

Tales of Herding Gods

Chapter 1501: Sword Dao Piercing Through The Sky

"Calamity?"

Founding Emperor looked at Qin Mu and saw him raising his divine sword. He used the light shining down from Xuandu to examine the divine sword, and his heart couldn't help surging.

Who was the master of the boundless calamity?

Back then, during Founding Emperor Era, High Emperor Era, and Crimson Light Era, the ten Celestial Venerables had brought calamity and destruction down time again, turning the glorious golden age into ashes.

In those calamities, the emperors were shining brightly, the civilizations that were undergoing reform, finally declined and died. Even Founding Emperor Era was like a dream.

In the face of calamity, who could grab the oars that could ride the wind and break the waves, carrying all living beings to face the tribulation?

Founding Emperor didn't catch it.

Now, Qin Mu's divine sword was named Calamity. Did he see that the ten Celestial Venerables would descend calamity on Eternal Peace in the future?

Or was he going to send a calamity to the celestial heavens?

Maybe both.

The power of Calamity Sword was completely restrained. This sword looked ordinary from the outside and didn't have any complicated markings of the Dao. It also didn't have any extra decorations. It was like a beam of light in Qin Mu's hand, just that it had a blade and a tip.

However, everyone who participated in this sword forging knew how terrifying this sword was.

When this sword was forged successfully, it required the four deities of the ancient gods, Founding Emperor, and the rest to temper and suppress it. When the sword was forged, its power would reach beyond the heavens!

The Calamity Sword shook the heavens and the stars with a flick of the finger.

The treasure of a Celestial Venerable didn't have such a huge commotion.

Qin Mu held onto the sword and thought about it. He casually made a wooden sheath and placed the Calamity Sword into it.

There was already no sheath that was worthy of this divine sword. If the sword might was completely unleashed, even the best sheath in the world wouldn't be able to withstand it. Therefore, it was better to save some trouble and use the plainest and most ordinary sheath to cover the divine sword's sharpness.

"Back then, you used the sword to convince me to leave Carefree Village. After that, you abandoned the sword and changed to using divine arts."

Founding Emperor walked in front of Qin Mu and said, "Now pick up the sword and don't let it down again."

Qin Mu nodded his head and said, "My sword isn't purely Sword Dao. I use my sword to kill people."

'Divine arts aren't used to kill people? If I follow the Dao and guard the justice in my heart, I won't deviate from my original heart and won't go against my original intentions. In that case, what's wrong with turning the sword in my hand into a sword of killing?'

Founding Emperor walked away and said indifferently, "Celestial Venerable Mu, you are a genius in the sword path, but you didn't notice this. You felt that the path of divine arts was incompatible with the sword path, but you didn't expect that the sword path divine arts are divine arts, and divine arts are divine arts. They can be interlinked."

Qin Mu's mind was blown, and he froze there.

Founding Emperor's words suddenly opened a door for him, and he couldn't help becoming excited!

Divine arts and sword path were compatible. This was the simplest principle, yet it was a principle he had never thought of!

In the past, he had comprehended divine arts and reached the twenty-three heavens of entering the path. He had put in a lot of effort in divine arts and comprehended all kinds of Great Daos, but he had slacked off on the sword path.

Because of Cripple's death, his heart of slaughter moved, and he changed his path of the sword. However, he also knew that his path of the sword had only reached the third heaven, so it was incomparably difficult for him to take another step forward.

However, with Founding Emperor's guidance, he saw an incomparably vast possibility, and that was to merge the divine arts, path, and sword path!

Suddenly, he couldn't help but jump up and step into the void. He pulled out the Calamity Sword, and sword light scattered. The sword path and the path of divine arts actually merged together just like that!

In his hand, sword light scattered, and he executed the four mudras of heaven and earth. They transformed into a circle of heaven and earth, forming emotions in the Calamity Sword. His divine art entered the path and fused perfectly with the sword path, and its power was actually so powerful!

His sword skill changed and transformed back into the Black Gate of Heaven and Earth. Sword lights crisscrossed, and a Heaven Gate Heaven Influence connected heaven and earth!

The sword light in his hand scattered, and he stabbed out a celestial river. The four poles of heaven and earth appeared, and he used the sword path to write and paint. The four deities of Green Dragon, White Tiger, Vermillion Bird, and Black Tortoise stood upright on the four poles of the celestial river.

He executed the moves one after another to express his thoughts, unable to hide his excitement.

Founding Emperor walked out of Heavenly Yin World. Yan Yunxi and Li Youran walked over and followed behind him. Founding Emperor looked back and saw Sword Dao floating in the sky, looking dazzling.

Over there, Qin Mu had transformed his knowledge into Sword Dao and advanced by leaps and bounds. His Sword Dao had improved by leaps and bounds, and he couldn't help exclaiming in admiration.

"The sword path of the Qin family is imprinted in their bones."

He revealed a smile and turned around to continue forward. At this moment, an elder blocked his path. That elder was timid and cowered, not daring to look straight at him.

"Human Emperor Su Muzhe."

Founding Emperor stopped and examined this elder. He saw Village Chief Su Muzhe's gaze avoiding his, and he didn't dare to look him in the eye. Founding Emperor said, "Stop me. You want to break the god in your heart, but you don't dare to attack."

Yan Yunxi and Li Youran stopped and looked at Village Chief.

Village Chief's hand slowly grabbed the sword at his waist, but it was trembling. It didn't look like he was holding a sword.

The hand holding the sword was like Founding Emperor, incomparably steady.

This was because the hand of a strong practitioner of the sword path reflected the cultivation of his Dao heart. The hand that held the sword had to be as steady as his Dao heart, calm and collected. One sword to stabilize mountains and rivers, one sword to conquer the world, all of these required attainments in the Dao heart.

Village Chief Su Muzhe was the second person to comprehend the Sword Domain. His attainments in the sword path were extremely high, and it could be said that he was the reason why so many experts in the sword path had appeared in Eternal Peace. It was because of his careful guidance and grooming that the sword path of Eternal Peace could advance so rapidly.

However, after comprehending the Sword Domain, it was difficult for him to take another step forward. He couldn't even advance his cultivation realm!

That was because his sword path cultivation was simply too high. It was so high that when he used his sword path, he could see an incomparably strong

giant standing in front of him. It was like a peak that couldn't be climbed or surpassed!

That person was Founding Emperor Qin Ye!

Founding Emperor Qin Ye was the number one person on the sword path, and his sword path was imprinted into the thirty-five voids. Anyone who stepped into the sword path and comprehended the sword realm would see his back and feel the profound power and cultivation of the sword path. They would feel as if they were looking up at a tall mountain!

Founding Emperor was practically the god in the hearts of all strong practitioners of the sword path, a god that couldn't be broken. Especially to Village Chief Su Muzhe, this god was even more suffocating.

"You want to make a move and break the god in your heart, but you don't dare to make a move because you feel that as long as you make a move, any sword move will be wrong."

Founding Emperor looked at Village Chief's hand, which was still trembling. He still couldn't hold his sword, so he said solemnly, "However, have you ever thought that Celestial Venerable Mu wasn't taught by me? His Sword Dao was taught by you, and you are his teacher. In his heart, there's no god in his heart. His Sword Dao isn't blocked by a god like me."

Village Chief Su Muzhe's voice was hoarse and aged as he hissed, "His Sword Dao hasn't been cultivated to a profound realm, so it's hard for him to see a great god like you blocking his way..."

"Wrong!"

Founding Emperor's gaze landed on his face and looked straight into his eyes. "His Sword Dao has already reached the twenty-ninth heaven."

Village Chief was astonished and raised his head to look at the sky. He saw Qin Mu's boundless sword path transforming into the Primordial Chaos Qi, executing the great divine art of One Qi Primordial Chaos Travelling Together!

That was not only Qin Mu's understanding of the Great Dao, but also his understanding of divine arts and sword path!

The twenty-ninth heaven of the Sword Dao was executed in Qin Mu's hands just like that. Using the Sword Dao to expound on the Dao of Absolute Beginning was actually so perfect and harmonious!

"This kind of sword path genius was taught by you. You groomed him, so I can't teach him."

Founding Emperor's palm pressed down on the hilt of Carefree Sword, and he said solemnly, "You can teach such a peerless disciple, but you don't even dare to use your sword in front of me? You were the one who told him he was an Overlord Body, and you were the one who nurtured his invincible confidence. You were the one who taught him how to conduct himself and do things. He doesn't have a god in his heart, so that's how you nurtured him. Can't a teacher like you do it? Draw your sword!"

Village Chief's eyes became brighter, and his palm became more stable.

Suddenly, with a clang, his divine sword was unsheathed, and sword light filled the sky!

Founding Emperor's Carefree Sword was unsheathed, and the sword lights collided. The two figures charged at each other and crossed each other.

Founding Emperor stopped in his tracks. Behind him, Village Chief Su Muzhe had white hair. He sheathed his sword and stood there steadily.

Chi! Chi! Chi!

Thousands of sword wounds opened up on Village Chief's body, and his vigorous qi and blood burst open these wounds, making it hard to suppress them.

He revealed a smile, and his body swayed as he suddenly fell to the ground.

Founding Emperor placed Carefree Sword back into its sheath, and a strand of hair slowly floated down from his sideburns. He turned his head back and said, "Su Muzhe, you have walked out of my shadow. You can now be a Dao friend of my Sword Dao."

Village Chief's lungs were injured by his sword, and he was gasping for breath like broken bellows. However, he was laughing very happily and rolling around in the blood like a child while hugging his divine sword.

Founding Emperor shook his head and walked out of Heavenly Yin World.

Yan Yunxi and Sakra hurriedly followed him. Yan Yunxi whispered, "Did His Majesty give in to him? With his abilities, he shouldn't be able to cut off your hair."

Founding Emperor shook his head and said indifferently, "I gave in to him in cultivation, but not in Sword Dao. Sword Dao is the path of attack, so he has the ability to sever a strand of my hair."

His expression was calm as he said, "I don't want to become one of the ten Celestial Venerables of the sword path. I don't want to now, and I don't want to think about the future either."

"The ten Celestial Venerables of the sword path?"

Yan Yunxi was stunned. She understood what he meant. Wasn't it the ten Celestial Venerables who imprisoned the later generations, seized power, resources, and controlled everything, preventing the later generations from surpassing him?

Yan Yunxi couldn't tell if Founding Emperor had made Village Chief Su Muzhe make a move. No matter if it was Founding Emperor or Village Chief, their attainments in the Sword Dao far surpassed hers.

However, she could feel Founding Emperor's state of mind, the state of mind of a person who had achieved the path.

This realm was something the ten Celestial Venerables couldn't reach.

Sakra Buddha Li Youran turned his head back to look at Heavenly Yin World. In Heavenly Yin World's Dao Fire Ancestral Land, a majestic figure stood among the layers of Dao flames. His Dao Realm was becoming deeper.

He could feel the path of forging continuously advancing and improving.

He was no alone on his path.

There were people who surpassed him, but there was boundless joy in his heart.

Chapter 1502: Going To Jade Capital Alone

Qin Mu put away his sword and descended. He thanked the four deities who had come to help him one by one. When he thanked East Deity Qing Long, East Deity smiled and said, "Celestial Venerable Mu, you owe me a favor. Without my qi and blood to help you, you won't be able to refine this sword. The power of this treasure sword of yours surpasses that of a Celestial Venerable's treasure. This favor is too big. In the future, you have to return me a favor."

Qin Mu acknowledged and asked, "Do you want an IOU?"

East Deity was about to agree when Goddess of Heavenly Yin tugged at him secretly and said in a low voice, "Don't take it! The last person who asked him for an IOU was Celestial Venerable Hong. I personally saw Celestial Venerable Hong unable to take out the IOU, so he refused to admit it and killed Celestial Venerable Hong, causing his soul to scatter!"

