

## Heaven 36

### Chapter 36

In a closer place than you would think, inside the Rita Academy, and in one of the most luxurious halls, there was a woman with raven black hair that reached under her soft butt. She was 173 cm tall with a slender body of perfect proportions. This beautiful woman had a pair of blood-red piercing eyes that could she through fate itself and her aura was imposing making people want to kneel in reverence.

In front of her, there were four elders and another ten or so people kneeling reverentially to her. One of the elders spoke “Headmistress, the new students have already entered. The new batch has some promising disciples. There are ten of them that are above the rest, entering the monstrous genius category.”

One of the female teachers although a little intimidated spoke calmly “May I speak?”

This woman was Madeleine, who now didn’t carry her normally confident aura, the only thing around her was respect for the monstrous cultivator in front of her, that person alone can deter three whole empires from attacking this Rita state.

The red-eyed woman, Tatyana, looked at Madeleine and her regal voice resounded in the hall, “You may.”

Tatyana analyzed Madeleine and she remembered, ‘This is the person that took my little treasure as her disciple... Not bad, she can teach her about how to control her energy better, let’s see what she tells me...’

Madeleine felt completely bare before those red eyes, but spoke without change in her tone, “This time we have poached an extremely talented child.”

Tatyana rose an eyebrow and gestured for her to continue, Madeleine continued “She is a dragon girl, it seems that her bloodline is especially potent and she is extremely hard-working. Her learning speed is out of the norm, and she has an extremely steady and clear heart.”

Tatyana almost smiled foolishly about someone complimenting her dear daughter so high, but she held back! She had to look dignified! She asked with a little smile and her voice more relaxed, “Tell me about her progress.”

The four elders felt their lips twitch a little, they knew that girl was their Headmistress’ daughter. They also knew about their relationship and the reason that she was birthed for, that is, to become Tatyana’s lover!

The moment Tatyana gave permission, Madeleine was elated and spoke in length, “Yasenia has entered as the top disciple from the entrance exams, her fighting style is flexible and overbearing at the same time. She also has strength above her cultivation level, when she was in second-level of the Body modification realm, she beat someone on the eighth level. Moreover, that cultivator was of the purple class.”

Madeleine stopped to let the information sink and continued, “During this month in the academy, her cultivation speed soared. In the first week, she broke through the third level, two weeks later she reached the sixth level, now she is at the seventh level.”

Tatyana frowned hearing her abnormal advancement speed. Some of her spiritual pressure escaped and fell over Madeleine, “Did you let her foundation be destroyed to advance faster and then brag here? Speak.”

Madeleine felt a chill on her spine and hastily continued, “I was worried about her destroying her foundation, so I checked it. Not only did she not destroy her foundation, right now it is stronger than when she first came to the academy!”

Every person present was stupefied and Tatyana released her spiritual pressure. They had seen people Advancing that fast, or even faster, but all of them destroyed or weakened their foundation somewhat.

Tatyana hasn’t been in the academy because she had to clean up the aftermath with the demonic sect. She asked confused, “Did she eat a heavenly treasure in one of her missions? How is it possible to advance that fast?”

Madeleine shook her head and answered, “No, the first big jump seems to be caused by her bloodline...”

Madeleine didn’t know if speak more in-depth here, so she looked at Tatyana questioningly. Tatyana nodded and said “Say it, there are only trusted people here”

Madeleine nodded, “Her bloodline is named [Celestial Firmament Dragon], there aren’t registers of it in our library. It was checked by the main librarian.”

This time they were horrified. Some teachers started speaking “Is she related to any foreign Dragon gods?”

“How can an original bloodline awaken in our continent!?”

Before more people spoke Tatyana unruffled her spiritual pressure \*BANG!\* those teachers were planted onto the ground, “Quiet.”

Then she said looking at Madeleine, “Continue.”

Madeleine nodded “Thanks to her bloodline she jumped the marrow transformation levels, that is why the big jump in cultivation. The next advancement shouldn’t have occurred until later because her body had to change and adapt to this new bloodline. However...”

Madeleine coughed and said, “Yasenia dual cultivated with a classmate, it seems that they...”

Madeleine looked at the four trembling elders doubtfully and asked, “Is something wrong, elders? There isn’t a prohibition in dual cultivation practices if they are consensual, right?”

The Elders thought ‘Dual cultivation is, of course, okay if it is consensual... That is If the person being bedded isn’t the lover of the Headmistress!!!’

They timidly raised their heads to look at Tatyana and they almost fell forward. Tatyana had a big smile on her face and was thinking, ‘As expected of my daughter she works hard and fast! Has she found more daughters-in-law?’

Madeleine looked at these reactions strangely and she heard Tatyana asking with a smile “Does she have more people around her?”

The trembling of the elders becomes more apparent ‘Please say no, say no, say no!’ “Yes.” The four of them just surrendered to their fate!

Madeleine said “She has confirmed a relationship with a senior called Andrea,”

Elder Irina started to cry! ‘My dear disciple you have the guts to steal the big bad guy’s precious daughter! I’m going to spank you until you cry!’

Meanwhile, Tatyana’s smile deepened!

Madeleine continued, “She also has an ambiguous relationship with her classmate named Cecile.”

This time it was Elder Ron who despaired, ‘Why did the person I wanted to pick as a disciple attack this demon’s daughter! Who has the guts to apprentice you like this!!’

