

Hidden Billionaire Chapter 656 - Go out Foraging

C656 Go out Foraging

Seeing that Xi Chengwen kept pestering Wu Tian, Loong Yun hurried over to help him out.

"Manager President Zhao, the company still has a meeting waiting for you."

As she spoke, she glanced at Xi Chengwen. Although she didn't know where Wu Tian got her from, Loong Yun still couldn't stand this girl with such a unique personality.

She seemed to have come out of a nightclub at the bar...

Compared to Huang Lan, she didn't have the same feeling of being a celebrity.

"Right, I forgot about that. Loong Yun, let's go now."

With that, Wu Tian ignored Xi Chengwen and walked out of the meeting room.

He was afraid that if he were to say too much, he would expose himself.

Xi Chengwen looked at Wu Tian's figure as he walked away, feeling a little suspicious.

Zhang Chi leaned over with a happy smile on his face as he asked softly: "What's wrong?"

"I keep having the feeling that this Manager President Zhao has a familiar feeling ..."

Xi Chengwen thought for a moment. She felt that he was very similar to Wu Tian, but she couldn't tell how. After all, the difference in their appearances was too great.

However, the way he spoke and his figure seemed to be exactly the same ...

Just now, when the two of them were leaving, President Zhao actually called out Secretary Loong Yun's name. It seemed very natural, and Secretary Loong Yun didn't feel anything was amiss.

"Tell me, could this Manager President Zhao be President Wu?"

Xi Chengwen slowly said her conjecture, but Zhang Chi immediately rejected it.

"How is that possible, didn't something happen to President Wu!?" "You might have suffered too much of a shock, but when you look at others, you feel like he's President Wu."

"Is that so? "It really is possible. It seems like I should take a good rest."

Since she didn't have any conclusive evidence, Xi Chengwen could only follow Zhang Chi's instructions and forget about it for the time being. Since they were about to get busy, they could put all their effort into the new job.

"Did that little girl notice something? Tell me, why did she ask me so closely? I think he's going to ask President Wu what happened next ..."

After leaving the first floor, Wu Tian let out a long breath and hurriedly returned to the secret room.

The more he thought about it, the more he felt that this matter was unreliable. However, at this time, there was no one who could share this matter with him. He could only talk to himself in the room.

Loong Yun was very busy right now. Many companies were managed by her, so she didn't have the time to stay with Wu Tian.

This made Wu Tian feel quite good. He was missing a person to watch over him, so he could do whatever he wanted.

In the past, as he was the leader, he had to take responsibility for a lot of things. Therefore, there would always be a bunch of people chasing after him, asking him to review the documents or sign them.

However, that was not the case now. Wu Tian was dead to the outside world. All the documents and approvals had been transferred to the new leader, completely freeing Wu Tian.

However, to Wu Tian, this liberation was too boring and he had no idea what to do.

Those brothers of the Wudu Sect have not returned since the time they left.

Su Cancan was also elusive, and basically, he was nowhere to be seen.

Wu Tian was bored to death, so he could only find a sofa to sleep on.

But before he could close his eyes, he saw Su Wenxin walking towards him from the door.

She was already dressed and looked like she was going to go to a nightclub for the day.

"Master, you're up ..."

Wu Tian stood up quickly and said very politely to her.

"That's right. Let's go, let's go out and enjoy ourselves!"

Su Wenxin hadn't even eaten yet, and her stomach rumbled as she spoke.

"Is your stomach hungry? I'll take you to dinner."

Wu Tian smiled and immediately knew what he should do.

"This won't do, if I eat, then I'll drink less wine ..."

Su Wenxin quickly shook her head. She rubbed her belly as if she was planning a big battle tonight.

"Master, you have to drink less. This matter is decided! "Regardless of whether you agree or not, I will take you out to eat!"

Since Wu Tian was fine now, he could take her out for a stroll. As for going to the nightclub, it would be better if he didn't go.

That place was too chaotic, Wu Tian was too lazy to provoke those people.

Su Wenxin didn't object and followed Wu Tian out.

When it came to eating, S City was very prosperous. There were dishes in all the different cuisines, Chinese cuisines, Western cuisines, and all sorts of dishes from different countries.

