

Hidden Billionaire Chapter 761 - Liang Zhenhai's Means

C761 Liang Zhenhai's Means

After the call ended, Liang Zhenhai sat on the chair.

In the S City, he could be considered an extremely experienced person, and he had never encountered such a terrible defeat.

If it was said to be the closest one, it was probably many years ago, when Liang Zhenhai went out to fight with his elder brother.

He seemed to have found an expert to be his assistant.

Although he was only one person, he could deal with more than ten people with his bare hands.

Even if he didn't have any weapons on him, the blades of Liang Zhenhai and the others didn't have any reaction at all when they hit him.

It was as if his body was made of metal, incomparably hard.

Such a person had defeated the dozens of people they brought.

Even their boss had been severely injured. It could be said that they had suffered a crushing defeat.

It was this opportunity that Liang Zhenhai took over the boss's position and slowly walked to where he was today.

After this incident, he couldn't help but recall what had happened before.

Could Wu Group companies also have such an expert?

This was what Liang Zhenhai was afraid of. If it was really like this, then no matter how powerful their Red Power was, it would be useless.

However, even though he was worried, Liang Zhenhai still reacted quickly.

His call was to Chang Zairong. To the president of the Main Chamber of Commerce in China, this was simply not a matter at all.

Chang Zairong had already replied that he would send an expert on Tianying Sect over soon.

This made Liang Zhenhai feel a lot more relieved.

However, his recent actions definitely could not be done.

After being on tenterhooks for a few days, Wu Tian and the others realized that nothing seemed to have happened, so they resumed their previous calm.

Many people began to relax their vigilance.

Even Su Cancan felt that what Wu Tian had done was a bit too alarmist.

"Are you sure someone is going to attack us?" Su Cancan came over to interrogate him again. She felt that Wu Tian's words were less reliable than what she had heard personally.

"Of course it's true. You should believe us on this matter." Wu Tian had already explained to them who knows how many times. He was already tired of talking about it.

Su Cancan was also a little impatient. "Since that's the case, why don't we take the initiative and attack? My seniors and I will beat them up once. We are Wudu Sect after all. We specialize in weapons of mass destruction."

Wu Tian quickly rejected Su Cancan's suggestion. Was she trying to commit a massacre? If they really did this to Red Power, how would they explain it to the police?

They definitely wouldn't let this matter pass just like that.

Therefore, if it was not necessary, it was better for him not to cause any trouble.

"No, we can't do that."

Wu Tian also had a strategy. There was no need for them to do it themselves.

"Right now, I'm already getting Azure Dragon and Wei Jiaming to gather intelligence. We will provide this information and evidence to the police later and have them deal with these Red Power for us."

In doing so, he would not only have no future worries, but he would also be able to build a good relationship with the police. Why wouldn't he do it?

"I hope it's really as good as you say."

Su Cancan clearly did not agree with Wu Tian's way of doing things and felt that he was too idealistic.

However, when no one could come up with a better solution, they could only do so.

"Wu Tian, are we really going to continue like this?" Shen Xue also came to complain to Wu Tian.

They were not having a good time. Besides, Shen Xue still had a restaurant to manage. Without Shen Xue's guidance, the new hotels might not be technically up to standard.

It would not be a good thing for the hotel.

"Of course not, as long as they don't try to harm us again, we can act the same as before."

Wu Tian also felt a strong pressure and started to rebound from within the company.

Even if he was the chairman, he probably wouldn't be able to do anything about it.

"But what if they do it again? Are we going to continue like this forever? " Wu Tian felt a bit embarrassed when he heard Shen Xue say that.

He also knew that it wasn't a good idea to continue like this, but Wu Tian didn't have any better choices.

"This ..."

"Listen to me, what you're doing has no effect. This is what the other side wants. We are always hiding in the company, so we won't be able to carry out our business."

Listening to Shen Xue's analysis, Wu Tian felt that it made a little bit of sense. Indeed, it was as if he wasn't very meticulous at the beginning.

"Then let's do it like this, everything will be the same as before. However, each of you have to issue a 1 button emergency rescue device. If there is any danger, do not worry about anything, just report it to the police!"

In the end, Wu Tian could only compromise with everyone. Using such a method, he felt that he wouldn't be able to solve the root of the problem.

The key point was still to think of a way to make Chang Zairong step down or even completely lose his power.

"How about this, I'll form a security team with my seniors. If anything happens, we'll immediately rush over to deal with it."

In the end, Su Cancan also took the initiative to step forward and take on this responsibility.

It had to be said that her solution was the best. The other party would probably be a little fearful because of this as well.

"Thank you for your hard work." Wu Tian quickly thanked Su Cancan. He should be polite to her.

The meeting went on for a long time, but was interrupted by Azure Dragon's call.

Wu Tian was surprised to hear Azure Dragon's message. He could not believe it.

"President Wu, you might not believe it, I just infiltrated the Red Power, and now there's a very powerful rumor saying that someone took over Liu Zhendong's position and became the new hall master."

"There's actually such a person, can we win him over?"

"This person is Yin Rumeng ..."

Silence. Both sides of the phone began to fall silent.

Following that, Wu Tian shouted loudly, startling almost everyone present.

"Impossible, how could that be possible? Did you hear it wrong? Maybe it's someone whose name is very similar to hers."

Wu Tian felt that Yin Rumeng should still be at the Nan He Tower by now, so he quickly ordered a few people to search for her. However, they all came back to report that they didn't find any trace of Yin Rumeng.

Hearing this news, Wu Tian finally started to accept the surprising news.
