

## Gold Moon: Mated To The Beta Twins Novel

Chapter 26 Gifted Lycan Myka's p.o.v. Finished Thyrius is rolling around in my head and even though I know I shouldn't be laughing I can't help myself . " What has you laughing , Myka ? " I hear Mauro ask , he and his twin Brother are the Sons of our Gamma and like me , he loves it when Makay gets into trouble . I hand him my phone and for a moment he just stares at it , " If you press play , it will be better ." I say teasingly . He presses play on the video and he watches as Makay gets his ass kicked , before the girl in the video chokes him out .

He presses play again to watch a little closer and I can see the smile on his face get bigger the more we get to the end of the video . " Who is that girl ? " Mauro asks , but I just shrug my shoulders because I have no answer for him . Suddenly my phone gets pulled out off Mauro's hand and I hear someone giggling behind us , before I hear a lot of footsteps approaching the main living room . " What the hell did Meadow do , Brooklyn ? " I hear someone ask , the moment he walks into the living room .

She holds out my phone before she presses play and I see all of them staring at the screen with wide open eyes . " Damn , Tyson . She is even better than you and that is saying a lot . " One of the other girls says and I look at Tyson to see how he feels about that . " I am proud of her , she has come such a long way since the day you met her . I will never understand her Father or her Brother , but I am glad that our paths crossed . " Tyson responds and I know I need to inform Alpha Lincoln about this . " Guys , can I get my phone back ? " I ask .

" I think there are a few others who would like to see Makay get his ass handed to him by a girl ." Brooklyn laughs as she hands me my phone back and Mauro follows me quickly to Alpha Lincoln's office , he wants to be there when I show this video to our Alpha . After knocking on the open door I walk in to the Alpha office with Mauro right behind me . I don't waste any time and walk over to the screen on the wall , grabbing the right cable to attach my phone to the screen .

Mauro and I watch everyone's face as they are looking at the screen and we both laugh the moment we can hear her choking out Makay . " Fuck , that is Meadow . " I hear River say and I look at him to see if he is kidding . Thyrius is looking at the girl that kicked our Brother's ass , she is a gorgeous girl with her bright red hair . " That fucking Idiot allowed Blade to push forward and she still managed to take him down . " Dad growls and I re - start the video to see if Blade is front and center . " I will kick his ass when he gets home , has he lost his fucking mind .

" Thyrius grumbles in my head , he hates it when 1/3 12:26 Wed , Jan 14 Chapter 26 Gifted Lycan someone uses the strength of their Shifter to win a sparring match or a fight . " Elder Chelsea , did you kick Makay out of the territory ? " I hear Alpha Lincoln ask . Finished " No , Meadow will make that decision . Just know that if his Bear ever pulls that stunt again , they will never return to you walking and talking . I believe that Meadow threatened to send him back in a vegetative state and I doubt she was kidding . " Elder Chelsea responds .

I don't listen to the rest of the conversation , because something caught Thyrius ' attention and he is pacing in my head . " What is wrong , Buddy ? " I ask him . " How did they know that he is a Bear ? We never reveal that we are a different kind of Shifter , unless they ask us about it . " Thyrius states . " Dad , did you tell them that Makay was a Bear ? " Magnus asks and I am surprised that he picked up on that too . " No , no one told us what kind of Shifter Makay was . However , no one can keep that part of them hidden from Meadow and Rebel . " Elder Chelsea answers Magnus .

River just looks at me , I am one of only four people in this room that knows about his connection to Meadow and maybe it is time that we let the rest of the leadership in on our secret . " Alpha , maybe we should inform the others about Meadow . River shouldn't be able to tell who the girl in the video is and I can see that others are starting to realize something is wrong . " I mind - link Alpha Lincoln . " Elder Chelsea , I will be in touch sometime next week . There is something we need to talk about . " Alpha Lincoln says , before he disconnects the call .

