

Hidden Billionaire Chapter 661 - Fighting Between Two Sides

C661 Fighting Between Two Sides

Chen Cheng never would have thought that he was woken up by the sound of the police knocking on the door.

"You are Chen Cheng?"

While he was still in bed, he was pulled out of bed by several people in police uniform. The light from the flashlight hit his face, causing him to be unable to open his eyes.

"Yes, I'm Chen Cheng. What are you guys doing?"

Chen Cheng looked very calm on the surface and was not afraid at all.

"What is it? Someone reported you guys, saying that you are colluding with the underground organization! "

Sunn Hongsheng squinted his eyes and stared at the person in front of him. He wanted to catch Chen Cheng not one or two days ago, because a lot of things were vaguely pointed at this guy behind the scenes.

However, he couldn't find any evidence, so he couldn't do anything about Chen Cheng.

Now that he finally had the chance, how could he not be excited?

If this matter was done well, it would definitely be a good example. At that time, he might even be praised by the city's Public Security Bureau.

"Uncle Police... This must be an injustice ... Is there any evidence? "I'm a good person. You should know that I'm the boss of a company. I'm usually very busy, how would I have the time to get to know these underground organizations ..."

The moment Chen Cheng heard that, he immediately understood what these people were doing. He immediately showed a shameless expression.

"I knew you would say that. If there is no evidence, will we come and get you? "Come on, come with us and we'll take you back to the station for questioning."

Sunn Hongsheng had a naughty smile on his face. Looking at this guy's surprised expression, he felt that it was extremely funny. But they deserved it. If they didn't do anything bad, how would the police be able to find them?

Although Chen Cheng was very unhappy, but there was no other way around it. Sunn Hongsheng took out the order to detain them, indicating that they did indeed have procedures.

This matter had a huge impact, and many people in Mecca Company had seen the police car entering and exiting. Many people even saw Chen Cheng being taken away by Sun Hongsheng.

The news quickly spread, and under the push of someone, the streets and alleys of S City, their books, newspapers, and television stations, all began to spread the news.

In a moment, those factory companies that had wanted to discuss the purchase with Mecca Company immediately gave up on this idea.

However, those who had already been bought were now beating their chests and stomping their feet in regret.

In a hotel, Mr Jin was holding a cup and tasting the red wine inside. In his other hand, he was holding a cigar. He was sitting by the window, looking outside and smoking gloomily.

On the small table beside him, there was today's newspaper. On the cover of the newspaper was the photo of Chen Cheng being taken away by the police.

Director Pu and the other Koreans were standing not far behind Mr Jin and did not say a word.

After thinking for a long time, Mr Jin put down the cigar in his hand and knocked on the newspapers.

"Do you think he will be locked up? If he does, our plan will not be seriously affected."

The few of them looked at each other. Wasn't this obvious?

"Mr Jin, I'm afraid that this situation isn't good for us. No matter what, our capital is invested, and the scale of our Mecca Company has indeed increased. If all the hard work that Mo Hai company did was wasted because of Chen Cheng, then we really would lose too much. "

Mr Jin listened to Director Pu and nodded his head. He felt that this made a bit of sense, as the saying goes, business people tend to avoid trouble.

Now that the danger was here, he should think of a way to avoid it.

"Then do you have any good ideas? We will withdraw our capital from the Mecca Company? "

Mr Jin looked at Director Pu again. Actually, he already had an idea, but he was still a bit unsure about it so he deliberately asked.

"This... I'm afraid not. Our funds must be used on investments that can yield short-term benefits, and this Mecca Company is the most promising investment that we have met. If we give up here, I'm afraid we won't be able to find a better one. "

Director Pu was speaking the truth. Even though Mecca Company were spread all over S City, it was still very fragmented despite its size.

Although their original orders and business had suffered some damage, they were fortunate that their Mecca Company had retained the structure and personnel of these enterprises. They only said that they seemed to be nominally subordinate to the Mecca Company, while the rest had not changed at all.

