

# **Starting as a Son-in-law to Establish an immortal Family**

## **#Chapter 2101 - 695: \_2 - Read Starting as a Son-in-law to Establish an immortal Family Chapter 2101 - 695: \_2**

### **Chapter 2101: Chapter 695: \_2**

"Heaven-replenishing Elixir!?"

Though Lu Qingsong was only at the Initial Stage of Foundation Establishment, he had heard of the famed Heaven-replenishing Elixir.

Previously, his brother Lu Qingshan had also mentioned the elixir to him, suggesting that he might acquire one for him in the future.

Unexpectedly, his father had given such a precious pill to him.

Warmth surged through his heart, but with a slight bitter smile, he cupped his hands in salute, "Thank you, Father, but this kind of pill would be a waste on me. Please take it back."

One knows one's own affairs best.

Having a Seventh Grade Spiritual Root, taking on family responsibilities and managing affairs, he had gradually lost his ambition to progress in cultivation.

Not comparing himself to his talented brother, even compared to Lu Qingyan and Lu Lingxiao, he felt he was like the older generation.

Under such circumstances, he knew even if his Spiritual Root improved, it would at most enhance his cultivation speed, possibly allowing him to break through to the Middle Stage of Foundation Establishment, but achieving little more.

"You have worked hard for the family over the years; I have seen it all. This is your reward."

Lu Changsheng said softly, aware that he had paid little attention to this son.

Many years before Lu Yuanding had passed away, he mentioned that this son harbored resentment due to the excellence of his siblings.

But lacking ability, this resentment could not be vented, leaving him to eventually choose acceptance and recognize his mediocrity.

"Father, the Heaven-replenishing Elixir is precious, with many siblings needing it, like Sister Ruyi, Qingyan, Qing Xuan, Wangshu; they would put it to better use. On me, it would be wasted."

Lu Qingsong, in a deep blue brocade robe, wore a beard and appeared to be around forty, exuding both calmness and a certain authority, saluted as he spoke.

Lu Changsheng, having the Nascent Soul-level Taiyi Divine Soul, could see that his son's words were sincere.

Acknowledging his son's acceptance of mediocrity like early Lu Xianzhi, he understood his son's reluctance to overreach, preferring to live in the present.

"Alright, keep these resources, endeavor to break through to the Middle Stage of Foundation Establishment on your own."

Lu Changsheng did not insist, planning to see in a few decades if he would consider the "Heavenly Longevity Technique."

Though it could lead to breakthroughs in Core Formation and even Nascent Soul, freedom would be the sacrifice.

"Thank you, Father."

Lu Qingsong showed no regret, appearing thoroughly relaxed.

After all, contentment brings happiness.

If not born into the Bi Lake Mountain Lu Family, with his talent, ability, and comprehension, breaking through to Foundation Establishment would indeed pose a challenge.

...

Four years ago, a Beast Tide occurred in the Great Dream Marsh, Lu Qingyan from Dragon Fish Island and several Lu Family Foundation Establishment cultivators promptly joined the Immortal City Law Enforcement Team, aiding in defense and hunting demon beasts, earning considerable renown for Dragon Fish Island.

Especially Lu Qingyan, wielding the Blackwater Flood Dragon Daoist Soldier, who gained the title of [Black Dragon Spear], attracting numerous Foundation Establishment cultivators' pursuit.

Although Lu Qingyan's appearance wasn't strikingly beautiful, it was still considered above average.

This beauty, being the daughter of the Vice City Lord of Great Dream Immortal City, the True Master of Changsheng, and commanding the Lu Family Dao Soldier.

It should be known, the previous commander of the Lu Family Dao Soldier was the firstborn of the Lu Family.

From this, one could see Lu Qingyan's status and position within the Lu Family.

Thus, after the Beast Tide, cultivators often visited Dragon Fish Island, seeking guidance and sparring opportunities as a means to connect with Lu Qingyan.

On this day, at Jiao Snake Cliff, Dragon Fish Island, Lu Qingyan sparred with a scholarly-looking cultivator aged twenty-seven or twenty-eight.

This was one of her many daily routines.

Besides cultivation, raising Dao Soldiers, she would either hunt demon beasts or spar with others.

At this time, a middle-aged man around thirty and a handsome youth near twenty strolled leisurely towards her.

Lu Qingyan, holding a black flood dragon long spear, suddenly sensed something, gazed at the handsome, ethereal youth, and was startled. With an agile flip in the air, she saluted, calling out: "Father!"

"What!?"

The scholarly cultivator sparring with Lu Qingyan saw this and looked at the ethereal, refreshing youth, startled, hurriedly saluting: "Young Li Fengyao of Sea Rock Island's Li Family, pays respect to Changsheng True Master."

"Hmm."

Lu Changsheng had some impression of this Li Family of Sea Rock Island, seemingly a False Core level power.

He made a brief inquiry and then allowed his daughter to speak, while Li Fengyao, seeing this, wisely refrained from disrupting them, respectfully departing.

Then, Lu Changsheng suddenly looked at his daughter, smilingly said: "Qingyan, this young man likely has feelings for you?"

"Ah!?"

Lu Qingyan was taken aback.

She didn't expect her father to bring up such a topic.

But after a slight moment of surprise, her eyes became firm as she said: "Daughter harbors no thoughts of romance, nor wishes to marry or be a concubine."

Having said this, she tightened her grip on the Black Dragon Spear, her eyes bright with determination, "Even if not possessing my elder brother, Sister Wangshu's talent, mentality, daring, nor exceeding capabilities and management skills, I still wish to do my utmost, to see how far I can advance in the future."

"Though I may not match Azure Phoenix True Monarch, binding the Azure Dragon with red tassels, earning worldwide fame, I still wish to wield the red tassels, guarding a realm for the family."

She, despite being only five or six years younger than Lu Qingsong.

Yet her aspirations were entirely different from his.

Or perhaps, this was the reason many cultivators remained unmarried.

Once settling down, marrying, having children, they gradually lost the heart to pursue the Tao, and the drive to forge ahead.

"Good, it seems my Qingyan harbors such ambition."

Lu Changsheng knew his daughter's pursuit of Tao was resolute, but did not expect such aspirations.

#### **Chapter 2102: Chapter 695: Grade 4**

Applauding, laughed and said: "In her early years, Azure Phoenix True Monarch held the Azure Phoenix Daoist Soldier, renowned in Jiang Country. You have cultivated the 'Black Dragon Codex' and 'Blackwater Dragon Transformation Art' to Core Formation, commanding the Blackwater Flood Dragon Dao Soldiers, by then you too can be renowned in Jiang Country."

"Core Formation..."

Lu Qingyan's dark eyes, full of spirit, revealed a hint of longing.

Though she had enhanced her Dao Foundation to a perfect level using Black Dragon Origin and Flood Dragon Vital Blood, breaking through to Core Formation was still as hard as ascending to heaven.

"Since you aspire to emulate Azure Phoenix True Monarch, you should know that in her early years, Azure Phoenix True Monarch's talent wasn't considered top-notch. She

was able to step by step become a Nascent Soul Immortal, and Nascent Soul True Lord, why can't my daughter...?"

Lu Changsheng spoke to his daughter with a smile.

Over the years, he found that not only his daughter Lu Qingyan, but many female cultivators around her held admiration for Azure Phoenix True Monarch.

Including Lu Miaoge, Ling Zixiao.

He was quite curious about their reaction if they knew he had a daughter with Azure Phoenix True Monarch.

"Father."

Even though Lu Qingyan had ambition, she dared not hope to become like Azure Phoenix True Monarch.

Most female cultivators in Jiang Country admired Azure Phoenix True Monarch, considering her as an idol and goal.

"Haha, currently your Dao Foundation is solid; as long as you cultivate to Foundation Establishment Peak and then use the Dao Soldier's mana, there might be hope for Core Formation."

Lu Changsheng chuckled and said earnestly: "If there is a shortcoming, it would be your spiritual roots lagging behind."

Lower Grade Spiritual Roots are almost without chance for Foundation Establishment.

Middle Grade Spiritual Roots, not to say hopeless for Core Formation, are also bleak in hope.

Especially since Lu Qingyan only has Sixth Grade Spiritual Root.

However, part of why he came here was to check on his children and consider giving Qing Song's Heaven-replenishing Elixir to Lu Qingyan.

"Spiritual Roots..."

Lu Qingyan naturally knew that her Sixth Grade Spiritual Root was a hindrance for breaking through to Core Formation, requiring compensation in other ways.

But then, her father's warm voice reached her ears: "Since you have such aspirations, father will help you with this elixir medicine, which can enhance the quality of your spiritual roots."

"Ah? Enhancing spiritual root quality?"

Although Lu Changsheng did not mention the Heaven-replenishing Elixir by name, Lu Qingyan was extremely surprised.

Elixir medicines that enhance spiritual roots are priceless anywhere.

"Father, this... "

Lu Qingyan started to decline but Lu Changsheng, not wanting to waste time, used a finger swipe to open a porcelain bottle, and the Heaven-replenishing Elixir flew directly into Lu Qingyan's mouth.

"Calmly refine the medicinal power."

Immediately, Lu Changsheng started helping his daughter refine the power of the Heaven-replenishing Elixir.

Like his other daughter Lu Ruyi, Lu Qingyan's spiritual root was improved to Fourth Grade.

However, there are differences within Fourth Grade.

For Lu Ruyi, her spiritual root barely stepped into Fourth Grade.

While Lu Qingyan's spiritual root nearly reached the Fourth Grade threshold, and if she took a few more steps, it would be Third-Grade Spiritual Root.

"Father..."

Lu Qingyan opened her eyes, feeling her spiritual root had greatly enhanced.

But the specific enhancement was to be experienced through cultivation.

"Haha, Father awaits your breakthrough to Core Formation, carrying the red tassel, leading eight hundred Dao Soldiers, guarding one side for the family, here is the gourd of Void Kun Essence Blood, dilute it with spiritual liquid for cultivating Dao Soldiers."

Lu Changsheng handed over a gourd of already diluted Void Kun Essence Blood to his daughter, to cultivate the Blackwater Flood Dragon Dao Soldiers.

While Dao Soldiers consume resources and grow slowly, once cultivated, their utility is indisputable.

Especially now stationed in Great Dream Marsh, Lu Changsheng needs these Dao Soldier forces for future use.

"Father, rest assured, your daughter will not let you down!"

Lu Qingyan said with determination.

"Good."

Lu Changsheng smiled and went with his daughter to check on the current situation of the Blackwater Flood Dragon Dao Soldiers.

With Great Dream Marsh as a natural training ground suited for the Blackwater Flood Dragon Dao Soldiers, the number has already exceeded a hundred, reaching three hundred.

Although the level hasn't risen yet.

Only a dozen possess high rank and earth grade bloodline to advance to the second rank.

Yet such fighting power is already extremely terrifying!

During the previous beast tide, Lu Qingyan hadn't utilized these Blackwater Flood Dragon Dao Soldiers.

If they all appeared in public view, the name of the Heavenly Talisman Lu Family could create quite a stir.

After offering encouragement and praise, Lu Changsheng went to Red Carp Island, Green Carp Island.

...

After completing activities, Lu Changsheng returned to the City Lord Mansion to act as protector for his daughter Lu Mengchan, who was preparing for Foundation Establishment.

"Mengmeng, don't be nervous."

This daughter's breakthrough to Foundation Establishment was overwhelming.

Not only having Lu Changsheng, a father comparable to Nascent Soul, her mother with Core Formation Cultivation personally protected.

Nangong Mili and Hong Lian also came to watch.

Knowing Lu Mengchan possesses Calamitous Poison Body, cultivating Supreme Poison Skill, even Hong Lian was quite curious about her situation.

Wanting to know how far this seemingly gentle girl could grow, and what kind of Dao Foundation she would condense.

"Mm..."

At first, Lu Mengchan had calmed down, getting ready.

But with so many people watching her, she suddenly felt nervous.

Luckily, after preparing so long, they're not strangers, Lu Mengchan took several deep breaths and started her Foundation Establishment.

Starting with the three barriers of Foundation Establishment was naturally no issue for Lu Mengchan.

Or rather, her whole breakthrough process was like eating and drinking.

With the operation of cultivation technique, the Foundation Establishment Spirit Liquid prepared by her mother Meng Xiaochan flowed through her body, veins, limbs, and bones.

"This is Calamitous Poison Body... Such intense toxicity, ordinary Foundation Establishment Cultivators might not endure for even a tea time; moreover, it carries a mysterious disaster, curse qi mechanism..."

#### **Chapter 2103: Chapter 695: \_4**

Hong Lian possesses a Nascent Soul level soul, which allows her to directly see Lu Mengchan's Qi Ocean Core.

Her Elixir Lake is different from ordinary cultivators, not composed of pure spiritual power, but of endless poison.

As the Elixir Lake transforms into a True Lake, condensing into a Dao Platform, an aura of disaster and curse emerges, intertwining with the poison and flooding into the Dao Platform.

Hong Lian can sense that this poison alone can poison to death a Foundation Establishment Cultivator.

Once she fully completes the breakthrough, she will become completely invincible in her realm!

If one does not have body refinement or poison resistance methods, they might be poisoned and die just by approaching her.

As for the mysterious disaster and curse aura, Hong Lian cannot determine the specific power, but it is extraordinary.

"No wonder it is said that when the Calamitous Poison Body breaks through to Core Formation, it becomes a walking catastrophe, capable of turning a place into a poisonous land where no one dares to provoke. Even at Foundation Establishment, it is so astonishing."

"No, this is not an ordinary Calamitous Poison Body. She cultivates the Supreme Poison Skill prepared by her husband, and once she breaks through Core Formation, Nascent Soul, it might be even more terrifying than the legends."

Hong Lian couldn't help but think to herself, a poison body like this, once on the battlefield, is terribly frightening, capable of easily poisoning countless people.

In Cultivation World wars, such a calamity poison body could even affect the outcome of the battle to some extent.

However, thinking of Lu Mengchan's gentle and weak nature, she couldn't help but shake her head, feeling a bit regretful.

"Little Chan!"

Lu Changsheng, through his Taiyi Divine Soul, was paying attention to his daughter's situation.

Signaling Meng Xiaochan to release the pre-prepared poison as Foundation Establishment Spirit Objects to help his daughter condense her Dao Foundation and enhance its quality.

However, the meridians and Qi Ocean Core of a Qi Refinement cultivator have their limits.

Even the Calamitous Poison Body cannot rely on an infinite mass of poison to enhance its Dao Foundation.

Seeing that the time was almost right, Lu Changsheng flipped his palm.

The Yin Yang Qi Origin of the Qi Ocean Core appeared like a dancing dragon and phoenix, forming a Yin Yang Fish.

"Mengmeng, concentrate."

Lu Changsheng said to his daughter, then used the Yin Yang Origin to protect her meridians and Qi Ocean Core, helping her refine various poisons.

"Boom, boom, boom!"

One could see her translucent figure, an endlessly poisonous and disastrous Dao Platform, moving one step further with the help of the Yin Yang Fish, continuing to condense, visibly thicker than most cultivators' Dao Foundations.

However, during this process, Lu Mengchan's fair and delicate face showed a look of pain.

Even though her Qi Ocean Core, under many Heavenly and Earthly Treasures, is more resilient and thick than most cultivators, it also has its limits.

"Mengmeng, let your father know if you can't take it."

Lu Changsheng said to his daughter, operating the "Yin Yang Creation Classic" to help her coordinate Yin Yang, balance the disaster and poison in her Dao Foundation, and fit perfectly with the "Myriad Calamities Poison Spirit Secret Scripture" as much as possible.

Although Lu Mengchan was gentle, timid, loved crying, and easily wronged, under Meng Xiaochan's persistent and patient guidance, she had improved a lot.

Especially with regards to Foundation Establishment, her mother reminded her countless times of its importance; even though her little face was aggrieved and tears flowed, she still pressed her lips tightly.

"Mengmeng, don't cry."

Even though she knew her husband had her daughter's best interests at heart, Meng Xiaochan still felt deeply distressed seeing her daughter's aggrieved and painful expression.

After a long time, Lu Changsheng exhaled a long breath, stopped the operation of the cultivation technique, dispersing his Yin Yang Qi Origin, transforming it into Dragon Phoenix Nirvana Power, nourishing her physical body, meridians, and five viscera core.

After refining the Dragon Phoenix Origin, Lu Changsheng's Yin Yang Qi then possessed Dragon Phoenix Nirvana Power, and it is because of this that he obtained Nirvana Divine Ability!

Previously, the blending of the Chaos Body with her daughter Mu Que's True Spirit Bloodline had also slightly enhanced this nirvana effect.

So the effect of this Yin Yang Qi Origin in nourishing and healing the physical body is no less than nourishing the Dao Foundation.

Even though this method makes the origin effect much less effective, for someone like Lu Mengchan who is a half-step Foundation Establishment cultivator, it is still incredibly amazing.

"Boom!"

After a long time, Lu Mengchan successfully broke through to Foundation Establishment, and at the center of her Qi Ocean Core, a Dao Platform of deep purple hue, vibrant and profound, interspersed with threads of black mist, was revealed.

This Dao Platform is different from most others.

Not only is it much wider and thicker, but its surface is filled with strange and complex patterns, resembling mysterious ancient runes, emitting a faint green glow.

The edges also show an irregular jagged feel, resembling a demon's fangs, burning with faint purple flames.

But most astonishingly, at the center of the Dao Platform, a colorful vortex slowly rotates, with glimpses of various poisonous creatures' phantoms.

They roar and struggle within the vortex, as if imprisoned in the Dao Platform, but continue to supply Poison Spirit Power to it.

This is the Myriad Calamities Poison Spirit Eroding Soul Dao Foundation from the "Myriad Calamities Poison Spirit Secret Scripture"!

### **Chapter 2104: Chapter 696**

"Wooo—"

Unlike the brilliant radiance that accompanies most Foundation Establishments, layers of calamitous poison mist swirled and surged around Lu Mengchan.

Fortunately, Lu Changsheng and the others were unafraid.

Otherwise, a few ordinary Foundation Establishment cultivators might have been affected by her.

"Is this the Calamitous Poison Body..."

Both Meng Xiaochan and Nangong Mili were closely watching Lu Mengchan's condition.

They could see she was undergoing a baptism, shedding her mortal form.

During this process, the effects of her Calamitous Poison Body and its potential were constantly being activated.

Seeing Lu Mengchan's situation, Nangong Mili felt a tinge of envy.

She envied that Lu Mengchan was valued so highly by Lu Changsheng, receiving such ample resources for cultivation, thus condensing such a Supreme Dao Foundation during the Foundation Establishment stage.

In her early years, she had also invested much care in nurturing her daughter Nangong Yaoyao, laying a solid foundation for her from a young age.

Even though Nangong Yaoyao's Spiritual Root Talent was no less than Lu Mengchan's, and her character and comprehension were even superior, she still couldn't compare to Lu Mengchan before her.

For a moment, Nangong Mili found herself missing her clever and sensible daughter.

She wondered how her daughter was doing now after joining the Immortal Lotus Sect.

Although at that time, the White Lotus True Monarch had promised to use the [Immortal Lotus Pool] to cleanse and purify her daughter's Dao Foundation, flawlessly transitioning her to the sect's legacy.

But a daughter travels thousands of miles, and a mother worries; how could she not be concerned?

"Father, Mother, did I succeed in breaking through?"

At this moment, Lu Mengchan opened her slightly reddened, crystalline eyes and spoke.

"Of course, my Mengmeng is amazing."

Ignoring the toxins circulating in his daughter's body, Lu Changsheng pinched her fair cheeks and said with a warm smile.

Despite the pain of breaking through the Foundation Establishment stage making her cry, which was quite... but thinking about it, this counted as the most painful experience in her life so far.

The little crybaby from the past could still grit her teeth and persevere; in his view, this was already a significant improvement.

"Mengmeng, how are you feeling now?"

Meng Xiaochan asked concernedly about her daughter's condition.

"Mother, I'm so tired..."

Lu Mengchan said affectionately, stirring compassion.

During the breakthrough process, Lu Changsheng had helped her forcefully break her limits using the Yin Yang Qi Origin, causing a slight burden on her physical meridians, now transformed into Dragon Phoenix Nirvana Power to nurture her body.

And the effects of the Foundation Establishment constantly baptized her meridians, Dantian, and skeleton, triggering the effects of the Calamitous Poison Body, making her feel deeply exhausted, as if being nurtured in a womb, comfortably desiring sleep.

"Mengmeng, don't sleep just yet..."

Lu Changsheng directed his daughter to stabilize her realm, run her cultivation technique in full circulation, and complete her Dao Foundation transformation before sleeping.

Though Lu Mengchan was very tired and aggrieved, she held back her sleepiness and obediently ran her cultivation technique at her parents' words.

Beside her, Hong Lian couldn't help but shake her head at her husband's childlike educational approach.

With Lu Changsheng's way of education, unless she experienced some great change, Lu Mengchan's personality might struggle to become independent.

Yet, after so many years together, she knew her husband's nature and said nothing more, her jade hand instinctively resting on her own belly.

...

After her daughter thoroughly completed her Foundation Establishment, Lu Changsheng examined her physical body, mana, and Divine Sense.

Her mana was purer and more robust than his own upon initially breaking through the Foundation Establishment.

Although her physical body hadn't undergone cultivation, it was comparable to a mid-initial stage Body Refinement.

Most importantly, after breaking through her Foundation Establishment, the potent poisonous mana within her could instantly coat her skin, directly poisoning Foundation Establishment and Second Rank body cultivators!

Her Divine Sense was Lu Mengchan's weakness, only about eighteen zhang.

This was entirely normal.

Lu Mengchan had only cultivated "Myriad Calamities Poison Spirit Secret Scripture" from Lu Changsheng for ten years.

The fact that she developed Divine Sense during the Qi Refinement Realm was entirely due to Lu Changsheng and Meng Xiaochan's nurturing.

Otherwise, given her circumstances, she'd rely on the potential of her Calamitous Poison Body to break through the barrier of Divine Sense.

"Xiaochan, regarding Mengmeng's cultivation, she can spend more time on techniques next to lay the foundation for future cultivation in Divine Skills."

Lu Changsheng said to his wife.

Cultivating Divine Skills isn't achieved overnight; a certain technique foundation is still necessary.

This "Myriad Calamities Poison Spirit Secret Scripture," contains not only Poison Dao but also involves the path of curses, exceedingly complex, and difficult to cultivate, consuming considerable time.

Fortunately, with her Calamitous Poison Body, as long as she ingests poison, her cultivation will progress; even if she dedicates much time to techniques, it won't hinder her cultivation journey.

"Mmm~"

Meng Xiaochan never questioned Lu Changsheng's words, completely trusting him.

Afterwards, Lu Changsheng once again inquired about Meng Xiaochan's cultivation issues.

The latter had also transitioned to "Myriad Calamities Poison Spirit Secret Scripture," leading her daughter by a significant step, not having completely grasped the cultivation technique, requiring Lu Changsheng to provide guidance and answers.

...

Earlier, when Nangong Mili witnessed Lu Mengchan's breakthrough and suddenly appeared concerned, it naturally didn't escape the attention of Lu Changsheng, who possessed the Taiyi Divine Soul.

Therefore, after teaching and solving Meng Xiaochan's cultivation queries, Lu Changsheng brought her to comfort Nangong Mili.

"Rest assured, Yaoyao is intelligent and sensible, and with a Nascent Soul True Lord as her master, she won't be bullied."

"Perhaps when we visit her, she will already be the Holy Maiden of the Immortal Lotus Sect."

Afterwards, Lu Changsheng comforted Nangong Mili, holding her bewitchingly enchanting and fiery-soft body.

He spoke these words not just for comfort.

After all, their daughter Nangong Yaoyao broke through to Core Formation at sixty-four; such speed indicates she's highly esteemed within the Immortal Lotus Sect.

Even though her cultivation hadn't improved over the years.

But as a disciple of a sect, especially a major sect, whether in carrying out sect tasks, going out for training, or cultivating Divine Skills techniques, it all consumes considerable time.

### **Chapter 2105: Chapter 696:**

It's understandable to slow down on Cultivation Realm.

"Yes, Master, Yaoyao's temperament makes her likable everywhere, and she's clever and sensible..."

Meng Xiaochan, with her skin covered in fine fragrant sweat, held her master's fair lotus-like arm and spoke softly.

In her early days, if Nangong Mili had any issues, she would take care of this younger sister. Naturally, she knew Nangong Yaoyao's obedient and cute appearance was just a facade, and in reality, she was extremely intelligent.

If she continues to grow, she will definitely become a Demon Path enchantress capable of captivating the masses in the future.

With such a character, even if she joined the Immortal Lotus Sect, she wouldn't easily suffer losses.

"Hmm~"

Nangong Mili's beautiful eyes were hazy like a smoky river, seemingly flowing like a galaxy, and she replied weakly with a sigh.

Yet, as a mother, she couldn't help but feel that her daughter might be easily bullied outside.

...

A few days later, Lu Changsheng took Nangong Mili and their daughter Lu Wangshu back to Bi Lake Mountain, preparing to head to the Five Poisons Cult with Nangong Mili.

On one hand, he had promised Nangong Mili that if she didn't like it there and wanted to return to the Five Poisons Cult, he would take her back.

On the other hand, there was the matter of the Vast Sand Illusion Realm, intending to meet with Ayoudo to inquire about the current situation.

He also wanted to ask Ayoudo if there were any channels to obtain an Infant Transformation Elixir or find any unclaimed Spirit Land suitable for breaking through to the Nascent Soul.

Meanwhile.

In a Secret Realm Valley in the Eastern Domain of the Southern Wilderness.

A woman clad in a red-hued robe, her features exquisitely beautiful, her figure tall and elegantly curved, had a face pale as paper, currently being besieged by several people, continuously spitting blood.

"Junior Sister!"

At this moment, a young man with a heroic appearance and a dragon-like agile figure broke through the air, shouting angrily.

He looked towards one of the women, dressed in a white lotus dress with a white veil covering her face, exuding purity, and he unleashed a Magical Treasure: "Nangong Yaoyao, release my junior sister!"

As he spoke, his Magical Treasure was unleashed, and the golden ancient lamp formed a scorching True Sun Fire, its color pure gold, shining like the great sun.

Then, a majestic and awe-inspiring three-legged divine bird charged towards Nangong Yaoyao, who was robed in white lotus clothing, bathed in a hazy holy light.

Nangong Yaoyao's face remained hidden by the white veil, only her pair of beautiful eyes like stars were visible, making anyone who gazed into them unable to resist falling under her charm.

She let out a light laugh, then formed hand seals with both hands, her face angelically beautiful as she said, "The mortal world is like a prison, all beings suffer..."

In an instant, the world seemed brighter, with constant sounds like celestial music and chants echoing.

"The mortal world is like a prison, all beings suffer, reincarnation unending, worries incessant, pity for us mortals, the Immortal Lotus descends, escaping the sea of suffering, eternal joy, Lotus Holy Mother, Sacred Pure Land..."

Nangong Yaoyao appeared as a pure and dust-free holy Female Immortal, exuding immortality, ethereal and spotless.

Around her, fragrant and crystalline flower petals rained down like orchids in an empty valley, refreshing the heart and mind, accentuating her noble holiness.

Where she stood seemed to transform into a pure land, standing independently in the void, isolating the burning True Sun Fire from outside.

"Damn it!"

Ji Shaoyi looked at Nangong Yaoyao's Divine Skills, his expression serious.

Even though the Immortal Lotus Sect cultivators are not good at direct combat, their methods are numerous, and defeating them among equals is not easy.

Especially since the Nangong Yaoyao in front of him had already mastered the top-level Divine Skills of the Immortal Lotus Sect, the Immortal Lotus Pure Land.

"Senior Brother!"

Not far away, the red-robed woman being besieged suddenly spat a mouthful of fresh blood, her face pale as she called out, struggling desperately.

"Junior Sister."

Ji Shaoyi was both anxious and angry, aware that it was difficult to defeat the enchanting woman of the Immortal Lotus Sect before him and rescue his junior sister.

Yet, he couldn't just leave her to her fate either.

"What, do you wish to save her?"

Nangong Yaoyao calmly looked at the young man in front of her, her star-like beautiful eyes seemed to flow with a holy compassionate expression.

Even Ji Shaoyi, a prodigy of the Great Sun Golden Crow Sect, couldn't help but become momentarily entranced by Nangong Yaoyao's charm, quickly biting the tip of his tongue to stabilize his mind, and coldly said, "Nangong Yaoyao, what will it take for you to release my junior sister?"

Even in a one-on-one scenario, he felt confident in defeating Nangong Yaoyao, but now, outnumbered, he wasn't her match.

Especially since his junior sister was in their hands.

However, at this moment, he also realized something was amiss.

His junior sister, although powerful, couldn't have held on this long against so many of Nangong Yaoyao's people. It must have been a deliberate ploy by Nangong Yaoyao to lure him here through his junior sister.

"It depends on what price you're willing to pay."

Though Nangong Yaoyao seemed like an immortal fairy, exuding a sense of holy compassion, her words were as enticing as a soft melody, mesmerizing and captivating.

"Hmph, Immortal Lotus enchantress, stop trying to confuse me, just state your demands directly, as long as they're not too excessive..."

Ji Shaoyi didn't dare to speak much more with the Nangong Yaoyao before him, fearing her allure would affect his mind.

After all, the Divine Skills of the Immortal Lotus Sect are inherently indirect, making them very hard to guard against!

"Ji Shaoyi, you should understand, it's not you negotiating with me now, it's you pleading with me."

Nangong Yaoyao interrupted his words directly, her voice holy and compassionate as she said, "If you hold this mindset, then there's no need to talk, prepare to collect your junior sister's body."

With that, she struck towards the red-robed woman.

"Puh!"

The red-robed woman, already struggling, was instantly flung away, coughing up blood, unable to move.

"Senior Brother, don't agree with her, even if I die, I refuse to let you beg an enchantress of the Immortal Lotus Sect!"

### **Chapter 2106: Chapter 696:**

The woman in red mist showed remarkable tenacity, her face defiant as she shouted towards her senior.

However, the more she acted this way, the less Ji Shaoyi could bear to leave her to die.

After all, the relationship between him and his junior sister was close, just a step away from becoming Dao Companions.

If he allowed her to die at Nangong Yaoyao's hands now, he feared his heart would never be at peace.

"Speak, what do you want in exchange for releasing my junior sister!"

Ji Shaoyi's entire body was surrounded by pure golden flames, staring fiercely at Nangong Yaoyao, with clenched fists and bulging veins.

"It's very simple, if you want me to spare your junior sister, then trade me your life. As long as you open your Sea of Consciousness and let me plant a prohibition, I will let her go."

Nangong Yaoyao said with crystalline eyes, ethereal and divine, resembling a Female Immortal who could save all beings.

Ji Shaoyi's face changed color.

Once the Soul Prohibition is planted, it would be tantamount to entrusting his life in the opponent's hands.

Yet...

"Senior brother, don't agree to her, I would rather die than allow you to be bound by this demoness' Soul Prohibition!"

Not far away, the woman in red mist shouted loudly, intending to sever her own heart vein.

But a nearby cultivator immediately slapped his palm against her back, restraining her mana and stopping her.

"Plant a Soul Prohibition? Nangong Yaoyao, do you intend to control Ji and usher me into the Immortal Lotus Pure Land!?"

Ji Shaoyi knew Nangong Yaoyao, and naturally was aware of the divine skills and techniques of the Immortal Lotus Sect.

Most famous among them was the Immortal Lotus Pure Land, said to descend from the heavens, saving all beings!

Once ushered into the Pure Land, it meant becoming the opponent's slave for eternity, willing to make any sacrifice.

But such terrifying methods, attempting to transform others was indeed extremely difficult, requiring stringent conditions.

Being a prominent figure of the Great Sun Golden Crow Sect, cultivating the Great Sun Golden Crow Technique, how could he be easily transformed? The opponent would need to set numerous prohibitions to slowly transform him.

"But as long as you release my junior sister, I will let you plant the Soul Prohibition!"

He took a deep breath, his eyes struggling, as if made a difficult decision, and spoke aloud.

Being able to become a genius of the Great Sun Golden Crow Sect was indeed extraordinary, having acquired a Golden Crow True Feather in his younger years.

After refining this Golden Crow True Feather, his talent increased, acquiring the Sunburning Golden Flame Body, and his soul had merged with the residual soul of the Golden Crow True Feather, birthing a hint of True Sun Fire.

This hint of True Sun Fire could burn away any divine skill targeting the soul, including numerous Soul Prohibitions.

Only his master and junior sister knew of this matter.

So when Nangong Yaoyao proposed to plant a Soul Prohibition, his heart was filled with joy, even thinking he could use the opportunity to burn her soul with True Sun Fire.

Once her soul was severely wounded and unleashed his full power, he had a fifty percent chance to slay her.

But for such matters, to avoid being discovered by Nangong Yaoyao, naturally he must show struggle and anger, acting for his junior sister.

It was just the right opportunity to break the last layer of relationship with his junior sister.

"Mmm mmm mmm—"

Not far away, his junior sister continuously shook her head towards him, but now her voice was sealed, unable to speak, only able to hum and mumble.

"What is love in this world, straight to make one devote life and death."

"I didn't expect Ji Dao brother to be so affectionate, being a talent of the Great Sun Golden Crow Sect, yet willing to open his Sea of Consciousness for his junior sister, letting me plant the Soul Prohibition..."

Nangong Yaoyao looked at Ji Shaoyi in front of her, seemingly quite surprised.

"Humph, release my junior sister now, and I will open the Sea of Consciousness, allowing you to plant the prohibition."

Ji Shaoyi, wearing a red golden robe, his face ruggedly handsome, exuded an imposing aura as if no one could challenge him.

"Though Dao brother's deep affection is convincing, Yaoyao cannot be trusted easily, why not open the Sea of Consciousness prohibition and let me plant it now, then I will naturally release Fairy Ruan."

Nangong Yaoyao's sparkling eyes seemed to speak, she said with a smile.

"If that's the case, swear with your Dao Heart, not only to release my junior sister but also to protect her exit from the Secret Realm."

Ji Shaoyi seemed unwilling to waste words with Nangong Yaoyao, spoke coldly, a three-legged Golden Crow faintly visible above him, forming a sea of pure golden flames.

"Dao Heart Vow..."

Nangong Yaoyao pondered for a moment and then replied directly: "Alright, as long as Dao brother opens his Sea of Consciousness and lets me plant the prohibition...."

This made Ji Shaoyi frown.

Unexpectedly, Nangong Yaoyao agreed so readily.

But guessing her primary goal was him, he was relieved, and said deeply: "Good."

Then, he opened his Sea of Consciousness.

However, even with the True Sun Fire capable of burning everything, he remained very cautious.

After all, both the Sea of Consciousness and Qi Ocean Core are places crucial to a cultivator.

If something goes wrong, it could be an irreversible disaster.

If not for his junior sister, he would never take such risks, resorting to this strategy.

Nangong Yaoyao moved forward, hands gesturing, seemingly about to use the Soul Prohibition.

But at this moment.

"Whoosh!"

A Gu insect suddenly flew out from Nangong Yaoyao's sleeve, shooting towards his Sea of Consciousness.

"Splash!"

His eyes burned with anger, and the True Sun Fire in his Sea of Consciousness instantly ignited, burning the approaching Gu insect.

However, in the next moment, as his pupils reflected Nangong Yaoyao lifting her veil, revealing a flawless masterpiece of heavenly artistry, her expression turned slightly dreamy.

"Buzz! Buzz! Buzz!"

Unbeknownst, array formation restrictions were set around, space rippled forming invisible threads, binding his body, limbs, and mana.

"This is bad!"

He bit the tip of his tongue, circulating his mana, trying to burn the threads, but with the Gu insect burned by True Sun Fire between his brows disintegrating into powder, his head felt like it was splitting.

Simultaneously, white lotuses blossomed within Nangong Yaoyao's pupils, surrounded by ethereal immortal music resonating, 'The mortal world is a prison, all beings suffer', as she extended a jade-like finger.

His mana surged, trying to break through layers of assault, but against the invisible threads, Nangong Yaoyao's perfect beauty, and Lotus Divine Skill, he struggled.

Could only watch as the jade-like finger pointed at his brow.

Following, Nangong Yaoyao's dreamlike, celestial beauty, saintly and merciful, etched deeply into his mind and soul.

Looking at Nangong Yaoyao, an indescribable emotion arose in his heart.

As if...in front of her, everything in the world pales.

"Something's wrong!"

As a genius of the Great Sun Golden Crow Sect, he instinctively realized things weren't right, being affected by her.

Yet seeing Nangong Yaoyao's flawless beauty, he felt there was nothing wrong.

"Yaoyao sister, is it finished?"

At this moment, not far away, the woman in red mist suddenly stepped forward weakly and asked, looking at Nangong Yaoyao with eyes full of admiration.

"Your senior brother truly deserves to be one of the top talents of the Great Sun Golden Crow Sect, even under my divine skill can still maintain some of his true self, but after some time, it should be about ready."

Nangong Yaoyao said with a small smile.

Then, her jade hand gently stroked the black silky hair and cheek of the woman in red mist, speaking softly: "Qianqian, thank you for your efforts this time."

"As long as I can help Yaoyao sister, it's not hard for Qianqian."

The woman in red mist, pale as paper, smiled blissfully, like a pet, nestled her head against Nangong Yaoyao's palm.

"Junior sister!?"

Ji Shaoyi was startled and dumbfounded by the scene, weighed down by silence.

But what shocked him more was that now he couldn't muster resentment, intent to kill, or desire to escape from Nangong Yaoyao...

At this moment, his heart grew cold, even terrified, realizing he had fallen, fallen into Nangong Yaoyao's hands.

**Chapter 2107: Chapter 697: Farewell, Ayoudo!**

"Screech!"

At this moment, deep within Ji Shaoyi's Sea of Consciousness, a Golden Crow Divine Bird cried out, bringing him to a partial state of clarity, realizing something was amiss.

Even though the Divine Skills of the Immortal Lotus Sect are unpredictable and mysterious, they couldn't possibly disturb his Soul Consciousness in such a short time.

The other party deliberately confused his Mental Spirit through his junior sister, causing him to sink deeper and deeper.

"Burning Heaven! Burning Sun! Burn the Self!"

Ji Shaoyi immediately roared, activating a secret technique, making himself appear like a great sun rising, attempting to incinerate his own body.

This is the top-level secret technique of the Great Sun Golden Crow Sect, which can ignite oneself, unleashing unprecedented power.

A successful cultivation of this technique can even turn a crisis into an opportunity for rebirth!

"How vigilant indeed."

However, Nangong Yaoyao had already prepared, activating a Third Rank Middle Grade Talisman.

At the same time, several people who had previously besieged the red-haired woman stepped forward, forming a formation and casting divine skills to envelop and suppress Ji Shaoyi.

"The mortal world is like a prison, all beings are bitter, reincarnation never ends, worries never cease, pity the people, Immortal Lotus descends from heaven, freeing them from the sea of suffering, eternally enjoy bliss, Lotus Holy Mother, return to the true homeland..."

In the world, petals fell, and heavenly music resembling chanting continued to resonate.

Faintly glowing pink-white petals can be seen continuously drifting into Ji Shaoyi's body.

"Damn it."

Ji Shaoyi gritted his teeth, knowing that his divine skills and methods were completely seen through by the opponent.

He exerted the Golden Crow Transformation Technique to the extreme, with a body burning in pure gold flames, which seemed to meld into a great sun, unleashing a fierce storm, trying to break through the void.

But at this moment, his junior sister, whose face was pale as paper, blocked his way, casting a secret treasure to disturb his divine skills.

"Ah!!!"

Ji Shaoyi's eyes nearly burst, angrily roaring, full of unwillingness.

In a head-on confrontation, he feared no one in front of him.

Even facing two opponents, he could retreat safely.

But the means of Nangong Yaoyao were truly frustrating.

Under the siege of several people, he struggled to continue, with the pure gold flames on his body gradually dimming, covered in blood, with skin and flesh torn, his mental spirit increasingly affected, drowsy.

Nangong Yaoyao, ethereal as a fairy, continuously cast spells, attempting to transform Ji Shaoyi in front of her.

Though the Immortal Lotus Pure Land of the Immortal Lotus Sect is terrifyingly famed, transforming someone is not simple.

Or rather, to completely transform a cultivator of the same level is very difficult and cannot be accomplished in a short time.

If not for her needing to deal with the upcoming sect trials, she wouldn't have risked such a great danger to set up a scheme to transform Ji Shaoyi.

After all, in the time to come, not only would she be unable to use the Immortal Lotus Pure Land again, but she also needed to fully stabilize Ji Shaoyi and would likely be placed on the must-kill list by the Great Sun Golden Crow Sect.

Moreover, upon returning to the sect, her two senior sisters would be wary of her.

...

"Ping'an..."

After returning to Bi Lake Mountain with Nangong Mili and Lu Wangshu, Lu Changsheng gave part of the Void Kun's flesh and bones to Lu Ping'an.

He signaled him to use the blood essence of the Void Kun as a foundation to brew several cauldrons of medicinal baths for the Lu Family disciples.

He could also use the blood essence of the Void Kun for his own cultivation.

"Yes, father."

Lu Ping'an nodded in response.

"By the way, I plan to hold a Core Formation ceremony for you at home later, what do you think?"

Lu Changsheng continued.

Previously considering the family's excessive limelight, he planned to delay his son's Core Formation celebration.

But the influence caused by the Great Dream Immortal City had elevated his status as Deputy City Lord, to the point where even the Qingyun Sect's attitude changed towards him.

