felt he couldn't stay with the new Alpha in place .

Ni one seems to know why he referred to two Daughters , he always makes it clear that he has one Daughter and it isn't his biological Daughter ." Maryan says . I stare at Maryan to see

if she is kidding , but the fucking woman is dead serious . Why the hell would an Alpha consider his Stepdaughter as his own ? Unless of course she is his biological Daughter too . " See if Sarah can break into their medical records . I need to know everything about the Alpha and his family . Something isn't adding up and we will find out what it is . " I say to Maryan .

I shift through every file we have on this case and every question we have come up with pops back into my mind , still not having an answer to them . This is a case that I have never come across and I have read just about every case that the Renegades handled . I push it aside for the time being . I can find answers and I will only drive myself nuts if I keep going through them . I grab our training schedule to make a few changes for the next few days . I take my team of the sparring schedule and increase the time we spend on building speed and stamina .

We will go for a run first , through the forest , up and down the mountain as we go . Let's see if he can keep up or make it to the end without hurting himself , maybe I should ask Doc to wait for us at the finish line . After that I will take him to the library and give him some old cases to look through , cases that the Renegades were never able to solve . Let's see if that will give him an indication of what we do around here and that some cases can cause a Renegade to die . " You are going to give that boy nightmares .

" Rebel says with a grin on her face , she likes my train of thought as much as I do . Elder Chelsea had called Alpha Lincoln after a few hours to find out what exactly happened with Makay and she had given me the extra information . Makay is going to regret his decision to ignore his Alpha's warning . 12:26 Wed , Jan 14 Gold Moon . Mated To The Beta TiwiSTS admin

Chapter 20 Team Captain Makay's p.o.v. Finisher " No , thanks . He made a mess of it and he knows how Thyrius and I feel about his behavior . I will be in the Archive . " I hear Myka say to Dad . Blade is of the same opinion as my Brother and his Bear . to him it doesn't matter what our Mate looks like or if she can defend herself or not . He hasn't said a word to me since Alpha Lincoln gave me my punishment , except for his chuckles when I was told to be there at nine tomorrow morning .

" You did this to yourself , you have always been an ass and even though I doubt it, I hope this will show you that you are wrong . " Blade mumbles before he turns his back on me , continuing with his silent treatment . I get into SUV that will get me to Renegade territory and I have four guards with me , as if they don't trust me to show up . My parents are waiting next to the SUV . neither one of them says a word and I know that they are very disappointed with me . They have often wondered out loud , where they went wrong with me .

It wasn't their fault , they raised all of us the same and none of them ever said or did anything to make me think that a female is weak or can't protect herself . As we drive away from the Pack - house of Gold Moon Pack . Ryder hands me a file and I look at him questioningly .

Renegade territory . Alpha Lincoln thought you might want to read up on the territory and what they stand for just to make sure that you don't make a fool of yourself . " He responds . Renegade territory was formed by the Elders , they wanted to train an Elite Force that could handle any type of situation .

Each member is a skilled Warrior and some have an extra specialty , something they can use ou in the field Renegades help the Elders to uphold our Laws , they get sent to Packs that need assistance with Rogue attacks or any other kind of assistance they might need . We have had Renegades come to Black Valley Pack , we had some Rogue attacks and Alpha Lincoln wanted the extracelp to locate them . He managed to find the place where the Rogues were hiding and with the Renegades he dealt with them.

Follow new episodes on the

There are a lot of different fields a Renegade can excel in and each of them is an important field of expertise to have within a unit . Medical , technical , strategical and a few others that you might need . We stop at a motel for the night and I growl when I see that I have to share a room with Ryder and Hayden " Your Mother called ahead and arranged for this . Looks like she doesn't really trust you to stay put and take your punishment like a man . What the fuck did you do to piss off the Alpha ?

Tyson asks I tell them about my responses to Stella's complaining and the warning I had tossed into the wind . " If this doesn't work . I might ask Alpha Lincoln to put you in a training group with our Sisters . They will kick your fucking ass and for your information , they train the same hours we do . " Tyson states . Chapter 20 Team Captain 22 Finish : It takes me a while to get to sleep , but I already know that I will be stalling in the morning . I am going to be fashionably late . let's see what they will do about that . " Makay , wake up . We need to leave in an hour .

I hear Tyson growl and I slowly sit up , stretching my arms above my head . All four of my guards are already dressed and they seem to be really impatient at the moment , but they will have to wait until I am done . " Is there any breakfast ? " I ask as I slowly get out of bed . Tyson points towards the table near the door and I sit down there to get some coffee . Tyson stays in the room with me , while the other three are bringing their bags to the SUV and I take my time to finish breakfast .

I walk into the bathroom to start my morning roue and I am on the shower to make sure it takes a while for me to get ready . Once I am showered and dressed . I open the door of the bathroom and look around carefully to see if I might have left anything behind . " Damn in . Makay . Get a move on , we are going to be at least an hour late . Tyson goods as he turns to face I shrug my shoulders as I look around the room . I take my time to walk out of the motel room and I see a sick on Hayden face . Just to inform you . Alpha Lincoln is aware of your stall tactics .

" Hayden says , before he gets into the SUV and Tyson pushes me forwards . None of them says a word as we continue our journey to Renegade territory and I keep my eyes on the kcenery outside the SUV , time slowly ticking towards nine in the morning . My eyes widen as I see the first signs of Renegade territory , mountains and forests as far the eye can see

in I know that somewhere around here is the Palace . They have a territory of their own . but it connects no Renegade testimony .

" What the Fuck I well as a Leopard starts running next to the SUV , I know there are different kind of shifters . After all I am one of them , but I have never seen a Leopard and from the sounds of the others . neither have them Ryder stops the SUV in fort of what looks like a Palace . but I know that this is not the King's Palace and I've two Elders waiting for us an the bottoms of the stairs . " I apologize . Elders . It seems that Malay was determined to make a bad first impression . I doubt a second would be any better Hayden says and I hear both Elders laugh .

" You better get a move on . Makay Your team has been at for almost thirty minutes and your team Captain isn't known for her patience . She is waiting right over there . " One of the Elders says and he points to my let " Get going , before she reports you . She is known to come up with the worst punishments and I have seen quite a few in my time . ' The over Elder states and I take off in a slow jog towards the team Captain . admin