This meant that its profit margin was not bad. As long as they could continuously throw money into the Mecca Company, they would definitely earn that money.

Anyone with a discerning eye would be able to tell that as long as they didn't manage to complete the industry integration with the company, there wouldn't be many companies that could stand shoulder to shoulder with him in the entire China.

"That's right, right now this Mecca Company is still useful to us. It would be a pity if we lost it. Let's look forward to this Boss Chen's perfect and unharmed return."

The last few people chuckled. That was what they said, but if you really thought they only knew how to wait, then you were completely wrong.

Half an hour after their conversation ended, the two old men hurriedly sneaked into the Mecca Company and spent quite a bit of time bringing out a large amount of things. They found a quiet place and burned it all down.

These were the things that they had found from Chen Cheng that were likely to become evidence against him. In order to protect Chen Cheng, Mr Jin had specially entrusted Tian Gui and Tian Ying with this task.

Although these two old men were quite old, they were still very nimble when doing things, and their hands and feet were very agile as well.

After they finished dealing with all this, the police would probably be unable to find anything when they arrived. At that time, Chen Cheng would naturally be acquitted.

As expected, the interrogation at the Public Security Bureau didn't go smoothly. Although they successfully took Chen Cheng away for questioning, someone found out that Chen Cheng had left the Public Security Bureau before nightfall.

Wu Tian was silently observing everything that was happening. He already knew that this would be the end.

The one who reported this to the police was the person he sent, and the so-called evidence was the recording of the person from Red Power who was caught by Azure Dragon earlier.

Although the police couldn't be sure that Chen Cheng was related to this incident, but it was still a pretty good progress for them with this recording.

In the past, even recording like this would have been impossible.

Hidden Billionaire Chapter 662 - Someone Did Nothing -- Got the Benefit of It

C662 Someone Did Nothing -- Got the Benefit of It

Although it was very embarrassing to be taken away, Chen Cheng was still very happy.

Those people wanted to take him down? It was really wishful thinking.

After turning his head, Chen Cheng's face immediately turned dark again. He called his secretary over and told him a few things.

Very quickly, two luxurious cars drove towards Mecca Company. This car directly drove into Chen Cheng's garage, and no one knew who they were.

Chen Cheng had a straight face. He looked at the people sitting in front of him and his attitude was very unhappy.

"What's the matter, Boss Chen? Why did you call us brothers over so urgently? What's the matter?" Great Master Yi, Dong Yafeng, sat cross-legged with a cigarette in his mouth, showing no respect to Chen Cheng.

However, Chen Cheng didn't really care about these things.

"What is it? I was taken away by the police today. You should know about this, right? " Chen Cheng said coldly. The moment this topic was brought up, it was as if they openly expressed their attitudes.

Dong Yafeng and the others laughed as if they thought Chen Cheng was joking.

"Chief Chen really likes to joke around. We know about this, but what does it have to do with us? Don't tell me you think I'm the one reporting this?"

Hearing their loud voices, Chen Cheng got even more annoyed.

"They have a recording in their hands. From the sound of it, it seems to be from Zhang Huan's subordinates. If you don't handle this matter well, don't blame me when the time comes." Chen Cheng was not someone to be trifled with. Although he was closely linked to Red Power, that did not mean that he was afraid of Red Power.

"Chen Cheng, what do you mean by this? Isn't this matter done by Zhang Huan? Now that he's dead and the people under his command have scattered, you called me over so that I could clean up his mess? "

Dong Yafeng was very unhappy. He wasn't willing to take responsibility for others.

In any case, he was still the hall master of the memorial hall. If he was bullied to this extent, Chen Cheng would look down on him too much.

