Chapter 1601: You Can Only Die

Heaven Duke's abilities had yet to reach the level of a Celestial Venerable, and his magic power was much weaker than in his previous life. However, what made him stronger than the Heaven Duke in his previous life was that his comprehension of the Heavenly Dao was even deeper than his son, Ancestral God King.

After breaking free from Heaven Duke's corporeal body and the restraints of the Heavenly Dao, he could comprehend the inner meaning of the Heavenly Dao and get closer to it.

The Heavenly Dao Weapon among the fifty Heavenly Dao treasures landed in his hands. The Heavenly Discipline, Heaven Beggars, Heaven Mudra, Heaven Merit, Heaven Secrets, and the other forty-nine treasures transformed continuously and advanced layer by layer, shattering God Emperor Lang Xuan's corporeal body.

Lang Xuan's corporeal body shattered, and the celestial heavens in the heart of his brows expanded outwards. Five red ropes pierced through the celestial heavens in all directions, passing through the Dao Fruit.

Heaven Duke rushed forward with the Heaven Insight Dao Weapon in his hand. The forty-nine Heavenly Dao treasures flew up and down, combining together continuously. They destroyed the buildings in the Lang Xuan Celestial Heavens and went straight for the Dao Fruit!

The Dao fruit sank into the red rope and didn't dare to struggle. It could only watch as he closed in!

If Heaven Duke touched the red knot, his Dao fruit might not be able to survive!

Right at this moment, Celestial Venerable Hao appeared in front of the Dao Fruit and waved his hand. A Ruins of End abyss appeared, and Heaven Duke fell into it along with the treasure.

The divine art of the Ruins of End trembled violently, and the fifty heavenly treasures swirled, carrying Heaven Duke out.

Heaven Duke flew out of God Emperor Lang Xuan's celestial heavens and landed on the ground. His celestial sword slashed at Earth Count Ah Chou, and the golden rope that bound him broke. Ah Chou crashed into the monument forest.

"Your abilities aren't bad."

Celestial Venerable Hao praised, and his gaze landed on him. His eyes were like two invincible black holes, giving off an extremely uneasy feeling. "Heaven Duke, after you were revived by Celestial Venerable Mu, your abilities are much better than before. Back then, when you were still Celestial Venerable Hong, even though your magic power was the best, your Dao heart was too weak. After Celestial Venerable Qin opened up the Dao Realm, Celestial Venerable Hong fell behind and was assassinated by Celestial Venerable Mu. Heaven Duke, if you are willing to return to the ten Celestial Venerables, I will welcome you back."

Heaven Duke stood up on his Heavenly Platform Dao Weapon, and Heavenly Dao treasures danced around him. He chuckled and said, "The death of Hong has nothing to do with Celestial Venerable Mu. I only have myself to blame. Furthermore, the one who killed Hong wasn't Celestial Venerable Mu, but the unfilial Ancestral God King."

Behind Celestial Venerable Hao's head, the 35 celestial palaces formed the 10,000 Heavenly Dao Wheel. Qin Mu tried to break out of the formation in the Heavenly Wheel, but Celestial Venerable Hao's 35 celestial palaces were ever-changing, blocking him.

"High Venerable Ling Yu, now you know that working with Celestial Venerable Mu is like asking a tiger for its skin, right?"

Celestial Venerable Hao suddenly said, "Celestial Venerable Mu is unscrupulous. Even if you form an alliance with him, he will break it at any time. Heaven Duke is also clear about this."

Qin Mu stopped trying to escape and laughed loudly. "High Venerable Ling Yu, have I violated the Dao Fruit's Alliance with you? When you and I established the Dao Fruit's Alliance in the Myriad Dao Heavenly Wheel, you

said that I needed to help you seize God Emperor Lang Xuan. I did help you seize Lang Xuan's body and didn't break the oath."

High Supreme Spirit Jade's consciousness came out from the Dao Fruit, and he sneered. "Miluo Palace's seventh young master, you truly live up to your reputation. You indeed helped me seize Lang Xuan's body, but at the same time, you also left this strange seal in Lang Xuan's body! Not only that, you even took the chance to pierce through my Dao fruit with your sword, trying to kill me!"

In the Wheel of Myriad Dao, Qin Mu's face was full of glory. "That sword was an accident. I didn't know you were so eager, which was why you missed. However, I have been scheming for a long time. You are a prehistoric Dao practitioner. If I let you descend into this universe, no one else would be able to survive. Therefore, I had no choice but to kill you. However, I didn't expect that after you formed an alliance with me, you would actually form an alliance with Celestial Venerable Hao. Your ability to be two-faced isn't bad."

Heavenly Venerate Ling Yu mocked, "Seventh young master, I'm not the one looking for Celestial Venerable Hao, it's Celestial Venerable Hao."

Qin Mu said in astonishment, "Brother Hao, you found him?"

Celestial Venerable Hao had a smile on his face. "Dao Friend Mu, if you can find him, why can't I find him? That day when you were suppressed by me in the Myriad Dao Heavenly Wheel, you took the chance to observe the paths, skills, and divine arts of the Celestial Venerables. I was also taking the chance to observe their paths, skills, and divine arts."

The smile on Qin Mu's face gradually faded.

Celestial Venerable Hao continued to say, "The secrets in the Lang Xuan Dao Fruit can't be hidden from me. Your contact with High Venerable Ling Yu also couldn't be hidden from me. You can reach an agreement with High Lord Ling Yu, so I naturally can as well. Cooperating with me is the same as cooperating with the three young masters and four young masters of Miluo Palace. No matter what, it's much better than working with the seven young masters of Miluo Palace who don't keep their word, right?"

Qin Mu's expression turned grim, and he asked, "In that case, how did you get rid of Founding Emperor and come here?"

Celestial Venerable Hao said leisurely, "Who said I got rid of Founding Emperor? Celestial Venerable Mu, I was able to survive from the Dragon Han Era until now, and the number of methods I have is beyond your imagination. The support of the three young masters and four young masters isn't something you can imagine. I have two sides in my body, and Founding Emperor has been hindered by my body that has achieved the Dao. My body of the Ruins of End will then head to Youdu to preside over the overall situation."

"Since there are three young masters and four young masters supporting me, with their power, why shouldn't I use it?"

He said indifferently, "In the battle of Youdu, you seem to have the upper hand, but everything is still under my control."

Heaven Duke carried Ah Chou and Earth Count, retreating silently.

He felt that something was wrong. The current situation had clearly surpassed Qin Mu's calculations. Celestial Venerable Hao's trump card had also surpassed Qin Mu's calculations. If he didn't leave now, he probably wouldn't be able to leave!

Celestial Venerable Hao ignored him and said with a smile, "Celestial Venerable Mu, you are indeed the most troublesome person I have ever met. Whether it's your wisdom or your schemes, they are all astonishing to me. However, you have too little time, too little time. If you were given another three to five hundred years, you would really be able to turn the tables. It's just that now, you are still not good enough. In the battle between us, you are always a step behind. This line is the difference between victory and defeat!"