There was only food that you couldn't think of, and there was no food that you couldn't eat. Even some precious delicacies could be bought in some remote restaurants. It's just that most people don't know about it.

This time, Wu Tian brought Su Wenxin to such a restaurant. It didn't look like much.

This was what Su Cancan had told him before, that it was a wild chicken stewed in this place. It was simply the best.

This was also Wu Tian's first time here. He had wanted to try it for a long time, but had never had the time. It just so happened that he had this chance this time.

"Master, this is the best place for our S City to stew chicken. If we haven't come here before, it would be too much of a loss."

Wu Tian quickly gave a simple introduction. Although Su Wenxin said that she wouldn't eat, her eyes lit up when she heard that there was delicious food.

"Really? You are too polite! If only Su Cancan was half as sensible as you! "

Su Wenxin praised Wu Tian with a smile. Both of them were very happy.

There were quite a lot of people in this small place. The two of them sat at a place next to the stairs. It didn't seem that big, but it was quite quiet. After all, it was in the corner.

There were all kinds of people from this place, not expensive restaurants, all in suits and shoes, but in all walks of life.

Wu Tian liked to stay in places like this because he could hear a lot of different things from other people's mouths. Sometimes, business opportunities were just hidden in places like this.

Behind Wu Tian and the others sat another table of people. They were looking forward to the dishes being served by the restaurant owner.

Wu Tian didn't notice them at first, but when he was randomly looking around, he suddenly saw them smoking. The lighter they took out when lighting the lighter was almost exactly the same as the one Loong Yun found earlier.

Hidden Billionaire Chapter 657 - The Secrets of Two Stars

C657 The Secrets of Two Stars

When they first found the lighter, Wu Tian and Loong Yun guessed that it belonged to Shuangxing Company Corporation.

In other words, the assassination of Wu Tian was very likely to have a very direct relationship with the Shuangxing Company Group.

It was just that Wu Tian could not find any evidence nor was there any way to prove it. The most important thing was that at that time, the Shuangxing Company Group had yet to completely enter the market for China.

He couldn't do anything with just a lighter, so he put this matter aside for now.

But he didn't expect that the lighter would appear again, and it was so close to Wu Tian and co., on the table behind them.

Su Wenxin noticed something was wrong with Wu Tian's expression and asked with concern, "What's wrong?"

Wu Tian shook his head and said with a smile that he was fine, but at this time, he had already concentrated all of his energy.

He was prepared to listen carefully to just who the people at the table behind them were and what they would talk about.

Hearing their conversation, it seemed that one or two of them came here with Korea, while the rest brought them here in search of delicacies.

Most of the time, the things that were discussed were about how delicious the chickens were, and didn't mention anything about Shuangxing Company.

They didn't even mention Shangguan Family, or acquisitions or anything like that ...

Su Wenxin became unhappy when she saw Wu Tian always acting so absent-minded and eating in a bad mood.

"What are you doing? Just keep looking behind you, are there beauties more beautiful than me behind you?"

"Ah! Master, no, I don't see any pretty girls. "It's just that I'm a little concerned about it ..."

Wu Tian quickly smiled apologetically at her. He had almost neglected her, so he naturally had to apologize quickly and not make Su Wenxin angry.

"Then what are you doing?" Su Wenxin looked back and saw a table full of people eating. It wasn't that big of a deal.

Moreover, she had sensed it very early on that the people for this week were all ordinary people, and weren't much of a threat to them.

"This, is actually a business matter ..." Wu Tian lowered his voice, afraid that people other than Su Wenxin would hear it, "The people at the back of the table seems to be the people from the company I want to fight against."

Wu Tian didn't say too much, because Su Wenxin might not know much about their situation, so she would only be confused if she said too much.

"So boring ..." Sure enough, after Su Wenxin finished listening, she was not the least bit interested as she pouted and ate her food.

Wu Tian also felt a bit embarrassed. After all, he took her out to eat, and the result was like this.

"I'm sorry, master. I really didn't do it on purpose. It's just that this opportunity is really hard to come by ..."

Wu Tian quickly apologized. In any case, if he apologized more, Su Wenxin might not be as angry.

"Alright, alright. After you finish eating, you should do what you need to do. I should do what I need to do as well."