Dad grabs the file I found on Meadow and hands it to Mauro . The file gets handed from one person to the next and even River decides to take a look at it . Once everyone has read her file , Alpha Lincoln tells them about our conversation with River and I see many different emotions flash through everyone's eyes . None of us can understand why a Father would lie to one child and ignore the other child . " What are you going to do about Rhys ? " Luna Leona asks and we all know who she is expecting to answer her question . " Nothing .

I want to talk to Meadow first and that means that I will have to visit Renegade territory . I will also tell her about River and how he was raised . After that I will make a decision on how to handle Rhys and not a moment before that ." Alpha Lincoln answers . I think that our Alpha is making the right decision , he needs to get Meadow's opinion on this and what she wants her Father to know about her and her whereabouts .

What I wouldn't want Alpha Lincoln to tell Rhys is that his Daughter is a gifted Lycan , he doesn't deserve to know and maybe take advantage of his Daughter being a gifted Lycan . Rhys tossed his Daughter to the side for what ever reason , he made her Brother hate his baby Sister and because of his actions there was no one in the territory that knew he had a Daughter . admin

Chapter 27 No Intention Meadow's p.o.v. Finished I wait until everyone has entered my office and as they are taking a seat I close the door and lock it for good measure . " We will be

leaving for our next assignment in a few hours , our objective is to capture the defendant and bring the Alpha's Daughter home safely ." I say as I sit down and I see Makay staring at the whiteboard . " Meadow , the Alpha is asking for the guy's death . Why would you want to capture him ? " Makay asks and I hear some of my team members gasp .

" Makay , why would you let someone else kill your Daughter's kidnapper ? " I ask him . Calista looks at me for a second and then she slams her hand against her forehead , almost as if I revealed life's secret to them . " Something isn't adding up in this case and I intend to find out what that is . His Daughter , Janey , went missing on the morning after the Full Moon and Andrew went missing two days later . Does that make sense to you , Makay ? " I ask him . " Why would anyone kidnap a person and then remain in the territory for a few days ? " I hear Makay mumble .

" This doesn't add up at all , we are missing some very important pieces of the puzzle . " Maryan turns the whiteboard around and Makay gets up to read the notes and questions we wrote down on the board . " I know that with a kidnapping we need to act fast , but her Father waited almost a week to call in some help and the first question that popped into my head was why did they wait so long to ask for help ." I tell Makay . Calista hands him the file with all the intel we gathered ourselves and one of the things that stood out is the time between Janey and Andrew leaving the territory .

No one remembered if they had been near one another during the Full Moon and no one witnessed another male claiming her as his Mate . She stayed on the stage with her Father until she turned in for the night , making me question just about everything about this case . " This is very unusual ." Makay states . " If someone finds their fated Mate then everyone around them would . know about it , our other halves would have said it out loud , even if the Human part wanted to keep it hidden .

" He is good at seeing the errors in this case and he points out the same things that we already uncovered . " Do you think that they could be fated Mates and her Father is against it ? " Makay ask , no one in particular . It had crossed my mind , but there was nothing in our intel to support that theory . Maybe we should take a closer look at her so - called Mate and see if we can find out the truth . " Let's pay them a visit , before we go searching for Andrew and Janey . Keep an eye on anything that might give us some answers ." I say before I dismiss them all .

I walk into Captain Miles ' office to let him know that we will be leaving shortly for our assignment , I always 1/2 12:26 Wed , Jan 14 Chapter 27 No Intention let him know where I am going , even if it is to the other side of the territory . Finished Instead of shifting into Rebel , I walk to Uncle Major's territory myself . I just want to tell him and Arion that we will be gone for a few days , I don't want them to worry about us . I have been sitting near the border for less than five minutes , when I can sense that Arion is approaching me .

I look up to see Arion lying in front of me , his gaze on me and I smile at him . " I have to go on an assignment and I am not sure how long it will take me to get back , but I didn't want you to worry about us . We will be back as soon as we can and I want you to stay out of

trouble , Arion . " I say teasingly . Arion tilts his head to the left and I just smile at him . " We will be fine , thanks for the heads up . We like having you around , come back soon .

