

C817Money Black Hole

Wu Tian's doubts were, of course, reasonable. This Security Team was obviously developed to counter possible attacks from the Tianying Sect.

Wu Tian was quite clear about what level those people were at.

Su Cancan didn't say anything and brought them to a tent.

The area of the tent was not small. There were several people guarding the entrance, and they had to pass through layers of checkpoints before they could enter.

And inside was another world.

"These are the weapons. We just received them today."

Su Cancan pointed. There were rows and rows of shelves, and on the shelves, there were many hand crossbows and things like bows and arrows.

Although firearms and ammunition could not be used, no one cared about these cold weapons at the moment.

"The arrows of these arrows are all non-lethal. When they hit the body, they will emit a strong electric pulse, stunning people."

Su Cancan took an arrow from the shelf beside her and handed it to Wu Tian.

This arrow was indeed made very well. It seemed to be made of some new material. When he held it in his hand, it was very light, but the arrowhead was a bit heavy.

It was indeed just as Su Cancan said. The arrow was a blunt metal head. It looked like it would hurt a little if it hit a person.

However, to be able to neutralize an enemy's fighting force without suffering any injuries was already quite good.

"This one's not bad, but the range is ..."

Wu Tian walked over and picked up a crossbow. This thing wasn't very big and it was also very light.

He tightened the string on the crossbow and put an arrow on it.

He aimed at a target about ten meters away and pulled the trigger. The arrow shot out and nailed itself onto the target.

"I feel that it's not bad, its speed is quite fast."

On the whole, Wu Tian was quite satisfied with the result. Su Cancan wouldn't give her men bad weapons and equipment.

"This hand crossbow only has an effective radius of 50 meters. Of course, we still have more specialized longbows and even bows."

Su Cancan pointed at the shelf behind them. There were a lot of different types of shelves.

Wu Tian nodded. He looked at Loong Yun and asked with his own eyes.

"I just checked. This crossbow can be used as long as it is reported to the Public Security Bureau. As long as it is not fatal."

As security, it was still pretty good.

"Not bad, this place is doing very well indeed. I am very satisfied with this."

Wu Tian looked at Su Cancan in admiration. To be honest, he rarely praised her.

"Alright, just do what you need to do. Just remember to call us back on time for the funds."

The cost of Security Team was obviously not a small amount, Wu Tian was mentally prepared for this.

"Alright, alright. I'll ask Yu Naixin to transfer fifty million over to you right now."

With so much money, it should be enough. Wu Tian thought like this, but Su Cancan's expression was full of disdain.

"Just the price of the weapons and equipment here is already 200 million. If you take 50 million, you can get a salary of 50 million."

Not to mention Wu Tian, even Loong Yun, who was usually very serious, was stunned by this price.

"Isn't this too much ..." Their investment in a project was only this much. Although they were currently rich, money was not spent that way either.

Let me tell you, we didn't even ask for the development of new equipment. If you include this amount of money, forget about two hundred million, even two billion might not be enough.

Su Cancan looked coldly at Wu Tian with her eyes slanted, as if she felt that their thoughts were too simple.

"About that, I'll give you the money later. Loong Yun, let's go." Wu Tian really didn't want to stay here any longer. He might be ripped off a layer of skin by now.

Originally, he wanted to see some good news, but after Wu Tian came down from the top floor, he became a bit depressed.

"President Wu, if we continue like this, the company's expenses will..."

Loong Yun had always been in charge of the company's finances, so she was rather sensitive to the flow of the funds. Considering how much they spent right now, even the wealthiest companies would not be able to withstand such hardships.

"Stop talking, let me calm down." Wu Tian rubbed his temples and frowned in annoyance.

Seeing Wu Tian like that, Loong Yun shut her mouth.

When Wu Tian woke up, there were already several people waiting to see him outside his door.

In the past, when he felt that he had money, he could do whatever he wanted.

However, Wu Tian clearly knew that it wasn't the case at all. He was so busy that he almost didn't have time to eat or drink.

"President Wu, are you awake?"

Loong Yun's voice came at the right time from outside the door.

Although Wu Tian hadn't washed his face and rinsed his mouth, he wasn't that particular in front of Loong Yun.

"Come in."

Seeing Loong Yun walk in leisurely, Wu Tian directly nestled on the bed, closed his eyes and slowly dozed off.

"President Wu, someone found our company last night."

"Just tell me who it is. There's no need for me to guess."

"It's Chen Cheng."

Hearing this name, Wu Tian slowly opened his eyes.

Didn't this guy run away without a trace back then? Did he not die? He actually came to find me now.

"Him? What is he doing here? " Wu Tian was very curious and didn't understand it at all.

If it wasn't for Wu Tian, Chen Cheng wouldn't be in this situation, they were clearly enemies.

"I don't know either. I've already settled him down, see if you want to meet him or not."

This matter was indeed a bit troublesome, so Wu Tian couldn't pretend not to hear it.

"Alright, I'll listen to you."

Wu Tian quickly washed up.

When he saw Chen Cheng, he was holding a bowl of noodles in front of him and eating to his heart's content.

His clothes were tattered, as if he was a tramp.

Wu Tian looked at this guy with a serious expression. He didn't expect Chen Cheng, who was once the leader of the group, to be like a dog now.

He came in front of Wu Tian and begged for protection.

"I don't care what happened to you, but since you've come to find me, can I ask you what you can bring me?"

Wu Tian looked at the guy with a smile.

Chen Cheng stopped his chopsticks and raised his eyes.

"I'll help you deal with Chang Zairong."
