Chapter 85: Beaten up

"I'm okay with that," Zach said and looked at Benson, "but I don't know if the antidote will work on Benson."

The antidote this time was similar to the specific medicine Lidoderm 7, but the effect was inferior to Lidoderm 7.

Obviously, the antidote couldn't work on Benson's body.

Juliana spoke calmly, "Benson's neurotoxin is not hallucinogen N3, so this antidote is useless for him."

Old Mr. Leach and Zach looked at her again.

Zach frowned, "How do you know?"

Juliana looked bemused, "I guessed."

Zach didn't dare to talk nonsense for fear of getting caught again.

Old Mr. Leach only felt the hope that had just risen dashed again.

Zach sat down on the sofa, clenched his fists, and pounded on the pillows, "What crazy talent has created this hallucinogen? Shit."

Juliana didn't answer.