" I hear Uncle Major say in my head and I run my hand through Arion's fur before I kiss the top of his head and walk back to building A. " Did you say goodbye to Elder Major ? " Maryan asks , while I walk up to the SUV . " Yeah , just wanted to let them know that it might be a few days before they see me or Rebel again ." I answer her as I get behind the wheel . Blood Moon Pack is a good four - hour drive from Renegade territory and while we drive there , we go over our question for Alpha Rolf again and again .

" Alpha Rolf is the type of male that doesn't like a female in a High - ranking position , so I will do the talking . Makay , I want you to stay behind me at all times and keep your eyes on that so - called Mate of his Daughter . " I say and I see a smile on his face . " You know how to piss off someone , don't you ? " Makay asks laughing and I feel a smile spread across my face . Makay is the right guy for this job and I doubt he will do anything to piss me off today . Let's just see how Alpha Rolf will respond to dealing with a female , I just hope that we will get some answers .

Our SUV is marked as a vehicle from Renegade territory and that should make it easy at the gate or at least that is what I am hoping for . You can never know what you run into and I am prepared for almost everything that comes my way . Halfway through the drive , we pull over to stretch our legs and to get something to eat . There is still an hour and a half left before we get to Blood Moon territory and once we get back on the road , I close my eyes for a while .

A soft push against my shoulder , makes me open my eyes and I am staring through the front window to see four Wolves standing in the middle of the road , but we aren't near the territory yet . Calista stops the SUV a few inches from the Wolves and one of them shifts back to Human form . " Turn around and leave , you are not welcome here . " The male says and I open my window to respond . " Good , that means I get to sleep in my own bed tonight . Tell Alpha Rolf that he can keep looking for Janey himself . " I say , before Calista puts the SUV in reverse and turns around a few feet away .

I have no intention of giving up the search for Andrew and Janey , but now I am even more convinced that something is off . admin

Chapter 28 Feeling Safe Makay's p.o.v. Okay , this is a bit strange and then I am putting it mildly . Finished You send a request to Renegade territory to get some assistance in your Daughter's kidnapping , but when the cavalry shows up you tell them that they are not welcome . I think that I am starting to understand why Meadow isn't trusting this case and from my perspective , she has every right to be distrusting of Alpha Rolf and his claim . " What are we going to do now ? " I ask . " Continue with our assignment .

Just because her Father is an Asshat , doesn't mean that Janey no longer needs to be rescued if she actually needs to be rescued and a little voice in my head says that she might

not want us to rescue her . " Meadow answers me . So , my thought on Andrew being her fated Mate might be right on the money and ... Oh my Goddess , what if Alpha Rolf didn't send the request ? " Uhm , Meadow . I just had a thought , what if someone else send that request ? Someone that might know what is really going on . " I think out loud .

Blade disappears to the back of my mind at the sound of five mighty roars , it is more scary than hearing Alpha Lincoln roar and that is intimidating enough in itself . Calista keeps driving until Meadow tells her to take a left , none of us has said a word and Blade feels at ease enough to come out of hiding . " They are a scary bunch . Meadow kicked your ass and their roars made Alpha Lincoln sound like a Puppy . " Blade mumbles and thinking back about the moment they roared , I have to admit that he is right .

" We are almost at the spot where their scent was last detected , that is where our search will start . " Meadow says after a few minutes . According to the files I read there is a general description of their scents , Andrew smells like cinnamon . while Janey smells like basil . It is their scent that every Shifter can smell , but to their fated Mate they will smell very different . It will at least be able to send us in the right direction and hopefully we will be able to find more clues there or maybe even Janey or Andrew .

Blade is a damn good tracker when it comes to scents , unlike Thyrius who is better at putting puzzle pieces together and that is why he is still in that damn archive . Trying to make complete files of all those papers , but if anyone can do it Thyrius and Myka can . " Meadow , would you mind if Blade tries to find their scent ? " I ask as Calista pulls the SUV over to the side of the road . " Sure , knock yourselves out . " Meadow says as we get out of the SUV and Blade pushes forward to sniff the air .

