

Starting as a Son-in-law to Establish an immortal Family

Chapter 1551: Chapter 528: Transplanting the Heavenly Longevity Technique, Bai Ling Laid an Egg! (Part 3)

Because Lu Changsheng often goes into closed-door cultivation, he is busy with affairs.

So if Xiao Xiyue doesn't have anything urgent, she sends a message to Lu Miaoyun.

"Oh? Xi Yue is here?"

Lu Changsheng is somewhat surprised.

Xiao Xiyue had just returned not long ago, and now she's back again, which likely means there's something important.

Immediately, he and a few ladies went to meet Xiao Xiyue.

"Changsheng..."

In a moon-white dress, Xiao Xiyue, with a cold and holy beauty, softened her gaze upon seeing Lu Changsheng, and stated the purpose of her visit.

"Support?"

Lu Changsheng raised an eyebrow, not expecting such good news.

"I don't know the specifics, but I know the Beast Taming Xu Family has a deep foundation, which causes some dissatisfaction in the Sect, so they want to put them in check..."

Xiao Xiyue then explained the Sect's attitude towards both the Beast Taming Xu Family and the Lu Family.

Although the Qingyun Sect is willing to support the Lu Family, they also value its potential and are preparing for an expansion war.

"Expansion war..."

Four years ago, Yun Wanshang had mentioned the expansion war to Lu Changsheng.

He didn't expect it to be confirmed so soon.

"There's no problem in this regard."

Lu Changsheng nodded and said.

He did not oppose such matters.

After all, they just need to express their stance.

Then actively respond to some tasks from the Qingyun Sect.

Nothing else needs to be done.

As for the Coagulation Crystal Elixir of Qingyun Sect, he wasn't really interested.

As long as Xiao Xiyue, Chu Qingyi, and others obtained the Coagulation Crystal Elixirs, it was fine. For a family like his to get Coagulation Crystal Elixirs, they'd have to risk everything and pay a hefty price.

What he wanted was the Qingyun Sect's name and banner, to continue developing steadily.

After all, avoiding conflict with forces like the Xu Family was something he preferred.

"Yes, Master and the Sect Leader have agreed, so as long as major issues are addressed next..."

Xiao Xiyue nodded and shared her thoughts.

She understood the development strategies and policies of Bi Lake Mountain, so she offered some suggestions.

...

After the meeting, Xiao Xiyue left, having understood Lu Changsheng's attitude, and returned to Qingyun Sect to report.

Lu Changsheng briefly mentioned the matter to Lu Ping'an but didn't pay much attention and carried on with daily routines.

On that day, Lu Chensha approached Lu Changsheng.

He stated that he was ready and could attempt Foundation Establishment anytime.

"Good."

Although Lu Chensha's foundation almost rendered the Foundation Establishment Elixir unnecessary,

Lu Changsheng still gave him one.

The family already had much experience in Foundation Establishment, so Lu Changsheng didn't watch over the process closely.

He only asked Hong Lian to pay attention, and he went to check on Bai Ling.

Not long ago, Bai Ling said that she felt like she was about to give birth.

These days, her belly frequently moves, causing her distress even in sleep.

As time passed, eight days later, a False Core Immortal from the Qingyun Sect came to visit.

She didn't mention anything about support during the visit,

it seemed more like a courtesy call.

She noted that Bi Lake Mountain had been exceedingly prominent in recent years and praised Lu Mountain Lord for having great fortune and a good son.

She expressed that Qingyun Sect also hoped for more family forces like Bi Lake Mountain under its rule.

If they encountered any troubles or needed help, they could always seek assistance from the Sect.

With Xiao Xiyue's prior briefing, Lu Changsheng was well-prepared in this regard.

So he had a pleasant conversation with this Qingyun Sect Elder.

Afterward, the False Core Immortal went to White Tiger Mountain to meet Lu Ping'an.

Although Lu Ping'an was not skilled in this area,

his straightforwardness was enough.

After all, the Qingyun Sect had already investigated Lu Changsheng and Lu Ping'an before the visit.

Especially Lu Ping'an.

He was modest and fair, often stopping short during sparring, showing a gentle and mild temperament, which greatly satisfied the Qingyun Sect.

...

Mount Sumeru Cave Heaven.

In the Changsheng Hall.

"This little fellow is hungry, come, have another 'Infant Nourishing Pill'."

Lu Changsheng held Bai Ling and placed a pill in her mouth, then used Yin Yang Magic Power to dissolve the medicine, nurturing her body and the fetus.

Based on his analysis with Hong Lian, the fetus has a True Spirit Bloodline, needing far more nourishment than ordinary beings.

And Bai Ling's lack of nutrition was causing her excessive drowsiness.

So Lu Changsheng specially crafted many top-grade Foundation Strengthening Pills, named 'Infant Nourishing Pill.'

Bai Ling gently leaned against Lu Changsheng's embrace, suddenly frowning with an "ouch."

Lu Changsheng quickly soothed Bai Ling, thinking how mischievous this daughter is.

"Brother, I think... I'm about to give birth."

Bai Ling bit her pale lips and said with some pain.

"Sister Miaoge! Hong Lian!"

Lu Changsheng quickly called Hong Lian and Lu Miaoge to assist with the delivery.

For Bai Ling's situation, ordinary midwives were of no help.

Thinking of Lu Miaoyun, Lu Miaohuan, and Qu Zhenzhen, who all had nurturing and healing abilities, Lu Changsheng summoned them as well.

Then Lu Changsheng instructed Mount Sumeru to watch over Bai Ling and waited nearby for the child's birth.

"Buzzing——"

Suddenly, a faint, clear sound echoed within the cave mansion, causing a transparent white spiritual light to rise.

"Is this... a phenomenon?"

Lu Changsheng wondered, surprised.

He didn't expect the child's birth to cause such a phenomenon.

This occurrence was indeed rare.

Not long after, Bai Ling gave birth.

Even though Lu Changsheng had anticipated it, he was still somewhat bewildered seeing his daughter.

It was an ethereal mass, with a white-gold transparent sheen, or rather... an egg.

Roughly the size of a pumpkin, it even emitted traces of steam, like it was freshly baked.

"Brother..."

Bai Ling looked weakly at her baby.

But seeing that it was still an egg, she didn't know what to say for a moment.

Chapter 1552: Chapter 528: Transplanting the Heavenly Longevity Technique, Bai Ling Laid an Egg! (Part 4)

Not only her.

Lu Miaoge, Lu Miaoyun, Lu Miaohuan, and Qu Zhenzhen all looked bewildered.

Although they had known for a long time that Bai Ling, this child, was somewhat unusual.

But to be born merely as an egg is just too...

Could it be, it needs to incubate for a longer time?

"Don't panic."

Lu Changsheng noticed the sheen of the sphere resembled the white golden cocoon Bai Ling had transformed into initially, and he raised his hand to speak.

Then he stepped forward and delicately held the sphere in his hand.

As soon as he touched it, he felt a warm current and a faint, fragrant aroma.

"Baby, it's your dad, are you there?"

Lu Changsheng observed the sphere for a while, extended a finger, and gently poked it, inquiring.

Though according to Li Jing's experience, splitting it open with a sword would suffice, he couldn't bring himself to do such a thing.

The sphere exuded intense vitality but showed no response.

"Young Master, in this situation, it seems a bit like... the nutrients aren't sufficient, which is considered premature birth."

At this moment, Hong Lian spoke up beside him.

Although she was uncertain how True Spirit Bloodline children of the Human Race were born,

as a Third Rank Beast Taming Grandmaster, she had insights into nurturing Spiritual Beasts.

It was apparent that this egg was infused with vitality but might be lacking just a little to be born.

"Then what should we do?"

Upon hearing about premature birth, Lu Changsheng immediately furrowed his brow.

Indeed, Bai Ling's situation seemed as if the child couldn't sustain itself.

"Young Master, why not place her into the Spiritual Eye Spring and see?"

Hong Lian suggested uncertainly.

"Mount Sumeru!"

