

Hidden Billionaire Chapter 845 - Forced Entry

C845 Forced Entry

The methods of the people with Tianying Sect were different from those of ordinary people. They did not immediately remove the smoke, but instead waited slowly.

Soon, from one end of the factory compound, the sound of a motor starting could be heard.

A strong gust of wind blew the smoke away.

Su Cancan had already run far away, but she didn't expect that within a few seconds, her position would be exposed again.

The people from Tianying Sect immediately chased after him, and acted out a scene of a fight within the factory.

It was so lively inside, but the people outside were equally anxious.

The people from Security Team were gathered outside the house. They were just anxious, but they couldn't enter the factory either. There was no way for them to help Su Cancan.

At this time, Wu Tian was already wearing the latest exoskeleton armor. This armor could not be considered a exoskeleton anymore, it practically wrapped him inside it.

He was just like an Iron Man.

Ignoring everything else, Wu Tian instructed his men to quickly pile up a few bags of explosives at the entrance of the factory.

Since things had gotten to this point, Wu Tian couldn't care less. The easiest way to deal with this situation was to use explosives.

As for whether it would cause any trouble in the future, it had nothing to do with Wu Tian.

We'll talk about it in the future. Life is more important.

The boys moved quickly. This time, they also carried the latest explosives from the military factory. It was said that after the explosion, no traces of explosives would be left.

This item was not even released to the outside world because it would be too dangerous if it fell into the wrong hands.

Now, however, it was going to come in handy.

With a leap, Wu Tian jumped to the top of the building. This Battle Mecha was a lot better than the exoskeleton.

Someone up there was already prepared for the explosion. Seeing that Wu Tian was up, they immediately set off a small explosion.

With a rumble, a hole was blasted open in the roof of the factory. Wu Tian fell down from this place like a meteorite from the sky.

He knelt on one knee, one fist on the ground — a pose he thought was very handsome.

However, at this time, no one was attracted by him and everyone was chasing after Su Cancan.

"Hey, aren't you guys giving me too much face by doing this?" Wu Tian stood up and started to protest, but those people took the initiative to avoid Wu Tian.

"Another person has come. Do you want to become a canned food? Are you wrapping yourself so tightly, or do you think that clothes like these can protect you from dying?"

The hulk glanced at Wu Tian. In the end, he managed to attract the hulk's attention.

"Then do you want to test my abilities?" Wu Tian was also a bit inflated. Wearing this made him feel like a superman, as if his entire body was filled with power.

The brawny man's laughter basically represented the attitude of both sides. The two of them charged towards each other at the same time.

The brawny man's every step could shake the entire ground, as if there was an earthquake.

Wu Tian also secretly tried his best. No matter how much power this mech could provide him, Wu Tian had taken out all of his training abilities.

Their fists were ready to clash at the very end of the charge when Wu Tian suddenly smiled evilly. On his fists, a few metal blades suddenly shot out from above the Mech.

This was a secret weapon he had just discovered. This mech seemed to be full of weapons.

The brawny guy was also shocked. However, it was too late for him to change his direction. He could only face Wu Tian head on.

After a series of collisions, Wu Tian could only feel sparks bursting out from his fist along with the ear-piercing groan of the twisted metal.

Just this alone was not the end. The enemy's fist wind did not stop. He shattered all the steel blades on Wu Tian's fist and then threw a punch back at Wu Tian.

The two of them were in a stalemate. Both of them stopped moving.

Even though Wu Tian was wearing a mecha, he could feel the shock that his punch had brought him.

The guy in front of him was no better than Wu Tian. After all, he had nothing but his own body.

His skin was almost as hard as steel, but the broken steel pierced through his skin, causing blood to flow out continuously from the wound.

The two of them were very surprised. Wu Tian was surprised that nothing had happened to this guy.

The brawny guy was surprised that Wu Tian actually managed to injure him!

"Good, looks like I've really underestimated you!" The brawny man withdrew his fist and waved his other hand. This one was injured, but his fighting strength was not reduced by much. He was still very powerful.

The result of the battle had turned out to be like this, causing both sides to have a strong desire to fight. It had been a long time since Wu Tian had met such a powerful enemy.

If not for his mecha, his situation would have been even worse than when he faced Zheng Taiwen.

This Tianying Sect Hierarch was indeed powerful, Wu Tian was already a little fearful in his heart.

Just when the two were preparing to continue fighting, Su Cancan suddenly landed beside Wu Tian.