Su Wenxin was also straightforward. She knew that Wu Tian would not be in the mood to play with her in his current state, so she might as well not bring him along.

Wu Tian didn't agree nor express his opposition. Anyway, it was still too early to talk about this.

The few people over there had eaten and drunk their fill. It was obvious that they were drunk and were beginning to talk big.

"Director Pu, that's not right. Old Brother Pu, look at my mouth, I almost blurted it out."

"That's right. You also have to be careful not to reveal my identity. The situation right now is rather complicated ..."

This person who was called Director Pu spoke with very stiff China and was drinking until his face was completely red. He almost couldn't open his eyes, but he still insisted on this principle.

When Wu Tian heard this, he immediately felt that there was hope. They did not seem to be the kind of people that did not have any intelligence sources as he had imagined. One of them was actually called Director Pu...

Could it be that his identity wasn't that simple?

"Right!" "Look at my stupid mouth. But don't worry, no one will listen to us in this place."

A few of the drunk people were talking, which was very tiring to listen to. However, this person was completely wrong. There was only one person beside them who didn't even eat properly, sitting there and listening to their conversation.

"Haha, I think so too. How could it be so easy to leak information? Besides, what's the secret behind this? The main company wants us to be so careful. "

After drinking the wine, he suddenly spoke a lot. This Director Pu seemed to have a problem with the company's decision, and after saying it, he seemed to be unable to stop.

"We're all workers. If we get the money, then we'll do what we should do."

"Even so, we can't simply misappropriate the funds ..."

Director Pu seemed to be stimulated by the alcohol and wanted to say everything that was suppressed in his heart. If that was the case, he wouldn't feel so upset.

"Misappropriation of funds? "Director Pu, what are you saying? We don't understand at all ..."

"How did you know? Right now, the main company is purchasing a large number of items. The company's cash has long been used up. Now ..." "Wait, if I tell you, you must not tell anyone."

Director Pu realized that he was talking about something very confidential, but he really didn't want this to be known by himself. This is too hard.

"You don't have to worry about that. I don't even know how we'll go back with just the amount we've drunk, let alone saying a few useless words here." Director Pu, no matter what you said here today, I can guarantee that our brothers' 2nd place, Tian Jue, won't remember anything at all ... "

One of the brothers who had drunk too much was lying unconscious on the table, but he still tried his best to say it out loud.

This also made Director Pu relax. Unintentionally, it made Wu Tian ecstatic.

"Then let me tell you in a low voice, the headquarters has misappropriated the National Insurance Fund ..."

"What fund?"

"National Fund ..."

Director Pu repeated it again in a small voice but didn't mention it again after that. He just relaxed a lot and happily drank a lot of wine.

The last few people supported each other. After finishing their meal, they went downstairs and took a taxi. No one knew where they went.

Wu Tian originally wanted to follow him for a while, but after thinking for a while, it seemed like there was no need.

Now, he found out about an extremely important piece of news. He never thought that Shuangxing Company Corporation would actually have such a secret.

No wonder they had so much cash. And they're very generous with their money.

It turned out to be a misappropriation of a country's national insurance fund... This is not a small number... That was hundreds of billions of dollars, if this matter was exposed, Shuangxing Company Corporation would most likely go to jail from top to bottom.

Hidden Billionaire Chapter 658 - Astonishing Move

C658 Astonishing Move

Wu Tian seemed to have found out something big. He couldn't continue taking care of Su Wenxin and hurried back to the company after the meal.

This time around, he even specially gathered almost everyone together ...

Su Cancan seemed to be very sleepy, with curly hair. She sat yawning in the conference room.

After a cursory look, Wu Tian confirmed that most of the leadership had arrived, so it was about time for him to start his meeting.

"I made a big discovery and you might not believe it if I told you. This Shuangxing Company company is about to be destroyed by me."

When Su Cancan heard Wu Tian's words, she suddenly felt that he was just spouting nonsense.

"Is it too boring for you to eat your fill, or is there something wrong with your head? Do you think that's possible?"

Such a large enterprise like the Shuangxing Company Group, would it be possible for it to go bankrupt so easily?