"I think you know what I mean. Dong Yafeng, I give you two choices right now. Either do as I say, and I can guarantee that you will become the head of Red Power, or, you will end up like Zhang Huan. "

Chen Cheng was not afraid at all. On the contrary, he was even more vicious than Dong Yafeng. Chen Cheng stood up and showed off his sharp edge when he said this. The veins on Dong Yafeng's forehead were bulging and his chest was rising and falling. Hearing Chen Cheng's heavy words, he was angered to the point that he pulled out his gun.

Seeing that, his companions also pulled out their guns and pointed it at Chen Cheng's head.

"Do you f * cking think you're amazing? Let me tell you, don't look down on me!" Dong Yafeng felt that he had never felt so wronged before. No matter how powerful others said Chen Cheng was, he wasn't afraid at all.

"You're pretty brave, the Red Power was created with my money, otherwise they wouldn't have the status they have right now. You still dare to point a gun at my head, are you tired of living?"

Chen Cheng was also very determined. In this regard, he was not afraid of anyone. He had done everything, experienced everything.

Dong Yafeng's face started to change. The hand holding the gun started to tremble, but he kept holding on.

"Who the f * * k are you trying to scare!"

Chen Cheng looked at the guy and sighed. He turned around slowly.

Dong Yafeng wanted to do something else, but at this moment, two people suddenly jumped out from the side. They moved so fast that before he could see clearly, the gun in his hands was taken away.

Immediately after, he saw his wrists being broken and his legs being kicked from behind, his entire body sprawled on the ground.

Realizing that he was under attack, Dong Yafeng wanted to stand up and fight, but just as he raised his head, a short knife reached under his neck. Dong Yafeng's voice suddenly stopped as his throat turned cold.

The subordinates that he brought all silently looked at the scene in front of them. It wasn't that they didn't want to help, but the two old men were simply too quick. This one-sided battle only happened for two or three seconds. Before they could react, Dong Yafeng was already finished.

After hearing that there were no movements behind him, Chen Cheng slowly turned around and said to the rest of the Red Power s: "Bring back my request today, deal with the evidence, and don't let me get caught by the police, or else, this will be your end."

With that, Chen Cheng turned around and ignored them.

Suddenly, the expressions of the two elders changed. They felt that something was amiss, so they didn't say anything and immediately ran out of the room. They said nothing.

Seeing Tian Gui and Tian Ying suddenly disappear, Chen Cheng was still a little puzzled. He didn't know what had happened, but he heard the alarms from outside all of a sudden.

Suddenly, his expression changed drastically. What was going on? Why was the police here at this time?

"All of you, quickly take this person away!" Chen Cheng pointed to Dong Yafeng's corpse, but when the people from Red Power heard the police siren, they also ran. Chen Cheng had no choice but to cast his gaze towards the secretary, while he himself opened the secret door behind the cabinet in his office and hid inside.

There was a passage at the back that led to a hidden parking lot outside.

Chen Cheng specially designed this to be used by himself at this moment. That unlucky secretary was left behind in the office, while Chen Cheng ran for his life by himself.

About a minute later, while the secretary was still wondering what he should do with the corpse on the floor, a large group of armed police officers rushed into the office and ferociously opened the door.

Several guns were pointed at the secretary. He immediately raised his hands. Then he was handcuffed by the police and taken down.

This time, the leader of the group was still Sunn Hongsheng. He looked at the corpse on the ground and frowned.

The one who died, should have been someone from Red Power. Dong Yafeng, whom Sunn Hongsheng had wanted to catch many times, had his throat slit at this place.

He believed that Chen Cheng could not be divorced from this matter.

However, who sent this anonymous tip? Why did he know that people from Red Power would meet with Chen Cheng? What did this man have to do with it?

Hidden Billionaire Chapter 663 - Is It a Blessing or a Curse

C663 Is It a Blessing or a Curse

The room was filled with mist, as if it was a fairyland.

Mr Jin was lying in the bathing pool with his eyes closed and his bare arms closed. He was enjoying the bath comfortably.