In such a situation, Lu Changsheng felt there was no need to hide Lu Ping'an's Core Formation matter any longer.

With Lu Ping'an staying home for a long time, sooner or later, he would meet people and handle family matters, so it might as well be done openly.

Moreover, after being separated from Qin Yi for so many years, now that he's back, after the ceremony, he should make a trip to the Heavenly Sword Sect to finalize the marriage.

However, the son of Changsheng True Master wanting to marry a true disciple of the Heavenly Sword Sect might prove slightly challenging.

But a hundred-year-old Core Formation prodigy from the Heavenly Talisman Lu Family would surely be welcomed by the Heavenly Sword Sect.

"Ah... I'm fine with anything?"

Lu Ping'an was not very concerned about these superficial honors.

"In that case, I'll have your Aunt Miaoyun prepare in advance; when I come back, it should be ready to hold. Then you'll head to the Heavenly Sword Sect to meet Xiao Qin and her master."

Lu Changsheng said out loud, feeling like he was worrying himself sick.

Not only does he have to manage matters with his wives, but he also has to worry about his children's marriages.

At this moment, he suddenly felt that Lu Yun, Lu Qingsong, were quite less troublesome.

"Uh..."

Lu Ping'an had previously planned to make a trip to the Heavenly Sword Sect, but was delayed due to family matters.

Unexpectedly, his father directly suggested he go to the Heavenly Sword Sect to meet Qin Yi's master.

This...

He was a bit caught off guard.

"Forget it, later your Aunt Miaoge and Wangshu are going to Jiuxiao Immortal City; you can go with them, and later I'll tell Aunt Miaoge to accompany you to pay respects to the Heavenly Sword Sect."

Lu Changsheng looked at his hesitant son and shook his head, saying directly.

As for Bi Lake Mountain.

Now that Ling Zixiao had reached Core Formation, with the Nine Netherhound, Thousand Faces Puppet Fox, and the Third Rank Puppets obtained from the Vast Sand Illusion Realm, unless a Nascent Soul True Lord attacked, there was no need for Lu Ping'an to stay and guard.

"Alright, things are settled this way."

Seeing that Lu Ping'an wanted to say something else, Lu Changsheng simply waved his hand and said.

"Oh, and bring Xiao He and Little Qi with you for a change of scenery."

Lu Changsheng still cared much for his daughters.

Since he had no time to take them out himself, it was up to Lu Ping'an to do it instead.

## **Chapter 2108: Chapter 697: Farewell, Ayoudo! (Part 2)**

"Yes, Father..."

Seeing that his father had made all the decisions, Lu Ping'an responded with some helplessness.

Immediately, Lu Changsheng returned to Bi Lake Mountain and informed Lu Miaoge, Lu Miaoyun, and Ling Zixiao about Lu Ping'an's situation.

"Good~"

"Ping'an has been away for so many years; it's about time he went to meet little Qin."

The women quite liked Qin Yi, who directly came to Bi Lake Mountain, with her daring love and hate.

The main thing was Lu Changsheng had decided, so as long as there were no major issues, the women wouldn't question it.

...

After staying at home for a few days, Lu Changsheng took Nangong Mili and flew towards the direction of the Myriad Beasts Mountain Range.

Now with the opening of the Liangyue War, the border of Jiang Country was much stricter.

Although it didn't affect Lu Changsheng, to be safe, he planned to cross the Myriad Beasts Mountain Range and head to Jin Kingdom.

Moreover, he could take a detour to Azure Phoenix Immortal City and see his children and the situation in the Immortal City.

Considering he also needed to meet Chu Qingyi, Lu Changsheng expressed to Nangong Mili that the situation between the two countries was not good, and he had caused quite a stir outside, with many forces keeping an eye on him, so he hoped she would be patient in the Tianyuan Lotus.

With her earlier experiences in the Formless Domain, Nangong Mili was somewhat skeptical of Lu Changsheng's words.

But she ultimately chose to believe him.

After all, if this dog of a man was truly going to see other women, she could remain blissfully ignorant.

Otherwise, if she kept fussing, she might just get herself furious.

Moreover, even the Sect Hierarch...

However, thinking about the previous agreements and promises Lu Changsheng made with her, Nangong Mili felt a strange sense of throbbing in her heart.

Half a month later, Lu Changsheng arrived at the Myriad Beasts Mountain Range, Qingxuan Mountain.

Seeing that everything was fine here, Lu Changsheng didn't say much, just suggested they be more vigilant and communicate with the family at the first sign of trouble.

He then proceeded to Azure Phoenix Immortal City to see his son Lu Qingxuan.

The latter, although having heard about the Vast Sand Illusion Realm matter, knew what to ask and what not to ask, so he simply inquired about the general situation with Azure Phoenix True Monarch and mentioned what needed attention next.

"Handle everything as you see fit; although the Azure Phoenix True Monarch has departed, her influence remains, and Heavenly Sword Sect won't act against Azure Phoenix Immortal City anytime soon."

Lu Changsheng wasn't entirely clear on Heavenly Sword Sect's specific stance towards Azure Phoenix Immortal City.

But based on his judgment, at least without confirmation about Azure Phoenix True Monarch's condition, Heavenly Sword Sect would maintain a friendly attitude.

"I understand, Father."

Lu Qingxuan nodded, aware that his guess aligned with his father's advice.

"Regarding Azure Phoenix True Monarch's divination legacy, I spoke with her before; it's not that she refuses to teach you, but rather her legacy is not suitable for you to learn, so consider it more as a hobby, and do not become too absorbed in it."

As for his son's interest in divination, Lu Changsheng was vaguely aware from years prior.

But after acquiring the Second Rank Divination legacy, Lu Changsheng knew that advancing this skill takes an enormous amount of time, effort, and life span.

Only those exceptionally gifted should pursue deep cultivation.

Although his son has a talent for divination, it's merely average, and delving too deep would only delay his own progress, ultimately wasting his potential.

"Father, I understand."

Lu Qingxuan nodded earnestly.

In fact, without needing his father to elaborate, over the years of study and interaction, he gradually realized he found it difficult to ascend to Third Rank Divination Master.

That is, unless he breaks through Core Formation, then painstakingly spends time, effort, and life span to slowly advance divination to Third Rank.

Yet, if he did so, his lifespan and potential would surely be impacted, diminished.

"Alright."

Lu Changsheng nodded slightly.

This son of his, with his character, required no lengthy discourse, just a mention sufficed.

After expressing some concerns and guidance on Lu Qingxuan's cultivation, Lu Changsheng quietly departed to find Chu Qingyi.

...

Upon seeing the intelligence on [Vast Sand Illusion Realm], Chu Qingyi became concerned about Lu Changsheng.

Though she knew from her junior sister and the situation in Great Dream Immortal City that Lu Changsheng was okay.

Yet, never seeing him, nor did Lu Changsheng come to see her, she couldn't help but feel worried and concerned.

Now reunited, this usually distant and aloof Sword Immortal Child exhibited a demeanor both outwardly cold but inwardly warm.

In response, Lu Changsheng's heart softened, accompanying her and sharing warmth.

After over half a month, they reluctantly parted ways.

"Surely, beauty erodes one's willpower."

Lu Changsheng took a deep breath, feeling daily indulgence in tender affection indeed hindered proper affairs.

"Let's go, Golden Peng!"

With a thought, Lu Changsheng released the Golden-Winged Heavenly Peng from the Qiankun Shadow-Confining Belt, suggesting it to be his mode of transport.

Previously, he didn't use it partly because Golden Peng required proper rest.

Additionally, Azure Phoenix True Monarch mentioned that numerous forces would focus on Jiang Country during this time, so within Jiang's borders, he refrained from using the Golden-Winged Heavenly Peng.

But traveling from Jiang Country to Jin Kingdom meant a long journey, relying solely on himself would excessively consume time and effort, necessitating the Golden-Winged Heavenly Peng for transportation.

"Screech!"

Having matured to Third Rank Top Level with the remnants of Nascent Soul Origin, the Golden-Winged Heavenly Peng amassed abundant energy, its feathers vividly golden and remarkably vibrant, swiftly transformed into a golden beam of light, piercing layers of void, flying fast towards Jin Kingdom.

...

A month later, Golden-Winged Heavenly Peng arrived at the edge of the Myriad Beasts Mountain Range in Jin Kingdom.

For prudence, Lu Changsheng chose not to continue using Golden Peng for transport, instead, deploying the Inverted Yin Yang Glaze and flying towards the direction of the Five Poisons Cult.

When he was a hundred miles from the Five Poisons Cult, he activated Ayoudo's Sensing Talisman.

An hour later, ripples fluctuated across the void, and several poison insects appeared.

Following that, a young girl with a meticulous and dignified appearance, wearing a Silver Crown Hairpin, dressed in a purple-red regal skirt, walked out barefoot.

### **Chapter 2109: Chapter 697: Farewell, Ayoudo! (3)**

"Master."

The Five Poisons Cult Leader cupped her hands in a bow towards Lu Changsheng, her eyes, aged yet authoritative beyond her years, carried a trace of awe.

Through the intelligence from the Vast Sand Illusion Realm, she had come to fully believe that Lu Changsheng was the ruler of the Central State Dynasty, a reincarnated Deity of Transformation.

Hence, any skepticism or arrogance she had before had completely dissipated, and she straightened her mindset.

"Ayoudo, has my business in the Vast Sand Illusion Realm affected your Five Poisons Cult?"

Lu Changsheng asked, knowing that the other must have received information about his achievements in the Vast Sand Illusion Realm.

If not, Ayoudo's earlier gaze towards him couldn't have carried that inexplicable respect.

"A few Nascent Soul Cultivators came visiting, subtly probing about my situation and yours, Master, but it was only a few questions, and did not cause any real impact."

The Five Poisons Cult Leader spoke up.

After all, she herself was a Nascent Soul True Lord.

Other Nascent Soul Cultivators, even if they heard about her association with Yangming True Master, wouldn't dare to confront her and demand answers.

Besides, the rumors about her and Yangming True Master were spread by Ming Sha True Monarch.

Whether it was true, their exact relationship was still uncertain.

No one would offend a Nascent Soul Cultivator over such trivial matters.

Moreover, she had been in the sect these days; even with two or three Nascent Soul Cultivators visiting, she remained unafraid.

"That's good."

Lu Changsheng nodded slightly, not wanting the other to be heavily affected by his affairs.

"But you must be careful, Master. According to the intelligence I've gathered, some forces are secretly fanning the flames, deliberately publicizing the situation between you and Azure Phoenix True Monarch..."

"This might draw the attention of some major forces, and Nascent Soul Middle Stage Cultivators to you both."

The Five Poisons Cult Leader continued.

With the combat prowess Lu Changsheng and Azure Phoenix True Monarch displayed in the Vast Sand Illusion Realm, ordinary Nascent Soul Cultivators were simply no match for them.

Unless multiple Nascent Soul Cultivators set a trap for an ambush.

But such a possibility was unlikely; it was more likely to attract the attention of some Nascent Soul Middle Stage elders to investigate their situation.

"Publicizing the situation between me and Azure Phoenix True Monarch..."

Lu Changsheng's eyes narrowed slightly; he was genuinely unaware of this matter, so he asked, "Do you know which forces are behind this?"

"No idea. It might be Beast God Mountain secretly fanning the flames, but just one Beast God Mountain shouldn't have such vast influence..."

The Five Poisons Cult Leader shook her head, then asked, "Master, is there any particular reason for your visit?"

"Yes, I came here partly to bring Mili back, and partly to ask if you have any source for [Infant Transformation Elixir], and is there any unowned Fourth Rank Spiritual Land."

Lu Changsheng nodded in response.

The breakthrough to Nascent Soul is quite a big affair, especially since he planned to break through to the Heavenly Nascent Soul.

Under such circumstances, it's best to break through using an unowned Spirit Vein.

As for borrowing the Spiritual Land of the Five Poisons Cult to break through...

Even from previous observations, this place wasn't suitable for him. If he dared to break through, Ming Sha True Monarch would definitely come to disturb and affect him at the first opportunity.

Moreover, Lu Changsheng reckoned that even the Heavenly Sword Sect wouldn't want to see Yangming True Master break through to Nascent Soul!

Let alone attempting to break through to the Heavenly Nascent Soul!

"Infant Transformation Elixir!? Unowned Fourth Rank Spiritual Land?"

Ayoudo was surprised, thinking to herself that perhaps her master was preparing to break through to Nascent Soul?

But judging by his capabilities, breaking through to Nascent Soul should be a breeze, right?

"Master, unless obtained through a Secret Realm or Ancient Relic Site, in normal cases, Jin Kingdom doesn't even have any Infant Transformation Elixirs available."

"To obtain Infant Transformation Elixir, one has to attend a Nascent Soul trade fair held by several top-level forces, where there might be a chance to exchange for the materials, and then commission someone to refine it."

Ayoudo replied somewhat helplessly.

The scarcity of Nascent Soul Cultivators is closely related to the rarity of Infant Transformation Elixirs.

Like the Coagulation Crystal Elixir, many forces can produce it steadily.

But the Infant Transformation Elixir, not to mention the difficulty in refining, just the cultivation of the medicinal herbs takes at least a thousand years.

Under such circumstances, besides top tiers of Nascent Soul forces, it's practically impossible for an ordinary Nascent Soul force to obtain an Infant Transformation Elixir. They can only slowly accumulate.

For her own break through to Nascent Soul, she did it without an Infant Transformation Elixir, relying on the Nascent Soul Secret Technique and several Nascent Soul Spiritual Objects instead.

"As for unowned Fourth Rank Spiritual Land..."

Ayoudo shook her head, saying: "Once a Fourth Rank Spiritual Land is discovered, it typically has an owner. There's basically no such thing as an unowned Fourth Rank Spiritual Land."

"If you, Master, aim to break through to Nascent Soul, it's best to stay clear of the Southern Wilderness Northern Domain region. Currently, many forces are focusing on you and Azure Phoenix True Monarch. As soon as you attempt a breakthrough, the leakage of magic power mechanism might cause trouble to arise."

For a moment, Ayoudo found it troublesome to locate a site for breaking through to Nascent Soul.

If not for the Vast Sand Illusion Realm incident, the other could have easily attempted a breakthrough in the Five Poisons Cult.

But since he's aiming to break through to the so-called Great Dao Nascent Soul, which will cause disturbances far beyond the Human Dao or Earth Dao Nascent Souls, it will likely attract the attention of many forces, some may come to interfere... posing a certain danger.

"As expected..."

Lu Changsheng was mentally prepared for this. He pondered slightly and said, "Let's head to your Five Poisons Cult first."

"Alright."

Ayoudo agreed, indicating that many forces are currently focusing on Yangming True Master, so it's best to avoid openly appearing in the Five Poisons Cult to avoid unnecessary trouble.

Then she grasped Lu Changsheng's palm, using the Array Plate, they broke through the Great Void directly into the depths of the Five Poisons Cult.

"Master, our Five Poisons Cult has a [Nursing Infant Gu] currently being nurtured. It would take about a hundred eighty years to mature. If needed, I can accelerate its cultivation through a Secret Technique, allowing it to mature in somewhere within fifty years, at which point it might increase the odds of a Nascent Soul by ten percent."

The Five Poisons Cult, being a Nascent Soul force, although lacking an [Infant Transformation Elixir], still possesses some unique Secret Techniques for increasing the probability of achieving Nascent Soul.

Such as this [Nursing Infant Gu], modeled after the effects of the Infant Transformation Elixir.

It can aid Core Formation Cultivators in enhancing Essence, Qi, and Spirit, nurturing a Nascent Soul fetus, and stabilizing the Nascent Soul Origin!

"Nursing Infant Gu?"

Lu Changsheng raised an eyebrow, aware that the Five Poisons Cult's Gu Dao could utilize Gu Insects as Techniques, Magical Treasures, or even Elixir Medicines.

To be able to increase the chances of achieving Nascent Soul by ten percent speaks to the rarity of this [Nursing Infant Gu].

But even with accelerated cultivation through a Secret Technique, it still takes fifty years to mature, which is undeniably slow.

With his experience in Foundation Establishment and Core Formation, Lu Changsheng knew that unless it was the most top-notch Superior Spiritual Object, it would be of little use to him, perhaps even a hindrance, in achieving Nascent Soul.

"No need, I was just inquiring."

Lu Changsheng said with a smile, not pushing the matter further. He accompanied Ayoudo to the hall, inquiring about her comprehension of the "Myriad Calamities Poison Spirit Secret Scripture" and whether she had any confusion, to which he offered guidance and instruction.

## **Capítulo 2110: Chapter 698: Return to the Myriad Demon Abyss, the Might of the Soul-calling Beast!**

A few days later.

Five Poisons Cult, Five Saints Hall, Sect Hierarch's sleeping quarters, in complete disarray.

Exquisite and luxurious furniture toppled over, the teacups on the table spilled to the ground, tea pooling into small puddles, reflecting a shimmering hazy glow.

The central position's purple sandalwood table and chairs cracked, one table leg slightly bent, as if having endured some fierce collision and attack.

The purple jade bed, where the Five Poisons Cult Leader usually rests, now lay in disorder, full of wrinkles like a crumpled scroll.

The cloud-like orderly curtains seemed to be swept by a wild storm, loosely hanging, with a few strands of sheer fabric weakly draped over the bed's edge.

The draped canopy, usually languid and low, was torn into strips, mingled with the elegant and refined purple-red skirt dropping to the ground, emitting a lingering fragrance.

Not far from there, a shimmering silver headpiece, along with several pairs of wrinkled silk socks scattered on the ground, various styles of high heels, embroidered shoes, adding a hint of evocative and mesmerizing colors to the whole sleeping quarters.

“Swish——”

At this moment, a faint sound of spring water echoed from the side hall of the sleeping quarters.

Nangong Mili gradually awakened, her beautiful eyes hazy and blurry, gazing at Lu Changsheng in the pool with their Sect Leader...

Thinking to herself, only their Sect Leader, a Nascent Soul True Lord, could withstand Lu Changsheng's astonishing physique.

In the past, she believed that she, Little Chan, and Lu Changsheng had reached their limits, yet she realized her late Core Formation cultivation level was so unworthy under his lashing...

Watching her Sect Leader's flushed cheeks, glowing red skin with fine beads of sweat, Nangong Mili's heart couldn't help but stir.

Although she had seen her Sect Leader in such a state before, she had never seen her so helpless and vulnerable.

Watching their usually high and mighty Sect Leader, Nascent Soul True Lord, now involuntarily moaning under Lu Changsheng's lashing, showing the most primitive beauty, truly...

But after all, it was their Sect Leader, the accumulated dignity over the years wouldn't dissipate so quickly.

Nangong Mili just watched quietly, eyes hazy, with waves flowing.

It's unclear how much time passed, the sixteen or seventeen-year-old Five Poisons Cult Leader collapsed weakly in the pool, her delicate hand caressing her slightly bulging abdomen, beautiful eyes intoxicated and rolling back, then directly fell asleep, body encircled by five-colored radiance, gradually returning to her usual appearance.

"Huff!"

Lu Changsheng breathed a refreshed sigh, without any fatigue, only feeling spirited.

Ever since advancing to Fourth Rank Physique.

No, should say Quasi-Fourth Rank Physique, he hadn't been so thoroughly satisfied for a long time.

Previously, just with Hong Lian, Nangong Mili and her disciple, he could slightly indulge.

But as Physique advanced to Fourth Rank, and physical strength improved another level, he needed to restrain his power again.

These days, facing the Five Poisons Cult's Sect Leader, a Nascent Soul True Lord, he finally didn't hold back.

Though gazing at the pool, where the delicate body of the Five Poisons Cult Leader lay weak and enveloped by five-colored radiance, his heart surged with a strong sense of guilt.

He indeed was not tender enough to Ayoudo.

Even though she is a Nascent Soul Cultivator, she hadn't refined her body, and physically she was just ordinary.

He immediately reached out to lift the small body of the Five Poisons Cult Leader from the pool, walked out of the water, and looked at Nangong Mili not far away.

"You... you made the Sect Leader faint."

Nangong Mili's voice carried a few breaths, surprised, and said softly and charmingly.

Though she had experienced exhaustion, their Sect Leader was a Nascent Soul True Lord.

Even a Nascent Soul Cultivator fainted under Lu Changsheng's lashing, this, this, this...

"Doesn't Mili want to be like the Sect Leader?"

Lu Changsheng smiled and said.

"No... I don't want to....."

Though such a thing is truly blissful, she was still soft and aching from just awakening.

Nangong Mili's response was as Lu Changsheng expected, he chuckled lightly, picked up her tender feet not wearing shoes or socks.

The ten crystal toes were like white jade grapes, perfectly enticing.

The nails painted with saffron juice complemented her snowy jade skin, revealing a silent allure.

"Mmm~" Nangong Mili's elongated phoenix eyes glanced at Lu Changsheng, her voice somewhat cheerful as she hummed, then her beautiful eyes slightly squinted, sometimes frowning, sometimes toes curling, her snowy toes and plump thighs slightly trembling.

Knowing that Nangong Mili's body hadn't recovered yet, Lu Changsheng did not continue, just tenderly held her for a moment, then took her and Ayoudo back to the sleeping quarters.

Looking at the chaotic state of the quarters, Lu Changsheng shook his head slightly.

Thinking this was just Fourth Rank Physique.

If two Fifth Rank Body Refining Cultivators practiced Dual Cultivation, how astonishing would the commotion be?

“Would it be under the sky as a quilt, the earth as a bed, the mountains and forests as the curtain?”

Lu Changsheng imagined the upheaval when two Body Refining Cultivators practiced Dual Cultivation, couldn't help but laugh, then rested with the two ladies.

...

Although Ayoudo had fainted, she woke up after resting for an hour.

After opening her eyes, she looked at Lu Changsheng with a bit of a reproachful tone.

After all, this strenuous indulgence, even for her as a Nascent Soul True Lord, was hard to bear.

However, after several days of Dual Cultivation, she realized Lu Changsheng's physique further advanced and broke through.

Seeing the state of the Five Poisons Cult Leader at that moment, Lu Changsheng felt even more guilty, immediately discarding unrelated thoughts, asked about the business: "Ayoudo, what's the current situation of Yiming Ghost Sect?"

Ayoudo's tender skin, delicate and smooth enough to blow apart, still showed a faint red glow, her voice weak and powerless, "Ming Sha has been hiding in the sect ever since returning from Vast Sand Illusion Realm, I don't know the specifics."

## **Starting as a Son-in-law to Establish an immortal Family #Chapter 2111 - 698: Return to Myriad Demon Abyss, the Might of the Soul-calling Beast! - Read Starting as a Son- in-law to Establish an immortal Family Chapter 2111 - 698: Return to Myriad Demon Abyss, the Might of the Soul-calling Beast!**

**Chapter 2111: Chapter 698: Return to Myriad Demon Abyss, the Might of the Soul-calling Beast!**

In the early years, the three great Demonic Sects of the Jin Kingdom almost shared intelligence and provided mutual support.

But ever since the Ming Sha True Monarch aligned with Beast God Mountain and broke through to Nascent Soul, the relationship between the three began to have fractures.

Then, after leaving the Myriad Demon Abyss with Lu Changsheng and jointly resisting the Ming Sha True Monarch, the two sects cut off contact, and even a vague hostility emerged.

Lu Changsheng nodded slightly and continued to ask, "What about the Heavenly Corpse Sect? What is their stance?"

The three great Demonic Sects of the Jin Kingdom could maintain balance due to their early alliance and mutual support, forming a sort of mutual constraint as well.

Without absolute strength, no one wanted a single sect to dominate.

"Yan Wujang's Fourth Rank Corpse King was taken by the Heavenly Sword Sect, severely damaging their Primordial Energy. Unless they spend a great deal of resources to cultivate another Fourth Rank Corpse King, they won't make any moves in the short term. Hence, they have kept a low profile over the years without much activity."

Ayoudo curled her pale little feet slightly, speaking weakly.

"...."

Lu Changsheng raised an eyebrow, suddenly realizing that among the three great Demonic Sects in the Jin Kingdom, the state of Ming Sha was the best among the three Nascent Soul True Lords.

Ayoudo's Seven Extremes Gu was in his hands, and as she prepared to switch to cultivating the "Myriad Calamities Poison Spirit Secret Scripture," her power status was affected.

The Lifebound Corpse King of the Heavenly Corpse Sect Master was forcibly left behind by him and the Heavenly Sword Sect during a pioneering war back then.

Only the Ming Sha True Monarch remained, still holding the Supreme Treasure [Myriad Ghosts Blood Pool], making him a standout among his peers.

Thinking of the Fourth Rank Corpse King of the Heavenly Corpse Sect Master, Lu Changsheng felt a bit regretful.

Tihun feeds on essence, ghosts, and corpse demons.

If it could consume a Fourth Rank Corpse King, it wouldn't advance to the Fourth Rank, at the very least, it could grow to Third Rank Top Level.

But the Fourth Rank Corpse King fell into the hands of the Heavenly Sword Sect. Even though Great Dream Immortal City maintained a superficial relationship with the Heavenly Sword Sect, he couldn't trade for it.

Even proposing a trade for the Fourth Rank Corpse King could raise suspicion from the Heavenly Sword Sect, leading them to change their attitude and suspect him of involvement with the Demon Path or Jin Kingdom.

At this moment, Lu Changsheng seemingly thought of something and asked the Five Poisons Cult Leader in front of him, "Ayoudo, you previously mentioned that the Gu God Bowl was lost in the Myriad Demon Abyss. If you could retrieve this bowl, how much would it boost your power?"

Previously, Ayoudo had used the [Gu God Bowl] as a pretext to lure him into the Myriad Demon Abyss.

After subduing the latter, if it weren't for his son Lu Ping'an's unexpected incident, he had intended to help her find the Supreme Treasure of the Five Poisons Cult.

Thinking of the Tihun Beast on him, Lu Changsheng felt he could make another trip to the Myriad Demon Abyss.

The Tihun Beast could capture souls and eat ghosts, restraining various ghosts and corpses and also evolve by absorbing souls, ghostly essence, and corpse ghost evil energy.

And within the Myriad Demon Abyss, there were numerous Yin souls and ghosts, as well as demonized polluted demon beasts.

He could completely utilize the Myriad Demon Abyss to rapidly elevate the Tihun Beast's power to Third Rank Top Level, or even Quasi-Fourth Rank!

Moreover, although the demon beasts of the Myriad Demon Abyss were polluted and demonized, their lack of spiritual intelligence made them easier to hunt.

With his current combat capacity, plus the Golden-Winged Heavenly Peng, Tihun Beast, and Ayoudo, they could slay Fourth Rank demonized demon beasts, acquiring a wave of Heavenly and Earthly Treasures to prepare for cultivating [Brahman Demon True Body].

After all, after this trip home, he planned to refine his cultivation, further elevate his power, and then visit the Starry Sky Sea to see his son Lu Quanzhen, check the Spirit Land, and the situation with the Infant Transformation Elixir.

The most apparent way to enhance his strength at present was the Brahman Demon True Body.

Previously, he had only achieved a Small Achievement, yet holding the Great Luo Sword Embryo, he was able to contend with Nascent Soul cultivators.

If he attained Great Success in cultivation, condensing the meridians, bones, and flesh of the Brahman Demon True Body, it would reach a terrifying level!

The [Xuan Huang Essence] he had gained from a draw in his early years was always reserved for condensing the Brahman Demon True Body.

But over the years, except for the three strands of essence used to sacrifice and refine [Yin Yang Qi Grasp], the rest had been collecting dust, never finding the time to use it.

"If we retrieve that bowl..."

Ayoudo, upon hearing this, showed a gleeful smile, then thought slightly, "Master, according to the records, this bowl primarily functions to cultivate Gu Insects, rather than merely enhancing combat capability."

"If we retrieve the Gu God Bowl, we could attempt to cultivate several unique Gu Insects recorded in the sect."

"For instance, the [Nursing Infant Gu], under normal circumstances, even if I spend massive amounts of Heavenly and Earthly Treasures and use Secret Techniques to accelerate growth, it would take at least several decades to mature. With the Gu God Bowl, it might cut the growth time in half."

Ayoudo explained the effects of the [Gu God Bowl] to Lu Changsheng.

"I see."

Lu Changsheng nodded slightly, recognizing this Gu God Bowl akin to his own [Myriad Spirits Bottle], more oriented towards aiding cultivation.

However, such a Supreme Treasure in the hands of a Gu Poison cultivator like Ayoudo could likely surpass the efficacy of the Myriad Spirits Bottle.

"If you're currently unoccupied, I can accompany you for a trip to the Myriad Demon Abyss and see if I can retrieve this treasure."

Lu Changsheng spoke directly.

Since Ayoudo had already submitted to him, he would naturally afford her some benefits.

Besides, the enhancement of Ayoudo's powers was also beneficial for him.

Once he breaks through to Nascent Soul, he could employ Ayoudo to annihilate the Yiming Ghost Sect, subdue the Heavenly Corpse Sect, and turn Jin Kingdom into a natural frontline for Jiang Country.

"Thank you, Master."

Ayoudo's face gleamed with joy.

If she could retrieve the Gu God Bowl, she could not only cultivate several top-level Gu Insects and enhance her power, but the entire strength of the Five Poisons Cult would also ascend a level!

"Are you able to go out now?"

Lu Changsheng inquired.

Due to his influence, the Five Poisons Cult was now under the scrutiny of many forces, and he didn't want potential trouble upon venturing out with Ayoudo.

"Rest assured, Master, there's nothing pressing within the sect right now."

Nascent Soul cultivators often undergo closed-door cultivation for several years, or even decades.

Chapter 2112 - 698: Entering the Myriad Demon Abyss  
Again, the Might of the Soul-calling Beast!**

**Chapter 2112: Chapter 698: Entering the Myriad Demon Abyss Again, the Might of the Soul-calling Beast!**

She has not appeared for a few years, but it will not affect the sect's operation.

"Luckily, Mili is also here; if there's anything concerning the sect, you can let Mili handle it."

Lu Changsheng nodded and said, knowing that someone like Ayoudo, a Nascent Soul Cultivator, generally does not concern herself with sect matters.

With Nangong Mili's True Elixir advanced to superior grade, and having broken through to Core Formation Late Stage, she is capable of managing the Great Formation, enough to oversee the Five Poisons Cult.

"Yes, Master."

Ayoudo glanced at the distant figure, sultry and alluring, of Nangong Mili, who had woken up but had not yet spoken, understanding Lu Changsheng's intention.

Currently, within the entire Five Poisons Cult, the latter trusts Nangong Mili the most, hoping she will also treat them as genuine confidants and nurture them wholeheartedly.

....

A month later.

Lu Changsheng and Ayoudo silently arrived outside the Myriad Demon Abyss.

With their combined strength, though not worried about being noticed by other cultivators, they are still very cautious, striving to conceal their magic power mechanism.

Upon entering the grayish foggy, black mist-surrounded, ghostly crying Myriad Demon Abyss, seeing no other cultivators around, Lu Changsheng glanced at the erratic ghosts within the Yin Wind, his hand brushing over the Qiankun Shadow-Confining Belt.

Instantly, a small beast about a few inches in size appeared, its golden fur dazzling throughout, with a strikingly large nose, its eyes dark and bright like a macaque.

Tihun, looking at the Yin Wind and Ghost Fog ahead, chirped excitedly, and suddenly a light yellow radiance erupted from its huge nostrils, sweeping away all Yin Wind and Ghost Fog in front, drawing them into its nostrils and stomach.

"What's this..."

The Five Poisons Cult Leader looked at the Soul-calling Beast, her expression slightly surprised.

Though these are merely low-level ghosts, she could easily annihilate them with a wave of her hand.

Yet the aura on the Soul-calling Beast and the radiance just emitted from its nostrils made her inexplicably tremble, realizing the Soul-calling Beast before them is not ordinary!

"Not bad."

Lu Changsheng watched this scene, his expression calm; he also wanted to take this opportunity to observe the combat power of the Soul-calling Beast.

He gently raised his hand, placing the Soul-calling Beast on his shoulder, then proceeded deeper into the Myriad Demon Abyss with Ayoudo.

Any Yin Wind Ghost Fog encountered along the way, or any Yin Souls or evil ghosts appear, Tihun would snort forcefully, and a light yellow radiance would burst from its nostrils, sweeping and capturing them into its stomach.

Even a Third Rank Ghost King faces the Soul-calling Beast with no resistance.

As for Demonized Demon Beasts, the Soul-calling Beast cannot simply devour them directly with divine skills, but can only suppress them using the Soul Capturing Divine Light.

"Unless it transforms into battle mode, normally, the Soul-calling Beast is better at restraining Essence Ghost Kings."

Lu Changsheng knows when facing Demonized Demon Beasts, Corpse King and other Demonic Path Cultivators, the Soul-calling Beast must enter battle mode to transform into a true nemesis of evil and a Punishment Beast.

Yet for him now, the current state of the Soul-calling Beast is more than enough.

Yin Souls and fiendish ghosts are directly devoured as food by the Soul-calling Beast; Demonized Fierce Beasts and Corpse Demons are suppressed by the Soul-calling Beast while he easily slays them with a sword.

In the eyes of others, the perilous Myriad Demon Abyss turns into a resource-rich haven for Lu Changsheng.

Even the Five Poisons Cult Leader, seeing this scene, is astonished, and inwardly marvels.

After all, when Nascent Soul Cultivators enter the Myriad Demon Abyss, they avoid exerting themselves to conserve mana and physical strength.

But Lu Changsheng's shoulder-mounted Soul-calling Beast, absorbing souls and devouring ghosts, treats the ghosts of Myriad Demon Abyss as food, showing no fear in consumption, even growing stronger—it's simply unbeatable.

"Aside from the previous Golden Peng Bird, Master actually possesses such a spiritual pet, moreover with this Mysterious Light suppressing Demonic Path naturally...."

Even the experienced Five Poisons Cult Leader does not recognize the Soul-calling Beast.

She only discerns its divine skill possesses certain restraint against Demonic Path Cultivators.

"Master brings this spiritual pet to the Jin Kingdom, perhaps planning trouble for the Yiming Ghost Sect?"

Ayoudo ponders and speculates.

She can tell this small beast restrains the Demonic Path, but is more effective against the form-less Yin Soul Ghost King.

Such that a Third Rank Ghost King stands no chance before the Soul-calling Beast.

Should the Yiming Ghost Sect encounter this spiritual beast, they might be half crippled.

And so, Lu Changsheng and Ayoudo sweep through the Myriad Demon Abyss.

While the Soul-calling Beast cannot completely restrain Demonized Demon Beasts, it is highly sensitive to the aura of evil demons and demon paths.

Through its sense of smell, it can vaguely detect nearby Ghost Kings and Demonized Fierce Beasts.

When Ghost Kings or Demonized Demon Beasts approach, it can also alert immediately.

"Third Rank Top Level Yin Evil Demon Vine, pretty good; it can be used to refine a whip-like Magical Treasure or as the primary ingredient for refining Demon Evil Pills...."

The Myriad Demon Abyss, filled with Demonic Qi, Evil Qi, Ghost Energy, and Turbid Energy, is desolate with barely any Spiritual Medicine.

Despite such conditions, some rare Heaven and Earth Spiritual Materials are still born here.

"Roar!!!"

After a long while, Lu Changsheng and Ayoudo arrive on the territory of a Fourth Rank Demonized Fierce Beast.

Previously when they came to the Myriad Demon Abyss, encountering Fourth Rank Demonized Fierce Beasts, they would avoid if possible, or retreat otherwise, never engaging directly.

However, this time, besides helping Ayoudo find the [Gu God Bowl], the goal is to hunt Fourth Rank Demonized Fierce Beasts!

Feeling the fierce aura of the demon heading towards them with roars and rushing in, Lu Changsheng remains fearless, the Fourth Rank Physique begins to awaken.

The mighty and vast Qi-Blood erupts like a Primeval Volcano, spreading widely, shattering the black fog everywhere, sweeping dozens of miles around.

Many Yin Souls and fiendish ghosts screech, instantly dissipating into ashes.

"This aura, Master has indeed broken through to the Fourth Rank Body Refining!"

Ayoudo previously suspected Lu Changsheng's strength increased, especially in body refinement.

Seeing Lu Changsheng's aura fully unleashed, she confirms instantly, her heart filled with shock.

After all, Lu Changsheng does not primarily cultivate body refinement, lacking the divine skills true body cultivators possess.

To break through the Fourth Rank is akin to Nascent Soul Cultivators facing Heavenly Tribulation.

Yet overcoming such tribulation with this physique and physical body is indeed very challenging!

"However, with master's might, the Fourth Rank Body Refining Heavenly Tribulation seems not a difficult task..."

Recalling Lu Changsheng's feat in the Vast Sand Illusion Realm, Ayoudo reckons the Fourth Rank Body Refining is hardly surprising.

Ultimately, compared to prioritizing the Fourth Rank Body Refining, reversing Core Formation to fight Nascent Soul True Lords is more intimidating.

Seeing a hundred-zhang long Double-headed Demonized Lizard braying towards them, leading endless flying sand and rocks with foul winds and stench, the Five Poisons Cult Leader promptly casts her Lifebound Spiritual Treasure [Five Poison Banner].

The long banner flapping, with its multicolored, lifelike Spirit Snake, Poison Scorpions, Centipede, Spider, and Toad appear to come alive, causing the surrounding poisonous fog to manifest.

"Shriek! Chirp chirp chirp!!!"

The Golden-Winged Heavenly Peng and Soul-calling Beast simultaneously gaze towards the charging Double-headed Demonized Lizard, brimming with battle intent.

### **Chapter 2113: Chapter 699: Slaying the Tier 4 Fierce Beast! Tihun Transformation!**

"Roar!!!"

The Double-headed Demonized Lizard saw Lu Changsheng, surrounded by the Five Poisons Cult Leader's Qi mechanism, and instead of feeling any fear, it perceived it as a provocation and let out an angry low growl and roar.

The sweeping sand and rocks filled the sky, resembling a sandstorm, accompanied by an ink-black poisonous miasma spreading out.

Lu Changsheng chose this Fourth Rank Demonized Lizard because its attributes were earth and poison, making it relatively clumsy, and its poison was restrained by himself and the Five Poisons Cult Leader.

So, facing the attacking Double-headed Lizard, Lu Changsheng wielded the Great Luo Sword Embryo directly, unleashing a brilliant sword light towards it.

"Clang!!!"

Having broken through to Fourth Rank Body Refinement, Lu Changsheng's physical body's Qi-blood could further activate this Innate Sword Embryo.

The brilliant sword light illuminated the heavens and earth, complementing Lu Changsheng's powerful physique akin to a Fourth Rank Demon King, cleaving onto the Double-headed Lizard's claws, causing sparks to fly and blood to spatter, leaving a foot-long wound.

The Golden-winged Heavenly Peng and Soul-calling Beast, although only Third Rank Demon Beasts, possessed True Spirit Bloodlines, and faced the Fourth Rank Double-headed Demonized Lizard with no fear.

The Soul-calling Beast snorted forcefully with its nose, and a light yellow Soul Capturing Radiance erupted out, pressing down on the Double-headed Lizard like a mountain.

The Golden-winged Heavenly Peng charged straight up.

Its wings were like two golden, radiant blades, shimmering with a cold and sharp edge, similar to claws forged from Immortal Gold, slashing across the Demonized Lizard's back, leaving a bloody trail.

Though not as severing as the Great Luo Sword Embryo nearly cutting off the Demonized Lizard's claw, it still broke through the defense and injured the flesh.

"Roar!!!"

The Double-headed Demonized Lizard sensed a dangerous Qi mechanism, low growled and roared, its aura surged, the scales on its body trembled, and a layer of earth-yellow light membrane surged, its enormous body suddenly expanded.

"Boom boom boom!!!"

The terrifying, vast aura swept across like raging waves, and terrifying stone spikes emerged from the ground, aiming to impale Lu Changsheng, Golden-winged Heavenly Peng, and Ayoudo.

But they were all prepared, how could they be easily caught? Lu Changsheng's Fourth Rank Physique and Chaos Body kept roaring.

The Nine Treasures Ruyi Bone instinctively operated, transforming into a vast, majestic force, intertwining the Qi and Blood Magical Power, the Great Luo Sword Embryo in his hand bursting with rushing sword light.

In the next moment, the heaven-rending sound of the sword echoed.

The earth-yellow light membrane of the Double-headed Demonized Lizard was broken by the Great Luo Sword Embryo.

A huge Demon Claw was severed by Lu Changsheng, black Demon Blood splattering on the ground, forming erosion and decay.

The Five Poisons Cult Leader immediately seized this opportunity, exerting Divine Ability Secret Skill, using the Gu Insect's poison to erode and affect the Double-headed Demonized Lizard.

After all, this Demonized Lizard possessed poison attributes, she didn't fear it, but ordinary poison was difficult to affect it.

"Roar roar roar!!!"

The Double-headed Lizard roared in pain, aware of the danger, and started going berserk.

Yet, the Soul-calling Beast's Soul Capturing Divine Light fell on it, making its scales and wounds constantly emit rolling black smoke, extremely painful, unable to approach the Five Poisons Cult Leader and Soul-calling Beast.

"Buzz!"

Its eyes, full of evil Qi, suddenly glimmered with earth-yellow luster, staring fixedly at the Soul-calling Beast, forming ripples.

In an instant, the wind swept through the world, countless flying sand and rocks aimed to engulf the Soul-calling, its body covered with a layer of earth-yellow crystals.

"Not good, this is the Petrification Divine Skill!"