"I knew you wouldn't believe it, but I'm not lying about this because I haven't confirmed it yet, but I already have a preliminary idea. "Yu Naixin, how much money do we have left?"

Wu Tian rubbed his hands in excitement. He was looking forward to what would happen next.

"The amount of money the company can use right now, including the assets we've sold before, is around 5 billion."

"Is there really only this little?" To be honest, this amount was still a bit small. If he was an investor, then this amount of money was barely enough. But if he wanted to fight a financial war, then this amount of money was simply a drop in the ocean.

"What are you trying to do? Why do you need so much money for?"

Su Cancan had no idea what this guy was trying to do.

"It's like this, I'm preparing to go to Korea Country to stock up, and I won't be able to explain more about the details, but this money is still too little, if only I had more it would have been great, at least it would have to be at least 10 billion or even 100 billion."

If Wu Tian wanted to fulfill what he had in mind, the amount of money he had was still a little small.

He might need at least two or three hundred billion.

Su Cancan looked at Wu Tian strangely. She wanted to dig his head off to see what was wrong with him. That way, she could quickly find a doctor for him.

"This number is too big, our corporation doesn't have that much money anyway."

Even if they sold their Wu Group company, they wouldn't have that much money.

"Long Yun, how much funds do we have in the Luzhou?" Right now, Wu Tian looked like he was planning on spending all his money. Everyone thought that he wouldn't use money other than Wu Group.

Previously, even at the most difficult time for Wu Group, Wu Tian did not mobilize the Luzhou's funds. With him suddenly doing this, no one knew what he was planning to do.

"On the Luzhou side, all of our assets added together should be more than ten billion, right?" Loong Yun said calmly, as if the number wasn't exaggerated at all.

"10 billion?" Su Cancan, Yu Naixin, and the others simply couldn't believe it. They all thought that this Wu Tian might just be the boss of a company — the only reason he had a chance to develop himself was because he came to Wu Group.

But who would have thought that this person's assets already far exceeded his Wu Group. It was no wonder that he did not feel the slightest bit nervous from the very beginning.

"That's about enough. Loong Yun and Yu Naixin, you keep some of this money for the running of the company and leave the rest to me." Wu Tian waved his hand. From his words, he had already decided the location of the ten billion.

"You took so much money, aren't you afraid that something might happen?" Su Cancan was very worried. Not to mention Wu Group, he took away all the money from the company. If anything were to happen to Luzhou and they needed more funds, then Wu Tian would run out of money.

"It's okay, it's high risk and high profit, this time believe me, I'm going to do something big, we are the vanguard, I'm going to put all of my money in, as long as we can get a good start and encourage the other groups to follow up, we can definitely destroy Korea!"

Wu Tian finally revealed his true purpose. This sentence shocked everyone present.

"Destroy the Korea?!" Yu Naixin's mouth was wide open in disbelief.

"That's right, this is my final goal. As long as there's a problem with Korea, Shuangxing Company Group's purchase of the companies with China will also stop. This is the plan to surround Wei and save Zhao."

Su Cancan thought that it was impossible. If it was anyone else who said it, she would definitely take it as a joke.

But since Wu Tian was so sure, could it be that he had some sort of magic treasure?

"You can tell us exactly what you plan to do. We won't leak it out."

Although Su Cancan was right and these people were good at keeping secrets, Wu Tian still shook his head without saying anything.

Even after the meeting ended, Su Cancan went to Wu Tian in private and asked a lot of questions. She even wanted to beat around the bush and ask Wu Tian, but she didn't get any news. Su Cancan was infuriated.

This matter had finally opened up a new world. The remaining thing is to stabilize the S City. No matter what Wu Tian plans to do, they first have to stabilize their Wu Group. Otherwise, if the foundation of the company is not stable, Wu Tian won't be able to carry out effective actions.

After knowing that Wu Tian had died, Moka Company had become more and more active. Although Wu Tian and Nangong Ying had managed to swindle a large amount of high-quality assets from their hands and then sold it off.

However, these assets were subsequently bought back by Chen Cheng. This meant that their strength did not decrease, but Chen Cheng spent a large amount of money.

However, this was only the beginning. Now that the Moka Company had begun to expand strongly, coupled with the power of the Shangguan Family, they were wantonly purchasing small and medium-sized enterprises.