Director Pu rushed in with a panicked expression. Due to the ground being slippery, he almost fell down beside Mr Jin.

"Oh no, Mr Jin, something happened."

Mr Jin didn't even open his eyes, nor did he reply Director Pu.

"Something happened to that Mecca Company. It seems like there was a murder and he was caught red-handed by the police. Chen Cheng had already escaped, but his secretary was caught. There are already wanted posters outside. "

This was indeed a big piece of news, but Mr Jin didn't seem to care at all, and his expression didn't show any reaction at all.

"Mr Jin, what should we do now!"

Not only Director Pu, even the other Koreans were becoming a little nervous. If something were to happen to Mecca Company, then it would mean that all their investments would be wasted.

"Don't be so anxious, aren't we still having Mecca Company? Just because something happened to Chen Cheng doesn't mean that his Mecca Company is over. We can just directly take over."

Mr Jin said without batting an eyelid, as if this incident was within his expectations.

"What you mean is, we should just buy the Moka Company, that way, we can keep our investment."

Director Pu and company were not idiots, they immediately understood what Mr Jin meant.

"Yes, now that Chen Cheng has run away, we can take care of this matter as well. Before this, there wasn't a good excuse either, after all, if he's still here, it wouldn't be so easy for us to take over Mecca Company." Mr Jin said this as if he had been prepared for it.

It was possible that they wanted to turn Mecca Company into their tool from the very beginning. If that was the case, Chen Cheng would be chased away sooner or later.

"Mr Jin has indeed considered it far enough. If that's the case, then I don't need to do anything."

A sound came from the direction of Mr Jin, which was in the direction of the pond shrouded in fog. With the sound, the fog was blown away.

The person who spoke was Left Guard, who was from Tianying Sect that Wu Tian had met before.

Mr Jin smiled and told Director Pu and the others to leave, while he smiled at Left Guard.

"Master Zheng, it looks like I won't need you to help me anymore, but it's best for you to stay by my side for a period of time." Mr Jin smiled. He didn't intend to let Mr. Zheng leave just like that.

"I didn't expect you to still be so timid. I really admire you, but are you sure you want to invest more? China is not as simple as you think it is."

Zheng Taiwen squinted his eyes as he looked at the Korean Mr Jin who looked exactly the same as the China person in front of him.

"Haha, you don't have to worry about that. This will happen sooner or later. If you let me come, it can be considered gentle. If those people from our group come, it will be even more brutal." Mr Jin obviously knew what he was going to do.

The two of them simply spoke and then completely avoided the topic.

Zheng Taiwen was the one who got the money. Of course, he wouldn't say anything. They didn't care who their boss was, as long as the money was enough.

The news about Chen Cheng's accident also quickly reached Wu Tian's ears. When Loong Yun came to report this matter, he was in the middle of a meeting with Baili Zhenlin.

"This is good news, it's so good, I want to see what this Shuangxing Company company will do now!" Wu Tian was grinning from ear to ear. With his company's current situation, they shouldn't be able to do anything about it. It shouldn't be possible for them to continue buying in the future.

This way, Wu Group Corporation could continue to confirm their position as the largest group in the entire S City. This would not be too big of a problem.

"President Wu, this time, the pressure on us should be reduced a little. However, I feel that things shouldn't be done that easily."

Baili Zhenlin frowned. He liked to think more pessimistically about everything. This way, he could make all kinds of preparations, so things could always be done perfectly.

"What are you afraid of? Chen Cheng definitely won't dare to come back now, so you don't have to worry about it. As long as there are no problems with the S City, we will immediately destroy the base of the Shuangxing Company Group. "

As long as this point was settled, even if Shuangxing Company Group had a lot of financial resources, what could they do?

"That is true, but your plan is really too big. With our current wealth, we won't be able to sustain it." As expected, Baili Zhenlin's biggest worry was still about the funding.