The Third Rank Demon King would possess innate divine abilities, and the Double-headed Demonized Lizard as a Fourth Rank Fierce Beast naturally had innate divine skills.

Lu Changsheng wielded the Great Luo Sword Embryo fiercely, intending to disrupt its divine skills.

But the Double-headed Lizard's body was covered with layers of earth-yellow light membrane, even Lu Changsheng couldn't easily break it.

Not far away, the Soul-calling Beast "Chi chi chi" cried out and then let out a roar, its light golden fur glimmered with a ghostly light, black mist swirling around its form, breaking free from the body surface stones.

Immediately after, the Soul-calling Beast's small and nimble body elongated at a visible speed, the surrounding black mist resembling blurry ghost shadows, reaching out with claws.

"Roar!!!"

The Soul-calling Beast roared like a Demon Ape, its ghostly shadows trembling around, pouring into the black fur on its back, transforming into sinister, terrifying ghosts.

Its form increasingly menacing, its tail gradually turned blood-red, a curved horn emerged from its brow, thick and fearsome.

A rift suddenly appeared at its forehead center, revealing a blood-red demon eye, captivating.

In just a few breaths, the Soul-calling Beast drastically changed form, transforming from an adorable little creature into a terrifying, sinister demon ape enveloped in ghostly energy, exuding immense fierce power.

This was the Soul-calling Beast's combat form, the true Punishment Beast, the nemesis of evil demons!

"Roar!!!"

The Soul-calling Beast's eyes were icy, black as coal, black mist surging around it like waves, its horn glowing mysteriously, its eyes radiating blood-red divine light, charging towards the Double-headed Demonized Lizard.

At this time, the Double-headed Demonized Lizard, suppressed by Lu Changsheng and the Five Poisons Cult Leader, appeared disoriented.

"What kind of demon beast is this?"

Ayoudo observed the Soul-calling Beast with astonishment.

Previously, the Soul-calling Beast's Soul Capturing Divine Light capturing ghosts was impressive.

Now it could intimidate a Fourth Rank Fierce Beast, truly shocking.

"Buzz buzz buzz!!!"

The Soul-calling Beast's red divine light fell on the Double-headed Demonized Lizard, as if countless ghost shadows were biting, causing its body membrane to fade, 'ss ss ss' polluting demon flames rising.

Immediately after, a fist with some bone spurs punched onto the Double-headed Lizard's body, like a divine demon drumming, each punch causing a rumbling sound.

"A Punishment Beast, able to counter various ghosts and corpse demons, truly extraordinary."

### **Chapter 2114: Chapter 699: Slaying a Tier 4 Fierce Beast! Tihun's Transformation! (Part 2)**

Lu Changsheng, through his Taiyi Divine Soul and Fire Golden Eyes, perceived the black mist surrounding the Tihun Beast's exterior, which would help it dispel ghost energy and demonic qi.

Moreover, all its attacks would receive an extra boost against these demonized beasts, and its power, when striking the Two-headed Lizard, could even surpass that of the Golden-Winged Heavenly Peng, a Third Rank Top Level Demon King.

"This is still just against the demonized beasts; if facing real Demonic Path cultivators and Fourth Rank Ghost Kings, the Tihun Beast's combat power might rise another level."

Observing the situation before him, Lu Changsheng gained a general understanding of the Tihun Beast's circumstances.

If the latter grew to Third Rank Top Level, it might actually be able to bring down a Fourth Rank Ghost King!

He didn't think much; with the Tihun Beast sharing the pressure from the front, the Daluo Sword Light in his hand continuously slashed out, chopping off the scales of the Demonized Two-headed Lizard, causing demon blood to splatter.

Even though this Demonized Lizard lacked spiritual intelligence, it sensed the intense danger, wishing to struggle and flee.

But faced with the frontal assault from Lu Changsheng and the Tihun Beast, and Ayoudo's and the Golden-Winged Heavenly Peng's interception and restriction, it couldn't escape at all.

"Prevent its counterattack!"

Seeing the scarred, increasingly frantic Two-headed Lizard before him, Lu Changsheng reminded cautiously.

His years of experience in the Myriad Beasts Mountain Range, hunting Demon Kings in the Great Dream Marsh, endowed him with ample experience.

Understanding that the Demon King, more or less at this stage, would make a last-ditch counterattack upon nearing death.

This kind of Fourth Rank Fierce Beast, even if it couldn't kill one of them, might severely injure one of them in its death throes.

Lu Changsheng and Ayoudo still intended to explore the Abyss of Myriad Demons and didn't want to be injured by this Demonized Two-headed Lizard.

"Rest assured, my Lord."

With Lu Changsheng and the Tihun Beast's frontal attack, Ayoudo fought with ease, his lifebound Spiritual Treasure, the [Five Poison Banner], flapping loudly as five-poison miasma suffused the air.

Holding a whip-shaped magical treasure in hand, he continuously lashed out, interfering and restraining the Two-headed Lizard.

"Roar!"

After half a quarter-hour, the blood-red, frenzied-eyed Demonized Two-headed Lizard attempted to counterattack but had no chance, choosing to abandon its struggle, fully activating its divine skills as its entire body became shrouded in toxic mist, seeking to petrify itself.

Lu Changsheng realized this was similar to the Heavenly Silkworm True Monarch's cocooning divine skill.

Once it completed petrification and the Nirvana Seal, its defense would greatly increase, making it difficult to slay in a short period, requiring more qi-blood magical power.

In the Myriad Demon Abyss, filled with demonic qi, evil qi, ghost energy, and turbid energy, almost devoid of spiritual energy, one could only recover mana and stamina through elixirs and Spirit Stones, which was quite troublesome.

"Five Poisons, rise!"

As a Nascent Soul Cultivator, the Five Poisons Sect Leader was already prepared; upon seeing this, her delicate hand rapidly performed an incantation, and the five-colored long banner beside her fluttered.

In no time, the poisonous evil qi and gu insects she had previously infiltrated into the Two-headed Lizard's body raged wildly, disrupting its divine skills.

At the same time, Lu Changsheng's eyes sparkled brilliantly, and the Da Luo Sword Embryo in his hand slashed towards the lizard's nearly scaleless, blood-soaked neck.

"Crack, crack, crack!!!"

Flesh splattered, bones shattered.

Seeing this, the Tihun Beast directed its crimson divine light from its brow at full force on the neck.

"Puchi!"

A gruesome, fearsome lizard head was directly slashed off, with demon blood gushing out like a spring, causing the Demonized Two-headed Lizard to let out a heart-rending howl.

"Kill it again!"

Seeing this, Lu Changsheng, along with the Tihun Beast, seized this opening and swiftly slashed out another sword, aiming to cut off its other head.

Injured and essentially at its end, the Demonized Two-headed Flood Dragon couldn't resist, with yet another head being chopped off.

However, being a Fourth Rank Fierce Beast, even with both heads severed, it didn't die immediately, as its heads and body seemed instinctively to try to reattach.

But Lu Changsheng wouldn't give it the chance, as he unleashed the Yin Yang Qi Grasp, firmly binding the two heads.

Moments later, the Two-headed Demonized Lizard's mountainous body collapsed with a thunderous crash, its life completely extinguished.

"Phew, such a Fourth Rank Fierce Beast, even without brains, is really hard to kill."

Lu Changsheng looked at the Demonized Two-headed Lizard's body before him, exhaling a long breath of turbid air.

Earlier, he felt nothing when he annihilated the Void Kun using the [Sun and Moon Taiji Mysterious Light Mirror].

Now, relying on his own strength to slay this Demonized Two-headed Lizard, he profoundly realized how difficult it was to kill a Fourth Rank Demon King.

If there wasn't an arrangement for backup and multiple restrictions, if it tried to flee, he truly found it hard to stop it alone.

"Fourth Rank Fierce Beast..."

The Five Poisons Sect Leader looked at the demonized lizard before her, her young face expressing complex emotions, as she glanced between Lu Changsheng and the Tihun Beast.

In this battle, although she contributed, it was mainly Lu Changsheng and the Tihun Beast.

The combined combat power of one man and one beast was downright terrifying.

"Ayoudo, do you require any materials?"

Lu Changsheng never hoarded spoils for himself. Looking at the trophies in front of him, he turned to ask the Five Poisons Cult Leader.

As he spoke, a gourd appeared in his hand, beginning to extract the blood of the Double-headed Demonized Lizard.

Though the blood of this Double-headed Lizard was polluted and demonized, far less valuable than the Essence Blood of the Void Kun.

Yet for him, who cultivated the "Brahman Demon True Saint Technique," it was just right.

This was one of the reasons he came to hunt down Fourth Rank Demonized Beasts.

"This Double-headed Lizard should have two hearts. If the lord has no use for them, I could use the one with the toxic attribute for raising Gu Insects."

Ayoudo spoke up, neither refusing nor appearing greedy.

"Alright."

Lu Changsheng nodded and began dissecting the Demonized Double-headed Lizard before him.

The flesh couldn't possibly be all taken away, and it was quite troublesome, so he let the Golden-Winged Heavenly Peng and the Soul-calling Beast consume it.

However, the Nascent Soul Origin within the body of the Golden-Winged Heavenly Peng was not completely refined. It ate a few bites but stopped to avoid its demonized flesh contaminating itself.

The Soul-calling Beast, on the other hand, was unaffected, directly feasting on the Double-headed Lizard before it. A black mist like ghost energy surrounded it, directly absorbing the blood essence.

To this, Lu Changsheng paid no heed as he dug out the earthen-yellow Beast Pill of the Double-headed Demonized Lizard, which shimmered with a ghostly green light.

The entire Beast Pill was surrounded by rich demonic energy, evil qi, and turbid energy, enough to contaminate many demon beasts and cultivators.

The Soul-calling Beast couldn't help but look at this Beast Pill with a look of yearning.

Ordinary demon beasts dared not consume such a Beast Pill, as it could easily corrupt them. But to it, it was more suitable.

"You want it?"

Lu Changsheng raised an eyebrow and directly tossed the priceless Fourth Rank Beast Pill to it.

On this trip to the Myriad Demon Abyss, the Soul-calling Beast had already demonstrated its combat power and value.

So Lu Changsheng was also willing to nurture it properly, allowing it to quickly advance to Third Rank Top Level, and Fourth Rank!

"Roar roar roar!!!"

The black-faced, tusked, and terrifyingly fierce Soul-calling Beast roared low in excitement. It caught the Fourth Rank Beast Pill and inhaled sharply, drawing out its Origin Essence.

"Finish the rest first, don't waste it."

Lu Changsheng said to the Soul-calling Beast, expressing that it should not waste too much.

The Soul-calling Beast, upon hearing this, reluctantly eyed the Beast Pill in its hand and then continued to absorb the blood essence of the Double-headed Lizard.

After giving the toxic attribute heart of the Double-headed Lizard to Ayoudo, Lu Changsheng processed all the valuable materials like bones, tendons, eyeballs, and claws, took an elixir to recover, and then went with Ayoudo to find the nest of the Demonized Double-headed Lizard.

These demonized fierce beasts, although lacking in spiritual intelligence, have the instinct of demon beasts to collect some Heavenly and Earthly Treasures.

"You stay here and keep eating first."

Lu Changsheng said to the Soul-calling Beast, which was still feasting, hoping it would eat as much as possible.

...

Before long, Lu Changsheng and Ayoudo arrived at the nest of the Double-headed Demonized Lizard.

It was dark and deep here, with loose rocks scattered around like a demonic den.

"This is... Demon Soul Grass!"

Upon entering the nest, Lu Changsheng immediately saw strange weeds with several black grass leaves, neither scented nor glossy, and couldn't help but step forward to examine them closely.

It was a very rare Spirit Grass with benefits for nourishing the soul and enhancing Soul Power.

Of course, the side effects were also quite clear.

During the consumption and refinement, it would cause Heart Demon interference affecting the mental spirit.

But for Lu Changsheng, who cultivated the "Six Desires Heart Demon Technique" and had the Mount Sumeru Tree King at home, this side effect was equivalent to none.

"Although the Myriad Demon Abyss lacks rare Spiritual Materials, this kind of Fourth Rank Fierce Beast's nest would naturally have quite a few good things."

Lu Changsheng thought to himself as he collected the four Demon Soul Grass, placing them in a Brocade Box, planning to consume one himself when he returned to experience the effects.

Then, he would enhance the souls of his son Lu Lingxiao, daughter Lu Wangshu, and others, allowing them to experience the effects of a Heart Demon in advance.

The two continued searching inside the Cave Mansion but found no exotic treasures.

However, being a Fourth Rank Fierce Beast, like most Demon Kings, the Double-headed Demonized Lizard had collected a lot of Crystal Mines stored in its nest.

Many were Fourth Rank Crystal Mines, usable for refining Magical Treasures and crafting Puppets, not a small gain.

After digging three feet deep into the nest, Lu Changsheng and Ayoudo returned the way they came, setting up an Array Formation Restriction. They meditated through Spirit Stones and the Spiritual Eye Spring, waiting for the Soul-calling Beast to finish its meal.

Meanwhile, Lu Miaoge, Lu Ping'an, Lu Wangshu, Li Xingruo, and others arrived at the Li Family of Great Cliff Mountain.

### **Chapter 2115: Chapter 700: Heavenly Talisman Lu Family**

"Please announce that Li Xingruo and Li Xingyu have returned."

Li Xingruo looked at the Great Cliff Mountain before her with a complex expression of emotion, then stepped forward and spoke.

Time can fade away many things.

She had left Jiuxiao Immortal City to go to Bi Lake Mountain, nearly seventy years had passed.

This time, for a mortal, is already a lifetime.

And she had completed the most important Chapter of her life at Bi Lake Mountain, giving birth to children.

Her two children, who have no Spiritual Root, have even become grandparents.

In this situation, she no longer felt much for her early family.

The only thought in her heart was to bring back her parents' tablets and let her daughter Lu Qingli manage the name of the Treasure Elixir Pavilion well.

"Li Xingruo, Li Xingyu?"

The youths guarding the mountain gate from the Li Family did not recognize the sisters Li Xingruo and Li Xingyu.

But they possessed a certain insight and noticed that these people were either wealthy or noble and thought prominent cultivators, connected to their family, had come to visit. Politely they responded: "Please wait a moment, I will announce your arrival immediately."

A moment later, a middle-aged man in his forties or fifties rushed over. Seeing Li Xingruo and Li Xingyu standing outside the mountain gate, his pupils contracted slightly, and he said in a deep voice: "Li Xingruo, Li Xingyu, how dare you return!"

In the early years, the sisters had a conflict with the family, not giving face to the family's ancestors and leaving the family in discontent.

Afterward, they caught the eye of the young master of the Zhao Family, yet directly left Jiuxiao Immortal City aboard a Spiritual Vessel without giving him any face, causing great displeasure and even blame toward the Li Family.

In his opinion, had the sisters obeyed the family's arrangements in their early years, not only could they have nurtured another Second Rank Alchemist, but also could have aligned themselves with the Zhao Family.

Especially since the Zhao Family rose to prominence during the pioneering war twenty years ago and now, with three False Cores, is likely to become a Core Formation Noble Family within a hundred years!

Yet, just as he finished speaking.

"Pa!"

A crisp sound rang out.

A stunning woman with a delicate, bright appearance, dressed in a pink skirt, stepped forward and swung her long, jade-like palm, sending the middle-aged man flying with a slap.

Then she lifted her chin slightly, her expression noble and indifferent as she spoke: "Howl wildly, slap your mouth!"

After she spoke, the Foundation Establishment Eighth Layer's mana surged forth: "Lu Wangshu of the Heavenly Talisman Lu Family, accompanying my aunts to visit relatives and pay respects to ancestors, where is the ancestor of the Li Family, come out quickly to greet us!"

"Heavenly Talisman Lu Family!"

The middle-aged man, who had just been slapped and was about to curse and strike back, immediately froze in shock.

Although the Li Family was merely a Foundation Establishment Family.

As an old Foundation Establishment Family, they surely knew about the renowned Heavenly Talisman Lu Family, hailed as the number one cultivation family in Jiang Country!

Within the Heavenly Talisman Lu Family, apart from the most famous ancestor, Changsheng True Master, and the Lady Miaoge True Man; and the eldest son Lu Ping'an who defeated the Divine Blade Shangguan Family; Lu Qingshan, who joined Jinyang Sect and slew a Third Rank Demon King, was Lu Wangshu.

Not only did she have extraordinary talent, inheriting the talismanic legacy of Changsheng True Master, but also being the daughter of Changsheng True Master and Fairy Xi Yue of the Qingyun Sect, highly favored!

"Did they marry Changsheng True Master?"

Li Jiangping instantly guessed what was going on, filled with fear.

Although the grievances had passed for decades, and many of the elder generations who handled affairs had already passed away.

But now, with the two leaning on the Heavenly Talisman Lu Family, destroying the Li Family would be a breeze.

Especially now that this daughter, highly favored by Changsheng True Master, is accompanying the two women, indicating that she represents Changsheng True Master's intentions.

Thinking of being remembered by a Nascent Soul Immortal, Li Jiangping was gripped with immense fear, his body trembling uncontrollably.

As Lu Wangshu spoke, releasing her spiritual pressure, Lu Linghe and Lu Qingqi who had been brought along immediately followed their sister's lead and released their Foundation Establishment spiritual pressure.

Accompanying their mother, Lu Qingli, Lu Qingye, and Lu Qingning all released their Foundation Establishment spiritual pressure.

Though their cultivation was not as high as Lu Wangshu's, Lu Linghe and Lu Qingli had also reached the middle stage of Foundation Establishment.

"Foundation Establishment, so many Foundation Establishment cultivators!"

Li Jiangping and several other Foundation Establishment cultivators next to him felt their throats dry up.

Although the Li Family belonged to an old Foundation Establishment Family, it had suffered severe losses from the pioneering war, and now the entire family only had three Foundation Establishment cultivators.

So seeing the waves of Foundation Establishment spiritual pressure before them left them stunned.

Did the grievances between the family and the sisters Li Xingruo demand such a grand show of force...

Even if two families were at war, would so many Foundation Establishment cultivators be deployed?

Just then, Li Jiangping suddenly noticed a woman beside Li Xingruo and Li Xingyu, with a supremely beautiful countenance, seemingly endowed with heavenly grace, dressed in a white elegance, bearing an aura of humility and ethereal distance.

Although she did not release her magic power, the faint presence made him sense something amiss, resembling the main mother of the Heavenly Talisman Lu Family, Lu Miaoge.

In an instant, he dropped down with a "thud," cold sweat as large as beans emerging from his forehead, his voice trembling: "I didn't know that Fairy Lu and the esteemed cultivators of the Heavenly Talisman Lu Family had come, my reception was inadequate, please forgive me."

Then looking at the sisters Li Xingruo and Li Xingyu, a smile harder than crying forced on his face: "Xingruo, Xingyu, welcome back, all these years, the family has missed you, worried about your condition..."

"..."

Li Xingruo and Li Xingyu remained silent.

The Li Jiangping before them was someone they knew.

Back when their parents were alive, he treated them quite well, but after their parents' unexpected death, many around them changed their attitudes.

### **Chapter 2116: Chapter 700: Heavenly Talisman Lu Family! (Part 2)**

He even wanted to deceive them for their parents' inheritance and fight for Foundation Establishment resources.

"Whoosh!"

At this moment, a Foundation Establishment escape light appeared at the mountain gate, revealing an elderly man whose hair was white yet looked full of spirit.

"Little Ruo, Little Yu!"

The elderly man looked at the two sisters, then at Lu Wangshu and the others, especially at the tall and strong Lu Ping'an, his pupils constricting.

More than thirty years ago, outside the Purple Shadow Secret Realm, he had seen Lu Ping'an, and was deeply impressed by this eldest son of the Lu Family who had defeated Shangguan Jiuyang. He didn't expect this eldest son, who had vanished for decades, to come as well.

Immediately pretending not to have seen him, he bowed and said, "This old man is Li Yunhui, I've met Fairy Lu, I've met fellow Daoists."

"Uncle Hui, Little Yu and I came back this time just to take my parents away."

Li Xingruo's expression softened considerably when she saw the elderly man.

Even with Lu Miaoge and Lu Wangshu present, she only had to speak to find a reason to destroy the Li Family.

But back then, it was because someone in the family supported them that she could leave Great Cliff Mountain with her sister.

The elderly man before them had once taken quite good care of her as a senior.

Besides, with so many years of grudges, she had long seen through them and let go, realizing that it was those early events that had revealed the falseness of familial affection to her.

"Sigh, as long as you are doing well, it's good."

The elderly man looked at the many Foundation Establishment cultivators before him, sighed deeply, knowing the family had wronged the two sisters so many years ago.

Now, so many years later, he couldn't figure out the sisters' temper, dared not say much, and opened the Mountain Gate Grand Formation.

...

Half a day later, Li Xingruo tidied up some old relics and left Great Cliff Mountain with Lu Wangshu, Lu Miaoge, and others.

"Patriarch..."

The Li Family patriarch and several elders looked at Li Yunhui, wanting to ask for his opinion on the matter.

"Sigh, the family needs a good reorganization."

Although Li Yunhui had supported the two sisters in the early days, it was mostly out of face for their parents to take care of them a bit.

Now that the sisters had returned, not holding the Li Family accountable was already a gesture of courtesy, how could they still seek closeness?

The Li Family cultivators sighed with a mix of fear and regret.

They felt fortunate the Li sisters did not hold them accountable, but regretted that such a connection could not be utilized.

If they could attach themselves to the Heavenly Talisman Lu Family, not to mention business cooperation or practical help, just the name alone could mean decades of peace for the Li Family at Great Cliff Mountain.

"Aunt Xingruo, aren't you going to the Zhao Family?"

After returning to Jiuxiao Immortal City, Lu Wangshu asked Li Xingruo.

"So much time has passed, let it be."

Before coming, Li Xingruo thought there was no need for such a big fuss.

If she had always held a grudge in her heart, she couldn't possibly have waited until now.

"Alright."

Seeing this, Lu Wangshu nodded after hearing her answer, but secretly sent a message through Lu Qingye to inform the Zhao Family of their presence.

Although his aunt decided not to pursue it, since they had come, they couldn't just let it go so easily.

Otherwise, if word got out, others might think their family was easy to bully!

A few days later, the news reached the Zhao Family at Mo Yu Mountain.

"Damn it!"

A False Core Patriarch of the Zhao Family, having understood the entire situation, immediately became flustered and angry, and promptly chose treasures from the family's treasure vault, preparing to offer an apology.

"With such a large family, prosperous and thriving, sometimes you don't even know when you've caused trouble..."

Several elders of the Zhao Family expressed their feelings, filled with a sense of fear.

They felt grateful that the Heavenly Talisman Lu Family was relatively upright and not as arrogant as some overbearing sects.

"The old patriarch of the Heavenly Talisman Lu Family, Changsheng True Master, is known to be quite gentle, but the Talisman Fairy Lu Wangshu who appeared outside Great Cliff Mountain before is not of a good temper."

"Right, and apart from this Talisman Fairy, Changsheng True Master's wife, the Lady of the Lu Family, Lu Miaoge, also came...."

Upon learning about Lu Wangshu, the Zhao Family immediately tapped into the intelligence network for more information.

Shortly after advancing to Foundation Establishment, she became renowned for destroying five Foundation Establishment cultivators outside the family marketplace with a talisman formation.

Then, during the confrontations between the Lu Family and the major family forces under the Qingyun Domain, whether it was against the Jin Family of Golden Dragon Ridge or the Sima Family of Profound Martial Ridge, the presence of this Talisman Fairy was noted.

She even went with Lu Ping'an directly to the Jin Family's gate, bombarding their Mountain Protection Array with talismans and leaving harsh words behind.

Besides, there is also some startling news.

Years ago, during the Core Formation celebration of Changsheng True Master, the ancestor of the Divine Blade Shangguan Family brought along their elite Shangguan Poyun to make a scene.

As a result, Shangguan Poyun, who was hailed as the Shangguan Family's most promising candidate to break through Core Formation, almost got blown up by Lu Wangshu's Talisman Formation, truly terrifying!

So, for such a young lady with dual Core Formation parents, exceptional talent, and a temper, they are genuinely afraid.

"Old Zhao Dongfu of Mo Yu Mountain, pays respect to Miao Ge True Man, all Fairies, Daoists."

The next day, the ancestor of the Zhao Family personally came to apologize, speaking humbly, presenting his prepared generous gift, his eyes revealing some regret.

Although he is a False Core Immortal.

Facing Lu Miaoge, a True Elixir Cultivator, he dared not show any disrespect.

After all, only False Core Cultivators know the gap between a False Core and a True Elixir.

This gap is even larger than that between a True Elixir and a Superior Grade Gold Core.

A True Elixir, even a Flawed Core, only falls short in mana and future potential compared to a Golden Core, yet at least belongs to Nascent Soul Cultivators.

But False Core Cultivators, relying on Demon Cores and external breakthroughs, have no potential for further growth, and in the eyes of many high-rank cultivators, they are not considered True Men or Nascent Soul Cultivators.

"Quite sensible indeed."

Lu Wangshu, dressed in an expensive pink and white gown, was exquisite in appearance and graceful in demeanor.

There was no need for showing off or actively seeking justice.

With the current reputation of the Heavenly Talisman Lu Family, just releasing word was enough to have ninety percent of Jiang Country's family forces come personally to apologize and resolve grievances.

Even Li Xingruo, Li Xingyu, and Lu Qingqi couldn't help but sigh when they saw the humble demeanor of the Zhao Family ancestor in front of them.

They deeply realized the weight of the four words Nascent Soul Immortal.

...

After giving Zhao Family's apology gift to Li Xingruo, the group continued to have fun around Jiuxiao Immortal City.

As Jiang Country's once first Immortal City, Jiuxiao Immortal City was still bustling and lively.

However, at this moment, the group was approached by a few uninvited guests.

"Greetings, Miao Ge True Man, greetings to the young friends."

Twenty years ago, the Divine Blade Shangguan Family contributed greatly to the opening of the war, allowing the family to produce a second Nascent Soul Immortal, ensuring the Divine Blade Shangguan Family would not lose their Great Clan status upon the passing away of their Nascent Soul Patriarch, unlike the Five Elements Royal Family.

"Greetings, Purple Thunder True Man, may I ask the purpose of your visit?"

Though in the past, Heavenly Talisman Lu Family and Divine Blade Shangguan Family had some enmity.

But under the initiative of Lu Changsheng, the two families currently have no grudges and even get along well. When 'Purple Thunder True Man' hosted his celebration, the Lu Family prepared a gift for them.

"Haha, hearing that Miao Ge True Man and the young friends arrived in Jiuxiao Immortal City, as hosts, our Shangguan Family should naturally come to meet you."

"Additionally, it is due to this unpromising junior in the family who, having lost to Young Friend Wangshu in the past, now wishes to challenge for a duel upon hearing that True Man and Young Friend Wangshu are here."

Purple Thunder True Man pointed at Shangguan Poyun who carried the Thunder Blade.

Lu Miaoge and Lu Ping'an looked at Shangguan Poyun.

Ninth Level Foundation Establishment cultivation!

The whole body exuding an intense yet controlled saber aura.

Likely intending to utilize constant challenges to nurture Essence, Qi, and Spirit, heighten Saber Intent to the peak, and then break through Core Formation in one go, like a storm.

During this process, Purple Thunder True Man also looked towards the tall and burly Lu Ping'an.

Cultivation and Mana, Qi-Blood were obscured by an invisible Qi Mechanism, making him hard to discern.

"Could this person have broken through to Core Formation?"

Purple Thunder True Monarch pondered to himself.

Over thirty years ago, this eldest son of the Lu Family had reached Quasi-Third Rank Body Refining.

For years he was under the radar, and now without any trace of magic aura, making himself undetectable, leading to this subconscious speculation.

"One family, four Core Formations!"

Considering this conjecture, even Purple Thunder True Man couldn't help but feel shocked.

Indeed, if Lu Ping'an has truly broken into Core Formation, then Heavenly Talisman Lu Family would possess four Nascent Soul Cultivators, thus becoming a top-level force under the Four Great Immortal Sects!

What's most important is, all four Nascent Soul Cultivators from Heavenly Talisman Lu Family are tremendously young.

Unlike his Divine Blade Shangguan Family, seemingly having two Nascent Soul Immortals, but the previous generation's patriarch suffered severe injuries in the opening war, with only decades of life left.

For this reason, they invest efforts in nurturing Shangguan Poyun and others likely to form a Core, hoping to add one or two more Nascent Soul Cultivators to the family!

### **Chapter 2117: Chapter 701: What Is the Lu Family's Purpose This Time?**

"Looking for a sparring match with me?"

Lu Wangshu glanced at Shangguan Poyun, who was standing beside Purple Thunder True Man, and furrowed her picturesque eyebrows slightly before saying indifferently, "I've been focused on the study of talismans over the years and am not skilled in combat. Let's just forget it."

To her, sparring with cultivators of the same rank was meaningless and pure bullying.

In earlier years, when the Shangguan patriarch came to Bi Lake Mountain to seek an opportunity, he at least prepared some stakes.

This Purple Thunder True Man made no such gesture, so naturally, she wouldn't agree.

Not only would she be wasting her talismans and mana, but if she inadvertently crushed the opponent's mindset, essence, qi, and spirit, she would offend the Shangguan Family for no reason.

Although her family is fearless, Lu Wangshu is similar to Lu Changsheng in this respect, very much disliking trouble.

"Hmm?"

Purple Thunder True Man and Shangguan Poyun's expressions slightly froze, not expecting Lu Wangshu to refuse so decisively.

It's known that most geniuses harbor a sense of pride.

Facing a challenge from others, they usually would accept.

Especially sparring between talents, it's beneficial for mutual progress.

However, the two, with their keen spiritual sense, felt a certain degree of nonchalance from Lu Wangshu's words and demeanor.

It was as if...

The genius before them, heralded as the most promising for Core Formation in the Divine Blade Shangguan Family, was barely worth her notice.

"If you win, this [Thunder Fire Gang Sha] will be yours."

Shangguan Poyun flipped his hand, revealing a deep purple porcelain bottle, and said coolly.

In usual sparring between cultivators, bets and stakes are rare.

Only when a lower-ranked challenger challenges a higher-ranked practitioner, or when a defeated party wishes to challenge a victor, would they prepare treasures as bets and challenge qualifications.

In earlier years, he sparred with Lu Wangshu, and if not for the patriarch's intervention, he almost died at her hands, suffering a crushing defeat.

Over the years, he honed his blade intent and regarded Lu Wangshu as the final whetstone to break through to Core Formation!

"Poyun!"

The Purple Thunder True Man beside him immediately called out in a deep voice.

With Lu Miaoge and Lu Ping'an present, even if he wanted to spar, he wouldn't dare be overly aggressive and domineering.

Moreover, this [Thunder Fire Gang Sha], made from the Nether Fire Sha that Shangguan Poyun obtained and the Shangguan Family's Purple Thunder Gang Sha, was the finest Core Formation spiritual object.

When breaking through to Core Formation, he could use the "Divine Thunder Saber Art" to form the momentum of divine thunder drawing earth fire, increasing Shangguan Poyun's Core Formation probability by fifteen percent, making it exceedingly rare.

The latter unexpectedly used this most precious Core Formation spiritual object as a bet!

"Thunder Fire Gang Sha?"

Although Lu Wangshu didn't know its specific grade, even the cheapest Core Formation spiritual object costs tens of thousands of spirit stones.

Moreover, many Lu Family disciples cultivating fire or thunder attribute techniques could exchange for contribution value with this Core Formation spiritual object eventually.

"Wow!"

Beside her, Lu Qingqi, Lu Qingye, and others saw this and thought their elder sister truly earns easily.

Others invite her for a sparring match with Core Formation spiritual objects as starting stakes.

For them, even in ten years, they might not earn that many spirit stones.

"In that case, fine. But my main path is talisman mastery, with puppet dual cultivation, and I'm not skilled in combat. Using a few puppets should be alright, yes?"

Lu Wangshu's exquisite and beautiful face lit up with a radiant smile as she spoke.

After speaking, as if afraid of scaring the opponent away, she added, "Don't worry, I won't use talismans on me to form a talisman formation."

Although Shangguan Poyun was formidable, she didn't believe his frontal attacks could outmatch Lu Lingxiao.

"Fine."

Shangguan Poyun answered directly, maintaining a frosty expression with a sharp aura.

The Purple Thunder True Man's expression relaxed slightly upon hearing this.

In the Jiang Country Cultivation Realm, who didn't know the illustrious name of Upper Talisman Lu Family's patriarch Lu Changsheng, whose talisman talent was superb, and who broke through to Core Formation shortly after and could draw Third Rank Superior Grade Talismans.

In this context, with Lu Wangshu being the extremely favored daughter of Changsheng True Master and Fairy Xi Yue, he wouldn't believe she didn't carry several Third Rank Talismans.

If Lu Wangshu used Third Rank Talismans, even if Shangguan Poyun was a prodigy, he'd stand no chance.

Even lacking Third Rank Talismans from Changsheng True Master, given her reputation as a talented Talisman Master, having decades of Second Rank Talismans at hand would show that Shangguan Poyun wasn't a match.

Indeed, wealthy Talisman Masters are really unparalleled within the same rank.

"I recall there's a combat arena here in Jiuxiao Immortal City, shall we head there now?"

Lu Wangshu continued, her tone and demeanor no longer nonchalant.

"Fine."

Shangguan Poyun's eyes ignited with battle intent.

After twenty years, he was finally going to erase the shame!

"Wangshu, be careful; this person has a boiling essence, qi, and spirit, with stored blade momentum that hasn't been released yet..."

Though Lu Ping'an had confidence in Lu Wangshu, he still cautioned.

After all, Shangguan Poyun, being a seed of the Divine Blade Shangguan Family, was indeed extraordinary.

Especially his sharp, subtle blade intent, which certainly stood out among those of the same rank.

For a Talisman Cultivator like Lu Wangshu, even with dual cultivation body refinement, if close range, it would be difficult to handle.

"Thank you, elder brother."

Lu Wangshu offered a gentle smile, expressing reassurance.

Soon, the people headed toward the combat arena of Jiuxiao Immortal City.

....

Despite Jiuxiao Immortal City being once the first immortal city of Jiang Country, the combat arena, hosting duels between a few Foundation Establishment cultivators, was considered lively.

At this time, as Lu Wangshu and Shangguan Poyun's entourage approached, many exclaimed and discussed, coming to witness the spectacle.

After all, the Divine Blade Shangguan Family was a Core Formation noble family under the Heavenly Sword Sect, possessing many industries in Jiuxiao Immortal City.

In earlier years, Shangguan Poyun not only challenged many renowned talents but also held arenas in Jiuxiao Immortal City, gaining fame.

Needless to say about Purple Thunder True Man.

Although the prestige of Changsheng True Master at Upper Talisman Lu Family far exceeded that of Purple Thunder True Man, in Jiuxiao Immortal City, more recognize the Divine Blade Shangguan Family.

## **Capítulo 2118: Chapter 701: What Is the Lu Family's Purpose on This Trip? (2)**

"What is going on? Is Shangguan Poyun about to spar with someone again?"

"Even the Violet Thunder True Man has shown up. Who are these people?"

"This seems to be the Lady from the Heavenly Talisman Lu Family, Miao Ge True Man, Lu Miaoge!"

"Gasp, she hails from the renowned Heavenly Talisman Lu Family!"

"Why is the Shangguan family clashing with the Lu family?"

Amidst countless cultivators' respectful, awe-inspired, and fascinated expressions, Violet Thunder True Man exchanged a few words with the person in charge of the arena, and then the formation of the first arena was activated. Lu Wangshu and Shangguan Poyun ascended the stage.

"Lu Wangshu from the Heavenly Talisman Lu Family, so it is she who is sparring with Shangguan Poyun."

“Is she the Talisman Fairy, Lu Wangshu, who perfectly inherited the Talisman Path legacy from Changsheng True Master? Her looks and talent... if one could marry her, it would save a lifetime of struggle.”

“It’s rumored she just recently reached Foundation Establishment but managed to blast several Foundation Establishment cultivators through Talisman Formation. Her combat prowess is astonishing.”

“She’s a Talisman Cultivator, after all. At that time, she relied on talismans given by Changsheng True Master, which is why her combat performance was remarkable. But for a sparring match like this, she can’t rely on that.”

“That’s not necessarily true. The Talisman Path also depends on the person. Some Talisman Cultivators can form formations with a wave of their hand, while others, like casting a spell, require much time and effort...”

“Shangguan Poyun’s Divine Thunder Saber Art has achieved Small Achievement. If he gains the upper hand, this Lu family fairy might not stand a chance.”

In Jiuxiao Immortal City, seasoned Foundation Establishment cultivators, experienced and knowledgeable, watched the two on the arena and commented.

“Aunt, can Sister Wangshu win?”

Originally, Lu Qingqi had much confidence in her sister.

But seeing Violet Thunder True Man’s indifferent expression and many surrounding cultivators favoring Shangguan Zhanyun, she couldn’t help but ask worryingly.

“Rest assured.”

Lu Miaoge, graceful like water, spoke softly.

While others were unclear, she had some insight into Lu Wangshu’s situation.

Although her cultivation level was only at the Eighth Layer of Foundation Building, not as advanced as Shangguan Zhanyun’s,

with the [Profound Origin Bead], her mana was no weaker than any Foundation Establishment cultivator.

In addition to talismans, she also had talismanic weapons, puppets, exotic treasures, Second Rank Body Refining, and many other means.

If she really exerted herself, few at the same level could match her.

“Go sister!”

Lu Linghe was the first to cheer for her sister with a raised fist.

Seeing this, Lu Qingqi and several others nearby also joined in as cheerleaders.

In the process, many cultivators looked over, and their gaze drifted back to Lu Wangshu on stage, eyes filled with amazement, admiration, and enthusiasm.

However, seeing Lu Miaoge and Lu Ping’an, they dared not stare for long, fearing to incur displeasure.

Before long, the two on stage began their sparring match.

Lu Wangshu’s bright and lovely face bore a serious expression as she summoned the Talismanic Weapon Ninety-Nine Mysterious True Strategy, transforming it into a parasol shape that spun above her head.

Shangguan Poyun gave a slight bow with clasped hands before charging in with a stern expression, wielding his Lifebound Thunder Blade.

Arcs of lightning surged along the blade, expanding to several meters in length, incredibly intimidating.

Through past sparring matches and his understanding over the years, he knew that when facing a Talisman Cultivator like Lu Wangshu, he must not give her any breathing room.

“Shangguan Poyun’s Divine Thunder Saber Art has improved again!”

“After all, he is the Nascent Soul Seed of this generation in the Shangguan family. Once he breaks through to the Core Formation, the Divine Blade Shangguan family will witness a spectacular event with three members reaching Core Formation!”

Some seasoned Foundation Establishment cultivators exclaimed in amazement.

Seeing this, Lu Wangshu instantly cast out the Nine-Nine Mysterious Talisman Stick and began the Void Drawing of Talismans.

As the saber qi approached, a bright white jade bowl with a crystal-clear and six-gem-encrusted bracelet inlaid on it glowed brightly where she drew the talismans.

Lightning, mist, and a ripple like a watery sheen formed a barrier, isolating her front.

“Gasp, she’s crafting talismans while manipulating two spiritual artifacts at the same time.”

“Is this the legendary Void Drawing of Talismans?”

“It’s truly breathtaking, these Talisman Cultivator methods are astonishing!”

Seeing Lu Wangshu’s methods, many exclaimed in awe, faces filled with surprise.

Besides the Heavenly Talisman Lu Family, there are no famous Talisman Cultivation traditions in Jiang Country.

Many people’s knowledge of Talisman Cultivators was limited to recorded books and rumors.

Therefore, Lu Wangshu’s methods opened their eyes wide.

On the arena, Shangguan Poyun’s aura was fierce. The Lifebound Thunder Blade in his hand trembled continuously, like a thunderbolt, resounding and majestic, illuminating the world.

Facing such an onslaught, Lu Wangshu had to use pre-drawn talismans and puppets to passively defend.

However, as the first talisman of the Void Drawing of Talismans was completed, Lu Wangshu made a gesture incantation with her hands, and the talismans immediately multiplied, from one to two, two to four, beginning to assault Shangguan Poyun.

Over the years, Shangguan Poyun not only sought out sparring matches and set up arenas but also honed his blade intent through frontier wars, becoming battle-hardened.

Facing Lu Changsheng’s methods, relying on his intuition, he broke through Lu Wangshu’s talismans one by one with his saber qi, preventing her from forming a formation.

But Lu Wangshu’s Void Drawing of Talismans seemed endless. For a moment, the two were at a stalemate.

“Hmm, why isn’t sister using other techniques and puppets...?”

Not fully aware of Lu Wangshu’s true combat capabilities, Lu Qingqi had seen her fish-bombing adventures in Great Dream Marsh and sparring with Lu Lingxiao.

So after watching for a while, she sensed something was off, realizing her sister wasn’t going all out!

Seeing her aunt and elder brother’s calm expressions, as well as the nearby Violet Thunder True Man, she quickly guessed why.

If the battle ended quickly, it would not only embarrass the Shangguan family but also discourage future challenges to her sister.

If the fight goes back and forth, and she defeats her opponent on equal footing, it would save face for the Shangguan family and continue to attract challenges, earning more Core Formation Spiritual Objects!

### **Chapter 2119: Chapter 701: What Is the Lu Family's Purpose This Time? (Part 3)**

Just like this, after the two were stalemated for a quarter of an hour, Lu Wangshu lightly tapped the storage bag, and four metal puppets with a deep luster all over appeared.