He raised his hand, and his voice reverberated in Youdu. It spread to every corner of Youdu, and the fighting void, Ling, You, Zu, Huo, Yue, Lang Wo, Taiji, and Taishi could hear it clearly.

"I have to use it well! Since I have the support of the Miluo Palace, I have to use it well. The Miluo Palace is my power! My power has already made my father despair and have no choice but to submit to me!"

Boom—

Youdu split open, and a piece of the Great Overarching Heaven flew out, pressing down from the sky. Wherever it passed, cold wind would blow, forcing Xu, Ling, You, Zu, Huo, Yue, Lang Wo, Taiji, and Tai Shi to avoid it.

Suddenly, another piece of the Great Overarching Heaven Net flew out and flew towards Youdu, followed by a third and a fourth piece!

The sixteen Great Overarching Heaven Fragments were like transparent mirrors, and each of them had a huge hexagonal pillar standing upright. Qin Mu looked into the distance and saw that the hexagonal pillars contained a strange Dao charm. His heart couldn't help jumping. 'Could the hexagonal pillars in the Great Overarching Heaven be sculpted from the Dao Tree?'

Even if he was trapped in the Myriad Dao Heavenly Wheel that Celestial Venerable Hao's celestial heavens had transformed into, he could still use the eye in the heart of his brows to see everything clearly.

On the six prisms of the Great Overarching Heaven Fragments, there were all kinds of strange markings carved on them. The prisms stood upright in the cold wind, not moving at all.

As the Great Overarching Heaven Fragment spun, a Dao Fruit appeared on the top of the strange markings on the prism. The Dao Fruit split open, and fresh blood flowed out from the Dao Fruit. It was like an earthworm that followed the markings.

The markings instantly seemed to come to life, twisting and spinning, giving off dazzling light!

The light passed through the refraction of the Great Overarching Heaven Fragment and shone in all directions. Countless strange Dao markings instantly appeared in the void of Youdu, and they were like gunpowder that had been ignited as they scattered around Youdu.

Everyone who was fighting felt a strange contract connecting their corporeal bodies and primordial spirits.

"This is the blood sacrifice formation imprinted in the ancestral court. This kind of contract is the blood sacrifice contract."

Celestial Venerable Hao said, "The content of the contract is very simple. It's a sacrifice of the flesh and blood of two universes, using the lifeforms of the

other universe to exchange for the lifeforms of this universe. Because this kind of blood sacrifice contract was forged by the fourth young master by sacrificing sixteen people who had achieved the Dao in the past universe, you guys can't resist at all. As long as you guys die, the blood sacrifice contract will be activated."

Heaven Duke carried Ah Chou and Earth Count as fast as lightning, planning to escape Youdu. When he heard his words, he couldn't help feeling despair and stopped.

Now, even if he carried Ah Chou out of Youdu, he would still bring this blood sacrifice contract with him.

Heaven Duke put down Ah Chou and chuckled. "Old friend, I'm afraid I can't protect your corporeal body anymore. If you can survive, we can meet again in the future."

He raised his head and looked up in Youdu. He saw what Earth Count saw when he looked up.

They were the myriad of living beings in the universe.

One world after another, countless living beings, their emotions, joys, sorrows, joys, sorrows, joys, sorrows, separation, and reunions were all reflected in his eyes.

In the past, Heaven Duke didn't understand why Earth Count didn't want to achieve the path and why he only wanted to become a human. Now, he understood.

If one had to abandon the happiness of the human world to achieve the path, then what was the point of achieving the path? It was better to be a person with emotions, anger, sorrow, joy, sorrow, joy, sorrow, joy, separation, and harmony.

Heaven Duke swept his sleeves and picked up the Heavenly Dao treasure, planning to return to save Qin Mu.

At this moment, the sky of Youdu split open, and a celestial palace shone with dense divine light as it descended from the sky.

It was a Patriarch Creation Palace.

The Patriarch Creation Palace of the celestial heavens no longer had a master. Without Mistress Yuanmu's control, no one could use the creation divine weapon in the Patriarch Creation Palace.

Celestial Venerable Hao smiled, and the ten thousand celestial wheels behind his head spun. Goddess Tai Su's accompanying treasure flew out and landed in the Patriarch Creation Celestial Palace. The creation divine weapon in the Patriarch Creation Celestial Palace was instantly activated.

The path of creation was boiling in the celestial palace. The creation divine weapon that Celestial Venerable Ling had created back then was circulating at an unimaginable speed. The incomparably complicated divine weapon shot out rays of light, gradually creating a majestic body in the spinning ring!

Suddenly, the divine weapon Celestial Venerable Yu strode out!

Heaven Duke sucked in a cold breath and couldn't be bothered to save Qin Mu. He immediately sprinted towards the World Crossing Golden Ship.

"Celestial Venerable Ling, I'll deal with Celestial Venerable Xu!"

He shouted loudly, "The creation divine weapon was created by you, go deal with it!"

Celestial Venerable Hao didn't mind. He walked towards the Patriarch Creation Palace and said leisurely, "The creation divine weapon has fused with the Dao of Tai Su. Aunt Tai Su's accompanying treasure is no longer Celestial Venerable Ling's divine weapon. Heaven Duke still thinks that Celestial Venerable Ling can destroy the creation divine weapon, isn't he overestimating her?"

Qin Mu said, "Celestial Venerable Hao, could it be that you plan to let High Lord Ling Yu enter the body of the divine weapon Celestial Venerable Yu?"

Celestial Venerable Hao said with a smile, "Celestial Venerable Mu is indeed smart, but not smart enough. Killing Aunt Taisu is the most crucial step for me to unify the world. After obtaining the supreme treasures of the Great Simplicity Dao and the Great Simplicity Dao, I can control the creation divine weapon and create as many divine weapons as I want. As for the materials needed to create the divine weapon Celestial Venerable Yu, Earth Count's corporeal body is my material."

"The agreement between High Sovereign Ling Yu and me is to revive him. I'm not like you, I will keep my promise and let him borrow the divine weapon Celestial Venerable Yu to revive."

He brought the Dao fruits of Qin Mu and Ling Yu to the Patriarch Creation Palace and said, "These divine weapons, Celestial Venerable Yu, are the capital to kill You You, Yue, and the rest. However, my goal isn't that simple. I still need to lure Celestial Venerable Ling over and use the treasures of the four young masters of Miluo Palace to kill her. Heaven Duke has already gone to replace her and let her come over."

Qin Mu suddenly said with a smile, "You said that you can revive High Venerable Ling Yu, so can you undo the red knot I left behind? If you can't undo the red knot, High Venerable Ling Yu will only die."

Celestial Venerable Hao's pupils contracted, and his gaze landed on the red rope that had pierced through Lang Xuan's primordial spirit and Ling Yu's Supreme Dao Fruit.

"I really can't undo it."

After a moment, Celestial Venerable Hao said apologetically, "I'm sorry, High Venerable Ling Yu. I can't fulfill our promise. You can only die."

Chapter 1602: The Death Of High Venerable Ling Yu

'In that case, Celestial Venerable Hao isn't willing to fulfill his promise?'