"Hurry up and leave!"

Su Cancan shouted at Wu Tian, but before Wu Tian could understand what was going on, his body reacted and jumped up.

Su Cancan laid on the back of Wu Tian's Battle Mecha and leaped into the air with him.

From the hole just now, Wu Tian jumped out of the factory easily.

The sturdy man sneered and muttered, "Tricks!"

However, at this time, nobody realized that an explosion had suddenly occurred.

This time, the explosion started from the outside and the walls of the factory were all destroyed into powder at the same time.

The whole factory was about to collapse, but Wu Tian had already escaped.

The shockwave and flames from the explosion soon reached Wu Tian.

Fortunately, Su Cancan was lying on his back with Wu Tian protecting her, so she didn't suffer any injuries.

The two of them circled in the air a few times before they started to rapidly descend.

At this time, the factory was already engulfed in flames.

They had amassed so many explosives that they were now the perfect accomplices to destroy themselves.

Hidden Billionaire Chapter 846 - Play with Fire and Burn Itself

C846 Play with Fire and Burn Itself

A ball of raging fire suddenly ignited, illuminating the entire night sky with incomparable brightness.

Wu Tian looked into the flame, but didn't see anyone.

The smoke from the explosion even formed a mushroom cloud above.

The glass of the factory several kilometers away was shattered by the shockwave.

"Retreat, the police will be here soon!" Loong Yun quickly drove the car next to Wu Tian and opened the door, gesturing for the two dirty guys to come in.

With a step on the gas pedal, they disappeared from the block as if they had never been there before.

At this moment, Wu Tian finally felt relieved.

Within that kind of explosion, it was impossible for anyone to survive, so this time Wu Tian could be at ease. He would definitely not be threatened by Tianying Sect again.

"We, we have captured them in one fell swoop earlier right ..." Wu Tian muttered and looked at Su Cancan.

Su Cancan did not look any better than him. Her originally white and delicate face was also covered by the black smoke.

"They must have all died in there. It is almost impossible for anyone to survive such an explosion! "

Su Cancan looked back and saw that the temperature of the fire was so high that even the steel had turned red. Even if that Tianying Sect sect master is invulnerable, he can't possibly withstand such an explosion.

"Don't be in such a hurry. Wait for the morning newspaper. The police will definitely announce the results." Loong Yun had a calm expression on her face, as if nothing had happened.

On the way back, Wu Tian couldn't help but become nervous as he watched the police cars pass by them one by one.

He wasn't afraid of anything else, he just sent the police to investigate something, and now that the blame was brought to him, he had no way to defend himself.

"Loong Yun, the surveillance around here ..."

"I have already dealt with it. There is absolutely no trace of our subordinates! There were also some other clues that were more or less dealt with. However, it is definitely impossible to solve it with a hundred percent certainty. "

Although Loong Yun's words were conservative, Wu Tian still believed Loong Yun's words.

The convoy silently returned to the Wu Group Tower, just like how it was when they left without a sound.

After washing up, Wu Tian climbed onto the bed. However, he was unable to sleep even after staying awake for a few hours.

The moment he closed his eyes, he saw the scene of the explosion. The effect it had on him was too great.

He had waited for dawn with great difficulty, but sure enough, a huge commotion had broken out outside.

It was said that the police had found more than twenty corpses at the scene, and there were even some wreckage that could not even be identified by their bodies.

Wu Tian didn't feel relieved just because of this. He let out a long sigh when he heard from the news that there was an extremely tall and muscular corpse among them.

That would be the biggest problem if they were not completely wiped out.

"President Wu, the news has come out." At this moment, Loong Yun had already prepared a list of the information that the police had released.

Between them, the number of people surveyed was basically equal.

"That's great. By the way, did the police discover us at that place?"

That was the only thing that troubled Wu Tian.

However, this matter wasn't that worrying. It was something that could be relaxed.

"You can rest easy if they don't notice us." Loong Yun adjusted her glasses and said slowly, "The police are busy right now, so they don't have time to worry about such things."

No matter what, Wu Tian felt that this matter could finally be put to rest. Although it wasn't in the way he had imagined, the result still made him rather satisfied.

This could be considered as removing harm for the sake of the peace of the China. But it also made people feel that it was quite a pity. With such an arrogant Tianying Sect, he was actually blown to death by the explosives, and could be considered to be playing with fire as he burned himself to death.