"Puppets, four Second Rank Puppets!"

Someone immediately exclaimed in surprise.

"Actually using puppets, five against one, there's really no contest."

"This Lu Fairy, as a Talisman Master, is very dangerous if anyone gets close, so using puppets for protection is understandable."

"These puppets should have reached Second Rank Superior Grade, right? Really wealthy."

"Nonsense, she's a Talisman Master herself, with parents who are Nascent Soul Immortals, how can she lack money? Maybe there are Third Rank Talismans, Third Rank Puppets in that storage bag."

Many cultivators looked at Lu Wangshu on the arena, with her flowing robe, stunning beauty, and elegant temperament, filled with envy and jealousy.

After all, she not only has excellent talent and looks, but also belongs to the top tier of family background, making others envious.

"Divine Thunder Saber Art!"

Shangguan Poyun had seen Lu Wangshu's puppet and talisman techniques, knowing he couldn't break her defensive formation, making it impossible to defeat her.

Thus, in this moment, he didn't hold back at all, his whole body exploded with saber intent, the thunder blade in his hand burst violently, as if heavenly thunder drew earth fire, expanding two or three zhang long, his whole aura directly threatening a False Core Cultivator!

Facing such a formation, Lu Wangshu dared not hold back anymore.

She sorrowfully controlled her puppet to charge forward, and then the talismans arranged in the air trembled, all shooting out together.

"Crash——"

At the same time, she shook the bright white jade bowl wrist string, and radiant light bloomed.

This wrist string, as a top-level exotic treasure, hadn't exerted its full power before.

At this moment, under her full exertion, even Shangguan Poyun, with his will as a saber cultivator, was slightly distracted, and his mana became somewhat chaotic.

As an opportunity gap appeared, Lu Wangshu immediately made a gesture incantation with both hands, continuously condensing void talismans, forming a certain formation, flying out to suppress Shangguan Poyun.

"Boom Boom Boom!"

Shangguan Poyun's saber intent and Essence, Qi, and Spirit condensed, tenacious and unwavering, with an indomitable momentum.

But Lu Miaoge, Lu Ping'an, Zilei True Man, and some watching Foundation Establishment cultivators all saw Shangguan Poyun showing signs of defeat.

He initially seized the initiative but is now in a passive position. If he can't break through Lu Wangshu's offensive, it's almost impossible to turn the tables.

"This Talisman Fairy is not simple, only relying on her own techniques and puppets to suppress Shangguan Poyun, without using the famous 'Talisman Sea Tactics' of Talisman Cultivators."

"By using puppets, one cannot say it's a fair fight."

"In sparring and combat, there's never been talk of fairness. In earlier years, Shangguan Poyun set up the arena here, and the cultivation techniques he practiced, the life-bound spiritual artifact helped to forge by the Shangguan family..."

Some cultivators present felt that even if Lu Wangshu won, it was not a victory with honor, while others believed that a win is a win, and family resources and heavenly treasures are part of one's strength.

It's impossible to refrain from using good things and to suppress oneself to a similar realm with you, right?

"I lost."

After another quarter of an hour of stalemate, Shangguan Poyun realized that unless he used techniques like "Demonic Sword Art" and "Blood Burning Blade," he could not break through Lu Wangshu's offensive.

But in sparring on the arena, unless there is enmity, generally, one would not fight desperately to the death.

Besides, with Lu Miaoge and Zilei True Man watching from the side, they would intervene if real dangerous flames broke out.

Moreover, he could sense that Lu Wangshu still had spare strength and trump cards.

Even if he used Life Burning Saber Technique, he might not be able to secure a victory against her.

If he lost like this, as the Nascent Soul Seed of the Shangguan family, it would affect the Shangguan family's prestige.

"I concede."

Lu Wangshu, hearing this, as if overly exhausted, clasped her fists and said.

Then she put away her slightly damaged puppets.

She usually doesn't like to engage with others, as it is her way of combat, always burning money no matter what.

"Not as skilled as others, I will challenge you again another day."

Shangguan Poyun, like the former ancestor of the Shangguan family, took the loss well, coldly throwing the [Thunder Fire Gang Sha] to Lu Wangshu.

But there was still a bit of heartache deep in his eyes.

After all, in earlier years, he spent a lot of time earning this [Thunder Fire Gang Sha].

Zilei True Man looked at Shangguan Poyun, who was stepping down from the arena, somewhat exhausted, and asked: "Poyun, do you want me to help you get that Gang Sha back?"

This Thunder Fire Gang Sha could increase Shangguan Poyun's Core Formation probability by one and a half percent.

But for other cultivators with thunder or fire attributes, it might only be a one-percent probability.

"Thank you, Uncle, but since I lost this battle, it shows I still need more training. I will find another one when I go out another day."

Shangguan Poyun's expression was calm, his Essence, Qi, and Spirit were not defeated.

If he were so easily discouraged, he wouldn't have grown to this point today.

Since realizing his inadequacies, he could only work harder.

As for the Core Formation Spiritual Object he lost, it would serve as motivation to further temper himself!

"Good, this is the Qilin Child of my Shangguan family!"

Zilei True Man, hearing this, patted his shoulder, then, somewhat admiringly went forward to clasp hands, and said: "Changsheng True Master and Miao Ge True Master really know how to educate their children, with talents emerging one after another in the family, truly enviable."

"True Man praises too much."

Lu Miaoge said softly, her demeanor like calm water, exchanging pleasantries politely.

Then as the host, Zilei True Man invited Lu Miaoge, Lu Wangshu, and the others to dine at the most luxurious restaurant in Jiuxiao Immortal City as a gesture of hospitality.

Although they came over, they first challenged Lu Wangshu, but they showed great grace, so Lu Miaoge did not refuse.

"I've heard that True Man came because of the matters of Xiaoya Mountain's Li Family and Mo Yu Mountain's Zhao Family. Our Shangguan family still has some influence here, if True Man needs it, our Shangguan family can handle it on your behalf."

#### **Chapter 2120: Chapter 701: What Is the Lu Family's Purpose This Time? (Part 4)**

During the process, Master Zilei expressed goodwill towards Lu Miaoge and the others.

As fellow Core Formation noble families, without any major enmity, everyone was happy to make money in harmony and form good relations.

This time, since the Shangguan Family helped the Lu Family, if the Shangguan Family ever needed assistance within the Qingyun Sect's jurisdiction, they could also seek help from the Lu Family.

Moreover, with the current unstoppable rise of the Heavenly Talisman Lu Family,

the patriarch Lu Changsheng is not only a Third-rank Superior Grade Talisman Master but also serves as the Deputy City Lord in Great Dream Immortal City. Even if the Shangguan Family were an established Core Formation noble family, they'd be willing to extend a few favors.

In fact, just Lu Changsheng's status as a Third-rank Superior Grade Talisman Master was enough to make many Nascent Soul cultivators eager to befriend him, seeking him out to commission or purchase talismans.

Lu Miaoge glanced at Li Xingruo beside her, elegantly and calmly stating, "The matter is resolved, no need to trouble your honored family."

"Resolved is good."

Master Zilei smiled, not saying more on the matter.

However, after the meal and drinks, he inquired whether the Lu Family currently had any Third-rank Talismans for sale.

Although the Shangguan Family had channels to purchase Third-rank Talismans, like Elixir Medicines and Talismans, no family ever found them in excess.

In response, Lu Miaoge directly sold ten Third-rank Talismans.

Currently, apart from Lu Changsheng, both she and Lu Wangshu were Third-rank Talisman Masters.

These years, Lu Changsheng had been busy, and besides occasionally having some time to draw talismans, many of the lower and middle-grade Third-rank Talismans sold externally were actually crafted by Lu Wangshu.

In terms of Talisman Dao skills, she sometimes even sought advice from Lu Wangshu, currently only able to draw Third-rank Lower Grade Talismans.

"Thank you, Miao Ge True Man."

After trading for the talismans, Master Zilei looked pleased, leaving with Shangguan Poyun, stating that they could always reach out to the Shangguan Family if they needed anything.

....

In the following days, many in the Immortal City discussed the matter of Lu Wangshu's spar with Shangguan Poyun.

"The Heavenly Talisman Lu Family's reputation is well deserved, the Talisman Fairy's talent in drawing talismans in midair is simply astonishing."

"Indeed, and this was without even deploying the talisman formation claimed to be nearly unbeatable at the same realm."

"But it was merely relying on puppets. Without the protection of four Second Rank Superior Grade Puppets, she wouldn't stand a chance against Shangguan Poyun."

"With the Talisman Fairy's talent, there's indeed hope for future Core Formation."

"Of course, in earlier years, even Changsheng True Master obtained a Coagulation Crystal Elixir for his wife Lu Miaoge through pioneering wars. This girl, as Changsheng True Master's Talisman Dao successor, also being the daughter of Master Xiyue of the Qingyun Sect, is certain to obtain a Coagulation Crystal Elixir and make her attempt at Core Formation!"

"If this Fairy Wangshu does break through to Core Formation, wouldn't the Heavenly Talisman Lu Family have four Core Formation members?"

"Probably not just that. Among their company this time, was Lu Ping'an, the eldest son of the Lu Family who had been unheard of for over thirty years. His sudden appearance suggests he might be breaking through to Core Formation."

"Impossible, right? I recall Lu Ping'an had extraordinary talent in Body Refinement, but his Qi Refining cultivation was just average. Besides, he's pursuing dual cultivation in Magic and Body; how could he break through to Core Formation so swiftly? It's more likely he's advancing to Third Rank Body Refining!"

"Hmm... What is the Heavenly Talisman Lu Family up to? With Lady Miao Ge True Man and the long-missing eldest son of the Lu Family both coming to Jiuxiao Immortal City together? Could some significant event be unfolding?"

"I've heard it's to resolve grievances and seek justice for two of Changsheng True Master's concubines."

"At such a level of grievance, that's nothing in front of the Heavenly Talisman Lu Family? Why would it warrant Lady Miao Ge True Man making a personal trip when just a word from Changsheng True Master would have many eager to help resolve it."

As discussions continued, topics gradually shifted from Lu Wangshu and Shangguan Poyun to the Heavenly Talisman Lu Family, Lu Ping'an, and the others.

After all, in most people's views, matters like those involving Li Xingruo were hardly worth a trip by a Nascent Soul True Man.

Especially when apart from Lu Miaoge, both Lu Ping'an and Lu Wangshu, who are key figures of the Lu Family, were involved; surely something major was afoot.

As part of the party, after a few days of tourism in Jiuxiao Immortal City, Lu Miaoge, Lu Ping'an, Lu Wangshu, and entourage set off on their journey to the Heavenly Sword Sect for matchmaking.

Li Xingruo was planning to scout a few shops in Jiuxiao Immortal City during this trip, so that future offspring could handle some Lu Family matters here, therefore did not join them in leaving.

## **Starting as a Son-in-law to Establish an immortal Family #Chapter 2121 - 702: Demon Fog, Marriage! - Read Starting as a Son-in-law to Establish an immortal Family Chapter 2121 - 702: Demon Fog, Marriage!**

### **Chapter 2121: Chapter 702: Demon Fog, Marriage!**

Myriad Demon Abyss.

Yin winds howled, ghost fog shrouded everything.

A black-faced demon ape, massive in size and surrounded by black mist, horrifying and sinister, was absorbing the blood essence and origin source from a headless lizard's mountain-like body.

When the last trace of demonic evil qi and blood essence of the double-headed demonized lizard was absorbed by the soul-calling beast, its sinister form enshrouded in black mist gradually shrank and transformed back into a small, adorable macaque beast, only a few inches long.

"Burp~"

The soul-calling beast burped, then lazily looked at Lu Changsheng while hugging a beast pill almost its own size, indicating that it now wanted to sleep.

Even though the soul-calling beast was naturally adept at restraining ghost demons and could evolve by absorbing souls and devouring ghosts and demon evil essence,

Entering the Myriad Demon Abyss and devouring so many Yin Soul Essences, and eating the vast majority of the fourth rank demonized beast's essence, it did feel quite stuffed and needed to sleep to quickly digest and thus grow and advance.

"Rest well."

Lu Changsheng was quite happy with this situation, raising his hand towards it but indicating not to fall into a deep sleep.

"Chirp chirp chirp."

The soul-calling beast nodded in agreement, then darted into Lu Changsheng's sleeve, holding the beast pill and falling asleep.

However, in this state, it was not in a deep slumber.

If encountering a fourth rank demonized fierce beast or a ferocious ghost king, it would awaken and give a warning.

The nearby Five Poisons Cult Leader looked at the shriveled remains of the double-headed lizard ahead, then at the soul-calling beast in Lu Changsheng's sleeve, with a thoughtful expression.

It was truly unimaginable that such a cute, harmless-looking little beast could possess such astonishing battle power and appetite.

"Could this beast be some kind of True Spirit Level Bloodline Demon Beast?"

Ayoudo pondered in her heart, her gaze towards Lu Changsheng grew more reverent.

Both of his spiritual pets, the Golden Peng Bird and the soul-calling beast, displayed battle power far surpassing that of ordinary Heavenly-Rank Bloodline Demon Beasts.

Even if they are not truly True Spirit Level Bloodline Demon Beasts, they must have awakened and activated the True Spirit Bloodline!

Once they advance to the fourth rank, their battle power would be terrifyingly immense, far exceeding those of the same rank!

"Let's go."

Lu Changsheng did not mind Ayoudo's gaze, smilingly said to her, then extended his hand to ruffle the hair cascading under her silver crown hairpin.

Although this Five Poisons Cult Leader was hundreds of years older than him,

her usual demeanor evoked a protective affection within him.

"Mm~"

If it were someone else, such an act would be blatant humiliation.

However, Lu Changsheng's actions were seen by the Five Poisons Cult Leader as an intimate gesture, with no trace of rejection, she softly responded.

Two impeccably clean, white little feet floated three feet off the ground, walking alongside Lu Changsheng.

...

Several days later, Lu Changsheng and Ayoudo were searching in a crevasse.

Suddenly a dull mist rolled in, closing in from afar, threatening to engulf the two.

"Wooo——"

The mist wailed like a ghost, black clouds bearing down, forming a whirlpool that covered the sky and ground.

"Tihun!"

Lu Changsheng looked at the mist in front of him, like a black tornado about to devour everything, his expression grave, he wielded the Great Luo Sword Embryo, and signaled the soul-calling beast to wake up and take action.

This journey with Ayoudo had been so smooth because whenever they encountered Yin wind or ghost fog, spirit essences, or ghosts, the soul-calling beast could easily handle them.

Otherwise, even for him and Ayoudo, they wouldn't dare linger in the Myriad Demon Abyss for such a long time, spending their energy and mana to slay a fourth rank demonized beast.

Yet, the soul-calling beast awoke, exhaling a faint yellow glow through its nose, which could only slightly disperse the black mist ahead, unable to sweep it all away like before.

"Master, this should be a natural calamity of the Myriad Demon Abyss [Demon Fog], endless, we should leave hastily."

Ayoudo looked at the increasingly ferocious black mist, as if it would transform into a tornado hurricane, immediately spoke, indicating Lu Changsheng to depart.

"Demon Fog?"

Lu Changsheng's face slightly tensed, knowing that the Myriad Demon Abyss, or rather most forbidden zones and dangerous places, all had certain natural calamities.

Just like the Ninth Heavenly Gang Wind Layer, in the Great Void, besides the erratic wind currents, storms, spirit-destroying phenomena, heavenly fog, and other calamities could also appear.

Nobody knows the exact reasons, only that when encountered, it's best to avoid them.

He wasn't reckless, continuously wielding the Great Luo Sword Embryo, and quickly left with Ayoudo and the Golden-Winged Heavenly Peng.

In this process, the sword light slashing into the demon fog felt like battling a ghost king, but the Taiyi Divine Soul, Fire Golden Eye saw nothing.

After a long while, Lu Changsheng and Ayoudo escaped the demon fog area, letting out a long breath of turbid air.

"No wonder they say that only Nascent Soul Cultivators dare to enter the Myriad Demon Abyss, for Nascent Soul Cultivators encountering such natural calamities, unless they possess a Secret Treasure, have no chance to escape."

Lu Changsheng took a deep breath, it was the first time he encountered such an unexpected natural calamity.

After resting with Ayoudo for a moment, they continued searching where the [Gu God Bowl] might have been left.

Apart from the demon fog just now, Myriad Demon Abyss also had stronger fourth rank demonized beasts than the double-headed demonized lizard.

Facing such creatures, even Lu Changsheng and Ayoudo could only shy away.

Or using a method from the past, one person distracts while the other goes in to search.

After all, the prerequisite for slaying a fourth rank demonized beast is that both cannot be injured.

Once heavily injured in the Myriad Demon Abyss, it would become perilous and hard to escape.

Time passed bit by bit.

Though they hadn't found the [Gu God Bowl], they've amassed a considerable bounty, acquiring numerous third rank demon cores, fierce beast materials, and Demon Path, Ghost Path Heavenly and Earthly Treasures.

Although Lu Changsheng couldn't use much himself, the role of the Five Poisons Cult became significant here, as the Five Poisons Cult Leader could help him trade them for other resources he needed.

## **Chapter 2122: Chapter 702: Demon Fog, The Wedding! (Part 2)**

Meanwhile.

Lu Miaoge and Lu Ping'an among others arrived at the Heavenly Sword Sect.

Unlike Lu Changsheng's loud proposal to the Qingyun Sect years ago, Qin Yi had received the news early and was eagerly waiting outside the mountain gate.

"Lu Ping'an."

Qin Yi wore the sword robe of a Heavenly Sword Sect disciple, tall and graceful, like a bamboo sword standing tall in spring.

Her black hair was elegantly coiled, and her beautiful face showed traces of time, yet still radiated a heroic and spirited demeanor.

Seeing the group around Lu Ping'an, a hint of reservation appeared on her face. She cupped her hands and said, "Greetings, Miao Ge True Man."

"Little Qin, long time no see."

Lu Miaoge, with a gentle and gracious presence like water, approached warmly, instinctively winning favor, and said, "Just call me Aunt."

"Aunt."

Qin Yi, devoid of her usual sharpness, obediently responded.

Not to mention that Lu Miaoge was Lu Ping'an's elder, her status as a Nascent Soul Immortal was enough to earn her respect.

"Sister Qin."

"Sister-in-law."

At this moment, Lu Wangshu, Lu Qingqi, and others stepped forward to greet.

"Xiao He, Wangshu..."

Qin Yi had met Lu Linghe and knew Lu Wangshu, she smiled in response, then gestured to Lu Ping'an to introduce the others.

Before the conversation could continue, the Heavenly Sword Sect sensed Lu Miaoge's Core Formation Qi, and a Nascent Soul Immortal came out to receive her.

"So it's Miao Ge True Man, what an honor. May I know the purpose of your visit to our Heavenly Sword Sect?"

Recognizing Lu Miaoge, the Nascent Soul Immortal was very courteous.

Not to mention that Nascent Soul Immortals were esteemed guests wherever they went, the Heavenly Sword Sect would offer them respect.

With the connection to the Heavenly Talisman Lu Family, the Heavenly Sword Sect would also show courtesy, and outright disrespect or deliberate trouble would never occur.

"I am here to visit your esteemed sect mainly regarding the marriage of my son, Lu Ping'an."

Lu Miaoge, dressed in a snow-white palace dress, spoke gracefully.

"Marriage?"

Seeing Lu Ping'an and Qin Yi, the Nascent Soul Immortal instantly guessed the situation.

The Heavenly Sword Sect did not prohibit its disciples from marrying or finding Dao Companions.

However, any sect would have some stipulations in this regard to prevent disciples from randomly marrying and leaving the sect.

"If both are mutually affectionate and share the same goals, forming a good union is a worthwhile affair, please come inside, True Man."

Although disciples like Qin Yi, who were true inheritors of the sect, rarely married outside.

But the Heavenly Talisman Lu Family, with its three Core Formations, and Lu Changsheng as the Deputy City Lord of Great Dream Immortal City, was a connection the Heavenly Sword Sect would welcome.

Moreover, he noticed that despite looking at Lu Ping'an, he couldn't immediately discern his cultivation level, which intrigued him.

...

Lu Ping'an and Qin Yi's marriage went very smoothly.

Given that both shared mutual affection.

Lu Ping'an was not some unknown loose cultivator, and his family had clear origins, coupled with his extraordinary talent; Qin Yi wasn't a sword Dao seed destined never to marry outside.

"Flying Snow True Man, this is the engagement gift my family has prepared."

At this moment, Lu Miaoge handed a gift box to Lan Ruoxue.

Since her visit was to propose marriage, the Lu Family naturally prepared engagement gifts.

This not only showed the family's sincerity and importance of the marriage but also represented respect for the bride's side and the Heavenly Sword Sect!

"One Third Rank Top Level Talisman, six Third Rank Superior Grade Talismans, six Third Rank Middle Grade Talismans, and six Third Rank Lower Grade Talismans!"

Lan Ruoxue and the Heavenly Sword Sect Master were amazed upon seeing the gift list.

Third Rank Middle and Lower Grade Talismans were common for the Heavenly Sword Sect.

But Third Rank Superior Grade Talismans were incredibly precious and considered strategic resources!

As for Third Rank Top-Level Talismans, even the Heavenly Sword Sect had limited quantities.

Now, with this substantial engagement gift from the Lu Family, their sincerity was truly immense!

Additionally, with this marriage, the Heavenly Sword Sect would forge a deeper bond with Lu Changsheng, the Jiang Country's top-level talisman master.

If Lu Changsheng could consistently craft Third Rank Top-Level Talismans and advance to Fourth Rank Talisman Master, he would undeniably be among the most esteemed cultivators below the Nascent Soul level!

"Your noble family truly exceeds expectations!"

The Heavenly Sword Sect Master chuckled lightly, saying, "Since this is the case, let's settle this matter, has Miao Ge True Man and Changsheng True Master decided on an auspicious wedding date?"

"Regarding this, my husband and I have not yet decided. We plan to host the marriage ceremony alongside Ping'an's Core Formation celebration."

Lu Miaoge said with a smile, her calm and serene voice releasing a major announcement.

"Core Formation celebration!"

"The child has indeed broken through Core Formation!"

The Heavenly Sword Sect Master and Lan Ruoxue both looked at Lu Ping'an in the distance.

From the first glance, he suspected Lu Ping'an might have broken through Core Formation.

But with Lu Ping'an's cultivation and magical power concealed by magical treasures, there was no excuse for using divine skills or techniques to forcibly investigate.

"Your son has broken through Core Formation?"

Although he had suspected it, the Heavenly Sword Sect Master was still slightly surprised.

Individually, it's normal for Lu Ping'an to break through Core Formation.

Yet in the context of the Heavenly Talisman Lu Family, it feels quite abnormal, defying logic.

Ancestor Lu Changsheng, hailing from a loose cultivator background, achieved the rank of Nascent Soul Immortal in less than a century!

Ten years later, Lu Miaoge, with Lu Changsheng's assistance, broke through Core Formation.

Meanwhile, the Lu Family's Lu Qingshan, joining Yu Country's Jinyang Sect, broke through Core Formation, becoming one of its Nascent Soul seeds.

Now, yet another member of the Lu Family achieved Core Formation.

The growth trajectory of the four, aside from Lu Changsheng, followed logical patterns and can be traced.

However, within the same family, with marital and parental relations, it feels...

Throughout the Jiang Country's Cultivation Realm history, no family has grown to such an extent in mere hundred years, producing so many talented offspring.

"Ping'an ventured out and obtained some opportunities, hence successfully breaking through Core Formation."

### **Chapter 2123: Chapter 702: Demon Fog, Marriage!**

Lu Miaoge whispered in response.

"The noble family sure knows how to raise children well, their fate is deep indeed."

The Heavenly Sword Sect Master did not inquire much further, only expressing admiration.

After all, asking too much about such matters would be quite abrupt.

Moreover, the cultivation world naturally harbors many things that defy logic.

Throughout the long years, countless tales appear absurd, yet they are born with the fate of heaven and earth.

For instance, in the history of the Southern Wilderness, there was once a Nascent Soul Great True Monarch with a Ninth Grade Spiritual Root, who achieved greatness late in life.

Under normal circumstances, a Ninth Grade Spiritual Root finds Foundation Establishment extremely difficult, yet this person dared to defy destiny and reached the peak of the cultivation world!

...

"I've heard that your son Lu Qingshan performed exceptionally well in the Liangyue War, and is one of the few to leave their name on our Heavenly Sword Sect Stele. Would Miao Ge True Man like to take a look?"

After finalizing the marriage, Lan Ruoxue signaled Qin Yi to take Lu Ping'an and the others to tour around the Heavenly Sword Sect, staying for a few days.

"I heard about this in my early years and have always wanted to visit your esteemed sect."

Speaking of her son Lu Qingshan, a touch of maternal emotion flowed in Lu Miaoge's beautiful eyes.

Though she tries to care for all the Bi Lake Mountain Lu Family disciples, the children of her and her sister Lu Miaoge receive a little extra affection.

Soon, they arrived at the Sword Inquiry Platform of the Heavenly Sword Sect, and visited places like the Heavenly Sword Stele for leisure.

"Sister Qin, is there any reward for succeeding in the Sword Inquiry?"

Lu Wangshu asked while looking at the characters on the Heavenly Sword Stele.

Years ago, Lu Lingxiao also received an invitation to the Sword Inquiry from the Heavenly Sword Sect, but he didn't attend.

"If successful in the Sword Inquiry, one may leave a name in the Heavenly Sword Sect, and is welcome to join anytime in the future."

Qin Yi also felt some nostalgia; she hadn't expected the famed Lu Qingshan of early years at the Heavenly Sword Sect was the younger brother of Lu Ping'an.

"..."

Upon hearing this, Lu Wangshu pursed her red lips and thought to herself how stingy the Heavenly Sword Sect is as the overlord of Jiang Country.

It seemed Qin Yi discerned her thoughts and explained that leaving a name in the Heavenly Sword Sect doesn't only mean the sect itself is open, but any sect would willingly welcome such a talent.

And numerous factions would be eager to ally with such geniuses.

Moreover, visiting the Heavenly Sword Sect for Sword Inquiry and combat is already a tremendous gain for many talents.

Lu Wangshu slightly nodded, roughly understanding.

If she succeeds in the Sword Inquiry, not only would her own renown spread across the Jiang Country Cultivation Realm, but her entire family's name would as well.

At that point, they might receive various investments due to that fame.

Yet considering their family already has a good reputation, and engaging in sparring would consume talismans and puppets, she decided it's not worth it.

...

Great Hall of the Heavenly Sword Sect.

"Could this Heavenly Talisman Lu Family also be born with the fate of heaven and earth, as lucky ones?"

"True Monarch once said, whenever a Great Tribulation arrives, it is accompanied by a brilliant Great Era... Over the past century, the Southern Wilderness has seen numerous outstanding talents, confirming the True Monarch's words..."

The Heavenly Sword Sect Master stood with his hands behind him in the hall, eyes slightly narrowed, murmuring to himself.

He has been paying attention to the Heavenly Talisman Lu Family from early on.

Today, with Lu Miaoge visiting with Lu Ping'an to propose, he reviewed all information about Bi Lake Mountain, Heavenly Talisman Lu Family, and Lu Changsheng.

After scrutinizing it thoroughly, there's only one impression: too smooth!

Lu Changsheng's growth trajectory is remarkably smooth, as though he encountered no setbacks or obstructions.

Or rather, he did confront setbacks and obstacles, yet always managed to solve them unexpectedly.

Thus, from analyzing this intelligence, many insights have emerged, revealing that Lu Changsheng gained significant opportunity early on.

As a little cultivator, he always intentionally hid his talents, remained diligent, awaiting the day of Core Formation!

In fact, he suspects that Changsheng True Master might have broken through Core Formation long ago.

The breakthrough in Great Dream Immortal City was merely a disguise.

In reality, he had already ascended in Great Dream Immortal City, both in cultivation level and Talisman Dao skills, surpassing current displays by a level.

Thus, he was able to break through Core Formation and immediately assume the role of Deputy City Lord of Great Dream Immortal City!

"With the Great Tribulation looming, celestial fate scattered across, can our Heavenly Sword Sect secure enough?"

Gazing at the heavenly dome, the Heavenly Sword Sect Master took a deep breath.

War and chaos are the stepping stones to advancement!

According to Xuanjian True Monarch's words, as the Great Tribulation strikes, heavenly fate and spiritual aura will be disturbed and influenced, causing remnants, secret realms, and rare treasures to emerge more easily in the world.

Thus, many little cultivators have chances to gain some opportunity.

Over the years, the Heavenly Sword Sect has endeavored to unite and stabilize the Jiang Country Cultivation Realm to strengthen national power, hoping to seize ample opportunities in the forthcoming era of chaos and Great Tribulation for further progress!

### **Chapter 2124: Chapter 703: Netherworld Map, Gu God Bowl!**

After finalizing the marriage arrangements, Lu Miaoge, Lu Ping'an, and others stayed for seven days before leaving the Heavenly Sword Sect to return to Bi Lake Mountain.

Lu Miaoge also signaled Lu Wangshu to prepare some invitation cards and send them to the Shendao Shangguan Family and some family forces under the jurisdiction of the Heavenly Sword Sect.

As for Qin Yi, she did not return to Bi Lake Mountain with Lu Ping'an and others but would come later together with Flying Snow True Man.

This was also an arrangement by the Heavenly Sword Sect, meant to give the Heavenly Talisman Lu Family and Lu Ping'an enough face.

Otherwise, under normal circumstances, the Heavenly Sword Sect would not spend time and effort on a wedding of this level.

Soon after, the purpose of Lu Miaoge, Lu Ping'an, and others coming to Jiuxiao Immortal City gradually became known.

They were going to the Heavenly Sword Sect to propose marriage!

Miao Ge True Man came to the Heavenly Sword Sect this time to propose a marriage for the Lu Family's eldest son, Lu Ping'an, to marry a disciple of the Heavenly Sword Sect.

Although some forces received invitations and knew the inside story, that the bride was a disciple of Flying Snow True Man of the Heavenly Sword Sect, many people were unaware, and rumors spread wildly.

This led to rumors spreading to the extent that some even claimed Miao Ge True Man came to Jiuxiao Immortal City to take a concubine.

After all, over the years, the rumors about the Lu Ancestor favoring the taking of wives and concubines to have children were still much talked about.

Especially after breaking through to Core Formation, his name spread throughout the Jiang Country Cultivation Realm, known to more people, many cultivators revered the life of Changsheng True Master as a model.

...

Yue Country.

Unknowingly, the Liangyue War had already been ongoing for more than two years.

Although the Heavenly Silkworm True Monarch's magic body was beheaded at the Beast God Mountain of Liang Country, and Yun Mei Monarch of the Barebody Sect was seriously injured, greatly reducing Liang Country's top-level combat power.

But the Nascent Soul True Lords do not easily make a move, and Liang Country possesses a Fourth Rank Beast King, so Yue Country cannot recapture the last few defensive territories.

Facing this situation, Yue Country's Nascent Soul True Lords proposed that both sides send a few Foundation Establishment and Nascent Soul cultivators to duel and decide a victory.

Although Yue Country won the Foundation Establishment duels, the Core Formation level combat now fell into a disadvantage.

"Roar!!!"

At this moment, on the battlefield at the border of Yue Country, a howl from the Nine Nether Purgatory like a Heavenly Wolf echoed through the heavens and earth.

A Heavenly Wolf with a dark purple body, robust in form, was howling, its entire coat shimmering with a deep and mysterious light, glistening like waves.

The sinister and terrifying wolf's head bore a crescent mark at its brow like an eye pupil, emitting a hypnotic light.

Its bloodthirsty mouth, lined with interlocking fangs, was currently clamping down hard on a Middle Grade Magical Treasure, producing a chilling 'crackling' sound, as if trying to bite the treasure to pieces.

"Hiss hiss hiss!!!"

Simultaneously, in the sky above, a woman enshrouded in purple radiance, wearing a short chest band dress, descended from the heavens, attacking the owner of the treasure.

This woman was exceedingly tall, her thick light-purple hair like a cape flying behind her, resembling a supreme battle maiden, sharp and dominating.

Although she was filled with killing intent, the proud elegance of her figure wrapped in the purple chest band, her charming rounded arms like fresh lotus roots, smooth and tender, her wild yet graceful small waist, her long and stunningly fair legs, scattered much of that murderous aura.

There was even a sense that dying at the hands of such a peerless beauty would leave no regrets.

The Nether Moon Saintess, with overwhelming momentum, shattered the layers of air, her pale powerful jade hands wielding a treasure like a Finger Tiger, punched brilliantly with purple radiance, sending the treasure's owner flying with a spurt of blood from the mouth.

Immediately, her well-proportioned, powerfully long and beautiful legs tapped the void, causing ripples, her whole body flying horizontally, her legs like scissors, intending to intercept the owner of the treasure.

No matter how enticing those slender jade legs and feet were, the power seemingly capable of tearing through the void forced the treasure's owner to activate a Life-saving Talisman.

"Long live Her Highness the Holy Maiden!"

The people of the Beast God Mountain from Liang Country saw this scene and shouted excitedly, their eyes involuntarily drawn to the unparalleled figure and long legs of Her Highness the Holy Maiden.

At this moment, the Nether Moon Saintess was enshrouded in purple radiance, her enchanting and undulating silhouette irresistibly alluring, adding an air of untouchable mystique.

The cultivators from Yue Country, seeing this scene, wore grim expressions.

"This Nether Moon Saintess's combat power is indeed extraordinary. With her and the Flood Dragon Saint Son of Beast God Mountain, it seems impossible to break through the defenses in a short time."

On the walls of Yue Country, Lu Qingshan watched the battlefield from afar, his expression serious.

Though his combat prowess is formidable, claiming invincibility at the same level, he had just broken through to Core Formation not long ago and could not affect the overall situation.

In this Core Formation level combat, he didn't even qualify to participate.

"Retreat!"

The Purple Light True Lord of Yue Country gave the order with an indifferent expression.

Through this war, they understood why Liang Country dared to start a war unprovoked.

If it weren't for Jin Kingdom's interference with Jiang Country failing, resulting in the loss of the Heavenly Fiend True Monarch, and unexpected events in the Vast Sand Illusion Realm, Yue Country might have already lost half their territory.

...

Under the respectful, admiring, obsessive, and fervent gazes of countless cultivators, the Nether Moon Saintess returned to the camp.

Sitting lazily in a tiger-skin chair with her skirt-clad legs propped up and crossed, she habitually looked at the maid beside her and inquired, "Xiao Zi, any news of Ying'er?"

The maid called 'Xiao Zi' immediately replied respectfully, "Reporting to Her Highness the Holy Maiden, there is currently no news of Lord Ying'er."

"No news from Ying'er yet?"

The Nether Moon Saintess frowned.

It's been four years since she instructed Ying'er to go to Jiang Country.

### **Chapter 2125: Chapter 703: Netherworld Map, Gu God Bowl!\_2**

Although affected by the war, Ying'er wanted to traverse from Liang Country through Yue Country to Jiang Country, which was extremely dangerous and time-consuming, but four years should be entirely sufficient.

"Could Ying'er have encountered some unexpected incident?"

She adjusted her posture slightly, her thighs outlined by a short purple skirt, displaying graceful and voluptuous curves, very seductive and alluring.

Even the nearby Xiao Zi, although a girl and maid to the Nether Moon Saintess, couldn't help but instinctively glance at the seductive and alluring legs of the lady.

"Just sneaking into Jiang Country once, with Ying'er's skills it's impossible she met with danger. If Ying'er faced danger, the Soul Lamp would warn me, and I would have already received the message."

Ying'er was not a disciple of Beast God Mountain but a trusted aide cultivated by the family for the Nether Moon Saintess, so her Soul Lamp was within the family, and any situation would immediately notify her.

After pondering for a moment, the Nether Moon Saintess instructed the maid to investigate Ying'er's whereabouts and to check if there's been any commotion with the Heavenly Talisman Lu Family over the past two years.

"Yes, Your Highness!"

Xiao Zi responded respectfully at once.

...

Six months later.

Myriad Demon Abyss.

The sky was like ink, with no stars or moon visible, only endless black mist swirling and floating around.

"Roar, roar, roar!!!"

Deep and terrifying roars echoed between heaven and earth, forming vortexes of black holes, giving an indescribable sense of oppression, suffocation, and fear.

A colossal dark flood dragon, a hundred zhang long, and a fierce Ghost King surrounded by black mist, were bursting with immense might, chasing towards two tiny escape lights.

Lu Changsheng's chest pulsed with the Nine Treasures Ruyi Bone, his qi and blood magical power surging, holding the Great Luo Sword Embryo, occasionally striking backward, fleeing with all his might.

Beside him, the attire of the Five Poisons Cult Leader was somewhat torn and disheveled, tightly shielding herself with a long banner.

Although neither of them was seriously injured, they were covered in dust and appeared extremely helpless.

"Screech, screech, screech!"

During this process, the Soul-calling Beast on Lu Changsheng's shoulder constantly emitted a faint yellow glow, only able to slightly alleviate the light coming from all sides.

It was hard to say how long passed, as they approached the outskirts of the Myriad Demon Abyss, the dark flood dragon and the fierce Ghost King roared unwillingly, abandoning their chase.

"Phew!"

Seeing this, Lu Changsheng and Ayoudo found a temporarily safe place to deeply exhale in exhaustion.

"Master, thank you for your hard work."

Ayoudo's small face was pale and weary, expressing a little apology to Lu Changsheng.

The two had delved deep in search of the [Gu God Bowl], eventually arriving at the abyss layer of Myriad Demon Abyss.

Here, Ayoudo finally sensed the qi mechanism of the Gu God Bowl.

But within the abyss, not only did a Fourth Rank Middle Stage dark flood dragon lurk, but also a Fourth Rank Ghost King.

Even faced with this situation, Lu Changsheng and Ayoudo were completely outmatched and had to choose to explode with power for a messy escape.

Fortunately, they possessed many methods, and the help of the Soul-calling Beast in sharing the pressure prevented them from sustaining severe injuries.

"It's alright, finding it is enough."

Lu Changsheng was also panting, his face pale and weary.

If this continued, he planned to invoke his Nirvana Divine Ability.

At this moment, the Soul-calling Beast, seeing the crisis resolved, squealed 'squeak, squeak,' indicating its desire to sleep.

"Sleep now."

Lu Changsheng placed it back into the Qiankun Shadow-Confining Belt.

The successful escape was largely thanks to the Soul-calling Beast paving the way.

After half a year of consuming and digesting, the Soul-calling Beast was closing in on Third Rank Top Level.

If not for insufficient time, once it fully digests and grows to Third Rank Top Level, even Quasi-Fourth Rank, Lu Changsheng would face the Fourth Rank dark flood dragon and Fourth Rank Ghost King without such embarrassment.

Thus, Lu Changsheng planned, once the Soul-calling Beast finishes digesting during its slumber, to bring it to the Myriad Demon Abyss again and achieve Fourth Rank as quickly as possible!

After all, compared to the Golden-Winged Heavenly Peng and Sea Splitting Mysterious Dragon Whale, this Soul-calling Beast was truly easy to raise!

Once the latter ascends to Fourth Rank, it could sweep through the Myriad Demon Abyss, and might even continue to grow!

...

After the two rested for a while.

"Master, besides the [Gu God Bowl], these are some other treasures and spiritual materials I obtained in the dark flood dragon's nest; this map also seems like a fragment of a spiritual treasure."

This moment, Ayoudo presented all the gains from before.

In the Myriad Demon Abyss, there is a lack of Heavenly Spirit Medicine. Even if there were, these would be devoured by the fierce beasts and Ghost Kings, so there is mostly rare crystal mines.

Besides the Gu God Bowl, there is also an ancient painting scroll as black as ink, depicting the Nine Netherworld.

"Oh?"

As a Third Rank Top Level Refiner, Lu Changsheng glanced at it briefly and could tell that this scroll is of extraordinary quality, definitely belonging to the Spiritual Treasure level.

He raised his palm lightly, letting the scroll fall into his hand, and slightly injected mana into it. Instantly, the Nine Netherworld seemed to start flowing, with demonic energy surging.

However, as the mana flowed, one could see many subtle cracks on the scroll.

"It is indeed a Spiritual Treasure, of superior quality, but it has appeared to become damaged, and being in the Myriad Demon Abyss for too long, it has been long-term eroded by fierce demonic energy, leading to complete loss of spirituality, with an excess of demonic aura."

After careful scrutiny, Lu Changsheng said somewhat regretfully.

At its prime, this Netherworld Map was estimated to be a Middle Grade Spiritual Treasure.

But due to the wear, the Artifact Spirit was completely obliterated, and the demonic aura was too heavy, barely making it a Low Grade Spiritual Treasure.

Unless he replicates the "Twelve Capital Demon Divine Technique", it would not suit him.

"However, with Tihun, it could absorb as much of the demonic and evil energy from this ancient painting as possible, then find a way to repair it, making it a decent Low Grade Spiritual Treasure."

As a top-level refiner, Lu Changsheng immediately formulated a rough repair plan in his mind.

This time in the Myriad Demon Abyss, he harvested quite a few Fourth Rank Demon Path Spiritual Materials.

Once the time is ripe, he could utilize his towering wisdom, unparalleled comprehension, peerless talent, to enhance his Artifact Refining Skills to the Fourth Rank, thus repairing this Spiritual Treasure.

But thinking about his towering wisdom, comprehension, and talent, still being required for Talisman Making, Formation, Dragon Seeking, and Divination, Lu Changsheng couldn't help but shake his head.