In the Dao Fruit, High Sovereign Ling Yu's consciousness came over, and he said coldly, "You said it so well just now, so you are jackals of the same tribe as the seventh young master! Hehe, the servants of the third and fourth young masters are the same as them! This is the reason why I rejected the master of Miluo Palace when he invited me to join him!"

Celestial Venerable Hao couldn't be bothered to talk to him, and he placed his palm on the red knot.

The red rope didn't have any power. In the Myriad Dao Heavenly Wheel, Qin Mu said lazily, "Brother Hao wants to use me to kill you, but have you asked me?"

Celestial Venerable Hao chuckled, and the divine art of the Ruins of End burst forth, swallowing up both Ling Yu's Dao fruit, God Emperor Lang Xuan's primordial spirit, and the celestial heavens!

After a moment, his expression turned grim. The divine art of the Ruins of End had dispersed, and the primordial spirits and celestial heavens of High Supremacy Ling Yu and God Emperor Lang Xuan were still there. Even Qin Mu's red rope hadn't been refined by his Great Abyss of the Ruins of End divine art.

High Sovereign Ling Yu said indifferently, "I survived the great calamity of destruction, so what can you do that can compare to the great calamity of the universe?"

Celestial Venerable Hao had a grave expression.

High Sovereign Ling Yu had seized Lang Xuan's primordial spirit. The power in the Dao fruit was too strong, and he couldn't even refine Lang Xuan's primordial spirit!

Qin Mu's voice rang out, and he said faintly, "High Venerable Ling Yu, the reason why you are undying is because of my divine art. If I hadn't suppressed that Calamity Breaking Sword hidden in your Dao Fruit, you would have already died."

High Sovereign Ling Yu snorted coldly. "Seventh young master, do you think you can kill me?"

Qin Mu sneered. "You only have one Dao fruit left, so why can't I kill you?"

High Supreme Spirit Jade laughed loudly. "I survived the calamity of the universe's destruction, so what ability do you have to kill me?"

Qin Mu laughed loudly. "Just a mere Dao Fruit, what right do you have to be so arrogant in front of me? As the seventh young master of the Miluo Palace, I have my ways!"

"Miluo Palace, only the master of Miluo Palace is still considered to be presentable. Other than him, everyone else is a bunch of trash!"

"What bullshit young master? He's just a bunch of trash that only dares to borrow the power of the Miluo Palace to transcend the tribulation. Those who are truly capable rely on themselves to transcend the tribulation!"

Celestial Venerable Hao blinked his eyes and waited quietly. He looked forward to seeing them fight to the death.

Both of them found it hard to suppress their anger, and the more they spoke, the harder it was to restrain themselves.

Suddenly, Qin Mu sneered and said, "High Venerable Ling Yu, I can undo the red knots and also erase the Calamity Sword in my Dao Fruit. Do you want to join hands with me?"

Celestial Venerable Hao laughed.

"Alright! Let's work together!" High Supreme Ling Yu said straightforwardly.

The smile on Celestial Venerable Hao's face froze.

"Do you need me to make an oath?"

"No need."

Qin Mu's voice came from the Myriad Heavenly Wheel. "If you break your promise, I have ways to deal with you!"

"Alright!"

High Sovereign Ling Yu said resolutely, "When do we attack?"

Celestial Venerable Hao was alarmed and immediately executed the Myriad Dao Heavenly Wheel. However, at this moment, Qin Mu suddenly raised his index finger and stabbed forward.

Boom!

The center of the Heaven Wheel of Myriad Dao exploded, and a majestic purple light came rushing over with overflowing power. Wherever it passed, everything was turned into powder!

Primordial Finger!

Celestial Venerable Hao flipped backward and dodged the attack. However, Qin Mu's finger wasn't the same as the previous one. The previous one was just a simple finger with no change in power.

Now, Celestial Venerable Ling had imparted her forty thousand years of comprehension to Qin Mu, and Qin Mu had comprehended the countless transformations of the Dao markings of Miro Palace. Not only were they stronger, but they were also unpredictable.

When Celestial Venerable Hao dodged, he saw that finger turning into a purple sword and slashing towards his waist!

He collapsed on his back, and the purple sword slashed across his upper body, slicing through his clothes before stopping.

Cold sweat broke out on Celestial Venerable Hao's forehead. He moved his feet and shot backward while sticking close to the ground. The purple sword slashed down at the center of his legs, and a purple light chased after him!

At that moment, a divine weapon Celestial Venerable Yu was created. Celestial Venerable Hao immediately controlled the divine weapon Celestial Venerable Yu and headed straight for the Myriad Dao Heavenly Wheel.

In the Myriad Heavenly Wheel, Qin Mu resisted the attacks of the heavenly wheels and raised his cultivation to the extreme. Under his magic power divine arts, Celestial Venerable Hao's thirty-five celestial palaces almost stopped operating.

He tried his best to squeeze out, but the divine weapon Celestial Venerable Yu had already reached him.

The divine weapon Celestial Venerable Yu shouted, and his hands slapped down on his head!

Just as the divine weapon Celestial Venerable Yu was about to smash his head into pieces, High Supremacy Ling Yu controlled God Emperor Lang Xuan's primordial spirit and crashed into the body of the divine weapon Celestial Venerable Yu. The god tumbled and rolled, unable to stabilize his body!

Celestial Venerable Hao controlled the divine weapon Celestial Venerable Yu to climb up, but he had already controlled Lang Xuan's primordial spirit to come in front of him again. This primordial spirit clasped its hands together and shot towards him.

Celestial Venerable Hao raised his hand to block, but it was already too late. Lang Xuan's primordial spirit tunneled into the heart of the divine weapon Celestial Venerable Yu's brows.

Within the body of the divine weapon Celestial Venerable Yu, Celestial Venerable Hao's consciousness burst forth to block Lang Xuan's primordial spirit. Celestial Venerable Yu stretched out his hands and grabbed the legs of Lang Xuan's primordial spirit, pulling it out forcefully.

The Dao fruit in Lang Xuan's primordial spirit swirled, and his consciousness burst forth. Lang Xuan's consciousness was much stronger than Celestial Venerable Hao's. He could be said to be the number one person below Lang Wo.

Lang Xuan was already dead, but when High Supreme Ling Yu seized him, his control over his consciousness was even higher than Lang Xuan's!

In his previous life, he had once possessed one of the five Grand Primordiums of the sixteenth universe, Grand Primordium. He was able to control Lang Xuan's consciousness with ease. After the impact of this consciousness, Celestial Venerable Hao's consciousness in the divine weapon Celestial Venerable Yu's body was completely wiped out.

High Sovereign Ling Yu immediately took over the corporeal body of the divine weapon Celestial Venerable Yu and let out a long sigh of relief. He was delighted.

He had finally survived the apocalypse and gained a firm foothold in the future universe!

On the other side, Celestial Venerable Hao's body flew up and avoided the power of Qin Mu's finger. He unleashed all kinds of divine arts to weaken the power of the Primordial Finger. He shouted, "Celestial Venerable Mu, let the prehistoric achievers descend into this universe alive and be punished by the heavens!"