1/3 12:26 Wed , Jan 14 Chapter 28 Feeling Safe Finished It takes him a few seconds to find the scent of cinnamon and basil , both scents seem to be combined as if they were walking close together . " Maybe Andrew was carrying Janey for some reason . " He replies to my thoughts . There is a small town to our left , but the scent moves away from the town and heads into the forest . Blade leads me in the direction their scent and soon we are surrounded by the forest . " Keep following Blade and Makay , they seem to be able to smell the scents a lot better than any of us . " I hear Meadow say .

Blade keeps sniffing the air , leading us further into the forest and none of the females complain about the terrain we have to get through . They follow us closely , dodging branches and climbing the occasional rock formation that is blocking our way . Suddenly the scent is gone and we look around in confusion , because it is impossible for a scent to disappear this abruptly . We take a step forward and instead of more forest , we are faced with mountains .

We move to the left for a minute or two and then we move back to the right , picking up the scent again at a small opening in the mountain . " Looks like a passageway , the scent leads that way . " I whisper , while I point into the opening. " Stay close behind me , I need Blade to follow the scent . I just don't want them to freak out when they are facing a stranger . " Meadow whispers back . The passage is very narrow and I know I will have scrapes and bruises to show for it tomorrow .

Meadow on the other hand seems to be able to navigate the passageway without bumping into the walls and the other four females behind us manage to avoid the walls as well . A few feet ahead the passageway starts to widen and I release a sigh of relief when I can walk normal again , not that I am able to move much faster but that is fine under the circumstances . Meadow's hand flies up and we all stop dead in our tracks . Blade takes a good sniff and I point to Meadow's left , showing her in which direction the scent is traveling .

Slowly we move forward , step by step , keeping as quiet as possible . We don't want to alert Andrew or Janey to our presence , Meadow wants to see what is going on first and then take action if that is necessary . Meadow peeks around the corner with her hand raised and we all come to a stop again . Blade keeps sniffing the air , our targets are close by and soon we will have some answers . After a few seconds she takes a step forward and I manage to see why she had stopped , two people are sitting on a log with their backs turned towards us . " Probably Andrew and Janey .

" Blade mumbles in my head . They are so engrossed in their conversation that they don't notice the six strangers stepping into the small clearing , nor do they notice that one of them is getting closer to them . " I don't remember feeling this safe or loved in my life . Dad always made sure that I knew that I was a means to an end ." We hear the female say . " Do you trust Jacob to send that request to the Elders ? " admin

Chapter 29 Play Nice Meadow's p.o.v. I knew something was off and now I have confirmation that Alpha Rolf hadn't told us the truth . Finished I clear my throat to alert them to their visitors and Andrew pushes Janey behind him as he growls at me , I know this is just instinct and I won't hold it against him . " I am not here to harm you or to force either of you to return to Blood Moon Pack . " I say with my hands raised . " The Elders received a request for help , but not many were interested in answering questions from the Elders .

" Andrew has a small smile on his face , while Janey steps beside him , her hand on his lower back . " Andrew is my fated Mate , but Dad doesn't think that he is good enough to be an Alpha . Dad wants me to take a chosen Mate , the Son of his best friend , an Alpha's Son with no chance of becoming an Alpha without the right Mate . " Janey says . I understand that her Father wanted to use his Daughter for some political gain , but never took her feelings into consideration .

Too bad that Alpha Rolf never bothered to learn everything about our laws , he is going to be in for a huge surprise before I am done . " Do you want to lead Blood Moon Pack ? " I ask , while looking at Janey . " You are the rightful heir to the Alpha title and no one can take that away from you . " I look at Janey as she tries to answer my question , but I can already see that she won't be able to answer me . At least not with the truth and the reason she isn't giving me her ordered answer , is because I asked the question differently .