East Deity Qing Long shuddered and forced a smile. "Celestial Venerable, just remember it in your heart. As for the IOU, forget it."

Qin Mu sighed. "That's a pity."

East Deity didn't know what he meant. He bade farewell and left.

Qin Mu saw him off and felt pity in his heart. 'If only I could write an IOU for him. If he can't take it out in the future, I can deny him. We do things according to the rules. However, if I don't write an IOU, it won't be good for me to not return him a favor when he makes a ruckus. I have always paid attention to promises...'

He expressed his thanks to Black Tortoise and Deity Xuan. Deity Xuan smiled and said, "We had an agreement with you long ago, Great Wizard. We should have come to your aid, so why are you thanking us? Us husband and wife have never thanked you for taking care of my son."

Qin Mu said solemnly, "All these years, the Glassy Sky Pagoda has been in my hands. I took it without telling anyone, and I feel sorry for you and your wife."

Deity Wu said with a smile, "A man's wealth is his fault. Celestial Venerable took away the Green Sky Pagoda to defend my son."

The couple left together.

Qin Mu came to the front of West Deity White Tiger and said with a smile, "Sister blew the horn just now to activate East Deity's qi and blood. This is indeed a stroke of genius."

West Deity chuckled. "That East Deity is a petty person. I don't know how Sister South Deity was blind to fall in love with him. I only helped you because he didn't contribute much. You don't have to thank me. You saved me last time!"

She transformed into a beam of golden light and vanished without a trace.

Qin Mu greeted all the Heavenly Workers, formation masters, and sword masters that had come to assist him. Tens of thousands of people returned the greeting, and the person in the lead was Yuyuan Chuyu. He said with a smile, "Imperial Preceptor, we have also benefited greatly from refining the sword for you. If our sword path can improve in the future, it will definitely be the result of this sword refinement!"

They left one after another.

Qin Mu saw Jiang Baigui and Emperor Yanfeng getting up to leave as well. He said, "Your Majesty, Junior Brother, after you go to the Jade Pavilion, go to the Heavenly Sea first and comprehend the heaven's heart in the Heavenly Sea. As for the God Execution Stage, it's in Heavenly Lady Qiang's hands. She took it away, and even Founding Emperor didn't manage to get on it. Don't be impatient, let me think of a solution."

Jiang Baigui said, "Senior Brother, aren't you going to cultivate the Precelestial Postcelestial Technique that Teacher Woodcutter imparted to you? This kind of technique is the most likely to cultivate to the Great Celestial Heavens Realm."

Qin Mu hesitated for a moment. He was very curious about the cultivation method of Saint Woodcutter's seventy-two throne halls and thirty-six celestial palaces, and he also wanted to cultivate it.

However, cultivating this kind of technique required a lot of time and energy. Otherwise, Jiang Baigui wouldn't still be at the Jade Pool Realm.

Saint Woodcutter cultivated three hundred and sixty celestial palaces and three hundred and sixty kinds of Postcelestial Great Daos, so he spent even more time.

With his lifetime of wisdom, he might not even be able to cultivate Heavenly Heart, let alone God Execution Stage.

Jiang Baigui saw that he didn't want to learn and didn't force him. He immediately left with Emperor Yanfeng.

Qin Mu sent King Yama off and bade farewell to South Deity. "Sister, I need to borrow Dao Fire Ancestral Land for some time."

South Deity said, "Feel free to take it. This land is no longer mine."

Qin Mu was slightly stunned. South Deity smiled and said, "I died once and got rid of my connection with the Dao Fire Ancestral Land. This ancestral land was taken away by Celestial Venerable Huo and by Celestial Venerable Yue. Now that it's in your hands and refined by Heavenly Works, it has long been unrelated to me. It wasn't easy for me to get rid of my identity as an ancient god, so how could I fall in love with my old residence?"

She had always been a generous and straightforward person. Now that she was back from the dead, she was more open-minded than before.

Qin Mu laughed and said, "Big sister is still the carefree one. Since big sister abandoned the Fire Ancestor Land like a pair of worn-out shoes, why must you take back your soul?"

South Deity Zhu Que's face sank, and she said indifferently, "Bai Yujing said she's not me, but she's still me. Brother Mu, even though you're the Invincible Great Wizard and can revive souls, you can't see the connection between my soul and heaven. After I revive, I can clearly sense the other me and Bai Yujing. She can also sense me. I have a feeling that we will be one again in the future."

She put on a smile and said, "Brother Mu, as South Deity Vermillion Bird, I've only lived for one lifetime, and this is my second. As Bai Yujing, she's two lifetimes away from two hundred lifetimes. When we return to being one, I'll be

both South Deity and Bai Yujing. When that time comes, we'll recall the calamity we experienced in these two hundred lifetimes, and our Dao hearts will be perfect. We'll probably smile."

Qin Mu thought about it and didn't force her. He said to Yan'er, "Take care of your mother. Also, don't feed her too much, she's already fat."

South Deity was angry and pretended to hit him. Qin Mu laughed and dodged.

He bade farewell to South Deity and Goddess of Heavenly Yin and brought Dao Fire Ancestral Land to leave Heavenly Yin World with Blind, Granny Si, and Prince You Ming to return to the ancestral court.

Meanwhile, Mute was still in Dao Fire Ancestral Land, still standing there, comprehending the Dao.

The creation of heavenly works and the formation of Great Dao. Perhaps refining the sword for Qin Mu this time would allow Mute to enter a completely new realm in the path of forging, deducing the Postcelestial Great Dao of forging to an unprecedented height.

"Mu'er, aren't you going back to the sacred mountain?"

When they reached the hundred thousand sacred mountains of the ancestral court, Qin Mu handed the Dao fire ancestral land to Granny Si. Granny Si couldn't help frowning and guessed his thoughts. She asked, "You plan to go to Jade Capital City?"

Qin Mu nodded his head and said, "Tai Yi fell into the Jade Capital City and asked me to follow the map to save him. However, I still don't understand what he meant by following the map. I need to go to the ancestral court personally to check it out. Furthermore, I also want to see with my own eyes the relationship between Jade Capital City and Jade Capital Realm. If I don't see it with my own eyes, I won't be at ease."

He paused for a moment and explained to them, "I have already cultivated to the Nine Hells Stage. If I continue cultivating, I will have to step into the Jade Capital Trap! Otherwise, I will never be able to catch up to the ten Celestial Venerables in terms of magic power. Even if I cultivate to the thirty-six heavens of the Dao Realm, my magic power won't be stronger than the ten Celestial Venerables. I have to go to the Jade Capital."

Granny Si was slightly worried and said, "If you leave the ancestral land of the Dao fire on the sacred mountain, what if Celestial Venerable Huo comes out of the Jade Capital City and comes to seize it?"

Qin Mu smiled and said softly, "Don't worry granny. If I meet him in the Jade Capital City, I will make him realize that the Dao Fire of Ancestral Court doesn't belong to him anymore. The black mountain of the ancestral court is also a forbidden ground that he can't enter."

His words revealed incomparably strong confidence, as if he had returned to the past him.

"In that case, you should be carrying the Tai Yi walking stick, right?"

Granny Si stuffed the Tai Yi Crutch into his hand and said, "Even though you have the Calamity Sword, Tai Yi's walking stick is a Dao weapon of a Dao practitioner after all. There's no harm in carrying it."

Qin Mu thought about it and put away his walking stick. He waved his hand and watched Granny Si and the rest walk into the sacred mountain and towards the World Tree. He thought to himself, 'Granny Si, I won't let Grandpa Cripple's incident reappear on you guys. I've already grown up. You guys protected me in the past, so now it's my turn to protect you guys.'

His cape fluttered, and he turned to leave.

"Junior Brother!"

Wei Suifeng flew over and raised a huge cauldron. He shouted, "Junior Brother, wait for me!"

Qin Mu stopped and frowned. "Big senior brother, I can't bring you along. Jade Capital City is too dangerous, I can't split my attention to protect you..."

"Pui, pui!"

Wei Suifeng was flustered and exasperated. He said angrily, "I'm the great Emperor of Endless Clouds, and I've ruled for over a million years. Do I need your protection? I mean, I've been to Jade Capital City and followed Tai Yi through the sixteen chaos rivers. I even left behind a geographical map. If you go there, you can save a lot of trouble with this map."

Qin Mu gave his thanks.

Wei Suifeng placed the huge cauldron down, and the star sand in the cauldron flew up to form a geographical map of Jade Capital City.

However, this geographical map only marked the places that Wei Suifeng and Shu Jun had passed by. The places that they hadn't passed were still blank.

Qin Mu looked at it carefully and memorized it in his heart.

Right at this moment, the star sand suddenly changed and revealed another geographical map. This geographical map was completely different from the previous one. It had thousands of paths and was incomparably complicated.

Qin Mu was astonished and looked at the geographical map in detail. He had never seen the geography of this map before!

He looked at Wei Suifeng, and Wei Suifeng was also at a loss. He muttered, "This isn't a geographical map drawn by my divine art... That's right! Tai Yi once said that he saw the geographical map I left outside the city, and only then did he know where Shu Jun and I were. That's why he was able to find us! Could it be that Tai Yi knew he might never return, so he tampered with my cauldron and used my cauldron to record his footsteps?"

"That's possible."

Qin Mu memorized it carefully and said, "Dao Brother Tai Yi said to follow the map to save him, so this map must be related to him. Is this map the geographical map of Jade Capital City?"

He compared it with Wei Suifeng's geographical map and saw that there were no similarities between the two. It was obvious that the geographical map left behind by Tai Yi wasn't the Jade Capital City.

Wei Suifeng took out two more mirrors and said, "Shu Jun and I have been to the Miro Palace in the deepest part of the Jade Capital. On the wall of the palace, we have imprinted a Dao marking of the master of Miro Palace. Take a look on the way, and you will understand him."

Qin Mu put away the two mirrors and examined them. His expression changed drastically.

Wei Suifeng hesitated for a moment and finally made up his mind. He turned to leave and shook his head. "Even though I really want to go with you and enter Jade Capital City again, after thinking about it, I might really drag you down. That damned place is too dangerous..."

Qin Mu shouted, "Senior brother, cultivate hard!"

"I know!" Wei Suifeng waved his hand angrily.

Qin Mu laughed and executed Overlord Body Three Elixir Technique. He focused on carrying the Extreme Celestial Palace and crossed thousands of mountains and rivers in a single step, rushing towards the Jade Capital City of the ancestral court.

A day later, he finally arrived at the Jade Capital City of the ancestral court. He stopped outside the city and looked inside.

At this moment, the entire ancient god city was completely revealed. It was majestic, magnificent, ancient, and dilapidated. This god city gave people a feeling that it was both real and unreal. It was as if it was standing in the depths of ancient time and space and wasn't in this universe.

It also felt like he had descended into this universe and was exuding a feeling of suppressing all Great Daos in the world.

The heavy aura of death surrounding it and the city gave Qin Mu an extremely uncomfortable feeling. It was as if the city was still shrouded in the great calamity of the universe's destruction and couldn't escape.

It was as if as long as one entered the city, they would be bound by the great calamity of destruction, and it was extremely dangerous.

Qin Mu composed himself and walked into the city with the sword sheath in his left hand.

Chapter 1503: 72 Halls Of The Jade Capital

The moment he entered the city, Qin Mu instantly felt that his lifespan that was originally as long as heaven and earth had come to an end.

Divine arts practitioners who had cultivated to the Life and Death Realm could already feel when their lifespans were running out. However, after cultivating to the god realm, the gods would feel that their lifespans were endless, as long as heaven and earth.

However, this Jade Capital City was probably due to the great calamity of destruction, which caused the Great Dao to have an end to its lifespan. Thus, martial cultivators also had an end to their lifespan.

