C685 God Gave Us the Ares-class

With all sorts of rumors flying around outside, a minibus sped away on the highway.

No one would have thought that the person driving would be Wu Zhi.

Loong Yun sat in the first passenger seat. Both of them had a serious expression on their faces, neither of them saying a word.

Looking at the back of the car, it turned out to be Wu Tian and the others.

His clothes were burnt a lot, and there were even some blood stains on his face. Luckily, his chest was still heaving and he was still breathing.

Compared to Wu Tian, Su Wenxin and Su Cancan were much better. However, due to inhaling a lot of smoke, they had been choked to death and had yet to wake up.

Soon, the unremarkable car got off the highway and drove into a small village.

In this place, most likely no one in Wu Family knew where this place was, and the only person who knew the truth would be Old Master Wu Zhi.

"We're here."

Wu Zhi turned off the engine and hurriedly got out of the car. He ran to the entrance of a yard and knocked on the door according to a certain rhythm.

Soon, bald head man appeared from inside. He looked at it was Wu Zhi and called him in mysteriously.

After that, he opened the door and the women hurried out to carry the three wounded together with Loong Yun.

"Mr. Long, quickly take a look and see if my grandson can be saved or not."

At this time, Wu Zhi finally showed his panic. Looking at Wu Tian's wounded body, he couldn't help but wipe away his tears.

bald head man frowned as he checked Wu Tian carefully. Finally, his expression relaxed.

"Old Master, don't worry, he's fine now. I can wake him up now. "

bald head man took a small bottle from the hands of the person beside him. He stuck the bottle near Wu's nose and opened the cap.

The gas inside was sucked into Wu Tian's lungs, then he suddenly coughed and woke up.

This bottle was filled with a very irritating smell. As long as one took a whiff of it, one's brain would immediately awaken.

Wu Tian coughed for a long time and finally coughed out the smoke in his lungs. When he came back to his senses, he found himself surrounded by a group of strangers. Luckily, he knew two of them.

"Grandfather, Loong Yun, why are you two here?"

Wu Tian recalled that before he lost his consciousness, the only impression he had was that the explosion caused all sorts of objects to fly around him.

In front of him was a huge fireball that was quickly going towards Wu Tian.

At that time, he felt that he was definitely going to die. When he first opened his eyes, Wu Tian thought he had gone to heaven and all he saw were dead people.

However, when he realized he was in excruciating pain all over his body, he realized that he wasn't dead.

"Don't talk about that for now, wake them up first."

Wu Zhi nodded to bald head man, who did the same thing, and Su Wenxin and Su Cancan both woke up.

The trio's reactions were pretty much the same, they were all very surprised that they were alright.

"What the hell is going on? Old Master, why are you here? "

Su Wenxin was puzzled. The three of them looked at each other, but in her heart, she was very happy. Even though the three of them had experienced an explosion, they didn't sustain much damage.

This could be said to be a great blessing in misfortune.

Su Cancan then vaguely remembered that when the explosion occurred, it was as if a thick table ran in front of them and protected them from the first wave of the explosion.

It was also because of this table that they did not die from the explosion, nor did they die from the fire.

"If it wasn't for Old Master, I'm afraid you would have all died in that explosion." Loong Yun wiped away her tears. She was really happy to see that they were fine.

"Grandfather, how did you do it?"

Wu Tian couldn't believe it. He even kicked Old Master Wu Zhi out, but Old Master Wu Zhi saved him at such a crucial moment.

"Don't mention it, there are some secret passages in the Wu family's castle that outsiders don't know about, and even those maids don't know about it."

Old Master Wu Zhi smiled, but didn't care about what had happened.

Loong Yun went on to explain to them, "Earlier, when I had accidentally discovered this secret, I had inadvertently entered this secret passage and discovered that it led directly to Old Master's bedroom. So I contacted Old Master Wu Zhi, and while you were eating and drinking, I sneaked out to meet up with him. "

"I originally wanted Loong Yun to seal this secret passageway, but I didn't expect that it would coincide with the battle that happened in the auditorium, so when the explosion occurred, I quickly dragged you guys in through the exit of the auditorium."

