

## **Hammer God 591**

### Chapter 591 What is That Thing

Kyle's body rapidly recovered thanks to his Law of Body, and he looked forward...

Just to see another wave of metallic spears shooting at him.

His eyes widened.

But then, the space expanded between the spears, and they all hit the walls around him.

Surprisingly, the powerful spears exploded into pieces as soon as they hit the wall.

Kyle noticed that the walls seemed manmade.

He was currently in a gigantic room with several big flames at one end of the room.

In front of the flames was a grey lizard that had spears growing out of its back.

Surprisingly, the lizard was only about ten meters tall, which was absolutely tiny for a Primal Beast.

"Level Five Primal Beast!" Warp Space transmitted to Kyle.

'Ah, for fuck's sake!' Kyle thought as he quickly charged away from the wall. 'Couldn't you have called me at the beginning of the fight?!'

Kyle quickly ran past the two of them, and an instant later, he felt Swamp Dragon's Energy gathering around his hammer.

The next moment, the lizard pointed its tail forward, and it rapidly expanded in Kyle's vision.

Out of reflex, Kyle ducked.

CRACK!

"Huh?" Kyle uttered as he saw the head of his hammer falling down in front of him.

His hammer had still been in the way of the lizard's tail, and the lizard's tail had slashed the hammer into two pieces.

'Brah, what?!' he thought. 'The fuck is this thing?!'

Nevertheless, Kyle quickly grabbed the head of his hammer and repaired it as he kept charging forward.

As he closed in, more spears shot out of the lizard's back.

That was when the lizard and the spears suddenly started growing again in Kyle's perception.

Surprisingly, the spears missed since they now flew over him.

'Oh!' Kyle thought as he realized what was going on. 'Warp Space made me small!'

When the attack passed, Kyle returned to his normal size, and he reached the lizard.

Kyle's entire body bulged as his Meteor Energy roared violently.

The green Energy on his hammer left behind a streak of death.

Kyle's hammer hit-

Nothing.

Kyle blinked a couple of times.

It was gone!

Where the fuck did the lizard go?!

Kyle's Energy Sense quickly picked up the lizard...

On the other side of the room.

'Wait, what the fuck?!' he thought.

"It can teleport!" Warp Space transmitted.

Kyle shook his head as he charged towards the lizard again.

'Again, what the fuck is that thing? ! I thought you needed to be in the Wisdom Fire Realm to teleport!'

Warp Space and Swamp Dragon were now between Kyle and the lizard.

The next moment, the lizard readied its tail again.

The space between the tail and Swamp Dragon compressed and distorted, but this was not Warp Space's doing.

Swamp Dragon gritted his teeth as he ducked.

However, he was too slow.

But then, the space returned to normal again as Warp Space intervened.

Nevertheless, the tail continued traveling forward.

And then, it angled downward, right towards the crouching Swamp Dragon.

When Kyle saw that, his mind nearly stopped.

That tail had cut Kyle's hammer in two!

If that thing hit Swamp Dragon, he would die instantly!

Kyle was too far away, and Warp Space had already used her readied ability.

The tail closed in on Swamp Dragon.

BANG!

And bisected him.

Right beneath his Center.

At the last moment, Swamp Dragon had suddenly shot upward just enough to make the tail miss his vital areas.

However, everything below Swamp Dragon's chest was gone.

The sudden change in speed and reaction could only have come from one thing.

Swamp Dragon had comprehended another Fragment of the Body.

At that moment, Kyle ran past the two of them.

His hammer still had Swamp Dragon's Energy on it, and he was closing in on the lizard.

"Swing!" Warp Space transmitted.

Kyle did just that.

As Kyle swung with all of his power, the space between him and the lizard shrank.

It was like the lizard's chest was expanding towards Kyle.

The attack would hit!

Kyle swung!

And missed!

The lizard had returned the space to normal, and it readied another volley of spears.

The space expanded at the same time, but this was not Warp Space's doing.

The lizard had expanded the space and shot its spears at Kyle in this expanded space.

It had noticed how its ranged attacks were countered by the expanding space, and it was counteracting that.

Expanding space even more was difficult when it was already this expanded.

Warp Space gritted her teeth as an ungodly amount of Energy came out of her body.

BANG!

A cube of spears shot through Kyle's recovered legs, turning them into a fine mist.

Warp Space had compressed the space, focusing the attack.

All of the spears had hit Kyle, but they hadn't hit anything above his navel.

Kyle's Biological Energy dropped to critical levels as he recovered his body again.

Healing would be difficult from now on.

Nevertheless, he continued charging forward.

At that moment, the lizard struck with its tail again.

Kyle swung his hammer.

CRACK!

The hammer's pick hit the tail.

However, this was a Level Five Primal Beast with metallic armor.

Getting through its defenses wasn't easy.

Yet...

The metal on the lizard's body turned into Yin-Metal as the Yin-Wind on Kyle's hammer hit it.

The Yin-Metal of the lizard unleashed its power in both directions, slowing the tail while also weakening Kyle's swing.

Kyle used the Yin-Metal on his hammer to get rid of the enemy Yin-Metal's attack.

Then, his hammer reached the tail again.

The scales froze.

CRACK!

The pick of the hammer rammed into the tail.

BANG!

At the same time, the tail hit Kyle, breaking several of his bones and throwing him across the room.

Luckily, the tail's strike had been weakened significantly.

Kyle's Energy dropped as he converted Energy from his Center into Biological Energy to heal his injuries.

Meanwhile, the lizard noticed that pus was coming out of its tail.

Swamp Dragon's poison had infected it.

And then...

The lizard's tail fell off.

The infection was gone from its body, and its cut-off tail turned into a puddle of blood and pus.

Kyle just charged forward again.