Lu Changsheng exclaimed, directly instructing Mount Sumeru to relocate the Spiritual Eye Spring from outside Changsheng Hall.

Instantly, the Spiritual Eye Spring appeared in the Cave Mansion, where three Heavenly Origin Precious Lotuses still swayed.

Lu Changsheng carefully placed the egg into the Spiritual Eye Spring.

"Gurgle gurgle—"

An astonishing scene unfolded.

The egg seemed to be absorbing the spring water from the Spiritual Eye Spring.

"Young Master, add some refined Spiritual Medicine into the spring."

Seeing this, Hong Lian knew her judgment was correct and immediately said.

"Buzz!"

Lu Changsheng promptly took out several cherished Spiritual Medicines, refined their essence, and dripped it into the Spiritual Eye Spring.

Then asked Lu Miaoyun to fetch some Spiritual Medicines from the family's Treasure Vault.

Thus, with continued infusions of Spiritual Medicines, the sphere began to glow gradually with a white golden transparent sheen, flickering and swirling mistily.

Seeing this, Lu Changsheng looked at Hong Lian again to inquire about what to do with the situation.

"Young Master, wait a bit, and add the Spiritual Medicine later."

Hong Lian hesitated for a moment and suggested.

This child's situation was extraordinary; she dared not act recklessly.

Lu Miaoge, Lu Miaoyun, Lu Miaohuan, and Qu Zhenzhen all watched the sphere, holding their breath and not daring to speak loudly.

"Buzz buzz buzz—"

The sphere flickered for a long time, nearly draining the spring water and Spiritual Medicines from the Spiritual Eye Spring, then burst forth with an endless radiant glow, illuminating the entire Cave Mansion, accompanied by resonating mystical sounds.

This mystical sound was much louder than before.

Yet compared to Lu Changsheng's Golden Core condensation Great Dao mystical sound, it was still far inferior.

At this moment.

Lu Changsheng felt a strong tingling sensation of Spiritual Root Enhancements surge throughout his body.

And two system notifications sounded in his mind.

[Congratulations to the host for the first time giving birth to a child possessing a True Spirit Bloodline; you have earned a lottery opportunity once!]

[Detected that the host's current Spiritual Body conflicts with the Bloodline Effect, do you wish to choose fusion?]

Lu Changsheng paid no attention to the system prompts in his mind, and he looked seriously at the child before him.

The light gradually dimmed.

A baby lay in the Spiritual Eye Spring.

Her skin was fair, delicately carved, resembling an ordinary infant.

Just at the center of her brow, there was a white golden sheen in the form of a snake pattern.

Looking closely, her eyes were also different from those of ordinary people.

In the depths of her pupils, points of white golden light shimmered, slowly revolving around the pupils, exuding an eerie sensation.

Chapter 1553: Chapter 529: Bloodline Effect, Chaos Body!

"What an adorable baby."

"It's a daughter."

"She'll surely grow up to be as well-behaved and cute as Ling'er."

The women looked at the baby in front of them, praising aloud.

Throughout all these years, they knew that their husband did not favor sons over daughters.

In fact, often he believed that sons were the family's pillars, while daughters were meant to be cherished, showing a slight preference for daughters.

"Baby."

With Lu Miaoge's support, Bai Ling cautiously looked at her daughter and softly called out.

The baby did not cry or fuss, putting a chubby white finger in her mouth to suck on, looking at the people around her with a hint of curiosity.

"Come, dear daughter, let daddy hold you."

Lu Changsheng joyfully took the baby into his arms.

Her skin was very soft, smooth with a gentle coolness, like it had been dusted with pearl powder, feeling silky and very comfortable.

The baby did not resist, lying quietly in Lu Changsheng's arms, her eyes glistening with a trace of platinum light as she gazed at him.

"Husband, why isn't the baby crying?"

Bai Ling asked worriedly upon seeing this.

She had seen many childbirth scenes and helped take care of many children.

She knew that newborns would cry loudly as soon as they were born.

But why was this baby not crying or fussing, with a blank expression?

"Our daughter is naturally extraordinary; isn't it normal for her not to cry or fuss?"

Lu Changsheng replied nonchalantly.

Having had hundreds of children, he had seen a few who did not cry or fuss at birth.

But the way this daughter came into the world was indeed the first time he had seen.

"Come, Ling'er."

He didn't hold her for too long, handing the daughter over to Bai Ling.

"Baby."

Bai Ling immediately stretched out her hands carefully, cradling her daughter, afraid to frighten her.

The baby tilted her little head, staring intently at Bai Ling, with a slight smile on her face.

"Oh, she's smiling, she's smiling; the baby smiled."

"So cute."

"Husband, does this child have a name?"

Lu Miaoyun and Qu Zhenzhen, along with other women, all looked at this child.

Over the years, they had witnessed many sons and daughters being born, but it was the first time they had seen one like Bai Ling's.

"As for the name... let's call her Baixi, Lu Baixi, signifying a babbling brook, serene and far-reaching, clear and flawless, full of life force."

Lu Changsheng spoke after a moment of thought.

He had several ideas for names long ago, just waiting for this moment to put them into use.

"Baixi."

"Little Xi'er."

Bai Ling and Qu Zhenzhen repeated the name.

"Bai Xi..."

However, Hong Lian immediately thought of the Bai Xi bloodline.

"Baby, from now on your name will be Lu Baixi, Little Xi."

Bai Ling said joyfully with shining eyes.

Then she noticed the women all gazing at the baby, and handed her over to Lu Miaoge and others.

"Wow, Little Xi smells so good, so soft."

"Back then, Xiao Qi wasn't as soft and bouncy as Little Xi."

The women took turns holding the daughter, pinching her rosy, delicate cheeks.

But the little one seemed a bit resistant to others pinching her face like that, pouting her tiny mouth and then bursting into a loud cry.

Seeing this, Lu Changsheng took his daughter back to let Bai Ling rest a bit.

He could tell Bai Ling was very weak and exhausted, barely holding on.

"Alright."

Bai Ling gave her daughter a reluctant look, then lay back on the bed to rest.

Beside her, Lu Miaoge channeled mana, nourishing her body with Taiyi True Water.

Lu Changsheng also used Nine Treasures Ruyi Bone to warm her body.

Before long, Bai Ling fell asleep.

"Ooo—"

At this moment, the daughter in Lu Changsheng's arms pointed to the Spiritual Eye Spring, wanting to leave his embrace.

"Hmm?"

Lu Changsheng didn't know what she wanted to do, but still placed her beside the Spiritual Eye Spring.

The daughter immediately started to crawl toward it.

"Gurgle—"

Just upon entering the spring, she started to drink small sips of the Spiritual Liquid and even opened her tiny mouth, trying to bite the Heavenly Origin Precious Lotus.

Lu Changsheng quickly picked her up.

It wasn't that he was worried about the Heavenly Origin Precious Lotus, but simply because this daughter had just been born and shouldn't eat random things.

The daughter, having missed her bite, immediately looked at Lu Changsheng with teary eyes, feeling very aggrieved.

"Young Master, she might be hungry; you could try feeding her some Spiritual Liquid or Spiritual Medicine."

Hong Lian beside them suggested softly.

"Spiritual Medicine?"

Lu Changsheng took out a piece of Spiritual Medicine he had prepared earlier and placed it in front of his daughter.

As soon as she sniffed it, she immediately extended her chubby little hand, opened her mouth wide, and gulped down the Spiritual Medicine.

"Wow!"

Qu Zhenzhen couldn't help but exclaim at the sight of this.

Lu Miaoge, Lu Miaohuan, and Lu Miaoyun beside her were also incredibly amazed.

This daughter had just been born, yet she could eat Spiritual Medicine directly.

"Is it really alright?"

Even Lu Changsheng was taken aback, looking toward Hong Lian.

"..."

It was Hong Lian's first time encountering such a situation, so she hesitated a bit and said, "Xiao Xi possesses the True Spirit Bloodline, which cannot be judged by common sense, having many Demon Race traits."