Madeleine finished by saying “Oh, her current partner is Angel a very talented and sweet girl.”

Elder Linda looked at the floor as if it was the most interesting thing in the world ‘My future disciple, my future disciple, my future disciple...’

Madeleine finished by saying, “Right! She also has an ambiguous relationship with a new disciple called Evelyn.” It seems that Elder Frederick was the luckiest because Evelyn didn’t speak to him out of fear!

Madeleine was unaware that she just defeated three out of the four mighty elders! Truly a fearsome woman!

Tatyana started smiling happily and humming a tune. She didn’t even realize that it was her [Fate calling song] tune... This made the four elders almost piss their pants!!

Elder Irina couldn’t help herself and blurted while kneeling “Headmistress, don’t destroy the Academy!! Think clearly before acting!”

Tatyana looked at her strangely, “Why would I do that?”

Tatyana thought ‘I want to reward everyone involved! What is there to destroy? But apart from Madeleine and Mason, I don’t know who to reward...’

Tatyana didn’t have to worry because this was Madeleine’s current job! To destroy \*Cough\* To help pinpoint the people to be rewarded!

After thinking, Madeleine said, “Headmistress, If I don’t remember incorrectly Andrea is Elder Irina’s disciple, Angel is going to become Elder Linda’s in the future, and Cecile wanted to train under Elder Ron... Evelyn is learning Alchemy and I heard that she is wondering if trying to learn under Elder Frederick.”

The four Elders opened their eyes so frightened that if it was not for Tatyana being present, they would have beaten up Madeleine until she couldn’t recognize herself! Even Elder Frederick got shot while lying down!

They were about to protest, but Tatyana’s excited glowing red eyes landed on the four of them. All four of them were crying and cursing at the heavens for being unfair!

Tatyana spoke, “Good! All of you will take them under your care, however, don’t break the rules! If they aren’t qualified, they shouldn’t be taken in! They will gain what they can with their efforts.”

The Elders looked stupefied at the happily smiling Tatyana and doubted if they currently were in an illusion formation. ‘What happened? Where am I? Who am I? Why is our Headmistress happy!?’

Tatyana looked at Madeleine and said “About Yasenia... After you teach her everything you can, if she is qualified, I will take care of her, myself. By the way, did she have any problems?”

Madeleine didn’t understand, Tatyana said “I mean, was she bullied? From your description, she seems that she is quite a charming girl.”

Madeleine thought and nodded “Yes, but I took care of it... It was Carlos, the librarian.”

Tatyana didn’t want to give more hints of being overly concerned, so she just nodded and dismissed them.

When she was alone she spoke with a smile “Will she be surprised when she learns about my other identity?”

Then she looked towards the library which was more than 400km away and expanded her spiritual sense inside, she saw Carlos reading a book.

Her spiritual sense brutally invaded his soul and making use of the spiritual pressure inside she destroyed Carlos’ spiritualized Dantian!

Carlos felt like two hands opened his chest and then \*Bang!\* Something burst inside of him. He started bleeding from all orifices and died shortly after.

Tatyana used death energy and she made the body decay until only ashes were left. She dispersed the ashes on the wind and therefore, Carlos disappeared from the world silently.

Tatyana recovered her gaze and said with a smile thinking about Yasenia, “Since I can’t punish you one week on the bed because you got some daughters-in-law... I will reward you without letting you get up from bed for a week! Fufufu~ I’m so generous~”

Tatyana sighed, “A shame I can’t see her until she finishes the first excursion to the cloud layers... I don’t want to give her a sense of security... Hmmm, is someone playing with fate so that I can’t be with my little treasure sooner!?” (\*Author sweating buckets\*)

The days were passing fast and Yasenia was approaching her eight-level thanks to her dual cultivation with Angel and training in the cultivation grounds. With this pace, she will be able to breakthrough in another week, two days before the excursion.

Today was Yasenia’s date with Andrea! Yasenia told them that she wanted to dress up so they should wait at the entrance of the academy. She wanted to give them a surprise~

Angel, Andrea, Cecile, Evelyn, and other friends were speaking and waiting for Yasenia. This was the first time they will see her dressed up so they were excited. Even on her date with Angel Yasenia wore her typical cultivation robes. It was more a stroll than a date, so Angel didn’t want to dress up or anything.

Evelyn asked, “What do you think she will wear?”

Angel said “Maybe something red? She seems to like that color a lot.”

Cecile said with her deadpan expression “White is the best color.”

They looked at her blue eyes, lips, hair, and shoes. Then, their gaze scanned the white and blue dress she was wearing... They didn't know how to answer!

Oliver was also around with his friends and spoke, "Yasenia likes to wear charming colors, but sometimes she wears black and similar colors."

Then he laughed "To be honest, back at home she was always teasing the guards or our friends there wearing provoking clothes."

Andrea raised an eyebrow, she was simply wearing a white T-shirt with brown trousers that cinched her waist, "Friends at home?"

Oliver nodded "However, they were all normal mortals. We don't know why, but all the noble sons or daughters wouldn't play with us. They seemed more scared than anything..." (a sneeze sounded in the Headmistress room).

They were about to continue when the clicks of high heels sounded. The ten or so people, plus the people around turned in one direction and froze completely. Like their brain could only register that person walking towards them with her sashaying movements.