Qin Mu laughed loudly and rushed out of the Myriad Heavenly Wheel.

Just as he broke free, the Myriad Dao Heavenly Wheel spun rapidly and landed behind Celestial Venerable Hao. Celestial Venerable Hao raised his hand and smacked forward heavily. Boom, boom, boom. Layers and layers of the Myriad Dao Heavenly Wheel of Darkness spread out.

Qin Mu's Primordial Finger came forth and pierced through the divine arts of the heavenly wheels and the 28 heavenly wheels. Its power was still not completely obliterated!

Celestial Venerable Hao shouted as he clenched his fists and punched forward frantically. Countless punches were thrown in an instant.

When the power of Qin Mu's finger was completely wiped away, his hands were already dripping with blood and trembling from the pain.

Qin Mu raised his hand to summon the Calamity Sword and stood not far from him.

On the other side, High Supremacy Ling Yu was already familiar with the divine weapon Celestial Venerable Yu. He also walked over.

The life wheel in Celestial Venerable Hao's head rotated slowly, and his gaze flickered. "High Venerable Ling Yu, if I die, I will be swallowed by the blood sacrifice formation of Youdu. The three young masters and four young masters of Miluo Palace have already accumulated enough power. Even though it's not enough for them to descend, it's not difficult for a Dao accomplished practitioner to descend."

Celestial Venerable Ling Yu stopped, and Celestial Venerable Hao retreated step by step. He revealed a smile and said, "High Venerable Ling Yu, you are the same kind of person as the ten Celestial Venerables. You have great ambitions. You didn't rely on the Miluo Palace not because you don't trust the young masters of Miluo Palace, but because you don't want to be a servant. Your goal is to surpass the young masters of Miluo Palace and become the ruler of this universe, right?"

Qin Mu's heart trembled, and he turned to look at High Venerable Ling Yu. "High Venerable, are you also such a secular person?"

Hierarch Ling Yu sighed and said bleakly, "I really want to deny it, but I just happen to be such a secular person. What's the point of just living? As a

person who has achieved the Dao, I should have more pursuits, to pass the time of the future and make life interesting."

Qin Mu was disappointed. "So you aren't reliable either."

Celestial Venerable Hao stopped, and footsteps came from behind him. It was Celestial Venerable Ling's footsteps.

Celestial Venerable Ling came to this Patriarch Creation Palace.

Guru Ling Yu's gaze landed on Celestial Venerable Ling, and he immediately sensed that her cultivation wasn't high. He didn't mind and said with a smile, "This body isn't suitable for me. I can barely use it, but I can't guarantee that it will bring me into the Ultimate Void to entrust my Dao fruit."

He swept his gaze around and looked at the six prism pillars in the broken pieces of the Great Overarching Heaven Net.

"The fourth young master of Miro Palace is still talented to be able to design such an intricate blood sacrifice method. I just need to make some slight changes and I can use the blood sacrifice."

He opened his arms and laughed loudly. "As long as the corporeal body of Tai Chu descends, we can rule this universe forever. No one will be a match for us! You!"

His gaze landed on Celestial Venerable Hao. "You and your forces of the celestial heavens, submit and live."

Cold sweat broke out on Celestial Venerable Hao's forehead, and he immediately realized that he had been locked onto by High Venerable Ling Yu. That was the aura of the pure Tai Chu Dao. The Dao of Tai Chu, the 36 levels of the Dao Realm was the Dao Realm that his father, Tai Chu, dreamed of!

The power was so strong that not only did it threaten his body, but even if his body that had achieved the Dao came, he would still be no match for High Venerable Ling Yu!

Not only that, he even heard Celestial Venerable Ling's footsteps approaching him!

High Sovereign Ling Yu turned to look at Qin Mu and said with a smile, "The seventh young master of Miluo Palace? Seventh young master can be loyal to the master of Miluo Palace or to me. I'm not inferior to the master of Miluo Palace."

Qin Mu said with a smile, "The previous person who spoke like this has already been beaten down by the master of Miluo Palace to the Fourth Universe Era."

High Sovereign Ling Yu didn't mind. "A mediocre talent."

Celestial Venerable Hao's pressure became greater, and his forehead was covered in cold sweat. He suddenly gave a loud shout and forced himself to escape under the pressure of High Sovereign Ling Yu!

His body moved, and High Sovereign Ling Yu smacked his palm out. Celestial Venerable Hao suddenly split open the Youdu sky, and a Ruins of End abyss appeared in front of him. He threw himself into it in a flash.

High Sovereign Ling Yu's palm force followed closely and smashed into the huge abyss. The void trembled non-stop as fresh blood flowed out. The blood seeped out from the void and stretched for ten thousand miles, looking like Youdu was bleeding.

"Eh? He escaped into the Ruins of End below Youdu? To not die, he must have some abilities."

Guru Ling Yu's gaze landed on Celestial Venerable Ling, who was walking over, and he smiled. "Are you here to rely on me?"

"No."

Qin Mu shook his head and said, "High Venerable Ling Yu, she's here to send you on your way. I told you before that if you break your promise, I have ways to deal with you. Do you still remember?"

High Venerable Ling Yu frowned. Suddenly, Qin Mu's divine art burst forth and attacked him with unchanging divine art!

High Venerable Ling Yu raised his hand to block, and his Grand Primordium Divine Ability burst forth. A vast and copious power attacked Qin Mu as he said coldly, "Seventh young master, you have disappointed me!"

His magic power overflowed into the sky and suppressed the unchanging divine art to the point where it couldn't unleash its power. This vast power could even crush Qin Mu into fine powder, making his unchanging divine art completely ineffective!

The power of the 36 Heavenly Dao realms of the Absolute Beginning Dao was terrifying and unimaginable!

Qin Mu didn't dodge and grabbed the Tai Yi walking stick to block in front of him. He waved the five fingers of his other hand as though he was playing an ancient zither. Even though his five fingers were smeared in the air, there was still the sound of a zither.

Celestial Venerable Yue's Extreme Void was pushed to its limits by him!

Boom!

High Sovereign Ling Yu's thirty-six heavens of Absolute Beginning's divine art bombarded over and destroyed Qin Mu's divine treasures, leaving only the World Tree. His corporeal body was almost completely destroyed, and only the hand that was holding onto the Taiyi walking stick was still there!

Celestial Venerable Ling's figure appeared in front of High Supremacy Ling Yu and pointed at the heart of his brows.

"What are you doing?"

High Supreme Spirit Jade frowned and lowered his head to look at the woman. Suddenly, he seemed to come to a realization and asked with a grim expression, "What divine art is this?"

Celestial Venerable Ling said, "From the Dao markings of the master of Miluo Palace, I comprehended the unchanging divine art of mass energy."

High Venerable Ling Yu frowned and turned around to take two steps. Suddenly, his knees gave way and his body collapsed. His corporeal body crumbled, and his Dao fruit disintegrated.