Qin Mu muttered to himself and executed Overlord Body Three Elixir Technique. His vital qi flowed through the World Tree, and the feeling of having an end to his lifespan immediately vanished.

The World Tree was like an unchanging substance that pierced through the universe. No matter how many universes were destroyed and born, the World Tree never changed. Even though Qin Mu's World Tree was only a sapling and wasn't strong, it still had a trait in this area.

In addition, the aura of the calamity in Jade Capital City wasn't too strong, so he didn't really step into it. Thus, the World Tree in his divine treasures could block it.

Of course, if it was a true great calamity of destruction, the sprout of the World Tree wouldn't be able to withstand it. This sprout was still young.

Qin Mu walked into the city and carefully avoided some dangerous places. The cold wind and the heat wind here were the strangest. The temperature of the heat wind was enough to melt the Dao chains and domains of the Great Dao, while the cold wind froze everything and broke the Dao chains. All divine arts were useless and were extremely dangerous.

"This cold wind is like the ultimate void..."

Qin Mu stood under a withered Dao Tree and observed the cold and lonely wind blowing around the Dao Tree. He was astonished.

The cold wind was somewhat similar to his Great Overarching Heavenly Completion, but it was even more powerful.

He caught up to the tail of the cold wind and carefully followed it. He observed it carefully and tried to figure out the marvel it contained. After an unknown period of time, the cold wind tunneled into a patch of primordial qi.

Qin Mu suddenly raised his head and looked around. Only then did he realize that he had already deviated from Wei Suifeng's geographical map. He didn't know where he had run to.

This place was even more dilapidated. Withered Dao trees were everywhere, and Dao trees formed forests. There were also withered Dao fruits hanging on the trees, and some of them even fell under the trees.

On the ground were withered Dao Tree leaves and branches. When one stepped on them, the branches would break and the leaves would rustle.

He stepped on something hard and pushed aside the dead leaves. Under the leaves was a skeleton.

This should be the skeleton of a person who had achieved the Dao. He didn't know why he had died here.

"In the great calamity of the universe's destruction, those who achieve the Dao are also ants."

Qin Mu looked around and suddenly raised his hand. Withered leaves filled the sky and flew off the ground.

In the withered Dao forest, corpses of those who had achieved the Dao were everywhere. It was a shocking sight!

Qin Mu raised his eyebrows and checked them one by one. After a moment, he let out a shaky breath.

These people who achieved the Dao didn't die naturally, but were killed!

Every skeleton had all kinds of wounds caused by sharp weapons!

"Who killed you?"

He stopped in front of a skeleton and knocked on it, trying to awaken it. The skeleton didn't move, and there was no spirit in it.

He stood up and examined his surroundings with a frown. This withered forest was like a burial mound, burying two to three hundred accomplished Daoists!

"Does the Dao achieving experts in Jade Capital City also have a grudge? Could they be killing each other here?"

He was about to put down the dead leaves and branches when his eyes suddenly lit up. He quickly walked into the forest and saw a deep well in the withered forest. It was originally buried by the dead leaves and branches, but now it was revealed.

Qin Mu came to the side of the well and looked into it. He saw that it was filled with chaos and was immeasurably deep.

"What is this well used for?"

Just as he was thinking about it, he saw the chaos qi in the well churning. Something was crawling out from the well.

He opened up the eye in the heart of his brows and took a closer look. He saw a huge creature climbing up the wall of the well with its four limbs. He looked at it for a moment, and only then did he see that it was a strange creature and not a huge creature like he had imagined.

That strange creature was carrying a Dao Tree on its back, and it was trying its best to climb up the wall of the well, trying to climb out.

However, he was surrounded by the ripples of the great calamity of destruction which struck him down time again. His corporeal body was also obliterated until only his bones were left, but he still continued to crawl out with perseverance.

Qin Mu looked at it for a long time, but that person who had achieved the Dao couldn't crawl out of the well.

Qin Mu pulled out his sword and stabbed over a hundred times around the mouth of the well before floating away.

A few days later, a broken Dao Tree emerged from the well. The Dao practitioners in the well had almost lost their magic power from the destruction of the great calamity, and the Great Dao they had cultivated was also mostly obliterated.

However, the mouth of the well was right in front of him!

This chaos well was the universe he was in. Countless experts had exhausted all their wisdom to gather the chaos qi, opening up a passage that led to the Miluo Palace!

As long as he climbed out, as long as he climbed into the Jade Capital City, he could borrow the power of the master of Miluo Palace to avoid the calamity. In the future, he would have a place in the new universe!

Even if his own cultivation was completely wiped out, even if his corporeal body was completely destroyed, as long as he kept the Dao fruits and the Dao Tree, he could make a comeback!

He climbed up the wall of the well and raised his Dao Tree with all his might, letting it rise up first.

Right at this moment, the sword light at the well's mouth suddenly flashed. That cultivator raised his head and saw that the sword light contained incomparably terrifying power that stabbed into his Dao Tree!

That person who had become a Daoist was already reduced to a skeleton. If it was in the past, he could easily block these sword lights, but now, he could only look on helplessly as the sword lights stabbed into his Dao fruit!

"Who schemed against my Heavenly Lord Fu De?"

He only had time to roar when his Dao Fruit was sliced off by the sword lights. It fell off the Dao Tree and into the chaotic qi in the well before being swallowed by the great calamity.

The Dao fruit was obliterated, and the person who had achieved the Dao lost all his strength. He fell from the wall of the well and fell into the calamity along with the Dao Tree.

'That chaos well is a little strange. The bottom of the well should be connected to the previous universe. Strange, shouldn't that person who had achieved the Dao enter Jade Capital City to avoid the great calamity of destruction? Why did he have to create a well to sneak into Jade Capital City?'

Qin Mu came to the front of a great hall and pondered over it. "The Dao forest outside the well is also filled with some dead Dao achievers. Could they have also secretly crossed over from that well? In that case, who killed them? Could it be the Dao achievers of Jade Capital City?"

He looked at the hall and stopped letting his imagination run wild.

This hall gave him a feeling that it wasn't inferior to the Hall of Fragrance. It should be an extremely important divine hall in Jade Capital City. There was a Dao Tree in front of the divine hall that had been chopped down by someone. There were also traces of battle here.

Based on the traces, there should have been a fierce battle half a year ago that resulted in the Dao Tree being chopped.

He examined them in detail and saw Celestial Venerable Hao's divine art. Other than that, there were also traces of Celestial Venerable Huo, Ancestral God King, and other Celestial Venerables' divine art.

"They came here and encountered a strange incident. They fought with each other and chopped down the other party's Dao Tree."

Qin Mu circled around the Dao Tree and walked into the hall. The interior of the hall was imprinted with different runes and Dao markings, and they were extremely complicated. He checked them one by one and suddenly noticed a few praying mats, as well as the auras of Celestial Venerable Hao, Celestial Venerable Huo, and the rest.

"After they came here, they stopped here to comprehend the Great Dao hidden in this hall."

Qin Mu was astonished. Hao, Huo, Zu, Gong, and the other Celestial Venerables were all highly intelligent people. The reason they had been delayed in Jade Capital City for so long wasn't because they were trapped here, but because they had discovered the secret of Jade Capital City!

They were using their wisdom to comprehend the Great Dao of Jade Capital City to perfect their Jade Capital City!

In the past, Qin Mu had also thought that Jade Capital was the same realm as the Four Heavenly Gates, Jade Pavilion, God Execution Stage, and other realms. It was also a natural Dao land formed by the ancestral court that contained the knowledge of the Great Dao. It could comprehend even more Dao marvels from Jade Capital City, allowing his cultivation to advance by leaps and bounds.

However, now that he knew about the Jade Capital Trap, he no longer thought that way.

This Jade Capital City was a man-made sacred ground created by the master of Miluo Palace and other prehistoric Daoists!

Their goal was to use the gods of the later generations to cultivate and comprehend their Jade Capital City, helping them break free from the disaster as soon as possible!

The stronger the people who cultivated the Jade Capital City, the more stable their Jade Capital City would be. The more likely they would be able to completely escape the calamity of destruction, allowing this resplendent divine city to descend from the destruction of the universe to the ancestral court!

The Jade Capital City hadn't completely descended into the ancestral court yet. The people who had achieved the Dao in the city were either dead or injured. Qin Mu didn't see any living people who had achieved the Dao along the way. At most, they were Dao trees and withered Dao fruits.

However, if one of the ten Celestial Venerables comprehended the Jade Capital and cultivated it to the Dao Realm, the situation would be different.

The Jade Capital City in the god's celestial palace was borrowing power from the true Jade Capital City of the ancestral court!

The cultivation system of the celestial palace focused on power and not on the realm of the path. The root cause of this was probably the Jade Capital City of the ancestral court.

Previously, the Celestial Venerable, Southern Heavenly Gate, Jade Pool, and God Execution Stage were all borrowing power from the celestial heavens. At that time, the disadvantage wasn't huge, and the Jade Capital Realm was borrowing power from the Jade Capital!

Since it was borrowing strength, he would have to pay it back in the future!

After returning the Jade Capital City to the Jade Capital City of the ancestral court as a Daoist, the weakening of a person's abilities was a small matter. The Jade Capital City could become even more stable and possess even stronger power to resist the calamity!

Furthermore, there might even be a prehistoric Daoist that could escape the calamity and enter the present universe from the prehistoric universe!

The actions of the ten Celestial Venerables were like asking a tiger for its skin. They were helping the villain do evil and benefiting others!

Qin Mu pressed down on the hilt of his sword and couldn't resist the urge to pull out his sword to shatter the Dao markings in the hall. However, he forced himself to endure it.

Celestial Venerable Hao and the rest had already come here and comprehended the secrets of the Great Dao contained in this hall. Even if Qin Mu could chop and follow these Dao markings, it wouldn't be of much use.

Furthermore, the Dao markings in this divine hall were indeed exquisite and profound. They contained extremely deep truths and weren't simply borrowing power.

Qin Mu composed himself and sat down. He also quietly comprehended the Dao markings on the shrine and comprehended the marvel within.

He had to comprehend the marvel within. As for cultivating or not cultivating, he could only make a decision after he explored Jade Capital City.

After a moment, Qin Mu entered his dream safely, and dream realms opened up one after another. Countless tiny Qin Mus flew out and wandered around the four walls of the shrine while shouting and calculating the marvel of these runes.

After a dozen days, Qin Mu put away the dream realm and walked out of the hall.

He followed the path that Celestial Venerable Hao and the rest had taken and continued forward. Not long later, he encountered another treasure hall.

"Could there be seventy-two throne halls here?"

Qin Mu's heart trembled. 'If it's the 72 throne halls, doesn't that correspond to the 72 halls of the celestial heavens? In that case, what Celestial Venerable Hao and the rest want to complete isn't the Jade Capital Realm... It's the 36 celestial palaces and 72 throne halls. What they want to complete is the Great Celestial Heavens! This kind of technique was created by Saint Woodcutter, so who guided Celestial Venerable Hao to cultivate like this?'

He had a grim expression. If Celestial Venerable Hao had thought of it himself, Celestial Venerable Hao's wisdom and comprehension would have to be reevaluated!

If Celestial Venerable Hao hadn't comprehended it himself, who had guided him?

'Woodcutter and Junior Brother Jiang Baigui can't possibly guide him. Tai Su doesn't have such wisdom. The person behind Celestial Venerable Hao is definitely not Tai Su, but someone else!'

'The wisdom of this person isn't inferior to that of Teacher Woodcutter. However, in today's world, other than Teacher Woodcutter, there's no other wise person like him. Unless... unless he comes from the previous universe! A person who has transmigrated!'

His expression was grim, and Celestial Venerable Hao's figure appeared in his mind. Behind Celestial Venerable Hao's figure was a huge shadow that shrouded him.