After eating the Spiritual Medicine, Lu Baixi seemed to savor it a bit, then blinked her eyes and excitedly 'wo-ed,' indicating she wanted more.

"Damn, so many kids and I still don't know how to raise one."

Lu Changsheng couldn't help but complain, using Yin Yang Mana to check the condition of his daughter.

Seeing she was like a newborn demon beast, almost comparable to a first-grade peak physical body, completely healthy, Lu Changsheng was relieved and handed her a few more Spiritual Medicines.

"Chu chu chu—"

In a few blinks of an eye, the daughter had eaten all the Spiritual Medicines.

She then gazed at Lu Changsheng with her divine and harmonious eyes, brimming with platinum light, full of expectation, sparkling.

Chapter 1554: Chapter 529: Bloodline Effect, Chaos Body! (Part 2)

"..."

Lu Changsheng discerned some meaning from her eyes.

She still wanted to eat.

"Hehe, if one doesn't have some wealth, it's really hard to afford raising such a daughter."

Lu Changsheng couldn't help but pinch her cheek, then looked at Lu Miaoyun, saying, "Yun'er, bring all the spiritual medicines and spirit fruits that can be consumed at home."

He wanted to see how much his daughter could eat.

As he spoke, he took out two bottles of elixir medicines from his storage ring, to see if she wanted to eat them.

His daughter sniffed and then immediately put the elixirs into her mouth, her tender and moist lips seeming to even want to eat Lu Changsheng's fingers.

Just like that, in the cave mansion, two Nascent Soul cultivators and four Foundation Establishment cultivators took turns feeding a baby.

Lu Baixi took everything, eating as much as she could.

The entire person expressed happiness with "ooo" sounds.

About a quarter of an hour later, little Baixi's eating speed slowed down, the platinum glow in her eyes dimmed a bit, and her eyelids started to droop.

"Little Xi won't get a stomachache, will she?"

Qu Zhenzhen worriedly asked at the sight.

Don't mention a baby; even a cultivator couldn't eat this many spiritual medicines and spirit fruits.

"She should be full and sleepy."

Lu Changsheng watched his daughter's physical condition the entire time.

Then he held her in a comfortable position, gently patting her.

Moments later, the little one closed her eyes and peacefully fell asleep in Lu Changsheng's arms.

"Husband, since little Xi eats so much, should we prepare more spiritual medicine and spirit fruits at home?"

At this time, Lu Miaoyun softly inquired.

Just now, the spiritual medicines and elixirs their daughter ate probably cost tens of thousands of spirit stones.

If it weren't for Bi Lake Mountain's abundant resources, even an ordinary Foundation Establishment family wouldn't be able to afford raising such a child.

"Prepare more, then."

Lu Changsheng said with some emotion.

Indeed, the more mystical the child, the more expensive the milk powder.

He remembered those days as a son-in-law on Qingzhu Mountain when Lu Ping'an's children didn't get to eat spirit rice until they were three or four, and even then only sporadically.

As for spirit fruits, it was only when he went to Nine Dragons Market that he managed to taste some.

But this daughter, at birth, consumed spiritual medicines and spirit fruits that many loose cultivators never taste in a lifetime.

"Little Xi probably has some innate deficiencies, thus needing postnatal supplements."

Hong Lian gave her judgment.

When Bai Ling was pregnant, she observed.

There was a constant mysterious medicinal power nurturing the fetus.

Otherwise, with Bai Ling's bloodline concentration, it would be challenging to have this child.

It's precisely due to this reason that the child's bloodline concentration is too high, causing Bai Ling, this mother, to be unable to keep up with nourishment, leading to long-term weakness and sleep.

Moreover, through Bai Ling's pregnancy, she suspected the True Spirit Great Clan should have a mature system and secret technique specifically for pregnancy and nurturing offspring.

Otherwise, it would be hard for the True Spirit Great Clan to maintain bloodline continuity.

"It's fine, being able to eat is a blessing."

Lu Changsheng laughed and said.

As of now, his financial resources can still keep up as long as his daughter doesn't eat like this every day.

If his daughter ate like this every day, this old father would soon have to go out hunting...

After chatting with the few women for a while, Lu Changsheng checked on Bai Ling's situation with his daughter, wondering if he needed to deal with excess postpartum dairy products.

After finishing his tasks, he accompanied Bai Ling, Lu Miaoge, and Qu Zhenzhen to rest with their daughter in his arms.

...

"System."

Several hours later, Lu Changsheng handed his daughter to Lu Miaoge and walked out of the cave mansion, silently chanting in his heart.

[Name: Lu Baixi]

[Life Span: 1/181]

[Talent: Earth Spirit Root]

[Cultivation Level: None]

[Capability: Music Mastery (90%)]

"A life span of one hundred and eighty-one years?"

Lu Changsheng looked at the panel before him, his expression surprised.

Back then, when his daughter Nangong Yaoyao was born with the Flawless Heavenly Fragrance Body, her life span exceeding a hundred was already considered long-lived.

But this daughter, with an initial life span of one hundred and eighty-one, was already comparable to some Foundation Establishment cultivators!

However, thinking about this daughter's situation, her physical body and appetite like a demon beast, Lu Changsheng found it rather normal.

After all, this daughter resembled a human, but there was no problem treating her as a demon race.

"The bloodline still isn't showing?"

Lu Changsheng, looking at the talent column, frowned.

Regarding the Earth Spirit Root, he had already realized it during the spiritual root resonance before.

But for this daughter, cultivation might not rely on spiritual roots.

Just like Bai Ling.

Her spiritual root was only fifth-grade, yet her cultivation speed could rival first and second-grade spiritual roots.

So, he suspected that this daughter's spiritual root was merely an effect of the Yin Yang Integration Spirit Pill.

"So the Bai Xi bloodline excels in the path of music, huh..."

Lu Changsheng then looked at his daughter's capability.

Previously, through the Yin Yang Integration Spirit Pill, Bai Ling experienced bloodline awakening and obtained an inheritance of a music cultivation technique, the "Immortal Rhapsody Manual."

Now, his daughter's capability indicates this aspect once again.

"Back then, little Ling'er received a cultivation technique inheritance; I wonder if little Xi will have a cultivation technique inheritance when she grows up."

Lu Changsheng thought to himself.

Melody cultivation techniques are extremely rare.

All these years, besides the system's lucky draws, he also gained several techniques from benevolent people.

But there were almost no music-path techniques.

If his daughter didn't receive a top-level cultivation technique inheritance, she could only cultivate the Immortal Rhapsody Manual with Bai Ling.

"System, integrate."

Then, Lu Changsheng turned his attention to his situation.

To understand the effect of the Bai Xi bloodline and which of his spiritual bodies it conflicted with.

"Boom!"

In an instant, Lu Changsheng felt his Minor Pure Spirit Body, Constitution of the Elements, Blood Talisman Spiritual Body, Taiyi Soul Body, Dragon Roar Physique, and Flawless Heavenly Fragrance Body all tremble violently.

Previously, although these spiritual bodies weren't entirely harmonious, they at least maintained a balance.

But now, the balance was directly broken, starting a fusion of origins.

Lu Changsheng realized.

The spiritual bodies of the human race and the bloodlines of the demon race are completely different situations.

Chapter 1555: Chapter 529: Bloodline Effect, Chaos Body!

This bloodline effect bonus is equivalent to another type of spiritual body, which completely disrupts the balance.

So at this moment, all his spiritual bodies begin to merge.

However, during this fusion process, he can choose to preserve the effect of a specific spiritual body as much as possible.

For instance, the effects of the Dragon Roar Physique and the Taiyi Soul Body seemed very practical to Lu Changsheng, so naturally, he was unwilling to weaken them.

Then there's the Flawless Heavenly Fragrance Body.

Although he always felt it's unbecoming for a man to naturally emit fragrance, what can he do?

Yet this spiritual body has the effects of prolonging life, poison resistance, charm, and even weakening the effects of the Nascent Soul Heavenly Tribulation.

Lu Changsheng was naturally unwilling to weaken these effects.