"So this is the Gu God Bowl?"

He looked at the Gu God Bowl, dark and almost black, its surface engraved with various symbols and patterns.

Like the Netherworld Map, the [Gu God Bowl] also had some damaged cracks.

And in the ghost energy, demonic energy, evil energy, and turbid energy of the Myriad Demon Abyss, its spirituality was obliterated, with excessive yin and demonic aura.

"Hmm, this indeed is the Supreme Treasure [Gu God Bowl] recorded in the teachings, but it seems it must be nurtured anew to barely be usable."

Ayoudo said tenderly.

However, she was already very satisfied to have found this Supreme Treasure of the teachings.

"Later, I'll have Tihun cleanse the demonic and ghostly energy of this bowl, making it much easier for you to nurture it."

Lu Changsheng spoke up, knowing that the excessive yin and demonic aura would be troublesome for cultivating Gu insects.

"Thank you, Master."

After more than half a year in the Myriad Demon Abyss, Ayoudo gained a sense of sincere submission to Lu Changsheng, even a trace of admiration and attachment in her eyes and words.

Besides their secret realm explorations and mutual reliance, the effect mostly stemmed from the Seven Absolute Love Gu.

Otherwise, making a Demon Path Nascent Soul Sect Hierarch fall wholeheartedly in love with someone would indeed be exceedingly difficult.

"It's a trifle."

Lu Changsheng looked at the trace of emotion and attachment in Ayoudo's eyes, knowing that his efforts over the past six months had not been in vain.

Ten days later, when the mana of both of them had mostly recovered, they quietly left the Myriad Demon Abyss and returned to the Five Poisons Cult.

In a Nascent Soul Level Power like the Five Poisons Cult, Ayoudo's closed-door cultivation for more than half a year had no impact whatsoever.

Therefore, upon returning, Ayoudo did not appear publicly but engaged with Lu Changsheng in dual cultivation for healing.

...

A few days later, the ornate and exquisitely furnished Sect Hierarch's bedchamber was a mess again.

"Mm~"

The Five Poisons Cult Leader's fair and jade-like arm hung powerlessly by the purple jade bed, lazily sighing weakly.

Two crystal-clear and immaculate white toes curled tightly together.

Looking at the pear blossom with rain-like weeping Ayoudo, Lu Changsheng felt a wave of guilt.

Though he rarely felt such guilt towards his other wives and concubines, it was particularly severe with Ayoudo.

Soon after, he quietly embraced her vaguely indistinct dreamlike jade body.

Ayoudo said nothing, like a pure and pitiable charming young girl, quietly snuggling within Lu Changsheng's arms.

Her slightly baby-fat, exquisite face blushed like clouds, indescribably breathtakingly beautiful.

Just then.

The outer door of the bedchamber opened, with light footsteps and the fine sound of bells ringing.

### **Chapter 2126: Chapter 704: Ayoudo Wants to Have a Child!**

"Hmm?"

Lu Changsheng narrowed his eyes slightly and extended his Divine Sense to observe.

In his embrace, Ayoudo exhaled softly, whispering two words: "Come in."

Moments later, a tall woman adorned in traditional attire of the Five Poisons Cult, with a silver crown hairpin entwining her silky black hair, entered the bedchamber.

Upon witnessing the scene in the bedchamber, she froze, her beautiful eyes filled with confusion and shock.

Especially the sight on the bed, where the Sect Hierarch... like this...

However, as a loyal confidante personally nurtured by the Five Poisons Cult Leader, she remained unwavering in her loyalty to Ayoudo, never questioning, forcibly suppressing her inner doubts and fears, she bowed deeply: "Yina greets the Sect Hierarch!"

"Yina, come and serve the Master."

The Five Poisons Cult Leader slightly raised herself to gaze at the woman, her flushed face and mysterious eyes suddenly carrying a hint of authority.

"Yes, Sect Hierarch."

Yina hesitated slightly, glancing at Lu Changsheng's valiant, scholarly face and the graceful curves of his muscular physique, ultimately choosing to obey unconditionally.

"???"

Having been in the Five Poisons Cult for so long, Lu Changsheng understood a bit of the situation.

This woman named Yina was one of the protectors of the Five Poisons Cult.

Ayoudo's trusted assistant.

Previously, when both headed to the Myriad Demon Abyss, the affairs of the sect were managed by Yina and Nangong Mili.

Unexpectedly, Ayoudo now called upon Yina, her trusted aide, to serve him, it was quite abrupt.

"Master, Yina is personally trained by me, let her serve you..."

Faced with Yina, under Ayoudo's authoritative gaze, yet appearing as a charming, reliant young woman to Lu Changsheng.

She called upon Yina to serve Lu Changsheng, not simply to curry favor.

Firstly, Lu Changsheng's Fourth Rank Physique was too overwhelming, even she, as a Nascent Soul Cultivator, struggled to handle it, thus calling Yina to share the burden.

Secondly, for Lu Changsheng helping her retrieve the [Gu God Bowl], there was no way to repay him.

Considering Lu Changsheng's Supreme Dragon Emperor Dao Body and Yin Yang Great Dao, she decided to offer Yina, personally trained by her and possessing maiden Primordial Yin, to Lu Changsheng.

Of course, beyond these two reasons was the hope that Yina might bear Lu Changsheng's child.

Due to early cultivation technique issues, she struggled with pregnancy, unable to conceive offspring.

But through Nangong Mili, from the past incident involving Lu Quanzhen and the Yiming Ghost Sect, she learned Lu Changsheng valued offspring highly.

Therefore, she wished to bear several children for Lu Changsheng to further strengthen their relationship.

Given that Lu Changsheng possessed the Supreme Dragon Emperor Dao Body, the offspring he bore with Nangong Mili were exceptionally talented, hence any offspring with her would surely possess extraordinary aptitude!

Since she was temporarily unable to conceive, unable to bear offspring, she called upon her trusted aide.

Even if Yina were favored, she wouldn't shift loyalty like Nangong Mili, remaining steadfastly loyal to her!

Lu Changsheng remained silent, gazing at the slightly reserved Five Poisons Cult protector before him.

At this cultivation level, naturally few would be unattractive.

Yina's appearance, while not equalling Nangong Mili, nor the current state of the Five Poisons Cult Leader, was certainly exquisite.

Sleek, cascading black hair fell to her slender waist, adorned with an elegant, luxurious silver crown.

On the crown, intricate patterns of butterflies and flowers were vividly lifelike, embellished with bright blue, purple, and red gemstones.

Strands of black hair naturally fell from both sides of the crown, smooth and shiny, tied with colorful ribbons, highlighting her wheat-colored face, making it look exceptionally refined and noble.

Yina's eyes wide and deep like the darkest stars in the night sky, profound and bright, irresistibly captivating.

Her eyebrows slender and slightly raised like spring willow leaves, exuding vitality, her nose straight, lips full, adding a touch of dignity and grace to her face.

Beneath the exotic attire of the Five Poisons Cult protector, it was evident her figure had appealing curves.

Seeing Yina beside the bed, beginning to shed her attire, Lu Changsheng didn't hesitate, grasped her slender, strong hand, directly pulling her into his arms, saying: "No need to undress."

Admittedly, the Five Poisons Cult's robes had their unique appeal.

Although he had experienced this through Nangong Mili.

Compared to Nangong Mili, however, Yina's protector robe was even more splendid and elegant.

Especially around the waist and the hem of the skirt, decorated with a circle of fine, delicate silver bells.

As she swayed, the bells chimed lightly, exuding unique charm.

The Five Poisons Cult Leader watched as Lu Changsheng began to dominantly claim Yina's tender lips, inexplicably feeling a hint of jealousy in her heart.

...

After that, Lu Changsheng diligently cultivated within the Five Poisons Cult's bedchamber.

After unleashing the Mystic Dragon Nirvana Pill's potency and dual cultivation with Azure Phoenix True Monarch, his physical body and mana had reached the Third Rank's absolute limit, advancing no further.

But by breaking through to Fourth Rank Body Refinement, and undergoing Heavenly Tribulation Tempering Body, his meridians and Qi Ocean Core had grown more robust and resilient.

Through dual cultivation with Yina, under her Core Formation Late Stage's maiden Primordial Yin, Lu Changsheng filled his expanded Qi Ocean Core to its maximum capacity.

In this scenario, Lu Changsheng reciprocated, nourishing and empowering the Five Poisons Cult protector with the remaining Yin-Yang Source.

"The Master may leave offspring to inherit the Five Poisons Cult..."

At this moment, Ayoudo expressed her desire to bear offspring.

Having gone this far, naturally, Lu Changsheng wasn't hesitant about fathering children.

Although Yina wasn't a Spiritual Body, she possessed an Earth Spirit Root and Core Formation Late Stage cultivation level; if she bore offspring, it would be quite promising.

## **Chapter 2127: Chapter 704: Ayoudo Wants a Child! (Part 2)**

Although there are Ayoudo and Yina, Lu Ancestor is deeply attached to the past and naturally won't forget Nangong Mili.

Seeing the Five Poisons Cult's Leader, protector, and envoy share the bed with him, Lu Changsheng actually feels as though he's disrupting the harem.

...

Perhaps it's because of the breakthrough to Fourth Rank Body Refining, Lu Changsheng, together with Ayoudo, Yina, and Nangong Mili, cultivated for over a month.

During this time, most of the Yin Yang Essence was bestowed upon Yina, yet she still did not become pregnant.

For this reason, even the Five Poisons Cult Leader was preparing to cultivate a few Gu Insects to increase the probability of pregnancy for Yina.

However, Lu Changsheng thought that it has been a year since he went out, it was time to return, and decided to stop cultivating.

He mentioned that Ayoudo could take time to cultivate a few Gu Insects to enhance pregnancy probability and that he would come over next time.

Soon after, Lu Changsheng placed some Heaven and Earth Spiritual Material obtained from the Myriad Demon Abyss in the Five Poisons Cult.

Then he scoured through the Five Poisons Cult's treasure vault for the Heaven and Earth Spiritual Material, elixirs, and poisons he could use, and set off for Bi Lake Mountain.

Jiang Country.

These days, two matters have been widely discussed in the Jiang Country Cultivation Realm.

The first matter is that a disciple of the Xu Family, who was training outside, broke through to Core Formation!

The second event is that the eldest son of the Heavenly Talisman Lu Family returned from his travels, having broken through to Core Formation while away, and is now preparing to marry the Heavenly Sword Sect's disciple of True Man of Flying Snow.

Breaking through to Core Formation, anywhere this happens is considered a big news worth celebrating.

And now, the two major families under the Qingyun Domain, the Beast Taming Xu Family and the Heavenly Talisman Lu Family, simultaneously have their disciples

achieve Core Formation outside, immediately elevating the spread of these messages to another level.

"The Beast Taming Xu Family has such deep foundations, yet hadn't seen a Nascent Soul Cultivator for many years; I thought they were going to fall, but unexpectedly, they've risen so suddenly."

"You can't say they've fallen. These Core Formation Powers, the moment a newly advanced Nascent Soul Immortal breaks through, wouldn't spend massive resources nurturing a new Nascent Soul Cultivator for two hundred years to prevent family extinction."

"Tut tut tut, the Heavenly Talisman Lu Family... another Nascent Soul Immortal appears, four in one family, simply...."

"Four Core Formations in one family, a Dual Core Formation couple, a Triple Core Formation father and son, such grandeur is rarely seen even in the Jiang Country Cultivation Realm, right?"

"Now that this Lu Family's eldest son is marrying the esteemed disciple of the True Man of Flying Snow, doesn't this mean the Heavenly Talisman Lu Family is not only connected with Qingyun Sect and the Great Dream Immortal City, but now also with the Heavenly Sword Sect?"

"I wonder what Qingyun Sect thinks now, given their circumstances, they can't possibly accommodate the current Heavenly Talisman Lu Family."

"I've heard that when the True Man Miaoge went to the Heavenly Sword Sect to propose for Lu Ping'an, the Fairy Wangshu, who inherited the Talismanic Inheritance of Changsheng True Master, defeated the Shangguan Family genius Shangguan Poyun, and might break through to Core Formation in the future..."

"Earlier I thought there would be a great clash between the Heavenly Talisman Lu Family and the Beast Taming Xu Family, but looking at it now, it seems unlikely they'll fight."

The whole Jiang Country Cultivation Realm is discussing these matters.

But compared to the Beast Taming Xu Family giving birth to a second Nascent Soul Cultivator, the Heavenly Talisman Lu Family's four Core Formations are even more astonishing.

For those under the Qingyun domain who heard this news, it left every person dumbfounded.

Four Core Formations in one family, isn't it too exaggerated!

In the past, when Lu Qingshan broke through Core Formation, it was explained that he was a disciple of the Jinyang Sect, and not raised by the Lu Family, thus not closely related, just a fortunate coincidence.

But this Lu Ping'an was raised by the Lu Family.

These times, Bi Lake Mountain is bustling, with cultivators visiting in an endless stream.

And the Lu Family has already begun preparations for Lu Ping'an and Qin Yi's wedding.

This wedding can be said to be more lively than Lu Changsheng's Core Formation ceremony.

Enough to rival the Dao Companion ceremony of Lu Changsheng and Xiao Xiyue.

This not only elevates the Heavenly Talisman Lu Family's status in Jiang Country to another level but also signifies the prestige of the Heavenly Sword Sect, an overlord-level power in Jiang Country.

As the person involved, Lu Ping'an remains quite low-key.

Besides being called by Lu Wangshu to visit the Profound Martial Ridge upon returning, his days are spent cultivating, using the [Cave Mystique Treasure Mirror] to assess the cultivation of Lu Family disciples.

Although his cultivation experience isn't considered very deep, as he himself is still contemplating the "Dragon and Tiger Fighting Technique" and "Nine Cicadas Undying Golden Body."

When a cultivator breaks through to a Great Realm, comprehension and understanding naturally rise to another level.

So he's only instructing the Lu Family's Qi Refinement and Foundation Establishment disciples, which poses no problems.

During this teaching process, Lu Ping'an also effectively reinforces his foundation, benefiting immensely.

Bi Yun Peak.

Qu Zhenzhen looked at Lu Ping'an, who was not far away, seriously instructing the Lu Family disciples, with a gratified expression.

It feels like the latter is my ideal son.

Sensible, obedient, uniting the family, knows how to establish a family.

She didn't pay much attention, leisurely heading to Bi Yun Peak's Summit, calling out to Mount Sumeru: "Senior Sumeru."

In an instant, a small palm-sized bottle, entirely jade green with leaf patterns imprinted on the surface and emitting a faint jade glow, descended.

"Thank you, Senior Sumeru."

Qu Zhenzhen took the Myriad Spirits Bottle, passed through the tunnel, and entered the underground palace planted with the Mysterious Heaven Spiritual Vine.

Although decades have passed, the Mysterious Heaven Spiritual Vine still looks almost the same as when initially planted, except for being slightly more lush, with no substantial differences.

In contrast, the Xuanwood Vine beside it had transformed remarkably, filled with vitality, covered in lush green vine leaves, and a fist-sized dark green fruit had formed.

Qu Zhenzhen looked at the Xuanwood Vine before her, first watering it with some Spiritual Liquid, then infusing vitality into it through the "Heavenly Longevity Technique."

After finishing, she dripped the Myriad Spirits Heaven Dew condensed by the Myriad Spirits Bottle onto the Xuanwood Vine.

"Buzz—"

Vivid and shimmering, the soybean-sized Myriad Spirits Heaven Dew instantly melded into the Xuanwood Vine, causing vitality to surge, filling the Xuanwood Vine with a tremendous life force.

Afterward, Qu Zhenzhen just watched nearby as the Xuanwood Vine absorbed the Myriad Spirits Heaven Dew.

Though it's been so many years, there's definitely no problem.

But she still calculated the time, watching each time as the Xuanwood Vine absorbed the Myriad Spirits Heaven Dew.

Three days later.

The Xuanwood Vine, teeming with vitality, suddenly trembled, as if inhaling the essence of heaven and earth, sun and moon, gathering spiritual energy and essence energy from all directions.

"What's happening?"

Qu Zhenzhen immediately looked at the Xuanwood Vine, observing closely to see intricate and profound patterns gradually flowing and interweaving on its vines.

"Buzz buzz buzz—"

As the Xuanwood Vine trembled, the long-static Mysterious Heaven Spiritual Vine also began to tremble, and the surging life force and essence energy it emitted all flowed into the Xuanwood Vine.

Moreover, the patterns on the vine radiated a crystalline brilliance, seemingly forming some miraculous trajectory with the Xuanwood Vine.

"Senior Sumeru, what's going on?"

Qu Zhenzhen immediately asked Mount Sumeru.

Due to the Auspicious Tree, she shared a unique closeness with the Mount Sumeru Tree King and often chatted with him.

"Maybe...it's maturing?"

Though Sumeru possessed spiritual intelligence, the levels of the Mysterious Heaven Spiritual Vine and the Xuanwood Vine were too high for even it to understand, so it only concealed the commotion.

"Whoosh whoosh whoosh—"

As the Xuanwood Vine gathered essence energy from heaven and earth, resonating with the Mysterious Heaven Spiritual Vine, forming a miraculous trajectory, its vine leaves began to burn and disintegrate, transforming into sparkling crystalline brilliance flying into the fruit.

"Has the fruit matured...?"

Seeing this, Qu Zhenzhen's beautiful eyes were filled with uncertainty.

Based on the steps of sprouting, flowering, and fruiting, the current situation is most likely fruit maturation.

But when does a fruit mature in such a manner?

"My husband mentioned before that the Xuanwood Vine is the companion spiritual plant of the Mysterious Heaven Spiritual Vine. Once the fruit matures, it might obtain a treasure just like the Mysterious Heaven Spiritual Vine."

"And once this fruit condenses, the Mysterious Heaven Spiritual Vine will dissipate. Does this mean this Xuanwood Vine will also? But what kind of commotion does the Mysterious Heaven Spiritual Vine exhibit?"

With Lu Changsheng not at home, Qu Zhenzhen couldn't inform him, dared not act rashly, and could only quietly watch from the side.

As all the vine leaves burned away and merged into the fruit, the vine of the Xuanwood Vine gradually began to ignite, turning into sparkling points that merged into the fruit.

During this process, the dark green fruit grew ever more radiant, covered with unknown patterns.

"I wonder what treasure it will be; if it's the gourd my husband wants, that would be wonderful."

Qu Zhenzhen looked at the fruit before her, eyes full of anticipation, speaking.

Previously, when she heard Lu Changsheng introduce the Mysterious Heaven Spiritual Vine, she curiously inquired what treasure he desired.

He mentioned wanting a fourth or fifth rank gourd the most.

So she silently prayed in her heart, keeping watch on the fruit's maturation.

### **Chapter 2128: Chapter 705: Fifty Children Establish Their Foundations, Goddess Furnace!**

Under Qu Zhenzhen's gaze, all the green leaves and vines of the Xuanwood Vine transformed into sparkling dots, falling into the dark green fruit.

This fruit seemed to undergo the alternation of life and death, with various anomalies appearing. Radiance shimmered like a sky full of stars, absorbing the essence of heaven and earth, shrouded in a mist of clear energy, surrounded by resplendent rays.

But in the next moment, it seemed as if the heavens and earth were in silent oblivion, beginning to wither and decay, deathly still, causing the spiritual energy of the underground palace to become chaotic, fluctuating between light and dark.

The Mount Sumeru Tree King cast a gentle golden radiance, shining upon Qu Zhenzhen, to prevent any accidental harm from the Xuanwood Vine Fruit.

Like the all-encompassing Buddha Light, the Sumeru Light made Qu Zhenzhen feel serene and natural, her mind in a state of tranquility.

It was as if she could discern a few strands of mystical Dao resonance from the life-death alternation of the fruit before her.

As she watched intently, she noticed that this trace of Dao resonance resembled the patterns on the Mysterious Heaven Spiritual Vine, as if they shared the same origin, only clearer.

Everything wilts, withers, decays, returning to the origin, from movement to stillness, then the cycle of life and death rotates, gaining new life, growing from infancy, flourishing, and then withering to silence.

Growth and decay, destruction and prosperity, seem to outline lines of Dao patterns in the heavens and earth.

Qu Zhenzhen's pupils reflected the patterns, as the alternation of life and death of the fruit went from bright splendor to dim and dull.

"Buzz!"

No one knew how much time had passed when the fruit suddenly trembled violently, fissures appearing, bursting with dazzling splendor, illuminating the entire underground palace as if it were daylight.

Then, the cracks rapidly spread, covering the entire surface of the fruit, accompanied by a delightful, crisp sound, as if the fruit had established some resonance with the heavens and the earth.

As the fruit's shell peeled away, it transformed into glistening light specks, drifting in the air like a brilliant rain, falling upon Qu Zhenzhen, the Mysterious Heaven Spiritual Vine, the Five Elements Soil, and the Bi Yun Peak Spiritual Vein.

"Buzz!"

The Mount Sumeru Tree King at the Bi Yun Peak's summit seemed to sense something, its roots in the spiritual vein extending to absorb the scattered light specks.

"Hmm~"

Qu Zhenzhen opened her eyes, her expression dazed, feeling she had just been in a mystical state, with some Secret Art Technique imprinting in her mind.

Looking at the crystalline light rain before her, she didn't know why, she just felt extremely comfortable, the "Heavenly Longevity Technique" operating on its own with great speed.

But thinking of the Xuanwood Vine Fruit's maturation, she quickly awoke, looking ahead.

She saw the fruit, with its shell peeled away, transformed into a cluster of dazzling brilliance.

"What is this?"

Qu Zhenzhen wanted to see clearly.

As the light gradually faded, a gourd the size of a baby's fist, exuding a jade green luster as if condensed from the spiritual essence of heaven and earth, appeared.

"A gourd, the gourd my husband wanted!"

Qu Zhenzhen looked at the small gourd before her, her face instantly filled with joy.

"But this gourd is so small, can my husband use it..."

Looking at the gourd only the size of a baby's fist, Qu Zhenzhen felt a bit worried.

Although she has cultivated the "Heavenly Longevity Technique," she has never left Bi Lake Mountain all these years.

But with the increasing volumes in the Lu Family's library, her children and juniors often entertain her with stories from the Cultivation World, so she knows the requirements for crafting Magical Treasures and artifact embryos.

The gourd before her seemed to understand her words, growing slowly under the light's embrace until it reached over half a foot in size, the light completely dissipating, quietly resting on the ground.

Qu Zhenzhen reached out to pick up the gourd before her, but found it heavy; she had to use both hands to lift it.

Upon close inspection, the gourd was a rich, vibrant green, full of life, like the tender buds of a mountain forest in early spring, vivid and lustrous.

However, across this verdant surface were scattered some unknown purple-black patterns, similar to those on the Mysterious Heaven Spiritual Vine.

Despite these patterns, it felt warm to the touch, neither like jade nor wood, neither like gold.

"This gourd is truly beautiful."

Qu Zhenzhen couldn't help but praise.

The Cultivation World loved using gourds as containers, for holding alcohol or Elixir Medicines, and so forth.

But among all the gourds she had seen, Qu Zhenzhen had never seen one so beautiful.

Not only was the color radiant and warm, but the texture was natural, fitting perfectly, and its shape was absolutely perfect, possessing an indescribable grace.

The gourd's body was round and full, tapering elegantly to form a slender neck, with curves that were smooth and harmonious.

Looking at the gourd's mouth, it seemed meticulously polished, smooth and round, encircled by a dreamy and delicate halo.

When holding this gourd, Qu Zhenzhen even felt entirely comfortable, as if she was enveloped in a warm, cozy sensation.

"Sumeru elder, do you know this gourd's grade?"

Qu Zhenzhen immediately asked Mount Sumeru.

Though her theoretical knowledge was good, she could only guess that this gourd was of high grade, but couldn't determine precisely.

"Fourth rank... top-grade..."

Mount Sumeru, after sensing briefly, spoke with an ethereal and mystical voice.

Being a Spirit Plant, Sumeru was quite sensitive in this regard.

"Only fourth rank top-grade, huh."

Qu Zhenzhen said somewhat regretfully.

While fourth rank top-grade already counts as a Heaven and Earth Treasure in the Cultivation World, Qu Zhenzhen felt it wasn't quite sufficient for her husband.

Nevertheless, looking at the gourd in her hands, her lips curled into a smile, and her beautiful eyes shone with joyful anticipation.

Full of delight, she imagined Lu Changsheng's expression of surprise upon seeing the gourd.

Meanwhile, within the Mount Sumeru Cave Heaven.

"What's going on?"

Ling Zixiao, who was in closed-door cultivation, sensed something and walked out of the Changsheng Hall.

He saw the spiritual energy in the Cave Heaven surging wildly, the plants, air gaining a touch of freshness, and ethereal quality.

### **Chapter 2129: Chapter 705: 50 Children Establish Foundation, Goddess Furnace! (Part 2)**

"Mount Sumeru senior, has something happened?"

Ling Zixiao asked the Mount Sumeru Tree King.

"Nothing... I acquired some innate qi and am further perfecting the Cave Heaven origin..."

Mount Sumeru responded to Ling Zixiao, unaware of what the sparkling light points emanating from the Xuanwood Vine Fruit were, only feeling it was some kind of innate qi beneficial to himself.

Seeing this innate qi about to return to the roots of heaven and earth, he absorbed it to further enhance his Cave Heaven.

"Innate qi?"

There are many interpretations of innate qi, like the origin qi of all things in heaven and earth can be called innate qi.

Ling Zixiao did not continue to ask and walked out of the Cave Heaven to see the situation.

...

Lu Changsheng was sitting cross-legged on the Golden-Winged Heavenly Peng, traversing the Myriad Beasts Mountain Range.

Suddenly, a system prompt sounded in his mind.

[Congratulations to the host for fifty descendants breaking through to the Foundation Establishment Stage, gaining a bloodline effect: 3% increase in spiritual body inheritance rate, and obtaining one advanced lottery chance!]

"Hmm? Fifty already?"

Lu Changsheng was slightly startled, feeling somewhat dazed himself.

With so many children at home, he had paid little attention over the years, and couldn't even remember the exact number of Foundation Establishment breakthroughs.

However, after careful thought, aside from earlier children with no spiritual root or poor quality spiritual roots, most of those born after he established Bi Lake Mountain have broken through to Foundation Establishment.

"Fifty Foundation Establishment..."

Lu Changsheng was quite emotional.

No matter where you place it, having fifty Foundation Establishment cultivators is quite impressive.

After all, in the Qingyun Domain, having a Foundation Establishment cultivator allows one to establish a power and become an ancestor.

With three to five Foundation Establishment cultivators, it's considered a large Foundation Establishment power, an old noble family.

Having around ten Foundation Establishment cultivators usually qualifies as a False Core Level family.

"For a Core Formation noble family, possessing fifty or sixty Foundation Establishment cultivators is normal, but...."

As the family patriarch, Lu Changsheng naturally knew how these Foundation Establishment cultivators were nurtured.

Entirely by spending money.

Otherwise, following the cultivation methods of other Foundation Establishment families in the Qingyun Domain, achieving even half, or a third, or a quarter of the Foundation Establishment breakthroughs among Lu Family disciples would be good.

"Except for Minghuang and Mu Que, it's unlikely for anyone else in the family to reach Foundation Establishment, right...?"

Lu Changsheng pondered slightly, remembering that except for his son Nangong Minghuang and daughter Mu Que, the other children were either too old, making Foundation Establishment hopeless, or had already broken through to Foundation Establishment.

"It's time to settle down a bit."

Lu Changsheng exhaled lightly, feeling the need to give birth to a few more remarkable children while there was still time.

Otherwise, at the Fourth Rank Body Refinement and Core Formation Peak, it would be challenging to conceive.

Once he breaks through to Nascent Soul, he might have to rely on elixir medicines and secret techniques to quickly have more children.

"System, lottery!"

Lu Changsheng slightly focused his mind and silently commanded.

Instantly, a deep red advanced lottery wheel appeared, with a brilliant golden light emerging and rapidly spinning.

After three breaths, the golden light paused and stopped on the 'Spiritual Pet Treasure' reward section.

[Ding! Congratulations to the host for obtaining a spiritual treasure: Goddess Furnace!]

[Reward has been issued to system space, host can check it at any time]

An exquisitely small, goddess-reclining-like ancient furnace emerged from the lottery wheel, accompanied by a system prompt sound.

"Spiritual treasure!"

Lu Changsheng slightly raised his eyebrows.

Although he possessed four spiritual treasures.

Except for the [Michen Banner] which he could use, the other three were either damaged or ill-gotten, unsuitable for himself.

So he also hoped to obtain a few suitable spiritual treasures through the system.

"But the name of this spiritual treasure, why is it so strange...."

Lu Changsheng looked into the system space.

[Goddess Furnace]

[Grade: Middle Grade Spiritual Treasure]

[Description: A spiritual treasure modeled after the supreme treasure of the Desire Sect by a amorous young master, containing the law of human desire, able to affect others' emotions, thoughts, and desires; once taken into the furnace, subjected to the erosion of the law, they will have their minds distorted and fall into depravity]

"???"

Looking at the spiritual treasure's description, Lu Changsheng was flabbergasted and couldn't help but frown.

What the heck?

He wanted a magical robe, armor, or some defensive spiritual treasure.

But what is this thing?

Once taken into the furnace, it will distort one's mind into depravity?

Isn't this just like the Love Gu's influence?

Lu Ancestor has always been upright, how would he need such methods!

"Amorous young master, Desire Sect... Damn, it doesn't sound righteous at all."

Lu Changsheng inwardly grumbled, but still extracted the spiritual treasure to see the specifics.

"Buzz!"

Instantly, a delicately small, fist-sized, beautifully contoured ancient furnace appeared, resembling a reclining goddess.

The furnace body seemed metallic and non-metallic, jade-like and non-jade, extremely fine and flowing with misty, ethereal light, lending the furnace an extra touch of ephemeral celestial aura.

Looking at the appearance of the furnace, Lu Changsheng sighed and shook his head.

The Goddess Furnace before him matched the description fairly well.

Its primary function was to use the law of human desire to interfere with and influence others' emotions, thoughts, and desires, achieving control over them.

This law of human desire, aside from use inside the furnace, could also be forcibly activated to impact others.

As for capturing individuals in the furnace, apart from deploying the spiritual treasure, it could imprint the target's blood, hair, or tokens in advance to enhance its potency.

Apart from these, this Goddess Furnace had no other effects or powers.

No, the only thing might be that this Goddess Furnace can also serve as a Cave Heaven treasure, storing people or minor items inside.

But once placed inside, even without activation, they would still fall under the influence of the law of human desire within the furnace.

"Alas, such a spiritual treasure in my hands is doomed to be left on a high shelf, gathering dust."

### **Capítulo 2130: Chapter 705: 50 Children Reach Foundation Establishment, Goddess Furnace! (Part 3)**

Lu Changsheng shook his head and sighed, feeling that he had wasted an advanced lottery draw.

However, after thinking it over, he realized this Goddess Furnace wasn't completely useless.

For instance, his "Six Desires Heart Demon Technique" could use the Desire Law of the Goddess Furnace to cultivate.

If that didn't work out, he could place it in his cave mansion as an incense burner, adding some atmosphere while dual cultivating with his wives...

With no further thoughts, Lu Changsheng stored the Goddess Furnace back into his storage ring and continued on his journey.

...

A month later, Lu Changsheng returned quietly to Bi Lake Mountain.

Possessing a Nascent Soul Level Soul, he instantly saw his family now bustling with celebratory excitement, apparently preparing for a celebration.

No need to think, it was most likely for his son Lu Ping'an's wedding.

"Looks like I made it in time."

Although Lu Changsheng hadn't returned, the Thousand Faces Puppet Fox could temporarily stand in for him.

But it was, after all, his son's marriage. If conditions allowed, he would certainly attend in person.

Upon arriving at the Lu Family Mansion, Lu Miaoyun saw him and immediately greeted joyfully, "Husband!"

"Yun'er."

Lu Changsheng smiled and stepped forward, asking how long until the celebration.

"Two and a half months left."

Lu Miaoyun immediately replied.

Back then, Lu Changsheng had said he was going to Jin Kingdom and would return in at most a year.

Therefore, Lu Miaoge had arranged the marriage at the Heavenly Sword Sect and did not delay for too long.

"How are the arrangements going now?"

Lu Changsheng held his wife's jade hand and sat down beside her.

"Everything is ready; many guests have already arrived..."

Lu Miaoyun detailed the arrangements to Lu Changsheng.

"You all have worked hard."

Lu Changsheng said with a smile, then asked about any happenings in Jiang Country during these days.

"The Xu Family produced a Nascent Soul cultivator?"

Upon hearing that the Beast Taming Xu Family had produced a famous Nascent Soul cultivator, Lu Changsheng raised his eyebrow slightly, unsurprised.

He had previously had Ling Zixiao gather information about the Beast Taming Xu Family, believing that if not for the Qingyun Sect, Xu Family would have cultivated a second Nascent Soul cultivator long ago.

Now that a second Nascent Soul cultivator appeared, it was simply because the Elder Ancestor of the Xu Family had little life left and needed a new Nascent Soul cultivator to guard the family.

In fact, Lu Changsheng suspected that this Nascent Soul cultivator had long since broken through, only appearing now.

“Xu Tiandu?”

However, upon hearing the name of this True Man from the Xu Family, Lu Changsheng was slightly surprised.

Isn't that the person Xu Ruyin always wanted revenge on?

According to Xu Ruyin, this person had broken through to the Foundation Establishment Middle Stage early on, then went out to adventure, never returning, with no news.

Now he had returned as a Nascent Soul.

“Tsk, seems Xu Family is hiding quite well.”

Lu Changsheng chuckled lightly, almost certain that this Xu Tiandu had broken through to Nascent Soul much earlier.

The Xu Family also had other forces outside.

In Jiang Country, once a family's core broke through to Foundation Establishment Middle Stage, they would be sent there for cultivation.

However, Lu Changsheng wasn't very interested in this.

After all, things have changed.

The current Beast Taming Xu Family no longer caught the eye of Lu Ancestor.

“Oh, husband, the Xuanmu Vine Fruit you planted on Bi Yun Peak's summit is already mature...”

Lu Miaoyun seemed to remember something and voiced it.

“Mature!”

Lu Changsheng's expression brightened.

Lu Changsheng had high expectations for the fruit of the Xuanmu Vine.

After all, according to Hong Lian's words, Xuanmu Vine was an accompanying spiritual vine of the Mysterious Heaven Spiritual Vine, the two shared many similar traits.

Therefore, he wanted to see through the Xuanmu Vine whether he could glean some insights into the Mysterious Heaven Spiritual Vine's situation.

Seeing his wife's mysterious expression, Lu Changsheng raised his eyebrow and asked with a smile, "So, is the mature fruit quite special?"

"You'll find out then, husband."

Lu Miaoyun said playfully, not revealing to him that the mature fruit had transformed into the treasure he most anticipated—a gourd.

"Oh?"

Lu Changsheng had a rough guess in his mind, chuckled, then called his wife Qu Zhenzhen, and went together with the two women to Bi Yun Peak's summit.

Upon entering the underground palace, Lu Changsheng immediately saw a vibrant green gourd with dense vitality, covered in purple-black patterns, lying on the Mysterious Heaven Spiritual Vine.

As a Third Rank Top Level Refiner, Lu Changsheng's vision was extraordinary, and he instantly recognized the gourd as extraordinary.

Seeing the Xuanmu Vine beside the Mysterious Heaven Spiritual Vine on the Five Elements Soil disappear, Lu Changsheng was immediately delighted and looked towards his wife, saying, "Zhenzhen, is this gourd condensed from the Xuanmu Vine's fruit?"

Even though Lu Changsheng had previously fantasized about the Xuanmu Vine producing a Fourth Rank, Fifth Rank gourd for him.

But seeing the shape of the fruit was not that of a gourd, Lu Changsheng did not hold high expectations.

Unexpectedly, the Xuanmu Vine really became the expected gourd.

"Yes, this gourd is a transformation of the Xuanmu Vine's fruit..."

Qu Zhenzhen immediately excitedly explained the maturation of the Xuanmu Vine's fruit to Lu Changsheng.

**Capítulo 2130: Chapter 705: 50 Children Reach Foundation Establishment, Goddess Furnace! (Part 3)**

Lu Changsheng shook his head and sighed, feeling that he had wasted an advanced lottery draw.

However, after thinking it over, he realized this Goddess Furnace wasn't completely useless.

For instance, his "Six Desires Heart Demon Technique" could use the Desire Law of the Goddess Furnace to cultivate.

“Yes, this gourd is a transformation of the Xuanmu Vine’s fruit...”

Qu Zhenzhen immediately excitedly explained the maturation of the Xuanmu Vine's fruit to Lu Changsheng.

## **Starting as a Son-in-law to Establish an immortal Family #Chapter 2131: 706: Mystic Wood Gourd, Wedding Procession! - Read Starting as a Son-in-law to Establish an immortal Family Chapter 2131: 706: Mystic Wood Gourd, Wedding Procession!**

### **Capítulo 2131: Chapter 706: Mystic Wood Gourd, Wedding Procession!**

“Oh?”

Lu Changsheng was slightly surprised upon hearing that when the Xuanwood Vine matured, it intertwined with the Mysterious Heaven Spiritual Vine, and both Qu Zhenzhen and the Mount Sumeru Tree King gained some benefits.

Who would have thought that the maturation of a Xuanwood Vine would cause such a big stir.

But considering that a complete Xuanwood Vine is a fourth-rank Heaven and Earth Spiritual Plant, and that it has been nurtured using the Myriad Spirits Bottle for nearly twenty years until it matured, this effect is quite normal.

Moreover, the revival and rapid growth of the Xuanwood Vine might likely be related to the Mysterious Heaven Spiritual Vine as well.

“Here's this cultivation techniques technique, I'm not sure how to explain it right now.”

Qu Zhenzhen said somewhat distressed.

She captured a trace of Heaven and Earth rules and Dao patterns, mysterious Dao charm when the Xuanwood Vine Fruit matured and gained a secret art technique.

It's just that her cultivation level is too low, her comprehension is average, and currently, she can barely use it on her own but cannot articulate the secret art technique.

“It's okay, Zhenzhen. You can study it more when you have free time, and once you comprehend it thoroughly, you can articulate it.”

Lu Changsheng smiled and said, not too concerned about this secret art technique.

He believed that this secret art technique was quite good, but what the Lu Family lacked the least were cultivation techniques.

Lu Changsheng arrived next to the Mysterious Heaven Spiritual Vine, and reached out to pick up the Mystic Wood Gourd, placing it in front of his eyes and carefully examining it, brushing it with his fingers.

It was very smooth, even carrying some elasticity upon touch, exuding a faint vitality and warmth.

Lu Changsheng injected his own mana into it.

But the Mystic Wood Gourd before him seemed like a bottomless pit; no matter how much mana was injected, there was no effect.

A moment later, he forced out a drop of essence blood onto the gourd.

Yet, after the Mysterious Heaven Gourd absorbed the drop of essence blood, there was still no reaction.

“Interesting.”

Lu Changsheng chuckled lightly and put away the gourd.

Preparing to research it well later, attempting to refine it through the “Divine Mechanism Hundred Refinement Technique.”

“Husband, how is this gourd?”

Qu Zhenzhen and Lu Miaoyun looked at Lu Changsheng with anticipation.

“Naturally, it’s an excellent treasure, thanks to my Zhenzhen and Yun’er for taking such care.”

Lu Changsheng smiled warmly.

He could see that the gourd definitely belonged to the fourth-rank top-grade, a top-grade embryo!

Although it wasn’t fifth-rank, but for him, it was entirely sufficient to refine a lifebound spiritual treasure—the Yin Yang Creation Gourd!

“Hmm.”

Qu Zhenzhen, seeing her husband pleased, was also full of joy, feeling quite fulfilled.

Lu Changsheng observed the Mysterious Heaven Spiritual Vine again, finding no significant difference from before.

However, the Five Elements Soil seemed to have gained more vitality, its quality improved compared to earlier years.

Gathering the Five Elements Soil slightly, he placed it next to the Mysterious Heaven Spiritual Vine and then Lu Changsheng and the two women went to the Mount Sumeru Cave Heaven.

Aside from the vegetation and the air being fresh and ethereal, there was no significant change in the cave heaven.

Lu Changsheng inquired about the specifics of Mount Sumeru.

The latter indicated that the maturation of the Xuanwood Vine Fruit formed some innate pure qi, which could help perfect the origin source rules of its cave heaven.

“Innate Pure Qi?”

Lu Changsheng knew that there existed clear and turbid qi between heaven and earth.

Pure qi, extremely pure and clean, contains endless vitality and the power of creation, able to form refined nature’s spiritual energy, aiding the growth of Spirit Vein and Spirit Plant.

Like certain top-level Heaven and Earth Spiritual Plants and Spiritual Medicine, they might produce innate and acquired pure qi.

Turbid energy, dark and murky, formed by various negative factors, contains countless dark evil, decay, disintegration, chaotic qi mechanism.

Earlier, in the Myriad Demon Abyss where Lu Changsheng was, there was this dense acquired turbid energy.

“Does innate pure qi help you, and what about acquired turbid energy?”

Lu Changsheng inquired.

“Yes.”

Mount Sumeru’s voice was ethereal and floated in his mind, indicating that it needed enough clear and turbid energy to perfect the cave heaven rules.

It’s just that compared to turbid energy, it currently needed pure energy more at this stage.

“Alright.”

Lu Changsheng nodded slightly, noting this down to see if there would be opportunities to obtain such innate pure qi in the future.

...

