C739 Preparations for the Aerospace Company

Wu Zaibin felt that his IQ was indeed not good. This wasn't something that he thought of, but something that Wu Tian had researched.

"I know what you are thinking, tell everyone to come here and buy the Korea currency to let it increase in value. This way, everyone will think of taking out the Korea currency and selling it at a high price. "

Wu Tie nodded. Wu Zaibin knew it at one point, but there was one more thing he did not expect.

"Don't forget, we are currently using the China's currency to buy Korea's money, and are very profitable. The people who lent these 1,000,000,000 yuan in the country definitely want this money back! "

On one hand, it could bring back one trillion dollars from the China, and on the other hand, it could make all the citizens of the nation of Korea want to take out the money from the national fund.

This way, the Shuangxing Company company in the middle would definitely suffer some pain.

Wu Tian, who was going to be forced into a corner, suddenly felt like he had turned the tables around in one move.

Indeed, the heavens would not force a person to a dead end.

"This method of yours is amazing. Let's not talk about anything else for now, let's not waste time and quickly settle this matter."

Wu Zaibin stood up and went to take care of this matter. They still had some money on them, so they quickly threw away these Korea and currency.

Wu Zaiyao's side had already arranged the missions by Wu Tian. If nothing unexpected happened, a large number of articles would be sent out in China half a day later.

Leading an era Wu Tian felt that he might not be able to do it now, but if he led the way in finance now, Wu Tian felt that he could really give it a try.

A few days had passed and Wu Tian had always been scared witless. Both he and Wu Zaibin now looked like they couldn't sleep well.

It was only when Loong Yun came back from the hospital that she brought a sense of joy to the company. Finally, a good thing happened.

"Look what I've brought you." Loong Yun was free to move now, but she still couldn't do much.

However, she couldn't take it anymore and came to work early.

She left the hospital, Loong Yun bought some food and drinks, and carried them to the company. She happened to see Wu Tian and Wu Zaibin silently looking at the exchange price.

"Why did you come out so quickly?" Wu Tian didn't feel happy just because Loong Yun came out, instead, his face sank.

Seeing that Wu Tian seemed a little unhappy, Loong Yun quickly explained, "I'm almost fully recovered now, there's no need for President Wu to worry about me anymore." "I guess the two of you are really worried, so I came back quickly."

"That's right, President Wu. We are in need of people right now. You can't chase Secretary Loong back."

Seeing that they were all praising Loong Yun, even if Wu Tian was angry, he naturally couldn't say it out loud.

"Alright, alright. If you keep talking, I'll become a sinner. It's good that you came back, we were so busy together."

Wu Tian finally revealed a smile. Actually, the first person who should be happy when Loong Yun came back was Wu Tian.

"It seems like the situation hasn't been good recently. I've heard of some things and you seem to have some plans for it."

The moment Loong Yun arrived, she had taken over quite a lot of the job from Wu Zaibin. This guy could finally free himself from those chores and study his finance.

"There is a layout, but the effects of this layout have yet to appear."

Wu Tian was also helpless. His original plan of killing two birds with one stone had no effect until now.

Domestic is still lukewarm, do not know whether the message is not widespread enough, or what.

"You don't need to worry about that. I will do it. You might as well do something more meaningful. "Oh yeah, when I entered the company, I saw a few people standing at the door looking around. See if they came for you."

Not to mention anything else, the moment Loong Yun said that she wanted to take over, Wu Tian immediately felt reassured.

As for the person at the door, Wu Tian didn't remember who he asked to come over to look for him recently.

He strolled out of the company, ready to see who it was.

More than a dozen people were already gathered at the entrance. They were looking all around with some hesitation. No one dared to lead the way.

The leader happened to be someone Wu Tian knew, and it was Hong Xiangtai, whom he had personally recruited.

Previously, when he met Hong Xiangtai, Wu Tian had given him a sum of money to recruit the people that were expelled by the Bureau.

Join Wu Tian to prepare for the new spaceflight company.

However, Wu Tian was so busy that he forgot about it.

"President Wu, President Wu, it's me. It's Hong Xiangtai!"

Hong Xiangtai was very excited when he saw Wu Tian coming out from the inside. He quickly gathered the people around Wu Tian.

More than a dozen of people's eyes were focused on Wu Tian. This made him feel a little embarrassed, so he quickly pulled Hong Xiangtai aside.

"Why are there so many people? What does that mean?"

"Didn't you tell me to invite them over? They were all former members of the Space Agency, so their living standards are not that high now. I heard that some companies wanted them to come with me."

Hong Xiangtai was very excited. This was the first mission given to him by Wu Tian. Naturally, he had to complete it well.

Hearing that, Wu Tian could only accept. However, he had to find a place for them first.

Although Wu Tian said he wanted to start a spaceflight company, but Wu Tian didn't know anything about this.

Wu Tian had no idea how much money he had spent, how much land he needed, and where he built it.

"Everyone, come in first. Come inside for a bit."

Wu Tian brought more than ten people to the meeting room inside the company. Luckily, the company wasn't small. At least, it wasn't crowded with more than a dozen people.

"Previously, I don't know what Hong Xiangtai said and gave you as a guarantee, but I, Wu Tian, repeat it again here. If you come to my company, I will definitely not treat you unfairly."

No matter what, he had to stabilize the morale of these people and arrange some matters for them.

"President Wu, where did we build this spaceflight company?"

Soon, people raised their hands to ask a question. This question was also very sharp and Wu Tian didn't know anything.

"I really don't know. We can think about it now."

Hong Xiangtai looked at Wu Tian thoughtfully for a moment. Then, he took out a map and found an island in the sea between Korea.

"If possible, I suggest we build our R & D base here. Buy this entire island! "