As for the Minor Clear Spiritual Body, which is inherently close to spiritual energy and completely flawless, Lu Changsheng was indifferent.

The Five Elements Physique and the Blood Talisman Spiritual Body were the same.

These two spiritual bodies were indeed extraordinary.

But for Lu Changsheng at the moment, their effects were limited.

Especially the Blood Talisman Spiritual Body.

It could ignite essence blood to enhance talisman-making probability and use the essence blood to nurture talismans.

Lu Changsheng, aside from trying its effects prematurely to speed up warming up the Third Rank Talisman, never used it later.

Meanwhile, he learned about the effects of Bai Xi's bloodline.

First, a natural affinity with the Great Dao of music, making rapid progress in cultivating Melody Cultivation Techniques, and displaying Music Mastery Techniques with doubled power.

Second, the bloodline mana had the effect of demon suppression and evil warding.

Third, an enhancement of charm!

"Enhancement of charm..."

Lu Changsheng could understand the first two.

But this third one, what the hell...

Continuing like this, will I truly develop in the direction of an Enchanting Demon?

However, as seen from Bai Ling, Bai Xi's bloodline indeed had this effect.

And Bai Ling's thin bloodline just happened to inherit this ability.

"In that case, let's fuse!"

At this moment, Lu Changsheng resembled a furnace, blending several major spiritual bodies and bloodline characteristics into one, forming a physique and bloodline unique to him.

Time flowed by little by little.

It seemed like a long time, yet also like a moment.

Lu Changsheng opened his eyes.

The whole person seemed to have completed a transformation.

Though still with the same appearance as before, elegant as jade, exceptionally handsome, there was an inexplicable, indescribable change.

It was almost impossible to describe his looks and temperament in words.

If one looked carefully, gazing into his eyes, everyone could find a bit of the unique charm of their dream person.

"What an extraordinary bloodline spiritual body!"

Lu Changsheng didn't care about the enhancement in his appearance and temperament, instead delighted by the fusion effects of the spiritual bodies.

Through this fusion, all his spiritual bodies merged into one.

Becoming a physique solely belonging to him!

This physique not only retained the effects of the Dragon Roar Physique but also had the characteristics of the Taiyi Soul Body, the Flawless Heavenly Fragrance Body, and Bai Xi's bloodline.

However, there were some differences in the effects of these spiritual bodies.

For instance, to maintain balance, the overbearing attribute of the Dragon Roar Physique's intense yang and rigidity was weakened, requiring full force to achieve peak effect.

But like the Flawless Heavenly Fragrance Body, the effect of producing a fragrance from the body was completely under his control.

Unlike earlier, when he had to suppress it through mana and the Nine Treasures Ruyi Bone.

The greatest change was in the Blood Talisman Spiritual Body.

The nurturing effect on talismans through essence blood was greatly reduced.

But igniting essence blood not only had the effect of nurturing talismans, it could also be used to water spiritual medicine and warm elixir medicines.

Moreover, the blood possessed the effects of demon suppression, driving away evil, and had a restraining effect on the Demon Path and Ghost Path.

But the most surprising aspect for Lu Changsheng was that this physique acquired a trait similar to the Demon Race's bloodline inheritance!

In the future, should he have children, they could more or less inherit some of the traits of this physique!

For example, talent in the Talisman Path, music mastery talent.

Or perhaps the Five Elements Physique's innate affinity to spiritual energy, with techniques more powerful than others, and so on.

The effects might not be extensive.

But they were very easy to inherit.

And with cultivation, there was potential to further explore the latent abilities of the bloodline!

"If my physique merges numerous spiritual bodies and the effects of countless True Spirit Bloodlines, wouldn't it be possible to establish an invincible Lu lineage bloodline!"

"In the future, my descendants, besides cultivating with Spiritual Root, can also explore the potential of their bloodline, achieving twice the result with half the effort!"

Lu Changsheng marveled.

Though breaking through cultivator realms could enhance the talents of future offspring, it simply doesn't compare to his current situation!

As his cultivation level advances, breakthroughs will further strengthen the hereditary traits of his bloodline.

Perhaps, in the future, the effects of his bloodline would be no weaker than any spiritual body!

However, this physique also had one drawback.

As his bloodline grew stronger, it made conception increasingly difficult.

Even normal mortals and Qi Refinement Cultivators could hardly bear his offspring.

Even if conceived, the situation would mirror Bai Ling with Lu Baixi's child, being too fragile.

"Heaven doesn't let down those who are determined; as long as I am willing to persevere, what does a bit of difficulty in conceiving matter, it aligns perfectly with healthy birth and upbringing!"

Lu Changsheng's eyes sparkled, his expression joyous.

"Besides True Spirit-level bloodlines, would ordinary Demon Race bloodlines offer any bonus?"

"If they could provide a bonus, should I look for a few demon race maids?"

Lu Changsheng's thoughts suddenly paused.

If he were to find another woman possessing a True Spirit bloodline, certainly, he would have no luck.

Even possessing a thin bloodline, one might end up like Bai Ling, being unable to conceive for a long time, never fully possessing a rich bloodline.

But with ordinary demon race descendants, it's relatively simpler.

"However, most of White Jade Tower consists of half-demons, demon race descendants, catalyzed through elixirs or secret techniques."

"To seek a pure demon race bloodline, one would only have a Fourth Rank Transformed Demon King..."

In his early years, Lu Changsheng kept an eye on half-demons, those beast-eared girls in White Jade Tower.

Most of them were hybrids or specially cultivated through secret techniques, basically only useful as playthings.

However, now that he was no longer the same person he was before, he could look for higher quality half-demons or demon race descendants.

Chapter 1556: Chapter 529: Bloodline Effect, Chaos Body!

After pondering for a moment, Lu Changsheng opened his system interface panel.

[Name: Lu Changsheng]

[Identity: Lord of Bi Lake Mountain]

[Cultivation Level: Core Formation Fourth Layer]

[Life Span: 84/701]

[Spiritual Root: Earth Spirit Root]

[Constitution: Unknown]

"Unknown..."

Lu Changsheng looked at the two words behind his constitution, not expecting that after the fusion, even the level was gone.

"It is said that above the Spiritual Body, lies the Taoist Body!"

"I wonder how my current constitution compares to the Taoist Body."

Lu Changsheng's eyes narrowed slightly, then his mental spirit stirred.

In an instant, the constitution column changed.

[Constitution: Chaos Body]

"Although my current constitution is still quite far from the Chaos Body I knew in my previous life, it's taking shape."

"I believe that one day I will accommodate all things, evolve all things, obliterate all things, and be favored by the heavens and earth!"

Lu Changsheng set a goal for himself.

To refine myriad bodies and myriad bloodlines, ultimately forming an unparalleled Lu Family bloodline!

"I heard from Hong Lian that a True Spirit Great Clan possesses some kind of True Spirit Bloodline flowing within."

"As long as I continue to grow, this True Spirit Bloodline will be insignificant before the Lu Family bloodline!"

At this moment, Lu Changsheng was in an extraordinarily good mood.

He saw a path to continuously enhance his talent and the talent of his offspring.

He usually does not cultivate much, but the enhancement of his offspring's talent is equivalent to a further enhancement of his own talent, accelerating cultivation.

Afterward, his cultivation level improves, which in turn drives others to wealth, forming a positive feedback loop that repeats endlessly.

"Lottery."

Waking from joy, Lu Changsheng remembered he had a lottery reward, and he silently chanted.

[Ding! Congratulations to the host for obtaining Magical Treasure: Qiankun Shadow-Confining Belt!]

[The reward has been dispensed to the system space, which the host can view at any time]

"A belt?"

Lu Changsheng raised his eyebrows and looked at the system space.

[Magic Artifact: Qiankun Shadow-Confining Belt]

[Grade: Superior Grade Treasure]

[Description: Contains nine vast Mustard Seed Spaces, capable of storing various items, Heavenly and Earthly Treasures, Spiritual Beasts, Spiritual Medicines, Spiritual Vein Origins, etc. While worn, it has an effect of disguising magic aura and form, and can automatically protect the owner in times of danger, resisting a Core Formation Middle Stage attack.]