If they hadn't stored so many explosives in the factory, there wouldn't have been such a serious explosion this time.

After taking a comfortable bath, Wu Tian felt that the depression he had during this period was gone.

His entire body felt extremely good.

However, before he could relax, other things came to him on their own accord.

Mecca Company that had already been moved previously suddenly announced this time to be privatized.

This was an incomparably shocking news even to the entire nation of S City.

One must know that the Mecca Company had over a hundred branches, and this was not a small number.

If he wanted to privatize it, he would have to prepare at least hundreds of billions of dollars in funds to get back the shares.

Loong Yun handed over the report on this matter to Zhang Ye, causing Wu Tian to become curious.

Since when did the China have so many wealthy people, and they even have so much money, to the point where it was truly hard for people to believe.

"President Wu, do you think we should respond to this matter ..." Loong Yun was rather worried about this. To her, it was a big matter.

"At this stage, we don't need to care about it anymore. Since it wants to leave the stock market, we can't stop it either." Wu Tian felt that there were a lot of people who were more worried about him, and it was not his turn to worry about this.

They had once competed against each other with Wu Group, but now, Mecca Company and Wu Group could be said to be walking further and further away from each other.

Wu Tian took care of the matters at hand while there were nothing else to worry about. He and Loong Yun were ready to sneak out to have a good rest.

Breathing in the air outside, Wu Tian felt that he finally survived.

Since they had not eaten yet, the two of them went to a well-known alley to eat local specialties.

This alley looked very simple and unadorned, with many places having the style of an ancient building. It seemed to have quite the style.

"Boss, have some breakfast!"

Wu Tian sat at the table by the door and shouted towards the inside.

With that, he suddenly saw a person eating on the table opposite them with his back facing them.

His pupils immediately contracted, and his expression began to turn strange.

"President Wu, what's wrong?"

Loong Yun didn't know what was wrong with him, but it looked as if he was sick.

Wu Tian didn't answer, his eyes were carefully observing that person.

Hidden Billionaire Chapter 847 - Former Savior

C847 Former Savior

He was dressed in a bluish-gray Daoist robe, and there was a golden loop around his waist.

No matter how he looked at it, he looked like the expert who helped Master Wu Tian escape from Zheng Taiwen and the others.

The more he thought about it, the more Wu Tian felt like him. It was just that he did not see the real face, so he did not dare to be 100% sure.

It seemed that the man was almost done eating as he waved at the shop owner.

"Boss, the bill!"

Hearing this voice, Wu Tian immediately slammed the table and stood up in excitement.

That's right, it was that person. Although Wu Tian didn't know what he looked like, he definitely remembered his voice.

Seeing that he was about to leave, Wu Tian quickly walked over and appeared in front of the Taoist with excitement.

This person looked to be in his thirties. His appearance was very ordinary, one that couldn't even be found in a pile of people.

His eyes were not very large. However, they were sparkling with a bright light. His eyesight was extremely powerful.

"Benefactor!" Wu Tian shouted excitedly and was about to bow his head in respect.

The Daoist Priest was shocked by Wu Tian. He didn't know what was going on, but a person suddenly jumped out.

"What are you doing?"

"Benefactor, you are my benefactor. Back then, if it wasn't for your help, I would have definitely died ..." Wu Tian's words were full of tears and snot. Many people looked over, wondering if something really exciting had happened.

"What?" The Daoist Priest was at a loss, as if he had completely forgotten what had happened. He also did not remember knowing Wu Tian.

"Benefactor, there's nothing to say. You must let me thank you properly." After saying that, Wu Tian dragged him forcefully towards his car.

Loong Yun followed closely behind the two of them. Her gaze never left the Taoist. She was not idle either as she was checking the tablet computer for information about this person's identity.

The Taoist was forced into the car by Wu Tian. Finally, Wu Tian got on the car and told Loong Yun to change to an upscale place.

If he had to thank someone, how could he go to a store on the street like this? He still had to eat a good meal with this grandmaster.

"Um, you're willing to entertain me, I'm very happy, but we don't seem to know each other. I like to drink, and I don't know if I'll do anything after drinking. If there's anything that's ungrateful to you, please forgive me."

Although the Daoist Priest had a stupefied expression, his words were flawless.

"Senior Taoist, do you really not remember? When we were fighting by the side of the road, we would have been killed if you didn't help us. Plus, you also have that iron ring, it's so powerful that you can fly in the air!"