"Don't worry, we'll have to find a way to get more money later." Wu Tian nodded. He knew that this little bit of money was like a drop in the bucket. If he thought that he had already won because of this, then it would be like a dream.

"Sigh, the Shuangxing Company Group has already mobilized a large amount of funds to prepare to enter the market. I'm afraid even the ten billion in Mecca Company is just an appetizer." Ten billion isn't enough to buy these small and medium-sized enterprises, and buying these small and medium-sized enterprises might not be beneficial.

Those big companies were also very valuable, and many of them were already listed companies. If they had such a relationship, it would be beneficial for them if they dragged it over.

"He has 10 billion RMB and we have 10 billion RMB, what's there to be afraid of?" Wu Tian wasn't worried at all. In fact, it was still too early, he could just slowly ferment it.

It was impossible for all the large merchant guilds and some organizations in S City to watch Shuangxing Company Group make such a huge purchase. Could it be that they are really willing to let Shuangxing Company group buy the entire S City?

Wu Tian felt that this was impossible. No one wanted to be a bargaining chip in the hands of others.

"Alright, I will continue to ask you about the information that you want to know. I know quite a lot of people from the big banks, and as for the Korea, there shouldn't be much that can lend us. We can continue to stay in contact." Baili Zhenlin had reached some basic agreement with Wu Tian this time. However, there were many things that Wu Tian was not suitable for him to do personally.

"Then it's really hard on you. This matter is very important. If we can borrow enough money, then this matter will be a lot easier." If they don't want to lend it to us, we'll just give them a higher interest rate. " Wu Tian wanted Baili Zhenlin to investigate if they could borrow a lot of money from Korea.

However, this matter might be a little difficult. After all, they were not people of Korea, and did not have much assets there. Their bank would probably not lend money to them that easily.

Hidden Billionaire Chapter 664 - New Changes

C664 New Changes

If he wanted to borrow money, he would have to have good credit. This was at least the beginning.

Then there was the mortgage. If he had something to mortgage on, borrowing money would be relatively easier.

It was just that he still needed a reason, which was the reason why he wanted to borrow money from Korea.

Wu Tian wanted to borrow money from Korea, so the first thing that others thought was suspicious of was why he didn't borrow money from his own country, and instead ran over to Korea.

This was also the first question raised in Bai Li Town. Although Korea Country's banks were rich, they were also very cunning and wouldn't lend money to Wu Tian so easily.

But he believed that he would be able to solve the problem when he encountered it. Everyone in the financial industry, their ultimate goal must be to make money. Wu Tian didn't think this was a serious problem, because if he gave enough interest, the bank would certainly be willing to lend him money. The bank might even try desperately to lend him money.

Wu Tian had transferred all of the fifteen billion to Hundred Miles of Fiendish, asking him to handle this in the name of Nanhe Securities Corporation.

On one hand, it was to calm the emotions in the Shangguan Family. After all, if the Wu Group company were to suddenly purchase large amounts of assets from the Korea Nation to borrow money, no matter how one thought about it, this would still feel a little strange.

Shangguan Family would definitely take this very seriously, and the plan would very likely not work then.

However, if Baili Zhenlin was the one representing Nanhe Securities Corporation to do this, then there wouldn't be such a problem.

The relationship between Baili Family and Shangguan Family was that good, and Nanhe Securities Corporation was a sworn enemy of Wu Group, so Shangguan Family would definitely not feel anything strange about this matter. They would even think that Nanhe Securities Corporation and them were allies, after all, they relied on Shuangxing Company Corporation.

After sending Baili Zhenlin off, Wu Tian started to think about the S City again.

Although S City seemed calm and tranquil right now, any minute movement could very well cause great turmoil within the S City.

"Loong Yun, what's the situation in the market now?"

"Right now, many small businesses don't dare to get too close to Mecca Company. Right now, Mecca Company's business is completely stopped." Loong Yun could not help but smile.