Old Master Wu Zhi spoke very easily, but that kind of emergency was not something that could be explained with just a few words.

"Thank you so much! I was the one who did the wrong thing, grandpa you should come back. "

Wu Tian only felt a kind of remorse erupting in his heart. He looked at Old Master Wu Zhi and felt like crying.

Wu Zhi didn't care that much. On the contrary, after he came out, he thought about a lot of things and understood why Wu Tian would do such a thing.

"It's fine, it's fine. I'm outside right now, so it's more helpful to you. If I return to the Wu Family, then those people who were kicked out would probably make the same choice as I do. "

The thing these people were least afraid of was someone taking the lead. As long as someone did something that did not conform to the norm, the rest of them would immediately follow suit.

"Wu Yongan's side has established a new Wu Family, your worries should be unnecessary. They definitely won't want to join me at this time. "

Wu Tian felt that the matter was not as serious as Wu Zhi had said. On the contrary, this seemed to be a good opportunity.

"The outside world should think I'm dead. If you make a statement that you're willing to go home at this time, I think they're all willing."

Hearing Wu Tian's words, Wu Zhi also felt that it made some sense. After all, he was still the Patriarch of Wu Family back then. Everyone in Wu Family would listen to him.

"That's right, that's right. Old Master, there's nothing Wu Tian can do to kick you out. I hope you can give him a chance to compensate you."

Su Cancan quickly chimed in from the side as well. This was a very good method to make up for his previous mistake.

Wu Zhi was still hesitant.

"Alright, alright, just listen to the two of them. "Also, previously you said that Wu Tian is not your fiancé, why are you speaking up for him now?"

Su Wenxin interrupted them at an inopportune moment, breaking the atmosphere in their conversation.

Hidden Billionaire Chapter 686 - Vegetative Man

C686 Vegetative Man

After figuring out what happened, Wu Tian shifted his attention back to these strangers.

Especially bald head man, the one who treated them. His head was so shiny that it looked very bright.

"You are?"

"My name is Loong Yi'an, I'm an unremarkable doctor."

bald head man smiled and then quickly went to pack up his stuff. He didn't waste too much time with Wu Tian.

Only then did Wu Tian quickly observe the yard they were in. Other than their room, there were a lot of other rooms. There were also many white bedsheets hanging in the yard.

There seemed to be many other patients recuperating here as well.

Sure enough, he should be a doctor. There was no mistake about that.

"Don't listen to him be so modest, this is our Jiangnan's number one holy hand! Doctor Long's reputation is not just for show. "

Wu Zhi hurried to introduce Loong Yi'an to the others, they should not underestimate Loong Yi'an's ability because of his modesty.

"That's amazing. I need to thank him quickly."

Su Wenxin nodded as she heard the name.

"No wonder. I was wondering why he was bald head man. He's Loong Yi'an."

"Master, do you know him as well?"

Su Wenxin nodded when she heard Su Cancan's question.

"I've heard of him, but I don't know who he is. It's said that he's the only one who can crack the poison used in our Wudu Sect. "After fighting with us, many losers would come here to heal their wounds ..."

Su Cancan instantly felt a bit awkward. She never thought that they would actually be treated by their opponents.

"You didn't think of that, did you? However, Mister Long will not care about this. You shouldn't have too much psychological pressure. "

Wu Zhi felt funny when he saw their expressions. One of them was someone who used poison while the other was someone who specially saved people. They were naturally enemies.

"However, Loong Yi'an's medical skills are unquestionable. I heard that he can revive a person from the dead. He only needs a few minutes to reconnect the patient's broken arm."