"This belt is quite nice."

Upon seeing the belt, Lu Changsheng smiled.

Ordinary magical treasures are now of little use to him.

Though the Qiankun Shadow-Confining Belt also feels rather redundant, overlapping with the concealment effect of the Fate-Defying Robe.

However, the nine Mustard Seed Spaces are quite remarkable.

Sometimes when he ventures out, one storage ring is often insufficient, requiring multiple storage bags.

Moreover, many Spiritual Medicines, Elixir Medicines, and Demon Cores must be stored in special brocade or jade boxes to prevent the loss of medicinal and demonic power.

Previously, he also used the Mountain and River Cauldron to seal the Spiritual Vein Origin in the Myriad Beasts Mountain Range to prevent leakage.

With the Qiankun Shadow-Confining Belt, such issues are easily resolved.

Furthermore, the belt also has a protective effect against sneak attacks.

Immediately, Lu Changsheng retrieved the Qiankun Shadow-Confining Belt from the system space.

It is entirely black with intricate dark swirls, with nine thumb-sized jade pieces elegantly embedded, feeling weightless and silky to the touch.

This Qiankun Shadow-Confining Belt is quite nice.

With just a thought, one can store nearby items within.

It is much more convenient than storage bags or rings.

One must say, the system's products are always top quality!

"But after so long, why haven't I drawn a Spiritual Treasure among Low Quality to Top Level Treasures?"

Lu Changsheng lamented.

He felt that unless luck is extraordinary, ordinary lotteries are very unlikely to reveal a Spiritual Treasure.

...

White Ling's childbirth had no significant impact on Bi Lake Mountain, as she finally gave birth, relieving his constant concern.

In recent days, Lu Changsheng spent most of his time with White Ling and her daughter.

His daughter eats astonishingly, consuming over a thousand Spirit Stones a day, even causing the wealthy Lu Changsheng some heartache.

However, the daughter's growth rate is remarkably fast.

In a month, she's roughly the size of a two-year-old, able to walk on her own, and even vaguely calling for her parents and aunt.

Bing'er awoke from the coffin and, seeing little Baixi, was very fond of her, looking at Lu Changsheng expectantly and expressing her desire for a child.

But in such matters, Lu Changsheng felt helpless.

He could only hope that his current constitution evolution might enable Bing'er to conceive.

In fact, he was curious about what kind of offspring the two of them would produce if they conceived.

On this day, as Lu Changsheng watched the spiraling spiritual vortex in Mount Sumeru Cave Heaven, he knew his son Lu Chensha was at a pivotal moment for Foundation Establishment.

Hong Lian stood guard nearby, watching over him.

Seeing this, Lu Changsheng came over with his daughter and White Ling to check on things.

After recent conditioning, White Ling had recovered significantly though she was still weak.

It was evident that giving birth to Lu Baixi had a sizable impact on her.

"Hmm, has Xu Ruyin come?"

Seeing that his son still had some time before becoming established, Lu Changsheng, with White Ling, resumed walking around the Lu Family Mansion.

Suddenly, Lu Miaoyun informed him of the news.

"It seems she came because of the news about the Purple Shadow Secret Realm."

Lu Changsheng speculated on her reason for coming.

Since Xu Ruyin was in charge of several outposts in the Myriad Beasts Mountain Range for the Xu Family, she hadn't visited in over four years.

Now, she came to check on things.

Although she rarely saw her son and their meetings were brief and few, she is still a mother.

Having heard this, Lu Changsheng's mood improved considerably.

He saw a path to continuously enhance his talent, as well as that of his children.

He did not cultivate much daily, but the enhancement of his children's talent was equivalent to his own talent being further enhanced, which in turn sped up his cultivation.

Then, as his cultivation increased, it would lead the way for prosperity, forming a positive feedback that continuously cycles.

As a result, Lu Changsheng set a lottery.

This made him emotional.

It seemed that unless his luck was overwhelming, it would be difficult to encounter a Spiritual Treasure through ordinary draws.

...

The news of Bai Ling giving birth did not affect Bi Lake Mountain much, as she had finally given birth, relieving Lu Changsheng's constant concern. He spent most of his days recently with Bai Ling and their daughter.

The daughter had a hearty appetite, consuming over a thousand Spirit Stones of Lu Changsheng's a day, causing him a mild but persistent pang of distress.

Surprisingly, the daughter grew at an alarming rate.

In a month, she was about the size of an ordinary two-year-old child, able to walk on her own and even adorably calling him 'Daddy', 'Mommy', and 'Auntie'.

Bing'er, having seen little Baixi, also fondly expressed her desire for a baby to Lu Changsheng.

However, faced with such a request, Lu Changsheng felt helpless.

He was, nonetheless, curious to see the kind of offspring they could produce together, should they ever have one.

On this day, as Lu Changsheng moved towards Lu Family Mansion with Bai Ling, Lu Miaoyun suddenly informed him of a piece of news.

"It seems Xu Ruyin is here."

It seemed that Xu Ruyin visited because of the news concerning the Purple Shadow Secret Realm.

Since Xu Ruyin was in charge of several stations in the Myriad Beasts Mountain Range for the Xu Family, she hadn't visited in over four years.

Though she rarely saw her son, and there were hardly any words exchanged when they met, she was still a mother after all.

"Indeed, after Chensha successfully establishes his Foundation, I planned to bring him to meet you soon."

Seeing Xu Ruyin, Lu Changsheng spoke, his demeanor as gentle as jade, a comforting presence like a spring breeze.

"Hmm."

Although Lu Changsheng made Xu Ruyin's body instinctively resist, she still obediently followed beside him. Despite rarely meeting her son, when they did, they would only have brief encounters.

No matter where she was, though she had some connection to the Lu Family of Bi Lake Mountain, Xu Ruyin had become accustomed to maintaining an air of aloofness, making her avoidant to outsiders.

Especially given the current relationship between the Beast Taming Xu Family and Bi Lake Mountain.

"Hon...my husband."

Xu Ruyin stood before Lu Changsheng, embodying the grace and nobility of a Phoenix bathed in sacred flames, dressed in a gown of refined dark swirls and inlaid with nine thumb-sized glazed jade gems, light as air and extremely smooth to the touch.

Upon seeing this, Lu Changsheng remarked with a smile, "This belt is quite nice indeed."

Chapter 1557: Chapter 530: Xu Ruyin's Shock, Lu Chensha Breaks Through to Foundation Establishment!

Xu Ruyin and Lu Changsheng arrived at Mount Sumeru Cave Heaven.

As soon as they entered, she was completely stunned.

The entire secret realm of the Cave Heaven was completely different from what she had envisioned.

Rich spiritual energy assailed her senses, fresh and ethereal.

This was definitely not a Second Rank Spirit Vein; it had reached the Third Rank Spirit Vein!

Even the Beast Taming Xu Family, when she had met the False Core Patriarch, the third-grade spiritual energy she sensed wasn't this rich!

Ahead, there was a medicine field planted with strange flowers and herbs, where ethereal flow circulated, and the fragrance of medicine was intoxicating—all rare spiritual medicines.

The most astonishing was undoubtedly the large ancient tree ahead, with a peculiar shape, covered in intricate patterns, and dazzling with five colors.

The whole tree bore only five fruits.

But the fruits' luster flowed, like the alternation of the Five Elements, forming a mysterious trajectory, remarkably extraordinary at first glance.

This ancient tree closely resembled the spirit tree known as the 'Five Elements Spirit Fruit Tree' that she had seen in ancient books.

Xu Ruyin was in a daze.

She never imagined that in a mere few decades, the secret realm in the Cave Heaven would undergo such earth-shattering changes.

"The world believes that Bi Lake Mountain had rapidly risen from an ordinary Foundation Establishment Family to a False Core Family within a few decades."

"Little do they know, Bi Lake Mountain is just the surface; the true foundation lies within this Cave Heaven Secret Realm!"

Xu Ruyin's heart was in turmoil, incredibly shocked.

"Miss Xu."