"Tai Su is a little sheep that has fallen into the wolf's mouth. She's dead meat!"

Chapter 1504: Life Struggle

Qin Mu walked forward along the palaces of these people who had achieved the Dao. Every time he came across a palace, he would stop to comprehend the marvel of the Great Dao contained in these treasured halls. His gains were plentiful.

Compared to Woodcutter's thirty-six celestial palaces and the seventy-two throne halls' Great Celestial Heavens technique, the throne halls in the Ancestral Court Jade Capital City didn't walk the path of the path of the Precelestial Dao, but the path of the Precelestial Dao.

'If Teacher Woodcutter's method can work, he might be able to escape from the master of Miluo Palace.'

Qin Mu muttered to himself irresolutely. Woodcutter's method, the seventy-two throne halls were the path of precelestial while the thirty-six celestial palaces

were the path of postcelestial. By protecting the postcelestial, one could cultivate to the true Celestial Heavens Realm and achieve a stable foundation.

The difference between the two seemed to be only thirty-six celestial palaces, but there was a fundamental difference. Woodcutter's method was to lead the path of heaven in the future, while the path of nature was only to assist.

Woodcutter didn't cultivate this kind of technique and imparted it to Jiang Baigui.

Back then, when Supreme Emperor Heaven had imparted the Dao and Eternal Peace Imperial Preceptor had ascended the sacrificial altar, Saint Woodcutter had questioned him and Jiang Baigui had replied. He had received Woodcutter's approval and allowed him to ascend the sacrificial altar.

After that, Jiang Baigui used a few years to choose 36 Great Daos that were most suitable for him from the 360 Postcelestial Great Daos and chose his own cultivation path.

Saint Woodcutter had only deduced that such a method could cultivate the true celestial heavens and create a great expert that surpassed the ten Celestial Venerables. However, he couldn't help if he could cultivate the celestial heavens. He could only rely on Jiang Baigui's own wisdom.

"Third Junior Brother's Postcelestial Celestial Palace has already been opened, and the seventy-two throne halls have also been cultivated using his own methods. In that case, there's no need for him to come to the Jade Capital. The Jade Capital Realm is no longer a trap for him."

Qin Mu continued to move forward and couldn't help sighing ruefully in his heart. His cultivation path was full of trouble and misfortune, but Jiang Baigui's cultivation path was already a smooth one.

If Jiang Baigui cultivated to the Emperor's Throne Realm, he would become one of the great masters of the past million years of civilization!

"Strange, the ten Celestial Venerables are split into two groups."

He stopped in front of another palace hall and examined the traces of battle. He realized that the people who had attacked weren't Celestial Venerable Hao and the rest, but Celestial Venerable Xiao, Heavenly Lady Yan, and the rest.

The ten Celestial Venerables were split into two groups, each fighting their own battles. From the footprints they left behind, one group was led by Celestial Venerable Hao, while the other group was led by Celestial Venerable Xiao.

'The ten Celestial Venerables split up. Strange, from the footprints, there's only the ninth Celestial Venerable. Heavenly Lady Qiang isn't among them...'

Qin Mu made his own judgment. The ten Celestial Venerables were circling around the treasure halls in the outer perimeter, trying to figure out the Great Dao hidden within them. It was obvious that other than Celestial Venerable Hao receiving the guidance of an 'expert' and understanding the function of the seventy-two throne halls, Celestial Venerable Xiao also had the guidance of an 'expert'!

Strangely, Heavenly Lady Qiang didn't join Celestial Venerable Hao or Celestial Venerable Xiao.

Heavenly Lady Qiang was the Grand Emperor. Logically and emotionally, the Grand Emperor wouldn't side with anyone, but he was a fickle person and very flexible.

If he excluded himself from these two groups of people, he would be alone and helpless, which was very disadvantageous.

Therefore, the weird thing was that the Grand Emperor decided to fight alone!

This was in line with his character.

"They are all trying to sort out the Great Dao runes of the seventy-two throne halls and cultivate them into seventy-two throne halls."

Qin Mu's gaze flickered, and he said in a low voice, "If it were me, I would take away a few treasure halls while comprehending them, preventing the other party from obtaining the Dao markings of the seventy-two treasure halls and severing their path to the celestial heavens."

Not long later, Qin Mu stood outside a ruin with an ashen face. There were only broken walls and a huge pit left.

Just as he had expected, the ten Celestial Venerables took away this treasured hall!

They just didn't know if it was Celestial Venerable Hao or Celestial Venerable Xiao.

'It's also possible that Heavenly Lady Qiang took away a treasure hall as the capital to negotiate with other Celestial Venerables. However, Heavenly Lady Qiang alone shouldn't have such power... She's too careless!'

Qin Mu said angrily and continued forward. Not long later, he came to the ruins of another treasure hall. That treasure hall had also been taken away and wasn't here.

Veins popped out on Qin Mu's forehead. It was understandable that the ten Celestial Venerables would do such a thing. One of them had noticed that the other party had taken away a treasure hall, and their intentions were obvious. In that case, as a bargaining chip, they would also take away a treasure hall that the other party didn't have time to comprehend.

In this way, both sides would each hold a treasured hall, making the other party unable to achieve perfection. In that case, both sides wouldn't suffer losses during the transaction.

Qin Mu composed himself and sneered. "If I were one of the ten Celestial Venerables, I would be at a disadvantage if I didn't take advantage of them by taking in a treasure hall and bargaining with them. Therefore, I might as well take in a few more treasure halls. This way, I would have more capital, and I would have to spend a lot of money to exchange for other benefits!"

Not long later, he stood in front of the ruins of another treasure hall with a black face. It was obvious that some of the ten Celestial Venerables had the same idea as him, and they had taken the second treasure hall as their capital.

'How shameless! However, if I were one of the ten Celestial Venerables, I would try to take away all the other halls that I haven't comprehended...'

He walked forward, and his face became darker. Veins popped out on his forehead.

As expected, the treasure halls had all vanished. They were obviously taken away by Celestial Venerable Hao, Celestial Venerable Xiao, and the rest.

These treasured halls would become the capital for them to coerce and trade with each other. The ten Celestial Venerables were even more adept at such trivial matters than Qin Mu.

There was nothing Qin Mu could comprehend along the way, so he could only continue on the path of the ten Celestial Venerables. As for the geographical map that Wei Suifeng had given him, he threw it to the back of his mind.

The Jade Capital City was huge. Walking in the city, one couldn't tell where Wei Suifeng had marked.

Suddenly, the sound of rushing water came from the front, and Qin Mu's heart stirred. 'Chaotic River? In that case, I have reached the core of Jade Capital City!'

The Jade Capital City of the ancestral court was extremely dangerous. Back in the primordial era, the Grand Emperor had gathered the strongest experts of that time, including the powerful ancient gods like Celestial Emperor Tai Chu, to explore this place. However, he had retreated in the face of difficulties.

However, even though Qin Mu's journey to this place had been a little dangerous, he hadn't encountered any fatal dangers. This was because the ten Celestial Venerables had scouted the path ahead of him, and the ten Celestial Venerables had gotten rid of all these dangers. Thus, it had been a peaceful journey for him.

However, from this point, it could be seen that the ten Celestial Venerables were much stronger than the Grand Emperor, Grand Primordium, and other existences.

Finally, Qin Mu saw the Chaotic River in front of him.

He looked across the river and couldn't see what was on the other side.

He examined the nearby geography and compared it to the geographical map Wei Suifeng had left behind, but he couldn't find anything similar.

'This river should have changed its course and is no longer on the geographical map. The geographical map that big senior brother gave me is completely useless!'

Qin Mu shook his head and gave up looking for the markings on the geographical map. He opened the eye in the heart of his brows and examined the huge river while thinking to himself, 'How did the ten Celestial Venerables cross the river?'

He looked at the Chaos River, and the vertical eye at the heart of his brows instantly saw the scene in the river clearly.

In the river, a universe was being destroyed. Countless lifeforms struggled in the great calamity of destruction, wanting to escape. However, they all turned into ashes and vanished without a trace!

Even existences like the ten Celestial Venerables didn't have the slightest ability to resist the great calamity of destruction. They were directly annihilated and turned into a state of pure energy, formless!

Meanwhile, in the chaos, there were countless powerful lifeforms fighting to cross the river and enter the Jade Capital City.

Qin Mu's heart stirred slightly. Putting himself in his shoes, he thought that if he was in this great calamity of destruction, he would definitely see an extremely spectacular sight when he raised his head.

When the entire universe collapsed and was destroyed, squeezed and stretched, chaos filled the surroundings. It was a world in destruction and people who were powerless to struggle.

At that time, when everyone raised their heads, they would see an ancient and powerful god city standing upright in the chaos. No matter how fierce and terrifying the apocalypse was, it couldn't shake this god city in the slightest.

And that god city was the Jade Capital City of the ancestral court under Qin Mu's feet!

Come to think of it, this was what the people in that shattered universe saw!

From Qin Mu's perspective, these powerful lifeforms were merely struggling in the Chaotic River and trying to get ashore.

This was the only way to explain why the strong practitioners in the destruction universe were all trying their best to swim to the surface of the river.

"The master of Miluo Palace is remarkable, to be able to forge such a divine city and survive the great calamity of destruction! However, where is the World Tree?"

He swept his gaze into the river of chaos. The eye in the heart of his brows had used an egg shell that was too easy to use, allowing him to see through the qi of primal chaos. After a search, Qin Mu finally found the World Tree of the ancestral court.

He saw that the root of the world was vast and boundless. It was located in the shattered universe, and its roots were floating around like a huge octopus with countless tentacles.

There were also quite a number of people struggling in the destruction calamity, trying their best to swim towards the roots of the World Tree, trying to grab onto them.

There were already quite a number of powerful existences climbing onto the roots of the World Tree. Those powerful existences tried to split the roots apart and integrate themselves into the roots, using this to avoid the calamity.

They hid in the roots and used the World Tree to save their lives.

As long as the stowaways changed their energy quality and stole the energy of the future universe, they could take the chance to escape from the calamity of destruction and obtain new life!

However, from Qin Mu's perspective, the World Tree was on the verge of collapse and couldn't even protect itself!

He also saw a majestic giant swinging his ax to chop the World Tree!

The giant's body was hazy and looked like a phantom. It was likely that Tai Yi of the future universe was cutting down this precious tree that had existed for sixteen universe cycles. He was cutting down the precious tree and cutting off the hope of the stowaways!

Meanwhile, the prehistoric strong practitioners who had climbed onto the roots of the treasure tree cried and cursed at the apparition of the giant. It seemed that Tai Yi had already gathered all kinds of vicious curses onto himself.

"Too easy and fierce!"

Qin Mu couldn't help exclaiming in admiration and retracted his gaze.

He wasn't completely confident that he could cross this river. He saw many powerful existences in the river that were only left with bones, souls, or even Dao Fruits. They were stirring in the river, trying to grab the person who had crossed the river and drag him down to the shore.

If he fell into the river, he would definitely die!

"In that case, how did the ten Celestial Venerables cross the river?"

Qin Mu examined the river, and he suddenly saw Celestial Venerable Xiao's figure faintly in the chaotic qi. He saw Celestial Venerable Xiao stepping on a Dao Tree and using it as a boat to sail towards the opposite shore!

He looked into the distance, and his heart jumped. The ten Celestial Venerables were all in the river!

Chapter 1505: Calamity

On the river, there was chaos. Ten Celestial Venerables, including Heavenly Lady Qiang, had cut down a Dao Tree and used it as a boat to cross the river!

The Dao trees in the Jade Capital City were all Dao trees that had experienced the great calamity of destruction. However, they had been cut off by the ten Celestial Venerables and used as ferries.