Su Wenxin continued to blabber nonsense. After all, there were plenty of rumors about Loong Yi'an in the martial arts world. No one knew whether it was true or false.

"Loong Yi'an?" At this time, Wu Tian muttered in a low voice, then his eyes fell back on Loong Yun.

To be honest, there weren't many people with the surname 'Long', and this Loong Yi'an and Loong Yun both had the surname 'Long' ... Would there be any connection between the two of them?

"Young master ..." Loong Yun felt that something was wrong with Wu Tian's gaze and stared at her for a long time.

"Is there something on me? "Why are you always looking at me ..."

Su Cancan pinched Wu Tian hard when she heard that.

"Can't you be more honest? This is your secretary! "

"The couple are starting to get into a ruckus. Are you starting to meddle with Wu Tian's business?"

Su Wenxin added fuel to the fire by the side. She didn't look like the kind of person who would take care of her disciple.

She was just watching the show, hoping that the more serious the better. She would only be happy if these two groups of people started fighting.

"I was thinking, Loong Yun and Mr Long are both surnamed Long ..."

Loong Yun burst into laughter when she heard this.

"So this is what you're talking about. Loong Yi'an is my dad ..."

"What?"

This time, not only was Wu Tian shocked, even Su Cancan opened her mouth wide in disbelief.

Other than Wu Zhi, who already knew about this, there was also Su Wenxin. She didn't care at all, so she wasn't surprised.

"Didn't I tell you? But this isn't too big of a matter, is it ..."

Loong Yun felt slightly embarrassed. She did not mention these things. After all, her father was too famous. Although her family didn't have much money, her father was famous. Sometimes, if she casually exposed her identity, it might bring her some trouble.

"I can't believe it ..."

Wu Tian was deeply moved. He didn't expect Loong Yun, who had been working diligently beside him, to be the daughter of a super doctor.

If it weren't for Loong Yun and the others, he would probably be dead by now. He had to treat Loong Yun well in the future.

"Alright, alright, you guys should finish your nonsense. What do you plan to do next?"

Wu Zhi looked at the time. It was almost noon, if he wasn't mistaken, the world outside would have changed.

If the news of Wu Tian's accident were to spread out, the entire S City would definitely be shaken.

They turned on the television. Inside, the news about the Wu Castle was being rolled and broadcast. Quite a few reporters were doing the live broadcast of the news.

However, no one could tell whether Wu Tian and co. were dead or not.

"It's better for me to show myself earlier." Wu Tian felt that if he didn't die, those who cared about him would definitely be excited after the news got out. At the same time, it would also make his enemies feel very depressed.

"But the outside world is still too dangerous! "What if that Zheng Taiwen comes out again?"

Su Wenxin was a little worried. This incident was caused by Zheng Taiwen. They didn't know that Zheng Taiwen had actually planted a bomb in the auditorium.

"Master is right, if you leave just like that and the enemy attacks you, what will you do?"

Su Cancan was also very worried. Right now, with just their strength alone, they probably wouldn't be able to protect Wu Tian.

"You don't have to worry about that, we can't stay here forever anyway." This time, it's also a very good opportunity. Those fence-sitters would probably all be cooperating with the Mecca Company by this time, it's just right that we can draw a clear line between ourselves and them. "

Wu Tian felt that one day should be just enough time for him.

Tonight, all he had to do was make a statement to the outside saying that he wasn't dead.

"How about this, I have a suggestion for you guys. You can send the message that Wu Tian is not dead, but don't say that he is awake." Just say that he is now in a deep coma and is very likely to become a vegetable. "

Wu Zhi thought about it and made a very shrewd suggestion. This method was quite vicious.

His method could see the reaction of all kinds of people. On one hand, if Wu Tian didn't die, it would give his people a boost of confidence. On the other hand, if Wu Tian was in a vegetative state, his enemies would feel that Wu Tian would not be a threat anymore.