"So I can't compare to him..." he said in a low voice.

Chapter 1603: Founding Emperor's Sacrifice

"Who is this person?"

Celestial Venerable Ling was bewildered. "Why would he attack you after attacking Celestial Venerable Hao?"

"High Venerable Ling Yu, a person who achieved the Dao before history."

Qin Mu tried to recover his corporeal body, but the Tai Chu Dao of High Venerable Ling Yu still caused him great harm, making it hard for his corporeal body to recover.

High Venerable Ling Yu had possessed the Tai Chu of the previous universe and comprehended the Dao of Tai Chu to the thirty-six heavens of the Dao Realm. Even though he didn't manage to entrust his Dao fruit to the ultimate void of this universe, his abilities were still abnormally powerful.

Just now, Qin Mu had tried to execute unchanging divine art to reverse the flow of matter and revive Lang Xuan to fight with him for the primordial spirit so as to disrupt his cultivation and abilities. However, he didn't have the chance to use the unchanging divine art in front of such a powerful existence.

High Venerable Ling Yu could directly suppress unchanging divine art!

From this, one could see how profound the Dao was!

If Qin Mu hadn't used Celestial Venerable Yue's extreme void divine art to send Celestial Venerable Ling to his side, no one would have been able to do anything to him!

Celestial Venerable Ling nodded and walked towards the creation divine weapon.

It was too difficult for her to figure out why High Sovereign Ling Yu wanted to kill Celestial Venerable Hao and Qin Mu. Since she had already killed him, she might as well not think about the reason.

She was indeed extremely intelligent, but she knew nothing about the ways of the world.

The creation divine weapon of the Patriarch Creation Palace was still operating on its own, and another divine weapon, Celestial Venerable Yu, was taking shape. The creation divine weapon was activated by the supreme accompanying treasure of the Tai Su Goddess.

The path of the Tai Su Realm granted all requests. Celestial Venerable Hao killed Tai Su and seized its Dao technique and accompanying precious treasure. At this moment, the accompanying precious treasure controlled the creation divine weapon, and Earth Count's corporeal body was continuously absorbed into the creation divine weapon to create the divine weapon Celestial Venerable Yu.

The moment this divine weapon Celestial Venerable Yu was created, it immediately rose into the sky and flew towards Celestial Venerable Xu.

Celestial Venerable Ling chased after him, but she couldn't catch up. She could only stop.

She came to the side of the creation divine weapon. This divine weapon was a heavy weapon that she had created back then to create Jue Wuchen. After the Heaven Han Celestial Heavens was destroyed, the creation divine weapon was seized by the celestial heavens. However, no one could understand the marvel of the creation divine weapon.

It was only when Mistress Yuanmu transformed into Shi Qiluo and entered the Patriarch Creation Palace that the creation divine weapon was put to use to forge the divine weapon Celestial Venerable Yu for the celestial heavens.

From Celestial Venerable Ling creating the creation divine weapon to Shi Qiluo controlling it for hundreds of thousands of years, this divine weapon had always represented the supreme path of creation that no one could comprehend!

Celestial Venerable Ling looked up at the creation divine weapon and was about to destroy it when Qin Mu's voice suddenly rang out. "Ling! Stop!"

Celestial Venerable Ling stopped and looked back.

Qin Mu executed Overlord Body Three Elixir Technique and used the paths, skills, and divine arts of the Five Ancient Gods to refine the remaining divine arts of High Venerable Ling Yu. He barely suppressed his injuries and said solemnly, "Celestial Venerable Hao told me earlier that the three young

masters and four young masters of Miluo Palace had given him a treasure that could kill you. If you get close to the creation divine weapon, you might get hit!"

Celestial Venerable Ling examined the creation divine weapon and only saw the accompanying treasure of Sacred Lady Tai Su. She didn't see any other treasures.

Qin Mu supported himself with the Tai Yi walking stick and walked forward with difficulty. The vertical eye at the heart of his brows opened up and examined the creation divine weapon. He tried to find the treasure that came from the fourth young master and said, "It's not easy for you to be proficient in quality energy. No one in the world can kill you anymore, but the paths, skills, and divine arts of Miluo Palace are truly profound. Maybe the fourth young master really has such abilities. You have to be on guard..."

The vertical eye in the heart of his brows could see through the chaos, but when his gaze swept over the creation divine weapon, he couldn't see where the treasure was. He couldn't help frowning.

The creation divine weapon was still creating the divine weapon Celestial Venerable Yu, and another divine weapon was about to take shape.

Qin Mu gritted his teeth and used Overlord Body Three Elixir Technique to suppress his injuries. He walked around the incomparably huge creation divine weapon and muttered, "Maybe it's not a treasure, maybe it's just a divine art, or maybe it's a rune marking. Celestial Venerable Hao must have something to rely on for making such a solemn vow..."

Whoosh—

Another divine weapon Celestial Venerable Yu flew out from the creation divine weapon. The giant soared into the sky and flew towards Ancestral God King.

Celestial Venerable Ling couldn't stop him in time and could only watch him fly away.

Now, the situation had reversed. After Celestial Venerable Huo obtained the divine weapon Celestial Venerable Yu, it was difficult for Celestial Venerable Yue and Lang Wo to suppress him. They were in danger. Heaven Duke and Qin Fengqing were standing on the golden ship, and Celestial Venerable Xu

controlled the divine weapon Celestial Venerable Yu to attack the golden ship. They were in imminent danger!

Celestial Venerable You's primordial spirit had entered another divine weapon, Celestial Venerable Yu, and he could only fight evenly with Ancestral God King who controlled Heaven Duke's corporeal body.

Now that Ancestral God King had another divine weapon, Celestial Venerable Yu, he had crushed this equilibrium!

Celestial Venerable Yu, the divine weapon that flew out from the creation divine weapon, was different from the previous divine weapon. These new divine weapons were created by controlling the creation divine weapons of the Great Simplicity Dao. Celestial Venerable Yu had one or several celestial palaces in his body that could patch up the missing celestial palaces of Celestial Venerable Huo, Celestial Venerable Xu, and Ancestral God King, combining them into a complete celestial heavens!

Celestial Venerable Hao had refined Goddess Tai Su and obtained the Dao of Tai Su. The impact it had on the battle was immeasurable!

Cold sweat rolled down Qin Mu's forehead while Earth Count's corporeal body continued to disintegrate, transforming into a torrential current that surged towards Qin Fengqing, Celestial Venerable Xu, and the creation divine weapon in the Patriarch Creation Heavenly Palace, continuing to create the divine weapon Celestial Venerable Yu!

Another divine weapon, Celestial Venerable Yu, was still taking shape!

'What would the four young masters of Miro Palace give Celestial Venerable Hao? Where would they hide it?'

He became more anxious. Suddenly, Celestial Venerable Ling said, "Mu, there's no need to search anymore. If we delay any longer, Yue'er will die."

"Give me some more time!"

Qin Mu's voice was hoarse. He mobilized all his power and gathered it in the vertical eye at the heart of his brows, looking at the creation divine weapon.