Wu Tian almost couldn't control his emotions. He wanted to thank this person and know the secret of this iron ring.

From beginning to end, he hadn't been able to figure out how that iron ring had flown up.

Logically speaking, this should be impossible. Could it be that there was some sort of magical theory behind it?

Senior Taoist originally didn't quite believe it, but after hearing what Wu Tian said about the Iron Ring, his expression changed slightly.

"There's actually such a thing? It seems that I really drank too much that day. After I woke up, I didn't feel anything was wrong."

This Daoist was vague and brought the matter over. He did not answer Wu Tian about the metal ring.

Although he didn't say it, when he saw Wu Tian look over here from time to time, he intentionally hid the ring behind his back.

This kind of behavior is basically saying that I have a secret. Come and take a look.

However, Wu Tian wasn't a fool. He knew that this Taoist didn't want to tell him so easily, so he didn't press him any further.

"Senior Taoist, I still don't know your name ..."

"My name is Chen Shiran, and I'm Taoist Mingqing."

Now that he knew the name, the car was almost there.

Wu Tian brought him to the best hotel in S City, which was also the big hotel under Wu Group.

Shen Xue had been managing this place all along, so it was the perfect place to entertain the guests.

"Chen Senior Taoist, you have to listen to me today. Just treat it as my gratitude. If you can't come, I will suffer for the rest of my life!"

Wu Tian was exaggerating, forcing Chen Senior Taoist to give him face.

Seeing that Wu Tian had already said so, Chen Senior Taoist felt too embarrassed to refuse, so he could only agree.

"Coming to this place to eat must be very expensive ..."

Chen Senior Taoist looked at the room Wu Tian had brought him to. It was a dazzling room, even the tables were decorated with jade and jade.

The instruments they used were all of silver.

"Chen Senior Taoist, once you're here, you don't have to worry about the money anymore. Today, I'm treating you to food!"

Since it was his own business, Wu Tian naturally didn't care about the money. He called for the waiter to serve him food and wine.

When he heard about the wine, Chen Senior Taoist's eyes lit up, and he even licked his lips.

"Give me the best wine!" At the end, Wu Tian added, "This is obviously meant for Chen Senior Taoist to listen to."

Before the dishes were served, the two of them began to chat.

This allowed Wu Tian to have an understanding of Chen Senior Taoist's life.

At the beginning, Wu Tian thought that Chen Shiran was from some sect, but when he asked, he found out that Chen Shiran had learned it on his own.

Even his own code name was casually hung in a training hall.

His only goal was to drink wine, travel, and cultivate to Immortal Ascension.

Not long after, the dishes were served. Wu Tian and Chen Senior Taoist began to drink one cup after another.

Although Loong Yun didn't take a seat, she was sitting on a small spot near the door.

She was still searching for information about this person, but she couldn't find any.

Wine was a good wine. Just the opening of the bottle's lid was enough to fill the room with its fragrance.

Chen Shiran was immediately aroused by his own greed.

After drinking for almost an hour, both of them looked drunk.

Wu Tian burped while pointing at the metal ring on Chen Senior Taoist's body.

"Senior Taoist, you must open my eyes today. What is this thing? Why is it so powerful!"

Hidden Billionaire Chapter 848 - Detect

C848 Detect

Although Chen Shiran was good at keeping secrets when he was awake, he didn't want Wu Tian to know the secret behind this thing.

However, after drinking, he immediately became delirious.

The two of them even began to call each other brothers, looking very familiar with each other.

Wu Tian asked a few times and Chen Shiran finally couldn't hold it anymore. He held Wu Tian's hand with a face flushed red from alcohol and handed his ring over.

"This is a treasure my master passed on to me! The origin of this thing is not ordinary at all! "

When Wu Tian heard this, he suddenly became interested. The key was that this thing was too magical and he couldn't help but be curious.

"Why is it flying?" Wu Tian thought hard but just couldn't figure out what kind of principle this was.

Chen Shiran looked around vigilantly and pulled Wu Tian's ears over.

"This was refined by my master using a meteorite and it is said that it took him forty-nine days to refine it. "Actually, I don't know exactly why it would fly. This thing, as long as you inject some inner strength into it, it will be able to fly out ..."

Before he could finish his words, Chen Shiran fell down as if he was drunk.

Wu Tian helplessly pushed him. He realized that it was impossible to wake him up, so he could only give up and give up on this option.