These small companies are small in size and have small assets. It could be said that Moka Company's purchase of them was effortless.

Moreover, the amount of money the Moka Company had to pay was also a lot, so all of a sudden, a large number of small and medium-sized enterprises had all received the S City in one go.

After getting this information, Wu Tian was very worried.

He really hadn't considered this. Although these small and medium-sized enterprises weren't big in size, there were too many of them.

If Moka Company could integrate them, it was very likely that they would create a giant enterprise in S City, and they could even monopolize many industries.

At that time, Moka Company would be the biggest enemy of Wu Group, firmly occupying the market and making it impossible for Wu Tian to receive any benefits.

Hidden Billionaire Chapter 659 - Each of Them Had His Own Plan

C659 Each of Them Had His Own Plan

As the saying goes, when there are difficulties, there will be methods. If he thought that Wu Tian would be at a loss for what to do, then he was completely wrong.

Wu Tian thought for a while and suddenly realized that he still had a pretty good chess piece that he didn't use yet, and this was a good opportunity.

Right now, the buying trend of Mecca Company outside was getting more and more heated up. Although they had already completed a batch of the buying, there were still quite a lot of rumors going around, and there were many kinds of rumors.

This was also the best time for rumors to spread. No matter what they said, people would believe them.

As long as a person believed, there would be two people who would believe. When more people believed, even if this was fake news, it would still become real.

Azure Dragon never thought that Wu Tian, who was originally dead, would suddenly call him.

When he heard the sound, his tears flowed down uncontrollably.

"Boss, so you didn't die ..."

"Why are you crying? This is the first time I've heard you cry, what are men afraid of. I'm only doing this for my own safety. I have no choice but to do so. I'm really sorry that I didn't tell you guys."

Wu Tian heard the sound of tears on the other side of the phone and was actually quite emotional.

His group of people were really good to him. They couldn't be described as loyal, but at least they had the same thoughts as him.

"It's good that you're fine, it's good that you're fine."

"Azure Dragon, I came to find you this time because I have something to ask you to do for me. How is Liu Zhendong now?"

Azure Dragon nodded in agreement and then quickly stopped his tears.

"He is very honest now, and he will explain the situation to me everyday. They are currently in an intense battle inside their Red Power."

This situation was what Wu Tian and the others had expected. With so many brothers dead, the underlings would definitely want to be in the limelight.

And their big brother Liang Zhenhai wasn't here. Although they didn't know why they didn't hear any news about him, the people below them would definitely not be able to hold themselves back.

"That's good. Arrange a mission for Liu Zhendong to lead people to look for those small and medium-sized enterprises. Warning them, when Mecca Company is purchased, they are not allowed to pay high prices, otherwise, they will be threatened by martial force."

Wu Tian said with an evil smile. His idea was really bad, but the managers of these small and medium-sized enterprises were very pitiful.

Right now, they had become a key support for Wu Tian. With their help, destroying Mecca Company was just a matter of time.

"That's it?" Azure Dragon gawked for a moment. He had thought that Liu Zhendong would do something else to usurp power or something, but in the end, he just told him to bring his men out to seek revenge. This was not a problem at all.

"That's it, but please don't reveal our identities. It doesn't matter if Liu Zhendong's identity is exposed."

Wu Tian didn't want Wu Group to have anything to do with this, so he had to make sure of this.

"Don't worry about this, unless that Liu Zhendong doesn't want to live anymore, he won't leak the news."

Azure Dragon said with certainty. He was confident about this point. Not to mention that Su Cancan and the others were experts at torture, it meant that others were not good at it.

Azure Dragon was definitely not a good person, this Liu Zhendong was like a pug in front of him, absolutely obedient.

"Haha, that's fine. Oh yeah, has he asked you about that recently?"

Previously, Wu Tian had performed a very inhumane small operation on him. Now, this Liu Zhendong had no way to get an erection anymore.

Azure Dragon laughed when he heard this. Of course he knew what was going on.

"Of course he did. He came to find me the next day! It's just that I didn't pay any attention to him! "

"Give him a reply. I'll give you a prescription when you get back, grab some medicine, and knead it into a small pill. Every time you give him one pill, he'll recover for a day. With this, there's no need to worry that he won't listen to us."