In the following period, Lu Changsheng accompanied his wives in the Mount Sumeru Cave Heaven, waiting for his son's wedding to commence.

A few days later, Lu Changsheng researched the Mystic Wood Gourd.

After refining through the "Divine Mechanism Hundred Refinement Technique," he applied a drop of essence blood.

At this moment, the Mystic Wood Gourd conveyed an information.

Not enough!

Upon seeing this, Lu Changsheng's essence blood started circulating through his body, flowing towards the Mystic Wood Gourd like a stream.

As nearly one-third of the essence blood surged into the Mystic Wood Gourd, its emerald green jade-like surface turned into a bright red color, finally transmitting a sense of satisfaction.

"Phew!"

Lu Changsheng exhaled, looking pale and somewhat speechless.

Thinking that recognizing this kind of treasure as a master is too difficult?

Even possessing fourth-rank body refining, it consumed nearly one-third of his essence blood.

If it were an ordinary cultivator, they'd probably end up a dried husk and still be unable to satisfy this Mystic Wood Gourd, right?

Just as the gourd's bright red blood and purple-black patterns continued to intertwine, forming complex, tadpole-like runes, which then flew toward Lu Changsheng, transforming into a stream of information.

"Mystic Wood Gourd, fourth-rank top-grade...."

Lu Changsheng came to know the complete details of this gourd, its effects and functions.

First, it can absorb various energies.

Like toxic energy, evil qi, turbid energy, etc., can all be absorbed.

Even others' supernatural divine ability and spell can try to be absorbed and contained by the gourd, then decomposed.

Second, it can nurture spirit pills, spiritual medicine, and the spiritual essence of magical treasures!

The Mystic Wood Gourd carries a force of vitality and creation, where spirit pills and spiritual medicine can be stored without the worry of withering, even becoming more pure.

Magical treasures and spiritual treasures can also be placed in the gourd for nurturing, with the wood attribute magical treasures having the best effect.

Of course, this nurturing effect is limited.

Or rather, the vitality and power of creation for nurturing spirit pills, spiritual medicine, and magical treasures are limited; if too many things need nurturing, then the effect becomes negligible.

## **Chapter 2132: Chapter 706: Mystic Wood Gourd, Wedding Procession!\_2**

"Indeed, the treasure formed by the companion spirit plant of the Mysterious Heaven Spiritual Vine is merely an embryo, yet without refining, it already belongs to a top-level exotic treasure."

After infusing it with essence blood, Lu Changsheng felt a strong connection with the gourd in his hand.

With a slight raise of his palm, the gourd spun in front of him, glowing with a verdant luster, before releasing a Wind Blade.

"Whoosh!"

The moment the Wind Blade was unleashed, the gourd's mouth spat out a beam of purple-green radiance, absorbing the Wind Blade into the gourd.

"Simply activating it achieves such an effect. It implies that if I fully exert it, I can counteract even the divine skills of a Nascent Soul cultivator to some extent."

Lu Changsheng nodded slightly, feeling fairly satisfied with the effect.

After all, this gourd is a fourth-rank top-grade treasure, and at the present stage, he cannot fully utilize it, but achieving this effect is already impressive.

"The fourth-rank artifact refining must be expedited!"

Now that he possesses the fourth-rank top-grade Mystic Wood Gourd, Lu Changsheng naturally thinks of using it as an embryo to refine his long-desired [Yin Yang Creation Gourd].

Over the years, besides the Yin Yang Chart, he hasn't continued crafting his life-bound magic treasures partly due to lack of time and energy, and partly because nothing fascinated him.

With supplementary magical treasures from the "Yin Yang Creation Scripture" like the Yin Yang Mirror, Yin Yang Sword, Yin Yang Taoist Robe — given his current resources, he could craft them at will.

Not mentioning the third rank top-level, though quasi-fourth rank and even third rank superior grade isn't a problem.

However, due to his rising strength, these magical treasures had little effect on him — purely wasteful!

But [Yin Yang Creation Gourd] is different!

This magical treasure belongs to the Dao Soldier Magic Treasures category, capable of nurturing the Yin Yang Dao Soldiers exclusive to the "Yin Yang Creation Scripture."!

With his current finances, raising and cultivating a Dao Soldier squad would elevate his combat power to another level!

Moreover, this Mystic Wood Gourd being fourth-rank top-grade is sufficient to refine into a top-level spiritual treasure, usable even during the Nascent Soul stage!

The only issue now is that his artifact refining skill level is merely third-rank top-level.

To successfully refine the current Mystic Wood Gourd into [Yin Yang Creation Gourd], unless he compromises on the artifact's grade, otherwise the level is far from sufficient.

Not only is the skill level insufficient.

At present, the conditions of the Lu Family and Great Dream Immortal City are insufficient too.

For instance, upgrading the Earth Core Fire and Heavenly Spiritual Fire is necessary to perfectly refine the [Yin Yang Creation Gourd].

"Can't rush into it."

Lu Changsheng knows haste makes waste.

If the urge for quick success leads to flaws during the refining process, affecting the quality, it would be impossible to find such a gourd embryo again for crying out loud.

"With this Mystic Wood Gourd being of wood attribute, to refine it into a Yin Yang Creation Gourd, it's best to nurture it with yin and yang attributed heavenly and earthly treasures, inducing yin yang qi mechanism..."

As a third-rank top-level artifact refiner, possessing numerous refining ideologies from the "Divine Mechanism Hundred Refinement Technique," Lu Changsheng has his own understanding of refining magical treasures.

It's not as blindly following like in earlier years where treasures recorded in cultivation techniques dictate the exact appearance and refining process.

Like the Yin Yang Chart, crafted as his life-bound magic treasure, he adjusted slightly according to the materials and his requirements at the time.

Currently preparing to refine the [Yin Yang Creation Gourd], it requires consideration not only of his current situation but also the embryo gourd's condition to maximize the effect!

"Sun and Moon Taiji Mysterious Light Mirror, streams solar essence in the day and lunar essence at night — leveraging the Sun and Moon Taiji Mysterious Light Mirror to impact the Mystic Wood Gourd's qi attribute, let it evolve yang and yin attributes, then used for refining..."

Lu Changsheng deliberated in his mind.

Due to excessive blood loss just now, he felt slightly fatigued; having formulated a general concept, he refrained from further contemplation.

Considering the nurturing capability of the gourd, its effect on magical treasures and elixirs, Lu Changsheng pondered placing the [Netherworld Map] inside for purification, then paused suddenly.

"Buzz!"

He saw a thumb-sized flying dagger, thin as a cicada's wing, reminiscent of the flowing stars, appear in his hand.

This was the fourth-rank exotic treasure flying dagger received from Lou Mountain True Monarch!

Back then, outside the Vast Sand Illusion Realm, he managed to annihilate Purple Grey True Monarch relying on this exotic treasure to heavily injure the opponent's Nascent Soul Spirit Body!

However, after using it, he realized the exotic treasure's flaw.

Once the nurtured sharpness is entirely unleashed, its power dramatically diminishes, requiring time to re-nurture.

Now with the Mystic Wood Gourd, he suddenly felt they complement each other perfectly!

"Whoosh!"

With a flicker of thought, the fourth-rank flying dagger drifted into the Mystic Wood Gourd.

"In future combats, the Mystic Wood Gourd could absorb and dissolve divine skills and techniques, while unexpectedly releasing the dagger to catch opponents off guard."

In Lu Changsheng's mind, a scene emerged, leading him to name this dagger [Immortal Slaying Flying Saber].

...

After tossing the Mystic Wood Gourd to the Sun and Moon Taiji Mysterious Light Mirror, having A Wu help refine it, Lu Changsheng went to see Lu Miaoge.

"Changsheng, what happened to you?"

Seeing Lu Changsheng looking pale, Lu Miaoge's face filled with concern.

"Just researched the Mystic Wood Gourd a bit, who knew..."

Lu Changsheng responded truthfully.

"Such matters shouldn't be rushed."

Lu Miaoge gazed with some tenderness, using Taiyi True Water to nourish his physical body and Qi-Blood.

"Sister Miaoge is right."

Lu Changsheng smiled as he grasped his wife's jade hand, quietly savoring this moment of care and tranquility.

Moments later, Lu Miaoge called her younger sister, Lu Miaohuan.

Lu Miaohuan, through the Abyssal Ghoul Blossom, can devour beings to capture their internal blood essence, transforming it into pure life essence to supplement her lifespan.

And during dual cultivation with Lu Changsheng, she can transfer this life essence to him.

### **Chapter 2133: Chapter 706: Mystic Wood Gourd, Wedding Procession!\_3**

This time, when Lu Changsheng returned from the Jin Kingdom, he hunted many demonized beasts in the Myriad Demon Abyss, also offering a portion to the Abyssal Ghoul Blossom.

Therefore, during these days, Lu Miaohuan's "Heavenly Longevity Technique" was operating frantically, her graceful and charming body constantly filled with abundant essence energy.

Although her level of life essence had almost no effect for Lu Changsheng at the Fourth Rank of Body Refining,

just replenishing some essence blood consumption still had a certain effect.

...

Considering that Lu Ping'an's great wedding would attract more Core Formation True Men to visit, Lu Changsheng and Ling Zixiao took this time to stabilize and enhance their family's formation.

Especially the Mount Sumeru Illusion Sky Great Formation of Bi Yun Peak.

A month and a half later, Lu Changsheng and Ling Zixiao completed the upgrade of the Mount Sumeru Illusion Sky Great Formation.

Not staying in the Cave Heaven anymore, several people came to Bi Yun Peak to care for other wives, concubines, and children.

As the day of Lu Ping'an's celebration approached, Bi Lake Mountain became increasingly lively.

The Lu Family disciples who were outside, unless burdened with important matters, mostly returned from their travels.

After all, in this era when there were distinctions between legitimate and illegitimate, where respect and order were defined, as the firstborn son of the Lu Family, Lu Ping'an naturally held an innate authority over most Lu Family disciples.

Furthermore, this eldest brother not only held a wedding but also held a Core Formation celebration!

Even though the Lu Family had already ascended to a Core Formation Noble Family, with Lu Changsheng, Lu Miaoge, and Lu Qingshan being three Core Formation True Men, having another Core Formation True Man in the family would still instill a sense of pride and honor stemming from the depths of the bloodline for the Lu Family disciples!

"Father."

Lu Ping'an came to pay his respects to Lu Changsheng, expressing his intention to travel to Qingyun Sect for the marriage.

The reason for going to Qingyun Sect was simply that the Heavenly Sword Sect was too far away.

Thus, True Man Feixue had led Qin Yi and some of the Heavenly Sword Sect cultivators to temporarily reside in Qingyun Sect.

"It's about time, go ahead."

Lu Changsheng said with a smile.

Beside him, Lu Chensha immediately raised his hand gently, and the Blackwater Flood Dragon Spirit Weapon Talisman appeared.

In the distance, the Nine-Headed Black Water Flood Dragon Daoist Soldier, which had been prepared for a while, roared to life, pulling a grand and elegant bridal sedan chair, adorned with dragons and phoenixes, towards them.

Underneath the ferocious heads of the Nine-Headed Flood Dragon, a festive red flower was tied, giving it an amusing look.

However, seeing the nine-headed Second Rank Black Water Flood Dragon, no cultivator found it funny, only showing expressions of awe.

Nevertheless, Lu Ping'an did not ride the Flood Dragon.

"Roar!"

Not far away, the Nine Netherhound growled softly, shooting up into the sky, hovering high up, emanating a majestic aura, signaling Lu Ping'an to come.

For his eldest son's wedding, Lu Changsheng naturally wasn't stingy.

And Lu Miaoyun, Ling Zixiao, and the others also agreed to be a bit grander, demonstrating their family's authority. Hence, in addition to the Nine-Headed Black Water Flood Dragon Daoist Soldier, the Three Rank Demon King, Nine Netherhound, was also designated as the mount for welcoming the bride for Lu Ping'an.

"Little Black, thank you for your hard work."

Lu Ping'an showed no reservation, stepping comfortably onto the back of the Nine Netherhound, patting its ferocious and intimidating head with a smile on his face.

The entire Lu Family could be said to have the best relationship between Lu Ping'an and the Nine Netherhound.

Man and hound were playmates, growing up together from a young age.

In their early years, Lu Ping'an, Lu Wuyou, and Lu Xile often chased the Nine Netherhound around playfully.

Later, when they went to Ruyi Prefecture, the Nine Netherhound even became Lu Ping'an and the others' martial training partner.

"Wow, such grandeur!"

"This is the Heavenly Talisman Lu Family's Blackwater Flood Dragon Daoist Soldier! It's said that the eldest son of the Lu Family defeated Shangguan Jiuyang of the Shendao Shangguan Family early on by leveraging thirty-six Daoist Soldiers."

"The Clan Guardian Spirit Beast of the Lu Family—Nine Netherhound, actually being used as a mount by a Third Rank Demon King!"

"Isn't it said that when a spiritual beast grows to Third Rank, even its owner must show respect? Why is this Demon King willing to bow its head to be ridden?"

Though there were still a few days until the wedding celebration, some slightly remote Foundation Establishment families had already hurried over early, fearing any delay that might cause them to miss it.

So, these guests temporarily residing at Bi Lake Mountain, upon hearing the commotion and seeing the scene before their eyes, were all trembling with fear but also deeply respectful, aspiring, and envious.

In certain small places, they were Foundation Establishment Ancestors, able to wield authority and power.

But after arriving at Bi Lake Mountain, they all behaved meekly, with amiable smiles, appearing harmless.

Under everyone's watchful gazes, Lu Ping'an rode the Nine Netherhound.

And beside him, Lu Chensha, Lu Wangshu, Lu Linghe, Lu Qingqi, Lu Yanyu, along with the returning Lu Qingyan, Lu Qingxuan, and nine other Foundation Establishment cultivators each riding on a Blackwater Flood Dragon, escorted the bridal party.

This magnificent scene left all the attending cultivators speechless with awe.

Even the many Lu Family disciples at Bi Lake Mountain were overwhelmingly excited, feeling honored!

"Core Formation! I must breakthrough to Core Formation, Nascent Soul!"

At the Star Pavilion, Lu Xuanqian saw this scene, clenching his fists tightly, feeling his blood boiling, overflowing with excitement.

Hoping to one day, like his eldest uncle, achieve Core Formation, even Nascent Soul, to make his family proud, and advance the glory of the Lu Family even further!

"The Heavenly Talisman Lu Family, with four in Core Formation, three father and son... truly favored by heaven and earth."

"Moreover, given the current situation of the Lu Family, barring any accidents, they absolutely will not stop at just four in Core Formation."

Many guests watched Lu Ping'an and the others leave Bi Lake Mountain, their expressions filled with envy and emotion.

Some youths who came along with their elders to gain insights were stirred by the Lu Family's splendid spectacle, feeling that such an accomplishment was what a real man should strive for.

The Changsheng True Master was able to establish such a legacy starting as a humble clan cultivator, so why not them!

And some cultivators who were self-aware were prepared to emulate the Changsheng True Master, bearing more offspring, hoping to birth a few prodigies like Lu Ping'an and Lu Qingshan for the Lu Family.

As Lu Changsheng rose, the region around Bi Lake Mountain under the Qingyun Domain was already under his influence.

Many cultivators, feeling hopeless about their own futures, chose to marry early, have more children, and place their hopes in the next generation.

Even those willing to marry into other families had increased.

And with Lu Changsheng and the Heavenly Talisman Lu Family's growing reputation, the resulting influence of this situation continued to expand.

### **Capítulo 2134: Chapter 707: Lu Ping'an's Wedding and the Upgrade of Bi Lake Mountain**

Qingyun Sect.

Due to Lu Ping'an's marriage, the Qingyun Sect has been quite lively in recent days.

Although it's just a Foundation Establishment disciple from the Heavenly Sword Sect getting married,

with connections to Bi Lake Mountain and the Heavenly Sword Sect, along with marrying a Nascent Soul Immortal, the significance is different.

Moreover, the wedding doesn't solely involve the disciple of Master Feixue marrying the son of Changsheng True Master.

It also represents the Heavenly Sword Sect investing in Lu Changsheng, a master of the Talisman Path!

So, when Lan Ruoxue and Qin Yi arrived, the Heavenly Sword Sect not only prepared several boxes of dowry but also sent twelve disciples to escort as the wedding entourage.

Under such circumstances, being guests at the Qingyun Sect, there's no way Qingyun Sect wouldn't show due respect.

"They're coming, they're coming, the Lu Family's wedding entourage is here!"

At this moment, a disciple of Qingyun Sect saw the Nine Netherhound and Blackwater Dragon Spirit Weapon soaring through the sky towards their sect gate, and immediately exclaimed loudly.

"Wow, a Third Rank Demon King as a mount and nine-headed Second Rank Dao Soldier pulling the bridal sedan, the Heavenly Talisman Lu Family, what a grand spectacle."

"For such a wedding celebration, the Lu Family naturally takes it seriously, showcasing everything they possibly can."

"Apart from the leading Lu True Master, there are nine disciples from the Lu Family, all Foundation Establishment Cultivators."

“It’s Fairy Wangshu, the daughter of Master Xiyue and Changsheng True Master! She has also come.”

“The Black Dragon Spear, Lu Qingyan, this woman is the one who, besides Lu True Master, commands the Lu Family Dao Soldiers.”

“Thunder Fire Mysterious Lotus Lu Qingxuan!”

Besides Lu Ping’an, the nine people on the Blackwater Dragon Spirit Weapon were recognized.

Such as Lu Wangshu, who is known by practically everyone in Qingyun Sect.

Others known for their fame include Lu Qingyan and Lu Qingxuan, who made a name in Great Dream Marsh and Azure Phoenix Immortal City respectively.

The former commands the Blackwater Dragon Spirit Weapon, gaining renown by slaying multiple Second Rank Late Stage Demon Beasts during a beast tide.

The latter founded Qingxuan Mountain in the Myriad Beasts Mountain Range, gradually earning some fame.

Three years ago, with the skills [Thunder Fire Mysterious Lotus] and [Urgent Thunder Qilin Diagram], the latter slew the four heretic cultivators “Four Ghosts with Wicked Faces” wanted by Azure Phoenix Immortal City, earning the title [Thunder Fire Qilin], widely recognized around Azure Phoenix Immortal City.

As for Lu Chensha, although he was quite famous in the Purple Shadow Secret Realm in the early years,

he has become largely forgotten over the decades, as he was mainly responsible for the Lu Family’s spiritual beasts without much news.

“The Heavenly Talisman Lu Family, here for the wedding.”

The nine-headed Blackwater Dragon Spirit Weapon pulled the bridal sedan, landing outside Qingyun Sect’s mountain gate, Lu Wangshu and the others shouted.

Cultivators’ marriage ceremonies lack abundant formalities and don’t involve any obstruction or playful banter.

It wasn’t long before twelve disciples of the Heavenly Sword Sect escorted Qin Yi, who was wearing the Phoenix Crown and Rosy Clouds Robe with a red veil over her head, onto the bridal sedan.

“Given that, I shall proceed first.”

Master Feixue cupped her fists and nodded to several chatting Nascent Soul Cultivators, then raised her palm lightly, revealing a large red flying boat filled with dowry.

As Qin Yi's master and representative of the Heavenly Sword Sect, she certainly attended throughout the event.

Soon, there was an extra large festive red flying boat next to the wedding entourage.

The twelve disciples of the Heavenly Sword Sect then escorted with Sword Flight, elevating an already imposing ceremony spectacle.

"If only I could marry with such a grand display, it would be fantastic."

"Stop dreaming, unless you marry Changsheng True Master, it's difficult to have such a level of extravaganza."

"Indeed, aside from Nascent Soul Immortals of major forces, ordinary Nascent Soul Immortals simply don't have such grandeur, besides, this is also considering the Heavenly Sword Sect's favor."

"Which female Cultivator wouldn't want such a lavish romantic wedding!"

The disciples of Qingyun Sect watched the luxurious and grand wedding spectacle with a sense of awe.

Especially some female Cultivators, their eyes filled with envy, puzzled at how Qin Yi, merely a Foundation Establishment Cultivator, could marry a Nascent Soul Immortal and receive such orientation.

...

"Such grandeur, what is happening!"

"It's the Lu Family, it's the eldest son of the Heavenly Talisman Lu Family, newly ascended True Man Lu Ping'an getting married!"

"Congratulations to Lu True Master on this joyous occasion!"

"Wishing Lu True Master infinite joy, a match made in heaven, may all things go according to plan, endless happiness!"

All cultivators, upon witnessing the wedding entourage soaring through the air, couldn't help but stop and watch, bowing respectfully.

Some cultivators, aware of the Lu Family's eldest son getting married, wasted no time in loudly offering their congratulations.

Faced with such circumstances, Lu Wangshu, Lu Qingqi, Lu Linghe, and others generously tossed out some red packets, leading many cultivators to chase after them with congratulations.

Thus, the wedding entourage traveled from Qingyun Sect all the way back to Bi Lake Mountain, making the Qingyun Domain almost entirely aware of the Heavenly Talisman Lu Family, Lu Ping'an's wedding event.

Meanwhile, the four-party guests invited by Bi Lake Mountain had mostly arrived.

Witnessing the returning wedding entourage, these guests were again filled with surprise, admiration, and envy.

Families and forces like Qingzhu Mountain and Hundred Birds Lake, who have good relations with the Heavenly Talisman Lu Family, seemed to marvel despite having witnessed the Lu Family's ascent, moved by the scene at hand.

"Bi Lake Mountain Lu Family..."

Jin Zan, the Patriarch from Golden Dragon Ridge, personally attended this wedding, eyes hazy as he looked at Lu Ping'an's majestic figure atop the Nine Netherhound.

In the old days, he would look down on Bi Lake Mountain's Lu Family, single-handedly challenging both Lu Changsheng and Lu Miaoge.

Now, both Lu Changsheng and Lu Miaoge have reached the Core Formation.

Even their son, Lu Ping'an, has become a high-ranking Nascent Soul Immortal.

His heart was filled with envy and bitterness.

The other False Core Level family forces under Qingyun Domain felt as though they were in a different world, grateful for not being enemies with the Lu Family.

Previously, when Lu Wangshu and Lu Ping'an went to Xuanwu Ridge Sima Family, despite not resorting to force, their mere intimidation caused Sima Family to suffer significant losses, needing at least a century to recover their Primordial Energy.

However, the most significant blow to the Sima Family wasn't the major losses itself.

**Chapter 2135: Chapter 707: Lu Ping'an's Wedding, Upgrading Bi Lake Mountain! (Part 2)**

However, they offended the Heavenly Talisman Lu Family, and other family forces also gradually reduced or even severed ties with them.

"Greetings, True Master Feixue."

Seeing the bridal party return, Lu Changsheng and Lu Miaoge also came out to greet and entertain the guests, bowing with cupped hands towards Lan Ruoxue on the flying boat.

"True Master Changsheng, True Master Miaoge."

Lan Ruoxue nodded slightly, having a favorable impression of Lu Miaoge, but being rather indifferent towards Lu Changsheng.

There was no particular reason.

Simply as a female cultivator, she didn't quite appreciate those like Lu Changsheng, who were too emotional and promiscuous.

After welcoming Lan Ruoxue into the main hall, they waited for the auspicious moment.

"From Great Dream Immortal City, True Master Luo is here to present a congratulatory gift..."

"From Qingyun Sect, Master Xiyue is here to celebrate..."

At this time, more and more major influential forces arrived on the scene.

Not all Nascent Soul level forces would have a Nascent Soul Immortal personally bring gifts.

Most would dispatch a False Core representative to present a gift.

For instance, Great Dream Immortal City had Hong Lian arrange for a False Core Immortal to come and offer congratulations.

"From Heavenly Sword Sect, True Master Zhao is here to present a congratulatory gift..."

Before long, another Nascent Soul Immortal from the Heavenly Sword Sect arrived.

He came along with Lan Ruoxue, but due to the bridal party's slow speed, they did not travel together.

"Zhao Mingchou?"

Lu Changsheng went out to greet him, recognizing Zhao True Master from Heavenly Sword Sect who came to present a gift.

In the past, under the name of Yangming True Master, he had conducted a transaction with Heavenly Sword Sect.

This person accompanied the Heavenly Sword Sect Master, which was quite unusual.

Now that Lu Changsheng's power had increased and he had entered the Way of Divination, he could discern some situations; this person was most likely a Diviner!

"Why would the Heavenly Sword Sect send a Diviner over other than Lan Ruoxue, who is the master of little Qin?"

Lu Changsheng thought to himself, warmly stepping forward to greet him.

Seeing Zhao Mingchou observing Bi Lake Mountain as if admiring the scenery, Lu Changsheng guessed his purpose for coming.

Qi Observation!

Growing to this stage in just a hundred years, with four members in Core Formation, many remarked that they were Heaven's favored, showered with fortune.

Perhaps Heavenly Sword Sect thought so too, and thus sent Zhao Mingchou to observe Bi Lake Mountain's fortune and aura.

"This observation might solidify the belief that our Lu Family is favored by the heavens."

Upon mastering Second Rank Divination, Lu Changsheng used the Qi Observation Technique to examine his family's fortune.

Perhaps influenced by the Mysterious Heaven Spiritual Vine, Bi Lake Mountain's fortune far surpassed other family forces.

It was vast and prosperous, showing no signs of decline.

Zhao Mingchou's divination skills and Qi Observation technique were unknown to Lu Changsheng.

But unless he was a Fourth Rank Divination Grandmaster, it would be difficult to discern detailed situations, at most seeing that Bi Lake Mountain's fortune was flourishing.

"This Bi Lake Mountain, clearly just a Second Rank Spirit Land, has such magnificent fortune!"

At this moment, Zhao Mingchou, laughing and chatting with Lu Changsheng, felt a surge of astonishment and wonder in his heart.

Fortune is an elusive concept, even a Diviner with the Qi Observation technique can only see a vague outline.

But with just a vague outline, he immediately noticed that there was something unusual with Bi Lake Mountain's fortune.

It was too grand!

Though fortune is not immutable, influenced by fengshui, people, and objects, among other factors.

Yet the fengshui of Bi Lake Mountain was nothing extraordinary, merely standard.

Even with Lu Changsheng, Lu Miaoge, and Lu Ping'an, these three Nascent Soul Immortals, the fortune should not possibly reach this level!

Besides that, under the stable condition of Bi Lake Mountain's fortune, it even showed a slight upward trend!

This is ridiculous!

The fortune of Bi Lake Mountain was not what a Second Rank Spirit Land should possess, and it's still steadily rising, completely defying logic.

"Could it be Lu Ping'an's breakthrough to Core Formation has further advanced Bi Lake Mountain's fortune?"

"But he broke through to Core Formation not long ago, and hasn't been seated long, how could the fortune improve so quickly!"

Zhao Mingchou was puzzled, refraining from considering a Treasure of Fortune.

After all, treasures that could influence heavenly fortune are hard to come by, even for Heavenly Sword Sect.

How could a Heavenly Talisman Lu Family possess such a treasure?

Hence, after much thought, he arrived at only one conclusion: The Heavenly Talisman Lu Family, or rather, Lu Changsheng, is simply a child of great fortune, favored by destiny!

At this moment, he very much wanted to use the Qi Observation Technique on Lu Changsheng to see his fortune.

Yet whether he could see it was one thing, such probing was considered offensive and taboo in the Cultivation World.

He forcibly suppressed his curiosity, planning to observe carefully later to check for any mistakes.

...

Before the auspicious hour, representatives from all forces had almost arrived.

As for those who hadn't come, Lu Changsheng didn't concern himself much, directly announcing the start of the wedding.

As the words fell, azure waves surged, and the entire Bi Lake Mountain shone with five-colored radiance, countless spiritual birds flew and danced, playing marvelous music.

Although not as grand as the Dao Companion ceremony Qingyun Sect prepared for Lu Changsheng and Xiao Xiyue, the scene was not much lesser.

Under the gaze of all, Lu Ping'an and Qin Yi arrived at the Biyun Grand Hall to perform the wedding ceremony.

The first bow, thanking the Great Dao for its favor, possessing Spiritual Root and Immortal fate!

The second bow, giving thanks to parents and sect for their grace of leading them to the Dao!

So Lu Ping'an and Qin Yi, after saluting Lu Changsheng, Lu Miaoge, Lan Ruoxue, and others, also bowed towards the direction of Heavenly Sword Sect.

The third bow, was the couple's mutual bow!

Symbolizing that from this day forth, they would walk the Great Dao together, supporting each other through thick and thin!

"On this auspicious day, with the heavens celebrating, today Lu Ping'an and Qin Yi's hearts align with the Dao, witnessed by the Great Dao, they are married at Bi Lake Mountain. May your Immortal paths be vast, love everlasting, cultivate through endless calamities, attain eternal life, illuminate the Immortal Sects, and bring blessings to all generations!"

**Chapter 2136: Chapter 707: Lu Ping'an's Wedding, Bi Lake Mountain Upgraded!  
(Part 3)**

After the ceremony was completed, Lu Changsheng, the father seated at the head table, announced the completion of the wedding.

"Congratulations to my elder brother and sister-in-law, for becoming husband and wife, may you be united in heart, and have a prosperous path in the immortal journey!"

"Congratulations to Lu True Master and Qin Fairy, for becoming husband and wife, may you be united in heart, and have a prosperous path in the immortal journey!"

"Congratulations, dear uncle..."

All the Lu Family disciples and the guest cultivators raised their glasses in unison to congratulate the couple, or bowed respectfully, their voices reaching the sky, grand and majestic.

At the same time, the entire Bi Lake Mountain Great Formation continued to surge, azure waves sweeping, radiant lights swirling, and crystal-like flower rain descended as congratulatory gifts for the couple.

It can be said that the Lu Family put a lot of effort into preparing this wedding.

But each grand scene also made many guests, as well as other family forces, increasingly respect and fear the Heavenly Talisman Lu Family.

They realized that the strength and foundation of the Heavenly Talisman Lu Family were extraordinary!

In the grand hall of Bi Yun Villa.

Lu Changsheng, Lu Miaoge, Lan Ruoxue, and others offered words of encouragement to the newlyweds and then indicated for them to offer toasts and meet the attendees.

All the family patriarchs and regional overlords who came, when facing Lu Ping'an and Qin Yi, were all beaming with smiles, without a trace of arrogance.

Like when Lu Changsheng had his Core Formation celebration years ago, and the patriarch of the Shangguan Family came to cause a scene.

But now, no power dares to do such a thing anymore.

On such a joyous day, daring to cause trouble would not only offend the Heavenly Talisman Lu Family but also the Heavenly Sword Sect!

"Congratulations to Lu True Master and Qin Fairy on your joyous union."

The Shendao Shangguan Family sent a robust man in his forties with graying temples to present a congratulatory gift.

"Daoist Shangguan."

Lu Ping'an had some impression of this person, as he was none other than Shangguan Jiuyang, whom he battled in the Purple Shadow Secret Realm years ago.

It was precisely because of this battle that Lu Ping'an's name spread throughout the Jiang Country Cultivation Realm.

Lu Ping'an smiled warmly, clinking glasses with him, and expressed that he had offended in the past and hoped for forgiveness, hoping the two families could have more interactions in the future.

"Lu True Master, you flatter me. As for that incident back then, I hope Lu True Master doesn't hold a grudge."

Shangguan Jiuyang said with a hint of bitterness.

The gap between False Core and True Core is insurmountable!

Years ago, after being defeated by Lu Ping'an, he could still refuse to admit defeat, claiming they would fight again in the future.

Now that Lu Ping'an has broken through to the Core Formation Stage, he is directly a level above in front of the latter.

Jin Zan, the False Core Patriarch of Great Ape Mountain, the False Core Patriarch of the Lingxi Xie Family, and the various patriarchs from Xuanwu Ridge Sima Family and other forces, when toasting with Lu Ping'an and Qin Yi, all had mixed feelings and complex emotions.

Recalling the past, they used to be on the same level as Lu Changsheng and Lu Miaoge, and Lu Ping'an was just a junior.

Now, they are no longer qualified to sit at the same table with Lu Changsheng.

In fact, when toasting with Lu Ping'an, they have to respectfully lower their glasses by three inches.

...

Three days later, the wedding celebration ended.

The Nascent Soul Immortals and False Core cultivators who came to present gifts mostly left, with only Lan Ruoxue, Zhao Mingchou, and Xiao Xiyue departing last.

"With this piece of Third Rank Spirit Vein Origin, Bi Lake Mountain can rightly be upgraded to a Third-tier Spiritual Land."

After seeing off the three from Bi Lake Mountain, Lu Changsheng returned to the Lu Family Mansion, looking at the canister of Third Rank Spirit Vein Origin before him with satisfaction.

He controlled the Great Dream Marsh with Second Rank Top Level Dragon Seeking Techniques, so he naturally did not lack Third Rank Spirit Vein Origin.

The reason he hadn't upgraded the spirit vein of Bi Lake Mountain to Third Rank was simply because it would cause a big commotion, intending to wait until the time was right to upgrade.

Unexpectedly, among the dowry sent by the Heavenly Sword Sect for this wedding, there was a canister of Third Rank Spirit Vein Origin.

Although not much, it was enough to upgrade the Second Rank Top Level Spirit Vein of Bi Yun Peak to Third Rank Lower Grade.

Once the spirit vein of Bi Yun Peak is upgraded, cultivating the spirit vein of Bi Shui Lake in the future will just be a matter of convenience.

"Although the timing is about right now, having this Spirit Vein Origin from the Heavenly Sword Sect makes it easier to explain externally."

Lu Changsheng chuckled softly, called his wife Ling Zixiao, and mentioned the matter of upgrading the spirit vein.

Previously, Lan Ruoxue suggested that for nurturing the upgraded spirit vein, he could invite a Fengshui Master or Array Master from the Qingyun Sect to help arrange it.

But with the Mysterious Heaven Spiritual Vine already planted on his spirit vein, Lu Changsheng naturally couldn't seek others' help and planned to do it himself.

Meanwhile.

Lan Ruoxue, leaving Bi Lake Mountain, looked at Zhao Mingchou and asked: "Master Zhao, what is your opinion of Bi Lake Mountain and that Changsheng True Master?"

She came here as part of the bride's family to send the disciple for marriage.

But Zhao Mingchou came with certain tasks, probing the details of the Heavenly Talisman Lu Family.

"Remarkable, this Bi Lake Mountain is remarkable, its fortune is grand and continuous, even surpassing the fate of the Shendao Shangguan Family!"

Zhao Mingchou took a deep breath and then said gravely: "As for Lu Changsheng, I can't see through him; this person is definitely not as simple as the outside world perceives!"

"In the past few days, after observing the atmospheric fortune of Bi Lake Mountain, I also carefully observed the Lu Family's disciples."

"The Essence, Qi, and Spirit of Lu Family's disciples, their overall condition, do not resemble those cultivated by a Foundation Establishment Family or a newly promoted Nascent Soul Family, I would even believe it if they were an established Core Formation Power!"

"Therefore, this Lu Changsheng must be a favored child of the heavens, blessed with great fortune; he must have received top-level inheritance early on, possessing multiple high-grade cultivation methods, otherwise, with the Lu Family's condition, it's impossible to cultivate the family's disciples to such an extent!"

As a Diviner, Zhao Mingchou is adept in Observation Skill.

He couldn't see through Lu Changsheng, a Nascent Soul cultivator.

But in front of him, he could almost see through Lu Family's disciples at a glance.

Even without using divine sense to penetrate deeply, merely through appearance and Essence, Qi, and Spirit, he could discern much information.

Therefore, through Bi Lake Mountain and the situation of the Lu Family's disciples, he obtained a lot of information, knowing that the Lu Family's foundation is far from simple on the surface!

### **Chapter 2137: Chapter 707: Lu Ping'an's Wedding, Bi Lake Mountain Upgrades!**

Especially the Old Ancestor, Lu Changsheng!

Bi Lake Mountain's Lu Family has reached its current status, all thanks to this Old Ancestor!

"Hmm, the Lu Family's cultivation technique inheritance is quite extraordinary..."

Lan Ruoxue nodded slightly.

As a Nascent Soul Cultivator, she also saw many situations that made the Lu Family completely unlike a mere century-old family.

Many ancient families with thousand-year legacies may not even compare to the grandeur of Bi Lake Mountain.

"A small pond cannot nurture a Flood Dragon, yet this person managed to grow into one in such a small pond under the Qingyun Domain; it's by no means ordinary!"

"The transformation of dragon to snake, between wood and geese, this person broke through to Core Formation yet remains hidden, plotting something grand; perhaps he intends to soar to the heavens and transform from a Flood Dragon into a true dragon!"

Zhao Mingchou's eyes flowed with a mysterious Qi Mechanism, murmuring to himself, the more he thought about it, the more unbelievable it seemed.

But now Lu Changsheng has married Master Xiyue of the Qingyun Sect and is backed by the Great Dream Immortal City as the Deputy City Lord; he has already become a formidable force.

Otherwise, given the Lu Family's situation, he would indeed want to investigate!

"Such matters should be reported to the Sect Master for a decision."

Lan Ruoxue gave Zhao Mingchou a deep look, reminding him not to act rashly.

After all, as a diviner outside the sect, should he calculate that the Lu Family possesses some great fortune and harbor greed, it would affect the entire Heavenly Sword Sect's plan.

"Rest assured, True Man Feixue."

Zhao Mingchou, pale-faced and wearing a silk hat, resembled a frail scholar.

While they, as diviners, wished to soar to the heavens through great fortune, they also cherished their lives greatly.

Just like these past few days, he considered using the Lu Family disciples as a medium to employ a secret technique to further divinate Lu Changsheng's situation.

But in the end, he felt a dangerous ominous feeling and abandoned the idea.

...

As Lu Ping'an's wedding concluded, the Lu Family disciples began to depart one after another.

After all, many of these disciples had returned from afar and could not stay at home for long.

As Bi Lake Mountain gradually returned to peace, Lu Changsheng felt quite sentimental. After spending some time with his wives and children, he turned to his own matters.

He prepared for closed-door cultivation to re-consolidate the Brahman Demon True Body, this supreme divine ability.

However, when he visited Ying'er, who was imprisoned by Mount Sumeru, a thought suddenly struck him about the Soul-calling Beast and the Goddess Furnace he obtained by chance.

"The Goddess Furnace can affect others' emotions, thoughts, and desires; can it be used to subdue this woman?"

Although Lu Changsheng disliked such heretical spiritual treasures, he had no pity for demonic path cultivators like Ying'er.

This woman not only injured the Nine Netherhound but also has a deep feud with Beast God Mountain!

He had earlier pondered whether he could use this woman as a pawn to lure out the Nether Moon Saintess, Heavenly Silkworm True Monarch, and even Nine Spirits True Monarch of Beast God Mountain for revenge.

But the latter's soul was resilient and bound by prohibitions, making it difficult to make her betray without using underhanded tactics like the Lockheart Gu.

However, Lu Ancestor had always been soft-hearted.

If he used the Lockheart Gu, the latter would become a woman who thoroughly adored him, and Lu Changsheng felt he might soften then.

But the Goddess Furnace was different.

Moreover, if the Goddess Furnace proved ineffective, he could still use the Soul-calling Beast, transformed into the Punishment Beast, to interrogate and see if he could extract secrets about Beast God Mountain!

"This woman has been in my hands for so long without returning; perhaps Beast God Mountain and her master, the Nether Moon Saintess, might grow suspicious, so I need to resolve this quickly."

"If she can be subdued, she could even be used as an insider!"

Lu Changsheng contemplated for a moment, then entered the Changsheng Hall, taking the spiritual treasure [Goddess Furnace] in hand to begin refining it.

Although such a spiritual treasure can be forcibly activated without refining, to maximize its power and effect, refining is still necessary.

### **Chapter 2138: Chapter 708: Goddess Furnace's Effect, Kunpeng Nest Emerges!**

Heavenly Sword Sect.

Sect Master's Grand Hall.

"The luck is grand and continuous, a sign of prosperity, and it even shows signs of rising?"

The Heavenly Sword Sect Master stood with hands behind his back, his eyes deep and sharp, as if they contained two peerless swords.

He was not surprised by Zhao Mingchou's report.

If the situation in Bi Lake Mountain showed ordinary luck, then there would be an issue, unexpected to him.

"How about Lu Changsheng? What kind of person is he? Can you discern his depth?"

The Heavenly Sword Sect Master continued to inquire.

"Sect Master, this person has a magical treasure to conceal his qi mechanism and mana; I cannot see through it, but based on my observations at Bi Lake Mountain, this person is not as simple as he appears..."

Zhao Mingchou explained his analysis one by one.

He expressed that he did not have the opportunity to probe Lu Changsheng's situation at Bi Lake Mountain and could only judge through the fengshui of the Lu family and the situation of the Lu family disciples.

"Yes, I understand."

The Heavenly Sword Sect Master nodded and gestured for Zhao Mingchou to retreat, then lightly exhaled a breath, murmuring: "It seems that this Lu Changsheng, as I guessed, is a lucky child born with the fortune and destiny of the heavens and earth."

"Jiang Country has already produced Azure Phoenix True Monarch, a girl of fortune, and now there's another Lu Changsheng..."

A pond cannot nurture a flood dragon.

Jiang Country producing an Azure Phoenix True Monarch was already astonishing.

And now discovering such a hidden flood dragon like Lu Changsheng makes it very unreasonable.

"Even if the Great Tribulation descends, accompanied by a Great Era, it shouldn't be like this, right? Could it be that my Jiang Country will become an important place in this Great Tribulation?"

The Heavenly Sword Sect Master's eyes slightly narrowed, constantly pondering.

