

Heaven 44

Chapter 44

After the phantom night sky appeared, Yasenia opened her eyes, her irises were completely silver. Yasenia started to chant and her voice sounded like a whisper that came from everywhere and nowhere at the same time.

“With my [Celestial coat] I dance in a [Moonless night]” She was covered by the silvery-golden glow and she spun with her sword once. Her domain spread and thanks to the [Day and Night] skill, every one of Yasenia’s skills had their extra effects!

The 110 cultivators knew that they were in trouble so the melee ones charged towards Yasenia. Even when 70+ cultivators charged towards her Yasenia continued her chant.

“Within the [Starry sky] the [Crescent moon] appears.” The stars gathered in the phantom sky instead of around her and a crescent moon appeared. Then, she swung her sword horizontally and continued the spin to make a horizontal slash with her tail. Yasenia started spinning in place and 75m wide crescent attacks shot forwards extremely fast!

The group of cultivators defended *BANG!* a big group was sent flying backward by the first crescent, the second arrived. *BANG!* Some of the destabilized cultivators were cut in half! The third arrived, *BANG!* They summoned defensive skills stopping it successfully, however... *BANG!* *BANG!* *BANG!* *BANG!* They couldn’t advance!

The leader of the squad shouted, “Ranged attackers! Stop her barrage!”

The cultivators that stayed back used their skills and myriads of attacks shot towards Yasenia. Yasenia’s whisper spread around. “The [Crescent Moon] grows and becomes [Full Moon].”

Following Yasenia’s commands, the phantom crescent moon grew and became a full Moon. Yasenia then thrust her sword into the ground and a dome spread around her. All the attacks collided with the barrier and did nothing!

Yasenia looked up and they saw how Yasenia’s irises changed to half-silver half-golden color. Her words now resounded louder, “The [Waning Moon] disappears and [Dawn] Arrives.”

The phantom moon in the sky decreased and became a waning Moon, then the black sky started to gain bluish orange colors. Yasenia’s body and sword gained the chilling Moon attribute and she swung her sword vertically releasing a devastating energy wave. The melee fighters reinforced their defense *BOOM!* Only for them to be blown apart by [Dawn].

Yasenia then charged ahead while continuing her chant with a normal tone, “The [Starfalls] when [Sunrise] arrives.”

All the gathered stars in the sky fell towards the ranged cultivators! They tried to dodge but more than ten of them were killed by the rain of stars! The melee cultivators lowered their defenses and Yasenia dove inside their ranks like a tiger between sheep. With her now completely golden slit eyes she looked around dodging their ranged and melee attacks.

Her raising vertical slashes carried the energy of the sun dealing scorching damage. Moreover, the enhancement of [Wanning Moon] still didn't dissipate combining chilling and scorching energies!

They tried to attack her, but the relentless vertical attacks that erupted in vertical scorching crescents were too damaging to even get near her! The leader saw that this was lost and tried to use the jade, however the impossible happened. It didn't work! "How can it not work!?"

Yasenia looked towards him and smiled, then she retreated backward fast and aligned herself with most of the remaining ranged cultivators. Yasenia's voice was now loud and clear, imposing as the midday Sun! "When morning passes, and the sun is high up in the sky, It becomes [Noon]!"

While she spoke the sun in the phantom sky raised until it was above Yasenia. Yasenia pointed her giant sword towards the phantom sun and she emitted golden radiance.

Yasenia lowered her sword, aiming at the ranged cultivators, and an enormous sword-like beam was fired from her sword! The phantom sun also fired a circular beam. These two beams combined and disintegrated most of the ranged fighters! Only half of the cultivators remained alive!

Her tone was still imposing as her chant continued. "The sun starts falling and [Sunset] arrives!"

Yasenia charged towards the remaining ranged cultivators. They tried to dodge her or attack her, but Yasenia ignored the attacks tanking them with her [Celestial coat]. With the use of [Sunset]'s explosive falling strikes, she blew up all the ranged cultivators into fleshy bits very quickly.

The phantom sky began to darken again and Yasenia's voice rumbled across her entire domain. "With the end of [Dusk], night arrives again!"