"Let's take advantage of the fact that he's still not awake. Do you think you can investigate this?"

Wu Tian quickly took the metal ring and threw it to Loong Yun.

The time was short, so Loong Yun didn't dare to do too much. She simply tried to use her knife to cut some of the debris from the ring, but the ring was too hard and the knife was useless.

Loong Yun handled the matter for a long time and tried all kinds of methods. In the end, Wu Tian used one of his diamond rings to scrape out some of the debris on the ring.

The two of them quickly put the item in a bag and put the person in the lounge. Wu Tian rushed to the institute with Loong Yun in excitement.

Wu Tian had already ordered people to build research institutes a long time ago. In order to be faster, he bought some original buildings, but didn't remove them. Instead, he renovated them.

So some of the professors from the school have started coming to this place to do experiments. After all, it wasn't easy to earn money, but spending money was easy. The equipment in the laboratory was quickly bought, and just the investment for the equipment here alone was already in the tens of millions.

Wu Tian didn't even blink when he was spending money. This kind of money was called investment.

Although the two of them said that they were the builders of this place, they didn't know who to look for to help them. They could only ask around and finally arrived at the institute's office.

The one who was in charge of managing this place was none other than bamboo pole, who came back with Wu Tian.

bamboo pole was also very excited when he saw Wu Tian's arrival. He walked over with a glowing face.

This guy might have eaten something good, but he was actually a lot fatter than before.

"Isn't that President Wu? Long time no see, how are you ..."

The brilliant smile on bamboo pole's face always made Wu Tian feel a chill on his back.

Wu Tian looked at bamboo pole, who started laughing. Wu was always worried that he might lose something.

"Good, I've finally found you two." Wu Tian quickly took the bag from Loong Yun's hand and handed it to the guy.

bamboo pole looked at the thing inside the bag. It was a type of metal that was rarely seen. It was a little bit golden.

However, in terms of weight, it was definitely not gold. bamboo pole was an expert in chemical materials, so he could tell with a glance if there was a secret behind it.

"What is this for?" This can't be some kind of alloy material, right? "

Wu Tian gestured for Loong Yun to close the door and whispered, "This is made from meteorite. I'll let you study it. Be careful, it must be top secret!"

bamboo pole nodded in understanding. Naturally, he wouldn't dare to neglect this kind of thing.

However, Wu Tian thought this thing was very mysterious and it really made him curious.

"What is so amazing about this? To be able to catch your eyes, there must be something special about it, right? "

bamboo pole's sixth sense was very strong. Wu Tian sometimes admired this guy because he was really capable.

Just based on his guesses, most of the time, he could probably hit the nail on the head.

"There's no need for you to ask about the specifics. I definitely can't tell you about it right now, so just check it carefully. Remember, this is top secret!" Wu Tian emphasized it again before bringing Loong Yun with him and prepared to leave.

Although the institute was open to universities and students, the facilities were actually closed.

After all, this place was funded by Wu Group, so Wu Tian couldn't let people in without restrictions. Therefore, everyone who uses the facilities here has been investigated.

When he got back to the company, Wu Tian directly laid on his chair.

There weren't many days like this, so he needed to take a good rest.

Drinking the tea that Loong Yun made for him, Wu Tian stretched his legs and put them on the desk. He turned on the TV leisurely and listened to the news inside.

"Zhixing Technology Company company is officially established. Chairman Zhang Zerui has said that he will build the company into the biggest high Technology Company in the city. In order to achieve this, they will recruit capable staff around the world... "

This aroused Wu Tian's interest. Previously, Zhang Zerui was Chang Zairong's secretary, but why did he suddenly become Zhixing Technology Company's chairman now?

"Loong Yun, have you investigated this person before?"

"I'm sorry, President Wu. Ever since that incident, I've stopped paying attention to him ..."

Wu Tian squinted his eyes and waved his hand.

"It's fine. Forget it, we don't need to care about him. This person is quite capable. It's fine for us to have an opponent, but I just wish that he would be stronger. Otherwise, how can he compete with us?"

Wu Tian's confidence was not out of nowhere. It was because he had absolute confidence in himself.

Without bragging, at present, in the entire country, his company was the only one that had the ability to launch rockets. Only he had developed his own brainwave game device, and the number of mobile phone systems he had was simply incalculable.

Even if it was the whole world, Wu Tian still felt that he had absolute confidence.