Theories of Great Tribulation, Great Era, and luck are all vague and elusive.

Such matters, even he had only heard from Xuanjian True Monarch.

"I just don't know what relationship this person has with the Great Dream City Lord."

Regarding Lu Changsheng's situation, he had long suspected.

Zhao Mingchou's words only verified his suspicions.

Now he just wants to know what relationship Lu Changsheng has with the Great Dream City Lord and when he got involved with this Great Dream City Lord.

Or perhaps, this person is a pawn placed by the Great Dream City Lord in Jiang Country.

Although following the whale hunting banquet, the relationship between Heavenly Sword Sect and Great Dream Immortal City was friendly.

However, allowing an unidentified person with high cultivation level and combat power like a Nascent Soul cultivator to station at Great Dream Immortal City, how can the Heavenly Sword Sect be completely at ease?

After considering for a long time, the Heavenly Sword Sect Master decided to report this matter to Absolute Sword True Monarch.

Ordinary small matters naturally do not need to be reported to the True Monarch.

But Lu Changsheng, as a Core Formation cultivator, already qualifies to enter the Nascent Soul True Lord's field of vision.

Especially as he is also related to Great Dream Immortal City!

...

Three months later.

Bi Lake Mountain.

Mount Sumeru Cave Heaven.

"This Goddess Furnace, though its effect is average and not good for direct combat, is at least a middle-grade spiritual treasure."

"If encountering danger, it can be directly used as protection against miraculous divine abilities."

Lu Changsheng looked at the Goddess Furnace refined in his hands, nodding with satisfaction.

The system's products must be top-quality.

This Goddess Furnace, although its effect is quite vulgar, is superior in both material and refining technique.

With Lu Changsheng's current physical strength, throwing it directly is enough to crush many cultivators, severely injuring Nascent Soul True Lords.

"Sumeru."

Lu Changsheng raised his eyes and lightly called towards the void.

As soon as the words fell, a dazzling golden jade radiance swept down like colored silk.

As the radiance dispersed, a figure appeared, hair disheveled, face pale, wearing dark soft armor, with curves graceful.

It was Ying'er, captured by Lu Ping'an.

Although her mana was sealed and she was under the binding of the Spirit Ring, she had long awakened but could not use her power and mana.

Ying'er's eyes, like the stars in the dark night, glanced at Lu Changsheng once, then lowered her head without speaking.

Lu Ping'an's strength, the sealing means on her body, and the unending imprisonment, she had already realized her reality, knowing her future outcome, only wishing to warn the Holy Maiden through suicide.

But in her current state, even suicide was impossible.

"Fellow Daoist Ying'er, is there anything you wish to say now?"

Lu Changsheng looked down at Ying'er, speaking indifferently.

Ying'er, holding a resolute death wish, pressed her lips tight, remaining silent.

"Whoosh!"

Lu Changsheng flicked his fingers, sending out a wisp of mana to the Spirit Ring on her white neck.

She trembled instantly as if electrified, uttering a soft moan, and then, like a kitten, slumped powerlessly on the ground.

"You."

Ying'er, face pale and soft, looked at Lu Changsheng with icy grievance in her eyes.

Seeing herself become a prisoner, she swallowed the words she wanted to say, doing nothing.

Lu Changsheng clicked his tongue, thinking that to train a Core Formation cultivator into a death soldier, Beast God Mountain's foundation is truly formidable.

He was in no mood to play inspector games with her, and in his palm appeared a Jade Furnace resembling a reclining Goddess.

"Buzz buzz buzz—"

The Goddess Furnace rose like a divine lady, radiating mysterious and magnificent light, forming one extraordinary wave after another.

Following this, the lid opened, releasing a dreamy smoke, beautiful and captivating, directly wrapping and engulfing Ying'er into the furnace.

"Buzz!"

With a light sound, the lid closed, and the Goddess Furnace glimmered with a crystalline glow, returning to Lu Changsheng's hand.

Lu Changsheng circulated his Yin Yang magic power, beginning to activate the law of desire contained within the Goddess Furnace.

The inside of the furnace was a vast space, akin to an empty grand hall.

With Lu Changsheng's activation of the Goddess Furnace, streams of radiance woven by the law of desire surged from all directions, engulfing Ying'er who lay powerless on the ground like a tide.

"Cave Heaven Treasure!"

Ying'er did not understand the situation, but upon seeing the Goddess Furnace and the unfamiliar scene before her, she realized she was imprisoned within a Cave Heaven Treasure.

### **Chapter 2139: Chapter 708: Goddess Furnace's Effects, Birth of the Kunpeng Nest!**

From all directions, the Desire Mist intertwined, and a mysterious, inexplicable emotion surged in her heart, as if the soft armor on her body was about to ignite.

"This can't be wasted."

The Goddess Furnace operates the Desire Law, not only interfering with and influencing others' emotions and thoughts but also forming a force to burn away others' external objects.

The black soft armor on Ying'er was a magical treasure, and if it were to be burned to ashes by the Goddess Furnace, it would indeed be a waste.

With a thought, Lu Changsheng sent the black soft armor, clothes, and Spirit Ring of the latter flying off to the side, revealing a body as flawless and enticing as ivory.

It must be said that Ying'er's figure was excellent.

Even when wrapped in soft armor, her curves were graceful and exquisite, shapely and charming.

Now, without the constraint of the black soft armor, her stunning figure was even more outstanding, hardly inferior to Nangong Mili.

"It would be a pity not to have children."

Lu Changsheng glanced at the snow-white back and sighed emotionally.

But this woman was of great use concerning the Beast God Mountain.

"Hmm~"

Under the influence of the Desire Law, Ying'er was gradually affected, her eyes glazed with confusion, somewhat uncontrollable, her soul and jade-like body trembling.

However, without the restriction of the Beast Taming Ring, a force deep within her body began to awaken.

Moments later, with an entrancing cat-like cry, her white, alluring, flawless jade body was shrouded in wisps of black mist, her posture subtly arched, appearing even more enchanting and slender.

The delicate pale face gradually sharpened, several black patterns emerging like a cat's face, and on both sides of her head, a pair of fluffy black cat ears stood up.

"???"

Seeing Ying'er's situation, Lu Changsheng was momentarily taken aback.

What kind of technique is this?

Seducing me?

How does she know I fall for this?

But seeing Ying'er transform into a cat-girl appearance, her eyes becoming clearer, struggling desperately, Lu Changsheng realized that this was a divine secret skill from Beast God Mountain.

The Black Crow True Immortal, whom he defeated, as well as the Heavenly Silkworm True Monarch, had both used similar techniques.

"Beast God Mountain fusing demon beasts into oneself, utilizing demon beasts for cultivation, indeed holds some intrigue..."

Lu Changsheng looked at the graceful, cat-girl-like Ying'er and clicked his tongue, recalling Xu Ruyin, who performed the Integration Technique with the Heavenly Demon Phoenix.

It must be said that such an experience is indeed delightful.

After observing for a short while, Lu Changsheng placed the Goddess Furnace aside, letting the latter struggle.

As a Middle Grade Spiritual Treasure, even with simple activation, it was not something a Core Formation Third Layer cultivator could escape from.

As the latter continued to struggle in despair, fear, and her mental spirit easily influenced, leading to her downfall and loss of self.

Then, Lu Changsheng sat cross-legged, placing the demonic Heavenly and Earthly Treasures collected from the Myriad Demon Abyss and some Heavenly and Earthly Treasures from the Five Poisons Cult beside him, and began cultivating the Brahman Demon True Body.

"If only there were a few more Buddhist Relics."

Currently, Lu Changsheng had abundant Heavenly and Earthly Treasures related to the demon path and demon race, but seriously lacked Buddhist Relics, such Heaven and Earth Spirit Objects of the Buddhist path.

Although his daughter, Lu Linghe, possessed a Quasi-Fourth Rank Shariputra,

for daily cultivation, under the influence of the Shariputra, her Black Dragon Dao Foundation was gradually transforming toward a Vajra Bodhi Dao Foundation of the Buddhist path.

Under such circumstances, how could he possibly take back that Shariputra?

"It will only take a bit more time."

Lu Changsheng took a deep breath, focused his mind, and operated the Brahman Demon True Saint Technique, Buddha Light blossoming around him, demonic qi flowing, causing the cave mansion to echo with a myriad of demon howls, ringing with Buddhist chants, mysteriously profound.

...

Liang Yue Battlefield.

A city stronghold of the Beast God Mountain.

"Three years ago, the Clan Guardian Spirit Beast [Jiuyou] of the Heavenly Talisman Lu Family was attacked, followed by the Lu Family's support, which repelled the enemy..."

"After Lu Qingshan, the Heavenly Talisman Lu Family has produced another Nascent Soul Immortal..."

The Nether Moon Saintess lazily lay against her spiritual pet, the Nether Moon Heavenly Wolf, her fair, slender jade-like legs resting one over the other, her enticing, shoeless jade feet perched.

"So Ying'er is injured now, hiding in the Jiang Country and unable to return?"

The Nether Moon Saintess looked toward the maid not far away, her exquisite, noble face exuding authority and dignified presence.

"Replying to Your Highness the Holy Daughter, according to the investigation by our informants, thorough searches have been conducted around Bi Lake Mountain and White Tiger Mountain, but no signals or markers left by Ying'er have been found. Therefore, it cannot be ruled out that Ying'er is likely in dire straits, falling into the hands of the Heavenly Talisman Lu Family, or the Qingyun Sect..."

The maid knelt on the ground, not daring to look up at the Nether Moon Saintess, and spoke softly.

"Likely in dire straits... Ying'er's Lifebound Beast Soul is the [Netherworld Cat], making her escape attempts, despite opponents of the same level being unable to restrain her. When performing secret techniques, she might even manage to escape from a Core Formation Middle Stage cultivator unless Qingyun Sect utilizes Core Formation Late Stage power, otherwise capturing Ying'er is simply impossible!"

As her trusted aide, no one knew Ying'er's combat capabilities better than her.

"Investigate, continue the investigation. If Ying'er fell into the Qingyun Sect's hands three years ago, she likely would have surfaced in Yue Country by now. Therefore, Ying'er's chances of falling into Qingyun Sect are slim!"

"Regarding the Heavenly Talisman Lu Family, there are concerns. Such a mere centenary family giving rise to four Nascent Soul cultivators, gather their detailed information for me!"

The Nether Moon Saintess's eyes turned cold and profound, licking her vivid red lips, and spoke chillingly.

Nascent Soul cultivators represent advanced-level combat strength anywhere.

If the Qingyun Sect captured Ying'er, they would likely trade her to Yue Country, and then Yue Country would exchange her for hostages with the Beast God Mountain.

Hence, her focus fell on the Heavenly Talisman Lu Family.

Wherever it is, producing four Nascent Soul cultivators in just a hundred years is unnatural, indicating there are issues!

"Yes, Your Highness the Holy Daughter!"

### **Chapter 2140: Chapter 708: Goddess Furnace's Effect, Kunpeng Nest Emerges!**

The maid immediately responded.

...

In the Secret Realm of the Immortal Lotus Sect's Disciple Trial.

"Hoo hoo hoo——"

A gust of strong wind swept through the forest, rustling the trees loudly.

Nangong Yaoyao descended with a weary expression, throwing out one array flag after another, trying to set up a temporary formation.

Just then, she seemed to sense something, suddenly turning her head.

In front, a woman with captivating beauty, an ethereal and slender figure, shimmering with a hazy holy light, whose temperament resembled hers, was walking over slowly.

"Senior Sister?"

Nangong Yaoyao was startled in her heart, feeling no joy, only alertness.

Yet, she still made an expression of joy on her face, looking pitifully adorable.

"Junior Sister."

Ouyang Ni smiled gently, her voice was warm, like the gentle spring breeze caressing Nangong Yaoyao's heart, melting away her fatigue, vigilance, and fear.

Without any hesitation.

Nangong Yaoyao darted away, transforming into a phantom divine rainbow, tearing through space.

"Boom!"

However, moments later, a figure like an azure dragon crashed down from the heavenly dome, causing Nangong Yaoyao to be flung aside, spitting blood.

"Brother Zhao, I wonder where I offended you, little sister?"

Nangong Yaoyao staggered, steadying herself, speaking pitifully.

"Junior Sister, drop that act, you know as well, Master only needs one disciple, so... between us, ultimately, there can only be one."

In a white lotus dress, with unearthly beauty, not stained by the mortal world, Ouyang Ni walked towards her, speaking softly.

As she spoke, invisible silver needles shot towards Nangong Yaoyao.

"Senior Sister, although Master has this intention, perhaps it's to test us. As sisters, we should work together now, we can decide the victor in the future, besides, I have never thought of competing with you."

Nangong Yaoyao raised her hand, releasing a lotus treasure, speaking sincerely.

Even though Ouyang Ni was a woman, seeing her junior sister so weak and pitiful, sincere and moving, her heart softened slightly.

Just a moment's hesitation, she said to the nearby man: "Quickly, move!"

The man beside her said nothing, wielding a long spear, charging at Nangong Yaoyao like an arrow unleashed, with an imposing force.

"Junior Sister, it's not that I don't want to cooperate with you, but you've grown too quickly!"

Ouyang Ni looked at her junior sister, seemingly regretting, yet unable to help.

Facing their combined attack, Nangong Yaoyao retreated step by step, her face pale.

Just then, she formed hand seals, and suddenly a great sun rose from her lotus treasure, transforming into a fiery Golden Crow, creating a scorching storm, sweeping in all directions.

"Go!"

Nangong Yaoyao didn't hesitate for a moment, escaping desperately with the transformed Ji Shaoyi.

"This is the Golden Crow Heavenly Light Great Divine Ability from the Great Sun Golden Crow Sect! Anyone capable of mastering this divine skill is no ordinary person!"

"There were rumors before that the prodigy of the Great Sun Golden Crow Sect, Ji Shaoyi, fell in the 'Fusang Secret Realm', now it appears he was likely transformed by my junior sister."

Watching her disappearing junior sister, Ouyang Ni had a few traces of fear deep in her eyes.

...

Nangong Yaoyao escaped to a desolate lakeside, signaling Ji Shaoyi to guard outside while she set up a simple formation, calming her chaotic mana.

Looking at the reflection in the lake, more mature than in early years, Nangong Yaoyao seemed slightly dazed, murmuring softly: "Mother, Yaoyao misses you so much."

In the early years at Five Poisons Cult, though she was sensible and mature, with her mother and Meng Xiaochan, she was always like an immature girl, cherished by them, carefree.

Coming to the Immortal Lotus Sect, possessing a Nascent Soul Master, opening up a wider world, experiencing many new things, yet unable to be as carefree as those days.

In just a moment, the tenderness and longing in her eyes vanished.

Her face of indescribable exquisite beauty had a few traces of cold nobility, as she swallowed a pill, quickly recovering her injuries.

In this disciple trial, her goal was not only to pass but to achieve excellent results.

Only then could she catch up with her senior sisters.

...

Starry Sky Sea.

Lately, Starry Sky Sea has been bustling with activity.

The long-rumored Kunpeng Nest has indeed appeared.

The earth-shattering celestial event caused this legendary secret realm to appear directly in countless people's vision.

Yet, such a top-level secret realm is destined not to be touched by little cultivators, nor can any faction monopolize it.

Various human factions from Starry Sky Sea, many sea clan forces, and transformed demon kings all went to contend for this secret realm.

Despite this, many Foundation Establishment Cultivators and Nascent Soul Cultivators also went to survey the situation, hoping to fish in troubled waters or find some opportunities.

Upon hearing this news, Lu Quanzhen, although guessing that this oceanic area would erupt into a world-shaking battle, blood flowing like rivers, still chose to go.

Upon the Immortal Path, if one does not fight or seize, afraid to do anything, cautious and timid, only knowing hard cultivation, what's the point of cultivating immortals!

After spending half a month, he gradually approached the maritime area where the Kunpeng Nest emerged.

Before getting close, he sensed Nascent Soul level cultivators dueling from afar.

Many corpses floated on the sea, mostly the sea of consciousness of demon beasts, with blood flowing.

"A Nascent Soul level secret realm, huh..."

Lu Quanzhen came over this time, intending to see if the secret realm had any restrictions, such as only allowing cultivators below Nascent Soul to enter.

But based on the situation, this secret realm is likely at the Nascent Soul level.

"With my strength, entering a Nascent Soul level secret realm, I'm afraid it's certain death."

Though Lu Quanzhen had some confidence in his strength, he dared not meddle in a Nascent Soul level secret realm.

After all, taking risks and seeking death are two different concepts.

But recalling his cultivation technique, he did not directly give up, choosing to observe and wait here.

Once the Nascent Soul duel paused, he chose to approach further.

Much later, Lu Quanzhen gazed at the towering cliff standing in the ocean depths, murmuring: "This is the Kunpeng Nest, huh..."

## **Starting as a Son-in-law to Establish an immortal Family #Chapter 2141 - 709: 6 Demon Consorts, 3rd-Tier Divination! - Read Starting as a Son-in-law to Establish an immortal Family Chapter 2141 - 709: 6 Demon Consorts, 3rd-Tier Divination!**

**Chapter 2141: Chapter 709: 6 Demon Consorts, 3rd-Tier Divination!**

On the sheer stone cliff, there was a massive ancient bird's nest.

At first glance, this avian nest seemed plain and ordinary, with nothing special, resembling an average great demon nest.

But under Lu Quanzhen's Spiritual Eye Pupil Technique, strands of chaotic aura intertwined within the ancient nest, appearing as a dazzling Kunpeng shadow, making it difficult for him to discern reality.

"Kunpeng Nest..."

Looking at the nest ahead, with chaos Qi intertwined, Lu Quanzhen felt that his "Kunpeng Devouring Heaven Demon God Technique" seemed to become more active.

Not to mention entering the Kunpeng Nest, even just approaching it, and cultivating nearby would be greatly beneficial to him!

However, surrounding the Kunpeng Nest, stood supreme figures and a colossal hundred-foot-tall serpent, while a sky-covering, sun-blocking gigantic eagle perched nearby, making it impossible for him to approach.

He could only gaze from afar, waiting for the Kunpeng Nest to open, for these people to enter and leave, before attempting to approach.

"Roar!!!"

Just then, the sea suddenly split open, and a towering Fourth Rank Demon King emerged, raising heaven-frightening waves and rushing towards the ancient nest, attempting to break open the secret realm entrance.

In an instant, it seemed as if heaven and earth were torn asunder, the entire sea region boiling and roaring, terrifying energy waves centered on the ancient avian nest swept in all directions, dispersing the clouds of the heavenly dome.

"Not good!"

Witnessing such a frightful scene, Foundation Establishment cultivators all retreated, unleashing their magical treasures to resist this terrifying tidal wave-like pulse.

Even though it was quite a distance, Lu Quanzhen felt the overwhelming pressure rushing towards him, quickly retreating, his cloak under Core Formation magical power forming a sheen as black as ink.

As the earth-shattering commotion persisted, the crowd could see that this Fourth Rank Demon King did not break open the secret realm entrance; instead, its massive body was pierced by a divine light from the ancient avian nest, blood splattered, falling into the sea.

"Roar!!!"

It let out a painful roar, suddenly opening its massive bloody mouth, like a black hole, producing a huge suction force, devouring countless living beings to replenish its essence blood state.

"Golden Ray, how dare you kill my descendant!"

At this moment, a Nascent Soul True Lord with a grudge against it shouted coldly, intending to seize this chance to slay it.

A terrifying Nascent Soul level battle was imminent!

Though the demon king was injured, its combat strength remained extraordinarily powerful, engaging with this Nascent Soul True Lord in a back-and-forth exchange, the energy waves from their encounters were simply unparalleled.

Each clash seemed to cause an ocean catastrophe, endless waves surged, water sprays like shells bombarding all directions, turning the surrounding sea into a chaotic mess.

Some Nascent Soul cultivators, or Fourth Rank Demon Kings, seeing the situation, avoided slightly to prevent affecting themselves.

Only the stone cliff at Kunpeng Nest was unshaken, occasionally emitting faint light, forming a ripple.

After a long time, the Fourth Rank Demon King, due to severe injuries, sank into the deep sea, escaping using the Starry Sky Sea.

Nascent Soul cultivators who engaged with it considered pursuing, but seeing the chaos Qi intertwined at Kunpeng Nest and the surrounding cultivators, decided to give up.

"When a Nascent Soul is enraged, corpses like a million..."

Watching all this from afar, Lu Quanzhen looked at the sea, now more scarlet than before, filled with corpses, and couldn't help but feel emotional.

This Kunpeng Nest generated a vast Qi mechanism wave, seemingly driving sea demon beasts by instinct, coming here one after another.

But the mana shockwaves from the casual exchanges of Nascent Soul True Lord and Fourth Rank Demon King caused hundreds or thousands of demon beasts to explode and perish.

If a Foundation Establishment cultivator slightly approached, they might end up the same.

Even though he, as a Core Formation cultivator, was only qualified to watch from afar...

Time passed little by little.

Constantly, cultivators came to this sea area to examine the Kunpeng Nest.

And during this period, numerous cultivators and demon kings erupted in battles.

Possibly due to enmity, or to gain an advantage, suppressing adversaries.

Overall, even before the secret realm opened, this sea area turned into a blood-soaked chaotic land.

"Who knows when this Kunpeng Nest will open."

Lu Quanzhen had already dismissed the thought of entering the Kunpeng Nest.

He just wanted to wait for other cultivators to enter the secret realm, to use the ancient nest to comprehend his cultivation technique divine abilities.

Just then, he suddenly felt the world grow dark and cold.

Looking up.

The heavenly dome, once bright and clear, had somehow become ominously dark.

"Crack! Crack! Crack!"

The harsh, jarring sound of cracking echoed, causing his chest to feel tight, his Qi and blood magical power swirling uncontrollably.

Those with lower cultivation levels bled from their seven apertures, crying out loudly in panic.

Seeing this commotion, Nascent Soul cultivators and Fourth Rank Demon Kings near Kunpeng Nest also showed solemn expressions.

From the dark void of the world, as if a landscape painting, gigantic spectral hands emerged from nowhere, tearing the world apart, revealing a massive abyssal void fissure.

Soon after, a palace, seemingly built of bones, emerged slowly from the void, majestically imposing, pervaded by an eerie and sinister Qi mechanism.

This palace was extremely grand, constructed from bones, with giant beast bones as thick as pillars, slender avian bones, and even skulls and skeletons of human clan cultivators.

These bones appeared chaotic, casually embedded and stacked, with dark bloodstains seeping through, yet it imparted an indescribable enigmatic beauty, ancient yet stately.

A ghostly glow trickled over the surface of the bones, akin to the passage of time, yet seeming as if numerous wraiths were imprisoned within, constantly wailing, making one instinctively shiver at the sight.

### **Chapter 2142: Chapter 709: Sixfold Demon Consort, Tier-3 Divination! (Part 2)**

"What is this!?"

Even though Lu Quanzhen had seen many Demonic Path cultivators and their methods over the years, he still felt a chill creeping through his entire body upon seeing this White Bone Palace.

At the top of the palace, several flags stood tall, fluttering and rustling in the wind, like a soul-summoning song from the Nine Nether Hell.

Lu Quanzhen instinctively glanced but immediately looked away, not daring to gaze longer, fearing his soul might be snatched by the ghostly eye-like runes on these flags.

Too terrifying!

This was definitely a top Nascent Soul cultivator!

Not comparable to the Xu Xuan Island Master or Second Palace Master of the Goddess Palace seen before!

"Boom!"

The great gates of the White Bone Palace slowly opened.

Although possessing eye power far beyond ordinary due to being a Core Formation cultivator, he could look inside to see what presence was there.

But in this situation, Lu Quanzhen didn't dare to look at the White Bone Palace.

"Welcome, Demon Consort, to eternal peace!!!"

"Welcome, Demon Consort, to eternal peace!!!"

The palace was majestic; in front of the main hall gates, at the end of the nine hundred ninety-nine skull-stacked steps, many cultivators or ghosts, demon beasts, and Dao soldiers knelt on one knee, shouting in unison.

"Greetings to the Six Paths Demon Consort!"

Some Nascent Soul True Lords witnessed this scene, their gaze penetrating through the opened gates, past the fearsome Skull Steps, the towering hall gates, into the profound palace, toward the graceful figure lounging on the throne, cupping their fists in salute.

Six Paths Demon Consort!

The first demonic cultivator of the Starry Sky Sea and the Dao companion of the Six Path Demon Lord!

Yet, what caused the expressions of many Nascent Soul cultivators to be heavy was not merely the identity of the Six Paths Demon Consort but her own power indeed!

After all, how could an ordinary female cultivator become the Dao companion of the first demonic cultivator of the Starry Sky Sea!

"I heard the Kunpeng Nest has appeared; I have come to take a look. What is the situation now?"

The melodious and charming voice of the graceful figure in the hall gave an ethereal, enchanting, yet coldly compelling and soul-stirring impression.

"Now the Nest has revealed itself autonomously; the prohibitions of the Dao are gradually dissipating. It is estimated it will open in half a year, at most a year."

This Nascent Soul cultivator familiar with the Six Paths Demon Consort narrated the situation here to her.

"A year, huh..."

The Six Paths Demon Consort in the palace gave a light and calm laugh, causing many cultivators' qi and blood magical power to become unstable.

Yet, just at this moment, the world suddenly brightened like daylight, as a handprint akin to the sun shining broadly descended from the sky, striking fiercely toward the White Bone Palace.

"Zhongli Ming, how bold you are!"

"Hmph, you Six Paths Palace wreak havoc on living beings. Within this White Bone Demon Palace lies the remains of one of my disciples; this debt shall naturally be settled with you all!"

With a thunderous roar, it was as if the entire Starry Sky Sea quivered. Unimaginably bright radiance clashed with the White Bone Palace, forming a vast formation.

"Do these Nascent Soul cultivators never end?"

Lu Quanzhen, somewhat destabilized in his qi and blood magical power with the appearance of the White Bone Palace, now became unsteady as the terrifying qi mechanisms clashed, letting out a muffled grunt, feeling as though his eyes and ears were nearly losing function.

He quickly activated Kunpeng's Magic Power, pushing the Shadow Cloak to the utmost, hastily retreating like a Peng Bird.

This damned place, he dared not stay any longer.

If unfortunate, before the Secret Realm even opens, the aftermath of the magical power from these Nascent Soul cultivators might heavily injure him.

"Hmm?"

Yet as he retreated with all his might, a Nascent Soul cultivator from afar in the Heavenly Dome caught sight of Lu Quanzhen, flying like a Peng Bird.

...

One year later.

At Bi Lake Mountain, within the Mount Sumeru Cave Heaven, inside the Changsheng Hall.

Lu Changsheng sat cross-legged, his appearance dignified with a solemn aura, his body emanating a golden light and demonic qi, intertwining like Yin Yang Energies.

Behind him stood the phantom of a three-headed, six-armed figure.

With the help of many Heavenly and Earthly Treasures, the Brahman Demon True Body that took over two years to condense and refine had now, in just one year, achieved Small Achievement.

As for cultivating from Small Achievement to Great Success, this process would hardly be possible without several decades.

Therefore, Lu Changsheng planned to continue condensing the Xuan Huang Essence to reach Great Success.

During the second reconstruction, this three-headed, six-armed phantom differed somewhat from before.

Covered in purple-golden scales, brimming with infinite power, the barbaric qi mechanism's two arms seemed to coil around a dragon and phoenix.

This resulted from the Dragon Phoenix Origin and the Mystic Dragon Nirvana Power in his physical body, the Heavenly Phoenix Nirvana Power integrated into this Dharma True Body during Lu Changsheng's cultivation, slightly enhancing its power.

Otherwise, there were not many differences in other aspects.

"It's time to go out for a while."

Lu Changsheng slowly opened his eyes, exhaling a mouthful of turbid energy.

Cultivation is timeless.

While immersed in cultivation, Lu Changsheng roughly knew how much time had passed.

Calculating the time, his son Lu Lingxiao was about to achieve Core Formation.

The Sea Splitting Mystic Dragon Whale was also about to undergo crossing tribulation and ascend to the Fourth Rank!

As long as the Sea Splitting Mystic Dragon Whale ascends to the Fourth Rank, he can make a trip to the Starry Sky Sea to see if there are any Infant Transformation Elixirs or unowned Fourth Rank Spirit Lands.

Even if there is no unowned Fourth Rank Spirit Land, possessing the Sea Splitting Mystic Dragon Whale with its True Spirit Bloodline as a Fourth Rank Demon King protector, he could borrow a Fourth Rank Spirit Land to impact Nascent Soul.

"It's a pity Azure Phoenix True Monarch is not here; otherwise, with her and the Sea Splitting Mystic Dragon Whale as protectors, even if the Heavenly Nascent Soul causes great disturbances, it could prevent interference."

Lu Changsheng thought of the Azure Phoenix True Monarch, who left pregnant and without a trace.

If the latter could assist in being a protector, he felt his attempt at impacting Nascent Soul would be more secure.

As for Ayoudo...

Her battle strength was somewhat lacking.

"Once everything is ready, if needed, I might consider contacting her."

Lu Changsheng felt that if high-level battle strength was needed to assist as a protector, he could also consider reaching out to Azure Phoenix True Monarch then.

### **Chapter 2143: Chapter 709: 6 Demon Consorts, 3rd-Rank Divination!\_3**

If it's really not possible, I'll make another trip to the Myriad Demon Abyss later to advance the Soul-calling Beast to the Fourth Rank!

"System, draw a lottery."

Lu Changsheng stood up, patted the green robe on him, and silently recited.

During these days of closed-door cultivation, the total number of Lu Family descendants reached seven thousand, and ten descendants broke through to Foundation Establishment, earning a total of two ordinary lottery draws.

Although he no longer cared much for the rewards from ordinary draws, he still had a significant need for skills.

[Ding! Congratulations host, you have obtained a Third Rank Heaven-replenishing Elixir!]

[The reward has been issued to the System Space, and the host can check it at any time]

An image of the elixir appeared from the large wheel, accompanied by a system notification sound.

"Heaven-replenishing Elixir?"

Seeing this elixir reward, Lu Changsheng paused slightly, then gently shook his head.

In his early years, he looked forward to this type of elixir greatly.

But now...

"I would prefer a piece of Heaven-replenishing Fungus."

Lu Changsheng glanced at the system space; there was only one such level of elixir.

To him, winning a Heaven-replenishing Fungus and then gathering the ingredients himself for refining would be far more practical.

"Continue."

With a slight thought, the system wheel continued to turn.

[Ding, congratulations host, you have obtained Second Rank Spirit Plant Skill!]

[The reward has been issued to the System Space, and the host can check it at any time]

"Skills..."

Now that he had drawn a skill, Lu Changsheng naturally thought about using it to upgrade some of his current skills.

"Which one to upgrade..."

Currently, the skills Lu Changsheng needs most are Talisman Making, Artifact Refining, Dragon Seeking, and Divination.

There's no need to say much about Talisman Making.

With the "Ninety-Nine Mystical Talisman Scripture," if he upgrades Talisman Making to the Fourth Rank, he can directly draw Fourth Rank Talismans.

Not like now, where all Fourth Rank Talismans rely on the Talisman Nurturing Method for enhancement, which is very time-consuming.

Just like the Fourth Rank Talisman promised to his daughter Lu Wangshu, it wasn't that there was no time to draw it, but there was no time to nurture it!

Until now, only three Fourth Rank Talismans have been nurtured.

There's nothing more to say about Artifact Refining.

Whether upgrading the Life-bound Magic Treasure [Yin Yang Chart], refining the [Yin Yang Creation Gourd], or recasting the Spiritual Treasures of Lou Mountain True Monarch and Purple Grey True Monarch, all require an improvement in Artifact Refining level.

As for Dragon Seeking, it concerns the family and the Cave Heaven Spirit Vein.

Currently, his Dragon Seeking Technique is only at the Second Rank, intercepting the Third Rank Spirit Vein is quite wasteful; if upgraded to the Third Rank, even if not talking

about far places, the Spirit Veins of Mount Sumeru Cave Heaven and Great Dream Immortal City can be greatly improved.

As for Divination, it's essential for large forces!

Currently, the Second Rank Divination has little effect.

But once upgraded to the Third Rank, the effect will greatly increase, and he will become a top-level Diviner in Jiang Country!

"I don't urgently need a Fourth Rank Talisman right now, and the experience conversion can only elevate a Third Rank Top Level to Fourth Rank Lower Grade, offering limited help."

"Even if Artifact Refining is elevated to the Fourth Rank, given the current family conditions, it's difficult to perfectly forge the Yin Yang Creation Gourd, so it's better to prioritize enhancing Divination."

"Enhancing Divination skills can provide intuitive predictions of fortune and misfortune, beneficial for stable family management and aiding my journey to the Starry Sky Sea... "

After pondering for a while, Lu Changsheng decided to improve his Divination skill.

He planned to head to the Starry Sky Sea to see his Nascent Soul opportunity.

If he possesses Third Rank Top Level Divination skill, it would make everything much smoother.

Lu Changsheng looked at the Second Rank Spirit Plant in the system space, and with a thought, it instantly infused into his Divination Path.

In an instant, an incredible surge of mystical knowledge flooded his mind.

"So this is the Third Rank Way of Divination, indeed... profound."

Lu Changsheng felt the divination knowledge turn into instinct; it couldn't be described as vast and profound, only as 'mystical.'

Because the path of divination is truly difficult to describe with words.

Thinking about this, Lu Changsheng calculated with his fingers, wanting to see his recent fortune and misfortune.

Suddenly, a premonition surged through his heart.

Good!

An omen of great fortune!

Mysteriously, he calculated that he would have a major joyous event soon.

Lu Changsheng tried to calculate further to find out where the blessing was coming from, but the resistance suddenly increased immensely.

After a long time, his face was pale, and his brows showed a trace of fatigue, only then did he vaguely sense where the blessing was coming from.

Sea Splitting Mysterious Dragon Whale!

"Could this omen be the Sea Splitting Mysterious Dragon Whale advancing to the Fourth Rank?"

Lu Changsheng was somewhat speechless.

He exerted so much mental energy, only to get such a vague piece of information.

The Sea Splitting Mysterious Dragon Whale's advance to the Fourth Rank was a matter of time, did it really need divination?

But thinking about it, with a Spiritual Pet's advancement to the Fourth Rank, it naturally counted as a great fortune.

"There will be time to refine a few corresponding Divination Life Tools."

Lu Changsheng shook his head slightly.

Talisman Masters have corresponding talismanic weapons, Array Masters have array devices.

And Diviners also have corresponding Divination Life Tools, which can enhance the accuracy and success rate of divination.

If Lu Changsheng had a few Upper Class Divination Life Tools, it would have been much easier just now, without consuming so much mental strength and energy.

After consuming an elixir and meditating for several days, restoring much of his mental state, Lu Changsheng got up and walked out of the Changsheng Hall.

"I almost forgot something."

Just as he was walking out of the Changsheng Hall, Lu Changsheng suddenly remembered Ying'er in the Goddess Furnace.

The latter was stored in the Goddess Furnace before he went into closed-door cultivation.

During this time, he was preoccupied with cultivating the Brahman Demon True Body and didn't pay attention to her condition.

Immediately, Lu Changsheng returned to his Cave Mansion and looked towards the Jade Furnace beside the bedside, which resembled a goddess lying horizontally.

Raising his hand slightly, his Divine Sense probed into the furnace.

### **Chapter 2144: Chapter 710: How Did She End Up Like This?**

But there, inside the Goddess Furnace, Ying'er lay completely uncovered.

The Desire Law, like smoke and mist, drifted over her graceful, exquisite, curvaceous white jade-like body, causing her delicate skin to flush faintly red.

Her delicate, beautiful face, once cold and severe, now appeared soft and pitiful, tear-streaked.

Most striking were her deep, mysterious eyes, akin to dark night stars, now filled with bewilderment, empty, and lifeless.

Her elegant and proud jade body, once lively and charming, lay still as a soulless shell.

Although she still ignited a blazing desire within all living beings, she was no longer the cold female assassin she once was, as if she were two different people.

"Could the Goddess Furnace have destroyed her?"

Even though Lu Changsheng hadn't fully activated the Goddess Furnace.

After all, she was just a little cultivator in the Core Formation Third Layer.

So after a year, Lu Changsheng truly wasn't sure about the specific effects.

Yin Yang Magic Power infused, opening the Goddess Furnace.

As smoke and mist surged, the captivating figure of Ying'er's flawless, alluring body appeared before her.

She gently caressed her cheek with the back of her hand.

A bit hot, and slightly damp.

It felt like a fine sweat covered it, yet also seemed like recent tearstains from crying.

Ying'er's delicate body shivered slightly, without resisting.

Then... like a kitten, she gently rubbed her cheek against the palm...

"Ssss..."

The rubbing motion grew increasingly large, with her bewildered eyes half-closed, her cheeks flushed charmingly, seemingly enjoying this moment immensely.

"???"

Lu Changsheng watched as Ying'er, like a kitten, kept nuzzling his palm, slightly stunned.

The effect of the Goddess Furnace was just too domineering?

Turning a willful female assassin directly into... a pet?

"How have you been resting these days, Daoist Ying'er?"

Lu Changsheng spoke, his voice warm and gentle as jade.

Ying'er's alluring white body suddenly tensed.

Even her cheek, which was rubbing Lu Changsheng's palm, momentarily froze.

Ying'er!

I am Ying'er, the trusted aide of the Nether Moon Saintess...

Many images emerged in her mind, as though she regained some sense of self.

"Buzz!"

She wished to sever her heart veins.

Yet not to mention, most of her power was now sealed, she could only access a fraction of it.

Even at full strength, self-destruction wouldn't be possible beside Lu Changsheng.

"It seems it's still lacking."

After interrupting her power, Lu Changsheng murmured softly.

Though the Desire Law distorted her thoughts and consciousness, the force was still too small.

Moreover, he hadn't taken the final step, amplifying her emotions and desires, leaving her with a bit of self-awareness.

"Sob... sob..."

However, as soon as the hand on her cheek disappeared, Ying'er panicked, gasping as if she were a fish out of water, clutching his arm tightly, continuing to nuzzle her cheek, panting plaintively.

As if only by doing so, could she find peace of mind and a sense of security...

"???"

Lu Changsheng furrowed his brow slightly, somewhat puzzled by Ying'er's state.

She seemed to be influenced, yet chose to end her own heart vein.

She seemed unaffected, yet her current state...

Lu Changsheng attempted to pull his arm away from her cheek, her hands, and her tender chest.

"Mmm..."

Ying'er's head lifted, her delicate face tear-streaked, with a hint of a blush, evoking pity.

Her bewildered eyes were filled with sorrow and plea, her lips slightly parted, but only sounds similar to a kitten's cry emerged.

"I know you have some clarity left, you can understand me."

Lu Changsheng roughly understood her current state.

Under the corrosion of the Goddess Furnace, though still retaining some reason, she had fallen into an uncontrollable chaotic state.

"So now I give you two choices, first, I'll send you back to the furnace, second, behave obediently..."

Lu Changsheng's hand gently stroked her face, his voice warm and leisurely.

Upon hearing about going back to the furnace, Ying'er's body instinctively shivered.

Yet as a death soldier, her strong unwavering will made her grit her teeth and say, "Kill me, just kill me..."

But at this time her face was flushed red, eyes bewildered, a few teary murmurs in her voice, lacking any semblance of seeking death.

"Trash Goddess Furnace, looks like this old ancestor has to intervene myself."

Lu Changsheng knew that Ying'er's state was no more than a pet, unable to truly win her over and use her.

He must personally take action, complete the final step, maximize the Goddess Furnace's effect, making her his furnace, forgetting past experiences, sect, or Dao Heart, ever obedient to his desires.

"Are you... willing to fully submit to me?"

Lu Changsheng pinched her delicate chin, looking at her pitiable tear-streaked face, softly speaking.

Doing something against a woman's will wasn't something Lu Ancestor preferred to do.

But Ying'er involved a series of plans regarding Beast God Mountain.

So in such cases, sacrificing his appeal was necessary.

However, the latter wanting to seize his spiritual beasts, now held captive, becoming his spiritual pet... seemed fair, didn't it?

"I am willing... no..."

Inside the Goddess Furnace's erosion, Ying'er's emotions and thoughts were already chaotic, carrying an inherent obedience and longing towards Lu Changsheng.

Now hearing this, she instinctively wanted to respond.

But remaining reason told her, her master was Beast God Mountain, the Nether Moon Saintess!

She could never betray her; everything belonged to her....

Tears streamed from Ying'er's eyes as if tangled and struggling.

But in just a moment, her alluring white and tender body involuntarily leaned into Lu Changsheng's embrace.

"Buzz!"

The nearby Goddess Furnace trembled slightly, bursting with swirling radiance, engulfing Lu Changsheng and Ying'er.

Not long after, the world within the furnace unveiled an endless, breathtakingly beautiful scene.

## **Chapter 2145: Chapter 710: How Did It End Up Like This? (Part 2)**

...

A few days later.

"Ying'er?"

Lu Changsheng looked at Ying'er in front of him, with her messy hair, flushed cheeks, and cat ears and a long cat tail, and called out softly.

After completing the final step of the Goddess Furnace, he could clearly feel an indescribable connection between him and Ying'er.

The cat girl, collapsed on the ground with drool at the corners of her mouth, immediately lifted her head slightly, looking at Lu Changsheng with eyes full of lingering attachment.

"Why did you come to White Tiger Mountain?"

Lu Changsheng rubbed her cat ears and asked.