" Let's get them back to Renegade territory , we need the King to break the Alpha order that Janey is under . Maryan , call Elder Chelsea the moment we get back to the SUV . " I say and Janey sighs in relief . " How did you find us ? Our scents must be gone by now , it has been over a week ." Andrew asks and I turn to Makay , allowing him to answer the question .

" I am a Bear and I can smell a scent that is almost two weeks old . " He says with a smug look on his face and I have the urge to smack him on the back of his head .

Instead I shove him back toward the passageway , I will leave Maryan and Calista to help Andrew and Janey . The rest of my team follows me through the passageway and I hear Makay mumble as we move through the narrow part , his huge frame scraping along the walls . " Stop being a smug Idiot . Blade might have the better nose , but without him you are nothing . You and Blade are one and you better start to remember that before he leaves you hanging one day ." I say , before I shove him out of my way and walk to the SUV .

" Looks like Makay is in an argument with Blade , it is funny to see his eye color change . Dang , I wish I could listen in on that conversation . " Raya says through the mind - link . Rebel likes the idea of Blade chewing Makay's head off , she can be a bit blood thirsty from time to time and WED 1/2 12:26 Wed , Jan 14 Chapter 29 Play Nice this happens to be one of them . " Why are we going to see the King ? " Makay asks , about halfway through the trip .

\* Finished " We are not going to see the King , Elder Josiah will take Janey and Andrew to see the King and he will be able to break the Alpha order Janey was given by her Father . " I tell Makay . Elder Josiah is already waiting for us when we get back to Renegade and he guides Andrew and Janey to another SUV that is going to take them to the Palace . " What will happen with Andrew and Janey ? " Makay asks and I point to a chair on the other side of my desk , waiting for Captain Miles to join us .

" The King will break the Alpha order that Janey got and then she can tell the King what she wants . Either she chooses to take the title or she chooses to give it to Andrew , but whatever she decides to do , her Father will be forced to step down . " I tell Makay after Captain Miles has taken a seat . " There are a lot of things that can determine if someone gets the position that is their birthright , but giving an Alpha order to your Daughter to hand over the title to an outsider is against the law . " Captain Miles states .

" Yeah , if Janey never wanted the title there was just one little thing her Father had to do . He should have taken her to the King and after Janey had told the King she didn't want the title , her Father could have given it to anyone . " I add . Makay seems to be quiet for a few moments , before he looks at me again . " Can the Son of an Alpha that got killed by another Alpha take over that Pack ? " Makay asks and both Captain Miles and I shake our heads . " Not even if the new Alpha wants to hand it over to him ? " Makay asks his next question and I think I have an idea where he is going .

" No , once an Alpha has killed another Alpha that territory belongs to him . Unless the Elders agree that the death of challenge was unfair in any way , then the Son of the former Alpha can become the new Alpha . However , if the kill was justified then the new Alpha's second Son takes over that title ." I answer him . Alpha Lincoln killed Rory's Father , but Rory can never become the Alpha of Gold Moon . At least not as long as Alpha Lincoln still has an heir left .

Which means that Makay will become the Beta of Gold Moon when the current leadership steps down , meaning that our Beta bloodline will stop existing . It also means that the one thing that Stella was hoping for would not become hers , she wouldn't become the Gamma female of Gold Moon and I wouldn't have to play nice to her if I ever went home .. admin

Chapter 30 Dreamland Meadow's p.o.v. 22 Finished I watch Makay as he is sparring with Calista and despite her beating the crap out of him , Blade stays out of it . He underestimated all of us and Calista is the one he hadn't been up against yet . Rebel is as confused as I am , because Makay was sent here for agreeing with a female not training or fighting . Yet , he compliments each of us when he has gone up against us and that doesn't make sense . " Something on your mind , Meadow ? " Captain Miles asks as he steps next to me .