Even Qin Mu couldn't help but admire the ten Celestial Venerables' thinking and boldness. However, as the strongest practitioners of the current universe, the ten Celestial Venerables had their own bearing and ambition. They often did things that others found inconceivable.

For example, God Emperor Lang Xuan had snatched the Dao fruits of prehistoric successors and had an extraordinary bearing.

It was reasonable for the ten Celestial Venerables to do this.

Qin Mu looked into the distance and saw Dao trees appearing in the primordial qi. From time to time, huge bones would rise up from the river,

trying to drag the ten Celestial Venerables that were crossing the river into the river.

The ten Celestial Venerables used various methods to force back the strong practitioners.

This chaos river was much more dangerous than Qin Mu had imagined. Even the ten Celestial Venerables were in danger.

It had been two years since the ten Celestial Venerables had entered the Jade Capital City. One could imagine how dangerous the journey had been. However, their cultivation and abilities had also improved tremendously in the past two years. It was obvious that they had benefited greatly from the Jade Capital City.

Qin Mu had only spent over a month here, mainly because the ten Celestial Venerables had scouted ahead and eliminated the dangers on this path. That was why he could come here so quickly.

As a scout, the ten Celestial Venerables encountered much more dangers than him.

They had put in a lot of effort and gained a lot, so it was natural for their strength to increase.

Qin Mu muttered to himself for a moment and took out the Taiyi walking stick. He threw it into the river and it grew longer until it was thirty yards long.

At that moment, the walking stick was like a small boat with the bow of the boat tilted up.

He took a step forward and landed on the bow of the small boat as it sailed forward.

The speed of this small boat was much faster than the Dao Tree under the ten Celestial Venerables' feet. After all, it was a treasure that could easily be refined from the World Tree and was even stronger than those Dao Trees.

Qin Mu stood at the bow of the ship and looked forward. He saw majestic figures rising from the river and blocking the small boat.

That shadow asked in the primordial qi using Dao language. The question was very strange.

He was asking why Qin Mu had stopped him from reaching the shore.

Qin Mu pressed down on the sword hilt and answered. He used the same Dao language to tell the shadow that this universe didn't belong to them. Their arrival would cause this universe to collapse and be destroyed in one day.

Suddenly, the shadow became excited, and a huge head popped out from the primordial qi. This head was like a mountain, pushing the primordial qi away and appearing in front of the small boat!

Qin Mu raised his head and looked at the head that was only left with white bones. This head was irregular when compared to a human's head, and there were numerous sharp bone spikes growing on it.

What made people envious was that this person's Dao bones seemed to be forged by the Great Dao and were extremely powerful. This was why he was undying and indestructible in the calamity of destruction!

The path he cultivated was clearly another path. It was similar to the path that God Emperor Lang Xuan had said to imprint the ultimate void with his corporeal body!

God Emperor Lang Xuan had yet to reach this step, but this person had already done it!

The white skeleton head opened its mouth and roared angrily at Qin Mu. From its words, it was scolding Qin Mu for being selfish and watching the people of their universe die, unwilling to accept them as refugees.

He held righteousness in his heart and used the deaths of the people in his universe to punish Qin Mu and destroy his Dao heart.

Language didn't have any offensive power, but when combined with Dao language, it truly killed people's hearts.

Qin Mu pulled out his sword, and the moment the sword light left its sheath, it severed the neck of the white skeleton head. The bright sword light pierced through the dense primordial qi!

"Invite you to come and be the old master? After you land on the shore, you enslave us and make us work hard. You enjoy life until the universe is destroyed. You abandon us and run to the next universe."

Qin Mu's gaze was strange. He raised his leg and stomped down heavily, causing the skeleton to sink into the Chaotic River. Dao language rumbled from his mouth as he fought against the other party's Dao language. "You guys are no different from the ten Celestial Venerables, and you have done even more evil! You guys are even inferior to the ten Celestial Venerables!"

The human skull fell into the long river of chaos, and the headless body swam over. It hugged its skull and placed it on its neck.

Qin Mu returned his sword back into its sheath and took a look at the long river of chaos. The small boat sailed forward while the skeleton swam in the long river of chaos, following closely behind the small boat.

Qin Mu raised his eyebrows, and his divine treasure realm spread out.

His palm gripped the hilt tightly, ready to strike.

In the Chaotic River, the white skeleton god swam, and a huge shadow appeared under the small boat, swimming with it.

At the same time, huge shadows appeared around the small boat. Some were Dao Trees in the chaos, while others were souls that were entrusted in the pieces of the Great Overarching Heaven.

Qin Mu sneered and executed Overlord Body Three Elixir Technique to its limits.

His palm became more stable, and the power of the Calamity Sword in his hand became more restrained. Behind him, the World Tree stood tall and took root in the ancestral court. At the same time, it absorbed the primordial qi in the long river of chaos below!

Boom—

The long river of chaos exploded, and two huge hands stretched out from the water. They grabbed the sides of the small boat and pulled it into the chaos!

Clang!

Sword cries rang out, and incomparably bright sword lights flashed. Broken fingers flew up one after another.

Qin Mu swung his sword, and the sword nodded. He held the hilt upside down as though he was bowing, and his ten fingers exploded into chaos!

Behind the small boat, the water surface of the long river of primal chaos exploded, and a huge white skeleton rushed into the sky. It was chanting heavily, and it seemed like it was about to release a world-shaking divine art!

However, the moment the white skeleton god opened his mouth, Qin Mu's reverse Calamity Sword stabbed backward with lightning speed. The brilliant sword light stabbed into the white skeleton god's mouth!

The back of the white skeleton god's head exploded. Qin Mu raised his sword, and the white skeleton god's head was sliced in half!

The white bones fell into the water, and the long river of chaos boiled. A Dao Tree lifted up the small boat and floated above the long river. Yin winds blew, and the souls that were trapped in the pieces of the Great Overarching Heaven Net flew out from the long river and pounced on the small boat!

Another Dao fruit flew out from the river, and as it spun, Dao markings interweaved. Dao chains crisscrossed and locked the small boat!

Qin Mu spread out his sword path, and the Calamity Sword weaved in the air like lightning. It severed the souls of everyone and split the Dao fruits apart. He then threw out the Calamity Sword, and the sword light swirled around the Dao Tree below, slicing it apart!

"The wind and rain of Dragon Han rising a yellow hue, the fate of the boundless universe suppresses the great river!"

He was so excited that he raised his hand and grabbed it. The Calamity Sword landed in his hand, and he stabbed forward with it.

The white skeleton god that had just reconstructed his body rose from the water and saw countless sword lights coiling around him. He was stunned for a moment, and his white bones suddenly crumbled. In the Dao bones that formed his body, the chains were all severed and transformed into Dao markings. The Dao markings were then severed and transformed into Great Dao runes!

In the sword light, the Great Dao runes were also broken down by the sword light and shattered.

The white skeleton god gave a loud cry and collapsed on the river surface, shattering into pieces.

Qin Mu swung his sword and stabbed it into the sheath, standing upright at the bow of the small boat.

Behind him, layers upon layers of Dao Realms were like layers of heavens, spreading out and transforming into 29 heavens.

The sword lights interweaved above the twenty-ninth heaven, forming the thirtieth heaven.

In the surroundings, the Dao trees in the primordial qi vanished one after another, retreating into the depths of the primordial qi.

The wandering souls in the fragments of the Great Overarching Heaven went far away and entered the long river of chaos. Their Dao fruits spun and vanished one after another.

"This move is called Calamity Break."

Qin Mu raised his right leg and stepped on the bow of the small boat formed by the cane. He ignored the strangeness in the surroundings and looked forward.

This tribulation sword was truly capable of suppressing the great river, suppressing the long river of chaos. It made those strange existences that were trying to drag him down to the shore stop moving against this small boat.

The Breaking Calamity Sword was targeted at the composition of the Great Dao. From the steps of the Great Dao, it would reversely deconstruct the Great Dao. It would deconstruct the Great Dao from the realm into a Dao chain, and from the Dao chain to the Dao pattern, it would deconstruct into the Great Dao runes before obliterating the Great Dao runes!

Other people, such as the ten Celestial Venerables, would usually rely on their own strength to fight against the peculiarities in the Chaotic River. Although they would suffer some damage to these strange existences, they wouldn't be fatal.

Once Qin Mu's Calamity Breaking Sword was formed, he could break the other party's Great Dao and threaten the other party's name. Therefore, the existence in the long river of chaos was unwilling to provoke him.

Behind Qin Mu, the thirtieth heaven was formed. This was the thirtieth heaven of the Heavenly Dao Realm. Once the Dao Realm was formed, his Great Dao would be imprinted in the Calamity Sword, and the power of the Calamity Sword would increase a little.

"Grandpa Mute refined this sword too marvelous."

Qin Mu couldn't help exclaiming in admiration. When he had rushed over, Mute was still comprehending the Dao in the Dao Fire Ancestral Land. This time, when he refined the Calamity Sword, his path of forging would have another astonishing improvement!

The number one heavenly worker in the world, his name true!

Without the strangeness of the long river of chaos, the wooden boat transformed from the cane sped forward and gradually entered the river.

Qin Mu didn't know how wide the river of chaos was, but it seemed like it would never reach the opposite shore. Gradually, Qin Mu felt the fluctuations of divine arts coming from the front, and his heart couldn't help trembling slightly. The vertical eye in the heart of his brows looked forward.

Suddenly, two knife lights sliced over silently. Qin Mu lowered his head, and the two knife lights crisscrossed one another above his head. Even though they didn't cut him, they left a knife mark on his neck, and fresh blood flowed out.

After the two knife lights cut across, they vanished from the primordial qi.

Qin Mu raised his head, pulled out his Calamity Sword, and stabbed forward!

When this sword stabbed out, the primordial qi stirred, and the sword light vanished into the primordial qi. Suddenly, a pleasant cry came from the front. "Founding Emperor Qin Ye? You schemed against me?"

"Not Founding Emperor."

Qin Mu asked, "Grand Emperor, you also call yourself this palace?"

The voice in front was silent for a moment before Heavenly Lady Qiang's voice rang out. She chuckled and said, "So it's Celestial Venerable Mu. Your abilities have improved. I was caught off guard by your sword and got stabbed by you."

Whoosh—

The roots of a tree danced and appeared in front of Qin Mu. The tree waved its roots on the river surface of the long river of primal chaos like an octopus.

Heavenly Lady Qiang stood on the withered Dao Tree with a tattered Dao fruit hanging beside her. A woman in the Dao fruit looked at Qin Mu through the hole.

Chapter 1506: Battling Celestial Venerable

Qin Mu was slightly stunned and couldn't help taking a few more glances at the woman in the Dao Fruit. The woman was also looking at him and revealed a look of astonishment and nervousness.

"He doesn't look bad."

Qin Mu exclaimed to himself and shifted his gaze from the woman's chest to Heavenly Lady Qiang. He smiled. "Goddess..."

"Call me Your Majesty," Heavenly Lady Qiang said unhappily.

Qin Mu laughed loudly and said, "Your Majesty just called yourself my palace, so why are you calling me Your Majesty now?"

Heavenly Lady Qiang snorted and looked at the sword at his waist. "Where did you get this sword from? Your magic power isn't at the level of a Celestial Venerable. It should be this sword that injured me just now, right? This sword is the weapon of a Dao cultivator?"

"That's right!"

Qin Mu pulled out the Calamity Sword and was in high spirits. He beamed with delight as he said, "After I entered the Jade Capital City of the ancestral

court, I found this Dao Sword from a shrine. After giving it a try, its power was boundless."

Heavenly Lady Qiang let out a sigh of relief and smiled. "Cultivating by pretending to be a foreign object, Celestial Venerable Mu, your path is wrong. Leave this sword to me... Leave it to me!"

Two murderous blood knives suddenly flew out from the long river of chaos and slashed towards Qin Mu!