At that moment, a gentle, elegant voice tinged with complex emotions arose.

Xu Ruyin heard the voice, regained her focus, and looked over.

She saw a female figure clad in a red gown embroidered with gold and silver threads, adorned with a Peach Blossom Pearl Crown on her head, walking gracefully and elegantly, with peerless poise, looking at her.

"Red... Senior Red Lotus!"

Seeing this peerless figure, Xu Ruyin was filled with joy and surprise.

But the next moment, she realized something amiss, thinking she had hallucinated.

"Senior Red Lotus, have you... restored your body?"

She was unaware of Red Lotus' acquisition of the Peachwood Spirit Womb and the restoration of her physical body.

Upon seeing Red Lotus no longer in a remnant soul state but having a physical form, she felt astonished, confused, and incredulous.

Although Red Lotus could attach her soul to others' bodies, she had seen the remnants of Red Lotus' soul.

The resemblance in appearance, demeanor, and aura matched closely with what was before her.

Moreover, an ordinary cultivator wouldn't have such unparalleled beauty, aura, and divine presence!

"Indeed, thanks to the Young Master, I could restore my body so quickly."

Looking at Xu Ruyin in front of her, Red Lotus also felt dreamy and sentimental.

Once dormant within the Ancient Beast Taming Charm, awakened by Xu Ruyin, she regarded her as her disciple and benefactor, nurturing her devotedly.

She hoped Xu Ruyin would one day break through to Core Formation and Nascent Soul, then restore her own body, and journey to the Northern Desolate Cultivation Realm to find the mystery of her past fall.

But unexpectedly, a disaster led her to Lu Changsheng.

An intertwined destiny of fortune and misfortune.

From him, she not only saw the opportunity to restore her body and return to peak strength, but also glimpsed the once-unattainable chance for Divinity Transformation!

The reality did not disappoint her.

In a mere few decades, she received the Spiritual Embryo of Heaven and Earth and the Soul Fusion Resurrection Elixir from Lu Changsheng and restored her physical body and stabilized her soul in the shortest time!

She believed as long as she continued to follow Lu Changsheng and grow, returning to her peak was just a matter of time.

"..."

Even though Xu Ruyin saw Red Lotus restored her body,

hearing her admission still shocked her immensely, feeling utterly incredible.

In the past, she had heard Red Lotus speak about the requirements for body restoration.

Requiring the magic body of a Nascent Soul Cultivator or needing Heaven and Earth Spirit Objects to refine an external incarnation.

Such supreme treasures were hard to obtain even for a Nascent Soul Immortal.

No matter how extraordinary Lu Changsheng was, it was surely impossible for him to gather such things so quickly...

At this moment, deep within, Xu Ruyin's admiration, reverence, fear, and submission for Lu Changsheng surged forth.

She knew that what she had seen from Lu Changsheng was just the tip of the iceberg.

He was far more mysterious than she had imagined.

Perhaps that's why Senior Red Lotus was willing to follow him...

"Congratulations to Senior Red Lotus! Now that the senior has restored her body, returning to peak strength is just around the corner!"

Xu Ruyin immediately cupped her hands in congratulation.

"Sigh..."

Red Lotus noticed an invisible barrier between her and Xu Ruyin.

Understanding it linked to the experiences Xu Ruyin had faced over the years.

One who ventures alone often loses belonging to the family, inevitably becoming aloof, excluding others.

Like a gentle elder, she approached and fondly brushed her flaming red hair, her voice softly and elegantly saying, "Miss Xu, when did you learn such flamboyant airs?"

"During these years outside, has your cultivation fallen behind, or do you have any questions or doubts?"

Red Lotus, in her opulent gown, her flawless and enchanting body emanating a misty glow, noble and sacred, evoking admiration but instilling a closeness and naturalness in Xu Ruyin.

She recalled back to her youth, picking up the Ancient Beast Taming Charm and Red Lotus' diligent guidance.

Though she had good talent, having a Fourth Grade Spiritual Root,

without Red Lotus, she would not have stood out, emerging prominently from her family.

"Senior Red Lotus..."

Looking at Red Lotus in front of her, both mentor and mother-like, Xu Ruyin felt slightly shy.

But the barrier between them gradually melted away.

After all, Senior Red Lotus' predicament was also linked to her.

Without Senior Red Lotus, she wouldn't be where she was today.

"Chensha is currently breaking through Foundation Establishment; if he sees you, he'll surely be very happy."

Red Lotus gently patted Xu Ruyin, her voice soft and melodious.

"Hmm..."

Xu Ruyin nodded, inexplicably feeling that Senior Red Lotus had already acquired the demeanor of a mistress...

However, given Lu Changsheng's traits, now that Senior Red Lotus had restored her body, she feared escaping his demon grasp might be impossible...

Chapter 1558: Chapter 530: Xu Ruyin's Shock, Lu Chensha Breaks Through to Foundation Establishment! (Part 2)

Thinking of this, Xu Ruyin instinctively glanced at Lu Changsheng.

But with just one look, she suddenly felt that their appearance and temperament were simply a match made in heaven, a pair of celestial lovers.

Even though she always held a sense of respect and admiration for Hong Lian, her mentor and mother figure.

She also felt that only someone like Lu Changsheng could be worthy of Hong Lian.

Immediately, she looked toward a courtyard not far away, where a vortex of Spiritual Energy was swirling above.

Guessing that her son Lu Chensha was in there breaking through to the Foundation Establishment.

"No need to worry, with Chensha's current foundation, breaking through Foundation Establishment is a piece of cake, and he is very likely to condense a Heavenly Beast Dao Foundation!"

Lu Changsheng smiled and said, sitting down beside the Spiritual Eye Spring with the two women, drinking tea and chatting.

"Heavenly Beast Dao Foundation!?"

Xu Ruyin, who cultivated the Beast Technique, naturally knew what the Heavenly Beast Dao Foundation represented!

It required contracting a Heavenly Grade Bloodline Demon Beast!

Earlier, Lu Changsheng named his son 'Chensha,' thinking it meant dust and sand.

During several visits to Bi Lake Mountain to see his son, the latter was always sullen and ordinary, thought to be neglected.

Who would have thought that the son unexpectedly contracted a Heavenly Rank Demon Beast!

For a moment, an inexplicable emotion surged in Xu Ruyin's heart, delight, gratitude, or maybe a feeling she couldn't even describe.

"Yes, and Chensha himself is quite promising. During this trip to the Purple Shadow Secret Realm, he managed to subdue and contract a Second Rank Monster Beast, the Ghost Face Soul Devouring Spider."

Lu Changsheng calmly said, holding his tea.

His every gesture exuded elegance and charm, pleasing to the eye.

"It's all thanks to my husband's guidance."

Xu Ruyin knew the general situation of the Secret Realm; Lu Chensha, by unknown means, tamed a Second Rank Monster Beast.

But she hadn't expected that her son would go as far as to contract it.

It was important to understand that taming in a short time and contracting were two completely different concepts.

"Hehe."

Lu Changsheng chuckled, then immediately inquired about Xu Ruyin's situation over the years.

Xu Ruyin stated that she is now responsible for several strongholds of the Xu Family in Myriad Beasts Mountain Range.

The main tasks are hunting demon beasts or providing support in dealing with demon beast threats.

She happened to have some time, so when she heard about the Purple Shadow Secret Realm, she came to take a look.

"Has the Xu Family made any moves regarding the Purple Shadow Secret Realm?"

Lu Changsheng asked.

"I'm not sure about that, but Daoist Ping'an's performance has most likely caught the Xu Family's attention."

Xu Ruyin remarked.

The Spirit Taming Xu Family's Fire Crow Dao Soldier and Water Serpent Dao Soldier are well-known across the world.

Actually, these two types of Dao Soldiers are not set in stone; the Xu Family has been constantly making adjustments and optimizations in their breeding.

Lu Ping'an's Blackwater Dragon Spirit Weapon is very much worth learning and referencing by the Xu Family.

Moreover, the Xu Family has long noticed Bi Lake Mountain.