Presumably, they would not continue to attack Wu Tian. However, it was not like the vegetable would not wake up. Wu Tian could wake up at any time and appear again in front of the public.

By then, the initiative would be in their hands again.

Hidden Billionaire Chapter 687 - Reversal

C687 Reversal

After Wu Zhi made his suggestion, Wu Tian immediately made a decision and followed his grandfather's instructions.

"It's better to have you here. Grandpa's experience is indeed very effective."

On the contrary, Wu Tian sighed even more emotionally. If Wu Zhi could continue to help him come up with ideas, then a lot of things could be avoided.

"These are all things that you should consider. When you grow up, when you get older, you will think things through more clearly."

Wu Zhi didn't say much and just nodded.

Loong Yun hurried out and told Loong Yi'an their thoughts. This wasn't too difficult for Loong Yi'an.

He was just forging a fake medical record for Wu Tian. Although this was bad for him as a doctor, it was detrimental to his professional ethics.

However, Loong Yi'an couldn't refuse his precious daughter's request at all.

"Just this once!" I won't be able to do that for you in the future. "

Loong Yi'an was unhappy, but at Loong Yun's insistence, he wrote a case of Wu Tian as a vegetable.

With Loong Yi'an's signature, no one in Jiangnan would think it was fake.

Loong Yun quickly spread the news, and the first to know of it was Yu Naixin's group.

When they found out that Wu Tian was still alive, almost everyone was so happy that they almost lifted the table up.

Azure Dragon was trying to find a way to trace the killer outside. After he received the phone call, he felt like he was going to collapse. This was too much of a blow for him.

Although this was good news, Wu Tian became a vegetable and Loong Yun told them without reservation.

Loong Yun didn't plan to tell the truth immediately, she just emphasized that Wu Tian was with her. He won't be in any danger for a while.

I'm afraid that in the whole Jiangnan, Loong Yi'an's small courtyard is the safest place.

Not only did Loong Yi'an treat some ordinary people, he also treated some people with power and influence — some people were even the heads of some big sects.

None of these people wanted Loong Yi'an to be in trouble. They hoped that Loong Yi'an could continue to treat them in the future.

Therefore, if anyone wanted to come here and cause trouble, the first one to express their opposition would be people from the martial arts world.

This resistance was very great, it wasn't something that one or two people could compete with, so almost no one would come and cause trouble for Loong Yi'an.

Since Wu Tian wanted to treat the illness here, it made a lot of sense. At least he no longer had to worry about his safety.

"I've already spread the news. I'll rent a small yard nearby and you can set up your office there."

Loong Yun said simply. Although she wanted Wu Tian to work remotely, that was normal. He had done it before.

"Since you are fine, then I will not delay you any longer. I cannot just let this matter go."

Su Wenxin looked at Wu Tian and felt that she did not protect him well.

No matter what, he was still the future son-in-law of her disciple, so he was her son.

Her son was beaten, and as his mother, she would definitely avenge Wu Tian.

"I'll go with you!" Su Cancan immediately stood up to express her opinion. Of course, she knew what Su Wenxin was planning to do. She was definitely going to cause trouble for this Zheng Taiwen.

"Your ability isn't good enough. If you go, you'll only be causing trouble for me ..."

Su Wenxin was merciless and did not have the slightest euphemism in her words.

"Master! I am also very powerful, okay? I have been training well all this time! " Su Cancan, of course, was not convinced and directly opposed Su Wenxin's decision. Su Cancan didn't really respect Su Wenxin.

Especially Su Cancan and Su Wenxin, they were not like master and disciple, but more like sisters. From time to time, they would even quarrel with each other.

Most of the time, Su Cancan was no match for Su Wenxin. Su Wenxin was not someone who acted according to common sense.

"Alright, I'll agree. Although I'm your master, I'm still your aunt. If something happens to you, how am I supposed to explain it to the Su Clan ..."

Su Wenxin accidentally said this matter. Su Cancan tried to stop Su Wenxin, but it was too late.