The power of these two God Execution Mysterious Knives was peerless, and even Heaven Duke's corporeal body couldn't withstand them. They had merely slashed past Qin Mu's head and injured him. Heavenly Lady Qiang had purposely hidden them in the long river of chaos to ambush him, hoping to kill him in one blow!

She also knew that Qin Mu was slippery, and if he escaped, she probably wouldn't be able to keep him, so she used sneak attacks.

However, she didn't know that her two divine knives couldn't hide from Qin Mu's eyes.

If it was anyone else, they wouldn't have been able to see through the long river of chaos, and she might have succeeded. The eye in the heart of Qin Mu's brows could even see through the long river of chaos and see the past universe.

The two God Execution Mysterious Knives that she had laid in ambush had long been seen clearly by Qin Mu. Even the movement of the knives couldn't escape his eyes.

Qin Mu pulled out his sword, and the sword light flashed, transforming into a void form of a supreme taiji. His sword light clashed with the two God Execution Mysterious Knives, and in an instant, the two divine knives were like blood-colored dragons that were connected under his sword skill like a dragon-shaped taiji diagram!

One dragon was Yin, and the other was Yang. Yin and Yang intertwined, forming a whole.

Heavenly Lady Qiang was caught off guard and wanted to retract her divine knives. However, Qin Mu stepped through the dragon-shaped taiji diagram and pointed his sword at the heart of her brows!

Xu Xingbin's taiji was the ninth heaven of Qin Mu's Dao Realm. However, he had achieved great success in his Sword Dao. After fusing with the divine arts and Dao Realm, there were three more heavens of the Calamity Sword, and this move became the twelfth heaven of his Sword Dao.

This move changed the form of God Execution Mysterious Knife, turning its body into the form of yin and yang, causing Heavenly Lady Qiang to lose control of the two divine knives, giving herself a chance.

This was both a sword path and a divine art. It was perfect in his hands. Even Heavenly Lady Qiang had never seen such a mysterious ultimate art.

Qin Mu's sword came at an extremely fast speed, and the small boat transformed from the cane was much faster than the Dao Tree. In addition, the ultimate art of the sword path that Qin Mu had used was the primordial form of Wen Qingming, which was proficient in speed!

Just as Heavenly Lady Qiang tried to recall the two divine knives, Qin Mu's sword light appeared in front of her!

The sword light tapped Green Destiny, and it grew larger in front of Heavenly Lady Qiang, as if it was going to swallow her!

It was different from Founding Emperor's Sword Dao. Founding Emperor's Sword Dao used the Founding Emperor Celestial Heavens as its foundation. A heavy sword had a layer of the heavens, and what it described was his ideal ambition. Every heavy sword path was grand and majestic, and it used the sword path to transform into layers of heavens.

When his Sword Dao appeared, thirty-five heavens appeared. There were thirty-five different worlds with their own Dao runes.

On the other hand, Qin Mu's sword path was born from his own divine arts and path realm. His divine arts and path realm didn't just talk about ideological aspirations, but about his comprehension and feelings during the comprehension process.

Founding Emperor's sword path was brilliant and imposing, but it had traces to follow. On the other hand, Qin Mu's divine art was nimble and unpredictable.

Heavenly Lady Qiang didn't dodge Qin Mu's sword. With a roar, a God Execution Stage suddenly appeared under her feet. The blood light on the God Execution Stage shone brightly, suppressing the Yin and Yang transformations of the two divine knives!

Two divine knives came from behind and attacked Qin Mu.

Her decision was also ruthless. She didn't avoid Qin Mu's sword moves and just executed her two divine knives to kill him!

If Qin Mu didn't dodge, both of them would be hit!

She relied on the vastness of her consciousness. Even if her corporeal body was damaged, as long as her consciousness was still there, she could visualize her corporeal body!

Even though Qin Mu was proficient in the path of creation, the two divine knives were formed from the baleful qi of the most evil in the world. They devoured cultivation and qi and blood. As long as Qin Mu was struck by the two divine knives, his qi and blood would be instantly absorbed by them, turning him into a dried corpse that was sliced into three pieces!

Without cultivation and without any qi and blood, even if Qin Mu's divine arts reached the heavens, he couldn't recover!

Her two divine knives cut down the Dao Tree and the Dao Fruit, making them indestructible. As long as Qin Mu dared to fight, she would definitely be willing to accompany him!

On the heart of her brows, the Green Destiny transformed from the sword light surged. Before it could even touch her skin, it caused a qualitative change to appear on her forehead. The skin, bones, flesh, and blood on her forehead all started to transform into energy form!

Qin Mu's sword consciousness reached the heart of her brows, and the brilliant sword light had already begun to stab into the celestial heavens. It was about to pass through the Southern Heavenly Gate and sweep through the celestial heavens!

The corners of Heavenly Lady Qiang's eyes twitched. The power of Qin Mu's sword had surpassed her expectations and imagination. She had mistakenly thought that it was Founding Emperor Qin Ye, but from the looks of it, even though Qin Mu's cultivation was inferior to Founding Emperor Qin Ye's, his attainments in the sword path were superior!

At this moment, Qin Mu suddenly pulled back his sword. The tip of the sword trembled and split into two, one on the left and the other on the head of the God Execution Mysterious Knife.

His sword skill was exquisite and was praised by Founding Emperor as the number one sword skill in a million years. These two swords were just right, severing the power of the two divine knives.

Heavenly Lady Qiang smiled. The moment Qin Mu retracted his sword and stabbed the two divine knives, the two divine knives became incomparably soft. They coiled around the body of the Calamity Sword and swept towards Qin Mu's hand!

Qin Mu cried out in astonishment and hurriedly threw Calamity Sword along with the two divine knives. The small boat under his feet rushed in diagonally to avoid the two divine knives!

"Celestial Venerable Mu, thank you for coming all the way here to deliver the treasure!"

Heavenly Lady Qiang chuckled and waved her hand. Two divine knives flew over with Calamity Sword, and the hilts landed in her hands.

On the Dao Tree under her feet, the expression of the beautiful woman in the tattered Dao Fruit suddenly changed. She immediately saw the clues and shouted, "Ju Yushi, there's a trap! That's not the Dao sword of the one who has achieved the Dao, but his own treasure!"

Just as Heavenly Lady Qiang placed her hand on the sword hilt, she saw Qin Mu rushing forward with his back facing her. His hands were behind his back, and he wasn't as pathetic as she had imagined. Instead, he looked calm and composed.

Heavenly Lady Qiang's heart jumped, and she hurriedly let go. She executed her divine knives to break the Calamity Sword, but at that moment, Qin Mu

clasped his hands behind his back, one above and one below. Both of his hands were clutching sword techniques!

His hands moved slightly behind his back, and the sword techniques changed at a speed that couldn't be seen with the naked eye!

When Heavenly Lady Qiang let go of the sword hilt, the Calamity Sword escaped from the entanglement of her two divine knives. The sword seemed to enter a formless state as it passed through the two divine knives. There was no body, only light.

Chi—

The sword light swirled and circled around a sword flower. Just as she let go of her palm, her five fingers jumped down from her palm and danced in the air like a living spirit.

At that instant, Heavenly Lady Qiang had a strange expression. When her five fingers were sliced off by the sword light, her five fingers gained life. Flesh and blood squirmed, and bones grew. They became five small Qin Mus that bowed towards her!

The hilt of that Calamity Sword hung upside down as if it was held in the hands of five small Qin Mus. They cupped their hands and pushed forward!

One Primordial Qi Dao Travelling Together!

Heavenly Lady Qiang's chest exploded, and the inverted divine sword pierced through her chest. It flew out from her back, and wherever it passed, her body would turn into primordial qi, piercing through her body!

Heavenly Lady Qiang gave a shout, and layers of celestial palaces appeared behind her. Her cultivation advanced by leaps and bounds, and she stretched out her hand to grab the two divine knives. With a swing of her dragon tail, she shattered the dainty Qin Mu formed by the five fingers!

The two divine knives had great power, but they were incomparably soft as they slashed at the divine sword behind them!

At the same time, Qin Mu, who was on the small boat, still had his back facing her. The small boat was still flying forward, but the hand seals on his back were moving faster, making it hard to see clearly!

Chi! Chi! Chi!

The Calamity Sword flew up and down under his control, and all kinds of sword moves changed continuously. In a formless state, it avoided the attacks of the two divine knives over again!

The divine sword wasn't aimed at Heavenly Lady Qiang, but at the Dao Tree under her feet. The sword light flew between the withered branches and severed them!

Heavenly Lady Qiang was anxious, and cold sweat broke out on her forehead. She flew up from God Execution Stage and controlled her divine knife to chase after the Calamity Sword. The sword had no qualms, but she had to avoid breaking the branches.

That was because the power of these two God Execution Mysterious Knives was too strong. As long as they touched the branches, the Dao Tree wouldn't be able to block the two knives.

Suddenly, the Calamity Sword circled around the tree, and the Dao Tree collapsed. Heavenly Lady Qiang was furious and fell.

The sword light suddenly stabbed the God Execution Stage that was falling like lightning and flew away. It stuck close to the river surface of the Chaotic River and caught up to Qin Mu's small boat.

Qin Mu stood on the small boat and raised his left hand up. He saw the Calamity Sword leap up from the surface of the river of chaos and break away from the God Execution Stage. The God Execution Stage descended and landed in his hand.

Qin Mu stored the God Execution Stage in his divine treasures and ancestral court. He took off the sword sheath with his right hand, but the speed of the Calamity Sword was becoming slower. The sword light was becoming fainter. It slowly descended and stabbed into the sword sheath.

Qin Mu placed the sword sheath on the left side of his waist and turned to smile at Heavenly Lady Qiang.

At that moment, Heavenly Lady Qiang and the woman in the tattered Dao fruit fell into the river of chaos!

"Celestial Venerable Mu!"

Heavenly Lady Qiang grabbed the two divine knives and tried her best to stabilize herself so that she wouldn't fall into the long river of chaos. However, there was nowhere she could borrow strength from, so she couldn't stop falling.

Her beautiful face couldn't help turning pale, and she hurriedly landed on a wooden stake. However, in the long river of primal chaos below, white bones rose up one after another. The souls in the primal chaos struggled, and their faces distorted as they grabbed at her!

Heavenly Lady Qiang swung her knives and severed countless limbs. The tattered Dao Fruit flew through the knife light. Suddenly, the light in the Dao Fruit shone in all directions, and the strange existences in the long river of chaos avoided the light in the Dao Fruit.

The aura of the woman in the Dao Fruit became weak, and she shouted, "I can't last much longer, quickly cross the river! Otherwise, both of us will fall into the past universe!"

Qin Mu turned his head back and saw this scene. His gaze was strange. 'Who is this woman? Her abilities are very strong. I wonder how she is compared to the Yuan Sage of Miluo Palace...'

He took out the pointer given to him by the Yuan Sage of Miro Palace and used it to fly towards Heavenly Lady Qiang.

Pa—

Heavenly Lady Qiang got hit in the head and was furious. Qin Mu quickly retracted his whip and thought to himself, 'I forgot. Heavenly Lady Qiang doesn't have a primordial spirit. It's useless to be hit by the whip.'

Chapter 1507: The Truth Of The Shattering

The Grand Emperor's primordial spirit was trapped in the unchanging divine art by Celestial Venerable Ling and had yet to escape. Therefore, Heavenly Lady Qiang didn't have a primordial spirit in her body. The pointer of the Yuan Sage was aimed at the primordial spirit, and it hit the target.

After hitting, those whose Dao hearts were no match would be controlled by the spellcaster.

However, it was useless against a monster like Heavenly Lady Qiang who had no primordial spirit and only relied on her consciousness.

Qin Mu looked at Heavenly Lady Qiang and saw her standing on a wooden stake of a Dao Tree. She was relying on the woman in the Dao Fruit to cross the Chaotic River, her aura surging as she attacked.