" Yeah , but not something I want to discuss out here or right this minute . I need you to keep an eye on Makay during training with the entire Squad , after that we can talk in a day or two ." I whisper , my eyes never leaving Makay and my team . It has been a week since Makay arrived here and even though he has a slight issue with answering to a female , he isn't a complete jerk . He is smart enough to ask a lot of the right questions , he even went through the cold cases without complaining . The girls had a bet on how fast he would abandon the cold cases , but they had all lost .

Makay had asked if he could take the files from the library and after getting permission he would take a file with him to read during and after dinner or before falling asleep . He has returned each file that he was finished with and each file had sticky notes with questions . Some of those questions were easy to answer and others needed a little more digging on our end , but we weren't able to solve any of them . Not that we had expected to solve these cases , they are decades or centuries old .

We are halfway through Makay's second week when Captain Miles calls me to his office and I hope that he can confirm my suspicions . I get handed a file the moment I walk into Captain Miles ' office and without saying a word I walk over to the sitting area . I read every page in the file and it seems that we have figured out what Makay's problem is . How to fix it is a different question and I am not sure that we can even fix it . " That is what you were hoping for , isn't it ? " Captain Miles asks . " Yeah , it is or I was at least expecting it .

His Alpha and his parents need to fix this , I doubt we will be able to hand Makay a solution to his problem . " I answer Captain Miles . " Discuss this with Elder Chelsea , she needed to see you anyway . " He says before he dismisses me and I take the file with me as I walk out of building A to the Elders Residence . Elder Morton and Elder Josiah are out front and I greet both of them in passing , but Elder Morton has to be his annoying self again . " Meadow , when will you stop holding on to the past ?

" He asks , a question he asks me almost every time we run into one another and like always I ignore his question . 1/2 Chapter 30 Dreamland ( 22 Finished I knock on the open door of Elder Chelsea's office and step inside while she ends her phone call . She gets up to close

the door and then she walks over to her sitting area . " Any news on Makay ? " She asks and I hand her the file from Captain Miles . " We both have come to the same conclusion and we aren't the ones to help him fix this ." I respond as I sit down .

The office is quiet while Elder Chelsea reads the file and once she is done . she places it on the coffee table . I can almost hear the wheels turning in her head , she is trying to find a way for us to fix this issue . " You're right , this isn't our problem to fix . Tomorrow Alpha Lincoln will pay us a visit , he wants to know how Makay is doing and he has something else to discuss with you ." Elder Chelsea says as she leans back in her seat . Yes , Meadow . He specifically asked for you , I think he is on to something and you know that we can't stop him if he orders you to return home .

You are still underaged and his responsibility . " She says . " I am going to see Uncle Major , I need some time to myself . " I say as I get up and walk out of her office . Rebel takes off to Uncle Major's territory the second we have shifted and Arion is already waiting for us near the tree where we always meet . This time Rebel crosses the so - called border and Arion guides us to a small stream that runs through his little territory . Both of them lie down in the shadow of a tree and for once in my life I feel safe and wanted .

I tell Uncle Major through the mind - link about my conversation with Elder Chelsea and then about my conversation with Captain Miles . He listens to everything I tell him and when he thinks he has something useful to say he does , but other than that he just lets me talk . He seems to understand that I hate it when someone interrupts me while they have nothing useful to add . I even tell him about Elder Morton and Arion growls softly . They don't like what Elder Morton does and I believe there is some bad blood between the two of them , but neither one of them has said anything about it .

Uncle Major did tell me a while back , that it was thanks to Elder Chelsea and Elder Josiah that he was allowed to stay in his little territory within the only territory he ever considered home . " It is time for us to leave , Uncle Major and Uncle Arion . Dinner will be served in an hour and I want to take a shower before dinner . See you soon . Love you . " I say , while Rebel slowly gets up . Arion rubs his head against Rebel's head , before he steps back to let us pass and we look at them over our shoulder before running back to building A.

After a quick shower , I grab something to eat and for once I am the first one to turn in for the night . Off to Dreamland before my head hits the pillow . admin