"So the two of you are relatives as well ..." Wu Tian suddenly felt that perhaps all those with the same surname were relatives ...

Like Loong Yun and Longyan... Why hadn't he thought that Su Wenxin and Su Cancan were relatives as well ...

"Don't go out and speak nonsense ..."

Su Cancan quickly told Wu Tian not to talk about it. Although Wu Tian didn't know why she was trying so hard to hide it, since Su Cancan had already said so, Wu Tian could only nod.

"I'm your aunt, and this matter is embarrassing to you?"

Su Wenxin wasn't so easy to deal with as she started to act up again.

"Alright, you can do whatever you want. I'll invite you out to play, drink, sing and do whatever you want. Don't mention this anymore."

Su Cancan really admired her master, and she didn't know how she could persuade Su Wenxin. In the end, she had to use the same method she always used to coax Su Wenxin — to ask her out to play.

This method has always worked. Su Cancan was very familiar with this method.

"Why didn't you say so earlier?"

A smile bloomed on Su Wenxin's face as she spoke. Actually, what she said just now was just a joke. However, there were no outsiders present, so it wasn't that big of a deal for her to say it.

Half a day later, Su Wenxin and Su Cancan greeted Wu Tian, then left in a hurry after putting on some makeup.

Wu Tian could only hope that nothing would happen to them. He had already left the yard and went into a small house.

Loong Yun had already set up this place. There was a very powerful projecting device where Wu Tian could have a meeting with Yu Naixin and the others directly.

The reaction on the market was just as Wu Tian had expected. The originally decadent Wu Group immediately became strong after a day of depression.

As the stock on the market continued to rise, the market value of Wu Group had more than doubled.

Meanwhile, the Mecca Company side seemed to have suffered a huge blow, Wu Yongan was so angry that he was almost speechless.

Mr Jin also frowned after hearing the news. He just silently looked out the window and tapped on the table lightly with his fingers.

He decided that it would be impossible to get rid of Wu Tian. In that case, they could only face Wu Tian head on and fight him in financial battles.

Hidden Billionaire Chapter 688 - Double Line Operation

C688 Double Line Operation

Things suddenly became like this. Wu Yongan's face had always been dark, so anything that did not go his way would make him angry.

"Mr Jin, I thought that was the good thing you were talking about."

Although Wu Yongan didn't dare to directly talk back to Mr Jin, he still dared to make sarcastic remarks.

After all, what these Korea people said was wrong. They promised that they would definitely get rid of Wu Tian.

In the end, they still failed.

Mr Jin's mood was even worse than Wu Yongan's. He spent so much money and invited Zheng Taiwen to do things for him, but in the end, not only did he not feel happy about it, even Wu Group Corporation's stock had risen by a lot.

This was no different from stealing a chicken without being able to eat a grain of rice. Their Mecca Company had not taken any advantage at all.

"President Wu, you don't need to talk about this. Let's think of a way, we can't let them continue to be this strong. "

Director Pu hurried out to smooth things over. There was no point in here studying who could do this.

"That's right, that's right. What should we do next?"

A few of the Korea people hurriedly agreed from the side. Wu Yongan's expression finally eased up a bit, as he knew what the priorities of the matter were.

The most important thing was still taking advantage of Wu Tian's unconscious appearance. They quickly took the advantageous position.

"I don't think your acquisition plan is going as smoothly as it should be. There are less and less companies that want to be acquired, so it's not going to work."

Mr Jin felt that the previous pattern was a little out of date.

We have to think of a way to start over. In any case, as long as we can earn a lot of profit, whatever the process is, it doesn't matter.

"You mean? You don't want to take this path of acquisition anymore? "

Wu Yongan was stunned, but he clearly understood why these Korea countries would retreat. On one hand, acquiring a business was a very expensive process, and in this period of time, two to three billion yuan had already been burned away.