Finally, he saw a thread hidden in the creation divine weapon.

An extremely fine string.

One end of the string was connected to the creation divine weapon, while the other end was connected somewhere else.

This string was hidden in the void, but Qin Mu's gaze followed the string and didn't find the end point.

The zither string stretched out endlessly, passing through Youdu and coming to the ancestral court. Looking along the string, one could only see chaos!

"This string is connected to the prehistoric universe and should be in the hands of the fourth young master. In the Jade Capital City of the previous universe era, his finger was pulling this string!"

Qin Mu's eyeballs rolled around as he thought of countermeasures.

As long as Celestial Venerable Ling touched the creation divine weapon, the fourth young master would let go of the strings and unleash his divine art!

He remembered the two times he had met the fourth young master. During those two times, the fourth young master had sat under the Dao Tree and played a tune that he couldn't play completely.

This thin string should have come from his guqin.

Qin Mu clenched his fists and recalled the zither notes he had heard.

'If he blocks it, he definitely won't be able to block the divine art of the fourth young master. If his divine art comes at him, Celestial Venerable Ling will definitely die! He has been immersed in the paths, skills, and divine art of the master of Miluo Palace for too long, so there's no chance for Celestial Venerable Ling to survive! Thus, only I can play that tune and let him hear the zither notes. He misses his late wife and listens to the tune, so he will have a chance!'

Qin Mu clenched his hands into fists and stretched out his ten fingers. He clenched his fists again, and his ten fingers stretched out again. He was incomparably nervous.

He had never seen the zither score before, but he had heard the fourth young master play it twice. It was just that the tune was too difficult to play!

Celestial Venerable Ling turned back and saw Celestial Venerable Yue and Lang Wo separated by the divine weapon Celestial Venerable Yu and Celestial Venerable Huo. The two of them fought Celestial Venerable Huo with difficulty, but they couldn't block his divine art!

"I can't wait anymore!"

Celestial Venerable Ling stepped forward. "If we delay any longer, Yue'er will die in Celestial Venerable Huo's hands!"

She pointed at the creation divine weapon, wanting to destroy this treasure that she had refined back then!

Qin Mu gritted his teeth and interlocked his ten fingers, splitting them to the sides. The forty-nine zither strings spread out and connected with the string that was connected to the creation divine weapon.

Qin Mu sat in the air, and arms popped out from under his armpits. Six arms and thirty fingers danced on the fifty strings, playing the song he had heard before!

As the zither strings vibrated, Celestial Venerable Ling's finger tapped on the creation divine weapon.

The melody sounded.

Music rang out in Youdu at the same time, and the Celestial Venerables who were fighting could clearly hear that beautiful and charming tune.

At this moment, melodious zither music also came from the ancestral court. The two Great Overarching Heavens clashed, but they couldn't conceal the graceful tune.

Founding Emperor and Celestial Venerable Hao's body that had achieved the Dao fought fiercely. Founding Emperor gripped his sword fingers with his left hand, and the Great Overarching Sword Dao in the Great Overarching Heavenly Sword Dao bloomed and spun. The sword path opened up at this moment, covering the light of the stars!

When he heard the melody of the zither, he was slightly stunned. This sword didn't stab at Celestial Venerable Hao, but instead split open the ancestral court, revealing Youdu. He flashed into Youdu.

Celestial Venerable Hao chased after him, and the two of them collided in the darkness of Youdu before separating.

The two Great Overarching Heavens swirled, and the Dao Tree swayed. Countless divine arts collided, and Youdu trembled.

Founding Emperor went straight for the Patriarch Creation Palace, and Celestial Venerable Hao followed closely behind.

In the Jade Capital City of the ancestral court, chaos was everywhere. In the sky above the torrential river of chaos, a zither string passed through the great calamity and entered deep into the sixteenth era.

In the great calamity of destruction, there was a Dao Tree that had seven Dao fruits hanging from it. Ripples were created in the long river of primal chaos, protecting a pure land.

The fourth young master sat under a tree with an ancient zither on his knees. This ancient zither was different from the rest and had fifty strings.

He was originally in the tenth era, but now he was in the sixteenth era.

His little finger hooked onto one of the strings and pulled it open.

At this moment, the strings of the zither vibrated, and a familiar melody came from it. The fourth young master was stunned. As he listened to the melody, his eyes revealed his longing.

He couldn't help but close his eyes and listen to the tune that made his soul wander. Two streams of tears rolled down his cheeks.

He seemed to have returned to the days when he was with his wife.

The melody coming from the zither strings intoxicated him, and the longing in his Dao heart grew stronger. Suddenly, the zither notes changed.

"Old Seven, you're remarkable. You almost succeeded!"

The fourth young master suddenly opened his eyes and woke up from his intoxication. He released his little finger.

In the Patriarch Creation Celestial Palace, the creation divine weapon suddenly distorted and collapsed inward with Celestial Venerable Ling's

finger. In the blink of an eye, it was twisted into a huge golden ball by its own power, completely destroyed!

At the same time, Qin Mu's temperament made a mistake. Even though it was just a small mistake, it made his hair stand on end. Without any explanation, he leaped into the air and pounced towards Celestial Venerable Ling.

Before Celestial Venerable Ling could come back to her senses, she was already in his embrace. Qin Mu carried her and rushed out frantically.

The zither string that was coiled around the creation divine weapon trembled. The supreme power from the previous universe erupted and caught up to them. That power made people despair and made them powerless to resist!

At this moment, Founding Emperor and the Great Overarching Heavenly Sword of the Sword Dao descended and blocked them from the supreme divine art. The most dazzling light burst forth from the Sword Dao at this moment!

"Qin Ye!"

Qin Mu's eyes were wide open as he threw Celestial Venerable Ling towards Founding Emperor. All of his magic power transformed into unchanging divine art that surged towards Founding Emperor!

The fourth young master's divine art was to completely obliterate Celestial Venerable Ling. It wasn't easy for Celestial Venerable Ling to cultivate the quality energy, so it was almost impossible for her to be destroyed. This also meant that the power of the fourth young master's attack was so strong that even a Dao Concentrator could easily kill her!

Founding Emperor seemed to have heard his voice and turned around to smile at him.

Behind him, the Great Overarching Sword Dao of the Great Overarching Heaven shattered into powder under the divine art of the fourth young master.

"We'll meet again in the Hall of Chaos."

Founding Emperor revealed a smile. Qin Mu's unchanging divine art stretched out, but before it could reach him, Founding Emperor was completely annihilated by that terrifying divine art.

Qin Mu's body froze, and he saw a Dao flower floating down and spinning. It flew past his ear and floated towards the distant golden ship.

On the golden ship, a hazy figure raised his hand and pinched the withered Dao flower.

In the Dao Flower, the sword path was crumbling, but the moment it landed in his hands, it stopped crumbling.

That figure pinched the Dao flower and sighed faintly. He turned around and walked into the ship.

His figure gradually turned from illusory to corporeal. There was a sword at his waist, and his figure was proud and aloof.