But lacking a rightful cause, they have avoided direct conflict, allowing Bi Lake Mountain to clash with the Jin Family and Sima Family.

Despite the performance of Bi Lake Mountain in the Purple Shadow Secret Realm, even if taking into account the Qingyun Sect, the Xu Family would choose to suppress it.

As for the specifics, Xu Ruyin was not clear.

"Hmm."

Lu Changsheng nodded thoughtfully.

Then he inquired about Xu Ruyin's matters regarding establishing strongholds in Myriad Beasts Mountain Range.

He wanted to set up a branch under the jurisdiction of the Spirit Taming Sect, serving as a transit point to advance into Myriad Beasts Mountain Range, establishing strongholds there.

Or, depending on the situation, acquire some business shops in Azure Phoenix Immortal City.

This way, even with an increasing number of those breaking through Foundation Establishment at home, there would be room for accommodation.

Otherwise, as Lu Chensha's group breaks through Foundation Establishment, within about ten years, the number of the family reaching Foundation Establishment will escalate massively.

Though it is possible to let them venture out on their own for experience and exploration, providing a transitional period is naturally much better.

Xu Ruyin explained in detail the processes of the Xu Family in establishing strongholds in Myriad Beasts Mountain Range, training disciples, hunting demon beasts, material processing, and rearing Spiritual Beasts.

Through this understanding, Lu Changsheng realized that it was much more complex than he had imagined, and not something that merely a few Foundation Establishment cultivators could accomplish overnight.

...

Catching up with Xu Ruyin for a long time, Lu Changsheng took her to the Changsheng Hall for deeper emotional communication.

After all, only in this way can one reach the heart and conquer both body and mind.

Inside the Changsheng Hall.

As a person of rich experience, Lu Changsheng did not rush in eagerly.

Instead, he poured a pot of elixir beneficial for men and women, speaking gentle sweet words to her.

Through earlier interactions, he keenly noticed that Xu Ruyin, possibly due to his early influence, had developed some men aversion after being out in the world for long periods.

Leading to subconscious resistance even after so many years apart.

Hence, at this moment, gradual progression and gentle treatment were necessary.

Moments later, the two were drinking elixir, tightly embracing each other.

Facing Lu Changsheng's gentleness, Xu Ruyin only felt the masculine scent on him, constantly teasing her senses and heartstrings.

The whole person was like a young girl experiencing first love, with a little deer in her heart bouncing around wildly.

Soon after, she shyly leaned into his kiss.

Letting him suck her fragrant tongue, fondle her pearly teeth, and savor her sweet and moist fragrance.

A rustling sound ensued.

Xu Ruyin's exquisite and luxurious dress half undone, her fair skin as smooth as jade, blushing like morning light, making her appear as blooming blazing roses.

Seeing her outfit and temperament somewhat resembling Hong Lian, Lu Changsheng didn't remove her dress entirely.

He gazed admiringly for a few moments at her familiar alluring valleys before leisurely removing her Fire Phoenix Boots, playing with her red silk-covered delicate feet.

The soft, pearly feet rested horizontally, the arch of her foot elegant and gentle, with ten slender toes vaguely visible through the silk stockings.

Even with the stockings on, one could feel the soft and elastic touch, akin to mutton fat jade.

Chapter 1559: Chapter 530: Xu Ruyin's Shock, Lu Chensha Breaks Through to Foundation Establishment!

Her jade-like feet being toyed with brought soft moans and a deepening breath from Xu Ruyin.

Yet, the early teachings gradually emerged, her eyes glowing like a burning red moon, looked at Lu Changsheng with a dreamy gaze, saying, "Please... Master and Husband, come to bed."

Then, the beauty slowly rose and knelt down to serve.

After many years, there was a slight unfamiliarity.

But Lu Changsheng held no blame, treating her tenderly, guiding her gently.

Inside the cave mansion, the amorous atmosphere grew richer, as the two slowly melded together.

Perhaps due to the many years apart, or maybe due to Xu Ruyin's psychological issues, she seemed unable to withstand the intensity for long, soon weakened and limp.

This led to a feeling of self-blame when she faced Lu Changsheng.

"A beautiful moment need not be rushed."

Lu Changsheng soothed her burning hot body, speaking softly.

In this manner, the two in the cave mansion enjoyed the long-awaited reunion, forgetting worldly discussions.

Though Xu Ruyin's state was somewhat poor, having cultivated the Beast Technique, her stamina and endurance far exceeded normal people.

Even as they battled deep into the night, she unleashed a Secret Integration Technique Lu Changsheng had once seen employed by Huxiao True Master.

Integrating with the Heavenly Demon Phoenix, she became like a goddess bathed in flames.

If not for Lu Changsheng's extraordinary physique, such fiery Foundation Establishment cultivators would indeed struggle to endure, and even Nascent Soul cultivators needed to channel mana, unable to fully experience it.

This process offered Lu Changsheng a novel experience.

He couldn't help but wonder if pregnancy in such a state would result in demon race offspring.

An untraveled path he had never envisioned.

Through close contact, Lu Changsheng inspected Xu Ruyin's condition, finding pregnancy nearly impossible.

Even if the rarest chance led to conception, once the integration technique was dispelled, it would likely have consequences.

Lu Changsheng abandoned such unrealistic thoughts, holding her slender waist with one hand, and grasping her delicate hand with another, continued his labor.

This integrated state could not be maintained for long, particularly under such intense circumstances, Xu Ruyin was almost out of control.

Time seemed to pause as they were lost in the moment.

Xu Ruyin's jade-like foot clamped, curled closely, feeling the warm embrace.

A newfound satisfaction surged within her heart, wishing this could last forever.

...

Days later, seeing the spiritual energy vortex outside reach its final moment, Lu Changsheng and Xu Ruyin ceased their intertwined discourse, stepping outside the Changsheng Hall.

Nurtured by Lu Changsheng, Xu Ruyin's exquisitely icy and alluring face gained a softer, more radiant hue.

Her closeness to Lu Changsheng grew instinctively, shedding the previous resistance.

If not for her underlying humility, she might have wanted to stay by Lu Changsheng's side every moment, embracing him, breathing in his intoxicating scent.

Senior Red Lotus saw Xu Ruyin looking refreshed, her complexion glowing richly, saying nothing.

Their relationship, with Lu Changsheng treating Xu Ruyin well, was a favorable outcome.

Yet, seeing Xu Ruyin's fire-red skirt embroidered with phoenix motifs, reminiscent of her own youthful attire, Senior Red Lotus felt a fleeting thought, quickly dismissing it.

Seeing Senior Red Lotus, Xu Ruyin felt a shy embarrassment, her finely shaped head lowered slightly.

In her early days within the Ancient Beast Taming Charm, she felt little towards her.

But now, with Senior Red Lotus having reformed her physical form and held a connection with Lu Changsheng, Xu Ruyin ...

Considering the absurdity, perhaps one day she herself and Senior Red Lotus...

"Hong Lian."

Lu Changsheng appeared entirely composed, without a trace of shyness.

Between him and Hong Lian, there was only a thin layer left.

Just lacking the right moment for things to naturally develop.

In this scenario, by observing him and Xu Ruyin, she could familiarize herself in advance.

Moreover, after so many years of companionship, Hong Lian already knew his character, there was no need to pretend.

"Chensha's Foundation Establishment was successful without any issues."

Having been a Nascent Soul True Lord in her previous life, Senior Red Lotus experienced many storms, her demeanor elegant, conveying calmly.

Xu Ruyin's beauty and presence were undeniably striking, no matter where.

But at this moment, beside Senior Red Lotus, she seemed overshadowed.

Not just in terms of looks and figure.

Also due to an enduring grace forged through time, an elevated detachment from the mortal world!

"Mm."

Lu Changsheng nodded with a smile, taking a seat nearby, then asking Hong Lian a few questions.

Given her past as a Beast Tamer, was she planning to contract a spiritual beast?

Ordinary Nascent Soul cultivators struggled to subdue Third Rank Demon Kings.