Yasenia swung her sword horizontally once towards the melee cultivators that gathered to do their last stance. A destructive crescent of sun and moon energies loomed over the cultivators. All of them used defensive skills and managed to barely block the attack even when they are more than fifty cultivators!

Yasenia used her empowered body and jumped upwards above the melee cultivators. All of them gathered their energies preparing for her last attack!

While she was airborne, Yasenia made a circle below her with the tip of her sword creating a silver circle. She looked down with her now glowing silver eyes and roared, "MY ENEMIES LIVES END WITH [MIDNIGHT]!"

Yasenia started falling down sword first aiming at the center of that circle. All of the cultivators' skills shot towards her. Yasenia opened her charming lips one last time, her voice sounded like an enchanting whisper yet reaching everywhere inside the area. "[Falling sky]"

All the stars that gathered during the day cycle fell like rain destroying almost all their attacks and prepared defenses. When Yasenia passed the circle sword first, a silver radiance exploded and her speed increased several-fold like a falling silver meteor!

Her sword carried the weight of the Moon to the earth and... *BBOOOOOOM!!! * A giant silver explosion consumed everything around Yasenia's falling spot annihilating the remaining people and leaving no one alive!

Angel and the others looked at all of these events completely wide-eyed. Evelyn stuttered, "D-Didn't the last attack carry almost Unification realm cultivator strength!?"

The others swallowed their dry saliva. They went near the battlefield and took a deep breath Gustav said, "I-Is Yaseenia truly a Body Modification cultivator? This crater has at least 30 meters of depth!"

Angel jumped inside the crater and went towards the middle. She saw a completely naked Yaseenia standing with her sword buried in the cloud ground and still holding it. Angel was happy that she was unharmed.

Angel was about to speak when *RRRIIIIPPP* Yaseenia's skin split open everywhere, even on her tail and blood exploded from her wounds. Then, she fell forward. Angel shouted scared, "YASEENIA!".

Although she is extremely powerful in this form, these attacks aren't something a Body Modification realm should be able to do.

The aftershock of the [Midnight] attack empowered by her [Celestial coat] and her [Day and night cycle] was enormous. Her body couldn't maintain its aftereffects and energy of it, so her skin and scales ripped open.

After seeing that waterfall of blood all of them were completely frightened. Angel wanted to give her healing salves but Evelyn said with a trembling voice, "That isn't enough. Even if her blood regeneration is fast at this pace she will die of bloodloss before the pills heal her."

Angel despaired. Cecile suddenly remembered the unknown pill and took out the text that came out with it to read it. The text said, "The woman will be reborn, her skin immaculate, her Yin energy multiplied and body regeneration increased to maintain her body in perfect conditions. Her scent will be tantalizing and she won't need to eat because her body will feed on the pure energy of the world. Her body will never become muscular, and her womanly charms will increase. However, her physical strength will only increase."

Cecile without doubt took it out of her spatial ring and feed it to Yaseenia. The others, knowing that she won't harm her, let her feed it. They hastily took Yaseenia and left the battlefield.

They carried Yaseenia to the safer place they knew, the previous cave. They will wait for her to either recover or begin to worsen. If it is the second, they will use the teleporting jade even if they have to fall out of the violet class, they won't bet on Yaseenia's life!

After they reached the cave, Angel and Evelyn washed Yaseenia carefully and used ointments in the bandages. Then, they wrapped them around her.

A little the battle, inside the Academy, in the headmistress's office, Tatyana was playing with a jade. It was Yaseenia's life jade. It also represents her body, so it gets scratched from time to time and then heals depending on her injury degrees.

Tatyana smiled and said, "My little treasure is working hard~"

Suddenly the jade started to heat up a little and she frowned. "Someone made her very angry..."

After that, she saw the jade start to glow a little and opened her eyes "What an incredible amount of energy! Isn't her current level the eighth level? This amount of energy is worthy of middle to high level Mental Nourishing realm!"

She continued to watch curiously. And suddenly after a little while, The jade became dim and *CRRACCK!* Countless cracks appeared on it.