Chapter 1604: Torn Dao Heart

Qin Mu's mind was muddled, and his mind was filled with scenes of Founding Emperor facing death.

He was almost unable to gather his spirit and mobilize his scattered vital qi. It was hard for him to gather his gaze and focus it.

It was as if his Dao heart had been concentrated by lightning, and all of his strength was sucked dry.

He raised his hand to grab forward, but he couldn't grab anything.

The Great Overarching Sword Dao Heaven, the Dao Tree, and Founding Emperor turned into nothingness.

The attack of the four young masters of Miluo Palace wasn't targeted at Founding Emperor, but at Celestial Venerable Ling, who was the hardest to kill. Founding Emperor had died for Celestial Venerable Ling, so Founding Emperor naturally had no chance of surviving.

However...

Qin Mu suddenly felt a tearing pain in his heart, but why was it Founding Emperor?

Founding Emperor should have been in the ancestral court, resisting Celestial Venerable Hao's ascension to the Dao. Why would he suddenly appear here to block the death tribulation for Celestial Venerable Ling?

Qin Ye, on the first page of the Qin Family register, was this name. Qin Mu couldn't forget this name.

When he flipped open the Qin Clan register when he was young, he was very proud that his name could be listed on the family register. He was full of respect for Founding Emperor Qin Ye and felt that he was an incomparably majestic and tenacious existence.

Later on, when he knew what Carefree Village was, the Founding Emperor Qin Ye in his heart crumbled. Qin Ye became a person who only cared about profit in his heart, a muddle-headed ruler, a scum who had single-handedly buried Founding Emperor Era and abandoned the people like they were walking on shoes.

Later on, he met the young Qin Ye in the first year of the Dragon Han Era. They fought, but Qin Mu also met a Qin Ye that didn't match his guess.

Qin Ye was calm, shrewd, and didn't show his emotions. He had a remarkable bearing, as if no setback or blow could knock him down.

However, in Qin Mu's heart, he was still full of prejudice against him. He felt that he still had to be responsible for the sufferings of the future generations. He felt that he had changed his original heart over the long years and had become an incapable ruler who only knew how to enjoy life in Carefree Village.

Later on, Qin Mu finally found Carefree Village and entered it. What he saw was the declining will of the older generation and the indulging youths.

Only Qin Ye maintained his Dao heart like the stabilizing needle of Carefree Village, but even he couldn't change the current situation of Carefree Village.

Until Qin Mu's arrival.

Qin Mu had always had a grudge against him, and Qin Ye wanted to borrow his battle to reignite Carefree Village's fighting spirit.

During their battle in Carefree Village, two people with different personalities saw their own shadows on their bodies.

After that battle, Qin Mu was removed from the Qin Family register and became the Celestial Venerable Mu that Founding Emperor had mentioned.

After that, they met many times and would still fight occasionally. However, Qin Mu no longer had any resentment towards him.

In Qin Mu's heart, he still treated himself as a member of the Qin Family and a descendant of Qin Ye. However, he had to protect Eternal Peace.

Celestial Venerable Mu of Eternal Peace couldn't be a descendant of Founding Emperor.

Eternal Peace had to draw a clear line with Carefree Village. Otherwise, Eternal Peace's development would be extremely unfavorable. This didn't just involve the struggle for power, the struggle for the lives of the people, the people's support, and the attitude of the celestial heavens.

Since Eternal Peace could be saved, they couldn't be involved with Carefree Village.

Founding Emperor and Qin Mu maintained the relationship of Dao friends just like that. There was no difference in seniority, no kinship.

However, at this moment, Qin Mu still felt the longing in his Dao heart, the pain of his loved ones dying.

"Why did you suddenly appear..."

Celestial Venerable Hao's figure suddenly appeared in his line of sight, and Qin Mu turned around. The five fingers of his palm moved the space as if he was plucking the strings of a zither that had no traces of movement.

The sound of a zither rang out, and Celestial Venerable Xu's figure vanished. In the next moment, she appeared in front of Celestial Venerable Hao.

Celestial Venerable Hao was astonished and hurriedly retreated.

Qin Mu turned around expressionlessly and whistled towards the golden ship.

On the deck of the World Crossing Golden Ship, Celestial Venerable Xu controlled the divine weapon Celestial Venerable Yu. Thirty-six celestial palaces appeared behind the head of the divine weapon Celestial Venerable Yu, forming the complete celestial heavens!

The power of the celestial heavens was too strong, and the divine weapon couldn't last much longer. However, it was enough for Celestial Venerable Xu.

In this short period of time, she could kill Qin Fengqing and the reincarnated Heaven Duke and seize control of Youdu!

At this moment, Qin Fengqing's magic power was rising in a straight line, and he could already be considered a small Celestial Venerable. His magic power was equivalent to a Celestial Venerable on the Emperor's Throne Realm who had cultivated 18 celestial palaces.

However, Qin Fengqing was too immature. No matter if it was his battle methods or battle experience, he was much inferior to her.

The only one that posed a threat to her was Heaven Duke. However, the threat of Heaven Duke came from the power of the fifty heaven path treasures. If she wanted to fight with the perfect celestial heavens' divine weapon Celestial Venerable Yu, she would be slightly inferior.

Celestial Venerable Xu was about to kill the two of them when the golden ship suddenly changed direction and gradually accelerated. Celestial Venerable Xu looked over in a hurry and saw the golden ship sailing towards Qin Mu.

At the same time, Qin Mu was also rushing towards the golden ship.

Celestial Venerable Xu didn't hesitate and hurriedly leaped up from the golden ship. The golden ship shone with light, trying to keep her on the ship. The divine weapon Celestial Venerable Yu punched out, breaking the golden light. Celestial Venerable Xu stood on the shoulder of the divine weapon Celestial Venerable Yu and took the chance to escape.

Qin Mu landed on the golden ship, and his empty gaze moved away from Celestial Venerable Xu's face.

Fear rose in Celestial Venerable Xu's heart, and she didn't dare to go forward.

Suddenly, Celestial Venerable Hao appeared beside her and pulled her away.

Celestial Venerable Ling's figure appeared, and she pointed at nothing.

Qin Mu's gaze landed on Celestial Venerable Hao, and he shifted his gaze away. The golden ship turned around and rushed towards Celestial Venerable Huo.

Over there, Celestial Venerable Huo attacked Lang Wo and Celestial Venerable Yue at the same time.

The golden ship flew over, and Celestial Venerable Huo hurriedly dodged it, flying towards Celestial Venerable Hao.

The three of them stood side by side as they watched Qin Mu bring Celestial Venerable Yue and Lang Wo onto the golden ship.

Celestial Venerable Huo raised his eyebrows and was about to block the golden ship when Celestial Venerable Hao raised his hand and said, "A cornered beast still fights. If we push them too hard, they will fight to the death. Our goal has been achieved, let them go."

Celestial Venerable Huo was slightly stunned and didn't understand.

Celestial Venerable Hao smiled and said, "My original intention was to get rid of Celestial Venerable Ling, but I didn't expect to miss out on a side carriage. Qin Ye is dead."