It didn't look like a doping drug, but it had a similar effect. It was just that it controlled a person's libido.

The medicine that Wu Tian buried in his penis not only prevented him from getting an erection, but also had a very scary side effect, which was that it would increase Liu Zhendong's desire.

However, when his desire was very strong, there was no way to carry it out. This was a very cruel punishment, and it was simply making him scratch his heart and scratch his lungs.

Every morning when he woke up, his eyes would be red, eager to vent his anger.

"Boss, you're really bad. However, this method can definitely control him. He can't possibly not want his happiness for the rest of his life, nor can he betray us."

If power and money are things that can shake a person's faith, then the desire of the penis is even stronger.

"Alright, alright, you should hurry up and do this. The earlier, the better."

After Wu Tian finished with his arrangements, he quickly hung up the phone. He was already very tired and prepared to rest. Tomorrow morning, early in the morning, he would go find Baili Zhenlin and the others and coordinate the funding.

Chen Cheng was also very happy at this time. He thought that he was almost done for, but did not expect the Shuangxing Company Group to provide him with such a large amount of funding, with a total of ten billion.

These ten billion not only allowed Chen Cheng to escape from his current predicament, it also helped him to increase the scale of his Mecca Company.

Even Shangguan Junyi praised him quite a bit, even calling him personally to praise it.

If it was in the past, Chen Cheng might have been very happy. However, after the last meeting, he completely knew what kind of person Shangguan Junyi was.

Simply put, they wouldn't take their subordinates seriously and would only look for benefits from them.

Therefore, Chen Cheng himself had already skipped over the Shangguan Family and directly connected with the people from the Shuangxing Company Group.

And at this time, he was treating the contact sent by Shuangxing Company Group to a meal.

If Wu Tian was here, he would have definitely recognized one of them. It was the one he saw in the restaurant.

"Mr Jin, this time it's all thanks to you providing me with this money, otherwise, my Mecca Company would have very possibly closed down right now ..."

Chen Cheng was deeply moved. Now, he was able to reverse the tide in one go, and he even improved by leaps and bounds. To be able to achieve such an outcome, it definitely had something to do with the Shuangxing Company Group.

"Haha, now that Wu Tian from Wu Group is also dead, Boss Chen, you should no longer have any enemies that can stop you, right? As long as your place succeeds, our Shuangxing Company Group can quickly intervene. At that time, forget about S City, even if we put it in the entire China, we would still be at the top of the entire group. "

This person called Mr Jin wore a pair of small glasses. Although he looked like a Korean, he spoke in a very fluent China language.

C660 Back Spoilage

Behind Mr Jin sat two old men. Their hair was gray, and even their beards were white. One was tall and thin, the other short and fat.

They just so happened to be the two Tianying Sect elders that Chen Cheng had hired. They were like two guardian gods, standing on Mr Jin's left and right sides.

This was specially prepared by Chen Cheng for Mr Jin, as he hoped to protect his safety.

Of course, if they could do something else for him, it would also be good to expand his Mecca Company.

"Come come come, everyone eat! This is the best restaurant in the S City, whatever they cook is the best! If you don't taste it, you will definitely regret it!"

Chen Cheng advised them to eat and drink. It was very lively.

They drank for an entire night, which finally made these Koreans very comfortable. After they returned to the hotel, Chen Cheng also hurried back to the company to rest.

His time was very tight right now and Chen Cheng had a lot of things to decide, so he didn't dare to leave the company too far.

When he woke up, it was already afternoon. His secretary was standing outside Chen Cheng's office nervously. When she saw that he had woken up, she quickly tried walking in.

"Chief Chen, Chief Chen, we've encountered a small problem."

Chen Cheng still hadn't woken up yet, so he was a bit confused. He got a bit angry when he saw the secretary come in.

"If you have something to say, then say it slowly. It's not that big of a deal. Could it be that the heavens will collapse?"

The secretary swallowed, then organized her words.