However, the consolidation of their industry had not been completed yet. If they could not complete it within a single day, they would not be able to recoup the 200 to 30 billion yuan they had invested.

Originally, according to their assumptions, if they succeeded in monopolizing major industries such as S City, then they would become a huge tumor that was attached to the economy of S City.

At that time, it would be very difficult for them to get rid of Mecca Company again.

This was because Mecca Company was tying up tightly with the economic lifeline of S City. However, currently, they were far from reaching that stage.

They bought a lot of small businesses. But these small businesses are scattered.

It would be very complicated to integrate them, because it is not easy to introduce a set of standards and management models.

It wasn't something that could be done just by spending money. There were still enough people who had to deal with these problems. To put it bluntly, talented people were needed. Right now, this was what Mecca Company lacked the most.

You had to ask where the people from S City went. Unfortunately, most of them were dug out by Wu Tian.

Wu Group company's previous recruitment, has specially raised his standards, at the same time also increased recruitment remuneration.

The purpose was to maximize efficiency with a minimum number of people, but he would not give them any restrictions on wages.

It could be said that this was a true company that allowed its employees to earn a lot of money. In such a place, talented people would definitely flock to it like a flock of ducks.

On the other hand, the people on the Mecca Company side were all people that Wu Group Corporation did not pick, and then they unwillingly came here.

In this comparison, the gap between them was very obvious.

"The acquisition can still continue, but you need to spend less and speed up. I'm going to move the main money somewhere else, so you have to take it easy. "

Mr Jin thought about it, and in the end, decided to withdraw from the Mecca Company.

This was equivalent to a combined fist, Mecca Company was one of the fists, and right now, Mr Jin was responsible for establishing the other fist.

"Then, what do you mean?"

"Finance, I mean."

Mr Jin slowly said word by word. He had already considered this matter for a long time, and he had also observed the S City's stock market for a long time.

Hearing him say that, Wu Yongan became silent.

If he really intended to use finance as the entry point, then this matter would not be so simple. The key point was that it would easily lead to a counterattack.

After all, no one in the stock market wanted to see their stocks shorted.

It's just that it's simpler and more operable than buying the stock.

Wu Yongan felt a little strange in his heart because he felt that if Mr Jin really made great progress in the financial field, then wouldn't that mean that he didn't play any role at all?

At that time, how would Shuangxing Company Corporation judge him? Maybe the company would think he was a failure.

"Then it's settled. Just go back and busy yourself with your work. If you have any problems or requests, just tell me. The company will fully support you."

Mr Jin said indifferently after finishing his sentence. He turned around and no longer looked at Wu Yongan.

Obviously, Mr Jin didn't want to talk to Wu Yongan anymore, because he came this time to tell him what he was thinking.

Although Wu Yongan was unhappy, he had no choice but to accept this fact.

When the Wu Family people outside saw Wu Yongan walk out with an ashen face, they immediately surrounded him.

"What's wrong, Patriarch?"

Wu Yongan gritted his teeth, he turned around and looked at Mr Jin's office, "It's okay, let's go."

When they walked further away, Wu Yongan started to curse angrily.

"Bastard, these people from the Korea are really something. They didn't manage anything well, and now they want to take me out as a scapegoat."

The more he thought about it, the more Wu Yongan felt that he was wronged.

"Clan leader, we cannot afford to offend them ..." Several people from the Wu Family stood to the side and advised him, afraid that others would hear it.

After all, Wu Yongan's current position was promoted by these people, so he could be considered Wu Yongan's superior.

"How could I not know?"

Wu Yongan retorted angrily, but he still obediently shut his mouth.

He couldn't continue like this. Wu Yongan wasn't willing to let his life be controlled by someone else.

"Send some people out and check it out for me. How did the funds from Shuangxing Company Group get in?"

Wu Yongan rolled his eyes and suddenly came up with an idea.

He called them all over and began to discuss some secrets.