Celestial Venerable Huo's body trembled violently, and he bowed. "Congratulations, Your Majesty, congratulations!"

Celestial Venerable Hao laughed loudly and flew towards Ancestral God King. Celestial Venerable Xu and Celestial Venerable Huo hurriedly followed him.

The golden ship was still accelerating as it rushed towards Ancestral God King. Celestial Venerable Hao's consciousness immediately fluctuated, informing Ancestral God King to avoid it. Ancestral God King was about to kill Celestial Venerable You, but he hurriedly dodged when he heard Celestial Venerable Ling's words. He then saw Celestial Venerable Ling's figure appear where he was standing, and he broke out in cold sweat.

He hurried to Celestial Venerable Hao's side and whispered, "Brother Hao... Your Majesty, what happened?"

"Qin Ye is dead!"

Celestial Venerable Hao laughed loudly and looked around proudly. "Qin Ye is a thorn in my side. Now that he's dead, the overall situation is set. Bandit Mu no longer has any desire to fight. He is the backbone of the traitor. He knows that after Qin Ye dies, he will definitely lose this battle, so he's trying his best to protect the others. He has already lost his motivation. Youdu has fallen into my hands, and no one in this world can shake the foundation of the celestial heavens."

Ancestral God King's heart trembled violently, and he knelt down on one knee. He cupped his fists with both hands and raised them high above his head. "Peace of Youdu will be a great day for Your Majesty to ascend the throne! I'm willing to be the first emperor emeritus, and I'm willing to show my benevolence. Please abdicate!"

Celestial Venerable Huo also hurriedly bowed and said, "Your Majesty has great talent and great vision. You have quelled a million years of turmoil and restored peace to the world. Such achievements have never been seen since the creation of the universe! Your Majesty has ascended the throne and conformed to the heavens. I'm willing to be a memorial person!"

Celestial Venerable Xu hesitated for a moment before bowing as well. "Once His Majesty ascends to the throne, Grand Imperial Sire will definitely be overjoyed and give up his position!"

When the two ancient gods of Tai Chi saw the golden ship flying over, they immediately abandoned their Taishi and came to Celestial Venerable Hao and the rest. When they saw the three Celestial Venerables kneeling down, they couldn't help but look at each other in the eyes. They bowed in unison and said, "We and Dao Brother Tai Chu are both the five Grand Supreme, and we are willing to go forward and be a lobbyist. Dao Brother Tai Chu is sensible and will definitely submit."

Celestial Venerable Hao laughed loudly and looked at Qin Mu on the golden ship. He said leisurely, "Celestial Venerable Mu, do you see the general trend? Today, the general trend of the world is to submit to me. If you resist, it will be futile! Instead, you will implicate the human race and the lifeforms after the beginning. When the nest is overturned, there will be no eggs left. Do you want all the people in the world to die in your hands?"

Qin Mu stood at the bow of the ship in a daze and stood opposite him.

"Youdu has already fallen into my hands."

Celestial Venerable Hao spread out his five fingers and gripped them tightly. He said with a smile, "With the Grand Emperor beheaded, the Grand Primordium will surrender, and Founding Emperor will fall. You guys have no chance of winning."

The golden ship was in an uproar.

Heaven Duke hurriedly said, "Celestial Venerable Mu, Founding Emperor is really..."

Blood leaked from the corner of Celestial Venerable You's mouth, and his face was pale. Divine King Lang Wo was silent, and Celestial Venerable Yue looked at Celestial Venerable Ling.

Celestial Venerable Ling nodded gently.

Qin Fengqing sat on the ground in a daze as though he had lost all his strength. He suddenly raised his head and said in a wooden voice, "Little brother, I want to go home. Send me back, I miss mother..."

Qin Mu didn't move. He loosened his grip on the hilt of the Calamity Sword and tightened it again, but he let go again.

"Does Celestial Venerable Mu think you can still turn the tables?"

Celestial Venerable Hao said with a smile, "You know better than me what's in the Ruins of End. When my mother returns, all of you will have no way to survive. With help from the right path, without help from the wrong path, if you continue to fight, all of you will be buried here. Celestial Venerable Mu, you are someone who understands the times. If you die in Youdu, the consequences will be the descent of the prehistoric successors. I believe you aren't willing to see this, right? Don't worry, as long as you surrender, I won't let the prehistoric successors descend."

He smiled and said, "I will recruit you. As long as you surrender, I will confer you the title of ten Celestial Venerables. Not only will Eternal Peace survive, but I will also not touch Carefree Village. However, if you dare to say no, Eternal Peace and Carefree Village will be turned into ashes!"

Celestial Venerable Huo raised his eyebrows. "Your Majesty, they are rebels, how can they be recruited?"

Celestial Venerable Hao laughed and said, "Minister Huo, am I that kind of emperor with no magnanimity?"

Celestial Venerable Huo didn't dare to say anything.

Suddenly, the golden ship sailed away and vanished into the darkness.

Celestial Venerable Huo let out a sigh of relief.

Celestial Venerable Hao smiled and said, "He will head to the celestial heavens. He is an understanding person."

He raised his head and heaved a sigh of relief before slowly opening his arms.

"This world is finally mine!"

The World Crossing Golden Ship's speed became faster as it sailed through the dark Youdu. Because Earth Count's corporeal body was disintegrating continuously, the space in Youdu was also disintegrating continuously.

"Wherever I am, Youdu is!"

Earth Count's corporeal body split into huge pieces of land that floated in Youdu. Youdu also split into pieces and was no longer a whole body.

Some Youdu fragments overlapped with a few heavens, some overlapped with the Primordial Realm, and some connected to the ancestral court.

Everyone stood at the bow of the ship in silence.

With Founding Emperor's death, there was no hope for a comeback.

Suddenly, Heaven Duke saw the body of Earth Count floating on a landmass, and he hurriedly stretched his hand out to pull him onto the ship.

He wanted Qin Mu to summon Earth Count's soul, but he didn't say anything.

Because Earth Count had acted on his own initiative, Founding Emperor's death had resulted in this great defeat. By asking Qin Mu to revive Earth Count, it made them, the ancient gods, seem too selfish.

"I will revive Earth Count."

Qin Mu's eyeballs rolled, and he suddenly said, "However, Celestial Venerable Yun is still in the Ultimate Void, fighting with Tai Chu. We should go there first... I need to calm down, calm down..."

He sat down powerlessly and suddenly felt the world spinning around him. He collapsed on his back.

"Give him a break."

Celestial Venerable Yue said in a low voice, "It shouldn't be difficult for me to send Celestial Venerable Ling to the Ultimate Void and scare Tai Chu away."

Celestial Venerable Ling nodded gently.

Qin Mu heard her words and slowly closed his eyes. His vision was pitch black, and two streams of tears flowed from the corners of his eyes to his temples, soaking the hair behind his ears.

Was there no hope?

Yes, there was no hope left, he thought to himself.

Celestial Venerable Yue led everyone away. She knew that Qin Mu didn't want anyone to see his weak side, and they didn't want to see it either.