"We will continue to prepare to buy those small factories today, but many of them have already been agreed upon yesterday, but today they have all gone back on their word. They won't sell us anything. Also, it's the riot control team of the Public Security Bureau. Send us an announcement here, saying that someone has reported that we are related to the underground organization in S City ... Let's go and explain it to them within the deadline. "

Chen Cheng immediately woke up. What the hell was going on?

"What did you say?"

First, these small factories suddenly went back on their word. There were even some factories that had already been bought, now they were clamoring to break the contract ...

Why did they suddenly change their attitude? They were clearly having a good discussion.

Furthermore, why did the people from the Public Security Bureau suddenly find them?

Chen Cheng started to get nervous. He started to suspect that the bad things he did were known by others.

But it shouldn't be. He did this kind of thing often but never left any evidence. Even if the police came back to him sometimes, there was no evidence that he did it at all. It could be said that the police couldn't do anything to Chen Cheng.

"Wait a minute, did something happen with the Red Power?"

Chen Cheng rolled his eyes, and felt that if there was anything that went wrong, it could only be the matter of them smashing Wu Group.

However, Chen Cheng did not appear for that matter. His connection with Zhang Huan was very private and he would not leave any clues behind.

Not to mention that Zhang Huan had already died a violent death, so there was no way to prove it.

Perhaps only the heavens and the earth knew of this. No one could say what this had to do with Chen Cheng.

"The Red Power hasn't been in contact with us, so I don't know what's going on with them. However, from what I've heard, they're in a huge mess. It seems to be quite chaotic, and things aren't looking too good for them. "

The secretary didn't know much, but she tried her best to explain to Chen Cheng the current situation.

"If that's the case, then I understand. This means that there's nothing wrong with us. We might as well ask the Public Security Bureau to come over and tell them that it's not convenient for us to leave now." And then there's the issue of factory acquisitions, continue to send people to see what they're up to. "

Chen Cheng now felt that these two were not a big deal. It seemed that the owners of these small factories wanted to sell them for more money, so they purposely did this to haggle the price.

Chen Cheng didn't care about this amount of money, so he didn't care about it at all. What he is more concerned about is how to integrate them when they are all acquired.

If this matter was really done well, then Mecca Company would truly be invincible.

It had to be known that there were over a hundred thousand small and medium-sized enterprises in the S City, and this number was very large. Although it was impossible for Moka Company to buy all of them, but he could take some of the better ones and place them under their command.

And then they would integrate the same industry, which was the same as assembling all the advantages of one person together, which would allow them to create a stronger and more powerful person.

He thought so, and it was also through this reason that he persuaded Mr Jin to invest 10 billion.

Otherwise, how could it be so easy to get so much money?

As for buying a large company, it was not a problem for Moka Company at all.

Don't forget that Chen Cheng is the boss of Jingou Club, which one of those people there isn't a rich second generation from a large company? With them taking the lead, this matter could be said to be an easy task.

After getting up, Chen Cheng stretched his body and looked out the window. Suddenly, he felt that the whole sky was so beautiful and brilliant.

On the other side, Wu Tian was listening to Azure Dragon's report.

His expression was not much different from Chen Cheng's, he was very happy.

"President Wu, Liu Zhendong said that he did as we asked and went to find those people. It is said that he scared several bosses to the point that they peed their pants ... I think the effect should be pretty good. "

Azure Dragon said happily. He felt funny when he thought of this scene.

"That's for the best. Let's think of a way to continue discrediting this Mecca Company, I want to see how many methods this Chen Cheng has. If his reputation stinks, who will sell him the company? "

In the current world, they held the highest position in public opinion. This meant they held the say of the truth.

On the contrary, people sometimes don't care so much about the truth of the matter. As long as you can speak louder than others, then you are the truth.

Wu Tian was well versed in this and knew that he had to make the first move on this matter.

Since this Red Power wasn't his, he didn't mind sacrificing it. It just so happened that the people from the Public Security Bureau would also want to do this.

If he took advantage of Liu Zhendong, he could attack the Moka Group and make them bite the dog. On the other hand, he could eliminate some S City underground organizations and could even sell a favor to the city's Public Security Bureau.

This could be said to be killing three birds with one stone, as long as everything was successful.

It was a peaceful day, and everything seemed so beautiful, but Wu Tian knew that the real storm was coming. After this night passed, the entire S City would change by the day.