Wu Tie nodded his head and was very happy. Sunn Hongsheng of the riot squad had some skill after all. The timing was just right. However, Wu Tian never thought that Chen Cheng would actually kill someone.

He had expected that Chen Cheng would gather the people from Red Power for a interrogation, and this was a good opportunity for him to catch Chen Cheng colluding with the Red Power.

And the secret letter was delivered according to Wu Tian's request.

However, Chen Cheng's ferocity was beyond Wu Tian's imagination.

He actually killed Dong Yafeng.

Just because of this, Azure Dragon came over excitedly.

"President Wu, Liu Zhendong has been nagging at me for a long time, asking if he can cause trouble within the Red Power. Now that Yutang's big brother is dead, he feels that his chance has come."

Liu Zhendong was getting anxious. He didn't expect Dong Yafeng to be killed so suddenly. It was said that the ones who escaped said something about Chen Cheng's requirements.

It's just that Chen Cheng himself was unable to protect himself and he didn't have the ability to suppress people from Red Power.

"He probably doesn't have any enemies in Red Power anymore. Big Brother basically only has one Xing Hall left now." Wu Tian thought about it for a moment and felt that if he agreed to this matter, it wouldn't be in line with his plan to destroy Red Power.

But if he did not allow it, would he also miss this opportunity to integrate Red Power?

After all, there were times when it was easier to handle matters with an obedient underground organization in hand.

"Yes, if the boss of their Red Power hadn't returned, Liu Zhendong's reputation would be the highest right now. However, the voices of opposition to him within the Red Power are not small either. It seems like quite a few people feel that this Liu Zhendong is deliberately framing the other big brothers, so things have turned out this way. "

Azure Dragon smiled bitterly helplessly. Rumors and conspiracy theories were indeed popular everywhere.

However, although Liu Zhendong didn't do it on purpose, or to say that everything was planned by him, the big brothers of Red Power were still more or less related to Wu Tian. If it weren't for Wu Tian's rotten idea, they probably wouldn't have ended up like this.

"We can't care about those. It's also good for us to set up one or two enemies for Liu Zhendong. He won't have the time to oppose us." In the end, Wu Tian still decided to support Liu Zhendong temporarily. This way, Liu Zhendong would be more loyal to them.

"Azure Dragon, you must be careful. That guy is not a good person. He can become our enemy at any time." Wu Tian was very worried that Azure Dragon might fall into Liu Zhendong's trap as they had been in contact for a long time.

Azure Dragon didn't care much about it. He patted his chest.

"Don't worry, President Wu. I, Azure Dragon, am not a pushover either."

In this way, the two things that Wu Tian was most worried about were finally resolved. It was likely that no one else in Wu Group could obstruct their progress.

Even now, Wu Tian should not need to continue pretending to be dead, right?

Wu Old Master had kept this news a secret for the past few days, but towards the other Wu Family people, he did not hide it. Many of them also started to have bad intentions.

It was said that Wu Yongan was secretly colluding with other people, and it was unknown if he had any new thoughts.

Therefore, Wu Tian decided that it was better for him to go back and see Wu Old Master. This way, he wouldn't have to worry, it could also be considered as a reassurance for his old man.

What Wu Tian didn't expect was that the Wu Family Castle was now surrounded by a group of people. Countless members of the Wu Family were still here.

Wu Tian didn't know what the hell they were doing. Luckily, he was wearing a mask, so these people didn't recognize him.

Loong Yun, who was walking in front, frowned upon seeing the commotion.

"Go away! We want to go in! "

"Aren't you Wu Tian's secretary? Wu Tian is dead, and yet you are still so arrogant. No matter what, we are still people of Wu Family, so you must be respectful to us!"

"That's right, little girl. Why don't you come to work with me? I just happen to lack a secretary ..."

The group of people were like gangsters, surrounding Loong Yun and not letting her go. If not for Wu Tian not revealing his identity right now, he really wanted to rush over and give them a few punches. These people were really rude.