These cat ears seemed to be Ying'er's sensitive spot; her already weak body seemed to melt like butter, and she moaned softly, then gasped and said, "Under... orders from the Holy Maiden, I came to check on the atavistic situation of Jiuyou, to awaken some Heavenly Wolf lineage... and also to investigate how the master raised the Nether Moon Wolf to the third rank."

"Can you tell me about Beast God Mountain?"

Lu Changsheng looked at Ying'er and continued.

Although there was a soul prohibition of Beast God Mountain in Ying'er's sea of consciousness, preventing her from speaking about the core secrets of the Nether Moon Saintess and Beast God Mountain.

Yet her soul consciousness was eroded by the Desire Law of the Goddess Furnace, so as long as the prohibition wasn't fully triggered, she could speak.

However, Ying'er was just a trusted aide of the Nether Moon Saintess, with limited knowledge of the upper echelons of Beast God Mountain.

"The Nether Moon Saintess, besides her spiritual pet, the Nether Moon Heavenly Wolf, has also contracted a top-level Lifebound Beast Soul..."

The Lifebound Beast Soul is the core inheritance of Beast God Mountain, integrating demon beasts into oneself!

Ying'er's Lifebound Beast Soul is the [Nether Cat].

So her techniques and divine skills are inclined towards assault, assassination, stealth, and the like.

However, Ying'er can't compare to the orthodox lineage of the Nether Moon Saintess.

The latter is cultivating the orthodox techniques of Beast God Mountain, with potential to reach Nascent Soul in the future.

While her cultivation technique inheritance is restricted by the Nether Moon Saintess and continuously consumes the potential of her Lifebound Beast Soul and her own lifespan as the price.

"This method of training death soldiers is somewhat similar to training demon beasts and Dao Soldiers."

Lu Changsheng gazed at Ying'er, who looked like a cat girl, with slightly narrowed eyes.

Like the secret techniques Hong Lian knows, which consume the lifespan and potential of demon beasts to enhance growth.

"You've been away for so long, will the Nether Moon Saintess take any follow-up actions?"

Lu Changsheng asked, which was his biggest concern.

"The Saintess... she should send cultivators to investigate information related to me... other things Ying'er doesn't know..."

Ying'er, having recovered some strength, snuggled close to Lu Changsheng, constantly rubbing her cheek against him, and even sticking out her little tongue to gently lick.

Under the influence of her Lifebound Beast Soul, her subconscious has some habits of the Nether Cat, although she can usually control it.

Now being eroded by the Desire Law of the Goddess Furnace, these feline traits are amplified.

"Will she come in person?"

Lu Changsheng took a deep breath, gently stroked her head, touching the furry ears, and asked.

"With the Liangyue War going on, the Saintess... probably doesn't have time to come herself, um... plus her status is important and she's under the watch of many forces, sneaking into Jiang Country is very dangerous..."

Ying'er spoke intermittently.

"Do you have any way to stabilize or lure out the Nether Moon Saintess?"

Lu Changsheng slightly squinted his eyes and said.

Faced with the thought of her former master, Yinger's twisted thoughts and spirit became briefly rigid, as if in great conflict and pain.

A moment later, her eyes slightly teared up and she said softly, "Having been out for so long now, the Saintess won't easily trust my messages... but if I leave some mark information indicating I was in danger before, it might stabilize her..."

"Alright."

Lu Changsheng nodded slightly, seeing that Ying'er, though eroded by the Desire Law, still retained some rationality.

Then he took Ying'er out of the Mount Sumeru Cave Heaven, and they set down markers at White Tiger Mountain and several other places, and broke a few transmission talismans.

After completing these, Lu Changsheng planned to further train Ying'er for a period of time before using her against the Nether Moon Saintess and Beast God Mountain!

As for sending her back as an inside agent, the risk was too great.

No mention of her not being completely lost yet.

Being an old Nascent Soul level power, Beast God Mountain might be able to notice her issues.

So the best method is still to use Ying'er to lure out the Nether Moon Saintess.

As long as the opponent dares to act alone, he is confident of subduing her!

...

Back at Bi Lake Mountain, Lu Changsheng inquired about the family situation from Lu Miaoyun.

"The Elder Ancestor of the Xu Family has passed away?"

Lu Changsheng raised an eyebrow, a bit surprised.

Although the elder's lifespan should be near its end, judging from the previous campaign, he shouldn't have passed away so soon.

"The Xu Family has already announced it and is holding a funeral..."

Lu Miaoyun said softly, indicating that the Elder Ancestor's passing was indeed sudden.

But for such matters, no one can ask much, and it's impossible to know many details.

Lu Changsheng attempted some calculations.

However, without any relevant clues or deep connections with the Elder Ancestor, there was considerable resistance.

"Well, if he passed away, he passed away."

Lu Changsheng didn't force the calculations, wasting effort.

The passing of cultivators from old age is a complicated matter.

Especially in old age, even a slight mistake in cultivation techniques might lead to deviation, qi-blood disruption, affecting the body's state.

"But some cultivators speculate that the Elder Ancestor might have feigned death to pave the way for the family."

Lu Miaoyun said with a slightly serious tone.

There are precedents for such things; even the Beast Taming Xu Family and some Foundation Establishment families have done such things.

"It's not impossible."

Lu Changsheng nodded, indicating that the family should remain cautious.

## Chapter 2146: Chapter 710: Why Did It Get Set Like This? (3)

A Nascent Soul Cultivator lurking in the shadows is always difficult to deal with no matter where they are.

However, owning a Third Rank Divination, as long as he is willing to pay the price and find the relevant medium of the Elder Ancestor of the Xu Family, it should not be hard to locate him.

Moments later, he heard that Ling Zixiao had successfully constructed the teleportation array between Bi Lake Mountain and White Tiger Mountain and went to the underground palace to take a look.

It's clear that Ling Zixiao borrowed from the [Michen Banner] for this short-distance teleportation array and even used the sub-banner of Michen Banner as the anchor point of the array eye.

"This idea is really good, I can completely replicate a few Little Michen Banners as array eyes, ensuring the stability of the array."

As a Third Rank Top Level Artifact Refiner and Array Master, Lu Changsheng instantly recognized Ling Zixiao's line of thinking.

However, Ling Zixiao had already gone to the Great Dream Immortal City, so he could only wait to discuss with the latter later.

"Ping'an..."

After accompanying his wives for several days at home, Lu Changsheng instructed his son Lu Ping'an, signaling him to look after the house, and then headed to Qingyun Sect to catch up with Xiao Xiyue.

Half a month later, Lu Ancestor left Qingyun Sect and took Ying'er to the Great Dream Immortal City.

...

With the illustrious reputation established by the hunt of the Void Kun and the whale hunting banquet, no cultivators dared to cause trouble in Great Dream Immortal City.

As for the occasional heretic cultivators, robber cultivators, the current situation in the immortal city is enough to deal with them easily.

So over these years, Great Dream Immortal City has been quite peaceful, with basically nothing happening.

"Lord, Xiao'er is currently cultivating the Core Formation Secret Technique. As Senior Red Lotus said, Xiao'er will naturally have no problem forming a core, but since the conditions are available, it's best to prepare as much as possible."

Ling Zixiao is breaking through to Core Formation, Lu Lingxiao is preparing for Core Formation, and Hong Lian is focused on cultivation, so the affairs of the immortal city fall into her hands again.

"Core Formation is something that Xiao'er has to do for himself. There's no need to rush."

Even though my son Lu Lingxiao is breaking through to Core Formation, the system might send some child money.

But these things will happen sooner or later. There's no hurry for these few years, and I still hope Xiao'er will lay a solid foundation.

Then, Lu Changsheng planned to show some concern for the immortal city's sons and daughters.

However, all the children at home were not present, taken out for exploration and training by Meng Xiaochan.

"Goodness."

Lu Changsheng was slightly stunned to learn that his son Lu Minghuang, daughters Lu Baixi, Lu Mengchan, Lu Linghe, and others were not present.

But knowing Meng Xiaochan took them to explore some islands, he nodded slightly.

The children are grown now; they can't stay home all the time. Going out is good even if it doesn't seem very meaningful.

And with Meng Xiaochan, a Nascent Soul Cultivator watching over and the islands not far from where the Sea Splitting Mystic Dragon Whale sleeps, there is no real danger.

After spending several days bonding with Ling Zixiao and Hong Lian, Lu Changsheng thought about the Puppet Master [Qian Zhuyan] he had subdued.

Although it is affected by corruption from Puppet Spirit, requiring dormancy, it has crafted a Third Rank Middle Grade Puppet and a semi-finished Third Rank Puppet over the years.

This efficiency is already quite astounding.

Lu Changsheng released a pile of Heaven and Earth Spiritual Materials collected from Myriad Demon Abyss and Five Poisons Cult, which could help Qian Zhuyan upgrade and provide materials for crafting more puppets.

Seeing so many materials, Qian Zhuyan was filled with joy.

On one hand, she saw the hope of advancing to the Fourth Rank Puppet.

On the other hand, she genuinely loves the way of puppetry.

Now Lu Changsheng provides unlimited materials, and there are not many demands for crafting puppets, letting her freely express herself, which is simply her dream life.

If not for harboring deep grievances, she would even be willing to live like this all her life.

"She's a true homebody, a tech nerd!"

Lu Changsheng sighed in his heart, asking Qian Zhuyan about his daughter Lu Wangshu's talent in puppetry.

"Average."

Qian Zhuyan, in a hoarse and resonant voice, said her talent in crafting puppets was mediocre, but her comprehension was quite good.

Her "Little Yan Technique" and "Little Yan Handbook" were already entry-level for the latter, and going forward depended on the time she invested.

"Alright."

Lu Changsheng nodded slightly, took away the puppet crafted by Qian Zhuyan, handed it to Ling Zixiao, then came to a shop in Great Dream Immortal City named [Heavenly Talisman Hall].

This is a talisman shop of the Heavenly Talisman Lu Family in Great Dream Immortal City, and the acting shopkeeper is Lu Wangshu.

Like the Third Rank Talismans occasionally sold from the shop, although nominally drawn by "Changsheng True Master," they are actually from the hands of Fairy Wangshu.

Seeing his daughter not at the talisman hall, Lu Changsheng went to her small courtyard.

Seeing his daughter was seriously cultivating, Lu Changsheng was greatly relieved.

"Dad, why are you here."

The array keys to this small courtyard are only owned by Lu Changsheng, Lu Lingxiao, and a few others.

So, seeing the array formation restriction opened, Lu Wangshu immediately awoke from closed-door cultivation.

"Well, I finished my work, so I came over to check on you."

Lu Changsheng looked at his daughter, whose brows were like a painting and face radiant, and smiled warmly.

Although he has many children, he has always had a partiality towards his daughter Lu Wangshu.

Inquiring about her recent cultivation and seeing her somewhat weak demeanor, Lu Changsheng shook his head, flipped his palm, and said: "Here are the Fourth Rank Talismans I promised you."

"Fourth Rank Talismans!"

Lu Wangshu instantly became spirited, looked at the talisman in her father's hand, took it excitedly, and said in surprise and delight: "Dad, you actually remembered this, I thought you were tricking me again."

"???"

Lu Changsheng flicked her smooth forehead, retorting: "When did I ever trick you?"

"Of course, three years ago, you said if I could master Senior Qianzhu's puppetry, you'd craft me a Third Rank Puppet, but there's still no sign of the puppet."

"And these talismans, how many years have passed, and seven years ago you promised me... nine years ago..."

#### **Chapter 2147: Chapter 710: How Did It End Up Like This? (Part 4)**

Lu Wangshu said defiantly, then counted on her fair jade-like fingers how many promises her father had made over the decades.

"Stop, stop, that was so many years ago, and didn't it all require time...."

Lu Changsheng quickly interrupted as his daughter flipped through the old accounts from thirty or forty years ago, expressing how truly busy he was.

Moreover, to forge and nurture these three Fourth Rank Talismans, he had worked so hard, spending so much time and energy.

Especially when he started drawing and failed, gathering suitable talisman-making materials was a frustration.

"Okay, okay, Dad, don't say anymore, you've worked hard."

Although Lu Wangshu felt her father simply forgot due to being busy, seeing him start to complain and grumble, she could not help but comfort him.

Soon after, Lu Changsheng helped his daughter refine these three talismans.

That's right, it was refinement.

The reason these three talismans were nurtured so long to reach the fourth rank, besides Lu Changsheng being busy throughout the years with fluctuating states, was mainly because it was challenging!

These are not ordinary activation-use talismans, but rare talismans similar to the Summoning Talisman.

They can connect with Lu Wangshu's Life-bound Divine Talisman, helping her nurture Essence, Qi, and Spirit, refine Mana, and condense Dao Foundation!

...

An hour later.

"How's the effect?"

Lu Changsheng asked his daughter with a smile.

"Dad, I feel these three talismans are like magical treasures condensed by the Hundred Refinements Treasure Body Art, with mana autonomously circulating in cycles. If I cultivate myself, the speed increases by almost fifty percent!"

Lu Wangshu said joyfully.

Seeing Lu Lingxiao already cultivating the Core Formation Secret Technique, about to break through to Core Formation, while she was only at the Eighth Layer of Foundation Building, she felt immense pressure.

Right now, she could suppress it with other methods, but once the latter broke through Core Formation, Lu Lingxiao would completely leave her behind.

"Good."

Seeing his daughter smiling joyfully like a blooming flower, Lu Changsheng felt the effort in refining these three talismans wasn't wasted.

He reached out and ruffled her black silky hair, indicating that cultivation should be steady and reliable, not rushed.

Although the father and daughter traveled together, heading to Dragon Fish Island, Green Carp Island, Red Carp Island, and then to Mengxi Island, where Meng Xiaochan, Lu Linghe, and others were pioneering.

"Lu Lang! Brother!"

"Dad! Dad! Sister!"

Seeing Lu Changsheng and Lu Wangshu arrive, Meng Xiaochan, Bai Ling, and the others immediately showed signs of delight.

"Little Chan, Ling'er..."

Lu Changsheng saw the island's situation and experienced frontier development with his wife and children here.

Half a month later, he entered the depths of the Great Dream Marsh to check on the Sea Splitting Mysterious Dragon Whale.

"Splash——"

The seawater roared with boiling rage, and a giant vortex appeared.

After years of slumber, the Sea Splitting Mysterious Dragon Whale finally completed its transformation from a Heavenly Grade Bloodline to a True Spirit Level Bloodline!

The massive majestic form was perfect in proportion, and the black gold scales densely covering it were like the most solid armor, seamlessly covering its body.

Under the sunlight and sea water, each scale shimmered with a mysterious profound luster, with dark gold dragon-shaped patterns slowly flowing, very mystical.

The two dragon horns on its head were towering and solemn, exuding a noble overlord's aura.

The fins on its sides were like a pair of broad, sturdy wings, covered with fine scales like blade edges, exuding a cold light when brushed by the flowing water.

"Not bad, now this looks like a True Spirit Level Demon King."

Lu Changsheng was very satisfied seeing how the Sea Splitting Mysterious Dragon Whale looked now.

During its previous growth and transformation, its body looked awkward.

"Big Black, are you ready?"

Lu Changsheng asked.

"Roar!"

The Sea Splitting Mysterious Dragon Whale let out a low roar, indicating it was ready to charge into the fourth rank, with absolute confidence!

"..."

Speaking of absolute confidence, Lu Changsheng couldn't help but recall when the whale attempted to cross the True Spirit Tribulation previously, resulting in being blasted by the Heavenly Tribulation until its flesh and blood were torn, leaving only bones.

"Alright, I'll join you later."

Though the whale had no problems crossing the tribulation.

He previously performed divination and calculated an auspicious sign, indicating the Sea Splitting Mysterious Dragon Whale would definitely succeed in crossing the tribulation.

But in matters of this magnitude, caution should be exercised.

He previously prepared some treasures for the whale at Myriad Demon Abyss and Five Poisons Cult, ensuring no chance of failure!

### **Capítulo 2148: Chapter 711: Kunpeng Demon Technique, Sea Splitting Mysterious Dragon Whale Charges to Stage 4!**

After spending half a month with his wife and children on Mengxi Island, Lu Changsheng returned to Great Dream Immortal City to prepare tribulation-crossing items for the Sea Splitting Mysterious Dragon Whale.

Regarding elixir medicines, besides the Beast Heart Pill traded from the Spirit Taming Sect, Snake Marrow Bone-shedding Pill, Devil Muscle Blood Generation Pill, and Soul

Cleansing Gu acquired from the Five Poisons Cult, Lu Changsheng also planned to refine a batch of Beast Spirit Bone Melt Pills.

Not only can this pill enhance a demon beast's foundational potential, but it also allows for rapid injury recovery under a heavenly tribulation.

Fortunately, Myriad Demon Abyss happened to have gathered these materials, saving time in collecting them.

As for other preparations, he planned to refine a tribulation-crossing treasure, the Thunder Transformation Umbrella.

It's a spiritual treasure recorded in the "Divine Mechanism Hundred Refinement Technique."

It possesses the effect of absorbing and resolving the power of heavenly thunder.

During tribulation crossing, this umbrella can not only enhance resistance to the heavenly tribulation but also diminish and resolve parts of it, tempering the physical body and mana.

Lu Changsheng intended to refine a prototype version for testing its effects, in preparation for his own Nascent Soul Heavenly Tribulation in the future.

Through the previous Body Refining Heavenly Tribulation, Lu Changsheng understood that leveraging the tribulation to temper the physical body and mana was immensely beneficial to him.

Yet, under normal circumstances, tribulation crossing is exceedingly dangerous, let alone attempting to temper oneself during it.

At times like these, the effects of such tribulation-crossing treasures and tribulation-deflecting items become apparent.

Without delaying further, Lu Changsheng instructed Ling Zixiao and then ordered Hong Lian to refine the Beast Spirit Bone Melt Pills while he himself refined the Thunder Transformation Umbrella.

Hong Lian, as a Fourth Rank Beast Tamer and Third Rank top-level Alchemist, naturally had the expertise to refine a Third Rank Beast Spirit Bone Melt Pill effortlessly.

While lacking spiritual medicine, she still possessed several rare exclusive recipes that could enhance a demon beast's chances of advancing to the Fourth Rank.

...

Starry Sky Sea.

Within the Endless Sea Domain, an imposing stone cliff stood tall, hosting an ancient bird's nest.

Though the nest appeared simple, under an endless mingling of rosy clouds and mist, it conveyed a profound sense of the passage of time.

With the dissolution of prohibitions and complete opening of the Kunpeng Nest's Dao principles, numerous powerful individuals entered the ancient nest from the stone cliffs into the secret realm.

“Nascent Soul True Lords and Fourth Rank Demon Kings have entered; we can now act.”

Once all Nascent Soul level strong individuals and Fourth Rank Demon Kings had entered the ancient nest, certain Core Formation, and even Foundation Establishment cultivators stealthily approached, hoping to enter the secret realm and obtain some opportunities.

After all, the Kunpeng Nest was extremely enticing!

This was a top-tier secret realm reputed for unknown generations within the Starry Sky Sea, possessing priceless treasures and unparalleled opportunities.

And in the cultivation world, tales of small cultivators seizing supreme opportunities from the hands of great figures and soaring to unprecedented heights abound!

Lu Quanzhen sat cross-legged on a small island a hundred miles away from Kunpeng Nest, concealing his presence with a simple formation, awaiting a time when things had completely settled before venturing closer.

After all, he did not intend to enter the Kunpeng Nest.

He merely wished to feel the Kunpeng Nest from a close distance and use the Kunpeng's qi mechanism of the ancient nest to cultivate his cultivation technique divine ability.

Just then, a cloud suddenly drifted towards his direction and settled above his formation.

“Hmm?”

Lu Quanzhen's mind paused instantly, his expression alert.

The next moment, a light snort echoed from within the cloud.

Suddenly, a jet-black ray burst down, striking his formation light shield.

“Crack! Crack! Crack...”

The quasi-third rank formation light shield immediately shattered like a mirror, and then collapsed entirely.

“Boom!”

Lu Quanzhen witnessed the jet-black ray continuing to shoot towards him, fully activating the “Kunpeng Devouring Heaven Demon God Technique,” appearing with both a Kunpeng around him, expanding rapidly to several zhang, instantly swallowing the dark ray before him.

Still, despite this, Lu Quanzhen was pushed back over ten zhang, unsteady in qi-blood and mana.

“Nascent Soul True Lord!”

Lu Quanzhen eyed the cloud ahead, his face suddenly darkening.

Although he hadn’t sparred with a Nascent Soul True Lord previously.

Recent events at Xu Xuan Island’s Nascent Soul battle and the qi mechanism surrounding Kunpeng Nest made him realize a Nascent Soul cultivator stood before him!

Why would a Nascent Soul cultivator attack him?

Not daring to hesitate and overthink, Lu Quanzhen bowed politely: “I am unaware of the senior’s esteemed visit here; what guidance might you have for this junior?”

Though the opponent attacked without reason.

In the cultivation world, the rule of survival of the fittest means a Nascent Soul cultivator needs no reason to attack him.

To express anger or question at this moment is utterly pointless.

Moreover, a Nascent Soul cultivator can effortlessly kill him.

The recent attack was merely a casual blow, a show of force, not a sincere attempt to kill him.

Hence, this person likely harbors a certain intention.

“Indeed, despite being merely at the initial stage of Core Formation, you remained so calm under my strike—the mere heart and courage are commendable.”

From within the cloud came an authoritative and aged voice, leaving one uncertain whether it was praise or disdain.

“Thank you for your praise, senior.”

Lu Quanzhen, neither arrogant nor humble, said calmly: “You are a Nascent Soul True Lord; should you desire to kill this junior, my fear would be futile.”

“A wise man indeed; I relish dealings with wise people.”

The sky cleared as the cloud gradually dispersed.

A thin, high-cheeked, hook-nosed elder landed before Lu Quanzhen, his deep, dark eyes fixed intently upon him: “Curious to visit the Kunpeng Nest? I can safely take you in and out.”

“Enter the Kunpeng Nest?”

Lu Quanzhen’s heart jolted at the words.

Of course, he wished to visit the Kunpeng Nest.

However, such a high-level secret realm is one beyond the reach of a Core Formation cultivator like him.

Moreover, this person’s origins are unknown, and suddenly saying he would take him inside; how could he dare venture into the Kunpeng Nest with such recklessness?

### **Chapter 2149: Chapter 711: Kunpeng Demon Technique, Sea Splitting Mysterious Dragon Whale Advances to Tier 4!**

"Junior has only heard of the Kunpeng Nest’s emergence and came to witness it; I have no intention of entering, nor the fortune to enjoy, thank you for your kindness, elder!"

Lu Quanzhen quickly cupped his hands and bowed, speaking sincerely.

"Hmm? You’re refusing to give this old man face?"

The elder’s face darkened, his voice was cold, making Lu Quanzhen suddenly bear an immense pressure, stumbling back.

"May I ask why the elder wants to take the junior to the Kunpeng Nest?"

Lu Quanzhen retreated over ten steps before steadying himself, speaking with a bitter expression.

He had already realized that the other party was here because of him.

"Naturally, it's because you cultivated 'Kunpeng Demon Technique'."

Although the elder's voice was calm, his eyes like dry wells and black holes made Lu Quanzhen feel a chill.

Lu Quanzhen did not expect it to be related to his Cultivation Technique.

Moreover, how did the other party know he was cultivating 'Kunpeng Devouring Heaven Demon God Technique'?

He respectfully asked, "May I ask what the elder means by the Kunpeng Demon Technique?"

"Heh heh..."

The hooked nose elder chuckled lightly, raising his somewhat sharp hand.

In that instant, a small blood-colored fish appeared, exuding rich blood Qi, as if it wanted to devour heaven and earth.

"This..."

Lu Quanzhen's pupils contracted sharply.

Although it was different from his 'Kunpeng Devouring Heaven Demon God Technique.'

Yet, he immediately recognized it as the Swallowing Heaven Method from the latter part of the 'Kunpeng Devouring Heaven Demonic Technique.'

Seeing Lu Quanzhen's expression, the elder's voice softened a bit, "Don't worry, this old man has no malice towards you, just wants to travel with you to the Kunpeng Nest."

"What business does the elder have for the junior to enter the Kunpeng Nest?"

Lu Quanzhen didn't know the origin of the connection between the other party and this Cultivation Technique.

Thinking about how his Cultivation Technique became more active as he approached the Kunpeng Nest, he speculated whether the Kunpeng Devouring Heaven Demon God Technique had a connection with the Kunpeng Nest.

Otherwise, why would this person take him without reason?

But this person also cultivated the 'Kunpeng Devouring Heaven Demonic Technique,' so why bring him along?

"Hmm?"

The elder saw Lu Quanzhen's confused expression, slightly frowned, then spoke, "Presumably when near the Kunpeng Nest, your Cultivation Technique sensed something..."

However, before the words were finished, the elder's face suddenly darkened, his eyes shot out two dark rays breaking through layers of void.

"Who dares come forth before this old man!"

The Nascent Soul level might burst forth, instantly doubling the pressure on Lu Quanzhen beside him, stirring and surging his Qi-Blood, causing him to retreat.

The gap between Core Formation and Nascent Soul is truly immense!

Even though he was an Immortal Golden Core, an outstanding one at the same level.

Facing a Nascent Soul True Lord, a Great Realm apart, he had no power to resist.

"Wugu Daoist, you're so angry, I only happened to pass by."

In the distance, the void rippled, and a middle-aged man with a full forehead, ruddy complexion, eyes filled with age, wearing a brown robe appeared.

Nascent Soul True Lord!

Another Nascent Soul True Lord!

Lu Quanzhen saw this middle-aged man and was astonished, not expecting another Nascent Soul Cultivator to arrive.

Earlier, he was thinking about how to find an opportunity to escape.

Now it seems unless they fight to death, he has no chance.

"Just passing by, what a coincidence."

The hooked-nose elder spoke sarcastically with a grim expression but made no move.

"Tsk, is this young friend contemplating heading to the Kunpeng Nest?"

The brown-robed man ignored Wugu Old Demon's words, looked at Lu Quanzhen, scrutinizing him, "I often like supporting juniors, for some reason, I felt a connection today, would you be willing to join my house?"

Upon hearing this, the hooked-nose elder exuded a Nascent Soul level suppression, seemingly ready to act.

"Heh, just kidding."

Though the brown-robed man did not fear the presence of Wugu Old Demon, he did not want to offend him completely either, smiling.

Then he transmitted via Divine Sense, "Wugu Daoist wishes to take this child to the Kunpeng Nest, is it because of Kunpeng Demon Technique?"

"But this child is merely a Core Formation Cultivator, can it truly be of use?"

He had some knowledge of the rumors related to Kunpeng Demon Technique and the Kunpeng Nest.

Rumor has it that this Cultivation Technique was spread from the Kunpeng Nest years ago, involving some core opportunity related to the Kunpeng Nest.

But with the Kunpeng Nest appearing once more after thousands of years, even they cannot ascertain the truth.

Wugu Old Demon knew without clear explanation, taking Lu Quanzhen would be difficult, and spoke coldly, "Since Shi Hai Daoist has seen, naturally you can see this child's Kunpeng Demon Technique is not a mere remnant."

The brown-robed man did not speak, stepping forward and grasping Lu Quanzhen's shoulder.

The latter reflexively tried to dodge, but could not avoid it.

"Can Kunpeng alternate Yin Yang, cycle through Right and Demon! This..."

Shi Hai examined Lu Quanzhen's Kunpeng Demon Body, Kunpeng's Magic Power, and his eyes showed a hint of suspicion.

Although he did not know 'Kunpeng Devouring Heaven Demon God Technique.'

He discerned it was different from the 'Kunpeng Demon Technique' he was aware of.

"May I know this young friend's sect affiliation?"

From Lu Quanzhen's Cultivation Technique, Dao Foundation, Golden Core, Physical Body, he recognized the latter was extraordinary.

Definitely not some nameless Loose Cultivator!

Therefore, being a Nascent Soul Cultivator, he was willing to inquire to avoid offending the power behind him.

"Demonic Sect!"

Lu Quanzhen replied directly.

He knew as a Core Formation Cultivator, lying before a Nascent Soul True Lord was tough, and should not hesitate or waver.

As for why he claimed the Demonic Sect, he had pondered this issue in his youth.

The lineage he inherited, using borrowed influence, could not be from Starry Sky Sea forces, as it was prone to exposure.

Whereas Heavenly Talisman Lu Family, Great Dream Immortal City... before these Nascent Soul Old Monsters, were completely insufficient, unheard of.

Thus for intimidation and fitting his Cultivation Technique, only a hugely influential demonic sect renowned in the Southern Wilderness Cultivation Realm suited.

### **Capítulo 2150: Chapter 711: Kunpeng Demon Technique, Sea Splitting Mysterious Dragon Whale Advances to Stage 4!**

He learned about the Demonic Seven Sects in his early years.

Sects like Immortal Lotus Sect, Blood Sea Sect, Netherworld Ghost Sect have no connection with his "Kunpeng Devouring Heaven Demon God Technique".

Therefore, among the remaining options of Demonic Sect, Myriad Beasts Demon Sect, Azure Sky Demon Sect, he chose the most famous, the Demonic Sect.

As for whether he could deceive them, that's another matter.

He felt that given his current situation, he has a certain degree of credibility.

"Demonic Sect!?"

Shi Hai and Wugu Old Demon exchanged glances.

Though the Starry Sky Sea is far from the center of the Southern Wilderness Cultivation Realm, it is not isolated from the world.

As Nascent Soul True Lords, they naturally have heard of one of the top forces of the Southern Wilderness Cultivation Realm, Demonic Sect!

This Lu Quanzhen before them, even within the Demonic Sect, would at least belong to the level of a True Inheritor.

If killed without a thought, it could very well lead to trouble when the Demonic Sect finds out.

“Daoist Wugu, does the Demonic Sect possess the ‘Kunpeng Demon Technique’?”

Shi Hai asked Wugu Old Demon.

“As a top Demonic Sect force in the Southern Wilderness, it is likely to have collected the renowned Kunpeng Demon Technique.”

Wugu Old Demon said with some uncertainty.

After thinking for a while, they then looked at Lu Quanzhen on the side and said, “Since you come from the Demonic Sect, why have you come to Starry Sky Sea?”

“After my Core Formation breakthrough, my master indicated for me to come to the Starry Sky Sea for training, saying there might be opportunities waiting for me. So upon hearing news of Kunpeng Nest appearing, I came to take a look.”

Lu Quanzhen said calmly.

From their expressions, it seemed they believed his words.

No matter what, he must not show any flaws at this time.

“Since so, then it seems you might know about the ‘Kunpeng Demon Technique’ and the Kunpeng Nest.”

Shi Hai looked at Lu Quanzhen and said calmly.

From the situation just now, Lu Quanzhen had already guessed they had turned their focus on him due to his cultivation technique.

He shook his head with a bitter smile and said, “My master didn’t explain in detail, just suggested there might be opportunities for me here. I guessed it might be related to the rumored Kunpeng Nest, but over the years, all found were false messages.”

“Even though the Kunpeng Nest has appeared this time, with my current strength, I can’t enter it and have to wait for my master’s reply.”

Lu Quanzhen said politely, introducing again a mysterious master.

“In that case, let me tell you, the ‘Kunpeng Demon Technique’ you cultivate, was passed down from the Kunpeng Nest three thousand years ago, relating to the core opportunity of a secret realm.”

“However, this technique is extremely difficult to cultivate, going against the natural order. After causing a bloody storm back then, it gradually was lost, leaving only some remnants of the technique.”

“Since you have cultivated and mastered this technique, going into the secret realm might allow you to obtain its core opportunities.”

Shi Hai looked at Lu Quanzhen and said in a calm voice.

Though he didn’t show much dominance, Lu Quanzhen felt this person was more terrifying than Wugu Old Demon.

“I dare not covet such opportunity and treasures. If both seniors are interested, I am willing to take a trip with the seniors to enter the secret realm, only that the realm is dangerous...”

Lu Quanzhen knew the two before him had already reached some kind of agreement for cooperation, and expecting them to fight hard was impossible.

Under these circumstances, even pulling on the Demonic Sect and the mysterious master’s influence would be useless.

He could only use his value and figure out a way to stay alive from their hands.

“Haha, you are indeed a smart person, with myself and Daoist Wugu here, you can rest assured, when we obtain the opportunity, there will be a share for you too.”

Shi Hai said with a smile, very satisfied with Lu Quanzhen’s tactfulness.

The Kunpeng Nest only opens once after thousands of years.

Now there is a chance to touch the core opportunity of the secret realm, and even if it offends the Demonic Sect, it is worth it.

“Young friend, this is a magical treasure [Black Spirit Ring] I refined in my early years, it has the effect of protecting and defending, you can wear it on yourself, just in case.”

At this time, Wugu Old Demon slightly raised his hand, and a bone ring with a dark luster appeared, falling in front of Lu Quanzhen.

“...”

Looking at the ring before him, Lu Quanzhen thought to himself not knowing whether it's for protection or control, but still cupped hands in thanks.

Beside him, Shi Hai also took out a magical treasure from his storage ring and gave it to Lu Quanzhen.

Then the two took Lu Quanzhen to the Kunpeng Nest.

When Lu Quanzhen climbed the cliff of the Kunpeng Nest, the “Kunpeng Devouring Heaven Demon God Technique” began to circulate independently, instinctively absorbing the flowing chaos qi mechanism.

Seeing this, Shi Hai and Wugu Old Demon became more convinced Lu Quanzhen could help them find the core opportunity.

...

Three months later.

Great Dream Immortal City.

Lu Changsheng and Hong Lian respectively completed the refining of [Thunder Transformation Umbrella] and [Beast Spirit Bone Melt Pill].

But at this time, Ling Zixiao told Lu Changsheng news that Yan Lan arrived at Great Dream Immortal City, preparing to break through False Core.

Upon hearing this, Lu Changsheng went to see her.

Even though she was fully prepared, when truly in the moment, she was still somewhat nervous.

In response, Lu Changsheng used Dual Cultivation Technique to ease her worries and difficulties.

Moreover, he helped her choose a top-grade Core Formation Spiritual Object from the Great Dream Immortal City Treasure Vault.

With a Third Rank Demon Pill and a piece of top-grade Core Formation Spiritual Object, unless her performance was too poor and unsatisfactory, this False Core was almost certain.

Facing Lu Changsheng's generosity, Yan Lan was deeply grateful and moved to tears.

Three days later, Yan Lan began to calmly adjust her state.

Lu Changsheng did not stay waiting as a protector in the cave mansion.

Condensing a False Core is somewhat faster than a True Elixir, but it still takes several months.

If Yan Lan's state brews for too long, it might take more than half a year.

Moreover, he calculated through divination that Yan Lan's breakthrough would be auspicious, indicating a high chance of success.

"Zi Xiao."

Lu Changsheng returned to the City Lord Mansion, indicated Ling Zixiao to notify him first if anything happened.

Then with Hong Lian, he took the Golden-Winged Heavenly Peng and Soul-calling Beast to the depths of the Great Dream Marsh, helping the Sea Splitting Mysterious Dragon Whale advance to Fourth Rank!

...

The breakthrough location naturally was still at the Sea Eye where the Great Dream Marsh flows into Starry Sky Sea.

It must be said, when they hunted the [Deep Sea Demon Whale King] with Meng Wuheng couple, it was a very correct choice.

Although Demon Beast breakthroughs require less of a Spirit Vein than cultivators, they still have certain needs.

Without this Sea Eye, he would have spent much time and effort to find an unclaimed Quasi-Fourth Rank Spirit Vein elsewhere for the Sea Splitting Mysterious Dragon Whale to break through.

"It seems this Sea Eye already won't have any Demon King dare to occupy it."

The speed of the Sea Splitting Mysterious Dragon Whale, which completed its bloodline transformation, became even faster in the sea.

Half a month's time, it traveled from Mengxi Island to the Sea Eye.

However, this Sea Eye might have too many dead Demon Kings and is considered ominous, already no Demon King dares to occupy it.

“Big Black... in its early years crossed the True Spirit Tribulation here, and my husband severed several Third Rank Top Level Demon Kings. The remaining Demon Kings, sensing Big Black’s residual qi mechanism, dare not approach again.”

Hong Lian, in her red regal dress with flowing gold, stood tall and peerless beside Lu Changsheng, with an ethereal glow, like a pair of celestial companions, spoke softly.

Though mentioning the name Big Black, she was still somewhat unaccustomed.

After all, who among normal people would name a Spiritual Pet with True Spirit Bloodline such a name...

“Not having any is good.”

Lu Changsheng laughed slightly, not minding, and gestured to the Sea Splitting Mysterious Dragon Whale, “Go ahead.”

Along the way here, he had calculated about the breakthrough arrangements for the Sea Splitting Mysterious Dragon Whale.

It still showed auspicious signs.

Thus, he was very assured.

And so, two months passed.

“Splash—”

One day, the calm Great Dream Marsh suddenly began to boil.

The seawater seemed to be stirred by an invisible giant hand, forming numerous tiny vortices.

When hundreds of vortices appeared, they seemed infused with immense power, began to rapidly spin and intertwine, forming a deafening roar, as if the sea was suppressing a howl, or as if the ancient beast beneath the sea was murmuring upon waking.

Lu Changsheng’s eyes gleamed with golden brilliance, seeing a startling quasi-fourth rank demon qi spreading from the seabed, absorbing all Spiritual Energy from this realm.

Lu Changsheng knew the Sea Splitting Mysterious Dragon Whale began its advance to Fourth Rank!

“

## **Capítulo 2150: Chapter 711: Kunpeng Demon Technique, Sea Splitting Mysterious Dragon Whale Advances to Stage 4!**

He learned about the Demonic Seven Sects in his early years.

Sects like Immortal Lotus Sect, Blood Sea Sect, Netherworld Ghost Sect have no connection with his “Kunpeng Devouring Heaven Demon God Technique”.

Therefore, among the remaining options of Demonic Sect, Myriad Beasts Demon Sect, Azure Sky Demon Sect, he chose the most famous, the Demonic Sect.

As for whether he could deceive them, that’s another matter.

He felt that given his current situation, he has a certain degree of credibility.

“Demonic Sect!?”

Shi Hai and Wugu Old Demon exchanged glances.

Though the Starry Sky Sea is far from the center of the Southern Wilderness Cultivation Realm, it is not isolated from the world.

As Nascent Soul True Lords, they naturally have heard of one of the top forces of the Southern Wilderness Cultivation Realm, Demonic Sect!

This Lu Quanzhen before them, even within the Demonic Sect, would at least belong to the level of a True Inheritor.

If killed without a thought, it could very well lead to trouble when the Demonic Sect finds out.

“Daoist Wugu, does the Demonic Sect possess the ‘Kunpeng Demon Technique’?”

Shi Hai asked Wugu Old Demon.

“As a top Demonic Sect force in the Southern Wilderness, it is likely to have collected the renowned Kunpeng Demon Technique.”

Wugu Old Demon said with some uncertainty.

After thinking for a while, they then looked at Lu Quanzhen on the side and said, “Since you come from the Demonic Sect, why have you come to Starry Sky Sea?”

“After my Core Formation breakthrough, my master indicated for me to come to the Starry Sky Sea for training, saying there might be opportunities waiting for me. So upon hearing news of Kunpeng Nest appearing, I came to take a look.”

Lu Quanzhen said calmly.

From their expressions, it seemed they believed his words.

No matter what, he must not show any flaws at this time.

“Since so, then it seems you might know about the ‘Kunpeng Demon Technique’ and the Kunpeng Nest.”

Shi Hai looked at Lu Quanzhen and said calmly.

From the situation just now, Lu Quanzhen had already guessed they had turned their focus on him due to his cultivation technique.

He shook his head with a bitter smile and said, “My master didn’t explain in detail, just suggested there might be opportunities for me here. I guessed it might be related to the rumored Kunpeng Nest, but over the years, all found were false messages.”

“Even though the Kunpeng Nest has appeared this time, with my current strength, I can’t enter it and have to wait for my master’s reply.”

Lu Quanzhen said politely, introducing again a mysterious master.

“In that case, let me tell you, the ‘Kunpeng Demon Technique’ you cultivate, was passed down from the Kunpeng Nest three thousand years ago, relating to the core opportunity of a secret realm.”

“However, this technique is extremely difficult to cultivate, going against the natural order. After causing a bloody storm back then, it gradually was lost, leaving only some remnants of the technique.”

“Since you have cultivated and mastered this technique, going into the secret realm might allow you to obtain its core opportunities.”

Shi Hai looked at Lu Quanzhen and said in a calm voice.

Though he didn't show much dominance, Lu Quanzhen felt this person was more terrifying than Wugu Old Demon.

“I dare not covet such opportunity and treasures. If both seniors are interested, I am willing to take a trip with the seniors to enter the secret realm, only that the realm is dangerous...”

Lu Quanzhen knew the two before him had already reached some kind of agreement for cooperation, and expecting them to fight hard was impossible.

Under these circumstances, even pulling on the Demonic Sect and the mysterious master's influence would be useless.

He could only use his value and figure out a way to stay alive from their hands.

“Haha, you are indeed a smart person, with myself and Daoist Wugu here, you can rest assured, when we obtain the opportunity, there will be a share for you too.”

Shi Hai said with a smile, very satisfied with Lu Quanzhen's tactfulness.

The Kunpeng Nest only opens once after thousands of years.

Now there is a chance to touch the core opportunity of the secret realm, and even if it offends the Demonic Sect, it is worth it.

“Young friend, this is a magical treasure [Black Spirit Ring] I refined in my early years, it has the effect of protecting and defending, you can wear it on yourself, just in case.”