Earlier, the woman in the Dao Fruit didn't manage to stop the Primordial Sacred's pointer, which meant that her cultivation wasn't as strong as a Primordial Sacred. However, he was certain that she was a prehistoric cultivator.

Qin Mu muttered to himself and used the small boat transformed from his cane to avoid Heavenly Lady Qiang. He didn't continue to pester her.

With his current abilities, it wasn't easy to kill Heavenly Lady Qiang. Furthermore, killing her wasn't the same as killing the Grand Emperor. If he wanted to get rid of the Grand Emperor, he had to go to the Great Overarching Heaven and get rid of his Dao Tree.

Previously, Heavenly Lady Qiang had the weakness of the Dao Tree. When she attacked, she was restrained and had to avoid the Dao Tree.

In addition, Qin Mu was scheming, which made Heavenly Lady Qiang think that he was lucky to have gotten the Dao weapon from Jade Capital City. Thus, she wanted to snatch it away, but she fell into Qin Mu's trap and lost the initiative.

However, this method could be used once, so it definitely wouldn't work the second time.

In a head-on clash, Qin Mu would have to face those two God Execution Mysterious Knives. Those two divine knives were simply too fierce, and even Heaven Duke's corporeal body couldn't defend against them. They could be said to be the most ferocious weapons in the world.

Facing these two divine knives, Qin Mu had to be like the one who had achieved the Dao in the mountain of Mahakala. He had to lay down dozens of unchanging divine arts in advance and activate them the instant God

Execution Mysterious Knife injured him. Only then would he be spared from death.

On the long river of chaos, such a strange place was obviously not suitable for setting up unchanging divine arts. If one fell into it, they would definitely die!

His goal wasn't to fight to the death with Heavenly Lady Qiang, but to search for Tai Yi's whereabouts and the Jade Capital Realm.

"The path of the Grand Emperor is still too narrow. He actually teamed up with prehistoric existences. He's going to end himself from the world."

Qin Mu took out God Execution Stage and tried to activate it to see if he could take away Heavenly Lady Qiang's two God Execution Mysterious Knives.

Although Heavenly Lady Qiang was a Celestial Venerable, her cultivation was relatively weak among the ten Celestial Venerables. She didn't have a primordial spirit, so even if she fused with the head of the Grand Emperor, her cultivation could only be ranked lower than the ten Celestial Venerables.

However, the two divine knives were truly powerful. The reason Heavenly Lady Qiang had brought the God Execution Stage of the ancestral court was to prevent someone among the ten Celestial Venerables from stealing them with great magic power.

When Qin Mu had trapped the two divine knives with the void form taiji, she had used God Execution Stage to retract the divine knives and counterattack Qin Mu.

It could be seen that God Execution Stage had a controlling effect on the two God Execution Mysterious Knives.

As soon as Qin Mu took out the God Execution Stage of the Ancestral Court, Heavenly Lady Qiang sensed it. She couldn't help but be furious, and her consciousness burst forth to attack Qin Mu!

At the same time, Qin Mu utilized the God Execution Stage of the ancestral court to mobilize the power of the Great Dao contained in it. The two divine knives in Heavenly Lady Qiang's hands instantly went out of control!

Large hands grabbed the tree stumps under Heavenly Lady Qiang's feet and pulled them into the Chaotic River.

Heavenly Lady Qiang's feet entered the water, and her feet were instantly submerged in the calamity of the previous universe, turning into ashes!

At the same time, Qin Mu was attacked by Heavenly Lady Qiang's consciousness. His mind was muddled, and he couldn't control the Tai Yi walking stick. The small boat transformed from the crutch carried him into the Chaotic River!

Both of them were astonished, and Qin Mu hurriedly put away the God Execution Stage to stabilize the small boat. He saw that the small boat had already sunk into the river, and the calamity of destruction was surging over, corroding his feet!

Qin Mu rushed out of the Chaotic River before his corporeal body melted, and he saw that his two calves were completely rotted!

He looked back and saw that Heavenly Lady Qiang's legs were completely destroyed.

The two of them looked at each other from afar, and they both had lingering fears. Qin Mu turned his head around and drove the small boat away, disappearing into the boundless primordial qi.

Heavenly Lady Qiang stopped chasing.

They all had the power to destroy the other party, so they could only hold back and avoid the other party so that they wouldn't lose their lives at the same time.

This huge river of primal chaos was truly majestic. The small boat sailed on the surface of the river and couldn't determine the direction. There was chaos qi everywhere and it was hard to see the end of it.

Qin Mu stopped the small boat and executed Creation Mysterious Technique. His two calves grew out, and he felt a lingering fear.

"This calamity is too powerful. Without achieving the Dao, even the ten Celestial Venerables can't defend against it!"

After his legs recovered, he continued forward. Even though he couldn't determine the direction, the eye in the heart of his brows could see through

the chaos. As long as he got close to the shore, his gaze could pierce through the chaos and see the opposite shore.

However, after searching for a long time in the long river, Qin Mu still couldn't find the opposite shore.

Time slowly passed by, and he couldn't help becoming anxious. Not only did he not find the opposite shore, he couldn't even find his way back!

"Crap..."

He gradually became worried. If he couldn't find the opposite shore or the way back, he would be trapped here forever!

In the primal chaos, there was no difference between north and south, and there was no difference between up and down. If one got lost, they could only rely on luck. No geographical map would work here because there was nothing that could be used as coordinates!

'If I can be trapped here with the ten Celestial Venerables, it would be a great blessing for the human world.'

His mood calmed down again. The ten Celestial Venerables had done all sorts of evil. If he was trapped with them and there were no more ten Celestial Venerables in the world, Eternal Peace would have plenty of time to develop, and overthrowing the celestial heavens was only a matter of time.

He didn't give up hope and continued to search. However, as the days passed, he still couldn't find the opposite shore of the river.

Not only did he not find the opposite shore, he didn't even touch the other Celestial Venerables.

This river was too vast, so it was very difficult to meet other Celestial Venerables.

Suddenly, Qin Mu's gaze landed below the river, and he revealed a strange expression.

He saw a strange sight in the destroyed universe below!

Under the majestic and magnificent World Tree, the apparition of a giant wielding a Chaos Ax was walking towards the World Tree!

What he had seen earlier was a giant wielding an ax and slashing at the World Tree. Now, it was as though time had reversed and Tai Yi was on the eve of slashing the World Tree!

This was very strange.

His heart stirred slightly, and he controlled the small boat to randomly choose a direction.

After a moment, Qin Mu looked at the World Tree again and saw that Tai Yi had already come under the tree with his ax.

He stopped the small boat and changed the direction. The small boat sailed away, but he saw Tai Yi actually moving back, getting further away from the World Tree.

Qin Mu was stunned for a moment before becoming delighted. This river of chaos couldn't determine its location, but it had coordinates that could be used as reference!

This coordinate was the process of the previous universe being destroyed!

He controlled the small boat to move forward continuously, and he saw that the Taiyi apparition was getting further away from the World Tree. Finally, it vanished. Meanwhile, the calamity of destruction in the universe below seemed to be flowing back. The Great Dao of Obliteration was recovering, and the shattered heavens and shattered worlds were spitting back from the chaos to recover!

The living beings that died in the calamity reformed their corporeal bodies and primordial spirits from the primordial qi, returning to the moment before they were destroyed.

The stars recovered from death, and the starlight shone again!

Qin Mu continued forward, and the galaxy appeared. The ancestral court appeared!

The calamity that had happened in the previous universe seemed to be reversed in front of his eyes.

He saw the early stage of the destruction of the previous universe. The world there had already reached a very high state of civilization, and he saw numerous kinds of civilizations.

For example, there were civilizations similar to sacrificial offerings, civilizations similar to faith, martial cultivator civilizations, and mechanical civilizations. There were countless types.

These worlds were ruled by those who had achieved the Dao and had their own unique civilizations. The order of the world was peaceful before the great calamity of destruction arrived.

The imposing bodies of those who had achieved the Dao shrouded the various worlds, giving off an incomparably majestic feeling.

Those who achieved the Dao were the rulers of these worlds, using their own will to transform the worlds they controlled.

Qin Mu only took a quick glance. He couldn't say that the world governed by these people who had achieved the Dao wasn't good, but wherever he looked, he realized that the previous universe was much smaller than he had expected.

This universe was too small, and its ancestral court was also many times smaller than the current ancestral court. The worlds in the heavens weren't as shocking as the worlds in the present.

The size of the entire universe was only one-thousandth of the current universe, or even smaller!

Qin Mu continued to look around, searching for the source of the calamity. Finally, his gaze landed on the Ultimate Void.

There were too many Dao Trees there. The energy of the Great Dao was highly concentrated, and the Dao Tree was resplendent and majestic. The light from the Dao Fruit was even more dazzling than the stars and galaxies in the sky!

However, in the Great Overarching Heaven, the great calamity of destruction had already erupted, engulfing everything in the Ultimate Void!

The spring river was warm, and many people who had achieved the Dao had already sensed the change. They were slicing apart the Great Overarching Heaven, cutting it into pieces to speed up the disaster!

That great calamity of destruction came from the ultimate void, destroying layers of void along the way and sweeping through the real universe!

Those who achieved the Dao that controlled the worlds also flew towards the World Tree, while some flew towards the long river of chaos. They should be flying towards the Jade Capital City of Miluo Palace.

Qin Mu looked at this scene and subconsciously let the small boat slow down. He turned back bit by bit and finally fixed the time on the eve of the previous universe's destruction.

At this moment, the small boat under his feet paused slightly and finally touched the opposite shore of the long river of chaos.

However, he didn't go ashore. His gaze was fixed on the chaos in the river. Over there, he saw the last person who had achieved the Dao in the previous universe. In order to allow his Great Dao to be entrusted to the void, he had chosen to cultivate the Killing Dao.

That person who had achieved the Dao destroyed worlds and slaughtered countless lives. Those worlds were destroyed and the stars returned to the primal chaos. He absorbed those powers and finally achieved the Killing Dao.

His Great Dao condensed in the Ultimate Void, transforming into a Dao Tree and a Dao fruit. In the end, it became the last straw that broke the Ultimate Void.

The moment his Dao Fruit was formed, the apocalypse that swept through the entire universe finally erupted in the ultimate void!

However, before this, the Ultimate Void was no longer stable. Violent tremors came from time to time, shaking the Dao trees of those who had achieved the Dao!

Not only was the Dao Tree shaken, even the various worlds in the entire universe were shaking!

"The high concentration of energy creates a collapse, and the source of this collapse is the Ultimate Void!"

Qin Mu composed himself and retracted his gaze. He thought to himself, 'If the ten Celestial Venerables don't have my powerful gaze, they shouldn't be able to find the other shore, right? Maybe Heavenly Lady Qiang has the guidance of the woman in the Dao Fruit, so she can find the other shore, but the other Celestial Venerables can't...'

The moment he landed, his expression froze. He saw Celestial Venerable Hao, Celestial Venerable Xiao, and the rest of the ten Celestial Venerables standing in front of him. Heavenly Lady Qiang was sandwiched between the other nine Celestial Venerables!

Qin Mu's heart leaped, and he jumped onto the small boat.

Chapter 1508: Questions

Qin Mu had just retreated back onto the small boat when the ten Celestial Venerables noticed him. They all thought to themselves, 'This fellow is crafty!'

"Celestial Venerable Mu, since you are here, why do you have to leave?"

Celestial Venerable Xiao's voice rang out, and Qin Mu's feet landed on the small boat. Only then was he at ease, and he said with a smile, "I saw that everyone was like wolves and tigers, surrounding a young woman like a flower, so I was nervous. However, I didn't want to act bravely for a just cause, so I could only retreat."