Tatyana's pupils shrank to dots and *BOOOM! * She launched herself destroying the office!

Tatyana was going at full speed towards the cloud layers and her aura was making the space tremble around her! Her voice was terrifyingly cold and it sounded completely malevolent, like a demon from the deepest abyss, "The one who injured you better be a junior, or I will make death become their last wish and enslave them for eternity!" Then, *CRASH!* She accelerated even more breaking space around her only with her speed!

Tatyana didn't care about heavy injuries, even if Yasenias lost an arm, or was beaten half-dead, her heart will hurt for her treasure, but she won't be this angry. Those injuries are a part of the road, she has received them, almost all cultivators have received them.

This time, however, the injury is almost crippling, a little more and Yasenias would have lost her cultivation! This was taboo for Tatyana.

Even if It is possible to start cultivating again after healing, those events always leave shadows in the cultivator's hearts. Becoming a mortal again after being able to destroy mountains...It is not something easy to take.

To put a comparison with modern terms is like suddenly becoming bankrupt and you also have a big debt to pay. Even if you regain your wealth in the future, that fear of losing it is ingrained in the bones and won't ever leave you. That is why Tatyana is so furious right now.

In the cloud layers, inside a cave, a group of six was resting. One of them had long green hair and rare golden eyes, her name was Alysa. This woman has always been envious. Moreover, thanks to her beautiful face, gentle features, when she smiled and spoke gently, she was extremely likable. This made people around her love her and always praise her.

Alysa's heart, however, was as black as coal. She couldn't help but want more strength, more beauty, more attention, more praise. Worse, she is extremely vengeful for the smallest things.

The reason that Alysa hates Yasenias so much besides her talent and beauty, is because she ruined her plans to kill Cecile! Alysa understands that some teachers know about her doings.

But, this type of thing, if done outside the academy grounds, won't have any repercussion. The Academy doesn't reward, nor punish this behavior. Of course, if Alysa did anything more than instigate people inside the Academy, expulsion or in the worst-case scenario, death would be her only outcome.

That is why she put so much effort this time, she sent more than 100 cultivators of similar levels to them. She wanted to get rid of Cecile, Angel, and Yasenias in one move. Moreover, because they have one teleportation jade, she had to first separate them, and then kill them.

She didn't even bother knowing the situation. She thought, 'It is a 130 vs 6, it is impossible not to win against them.'

However, to be sure, she picked the jade and listened through it. After a while, she didn't hear any voices. She thought with a sneer, 'They must have already finished and they are moving on their own. How many did Yasenias and the rest kill before dying?'

With that, she just put thoughts about it aside and continued the assessment.

In another cave, a group of five was attending a laying woman. The woman laying down didn't know whether to laugh or cry at their overly careful actions. She turned towards Cecile and asked, "Cecile, why did you give me that precious pill? It was perfect for you... You could have used normal healing pills. My body is strong..."

Yasenia's current voice was very weak, making the people beside her feel something clutching their hearts. Cecile shook her head, and with a gentle tone that even she didn't realize "Forget it, what use do I have for treasures if you die before I can tell you what I promised? Rest Yasenia, we are all worried about you."

Yasenia smiled and was about to speak when *Blergh* She vomited a mouthful of black substance. Then she felt her skin and insides start to freeze and she started using the cultivation technique.

However, it didn't work and her body was becoming colder by the second! She hastily rinsed her mouth and started cultivating.

Before they lost their heads because of panicking Yasenia spoke, "Relax, I just need to absorb this Yin energy... Absorb Yin energy?"

She had an epiphany! She started circulating her double cultivation technique and helping her own Yin absorb it with her Yang and it worked! However, this wasn't very different from masturbation.

Yasenia started moaning and becoming a little dazed, "*Moan* mmm, Aahn~"

They stood there petrified for a second. Gustav and Oliver felt something raise after hearing her heavenly voice and blushed. Angel reacted instantly taking out her shield and *Bang!* *Bang!* She sent Oliver and Gustav flying out of the cave, "Guard outside!"
