

Got Busted 87

Chapter 87: I Believe You

Juliana read the test results carefully and looked gloomy after comparing them.

She looked up at Benson, "There's hallucinogen O in there."

Sebastian was shocked, "Hallucinogen O?"

It was the first hallucinogen, which had appeared early but had been banned later because it had had too much toxicity.

The hallucinogens that followed were all modified and had their antidote prepared at the same time.

Benson knew it too. He frowned, "Wasn't hallucinogen O destroyed as soon as it was created?"

It had never been commercially available.

Sebastian was confused, "It's weird. Didn't Master say that there's just the composition of hallucinogen O in it? Then it's not hallucinogen O?"

Juliana nodded, "It is a basic change on hallucinogen O, not very toxic but fickle. It is a chronic poison for which there is no antidote."

Mostly, she couldn't find what the other composition was.

exclaimed, "By this time next year, wouldn't Master be