Ancestral God King snorted. "A young woman like a flower... Can the Grand Emperor can also be considered a young woman like a flower? What a joke!"

"Son of a bitch who killed his father, how dare you criticize the Grand Emperor?" Qin Mu shouted angrily.

Heavenly Lady Qiang couldn't help having a good impression of Qin Mu. She thought to herself, 'This scoundrel actually has a chance to uphold justice for me... Bah! This bastard is stirring the water!'

Ancestral God King was furious and suddenly laughed out loud. "Heaven Duke? Celestial Venerable Mu, don't forget that you were the one who gave the order to suppress Heaven Duke in front of everyone! Furthermore, I'm the Heaven Duke now! Who dares to criticize me? Aren't you afraid of not seeing the sun for years? If you offend me, I'll stop all the sun and starlight in the world!"

Qin Mu smiled. "Heavenly Duke Zu is really magnanimous. He's not as petty as him. Who said Heavenly Lady Qiang is the Grand Emperor?"

He changed the topic and said angrily, "The ten Celestial Venerables need evidence to kill people, right? Not to mention a Celestial Venerable that has contributed to the world! Heavenly Lady Qiang is Celestial Emperor's concubine and a Celestial Venerable. Without concrete evidence, it's unreasonable for you to kill her!"

Heavenly Lady Qiang looked at him and thought to herself, 'When did this fellow become so pleasant?'

Celestial Venerable Gong suddenly said, "Could it be that Celestial Venerable Mu is harming your kind? Are you afraid that after we get rid of the Grand Emperor, you will turn around and get rid of you?"

She pointed out Qin Mu's true thoughts. Qin Mu was indeed worried that they would attack him after getting rid of Heavenly Lady Qiang, so he defended her.

Protecting Heavenly Lady Qiang was protecting himself.

If the ten Celestial Venerables could tolerate the Grand Emperor, it wouldn't be a big deal to tolerate a mere Celestial Venerable Mu.

Celestial Venerable Hao said plainly, "Celestial Venerable Mu, I'm afraid you're wrong. We stopped Heavenly Lady Qiang to let her lead the way and explore the mysteries of Jade Capital City. We didn't do it to kill her."

Qin Mu's heart jumped, and he understood what he meant.

Celestial Venerable Hao, Celestial Venerable Xiao, and the rest split into two groups and entered the long river of chaos. They tried to reach the opposite shore, but they were all lost in the river.

They must have met Heavenly Lady Qiang by chance and followed her to this place.

Their goal of trapping Heavenly Lady Qiang wasn't to kill her, but because they saw a long river of chaos blocking their way. That was why they stopped her and forced her to lead the way!

As expected, Celestial Venerable Xiao said with a faint smile, "Heavenly Lady Qiang colluded with the strong practitioners of the past universe. She deserves to die, so it's natural for us to execute her. However, she's useful. We still need to borrow her power to cross this river of chaos and explore the mystery of this Jade Capital City, saving the people of the world."

'I didn't catch the fox and instead got myself into trouble.' Qin Mu was secretly regretful.

A smile broke out on Shi Qiluo's bearded face, and he stuck out his tongue at Qin Mu. Qin Mu ignored him and thought to himself, 'I failed this time, but I didn't fall too hard. As long as I retreat into the chaotic river, they won't be able to do anything to me...'

Celestial Venerable Huo sneered. "Celestial Venerable Mu, you defended Heavenly Lady Qiang. Could it be that you colluded with those who achieved the Dao in the past universe? I knew you were such an ungrateful person. I hate that I didn't see through your true colors earlier and get rid of you!"

Qin Mu smiled and the small boat was about to float back.

Suddenly, Celestial Venerable Hao said indifferently, "Brother Huo, there's no need to say that. Celestial Venerable Mu is the alliance master of the Heaven Alliance, after all. How could he betray the Heaven Alliance? Betray the people of the world? Wouldn't that be betraying himself? Betray the Heaven Alliance that he founded?"

Qin Mu was stunned. He didn't expect Celestial Venerable Hao to speak up for him.

Celestial Venerable Huo also didn't expect this. He bowed slightly and said, "Dao Brother is right."

Celestial Venerable Hao said warmly, "Celestial Venerable Mu, for you to be able to come here shows that your abilities have improved greatly. It took us

ten Celestial Venerables a long time to break into the Jade Capital City of the ancestral court. One more person means one more force. Since you are our alliance master, please lead us to visit the Jade Capital City."

Qin Mu muttered to himself.

Celestial Venerable Hao suddenly asked in Dao language, "Celestial Venerable Mu, are you going to betray yourself and the Heaven Alliance?"

His shout came suddenly, and his Dao language directly bombarded Qin Mu's Dao heart, forming a Great Dao Question in his Dao heart!

In that instant, the Great Dao rumbled in Qin Mu's Dao heart and vibrated. It was as if all the Great Dao he had cultivated in his body were questioning him at the same time, pointing straight at his Dao heart!

Qin Mu was astonished. He raised his head and looked at Celestial Venerable Hao as if he knew him for the first time.

There weren't many people who could communicate in Dao language, so one had to have profound comprehension of Dao!

The five Primordial Ancient Gods communicated with the Dao language, but that was the natural ability of Tai Yi, Tai Chu, and the rest. Founding Emperor had cultivated to the 35 heavens of the sword path, and now he could communicate with the Dao language.

Qin Mu was able to use Dao language to communicate because of his extremely high attainments in the Dao Realm. He had also studied the Great Dao of the five Primordial Ancient Gods.

Celestial Venerable Hao suddenly shouted in Dao language, forming a Great Dao Question in his Dao heart. It pointed straight at his Dao heart, forcing him to not reject it.

If Qin Mu rejected it and went against his Dao heart, it would definitely cause great damage to his Dao heart. It might even make him question himself.

Self-doubt was extremely terrifying to martial cultivators, especially those with achievements in the Dao Realm.

On the path of cultivation, if one doubted themselves, they would not advance but retreat instead. If Qin Mu didn't agree to travel with them, his cultivation would continue to deteriorate, and the various Great Daos he cultivated would gradually be stripped from his body, losing his abilities!

This was Dao Seeking divine art!

The Dao Seeking divine art had the same effect as Nine Hells Platform's divine art. It wasn't as strange as Qin Mu's Nine Hells Locking Dao Heart. If Qin Mu was on guard, he wouldn't have been blasted into his Dao heart by Celestial Venerable Hao's Dao Seeking divine art.

However, the crucial point was that he was unprepared!

'Behind Celestial Venerable Hao, there's really a powerful existence from the past universe guiding him. Or could it be that he comprehended to this step?'

Qin Mu's gaze moved away from Celestial Venerable Hao's face, and he smiled as he walked ashore. 'If it's the latter, then I've underestimated him. His aptitude and comprehension are definitely not inferior to Founding Emperor!'

He stepped on solid ground, and only then did the tremors and waves caused by Dao Querying divine art in his Dao heart gradually calm down.

Behind him, the small boat flew up and drew an arc above Qin Mu's head to land in front of him. Qin Mu raised his hand, and the small boat transformed into a cane which he held onto.

"Celestial Venerable Hao is right."

Qin Mu's expression was indifferent as he smiled. "In that case, as the alliance master of the Heaven Alliance, I shall lead everyone to explore this dangerous place."

The gazes of the ten Celestial Venerables fell on the cane in his hand. Ancestral God King, Lang Xuan, and the other Celestial Venerables cried out, "It's you!"

Qin Mu was slightly stunned. He followed their gaze and looked at the crutch. He instantly knew what they were shocked about and couldn't help laughing. "It's not me. I'm just borrowing his crutch. Otherwise, I wouldn't have been able to pass through this long river of chaos."

Ancestral God King, Lang Xuan, Heavenly Lady Qiang, and Celestial Venerable Xiao surrounded the Grand Emperor and killed their way into the 35 voids, killing him until only his head was left. After that, Qin Mu was trapped by the four Celestial Venerables in the chaos sea of the ancestral court.

At that time, it was this walking stick that had suddenly risen from the sea. With one strike, it had sent the four great Celestial Venerables flying, forcing them to retreat!

Previously, the crutch was a small boat with a strange shape, so they couldn't see it. Now that it had returned to the main body of the crutch, the four Celestial Venerables immediately recalled their sullen past and shivered.

Celestial Venerable Xiao asked politely, "Celestial Venerable Mu, is that Dao brother doing well?"

Qin Mu sighed ruefully. "He's doing very well. He has always been in my sacred ground, eating and drinking well, like an ancestor. When I went out this time, he even told me there were many bad people outside and asked me to use his crutch to defend myself. I said how could there be bad people in this world? In the end, I met..."

He took a deep look at the ten Celestial Venerables.

Celestial Venerable Xiao didn't mind and said with a smile, "That Dao brother has remarkable abilities and is an existence that has achieved the Dao. He doesn't have a distinction between good and evil in his heart, so don't joke around, Celestial Venerable Mu. If he had a distinction between good and evil, the universe would no longer be what it is today. Since that Dao brother is a guest in the black mountain, can I pay a visit after this matter is settled?"

Qin Mu's heart leaped again, and he cried out bitterly in his heart.

Now, where could he find a Tai Yi?

However, if he didn't agree, he would show weakness and be seen through by Celestial Venerable Xiao and the other old foxes.

"Whether or not Dao brother wants to see you guys, I can't decide."

Qin Mu muttered to himself for a moment and said, "Celestial Venerable Xiao is also his Dao friend. After all, he's Celestial Emperor Tai Chu. I still have to give him some face. Don't worry, I'll definitely put in a good word for you in front of Old Dao Brother when we return..."

Just as he said that, the two ancient gods of Taiji behind Heavenly Lady Yan looked at each other. The male ancient god said, "Can Celestial Venerable Mu put in a good word for us? We would like to seek an audience with that Dao brother!"

Celestial Venerable Hao and the rest were shocked. They looked at the cane in Qin Mu's hand, puzzled. 'Who exactly is this Dao brother? Even the ancient god of taiji wants to meet him?'

Qin Mu said with difficulty, "It's not that I don't want to give you two face, but that old Dao brother isn't someone that anyone can see just because they want to... Alright, alright, you two are also my acquaintances, and your friendship is as solid as iron, so I'll sacrifice my face to speak for you two..."

Suddenly, Tai Su's voice came from behind Celestial Venerable Hao. "Celestial Venerable Mu, if you can introduce me, I can spare your life."

Qin Mu looked behind Celestial Venerable Hao and saw that Tai Su sometimes transformed into a huge cauldron, sometimes into a divine sword, and suddenly transformed into a huge bell. The shapes of all kinds of treasures changed, sometimes into Bai Qu'er, then Lang Wo, then Ling Yuxiu, and finally, a treasure.

Tai Su sensed all kinds of thoughts from him and couldn't help becoming furious. 'This fellow must be a spirit in a robe, right? His thoughts are so messy and his thoughts are wild, he doesn't have the bearing of a Daoist!'

Qin Mu said with a face full of smiles, "Since Dao Friend Tai Su has the intention to turn hostility into friendship, how can I not fulfill your wish? When this matter is over, I'll ask him. As for whether I can meet him, I don't dare to make a promise."

"So her name is Tai Su!" The other Celestial Venerables looked behind Celestial Venerable Hao. What they saw was different, and it reflected what they were thinking.

Tai Su snorted. "I'm not trying to turn hostility into friendship with you. You caused me to come out early, so even if you are willing to recommend me, I won't let you go. I'm just sparing your life."

Qin Mu didn't mind and walked to the second river of chaos with his cane. He had a headache. 'Who should I find to impersonate Tai Yi? Lan Yutian, I'm afraid it won't work, neither will Founding Emperor... Why don't I give up my old face and pretend to be Tai Yi, then I'll take the chance to get rid of this little girl...'