But Hong Lian, with a Nascent Soul soul, might be able to achieve it.

"If there's a suitable one, I'll consider it."

Hong Lian responded with a calm expression.

She hadn't cultivated the Beast Technique, so had little need for beast taming.

Only having natural talent from her past life, invested some effort.

Contracting an unsuitable spiritual beast offered no benefits, possibly becoming a burden.

As the three conversed, Lu Miaoge entered the Cave Heaven, arriving just in time.

"Boom!"

No one knew how long it took when Lu Chensha successfully advanced to Foundation Establishment.

Aware of Lu Changsheng and others outside, he didn't delay, stepping out of the cave mansion.

"Father, mother, Aunt, Senior Peach Spirit!"

After breaking through Foundation Establishment, influenced by the Beast Technique like Xu Ruyin, he experienced significant changes.

Elegantly pale nearly transparent, presenting an air of fragility and softness.

His hair black as ink, providing contrast to his pale tender skin.

His eyes turned darker and profound.

Like deep black pools, emitting a chilling light that seemed to seize souls.

"Chensha, congratulations on your Foundation Establishment breakthrough!"

Lu Changsheng laughed warmly, offering congratulations.

The other women also expressed their congratulations.

Facing her son, Xu Ruyin felt a lack of natural closeness.

Or perhaps, she didn't know how to interact affectionately.

In early times, she merely taught him to listen to his father, to please him, without much guidance in mother-son bonding, gentle living.

Seeing this scene, Lu Changsheng sighed lightly.

Visiting the mortal world, he often felt this way.

Gradually, he visited Ruyi Prefecture less often.

"Your mother heard about your Foundation Establishment and came especially to see you, later we'll celebrate with a family feast."

Patting his son's shoulder, Lu Changsheng said, hinting him to consolidate his Dao foundation.

Chapter 1560: Chapter 531: Using My Son as Bait, the White Deer Ning Family, and Traveling with Beauties!

Ten days later, Xu Ruyin departed.

One reason she came was that it had been a long time since she visited Bi Lake Mountain.

The other reason was that she had heard about the Purple Shadow Secret Realm and her son's affairs, and came to check on him.

Now, seeing her son breakthrough to Foundation Establishment, she naturally had no worries or concerns.

However, the mother and son didn't have much to say to each other.

Facing this mother, Lu Chensha was even less natural than with Aunt Lu Miaoyun, feeling somewhat restrained and respectful.

Thus, during these days, Xu Ruyin mostly spent time at Changsheng Hall with Lu Changsheng, exchanging feelings.

Whether it was the matter of her son Lu Chensha or the shock from Hong Lian restructuring her body, when facing Lu Changsheng, she felt even more admiration, awe, and submission.

Lu Changsheng was not one to hold grudges.

He had long forgotten the matters of the past.

Seeing Hong Lian and Lu Chensha's connection, he eased her heart and mind with tenderness.

The humiliation of past lessons, the current gentle affection, and the myriad complex emotions towards Lu Changsheng swirled endlessly in her heart, causing Xu Ruyin to gradually succumb.

Even when she was clear-headed, she realized something was amiss.

But it was as if she had fallen into an abyss, unable to extricate herself.

"Since the day I fell into his hands, I've been unable to escape his demon claw..."

Xu Ruyin panted heavily, her beautiful eyes opening and closing, her delicate chin slightly raised, resigning herself to accept his tyranny and violation.

Yet the corners of her mouth and eyes showed a trace of enjoyment, a smile.

Since resistance was futile, why not choose acceptance, serve willingly, and savor the pleasure and joy within...

Besides, facing Lu Changsheng's overbearing gentleness, she found herself unable to resist.

During these days, her pleas were more than she'd uttered in her entire life.

And her heart raced more than it had ever in her whole life!

....

As Xu Ruyin left, Lu Changsheng allocated a batch of resources to Lu Chensha.

He instructed him to stabilize his cultivation level and nurture the Iron Fire Ants and Thousand Legged Centipedes.

Then, he had Lu Xingyang call Lu Ping'an back from White Tiger Mountain.

"Father."

Lu Ping'an was in a gray, tight outfit, his figure robust and upright, like a martial artist from the world, showing no trace of a cultivator's demeanor.

"Ping'an, do you have any plans coming up?"

Lu Changsheng inquired.

"No plans."

Lu Ping'an scratched his head, a bit bewildered.

"Since there's nothing, go to the Heavenly Sword Sect and see young Qin."

"It's been a long time since you both met, and young Qin must be quite worried after hearing about your affairs in the Purple Shadow Secret Realm. She might write to you."

"Last time she came to Bi Lake Mountain on her own, so this time you should take the initiative and visit the Heavenly Sword Sect."

Lu Changsheng said.

"But, at home, White Tiger Mountain..."

Lu Ping'an was stunned, his expression conflicted.

Yet before he could finish speaking, Lu Changsheng tossed a Jade Token: "You don't need to worry about home."

"This is a ticket for the Qingyun Spirit Ship. Go to Qingyun Market later and take the vessel to Jiuxiao Immortal City."

"Then from Jiuxiao Immortal City, go to the Heavenly Sword Sect, see young Qin, and travel back on your own."

Lu Changsheng said directly.

According to Xu Ruyin's description, the Xu Family might make a move.

Although the Shangguan Family hadn't stirred before, they couldn't be ignored.

But really, there's no logic in guarding against thieves tirelessly.

Going on the offensive and waiting for someone to come wasn't realistic either.

Who knows how long one would have to wait, there's no spare time for cultivation in this manner.

Thus, Lu Changsheng thought it over and decided to use his son as bait.

Lu Ping'an just needs to appear in Qingyun Market or Jiuxiao Immortal City, and he'll likely attract the attention of factions like the Xu Family and the Shangguan Family.

As his son returns, Lu Changsheng will secretly follow.

If anyone dares to make a move, he can handle it directly.

Besides the Xu Family and Shangguan Family, he could also observe if there are other ill-intentioned factions, loose cultivators, or hidden Demon Cultivators.

"Uh..."

Lu Ping'an looked at the ticket in his hand, his expression bewildered.

"Oh, here's a true explanation of the Sword Dao for you to give to young Qin. Just say you exchanged it for something, or got advice from Qing Shan."

Lu Changsheng tossed a crystal-clear, azure glowing Jade Slip to his son.

While it didn't contain the "Seven Luminaries Great Freedom Sword Scripture," "Tianyuan Sword Technique," or "Heavenly Circulation Starry Sword Technique," there were Lu Changsheng's own interpretations and insights on the Sword Dao, and a trace of Seven Luminaries Sword Intent.

If Qin Yi could comprehend this Sword Intent, she would have hope of understanding the remnants of the Seven Luminaries Sword Scripture!

"Alright, go on, remember to bring your Identity Token, no need for disguise and camouflage, just go openly."

Lu Changsheng instructed, leaving no room for his son to speak further, indicating for him to prepare on his own.

"Uh... yes, Father."

Lu Ping'an replied, realizing something from the final instructions.

...

After arranging Lu Ping'an's affairs, Lu Changsheng also planned to take this opportunity to take Lu Miaoyun, Lu Miaohuan, and Qu Zhenzhen out for a trip.

After more than two months of experimentation, it was confirmed that transplanting the Tianyuan Lotus into the Heavenly Longevity Technique posed no problems.

If there was any problem, it was that in such circumstances, he couldn't use this Second Dantian, causing the three women's mana to decrease.

However, since Lu Ping'an hadn't left yet, he wasn't in a rush.

He planned to first conduct Xia Zhizue's wedding and refine the Exorcism Golden Thunder.

Immediately.

Lu Changsheng went to the Lu Family Mansion to discuss the matter with the three women, Lu Miaoyun,

But at this moment, he heard of a piece of news from Lu Miaoyun that could shake the Jiang Country Cultivation Realm.

"A Nascent Soul Immortal emerged under the Spirit Taming Sect!?"

Lu Changsheng was surprised, finding it very abrupt.

"Yes, the family is called the White Deer Ning Family, and it's quite legendary."
